Chapter 2228: The Great Fire Lion takes action

The pig also knew the fire Lion very well. He knew that he would repay whatever he owed!

So, when it found the big fire Lion and the small fire Lion who were returning to their nest, it told them about Lin Yi's situation with some exaggeration. The big fire Lion was instantly enraged! Because, Skybolt pig told him that it was someone else who found out that Lin Yi was helping the little fire Lion, and that was why they came for revenge!

How could this be? When the Great Fire Lion heard that his benefactor was being retaliated against because of his child, he quickly came to help! It didn't matter if they were from the Tagan family or not-he'd rather offend them than not save Lin Yi!

Hence, the big fire Lion, the anxious little fire Lion, and the smug Skybolt pig rushed to the scene of the incident together!

Just as everyone was wondering why the Great Fire Lion had returned, the fifth Guardian suddenly felt a strong gust of wind behind him. Immediately after, he felt a tearing pain. He saw with his own eyes that the area below his waist had been torn apart by the Great Fire lion's claws ...

This was the last scene he saw in the world. He didn't even know how he died. He didn't understand why the Great Fire Lion came back and suddenly killed him.

This dramatic scene stunned everyone present, especially taganlong. He was still immersed in the pleasure of the fifth guard abusing Lin Yi, but he was now in deep fear!

Although he had hidden his strength, he was no match for the Great Fire Lion no matter how hard he tried. Seeing the Great Fire lion's ruthlessness, taganlong knew that he would only be courting death if he went up.

However, he could not figure out why the Great Fire Lion had returned. Didn't it leave?

Could it be that after it returned, it became angrier the more it thought about it, so it came back for revenge?

Thinking of this, taganlong's face turned ashen."Lion hero, I ... I'm just here to watch the show. It has nothing to do with me. I'll leave now. I didn't do anything to your son just now!"

The big fire Lion ignored taganlong and quickly came to Lin Yi's side with the little fire Lion and the Skybolt pig. The little fire Lion looked at Lin Yi who was motionless on the ground sadly, sticking out its tongue and licking his forehead, tears of sadness flowing down ...

The little fire Lion thought that Lin Yi had died and was naturally very sad! To it, Lin Yi had died to save it, which meant that it had killed Lin Yi.

.....

The fire Lion clearly distinguished between kindness and hatred. How could it be happy to see its benefactor die because of it?

However, the pig understood Lin Yi better. He checked Lin Yi's condition carefully and found that Lin Yi was still alive. He explained happily to the fire Lion and the fire Lion,"Ji Ji~~"

The pig was telling the lion that Lin Yi had the ability to heal himself, and as long as he was still breathing, it was fine.

Both the big fire Lion and the small fire Lion were surprised by the pig's explanation, but remembering what the small fire Lion said about Lin Yi's ability to heal it quickly, the big fire Lion didn't doubt the pig anymore and let out a breath of relief.

Lin Yi was fine now, and the most important thing was to let him heal in peace. Since taganlong didn't do anything, he'd let him go for now. It was just a fifth guard, and the Tagan family probably wouldn't care too much.

So the fire Lion gave up on the idea of making taganlong pay with his life. It was smart, and if it killed taganlong now, the Tagan family would go crazy. Not only would it be in trouble, but Lin Yi would be in trouble as well.

Taganlong found the attitude of the two fire lions strange-why did they seem so friendly? Could it be that they came back this time to help Lin Yi? The more taganlong thought about it, the more he felt that something was wrong. Why would the little fire Lion help Lin Yi when he was surrounded by him?

Taganlong may look like an idiot, but he wasn't stupid. He understood the fire lion's personality-it knew how to repay kindness and gratitude. If that was the case, it meant that Lin Yi had helped the fire Lion before, and they would return the favor ...

Help ... That's it! Thinking back to the past, every time the little fire Lion looked like it was about to die, it would run up to Lin Yi and fight with him, and then it would be back to life. Lin Yi must have done something!

This Lin Yi was suppressing his strength to come up the mountain for a mission-something was obviously wrong. He was an Earth Class mid phase, why would he risk his life for a gathering spirit pill? He wouldn't even care about the five spirit gathering pills! Then, he thought about how the big fire Lion pretended to teach Lin Yi a lesson. Everyone else died but Lin Yi-wasn't there a problem?

It seemed that this Lin Yi was a spy, helping the little fire Lion in secret!

Taganlong glared at Lin Yi with a venomous look as he thought of this. He was ready to run away while the big fire Lion, small fire Lion, and Skybolt pig were all focused on Lin Yi, and he'd run with Jingyi!

