

## Beauty and the Bodyguard

### Chapter 2291 2288-Helping

The three-headed Fire Lion Clan had moved out together in order to defeat the spider clan's spirit! Without the fire attribute heavenly resources, they couldn't make divine fire bullets. How could the fire Lion Clan not be angry?

After everyone had entered, the Halo slowly disappeared a few minutes later. The entire cave returned to its previous dusky state without a trace of vitality. It became extremely quiet.

After the Halo completely disappeared, it was as if no one had ever been here. Other than some traces of battle, there was really nothing ...

As for the teleportation array, it had originally been emitting a strange blue light, but now, it had become dull and was no different from an ordinary pile of rubble.

This was what had happened that night, and it was also why Lin Yi and Jingyi didn't think much of it when they saw the dark cave.

After all, the formation had been activated for the last time. After that, it would be no different from a pile of normal stones. Lin Yi naturally wouldn't be able to see anything.

The lightning pig said that the fire Lion Clan was no longer in the oolong mountain range. It was not wrong because they had all disappeared. No one knew where they had gone.

Without the fire Lion and the sky Spider's help, Lin Yi could only rely on himself. If he went down the mountain from another way, according to the Sky Spider, it would be even more dangerous. He might as well go down the normal way. It was a little more dangerous, but there should be other ways.

If they continued forward, they would reach the lower mountain range of the Wulong hao te mountain range. As they neared the lower mountain range, the danger would increase by a lot. Although there were also different adventurer teams training and gathering herbs in the lower mountain range, it was difficult to guarantee that there would be no taganlong family members.

"Jingyi, put on the thousand silk mask." Lin Yi thought for a moment. "If we see suspicious people, we'll split up. You go down first, and I'll find a chance to go down. Your appearance has changed, and you should be able to pass out if you're careful. But just in case, you should leave two nets of heaven and earth for protection!"

"Ah ... An inescapable net. I'll keep one. How about you keep two?" Jingyi said hesitantly.

"No, it's not a big problem for me. If there's danger, one is enough. If one isn't enough, two won't be of much use." Lin Yi said.

"Then ... Alright." Jingyi nodded after some hesitation.

The two of them walked down the mountain range, where the forest was much denser. Lin Yi avoided a few teams that were here for herbs or training-who knew if there were Tagan family members among them?

Lin Yi could see through the strength of the adventurers with one look, but it was always better to be careful.

However, the things that he wanted to hide from happened all the time-Lin Yi and Jingyi didn't walk far before they heard the cries for help!

Lin Yi frowned as he looked into the distance. He saw a group of adventurers fighting a White Tiger. Blood was everywhere, but it wasn't from the Tiger. It was from the adventurers!

The Tiger wasn't a spirit beast-it wasn't even golden class yet, not even half the strength of a golden class. It was just that it had some of the characteristics of a spirit beast from the rich spiritual Qi here. As far as Lin Yi was concerned, its combat strength was about the same as the lion in the zoo.

But this group of adventurers was relatively weak-there wasn't even a practitioner, not a single one in the Golden class. There was only one physical practitioner who looked strong, and he was fighting the Tiger!

Lin Yi shook his head. This guy was too weak to come up the mountain? However, thinking about it, there were many spiritual herbs in the Wulong hao te mountain range.

Even if it was the lower mountain range, the spiritual herbs collected were still worth a lot of money. There was no lack of greedy adventurers who formed teams to come here to mine for gold. If they were lucky, the spiritual herbs collected in exchange for money could be spent for a few years without a problem!

Therefore, this kind of high-risk but high-return industry also gave birth to many adventurers who thought they could get lucky!

The member of the adventurer team saw Lin Yi and Sun Jingyi from afar and immediately called for help.

Adventurers in the Wulong hao te mountain range rarely had any interactions with each other. Even if they did, they would just pass by without saying goodbye. After all, this involved a conflict of interest. Everyone was just looking for elixirs on their own. And because of the few families and gangs at the foot of the mountain, there would basically not be a situation where people killed for treasures.

Of course, if an adventurer team encountered a BEAST attack, the other adventurer teams would generally not go to help. After all, the adventurers who were picking herbs at the foot of the mountain were of very low levels. They could not even protect themselves, so why would they help others? There weren't many golden class Masters among them, and most golden class Masters wouldn't covet the money for the herbs.

However, Lin Yi's heart moved slightly when he saw the situation in front of him. He had a plan! This group of adventurers just happened to have one dead, and it was a female, bitten to death by the Tiger. If Lin Yi were to save her and kill the Tiger, then these people could bring Jingyi down the mountain-that would be a pretty good choice!

One for one-the houses and sects at the foot of the mountain wouldn't be that detailed, and even if they were, Jingyi's appearance had changed-even if they remembered how many men and women there were in the group, they wouldn't be able to remember everyone's face!

Of course, the reason why Lin Yi chose this group of adventurers, other than the fact that it was a coincidence, was also because they were very weak. They shouldn't be spies from the Tagan family or something like that. If they were from the Tagan family, there was no need for them to put on a show of losing people here. After all, they wouldn't expect Lin Yi and Sun Jingyi to pass by at this time.

They should have really been attacked, and they were real adventurers.

"Jingyi, I'll go and help these people with their problems. You'll go down the mountain with them, I'll go down alone!" Lin Yi quickly ordered."After you go down the mountain, find a way to return to the previous border town. Don't stay in Ruida town!"

"Alright, I got it!" Jingyi nodded-this wasn't the time to be thinking about gains and losses. She was worried about Lin Yi, but this was the only and most appropriate way. If she stayed by his side, he'd have to take care of her, and he'd have to be very careful.

Lin Yi nodded and made a quick decision. He charged towards the group of adventurers and lightly slapped the Tiger's head, sending it flying into the air. It flipped in the air and landed on the ground with a loud bang! (

## Chapter 2292 2290-Sneaking In

After landing on the ground, the Tiger's body twitched and could no longer move. It was clearly dead!

"Ah!" Lin Yi's sudden appearance surprised and overjoyed all the adventurers. The Tiger died just like that? When they called Lin Yi for help, it was just a test in their despair. They didn't think that Lin Yi would really come to help!

Moreover, he had killed the Tiger that everyone was terrified of so easily. This was simply too powerful!

After a while, the group of adventurers cheered, and the injured adventurer who was fighting with the Tiger said politely to Lin Yi, ""Many thanks for senior's help! I'm Ah Biao, the leader of this group of adventurers. Senior, you must be a cultivator?"

"I'm lucky I just stepped into the Golden class not long ago. " Lin Yi said faintly. He didn't reveal his strength, only the early phase of the Golden class. Of course, the strength of an early phase golden class was more than enough to kill the Tiger.

"No wonder!" Ah Biao's eyes were filled with admiration. "He's indeed a cultivator. Only a cultivator can solve a problem so decisively! Senior, thank you so much!"

"It's nothing. " Lin Yi waved his hand, "Aren't you going to bandage the wound on your arm?"

"Bandage it, I'll bandage it now!" Ah Biao smiled bitterly. "I almost forgot about the pain. I only remembered now that you mentioned it!"

