Chapter 2801 Rejected Qiqi

He felt like he was about to break through Earth Class late phase peak into Sky Class, and so he went back to his room and started practicing.

The whole night, he was under mo BA's protection, running his practitioner's Arts as fast as he could. The next morning, naipao finally broke through into Sky Class.

Above the inn, a large amount of heaven and earth spiritual Qi gushed over. All the cultivators who stayed in the inn knew that this was a sign that someone was about to break through. But who was so lucky to break through at this time?

The others weren't sure, but Lin Yi was a little surprised-he only remembered that naipao and his men weren't there. Could it be that naipao had a breakthrough?

"Have you heard? Someone broke through in the test last time-I heard it was Zhang naipao from the everyday and every day sect. It's quite a coincidence that someone broke through this time. " A disciple from the fiery flame mountain said from a nearby table.

"I know Zhang naipao, he's already here-I saw his name at the sign-out, but he's not in the restaurant right now. Could it be that he's the one who broke through again?" A disciple from the dark night Palace beside the disciple of the fiery flame mountain said in surprise.

"That should be it-I'm afraid it's still Zhang naipao who broke through this time." The disciple of the fiery Fire Mountain nodded,""The everyday and every day sect, they've got a solid foundation, we can't just

be envious of them. Plus, I heard that naipao's a core disciple, we're all here for the benefit of our contributions, it's different ..."

"That's true, but I heard that there was another person who leveled up in the test other than Zhang naipao-he's pretty strong, I heard-he was the one who injured Zhang naipao, I wonder if he's here yet?" The one who spoke was a disciple from the endless West Ocean.

"We shouldn't talk about these things-we may all be from the ancient level, but it'd be troublesome if the Ice Palace disciples heard us." The disciples of the fiery Fire Mountain had warned him not to mention the Battle of the Ice Palace.

"What's there to be afraid of? the Ice Palace and our Endless West Sea are both Water-type cultivators. They'll at least give us some face. " The disciples of the endless West Ocean said indifferently.

Lin Yi could hear their conversation clearly from the side. In fact, the tables weren't far from each other, and there weren't many Mystic class practitioners here. Most of them were earth Class and above, even Sky Class. It was easy for them to hear what was being said at the other tables.

The sky elixir sect had changed the standards of the practitioners, and the sects naturally wouldn't just send out Mystic class practitioners. In order to have a higher chance of winning, they would usually send out stronger disciples.

However, it seemed that news of him had not been spread. The ancient people only knew of this matter, but they were not clear about his identity.

Not long after, Qiqi walked into the restaurant-but there weren't any empty tables left, with familiar practitioners sitting at each table. She was going to find an empty seat after buying breakfast, but when she reached one of the tables and was about to sit down, the two practitioners there glared at her. She wanted to get angry, but she didn't dare-she had to find another seat.

After all, the practitioners here were all stronger than Qiqi-she wasn't a match for them.

Qiqi found two more tables, but the practitioners there were also very unfriendly towards her, telling her to leave.

These ancient level disciples were very particular about small circles. Only the disciples of some sects with good relations would sit together. They were quite repulsed by outsiders. And cultivators at this level generally did not have such an urgent need for beauty.

No one would look at Qiqi differently just because she was a pretty girl. In the eyes of these disciples, all they cared about was cultivation and benefits-pretty girls were nothing.

Qiqi was quite troubled-she didn't think that she'd be able to find a place to sit after a long nap. The worst thing was that the practitioners here weren't easy to get along with-she was all alone, and she didn't even have a place to sit!

"May I sit here?" Qiqi had learned her lesson this time-she asked politely at the next table.

"You can 't." The disciple from the endless West Ocean said coldly. It was obvious that they were still on guard against practitioners they didn't know.

Unless it was someone like Feng Shasha who liked to make friends, or the two weaker cultivators like the Dark Palace, the others all had their own circles and would not easily accept new people into their circle.

Qiqi was on the verge of tears at the rejection-she didn't know if she should stay or leave, but she decided to try and ask Lin Yi what table they were at. If it didn't work, she'd just squat in a corner and finish her food before going back to her room. She was so unlucky.