However, just as taganlong was about to catch sun Jingyi, Skybolt pig let out a "Ji Ji" sound.

"Roar!" The fire Lion roared at taganlong and pounced on him, scaring the hell out of taganlong and lazi. They couldn't care less about Lin Yi and Jingyi anymore as they ran down the mountain!

Jingyi had just come back to her senses-she didn't think that the pig would be this strong, calling the fire Lion and the big one, and ending up in such a tragedy for the fifth guard.

"Skybolt pig, big and small fire lions, thank you so much!" Jingyi let out a breath of relief. She could tell that Lin Yi was injured, but he wasn't dead. As long as he wasn't dead, then there was no problem. Jingyi was very clear about Lin Yi's healing ability.

"Ji Ji!" Skybolt pig nodded proudly, but it was his duty to do so.

The fire lions, on the other hand, smiled apologetically. They didn't think that they helped Lin Yi in any way. In their eyes, it was the little fire Lion who hurt Lin Yi and got taganlong's revenge.

"Let's leave this place first and find a safe place to recuperate. "

Skybolt pig wrote on the ground with his claws, but when Jingyi finished, he wiped it clean, leaving no evidence.

The big fire Lion lifted Lin Yi up with its claws and carried him on its back. The little fire Lion led the way, with Lin Yi in the middle and Jingyi and Skybolt pig at the back ...

The middle of the mountain range was the territory of the fire Lion family. The little fire Lion led the way directly to their home ...

In fact, although it was called the fire Lion family, there were only a few fire lions in the entire family. Other than the big fire Lion and the small fire Lion, there was a female Fire Lion. To put it bluntly, they were a family of three, but the strength and cultivation of the female Fire Lion was not too high, and she did not have much combat power. (

Chapter 2229: Chapter 2227-visiting

She placed Lin Yi on a soft grass cushion, and he could speak now.

Along the way, he had been recuperating on the Great Fire lion's back, so by now, his injuries were already half-healed.

"Thank you very much!" Lin Yi said gratefully.

!!

If it weren't for the sudden appearance of the fire lions, Lin Yi wouldn't know what to do. This conflict was a bit risky!

However, it wasn't that Lin Yi couldn't control himself-the spirit beast's inner dan was just a fuse. From taganlong's attitude towards sun Jingyi, it was only a matter of time before the two of them clashed. When taganlong went back and found a stronger practitioner, he might as well take the risk.

"No need to thank me. You're the Savior of our Fire Lion Clan. You saved the little fire Lion, but you were attacked by the Tagan family because of it. Our Fire Lion Clan owes you!" The fire Lion opened its mouth, but what shocked Lin Yi was that it could speak human language!

The voice shocked Lin Yi, and Jingyi and Skybolt pig widened their eyes in disbelief!

It was already amazing that the lightning pig could communicate by writing, but the fire Lion could speak human language, which was even more amazing.

"There's nothing strange about the ancient spiritual beasts that have entered the heaven rank being able to speak the human language." The fire Lion saw Lin Yi and the others "shocked expressions and shook his head,"The little guy beside you is also very powerful. When it reaches the heaven rank, it should be able to speak human language."

Lin Yi heard the lion's explanation and came to a realization. He didn't expect the fire Lion to be a sky rank spirit beast. Lin Yi didn't think about it before.

"You're a heaven rank spiritual beast? Then wouldn't he be able to fight against a Sky Class?" Lin Yi looked at the fire Lion in surprise.

"You can't say that. Although spirit beasts are ahead of human cultivators to a certain extent, as their level increases, this advantage will become smaller and smaller." The fire Lion explained, "for example, we attack-type spiritual beasts can fight against Sky Class early phase Masters when we're golden class, but when we reach the early phase, we can only fight against Sky Class mid to late phase Masters. If we're both Sky Class late phase peak, it's hard to say who'll win."

"Oh? There's such a saying?" Lin Yi was surprised.

"Of course, it's similar to the spiritual and physical practitioners of you humans-before Sky Class late phase peak, spiritual practitioners always have the advantage, always ahead of physical practitioners of the same level. But once you reach Sky Class late phase peak, physical practitioners have the advantage!" The Great Fire Lion nodded and continued to explain, "For example, physical arts like iron Fist and Golden Shield, if trained to the peak of Sky Class late phase peak, you can say that Golden Shield practitioners aren't something any spiritual practitioner of Sky Class late phase peak can fight against-no one can kill them!"

