

Beauty and the Bodyguard

c 2241

This also caused Lin Yi's attack to hit the guard. Not only did the energy bomb explode on the Guard's chest, but Lin Yi's fifth style of the wild fire Fist, combined with the divine fire bullet, also hit the Guard's body with the tenth style!

It was already too late when the head guard started channeling his Qi to protect his body, and he was still injured by Lin Yi. Although it was a light injury, it was a great humiliation to the head guard!

The Guard's face was filled with hatred and anger as he glared at Lin Yi with bloodshot eyes. His chest was in turmoil from Lin Yi's attack, and he had to circulate his practitioner's Arts to calm it down. "Good, very good! Brat, I've underestimated you. You can actually execute such a powerful martial technique? If I'm not wrong, this martial skill of yours already has the power of the eleventh move, right?"

"Hmph!" Lin Yi didn't expect that his full-powered attack would only cause the Guard's blood to surge. It was only a moment, and the guard returned to normal. This made Lin Yi's heart dim. He ... Was still too weak!

Lin Yi's confidence had reached its peak at the Hidden House meeting, but he was hit hard by the impact at the mountain range.

"It's fine if you don't want to tell me. I don't want to know your secret. " "I have to say," the guard said faintly. "You have some skills among the younger generation, but it's not an injustice for you to die by my hands. Even if you're a proud disciple of an ancient sect, it's not an injustice!"

"Why are you fine? My move just now was like the eleventh move-you're a Sky Class early phase, and you'd only be able to use the eleventh move at most. Even if you used your Qi to protect yourself, there's no way you'd be fine, right?"

This was what Lin Yi didn't understand the most. When Xu Shihan and Cheng Yiyi were attacked, he fought with the earth Class man, and the earth Class man couldn't withstand Lin Yi's martial skill. But this person in front of him didn't seem to be hurt at all.

"You really want to know?" The head guard smiled faintly and said, "then there's no harm in me telling you. I'll let you die knowing the truth. This move of yours has the power and the momentum, but you don't have the real strength. You've only relied on unorthodox methods to raise your strength. The strength of your true Qi is far from enough! It's fine against a Sky Class early phase, but you're out of luck Against Me!"

After hearing the Guard's words, Lin Yi's expression changed. He didn't think that things would develop to this point!

This was Lin Yi's toughest and most troublesome battle-he'd already decided to retreat before the fight even started.

If what the guard said was true, then Lin Yi really wasn't his match.

"Sigh, since you're so confident, how about taking five of my moves? If you can take five of my moves, I'll give you the item and you can do whatever you want with it!" Lin Yi said unwillingly after some hesitation.

Lin Yi's suggestion surprised the guard. He didn't expect Lin Yi to make such a weird request at a time like this.

However, Lin Yi's suggestion did move the guard!

Although Lin Yi was nothing in his eyes, and taking Lin Yi and Sun Jingyi's lives was as easy as turning his hand over, he was afraid that Lin Yi and Sun Jingyi would split up and escape! If sun Jingyi ran away, he would definitely chase after her, but if Lin Yi ran away, there were some variables. If Lin Yi really ran away with the two Spirit beasts "inner cores and went to the fire Lion, then he really couldn't do anything!

Of course, Jingyi's treasure was much more important than the essence Qi pellet, but Lin Yi didn't want to miss out on the pellet.

Thinking of this, the guard slowly nodded his head and said, "Alright, since that's the case, I'll take five of your moves."

"Alright, then I'm going to make my move!" Lin Yi relaxed and started compressing the energy bomb even more. On the surface, Lin Yi looked like he was preparing something.

"Are you going to make a move or not?" The guard saw that Lin Yi wasn't making a move, and frowned, getting impatient.

"Attack! Don't I need to prepare for a while? Just now, my fierce attack didn't do anything to you. This time, I have to prepare more and come up with a ruthless move. " Lin Yi said.

"Hurry up!" The head guard coldly snorted. He even came up with a ruthless move? He didn't know what Lin Yi was doing, but he figured that Lin Yi wanted to do something to him when he wasn't prepared.

However, the guard laughed coldly in his heart-a Sky Class master, you think you can just sneak attack him?

"Soon!" Lin Yi said.

"..." The head guard was speechless. He thought to himself, 'if I wasn't afraid of trouble, afraid that you would run away with the two Spirit beasts' inner cores, I wouldn't even bother to play this game with you!'

However, Lin Yi was still standing there calmly, as if he was about to make a move, but at the same time, he didn't seem to be. She didn't know what he was doing.

Jingyi was worried, and wanted to ask Skybolt pig to call the big fire Lion for help, but she gave up on that idea when she remembered what the big fire Lion said.

If the fire Lion was willing to come with them, it would have done so a long time ago. It didn't come up because it had its own reasons, and Jingyi couldn't force it. She looked at Lin Yi worriedly, not knowing what he wanted to do.

Lin Yi was stalling for as long as he could-if even the 11th fist couldn't do anything to the head guard, then the only thing he could rely on was his energy bomb. It was Lin Yi's magic weapon that worked every time-no matter what level you were, you'd still get blown up!

However, the weakness of this move was that it took a long time to use. If the enemy didn't give Lin Yi time, then he couldn't do anything.

"Are you done? If you don't act now, this old master will change his mind!" The guard didn't know what Lin Yi was doing, but he was getting impatient.

"Oh, it'll be done soon." "You're a master, you should at least give me some time to prepare, right?" Lin Yi said.

"You can prepare, but what do you want to do with this endless preparation? Could it be that he's trying to stall for time and think of a way?" The guard wasn't stupid-Lin Yi was only earth Class mid phase, and no matter how strong he was, he couldn't do anything to him. Lin Yi's actions were suspicious.

"There's no end to it. I'm going to make a big move, and it has to be done in one go, so I need to recover my strength." Lin Yi said, pausing intentionally. (

Chapter 2242 The Eleventh Move Of Wild Fire Fist

"I was injured yesterday, and it was very serious. You know that the move I used on you just now has consumed a lot of my energy, so I need to recover!" He continued.

"Then hurry up!" The guard naturally knew about Lin Yi's injury, and he nodded as he thought it made sense.

"I know." Lin Yi replied faintly, but his guess was confirmed-this person was most likely taganlong's man! Lin Yi had his reasons for showing up here-yesterday, only taganlong and lazi knew that he was injured. The others were all dead.

The guard didn't seem surprised when Lin Yi told him about his injury, as if he understood everything, which proved that he knew about it.

The only thing Lin Yi wasn't sure about now was the relationship between the head guard and the Tagan family. As far as Lin Yi was concerned, the Tagan family shouldn't have the power to destroy uncle Fu's ancient sect. They couldn't even handle a little fire Lion, let alone a huge ancient sect.

But, if uncle Fu's sect wasn't destroyed by them, then where did this head guard come from? How would he know about the treasure?

The only possible explanation was that the Tagan family was inextricably linked to uncle Fu's enemies.

The head guard waited for another ten minutes before he finally couldn't take it anymore. "Little brat, are you done? If you don't make a move, I'll personally send you on your way!"

Lin Yi sighed in his heart. He was still far from enough. He had only gathered one-third of his energy. This energy bomb could probably cause fatal damage to the fifth guard yesterday, but Lin Yi had no confidence at all against this person in front of him!

