Chapter 2551 The Reason Why I Can't Refine Pills

An ancient sect was even more so, and Lin Yi needed to get stronger as soon as possible, so he could protect himself and his family.

"Lin Yi, come with me to my office!" Boss Bai said to Lin Yi after the morning class.

"...Okay." Lin Yi quickly returned to reality from the Jade space and nodded.

Under youpan Hu's envious gaze, Lin Yi followed boss Bai out of the classroom, walking towards his office.

"This Lin Yi guy sure is lucky, he has a pretty girl's attention and boss Bai's guidance, he's so annoying!" You Panhu muttered unhappily. Lin Yi hadn't gotten any new information from boss Bai these past few days, so you Panhu didn't do anything, but he couldn't sit still anymore.

After hesitating for a while, you Panhu decided to follow. Although he was more afraid of Lin Yi and was still traumatized, he had to pay attention to the information that could raise house you's alchemy skills!

Other people might not know, but right coiling Tiger knew it all. Boss Bai's alchemy skills back then were something that even all the Masters from the sky elixir sect combined couldn't compare to. So no matter how scared he was, right coiling Tiger had to catch up with him.

Lin Yi was now an Earth Class mid phase peak, and naturally, he'd be able to tell if someone was following him. He just didn't care when he saw that it was youpan Hu-Lin Yi had been to boss Bai's office a few times, and youpan Hu had always followed him, so Lin Yi was used to it.

"Yi, how's your pill refining skills, did it improve?" Boss Bai asked while walking.

"Still the same ... I can't change the temperature and intensity of the fire ..." Lin Yi smiled bitterly, "Maybe I really don't have the talent to refine pills!"

"Could it be that your body really lacks the wood element?" Boss Bai frowned. He was grateful to Lin Yi, but he also admired Lin Yi's medical skills. He wanted Lin Yi to learn more and go further on the medical path!

How could he go further? Normal medical skills weren't that attractive to Lin Yi anymore, so refining pills was the only way he could improve his medical skills while also being helpful to his practitioner.

But Lin Yi still couldn't get used to the refinement fire, which made boss Bai feel a little regretful.

"That's not it. I'm sure that I have the wood element in my body!" Lin Yi wasn't sure if he had the wood element in his body before. After all, he couldn't be sure if it was the art of Dragon mastery that could change the elements.

But after Lin Yi trained in the thousand changes of wood and forest, he was sure of this-he had the wood element in his body.

"Oh?" Boss Bai paused and turned to Lin Yi before shaking his head. "It's not surprising that you can condense fire-type and wood-type pill fires. It doesn't mean that your body has such attributes! It's just like how an Alchemist who doesn't have a Water-type physique can also condense and catalyze a Water-type alchemy fire. This is just a change in the incantation, and it doesn't mean that the body really has this kind of alchemy fire!"

"That's not it, teacher Bai. What I mean is, I can activate wood and fire attribute martial arts techniques. " Lin Yi shook his head, thinking that his guess was right. Being able to change the refinement fire had nothing to do with one's Constitution. But he said with certainty, "So my body should have both wood and fire attributes."

"Ah ... This ..." Boss Bai's expression became even uglier after hearing that. After a while ... He said, ""Could he be the legendary trash?"

"Pfff ... Cough cough cough ..." Lin Yi didn't know whether to laugh or cry at boss Bai's words. His cultivation speed was pretty good, after all. He didn't have a master, but he wasn't any worse off than the disciples of hidden houses or even ancient sects. How could he be called a loser?

Moreover, to be able to imitate and create a battle technique ... Even if he wasn't a genius, he shouldn't be considered trash, right? Most importantly, once the art of Dragon mastery reached the great circle of the second stage, one could become an existence similar to a forger, and even more so, a rare peerless genius in the world ...

"Uh, Lil 'Yi, I didn't mean it that way ..." Boss Bai quickly explained when he saw Lin Yi's awkwardness, ""Actually, what I mean is that some people's physiques are not suitable for alchemy. For example, I once knew a person ... Hmm ... How should I put it? this person's body has many attributes, and it even surpasses the ordinary fire and wood attributes. It's not just three attributes, but more attributes. This person's multiple attributes form a situation where they counter each other ... Although I can't be sure if this is the case for you, your body should not be suitable for alchemy ..."

"Oh? Wasn't it better to have more attributes? Why can't I become an Alchemist?" Lin Yi's heart skipped a beat as he asked.

"It's actually like this, an Alchemist must have two basic attributes, fire and wood. The fire attribute is a necessary physical attribute to condense all kinds of pill fire, and the wood attribute is a kind of wood spiritual perception of the changes in the medicinal herbs in the pill furnace. If these two basic attributes have the water attribute, then it will restrain the fire attribute, and water and fire will restrain each other!" "This way," boss Bai explained, "because of the water element, the fire element will be restricted, and we can't change the temperature and intensity of the pill fire."

"Ah? Like this?" Lin Yi's eyes went wide as realization dawned on him. But at the same time, he was a little depressed. "Teacher Bai, you're right. I still have the water attribute in my body because I can also activate Water-type martial arts skills ..."

"As expected!" Boss Bai patted Lin Yi's shoulder, his heart aching as he looked at him. "Having too many attributes is both a good and bad thing, at least for alchemists! This is because none of the current incantations for the refinement fire can change this situation. In theory, if there is a new incantation, this difficulty can be overcome, but there is no such thing for now. There are too few examples like you ..."

"..." Lin Yi shrugged. Boss Bai's words were useless.

"However, if you have metal attributes in your body, you can become a forger. Forgers don't have such a thing as a counter." "I'm sure of that!" Boss Bai said.

"Oh?" Lin Yi blinked-did he have a metal element in his body? Lin Yi wasn't sure yet, since he hadn't tried any metal-type martial arts before, but he was sure that he'd be able to create the Jade space once he reached the second stage of the art of Dragon mastery.

Chapter 2552 Revealing The Secret

In that case, he was a blacksmith? He seemed to be more awesome than an Alchemist? Although Lin Yi wasn't too sure, he guessed that he should have the metal element. Otherwise, the Jade wouldn't have mentioned nothing but the completion of the second stage of the art of Dragon mastery!

In other words, cultivators who could cultivate the art of Dragon mastery must have metal, wood, and fire elements in their bodies.

"It's nothing. I have an old friend's disciple who has this kind of attribute. He can become a blacksmith, not an Alchemist." Boss Bai didn't say much, obviously not willing to talk about the past.

Lin Yi nodded and didn't ask further.

"What a pity, but this is also good. I'll help you collect some cultivation information about blacksmiths. A physique like yours is hard to come by even in a thousand years. If you really have a metal attribute physique, then becoming a blacksmith isn't just a dream. At that time, you'll be even more awesome than an Alchemist!" Boss Bai comforted him.

"Thank you, Mr. Bai!" Lin Yi was touched by boss Bai's words-they were just a normal student and teacher, and boss Bai's kindness came from the time he saved him, but now that it was time to return the favor, boss Bai was still helping him solve his problem.

"Hehe, why are you being so polite? I'm your teacher, isn't it my duty to do this?" "How is it, Yi?" boss Bai laughed, "do you have any thoughts of taking me as your master now?"

"Teacher Bai, you're already my teacher now. This is actually the same as my previous master. A teacher for a day is a father for life. I'm already your disciple. What's there to doubt?" "It's just that I'll be boss Bai's disciple from now on, so I don't want to embarrass you!" Lin Yi smiled.

