

## Bodyguard 10491

### Chapter 10491

although little bird shen didn't seem to have any ill intentions, that didn't mean she could let her guard down.

who could guarantee that there wasn't a layer of careful disguise behind this?

little shen was also well aware of this, and once again revealed a happy expression, "my queen, your undisguised disdain is indeed much more sincere than the others. thank you for your hospitality."

"....."

if it wasn't for the fact that she had a high chance of not being able to defeat this guy, the queen really wanted to kill him with a knife.

However, Shen Niao's next words caused the Queen to fall into deep thought.

although your boss's formation technique is frighteningly crude, it's not completely useless. At least his formation is very precise.

"How high?" the Queen asked subconsciously.

she had the foundation of formations, so she naturally knew what the other party meant by the precision of formation arrangement.

simply put, every array was set up in a certain area, and all the lines and circuits of the array had a final destination, which was the area where the array was set up.

And even the largest array would definitely have strict control over the size of the array.

This was equivalent to the main body of the array. The more conspicuous the main body was, the higher the possibility of the flaw being found.

Therefore, for a qualified formation master, the ratio of the area of the formation to the area of the formation, or the so-called precision of the formation, had to be at least one in 100000.

in other words, within the 100000 square meter area of the array's protection, the area where the lines and circuits of the array could be placed could not exceed one square meter, or else it would be disqualified.

as for the best among the grandmasters, their accuracy could even reach one in a million!

little bird shen revealed a rare cautious expression."higher than me."

The Queen didn't understand, but she was impressed.

what she didn't know was that shen niao's precision in setting up formations had long since surpassed all formation grandmasters. it was an extremely exaggerated one in ten million.

However, from what he could see, Lin Yi's formation was at least a few times more precise than his, maybe even ten times.

100 million to one!

according to what he and the entire world of formations in the divine kingdoms on land knew, the precision of ten million levels of formations was already the limit of human cultivators. as for the hundred million level, that was the domain of the gods.

however, the scene in front of him had completely subverted his previous understanding.

To a formation master, the precision of the formation was definitely the most basic of the basic skills. It was the foundation for the existence of all profound formation skills.

the reason why those foreign grandmasters were despised by their local peers was, to a large extent, that their basic skills were too poor. not to mention the million level, even the qualified hundred thousand level were few.

This was also a common problem of the vast majority of unorthodox methods.

it was precisely because of the lack of foundation that the upper limit was not high. this kind of virgin technique required years of correct and high-intensity training, and it was not something that could be remedied at a later stage.

On the other hand, Lin Yi's unorthodox basics were enough to beat up the entire formation world of the divine Kingdom on land.

Including little bird Shen and the other local formation grandmasters, at least in this aspect, they could only kneel and look up to him.

"Damn, he's indeed a pervert."

little shen sighed.

The precision of the formation wasn't everything, but the talent Lin Yi had displayed was enough to blind him.

when he first made his debut, he was also a peerless genius who shocked the entire world of formations. saying that it only happened once in a thousand years was already being modest, but compared to lin yi, he felt a little inferior.

not only him, compared to this animal, all the other array masters were trash with mediocre aptitudes.

but he finally understood why lin yi would make such an outrageous choice.

It wasn't that Lin Yi did it right-he had the confidence to set up such a huge formation with the crudest of methods, supported by the exaggeratedly precise formation.

However, he had gone the wrong way.

Just as Shen Niao was hesitating on whether she should have a good talk with Lin Yi, a terrifying energy fluctuation approached Lin Yi at an extreme speed.

Wherever this energy fluctuation passed, the land was filled with a deathly aura, and all life was devoured!

"yellow springs road?"

Shen Niao's brows twitched. She immediately looked into the distance. Indeed, she saw two figures five kilometers away from Hero Academy.

one of them was tall, the other was short, both of them looked extremely ferocious and ugly, with two iconic long red tongues hanging on their chests, which was a shocking sight.

The black and white ghosts.

He was at the final stage of the formation's framework, and all his efforts would go to waste if he stopped.

and if he didn't stop and took the other's fearsome road to the underworld head on, he would die without a doubt.

The pair in front of him was naturally not the soulbringers in myths and legends, but their power came from myths and legends. What they did was exactly the same as the image they played, sending people to hell.

they were the top ten assassins of the divine kingdom on land!

Just the number of half-step Mystic Venerables they sent to the yellow Springs could not be counted on two hands.

If one wasn't a Mystic class venerable, they couldn't take the road to death head-on, or they'd be looking for death. This was common knowledge in the divine Kingdom.

Naturally, Lin Yi could feel the killing intent coming from behind him, but he had no intention of stopping.

at the last moment, a petite figure suddenly appeared behind him.

It was the Queen.

"You want to kill Lin Yi just like that? did you ask me?"

The Queen's hand streaked across the void, and a crack in the endless abyss appeared in front of her. The road to the underworld that was approaching was immediately swallowed up.

At the end of the yellow Springs Road was an endless abyss.

The Queen did not have any eye-catching performance against the evil gods because the evil gods had a closer connection with the endless abyss than she did. Her power was naturally suppressed.

without the evil god, she could use the power of the abyss at will. once she used all her strength, the destructive power was unimaginable.

Right now, he was only showing his extraordinary power occasionally.

In the blink of an eye, the terrifying energy of the road to death was completely devoured.

not only were the black and white impermanences shocked by this scene, but even shen niao, who had been about to attack, was also shocked.

He had been so entranced by the Queen's petite and cute appearance that he had almost forgotten that her petite body also hid a terrifying combat power.

even in the divine kingdom on land, the queen could stand firm against any mystic class venerable with just the endless abyss!

after all, the word 'queen' was not given in vain.

However, it wasn't the Queen's style to just take a beating and not fight back. In the next second, another endless abyss appeared under the feet of the black and white impermanences.

the black and white impermanences were stunned.

As the most famous duo on the assassin ranking list, they had never failed in their attacks over the years.

In the vast majority of cases, the moment the road to the underworld appeared, the target would immediately be on the road, without even a trace of a chance to fight back.

## Chapter 10492

It wasn't that their combined strength had reached the level of invincibility, but that they would carefully choose their targets before each operation.

he had always picked the soft persimmons.

To an ordinary cultivator, this was naturally not a good thing. However, to an assassin who licked the blood on the tip of a blade and did dirty work, this was definitely the most scientific work Creed.

In this aspect, the two of them could definitely be called industry benchmark.

Since they'd chosen Lin Yi, it meant that they'd done a thorough research on Lin Yi and the people around him, and they'd agreed that it wasn't out of their capabilities.

in other words, since they had made a move this time, they were already destined to succeed.

the queen was naturally within their calculations.

It was just that the two of them obviously did not expect that the Queen's ability was much more domineering than what they had previously learned!

As soon as the endless abyss appeared, a huge suction force enveloped them.

The black and white impermanences subconsciously wanted to retreat, but it was too late. The moment the endless abyss appeared under their feet, they were doomed to never be able to escape.

In the blink of an eye, the two of them were completely swallowed by the endless abyss.

In theory, no matter how powerful an expert was, once they fell into the endless abyss, they would completely lose their way.

the endless abyss was not something that could be broken through by brute force alone.

