

Beauty and the Bodyguard

Chapter 2301 This Is Impossible!

This taganlong was only an early Earth-rank fighter, and the difference between them was obvious. Yet, he actually took a direct hit from him?

In Lin Yi's eyes, taganlong was just an idiot young master, an Earth Class early phase who used elixirs to train up. Lin Yi didn't expect taganlong to be able to use such a powerful skill, and both his combat ability and reaction speed were far beyond Lin Yi's expectations!

However, even if the two were evenly matched, Lin Yi's face was still very ugly! He didn't lose, but he did lose-Lin Yi used the fifth form of the wild fire Fist, while taganlong used the first form of the Bagua Palm!

The first move against the fifth move, and Lin Yi only tied. If that wasn't a loss, then what was? And Lin Yi was much stronger than taganlong! This guy was the one who was really fighting an enemy above his level, pretending to be a pig to eat a Tiger!

When he was in the Wulong hao te mountain range, this brat had the appearance of a good-for-nothing young master and did not reveal his true strength. In the end, he had such powerful strength!

As the saying went, "the moment an expert makes a move, you'll know if he's good or bad." The moment taganlong made his move, Lin Yi knew that this guy wasn't an idiot-he was a true master, very strong! This was Lin Yi's evaluation of taganlong!

This guy was hiding too well-if Lin Yi didn't make a move himself, taganlong would've been hidden from Lin Yi's eyes already!

Taganlong didn't want to reveal his strength, either-he wouldn't fight Lin Yi if it weren't a life or death situation. If there was a master next to him, he'd ask the master to help him, and he'd just act like he was scared.

However, there were no experts around, so he had no choice but to make a move. This was a time of life and death, so he couldn't go easy on them.

Lin Yi was starting to panic-if he'd known that taganlong was a master, he'd have to think twice before making his plan. Killing taganlong would be nice, but what if he was a tough nut to crack?

Even if he did, he'd have to pay a huge price, and that wasn't something Lin Yi wanted to see. If he'd known this would happen, he'd probably have left right after stealing the books. Even if he had to go after taganlong, he wouldn't have made a move so rashly. He'd have compressed an energy bomb in his hand to kill taganlong.

But now, there wasn't enough time. Lin Yi didn't have time to think, and he used the fifth style of the fist, aiming for taganlong's chest!

"Hmph!" Taganlong snorted coldly and said, "I've underestimated you. I didn't expect you to be so strong!" The second move of the five elements Eight Trigrams palm, take this!"

With that, taganlong didn't even try to Dodge. He raised both his palms and pushed them out to meet Lin Yi's fists!

An even stronger force hit him in the face, and Lin Yi's heart jumped! How could this Tagan Dragon be so strong? Did he hold back just now? That seemed to be what he meant- he didn't use his full strength just now, and only now did he finally look Lin Yi in the eye!

Lin Yi didn't like being looked down on like this. It was like what he used to say when he faced an enemy a level higher than him-the thrill of fighting someone a level higher than him was all gone in front of taganlong!

Taganlong was a strong opponent, and Lin Yi realized that he'd underestimated him. He shouldn't have been fooled by his appearance.

"BOOM!" "BOOM!"

Another two loud sounds rang out, but this time, taganlong was still pushed back a few steps, but Lin Yi's body was sent flying!

The second move, it was just the second move of a martial technique and it was already so powerful? Lin Yi grumbled inside-this taganlong's master was strong, and so was his

disciple. No wonder those people in the eight trigrams robe valued taganlong so much-this guy was quite capable!

"Hmph! Again!" Lin Yi spat out a mouthful of blood and fell to the ground. He got up and wiped the blood off his mouth with his sleeve.

"Since you don't mind death, then I'll send you on your way!" Taganlong's eyes were cold as he looked at Lin Yi. Lin Yi was already a dead man in his eyes."Now that you know my secret, I can't let you leave here alive, no matter who you are or where you come from!"

As expected, taganlong had been acting like a popinjay all this time, enduring silently. Lin Yi silently mused at the depth of this guy's schemes, but his hands didn't stop moving. He immediately sent out the fifth style of the wild fire Fist, but this time, it wasn't just the fifth style, but it was combined with the divine fire bullet. It was equivalent to the eleventh style of a normal martial arts technique!

"Wild fire Fist!" Lin Yi was like a moth flying into a flame as he launched the fifth style at taganlong, who took a deep breath and pushed out his palms again!

"The third move of the five elements and Eight Trigrams palm, you can die now!"
"Hmph!" Taganlong snorted coldly."You're not simple to force me to use my most powerful martial technique. You'll die a worthy death!"

The third move? An early Earth-class warrior was able to use the third move? Lin Yi's eyes narrowed. Could this taganlong be a genius like him? Lin Yi was able to use the third style of the fist when he was an Earth Class, but taganlong was able to do it too!

Plus, Lin Yi could clearly feel that taganlong's five elements Eight Trigrams palm or something was especially powerful, much more powerful than a normal earth tier skill! Lin Yi's wild fire Fist was already considered a very high tier technique, but it was still a distance away from taganlong's five elements Bagua Palm!

This made Lin Yi want to steal the technique-what would happen if he mastered it?

Of course, Lin Yi was just thinking about it. A skill like this wouldn't be in the library, and he didn't have the mood to fight. If he didn't solve this quickly, he'd get the elder, taganlong's grandfather tagange, the second guard, third guard, and twelfth guard here- he wouldn't be able to escape!

Martial arts were good, but one had to be alive to learn it. Lin Yi wasn't in a hurry now that he knew about it. There was always hope when there was life. He'd have the chance to learn it in the future!

"BOOM!" "BOOM!"

Lin Yi's fists landed on taganlong's palms. Taganlong's face suddenly changed from shock to paleness, and then red. He spat out a mouthful of blood and flew back from Lin Yi's attack. Blood spurted out of his mouth-it was clear that he had suffered a serious internal injury!

"Impossible ... Impossible ..." Taganlong looked at Lin Yi in disbelief, ""How is this possible? you're only at the mid-stage of the earth-rank, how did you manage to use the

eleventh move? That's a heaven-grade martial skill ..." If you like this work, you are welcome to come to to vote for recommendation and monthly votes. Your support is my greatest motivation.)

Chapter 2302 2300-Ancestor Tagan

However, after saying that, taganlong's vision turned black and he fainted! He was strong, but no matter how strong he was, he couldn't handle the power of Lin Yi's fifth style of the wild fire Fist plus the fire god bullet!

One had to know that even the head guard was almost injured from Lin Yi's attack, let alone taganlong!

"Ah!!!!" Lin Yi let out a long howl to warn Lazlo, while his body quickly ran away ...

Lin Yi wanted to end taganlong's life with another punch, but he felt danger, an extremely strong danger! The battle between him and Tagan long must have attracted the attention of the Tagan family's experts. I wonder if it's Tagan Gao or the old ancestor Tagan who's in seclusion?

But no matter who it was, Lin Yi wasn't a match for them. All he could do was run for his life. Time was his life, and even a fraction of a second would cost him the chance to escape. So, Lin Yi decided to ignore taganlong and run!

As it turned out, Lin Yi was right. As soon as he disappeared, another figure appeared at the scene of Lin Yi and taganlong's battle! He was the Tagan family's patriarch, Tagan Tagan, who was always in seclusion!