But on the surface, Lin Yi nodded seriously, "Here it comes, take this ... Wild fire Fist, first form!"

With that, Lin Yi used the first form of the wild fire Fist, but this form was self-practiced in the air and didn't attack the guard!

On top of that, Lin Yi was trying his best to slow down the speed of his punch without affecting the progress and power of his wild fire Fist. Meanwhile, Lin Yi's left hand was still compressing the energy bomb.

The guard heard that Lin Yi was about to use his skill, but he didn't fight back. He used his Qi to protect his body-he said five moves, and he was a Sky

Class from that place, how could he go back on his word against an Earth Class mid phase?

And so, the guard didn't have any intention of retaliating. He was ready to take Lin Yi's move head on.

However, Lin Yi didn't even hit him when he was ready. This made the guard speechless. Was this guy crazy? After preparing for a long time, he practiced a move in the air?

Even so, the guard ignored Lin Yi and hmped coldly, continuing to use his Qi to protect his body.

"Wild fire Fist, second style ..." Lin Yi continued to activate his skill, but this time, he was still practicing on his own. He had no intention of attacking the guard at all!

Kid, you want to paralyze me and then take the opportunity to sneak attack me, right? The guard was trying to guess Lin Yi's intentions. He guessed that Lin Yi didn't have the confidence to fight him face to face, so he was looking

for an opportunity. He was practicing on his own to confuse him and make him let down his guard before making a sneak attack.

This was the only thing the guard could think through-what else could Lin Yi do if he didn't really start attacking?

"Wild fire Fist, third style ..." Just as the guard was thinking, Lin Yi had already used the third style of the wild fire Fist. Even though Lin Yi had already slowed down, the activation of martial arts skills required continuity. Only by stacking each move in one go could the power of the last style be fully unleashed!

Lin Yi had just used the fifth style of the wild fire Fist and a small energy bomb, and it didn't do anything to the guard. So this time, Lin Yi was going to give him something even more ruthless! Of course, if that didn't work, then he'd have to figure out an escape route ...

"Fourth style of the wild fire Fist ..." Lin Yi had already used the fourth style.

The head guard frowned."You've already used four moves. There's one last move left. If you don't use it, then I'll count it as you using it!"

He had to remind Lin Yi-what if he said that he was just warming up after finishing the fifth move and that it wasn't considered a move? the guard would go crazy!

"Oh ... I know, the fifth style of the wild fire Fist ..." Lin Yi said as he activated the fifth style of the wild fire Fist. In that instant, Lin Yi's body moved ...

The head Guard's eyes narrowed and a sharp glint streaked across his eyes. He sneered in his heart. As expected, the first four moves were feints. The last move was the ultimate move that was ready to be used! However, so what if it was a big move? Even if the previous four moves were all feints, and Lin Yi had to rest for a long time before using this ultimate move, the head guard still saw Lin Yi as a spent force. According to ta ganlong and lazi, Lin Yi must've been seriously injured by the fifth guard!

However, even if he guessed Lin Yi's purpose, the guard still stood there. He was confident that with his pure Qi protecting him, Lin Yi wouldn't hurt him at all. As long as he took this attack from Lin Yi, Lin Yi would hand over the treasure obediently, saving the guard from having to do anything.

"Bang, bang Bang Bang Bang!"

As Lin Yi's figure shuttled through, there were two loud sounds. It was the Qi bomb, the fifth style of the wild fire Fist, and the divine fire bullet, the eleventh style, which was even more powerful!

"Pfft ..." The head guard spat out a mouthful of blood! He looked at Lin Yi in disbelief-he couldn't believe that he'd been injured by a mere Earth Class mid phase! To be able to break through one's true Qi protection, even if it was an ordinary expert of the same level, it would be somewhat difficult!

However, Lin Yi had successfully broken through his pure energy defense and injured him!

Lin Yi didn't stop after the attack. He used the fifth form of the thousand changes of wood and forest again. His two fists split into ten, and all of them landed on the chest of the guard that Lin Yi's energy bomb had broken open!

Although these ten punches were not as powerful as the fifth move of the wild fire Fist combined with the divine fire bullet, the wild fire Fist could only exert

great power in one go. If it was used alone, it might not be as powerful as the effect of the thousand changes of wood and forest!

As for the fire bullet, there was only one left, and Lin Yi didn't want to waste it. The first one was already wasted and didn't do much damage to the guard, and the second one did have some effect, but it didn't reach the effect Lin Yi expected. (

Chapter 2243 2241-Preparing To Escape

After ten punches, Lin Yi looked at the guard as he recovered from his shock. He quickly turned around and retreated, not wanting to have a direct confrontation with the guard.

The previous punch combined with the divine fire bullet's wild fire Fist had already caused some injuries to the head guard. These last ten punches caused the blood in his chest to churn, and he spat out another mouthful of blood!

However, this kind of injury was only a light injury, not serious. Even so, the Guard's face was cold. He raised his hand and wiped the blood from his mouth with his sleeve. He looked at Lin Yi coldly, "Very good, you have some skills! However, that's all there is to it!"

"Hey, old thing, this doesn't feel good, right?" Lin Yi was mocking the head guard, but his heart was racing-could he use this chance to escape? What were the chances of successfully escaping?

"Hmph, your last move, if I'm not wrong, should be three moves!" The guard wasn't stupid-he could tell that Lin Yi had used three moves when he attacked.

Lin Yi frowned-the guard wasn't stupid, either. He was able to tell the difference between Qi bomb, wild fire Fist, and wood forest thousand transformation. "Can't they be activated at the same time?"

"Fine, this old master won't argue with you over this!" The head Guard's face was cold as he said indifferently, "This old man has received your move, so it's time to hand over the thing with both hands, right?"

"Things ... I've said it before, if you want it, come and get it yourself!" Lin Yi said.

"What's wrong? You're not keeping your word, are you trying to cheat people?" The head Guard's expression instantly turned unsightly.

"Lying? When did I lie? Old thing, I've never treated you as a human. I only treat you as an old dog!" Lin Yi laughed, but he secretly gave Jingyi a look, telling her and Skybolt pig to find a chance to escape!

He'd used up all his strength just now, but he couldn't do anything to the old man. The energy bomb wasn't completely compressed, but there wasn't enough time. Lin Yi really couldn't do anything to this old man!

The difference in strength between Sky Class and Sky Class wasn't something that could be made up for with just a few moves and normal cards.

"Good, very good. Since that's the case, don't blame this old man for being impolite!" The head guard was very angry. Yes, he was really very angry! He was angry at Lin Yi for not keeping his word! He was an expert from that place

and often claimed to be the Orthodox of the martial arts world. Even when he destroyed the sects here, he found an excuse to do so.

So, he promised Lin Yi five moves, and he gave Lin Yi five moves. He didn't expect a junior to do this to him.

When he said this, his ashen face was filled with a sharp killing intent!

Jingyi didn't want to leave Lin Yi behind, but she had no choice. Lin Yi was fighting so hard just to protect the box in her arms, wasn't it? If the box was taken away, all of Lin Yi's efforts would be in vain!

She'd be a burden to Lin Yi if she stayed here, and so she turned around and ran after Lin Yi's signal!

"You want to run? Let's stay here together!" The guard was really angry-he didn't want to hurt her, and was planning on bringing her back for the higher-ups to deal with, but if she ran away, he'd have to hurt her first.