However, before the Queen could breathe a sigh of relief, a road to the underworld appeared in front of her. Then, the black and white impermanences joined forces and broke through the air.

the entire process took less than two seconds.

Although the Queen did not think that the two of them would die in the endless abyss, the speed at which they solved it was still beyond her expectations.

"the road to the underworld is also equivalent to a spatial mark. as long as the road to the underworld has been paved, they can arrive at any place."

little shen niao's voice came at the right time.

the queen suddenly became alert. from this point of view, the black and white impermanence duo's abilities were a natural counter to her.

although her endless abyss could not only be used as a maze, once it could not make people lose their way in it, the effect would naturally be greatly reduced.

at this time, because the other two had appeared too quickly, the queen was somewhat caught off guard.

although he had reacted immediately, his neck, hands, and feet were still bound by two invisible chains.

Soul Reaper hook.

However, before the opponent's next move could reach her, the Queen had decisively wrapped herself in the endless abyss.

As a result, although she still couldn't completely break the restriction of the soul Reaper hook in a short period of time, it wouldn't be easy for the two of them to kill her.

all the damage would be absorbed by the endless abyss.

"Don't bother about her."

Black impermanence wanted to test the waters again, but white impermanence stopped him.

their target this time was lin yi, and as the publicly acknowledged professional killers of the divine kingdom on land, they wouldn't waste their energy on something unrelated.

The Queen's existence was a threat to them, but since she was trapped by the soul Reaper's rope, it was the best chance for them to kill Lin Yi.

after all, they'd studied lin yi's information before.

If they didn't choose this time, it would be extremely difficult for them to get it even with their strength, especially in Lin Yi's territory.

the queen's heart tightened when she saw the two of them pass her.

unfortunately, no matter how much she struggled, the soul reaper hook only became tighter and tighter. the key was that it not only locked her body, but also her primordial spirit.

Even if she could rely on the power of the endless abyss to avoid damage, it was impossible to escape in a short time.

At this moment, no one was guarding Lin Yi.

although madam qing, chen guanqi, and the others were at hero academy, everything happened too suddenly. even if they sensed it, they wouldn't be able to come and block the knife for lin yi so quickly.

Lin Yi himself, on the other hand, was still immersed in the construction of the Super formation, as if he didn't notice the killing intent behind him.

the queen subconsciously turned to little bird shen.

The only thing that could possibly stop the black and white ghosts was this pervert.

However, little bird Shen only stood by and did not seem to have any intention of interfering.

He was different from Chen guanqi. Although he did help Lin Yi a lot, he didn't say that he would join Lin Yi's side because of that.

At this time, it was his duty to help and not help.

after all, the opponents were the top ten assassins on the assassin ranking list. they were no small matter. anyone who went up against them had to think twice. otherwise, it would not be worth it if they were to get themselves killed.

Although the Queen had always been too lazy to care about the ways of the world, she was very clear about this kind of thing.

Even if the other party didn't make a move, she would never blame him.

That was because it did not make sense.

However, after seeing little Shen's current expression, the Queen's hanging heart settled down a little.

she could see the playfulness on little shen's face.

This meant that the situation was not as bad as she had thought, and it was not so one-sided.

as expected, just as the black and white impermanences 'road to the underworld was about to reach lin yi's feet, lin yi suddenly stopped setting up the formation.

It wasn't that he was forced to stop, but that he had stopped on his own accord.

the formation's framework was formed!

lin yi turned to the black and white ghosts and smiled faintly, "On behalf of the newly created great formation of the three courtyards, I would like to welcome you two."

The black and white impermanences' hearts jumped.

At this moment, both of them suddenly had an extremely bad premonition. They even had the urge to turn around and run away.

But it was too late.

The majestic formation that spanned the three Academies had already begun to operate. An incomparably huge formation power immediately locked onto the two of them. Then, the two of them disappeared on the spot.

"void strangulation? not a bad idea."

little bird shen commented from the bottom of her heart.

Although he didn't like Lin Yi's wasteful behavior, he had to admit that many of Lin Yi's seemingly wild designs were actually unconventional and had unexpected magical effects.

Just like the void strangulation in front of him.

The defensive methods chosen between different formations were vastly different. Any qualified formation Grandmaster would find the best solution according to the specific use.

Lin Yi's three-house formation covered a wide area, and its combined power was so great that it ranked among the divine kingdoms on land.

however, it was precisely because the power of the formation was too great that there was a huge restriction on the way the power was released.

if they were to defend themselves on the spot like conventional arrays, it was very likely that the foundation of their own array would be destroyed if there were any accidents during the process.

The void strangulation that Lin Yi chose could avoid this perfectly.

Chapter 10493

Ordinary formations could not reach such a level of power, but his great formation of three courtyards could. Moreover, it just so happened that it had a space transfer formation as a Foundation, so it was not difficult to achieve.

the whole process was not as simple as forcefully transporting the target to another academy, then using the power of the formation to break through the transmission channel in the process, throwing the target into the void, and then carrying out an all-round attack to kill it.

of course, this idea was easy to say, but to actually make it land on the ground, the difficulty of the operation was extraordinarily high.

Lin Yi used the crudest of methods to set up the formation, and yet he was able to achieve such a high-end function. Just this alone was enough to make little bird Shen admire him.

however, shen niao immediately declined to comment, " " i have some understanding of the black and white impermanences. both of them were array masters in their early years. besides the black and white impermanences, they have another name that you might not have heard of. "

"What's his name?"

It was the Queen who replied. In just a moment, she had already broken free from the soul Reaper hook.

if this scene were to spread, it would probably shock many people.

"a formation killer," shen niao replied.

lin yi nodded. " since they're formation masters, it's naturally easier for them to grasp the weaknesses of formations. their ability to break formations is probably first class. "

that's right. That's why your void strangulation won't be very effective against the two of them.

Little bird Shen made this judgment, and at the same time, it was a reminder.

With the huge Foundation of the three courtyards formation, all the power of the formation could be released in the void without any restraint. If they couldn't find a solution, even a half-step Mystic venerable would most likely die inside.

However, against the black and white impermanences, they were naturally immune to ordinary arrays.

even the effects of the so-called super array would be greatly reduced when it landed on them.

the possibility of the three courtyards 'great formation successfully strangling the two of them in the void was almost zero.

Lin Yi, however, didn't mind at all. He smiled. "We'll see."

"....."

Xiaoxiao frowned, her evaluation of Lin Yi lowering by a few degrees.

any array master would more or less have a protective mentality towards their own work, and would subconsciously reject those negative comments. this was human nature.

however, if he were to deceive his own perception and cause a serious misjudgment of the actual effect of his formation, then that should not be the case.

Of course, with the relationship between the two, he would not say anything. He just continued to watch coldly.

However, after a full 30 minutes, the expected scene of the black and white ghosts breaking through the air did not appear.

Little Shen bird couldn't help but reveal a look of surprise.

At his level, he knew the weakness of Lin Yi's three courtyards formation, and so did the two formation killers.

the great formation of the three courtyards was powerful, but only the most basic framework had been built. it was far from the point where it could be specifically strengthened to deal with its weaknesses.

with the black and white impermanences 'famous ability to break formations, even if they couldn't break it with a single poke, they definitely wouldn't be trapped for long.