"May I sit here?" Qiqi asked, listless.

"Sure, but you'll have more strength after dinner. Just don't turn around and try to kill me." Lin Yi smiled as he looked at Qiqi.

"Ah ah ah ah ... You're Lin Yi?" Qiqi's eyes went wide-she didn't think she'd run into Lin Yi here! She wanted to cry-the one who'd taken her in was her biggest enemy, Lin Yi!

"I'm Lin Yi, but you don't have to be so surprised, do you?" Lin Yi looked at Qiqi, speechless-this girl was way too shocked.

"That's great, that's great! I finally met someone I know." Qiqi almost burst into tears as she put the plate down-she'd be eating in a corner or bringing the breakfast back to her room if it weren't for Lin Yi.

"Brother Lin, aren't you going to introduce us?" Feng Shasha was someone who loved making friends, and she smiled as she asked Lin Yi.

"This is my ... Hmm, how should I put it, we're both friends and enemies. Her name is yang Qiqi, she's also a solo practitioner, a physical practitioner. Oh right, what level are you now?" Lin Yi didn't know what level Qiqi was at, but he couldn't tell that she was a physical practitioner.

"Mystic late phase peak ..." Qiqi said weakly. She was a physical practitioner of the Qinggong class, and it was easy to level up as long as she got the hang of it in the early stages, but once her speed reached a certain limit, it'd be extremely hard to level up again. So, if she wanted to continue leveling up, she'd have to put in more effort and pay more.

Chapter 2802 See You At The Trial

Lin Yi nodded, not making fun of her, "Li Ciba's also a physical practitioner, you two can exchange pointers when you have time ..."

Lin Yi always had a weird feeling towards Qiqi-this girl always returned kindness with ingratitude, but he did see her body before, that was an undeniable fact. He had complicated feelings towards her, and he didn't want anything to happen to her, but he couldn't open his heart to her.

Qiqi wolfed down her breakfast-she was famished, and had been practicing her butterfly steps until midnight last night without making any progress. She'd overslept, and didn't have a place to eat in the morning, so naturally, she ate very quickly.

"When does the trial begin?" Lin Yi finished his breakfast and was waiting for Qiqi, so he started chatting with the others.

"Tonight is the registration fee for the trial. The trial will officially begin tomorrow morning." "Eh, brother Lin, don't you know anything about the trial?" Feng shangxin asked.

"I don't. I told you, I'm a wandering cultivator." Lin Yi said.

"Could it be that you're a rogue cultivator from the secular world?" GE Xian was a little surprised. There were a few types of rogue cultivators as well. People like him, even though they were called rogue cultivators, were actually people who wandered around the ancient and hidden realms, relying on their own abilities to obtain some benefits and practice resources. These people were very well-informed about the ancient world, but Lin Yi said that he knew nothing, which meant that he was a rogue cultivator from the secular world.

Otherwise, with just one person's own strength, not to mention Earth Class, even Mystic class would be hard to reach. This was also why there were so few high level practitioners in the secular world.

"Rogue cultivators are also divided into the secular world and the non-secular world?" Lin Yi blinked.

"Of course, I'm a solo practitioner, but I'm also registered in the ancient and hidden levels. I have my own way of making a living, and I'm also controlled by the rules of the ancient and hidden levels, but at the same time, I get a lot of benefits. For example, I get similar treatment to the ancient sects and hidden houses, I can participate in whatever they can." GE Xian said.

"That's not a big difference. " Lin Yi smiled and turned to Qiqi."Yang Qiqi, what kind of practitioner are you?"

"I'm actually an overseas cultivator. All overseas cultivators will be invited to some activities. Some overseas cultivators have set up an overseas cultivator Association. If there's anything here, they will send an invitation to the overseas cultivator Association. " Qiqi said.

"Oh ..." Lin Yi nodded. He didn't think it was weird, since he was familiar with the design on Qiqi's ring. It was a killer organization from overseas.

Feng Shasha, GE Xian, and Li Ciba, on the other hand, were surprised-they didn't think that Qiqi was from overseas.