With that, the Guard's eyes narrowed, and a powerful Qi burst out from his body as he turned into a shadow that shot towards Jingyi with an overbearing force!

The eight trigrams robe on his body swelled up under the effect of his true energy, giving off a buzzing sound. It was obvious that he was truly enraged and did not hold back at all!

Lin Yi didn't think that the head guard would give up on him and go for the escaping sun Jingyi-he couldn't help but frown! From the looks of it, he had calculated wrongly. No matter how angry this head guard was, he did not lose his composure and still remembered his purpose.

It seemed that his plan of letting Jingyi escape alone in the chaos wouldn't work-the head guard didn't buy it at all. His eyes were on the box in Jingyi's arms, followed by the two Spirit beast cores.

A spiritual beast's inner core was just a toy for taganlong to show off. It didn't matter if he had it or not. As long as he got this box and handed it over to that place, it would be easy to get a few spiritual beast inner cores as a reward.

Lin Yi didn't have a choice-he'd have to face it head on. He pushed off the ground with both feet, and with a burst of energy, his body turned into a flash of lightning, blocking in front of Jingyi!

Fortunately, Lin Yi had experience as an assassin before, and with his exquisite footwork, he wasn't any weaker than the guard in front of him. However, Lin Yi blocked it, but with two "Peng Peng" sounds coming from his chest and abdomen, Lin Yi was sent flying by the guard, and he crashed heavily onto the ground!

"Brat, I haven't even used my martial technique yet, and you're already so weak?" The guard said coldly as he stared at Lin Yi.

"Sky Class early phase, is that all you've got ..." Lin Yi stood up from the ground. To be honest, the head Guard's one move without using any skills was even better than the fifth Guard's tenth form yesterday. But Lin Yi didn't resist it, he used all his Qi to protect his body, and while he was in the air, he entered the Jade space to heal quickly. Even so, Lin Yi knew that he couldn't last much longer!

Lin Yi needed to think of a plan, or he'd be dead for sure.

He looked at the box in Jingyi's arms, and made a decision. From the way the guard attacked Jingyi when she was running away, he could tell that the Guard's main target was the box.

If Lin Yi took the box from Jingyi and ran towards the lion's cave, what were his chances of winning?

Lin Yi had an exquisite footwork combination, but he wasn't 100% sure that he'd be able to escape. But what if he gritted his teeth and ignored the consequences? Leaving his back open to the head guard, not caring about his attacks, as long as he held his breath and constantly used the true Qi in the Jade space to heal his injuries, what if he ran all the way without defending?

In a situation like this, the chances were 50 - 50. As long as Lin Yi didn't fall and kept running, he could make it to the fire lion's cave and the alarm would be off.

But, if the guard couldn't catch Lin Yi, could he turn back and deal with sun Jingyi?

In this case, Lin Yi had to convince the big fire lion's family to hold the guard at the entrance of the cave. It shouldn't be a big problem. (

Chapter 2244 2241-Not A Match

Although the head guard had said that according to the rules, the spirit beasts would not go to the upper pulse, the middle pulse was the territory of the spirit beasts. If human cultivators came to the middle pulse, would the spirit beasts still let them go?

With that thought, Lin Yi took a deep breath and prepared to run, but the guard seemed to have seen through his thoughts and said coldly, "Brat, don't think about running away. If you dare to run, I'll kill your female companion with a single palm strike first, and then I'll chase after you!"

The guard saw Lin Yi's fear and threatened.

"Despicable ..." Lin Yi spat out the word. He didn't think that the guard would know his plan, but as pissed as he was, he couldn't do anything! It didn't matter if the guard was telling the truth or not, Lin Yi didn't dare to try.

"A man with small tolerance is not a gentleman without poison." "I originally wanted to leave your corpse intact, but you've already made me lose my patience. Brat, you can die now!" The head guard said disapprovingly.

The head guard waved his hand as he spoke and a soft whip appeared in his hand!

Weapons ... Lin Yi took in a cold breath. He heard that Sky Class Masters could use their skills with weapons, increasing their power, but he had never seen it before. He didn't think that he would see it for the first time here!

The Guard's attack without using any martial arts was already too much for Lin Yi to handle, and although he'd wasted a lot of time with him, he'd still managed to recover most of his injuries, but who would've thought that this guy would take out his weapon?

Lin Yi's mouth twitched-he sure was unlucky, losing again and again in the mountain range. Could it be that he'd used up all his luck during the Hidden House meeting?

"Do we need weapons to deal with a mid earth-rank?" Lin Yi took a deep breath.

"Hmph!" The guard didn't care about Lin Yi. He could tell that this kid was very cunning and wouldn't let go of any chance to turn the tables. Since that was the case, he didn't hold back either. He raised his soft whip, and it was instantly wrapped in a layer of green qi. He quickly whipped it towards Lin Yi,"The first move of furious sea and wild waves!"

A huge force came crashing towards Lin Yi, and he was shocked. He didn't dare to face it, and picked up sun Jingyi from behind him, channeling his Qi to protect both of them as he turned his steps and dodged to the side.

"BOOM!"

The soft whip landed where Lin Yi was standing just now, and the huge force hit the brick with a loud bang. The brick flew up with the huge force, and the place where the brick was originally was now a huge pit!

Lin Yi dodged quickly, but he was still hit by the Whip's force. His right arm's clothes were torn, and his bone was visible.

He was too strong! That was Lin Yi's only thought. He'd already dodged it, and he'd been using his pure Qi to protect himself, but the Whip's energy still injured him so badly, not to mention that it'd hit him.

It was probably as the head guard had said. If he was hit, it would be a fatal blow and he would be left here.

Dust flew all over the place, and Lin Yi's face turned serious as he felt his almost numb right arm. A Sky Class early phase-this kind of power was way beyond Lin Yi's mid phase Earth Class by who knew how many times. It made Lin Yi's heart bitter.

"He dodged quickly!" The head guard sneered. He had not aimed at all with that move just now and had only casually pulled it out. He didn't care about it

and only said teasingly, "This old man will also play a game with you. This old man will whip you five times. If you can block it, then this old man will let you go. How about it?"

Lin Yi's mouth twitched-the old man was clearly trying to fool around. That was only the first move, and with his Sky Class early phase strength and the soft whip, it was already a shocking force. If this guy used his strongest move, would he still be alive?

Let alone five, Lin Yi might not even be able to Dodge one more!

"Good! It's a deal!" Although he knew that this old thing was playing with him, he had no choice but to brace himself at this time.

"It's best not to die too quickly. That would be too boring!" The guard put away the whip and raised his head to smile at Lin Yi. He raised his right hand again and moved his body slightly, "The eleventh move of furious sea and wild waves!"

F * ck! Lin Yi heard the Guard's shout and almost spat blood. It was the first form, and now it's the eleventh? After all, the Sky Class early phase's

strongest move was probably the eleventh move, and this guy was clearly trying to kill him with one move!

Subconsciously, Lin Yi's first thought was to run. He couldn't take the whip head on-he'd die if he did, so he activated his footwork again. However, he didn't expect that the guard seemed to want to kill him this time. The whip was like a maggot in his bones, sweeping wherever Lin Yi dodged, not giving him a chance to hide at all.

Lin Yi couldn't be angrier when he saw the killing intent in the Guard's eyes. Old thing, when I get back on my feet, you'll be the first one I kill!

