

Bodyguard 2331

Chapter 2331 Back To The Villa

"Poison?" Brother Dafeng was stunned, "what's this poison for?" Brother Ying, are you trying to poison me? This can't be ..."

"You won't die from the poison. You must take the antidote every year to suppress it. Otherwise, you'll die from pain. It'll be more painful than the pain you've experienced before." Lin Yi explained.

"Oh, okay." Dafeng bro listened to Lin Yi's explanation and nodded. He took the pill from Lin Yi's hand and swallowed it without hesitation. He didn't drag it out at all, which surprised Lin Yi.

"Aren't you worried that I won't give you the antidote if you take it?" Lin Yi asked, surprised.

"If I did my job properly, why wouldn't brother Ying give me the antidote?" However, brother Dafeng said very calmly, "In the future, I'll do my best to help Brother Ying gather information and try my best to become the person in charge of the poison refinery base. Brother Ying will not treat me badly."

"It's good that you can think like this. " Lin Yi nodded, satisfied. "If you really do your best, I won't treat you badly in the future. Your breakthrough to Earth Class early phase is just the beginning-I'll make you Earth Class mid phase or even late phase, and Sky Class isn't out of the question!"

Once Lin Yi became a Sky Class, the people around him could all become Earth Class late phase peak-this wasn't some kind of joke.

It was just that Lin Yi didn't think that Dafeng bro would really be determined to work for him. Lin Yi was a little surprised! Previously, he had shown his true face to others because he wanted to poison brother Dafeng. In the future, he would be his subordinate, so there was no need to hide. Knowing his true identity would make things easier.

Now it seemed that Lin Yi had underestimated Dafeng bro's ambition. This guy had good eyes!

In fact, Dafeng bro had good eyes. Lin Yi crippled the third head in charge, killed his men, and Lin Yi came back alive and well. No matter how stupid Dafeng bro was, he knew how capable Lin Yi was. Lin Yi was really generous, giving him a small Qi gathering pill. He had been working in the red conch for so many years, but he never got such a good pill!

Of course, on one hand, it was because there was no one in the red conch who was good at alchemy. On the other hand, not many people dared to use the biochemical drugs made by the Firewolf gang! Other than the fire Wolf inheritance potion, which was more mature and stable, the others were all experimental products. Who would dare to use them recklessly?

Hence, Dafeng bro felt that his future in red conch wasn't bright. He might as well change to another boss and follow Lin Yi. For a practitioner at his level, money wasn't that important anymore. A higher realm was his life goal.

"Thank you, brother Ying, for helping me!" Brother Dafeng immediately said in an extremely excited manner.

"My real name is Lin Yi. I'll be leaving when the Qi gathering pill arrives, so you can contact me directly." Lin Yi said.

"Lin Yi ... Ah! You're Lin Yi!" Brother Dafeng was suddenly shocked and jumped up from his chair. His eyes were wide open, and he couldn't speak.

"What's wrong?" Lin Yi frowned.

"No... I heard that the common house Yu was annihilated because they offended you, and the second head of the red conch was also captured by you ..." Brother Dafeng also knew some secrets, "Most importantly, one of the firewolves' guardians was defeated by you ..."

"Oh? You know quite a lot. That's right, it's me. " "Since you know about this, and you know about the hatred between me and the fire Wolf Gang, you should know what to do next, right?"

"I understand. I will try my best to improve my position in the red conch and help you charge into the enemy lines, brother Ying!" Brother Dafeng patted his chest and promised.

Lin Yi nodded. He'd successfully tamed Dafeng bro, and he'd also planted a nail in the red conch! Lin Yi knew that he couldn't rush things-he had to do it step by step, especially since there was a Sky Class master in the red conch headquarters. He had to be extra careful-he couldn't do anything without a perfect plan!

The earth Class late phase peak was weak, not even as strong as taganlong, but Lin Yi couldn't underestimate his Sky Class master.

Two days later, Lin Yi received the small Qi gathering pill from Han Xiaopo. Lin Yi called Dafeng over again and gave him the small Qi gathering pill.

At this time, brother Dafeng had already received the news from his backer. If he really had the small Qi gathering pill and could successfully advance to Earth Class, then he could be the head of the red conch branch.

This news made Dafeng both surprised and happy, and the Qi gathering pill that Lin Yi gave him made him even happier!

Brother Dafeng didn't think that he would become an Earth Class so easily. With the pill in his hand, he felt like he was about to break through!

"Many thanks, brother Ying!" Dafeng bowed deeply to Lin Yi, "In the future, I'll definitely do anything for you!"

"It's fine if you want to die, but protect yourself and don't die. I'm still counting on you to find someone."
"Lin Yi said.

"Yes, brother Ying, don't worry. I will hide my identity well." Brother Dafeng quickly said.

"Don't tell anyone about the photo I showed you before. But if you have the chance, help me find out if there's any news about this person in the drug refinery base!" Lin Yi said.

"Alright," he said. Naturally, Dafeng bro would carry out Lin Yi's orders.

"Alright, take care. I've given you the item, so it's time for me to go." Lin Yi patted Dafeng's shoulder. He was worried about his family's situation, so he didn't want to stay for long.

After saying goodbye to Dafeng bro, Lin Yi drove the Grand Cherokee and went home with Jingyi ...

The return trip was uneventful, and Lin Yi had a smooth journey back to Donghai city. He dropped off Jingyi at the hotel before driving back to his villa in the xueshang District.

Lin Yi didn't bring Jingyi home right away-he had to discuss this with uncle Fu and grandma sun first. It was a big deal, and he couldn't make the decision on his own.

It was still daytime when Lin Yi returned to the villa. Mengyao and the others were all in school, and there were only granny sun, Chentian, Zhishan, and Grandpa Pi at home. Zhihai, on the other hand, had just been sent to Donghai city, so he didn't stay in the villa but at the nearby hotel.

After all, it wasn't good for Grandpa Pi's entire family to live in Lin Yi's house.

Chentian and Grandpa Pi were injured, so Zhishan became the Miss "bodyguard, taking them to and from school every day. He stayed in the villa to take care of Chentian and Grandpa during the day, and he didn't pay much attention to the sound of the car at first, but when he heard the doorbell, he froze!

Chapter 2332-Injuries Healed

At this time ... Who would be here? Could it be ... Zhishan's blood started boiling at the thought-he'd been waiting for Lin Yi's return all along, and now, he was back for real?

Lin Yi had promised that his grandfather and brother's injuries could be cured, but Zhishan wasn't sure if it could be cured or not. Chentian might look calm, but he was still worried since he hadn't experienced it himself.

Now that Lin Yi was back, it was time to witness a miracle. Zhishan quickly opened the door and saw Lin Yi standing beside a Grand Cherokee, pressing the doorbell.

"Boss, you're back!" Zhishan quickly walked out and opened the gates for Lin Yi, "Boss, you rest first. I'll help you park the car in the yard."

"Alright, I'll leave it to you then." Lin Yi nodded, "How's your Grandpa and Wu Chentian?"

"The injury has been maintained. Boss, shall we go and take a look later?" Zhishan said as he got into the car and parked it in the yard.

"Let's go now," Lin Yi was worried about Wu Chengtian and elder Pi's injuries-these two were injured trying to save Wang Xinyan, and Lin Yi couldn't just leave them be.