"Haha, good, I'm very happy today!" Boss Bai nodded. "You know, there's a difference between the teacher-student relationship and the real master-disciple relationship. Although I'm a teacher at school, I won't allow some people to use my name after they graduate."

"I understand," Lin Yi thought, are you talking about the right coiled Tiger?

"Originally, I called you here to give you something really good. My master taught me some things in the past and I wanted to see if you could be inspired by them. But now, it seems that they are not of much use." Boss Bai let out a sigh and said dejectedly.

"Eh? It's useful, of course it's useful!" Lin Yi said quickly.

"Useful? Don't tell me you're going to use it to exchange for something with right coiling Tiger?" Boss Bai laughed. "But Yi, let me tell you, this is indeed a good item. It's a pity to give it to right Panhu, but if you really want to trade with him, I can give it to you ... But, this is something my master taught me back then ..."

When boss Bai said this, his voice suddenly became a lot louder. Previously, the two of them had been communicating in low voices, so right coiling Tiger couldn't hear clearly with his distance and hearing ability. But what boss Bai said was clearly heard by right coiling Tiger.

"This ... I ..." Lin Yi blushed. He didn't mean it that way. He just wanted to give it to Jingjing as a reference and see if he could learn something new from it. As for giving it to Yu Panhu, that would depend on the value of the information. If it was really useful and precious, Lin Yi naturally wouldn't let Yu Panhu see it.

You Panhu was standing behind the two of them not far away. He had been troubled by his poor hearing and could not hear anything clearly. Suddenly, boss Bai's words came to his ears like a bolt of lightning, making you Panhu's ears perk up!

Was it really something good? Or was it something boss Bai's master had taught him back then? Isn't this what the hidden you family needs? This time, he had heard it clearly. There would be no mistakes. Right Panhu was overjoyed. He had to get this information!

With that in mind, he slowed down his pace as well, not wanting to make Lin Yi and boss Bai suspicious. He didn't follow too closely, since he already knew that Lin Yi was going to get some super good information. All he had to do was negotiate with Lin Yi and get the information back.

"Hehe, I'm just saying. Since I've given you the information, I won't say anything if you want to exchange it for some benefits." Boss Bai said with a smile. He really did take care of Lin Yi.

"Hmm ... Can I really exchange this for right Panhu?" Lin Yi asked, uncertain.

"Actually, you can." "This is something that my master left me," boss Bai said. "The information inside isn't really that important. In any case, you can make your own decision."

"Thank you, Mr. Bai." Lin Yi said gratefully.

"Hehe, it's nothing. The most important thing is the personal notes I've completed. You'd better not give it away." "I'll give it to you next time," boss Bai said.

"That ... There's no need for that ... I can't become an Alchemist ..." Lin Yi said, sweating.

"You can 't, but can't han Jingjing?" Old Bai laughed.

"Teacher Bai, you know about it?" Lin Yi was surprised. He didn't think that boss Bai already knew about han Jingjing.

"Didn't you give her the things you exchanged with right coiling Tiger?" Boss Bai smiled. "Although I don't know what your relationship with her is, it seems that you are very close to her. If she can become an Alchemist, then my support for you will not be in vain!"

"Han Jingjing is indeed an Alchemist." Lin Yi nodded-he didn't have to hide anything anymore, since boss Bai had seen through him and was so supportive of him.

"Can she successfully refine a first grade pill now?" Boss Bai nodded and asked.

"Jing Jing can now concoct a second ranked pill with a 90% success rate." Lin Yi said.

"90%? that's a very high success rate ... What? You mean a second rank pill?" Boss Bai's eyes were wide open as he looked at Lin Yi in disbelief. "You ... You're not lying to me? Does she really have a 90% chance of refining a second ranked pill?"

"Not bad!" "Boss Bai, why Would I Lie to You?" Lin Yi nodded, a bitter smile on his face.

"Rank-2, 90%..." Boss Bai took a deep breath. "Heroes really come from youngsters ..."

In boss Bai's heart, he even felt a bit envious, jealous, and hateful ...

Chapter 2553 Asking Her To Take Him As Her Master

His own disciple only had an 80% chance of successfully refining a grade one pill and a 30% chance of successfully refining a grade two pill. This was also the result of his disciple's unparalleled talent and his careful teaching.

But this Han Jing Jing who came out of nowhere, under the guidance and help of Lin Yi, a half-baked Alchemist, had a 90% chance of successfully making a second grade pill in just a few months? What kind of concept was this?

Of course, this was the result of Lin Yi holding back. After all, it was too shocking to say that han Jingjing could make a Grade 2 pill with 100% success rate and mass produce it.

"Haha ..." Lin Yi only laughed.

"Can you make her acknowledge me as her master?" Boss Bai was a little moved.

"This ... I'm afraid ..." Lin Yi hesitated. He didn't know how to explain it. It wasn't that he didn't want han Jingjing to take him as her master, but it wasn't very useful for a scientific Alchemist like han Jingjing.

"What's wrong? You still want to keep it for yourself?" Boss Bai thought that Lin Yi didn't want to part with it, so he smiled, "I'm just helping you train a helper. I already have a closed-door disciple, so I won't fight with you over him. "

"No, it's not." Lin Yi shook his head and decided to tell the truth, "Teacher Bai, Jing Jing's situation is a bit special. She has the fire attribute in her body, but she doesn't have the wood attribute. So, your practical operation won't be of much use to her ..."

"Oh?" Boss Bai was really shocked this time. Alchemists lacked wood attributes? How was this possible? How could such a person become an Alchemist? forget about refining pills, it would be good enough if his furnace didn't explode! "How is that possible?" boss Bai cried out.

"Jingjing used a complicated method of exploration and calculation to obtain some data. This method is something only she can master herself, so you can say that she's unique. It's impossible for others to teach her, and it's not realistic for others to learn it either ..." Lin Yi didn't go into details, only giving her a general idea.

"I see ..." Boss Bai fell into deep thought. What Lin Yi said was possible in theory, but it was extremely difficult to do in reality. It wasn't realistic, but Lin Yi wouldn't lie, which meant that it was all real.

There was only one possibility, and that was that Han Jingjing was a mathematical, physics, and chemistry genius. At the very least, she had an IQ that was not lower than that of a scientist. Only then could she calculate the complicated chemical and physical changes in the pill furnace, as well as the time, temperature, and fire intensity ...

Boss Bai was once a successful Alchemist, and he understood the theory as soon as Lin Yi said it. It was just that this seemed a little unbelievable to him. It was not impossible, but the difficulty was too high!

"It seems that I really can't accept this disciple!" Boss Bai shook his head and said with a bitter smile, "This method of pill refining is theoretically possible, but ... In reality, this is the first time I've heard of it."

"I was also shocked beyond words." Lin Yi said with a smile.

"But Yi, this ends with me, don't tell anyone else." Boss Bai's face suddenly became serious again. "Especially not the Hidden House of you and the sky elixir sect! Otherwise, it might bring Han Jingjing an unexpected disaster! At least, before you have the right to look down on all the ancient sects, you can't tell anyone about this. "

"Teacher Bai, I understand. I'm only telling you this." Lin Yi knew what was at stake, and nodded. "I feel that I shouldn't hide it from you since you're treating me this way. But to others, hehe ..."

"Yes, I'm overthinking it. You, kid, are smarter than a little fox. You played you Panhu in circles and took out all the good things hidden in the you family to exchange with you!" Boss Bai said with a smile.

