Chapter 2231: Chapter 2228-family meeting

There was a relay station for the Tagan family under the Wulong hao te mountain range, because the Tagan family was one of the families that controlled the mountain range.

The scattered medicinal merchants, small families, and small gangs who went up the mountain to pick herbs had to pay a considerable Commission before they could go up the mountain!

!!

Of course, you could also go up the mountain from other unguarded places, but there was only one way up the mountain. Other places were dense with forests, not to mention poisonous insects and grass, and there was a possibility of encountering fierce beasts. Many of these small families and gangs who collected herbs were not cultivators. Even if they were cultivators, their strength was relatively low. It was better to spend some money to be at ease.

Seeing young master taganlong and Lazlo stumbling down the mountain, the third guard of the Tagan family, who was in charge of receiving them, immediately went up to them.””Young master taganlong, what’s the matter? why are you in such a panic?”

“I’m so angry, I’m so angry!” Ta ganlong cried out loudly. However, after a few cries, he lowered his voice and said to the third guard, “We’ll talk about it when we get back ...”

In addition to the Tagan family’s forces, there were also forces from the Lu and Shangguan families nearby. There were also people from the Firewolf gang and the red conch. Therefore, Tagan long continued to act brainlessly, shouting and making a fuss, making people think that he was a useless dandy.

However, the third guard was a core member of the family and taganlong’s uncle. Naturally, he knew about taganlong’s situation. He immediately understood taganlong’s hint and quickly got into the Hummer he had come in with the yelping taganlong and returned to the Tagan family!

In the Tagan family's Secret room, the family's patriarch, head guard, second guard, third guard, and Tagan long, a total of five people, were sitting around a round table!

These five people were the current core members of the Tagan family!

The current head of the Tagan family was taganlong's grandfather, tagange. The second guard was tagange's eldest son, tagansha, who was also taganlong's father. As for the third guard, he was tagange's youngest son, taganlong's uncle, taganmo!

In fact, the guards of the Tagan family were just like the elders of other families and sects, but the families in Ruida town were used to calling them guards.

As for the head guard, he wasn't a member of the Tagan family, but he was still a Sky Class master! Of course, he wasn't the only sky Class in the Tagan family. Tagan's father was also a Sky Class master, and he was even stronger than the head guard. It was just that he was always in seclusion.

However, whether it was the clan leader tagange, the second guard, third guard, taganlong, or even tagange's father, elder Tagan, they all followed the lead of the Grand guard!

It wasn't because of the head Guard's strength-he was only at the early phase of the heaven rank, and he wasn't a core member of the Tagan family. He could only be considered a distant relative of the Tagan family, the type that didn't have any blood relations.

However, his status in the Tagan family was extraordinary. The reason was simple: he came from a very mysterious place ...

If the Grand Guardian was the number one figure in the Tagan family, then Tagan long was the number two figure in the family! Because he was someone that the head guard thought highly of!

Taganlong didn't hide anything and explained the situation to everyone. At this moment, taganlong was no longer a brainless dandy, and his words were very organized.

Hearing that they had failed to capture the fire Lion, the head guard didn't care much. He waved his hand and said, "If it failed, then it failed. It's good that he's fine!"

On the surface, the head guard didn't show much of a reaction. However, he heaved a sigh of relief in his heart. If he had known that it would be so dangerous, he definitely wouldn't have let taganlong take the risk to collect the spirit beast! If it wasn't for the fact that the fire Lion was very sensitive to his aura and that his appearance would alert the fire Lion, the head guard would have definitely accompanied taganlong up the mountain.

“As you said, it’s that Zhang naipao guy-we’ll need to investigate this guy thoroughly, who’s he and what he’s doing here!” The guard didn’t say much about the failure to capture the fire Lion, but turned his attention to Lin Yi.

“That’s right, I still have an important matter to report to the head guard!” Taganlong suddenly remembered sun Jingyi and quickly said.

“Oh? What’s the matter?” The head guard asked.

“The head guard showed us two photos and asked us to search for these two people ...” Taganlong said.

“Oh? “That’s right ...” The head guard nodded. He had indeed taken out two photos in the past and asked the Tagan family to look for them. However, they did not find them in the end and the matter was left unsettled. He did not expect Tagan long to bring it up again.

“Head guard, the woman in the picture is a beauty, so my memory is very good. The woman beside Zhang naipao looks very similar to the one in the picture!” “That’s why I’ve been trying to get close to her. I wanted to trick her into coming back and asking the guard to check on her. Later, there was a conflict. I wanted to abduct her by force, but that big fire Lion ruined my plan ...”Taganlong said.

“What? Are you sure? That woman beside Zhang naipao, is she the one in the picture?” The head Guard’s eyes flashed with a strange light as he hurriedly asked.

“It shouldn’t be wrong ... But, after all, the photo is dead, and the person is alive. It’s just that they look very similar. I can’t be 100% sure.” Tagan long said after some thought.

“How old is that woman?” The head guard asked.

“About twenty years old, I don’t think he’s that old!” Tagan long said.

“Around twenty years old? Are you sure?” The head guard was puzzled after hearing taganlong’s words.

“That should be the case-she and naipao both look very young, probably around 20 years old.” Tagan long said affirmatively after some thought.

“That’s not right ...” The head guard shook his head.”If it’s that person, he would be at least in his forties or even his fifties. How could he be in his twenties?”

“Ah? Forty or fifty years old? That’s impossible unless I took some medicine that rejuvenated my youth. Otherwise, I’m not that old. ” Taganlong was pretty sure of sun Jingyi’s age.

“Regaining youth ...” The head guard shook his head and asked, “What does that Zhang naipao guy look like? Compared to the man in the photo?”

“Zhang naipao and the man in the picture are different, the difference is bigger ...” Tagan long shook his head, “At least, I don’t think it’s the same person.” (To be continued.)

## Chapter 2232: The mysterious head guard

“That’s it ...” The head guard said, “It shouldn’t be the same person, but perhaps he is related to the two people I’m looking for. Otherwise, how could he appear in the oolong mountain range so coincidentally? Why would he suppress his strength to participate in this fire Lion hunting mission? Even if these two people aren’t those two, they should be related to them!”

Over the years, the head guard had actually been assigned two important tasks in the Tagan family. The first was to protect and teach Tagan long martial arts, and when the time was right, there was another important task for him to do ...

!!

The other mission was to monitor the Wulong hao te mountain range and the two people in the photo!

These two people were lucky enough to escape from the annihilation of their families. Although the chances of survival were very small, not seeing their bodies did not mean that they were dead!

Moreover, the person behind the head guard didn’t want these two people to die, because their motive for exterminating the sect was to plunder an important treasure of this ancient sect. However, this treasure was hidden, and they had swept the entire sect without finding it!

As such, the head guard stayed here to keep an eye on the two of them. If they didn’t die, they would definitely return to look for the treasure. At that time, the head guard would be able to take the treasure and get rid of the two of them ...

And now, the head guard saw hope! Taganlong’s information was extremely useful. If this person was really related to the two people from back then, he must have come to the Wulong hao te mountain range for that treasure. In that case, the head guard could take advantage of the fact that they had found the treasure to make a move ...