With that, Ah Biao took out a bottle of miracle doctor Guan's medicine from the backpacks of the other adventurers behind him and applied it on his wound, before bandaging it up.

Lin Yi noticed that the miracle doctor Guan's injury medicine was the special edition, and he couldn't help but smile. It seemed that these adventurers lived their lives on the edge, but they had enough money in their pockets to buy the best injury medicine!

In fact, for people like them, there was no need to use the expensive special edition injury medicine. The ordinary version was enough. This was because these people didn't need to be like women who didn't have scars when they were injured. Besides, for new injuries, they didn't need the special edition injury medicine at all. The ordinary injury medicine wouldn't leave scars.

Of course, Lin Yi didn't say that out loud-the money was in his pocket, after all.

"You guys are really unlucky to have encountered a Tiger?" Lin Yi said, trying to get information out of her.

"Yeah, we're quite unlucky. We're not local adventurers. We came from another place and are not familiar with the terrain of the mountain range. Sigh, we're quite unlucky. This year, we came to pick herbs and encountered this Tiger not long after. One of our team members even died. It's really a bad start." Ah Biao, on the other hand, was very

enthusiastic in talking to Lin Yi. After all, practitioners were unreachable existences in the eyes of these adventurers. Even early phase golden class Masters were high up in the sky. When they met them, they would raise their heads arrogantly and talk to them in a nonchalant manner. It was rare for a practitioner like Lin Yi to talk to them.

"In that case, what are your plans?" Lin Yi nodded, but he was happy inside. These people weren't local practitioners, so they might very well be his own people. As long as they didn't have too much to do with Ruileida town, Lin Yi could rest assured.

"What else can we do? Let's go down the mountain. I'm injured, and the strength of several people in the team is exhausted. If we stay any longer, we will encounter more powerful beasts, and we won't be able to deal with them!" Ah Biao said with a bitter smile.

"That's good. I still have some other things to do, but my partner is going down the mountain. Let her go with you. It's better to take care of her!" Lin Yi said, pretending to be deep in thought.

"Of course you can!" Ah Biao agreed without thinking, "However, we have to bury our companions first before we can leave the mountain."

"I'll help you!" Lin Yi was really worried that they'd be carrying a corpse down the mountain-the number of people wouldn't be right! Usually, the families at the foot of the mountain might not be strict with their checks, but now that the Tagan family was watching, even if it was an adventurer team sent by another family, they would definitely check it in secret.

"That's good! I'm really grateful!" Ah Biao said gratefully.

To Lin Yi, digging a hole to bury a body was as easy as lifting a finger. He casually used a branch and dug a hole in a few moves, while Ah Biao and the other adventurers buried their companions "bodies.

Adventurers like them, who treated the four Seas as their homes, had no such thing as returning to their roots. They would be buried wherever they died.

With that done, Lin Yi bid farewell to the two girls. He didn't say anything else, either-the more he said, the more likely it'd be for something to go wrong. It'd be better if he didn't say anything, saving him the mental burden of giving himself away ...

After sending off Jingyi and the gang, Lin Yi found a place to hide and make his plans.

Lin Yi didn't plan on going down the mountain so early-he'd at least wait until Jingyi left the mountain safely, and it'd be best if they returned to the border town. That way, Lin Yi wouldn't have to worry anymore-even if he ran into a master, he'd just throw out an inescapable net and run away.

And so, Lin Yi sat down on the ground and started channeling the art of Dragon mastery ...

Ah Biao brought sun Jingyi and the other members down the mountain, but he didn't expect that there would be sentries set up by the families and gangs at the exit of the mountain range, conducting a strict inspection of the adventurers going up and down the mountain ...

Ah Biao wasn't stupid-in fact, he was the leader of an Adventure Team, so he naturally had a good brain. He subconsciously turned to look at sun Jingyi!

Lin Yi and Sun Jingyi's appearance was too strange, and Lin Yi helping a group of normal adventurers as a practitioner was also a little strange. They were in danger, but why would Lin Yi help them? And his attitude was very kind?

Plus, the most important point was that Lin Yi was splitting up with Jingyi, letting her follow them down the mountain while he himself stayed?

Of course, if not for the inspection at the exit of the mountain range, Ah Biao would not have thought of so many deeper things. However, after seeing the people who were checking and thinking about the strangeness of the previous incident, Ah Biao understood a little!

Perhaps the people from these houses and guilds were here for Lin Yi and Sun Jingyi! Lin Yi, on the other hand, had chosen Jingyi to join them because they'd lost a member, and a woman at that. He'd wanted her to replace her. (

## Chapter 2293 2291-Narrow Escape

With that thought, Ah Biao slowed down his steps and walked quietly to Jingyi's side. He lowered his voice, "Those people at the exit were looking for you?"

"Ah?" Jingyi's heart jumped-she didn't think that Ah Biao would find out about this, but there was no point in hiding it now that things had come to this. Since Ah Biao had already guessed it, there was no point in hiding it, "Yes, but they don't know me."

"That's good. " Ah Biao nodded and quickened his pace. He did not say anything else.

Since the people down there didn't know who Jingyi was, things were much easier-as long as he brought his team down the mountain, he wouldn't betray her.

Firstly, Jingyi's friend Lin Yi was their Savior, and while he wasn't a gentleman, he wasn't one to bite the hand that fed him-he didn't want to do something like that. Second, if sun Jingyi was recognized by these people, what good would it be for their entire team?

It would be good enough if they didn't charge Ah Biao with the crime of hiding an enemy. If that happened, the entire adventurer team would be in trouble. Therefore, Ah Biao would not do such a stupid thing!

"The checks down there seem to be very strict. Don't talk nonsense later, I'll take care of it!" Ah Biao said to the rest of the team.

"Yes!" The other people in the team obviously trusted Ah Biao as their leader. They didn't ask much and agreed.

Ah Biao nodded and led a team of people to the exit of the mountain range after the team of adventurers in front left after being interrogated.

"What's his name? which family arranged for him to go up the mountain? What did you go up the mountain for?" It was Lazlo-he knew who Lin Yi and Jingyi were, and while he saw that they weren't in the group, he still asked as a cautious person.

"I'm Ah Biao, an adventurer from a small town on the border. I paid the fire Wolf Gang to go up the mountain to pick herbs. " Ah Biao replied respectfully.

"Oh ..." Lazlo nodded and turned to look at a small leader of the firewolves.

"Ah Biao, there are a total of eight people on the mountain, six men and two women. The numbers are all right. Let's go." The leader of the firewolves checked the information he had registered before, then waved to Ah Biao.

"Alright!" Ah Biao relaxed and nodded. He then said to his team, ""Everyone, let's go!"

However, just as Ah Biao was about to leave with his men, a voice suddenly rang out, ""Wait a moment!"

Ah Biao's heart sank, but he still turned his head and smiled. ""May I ask ... What's the matter?"

It was Lazlo who spoke up, his eyes wide with surprise as he looked at Jingyi. "Ah Biao, your female teammate is not bad. How about accompanying our young master Tagan for a few days? I can't do without you!"

Jingyi was a different person with the mask on, but she was still pretty, probably because she was already pretty! Lazlo knew that Taganlong had been in a bad mood for the past two days, so he was going to find him a pretty girl to play with.