"That's right, so I'm going to take this information and Exchange it with you Panhu for some third-grade pill refining materials. " Lin Yi said.

"Sure." This time, boss Bai nodded firmly. "This information is useless. I can only support you with this. I don't have the materials for refining a third grade pill, but I can find some for you for a second grade pill ..."

"Oh? Teacher Bai, do you have the ingredients to refine a second rank pill?" Lin Yi suddenly felt like he'd been searching high and low for something he'd never seen before-why didn't he think that boss Bai would have the ingredients for a second class pill?

If he'd known earlier, he would've gotten some materials from boss Bai instead of wasting energy on right-hand Tiger.

"I do ... But you know how expensive these materials are. It's not that I'm stingy, it's just that I'm not rich. I have an apprentice at home, so I had to save them ..." Boss Bai looked at Lin Yi apologetically.

"These materials can be bought?" Lin Yi blinked.

"Naturally, you can buy it." Boss Bai nodded. "The sky elixir sect has these common materials for sale. I've planted some myself, but there aren't many. Besides, teaching disciples is a waste of materials ..."

"Hmm, how about I buy it from you?" Lin Yi asked. The practitioner's trade association hadn't given Lin Yi any concrete news yet, so Lin Yi and Han Jingjing had basically stopped working these days without any materials to make elixirs.

"Yes, but not for now. We'll have to wait until the next cultivator's trading Convention, and only then will the sky elixir sect sell the herbs." Boss Bai said.

"Cultivators' trading Convention?" Lin Yi remembered something when he heard the familiar name. "Could it be organized by the cultivators trade association?"

"That's right. It's organized by the cultivators trade association. " Boss Bai nodded, "the cultivator trade association also sells these herbs. However, the quality of the herbs here is better and the price is higher. Therefore, the herbs from the sky elixir sect are more popular."

"The other families don't have alchemists, so why would they buy these materials?" Lin Yi found it strange-it would be understandable if Boss Bai bought the sky elixir sect's materials and not the practitioner's exchange Association 's-he was giving them to his disciple to practice, and it didn't matter if they were good or bad. The quality of the pills he made wasn't that different from normal quality, either, but why would other people buy these materials?

"Hehe, these materials are not only used for alchemy. They can also be used to concoct medicine!" "Ah, Yi, you're really a lost cause for those involved-even if these ingredients aren't made into pills, they're mixed together and made into normal medicine, and most of them will have the same effect, just that the effect will be weakened a lot, just like miracle doctor Kang's golden creation on the market. Think about it, how similar are the ingredients in it to the small reversion pill?" Boss Bai said. There are at least seven or eight ingredients in it that are made up of the small reversion pill, right?"

Chapter 2554 Exchanging For Qi Gathering Pills

"Oh?" Lin Yi blinked and nodded. "Now that you've said it, it seems to be true!"

Plus, even the bone cleansing pill could be turned into a life-prolonging pill after the ingredients were simplified. Miracle doctor Guan's injury medicine, on the other hand, couldn't be compared. The effects were similar, but Lin Yi had completely changed it.

"That's why they say that good things never have to worry about selling. Plus, most of the people who come to this kind of trade fair are people from the ancient world. In ancient sects and ancient families, it's not surprising to have a second level Alchemist. They also need to buy a lot of materials to practice their skills." Boss Bai explained.

"So that's how it is. Why don't you just say that it's an ancient level trade fair?" Lin Yi smiled bitterly-this was easy to understand, after all, there were still refiners in the Ice Palace!

"Hehe, I thought you weren't familiar with the ancient times ..." Boss Bai laughed.

The two of them walked side by side into boss Bai's office, and the same way as before. Boss Bai handed Lin Yi a stack of documents, not saying anything else.

"Thank you, Mr. Bai. I'll take my leave now." Lin Yi nodded in agreement, but he was hesitating-should he return the favor and show boss Bai the personal notes he got from Liju's tomb?

After all, boss Bai was Zhang Liju's student, and it wasn't against the rules for Lin Yi to show him his personal notes. In other words, Lin Yi was just showing boss Bai what belonged to him.

"Alright, you can go." Boss Bai nodded and said, ""Bring Jingjing to my house when you're free. If there's any problem, you can ask her to look for me."

"Alright," he said. Lin Yi knew that boss Bai had accepted han Jingjing as his student.

Lin Yi saw you Panhu as he walked out of boss Bai's office. He was standing at the end of the corridor, pretending to be reading the newspaper. He smiled and greeted Lin Yi when he saw him. "Ha, isn't this Lin Yi? What, did teacher Bai give you something good again?"

"Yes, but I don't want to exchange with you." "Alright, move," Lin Yi said directly.

"Gah?" Yu Panhu didn't expect Lin Yi to be so direct this time, unlike the previous two times. But this time, he heard boss Bai's words and was very confident in Lin Yi's information. He also saw that Lin Yi didn't play hard to get this time, but directly and decisively admitted that it was good material and refused to trade, which proved his point.

"Wait a moment!" Youpan Hu quickly stopped Lin Yi, "Alright, Lin Yi, since you're so direct, I won't beat around the bush. I know that you're holding boss Bai's master's personal notes, right?"

"So what if I am?" Lin Yi said coldly, "I don't want to give it to you this time. I admit that I was trying to trick you the last two times, but this time, I don't want to trade with you at all. So give up and stop talking."

"Don't ..." You Panhu said, "Lin Yi, don't be so absolute. Everything has its value. You rejected me because you don't think I can offer you a price that will move you, but I can tell you that I can!"

"You can?" Lin Yi shook his head, "I don't think you can do it, and I don't want to trade with you. If you don't want to get beaten up, then get out of the way. I don't want to fight with Mr. Bai here."

"This ..." Youpan Hu didn't expect Lin Yi to be so stubborn. It seemed like Lin Yi was determined not to talk to him anymore. He started to panic! This was a really good item, and he didn't want to miss it. He'd already made two mistakes, and he knew that Lin Yi had something good this time, but Lin Yi didn't want to trade with him.

"I still have to go eat." Lin Yi walked around the right coiled Tiger and strode forward.

"Lin Yi, just tell me what you need. Isn't a deal about bargaining?" "Tell me what you're looking forward to," said you Panhu. "You have to at least give me a chance, right?"

"Oh, that's fine. I want Chi-amassing pills. Do you have any?" Lin Yi asked.

"Chi ... Chi-amassing pill?" The right Panhu was stunned and his face turned black. Where did he have this thing? The Qi gathering pill was a third grade pill. Not only were the ingredients required to make it rare, but it was also extremely difficult to make. Even if the sky elixir sect could make it, they wouldn't do it for no reason!

On one hand, a third grade pill was not something that could be concocted at any time. Even the old ancestor of the sky elixir sect had to think twice before concocting a third grade pill, and whether it was worth concocting or not. Because, no matter if it was successful or not, concocting a third grade pill

would require a lot of physical and Zhen Qi, and it would take almost half a year or even a year to recover. During this time, he could not concoct any other pills.

And so, even if a third rank elixir could sell for a lot of money, the sky elixir sect's elder wouldn't make it unless it was absolutely necessary. For example, the fire sun pill that he made for Kang Zhaoming was an example. He had no other choice.

As for the rank 3 pills that were given to the winners as rewards, some of them were accumulated by the sky elixir sect over the generations, some were given from other places, and some were found in ancient ruins. Very few of them were made by the sky elixir sect's old ancestors.