Half an hour was the limit of little bird Shen's estimation.

However, there was no movement.

another half an hour passed, and there was still no movement.

this time, deep bird really couldn't hold it in anymore-it wasn't that he wanted to see lin yi make a fool of himself, but everything that happened just now had completely overturned his understanding of lin yi.

As one of the few grandmasters of formations in the divine Kingdom on land, how could he have made a mistake in this matter?

Could it be that he had overestimated the black and white impermanences, this pair of array killers?

Shen Niao finally couldn't hold it in any longer. She stretched out her hand and drew two lines in the air. Her spiritual sense immediately passed through the formation in an ingenious manner, and deeply observed the void where the power of the formation was projected.

lin yi didn't stop him.

however, through the other party's actions, he had basically verified his suspicions about the other party's identity.

even though he had observed the entire process of his formation, to be able to penetrate the formation so easily was not something that any formation master could do.

The other party's identity as a formation Grandmaster was obvious.

However, any formation Grandmaster was an important figure that could not be underestimated.

not to mention anything else, just the professional title of array master was already comparable to the headquarters 'alliance executive. and it was not an ordinary alliance executive.

even the forces behind the nine big shots would treat such a person as a guest of honor.

The value of a formation master was not something that other high-level combat forces could compare to. In some cases, it was even enough to display the power of the nine big shots!

However, such a formation Grandmaster had hidden his identity and appeared in the hero Academy. He had even taken the initiative to help. His true identity and purpose in coming were rather intriguing.

at this moment, little bird shen had already seen the situation in the sky.

Then, he was dumbfounded.

The black and white impermanences were not as calm as he had expected. Instead, they were in a sorry state. Both of them were covered in wounds. The black impermanences, who was more seriously injured, looked like he was about to die!

"What's the situation?"

shen niao carefully observed the two's strategy. there were no problems, and they had completely targeted the weakness of this formation.

however, the situation was still terrible.

as for the power of the three courtyards formation, even though it was far beyond the formations of ordinary academies, it did not exceed little bird shen's expectations.

With the black and white impermanences 'strength, they should be able to deal with it, right?

However, the development of the situation had subverted his perception.

However, little Shen was not a stubborn old man. Of all the formation grandmasters, he was the youngest.

in the face of such a situation that was completely beyond his understanding, he would not be like other people who would shout that it was unscientific and then retreat back to their comfort zone, refusing to accept the subversive facts.

After realizing that she'd made a huge mistake, little bird Shen quickly adjusted her mindset and re-examined Lin Yi's three-courtyard formation.

The whole idea was clear, and there was nothing that was beyond his existing knowledge.

if one had to describe it, it was lin yi's terrifyingly high level of precision in setting up formations, as well as his extremely rough and cumbersome primary school student formation skills.

Wait a minute!

Looking at the black and white impermanences that were still struggling to break the formation, little bird Shen finally realized what the problem was!

the essence of breaking a formation was to reverse-engineer the formation.

If he wanted to break the formation from its roots, he had to master the entire formation.

There had always been a saying in the world of formations that only those who knew how to set up formations would be able to break them.

#### Chapter 10494

the other people who came to break the array after mastering a certain array eye were all little cuties with lead in their brains. as long as it was a high-level array of a certain level, it would not leave any obvious array eye.

Even if there was a formation eye, it could change at any time. If he really thought that he could break the formation easily by knowing the formation eye, he would die even if he had a hundred lives.

Since the black and white impermanences were known as array killers, they were naturally not this kind of silly little cutie.

their method of breaking the formation was the most kingly way of reverse-engineering the formation!

There was nothing wrong with this, but the problem was that the two of them were too skilled in arrays, and they instinctively used all sorts of advanced techniques.

these techniques were only useful against high-level formations, and against lin yi's primary school level techniques, it was like a battle of wits with air-it was completely useless!

To reverse-engineer Lin Yi's formation didn't require any high-level techniques-any formation master with a solid foundation would be able to do it bit by bit after grasping the main idea.

In terms of difficulty, it was really hard to say.

but to say that there was no difficulty, it was greater than the heavens. even shen niao, a formation great grandmaster, would be helpless.

this was because lin yi had relied on his cheat-like skill to set up a formation with a huge calculation. it wasn't difficult in itself, but the terrifying calculations would make anyone's scalp go numb.

if one wanted to reverse-deduce and break the formation, one didn't have to calculate every step, but no matter how correct one's train of thought was, one would have to calculate at least 10% of the total.

even shen niao would need at least three days and three nights to complete 10% of the calculations.

After such a long time, they would have already been killed thoroughly.

"the simpler and more brutal things are, the more difficult it is to solve. i've finally learned it this time."

Xiaoxiao retracted her spirit sense and spoke to Lin Yi sincerely, "I apologize for my shallow behavior just now. There's always someone better. I was too narrow-minded."

the queen was surprised.

even though she sincerely believed that he was an incurable pervert, she had to admit that he did have unfathomable abilities and a deeply hidden arrogance.

This was not strange. People with ability were all conceited, but they would not show it so superficially.

she seriously suspected that even if shen niao were to face an existence on the level of the nine giants, it would not change the conceit in the depths of his heart.

Yet he was bowing down to Lin Yi in front of him?

lin yi wasn't too surprised by this-the act of lowering her head and apologizing was a sign of her pride.

To be more accurate, little Shen's pride did not allow him to become a self-complacent waste. His pride did not lie in his outward appearance, but in the persistence in the depths of his heart.

"brother shen's words are too serious. your guidance has also benefited me greatly and broadened my horizons."

lin yi returned the gesture.

Before this, even if little bird didn't scoff at Lin Yi's "brother Shen," she wouldn't have given a positive response.

Even though he didn't put on any airs in front of the Queen and was a pure pervert, he was still an out-and-out formation master.

Usually, the people he interacted with were all top-notch figures, all of whom were great scholars who talked and laughed, and there were no commoners.

Ordinary people were not qualified to call him brother. Even those high-ranking Alliance executive officers had to respectfully call him a great Grandmaster when they met.

lin yi might be the most popular guy in the world right now, having taken over three schools in one go. he'd completely crushed the new generation of the divine kingdom.

However, he didn't have the right to be on the same level as a formation master!

But now, she completely acknowledged Lin Yi's strength.

it wasn't the strength to fight and kill, but the strength to be on equal footing with him in the dao of formations.

Even if Lin Yi's formation skills were still at the level of an elementary school student, she understood that it wasn't that he couldn't use higher level skills, but that he'd made this choice on purpose!

It was no exaggeration to say that the appearance of the three courtyards 'great array would cause an unprecedented huge impact on the entire local array world.

lin yi had created a whole new school of formations with his own power.

Using the simplest and most elementary techniques to create the most violent and unsolvable formation!

Shen Xiaoxiao believed that it wouldn't be long before more and more people knew about the three courtyards great array. The entire local array world would definitely be shaken by it.

how to crack the three courtyards 'great array would become the most important topic in the entire array world!

following that, more and more formation masters joined lin yi's ranks, bringing this new school of formation to new heights.

one had to know that those complex and profound formation skills had always been the core threshold that limited the spread of formation skills on a large scale.