"So powerful!" Lin Yi was surprised. He didn't think that the Golden Bell sect had the potential to be the Supreme of the Wulin.

"Of course, it's harder for physical practitioners to level up the further you go" The Great Fire Lion said, "in the thousand years that I've lived, I only know of two people who could cultivate physical martial arts to the extreme. They appeared in the pugilistic world more than a decade ago ... One attacked and the other defended. They cooperated well with each other. These two people can be said to be invincible in this world!" They had trained the two physical arts to the extreme. One should be similar to the iron fist, with endless strength and invincible attacks. The other should be similar to the Golden Bell shield and iron cloth, with a body as strong as iron blades and Spears, impervious to water and fire! I'm afraid that only the legendary heavenly Dao level experts can shake these two people ..."

"The heavenly Dao?" Lin Yi took a deep breath when he heard the name. He'd heard it more or less before, but he didn't have a definite answer.

"Legend has it that the level above Sky Class is called sky path ... It's the same for human cultivators, and it's the same for us spirit beast cultivators, but no one has ever seen anyone who can reach this level ... It's just a legend." The Great Fire Lion said.

“Then ... What about these two?” Lin Yi asked curiously. He didn’t think that there would be such a powerful physical practitioner in this world.

“Disappeared, along with them were a bunch of Sky Class late phase peak Masters from various sects ...” The big fire Lion said,”“From then on, the rules of the martial world changed a lot ... But these people will never return.”

“A bunch of Sky Class late phase peak Masters?” Lin Yi frowned as he thought about his missing master and the candy girl’s master. Could they be the same group of people that disappeared together?

And his own master was also a Sky Class late phase peak? What exactly was going on?

However, old Lin must have known some secrets about his master’s disappearance, but he didn’t say a word. He only told him that the time wasn’t right and that knowing too much wouldn’t do him any good. Lin Yi knew that if old Lin didn’t want to say it, he wouldn’t be able to get it out of him no matter how much he asked!

And he wasn’t even old Lin’s match at all. This old man was very strange. It was as if he was strong, and so was he. No matter what level he cultivated to, he couldn’t withstand a single punch from this old man. One punch was enough to send him flying off the West Star Mountain ...

Now that he thought about it, he was already an Earth Class mid phase-would he be able to beat the old man?

Lin Yi shook his head. The old man and his master were both mysterious people ...

“Hehe, this is just a secret in the martial world. However, I live in the Wulong hao te mountain range. The upper part of the mountain range was once the location of an ancient sect, so I know more about it. In fact, I don’t know the specific details. Where they went and what they did, I also know.” “At least I’ve never heard anyone mention it again ...” The Great Fire Lion replied.

“Alright,” he said. Lin Yi nodded, suddenly remembering something important. “You’re saying that the upper mountain range used to be an ancient sect?”

“Yes, but it’s not the case anymore.” The Great Fire Lion said.

“What kind of ancient sect is it?” Lin Yi asked.

“I can’t tell you more about this. This ancient sect once helped my fiery Lion Clan. I can’t tell you about their Affairs.” The Great Fire Lion shook his head.”Just like how you are the benefactor of our Fire Lion Clan. If someone asks us about your specific matters, I will not tell them anything.” (To be continued.)

Chapter 2230: The upper mountain range

“Alright, since that’s the case, I won’t ask any more questions.” Lin Yi nodded—he knew that there was no point in asking anymore, but he was curious—could sun Jingyi’s parents have been related to that ancient sect? Or did they entrust the ancient sect with something?

If it was the second possibility, then it would be a bit difficult. If the ancient sect was gone, then the things that were kept there would naturally be lost. Even if they found it, would there be anything left?

!!

Seeing Lin Yi’s frown, the big fire Lion was a little curious,”“Do you guys have some sort of connection with the ancient sect here?”

“No, we haven’t.” Lin Yi shrugged with a bitter smile, not hiding anything. He told her about how he came with sun Jingyi to look for his parents “things—they were completely in the dark when they arrived at the mountain range. They had a map, but it only showed the rough outline of the mountain range—all that was left was the exact location!

It was extremely difficult for Lin Yi to find the exact location from the entire mountain range! Although there was a treasure-hunting tool like Skybolt pig, it didn’t have the ability to find maps.

“Oh? You’re here to look for something?” “Then, can I take a look at the map in your hands?” the Great Fire Lion was slightly stunned.

“Of course you can!” With the fire Lion willing to help, Lin Yi was naturally happy. Plus, he didn’t have any conflict of interest with the fire Lion. He was still the fire lion’s benefactor.