This was also the reason why rock Candy wanted to refine a third-grade medicinal pill, but had begged for it to succeed.

"Lin Yi, aren't you just making things difficult for him? I know it's impossible, even the sky elixir sect doesn't have one, let alone my family!" Yu Panhu smiled bitterly as he chased after Lin Yi.

"It's fine if you don't-I don't need anything right now, except for a Qi gathering pill to break into Sky Class!" "If you do, I'll consider it. If you don't, then never mind," Lin Yi said.

"No, let's talk about other things, okay?" Youpan Hu's heart froze when he heard that Lin Yi was about to break through to Sky Class-he cursed under his breath. You're only earth Class mid phase peak now, and you're already able to kill Sky Class early phase and Sky Class early phase peak in seconds-what's the point of you breaking through to Sky Class? Is he invincible under the heavenly Dao?

But that was just a thought-what he wanted the most right now was the material in Lin Yi's hands. He had to get it no matter what.

"I'll kill you?" Lin Yi turned to look at him.

"Uh ..." Right Panhu's face was a little twisted. He hesitated for a moment but did not follow.

What to do? After Lin Yi left, he furrowed his brows and started thinking.

Chapter 2555 Zhaolong's Idea

However, he couldn't come up with a good idea after thinking for a long time. So, he called Goldie, purple hair, and Zhaolong. The four of them went to a restaurant's private room. Coiling Tiger wanted to find them to discuss the latest strategy. After all, there was strength in numbers!

"Young master you, I saw you leave with Lin Yi? Is everything alright?" Zhaolong asked, concerned.

"I'm fine ..." Right coiling Tiger shook his head, ""As boss Bai's student, Lin Yi only dared to threaten me, he didn't dare to do anything to me!"

Zhaolong nodded. He used to be boss Bai's student, so he naturally knew about this rule. Boss Bai's hatred and resistance towards fights between students had reached an incomprehensible level, and he couldn't tolerate any conflicts between students. Whoever broke the rules would be kicked out of the school.

"Then young master you called us here for something, right?" The yellow-haired guy asked. He didn't think that Yu Panhu would invite everyone for a meal if he had nothing to do. Both Yu Panhu and Zhaolong had been keeping a low profile these days. They rarely left the school gate after coming to school, and they usually had lunch in the school canteen.

"There is indeed something!" Youpan Hu nodded, "boss Bai gave Lin Yi some refiner's information. I wanted to exchange it with him, but Lin Yi didn't give in this time. No matter what I said, he wouldn't agree. He said that he wanted the Qi gathering pill and that he wouldn't trade without it!" Aren't you deliberately making things difficult for me?"

Young master you, are you sure that the information is good information?" The yellow-haired man knew that right coiled Tiger had suffered a few losses in the past, so he wanted to remind right coiled Tiger to be careful and not fall for it.

"I'm very sure this time!" "This time, boss Bai said it himself," youpan Hu said. "This information was given to him by his master, and Lin Yi admitted it too."

"Oh? Could it be that Lin Yi is playing hard to get?" "Didn't he play this trick a few times before?" the purple-haired guy asked.

"I thought so too, Lin Yi might be playing hard to get, but he said he wanted the Qi gathering pill from me, so I think it's probably not the case!" The right coiled Tiger shook his head and rejected this suggestion.

"I see ..." The purple-haired man hesitated for a moment and nodded, ""You're right. If he wanted to play hard to get, he wouldn't have said it so firmly ..."

"Yeah, it's really a headache. Kang bro, you're a doctor and you're very smart. Do you have any good suggestions?" Right Panhu turned to Zhaolong.

"My suggestion ..." Zhaolong pondered for a while. He was very pleased with right-hand Tiger's flattery- he was the most educated one out of all of them. "I feel that you should start with han Jingjing!"

"Oh? Han Jingjing?" You Panhu was slightly stunned after hearing this. Then, his eyes lit up as he thought of something! The cauldron and materials he gave Lin Yi before were all given to han Jingjing, which meant that han Jingjing was the ultimate beneficiary. Since Lin Yi didn't want to trade, he'd just go to han Jingjing!

He'd be able to give Jingjing whatever she needed, and he'd be sure to get it for her! One had to admit that Zhaolong's idea was a great one-it could turn things around!

"But I suggest you don't ask her directly. You can analyze and predict what han Jingjing needs the most right now. Take this and go to her side to show off. Say some instigating words. It's best if han Jingjing wants it first. That way, you'll have the initiative and it'll be easier to negotiate. Otherwise, if you ask Han Jingjing to name a price, she might just ask for an outrageous price and screw you over ..." Zhaolong reminded.

"Brother Kang is right, you're a doctor after all, you thought of a solution in such a short time!" The right coiling Tiger nodded and was overjoyed. "Alright, I'll take a leave of absence this afternoon and go back to the hidden you family. Then, I'll discuss with uncle and grandfather what han Jingjing needs the most at this stage. I'll get some to show off in front of her!"

Right Panhu made up his mind and went to boss Bai to ask for leave. He didn't dare to leave without asking for leave again. He was almost criticized the last time.

Lin Yi, on the other hand, went to find Han Jingjing with the materials boss Bai gave him. He went to boss Bai's place, and so the two girls didn't eat in the canteen. They bought three lunch boxes and went back to the classroom, waiting for Lin Yi.

"Lin Yi, I told Yaoyao and Shu that you're going to Ms. Bai's office. We've bought the food, so we won't be going to the canteen." Wang Xinyan said as she saw Lin Yi walk in.

"Okay. You two didn't eat first?" Lin Yi looked at the three lunch boxes on the table—none of them had been touched.

"No, I'm not in a hurry. I was just waiting for you." Wang Xinyan said.

"Then let's eat now." Lin Yi walked over and handed the documents to Jingjing, "Jingjing, look at these documents while you eat. They were left behind by Mr. Bai's master. See if there's anything you can learn from them."

"Alright," he said. Han Jingjing took the information and started reading.

The three of them finished their lunch, and Han Jingjing finished looking at the information as well. She shook her head at Lin Yi. "Lin Yi bro, this information is in the one you gave me, and yours is much more complete. This is only a small part, and it's incomplete. Although some places were filled in, it's obviously a lot different from the one you gave me."

"Oh? In other words, this information isn't that useful?" Lin Yi asked.

"It's not too big," Han Jingjing said honestly.

"Alright, I got it." Lin Yi nodded. "If you ask him, just say that this information is very good and very useful. If he asks what you want in exchange, don't say anything. He'll list out the conditions, and you'll either be silent or ask me."

"En, Jing Jing understands." Han Jing Jing nodded.

You Panhu hurriedly returned to the hidden you family and locked himself in a secret room with his uncle you zhentian and old master you. He held a family meeting with the hidden you family.

"Coiling Tiger, you're saying that the information boss Bai gave Lin Yi this time was indeed from his master?" You zhentian asked.

"That's right, uncle, it's definitely true this time-boss Bai said it himself, I heard it clearly, and Lin Yi admitted it too!" With that, he told his uncle and Grandpa about Lin Yi's refusal.

Chapter 2556 Yu Xiaoke's New Trouble

"Hmm ... According to what you said, that might really be something good!" "What do you think, father?" you zhentian nodded and asked.