Tagangan was a Sky Class mid phase peak, always in seclusion to break through to Sky Class late phase. However, he sensed that there was a battle going on in the Tagan family tonight-Sky Class Masters had extremely strong spiritual senses, and so he felt something was wrong and quickly rushed towards the battle!

"Long 'er, my great-grandson!" When tagangan arrived, he was shocked to see taganlong lying unconscious on the ground, covered in blood! Although he knew that the murderer had escaped, he didn't dare to chase after him. Thinking about taganlong's situation, he quickly crouched down and came to taganlong's side!

"Long 'er, how are you?" Tagangan picked up taganlong and placed his hand on taganlong's meridians in grief and indignation. After placing his hand on taganlong's meridians, he discovered that taganlong's meridians were in a mess. It was obvious that taganlong had suffered some serious internal injuries!

Taganlong, on the other hand, was unconscious and could not speak.

Lazlo wasn't expecting a fight between Lin Yi and taganlong, and cursed at his bad luck. Usually, there would be no one in the library at this time, but today, two people came-even taganlong himself! This was troublesome!

Of course, what Lazlo didn't know was that even if taganlong didn't come, Lin Yi would've still gone to him for trouble. Taganlong's presence only made it easier for Lin Yi to deal with him.

Lazlo wanted to escape, but he didn't dare to. If he left now, Tagan would be suspicious.

"Who's there?" What Lazlo didn't expect was that even though he didn't run away, he was still discovered by tagangan! Tagangan's eyes were like torches as he looked in Lazlo's direction.

"Patriarch, it's me. I'm Lazlo. I'm here to tell young master Tagan a message ... I didn't expect to see this scene. It scared me silly ..." Lazlo wasn't stupid, and he quickly came up with a solution. He walked over with a pale face.

"Lazis?" Tagangan muttered to himself for a moment before nodding. "I know you. You're the person in charge of our Adventurer's Guild!"

"Ah, you still remember me, forefather? "It's my honor ..."Lazlo quickly made a happy expression.

"What kind of message do you want to send?" Tagangan waved his hand and asked. Although he was anxious, he knew that he could not save taganlong. He could only hope that the head guard would get the news and come as soon as possible.

"What happened? Eh? Father, what are you doing here? Tagan Dragon? What's wrong with him?" The person was taganlong's grandfather, tagange. He heard the commotion and ran over, only to find taganlong in tagangan's arms.

"Taganlong has been injured!" "Hurry up and get the head guard to treat him!" Tagangan ordered.

"Head guard?" Tagan Gao was taken aback. He remembered that his father had been in seclusion all this time, so he didn't know what had happened at home. Tagan Gao didn't want to disturb his seclusion, so he didn't tell him about the death of the head guard. He could only smile bitterly. "The head guard is dead ... Father, I'll explain this to you later. Tagan Long's injuries can not be delayed!"

"Family head, old ancestor, I'll go and inform the head Guard's sect's Mr. Six and Mr. Twelve to get them to help." Lazlo finally found a good reason to get away.

"Alright, go quickly!" Tagan Gao also knew Lazlo. He waved his hand to signal Lazlo to inform twelfth brother and the others.

Tagangan originally wanted to ask Lazlo what he wanted to report, but when he thought of taganlong's injuries, he could only give up and wait for Lazlo to return.

Lazlo jumped into the Hummer as if he had been granted Amnesty. He stepped on the accelerator and drove out of the Tagan family's Manor ...

"What happened? Why did so many things happen at home when I was in seclusion? Furthermore, the enemy has actually managed to kill their way into our Tagan family's Manor?" Tagangan's tone wasn't very pleasant, "head guard, such a powerful figure is

dead? Although his level isn't as high as mine, his strength is above mine. How could he die?"

"Ai!" Tagan Gao knew his father would ask this. Although he was worried about Tagan Long's safety, he knew that there was no point in panicking. Only when twelfth and sixth brother returned from that place would he have a solution."It all started when taganlong wanted to go up the mountain to capture the little fire Lion as a contractual spiritual beast ..."

Then, tagangan began to tell tagangan everything that had happened ...

After Lazlo drove out of the Tagan family, he heaved a sigh of relief! He took out his phone and called the second guard. Although old six and old twelve didn't have mobile phones and relied on the ancient method of flying spirit beasts to send messages, the second and third guards had mobile phones!

Of course, Lazlo didn't mention that the second and third guards had already left the Wulong hao te mountain range with the twelfth elder, and that they could still make a phone call! However, tagangan and tagangao didn't know about this. They thought that twelfth and the others were at the foot of the mountain range. There was a natural signal blocking system in the mountain range, so no phone calls could be made. However, there was no such restriction in releida town.

"Hello? Lazle? What's the matter?" The second guard picked up the phone. He was searching for Lin Yi with the third guard and twelfth guard!

"Second guard, bad news! That Zhang naipao actually returned to the Tagan family's Manor and injured young master Tagan! Young master Tagan is heavily injured, you guys

need to come back and take a look!" Lazlo didn't say that Lin Yi had already escaped, but he did mention taganlong's injury. (

Chapter 2303 2300-Returning To The Sect

This way, the second and third guard, as well as twelfth elder, would definitely rush back to the Tagan house as soon as possible. They wouldn't be able to look for Lin Yi at all, and Lazlo could escape with them. Otherwise, if they left people to search around here and Lazlo was caught, he'd probably lose his head if they found out that he was the one who lured Lin Yi here!

"What? Tagan Dragon is injured?" The second guard was shocked when he heard Lazlo's words. He immediately said, "We'll go back immediately!"

"Alright!" Lazlo hung up the phone and went straight in the direction of the border town. He had to escape this place overnight! As for luggage, he didn't need any of it. He had an account in a Switzerland bank, so he just needed the money.

While the second guard was on the phone, the third guard and twelfth guard were listening in on the conversation. Hearing that Zhang naipao had injured ta ganlong, their faces darkened!

"This Zhang naipao's trying to lure us away from the mountain!" "We all thought that he would definitely run away, so we searched the entire Street for him," the third guard said hatefully. "But we didn't expect that he would directly kill his way back into our Tagan clan and even injure taganlong!"

"This kid really dares to do it!" Twelfth frowned,"but I know how strong taganlong is-that Zhang naipao is only earth Class mid phase. Taganlong should be on the same level as him, how did he get injured?"

"Who knows? Also, how did Zhang naipao know where the Tagan family was, and how did he find Tagan Dragon?" The second guard was also a little puzzled.

"Let's not care about this. Let's go back and take a look!" Twelfth brother was worried about taganlong's safety. Although this person was a member of the Tagan family, twelfth brother was even more nervous because that place, his master, had high hopes for taganlong. If something happened to taganlong, it would affect the big plan ...

At this time, Lin Yi had already left for a long time. With his speed, even if twelfth brother, second guard, and third guard rushed back, they wouldn't be able to see him. At this time, Lin Yi had already left ruileida town with Skybolt pig in his arms, directly using the river to cross back to the border town ...

In the Tagan family's Manor, twelfth brother saw tagangan long in tagangan's arms and took him. He placed his hand on tagangan's pulse and immediately frowned!

His meridians were in chaos, his true Qi was in disarray, and many of his meridians were broken! In such a situation, ordinary small reversion pills and Meridian opening pills were no longer of any use. The pills twelfth brother had on him were no longer able to save taganlong!