Lin Yi felt too aggrieved in this battle. He was fighting someone who was several times stronger than him, and the difference in strength was simply too great. No matter how hard Lin Yi tried, he couldn't do anything to this guy.

However, Lin Yi had no room to maneuver anymore. He carried Jingyi with all his might and threw her into the air. He didn't care where he could throw her-he couldn't dodge this whip, so he might as well take it head on. He wouldn't die immediately after getting hit.

Sun Jingyi, on the other hand, wasn't much better off-she'd probably be dead after getting whipped.

"Bang!"

The moment Lin Yi threw Jingyi out, the whip came at his face, landing on his chest!

Lin Yi spat out a mouthful of blood as he stumbled back two steps, falling to the ground with a pale face.

The force of the whip was too strong. Even with the protection of his Qi, Lin Yi could feel that all his ribs were broken, and most of his organs were injured. If he didn't use the momentum of his landing to divert some of the force to the brick under his feet, he would have suffered even more serious injuries!

Even so, the brick under Lin Yi's feet was already crushed into pieces!

Lin Yi knew that he couldn't take it head on, so he didn't bother to stand up. He laid on the ground and started circulating the second stage of the art of Dragon mastery, healing his injured body quickly! (

Chapter 2245 2243-A Man Who Tries To Bite The Gold

However, his injuries were too severe and could not be healed in a short time. If it weren't for the fact that Lin Yi was still breathing, a normal practitioner would've died in an instant. Fortunately, Lin Yi had the Jade space, which was a backup package, allowing him to heal his injuries anytime.

"He didn't die?" The guard was a little surprised-this Earth Class mid phase was indeed impressive-be it the strength of his attacks or his tolerance for injuries, he was much stronger than other Earth Class fighters!

However, the more this kind of person was, the stronger the head Guard's killing intent! Once this guy grew up, he'd definitely come for revenge. Earth Class mid phase and Sky Class early phase, it seemed like there were still a few levels, but Lin Yi was so young, mid phase Earth Class. Who could guarantee that he wouldn't be able to step into Sky Class within a few years?

The moment Lin Yi stepped into Sky Class, the head Guard's advantage would be gone-if Lin Yi could still fight people above his level, then the head Guard's life would be taken away sooner or later.

So, in order to prevent this from happening, the guard decided to cut the weeds and eliminate the roots. He had to kill Lin Yi no matter what.

Jingyi's heart felt like it'd been hit by a giant hammer as she looked at Lin Yi, who'd fallen to the ground in pain.

She really regretted coming here. She shouldn't have explored her parents "secrets, and she shouldn't have brought Lin Yi!

In order to protect her, he did not hesitate to lose his life. How could she repay him?

But, Jingyi knew that Lin Yi was dead, and she would be next ... Forget it, if I can't repay you in this life, I'll definitely do it in the next life ... In the next life, I'll be your lover, a lover that belongs to you completely ...

Jingyi's eyes were brimming with tears as she looked at Lin Yi on the ground, barely breathing.

"Of course he's not dead!" Lin Yi spat out a mouthful of blood, "old thing, which sect are you from?" If I die, I'll die with a clear mind and take revenge on you in my next life!"

"What, you want to get information out of me?" The guard paused, not expecting Lin Yi to ask a question like that before he died.

"Of course. Otherwise, I won't be able to die in peace." Lin Yi was just trying to buy time-his injuries were too severe, and he needed to recover as soon as possible.

"I'm sorry, but you can only die with your eyes wide open. " Even now, the head guard still couldn't say anything about the power behind him. Although this wasn't a big secret on a certain level, there were some things that couldn't be said.

"Alright, I won't ask anymore. Then, what exactly is this thing that you want to snatch? What's it for?" Lin Yi changed the topic.

"Oh? You don't know?" The guard was taken aback, not expecting Lin Yi's questions to get more and more ridiculous.

"If I know, do I need to ask you?" Lin Yi asked.

"If you don't know, how did you know about this place? who sent you here?" The head guard asked, puzzled.

He thought that Lin Yi and Jingyi would know what the treasure was and what it was used for, but they didn't? As the saying went, one's words were kind when one was about to die-even an idiot would know that Lin Yi didn't have long to live. He was still alive, but he'd die sooner or later.

So, Lin Yi really didn't know what that thing was for?

"We have a map. We came here according to the map." Lin Yi said straightforwardly.

"So that's how it is. Where did the map come from?" The head Guard's eyes flashed sharply. It was better that they didn't know. The fewer people who knew the true use of this treasure, the better!

He'd thought that these two had some sort of connection to the two people they were looking for, and that the head guard kept her because he didn't want the news of the treasure to spread. He'd wanted the higher-ups to investigate the relationship between her and the two people they were looking for, and how many people knew about it.

But now it seemed that there was no need. Since these two people didn't know, they could die! After they died, the secret of the treasure would not be spread.

"First, tell me, what's in that box?" Lin Yi asked.

"Haggle with me?" "Since that's the case, you don't have to say anything more. Go to hell!" The head guard laughed coldly.

With that, the guard raised the soft whip in his right hand again, and the powerful green qi filled the soft whip again. In the next moment, the soft whip burst out and swept towards Lin Yi's head!

Lin Yi's heart skipped a beat-if the whip broke his head, he wouldn't be able to fix it even with the art of Dragon mastery. He subconsciously rolled to the side in shock and fear, looking extremely pathetic ...

However, the whip seemed to have eyes as it followed the direction Lin Yi rolled in!

Jingyi subconsciously closed her eyes as the whip was about to hit Lin Yi, only to hear a loud clang-it was the sound of two weapons clashing!

A section of the black metal rod blocked the soft whip, and when the whip and the rod met, a huge energy collision occurred. A red and a green pure energy exploded at the point of contact, and the powerful force sent Lin Yi flying a few meters away.

However, it was only the shockwaves from the clash of the two pure Qi that affected Lin Yi. It didn't hurt Lin Yi much. Instead, he used the shockwaves to push Lin Yi away from the center of the collision.

"This old man gave you the map, what do you want?" An old man with disheveled hair and tattered clothes was holding a black iron rod. He stood where Lin Yi was lying down, smiling coldly at the guard. His aura was stronger than the guard's!

"Master!" Lin Yi couldn't help but blurt out these two words after seeing the old man who saved his life at the most critical moment.

"Li 'er, quickly take Luan' er and hide. Leave this place to your master!" This old man was the weird Sky Class man Lin Yi met after the test-he didn't think he'd meet him here, at his most dangerous time.

While Lin Yi let out a breath of relief, he was also a little worried-this cheap master of his was Sky Class late phase peak, but he didn't seem to be very smart. Would he run away after two hits?

Then he and Jingyi would be in danger again!

Hearing the strange man call Lin Yi and Sun Jingyi that, the head Guard's eyes flashed with a trace of suspicion. Li 'er? Huang 'er? Weren't those the names of those two people? Was the old man's mental illness acting up again, or were the two juniors in front of him the same two people in disguise?

The head guard looked at the strange heaven rank man in front of him and gritted his teeth! (

Chapter 2246 2244-Healing

Seeing that the matter was about to succeed, in the end, a Cheng Yaojin came out halfway!

This old thing would occasionally appear in the mountain range of Wulong haote. It was not that the head guard did not know about it, but rather, he knew it quite well!