"Well, if Lin Yi's willing to trade, we can let coiling Tiger take a look and take a picture of the first page and send it back to the family. I'll check it myself and see if it's important or not!" Old master you said, "if it's very important, then we must get it at all costs. It doesn't matter how much we have to pay!" If it's dispensable, then we'll just give him something. If Lin Yi wants it, then we'll trade. If it's not worth it, then forget it. "

"Sure, but Lin Yi ... Can I see him?" You Panhu asked hesitantly.

"This ... Will depend on your ability!" Old master you said, "coiling Tiger, this is also an experience for you. If you do well, I'm prepared to support you to become the first elder of the family. If you can't even do this little thing well, how can you become the great elder?"

"Ah ..." You Panhu was shocked and looked at his grandfather in shock. He didn't expect that his grandfather would actually support him to become the family's great elder. That was an existence second only to the family head. Although he didn't care much about the family affairs and focused on alchemy, even the family head had to be respectful!

At present, the great elder of the hidden you family was his grandfather's younger brother, who was also you Panhu's second grandfather. He was a second-grade Alchemist, and even his grandfather had to be polite when he saw him. His uncle even bowed and knelt, so you Panhu didn't even get to see him ...

You zhentian's expression also changed slightly. His second grandfather had no marriage in his life, so he naturally had no children. Therefore, the position of great elder was destined to be chosen from his grandfather's line. You zhentian was the heir to the family head, and his son was also trained as the family head of the you family. The position of great elder was also very important, but you zhentian didn't expect his father to train you Panhu as the heir ...

At first, you zhentian thought that it would be good enough for you Panhu to become an ordinary elder. He didn't expect him to be the clan's great elder ...

However, if you Panhu really did get something that would benefit house you, then it would be expected for him to become the first elder's successor. Especially since he was on good terms with Zhaolong, if Zhaoming became an elder of the sky elixir sect, then you Panhu wouldn't just be the first elder, he might even become the young master ...

Thinking of this, you zhentian decided to let you Panhu sit firmly in the position of the great elder and not covet the position of the young master. Therefore, he quickly nodded and said, ""Yes, coiling Tiger, you have to cherish this opportunity. If you can become the great elder, you can better assist your brother, you Panlong, in the future. You two brothers will lead the you family to glory ..."

"I will work hard!" Right now, you Panhu didn't have any thoughts of replacing him. The position of great elder had already made him very excited. He wasn't an ambitious person yet. "Grandpa, what do you think about me taking a grade two medicinal cauldron? If Han Jing Jing were to study pill refining, this grade two medicinal cauldron would be a consumable item and would be easily damaged. "

"That's fine. If you're not a skilled Alchemist, it's easy to break a medicinal cauldron. You can also take a second grade medicinal cauldron. However, I'm afraid that a single second grade medicinal cauldron won't be too attractive, right?" Old master you said.

"Well ... But we don't have extra grade three medicinal cauldrons at home. We only have grade two medicinal cauldrons at the moment ..." You Panhu said.

"It's true that we don't have any Tier 3 cauldrons, but we do have some of the materials. See if you can trick Lin Yi and Han Jing Jing into giving them some of the materials so that they can make their own Tier 3 cauldrons?" Old master you asked after thinking for a while.

"That's fine ..." Right Panhu pinched his chin and nodded. He had tricked Lin Yi before and traded a cracked cauldron for a treasure. He didn't know if Lin Yi would fall for it this time.

"In order to act as if it's real, you can give him some refining materials for a grade three pill. This way, he won't suspect that a grade three medicinal cauldron can never be forged ..." You zhentian reminded.

"You're right, I'll give it a try then. I'll get all these things and give them to Lin Yi and han Jingjing one by one-we'll see if they'll be tempted!" You Pan Hu nodded and said.

Lin Yi was in school when he received a call from the orphanage, but it wasn't from Yu Xiaoke. It was Xiao Ken.

"Lin Yi bro, Xiaoke sis is in some trouble." Ken said.

"Oh? Trouble? What kind of trouble?" Lin Yi's heart tightened as he asked.

"It's not a big problem. It's just that Xiaoke sis can't exchange the Switzerland Francs you gave her," Ken said. "Xiaoke sis has been running around for the past few days, but she couldn't find the right channel. The black market's processing fee is too high, and it's making her so angry!"

"It's about this!" Lin Yi slapped his head in realization. He gave the whole pile of Switzerland Francs to Yu Xiaoke, but he forgot about one problem. If Yu Xiaoke exchanged these Swiss francs through proper

channels, it would be troublesome. Her money was too huge, and she couldn't tell where the money came from,"She didn't go to fatty Lai?"

"No, President Lai's company said they're going to discuss a big business deal, so he's overseas." Ken said.

"Fatty Lai went abroad?" Lin Yi blinked. He hadn't been involved in the company's business for a long time, and he didn't know how it was going. But from what Ken said, it seemed like the company was doing well, and they even expanded their business abroad,"In that case, I'll go there personally later."

Lin Yi had wanted Xiaoke to ask pengzhan for help-other people might not be able to do foreign currency exchange, but pengzhan was a local business giant, and he had a good relationship with the bank.

But he remembered that Xiaoke and pengzhan weren't close, and he wanted to go visit Ziyu and Chen Xi. It'd been a long time since he'd seen them, and he wondered how they were doing. From the fact that Ziyu didn't come looking for him when she was in trouble, Lin Yi felt like he didn't really care about the girls anymore. He decided to go check it out himself.

"Okay, that's fine." Ken was very happy to hear that Lin Yi was coming. He was relieved after knowing that Lin Yi was a male thief. He knew that Xiaoke sis would be happy for the rest of her life. But for some reason, Lin Yi didn't want to reveal his identity, so he couldn't do anything about it.

Chapter 2557 Grade Three Medicinal Cauldron

Lin Yi asked for leave from boss Bai in the afternoon and drove to Songshan. Right then, you Panhu came back to school from the Hidden House with some good stuff! His car brushed past Lin Yi 's, but the Tiger wasn't good at observing and didn't notice it at all. Lin Yi, on the other hand, saw the Tiger inside the sports car.

What was this guy doing? Lin Yi wondered if she'd come to give him and Jingjing something good.

Lin Yi was the one who understood the right coiled Tiger the most! Yu Panhu returned to class and looked at Lin Yi's seat, but he didn't catch anything!

"Where's Lin Yi?" You Panhu was stunned and asked.

"Young master you, I heard that he had something to do in the afternoon, so he took a leave of absence." Purple hair didn't go back with right coiling Tiger. He had been staying at school.

"He took leave? F * ck!" Youpan Hu felt like he had punched cotton-he was just about to show off all the stuff he had brought over, but Lin Yi just left!

But he thought about it-Lin Yi leaving wasn't a big deal. He wanted to show off to han Jingjing anyway, and it would be easier without Lin Yi around. Han Jingjing shouldn't be as cunning as Lin Yi, so it should be easier to trick her, right?

Thinking of this, you Panhu took out the grade two medicinal cauldron from his bag and walked towards han Jingjing. He sat down beside her.

Han Jingjing was currently studying the personal notes Lin Yi gave her from boss Bai's master. Although most of the content appeared in the alchemy notes Lin Yi brought back from the tomb, han Jingjing didn't have anything else to do right now, so she started reading from the beginning.

Seeing you Panhu walk over, Han Jing Jing quickly put away the alchemist's personal notes. Then, she picked up a medical book from the school and started to read.