Putting aside the fact that they were trying to save Xinyan for his sake, even if it wasn't for his sake, Lin Yi couldn't just stand by and watch her Savior get hurt, after all the help she'd given him.

"Alright!" Zhishan was overjoyed-he thought that Lin Yi would rest for a while after getting home, but he didn't expect him to rush to his Grandpa and Chentian's place.

After entering the villa, granny sun smiled and nodded at Lin Yi,"Mr. Lin, you're back. Do you need me to make you some food?"

Lin Yi turned around and looked at granny sun's smiling face. The more he looked at her, the more she looked like sun Jingyi, and the guess in his heart was confirmed! He'd thought that grandma sun and Jingyi looked a lot like each other before, but he didn't think too much about it. After all, they were both from house sun, and it was only natural for them to look similar since they were related. Things were different now, however, and Lin Yi found grandma sun even more familiar after guessing Jingyi's background.

"Granny sun, just call me Yi from now on, no need to call me Mr. Lin, I'm not used to being too polite." Lin Yi didn't want granny sun to call him Mr. Lin anymore after learning about her background. If something happened between him and sun Jingyi, granny sun would be his mother-in-law, and Lin Yi wasn't used to her being so polite.

"Hehe, how many times have you told me off? it's not good for me to change my mind." "It's just a title anyway ..."Granny sun laughed.

Lin Yi didn't have much of a choice and only said,"Grandma sun, give uncle Fu a call and tell him to come over as soon as possible. I have something important to tell him,"

"Oh? Alright, I'll call him in a while. " Granny sun quickly nodded after seeing how serious Lin Yi was.

Lin Yi, on the other hand, followed Zhishan to the room where old man Pi and Chentian were healing. The two of them lay in the same room every day, chatting and talking. They were both physical practitioners, and old man Pi was a Sky Class master. Chentian wanted to learn, while old man Pi wanted to be on good terms. One was willing to learn, and the other was willing to give pointers. They had a lot of fun talking.

The two had heard Lin Yi's voice, but they couldn't get up to welcome him with their injuries. Grandpa Pi, on the other hand, was a lot better-he quickly sat up on the bed when he heard Lin Yi's arrival."Mr. Lin, you're back!"

"Old man Pi, just lie down. We're a family now, there's no need to be so polite." "I'll take a look first," Lin Yi said, waving his hand.

"I'm not in a hurry. It's mainly because little Wu's injuries are more serious than mine. Can you take a look at him?" Old man Pi waved his hand. He was a Sky Class master, and his injuries weren't as bad as Chentian's-he couldn't let Lin Yi treat him first.

"That's good. " Lin Yi didn't reject the offer-he could tell with one look which one was more injured, Grandpa Pi or Chentian.

Lin Yi placed his hand on Chengtian's meridians and started channeling the second stage of the art of Dragon mastery. Chengtian didn't resist-he didn't need to do anything during the healing process, he just needed to enjoy the comfort of the recovery.

This wasn't Chentian's first time getting Lin Yi to heal him, and he was very familiar with it. He was even more injured than last time, and he was almost disabled, but Lin Yi still healed him. He didn't think it would be a problem at all.

This was the first time Zhishan and old man Pi had seen Lin Yi heal someone else-he looked like he was doing it with ease, putting his hand on Chentian's pulse and Chentian's face was getting better and better!

Chentian had been lying down for a couple of days, but this wasn't something that could be healed just by lying down for a long time. Other than feeling a little better, his injuries were still the same, but his face had miraculously turned from pale to red!

Soon, he became normal again-this made Zhishan and Grandpa Pi wonder!

The two looked at each other and saw the shock in each other's eyes. They thought that Lin Yi only used some herbs and acupuncture to heal injuries, and even if he could cure them, it wouldn't be effective in the short term. But now, it seemed like that wasn't the case at all. Lin Yi cured them with his hands!

In fact, Lin Yi's healing time for Chentian wasn't short at all, but in the eyes of Zhishan and elder Pi, it was extremely short. When Chentian jumped up from his bed and appeared in front of them, full of energy, the two's knowledge of martial arts was completely overturned.

"Boss, he's ... Recovered?" Zhishan looked at Chentian in disbelief as if nothing had happened to him.

"Alright, it's your grandpa's turn. Where's your brother? You didn't ask him to come along?" Lin Yi asked.

"Uh ... You're done so quickly?" Pi Zhishan's brain couldn't really turn around, "My brother's at xueshang hotel, and Chentian's Grandpa, Wu gonggao, is waiting for him there. I didn't think he'd be cured so soon ... Should I call them over?"

Chapter 2333-Good Idea

"Yes, let them come over. Elder Pi's injuries aren't as bad as Chentian 's, he'll be fine in a while." Lin Yi said.

"Okay, okay, I'll make the call now ..." Zhishan was both surprised and happy.

Lin Yi, on the other hand, was checking elder Pi's pulse. This was the first time he'd been treated by Lin Yi, and he was a little nervous. He looked at Lin Yi and asked carefully, "Mr. Lin, do you need me to do anything? How can I cooperate with you?"

"I don't need anything. I'll just lie down." With that, Lin Yi started channeling the second stage of the art of Dragon mastery again, healing old man Pi.

Elder Pi did as he was told-he didn't do anything, and a while later, he felt a warm flow of energy flowing through his meridians into his body. It flowed through his meridians to where he was injured, and started healing his injuries!

Soon, elder Pi could feel his internal injuries healing up miraculously-this was the legendary true Qi Healing! Didn't they say that only the sun family could do it?

Why was Lin Yi able to do it too? and why did house sun seem to have a limit on the number of people they could heal? they could only heal one person, but Lin Yi could heal so many people?

Old master Pi's thoughts were running wild, but he was extremely shocked-the Hidden House han was really smart, no wonder they'd joined Lin Yi so early on! The Hidden House han wasn't stupid-if Lin Yi didn't have the strength and ability, would he be willing to be a follower?

And now, old man Pi felt that his decision to join Lin Yi was the right decision! Practitioners like them couldn't guarantee that they wouldn't get hurt, and with Lin Yi here, it was like a mobile sanatorium, they could heal their injuries directly-this was the guarantee of their lives!

Plus, this was only a small part of Lin Yi's strength-he probably had more to offer. Back at the Hidden House meeting, Grandpa Pi already felt that Lin Yi wasn't someone to be trifled with, otherwise he wouldn't have been able to win so many matches in a row.

"It's done," Just as old master Pi's thoughts were running wild, Lin Yi's words pulled him back to reality, and he froze! This is it? Chentian's injury looked serious, but Grandpa Pi didn't know much about it, and he didn't check it himself.

But he knew how serious his injuries were. To put it bluntly, if he didn't recover well, he'd be crippled. But Lin Yi used such a short time to heal him? Old master Pi quickly checked his injuries-it was just as Lin Yi said, his injuries were completely healed!

"Is it really all right?" Grandpa Pi took a long time to react, surprised and happy.

"Elder Pi, I told you that boss would be able to heal us, but you didn't believe me. Do you now?" Chentian had gotten used to it by now, and was practicing the physical arts that elder Pi had taught him.

"Yeah, I've only realized how amazing Mr. Lin's medical skills are after I've experienced it myself!" "It looks like I'm still a little narrow-minded!" Grandpa Pi sighed.