The reason why the vast majority of formation Masters were unable to advance further was because, with their talent, they were unable to fully comprehend these profound formation techniques.

the appearance of the three courtyards 'great formation had pointed out another path for them. it was a brand-new path that did not require them to master profound techniques, but could still create a top-tier formation!

compared to the mainstream path in today's world of arrays, the threshold of this path was simply too low. basically, anyone with a little bit of general knowledge about arrays could try it.

Without a doubt, this would be an unprecedented boost to the popularization of formations.

"with this formation concept of yours, it's enough to establish a sect. in the future, your disciples will be spread all over the world. although it's easy to learn but hard to master, for the current half-dead formation world, your contribution will not be great!" shen niao said seriously.

lin yi's philosophy seemed to have a very low threshold, but the threshold was actually within.

without historical level formation precision as support, and insane level of basic calculation ability, even if one had learned the basics, it was impossible to reach lin yi's level.

However, the flaws still did not obscure the benefits.

the local formation world was like a pool of stagnant water. not only were the formation masters at the top facing a gap, but even the fresh blood at the bottom was getting less and less, showing signs of decline.

At this rate, the formation world would be completely marginalized by the mainstream forces, and this was an almost unstoppable trend.

Lin Yi's appearance gave Shen Niao hope.

it was also because of this that he was so excited that he couldn't care less about talking to a stranger!

Lin Yi, on the other hand, wasn't as excited. "brother shen is too kind. this is just a trial i made on a whim. as for establishing a sect or whatever, i really didn't think that far."

"your sudden impulse has an extraordinary meaning to the entire world of formations," shen niao said anxiously.

Unfortunately, Lin Yi didn't say anything.

## Chapter 10495

To be honest, Lin Yi really didn't care what the formations world on land was like.

shen niao immediately reacted and changed the topic, " "brother lin, now that your jianghai academy has taken down three of the great academies, coupled with your own reputation, it's inevitable that you'll become the target of public criticism. have you ever thought about how you're going to establish yourself?"

"we have the three major academies," the queen said. "isn't it enough for us to stand on our own?"

"under normal circumstances, it would be enough. however, not only xi rulai, even the number one kong shenglin wants to use brother lin as an example. it's hard to say."

he has the most powerful faction under his command. Once he gets serious, it'll be no small matter. Brother Lin, you need to find a strong enough backer, "Shen Niao said seriously.

"You seem to be implying something," Lin Yi blinked.

Shen Niao shook her head. I'm not talking about that person. That person will indeed stand on your side, but even if they are on the same side, that person still has his own family. There are some things that even with that person's courage, he can't do as he wishes.

when the time comes, if that person really has a reason to give up on you, brother Lin, have you thought about what you should do? "

The atmosphere turned heavy.

this situation was not impossible. on the contrary, it was very likely to happen.

lin yi knew that this was a natural ally of his after getting some core information from jiang xiaoshang.

This point was also clear from the various reactions of the other party.

The two sides had worked together several times, showing enough tacit understanding.

but that didn't mean lin yi could leave his back to the enemy.

it was just as little bird said-even if the other party had a firm stand, if a fatal conflict were to occur, they'd still choose to protect their family's interests rather than lin yi, who was their natural ally.

humans were social animals.

no matter how high a practitioner's level was, they couldn't completely put aside their family and lin yi was still an outsider.

without the support of that big shot, lin yi and jianghai college alone would be hard pressed to withstand the pressure from kong shenglin's faction.

Just the thought of such a situation was enough to make one despair.

"We, the formation world, do not have a stand," Shen xiaonao continued,"but if brother Lin can carry the banner of the world's revolution, then you will be our stand."

After a short pause, Shen Niao spoke in a calm yet bewitching tone, " " although we don't speak out collectively, once we do, i think even the strongest faction of the supreme board of directors will have to think twice. "

"....."

lin yi was speechless for a moment before smiling helplessly."brother chen, you're good at scaring people, and you're good at drawing big promises."

indeed, little bird shen's outline of the future was very beautiful.

if he could get the full support of the local formation world, he believed that he'd be able to stand firm in this kingdom even without the support of that top-tier master.

However, it was just a flatbread.

Even if little Shen was willing to stand on Lin Yi's side out of personal admiration, he was only a formation master. Who could guarantee that the other formation Masters would support him as well?

Lin Yi's three-yard formation was amazing, but it was too much to say that he could take over the entire formation world with just one formation.

Little Niao Shen laughed. people always have dreams. Who knows when they'll come true? " in fact, we are a group of people who play with formations, and each one is more simple than the other. as long as you can bring out real things, it's not difficult to make friends with you."

Lin Yi said, deep in thought.

while the two of them were talking, the black and white impermanences, who had been thrown into the void, had been beaten so badly that they almost didn't look human anymore.

at this time, the two of them had already reacted. with their abilities, it was impossible to crack it normally.

if he wanted to live, he could only take a gamble and take an unconventional path.

boom!

After a huge tremor, a white figure reappeared in front of everyone. It was the White impermanence.

as for his companion, black impermanence, he had already disappeared without a trace.

"he actually sacrificed his companion by force? you're ruthless."

lin yi asked, surprised.

It wasn't a normal attack to break the formation. The other party had used black impermanence as a guide to forcibly attract the power of a certain God. It had exceeded the upper limit of the power that the three-yard formation could bear in a short time, so it could finally reappear in the world.

however, the price to pay for this method was too high. it required a powerful combat force like black impermanence. it was not something that could be used whenever he wanted to.

However, what surprised Lin Yi was the man's ruthlessness.

One had to know that the black and white wuchangs were not a temporary combination, but real brothers from the same mother.

In order to protect himself, white impermanence decisively sold out his own brother, which really made people's scalps numb.

It wasn't easy for him to escape alive, and he didn't even want to take revenge for his brother. He didn't even look at Lin Yi and ran away.

some professional killers would put their target first, but he obviously didn't.

as long as the green hills are there, there is hope.

As long as he could escape alive today, he would have a chance to get back at them in the future. If he couldn't even escape today, then he would have nothing left.

However, the Queen and Madam Qing, who had rushed over after hearing the news, were prepared for this. They immediately attacked together.

the enemy had already come to kill them. if they let them leave alive, lin yi and the jianghai college would become the laughingstock of the entire divine kingdom.

However, in the face of the two's attacks, white impermanence directly opened a path with the road to the underworld.

From the beginning to the end, he didn't make any attempts to get entangled, and only thought of escaping.

although the queen and madam qing's joint attack had caused him some injuries again, he had still managed to make a way out.

"This man is so strong!"

The rest of the people present couldn't help but sigh.

if they weren't caught in the three courtyards formation, it would be hard to deal with this man and black impermanence with pure strength, even with lin yi there.

fortunately, these two chose a good time to walk into the trap. otherwise, the black and white ghosts would've targeted them, and even lin yi would've been in trouble.

this could be considered as being too smart for his own good.

Chapter 10496

any other formation master would've died a lot faster if they ran into these formation killers, but they'd chosen lin yi.