You Panhu rolled his eyes. He didn't expect han Jingjing to be so alert. She kept the information as soon as he walked over, making you Panhu angry and helpless.

"Han Jingjing, you're so hardworking. You've been studying during your lunch break?" You Pan Hu asked as he turned the medicinal cauldron in his hand.

"Yes, Jingjing, study hard and help Lin Yi bro in the future." Han Jingjing replied without raising her head.

"Pfff ... F * ck ..." Right Panhu felt very wronged after hearing han Jingjing's words. What was so good about Lin Yi? Why were these girls so loyal to him?

"What's wrong with you?" Han Jing Jing raised her head and looked strangely at the red-faced right coiling Tiger.

"I'm fine ..." Right coiling Tiger laughed dryly, ""Jing Jing, what were you looking at before? Can I take a look?"

"No," Han Jingjing rejected decisively.

"This ... Don't. Didn't Mr. Bai always say that students should help each other? I want to see the information in your hands. You should let me see it, right?" Right Panhu said in boss Bai's name.

"Helping each other isn't forcing people to do things against their will. If I ask you to strip in the classroom, will you agree?" A sharp glint flashed across Han Jing Jing's eyes as she spoke.

"Ah ... Uh ..." Right Panhu was speechless.

"If you want me to help you with anything related to your studies, I can naturally help you. For example, I can lend you a textbook to take a look." Han Jing Jing said.

"This ... Then forget it, I have one too." Right Panhu was a little puzzled. This Han Jingjing usually looked silly, but why did her brain turn so fast? She didn't look easy to trick-this girl was probably just trying to act cute in front of Lin Yi, similar to Yushu. It seemed like it'd be hard to trick her.

"Oh." Han Jingjing nodded and ignored him. She continued to read the textbook in front of her.

You Panhu was a little depressed. In order to attract Han Jingjing's attention, he began to play with the grade two medicinal cauldron in his hand. Three circles to the left, three circles to the right ... This was an easy task for an Alchemist at your Panhu's level. It was even easier than performing acrobatics in a circus.

"Whoosh! Whoosh! Whoosh! Whoosh!"

The grade two medicinal cauldron spun rapidly in right coiling Tiger's hand, creating all sorts of difficult patterns.

However, after a long time of playing, the gazes of all the students in the class were attracted to him. Most of them were envious and shocked. They didn't expect that right Panhu would actually play so well ... Cauldron! Only han Jingjing continued to ignore it and quietly read the textbook in front of her.

You Panhu wanted to attract han Jingjing's attention, but han Jingjing did not even look at him. Even if the others were shocked to death, it had nothing to do with you Panhu. You Panhu was helpless and could only put the medicinal cauldron on the desk. He coughed twice and said to han Jingjing, ""Jing Jing, did you use the grade two medicinal cauldron I exchanged for you last time?"

"Oh, I used it. It's pretty good. Thank you." Han Jingjing replied indifferently.

"Uh ... Ha, this grade two medicinal cauldron, for a beginner, is very easy to break. When practicing, if you can't control the temperature and fire, it might explode as you refine!" "Your medicinal cauldron isn't broken, right?" right Panhu asked.

"It's not broken, it's quite sturdy. " Han Jing Jing said without raising her head.

"Oh ... Then it's not broken. Actually, you should also prepare another medicinal cauldron just in case. If it explodes, you can also have a substitute." You Panhu said.

"You mean you're going to give me another one?" Han Jing Jing finally raised her head and asked as she looked at the grade two medicinal cauldron that right coiling Tiger had placed on the table.

"This ... Of course I can't give it to you for free, but we can exchange." You Panhu was overjoyed to see that Han Jing Jing had finally been lured into the main topic.

"Oh, then forget it. Mine isn't broken yet, so I won't change it." Han Jingjing lowered her head again, making right Panhu want to cry but no tears came out. He didn't have any temper.

"This ... Actually, you don't have to pay anything. Why don't you give me a copy of the information you just read? this grade two medicinal cauldron will belong to you. How about it?" You Panhu raised the grade two medicinal cauldron in his hand and tempted,""This is a second grade medicinal cauldron!"

"I'm not giving you a copy. " Han Jingjing said directly.

"..." Right Panhu realized that what he had just said was in vain. His rich expression was also in vain. Han Jingjing did not have any intention of coveting this grade two medicinal cauldron at all! "How about this?" right Panhu asked after some thought. "Tell me what you need. What do you want?"

"What do you want?" Han Jing Jing thought for a moment and said, "I already have a grade two medicinal cauldron. You don't have much use for it. It's just a backup. If you have a grade three medicinal cauldron, you can give it to me."

Chapter 2558 Ask Lin Yi

A grade three medicinal cauldron ... Right coiling Tiger thought to himself, as expected, it's here! Can you even refine a third-grade pill? you want a third-grade medicinal cauldron? However, he could only think about it in his heart and naturally could not say it out loud. If he said it out loud, wouldn't he be looking down on han Jingjing? At that time, han Jingjing would definitely not trade with him.""You also

know that a third-grade medicinal cauldron is very precious. Our hidden you family doesn't have many in stock. Moreover, we don't have any now. The next batch hasn't been forged yet, so ..."

"Then we'll talk after you're done forging." Han Jing Jing wasn't an idiot-she'd learned the difference between first, second, and third grade cauldrons from Lin Yi's information. As long as a third grade refiner was able to make first and second grade cauldrons, they could be done with a refinement fire. There was no forging process.

However, grade three medicinal cauldrons were different. Only a weapon forger could cast them, and in this era, weapon forgers had disappeared without a trace. Therefore, in theory, it was impossible to cast grade three medicinal cauldrons. The existing grade three medicinal cauldrons were all passed down from the past.

In fact, it was possible for a grade one or two medicinal cauldron to be easily damaged. After all, it was the work of an Alchemist. There was no forging process, so it was reasonable for it to be unstable. However, a grade three medicinal cauldron was basically undamaged. As long as it was not used to refine any heaven-defying medicinal pills, it would not be damaged if it was used to refine a grade three medicinal cauldron to refine a grade four medicinal pill.

As for what you Panhu said about the next batch not being done, it was complete nonsense! However, Han Jing Jing didn't expose him. She didn't want right coiling Tiger to see how much she knew about alchemy.

"That ... That will take a long time!" "How about this? I don't have a third grade cauldron here, but I do have some materials for it. How about I give you some materials and you let Lin Yi forge it?" you Panhu quickly said.

Han Jing nodded and said, ""Free?"

"Of course not, I just need a copy of the materials Lin Yi gave you." You Panhu said.

"No, I don't want it." Han Jing Jing said firmly.

"..." Right Panhu was about to cry. He had wasted so much time and effort. In the end, Han Jing Jing's words had brought everything back to the starting point. "Then how can I get a copy? Just say it!"

"What other good things do you have? just tell me." Han Jing Jing returned this topic to right coiling Tiger.

"...This ..." Right Panhu hesitated and said, "Alright, I'll tell you the truth. I can give you a second grade cauldron, a third grade cauldron's forging materials, and some third grade medicinal pill materials. Are these enough?"

"That's all?" Han Jing Jing asked.

"Yeah, isn't this enough?" You Panhu revealed all his trump cards at once and was a little discouraged.

"I don't know, I'll ask Lin Yi bro for you when he comes back." Han Jing Jing said.

"What? You still have to ask Lin Yi?" Youpan Hu was Thunderstruck when he heard han Jingjing's words- he was so tired that he was burnt on the outside and tender on the inside. He thought he could trick han Jingjing, but she still had to ask Lin Yi in the end!