As they were talking, Zhishan returned with gonggao, old man Wu, behind him. Gonggao was a little embarrassed when he saw Lin Yi.

Back when Lin Yi was in dire straits and pengzhan was in a car accident, gonggao had cut off all his allowance from Chentian and told him not to have any contact with Lin Yi. If it weren't for Chentian's insistence, gonggao would've broken off all ties with Lin Yi already.

This was quite similar to old man sun back then-Jingyi was really down and out back then, selling her company with Chentian, and her bank account was frozen by her family ...

"Mister Lin ..." Gonggao smiled awkwardly, not daring to look Lin Yi in the eye.

He'd gone to the hotel to look after Pi Zhihai before, and with elder Pi teaching his grandson martial arts every day, gonggao felt like he had nothing to do, so he invited him to the hotel.

Lin Yi nodded-he was Chentian's grandfather, after all, and Lin Yi didn't really mind. Chentian was very loyal to him, and gonggao was just trying to protect himself,""Old man Wu, Chentian's fully recovered. Go talk to him, I'll take a look at Zhihai's injuries."

"Alright," he said. Gonggao said, a little embarrassed. He lowered his head and went to see his grandson.

Chentian didn't know whether to laugh or cry at his grandfather's reaction, but he was his grandfather, after all, and he was the best in the family. He couldn't just throw his face away, "Grandpa, did you see that? I made the right choice. Don't be blinded by the appearance of some things."

"Oh my God, you're right. I'm old, I can't see things clearly ..." Gonggao sighed. "House Wu will be in your hands from now on-I know that the position of Head of House Wu won't be able to keep you here, and with the speed you're improving with Mr. Lin, you'll reach Sky Class or even higher sooner or later. I just hope that you'll be able to help Wu Chendi a bit more after I pass away-this kid is smart and two-faced, but I still have to help him become the head of the house ..."

"I understand. Don't worry, Grandpa. I'll take care of him in the future." Wu Chengtian nodded. In fact, Wu Chengtian didn't care about the position of house Wu's head anymore. He was above the common noble houses.

On Lin Yi's side, he had already started to heal Zhihai. Zhihai's injuries weren't really injuries, it was just the purple lightning beast's Qi that was injected into his body. This type of Qi was similar to the Qi in Lin Yi's body-it was the purest type of heaven and earth Qi. However, Zhihai wasn't a spiritual practitioner, so he couldn't refine the Qi in his body. Even spiritual practitioners had to absorb the Qi through the Qi Sea Point. He could not refine the true Qi that had been forced into his body!

This was a good way to trick people, Lin Yi thought. He didn't know how the purple lightning Beast did it, but spirit beasts could transfer this kind of pure Qi to people. Lin Yi couldn't do this, so he could only use the art of Dragon mastery to automatically create and transfer Qi according to the needs of the recipient. Other than transferring Qi to special types of spirit beasts, the recipient didn't need to use their practitioner's Arts. When transferring true Qi to others, the other party must use the heart cultivation chant used during spiritual cultivation. Otherwise, it can only heal injuries! If the other party didn't use the chant, Lin Yi couldn't do anything.

Chapter 2334-Seeking Advice On Battle Techniques

Lin Yi could only send his Qi into other people's bodies by using needles, he couldn't do it with his hands.

It seemed that he should let the pig and the purple lightning Beast talk to each other and see how this guy did it. It'd be amazing if Lin Yi could learn it-he'd be invincible if he just injected some pure Qi into his opponent.

But Lin Yi didn't think much of it-were all the practitioners with contracted spirit beasts stupid? Did they not think of this? It didn't seem like it could be done at all.

Shaking his head, Lin Yi started to help Zhihai refine the purple lightning beast's Qi, but only the beast's Qi could be so easily absorbed by Lin Yi. If it was someone else's Qi, Lin Yi wouldn't be able to do it so easily!

Lin Yi could absorb this type of Qi for his own use, but he couldn't do the same for others like fire poison Qi. He had to force it out of his body by wrapping it with Qi, which was more troublesome.

"It's done," Lin Yi didn't take long to heal Zhihai-it only took him a couple of seconds before he let go of Zhihai's pulse.

"Ah? Are you done?" Zhishan and Grandpa Pi's eyes went wide-this was too fast! They'd accepted the fact that Lin Yi was healing them quickly, but it was fast enough before, and it seemed even faster now?

After all, even the Hidden House Pi had tried many ways to heal Zhihai's injuries, and even the Hidden House Zhao's Medicine King Zhao couldn't do anything about it-and Lin Yi did it in just a few seconds?

Lin Yi nodded, "I was fine, just some Qi from the purple lightning Beast."

"..." Zhishan and Grandpa Pi were speechless-if this was nothing, then what was something? One had to know that this was a situation that many people were helpless against!

However, Zhihai's next groan made them realize that he was completely fine. He climbed up from the stretcher and rubbed his eyes, "Where am I? The competition is over? Lin Yi? What are you doing here?"

Zhihai didn't know what had happened after the Hidden House Summit, and he was naturally on guard and hostile when he saw his "enemy" here.

"Zhihai, don't be rude!" Grandpa Pi jumped at the words, "This is Mr. Lin, your Savior. Without him, you'd be dead, and he'll be someone we house Pi have to respect and follow!"

"Yeah, Zhihai, I've already taken Lin Yi as my boss. You're my little brother, you should call him boss like me!" Zhishan said.

"Ah?" Zhihai was a bit surprised-why was his Grandpa and brother treating Lin Yi so differently now? Wait a minute ... They said Lin Yi was her Savior? Zhihai recalled what had happened before-he'd been injected with a wisp of Qi by the purple lightning Beast during the spirit beast tournament, and then he'd lost consciousness ...

Did Lin Yi help him? Zhihai was a martial arts enthusiast and didn't talk much, but that didn't mean he was stupid. From what he could see, that was the case! Zhihai was still a little confused-did his Grandpa and big brother really forget about the past?

They didn't seem to be lying, and Zhihai wasn't an insensible person-he quickly cupped his fists to Lin Yi."Thank you, Mr. Lin, for saving my life ..."

"You have to call me boss!" Zhishan said as he slapped Zhihai's face. Although Zhishan wasn't as strong as Zhihai, they were still brothers. They never fought or schemed against each other, and had been like that since they were young.

"Hehe, there's no rush." Lin Yi waved his hand, telling Zhishan not to force the issue."He just woke up. Let him rest for a while."

"Alright, thank you, boss, for not haggling over it." Zhishan said.

"Right, old man Pi, Wu Chengtian is an Earth Class, but he doesn't have a suitable martial skill." Lin Yi turned to old master Pi."Wu Chengtian belongs to a common house, house Wu, but he's practicing the physical Iron Fist Arts, which is similar to your hidden house Pi's-it's a hand practitioner's Arts. Can you help him find a martial arts skill?"

Normally, there wouldn't be any Earth Class Masters appearing in the common houses, so they wouldn't have any Earth Class skills. Even the strongest common house Yu, Yu Huoxing, didn't have any skills, and went to the Hidden House Yu to train instead. It was just that when Lin Yi met him, the Hidden House Yu didn't give him any skills yet.