Ah Biao's expression changed slightly. He did not expect that there would be new problems when he was about to leave. He did not know how to answer and was extremely anxious.

"Lazlo, are you going to break the rules?" The Firewolf gang's leader looked at Lazlo coldly. The Tagan family was on good terms with Red Conch, and Red Conch was the Firewolf gang's sworn enemy. Naturally, they would not give the Tagan family any face. Ah Biao and his gang had come up the mountain through the Firewolf gang. If something were to happen, who would come up the mountain through the Firewolf gang's path in the future?

The Wulong Hao Te mountain range was an important way for several forces in Rileida town to make money. The small leader of the Firewolf gang naturally could not let Lazlo take Ah Biao's men away.

"Hmph, let's go!" Lazlo hesitated for a moment, then waved his hand, indicating that Ah Biao could take his men and leave. Under such circumstances, he did not want to make an enemy of the Fire Wolf Gang over such a small matter. It was not an important matter. It would be inappropriate if they started fighting and delayed the important matters!

"Thank you ..." Ah Biao cupped his fists to the leader of the firewolves, breathing a sigh of relief. If sun Jingyi was really captured, then things wouldn't be fun anymore.

Ah Biao's current performance did not attract any suspicion from the others. After all, Lazlo had tried to force his teammate to stay. It was understandable that Ah Biao would sigh in relief.

Lazlo didn't expect that his Lucky Strike had almost caught a big fish, but it was ruined by the firewolves.

If an Jianwen knew that the leader of the firewolves had done something so stupid, he would be so angry that he would ask the Leader to punish him!

"Hu ....." After leaving the Wulong hao te mountain range and coming to a place with fewer people, Ah Biao let out a long breath of relief. He looked at sun Jingyi with a look of hope in his eyes, but he didn't expose her, only turning to his teammates."It seems that something has happened in the town of releida. We'd better not stay here for too long. Let's leave this place and return to the border town today."

"No problem, we'll listen to Captain." His teammates nodded in agreement without any doubt.

"Where are you going, benefactor? Are you coming back to the border town with us, or ...?" To him, Jingyi was his Savior-she didn't do anything, but Lin Yi was the reason why he called her that.

"I'll go back to the border town with you. " Jingyi didn't want to stay here for too long-she'd made an agreement with Lin Yi that she'd return to the border town first, and wait for him there.

As an adventurer who often traveled between Ruida town and border towns, Ah Biao naturally had his own transit channel and did not need to contact a middleman like the local.

Since they'd decided to leave, they didn't waste any more time-they took Jingyi and prepared to cross the border through their own channels ...

Lin Yi, on the other hand, was worried about Jingyi's safety in the mountains, but he didn't make any rash moves. He cultivated quietly on the mountain-he had to make sure that Jingyi left ruleida town before he left, or he'd drag her down with him.

Of course, Lin Yi didn't know that Jingyi followed Biao and the others back to the border town on the first day they left the mountain. Lin Yi stayed on the mountain for two more days before leaving.

Just in case, Lin Yi compressed a pure energy bomb in his left hand before he moved. (

## Chapter 2294 2291-Tagan Dragon Arrives

Of course, this energy bomb was just a precaution-he'd only use it if he had no other choice. If there were too many people at the foot of the mountain, he'd rather waste an all-encompassing net than use the energy bomb.

This trick was too obvious-if someone didn't die and kept investigating, they'd probably find out that it was him, Lin Yi, who used it! He could probably get the answer by asking around, but it wouldn't be so easy if they only knew the person's appearance. Lin Yi guessed that the Tagan family's information channels weren't particularly well-informed, or they'd have found uncle Fu and granny sun long ago if they could find people based on their appearance.

Of course, even if Lin Yi used a Qi bomb, the Tagan family might not be able to trace it back to him. It was just that this move was too obvious, and too many people knew about it-at least, many people from the hidden houses knew about it. Lin Yi didn't want to take the risk, and the Tagan family had a strange background. He didn't want to expose his killer weapon too early.

As expected, when Lin Yi was about to reach the exit, he saw an adventurer team blocked at the exit! It was a lot stricter than when Lin Yi and the others went up the mountain. Lin Yi looked up and scanned the people one by one-he saw Lazis!

It seemed like the Tagan family had really decided to stop him and sun Jingyi here-he wondered if sun Jingyi had left the mountain safely.

However, Lin Yi's eyes swept past the Lazis, and finally landed on a middle-aged man in an eight-trigram robe not far away! Lin Yi couldn't be more familiar with this outfit-the head guard of the Tagan family was dressed like this, and Lin Yi could tell the person's strength with a single glance-Sky Class early phase peak!

Another Sky Class master in a Bagua robe? Lin Yi frowned-it seemed like the Tagan family was quite powerful, after all. A Sky Class died, and now they had another one?

Lin Yi didn't go down the mountain immediately after seeing the Sky Class master in the Bagua robe. He hid his strength and hid behind a forest. It wasn't far from the exit of the mountain, but he knew what was going on there.

In fact, with twelfth brother's perception, he could completely sense Lin Yi's existence. Lin Yi was already within the range of twelfth brother's perception. But twelfth didn't have Lin Yi's Jade space, and his Qi wasn't inexhaustible. Sensing was very energy consuming, and it was fine to sense it occasionally, but if it continued like this, even Sky Class late phase peak would faint from exhaustion.

Plus, twelfth's goal was to seal off the mountain's exit-there was no need for him to sense the situation up there with Jingyi and Lin Yi here. Sixth bro was in charge of the search, so what was he supposed to do?

This made it easy for Lin Yi-he couldn't sense Lin Yi, so he'd just go into the Jade space to train and sense them.

During the day, twelfth didn't talk to anyone, but at night, Tagan long came secretly and went to the temporary tent that the Tagan family had set up under the Wulong hao te mountain range.

After a few days of not hearing from him, taganlong had become a little anxious, so he had secretly come here.

When twelfth saw taganlong, he frowned. "What are you doing here? Didn't I tell you to keep a low profile at home for a while and not come out?"

"I'm worried too ... Have you caught naipao and the other guy?" Tagan long asked carefully.

"What's the hurry?" "It's a dangerous time now," twelfth said. "Those two are fine, but there's a Sky Class late phase peak old lunatic who's with them. Even your master died at his hands, and you still dare to come out?" Twelfth brother warned with a serious expression.

"Ah? They still have someone to back them up?" "Sky Class late phase peak?" taganlong couldn't help but be surprised.

"That's right, and that Sky Class late phase peak old crazy guy's already left the mountain-I didn't stop him. I can't tell where he is right now, either-you'll lose your life if you run into him like this!" Old twelve nodded and chided.

"So that means that Sky Class late phase peak old crazy isn't with those two?" Taganlong immediately understood the crux of the matter.

"That's right. That old lunatic has left, but those two people haven't come down yet. Your sixth Shibo has already gone up the mountain to find them. I've set up a blockade at the exit." "If there's nothing else, you should go back and hide-if that Sky Class late phase

peak old lunatic comes, I won't be able to protect you!" He's too powerful, he has the power to split mountains and seas ..."