He took out the map and laid it out in front of the lion.

The Great Fire Lion bent down and looked at it carefully. The little fire Lion and the lioness also looked at the map curiously.

“From the shape of the mountain range on this map, this is indeed the Wulong hao te mountain range.” The Great Fire Lion had been cultivating here for a thousand years, so when he saw the map, he knew that it was the oolong haotte mountain range.

However, it was useless to know that it was the Wulong haote mountain range. When it saw the approximate location marked on the mountain range, the Great Fire Lion shook his head.”According to the location on the map, this place belongs to the upper part of

the mountain range of Wulong hao te. We are now in the middle of the mountain range! Furthermore, I've never seen the terrain of this mini map before, and I'm very familiar with the terrain of the middle and lower mountain ranges. Therefore, I'm sure that this is not the middle and lower mountain ranges!"

"The upper Meridian ... You've never been there?" Lin Yi asked, surprised.

"No, I didn't," "No," the Great Fire Lion shook his head. "We, the fire Lion spirit beast clan, have an agreement with the ancient sect. We will not enter their territory."

"But, didn't that sect already disappear? Also, there are rumors that the upper sect also has ancient spirit beasts." Lin Yi said.

"It's true that the sect has disappeared ... But, there are still people up there, and it's a human Sky Class master ..." The Great Fire Lion said, "The rumors from the outside world can't be true! I did have an agreement with the ancient sect, but now that they're gone, there are still Sky Class Masters up there-we don't want to go up there! It's not that our fiery Lion Clan is afraid, but that our fiery Lion Clan also has a sworn enemy in this mountain range ..."

"Sworn enemy?" Lin Yi blinked.

"It's a spiritual beast from another race. The other party also has a heaven rank spiritual beast. Although their combat power is weaker than ours, they have the advantage in numbers!" The Great Fire Lion only gave a simple explanation, obviously not wanting to talk about these things. "As the saying goes, one mountain can not accommodate two tigers. The cultivation resources and heavenly treasures in the mountain range are limited every year, so there will naturally be conflicts and fights ..."

"I see." Since the fire Lion didn't want to talk about it, Lin Yi didn't ask. Spirit beasts had their own Rules of Survival, and Lin Yi wouldn't interfere in their fights.

"If the place you're looking for is in the lower or middle meridians, I can protect you. But if it's in the upper meridians, I can't do anything about it." "But I advise you to be careful!" The Great Fire Lion said. It's not like Sky Class Masters come and go all the time, but ... Every year, there'll be a few Sky Class Masters there ... And you're not strong enough to fight them!"

The fire lion's words weren't very polite, but Lin Yi knew that good advice was unpleasant to the ear. He wasn't even an Earth Class late phase Peak's opponent, let alone a Sky Class master.

"I know that ..." Lin Yi smiled bitterly.

"Of course, it might not be such a coincidence." Seeing Lin Yi's bitter face, the big fire Lion smiled, "At least, that Sky Class master isn't always there! Moreover, if you can't

win, then run. As long as you come to my place, I can still protect you! There's a restriction around my cave-even ten Sky Class Masters wouldn't be able to do anything to me! However, the prerequisite is that you have to successfully run back. "

Lin Yi nodded. These spirit beasts from ancient times all had some sort of great God art. Lin Yi didn't know what the restriction was or how it was made, but the fire Lion was so confident that it must be something special.

"My internal injuries haven't healed yet, so I can only use your land to heal my injuries for now!" Lin Yi said.

"That's not a problem. Please do as you wish, benefactor. There's no problem even if you want to stay here for a long time." The Great Fire Lion said,"the spiritual energy of heaven and earth in the middle and upper meridians is actually similar. This cave of mine also has a special restriction. It can absorb the spiritual energy of heaven and earth more easily. You can cultivate here for a while."

"There's no need to cultivate. I'll be leaving once I've recovered, just in case a long night brings trouble. " Lin Yi didn't really care about the Qi-he had the Jade space with him, so why would he need it?

Lin Yi could get as much Qi as he wanted, and he didn't have to worry about it at all.

"That's good. " The fire Lion didn't try to persuade Lin Yi anymore,""I'll protect you. Don't worry, no one or spirit beast will dare to come in my cave ..."

Lin Yi nodded and went into the Jade space to heal. He released compressed Qi twice before, and the Qi in his body was a lot less now, so he replenished it as well ...

Taganlong and Lazlo stumbled their way down the mountain as they made their way down. Taganlong hated Lin Yi to the core. (To be continued.)