"Oh, that's easy-we'll be a family from now on, so I don't have to hide it from you. Our hidden house Pi's martial arts is called the fist of heaven and earth, and it's perfect for Wu Chengtian to practice!" Old master Pi said happily after hearing what Lin Yi said. "Of course, Wu Chengtian's a dual practitioner-if he could use the heaven and earth fist, it'd be much more powerful than normal physical practitioners like us!"

Wu Chengtian was a little excited after hearing the old man's words. He'd spent some time with the old man, and he'd found out about the Hidden House Pi's support in the ancient times. It was the famous physical style, the godly fist Palace, and the heaven and earth fist was the signature move of the godly fist Palace. The old man had only mastered the first fifteen moves, and didn't have the rest yet, but it was enough for Wu Chengtian!

Grandpa Pi had defeated the weird kidnapper with the godly fist, and Chentian was naturally envious of him. He didn't think he'd be able to learn it.

Of course, Wu Chengtian also knew that this was because Lin Yi had successfully healed both Grandpa Pi and Pi Zhihai. Grandpa Pi really treated him as one of his own, a comrade in the trenches. Although Grandpa Pi did give him some pointers on how to practice, he didn't mention a single word about the heaven and earth fist.

"Thank you for your help, old man Pi-i'll study hard for sure, and I won't teach it to anyone else unless you tell me to!" Chentian said with a fist salute.

Zhihai was a little taken aback-he didn't think that his Grandpa would even be willing to teach Chentian the heaven and earth fist! It seemed like his Grandpa was really dead set on following Lin Yi!

He just woke up and only knew what happened recently, but at least one thing was that his injuries were healed by Lin Yi. Thinking back, Lin Yi seemed to be very powerful and magical? Not only did he shine in the Hidden House Summit, but his medical skills were also this amazing?

Chapter 2335-Talking Too Much

Could it be that it wasn't a coincidence that the Hidden House han was willing to become Lin Yi's follower? Even grandfather has decided?

After thinking this through, Zhihai didn't resist anymore-his grandpa's decision was the decision of the Hidden House Pi! Her grandfather had always been a cautious person, and the fact that he made a decision this time was enough to prove how bright his future was following Lin Yi!

Grandpa Pi didn't want to play any games-he found a pen and paper and made a copy of his practitioner's Arts for Chentian, not hiding a single one. He wrote down all fifteen of them without missing a single one,"As for the specific activation technique, you should have understood it in the past few days. Later, you can go to the courtyard and practice it yourself. If you don't understand anything, ask me again! However, I think your achievements will be even greater than Zhihai 's. After all, you're a dual cultivator!"

"Yes!" Chentian accepted the manual delightfully and respectfully.

"Right, old man Pi, you guys from the Hidden House Pi should be able to get your hands on things like Qi gathering pills and spirit gathering pills, right?" Lin Yi suddenly thought of something-these pills weren't rare at the Hidden House Summit, and they weren't as rare as the common houses were."You guys can level up by eating pills, right?"

"Well ..." Elder Pi smiled bitterly,""It's indeed not hard to get. In fact, we have a lot in stock-if one of us shows even the slightest bit of spiritual talent, and is able to channel Qi into his body, we'll do everything we can to help him reach Earth Class!"

"Oh? Why did he say that? You can't cultivate?" Lin Yi asked, confused.

"It's very rare for a physical practitioner to be able to train as a spiritual one in the middle. Even though you have the spiritual practitioner's chant, you're basically useless. You can't even get Qi into your body, and you can't even get started as a spiritual practitioner, how can you take pills? "It'll be a waste even if I eat it ..."Grandpa Pi smiled bitterly."There aren't many physical practitioners who can do internal practicing, and we house Pi don't have a genius like Chentian-no one has ever succeeded!"

"Uh ... I'm a genius?" Chentian's eyes were wide open-he'd never considered himself a genius before, and without Lin Yi, he wouldn't even be a genius! He was still a golden class early phase physical practitioner!

However, Chentian didn't dare to say anything. After all, helping someone increase their strength and healing were two different things. He didn't know if Lin Yi would allow him to talk about it, so he looked at Lin Yi.

"Wu Chentian, you ... Were in this situation before? I can't practice spiritual arts?" Lin Yi asked after some thought. He didn't know this much when he was leveling up Chentian.

"I couldn't before, my Grandpa couldn't too ..." Chentian smiled bitterly,""I've rarely heard of anyone who's trained in the external style training in the spiritual style!"

"Then how about spiritual first, then physical?" Lin Yi wasn't expecting that.

"It's rare for one to start with spiritual first, and then physical ..." Old man Pi smiled bitterly, ""Only a small number of geniuses start with spiritual first and then physical, but for these geniuses, the results are the same ..."

"Oh ... I don't know much about the outside world, so that's what it's like ..." Lin Yi suddenly realized.

"Yes, other than some spiritual practitioners who have no foundation, when they want to change to physical practitioners, they usually destroy their own meridians and start over!" Chentian said as he thought of an example. "Right, he's about the same as uncle Fu ..."

"Uh ..." Lin Yi blinked. Uncle Fu wasn't saying that there was no construction without destruction. He had no other choice but to become a spiritual practitioner. The logic was the same, though.

"Wait, Wu Chengtian, you said you couldn't before? You couldn't train as a physical style before, but you can now?" Old master Pi noticed a small detail in Chentian's words.

"This ..." Wu Chengtian looked at Lin Yi.

"Yeah, I helped him level up." Lin Yi nodded.

"Pfft ... Cough cough cough ..." Old man Pi heard Lin Yi's words and started coughing, ""Mr. Lin ... You ... What did you say?"

Even Zhihai, who hadn't said a word, had his eyes wide open as he looked at Lin Yi in disbelief.

"Wu Chengtian's spiritual strength was increased by me." "But my current limit is Mystic late phase peak, you guys will have to rely on the small Qi gathering pill to get there," Lin Yi said.

"Boss, please help me level up-I don't need Mystic late phase peak, I just need to reach golden class early phase, and I'll be able to do it after eating some more Qi and spiritual gathering pills!" Zhihai rushed in front of Lin Yi and bowed deeply.

Zhihai was a martial arts fanatic, and nothing was more important to him than the pursuit of martial arts. Cultivating both the inner and outer body was his dream!

So when Zhihai heard that Lin Yi could level up, and with Chentian as a living example, he was willing to take Lin Yi as his boss. If Lin Yi could help him level up, he'd be able to fulfill his dream of training both internal and external-he wouldn't let this once in a blue moon opportunity go.

"Haha ..." Lin Yi laughed. This Zhihai really was a martial arts fanatic. He wasn't even this excited when Lin Yi saved his life, and now he was this excited when he heard that he could level up. Lin Yi couldn't help but shake his head at the thought, "What are you doing eating so many pills? Isn't this a waste? If you have the extra, give me a few!"

"Hehe ..." Zhihai said, scratching his head. "If I can really reach Mystic late phase peak, then I'll only need one small Qi gathering pill to break through to Earth Class. The rest of the pills are all for you, boss."

"You brat, why don't you consider me and your grandfather!" Zhishan smiled bitterly, "at least give us one each!"

"Zhishan! Don't talk nonsense and don't be too greedy!" Grandpa Pi frowned and kicked Zhishan! Do you think your family is a family of great heroes? He only helped Lin Yi save Xinyan once, and healing Zhihai was already returning the favor. If he could level up Zhihai, it would be a great gift, and yet Zhishan was asking for more-he wanted the whole family to be a Dual Trainer? How was this possible? even divine fist Hall didn't have such a large team of internal and external cultivators!