"This ... Okay, but those two people have two spiritual beast's inner cores. Twelfth uncle, you must find a way to get them for me!" Taganlong's visit this time was actually because of the two spiritual beast's inner cores!

It should be known that this thing was extremely rare. Even his sect's Xuanji place did not have any stock of it. There were ancient spirit beasts, but they could not kill the ancient spirit beast and take out the inner core, right? Taganlong believed that if he dared to make such a request, his master would kill him first!

"So you're thinking about the two inner cores of the spiritual beasts" essence. " Twelfth nodded, understanding taganlong's meaning.""Don't worry. I'll give it to you once I get it."

Although the inner core of a spirit beast was a good thing, it was not as important as taganlong. Having such a good thing for him to protect himself would save his sect some worry.

"Many thanks, twelfth uncle!" Tagan long was overjoyed and quickly replied.

"Alright, you can go back now. Hide at home and don't come out." Twelfth brother waved his hand and said.

"Yes, twelfth uncle, then I'll take my leave!" Tagan long bowed and left the tent, disappearing into the night with his followers ...

Lin Yi heard every single word of their conversation, and he let out a breath of relief. The Sky Class man was fine, and he ran away. It looked like twelfth didn't dare to stop him, and just watched him run away.

Lin Yi found the situation a little funny-the Sky Class man was Sky Class late phase peak, but in terms of actual combat, he wasn't the Guard's opponent at all. Thirteenth was already Sky Class early phase peak, and he didn't even dare to make a move-what would he think if he knew the truth?

Of course, Lin Yi wouldn't let him know the truth. It would be better if he misunderstood! (

## Chapter 2295 2293-Lin Yi Escaped

This was exactly what Lin Yi wanted-it seemed like twelfth and the others blamed the death of the head guard on the Sky Class. Lin Yi didn't have to worry about them suspecting him of using a Qi bomb anymore, and they would definitely think that the Sky Class was the cause of the crater, too-it had nothing to do with a mere Earth Class mid phase.

But this way, Lin Yi couldn't expose the compressed energy bomb even more. He might kill twelfth brother, but Lin Yi would be exposed too! Lin Yi didn't expect the Tagan family to be this capable. From what they were saying, there was another master on the mountain?

The twelfth was called twelfth uncle, and the one on the mountain was called sixth uncle-that meant that the person on the mountain was definitely stronger, especially when the number "twelve" made Lin Yi speechless. What kind of family was this? Stronger than an ancient sect, with at least Twelve Sky Class Masters?

How many Sky Class Masters did the Ice Palace have? He did not expect that there would be such a family in this remote town of releida.

Lin Yi couldn't help but think that he was still too low up there-he had to be high up to see further, and that meant his strength-he was just a small mid-phase Earth Class ...

Once upon a time, Earth Class was something Lin Yi looked up to, but now, it really wasn't much. Things were always like that-different references led to different conclusions.

He shook his head and put those thoughts aside for the time being-what made him happy was that Jingyi seemed to have successfully escaped from these people. From what twelfth elder said, he thought that Jingyi was still on the mountain like him.

This meant that sun Jingyi had left safely, and Lin Yi didn't have to worry anymore! Jingyi had been gone for three days, and that was enough time to leave ruilanda and head to the border town!

And taganlong and twelfth didn't mention anything about sun Jingyi getting caught, which meant that she was really fine.

However, what made Lin Yi feel strange was that taganlong seemed to value the two inner cores very much. Lin Yi thought that these things were very common, but it didn't seem to be the case.

Even the wealthy Tagan family valued it so much, so it must be something very important. But what was the use of this thing? Lin Yi wanted to get more information, but taganlong didn't say much. He left after a brief mention.

It was time-Lin Yi stood up. Theoretically speaking, there shouldn't be any teams going down the mountain at this time, and the guards at the exit were all relaxed-it was a good time for Lin Yi to escape. Of course, Lin Yi didn't expect to hide it from twelfth.

It wasn't realistic to sneak away from a Sky Class master without a sound-he had to leave quickly and lead him somewhere else, and see if he should use a net or a Qi bomb. If there were a lot of people, then he'd use the net, but if there wasn't one, then he'd use the Qi bomb.

"I'll leave first, and you can take advantage of the chaos to slip away from the side and follow me nearby. When the danger is over, we'll meet again!" Lin Yi said to Skybolt pig.

"Ji Ji!" The pig nodded.

After making his decision, Lin Yi didn't waste any time and jumped down the mountain. In the dark, Lin Yi's figure quickly passed the checkpoint at the exit of the mountain and flew away ...

"Hmph!" A cold Hmph came from the temporary tent of the Tagan family. Twelfth had sensed Lin Yi the moment he came down from the mountain. He knew that the person he had been waiting for was here. He jumped out and chased in the direction Lin Yi ran off in!

Behind him, the second guard and third guard followed him, flying in Lin Yi's direction.

Lin Yi looked at the five people behind him and cursed at his bad luck. There was only one Sky Class and two Earth Class, but Lin Yi wasn't sure if he could kill all three of them in one go. After all, they were one in the front, one in the middle, and one at the back. There was a lot of distance between them, and they were trying to surround him. This made Lin Yi very depressed!

If one of them didn't die, then Lin Yi's strength would be exposed, so he didn't dare to act rashly. It seemed like he could only use an inescapable net, hoping that it could cover both of them. If it only covered one, Lin Yi really didn't have the confidence to escape!

Feeling the three people behind him getting closer and closer, Lin Yi led them to a back alley, a place where he could easily escape after casting an inescapable net on himself. He suddenly threw his hand out and shouted, "Heaven and earth net!"

The net was aimed at twelfth-this man was Lin Yi's biggest enemy, and he was at least able to cover him!

Sure enough, seeing a huge net falling from the sky, twelfth brother was shocked. He didn't know what it was and subconsciously wanted to avoid it. But how could he avoid an inescapable net? Not only him, even the second guard who was very close to him was also implicated. After the inescapable net fell, it directly covered the twelfth elder and the second guard, without any room for resistance!

Lin Yi had experienced this net before, and he knew how powerful it was. Even a Sky Class master was no match for it-no wonder the Sky Class Spider could trap the fire Lion with it ...

However, thinking about the sky rank Fire Lion and sky rank Spider race that disappeared for no reason made Lin Yi's chest feel heavy and depressed.

"What is this?" Twelfth brother raised his hand and drew out a scimitar. This was his weapon. He wanted to use the scimitar to break the inescapable net in front of him. However, he had underestimated this inescapable net. He used the first form of an ordinary martial technique and injected true energy into the scimitar, but it was not able to break the inescapable net at all. Instead, it made the net tighten!

The third guard had wanted to continue chasing Lin Yi, but he had to stop and help after seeing this strange scene. He didn't know what kind of treasure Lin Yi was using-he was a Tagan and knew about the spider Clan, but he didn't know about their treasure.

"Earth-tier martial skill, thirteenth form!" Old twelve had no choice but to use all his strength to activate his strongest martial technique. He wanted to break this inescapable net in one fell swoop. However, the inescapable net seemed to be elastic! (

## Chapter 2296 2294-Secretly Following

When his martial skill was activated, it hit the inescapable net, but it was like hitting cotton. There was no point to exert force, making him waste a lot of strength!