His face turned ugly-he hated naipao to the core, where did this guy come from? He had actually played a trick to lure the Tiger out of the mountain. He had turned around and ran back to the Tagan family to injure Tagan long. It would have been fine if he had injured someone else, but the key was Tagan long ...

"What's going on?" Twelfth brother asked with a gloomy face.

"I don't know ..." Tagangan was a little embarrassed. He really didn't know how to answer twelfth's question. When he came here, taganlong was already injured by Lin Yi, and the murderer ran away. He didn't even get to see what the murderer looked like."When I was in seclusion, I felt a violent true energy fluctuation, as if someone was fighting within the Tagan family. After I confirmed it, I ran out, but I was still a step too late ..."

"I'll inform sixth senior brother to bring taganlong back to the sect immediately! I'm afraid it'll be too late if we delay!" Twelfth didn't get the answer he wanted, and he didn't want to ask any further. Even if he knew why naipao was here, it didn't matter anymore-the most important thing now was to heal taganlong!

As he spoke, twelfth brother took out a note and wrote down the situation here. He tied it to the leg of a flying spirit beast and released it. After doing this, twelfth brother clasped Tagan Dragon's pulse with his hand and inserted some true Qi, temporarily keeping Tagan Dragon alive.

Fortunately, ta ganlong's body was a bit special. Twelfth brother was also his senior uncle, and the mental cultivation method he cultivated was also one of ta ganlong 's. Therefore, he didn't reject the true energy that entered ta ganlong's body. However, twelfth brother's true energy didn't have any healing effects, and could only maintain his life.

Six had been searching for Jingyi on the mountain, and now he'd gotten another one after the first one-could it be that Jingyi had come down as well?

Sixth brother's face turned extremely ugly when he took the note from the flying spirit beast's leg and read it!

Tagan Dragon was injured? Naipao didn't run away after he left the mountain, but went to the Tagan family's base and injured Tagan long?

Sixth brother looked at the contents of the note and was dazzled. How was this possible? Wasn't this Zhang naipao a little too bold?

"Zhang naipao, if anything happens to taganlong, master will definitely annihilate your entire family!" Sixth brother spat. He couldn't be bothered with sun Jingyi anymore, and flew down the mountain as fast as he could, heading in the direction of the Tagan family ...

In the Tagan family, when sixth brother saw Tagan long, who was beside twelfth brother, he was shocked. The injury was already very serious just by looking at it. It was even more serious than he had imagined!

"Sixth senior brother, you're back! Let's immediately return to the sect and bring taganlong to see master. His injuries are very serious, and only master might have a solution!" After seeing sixth brother, twelfth brother quickly said.

"Alright!" Sixth brother nodded, but he was a little hesitant. "'Aren't we going to look for the treasure and Zhang naipao and the others?"

"These ... Don't seem to be as important as taganlong. If anything happens to taganlong and it ruins master's plan, then you and I will be sinners!" Twelfth brother said.

"That's true. Let's hurry back tonight!" Sixth brother said.

Tagangan and tagangao didn't want their sixth brother and twelfth brother to leave. If they left, the Tagan family's strength would plummet. Now that the head guard was dead, if their sixth brother and twelfth brother left, the most powerful person in the Tagan family would be the Tagan ancestor, tagangan. He wouldn't be able to go into seclusion and could only come out to guard the family. This wasn't what he wanted.

However, they knew that they couldn't stop him and they were more worried about taganlong's injuries. Hence, tagange made a quick decision and said, "'Someone, prepare the car and send Mr. Six and Mr. Twelve away!"

"No need, the car's too slow." Six waved his hand. He and twelve were both Sky Class Masters, and they could go at full speed much faster than a car. They could even take a shortcut instead of the main road.

"Okay ..." Taganho nodded and said nothing more. He watched as sixth brother carried taganlong on his back and disappeared into the Tagan family's courtyard with twelfth brother. Then, he let out a long sigh. (

Chapter 2304 Back To The Inn

"Alright, don't be sad. To that place, long 'er is more important than our family. They'll definitely think of a way." "Let's end this here," tagangan consoled. "Don't mention this to anyone else. Just say that taganlong is facing the wall to reflect on his mistakes because of the fire Lion."

"Yes, father!" Tagan Gao thought about it and agreed. Looking at the anxious faces of six and twelve, he knew that they were more concerned about Tagan Long's safety.

"Oh right, where did that shit go? Why aren't you back yet?" Tagangan suddenly remembered lazi. Didn't this guy go to find twelfth brother and the others? Why was twelfth back but Lazlo not?

"Yeah, Lazlo should know more than us. Where's this kid?" Tagan Gao was also taken aback. He turned to the second and third guards and asked, "Lazlo didn't come back with you?"

"Lazas? No, Lazlo just called to tell us that taganlong was injured by Zhang naipao, is he not at home?" The second guard said, feeling a little strange.

"What? He made a call? "I thought there was no signal when you were in the Wulong hao te mountain range ..." When Tagan Gao heard that, he suddenly felt that something was wrong.

"Wulong hao te mountain range? "We're not in the Wulong hao te mountain range-Zhang naipao went down the mountain, and third brother, Mr. Twelve, and I were chasing after him, so the call went through ..."

"Not good! Call Lazlo immediately and ask him where he is. " Tagan Gao felt that something was wrong.

"Alright!" The second nurse quickly picked up the phone and dialed lazi's number, but the phone was turned off! The second Guard's expression immediately changed,"he turned off his phone ..."

"There's definitely something wrong with this Mantis!" Tagangan's face changed as well-he didn't even see the enemy himself, but Lazlo did, and knew it was Zhang naipao. If this guy was fine, why would Lin Yi let him live?

Or rather, Lazlo knew that Lin Yi and taganlong were fighting-why didn't he warn his family?

"Investigate! 18 generations of Zha lazi's ancestors, find him for me!" Tagan Gao's expression was also very ugly. He was now in charge of the Tagan family's Affairs. He was the patriarch of the Tagan family. Although he didn't have a say in Tagan Dragon's cultivation and major matters, he was in charge of all these businesses. Lazlo was also considered to be working for him. How could he not be angry when something went wrong?

However, since Lazlo dared to leave, he wasn't afraid of being investigated. His identity was fake, and even the name Lazlo was a random name he came up with when he was reading a web novel. No matter how powerful the Tagan family was in Ruida town, the Tagan family couldn't do anything if Lazlo fled to a small town on the border and left Ruida town.

Lin Yi's injuries weren't particularly heavy, but they weren't light either. Taganlong's skills were extremely powerful, far beyond Lin Yi's imagination. After arriving at the border town, Lin Yi quickly returned to the inn he was at with sun Jingyi.

Lin Yi, on the other hand, dialed sun Jingyi's number.

"Lin Yi?" Jingyi quickly picked up, surprised and happy! She was worried about Lin Yi's condition, but she didn't dare to make any calls as she didn't want to disturb Lin Yi. So, after she returned to the inn, she was on tenterhooks every day, and she couldn't even sleep well at night.

"It's me. I've returned to the border town. Where are you?" Lin Yi asked.

"I'm at the inn we made an appointment with earlier, Room 302. What about you?" Jingyi let out a breath of relief upon hearing that Lin Yi was fine.

"I'm near the inn. I'll go up immediately. " Lin Yi didn't say anything else and hung up.

After entering the inn, Lin Yi told the manager his room number and went upstairs. He came to Room 302 and knocked.