In the blink of an eye, white impermanence had left the range of everyone's divine sense.

The Queen and Madam Qing frowned at the same time.

With the strength he'd displayed, if he were to Get Away Today, it wouldn't just be a matter of being laughed at-this person's existence would be a huge threat to the entire Lin Yi group.

Lin Yi, naturally, wouldn't do something as stupid as letting a Tiger return to its mountain.

"i'll do it," shen niao suddenly said.

as he spoke, his hands suddenly turned into a phantom. although there were no energy fluctuations, it was still impressive to everyone present.

Only Lin Yi noticed something, and couldn't help but be surprised.

The other party was actually setting up a formation in the air.

in just a breath's time, the sky in the distance suddenly sank as if it had collapsed, forming a solid cloud layer that pressed down. it covered an area of several hundred miles!

A tiny human figure descended from the sky, and was firmly pressed into the ground by the clouds.

Everyone was dumbfounded by the shocking scene in front of them.

Even the Queen's gaze towards little Shen bird was filled with disgust and a bit of shock.

was such a terrifying technique that seemed to have stolen the fortune of the heavens and earth really the work of this abnormal person?

all along, although array masters had a high status, there was a clear consensus among the top and bottom ranks.

array masters were purely technical talents. even the strongest array grandmaster, or even a great array grandmaster, did not have any actual combat ability.

After all, their specializations were not suitable.

All the techniques of an array master were based on the array. Once they were out of the array, they were not even as good as ordinary cultivators.

for things like formations, as long as they were slightly more powerful, they would be inseparable from all kinds of exquisite and cumbersome formations, which could easily take days or even months. if they really relied on it for actual combat at the last minute, it would have long been too late.

it was also because of this that the profession of talisman master came into being.

Other than defense, talismans were the only other method of using a formation for actual combat. This was something that everyone had long since come to a consensus on.

it was the same for the divine kingdom on land and the borders of jianghai city.

However, this move by the small bird had completely overturned everyone's understanding.

the formation in the air could change the weather and suppress a powerful being like white impermanence. if they hadn't seen it with their own eyes, they wouldn't have believed it.

among the crowd, the one who felt it the most was the queen.

Fortunately, she didn't attack this guy before. Otherwise, if he really got serious, she wouldn't end up much better than white impermanence.

Of course, with little bird Shen's perverted nature, if she were the one doing it, there was a high chance that she wouldn't resist. On the contrary, she would even feel very good and ask her to use a little more force.

the queen couldn't help but want to stab someone just by thinking about such an unbearable scene.

"it's a little trick i came up with when i was bored. i can teach you if you're interested," shen xiaoniao said.

"Little tricks, Yingluo."

Everyone was speechless. Did this person have some strange misunderstanding of the words 'little tricks'?

at this moment, shen niao's eyelids twitched as she furrowed her brows, "tongue-breaking for survival? where did this guy get such a strong will to live?"

Everyone was confused.

looking in the direction little bird shen was looking at, he carefully explored for a moment before finally finding a blurry figure at the edge of the cloud layer.

it was white impermanence.

this guy was actually still alive. however, compared to just now, his iconic long tongue had been cut off at the root, and the aura on his body had also become much more dispirited.

"that guy is simply an unkillable cockroach."

the queen couldn't help but be speechless.

first, he sacrificed his brother, the black impermanence, to break the array. now, he cut off his tongue to save his life. the white impermanence's stubbornness was rare.

Seeing the other party's figure disappear again, everyone couldn't help but become anxious and immediately gave chase.

however, not only was the other party extremely fast, but he was also extremely good at hiding. in terms of escaping ability, he was definitely first-class. even if they wanted to catch up, they could not.

little niao shen frowned. since he had already made his move, he would not give up halfway.

otherwise, if word got out, even he, a grandmaster of formations, would lose face.

But just as she was about to display her skill again, Lin Yi's hands had already turned into a blur.

was he learning and selling on the spot?

Shen Niao finally reacted, and she didn't know whether to laugh or cry.

Setting up a formation in the void was indeed not a big deal in his eyes, but it was not something that anyone could learn if they wanted to.

It wasn't that he looked down on Lin Yi's learning ability-with the talent Lin Yi had displayed, he believed that it wouldn't be hard for him to learn how to set up formations in the air.

But even with his personal guidance, Lin Yi would still need at least a year and a half to use it in actual combat.

for supreme realm cultivators, it was already considered extremely fast to learn a new technique in a year and a half. if it were anyone else, it would be normal for them to go into closed-door cultivation for decades or even centuries.

lin yi's "learning and applying" was obviously too much of a joke.

however, before little shen could say anything, a powerful array fluctuation from afar made his heart jump.

a layer of clouds several dozen li in radius immediately came pressing down. although the area covered was much smaller than little bird shen's attack, the clouds were much darker and thicker. when they completely came down, it was like a huge black coffin.

Even the Queen and the others couldn't help but feel fear when they saw this.

They had a strong feeling that the black coffin in front of them was even more dangerous than the clouds earlier. If they accidentally fell in, even they would not be able to come out alive.

"you even made some improvements?"

little shen was completely stunned this time. just like everyone else, she looked at lin yi as if he was a monster.

it'd be shocking enough if someone learned and practiced a formation of this level on the spot for a whole year, but lin yi didn't just learn and practice it on the spot-he even modified it.

other than the inferior coverage, the black coffin in front of him had already surpassed his original version in all other aspects.

Even though little bird Shen didn't like to be stuck in a rut and had always had an open attitude towards learning, this time, she was also deeply shocked.

He'd spent a lot of time and effort on this back then, and now Lin Yi had learned it all in the blink of an eye. He even had to accept the cruel reality that his original was outdated.

## Chapter 10497

the difference between humans was truly greater than that between humans and dogs.

These words were originally used to describe him, but now, he had become a supporting role in this sentence. It really made people not know what to say.

after feeling the white impermanence's aura disappear from this world, lin yi put away the black coffin and thanked shen xiaoxiao.

"Many thanks for brother Shen's guidance. Your profound use of the power of formations is truly something I have never seen before in my life. It's truly an eye-opener."

lin yi said gratefully.

if not for the other party's demonstration, he would never have thought that an array could be used in such a way.

In fact, there was an essential difference between a void array and a real array. The latter's power source was the spiritual Qi medium represented by spirit Jade, while the former mobilized the power of the caster.

in theory, the power of nature, including rule force, that could be mobilized at the level of the supreme realm was unlimited.

However, there was a limit to the amount of energy that could be used in an instant. In actual combat, the key to victory was the instantaneous burst of energy.

The higher a Supreme realm cultivator's cultivation level, the more powerful their instantaneous outburst would be, and in turn, it would form a crushing force on the lower-level cultivators.

in fact, the most fundamental value of the existence of a great technique was to enhance the instantaneous burst of strength on the basis of existing strength!

Those so-called killer moves and forbidden moves, under the condition of paying a certain price, could achieve an instantaneous burst of power that was several times or even tens of times greater than the original.

And today, with the help of the void formation, Lin Yi could also achieve an instant burst of the same strength, or even higher. The biggest advantage was that he didn't have to pay any irreversible price.

if one had to say it, there was only one weakness in a void formation.