This was because the strange sky Class man was one of the people he was in charge of monitoring. However, this old thing was crazy, and his strength was terrifying. He had reached the peak of the Sky Class late phase peak, and so the head guard didn't easily provoke him, letting him walk around the mountain range.

This guy was stupid-he was Sky Class late phase peak, but he wasn't too alert, and didn't notice the guard watching him.

As for finding a few more people to capture this old thing, it was not that the head guard had not thought about it. The key was that this fellow was highly skilled in martial arts. Not to mention that it would be troublesome to capture him, even if they did, they probably would not be able to get any information.

This person's words were incoherent, without a single important point. It was better to let him wander around the mountain range. If that thing was really hidden by him, maybe one day he would remember it and find it, then the head guard could sit back and enjoy the fruits of his labor.

However, this fellow's appearance today wasn't a good time, causing the head guard to be extremely depressed!

This old man was clearly trying to stand up for Lin Yi and Sun Jingyi, forcing the guard to have no choice but to fight him head on! Although the head guard was the direct disciple of that place and was more powerful than ordinary experts of the same level, this old thing's strength was several levels higher than his, making him feel uncertain in his heart!

"Old man, this has nothing to do with you. What are you doing here?" The head guard asked.

"Li 'er, your master will help you take revenge! Take Huang 'er and leave first. There's a cave over there, you can wait for me there!" As the strange heaven rank man spoke, he let out a strange laugh, raised the black iron rod in his hand, and smashed it towards the head guard!

The massive searing flame true Qi wrapped around the black Obsidian rod and struck straight at the head Guard's head!

The Guard's expression changed slightly, and he had no choice but to raise his whip to meet the attack. However, he was relieved to see that this old

thing didn't use any martial arts techniques, but completely relied on his true energy to control the weapon, which made the guard feel relieved.

"BOOM!"

The whip and the rod intertwined again, making a loud sound that shook the sky. The collision of the powerful true energy brought about a huge explosive field. For a time, sand and stones were flying in the sky ...

"What a strong force ..." Lin Yi used this time to recover his injuries-of course, it was only a part of it. His meridians and organs were repaired, but that was only to ensure that he wouldn't die. His ribs were still broken, but that wasn't important-he just looked a little more miserable.

With the help of the Sky Class man, Lin Yi naturally wouldn't stay here and die. He picked up Jingyi and ran in the direction the Sky Class man was pointing at with Skybolt pig.

Lin Yi needed a quiet place to heal as well-the head Guard's whip had injured him severely, and he wouldn't be able to hold on for long if he didn't heal quickly! He naturally didn't dare to treat his injuries on the spot. He was too

close to the head guard. If this old dog took advantage of his master's unguarded state and attacked him, he would be finished.

As expected, Lin Yi saw a cave in the direction the Sky Class man was pointing at, and inside the cave, there were some simple utensils and traces of a fire. It seemed like this was where the Sky Class man lived!

Thinking about it, the strange heaven rank man should have come here to wait for "his" disciple after that separation, and then he should have sensed the true energy fluctuations brought by the head Guard's whips today, so he rushed over.

"Are you okay?" Lin Yi asked after putting her down.

"I'm fine. It's just a scratch on my arm. It's just a superficial wound. " "Are you okay?" Jingyi shook her head. If you can 't, I ... I can heal you!"

Jingyi was struggling internally as she spoke-she was only at the first stage of house sun's practitioner's Arts, which meant that if she didn't progress, she'd only be able to heal one person for the rest of her life, and if she healed Lin Yi, she wouldn't be able to heal anyone else ...

Her relationship with Lin Yi would be clear for all to see.

However, Jingyi saw that Lin Yi's injuries were much more serious than yesterday, his chest caved in from the Guard's attack. As far as she was concerned, even if Lin Yi could heal himself, he couldn't possibly survive such a heavy injury on his own.

This was why Jingyi suggested this.

"Ha ... You've healed me. What about the future?" Lin Yi asked with a smile after a pause.

"I ... I can't control the future. I just hope that nothing will happen to you!" Jingyi said seriously.

"Don't worry, it's not that serious. I can handle it myself. " Lin Yi smiled-he didn't think that Jingyi would make up her mind to do something like this. He felt quite comforted-it seemed like this girl was a loyal friend, and he didn't waste his time coming here.

"En ... If you can't do it, please let me know ..." Sun Jingyi looked at Lin Yi's injury, still worried.

Lin Yi nodded and didn't say anything else. He closed his eyes and started circulating the second stage of the art of Dragon mastery, quickly healing his injuries. He needed to recover as soon as possible, and although he had a Sky Class late phase Peak Master fighting for him, Lin Yi still couldn't feel at ease.

This master wasn't reliable-what if he ran off in the middle of the fight, and the guard came looking for them? Jingyi and her would be in trouble!

Therefore, the most important thing now was to recuperate first, and then go see if his master had killed that head guard. If he had, then he would be at ease.

Jingyi knew that Lin Yi was healing, and didn't dare interrupt him. She sat quietly to the side, carefully observing Lin Yi's movements.

When she saw that Lin Yi's face was getting redder and redder, and that his ribs that had sunk in were recovering at a speed visible to the naked eye, Jingyi let out a breath of relief as she marveled at Lin Yi's miraculous abilities!

Lin Yi was even more powerful than house sun's practitioner's Arts. How did he recover from such a heavy injury so easily? Didn't that mean that Lin Yi wouldn't die as long as he was still breathing? Jingyi herself jumped at the thought!

Wasn't this a little too powerful? She'd heard of Lin Yi's abilities before, but seeing it with her own eyes still gave her a shock.

Half an hour later, Lin Yi opened his eyes. All his injuries had healed ... If you like this work, you are welcome to come to to vote for recommendation and monthly votes. Your support is my greatest motivation.)

Chapter 2247 2245-Heavy Heart

His physical strength had also recovered to its peak. However, he was not happy at all. Instead, he was a little worried!

Why hasn't master returned yet?

The guard was Sky Class early phase, and her master was Sky Class late phase peak-the difference between the two was huge. To put it bluntly, they weren't on the same level as Lin Yi and the guard-they weren't on the same level at all, and it was a one-sided fight.

However, it had been half an hour, and his master still had not finished the battle and returned triumphantly? Lin Yi was worried.

Sky Class late phase peak-it wasn't that hard to kill a Sky Class early phase, was it?

Back when the rock Candy Girl was hiding in the Tang family, she was very overbearing!

"Jingyi, you stay here, don't go out. I'll go see master." Lin Yi said after some hesitation.

"He ... Is the one who gave you the map?" Jingyi guessed the man's identity as well.

"Yes, that's him. It's been half an hour and he's still not back. I'm afraid he'll get into an accident!" Lin Yi nodded seriously.

"Then ... Be careful." Jingyi had wanted to go with them, but she realized that it'd be a waste if she went-she'd only become a burden, and so she gave up on the idea.

"When I get there, I'll let out a long howl if something goes wrong. Then, you'll bring the Skybolt pig down the mountain and seek refuge in the Great Fire lion's cave." Lin Yi said.

"This ..." Sun Jingyi really didn't want to run away by herself.

"I can only run if you run away. Don't worry, I can definitely go back, but I'm afraid that I'll be injured to the point where I can't heal myself. I'll still have to rely on you." Lin Yi said.

"En ..." Jingyi blushed, but agreed.