“Head guard, these two people ... Are we just going to let them go? “They still have two spiritual beast’s essence inner cores in their hands ...” Taganlong said.

"Of course I won't let them off, but you don't have to worry about this matter. I'll handle it myself!" The head guard said, "for the time being, don't go out. Stay at home and practice. Your image as a popinjay should be fine as long as you go out for a walk every once in a while. As long as you don't let others notice anything strange or notice you, it'll be fine."

"Yes!" Tagan long quickly said. He was very happy. If the head guard were to personally take action, then all the problems would be solved.

The family meeting ended quickly. To put it bluntly, the reason the Tagan family could rise so quickly in Ruiledia town wasn't because of the family itself, nor was it because ancestor Tagan was a Sky Class master. In the Lu and Shangguan families, there were also Sky Class Masters, and the reason the Tagan family could become the head of the three families was because of the head guard!

The entire family served the Grand Guardian and ta ganlong. As the head of the family, ta gange's authority was very small. He might seem impressive to outsiders, but when he returned home, he didn't even have as much authority as his son, ta ganlong, in family meetings!

The head guard was the one who took charge of the family meeting. The reason why the Tagan family was favored by the head guard and the faction behind him was because they had accidentally discovered Tagan Long's special Constitution!

This kind of physique was perfect for them to do something big, but neither Tagan Gao nor Tagan long knew what it was. The only thing Tagan Gao knew was that once this was done, Tagan Long's status would be higher than the head guard, and his martial arts would reach the peak. The Tagan family would also become one of the top families in the world.

Of course, this was all under the premise that the matter was done. If it was not done, these promises would be nothing more than empty words.

Taganlong's identity couldn't be exposed in advance to avoid any accidents. So, under the suggestion of the head guard, tagange came up with a good idea to make taganlong a rich Playboy to hide his identity.

If taganlong continued to hide in his family, it would definitely arouse the suspicion of the other forces in the town. Instead of that, it was better to let him show his face in public. Everyone knew that he was a good-for-nothing young master, but no one would think that he had another special identity.

This was also the so-called "the great hidden in the city."

The Grand Guardian had disappeared after the meeting. However, the Tagan family had been very vague about this matter. They had not mentioned the Grand Guardian's

whereabouts. The failure to capture the fire Lion had also been deliberately exaggerated by the Tagan family, and rumors had spread throughout the town ...

The rumor was half true and half false. It was that when they were hunting the spirit beasts, all the mistakes were blamed on Tagan long. The fifth Guardian, eighth Guardian, and the four adventurers had all sacrificed themselves to protect Tagan long ...

As a result, the other families laughed at him. This young master ta ganlong was really useless. It was fine if he was a good-for-nothing, but he was actually such an idiot? Forget about the four adventurers, the fifth and eighth guardians were the backbone of the Tagan family's strength. It would be a pity if they died!

The news of ta ganlong being grounded by ta gange also spread, further confirming the rumors that the young master had caused trouble!

.....

When Lin Yi opened his eyes again, the sky was already dark. Sun Jingyi, Skybolt pig, Fire Lion and fire Lion were all gathered around Lin Yi, and the lioness had brought a lot of food. Although it was all wild fruits, they were all high quality fruits with natural Qi and were very beneficial for cultivation.

"Mr. Lin, you're the most amazing person I've ever met!" The fire Lion looked at Lin Yi, who had recovered to his peak state, and was very surprised,""In such a short time, his injuries have completely recovered, and his energy has also returned to its peak."

"Hehe." "Thank you for taking care of me while I was healing!" Lin Yi smiled.

"It's nothing. It's what I should do. " "You must be hungry, have something to eat!" The Great Fire Lion said. There are some rare and exotic treasures here that can help you recover your strength quickly after taking them. It's also very beneficial for cultivation. "

"You eat, Jingyi. I'm not eating." Lin Yi had just recovered his strength, so he wasn't hungry at all.

"En, then I won't stand on ceremony!" Jingyi had been hungry for a long time, but Lin Yi hadn't recovered yet, so she didn't want to keep the food to herself.

"Mr. Lin, are you not eating?" The Great Fire Lion felt a little strange.

"I've already recovered to my peak. Do I still need to eat?" Lin Yi said with a smile.

"So that's how it is." The Great Fire Lion nodded."You can stay here tonight. I know I can't stop you from going up the mountain, but you should be careful!" (To be continued.)

## Chapter 2233: Chapter 2231-wild fire Fist again

"I understand." "Thank you," Lin Yi said with a smile.

"However, in order to repay you, I have a secret martial arts manual for you humans. It was once ... Left behind by my contract master ..." The Great Fire lion's expression was a little desolate as it spoke ...

!!

"Your master? You're actually someone else's contractual spiritual beast?" Lin Yi's eyes widened.

"A few hundred years ago, yes." "But he left ... To pursue a higher realm, the so-called heavenly Dao ... After that, he never came back!" He's the ancient sect here, the former sect leader ..."

"Ah!" Lin Yi sighed in surprise. Everyone wanted to pursue higher levels of martial arts, but how many people could succeed?

"This martial arts technique was once the sect's most important martial arts technique. It was one of the best martial arts techniques among the fire attribute cultivators." "You're mid Earth Class," the Great Fire Lion said."You should be able to barely reach the fifth move. As long as you reach the fifth move, you'll be able to activate the technique and fire bullets at the same time. It'll temporarily increase the power of your technique to the tenth move ..."

"Divine bullet of fire? What is it?" Lin Yi had never heard of something like that.

"It's a fire attribute weapon made by the breath of our Fire Lion Clan. However, it's a one-time use weapon." The Great Fire Lion said,"in this mountain range, our Fire Lion Clan also has enemies. I don't have any problems with it, but the little fire Lion and my mate don't have strong attack power. They can only rely on the divine fire bullets I create to escape the enemy's attacks!"

"I see!" Lin Yi nodded.

"It takes me a long time to make these divine fire bullets. Plus, they're consumables, so I only have three finished products. You'd better use them sparingly!" The Great Fire Lion said,"after using the divine fire bullet, the fifth form is equivalent to the tenth form, and the tenth form is equivalent to the fifteenth form. It's the same for the rest of the moves ... There's no upper limit, but the lower limit is the fifth form. Only by activating it together with the fifth form can the effect of the tenth form be achieved. Otherwise, you can't use this divine fire bullet before the fifth form."

"It's that powerful?" Lin Yi listened to the lion's explanation and couldn't help but click his tongue in surprise. This divine fire bullet could instantly increase five levels of martial arts, which meant that he could fight against people of higher levels!

"That's right, but the production of the divine fire bullets is too little, and we also need to keep two for future use, so I can only give you three, benefactor." The Great Fire Lion said with some regret.

"Three ... That's already a lot!" Lin Yi wasn't a greedy person-having three of these things was already a very lucky thing. If he'd had something like this before, he wouldn't have been in such a sorry state when he fought the fifth house!

However, he didn't know if the martial skill was easy to cultivate. Lin Yi wasn't too worried about what kind of skill it was. After all, he had the experience of learning the wild fire Fist and the thousand changes of wood and forest. He was confident in activating the skill.