Zhishan realized that he'd said too much-it made sense. It was already good enough that Lin Yi leveled up Zhihai, how could he level up his entire family?

Chapter 2336-Shocking

Chentian had been with Lin Yi for a long time now, and even if he didn't have any merits, he had put in a lot of effort. Gonggao was only a Mystic early phase physical master, and Lin Yi didn't even help him level up-what did the Hidden House Pi do?

"I'm sorry, boss ... I was too impatient and greedy ..." Zhishan said quickly.

"It's normal for cultivators to pursue higher realms. How many small Qi gathering pills do you have at home?" Lin Yi asked.

"About ten?" Zhishan wasn't too sure-the pill was precious, but the problem was that no one in house Pi could consume it. He turned to look at Grandpa Pi.

"There are 15 in total." Grandpa Pi continued, "actually, there are many more opportunities to collect more Qi gathering pills. I just didn't go and collect them. It's useless to get them anyway. I might as well get something else."

"Okay, you, Pi Zhishan, Pi Zhihai, and Wu gonggao will take one each. That's four, and I'll take five of the remaining eleven." Lin Yi said after some thought. He didn't think that the Hidden House Pi would have so many small Qi gathering pills.

"Ah?" Grandpa Pi was dumbfounded! It wasn't because Lin Yi was asking for the Qi gathering pill, but because Lin Yi was saying that he was going to level up his whole family-this was something Grandpa Pi couldn't accept!

Wasn't this happiness coming too quickly? He'd be more than willing to let Lin Yi have all of them, let alone the five! If it wasn't for Lin Yi's help, not to mention fifteen small Qi gathering pills, even a hundred small Qi gathering pills wouldn't be enough to make one of them an Earth Class early phase!

"Mr. Lin, this ... This seems like a loss, right?" Old man Pi asked carefully.

"Losses?" Lin Yi blinked-he thought that Grandpa Pi was saying that he'd lost out on the five Qi gathering pills, but that wasn't the case from his expression. He understood what he was thinking and smiled, "I treat you as one of my own. In the future, if I go out, I will need your help to protect the people around me. So, if you don't improve your strength, I won't feel at ease."

"Then ... If that's the case, it would be impolite for us to refuse!" Old master Pi was very excited, "How many days will this upgrade take? Mr. Lin, why don't you help Zhihai level up first, and I'll go back and get the Qi gathering pills?"

"Get someone to send it over, you've been gone for too long." "If everything goes as expected, you four will all be Mystic late phase peak by tomorrow morning," Lin Yi said.

"Before tomorrow morning?" Old man Pi, Pi Zhishan, and Pi Zhihai were all shocked! If Lin Yi told them that he could turn a person into a Mystic late phase peak, they would be shocked already, but he said that there were four of them! This made them freeze!

"If there are no accidents along the way, there should be no problems before tomorrow morning!" Chentian explained proudly, having personally experienced the feeling of his strength rising.

"This ... Mister Lin, you've shocked this old man!" Grandpa Pi smiled bitterly and shook his head. "It seems that what we know about your abilities is just the tip of the iceberg. Now I understand, no wonder the Hidden House Han's Han xiaopo didn't level up before, but suddenly became so strong on the eve of the Hidden House Summit. It seems that it's all thanks to you, Mr. Lin!"

"I don't deserve the credit, it was indeed my doing." Lin Yi didn't deny it.

"It looks like Zhishan's decision to call you boss was the best decision he's ever made!" Old man Pi sighed, and looked at Chentian with some envy. This guy was just from a common house, and yet he was doing so well with Lin Yi. Even in terms of seniority, Zhishan had to call him Tian bro. After all, he was Lin Yi's first follower.

"Haha, that's right. I have great foresight." Zhishan said proudly.

"As for the Qi gathering pills, give us all fifteen of them-the Hidden House Pi won't have much use for the rest, so Mister Lin can decide how to use them later." "If you need more, I'll get someone to collect more ..." Old master Pi said.

"No need, these are enough." Lin Yi was thinking of giving one to han xiaopo, one to song Lingshan, one to Chen Yutian, one to Zhao qikun, and one to uncle Fu, but he didn't think that old man Pi would bring so many.

"Haha, we have no use for it." Grandpa Pi waved his hand."Plus, we've already gained a lot. Plus, if we follow what Mr. Lin said, we'll be on the same side from now on. These things will all belong to you."

"Alright, then." Lin Yi didn't reject it anymore. If he had more, he could give some to Tianlong and the others. After all, Tianlong was too weak to fight the red conch, and he was Xiaoxiao's father. If something happened to him, Lin Yi wouldn't be able to explain it to Xiaoxiao.

"But ... But house Wu doesn't have anything new to show ..." The one who felt the most guilty was Chentian's grandfather, gonggao. He felt that he'd let Lin Yi down. When Lin Yi was in trouble, gonggao didn't give him a single cent, and even froze Chentian's pocket money account. This made him feel very guilty.

"Don't say such things. It's enough that you have a good grandson. " Lin Yi said faintly. It wasn't giving gonggao face, but it was the truth.

Gonggao's face reddened, embarrassed as he smiled at Chentian.

"Boss, thank you!" Chentian said seriously.

Grandpa Pi had his family go get the Qi gathering pills, and Lin Yi started helping Zhihai level them up one by one. He had a lot of free time before the Miss and Shu finished school, and it wasn't even noon yet. It was more than enough time for the two to reach Mystic late phase peak.

Zhihai was the most excited of them all, and no one was fighting with him over the food-Lin Yi naturally wanted to help him level up first.

"You don't have to do anything later, just use your family's internal cultivation technique on your own. I'll transfer the Qi you need through your meridians!" Lin Yi said to Zhihai.

"Alright, boss, I understand." Zhihai nodded. Lin Yi's way of doing things and what he said was new, but he agreed without hesitation. He didn't need to do anything-it was simple.

Chapter 2337 Back To School

The two started just like that, and very quickly, Zhihai broke through from a guy with no spiritual strength to the early phase of the Golden class! Zhihai's face was full of shock-this was too fast!

It wasn't like he hadn't done any research on spiritual practicing before, but Zhihai would try it out whenever he had the time. It was just that he'd never made any progress! As a martial arts fanatic, he naturally wanted to become a martial arts master who cultivated both internal and external cultivation!

And so, this Qi-refining feeling that he'd wanted so many times suddenly appeared, and it quickly became the early phase of the Golden class. It was like a dream! He did feel the pain of breaking through the bottleneck the moment he reached the early phase of the Golden class, but it was quickly drowned out by the excitement of the upgrade!

Of course, Zhihai wasn't the only one who was shocked and excited-Zhishan, old man Pi, and even gonggao, who'd known that Chentian was a practitioner because of Lin Yi, were all shocked!

It was self-evident what this meant for physical Masters. Such an opportunity was hard to come by, even for Masters of the divine fist Hall! The few of them looked at each other and decided to keep this secret strictly!

This wasn't just for Lin Yi's protection, it also saved her from trouble! Even if elder Pi's backing was the divine fist position, he wouldn't say anything! After all, many geniuses of the divine fist Hall would do whatever it took to train a person to be a master of both internal and external cultivation as soon as Qi entered their bodies, even if they could develop a sense of Qi!