"Who is it?" Jingyi knew that it might be Lin Yi, but she still asked carefully. She wasn't a practitioner, after all, and she had to be careful when someone knocked at her door in the middle of the night.

"It's me. " Lin Yi said.

Jingyi quickly opened the door, only to see Lin Yi's pale face. He looked normal on the surface, but she could feel that he was very weak, "You're injured?"

"En, I'm injured. I need to heal!" Lin Yi nodded.

Jingyi locked the door after Lin Yi entered, "Do you need me to do anything?"

"Just give me a wet towel to wipe my face." With that, Lin Yi sat cross-legged on the bed and started channeling the second stage of the art of Dragon mastery, healing himself.

A huge amount of pure Qi from the space in the Jade poured into Lin Yi's meridians, healing his injured body. Lin Yi felt relieved, but he was still a little scared. Fortunately, taganlong was only an Earth Class early phase-if he were stronger, he would be the one injured today!

Although he had the thought of escaping, he should be able to escape in the end, but it would definitely not be so easy.

Jingyi went to the bathroom to get a wet towel-she was about to give it to Lin Yi when she saw him already sitting cross-legged on the bed, channeling and healing. She didn't disturb him, and started wiping his face herself ...

Looking at Lin Yi's pale face, Jingyi felt a strange feeling in her heart. Gratitude? Or guilt? Or something else?

As far as Jingyi was concerned, Lin Yi had to be injured so heavily for her. She'd used the thousand-thread mask to avoid the Tagan family's inspection, but Lin Yi was about to force his way down. The Tagan family had so many masters, and Lin Yi was able to escape unscathed. It was a blessing in a misfortune, but Jingyi still felt sorry for Lin Yi.

At first, she was using Lin Yi to her advantage by calling him her lover, but as the two got closer and closer, it became a joke. Now, she really wanted to be Lin Yi's lover!

A man who was willing to give up so much for her, even if he did it as a friend, made her very, very touched! No one had ever done this much for her since she was young!

Her parents had passed away when she was young, and so she'd been very independent since she was young. Old man sun might have doted on her a bit, but she'd developed a habit of doing things by herself (it was only after Lin Yi's appearance that she realized that there were some things she couldn't do, and that she really needed a man by her side

... If you like this work, you are welcome to come to to vote for recommendation and monthly votes. Your support is my greatest motivation.)

Chapter 2305 2302-Refining Method

It was a pity that she couldn't have him completely. Not to mention Tang Yun and Feng Xiaoxiao, even Chu Mengyao, Chen Yushu and song Lingshan were people she couldn't chase away. She was troubled when she thought about this.

Lin Yi saw Jingyi walking over and was about to take the towel for himself, but he didn't expect her to start helping him wipe his face. He was a little surprised, but he enjoyed it in silence. He was healing, after all, and didn't want to stop halfway.

After carefully cleaning Lin Yi's face, Jingyi wiped his hands as well before putting down the towel and sitting down not too far away, waiting for Lin Yi to finish his healing.

Skybolt pig laid on the side quietly and soon fell asleep. He knew that Lin Yi's injury wasn't too serious and he didn't need to do anything. He was tired too, so he fell asleep first.

The Tagan family's attention was all on Lazlo-as for this "Zhang naipao" Lin Yi, they didn't go looking for him, nor did they dare to-who knew if Lin Yi had met up with that Sky Class old lunatic?

They'd already killed the guard, and tagangan didn't have much confidence in taking care of Lin Yi. He could only give up, but even if he didn't want to give up, he couldn't leave Ruileida town for a border town.

And so, Lin Yi was very safe here, and spent the night without any surprises.

The next day, Lin Yi opened his eyes as the sun rose, and Jingyi, who'd been waiting beside him, was delighted. "Lin Yi, you're fine?"

"Yeah, I'm fine. It's been hard on you this night. You've been with me." Lin Yi was in the middle of healing, but he could see everything that was happening outside. Jingyi had been sitting there and watching him the whole time after she'd wiped his face and hands, and Lin Yi was touched.

"You know about it?" Jingyi's face reddened-she didn't think that Lin Yi would see through her. She just wanted to watch Lin Yi quietly, and didn't think about how far they'd end up together, but now that Lin Yi had pointed it out, she felt a little embarrassed.

"Take a nap. I guess you haven't slept well these days. If you weren't a cultivator, you would have dark circles under your eyes." Lin Yi didn't continue on the topic-he could guess what Jingyi was thinking, but he wanted to just let things happen naturally, not force anything.

"En ... I'll go to sleep then ..." Jingyi was a little embarrassed, and now that Lin Yi brought it up, she really did feel sleepy. She nodded and laid down on the bed opposite, "I'm going to sleep. Wake me up for dinner. Oh right, the thousand-thread mask and the heavenly network are in my bag. You can take them back."

After returning to the border town and separating from Ah Biao and the others, sun Jingyi returned to her original appearance.

"Go to sleep." Lin Yi relaxed. There were many things he needed to sort out, like the harvest from the Wulong haote mountains, and taganlong's strange martial arts technique. There were many things he needed to consult elder Jiao on.

Jingyi was really tired-she fell asleep a while later, and Lin Yi started organizing the loot from the Wulong haotte mountain.

A mysterious white energy stone, two spiritual beasts 'essence inner cores, the remaining two nets above and snares below, a secret book on the refining method of the essence Necklace, and a thousand silk mask.

It was a pity that he had used up all three divine fire bullets and one heavenly network. However, he had still gained a lot from the remaining items.

Lin Yi picked up the refining method of the essence Necklace and started flipping through it impatiently. He risked his life to steal it from the Tagan family, and it was one of the things he was most interested in.

The Tagan family was a small, ordinary family, but they were full of mystery. Not only did they have taganlong, who was a powerful member of the younger generation, but they also had Masters like the head guard, sixth, and twelfth. What surprised Lin Yi the most was that they knew the use of the inner vital essence of spirit beasts!

Elder Jiao, uncle Fu, the Skybolt pig, and the purple lightning Beast didn't even know the use of this thing, and yet they knew, and even knew the way to make an Essence Necklace. This made Lin Yi feel a little out of place-wasn't the Tagan family a little too rich?

No wonder the people behind them were able to destroy an ancient sect like uncle Fu. Even if uncle Fu's sect was a second or third rate ancient sect, it wasn't something an ordinary sect could do.

Shaking his head, he decided to put those thoughts aside for the time being. He took out the essence Necklace refining method book and started flipping through it carefully. He felt that this was the biggest reward he got from this trip-an Essence Necklace. If he could make it, it would be a top tier treasure.

The words "refining method of an Essence Necklace" entered Lin Yi's eyes. It was a thread-bound copy of a manual, and was originally handwritten. The Tagan family's collection was photocopied, and with the current technology, there was no need for people to copy it. These families and sects had also adopted this more convenient method of copying.

"The basic requirement for refining is to be-blacksmith!"

A forger? Lin Yi frowned. This thing required a forger? He didn't even get to finish reading it when the requirements on the first page gave him a headache-the forger had to have a metal, wood, and fire element Constitution!

Lin Yi thought about his own situation-he couldn't even become an elixir master, let alone a metal-type blacksmith! What a headache!

At first, he thought that he had obtained something good, but he realized that it was impossible. However, this also indirectly proved that the Tagan family was not simple. They even had a forger profession that had disappeared. This had already exceeded the level of existence of the ancient times.