"Yeah, it's Lin Yi bro 's-if you want to make a copy, you'll have to ask him." Han Jingjing said matter-of-factly.

"Isn't the information in your hands now? If you secretly make a copy for me, you'll be able to get all these good things. Think about it, it's such a good deal. If I were you, I'd agree. " Yu Pan Hu didn't want Han Jing Jing to ask Lin Yi again and wanted to avoid Lin Yi. If she asked Lin Yi and he said he wanted the Qi gathering pill, where would Yu Pan Hu find it?

"That won't do. Jing Jing wouldn't lie." Han Jing Jing shook her head.

You're so stubborn! You Panhu cursed in his heart, but he did not dare to say anything on the surface. He only said, ""Alright then, when Lin Yi comes back, you can ask him if these things are good!"

He'd wanted to get straight to the point and knock han Jingjing out with all the benefits, settling things when Lin Yi wasn't around, but it seemed like he'd been too idealistic. Han Jingjing didn't want to do underground business behind Lin Yi's back.

Jingjing smiled as he left-she'd found out all of his cards, and Lin Yi just needed to add more chips to them after he returned, saving them the trouble of negotiating.

Lin Yi drove to Songshan's orphanage, and found that it wasn't the same as it used to be. Bright buildings were built one after another, and the orphans were living in clean and spacious dorms. There were more orphans of the right age who could go to school, but there was trouble!

Because of the expansion of the orphanage, the good environment attracted more abandoned babies, and many hospitals that didn't know how to deal with abandoned babies were sent to Yu Xiaoke's orphanage! Of course, if these abandoned babies were healthy, it would be easy to handle. The key problem was that most of these abandoned babies had congenital diseases. Their living expenses were needless to say, but the treatment fee was an astronomical figure!

With Yu Xiaoke's personality, there was no reason for her to reject the arrival of the orphans. All these situations made Yu Xiaoke, who had just caught her breath, carry a heavy burden on her back again! Otherwise, with her previous savings and fatty Lai's sponsorship, she could have given the orphans a good life. But now, it was impossible. There were more and more orphans, and she needed to hire more and more employees!

These people were different from the volunteers in the orphanage-they had to feed their families, and they couldn't just work for free. Xiaoke had to pay a huge amount of money, and it was almost the end of the month, and fatty Lai was going overseas for business. Xiaoke was worried about how she could cash in the Switzerland Francs!

You can't pay the employees in Switzerland Francs, right?

"Xiaoke sis, someone's here to help you solve your problem!" Ken saw Lin Yi's car and happily went to inform Yu Xiaoke.

"Someone is helping me? Who is it?" Yu Xiaoke looked at the excited Xiao Ken and paused.

"Lin Yi bro's here, he'll definitely help you solve this problem!" Ken said.

"Lin Yi? What is he doing here?" Yu Xiaoke's face changed! "Ken, did you tell Lin Yi about me?" she frowned at Ken.

"I ... I didn't, I don't know how he found out ..." Ken was shocked and quickly denied it. He didn't dare to tell the truth, and he couldn't tell Lin Yi that the male thief was Lin Yi.

Chapter 2559 Depressing Worry

"Then how did he get here?" Yu Xiaoke's face became even more unsightly. She brought back a big box Switzerland Francs from the practitioner market, and only Ken and the Dean knew about it. The other staff of the orphanage didn't know about it, so how did Lin Yi know?

Lin Yi had a lot of information channels, but why would he pay attention to her? Could it be ...

Yu Xiaoke had once suspected that Lin Yi was interested in her, but Lin Yi denied this guess, which made Yu Xiaoke feel more at ease. But no matter what, Yu Xiaoke still felt uneasy. After all, Lin Yi didn't have much interaction with her, and Lin Yi didn't seem like a busybody. Why would he help her?

What reason could he have to help the orphanage? Moreover, he spared no effort in doing so? He had put in a lot of effort and money. He must have invested a lot of money into his pharmaceutical company. And he didn't even ask for anything in return. What was it for?

Yu Xiaoke couldn't think of any other reason for Lin Yi to do this. What was the value of this orphanage? There were too many people doing good, and even if Lin Yi was doing good, there was no need to do this, right? Lin Yi wasn't doing a good deed anymore-he was giving it his all.

Lin Yi's sudden appearance made her even more worried. If Lin Yi didn't pay attention to her, how did he know she needed Switzerland Francs? It seemed like Lin Yi had been paying attention to her!

Unless Lin Yi had people following her and knew that she'd been going to the banks and the foreign exchange black market to find out how to exchange for foreign currency.

But since Lin Yi was here, she didn't have any reason to reject him. Lin Yi was here to help her anyway, and no matter what his purpose was, if Lin Yi could really help her exchange the money, it would solve a big problem for her.

"I don't know. Xiaoke sis, why do you look so pale?" Ken smiled bitterly in his heart. If you knew that Lin Yi bro was the male thief, you would've run out of here already, right?

However, Ken couldn't get involved in this kind of thing.

"It's fine. Let's go and take a look." Yu Xiaoke sighed and left the room with Xiao Ken.

When she came to the guest room, Yu Xiaoke saw Lin Yi sitting on the sofa drinking tea and chatting with the Dean. The Dean smiled and nodded from time to time. It seemed like she had a good impression of Lin Yi.

"Lin Yi, you're here ..." Yu Xiaoke's attitude wasn't cold, but it wasn't friendly either.

"Xiaoke, isn't it troublesome to exchange those foreign currency? I'll help you exchange it. " Lin Yi got straight to the point-he had to go to the school to visit Ziyu and Chen Xi after coming here, so he didn't have much time.

"Yeah, how did you know I had foreign currency to exchange?" Yu Xiaoke asked casually.

"I ..." Lin Yi was about to say that Ken told him, but he saw Ken standing behind Yu Xiaoke and giving Lin Yi a look. Lin Yi paused and could only smile bitterly, ""I ... I heard it from someone else."

"The others?" Xiaoke frowned, thinking that if you didn't pay attention to me, how would you know that I had money to exchange?

"Alright, let's not talk about this. I'll make a call first!" Lin Yi didn't want to sell Ken out and changed the topic. He took out his phone and dialed Chu pengzhan's number.

Lin Yi's actions, on the other hand, seemed to be a sign of guilt. He was avoiding the question, so he must have been paying attention to her but not admitting it! Yu Xiaoke felt helpless-what should she do? What if Lin Yi stopped funding the orphanage if she rejected him? What if he even asked her for back the investment he had put in before?

Yu Xiaoke was caught in a dilemma. She knew that Lin Yi might have thoughts about her, but she couldn't turn back now! If she fell out with Lin Yi, it wouldn't just be her problem-it'd affect all the kids in the orphanage!

Could it be that all the children would end up on the streets? Yu Xiaoke was scared just thinking about it ...

And so, she had no choice but to nod dejectedly, ""Okay, thank you ..."

Lin Yi didn't notice the change in Xiaoke's expression. He thought that she was worried because she couldn't exchange the money. He didn't think too much about it and said to pengzhan, "Uncle Chu, do you have time now?"

"Now? Yes, what's the matter, Yi?" Pengzhan asked.

"Well, my friend has a sum of Switzerland Francs and would like to exchange them, but the amount is a little large. Do you have any way to do that?" Lin Yi asked.