However, Zhihai's strength was still increasing rapidly, breaking through to the middle phase, and then the late phase!

This kind of speed, even if it was eating medicinal pills, everyone had never heard of it!

Even if he ate a pill, he would still need time to refine it, right? But Lin Yi didn't even need time to refine the pill-he just leveled up Zhihai at rocket speed!

Old man Pi's eyes towards Pi Zhishan were getting more and more kind-he was very happy that Pi Zhishan could get to know Lin Yi and be his follower. It was a blessing for house Pi!

Around three or four in the afternoon, Zhihai had successfully become a Mystic late phase peak with pure Qi in his body-it was unbelievable! But what surprised Lin Yi was that Zhihai didn't even take any Qi gathering pills when he was leveling up Zhishan-he was already an Earth Class early phase!

This made Lin Yi remember Wu Chengtian's situation. Wu Chengtian was a spiritual practitioner from the inside out, and then physical, but Zhihai's physical strength was already at the peak of Earth Class early phase. According to the principle of "one thing, a hundred things"-Zhihai breaking through to Earth Class early phase spiritual strength on his own was within reason!

But Zhihai's speed was a bit too fast-Lin Yi had just helped him level up, and he broke through on his own! Of course, this was also because Lin Yi helped him level up-he didn't need to use any stamina at all, and he was full of stamina after leveling up, breaking through to Earth Class early phase!

This situation shocked Lin Yi! Chentian leveled up his spiritual first, and he leveled up his physical one, but Zhihai leveled up his spiritual one!

One of the problems was that the side effects of leveling up didn't happen to Zhihai! After Lin Yi helped others level up, he couldn't level up by himself due to the purity of the natural Qi. He had to take pills or go to places with more Qi.

Yet Zhihai broke through on his own-was this not applicable to a dual-cultivation master? Or was it because Zhihai's physical style had broken through the next level, and that was why his spiritual style was able to level up?

Of course, once Zhihai reached Earth Class early phase peak as a spiritual practitioner, they'd be able to see if there really was no limit. If Zhihai could still continue as a spiritual practitioner, then it'd prove that the flaw Lin Yi used to level people up didn't apply to physical and spiritual practitioners. If he couldn't continue as a spiritual practitioner and had to continue as a physical one, then it meant that the flaw still

existed, but physical and spiritual practitioners were a little special. The barrier of this flaw was set up on the highest point of strength in his body.

But even if there were flaws, as long as physical practitioners could keep on leveling up, then spiritual practitioners would continue to level up! This was still much more advantageous than ordinary inner force experts.

"Can you continue to break through?" Lin Yi asked Zhihai.

"I can't do it anymore. I just broke through naturally after accumulating power. But I can't break through again." Zhihai smiled bitterly, "boss, the spiritual strength you gave me was Mystic class late phase peak. I was just one step away from breaking through, and that's why I was able to break through. But right now, I haven't even stabilized my Earth Class early phase-how can I break through?"

Lin Yi nodded, but this made things a lot more normal. Otherwise, he'd think that Zhihai was a weird guy! But even so, Zhihai was still much stronger than the others.

Zhishan's strength wasn't complete yet-it was time for Mengyao and the others to leave school, and Lin Yi had just reached Mystic early phase peak. He wasn't in a hurry, though, so he stopped and continued at night.

Lin Yi's leveling method didn't require a burst of energy-as long as one's strength was lower than Lin Yi's, they could level up at any time. There was no time limit or limit to the number of times they could level up, so Lin Yi stopped it, "I'll go pick up the young miss from school first and continue to level up at night. "

"Alright," he said. Zhishan nodded.

Zhihai and Chentian volunteered, "Boss, shall we go with you to pick them up?"

"No need. The car can't fit so many people. If there's danger, I can handle it myself. You guys rest first." Lin Yi didn't need their help at all-if he met an opponent, as long as it wasn't a Sky Class master, he had the confidence to deal with them. If it was a coward like the third head, he'd just kill him.

Since Lin Yi said so, they didn't force him anymore. Lin Yi drove his Grand Cherokee to the parking lot of Donghai city's Industry University and waited there.

After school, Chu Mengyao and Chen Yushu went to the parking lot with han Xiaochao, but the familiar BMW X5M was nowhere to be seen ...

Chapter 2338 Second-Grade Pill

Pi Zhishan had been picking them up from the parking lot these past few days, and he'd come early every day. He was always punctual.

Mengyao was a little surprised that Zhishan wasn't here today. She was thinking if she should give him a call when she saw Yushu already running towards a black Grand Cherokee ...

Mengyao's heart tightened when she saw the familiar plate number on the Grand Cherokee. Was he back ...?

She shook her head with a bitter smile, thinking that Shu's eyes were quite sharp-she'd noticed Lin Yi's car right away, and she was still looking for Pi Zhishan's BMW X5M!

"Shield bro, you're back! Shu's thinking about you for Yaoyao sis!" Chen Yushu opened the door to the passenger seat and got in. She turned to Chu Mengyao, "Yaoyao sis, do you want to take the passenger seat?"

"You can sit." Mengyao didn't have the face to sit in front. She shook her head and walked over, smiling at Lin Yi. "You're back ..."

"En, I'm back." Lin Yi smiled as well. He didn't know why, but he felt that there was an unspeakable connection between him and the Miss. Just one look and one smile, and they understood each other's concern and thoughts.

"Wow, Yaoyao sis, you and shield bro seem to have something going on, when did you guys become so in sync?" Yushu said with an evil smile as she looked at the two.

Mengyao's face reddened as she glared. "It's usually a thief crying thief. "

"Yeah, someone just said a thief crying thief." Chen Yushu replied.

"Can't you be a little more silly at a time like this?" Mengyao was speechless.

"Shu's not stupid!" Chen Yushu replied.

"Alright, you guys can get in the car." Lin Yi looked at the two arguing, and felt a familiar and warm feeling. Was this the life he wanted?

"For Lin Yi's sake, I won't argue with you," The young miss got into the back of the car.

"See, I told you there's a penis! Otherwise, why would you give shield bro face and not Shu, your sister who's been living with you for over ten years?" Yushu said as if she understood.

"I ... You ..." The Miss felt defeated. Arguing with Chen Yushu was really asking for trouble.

"It's all thanks to you guys. Many things have happened to our family. Thank you." Lin Yi smiled, interrupting their argument.

"I have to thank Yaoyao sis, it was all her doing." "She's always telling Grandpa Pi and Pi Zhishan not to worry, telling them that you'll be back soon. In fact, she's always known that shield bro didn't call. "

Mengyao's face reddened even more-she didn't think that Shu would've found out about it already, but from what she'd seen on the phone with Lin Yi, it seemed that Shu really did have the potential to be a spy. Nothing could escape her eyes and ears.

"I was careless, thank you!" Lin Yi didn't think that Mengyao would be in such a difficult position at home, but it made sense-grandpa Pi and Zhishan hadn't seen what he was capable of, and it was normal for them to be worried. Only Chentian knew that his injuries would be cured, but Grandpa Pi wouldn't believe him one hundred percent.

"It's nothing," Chu Mengyao looked at han Xiaochao who was not far away and said,""Han Jingjing is coming. Let's not talk about this."