But Lin Yi could only use the fourth move now, and after reaching mid Earth Class, he tried the fifth move, fist of raging fire and thousand changes of wood and forest, but he didn't succeed. Lin Yi guessed that it was because he hadn't consolidated his strength yet.

But it was different now-Lin Yi had consolidated his strength as a mid-Earth Class master, and if he worked hard, he should be able to activate the fifth move, right?

"This skill was left behind by my master. There are 30 styles in total ..." Lin Yi interrupted the lion.

"What? The 30th form?" The fire lion's words broke Lin Yi's understanding,"Why are there 30 forms? Isn't the martial skill in this world divided into 20 forms, regardless of whether it's high-tier or low-tier?"

Lin Yi couldn't be blamed for being surprised-uncle Fu had told him before that the first ten forms could only be used by Earth Class Masters, and the last ten were for Sky Class Masters. The skills he'd seen in the Hidden House of Han all stopped at the twentieth form, so why did the fire Lion suddenly have a thirty-form skill?

"Haha, the 20 forms ... That's just what most practitioners know. The first 10 forms can be used by Earth Class Masters, while the last 10 can be used by Sky Class Masters. Other than my master who accidentally discovered this secret, the other people in this sect, including the previous sect leaders, all know the 20 forms ..." The fire Lion nodded. "It's also because my master discovered the last ten forms of this technique that he became even more passionate about the realm beyond Sky Class. Because, at Sky Class late phase peak, his bottleneck was the twentieth form, and he couldn't use the twenty-first form no matter what! However, according to his research and analysis, starting from the twenty-one forms, martial skills have stepped into a whole new realm,

an unprecedented height ... Of course, you can just treat this as strange news, and you don't have to deliberately pursue anything. ”

“I understand.” Lin Yi knew that the fire Lion was warning him not to aim too high.

“The reason why I haven't told the later inheritors of this sect about this martial art technique and the last ten moves is that I'm afraid they'll be too ambitious or pursue a higher martial Dao, and thus miss the important business.” The Great Fire Lion said, “the reason why I'm passing this martial art technique to you is also because this sect no longer has a successor. I'm passing this martial art technique to you. I hope that you can pass it down in the future so that it won't be lost ...”

“Good! Before Sky Class late phase peak, I won't try to study them. ” Lin Yi promised with a nod.

The fire Lion nodded and took out an ancient book from a hidden compartment in the corner of the cave. He handed it to Lin Yi and said, “I suggest you practice here. It'll be best if you can reach the fifth move before going up the mountain. But if you can't, I won't stop you when you go up the mountain tomorrow morning.”

Lin Yi couldn't wait to take the book, but the two big words on the cover shocked him speechless!

Because on the cover of the secret manual were three big words, “wild fire Fist”!

Lin Yi wasn't unfamiliar with the wild fire Fist-it was his martial arts, after all, but wasn't that uncle Fu's family heirloom? Why did the Great Fire Lion also have a wild fire Fist? (To be continued.)

Chapter 2234: Four things

Were these two wild fire Fist martial arts techniques the same name, or were they originally the same?

With that thought, Lin Yi quickly opened up the raging fire Fist manual in his hand. One look and he was dumbfounded!

!!

It's the same, it's exactly the same, exactly the same as the wild fire Fist that uncle Fu taught me, exactly the same, without a single word missing! At least, the first ten mental cultivation formulas were not a single word wrong!

What ... What was going on?

Lin Yi's mind went blank and was a little messy. All these scattered things suddenly put together ... This seemed a little magical and coincidental, but it might not be a coincidence ...

"Hu ..." Lin Yi took a deep breath and recalled uncle Fu's words. He used to be the young sect leader of an ancient sect, but he was killed because of a treasure in the sect! And this Wulong hao te mountain range once had an ancient sect, and this ancient sect had now disappeared like smoke in the wind ...

Was this a coincidence or a coincidence?

"Great Fire Lion, may I ask, was the ancient sect in the oolong mountain range destroyed by someone?" Lin Yi asked seriously.

"Oh? Why are you asking this?" The Great Fire lion's eyes flashed with a hint of vigilance. "What do you know?"

"Nothing, I just want to confirm a fact!" With that, Lin Yi put aside the manual the fire Lion gave him and started channeling his Qi. He started from the first form, all the way to the fourth ... Then, he tried the fifth form, but it failed.

But even if he failed, Lin Yi was still a little surprised. He could clearly feel that the fifth move was about to break out of his body, but he was too impatient. He was eager to show the big fire Lion the wild fire Fist he knew, he wanted to know the truth from the big fire lion's mouth!

Lin Yi had a shocking and bold guess in his mind, and it was getting clearer and clearer ... If he could confirm it ... Lin Yi looked at sun Jingyi beside him with a complicated gaze ...

"Wild fire Fist! You actually know the wild fire Fist!" The big fire Lion looked at Lin Yi in disbelief, "What's your relationship with this sect on the mountain ... Right, you guys went to the upper range to look for something according to the map, so it must be related to that ancient sect. Why didn't I think of this?"

As the Great Fire Lion spoke up to this point, a look of realization appeared on his face.

Lin Yi couldn't reveal the two's identities without the permission of uncle Fu and granny sun. Besides, he didn't know who their enemies were yet, and it'd bring him trouble if he revealed them.

"That's right. If the answer to my question is yes, then I have some relationship with the people who used to be in this sect on this mountain!" Lin Yi said.

"You're right. They were indeed exterminated ..." The Great Fire Lion sighed.

"I knew it ..." Lin Yi smiled bitterly, "Then you ... Didn't help?"

"I'm just the contracted spiritual beast of the former sect master of this sect. Now that he's gone, I'm not obliged to protect the other people in this sect." The fire Lion shook his head, "in this sect, he's the only one who helped me, but it's normal for a sect to rise and fall. He didn't ask me to help him protect the sect. Plus, there were a lot of Sky Class Masters at the time, I wasn't their match at all."

Lin Yi nodded, but hesitated. There were some things he didn't say.

By now, Lin Yi had basically confirmed four things.

The first thing was uncle Fu and granny sun, right here, the young master and young Madam of the ancient sect that was annihilated in the oolong mountain range!

Second, sun Jingyi's parents ... If Lin Yi was right, they should be uncle Fu and grandma sun!

He remembered that sun Yikai had told him about sun Jingyi's background, and he was pretty sure that she wasn't from house sun. She changed her last name after she returned to house sun, but she was very young back then, so she didn't know much about it.

And she had this map on her, and the location on the map was uncle Fu's sect, Wulong haote mountain range-the relationship between sun Jingyi and granny sun was pretty much obvious!

No wonder Lin Yi saw grandma sun and sun Jingyi looking so similar. Lin Yi didn't think much of it at first-grandma sun was from house sun, and sun Jingyi was from house sun as well. They were relatives, and it was normal for them to look similar.

But now, it seemed that ...

The third thing was the other map-it was given to him by that crazy Sky Class late phase old man, but he called him "li 'er." Uncle Fu's current name was Li Fu, but that was just his alias. His real name was Fu Li, so could this "li' er" be uncle Fu's master?

If that was the case, then all the mysteries could be explained. He was uncle Fu's master, so he naturally had half of the map, and Jingyi was uncle Fu's daughter, so she had the other half. This world was really small!