Compared to the other moves, it took a longer time to cast.

both shen niao and lin yi only took a few seconds to set up the formation, but in a high-intensity battle, they'd be sitting ducks.

therefore, unless one could create a stable output environment on their own, under normal circumstances, a void array formation was not suitable for a one-on-one battle.

however, as long as enough space was created, the output of the void formation was enough to crush all other moves.

even lin yi's self-destructing techniques couldn't compare to this.

this wasn't just a difference in quantity, it was a suppression that was close to dimensional.

compared to the moves released by the human body, a formation in the air borrowed the form of a formation technique, and a formation technique was the most suitable method to increase the instantaneous explosive power.

Mastering spatial formations was a perfect supplement to Lin Yi's strength system.

before this, lin yi's fighting style was more towards close combat, and his big moves were more suitable for this fast-paced, violent mode.

Once the distance was increased, Lin Yi wouldn't be completely helpless, but the threat he posed would be greatly reduced.

Now, this shortcoming had been made up for.

although lin yi's strength didn't break through today, his personal combat strength had welcomed another surge.

if his potential enemies knew about this, they wouldn't be able to sleep at night. after all, even the strength lin yi had shown before was already a problem.

The death of the black and white impermanence duo proved this point with their lives.

little bird shen looked at lin yi, and while she was still in shock, she was even more certain of one thing.

if the formation world wanted to rise again, they couldn't miss lin yi. otherwise, it wouldn't be lin yi's personal loss, but the entire formation world's loss!

" the black and white impermanences are just the beginning. since the other party has made a move, they won't give up until they achieve their goal. they will only continue to increase the number of attacks. "

the black and white ghosts are only ranked tenth on the assassin ranking list, " Shen Niao reminded him seriously. compared to the others, it's only an easy difficulty.

the guys on the assassin ranking list were all more brutal and difficult to deal with than the last.

Lin Yi was already prepared for this. The black and white ghosts were only an appetizer.

to put it another way, just like how the west rulai group controlled the intelligence world behind the scenes, the biggest behind-the-scenes financial backer of the assassin organization was the strongest faction of the supreme board.

Even though Kong shenglin and the other members of the strongest faction denied it, they were still in a state of disbelief.

however, every time the top ten assassins were dispatched, they were all targeting their opponents. this in itself was enough to explain the problem.

Now that Lin Yi had become a thorn in their side, and they'd even bypassed the Supreme Board of Directors on their own accord, this killer organization was the perfect black glove for them to use against Lin Yi.

lin yi looked at little bird, "it's a headache to be targeted by those guys. what do you think, brother shen?"

"if you join the array master association, i can find a few other array masters to endorse you. by then, even the assassin association will have to be wary of you," shen niao said bluntly.

the assassin association, like the array master association, was an official organization recognized by their respective industries.

at least in name, they were on the same level as the alliance of divine academies.

although they did not have direct leadership over the various organizations in their respective industries, they each had great power because they had a large number of resources in their hands.

Because of this, even the highest Board of Directors of the Alliance couldn't directly touch these two fields, and could only exert influence as the financial backer behind the scenes.

if they could force the association of assassins to lower their heads, even the strongest faction represented by kong shenglin would not be able to mobilize the top forces in the world of assassins easily.

For the top assassins, the existence of the assassin Association was the most important soil for their survival.

as for kong shenglin, no matter how powerful he was, he couldn't do anything to them.

in the end, assassins were different from ordinary cultivators. they were powerful but almost never exposed themselves to the light.

if they wanted to hide, even kong shenglin's strongest faction would find it difficult to dig them out.

the only way to restrict them was to start from the assassin association.

and the assassin association happened to have many cooperation projects with the array association. to be precise, they had a request from the array association.

After all, the arrays in this world were like the infrastructure of the secular world. Any large force that wanted to develop could not do without all kinds of auxiliary arrays.

this was where the authority of the array formation association came from.

however, the prospects that little bird described were good, and lin yi was only slightly moved.

in the face of the current complicated situation, it would be a little cutie to pin all his hopes on the array association, who didn't even know where the door was.

## Chapter 10498

To forge iron, one needed to be hard.

Seeing that Lin Yi was interested, Xiaoxiao quickly continued, "It's true that you can't put all your eggs in one basket, but having one more basket is not a loss for you. In addition, although the framework of your three courtyards great array has been set up, in terms of the workload, the following details are the real work."

"brother shen, do you have a way?"

lin yi's eyes lit up.

Just as the other party had said, he was also worried about this matter.

there weren't many technical problems with the formation anymore-after all, lin yi had already completed the most important core part, but the rest of the work added up was at least ten times more than before!

This was still the most optimistic estimate. If he took into account the various details, he would have to double the foundation of ten times.

Facing such a huge amount of work, even with Lin Yi's clone army, he still felt a headache.

lin yi wasn't the type of person who was afraid of complicated things-if he had time, he wouldn't mind spending time on it. after all, it was a type of training.

But the problem was, how could the current situation allow him to kill time so leisurely?

if he really spent a lot of energy on this, by the time he finished polishing the great formation of the three courtyards, the whole situation might have collapsed long ago.

shen niao smiled. " the formation association doesn't have many other things, but they have as many formation masters as you want. even though their standards aren't as high as yours, their foundations are there. if it's just filling in the details, they'll be able to do it with ease. "

"so you're saying that you're going to recruit from the formation master association?" lin yi frowned.

This idea wasn't completely impossible. It was nothing more than recruiting a group of temporary array Masters.

In any case, it did not involve the core of the array. As long as the subsequent inspection was more strict, he was not afraid of this group of people ruining things.

However, the problem was that array Masters were considered high-end talents no matter where they were placed, especially in this divine Kingdom on land. The price level was high to begin with. If they

were to recruit a large number of array Masters as temporary workers, the cost would definitely not be a small figure.

He'd just taken over three schools, and he wasn't short on funds.

however, there were many things to be done now, and there were many places where money was needed. once the seemingly considerable funds were burned, they would not last long.

shen niao saw through his concerns and smiled as she blinked her eyes, brother Lin, as long as you submit the unprecedented concept of the three courtyards great array, I can use the Association's name to organize an on-site observation group. By then, there will naturally be a large number of array Masters who will work for you for free.

"....."

"sure enough, it's easier to get things done with help." lin yi chuckled, "i'll be counting on you to do me a favor then."

shen niao was in a good mood. " you're too kind. it's all because of your selfless contribution, brother lin. you've provided everyone with an opportunity to learn and interact. "

the two of them had a tacit understanding and smiled at each other.

the queen was speechless at this scene. she said to madam qing, " "they're already doing the world a favor by not going into politics and harming the people."

Madam Qing smiled but didn't say anything.

lin yi didn't waste any more time after he finished with the arrangements. he followed shen xiaoxiao to the local branch of the formation master association.

Just like what the other party had said, even if they couldn't pin all their hopes on the array Master Association, they had the full support of little bird Shen, a Grandmaster of arrays. It would be a pity if they let go of such a free helping hand.

In any case, he was just going through the process of becoming a member of the array Master Association. It wouldn't take much effort.