Lin Yi had already run far away by now, and although his spirit sense was still sensing what was happening behind him, his feet didn't stop! If he didn't take this opportunity to escape, when would he? Lin Yi was also glad that the third guard didn't follow him. Otherwise, with the third Guard's strength as an Earth Class late phase peak, it would be difficult for Lin Yi to kill him. He would have to lure him to a more remote place and use his energy bomb to kill him.

If it weren't for the fact that Lin Yi was worried that he wouldn't be able to kill them with one hit, he'd definitely throw the energy bomb at them while they were caught in the heavenly network!

After turning a corner, Lin Yi also slowly turned the energy bomb in his left hand back into energy and put it back into his body. He also retracted the energy fluctuations in his body. The Lin Yi now was no different from a normal person.

After walking a few more streets, Lin Yi came to a dark hiding place. He waved his hand and Skybolt pig obediently ran to Lin Yi's side. This little guy was very smart. Even if he got lost with Lin Yi, he could find Lin Yi with the fire bullets and the inner cores.

"Phew ..." Lin Yi let out a long breath-things were going quite smoothly. The Sky Class Spider didn't lie to him-this was a trap, and even a Sky Class master wouldn't be able to escape from it. Getting it off his body would be a difficult task.

Lin Yi had left the mountain, and the remaining Tagan family members at the exit of Wulong haote mountain were getting anxious as well. Twelfth elder, second guard, and third guard had all gone after Lin Yi, and although there were two Earth Class Masters here, they were both relatively weak. On one hand, they couldn't help, and on the other hand, it was because Lin Yi had left the mountain, but sun Jingyi hadn't. They still had to block sun Jingyi here, in case she took the chance to leave.

"Lazlo, go back to the Tagan family immediately and inform young master Tagan and the patriarch of the family about what happened here!" The person who spoke was the fourth Guardian, and he ordered Lazlo.

"Yes!" Lazlo quickly nodded and quickly got into a Hummer, then drove in the direction of the Tagan family ...

However, lazlo's car was targeted not long after it drove out! The person who had his eyes on Lazlo was Lin Yi, of course! Lazlo didn't expect Lin Yi to return to the vicinity of the mountain range!

The most dangerous place was also the safest place-after twelfth, second guard, and third guard broke free, the first thing they'd do would probably be to search the entire town for him. So Lin Yi decided to just go around in a circle and return to the Wulong haote mountains, planning to grab any one of them and ask them for the Tagan family's address!

Now that all the Masters of the Tagan family were out, the inner circle must be empty. Lin Yi would be more than happy to go cause a scene and take care of taganlong at the same time. He'd hated taganlong for a long time, so why wouldn't he do it if he could take care of him before he left?

Lin Yi could tell that taganlong was very important-even twelfth cared about him a lot. If he died, the Tagan family would be in big trouble!

Of course, the Tagan family was powerful-there were at least Twelve Sky Class Masters in Lin Yi's eyes, but they weren't in Ruida town. If they were, twelfth wouldn't have told Tagan long about it, and he wouldn't have been so careful. Twelve Sky Class Masters would be able to take care of any enemy.

It was obvious that the Tagan family's interior was empty, and it was perfect for Lin Yi to cause a scene.

Lin Yi was planning on grabbing a random Tagan family member and asking him for the Tagan family's address, but this was the scene he saw after returning to the mountain range. Since Lazlo wanted to go back to the Tagan family, Lin Yi just had to follow him!

The Tagan family was located in an independent Manor in the town of releida. The manor covered a large area and was surrounded by fertile fields and forests. There was not a single house on the road because this was the private territory of the Tagan family!

Of course, without a certain level of power, it was impossible to live in such a place. There was no one around, what if they were attacked by bad people? Only the Tagan family, which had countless cultivators, would dare to do so.

This was a good place for Lin Yi to kill and steal without having to worry about being seen.

Lazlo drove the Hummer and sped along the road in front of the manor. However, a person suddenly appeared on the originally empty road in front of him! This situation shocked Lazlo, and he almost thought he had seen a ghost!

After all, in the middle of the night, in the middle of the road that was originally empty, a person suddenly appeared. Anyone would feel scared! Fortunately, Lazlo was also a small leader of the Adventurer's Guild and a cultivator. When he saw someone coming out, he was only shocked for a moment. The next moment, he realized that the person who came was not friendly!

However, Lazlo didn't plan to stop the car. Instead, he stepped on the accelerator and prepared to crash into it. Since it stood in the middle of the road and wanted to stop the car, it was definitely not a good person. Lazlo didn't need to be polite. He just had to increase the horsepower and crash into it.

If Lin Yi was still golden class, he'd be afraid of a car hitting him, but he was now Earth Class mid phase, and had a strong Qi protecting his body. Even if the car hit him, it wouldn't do much damage to him. On the other hand, Lin Yi could knock the speeding car over with a punch.

"Wild fire Fist, first move!" Lin Yi waited for Lazlo's car to drive over before making his move-the first form of the wild fire Fist was enough. Lazlo was a golden class master, and Lin Yi was afraid that he'd kill him with one hit, so he mainly used it to send the car flying.

"BOOM!" There was a loud noise, and the speeding car flipped in the air before landing heavily on the side. All four wheels were facing the sky, whirring in the air-Lin Yi's punch was perfect, not killing the driver.

"Get out of the car, Mr. Lazlo!" Lin Yi didn't give the driver time to react-he pulled the door open with all his might and pulled the handle out of the driver seat.

The car's structure was very hard, and it had only flipped over without exploding. Therefore, to cultivators like lazi, it did not suffer any fatal injuries, but it was quite a shock! (

## Chapter 2297 2294-Conditions Met

And when he saw that the person in front of him was Lin Yi, he was so scared that his legs almost gave out!

"You ... You ... You're Zhang naipao?" Lazlo looked at Lin Yi in disbelief-why was this guy here? Wasn't he being pursued by twelfth, second and third guard?

How did he escape from the pursuit? Could it be that twelfth, second guard, and third guard had already died? At the thought of this, Lazlo's face was filled with fear.

Lin Yi grabbed the Labrat by the collar and lifted him up as if he were a little chicken. He then gave a flying kick, sending the Labrat's car flying into the forest by the road. It was dark, and one wouldn't be able to tell that there was a car in the forest if they didn't pay attention ...

Lin Yi didn't think anyone would pass by this road anymore, but nothing was absolute. He didn't want an accident to happen, so he took the laman's car and hid in the forest. He

threw the laman on the ground and stepped on his chest,"What does taganlong want the inner core of a spirit beast for?"

"Ah?" Lazlo blinked, not expecting Lin Yi to ask something like that. He'd thought that Lin Yi was going to ask about the Tagan family's secrets, but this guy was asking about a spirit beast's core-wasn't that a little too much?

"If you don't want to suffer, then hurry up and say it!" Lin Yi didn't have the patience to deal with Lazlo.

"Good ... The inner elixir of a spiritual beast's essence can be used to make an Essence Necklace. Didn't you know that?" Lazlo was a little puzzled. This was no secret. At least, the few major families in the town of releida knew about it. It was just that no one had ever refined it, except for the Tagan family ...