The fourth and most important thing was that the thing on the map wasn't something her parents had left her, but ... It was the treasure that destroyed the entire sect! Sun Jingyi's parents weren't dead, so there wasn't anything they left behind. The crazy Sky Class old man also mentioned that the map was a treasure.

These four things gave Lin Yi a headache-should he tell Jingyi the truth? Although these were all Lin Yi's conjectures and conjectures, he was pretty close to the truth.

After hesitating for a while, Lin Yi decided that he'd discuss it with uncle Fu and granny sun first, to confirm it. It wasn't the right time to tell sun Jingyi now-it'd affect her mood and emotions, and he'd have to think about it.

"The fourth move. If I work hard, I should be able to reach the fifth move." Lin Yi said.

"I don't think there's a problem." The Great Fire Lion nodded."Your aura has already come out just now, but it was too impatient. As long as you practice more, you should be able to activate it successfully in a few days!"

"A few days, huh ..." Lin Yi smiled and didn't say anything else. He started channeling his practitioner's Arts and activated the wild fire Fist ...

The first move, the second move, the third move, the fourth move! The first four moves of the wild fire Fist were completed in one go, without any hindrances. This time, Lin Yi wasn't arrogant or impatient! (To be continued.)

Chapter 2235: Chapter 2232-repaying a debt of gratitude

He was not demonstrating to the big fire Lion, nor did he want to prove anything. Therefore, he calmly performed the last move, the fifth move of the Kasaya!

The unprecedented heat turned into a beautiful Fire Dragon, bursting out from Lin Yi's right fist. The powerful flame turned into a fireball in the air, hitting the stone wall of the cave!

!!

However, after Lin Yi used this move, he felt a wave of guilt in his heart. He knew the power of the first four moves of the wild fire Fist, and if he used this move now, he thought that the lion's cave wall would probably have a big hole in it ...

"Hu ..." The fire Lion pounced on it and opened its mouth, swallowing the fireball Lin Yi had released in one gulp. It was as if it had a full meal, very satisfied.

"This works too?" Lin Yi looked at the fire Lion in surprise.

"This is energy to me!" The Great Fire Lion said.

"Energy ..." Lin Yi smiled bitterly,""This thing can be used as energy?"

“Yes, with this energy and my previous accumulation, I estimate that by the time you leave the mountain, you will be able to complete another divine fire bullet.” “But to be honest,” the Great Fire Lion said, “to be able to execute the fifth move of the wild fire Fist in such a short time, you’re really a genius that only appears once in a thousand years ...”

“Genius ...” Lin Yi smiled bitterly. He wasn’t sure if he was a genius or not, but the art of Dragon mastery and the “martial technique” were definitely a genius!

“At least, I’ve never heard of anyone who could execute a new martial technique in such a short time.” The Great Fire Lion said.

“I’m going up the mountain tomorrow. How do I use this divine fire bullet?” Lin Yi asked.

“As long as you hold it in your hand, and do this and this, you can activate it together with the fifth move, wild fire Fist.” The Great Fire Lion explained how to use the divine fire bullet, “I thought you would stay for a while, but since you’ve already used the fifth move of the wild fire Fist, I won’t keep you. Be careful!”

“Many thanks!” Lin Yi said from the bottom of his heart. The big fire Lion didn’t just give him three divine fire bullets, Lin Yi’s biggest gain was the wild fire Fist martial arts manual! It turned out that this martial skill had thirty forms, not twenty.

“You don’t have to thank me. Our Fire Lion Clan will always remember the favor of you saving the little fire lion’s life. If you need anything, you can come to the oolong mountain range to find us at any time.” The Great Fire Lion said.

“I can come back and get the divine fire bullet after it’s used up?” Lin Yi’s heart jumped at the lion’s words.

“Sure!” The Great Fire Lion nodded without hesitation. “However, I’m afraid that I can only make one more this year. If you come back at this time next year, I can at least provide you with three more!”

Lin Yi didn’t expect the big fire Lion to be so grateful and was touched. Logically speaking, Lin Yi helped the little fire Lion, but at the crucial moment, the big fire Lion helped him deal with the five protectors, and even gave him three divine fire bullets and a wild fire Fist manual. This favor had far exceeded what Lin Yi had given!

Lin Yi had only healed the little fire Lion when it was injured. The big fire lion’s generosity was beyond Lin Yi’s imagination!

It seemed that the fire Lion Clan would repay a drop of kindness with a spring.

“Forget it. Since you’ve treated me this way, I’ll also give your fiery Lion Clan some benefits!” “If I’m not wrong, both the lioness and the little fire Lion haven’t reached golden class yet, right?” Lin Yi decided quickly.

“That’s right ...” The fire Lion didn’t understand what Lin Yi was talking about, but he answered honestly, “Lionesses are just ordinary Lions with higher aptitudes and intelligence than ordinary Lions. There is still a gap between them and fire lions. However, I am the only one in the fire Lion Clan that has been passed down for thousands of years. If I want to have offspring, I can only find a lioness with higher aptitudes ... The bloodline of the little fire Lion is purer, but the cultivation of us spirit beasts is based on the accumulation of natural treasures. The spiritual energy of heaven and earth doesn’t help us much in upgrading ... These fruits and natural treasures used for cultivation are limited in the oolong haote mountain range. This is also the reason why our Fire Lion Clan has a conflict with another clan of spirit beasts ...”

Lin Yi nodded—he knew this already. Skybolt pig leveled up by eating treasures in ancient tombs. “Little fire Lion, come here for a moment.”

The little fire Lion was confused, but when Lin Yi called for it, it obediently ran over. Lin Yi hugged it in his arms and entered the Jade space, channeling the second stage of the art of Dragon mastery ...

Suddenly, pure and majestic energy surged into the little fire lion’s body and it was shocked! However, it quickly realized that Lin Yi had no ill intentions. On the contrary, Lin Yi was using a very strange method to transfer pure energy to it to level up!

The little fire lion’s strength suddenly increased, and very quickly, it broke through the threshold of the Golden class, becoming a golden class early phase spirit beast!

Both the Great Fire lion and lioness felt the change in the little fire Lion. When they saw that the little fire Lion had turned into an early stage golden class spirit beast, they were shocked beyond words!

On the other hand, Skybolt pig and Jingyi weren’t surprised at all—they knew what Lin Yi was capable of.

Under the surprised gazes of the lioness and the big fire Lion, the little fire lion’s strength continued to rise, from the early stage of the Golden class to the peak of the early stage, and it didn’t stop there. It immediately entered the middle stage!

This level-up speed scared the Great Fire Lion! It had existed for thousands of years and was now a heaven rank spirit beast. It was a rare existence among spirit beasts. After all, the thin spiritual Qi of heaven and earth did not have much effect on spirit beasts. They could only upgrade by consuming a large number of natural treasures.

When the Great Fire Lion was young and young, it had several opportunities and swallowed a few top-grade natural treasures, which allowed its strength to increase so quickly. Even so, it took a thousand years to step into the heaven rank.

And now, it had witnessed with its own eyes that its child, the little fire Lion, had gone from a spirit beast without even a level to a middle stage golden class spirit beast ... No, it was already at the peak of the middle stage of the Golden class ...