But that didn't matter anymore. No matter how powerful the Tagan family was, they were only active in Ruida town. Their influence didn't extend out, and Lin Yi didn't find out anything about the ancient sects here yet.

Lin Yi didn't think he was a forger, but he continued reading. He was curious, after all, and he didn't want to give up just like that.

"The material required for the refining is a piece of top-grade jade pendant!"

A piece of high-quality Jade? Lin Yi frowned, but he understood the meaning of the sentence after reading the explanation. It turned out that the beast's inner core couldn't exist in its own form. It had to be embedded in a high-quality jade pendant for its effect to be activated, and the Jade was like a big base, carrying the inner core. (

Chapter 2306 2304-Becoming A Blacksmith?

"The number of inner pills required is five!"

Five? It wasn't a lot, but it wasn't a small amount either-including the one that the big fire Lion gave him, Lin Yi only had three. From the way taganlong looked at the inner pellet, it wasn't a common item. Even the Tagan family, who often wandered the Wulong hao te mountain range, probably didn't have many in stock, and they wouldn't have more than three at most. Otherwise, they wouldn't have rejected Lin Yi's offer of one each. It seemed that they really needed these two Spirit beasts 'inner cores, which was why they had turned against each other.

There was a note at the back-five was the minimum number, and the more the better. The higher the level of the spirit beast, the better the effect. There was no upper limit to this explanation, and Lin Yi didn't understand!

The more the better? There was a limit to the size of the jade pendant. If there were too many inner elixirs, could the jade pendant still hold so many inner elixirs? Did he need a huge jade pendant?

With questions in his mind, Lin Yi continued to read the next page.

"The refining requires supplementary materials: Kasaya pure yellow jade, blue crystal powder, and colored steel!"

"Pfft ... F * ck!" Lin Yi couldn't help but curse when he saw the page! This was a scam. This was too much of a scam, right? The supplementary ingredients were actually these three? Lin Yi only had a small amount of pure yellow jade and colored steel, and he didn't know where the blue crystal powder was yet. Did he need these three materials to make this Essence Necklace?

Lin Yi's voice was a little loud, and Jingyi was woken up by him. She opened her eyes and looked at Lin Yi, only to realize that he was talking to himself. She fell back asleep.

With a bitter smile, Lin Yi continued to read. The bottom part was the explanation of the supplementary ingredients. The explanation said that for each inner core, a corresponding amount of pure yellow jade, blue crystal powder, and colored steel was needed. It seemed that the more inner cores one had, the more supplementary ingredients were needed.

But Lin Yi found it strange-the explanation was very detailed, but it didn't say anything about the base material of the Jade. It only said that it was a piece of good quality Jade, but didn't say anything about the size, as if any size would do.

Could it be that there was no limit to the size of the jade pendant ... Eh?

Suddenly, Lin Yi remembered something! Blue crystal powder, pure yellow jade, and colored steel, weren't they the necessary materials to make the Jade space? These materials could be used to create a virtual four-dimensional space in the jade pendant. In that case, did these spiritual beast's inner vital essence also rely on this principle and use these three supplementary materials to create a virtual four-dimensional space in the jade pendant space to embed the spiritual beast's inner vital essence?

Lin Yi felt that it was possible! In this way, his previous doubts could be explained. Why did the size of the jade pendant not state? why did it only state the number of spirit beast's inner core essence and supplementary materials?

"I see ..." Lin Yi nodded. He was pretty close to the mark. Even if the core wasn't embedded in a four-dimensional space, the principle should be the same.

As expected, Lin Yi continued to flip through the pages, and the last part was about the refining method of the essence Necklace. However, these steps were extremely simple to Lin Yi, much simpler than the refining method of the Jade space. The steps were much simpler, and the method was much simpler ...

He wouldn't have noticed anything wrong if he didn't look at the space in the Jade before, but he was looking forward to the storage space, so he paid attention to how to make it ... It was a lot easier to make this necklace now ...

That's not right! Wasn't it said that forgers were very rare, and one had to possess a physique with three attributes-metal, wood, and fire-to become a forger? If he followed the instructions and successfully condensed the Jade's storage space, then this necklace would be a piece of cake!

Could it be that he could become a forger? If not, then what was the point of taking out the secret manual of condensing the storage space with a jade pendant from the cave? This cave can't be deceiving me, right?

With that thought, Lin Yi entered the Jade space and asked elder Jiao, "Elder Jiao, if I collect all the yellow jade, blue crystal powder, and colored steel, I can make a jade pendant into a storage space?"

This was the first time he'd had time to talk to elder Jiao in a long time-he'd been either injured or extremely nervous, and even when he was in the Jade space he'd still be able to sense the situation outside with his spirit.

"That's right. " Elder Jiao nodded.

"In other words, I can become a forger?" Lin Yi asked after some hesitation.

"I don't know if you can become a forger, but I'm sure you can create the storage space of the jade pendant. I don't know much about your cultivation method, and I've never verified the theories in the cultivation world. I don't know if anyone who can create the storage space of the jade pendant is a forger." Elder Jiao explained.

"I've obtained a secret manual on how to condense an Essence Necklace. It looks like a simplified version of condensing a jade pendant's storage space. Many steps have been omitted, and it's much simpler." Lin Yi told elder Jiao what he'd gotten,"According to this, only forgers can create profound Qi necklaces,"

"If that's the case, then you should be able to become a blacksmith." "You'll have to master the chant first,"elder Jiao said." But I'm not sure if you'll be able to make an Essence Necklace, you can give it a try. "

"Then ... Can I use this jade pendant as the base? It won't destroy the original function of the jade pendant, such as making you disappear, right?" Lin Yi asked hesitantly. To be honest, it'd be too much of a burden if he had another jade necklace on him. It'd be great if he could combine the two.

"I don't know if this jade pendant can be used as a base material, but I'm sure it won't be damaged." "If this Jade broke so easily, I would've lost it long ago," elder Jiao said.

"That's good. " Lin Yi relaxed, but he was excited and curious at the same time. He couldn't become an Alchemist, but it seemed like he could become a blacksmith? However, being a forger covered the two basic requirements of becoming an Alchemist! (

Chapter 2307 2304-New Martial Technique

Forgers needed to have metal, wood, and fire elements, but alchemists only needed wood and fire elements. In other words, all forgers should know how to make elixirs, but Lin Yi didn 't?

What was the reason behind this? Shaking his head, Lin Yi decided not to think about it for now. With Han Jing Jing as a moving furnace, it didn't matter if he was an Alchemist or not. Wouldn't it be even more awesome to focus on forging?

It seemed that he had to collect the three materials of pure yellow jade, blue crystal powder, and colored steel as soon as possible. The more these three materials he collected, the more he could make the profound Qi necklace and the storage space! However, he guessed that the Tagan family should have these three materials, or rather, a few of them. When Tagan long wanted to refine the essence Necklace, he should have started collecting these supplementary materials. Otherwise, even if he found the essence inner core of a spiritual beast, it would be useless.

It was impossible now, but when he got stronger, he'd have the chance to go to the Tagan family in Ruida town and steal some good stuff. Not to mention the supplementary materials, just Tagan Long's five elements Eight Trigrams palm was something that Lin Yi drooled over!

Just the first move was already so powerful. How overbearing was this martial technique?