"Refine an essence Qi necklace? What was an Essence Necklace? What can it be used for? How do you refine it?" Lin Yi blinked-he didn't know that the inner core had such a use.

"Profound Qi necklace? You don't know either?" Lazlo was curious why Lin Yi didn't know anything, but he explained anyway,"Essence Necklace is a kind of necklace that can increase attack and defense. There's a chance to increase attack and defense ..."

"What do you mean by probability?" Lin Yi's heart skipped a beat-there was actually such a thing? This was good stuff!

"I don't know about that ..." Lazlo shook his head. "Because this is only a legend. I've never seen it before ... It's just what everyone says ..."

Lin Yi nodded. Lazlo didn't look like he was lying-he was scared out of his wits, after all, and from his tone, this necklace didn't seem like it was some secret or anything. There was no need for him to hide it from everyone, so Lin Yi continued, "Then How do I make an essence Qi necklace?"

"I don't know about that. It's said that only the legendary forgers can make it, and there must be a way to make it ..." Lazlo said.

"The legendary blacksmith?" "Hmph." Lin Yi hmphed coldly, "if he's just a forger, then why would the Tagan family look for the beast's core essence?" And you didn't even hesitate to turn hostile against me? Do you think a normal person would make a move for a legendary, illusory existence?"

"This ... Alright, I'll say it. I heard that there's a forger in the Tagan family. Although he's only an earth-rank forger and has some superficial knowledge, he just so happens to have the method to make this Essence Necklace ..." Lazlo said honestly. He had only heard of it. "As for whether there's such a blacksmith, I don't know either because I've never seen him before. I'm just a small figure, so I don't know much ..."

"Oh, then you can die now ..." Lin Yi said.

"Don't ... Don 't, Mr. Zhang, I'm just a small character, it doesn't matter to you whether I die or not, please don't kill me ..." Lazlo was on the verge of tears when he heard that Lin Yi was going to kill him, "I have a 60-year-old mother who's already dead, and my unborn children who are still crying for food ..."

"..." Lin Yi was speechless at Lazlo's unique way of begging for mercy, but the guy was honest.

"Mr. Zhang, I'm just an ordinary cultivator who wants to earn a living. In the Tagan family, I had no choice. Please don't kill me, I beg you!" Lazlo cried and begged for mercy with snot and tears.

"If I don't kill you, what's the point of keeping you alive?" Lin Yi asked faintly.

"I ... I ... Right, weren't you interested in the profound Qi necklace? "I can take you to the Tagan family and tell you where the family's library is. There's a detailed introduction and refining method of the essence Necklace there, and you can steal it ..." Lazlo suddenly had an idea and said.

"Oh? You can take me there?" Lin Yi's interest was piqued after hearing Lazlo's words. To be honest, he really wanted to take a look at the necklace ...

"That's right, I have an idea!" Lazlo could tell from Lin Yi's tone that he was very interested in the necklace, and it was like he'd found a life-saving straw. "I've been to the Tagan family a lot, so I'm very familiar with the place. With me leading the way, Mr. Zhang will have fewer detours ..."

"Since that's the case, let's go." Lin Yi pondered for a while and nodded. He came to the Tagan family to kill taganlong, but the essence Necklace was even more attractive to him than killing the Tagan family!

This trip to the mountains was extremely dangerous, but Lin Yi had gained a lot. If he could get the refining method of this necklace, it would be a surprise.

"Thank you for not killing me, Mr. Zhang!" Lazlo said with tears of gratitude.

"However, you can avoid death, but you can't escape punishment!" With that, Lin Yi took out silver needles and said to Lazlo, "I'm going to seal a few of your acupuncture points, so you can't use your true Qi for two hours. This is also my punishment to prevent you from betraying me! When I'm applying the needles, don't use your true Qi to resist!"

"This ... Yes!" Lazlo couldn't refuse and could only nod his head. Compared to death, being unable to use true Qi for the time being with his acupoints sealed was already a better outcome.

And so, without Lazlo's resistance, Lin Yi sealed all his meridians and pressure points, making him unable to use his pure energy for two hours. Of course, if Lazlo was a little stronger, he could use his pure energy to break through the pressure points and break the seal.

But his strength was too low, so he could only wait for it to dissolve naturally. (

## Chapter 2298 2296-Luring The Tiger Out Of The Mountain

Lin Yi didn't bother with Lazlo after subduing him, and went into the forest to get the Hummer back on the road. The Hummer was sturdy to begin with, and it was definitely custom-made for the Tagan family-it was even tougher. Lin Yi's kick only dented the exterior a little, and there wasn't much damage to it. It could still be used.

"Get in the car and head to the Tagan family!" Lin Yi ordered.

"Yes, Mr. Zhang!" Lazlo quickly ran over, got into the car, started it, and drove in the direction of the Tagan family.

"I'll go to the library Pavilion and find the way to make the profound Qi necklace." Lin Yi ordered.

"Alright, Mr. Zhang." Lazlo quickly nodded.

In his eyes, Lin Yi was the type of person that he shouldn't mess with. He was a thorn in the side, and if you went against him, he'd kill anyone. Didn't the fifth and eighth guard become ghosts?

The head Guard's death was also related to him. Now, even the twelfth, second and third guard couldn't catch up to him and had directly lost him. To be able to come here to intercept him in this kind of heavy encirclement, this power was naturally not something lazi could contend with.

So Lazlo sold out the Tagan family without any hesitation. He was ready to run away after he was done with this. After all, Rileida was a small force that was drifting away from a small country. No matter which country he went to, the Tagan family couldn't extend their hands that far. If he really couldn't do it, he would go to a small town on the border.

Over the years, Lazlo had gained a lot of benefits from the Association of adventurers under the control of the Tagan family. It was a good choice to find a place to enjoy life in peace and be a rich man.

On the path of martial Dao, he admitted that he didn't have any great talent, so it was impossible for him to advance. Thus, it was normal for him to give up.

Lin Yi, on the other hand, didn't think too much about it—he was just using the man for his familiarity with the Tagan family. Whether the man stayed or left after this was none of Lin Yi's business.

"I'm sitting in the car, is that okay?" Lin Yi asked.

"It's fine. The Tagan family is tight on the outside but loose on the inside. They've sent out all their experts. At this time, the only people left in the family are the patriarch who's always in seclusion, the family head Tagan Gao, and the young master Tagan Long." Lazlo understood the Tagan family quite well.

Lin Yi nodded. Even if twelfth and the others broke free, they probably wouldn't expect Lin Yi to come back and kill them instead of running away. Twelfth wouldn't even think of this!

Twelfth brother had used his heaven-grade martial skill ten times in a row, and even after he was exhausted, he had barely managed to break the inescapable net. The toughness of this thing could be seen!

The first thing he did after escaping was not to chase after Lin Yi-he knew that he wouldn't be able to catch up to him, so he had to search the entire city. He wasn't in a hurry-he had to inform six first, telling him that Lin Yi had already left the mountain, but that he was alone. There was still someone else on the mountain, so he had to search as soon as possible!

At this point, twelfth had "guessed" Lin Yi's plan-they were going down the mountain one by one. He didn't know what the benefits were, but it seemed like it.