"That's easy, just get your friend to come find me, but I'm in Songshan right now, can your friend come over?" Pengzhan asked.

"Uncle Chu, I'm in Songshan, in the orphanage, you see ..." Lin Yi said.

"Alright, how about this, I'll get uncle Fu to look for you, he'll take you guys to exchange." Pengzhan said.

"Alright, sorry to trouble you, uncle Chu." Lin Yi hung up and turned to Xiaoke, "Alright, an elder of mine will be coming over in a while. He can help solve the foreign exchange problem."

"Oh ..." Yu Xiaoke nodded. Although the problem was solved, she couldn't be happy. She didn't understand why Lin Yi would help her so much. If he didn't like her, what was it?

But, if Lin Yi fell for her, what was she going to do? She didn't want to do anything that would let the male thief down, and she didn't want the orphanage to be destroyed. All she was feeling was conflict, and she didn't feel any joy from solving the problem.

"Xiaoke, what happened? Why are you frowning? what trouble is there? Tell me and I'll solve it. " Lin Yi didn't think too much about it. Yu Xiaoke did mention it once, but Lin Yi treated it as a joke and didn't think much of it. Besides, Lin Yi's other identity was the male thief. Naturally, he would show more concern for Yu Xiaoke.

But Yu Xiaoke didn't think that way. The better Lin Yi treated her, the more he wanted to help her solve her problems, and the more she felt that Lin Yi was doing this for no reason. She said coldly, "No, thank you."

"Ke, how can you talk to Lin Yi like that?" The old principal frowned.

Chapter 2560 Solving The Problem

The Dean didn't know about Yu Xiaoke's schemes and scolded her unhappily after seeing her tone, ""Lin Yi's here to help us solve our problem, why do you have such a sad face?"

"I ..." Yu Xiaoke couldn't say it in front of Lin Yi, and she didn't want to tell the Dean about it. She was afraid that the Dean would be worried,""Lin Yi, the kids at the orphanage and I are very grateful for your help. I represent the orphanage to thank you for everything you've done!"

Yu Xiaoke said "on behalf of the orphanage" very clearly. She was saying that she thanked you because of the orphanage and that she was only doing it on behalf of the orphanage. It was impossible for her to thank you personally.

Lin Yi thought that Yu Xiaoke's mood was unstable due to her period and didn't think much of it. He wasn't a male thief now and Yu Xiaoke didn't need to be gentle with him. Lin Yi didn't mind and smiled, "Hehe, I'm just helping out. It's nothing."

"Oh ..." Yu Xiaoke didn't really believe Lin Yi! Conveniently? You came all the way from Donghai to Songshan just for convenience? Even if Yu Xiaoke was an idiot, she wouldn't believe it. Besides, Yu Xiaoke wasn't stupid.

Lin Yi saw that Yu Xiaoke didn't want to talk, so he didn't say anything else. Only the Dean frowned, not knowing what was wrong with Yu Xiaoke today. Usually, when the guests came to donate, even if it was only a hundred or eighty Yuan, Yu Xiaoke would always welcome them with a smile. But today, when Lin Yi helped solve such a big problem, Yu Xiaoke was like this ...

Not long after, uncle Fu drove to the orphanage. He was extremely grateful to Lin Yi now-if it weren't for Lin Yi's insistence on treating him with respect, he'd be treating him as an equal.

"I'll have to trouble uncle Li. " Yu Xiaoke also knew uncle Fu, but they weren't too familiar with each other. She gave the Switzerland Francs to uncle Fu and thanked him politely. Her attitude was completely different from before, which made Lin Yi very confused. Why did Yu Xiaoke's attitude change so much in such a short time?

After settling the orphanage, Lin Yi didn't stay any longer. He looked at the time and saw that it wasn't time for Ziyu and Chen Xi to leave school yet, so he drove to fatty Lai's medicine company.

The orphanage wasn't far from the new building of miracle doctor Guan's medical company. They bought the land at the same time and started construction at the same time. Now, miracle doctor Guan's medical company was getting bigger and bigger, completely replacing the old miracle doctor Kang's medical company.

Now, no matter if it was golden creation or injury medicine, people would always think of miracle doctor Guan's medicine company's products first. Miracle doctor Kang was a thing of the past, and miracle doctor Kang's medicine company had given up on production. Military purchases had also been stopped because of the weight loss medicine scandal.

And so, after miracle doctor Kang's medical company lost all of its market, they had no choice but to shut down the company. Luckily, house Kang had a powerful Kang Zhaoming now, and they had a good relationship with the Hidden House you. This way, they could help house you sell some low-level pills. These pills were well known in the top auction market.

For example, a first-class elixir like the small recovery pill, although its effect was much worse than the small recovery pill, it was still very effective for general injuries, especially to speed up the recovery period of the patient after surgery.

This type of pill was hidden in house you's hands, and they didn't want to sell it themselves, so they let house Kang do it for them! Don't look down on these first-grade pills. These things were very valuable. In many cases, a first-grade pill could even be sold for the price of a second-grade pill.

The reason was very simple. There were many rich people in the secular world, but although there was no lack of rich families in the cultivation world, they were all people who knew the goods. It was impossible for them to pay too high a price for these pills! Of course, a large portion of the profits would still be given to the Hidden House you, and house Kang would only get a small portion.

But even so, the profits from the year's auction were enough for house Kang to look down on many other companies. They didn't earn any less than miracle doctor Kang's Medical Group, maybe even more! After all, the cost of auctioning pills was very low, much lower than running a company.

Lin Yi stopped the car in front of the building and was stopped by the security guard,"Hello, Sir. May I know who you are looking for?"

Lin Yi smiled, remembering the time when he first came to Songshan and entered pengzhan industries. He had encountered a similar situation, but it meant that miracle doctor Guan's medical company was much more formal than before.

"Is Kang Xiaobo here?" Lin Yi asked. Fatty Lai was overseas, so he went to see Xiaobo. In fact, Lin Yi was here to see Xiaobo.

Lin Yi hadn't seen his best friend for a long time after graduation-the two were busy with their own things, and didn't have much free time.

"You're looking for Vice President Kang, do you have an appointment?" The guard asked upon hearing that Lin Yi was looking for Xiaobo.

"An appointment? No, you can just inform him. " Lin Yi said.

"I see ... How should I address you, Sir?" The security guard didn't drive them away directly, but asked politely.

"Lin Yi," Lin Yi said.

"Lin Yi ... Okay!" The security guard turned around and was about to call Xiaobo's Secretary when he came to a sudden realization. He turned back to Lin Yi, surprised. "You're Lin Yi?"

"Yeah ..." Lin Yi looked at the guard, confused. He didn't know what was wrong with the guard. Why did he suddenly turn around and ask this?

"Mr. Lin, please come in ..." The security guard quickly turned around and made a gesture of invitation. "I'll take you to Vice President Kang!"

"Oh? "Alright ..." Lin Yi was confused, "why aren't you going to inform them?"

"It's like this, in our Security department's regulations, the first rule is that Mr. Lin and miracle doctor Guan can enter the company without any notice. This is the rule that CEO Lai set. " The guard explained. No wonder he felt that Lin Yi's name was familiar.

He couldn't be blamed for being slow. Xuemin didn't come to the company often, but he did come once in a while to discuss the company's future with fatty Lai.

Lin Yi, on the other hand, was different-this was the first time he'd appeared since the building was built, so it was only natural that the guards didn't recognize him.