When they arrived at the branch reception, Shen Xiaoxiao threw out an orange card.

The branch manager in charge of the reception was shocked. An orange card was the highest grade identity card in the array Master Association. Only a few publicly acknowledged array Masters could have one.

In the array Master Association, every array master was a transcendent existence comparable to the seven big shots.

even if the branch had an extraordinary background and had a certain amount of authority in the array master association, everyone was still shocked by the arrival of such a person!

"may i know if you are yingluo?"

the branch manager hurriedly stood up to welcome him, secretly sizing up little bird shen's appearance.

However, little Shen did not match the Grandmaster of formations in his memory. He had been to the headquarters more than a hundred times, but he had never seen this face before. He could not help but feel a little suspicious.

However, he didn't dare to show any rudeness on his face.

The array Master Association had many hidden talents. Even he didn't dare to say that he had met all the array Masters. Some of them lived in seclusion, and outsiders couldn't easily meet them.

especially the legendary array grandmaster, who had just risen to power. he was so elusive that even the people stationed at the headquarters of the association had only seen him a few times.

Could the person in front of him be the legendary array master?

"you don't need to know who i am. just use my card to help the person next to me join the association. remember, just get a gold card."

shen niao didn't introduce herself and went straight to the point.

it wasn't that he was deliberately putting on airs. it was just that he had given himself a rather different name on a whim back then. now that he had used it too much, it was really a little embarrassing to call himself that.

if it were someone else using his name, it would basically be no different from a social death.

fortunately, he was a pervert, and his tolerance in this aspect far exceeded that of ordinary people. but even so, he still felt ashamed.

"gold card?"

the branch manager paused again, subconsciously sizing lin yi up, his face troubled. the Gold Card is the highest level of membership below the orange card. Only a certified array master can hold it. Only the Association headquarters can issue it. The local branches don't have such authority.

"The other branches don't have it, but you definitely have it here."

Shen Niao didn't want to waste time with him and directly said, "Don't waste your time talking nonsense with me. Just use my identity card to do it. Whether I have the authority or not, the internal system of the Association will identify it."

the branch manager didn't dare to dawdle and could only do as he was told.

After all, the deterrence of an orange card identity was there. If the other party was really an array Grandmaster and if he did not entertain them well today, he could forget about being the branch manager.

however, when he inserted little bird shen's orange card into the association's internal system, there was no movement at all.

the branch manager was stunned for a moment. he tried again and again a few times, but there was still no response. when he tried using another identity card, everything was normal.

"I'm sorry, your ID card can not be identified."

The scene fell into a strange silence.

everyone in the branch focused their gazes on little bird shen, their eyes filled with amusement.

Chapter 10499

The ID card could not be identified. This was a nice way of putting it. To put it more directly, this was a fake ID card!

everyone was whispering.

"i knew it. there are only a few orange cards in the entire association. it's hard to even see them at the headquarters. why would they suddenly appear in a branch like ours?"

when he asked for a Gold Card just now, I already felt that there was a problem.

"there are too many scammers these days. however, they're really bold to come to our array association and cheat us!"

"i think there's something wrong with this cheater's brain. look at his image. would he believe it if he said he was a grandmaster of arrays?"

From the way they spoke, little bird and Lin Yi had become a scammer duo, the kind with low IQs at that.

Lin Yi couldn't help but look at little bird.

He didn't doubt the other party's identity as a Grandmaster of formations. Just the fact that he could set up a formation in the void was already the most powerful card. However, the interlude in front of him was still somewhat surprising.

an identity card was so important, especially a grandmaster's identity card of the highest level. it shouldn't be that easy for something to go wrong.

if this was a system malfunction, it would be too much of a coincidence.

little niao shen furrowed his brows and ignored the discussions of the crowd. he casually threw out a gold card. then you can use this to register first. Also, inform your branch president that I want to see him.

The crowd's discussion and ridicule became even louder.

a fake orange card had just been identified. not only did this person not run away with his tail between his legs, but he also dared to take out a gold card. did he really think that our branch was made of clay?

you're such a blatant liar, and you don't even have a temper?

One must know that the array formation Association had always been very strict in cracking down on fake array Masters. If they encountered a swindler who delivered himself to their door, even if they were to be killed on the spot, the array formation Association headquarters would stand up and vouch for them.

The reason why the branch manager didn't react just now was purely because he was scared by the orange card and didn't react in time.

"your excellency, you're such a pixiu."

The branch manager frowned. He had never seen an orange card before, but he had seen the Gold Card that the other party had thrown at him. From his experience, he could tell that it was a real card.

but rationally, he didn't think so.

"Whether it's true or not, won't you know if you use the internal system to verify it?"

xiaoxiao said casually before turning to lin yi."I was bored in the past, so I used other identities to create a few disguises. They're quite useful sometimes."

lin yi nodded-he'd done similar things a lot before, and a fake identity was a good thing.

The branch manager was a little uncertain.

Strictly speaking, his response just now was already somewhat negligent.

if he continued to follow the other party's pace and made another mistake, he would be reprimanded even if he could still hold the position of branch manager.

at this moment, a clear girl's voice came from inside, "brush it up for him, we'll know if it's real or fake at a glance."

lin yi looked towards the voice-it was a pretty girl, about fifteen or sixteen years old.

A practitioner's age couldn't be judged solely by their looks-the Queen had lived for at least a few thousand years, after all, and looked like a ten-year-old girl. But Lin Yi was good at judging people, and he could still tell their age.

The girl still looked a little childish, but the bearing she showed in her words and actions was quite graceful and generous.

the girl wasn't scared at all as lin yi and lin yi looked at her. she only nodded.

Even Lin Yi couldn't help but praise the lady's style.

"second miss."

The branch manager and the other branch members hurriedly greeted him.

Shen xiaodao's gold Card had been placed into the Association's internal system, and this time, it had indeed passed the verification.

The branch manager looked at little bird Shen with a surprised expression. After confirming that she was the owner of the identity card, he heaved a sigh of relief. " grandmaster shen, there is no problem with your identity. you are indeed the holder of this card that has been confirmed by the headquarters. please forgive us for not being able to host you well. "

even if he wasn't a grandmaster, the status of a grandmaster was enough for their branch to treat him seriously.

although there were more formation masters than grandmasters, there were only a few hundred of them. in the vast god nation on land, they were still an absolutely rare species.

Some branches could not even gather a single formation Grandmaster, which showed how precious they were.

of course, the branch in front of him was a little special. not only was the president a formation master, but he also had the support of a formation master behind the scenes.

Shen Niao waved her hand dismissively, "Report that I want to see your branch president."

with his formation master status, he could get lin yi a gold membership without going through anyone.

However, now that the orange card had lost its effect, he could only go through private channels.

after all, he'd lose face if he only made lin yi a silver card member, not to mention if lin yi would agree or not.

he'd been thumping his chest so hard just to get lin yi to join, getting the entire formation master association to back him up, but now he couldn't even get a gold card-where was he supposed to put his face?

the branch manager couldn't help but feel a little troubled.

It wasn't a bad thing for an array Grandmaster to visit their President. With their president's personality, this was exactly what he wanted.

However, after the mishap just now, especially when the other party asked for a Gold Card, this matter was not so easy to handle.