It was true-if she stayed here, she wouldn't be able to help Lin Yi, and she'd only be a burden to him. It wasn't the time to let her emotions get the better of her, and so she agreed.

The moment Lin Yi walked out of the cave, he started compressing the energy bomb just in case. Now that he had recovered to his peak condition, he was ready to compress an even bigger energy bomb.

Of course, Lin Yi didn't walk very fast after he left the cave-he walked very slowly because he was very careful with every step he took. He always looked at his surroundings and felt the changes in the Jade space. If the Jade space gave out even the faintest of warning signals, Lin Yi would alert Jingyi!

Lin Yi walked all the way to the hall at the top of the mountain, but there was no danger. The closer he got, the more he heard the sound of fighting!

From the looks of it, the battle between his strange heaven rank master and the head guard had not ended! This made Lin Yi a little confused-the difference in strength was so obvious, why wasn't the battle over after half an hour?

Could it be that some new enemy had joined in? Or did this head guard have the same ability as him to fight enemies above his level? However, even if he had the ability to fight enemies above his level, wasn't this ability a little too strong?

Sky Class early phase and he could fight Sky Class late phase peak?

With that thought, Lin Yi quickened his steps and finally reached the top of the mountain again, only to see the sky Class man and the guard locked in a fight!

The person, or the two from before, no new enemies joining the fight-did that mean the head guard had the ability to fight Sky Class late phase peak?

However, after a while, Lin Yi noticed something unusual and frowned.

The guard was indeed strong-he was definitely stronger than the Sky Class elders from the hidden houses, but he still didn't have the ability to fight against Sky Class late phase peak!

At this moment, he was able to fight the strange heaven rank man to a standstill because although the strange heaven rank man's strength was there, he didn't know how to use any martial skills. He didn't know if he had forgotten, or if he simply didn't think of using it at all, but he simply poured true Qi into the black profound iron rod in his hand to resist the Guard's soft whip. In this way, one side was completely using true Qi to fight, and the other side was using exquisite martial skills, which made up for a lot of the gap and shortcomings of the guard.

However, the most important thing was that there seemed to be something wrong with the strange heaven rank man's mind. His mind wasn't very bright, and it also affected his reaction speed and moves.

On the side of the head guard, there was a very clear order. One move after another, continuous and unending. After the first move, the next move would follow. But looking at the strange heaven rank man again, he was completely fighting in a mess, without any order at all, hitting wherever he thought!

Lin Yi kept shaking his head! He had only been here for a short while, but the strange heaven rank man had already been hit one after another. If it wasn't for his tyrannical strength, he might have already been defeated by the head guard and wouldn't have been able to hold on until now.

Fortunately, he had a strong foundation and his strength was there. Although he was a little overwhelmed, he would not lose.

But Lin Yi, as a bystander, was getting worried-this couldn't go on, and the sky Class man would lose for sure! He might be Sky Class late phase peak, but he had no battle tactics or martial skills, and was relying on his strength to fight.

Right now, he was on the verge of death. If time passed and the head guard found an opening, it was possible that he would be heavily injured or even killed.

And the head guard clearly saw through this, and didn't go all out against the strange heaven rank man, but instead secretly launched a sneak attack in the middle of the fight, while conveniently looking for the strange heaven rank

man's weakness and openings, preparing to give him a fatal blow when he was unprepared!

The guard had seen Lin Yi's return, but he didn't care at all.

Lin Yi was a dead man in his eyes-even if he hadn't injured him, Lin Yi's moves wouldn't have affected the guard at all.

So he wasn't afraid of Lin Yi helping at all-it was a battle between Sky Class Masters, and an Earth Class wouldn't be helping-they'd be making things worse. If Lin Yi got involved, the Sky Class might even come back to protect him, and that'd give the guard a chance to attack.

The guard believed that Lin Yi wasn't an idiot to get involved in a fight of this level.

As such, he continued to fearlessly fight against the strange heaven rank man. The apprehension and fear he felt when they first fought had long since been thrown to the winds. In his opinion, defeating or even killing the strange heaven rank man was only a matter of time.

And Lin Yi coming back to his door on his own was the best thing ever-he didn't even need to look for Lin Yi after killing the Sky Class man, and the little guy was back to die!

Compared to the Sky Class man's carefreeness, Lin Yi's heart was a lot more heavy-seeing the Sky Class man lose again and again! (

Chapter 2248 2245-Too Late

The strange Ming Tian rank man could have killed the head guard, but he had mental problems. At this moment, it was already not easy for them to fight to a draw.

However, this tie was also relative. It was estimated that not long later, the strange heaven rank man would be suppressed by the head guard!

Lin Yi's guess was quickly confirmed-the Sky Class man wouldn't lose just yet, but failure was only a matter of time.

Lin Yi had to speed up the compression of the energy bomb. If he could gather all the pure energy in his body and compress it into an energy bomb, the power would be quite terrifying. When he was fighting with Ma Zhu, he was far weaker than he was now. At that time, the energy bomb condensed from all his strength was already quite shocking. If he gathered all his pure energy and compressed it into an energy bomb now, the power would be even more shocking!

Lin Yi didn't plan to hold back when dealing with this guard. He used as many as he could, even if it hurt his meridians. He had the Skybolt pig with him anyway, and even if it didn't work, he could still use the fire Lion cubs and lionesses!

Even if he lost everything, he still had his "lover" sun Jingyi, who could heal him. Lin Yi didn't have to worry about anything.

The guard laughed coldly inside as he looked at the Sky Class man he was toying with. So what if you were Sky Class late phase peak? Losing their minds, didn't they still end up being defeated by him?

The Guard's sneak attack was successful again and again, and even if the strange heaven rank man was very strong, he had also suffered a certain injury, and his movements became somewhat sluggish, especially his legs. He had been repeatedly whipped by the Guard's soft whip. At first, it was nothing, but after a few more times, the strange heaven rank man's legs were injured, and his movement speed was naturally affected.

However, Lin Yi couldn't act rashly even though he was worried. His energy bomb had been compressed for so long, and it was only half compressed. He was now an Earth Class mid phase, and it would take a lot more time to compress all the Qi into one.

And so, Lin Yi could only watch as the Sky Class man got hit again and again, but there was nothing he could do.

"Crazy old man, you can go to hell!" The head Guard's right hand shook, and the soft whip once again swept towards the strange heaven rank man's legs. This was the weakness he had found! The strange heaven rank man must have forgotten his martial skill, and there was no order in the fight, completely relying on his individual Valiance. So if his legs were injured or even broken, affecting his movements, he would be a lamb waiting to be slaughtered in his eyes!

The strange heaven rank man didn't think too much about it, and only raised the black profound iron rod in his hand to block the Guard's soft whip, but he didn't know that the Guard's move was just a feint. The soft whip didn't meet the black profound iron Rod's attack head on, and instead, with a light wave, it bypassed his block, and from another direction, fiercely whipped towards his legs!

"The twelfth move of furious sea and wild waves!"

This move, the head guard used 100% of his power, even not hesitating to use the 12th form of furious sea wild waves, which was a waste of physical strength! As a Sky Class early phase, it was impressive that he could use the twelfth form of a martial skill, but it wasn't surprising that he came from that place.