After releasing the flying spirit beast, twelfth brother waved his hand at the second and third guard, "Let's go, we'll go search for that naipao kid! We must capture him today!"

Sky Class Masters had very strong spiritual senses, and if they spread out their senses, all the practitioners nearby would be able to sense it. From what twelfth brother could tell, Lin Yi would use his Qi to escape, and he'd be using his practitioner's Arts in case someone attacked!

It was possible that Lin Yi was hiding in the dark, but that was only for a while. Once the sun rose, the Tagan family's men would all be out to search the entire city, and Lin Yi would have nowhere to hide.

At this moment, Lin Yi and Lazlo had already arrived at the entrance of house Tagan's Manor. The guards at the entrance saw Lazlo's car and Lazlo in the driver's seat, but didn't stop them. They let them pass, completely ignoring Lin Yi in the front seat.

Either the Tagan family had problems with their management, or they were too arrogant and didn't think Lin Yi could do anything on his own!

In fact, both of Lin Yi's conjectures were valid. The Tagan family had been the number one force among the noble houses and gangs in ruiledah all these years. Who would dare to cause trouble for them? At the very least, this guard had been a guard for several years and had never encountered an enemy who had barged into the Tagan family, let alone being brought into the family by the Tagan family themselves.

"See, I said it's fine." Lazlo smiled smugly.

"Don't waste time, let's go straight to the library," Lin Yi nodded.

"Okay ..." Lazlo remembered Lin Yi's purpose and stopped.

"What's wrong?" Lin Yi turned to Lazlo.

"This time, I betrayed the Tagan family. If I stay here, I'll be suspected sooner or later. So, Mr. Zhang, after you enter the library, can you let me go and let me leave this place?" Lazlo said after some hesitation.

"What does it have to do with me whether you leave or not? I can't stop you, can I?" Lin Yi said faintly. To be honest, he didn't plan on killing Lazlo. He was just a small fry, and he was in the Tagan family for the sake of survival. Betraying the Tagan family and helping him was also for survival. There was no need for Lin Yi to make things difficult for him.

"But, my acupuncture points haven't been unlocked yet ..." Lazlo smiled bitterly. "I can't run far without strength, and once I run, I'll probably attract the attention of the Tagan family. If I don't have true Qi, I won't be able to run fast, and I'll probably be caught ..."

"So it's like this!" "If that's the case, I'll tell you a trick. I guarantee you'll be able to escape." Lin Yi nodded.

"What move? I hope Mr. Zhang can teach me!" Lazlo quickly asked.

"I'll be entering the library later, you wait for me in a dark corner below. I'll let out a long howl to alert them, and after that, it means I've succeeded. You drive out immediately and inform those guards that were chasing me, tell them that I've come to the Tagan family's inner circle to cause trouble, and tell them to go back and help ..." Lin Yi said.

"Luring the Tiger away from the mountain?" Lazlo wasn't stupid-he understood what Lin Yi was trying to do. "Transfer these powerful figures of the Tagan family back, and then I can escape? But what if they want me to come back with them? Also, what about you, Mr. Zhang?" (

## Chapter 2299 2297-People From The Library Pavilion

"Don't worry about me. I'll leave with you after I warn you. I'll be gone by the time you call them back. It's good for you to lure the Tiger out of the mountain. It's good for me too!" "As for them asking you to come back with them, that's easy. Just tell them that you're going to continue informing the Tagan family people at the exit of the mountain range ..." Lin Yi said.

"Alright, I understand!" Lazlo nodded-he wasn't a stupid person, and Lin Yi got it with one hint.

Lin Yi's plan was great-he'd pretend to report the news and then slip away like a cicada. This helped Lin Yi-he'd be ready to escape when twelfth came back with the guards.

"If that's the case, I'll unseal your acupuncture points." Lin Yi waited for the man to stop before helping him release his pressure points.

"Many thanks, Mr. Zhang!" "The library Pavilion is over there," Lazlo said gratefully."Mr. Zhang, be careful!"

Lin Yi waved his hand and got out of the car, disappearing in the direction of the library ...

"That's fast ... As expected of an Earth Class mid phase ..." Lazlo said.

The Tagan family's library Pavilion was not very big. Although it was an independent two-story building, after entering it, one could see that it had a lot of space and few bookshelves! Perhaps this was also a common problem of these families-they didn't have as much Foundation as the ancient sects and families.

The library was a lot bigger than the Hidden House han, but it wasn't as big as Lin Yi had expected ...

Lin Yi was a little confused-just what was the relationship between these Sky Class Masters and the Tagan family? Lin Yi's thinking was limited before, and he didn't have the time to think about it when he was in danger, but now that he thought about it, he had his suspicions.

What did the Tagan family do to have so many Sky Class Masters under their command? But now, it seemed that these Sky Class Masters weren't part of the Tagan family's own power. Perhaps the Tagan family was just a subsidiary force, just like the relationship between some hidden houses and ancient sects. Or perhaps it was because Tagan long was a disciple of this big sect, so these Sky Class Masters took extra care of the Tagan family?

Lin Yi was a little disappointed after just one look at the books-there wasn't anything special, just normal practitioner's Arts and skills. Just from the names, he could tell that they weren't high class, but some things couldn't be judged just by the names.

It was just that Lin Yi didn't have the time to read through them one by one, and he couldn't take all of them away. The Tagan family probably wouldn't notice if he took one essence Necklace, but if he took too many, the Tagan family would probably go crazy and chase him back. It wasn't worth it.

The library was very quiet, and there wasn't a single soul in sight. No one from the Tagan family would be here at this time, and Lin Yi quickly flipped through the books on making essence necklaces.

There weren't a lot of books in the library, and with Lin Yi's eyes, he quickly spotted a book on the top-most left shelf with the title "Essence Necklace refining method" on it!

It was the book. Lin Yi quickly pulled it out and flipped through it with the help of the moonlight. It was a thread-bound manuscript, and the words were big, making it easy to read under the moonlight. As expected, the first item was a spirit beast's inner core!

After making sure that this was what he was looking for, Lin Yi didn't look at it anymore and quickly put it away. Just as he was about to leave the library to find ta ganlong, he suddenly stopped. He felt an unknown danger-a practitioner was walking towards the library, and judging from the energy fluctuations, he was a Mystic early phase!

Lin Yi's goal was to steal the book and bring bad luck to taganlong-he didn't want to cause any trouble! If possible, it was best not to make an enemy out of this person who came to the library. Who knew what this early phase Mystic class master was here for? if he was really here on the orders of Tagan Gao, the head of the Tagan family, or some old ancestor who was in seclusion, then if he killed him, they'd definitely come out to look for him if he didn't come back. He wouldn't have the time to cause trouble for Tagan long, so he'd have to run away first!

And so, Lin Yi's first thought was to hide! There were only two bookshelves in the room, but there were some wooden tables and chairs for reading purposes, and under the table was perfect for Lin Yi to hide!

Footsteps came from outside the library-the man was indeed here. Lin Yi hid himself under the table as well. Killing a Mystic early phase was a piece of cake for Lin Yi, but he also wanted to kill taganlong. He didn't want to cause any unnecessary trouble. He'd just wait for the guy to come to the library and get his stuff before leaving.