Thinking about the five elements Eight Trigrams palm, Lin Yi's heart started to itch. This kind of martial skill was unheard of. If Lin Yi didn't experience it himself, it would be hard to imagine that there would be a higher class martial skill than the wild fire Fist!

The wild fire Fist was the ultimate skill of the ancient sect uncle Fu was from-it had to be quite powerful, with all the sect leaders practicing it for thousands of years. There were Sky Class late phase peak Masters, too-it was clear how powerful this skill was!

Even if uncle Fu's sect was only a second or third rate ancient sect, as long as it had something to do with the ancient times, it shouldn't be simple! Nitian and naipao, for example, couldn't be underestimated.

At this moment, Lin Yi had the urge to steal the skill. Even thinking about the power of the five elements Eight Trigrams palm, he couldn't hold it back anymore. He wanted to explore the Tagan family again! Lin Yi was sure that if he could learn this skill, he'd be able to skip levels and fight Earth Class late phase peak!

Taganlong's defense wasn't that great, but his attack power was undeniable. Although he was heavily injured by Lin Yi in the end, the damage he dealt to Lin Yi wasn't small either! Lin Yi knew that if he didn't have the fire bullet, it would be hard to say who would fall first ... Of course, Lin Yi could escape halfway, but that was a bit of a problem.

Five elements Eight Trigram palm, stealing skill-this was just a flash of inspiration in Lin Yi's mind, but once the idea popped up, it couldn't be suppressed. It was like bamboo shoots sprouting in Lin Yi's heart, wanting to make Lin Yi take action!

Of course, that was impossible-it was suicide, and Lin Yi wouldn't do it. Even without the terrifying twelfth and sixth brothers, just tagangan, tagangao, the second and third guards were enough for Lin Yi to suffer.

Therefore, instead of taking the risk, it was better to carefully reminisce about the battle with taganlong last night!

Lin Yi closed his eyes at that thought, and the scenes from last night in the Tagan family's library replayed in front of him like a movie!

From the moment taganlong entered the library and made his first move, everything appeared in Lin Yi's mind. However, the situation at that time was quite urgent, and Lin Yi didn't pay attention to taganlong's skills at the beginning, so he missed some things at the beginning. However, taganlong's movements after that, especially those two palms that flashed with a strange light, were still fresh in Lin Yi's mind!

Lin Yi frowned and reached out his hand, trying to imitate taganlong's appearance. He tried to recall what he saw, but he only remembered the way to activate the skill. He didn't know the practitioner's Arts.

So Lin Yi could only copy taganlong's movement and activation method!

As for the practitioner's Arts, Lin Yi could only use the art of Dragon mastery to make up for it. Then, he used the wild fire Fist technique to convert his Qi into the fire element of the wild fire Fist, adding it to his palms!

"Heeheeheehee!" Lin Yi roared as he pushed his palms out! In order not to affect Jingyi, he only used the first stance of the wild fire Fist!

"BOOM!" "BOOM!"

Two loud noises came from the air-it was the force of Lin Yi's palms!

Although Lin Yi's "five elements Eight Trigram palm" didn't seem to fit into the mix, as if it was the combination of taganlong's "five elements Eight Trigram palm" and Lin Yi's "raging fire Fist," the power was beyond Lin Yi's imagination!

This move only used the first form of the wild fire Fist and Lin Yi's own deduction of taganlong's "five elements Eight Trigrams palm," the fire Dragon Eight Trigrams palm was even more powerful than the "wild fire Fist"!

It couldn't compare to taganlong's five elements Eight Trigram palm, but it was much more powerful than Lin Yi's previous fist. The first fist was at least on par with the second!

Even so, Lin Yi's heart was still filled with crazy joy and pride. He didn't know if the second form of the fire Dragon Eight Trigram palm would have the same power as the

fourth form of the fist, but he wasn't sure if it would be much stronger than the normal second form!

He could actually create his own martial arts technique? As far as Lin Yi knew, only the founders of the ancient sects or martial arts grandmasters could create martial arts techniques, but Lin Yi created his own?

It wasn't as powerful as the original, but it was already a miracle that he was able to use it after Lin Yi split it up.

It must be known that not all the founders of ancient sects could create martial arts techniques. The martial arts techniques they cultivated were passed down from ancient times and had been tempered by some martial arts seniors!

Even in the ancient times, only a few talented cultivators could create their own unique martial skills. It was not easy to modify and perfect the existing martial skills.

Not to mention Lin Yi, who was able to merge two skills together in such a short time! (

Chapter 2308 2306-Slim Hope

Furthermore, it had produced a completely new martial technique that could even bring about great power. That was even rarer!

Could it be that he was a genius?

After calming down, Lin Yi suppressed his pride. He knew very well that he wasn't a genius. He might be a little more talented than the average practitioner, but he was definitely not a genius!

In fact, in today's cultivation world, the so-called geniuses were just people who had a special physique and cultivated the corresponding special mental cultivation method. Then, they showed a monstrous cultivation speed and strength. These people were often called cultivation geniuses.

But because of that, Lin Yi became a genius.

However, this was all thanks to the art of Dragon mastery and the space in the jade pendant. His body just so happened to be able to cultivate the art of Dragon mastery, which was why he was called a genius.

Lin Yi felt that the reason why he was able to create a new martial skill that combined two different martial skills was because of the all-purpose "martial skill"!

He'd learned a martial skill that didn't have any practical use, but after he started, he could learn all sorts of other martial skills, and he could even activate martial skills of different physical attributes. Lin Yi felt that this had a lot to do with that martial skill.

The reason he was able to execute that fabricated and integrated martial skill was probably because he had cultivated such a strange omnipotent "martial skill."

If he were to write down the fire Dragon Eight Trigrams Palm's activation method as a practitioner's art and let uncle Fu or someone else activate it, it wouldn't be that easy. Lin Yi himself could feel the flaws in the fusion process, but even so, he was able to activate it so easily. It was a miracle.

After Lin Yi calmed down, he thought about it again and simulated the fire Dragon Eight Trigram palm in his mind. It was still very different from taganlong's five elements Eight Trigram palm, at least the color of the Qi on the palm was different. His palm was red, but taganlong's was a strange color ...

Could it be that it wasn't fire-type true Qi? Lin Yi tried to recall his fight with taganlong yesterday, but he didn't have much of an impression of it. The scene was still in his mind, but he couldn't remember how he felt!

Then was it a wood-elemental, water-elemental, metal-elemental, or earth-elemental martial technique? With that in mind, Lin Yi decided to use the wood element Arts-the thousand changes of wood forest with the five elements Eight Trigrams palm. He wanted to see how powerful it was.

Lin Yi couldn't wait any longer. He stood up and roared in his heart again. He used the thousand changes of wood forest and the five elements Eight Trigrams palm to unleash the second move of wood forest Eight Trigrams palm!

"Bang!" "Bang!" "Bang!" "Bang!"

There were four loud explosions in the air as Lin Yi's palms turned into four palms, releasing a powerful force in the air.

"Hu ...!" Such a powerful force. Each palm actually had the power of the second move of the wild fire Fist! In other words, it was equivalent to the power of the third move of an ordinary martial technique! Lin Yi exclaimed as he looked at his hands in shock.