Very quickly, the fire Lion realized that the little fire Lion had become golden class late phase, and then golden class late phase peak!

It looked at everything that was happening in front of it in disbelief. Was this real?

However, just as the big fire Lion was hesitating whether what was happening was real or not, the little fire Lion had successfully reached the Golden class late phase peak! (To be continued.)

Chapter 2236: A contractual spiritual beast?

It was only half a step away from Mystic early phase!

The fire Lion knew how much Qi it needed to level up a spirit beast, and it needed much more than human practitioners. How much Qi would Lin Yi need to level up the little fire Lion?

!!

The fire Lion knew that Lin Yi was touched by the fire Lion clan's passion and gratitude. He wanted to repay them, but there were many kinds of repayment. After all, who didn't cultivate their true Qi with great effort?

If he just gave it to someone else for no reason, wouldn't his strength drop by several levels all of a sudden?

The big fire Lion wanted to stop him, but it remembered that Lin Yi was transferring Qi to the little fire Lion. If he wasn't careful, all his efforts might go to waste or he might go into Qi deviation, so the big fire Lion didn't dare to disturb Lin Yi.

At the same time, the little fire Lion had entered the mystic class, becoming a Mystic early phase spirit beast!

It wasn't over yet, Lin Yi was still increasing the strength of the little fire Lion!

Mystic early phase peak, Mystic mid phase, Mystic mid phase peak, Mystic late phase ... Lin Yi only stopped when he reached Mystic late phase peak. He let out a long breath of relief and put the little fire Lion to the side.

It was painful for the little fire Lion to level up and break through to the armband, but the fire Lion race had strong willpower. Otherwise, they wouldn't have been able to fight the three golden class Masters to the end.

"There's a limit to what I can do. Mystic late phase peak, that's the limit I can give it. " Lin Yi said, looking at the fire lion's dumbfounded face.

"This ... Mr. Lin, you've transferred all your strength to the fire Lion, then you ..." The fire Lion looked at Lin Yi hesitantly.

"Hehe, I'm fine. I'll be fine after a short rest." "Lioness, it's your turn now!" Lin Yi said.

The lioness was just a normal Lion, and if Lin Yi didn't appear here, it might not even have the chance to enter golden class, let alone level up! To put it bluntly, it was a problem with its bloodline-it didn't have the bloodline of an ancient spirit beast, and even if it ate precious fruits every day, it'd be amazing if it could reach golden class in this life!

Spiritual beasts were different from human beings. After reaching the Golden class, their lifespans could be extended indefinitely. The Great Fire Lion wanted the lioness to enter the Golden class, but it was impossible for him to do as he wished. After all, all ancient spiritual beasts were passed down from generation to generation. The bloodline would evolve bit by bit. It was not possible to become an ancient spiritual beast in one or two generations. Due to the problem of bloodline, the lioness 'cultivation progress was very slow. If the lioness could not enter the Golden class within a few decades, then it could only leave in sadness. This was not what the big fire Lion wanted to see!

So, when the fire Lion heard Lin Yi's words, he was extremely excited and surprised.

"It ... Can do it too?" The big fire Lion looked at Lin Yi hesitantly and reminded,""It doesn't have the bloodline of an ancient spirit beast ..."

After all, the fire Lion was afraid that Lin Yi would forget that lionesses weren't ancient spirit beasts. It was extremely difficult for normal animals to reach golden class compared to ancient spirit beasts! Although it was hard enough for an ancient spirit beast to level up, it was basically impossible for ordinary animals!

Otherwise, if it was really that easy for ordinary animals to enter the Golden class, spirit beasts would have been everywhere in the world and not so rare.

"Hehe, no problem." Of course, Lin Yi wouldn't be so sure if he didn't have general Weiwu as a living example, but with general Weiwu as an example, Lin Yi was sure that after leveling up, the lioness would become a fake "ancient spirit beast"!

After all, Lin Yi's art of Dragon mastery and the Jade space were like bugs.

"As long as she can enter the Golden class ... The Golden class will do!" The fire Lion looked at Lin Yi excitedly and knelt down in front of Lin Yi, saying respectfully, "Mr. Lin, you're the great benefactor of our Fire Lion Clan. You're the greatest benefactor. Although I already have a contract master, I swear that as long as you need it, our Fire Lion Clan will treat you the same way as our contract master!"

"Hehe, let's wait for the results." Lin Yi didn't expect the fire Lion to be so excited. He just felt that the help he provided to the fire Lion race was far less than the fire flow divine bullet and wild fire Fist, so he helped the big and small fire lions level up.

With that, Lin Yi squatted down and started digging into the lioness 'meridians!

The lioness was bigger, and Lin Yi couldn't carry her like the little fire Lion. He could carry her, but he felt that it was too much trouble.

With the lesson learned from the little fire Lion, although the lioness felt a strong and pure true energy entering her body, she was not too surprised. Instead, she silently gritted her teeth and endured the internal energy, expanding back and forth in her meridians ...

The lioness was just a normal Lion-her meridians weren't even fully opened yet, so Lin Yi had to help her open them first. The good thing was that the second stage of the art of Dragon mastery would complete the process automatically, so Lin Yi didn't have to waste too much of his brain and energy.

As long as he was in the Jade space, he would be able to use the second stage of the art of Dragon mastery! To put it bluntly, Lin Yi didn't gain anything or lose anything-he was just doing useless work. His body was a medium, passing the energy in the Jade space to the lioness through him!

Golden class! The lioness took longer to enter the Golden class than the little fire Lion, but it still managed to cross this threshold in the end. It was the most important hurdle in its life. As long as it entered the Golden class, it meant that it had become a spirit beast!

The lioness naturally knew what this meant. In the future, she would be able to spend the rest of her life with the Great Fire Lion. She would not have to leave before the little fire Lion grew up ... She was very excited!

The Great Fire Lion and the little fire Lion were equally excited. They had not expected that the problem that had troubled them for so many years would be resolved so easily at this moment!

After entering the Golden class, the lioness's leveling speed was much faster, almost the same as the little fire Lion 's. It quickly went from the early stage of the Golden class

to the peak of the early stage, the middle stage, the peak of the middle stage, the late stage, the peak of the late stage ...

This kind of rapid leveling speed could be said to be unprecedented and unprecedented. The big fire Lion didn't know what to say or how to express it in words! Even the little fire Lion, who had experienced Lin Yi's level up before, was shocked!

The little fire Lion was well aware of the Constitution of its lioness and how difficult it was to level up. (To be continued.)

Chapter 2237: Continue up the mountain

But seeing the lioness in front of Lin Yi, leveling up as quickly as it did, the little fire Lion was dumbfounded!

The big fire Lion and the little fire Lion looked at each other and saw the excitement in each other's eyes! They didn't expect to meet such a noble person. Lin Yi helped the little fire Lion, and the fire Lion thought that Lin Yi was on the same side as the others. It wasn't good to thank him, but it almost caused him a fatal injury!

!!

It was all thanks to the pig's help, but the fire Lion didn't expect that Lin Yi's help wasn't over yet! Fire lions knew how to repay kindness. The fire Lion felt that Lin Yi had saved his life, so he couldn't thank him no matter how much he wanted to. Hence, he gave him the divine fire bullet and wild fire Fist.