"Be careful, master!" Lin Yi couldn't help but shout at the scene, but it was too late. How fast was a Sky Class master, even if he was only at the early phase? Lin Yi saw through his intentions and warned him, but it was already too late. The strange man's reaction speed was bad, and after hearing Lin Yi's words and reacting, he hesitated for a moment, and the guard hit him!

"Bang!"

With a loud bang, blood burst out from the Sky Class man's leg, and the head Guard's sea-like aura also affected Lin Yi, who was far away. He was swept by the violent and strong Qi, and his body swayed, falling to the ground!

Luckily, Lin Yi was far away, and the Guard's attack was directed at the strange sky Class man, so most of the Qi hit the strange sky Class man. Lin Yi didn't have much of an effect.

However, the strange heaven rank man wasn't so good. He was directly hit to the ground, letting out an unreconciled scream and roar!

"How is it? Isn't it great, crazy old man? this is just the beginning!" The head Guard's confidence swelled to the extreme after his attack succeeded. "Even if you're Sky Class late phase peak, I can still wear you down to death. With my current stamina, I can at least use the 12th form five more times-can you take that?"

"Hmph!" Although the strange heaven rank man's mind was damaged, he wouldn't show weakness in front of his enemy. He stood up shakily, waving

his black iron rod and smashing it towards the head Guard's face in exasperation!

If it wasn't for the fact that the twelfth form of the martial skill was a bit of a leap in level and required some time to accumulate Qi, the head guard really wanted to give him another blow of the twelfth form of the Furious sea wild waves and beat the old lunatic until he couldn't get up.

"The eleventh move of furious sea and wild waves!" He couldn't use the 12th form in succession, but he could use it together with the 11th form, one fast and one slow, and he could still kill the strange heaven rank man.

"Pa ..."

The strange man was already injured, and his lower body was unstable. The black iron rod in his hand was wrapped by the head Guard's soft whip, and with a twist, he was directly thrown out and heavily fell to the ground!

Lin Yi was panicking! The twelfth form of raging sea was the key to winning this battle. The Sky Class man's legs were completely injured, and although

he could barely stand up, Lin Yi could tell that the man was forcing himself to hold on. His leg bones were probably broken.

If this continued, the strange heaven rank man wouldn't be able to last more than a few moves before being defeated!

Think about it, could an expert without legs still be called an expert? A normal Sky Class late phase peak might have some other way to deal with it, but this weird Sky Class guy had a mental problem-he'd probably get beaten up if he lost his legs!

However, as anxious as Lin Yi was, his pure energy bomb had only been compressed by two-thirds. There was still one-third of the pure energy left, and Lin Yi didn't dare to make a move! If this attack had no effect on the head guard, then this "master and disciple" pair would really be buried here.

With that thought, Lin Yi hesitated for a moment, but still took out a small bottle from his pocket, poured out a pill and popped it into his mouth!

This was the extreme golden energy pill that Lin Yi had traded with the Hidden House Tang at the Hidden House Summit. After consuming it, it could increase the speed of one's practitioner's Arts! (

Chapter 2249 Quickly Run Away

What Lin Yi lacked right now was time. As long as he sped up the practitioner's Arts, the speed of compressing his Qi would also increase!

Lin Yi didn't eat it before because he didn't want to-he wouldn't use it unless it was a life or death situation! The Golden energy pill was only a level one pill, and with han Jingjing's skills, she could mass produce it, but what made it valuable wasn't that it was hard to make, but that one of the ingredients was extremely valuable!

Of course, this cherishing was only relative. To the Hidden House Tang, it might not be much, but to Lin Yi, he cherished it! It was only because this herb was monopolized by the sky elixir sect, and the herbs that came out of the market were sun-dried herbs. Without the seeds, even old Lin couldn't cultivate them in batches.

The sky elixir sect's biggest source of income was from selling natural treasures, herbs, and finished elixirs. It was also the reason why the sky elixir sect had been able to grow so much. They had monopolized many resources in the world of cultivation, and it was hard for them not to develop.

And so, once he used up this golden pill, Lin Yi wouldn't have anything left. He couldn't just ask the sky elixir sect for more ingredients!

At that thought, Lin Yi started to regret his decision-he should've exchanged more materials for the Golden energy pill when he was exchanging information with right Panhu.

But Lin Yi didn't think that there would be a medicinal ingredient that was monopolized by the sky elixir sect. It was only when Lin Yi went out this time and tidied up his belongings that he thought of looking up the recipe for the Golden energy pill, but he didn't expect to find out that it was the Golden energy pill.

However, in this situation, no matter how rare this extreme golden dan was, he had to eat it. If he didn't, he would die!

"The twelfth move of furious sea and wild waves!"

Taking advantage of the strange heaven rank man falling to the ground, the head Guard's Zhen Qi had just recovered, and he once again activated the twelfth form, furious sea bite. The soft whip wrapped in green Zhen Qi once again mercilessly whipped at the strange heaven rank man!

Lin Yi was worried, but he didn't stop her. He quickly refined the pill and continued to use his Qi to compress the energy bomb! The Golden dan was indeed effective-Lin Yi suddenly realized that the speed of his practitioner's Arts had more than doubled. No wonder it was called the Golden dan-it really did push the body's energy to the limit!

"Bang!"

The soft whip landed on the strange heaven rank man's body, and once again burst into a thick mist of blood. The strange heaven rank man let out a blood-curdling scream, and with some anger and unwillingness, he staggered up from the ground. However, he spat out a mouthful of blood, and it was clear that his injuries weren't light!

This time, the Guard's 12th style of angry sea wild waves, the strange heaven rank man didn't have time to block it, and it completely smashed into his body, how could the strange heaven rank man have a good time? His trembling body swayed on the spot before he managed to steady himself. His entire face was extremely miserable and pale.

"Crazy old man, this taste is not bad, right? Does it feel good?" The guard laughed coldly, "a Sky Class late phase peak, and you've been beaten to such a sorry state by a Sky Class early phase, hahahahaha!"

The Guard's laughter was extremely Savage. Before this, he didn't think that he would actually be able to beat the strange heaven rank man to such a sorry state.

"Hmph!" The Sky Class man's eyes were filled with hatred, and although his body was in pain, he forced himself to stand up. However, the moment he stood up, he suddenly remembered something and turned to Lin Yi, "Li 'er, why have you returned? Run, run now, take little Rou down the mountain and run far away. Don't worry about me!"

Although he had some mental problems and wasn't very smart, he could still distinguish between friend and foe. He was also very clear about his own situation and situation. Although the head Guard's level was much lower than his, he was no match for him by relying on the exquisiteness of his martial skills!

However, after a long time, he had forgotten how to activate his wild fire Fist and could only use his Zhen Qi to resist it. Moreover, because his mind was not very bright, his reaction speed had become much slower, so he suffered a big loss and was defeated in a mess.

But it didn't matter if he lost-he had to let Lin Yi escape.

"No one can escape!" The head guard sneered and raised his hand, the soft whip in his hand once again striking towards the strange heaven rank man: "The eleventh move of furious sea and wild waves!"

The 11th and 12th forms were used together, and they were the magic weapons of the head guard that had been tried and tested time and time again, allowing him to beat the strange heaven rank man to the point where he couldn't even make a comeback.

"Bang!"

Although the strange heaven rank man tried his best to use the black iron rod in his hand to block, because of the great consumption of his physical strength, and the heavy internal injuries he suffered, he was not the head Guard's opponent at all. His whole body was once again sent flying, and fell to the ground with a "bang!"