"How many cultivators are there overseas?" GE Xian's occupational habit made him like to inquire.

"Quite a few, but some of them didn't join the overseas cultivators Association. After all, this Association is spontaneously organized by everyone. It's not mandatory." Qiqi explained, "maybe not as many as the practitioners here, but the entire overseas practitioner's Association combined is equivalent to an ancient sect!"

"I see, no wonder you guys received the invitation!" "But are you the only one here to participate in the trial?" GE Xian asked.

"Yeah, the practitioners overseas aren't particularly interested in these trials. There are more physical practitioners there, and the rewards aren't that attractive to them." Qiqi said.

"I see." "I never thought that there would be so many cultivators overseas," GE Xian nodded.

As they were talking, the door of the dining room was suddenly pushed open and two people came in. However, many of the cultivators who were talking at the table fell silent at the same time at this moment, and the others also shut their mouths after being reminded by others.

They were Zhang naipao and Mo BA!

Normal ancient sects wouldn't want to mess with people from the everyday and every day sect, especially since Zhang naipao was so famous right now-who knew what kind of weird Arts he'd learned? even the disciples of the godly fist position Hall were crippled, so who would dare mess with him?

Before they understood the situation, who would dare to act rashly? Hence, at this moment, they all surprisingly remained silent.

But the one who was the most shocked was Lin Yi-the others couldn't tell, but Lin Yi could see it clearly-naipao was Earth Class late phase peak yesterday, but he was Sky Class early phase this morning! Wasn't this leveling speed a little too fast?

Lin Yi had some confidence before-he was wearing the mid-quality Golden Cicada underwear, which could defend against any attack from an Earth Class. No matter how strong naipao was, he was still an Earth Class, after all, and with pinliang's gift on him, he wasn't afraid of naipao at all.

But in the blink of an eye, he woke up to find that naipao had broken through! Lin Yi didn't know whether to laugh or cry at this defeat.

Naipao had leveled up in the test, but what made Lin Yi feel better was that he leveled up in the test as well, while he didn't have any chance of leveling up in the test. In fact, he'd just reached Earth Class late phase, and he wasn't even at Earth Class late phase peak yet-he hadn't even touched the wall of Earth Class late phase peak at all.

"Haha, isn't this Lin Yi? We both broke through last time at the Ice Palace test, but it seems like you've dropped the ball a little this time?" Naipao said as he strode over to Lin Yi.

Lin Yi's face changed-naipao was rubbing it in, but Lin Yi couldn't say anything about it. He only replied coldly,"Sky Class early phase, huh ... Your follower mo Jiu is still Sky Class mid phase, I wonder how he's doing?"

"You" Naipao wanted to piss Lin Yi off, but one sentence from Lin Yi made him choke."Hmph, it's useless to say more. Let's see the truth in the trial!"

"Oh ..." Lin Yi replied faintly, his tone indifferent. This kind of disdainful tone was driving naipao crazy-he wanted to piss Lin Yi off after breaking through, but Lin Yi didn't do it. He was the one who pissed him off.

However, he wasn't proficient in his sky tier martial arts yet, and he didn't want to argue with Lin Yi. He decided to teach Lin Yi a lesson during the test, so he turned around and left with mo BA.

Chapter 2803 Overlord

Naipao was so pissed that he didn't look where he was going-he walked out of the restaurant and bumped into someone who had just entered!

"Bang!"

A loud bang! The two of them collided and each took two steps back.

"Are you fucking blind? He didn't see anyone? He just crashed over?" Before Naipao could even get angry, the other guy wasn't willing—he pointed at Naipao's nose and started yelling, "Kid, I think you don't want to live anymore? Do you know who I am?"

"What?" Naipao froze—he didn't think that there'd be someone else who'd dare to challenge him in the sky elixir sect's test. After all, he'd seen everyone's reaction when he'd first entered the restaurant—it was respect and fear, and so he'd been a little carried away. Who would've thought that this idiot would say he didn't want to live anymore?

And so, even if he was in the wrong first, he wasn't going to apologize!