"please wait for a moment. i'll go to grandpa's place to see if he's finished his closed-door cultivation."

the girl bowed to the couple and left.

Seeing this, the branch manager quickly followed, "Grandmaster Shen and this young hero, please follow me to the VIP room and wait for a while. We have prepared some local signature spirit tea. Although it is not very famous, it is quite interesting to taste."

Xiaoxiao and Lin Yi looked at each other. Naturally, they didn't make things difficult for each other.

Although there were some twists and turns just now, the other party had not been rude in any way. As for the ridicule of the others, with the two's tolerance, they naturally did not take it to heart.

The girl arrived at the branch's backyard. After passing through layers of array verification, she finally arrived at a courtyard with a completely different world.

"Grandpa."

the girl softly woke up a white-haired old man who was taking a nap on a reclining chair. this person was the branch president of this branch, lu qiyou.

As a Grandmaster of formations and a half-step Mystic venerable, Lu qiyou should have long since gotten rid of the habit of taking afternoon naps.

however, lu qiyou's life motto was to steal half a day's rest. just by looking at his daily life, he was almost no different from an ordinary retired old man. if it were someone who was not familiar with him, it would be very difficult to associate him with the name of the array formation association's branch president.

Chapter 10500

lu qiyou opened his eyes and stretched lazily. he looked at his slender and elegant granddaughter before him. "xue 'er, you've come."

In his life, he had reached a considerable height in the eyes of others, but he himself knew very well that he had almost been lying down all the way to this height.

with his family background, as long as he wasn't too bad, it was only natural for him to reach this stage.

With his lazy personality, he didn't feel that there was anything wrong with this. The other party had no choice but to go to the inner scroll. Since he had this condition, why couldn't he live a more comfortable life?

However, it wasn't as if he didn't have any regrets.

he had never done anything that made him proud in his life. only this granddaughter in front of him could make him feel a little comforted in this aspect.

It was a pity that his granddaughter's name was not given by him.

Lu qiyou suddenly perked up. Xue 'er, let's change your name some other time. Grandpa will give you a better one.

Lu xixue's gentle and delicate face showed a bit of helplessness. "Grandpa, I don't object to changing the name, but you still have to get great-grandpa's permission first, right?"

her name had been given to her by her great-grandfather, who was also lu qiyou's father.

He was one of the most experienced grandmasters of formations in the world, and his temper was far from that of Lu qiyou's. In front of his biological father, Lu qiyou would never even dare to raise his voice, much less overrule his decisions.

"....."

"Do I look like someone who's that bold?" Lu qiyou was instantly dejected.

Lu xixue chuckled and pursed her lips, then told him about the branch.

lu qiyou shook his head nonchalantly after hearing this. " the grandmaster's identity card is specially made by the headquarters. unless the headquarters 'array is destroyed, there shouldn't be any problems. therefore, this person's orange card must be fake. however, since he has an authentic gold card, it means that he's not a pure swindler. "

"He wants to give the young man he brought a Gold Card?" he asked.

"yes, that's what he said," lu xixue nodded.

"then i know what he's planning," lu qiyu laughed.

"What plan?" Lu xixue was surprised.

as far as she was concerned, xiaoxiao and lin yi were indeed weird, but it didn't seem like they were here to scam something.

"xue 'er, you've never gone out to explore the world, so you've experienced too little. in the end, you're still too inexperienced."

Lu qiyu said smugly, " since he's a Grandmaster in formations, he's naturally aware of the Association's rules. He's well aware that only grandmasters have the privilege of directly issuing a Gold Card to their recommenders. However, he's not a Grandmaster himself. What should we do? "

"Naturally, it's to create an add-on card and try to pass off the fake as the real one."

after all, the identity card is essentially a miniature array. If you can figure out the tricks behind it, as long as you avoid the headquarters, you still have a chance of getting away with it by coming to a branch like ours.

it's a pity that the fake orange card he made failed. Otherwise, with sun bucai's alertness, he might have really succeeded.

Sun bucai was the previous Branch Manager.

Lu xixue frowned slightly. what if we meet such a person again? even our internal array system can't recognize the fake orange card. What should we do? "

nothing much. We'll just do as they say. Anyway, this is the rule set by the headquarters. We're just following the rules.

Lu qiyou didn't seem to mind.

"Then Yingluo isn't too good, is she?"

Lu xixue was speechless. She knew her grandfather's lazy nature, but as the branch president, he was slacking off on such an important matter. She really didn't know what to say.

If it wasn't for his great-grandfather, that array master, holding up the fort, with his carefree personality, his own branch might have already been ordered to close down.

Lu qiyou laughed. Xue 'er, you're thinking too much. Every orange card is made by a great Grandmaster. There's no way others can copy it.

in other words, if someone can replicate an orange card, then even if the card is fake, it will eventually become real.

" because since he can do that, it means that he is a grandmaster of formations. "

Lu xixue came to a realization and asked, " " then what should we do now? grandmaster shen wants to see grandfather. are you going to meet him? "

"Of course I'm going to meet him. It's rare for such an interesting formation Grandmaster to come to our door, so how can I refuse him? Wouldn't it show that our Lu family doesn't care about etiquette if word gets out?"

lu qiyou felt a headache coming on. " but according to what you've said, xue 'er, he doesn't come here without a reason. he's most likely here to ask for a favor. when he asks, i'll have to find a way to reject him. "

the lu family had a great reputation in the world of formations, but the more that was the case, the more he could not easily give out a favor.

Once too many favors were given out, they would be worthless.

Furthermore, the Lu family was not the only formation Grandmaster in the world of formations. There were countless pairs of eyes watching.

lu xixue thought for a moment. " that grandmaster shen is here for the young man beside him. although we can't hurt his face directly, it's not difficult to think of a way to make him retreat. "

"xue 'er, do you have an idea?" lu qiyou perked up.

lu xixue's slightly childish face revealed a calmness and calmness that didn't match her age.

according to the normal procedure, every new member of the array Association has to test the array. If that young man does not perform well during the test and this scene is seen by Grandmaster Shen and you, Grandpa, I'm sure he won't be able to ask for more if this is too much? "

lu qiyou was overjoyed to hear this. " my granddaughter's so smart. that's right, that's right. we'll do it this way. "

if this kind of countermeasure came from an adult who had experienced the ups and downs of society, it was actually nothing.

However, his precious granddaughter had just reached marriageable age this year. It was rare for her to come up with such a reliable solution based on her own understanding.

after the grandfather-grandson duo agreed, lu xixue went to the branch's vip room.

"grandmaster shen, my grandfather is very happy with your arrival. it has been a long time since he has sat down and discussed the dao with an array grandmaster of the same level. he is currently waiting for you in the backyard."

Lu xixue turned around and instructed the branch manager, " "Manager sun, I'll have to trouble you to lead the way for Grandmaster Shen."

"alright, second miss."

the branch manager immediately made a gesture of invitation to shen niao.

xiaoxiao and lin yi looked at each other."What about my friend?"

"since grandmaster shen has come to recommend this young swordsman to join the association, then i'll invite this young swordsman to take a look at our branch's array," lu xixue replied.