The pain in his chest and the exhaustion of his energy made his vision blurry. He looked at Lin Yi, who was still sitting on the ground like an old monk, and the guard who was raising the whip with a cold smile. The Sky Class man couldn't give up!

"Disciple, run! What are you dawdling for?" The Sky Class man roared at Lin Yi in anger and shock.

"..." Lin Yi gritted his teeth. He didn't want to waste any more energy talking. He was about to succeed ... He was about to succeed!

"Crazy old man, just accept your fate!" The head guard let out a strange cry, and his feet stomped on the ground, his whole body flying in the direction of the strange heaven rank man. The soft whip in his hand was raised, and he kept waving it in the air, proudly looking at the strange heaven rank man on the ground who was about to die with the attitude of a Victor. "I'm just a Sky Class early phase, and I beat a Sky Class late phase peak like a dog-haha, if word got out, it'd be a joke in the world of practicing!"

After saying that, the head guard prepared to use the 12th style of the Furious sea wild waves. He could basically confirm that if this style was used, even if the strange heaven rank man didn't die, he wouldn't be far from it! Even if there was a spirit pill, it would be impossible to save him!

The Sky Class man saw that Lin Yi wasn't running, and his heart ached. He struggled to get up, ready to fight it out with the guard, but ... He didn't know how useful that would be.

"You ... You'll get your retribution sooner or later!" The strange heaven rank man angrily roared.

"Retribution? You're right, you'll have to pay back sooner or later, but you don't have to worry about that. Old crazy, I'll send you and your precious

disciple on your way first!" The head guard laughed coldly and was about to attack."The twelfth move of furious sea and wild waves!" (

Chapter 2250 2248-Unwilling

"Be careful, master!" Lin Yi had already compressed all the Qi in his body into a super energy bomb, and he stood up without stopping for a second. He roared at the Sky Class man and turned to the guard,"Old dog, eat my move first!"

"Hmph!" Why would the head guard bother with Lin Yi? He'd already experienced Lin Yi's strongest move, but it was still enough to cause him some light damage, and it wouldn't affect him too much. This time, he had to kill the Sky Class man!

As long as this move was used, the Sky Class man would have no room to turn around. He hesitated, but didn't stop, and the soft whip still swept towards the sky Class man, leaving his back open for Lin Yi to take the move!

Although Lin Yi could give him another light injury, it was worth it compared to killing this Sky Class man. What made the guard happy was that Lin Yi didn't run away, but took the chance to attack him. Didn't he know what it meant to be a Mantis trying to block a car?

Lin Yi sighed as he watched the soft whip fly towards the sky Class freak. It seemed like he couldn't change the big eye Guard's mind anymore, but it was fine-he'd let him send the Sky Class freak flying. Otherwise, the energy bomb might explode and affect him.

As long as the Sky Class man was still alive, Lin Yi was confident that he could save him! Thinking about it, a Sky Class late phase peak wouldn't die so easily, right?

With that in mind, Lin Yi dashed towards the guard, but in order to not waste his energy and produce the most explosive effect, Lin Yi was ready to risk his life to detonate the energy bomb at close range!

Lin Yi released the energy bomb in his hand as he watched the Sky Class man fly away,"Old dog, you're right. You'll pay for what you've done. I'll send you on your way now. Die!"

After Lin Yi shouted, his body started to retreat rapidly, and a deafening explosion came from the place where Lin Yi was standing!

"BOOM!"

A deafening explosion reverberated in the Great Hall at the peak of the mountain. At this moment, the entire Wulong hao te mountain range was shaking violently!

This was Lin Yi's second time making a complete energy bomb, and he didn't expect the effect to be even more powerful than the first time!

The loud explosion was like an atomic bomb explosion. In an instant, a huge and terrifying energy was released. A mushroom cloud rose directly from the site of the incident. The green bricks, soil, and ruins were all swept up, sending sand and stones flying in the sky.

The entire Hall seemed to have ceased to exist at this moment. It had completely turned into fragments that flew into the sky. As for the place where

the head guard was standing, it was not clear at all because of the dust. No one knew what had happened to the head guard.

Lin Yi's body was outside of the center of the explosion. He had experienced a big explosion before and he had more experience than Ma Zhu, but even so, he was still affected and seriously injured!

Although Lin Yi's injuries weren't as serious as the last time, his meridians were still broken. However, Lin Yi didn't faint. He looked at the center of the explosion with a pale face, watching the mushroom cloud rising up from the impact of the explosion ...

"I wonder if the head guard is dead?" Lin Yi had put his life on the line this time-he'd have to blame his bad luck if the head guard didn't die.

The strange heaven rank man had been hit head on earlier, and because he had lost all his physical strength and was seriously injured, he didn't even try to block it and was directly sent flying. This allowed his body to be far away from the range of the hall, and although he clenched his teeth and held on, he knew that he couldn't hold on for long!

His internal organs were all shattered and his meridians were almost all broken. No matter how many elixirs he took, there was no way to save him. However, he was worried about his disciple's safety and raised his head unwillingly. However, when he raised his head, he saw a shocking scene!

From where the guard and Lin Yi were, a deafening explosion came, followed by a mushroom cloud!

The Sky Class man didn't know what was going on, but he could guess that Lin Yi probably came up with some suicide plan. Did this guy bring a nuclear weapon up the mountain?

Unable to see the situation, the strange heaven rank man was anxious, but his body couldn't move at all ...

The thick smoke ... Had finally dispersed. The quaking of the mountain had also stopped. The flying sand and stones had also been blown away. A super deep pit had appeared at the place where the battle had taken place in the hall!

Lin Yi used up all his energy and was heavily injured, but he still continued to walk towards the pit ...

He came to the edge of the pit, and what surprised him was that the guard ... Was still alive after such a huge explosion! This guy really has some ability!

However, Lin Yi wasn't worried about anything. Because, at this moment, the head guard couldn't be called a person anymore! His arms and legs were long gone, and there was a huge hole in his abdomen. His head was also covered in blood. He had probably used his true energy to hang on to his last breath, and he would die in minutes.

"Old dog, how do you feel? It's comfortable, right?" Lin Yi smiled coldly at the guard in the pit.

The guard looked at Lin Yi, his murky eyes filled with unwillingness and confusion! He couldn't believe that Lin Yi, an Earth Class mid phase, could use such a powerful move! What was this move?

Although he was confused, shocked, and angry, he didn't dare to speak. He was afraid that if he opened his mouth, he would spit out his true Qi and die

immediately! He fantasized that someone would come to the mountain to save him at this moment. If his fellow disciples were here, he must tell them this crucial news!

This Earth Class mid phase in front of him-he had to get rid of him no matter what!

He was too monstrous and too powerful. If he was allowed to grow, the structure of the martial arts world in the cultivation world might change dramatically! This child can not be left alive.

"A Sky Class early phase being beaten up like a dog by an Earth Class mid phase-isn't that great?" Lin Yi looked at the guard in front of him,"By the way, you're worse than a dog. My dog can stomp you to death with one foot!"

The Guard's chest heaved as he looked at Lin Yi in shock and anger, but he didn't say anything.

"You're very aggrieved, aren't you? You want to know how I defeated you, don't you?" "Tell me where you're from and your relationship with the Tagan family, and I'll tell you how I beat you!" Lin Yi said with a cold smile. (