"Hmph, brat, this is the young sect master of our West region's yellow Earth sect, earth Overlord!" The guy who bumped into Naipao didn't say anything, but one of his men jumped out.

"Overlord?" Naipao said, stunned.

"Not bad. How is it? are you afraid now?" The underling laughed coldly as he looked at Naipao.

"I've never heard of the Loess Plateau sect, but I've heard of the Loess Plateau." Naipao said, shaking his head.

"Hmph, we're from the Western Region. It's normal that you've never heard of us. Country bumpkins like you who have never seen the world should kneel down and beg for mercy if you don't want to die. Otherwise, don't blame our young sect master for being impolite!" The subordinate said angrily.

"Oh, I'm not called country bumpkin. I think your young sect master's surname is tu, right?" Naipao had just been pissing off at Lin Yi's place, and now two idiots came knocking on his door-he wasn't going to let them go,"So what if I'm not?"

"Overturning the heavens and earth, the eighth move!" The earth Overlord immediately activated his signature move, throwing a punch at naipao. However, he probably knew the rules of the test, and didn't dare kill naipao-he only wanted to cripple him.

"Bang!" The earth Overlord's fist landed on naipao's body-the eighth form wasn't enough to cripple him, but it was enough to make him spit out blood. He'd prepared quite a few recovery pills this time, and quickly popped one into his mouth.

As for the Overlord, he was already in a miserable state. After crazily spitting out three mouthfuls of blood, his eyes rolled back and he fell straight to the ground as if he had suffered a serious injury!

"Young sect master, what's wrong?" The Overlord's underlings were shocked and hurriedly bent down to check on his injuries. However, his injuries were very serious, almost to the point of being incurable. The meridians in his body were all broken, and other than his breathing being weak, he had no signs of life.

"Hmph, you overestimate yourself!" Naipao laughed coldly, "a mere Sky Class early phase peak, trying to fight me? a Mantis trying to stop a car!"

Everyone in the restaurant was dumbfounded by this strange scene-hearing about it was one thing, but seeing it with their own eyes was another. Naipao really didn't make a move, just standing there and leaving the tyrant on the ground.

Lin Yi was shocked as well-he couldn't tell how Naipao did it at all, and as expected, Naipao didn't even move a finger, and that Earth King fell to the ground.

This situation was unbelievable-Lin Yi couldn't see the details from his angle, but he guessed that this might be one of Naipao's powerful skills. Could it be that it was a martial skill that could reflect the martial skill of others?

But that didn't make sense-this earth Overlord was a Sky Class early phase peak, and even if he'd used the 8th form of the sky-toppling firmament, it shouldn't have been enough to cripple him! Naipao was a Sky Class early phase, and even he'd been able to take it head on-all he had to do was use a small recovery pill to avoid getting hurt, but this earth Overlord was crippled by his own martial skill? that didn't seem very realistic, did it?

Lin Yi didn't understand-he'd heard of something like the heaven and earth great shift before, something that could shift an attack back to its original position, but it was clearly different from what Naipao was doing. It seemed like Naipao didn't manage to shift the attack back completely, since he was injured as well.

According to Lin Yi's calculations, it was normal for the eighth form of overturning the heavens and earth to cause Naipao to spit blood-that was within the range of normal attacks, which meant that Naipao had taken a hit. But how did the earth Overlord get injured?

It was really strange! But thinking about it, naipao's wasp absorption Arts was even weirder. Lin Yi couldn't help but shake his head-it seemed like he'd underestimated naipao. Luckily, he reacted fast yesterday and didn't attack naipao directly, or he'd be the one on the ground right now.

He didn't know if he was a match for naipao before he figured out what his trump card was.

The underling glared at naipao with hatred before picking him up and leaving-he had to find a place to heal him, and he knew that he wasn't naipao's match, so he didn't do anything.

Naipao's confidence was at its peak after taking out the local tyrant-he laughed and turned to Lin Yi,"Lin Yi, do you want to try?"