But Lin Yi had given them an even stronger gift, something the two didn't expect!

They all knew that it was hard enough for the lioness to level up to the early phase of the Golden class, but ... Lin Yi had already turned it into an early phase Mystic class spirit beast, and its strength was still increasing!

In the end, the lioness's strength was the same as the little fire Lion 's, stopping at Mystic late phase peak!

Without a fortuitous encounter, he might not be able to achieve such strength in thousands of years, let alone a thousand years! The big fire Lion had his own encounters, but that didn't mean that the lioness and the baby fire Lion would have their own encounters as well. Lin Yi's ability to raise their strength to Mystic late phase peak made the whole family ecstatic.

"It's done!" Lin Yi said.

“Thank you, benefactor!” The big fire Lion said seriously. The Lionesses and Cubs couldn’t speak yet, but they could understand Lin Yi’s words. The two of them knelt on the ground and thanked Lin Yi with heartfelt admiration.

The next morning, Lin Yi bid farewell to the fire Lion Clan and prepared to head to the upper mountain range. The fire Lion knew that the upper mountain range was dangerous, but it knew that Lin Yi wouldn’t stop just because it tried to stop him. It could only bid Lin Yi farewell at the entrance of the cave.

Lin Yi, Jingyi, and Skybolt pig walked towards the upper Meridian together, and as expected, the upper and middle meridians were completely different! The upper mountain range didn’t have so many jungles and grass. What appeared were jagged, strange rocks and all kinds of broken walls and ruins!

The mountain path was also much easier to walk on, with clear stone steps leading to the peak of the upper mountain range.

On the roadside, one could often see some dilapidated stone pavilions and some damaged buildings that could not be recognized. All of these could show people the glory of this place!

This was an important place of an ancient sect. However, the ancient sect had disappeared, and this place had become a ruin.

Of course, Lin Yi didn’t relax at all. It looked peaceful here, without any birds or beasts, but Lin Yi always remembered what the fire Lion said-there were Sky Class Masters here!

“My parents ... Are they from this sect?” Jingyi couldn’t help but think back to her own parents as she looked at the run-down streets ...

“It should be,” “They wouldn’t have given you this map otherwise,” Lin Yi said with a nod.

“That crazy Sky Class guy, did he know my parents ...” Jingyi sighed. “I’m afraid that when this sect was destroyed, my parents were also ...”

In her heart, Jingyi had always had a sliver of hope for her parents. Although her family said that both of them were dead, she’d rather believe that her parents were still alive until there was concrete news ...

However, her confidence wavered when she saw the ruins.

“Don’t be discouraged. Maybe they’re still alive. ” Lin Yi had a guess, but it wasn’t the right time to tell Jingyi.

“En, thank you.” Jingyi nodded gratefully. To be honest, she was very grateful to Lin Yi- he’d come all the way here with her, almost losing his life to the fifth guard of the Tagan family!

This was beyond the friendship between normal friends, and it wasn’t something that could make Lin Yi work for her sincerely just by joking about being half a lover.

A faint feeling rose in Jingyi’s heart, but she didn’t say it out loud-Lin Yi had too many women around him.

It wasn’t that Lin Yi had a lot of girlfriends, but there were just too many people who liked him. The competition was intense, and sun Jingyi had appeared as a joke from the start. Now that she was making it real, he didn’t know if Chu Mengyao and Chen Yushu would be hostile to her.

These two were the two girls Lin Yi had the closest relationship with, and if Lin Yi wanted a girlfriend, he’d probably have to listen to their advice.

“What’s there to thank me for?” “News about your parents? no news is good news.”

“I’m not talking about that ...” Sun Jingyi’s face reddened, a little shy.

“What’s that?” Lin Yi was even more confused.

“Thank you for coming here with me, and thank you for everything you’ve done for me. You almost paid with your life ...” Jingyi said solemnly and gratefully.

“I promised you this.” “To be honest, this is also a form of training for me,” Lin Yi said. “Breaking through in dangerous situations is also a pursuit of martial arts.”

“Alright ...” Sun Jingyi knew that Lin Yi was this kind of person. For his friends, for his family, for his lover, he would give up everything.

“If we want to know the exact location on the map, we have to reach the top of the mountain. Only by reaching the top can we see the entire mountain!” Lin Yi said as he looked at the map.

“En ...” Sun Jingyi nodded.

Jingyi wasn’t a normal practitioner, but she was pretty strong-the two didn’t rest at all as they made their way up the mountain. They set off at dawn, and it was noon now, and they were already close to the peak.

Of course, this was because Lin Yi had considered sun Jingyi’s speed, and intentionally slowed down his walking speed. Otherwise, if Lin Yi went up the mountain alone, he would probably be a lot faster than now.

It was afternoon when the two reached the peak, and the majestic walls and ruined Palace filled Lin Yi and Jingyi's hearts with emotion!

A fierce battle must have taken place here in the past, causing it to be in such a state. The originally magnificent buildings were now in tatters ...

Lin Yi sighed, feeling a little strange. Just what kind of terrifying power could destroy an ancient sect?

After all, ancient sects should be the most powerful martial arts force in the world, right? (To be continued.)

Chapter 2238: Chapter 2236-right under my feet

Even on the ancient level, there were strong and weak, but on the whole, the gap should not be particularly large. A sect that could establish a sect here and pass down its legacy for thousands of years should not be small.

However, it always made people feel that it was outrageous to not destroy it just because he said so!

!!

The scariest thing was that uncle Fu didn't even know who the enemy was! Did he really not know, or did he not want to say?

Lin Yi frowned at the thought. Even if the ancient house Feng was weaker, and the everyday and every day sect was stronger, it didn't mean that the everyday and every day sect could destroy an ancient sect!

Not to mention the ancient level, even in the hidden level, it would be extremely difficult for the hidden houses to suppress the Hidden House han. This ancient sect was destroyed just like that?

Just how much power was needed to cause this? Moreover, how useful must this treasure be for it to be able to annihilate a sect?

"This place ... Just from its appearance, I can tell how glorious it used to be. I didn't expect it to be destroyed." Jingyi said.

"Didn't the big fire Lion say that it's normal for sects to rise and fall? there's nothing to be sad about." Lin Yi said.

Jingyi nodded, and the two of them walked through the gates together. What greeted them was all sorts of dilapidation-houses, houses, palaces, everything was a mess, and didn't look like it was natural damage from no one taking care of it. After all, the sect had only been destroyed a dozen years ago, and uncle Fu was still so young. How old was sun Jingyi?

It was impossible for it to be this worn out without hundreds of years of disrepair.

However, it didn't look like it was caused by a battle. It looked more like man-made destruction!

That's right, it was man-made destruction! Thinking back to the ruins he'd seen on the way here, Lin Yi suddenly understood!

Uncle Fu's sect was exterminated because of that treasure, but it was hidden by the crazy Sky Class old man. In order to find that treasure, this group of bandits who came to exterminate the sect naturally didn't let go of any corner, searching everywhere. It was normal for the inside to be destroyed to this extent!

It was also in line with the mood of those people to destroy the buildings without finding the item.