Under normal circumstances, the power of the single punch of the second move of the thousand changes of wood and forest was equivalent to the second move of an ordinary martial technique. However, the difference between an ordinary martial technique and a single punch or a palm was that ordinary martial techniques could only be used with one punch or one palm at a time. Even a person who was extremely proficient in the use of martial techniques could only use two fists or two palms!

However, the thousand changes of wood and forest could double it, turning one fist or palm into two fists or two palms, and turning two fists or two palms into Four Fists or four palms!

But now, Lin Yi's five elements Eight Trigrams Palm's thousand forest changes not only retained the double power from before, but it also allowed Lin Yi to unleash the same power as the second style of the wild fire Fist, equivalent to the power of a normal martial arts skill's third style!

Lin Yi had thought that the thousand changes of wood and forest was a skill with little value. Although each move could increase the number of attacks, it wasn't as powerful as the wild fire Fist. But now, he could combine the five elements Eight Trigram palm and

thousand changes of wood and forest to create an even more powerful move. How could he not be happy?

What a pleasant surprise! Lin Yi was even more certain that he could successfully combine the thousand changes of wood forest and five elements Eight Trigrams palm together. It was probably because of that omnipotent "martial skill"!

Otherwise, one could be said to be a coincidence, but how could two be a coincidence?

Of course, from an outsider's point of view, Lin Yi was a genius!

Lin Yi's lips curled into a smile-it seemed like his fight with taganlong wasn't for nothing. If he were to say what he gained the most from this trip to the Wulong hao te mountains, it would probably be the two new arts he created with the five elements Eight Trigrams palm.

Every one of them had a stronger attack power, making Lin Yi's trip worthwhile.

After thinking and activating the new skill, Lin Yi was a little tired. Looking at the sleeping Jingyi, he laid down on the other bed and entered the Jade space to recover his strength ...

In a majestic hall, an old man in an eight-trigram robe was frowning as he checked the pulse of a pale-faced young man who was lying on the bed with his eyes closed. This old man was the master of sixth and twelfth, patriarch xuanchen.

Beside him stood old six and old twelve, who looked guilty and ashamed. Although Tagan Long's injury wasn't directly related to them, it still happened under their eyes. The two of them could be considered to have failed in stopping 'Zhang naipao' indirectly, and so they were all trembling in fear in front of their master, not even daring to breathe loudly.

"It's very heavy and very troublesome!" Patriarch xuanchen furrowed his brows and spat out these five words. These five words made sixth brother and twelfth brother's hearts sink!

"Master, can it be cured?" Sixth brother asked immediately.

"I'm not sure. Perhaps, there's only hope if I can refine the great recovery pill. However, it's very troublesome to refine the great recovery pill, and many of the materials are rare. Even if I can gather the materials, it will take some time!" Patriarch xuanchen sighed, and his expression was extremely ugly.

After so many years, that big plan could finally be realized, and the other inheritors were almost done with their arrangements. Everything was ready, and they only needed to wait for taganlong to slowly mature and step into the heaven rank before they could start that plan.

However, their hopes of so many years had been shattered!

Patriarch xuanchen was unwilling to accept this. He was truly unwilling! (

Chapter 2309 2307-Backup Plan

Although his current sect was already at the top of the world of martial arts, even the ancient sect leader had to respectfully call it 'that place' and not directly call the sect by its name.

However, this was not what patriarch xuanchen wanted. What he wanted was to return to that level, the level that his sect should have returned to. To return to that level, he and his fellow disciples had to step into a higher realm!

If he wanted to step into a higher realm, he could not do without that plan!

But now, everything had turned into bubbles? A Mirage in the water?

Looking at his master, patriarch xuanchen's extremely ugly expression, sixth brother smiled bitterly and said, "It's all my and twelfth Junior brother's fault. We made a mistake. Master, please punish us!"

"Forget it, this matter is none of your business." Patriarch xuanchen waved his hand. "I didn't expect that old lunatic's martial arts to improve instead of deteriorating over the years. He actually created such a huge formation to kill little thirteen. You don't have a high chance of winning if you encounter him! Now that you two have returned safely, it can be considered a blessing in the midst of misfortune!"

Ancestor xuanchen did not randomly blame his disciple because he knew that his disciple was actually innocent in this matter. After all, this was something that could not be predicted. If he had known that the old lunatic of the heaven class had become so powerful, he would have even sent little one, little two, and the rest instead of leaving this matter to little six and little twelve.

"Thank you for your understanding, master ..." Old six heaved a sigh of relief. It seemed that although his master was sad, he could distinguish right from wrong and would not blame others.

"That Zhang naipao, did you get any news? Who are you, and where did you come from?" Asked patriarch xuanchen.

"Eldest senior brother has already gone to investigate. He should have news soon, right?" Sixth brother said.

"En ..." Ancestor xuanchen nodded. As they were talking, a Sky Class late phase peak walked in. This was the big senior brother that sixth brother was talking about.

"Little one, you're back. Any news?" "What is it?" patriarch xuanchen asked indifferently.

"Master, after some investigation, we found out that Zhang naipao is from the everyday and every day sect, and he's also the disciple of the sect's leader. It's said that he's the person chosen by their elder to cultivate the chrysanthemum Arts ..." The eldest senior

brother clearly knew some of elder xuanchen's plans and secrets, so he was in a very difficult position.

"What? It's from the everyday and every day sect, and a practitioner of the chrysanthemum Arts?" Patriarch xuanchen was instantly stunned, and his expression became a little strange! He didn't want to offend the everyday and every day sect unless it was absolutely necessary. Besides, if he wanted to carry out his grand plan, the disciples of the everyday and every day sect who practiced the chrysanthemum Arts would be an important part of it. In order to start the plan, there had to be someone who practiced the chrysanthemum Arts to absorb bees ...

"That's right, but I don't know if it's really that Zhang naipao yet. I've already sent a messenger bird to ask about the everyday and every day sect's Zhang naipao's recent movements, if it's him ..." The big senior brother stopped here.

"It's good that it's not him, but if it's him, then we can't get our revenge! Who told this taganlong kid to be so blind and offend Zhang naipao?" Patriarch xuanchen sighed and said helplessly.

"But I don't think so-after all, if it really was that Zhang naipao from the everyday and every day sect, then his wasp absorption Arts wouldn't be so useless against an Earth Class like the fifth house of guards, and he wouldn't have been saved by the fire Lion ..." Six said after some hesitation.

"What little six said makes sense." Patriarch xuanchen waved his hand and said, "fortunately, I still have a backup plan. Let's activate backup plan No. 2 now. Small one, you go and make the arrangements. Of course, we can't relax on the medicine for taganlong's treatment. Find it as soon as possible!"

"Yes, master!" The eldest brother nodded and quickly responded.

However, old six and old twelve didn't know what the backup plan was. They didn't know the core secrets yet, but they didn't dare to ask casually. They just stood aside and waited quietly.

After eldest senior brother left, patriarch xuanchen waved his hand at sixth and twelfth. ""You guys can leave first. I need to carefully consider my future plans ..."

"Yes, master!" Old six and old twelve also cupped their fists at the same time and retreated carefully.

However, patriarch xuanchen was not in a good mood. Although he had a backup plan, it had an irreparable flaw. Unless the inheritors also encountered some heaven-defying situation, this flaw could not be fixed!

On the other hand, taganlong did not have such a problem. However, there was no other way. Before taganlong's injuries recovered, patriarch xuanchen had to use the backup plan. Even if the backup plan was flawed, it was still better than losing the entire game!