Mengyao didn't tell Jingjing much about these things, and although Lin Yi seemed to trust her a lot, Mengyao felt that there was something wrong with her. She couldn't tell if he had bad intentions, but she felt that there was something strange about her.

Han Jingjing didn't see her BMW X5M in the parking lot, but she saw her brother standing next to a Grand Cherokee. She blinked and knew that Lin Yi was back. She ran over happily and got in the car, sitting in the middle of the second row,"Lin Yi bro, you're back!"

"Yes, I just came back today! How was it? Have you made any progress in pill refining?" Lin Yi asked.

"Ah, speaking of this, Jing Jing's head hurts. Is Jing Jing an idiot? She can only refine one second-grade pill a day and then she'll lose all her strength. She has to rest for a night before she can continue refining!" Han Jingjing's face was sullen and she said with some annoyance,""Even if Jingjing wanted to use the scientific alchemy method to refine a few more elixirs at once, she wouldn't be able to succeed. This is because refining more elixirs requires more physical strength. Jingjing couldn't hold on and directly wasted two furnaces of materials ..."

"It's fine. Can you guarantee a 100% success rate if you make one pill every day?" Lin Yi asked.

"En, en. If it doesn't succeed, Jing Jing will be a big fool." Han Jing Jing nodded.

"That's already very impressive. Even if an ordinary second grade Alchemist is prepared to refine a second grade pill, it's impossible for them to succeed with a 100% success rate. It's already very high to have a 50% success rate!" Lin Yi was a little disappointed, but han Jingjing's success rate was already close to 100%. What was there to be unsatisfied about?

"Is that so? "Then it seems that Jingjing is still okay ... It's just that she doesn't have enough physical strength ...""If I have enough physical strength, I can use the scientific alchemy method and refine many pills in one furnace!"

"Oh?" Lin Yi suddenly thought of a way to solve han Jingjing's problem. What if he cooperated with han Jingjing, and she made the pills while he kept pouring Qi into her from behind? In this way, could this problem be solved?

"Lin Yi bro, you have a plan?" Han Jing Jing quickly asked after seeing Lin Yi's thoughtful expression.

"En, I've thought of a way. I'll find you to test it out tonight!" Lin Yi said.

"En, en!" Han Jingjing nodded happily, "Lin Yi bro is better than Jingjing. He came up with a solution as soon as he came back. He's so amazing!"

Chen Yushu, on the other hand, pouted. This han Jingjing was too good at acting cute. She didn't even blush when she said that. Even if she liked shield bro, she didn't have to flatter him like that.

Han Jingjing sat beside Chu Mengyao, and han Xiaochao sat beside han Jingjing. Lin Yi started the car and drove out of the school towards the xueshang District.

Lin Yi told Mengyao and Yushu to go back to the villa first, while he went to Jingjing's Villa with han Jingjing. He wanted to test out his idea and see if it was feasible.

Chapter 2339-Of Course It's Fine

"Yao Yao, this han Jingjing ... How should I put this ... Do you think she's really stupid or is she just acting?" Yushu asked in a low voice.

"Even you can't tell?" "Aren't you the all-purpose Shu?"Mengyao asked, looking at Yushu.

"This ... I think she's the all-powerful calm. She's able to come up with such a weird technique like scientific pill refining. She's really not an ordinary person." Chen Yushu replied.

"That's it, who cares? she seems to be very helpful to Lin Yi. It doesn't matter if she's smart or stupid," Mengyao said with a shrug.

"Shu's not playing dumb, she's not dumb to begin with. " Chen Yushu replied.

"Han Jingjing isn't stupid." Mengyao said.

"Okay ..." Yushu didn't ask for anything.

Chentian, gonggao, Zhishan, Zhihai, and elder Pi all came out to welcome Mengyao and Yushu-they weren't in a rush when they learned that Lin Yi was next door. After all, with the speed Lin Yi gave them, they didn't need to rush at all. Even if they couldn't level up before tomorrow morning, they'd be able to do it tomorrow morning.

As for why Lin Yi went next door, Chu Mengyao didn't tell them. She didn't tell anyone about han Jingjing's alchemy skills. Although they were all Lin Yi's followers, it was better for them to keep it a secret.

Mengyao wouldn't say anything since Lin Yi was the one who'd tell her.

After Lin Yi, han Jingjing, and han Xiaochao entered the villa, han Xiaochao went upstairs to read. The guy was a complete nerd, reading and studying every day, not caring about what han Jingjing was doing at all.

"What medicinal pill's ingredients did you waste? what did you succeed in refining?" Lin Yi asked.

"I wasted four portions of the ingredients for the small reversion pill, but I succeeded in making one. I succeeded in making two portions of the ingredients for the channel opening pill." Han Jing Jing said.

"You still haven't used the materials for the small Qi gathering pill?" Lin Yi asked.

"No, I didn't," "I haven't had the time to refine it yet," said Han Jing.

"That's good!" Lin Yi nodded. The small reversion pill and nerve opening pill didn't have much use for Lin Yi, to be honest. Lin Yi's art of Dragon mastery could achieve whatever the two pills could do, and he could also achieve what they couldn't, so there were still a lot of uses for them.

But the small Qi gathering pill was different-Lin Yi had more people with him, and while the Hidden House Pi had eleven small Qi gathering pills left, if Han Jing could make all five successfully, Lin Yi could make more Earth Class Masters.

"Right, Lin Yi bro, you said you've thought of something, right?" Han Jing asked.

"Now, you can simulate the process of refining two pills. I'll help you channel in Zhen Qi and see if it works." Lin Yi didn't dare to let Han Jing try using the materials directly. He was afraid that this method wouldn't work and it would waste the materials.

Although he still had three sets of ingredients for the channel opening pill, if they were to be wasted, he would have to use the ingredients for the lesser Qi gathering pill. That would be a bit of a waste.

"Okay, but if it's a simulation of alchemy, I can't see the actual effect. It's not of much use, it's just a waste of physical strength." Han Jing said.

"That's fine, I'm just testing if my true Qi can be used by you!" "If my Qi can be used by you, then you can test it on actual materials," Lin Yi said.

"Alright, Jing Jing, are you starting now?" Han Jing Jing asked as she picked up the cauldron.

"En, let's start." Lin Yi nodded and clasped his hands on han Jingjing's wrist. Han Jingjing started refining the fire, preparing to simulate the process.

Very quickly, han Jingjing's fire was formed, and she started the simulation. Lin Yi started the second stage of the art of Dragon mastery, preparing to replenish han Jingjing's body with pure Qi, but he quickly noticed a problem!

Han Jingjing's body wasn't absorbing his Qi at all. The second stage of the art of Dragon mastery was only circulating in Lin Yi's body, and the Qi was only circulating in Lin Yi's body-it didn't enter han Jingjing's body at all!

"Lin Yi bro, I don't have Qi?" Han Jingjing had also felt this. She refined the pills completely according to the formula and schedule on the tablet. She did not use her wood attribute to sense the changes in the medicinal herbs in the medicinal cauldron, so she could divert her attention to talk.

"Yeah, I didn't ..." Lin Yi smiled bitterly, ""When you're refining pills, can you also use the heart cultivation chant that alchemists use?"