Lin Yi and Jingyi were standing in a Hall at the highest point of the mountain. The hall was Grand and imposing, with some ancient Greek architectural style. The hall was like a huge Pavilion, supported by stone pillars all around. The floor was made of bricks, and above them was a huge roof!

However, everything here was made of stone, so it should have been the place where this ancient sect used to hold gatherings, martial arts performances, or major events. But now, there were broken walls everywhere, many stone pillars had fallen, and most of the roof of the hall had collapsed.

But even so, it couldn't cover up the magnificence of this place!

Standing in the hall, the terrain of the mountain range could be seen in full view. Although he could not see it clearly, he could still see the general outline very clearly!

Lin Yi took out a map, one for Jingyi and one for himself. They started to confirm their current location and their destination!

Jingyi had printed out a few copies of the map, so Lin Yi and her each had one!

"Ji Ji ..." The pig couldn't help but cry out as if it could feel the magnificence of the palace.

“Don’t be noisy. ” Lin Yi was observing the terrain, and even if Skybolt pig was excited, Lin Yi wouldn’t care.”Go to the side and play by yourself ...”

“Ji Ji ...” The pig felt wronged.

Lin Yi and Jingyi each took one side, and started looking for the location on the map. The mountain range was huge, especially the upper range, which was the most prosperous area in the mountain range. This continuous Green Mountain Range was the place where the ancient sect’s disciples cultivated, but it was turned into ruins overnight.

To be able to establish a sect here was indeed a great and fascinating thing.

Although Lin Yi’s eyesight wasn’t bad, and Jingyi had looked up the terrain of the mountain before, it wasn’t easy to find the exact location from the upper vein!

The map was very scribbled, and there weren’t any specific coordinates or landmarks-it was just a map, and it made it a lot harder for Lin Yi to find.

In a flash, the sun had almost set, and Jingyi sighed-it seemed that there was no point in panicking. “Let’s rest for a while and have something to eat?”

“You eat, I’ll look for it. I think I have some clues!” “The sun’s going to set if we wait a little longer,” Lin Yi said. “We need to make good use of this time.”

“That’s good, I’ll help you look!” Jingyi didn’t want to eat by herself after seeing that Lin Yi wasn’t eating. She picked up the map and continued searching.

“I don’t eat because I can cultivate. But you don’t eat because you’re starving?” “You don’t have to worry about me!” Lin Yi said with a bitter smile.

“How can I do that? you’re doing this to help me. How can I eat it?” Jingyi insisted.

Lin Yi didn’t have a choice-he could only use this time to look at the terrain ...

Half an hour later, Lin Yi’s eyes moved from the furthest mountain to the closest one. He suddenly felt like crying ...

Lin Yi suddenly realized that the rough map of the terrain was exactly the same as the mountain he was standing on ... It made Lin Yi feel like he’d found it all with no effort at all!

May I ask where the road is? The path is beneath my feet!

However, Lin Yi wasn’t to be blamed for this. Normally, when people were looking for the terrain on the top of a mountain, they would start from the furthest place in front of

them, narrowing down the search area until they could see what was in front of them. From far to near, it was hard to miss anything.

But because of the order, Lin Yi wasted half a day's time ... And the map was right under his feet ... He didn't know what to say ...

Jingyi found the weird expression on Lin Yi's face a little odd."Lin Yi, what's wrong?"

"The place on the map is right under our feet ..." Lin Yi pointed at the location on the map.

"It's right under our feet?" Jingyi blinked.

"That's right. It's the location at the top of the mountain!" "We were all confused by this Hall before-actually, if we were to take out the pillars and the ceiling, and just look at the tiles on the floor, isn't it perfect? doesn't it fit the diagram?" Lin Yi said. (To be continued.)

Chapter 2239: Chapter 2236-danger

"Oh?" Jingyi looked at the map in shock-it was just as Lin Yi had said, the pillars and broken walls aside, the shape really did match the map!

However, once they entered the hall, everyone's first impression was probably the magnificence of the hall. They paid attention to its magnificent appearance and ignored the green bricks under their feet.

!!

Upon closer inspection, the shape formed by these green bricks was irregular. This was because the mountaintop was irregular to begin with. Therefore, even though the main hall was built in a very regular manner, the green bricks were irregular as they covered the entire mountaintop!

And the diagram formed by this area was the diagram on the map!

"It's really like this ... It seems that it was so obvious ... But we overlooked it!" Jingyi said with a bitter smile.

"I also finally understand one thing. What do you mean by the most dangerous place is the safest? this is a large hall, the most prominent place, and the location marked on the map is here!" "But, I think everyone who comes here will subconsciously pay attention to the hall ..." Lin Yi said, surprised.

“Yeah ...” Jingyi said. “If you didn’t remind me, I would have continued to search ... And I searched from near to far. Even so, I ignored the hall under my feet. I started from the top of the mountain and spread out in all directions ...”

“Alright,” Lin Yi nodded, “since we’ve confirmed the location, let’s follow the map and find the exact location.”

“En, the sky hasn’t completely darkened yet. We can still search for a while while under the afterglow of the setting sun.

With a rough location, it was much easier to find. Although the map was very rough, they could still roughly judge the location from the map ...

Lin Yi and Jingyi worked together, and it didn’t take long for them to confirm the rough location ...

“Skybolt pig!” Lin Yi called out to Skybolt pig, only to find that the pig was lazily lying on a brick not far away, looking bored.

“Ji Ji ...” The pig cried weakly.

“Skybolt pig, this should be the location shown on the map. Can you help me look around and see if there’s anything hidden around here?” Lin Yi asked Skybolt pig.

“Rawr ...” The pig growled weakly again and pointed at the ground with its claws.

“What do you mean?” Lin Yi blinked.

“Ji Ji ...” The pig pointed at the brick with its front paw.

“You mean ... The item is here?” Lin Yi’s eyes widened.

“Ji Ji!” The pig nodded.

“So you’ve already found it?” Lin Yi suddenly remembered that when he was at the top of the mountain, Skybolt pig was squeaking non-stop. Could it be that this little thing had already found it back then?

“Ji Ji!” The pig nodded again.

“F \* ck!” “Why didn’t you say so earlier?” Lin Yi said, annoyed.

Lin Yi was speechless. The pig had found the spot as soon as it came up, but he thought it was excited and didn’t pay it any attention, letting it go play on its own. In the end, he and Jingyi wasted half a day’s effort, doing so much useless work!

“Ji Ji ...” Skybolt pig pointed at his mouth, then pointed at the brick with his paw, and shook his head.

Lin Yi understood what the pig meant-it meant that it couldn't speak, and the brick was extremely sturdy, so it couldn't write on it ...

Skybolt pig's actions made Lin Yi sigh, and he looked at Jingyi awkwardly. It was his mistake that led to the current situation-if he'd paid more attention to Skybolt pig, he wouldn't have to go through so much trouble!

“It's not your fault. I didn't pay attention at the time. ” Jingyi didn't know whether to laugh or cry-the pig had found his target right from the start, and she and Lin Yi had wasted so much time like idiots,”However, it's a good thing that we found it. Everything went smoothly, and there were no accidents.”