Ka ... The lights were switched on, and the entire room was lit up. Lin Yi didn't turn on the lights earlier, relying on the moonlight and the Jade space to differentiate the books, but this person didn't need to do that.

The person didn't expect a person to be hiding in the library at all. After turning on the light, he walked to the left shelf where Lin Yi was standing, but after rummaging through it a few times, he let out a surprised cry and mumbled to himself, "Didn't you say to put it here? How come it's gone?"

Lin Yi was under the table, but he paid attention to the person's actions. He saw the person walk to the bookshelf he was at, and Lin Yi's heart sank a little. He was afraid that this guy would notice that a book was missing, but he didn't expect the person to say something like that!

If Lin Yi's guess was right, this person was probably looking for the "refining method of an Essence Necklace" in his hands. Lin Yi frowned. Just as he was thinking of a plan, the person took out a walkie-talkie and spoke into it, "Young master Tagan, I'm in the library, but I didn't see the book you wanted?"

"You didn't see it? It's on the top left side of the bookshelf, I put it there myself!"  
Taganlong's voice came from the walkie-talkie.

"I've searched thoroughly, there really isn't any!" The person said hesitantly.

"Wait for me, I'll go over now!" Taganlong didn't suspect anything. He just thought that his men hadn't found it. (

## Chapter 2300 2298-Shocked And Scared

"Alright, young master Tagan! Then I'll wait for you here!" The person said respectfully.

Lin Yi let out a breath of relief. He'd wanted to get rid of this guy and run away, but he didn't expect the tables to turn. The person who sent him to get the book was taganlong, and after he failed to get the book, taganlong came here himself. It made Lin Yi feel like he'd worn out his iron shoes to find it, but now he'd found it without any effort. This guy really was looking for death!

With that thought, Lin Yi had nothing to worry about anymore. He crawled out from under the table silently, stood up, and walked behind the person ...

Lin Yi was an Earth Class mid phase-he was much stronger than the man, and he was good at hiding his strength as well. So, he arrived behind the man without a sound, and the man didn't notice it. But, just as Lin Yi was about to kill the man, the man suddenly felt something was wrong behind him, and turned around to see Lin Yi!

"Ah ..." He let out an incredulous cry. His eyes were filled with surprise, but he was not afraid. In his opinion, how could an enemy break into the Tagan family? This had never happened before!

Therefore, although the person looked unfamiliar, he only thought that someone might have sent him here to retrieve the books. Just as he was about to ask why the person did not make a sound like a ghost, the person felt a sharp pain in his chest. Then, his body flew out and landed heavily on a bookshelf not far away with a loud sound. The bookshelf fell down with the books scattered all over the ground!

To ambush a Mystic early phase master, especially one who wasn't prepared for it, was a piece of cake for Lin Yi! And so, the man died in an inexplicable situation, not even knowing how he died or who Lin Yi was to kill people here!

After killing the person, Lin Yi turned around and hid at the library's entrance. This wasn't a very good place to hide, because whoever entered the library would be able to see Lin Yi behind the door as soon as they turned around, but this was a good place for a sneak attack.

Lin Yi didn't want to hide from taganlong, but he wanted to ambush him when he saw the shocking scene in the library!

Taganlong was an Earth Class early phase-he looked like a rich kid, and his strength seemed to have been built up from elixirs, but Lin Yi wouldn't underestimate him. There was a difference between Earth Class early phase and mid phase, but it wasn't too obvious-it was enough to make up for it with high-tier Arts and Arts.

Not long after Lin Yi finished hiding, footsteps came from the library again-it was probably taganlong, and Lin Yi could tell that the man was an Earth Class early phase.

Ta ganlong never thought that there would be such a tragedy in the library. However, cultivators were naturally sensitive to the smell of blood. When he reached the door, he still felt that something was wrong. His steps slowed down slightly as he suddenly discovered the change in the library!

The subordinate he had sent to help him retrieve the book was already dead on the ground, and the bookshelf in the library Pavilion had also been smashed by his corpse!

"Who's there!" Tagan long asked as he subconsciously raised his guard.

Lin Yi didn't think that the idiot taganlong would be this alert, realizing the problem even before he entered the library. He'd wanted to ambush taganlong from behind, but that seemed impossible now. He had to show himself!

Lin Yi was afraid that taganlong would turn around and ask for help. When the other Masters of the Tagan family arrived, Lin Yi wouldn't be able to leave the library safely, let alone kill taganlong!

"Young master Tagan, how have you been?" With that thought, Lin Yi flashed out of the door and stood in front of taganlong.

"Zhang naipao?" "Why are you here?" Tagan Long's eyes narrowed.

"I'm here to kill you!" With that, Lin Yi sent out the third stance of the wild fire Fist towards taganlong!

Lin Yi didn't want to cause too much of a commotion in the Tagan family, and as far as he was concerned, the third style of the wild fire Fist was equivalent to the fourth style of a normal martial arts technique. It was enough to kill the idiot young master taganlong, and Lin Yi could use it no matter how high the level of the martial arts technique was. He was just afraid of causing trouble!

Especially since he couldn't use energy bombs-the sound of the explosion would be too loud, and even the old ancestor would be jolted out. Lin Yi wouldn't be able to run even if he wanted to.

Taganlong smiled coldly, as if he'd known that Lin Yi was going to make a move. He tilted his body and dodged the third style of Lin Yi's wild fire Fist easily. When he was not far from Lin Yi's side, he raised both his hands, and a strange light flashed on his palms."The first move of the five elements Eight Trigrams palm ..."

The first form? Taganlong was only an Earth Class early phase, so Lin Yi wasn't surprised that he could only use the first move. What surprised him was that taganlong was able to Dodge his fist of raging fire so easily. Lin Yi was impressed by this Qinggong-this kid's life-saving methods were pretty good, weren't they?

But when taganlong pushed his palms towards Lin Yi, Lin Yi's heart jumped, and the Jade on his chest sent out a strong warning signal! In the past, the jade pendant would also give off an early warning when fighting with an enemy, but such a strong warning would only appear when he was fighting with the fifth guard and the head guard.

But now, it appeared in his fight against taganlong! This made Lin Yi both shocked and terrified!

The force was strong and strange-taganlong's palms looked calm, but there was an indescribable force to them. Lin Yi couldn't even tell what element taganlong's practitioner's Arts were. Was it fire or water? Or wood element? Gold element? Earth element?

A palm with a strange light came towards Lin Yi's chest. Lin Yi didn't dare to take it head on, but the arrow was already on the bow and he had to fire it. Lin Yi had to use his strongest martial skill,"The fifth move of wild fire Fist!"

"BOOM!" "BOOM!"

Lin Yi's fists met taganlong's palms, and in the next moment, Lin Yi felt a force that could topple mountains and overturn the seas coming from taganlong's palms. Lin Yi took two steps back from the impact, but taganlong clearly didn't have much of an advantage either. He was hit by Lin Yi's raging fire Fist and quickly took a few steps back, his face a little pale!

But from Lin Yi's point of view, taganlong was at a disadvantage, but he wasn't seriously injured. This situation made Lin Yi both scared and shocked! (