"I can't ..." Han Jingjing shook her head. "Jing Jing can only use one type of core Fire Heart cultivation chant, you can't use the heart cultivation chant that you're cultivating at the same time!"

"I don't think so ..." Lin Yi let go of han Jingjing's hands and sighed, ""I can only transfer Qi into you when you use the mantra that you've been practicing. When you use the other mantras, my Qi won't be absorbed by you. It seems like my idea can't be realized ..."

Lin Yi was happy with the sudden idea, but he was disappointed that it didn't work.

"Do I still need to simulate it?" Han Jing Jing asked.

"I'll try inserting it directly into your Qi sea ... But I might need to touch your abdomen ..." Lin Yi hesitated.

"Oh, sure." Han Jing Jing nodded.

"Um ... You're a girl, is it okay for me to touch you like this?" Lin Yi saw that han Jingjing didn't seem to understand that men and women shouldn't touch each other, and added.

"Of course it's okay, it's okay if Lin Yi bro touches it, but no one else can." Han Jing Jing said naturally.

"I ... You ..." Lin Yi didn't understand why this han Jingjing, who suddenly became his neighbor, was so close to him. It seemed like everything he said was right, but she still admired him so much. It was really a little strange.

However, Lin Yi could feel that han Jingjing's eyes had no ill intentions towards him. She didn't have any cultivation strength, so she didn't look like a spy for an enemy.

First of all, if she had the strength, she wouldn't be able to hide from Lin Yi's cheat. Second, she couldn't have practiced the arts of an Alchemist. It seemed like every practitioner could only focus on one art, and han Jingjing leveled up under her own eyes. There was no way she could've faked it.

Chapter 2340-Giving Up

So if she really was sent by his opponent, then Lin Yi would have to thank him. He really had to thank him for this. He knew that he didn't know how to make elixirs, so he gave him a portable furnace.

Lin Yi saw that han Jingjing's expression didn't change at all, so he stopped pretending and pressed his hand on her Qi Sea Point, continuing to circulate the second stage of the art of Dragon mastery. However, the result this time disappointed Lin Yi-han Jingjing still couldn't absorb Lin Yi's Qi!

In other words, Lin Yi's hypothesis was a complete failure.

"What's wrong, Lin Yi bro? did you fail again?" Han Jing Jing quickly asked after seeing Lin Yi's disappointed face.

"En, I failed again." "It seems like this hypothesis isn't going to work. We'll have to give up on it." Lin Yi nodded.

"It's okay, Jingjing is already very grateful that Lin Yi bro did this for her. There's always a next time, and it's not like Jingjing can succeed on her first try," Han Jingjing explained to Lin Yi, not disappointed at all.

"Hehe, it seems that it's impossible for me to use my true Qi to assist you in alchemy." Lin Yi shook his head, "I can only think of a way to get you stronger. You're an Earth Class now, and that's probably the limit of a second level refiner. Even if you can use a third level fire, you can't make a third level pill."

"Lin Yi bro, you don't have to worry-Jingjing is already very grateful that you're willing to sacrifice yourself for her!" Han Jingjing consoled.

"Sacrifice myself?" After hearing han Jingjing's words, Lin Yi's mind suddenly lit up as if he thought of something! That's right, sacrifice himself-Lin Yi was very familiar with this phrase, as if he'd heard it before, and ... It seemed very important ... Right!

Lin Yi suddenly remembered what he thought of-back when he was hiding house han, he saw an ancient supplementary support technique in the hidden Pavilion. According to old man Han's introduction, it could replenish energy and Qi for people around him, but at the cost of using his own strength and Qi. It was a technique that sacrificed himself for someone else's benefit!

At that time, Lin Yi felt that this skill should be useful, and the side effects weren't as bad when he used it on himself. Whether he used up his Qi or dropped a level, he could always use the energy in the Jade space to replenish it in the shortest time. This was completely different from others, and he had a unique advantage!

But Lin Yi's mind was all on the Hidden House Summit, and he didn't think too much about it even though he copied it. He didn't have time to study it after he went to Wulong haote mountain with Jingyi.

Now that he thought about it, this martial technique was simply tailor-made for him and han Jingjing! After cultivating this martial skill, he could use it to help his own people recover their physical strength

and true Qi. However, he did not know under what condition would his own people be able to accept this martial skill.

Did he also have to use the mental cultivation technique incantation when he was cultivating, or was it acceptable in his normal state, or in his state of battle? Was it an active or passive move?

At that thought, Lin Yi didn't want to stay any longer. He had to go back and take a closer look at the supplementary skill that he copied from the Hidden House han, to see if han Jingjing could use it!

"Jing Jing, you're really my little lucky Star. You've really woken me up from my dream and reminded me of something!" Lin Yi was so happy that he almost hugged Jingjing and kissed her. He put down his hand, "I have a martial technique that can probably solve this situation. I'm going to go back and study it. Don't refine pills for the next two days. We'll continue after I'm done with my research!"

"Sure, but Jingjing didn't do anything! It was Lin Yi bro who thought of it!" Han Jingjing never took credit for herself.

"Haha, Jing Jing, you've really helped me a lot." "I was so excited I almost couldn't help but hug you and kiss you!" Lin Yi smiled.

"Is that so? Did Jing Jing help?" Han Jingjing did not say anything on the surface, but there was a faint trace of disappointment in her eyes ...

"Alright, I'll go back first. You should rest early too!" Lin Yi said to han Jingjing. His mind was focused on the martial skill book when he went back, so he didn't notice the change in han Jingjing's eyes.

"Yes, yes. Then Jingjing will sleep for a few days. It's been a long time since I slept in. Jingjing, sleep earlier today." Han Jing Jing said with a yawn. It seemed that she had been very tired recently. She had been studying how to refine a second grade pill every day and had wasted her energy to the limit.

"Have a good rest." Lin Yi nodded and said goodbye to Han Jingjing before quickly returning to his villa.

Lin Yi still couldn't wrap his head around what was going on even after they left the villa. The timing of her appearance and the way she helped him was way too weird. He hoped that it wasn't something bad.

After all, humans were not plants. How could they be heartless? Lin Yi had started to like this smart but heartless girl after spending time with her for a while.

When Lin Yi got back to the villa, Chentian, Gonggao, Zhishan, Zhihai, and Elder Pi were all chatting in the living room, but the Miss and Shu weren't there.

"Mr. Lin (boss), you're back!" These people all stood up to talk to Lin Yi when they saw him, including the Sky Class elder. He didn't act like a junior in front of Lin Yi, but he acted like the head of a subordinate family.

"Everyone, you don't have to be so polite in the future!" Lin Yi smiled bitterly, "Wu Chengtian, you weren't like this before, why are you doing all these things now that there's so many people?"

"Hehe ... Don't I think it's more formal when there are many people?" Chentian scratched his head and turned to Grandpa Pi, ""Elder Pi, the boss is very kind, there's no need to be so polite. What he cares about is whether we're sincere in working for him, not these formalities."

"Where's Yaoyao and Shu?" Lin Yi asked casually.

"The young miss and the others went upstairs." "We're all men downstairs, it's not convenient for them," Chentian said.

"If you know it's not convenient, why don't you go back to your rooms? "Occupying the living room ..."
Lin Yi didn't know whether to laugh or cry.

"Hey...Didn't I just get out of bed to get some fresh air?" "I couldn't even get out before!" Chentian smiled.