Lin Yi didn't say anything, completely ignoring naipao's question. He was actually worried as well-he was wearing a mid-grade Golden Cicada underwear, but naipao was a Sky Class now, and the underwear had no effect on him.

If it was yesterday, Lin Yi would still have a trump card like this, and it could be used at the most crucial moment. But what Lin Yi didn't expect was that naipao had broken through to Sky Class in one night, and this trump card became useless!

And so, be it Lin Yi or naipao, they were both just testing each other out-they didn't want to make the first move until they were completely confident. Lin Yi was like that, and naipao was only scared of him because he'd crippled mo Jiu in one move.

Naipao hmped as Lin Yi ignored him, and left the restaurant with mo BA.

Only then did the restaurant return to its original noise, but the practitioners around Lin Yi's table all stood up and left subconsciously, or sat next to other familiar sect disciples, giving up the tables next to Lin Yi!

In their hearts, Lin Yi had already become a terrifying existence like naipao-naipao was weird, but wasn't Lin Yi the same?

Chapter 2804 Gifting A Map

Naipao's words made it clear to them that Lin Yi was the one who'd crippled nitian and naipao in the Ice Palace test-this was someone who could be even scarier than naipao, of course, they'd keep their distance!

They all had powerful sects backing them up, but the test wasn't a competition of background. They could look down on Lin Yi when they returned to their sects, but who would want to lose here?

Even the practitioners who'd pissed Qiqi off felt like they were all in danger-Qiqi and Lin Yi seemed to be pretty close, and if they pissed her off, did that mean they pissed Lin Yi off?

Luckily, Lin Yi didn't pursue the matter after Qiqi was done with her food, and left the restaurant with the others.

Of course, although most of the disciples were afraid of Lin Yi, they also looked down on him. To them, he was just a wandering practitioner. No matter how strong he was, he was just one person. When he faced an ancient sect, he would be nothing more than a scum.

"Brother Lin, I'm really impressed today-that Zhang naipao was such a Big Shot, but he didn't dare to act rashly in front of you, brother Lin!" Li Ciba said with admiration.

"That's right! If we hadn't met brother Lin, we might have been at a disadvantage in this trial!" Feng Shanshan nodded.

"That's for sure-this Zhang naipao isn't someone to mess with, just look at how bad things are for that earth Overlord-he's a practitioner from the Western regions, and he came all the way here, only to be beaten down before he even got to the test, sigh!" GE Xian said.

Qiqi couldn't help but curl her lips at the whole bunch of people praising Lin Yi. Hmph, this guy was really annoying. It seemed like she had no hope of getting her revenge ... Forget it, how was she supposed to get her revenge? He'd saved her so many times, and it didn't make sense for her to return his kindness with ingratitude-Qiqi sighed at that thought.

"Let's not talk about this. Come to my room, I have something to tell you. " Lin Yi said with a wave of his hand. He didn't care about the flattery-he was thinking about the long term. In the hidden world, Lin Yi had a firm foothold, but in the ancient world, he was still a lot weaker. He didn't have a voice of his own, and getting to know Feng Shasha and Li Ciba was a great opportunity, but he could only maintain a personal relationship with the disciples of these ancient sects. It was difficult to make the sect or family behind them look at you with respect.

"Why ... Why are we going to your room?" Qiqi looked at Lin Yi warily-she'd been thinking about something else just now, and hadn't heard everything Lin Yi said. She thought that Lin Yi wanted her to go alone, and so she was a little nervous.

Lin Yi looked at Qiqi, stunned. The others were confused as well, not understanding what Qiqi was doing.

"You came to my room to discuss the trial, but if you don't want to come, then forget it." Lin Yi said with one look at Qiqi.

"Ah, the trial? I'll go then." Qiqi blushed-she didn't hear what she was thinking, and she made a huge mistake-so everyone was going!

Lin Yi shook his head and ignored her. The group went into Lin Yi's room, and he took out the map he'd prepared earlier. These people wanted to recommend him to be their leader, and Lin Yi wanted to win them over. The map was the best gift for that.

It was a good thing Lin Yi printed a lot of copies, or there wouldn't be enough for everyone.