“That's true!” Lin Yi nodded. On the mountain peak, Lin Yi was most afraid of the Sky Class Masters the fire Lion was talking about, but it seemed like the entire mountain was quiet, with no one else but him and Jingyi.

Lin Yi squatted down and carefully pried up the brick that Skybolt pig was pointing at. This was an easy task for an Earth Class like Lin Yi, but there was only mud beneath it-there was no hidden compartment.

“Are you sure it's here? There's nothing here. ” Lin Yi looked at the area under the bricks, confused.

“Ji Ji!” Skybolt pig nodded with certainty and reached out his front paw again, pointing under the brick. The thing was there, but it might be in the soil.

“Alright,” he said. Since the pig was sure, Lin Yi didn't say anything else and started digging. This kind of hard soil wasn't difficult for Lin Yi-he could dig with his hands.

However, Lin Yi didn't feel anything different after digging for a few times, but since Skybolt pig was so confident, Lin Yi continued to dig. After digging for about thirty centimeters, Lin Yi's hand touched something hard. It seemed to be a metal box!

Lin Yi's heart skipped a beat-there really was something there! He sped up his digging and dug it out in no time!

It was a plain-looking metal box. It didn't look gorgeous at all, but it was obvious that the workmanship was very good. There were also rubber strips sealing the gaps to prevent water from entering.

“You've found it?” Jingyi looked at the box in Lin Yi's hands, surprised and excited!

The secret of his parents that he had been looking forward to and fantasizing about for many years could perhaps be unraveled through this little metal box!

Lin Yi was just about to say something when the Jade in front of his chest sent out a warning signal!

Lin Yi smiled bitterly. He didn't think that what was supposed to come would come. He thought that this trip to Wulong haote mountain range would be a bumpy one, but the end result would be good. What he didn't expect was that it wasn't the end yet. Perhaps, the danger and battle had just begun!

"There are enemies!" Lin Yi said quickly. (To be continued.)

Chapter 2240: Chapter 2238-smart person?

With that, Lin Yi pushed the metal box into Jingyi's arms, "I'll face the enemy in a while. You protect yourself carefully and see how many enemies there are. If there's only one, run to the fire Lion to take refuge. Don't worry about me!"

"Ah!" Jingyi was just about to say, "no way!" How could I possibly escape alone? But seeing the determination in Lin Yi's eyes, Jingyi sighed and didn't say anything. She was extremely nervous-she'd already found what she wanted, and now the enemy was here!

!!

"So it's you guys!" A deafening laugh rang out, making everyone who heard it feel extremely displeased. "You've made me wait for so long. I've been waiting here for more than ten years, day and night, looking forward to the stars and the moon. But in the end, you didn't disappoint me. In the end, someone still appeared here!"

"Who are you?" Lin Yi's cold eyes scanned the direction of the voice. It was an unkind person. Lin Yi didn't notice anyone on the mountain before, so there were only two possibilities. One was that this person had just arrived, and the second was that this person's strength was much higher than Lin Yi's, and was good at hiding his strength. Before Lin Yi found the thing, he didn't show any hostility at all!

If it was the second possibility, then the enemy in front of him would be a very scary one. But Lin Yi knew that the possibility of the second possibility was much higher than the first.

"You don't need to know who I am." The person's figure quickly floated over and appeared ten feet away from Lin Yi and Jingyi. He was wearing a black Eight Trigram

robe, and his attire was as weird as it could get. He looked to be around forty years old, and Lin Yi could tell what strength level he was from the aura he was emitting!

Sky Class early phase!

But, although he was only sky Class early phase, Lin Yi could clearly feel that he was different from the Sky Class early phase of the hidden houses! Compared to this Sky Class early phase, the Sky Class from the hidden houses were extremely weak!

Although their strength levels were the same, their auras, auras, and the pressure they gave off were completely different!

This person was a formidable opponent!

Lin Yi didn't have any doubts about this-the Sky Class Masters of the hidden houses mostly used elixirs or treasures to force their strength up. There were very few who really broke through by themselves, and this person in front of him had definitely broken through to Sky Class by himself!

It was the same as Lin Yi fighting a master of the same level. Lin Yi could kill the eighth guard instantly, but the eighth guard couldn't. It was the same logic.

"Which force do you represent?" "Did you guys destroy the ancient sect here?" Lin Yi asked faintly.

If Lin Yi's guess was right, then he could more or less tell the identity of this Sky Class early phase master.

"You're smart." The Sky Class early phase master said faintly. He was the head guard of the Tagan family, but he wouldn't tell Lin Yi about his identity or his real identity. Even if Lin Yi was a dying man in his eyes, he couldn't just talk about that place ...

"However, many smart people have short lives." The guard didn't answer Lin Yi's question but said, "Hand over all the good stuff you have and I'll leave your corpse intact."

"Everyone knows how to talk big. If you want the thing in my hand, you'll have to beat me first." Lin Yi didn't sound very confident when he said that-he'd made those old Sky Class early phase people so scared that they didn't even dare to make a move back at the Hidden House meeting, creating the illusion that he was invincible against Sky Class Masters.

But Lin Yi could feel that this person in front of him wasn't as cowardly as those Sky Class old men-he was a tough character!

“Hit you? An Earth Class mid phase, and you’re talking to me like that? you’re overestimating yourself!” The guard looked at Lin Yi mockingly. “Hand over your things obediently, and I can guarantee that your woman will not die!”

The guard saw Jingyi clearly as well, and he was certain that this wasn’t the person they were looking for all those years ago, but someone who looked similar. Even so, this person was definitely related to that person, and so the guard couldn’t make the decision-he had to bring her back to that place and let the Lords decide ...

“If that’s the case ... Then you can die, old thing!” With that, Lin Yi threw out a Qi bomb, followed by the fifth style of the wild fire Fist, along with a divine fire bullet!

“BOOM!”

A thunderous sound rang out from the Guard’s chest, followed by Lin Yi’s fifth style of the wild fire Fist, aiming for the Guard’s chest!

Since this guy had appeared in front of him, Lin Yi had to fight him. So, Lin Yi’s first move was to kill, leaving no room for mercy.

There was no way Lin Yi could outrun a Sky Class master-no matter how skilled he was, he wasn’t a Sky Class master’s opponent. In front of Earth Class Masters or Sky Class elders from hidden houses, Lin Yi had the confidence to escape, but against someone like the head guard, he had no confidence at all!

Floating back and forth-they were the same as aunt Qing and the rock Candy Girl back in the Ice Palace-they were “real” Sky Class Masters, completely different from those who used pills and treasures to level up without any actual combat experience.

Especially with sun Jingyi by his side, Lin Yi couldn’t just run away on his own-he had to fight the guard!

The guard didn’t think that a master at Lin Yi’s level would dare to attack a Sky Class master-he was both shocked and furious!

Although Lin Yi’s attack at this level couldn’t do much damage to him, he was still furious! This was Lin Yi’s contempt for him!

The head guard already knew what happened when they were hunting the fire Lion at the bottom of the mountain range. Although Lin Yi took care of the eighth guard when he was unprepared, he was kicked around like a ball by the fifth guard. If it wasn’t for the fire Lion, Lin Yi would have been kicked to death by now!