There was no turning back. After waiting for so many years, the time for inheritors to appear was finally here. He did not want to miss this rare opportunity.

Patriarch xuanchen had been standing in the hall from day to night and did not move at all. At night, eldest senior brother returned.

"Master, the everyday and every day sect said that Zhang naipao's been meeting up with his friends in the sect," The eldest brother took the letter from the everyday and every day sect and presented it to his master.

"I'm not going to watch anymore. The everyday and every day sect won't lie. They're not weak either, so there's no need for them to lie to us." The xuanchen ancestor sighed, 'this Zhang naipao probably has the same name, or he's trying to frame the everyday and every day sect! Or perhaps he's the descendant of the sect on the mountain, and he's trying to frame the everyday and every day sect, hoping to see us fight with them while he sits on the mountain and watches the Tigers fight. "

"It should be like this." The eldest brother nodded in agreement.

"How is it? have you informed the spy to make preparations to take over from Ming?" Asked patriarch xuanchen.

"I've already sent the message. However ... Although the spy is powerful, the chances of success should be lower if he were to do it now. What if he fails?" The eldest brother said after a moment of hesitation.

"There's no way out. According to my calculations, the opportunity is getting closer and closer. If we miss it, who knows how long we'll have to wait? I can't wait and can't afford to wait any longer. I can only ask the spies to be more careful ..." Ancestor xuanchen said.

"AI, can't we go and help?" The eldest brother asked.

"We can 't!" Patriarch xuanchen shook his head and said, ""You can't help me, unless taganlong ..." If you like this work, you are welcome to come to to vote for recommendation and monthly votes. Your support is my greatest motivation.)

Chapter 2310 Another Kidnapping

At this point, patriarch xuanchen did not continue, clearly not wanting to explain further. When the eldest senior brother heard his master say no, he naturally did not ask further. ""I'll inform our spies to get ready ..."

"Go. However, don't let anyone know about the spy. Some sects without inheritors might be jealous. They won't dare to go against us openly, but they will secretly plot something that we can't guard against ..." Ancestor xuanchen said.

"I understand! Don't worry, master, only master and I know about the spy. Even the spy himself doesn't know his fate!" The eldest brother said.

"Alright, you can go." Patriarch xuanchen nodded.

.....

Eastern Sea city.

Lingshan had caught Xinyan's kidnapper, but she couldn't get anything out of him. After reporting to huaijun, they discussed and decided that the person behind this kidnapping could be the same person as the "fake Lin Yi" case in Songshan.

However, the lead was cut off now. Both the fake Lin Yi and the robber were complete idiots. According to the doctor, their brains were damaged by the drug, and everything they did was done by a master hypnotist, they didn't have any consciousness.

This situation made both huaijun and Lingshan very depressed! The robber had been caught. They knew that there was an 80% chance that there was a mastermind behind this, but they couldn't find any clues from this robber!

If this was a headache, there were even more headaches coming up!

Not long after Wang Xinyan's kidnapping case was over, another student was kidnapped at East Ocean city's East Ocean industry University!

This time, the kidnapped student was a second-year student. His father was the chairman of a well-known company in the city with assets of more than 500 million Yuan. After the kidnapper kidnapped the student, he also extorted 10 million Yuan from the chairman.

However, the chairman followed the kidnappers' instructions and didn't call the police. He directly transferred ten million to the kidnappers, and the kidnappers kept their word and let his son go!

After seeing his son return home safely, the chairman came to the police station to report the case. As for whether the kidnappers were caught or not, it was not that important to him anymore. As long as his son was safe, he was fine. Besides, he did not particularly care about the ten million Yuan.

But this made Lingshan a little depressed-wasn't the kidnapper a little too bold? He had just failed once, and now he was trying a second time?

From the kidnapping method and the amount of ransom demanded, it could be judged that these two kidnapper cases were done by the same criminal organization behind the scenes. The kidnapper caught before was only a small role on the surface. Even if he was caught, he could not cause any serious damage to the criminal organization.

But that wasn't the case. Potion 02 wasn't easy to make, and the success rate of cultivating the fluid was very low. The professor had worked hard to make two potions, and it would be very difficult for him to make another one. It wouldn't be easy!

Although potion No. 02 was much stronger than potion No. 01, it couldn't be mass produced, which was a big disadvantage. He could only slowly research and improve it.

And so, losing one kidnapper 02 was a huge blow to Jianwen. Luckily, the second target's family was very obedient and gave him the money, saving Jianwen a lot of trouble!

"Well done!" An Jianwen looked at Scorpion and Li biaoan and praised, "Li biaoan, you've picked a good target this time, consider it as making up for your mistake of choosing Wang Xinyan! Have you found the third target?"

"Wen bro, I've found the third target too, but she's not from our school. I'm afraid that if I pick a rich guy from our school, it'll attract the police's attention, so I picked a rich girl from a nearby University!" Li biaoan said.

"Oh? A woman?" Jianwen's heart skipped a beat. "Are you sure there's nothing wrong with this rich girl? she's not Lin Yi's mistress, is she? Don't get into a fight with that guy again!"

"That's impossible-she looks like a dinosaur from the Jurassic Park, Lin Yi won't fall for her!" Li biaoan said, "and this woman's private life is very messy. She has a few gigolos and often goes to bars and nightclubs!"

"That's good!" Jianwen nodded, relieved, "Lin Yi won't be interested in trash like this!" Is her family very rich?"

"Yes, she's the only daughter, but her father is a gangster leader. He opened an underground casino in the south side and is considered a bit of a powerful figure ..." Li biaoan explained.

"Oh, he's just a hooligan. Don't worry." Jianwen didn't even look at him-how could a hooligan who ran a casino compare to the firewolves?

"However, this rich girl has a bodyguard. According to our investigation, he should be a cultivator, but I'm not sure about his specific strength." Li biaoan said.

"It doesn't matter. I don't think it'll be that high. Do it!" Jianwen said to Scorpion, "but remember this time, twenty million. A casino must have a lot of cash. It's a waste not to take it!"

"Yes!" Scorpion nodded.

So, the next day, the daughter of a famous gambler in the underworld was kidnapped. It was said that there was a golden class bodyguard beside his daughter, but the bodyguard was nothing in front of the kidnapper. He was kicked away with one kick and lay on the ground, unable to move, seriously injured!

Gambling bro was in the underworld-his daughter was caught, and his golden class bodyguard was injured. After he calmed down, he realized that the kidnapper was strong. Even a golden class bodyguard was a piece of cake. Although he had a lot of underlings, and there was another golden class master in the casino, they were no match for the kidnapper. They weren't even enough to fill the gaps between his teeth!

Therefore, arm wrestling with her was impossible! However, the gambler naturally wouldn't call the police. After all, he was the boss of the underworld. It was embarrassing enough that his daughter was kidnapped, so why would he call the police? What would the other people in the underworld think?

Moreover, he was also looking at the problem from the perspective of a Taoist to guess the thoughts of the kidnappers. He felt that if he called the police, would the kidnappers

kill the hostage in a fit of anger? So the gambling brother hesitated again and again and decided to give the money. Wasn't it just twenty million?

The gambler gritted his teeth and gave it to her. This 20 million was exactly the amount of cash he could take out at the moment.

As a result, brother gambling's daughter also returned safely, which finally made brother gambling feel at ease. (