Lin Yi distributed the maps to everyone, and everyone was confused.

"Boss, What's this?" Qikun asked, confused.

"This is the map for this trial, I got it in advance." Lin Yi said.

"What? The map of the trial?" Feng Shangshi was very surprised. He came from an ancient family and didn't get a map beforehand, but Lin Yi, a practitioner from the common world, had a map?

Li Ciba was surprised as well-he didn't have a map either, but Lin Yi had one.

Of course, the one who was the most surprised was GE Xian. He made a living by selling information, but he couldn't get the map himself, and Lin Yi got it instead. This made him blush with shame. Who was the one doing this for a living?

Qikun, on the other hand, wasn't too surprised-he knew how amazing Lin Yi was, and he'd gotten used to it after a while.

It was the same for Qiqi-she'd gotten used to Lin Yi's strength already, and it didn't matter if it was the trade or the test-following Lin Yi was always beneficial.

"On this map, there's a safe location marked. If you encounter any danger in this trial, you can hide at this marked location and wait for the others to meet up." Lin Yi said.

"In other words, as long as we get here, we can safely pass this trial?" Feng Shanshan asked in surprise.

"Of course, you can collect the spirit herbs required by the trial before hiding here. You can also wait for me to go and collect the spirit herbs required. However, even if I go, I may not be able to collect as many spirit herbs as you." "This map's just an extra layer of protection for everyone," Lin Yi said honestly. "It can't really help much."

"This is already very good!" GE Xian said, "I know how difficult this test is. If it wasn't for the fact that I've been stuck at Earth Class late phase peak for so long and wanted to try my luck to break through to Sky Class with a Qi gathering pill, I wouldn't have come here."

"There's a flaw in the Qi gathering pill's breakthrough to Sky Class, right?" Lin Yi asked without changing his expression.

"That's true, but for us solo practitioners, being able to reach Sky Class is already pretty good. I know my own situation, and if I don't break through to Sky Class at this age, then my future will be even slimmer." GE Xian said.

Feng Shangshi and Li Ciba sighed as well. Lin Yi was a brilliant leader. If they didn't follow Lin Yi, he wouldn't have given them this map. Yang Qiqi, on the other hand, was deep in thought as she held the map. There was a faint joy on her face, and they didn't know what she was thinking.

After getting the map, these people returned to their respective rooms to rest. Nothing special happened for the whole day. Until night, a sound rang out in the open space outside the inn. Although the sound was not loud, it had a strong penetrating power, so that all the cultivators in the inn could hear it clearly, even if the windows were closed.

Chapter 2805 Trial's Rules

"All participants of the test, please take note. The registration time for this test has ended, and the registration will now begin. All disciples of the inn, please gather at the square in front of the inn in ten minutes, accept the registration of the sky elixir sect, and pay the test deposit! If it's expired, we won't

wait!" The voice was full of energy, and the strength of the person who shouted was obvious-this person was a Sky Class late phase peak! It seemed like the sky elixir sect wasn't weak!

Lin Yi remembered that during the test, aunt Qing was a Sky Class master, but she was only mid phase. Their sect master was only late phase peak, and this sky elixir sect had Sky Class late phase peak as well-they really couldn't be underestimated!

Although the sky elixir sect had set a time limit of ten minutes, none of the disciples here would dare to be slow.

In less than three minutes, almost all the disciples had left the inn, coming to the square in front of the inn. Lin Yi came down as well, and found a clean spot with Zhao qitan, Feng Shasha, li Ciba, GE Xian, and yang Qiqi. They sat down cross-legged on the ground, and the other disciples followed Lin Yi's example and found their own places to sit.

The man from the sky elixir sect, on the other hand, stood expressionlessly on a high platform in front of the inn, not hiding his strength at all-Sky Class late phase peak!

Beside him was a young man in a gray robe, around twenty years old. Lin Yi only took one look and his heart was filled with shock. It was Kang Zhaoming! This guy was representing the sky elixir sect to receive these disciples?

This made Lin Yi's heart clench-this guy wouldn't try to take revenge on him after seeing him, would he?

Kang Zhaoming seemed to be looking for something as well. When he saw Lin Yi, his eyes flashed with a strange light ...

The sky elixir sect's test was a huge event in the ancient times. Zhaoming wasn't just an elder of the sect, even if he was the young master, he wouldn't be able to do anything to a single practitioner in the test. If they were exposed, it'd be a huge loss to the reputation of the sky elixir sect. Who would dare to come and participate in the test again?

But while he couldn't go against Lin Yi on the surface, he could do things from the dark. Zhang naipao from the everyday and every day sect was one of Kang Zhaoming's pawns, and after Zhaoming's investigation the next morning, he managed to get naipao a part of the map as well. When that happened ...

Kang Zhaoming didn't even need to do it himself. He could use Zhang naipao to take care of Lin Yi! Once Lin Yi was done for, everything would be solved.

Soon, all the participants had arrived. They all sat down cross-legged, waiting for the sky elixir sect to continue speaking.

The person from the elixir sect nodded indifferently when he saw that everyone had arrived, "Since everyone is here, let's start! Let me introduce myself first, I'm Tian Ji Suan, the elder in charge of this test, and this is elder Kang Zhaoming, the one who helped me with the test. "

Although the man who spoke was only an elder of the sky elixir sect, and some of the people who had come for the test were core disciples of their own sects, the sky elixir sect's elder was obviously no ordinary elder. One could tell just from his name!

The current sect master of the sky elixir sect was called Tian Ji Xing, and he was called Tian Ji Suan. Even if they weren't Blood Brothers, they were cousins, so no one dared to underestimate them! Moreover, the most important thing was that this Tian Ji seer's strength seemed to be his true strength and not the superficial strength of an Alchemist. This was a true martial arts cultivator.

"Most of you are from ancient houses and sects. You should know the rules of the sky elixir sect's test very well. I'm sure even rogue cultivators have heard about the rules of the sky elixir sect test." At this point, Tian Ji Suan paused for a moment and swept his gaze across the disciples present. Then, he continued, "However, there are some changes to the rules of the trial this time! First of all, the rules of the test were that only Mystic and earth Class practitioners could join, but this time it's been relaxed, allowing all Mystic and above to join. However, in comparison, the deposit amount has been increased- it was one hundred million before, but this time it'll be two hundred million!"

If Tianji were to calculate, the cultivators who were participating in the trial below would look at each other in dismay. Why did the price increase this time? And the increase was not small, from 100 million to 200 million. This was really a scam!

But thinking about it, the sky elixir sect had changed the rules this time, relaxing the conditions for participation. That's why there were so many more people than before, could it be to make money? Thinking about the increased security deposit, everyone felt that it was very possible!

Tian Ji Suan looked at the expressions of the practitioners below, and was very satisfied. This year's test for the sky elixir sect was different from the previous ones. If something went wrong, the sky elixir sect was afraid that the other ancient sects would find out and come looking for trouble, and so they intentionally increased the amount of the test's security deposit, making others think that the sky elixir sect had opened up the conditions for participants this time because they were short on money!

Otherwise, if a large number of Earth Class and even Sky Class disciples died, it'd be easy for people to get suspicious. Even if someone did get suspicious now, they'd only think that the test was too dangerous, because the change in the strength limit of the participants could already be explained as a money-making problem.

"Alright, since there's no more questions, I'll now explain the rules of the trial. The duration of this trial will be half a month, with five days between the start and the end. The location of the trial will be the five fiends Savage Land behind the sky pill sect mountain. During the trial, you'll need to collect a medicinal herb from the five fiends Savage Land. As long as you get your hands on the herb, you can leave the place and complete the trial. Of course, if you don't manage to collect it, you can also quit. However, it'll be considered as forfeiting the trial, and you won't be able to return it in exchange for the trial deposit!" Tian Ji Suan continued.

Tianji Suan's words were the same as the ones in the test, and so no one had any special expressions. Only Lin Yi listened carefully, as he didn't know much about it before.

"However, the rewards for those who successfully pass this trial will be different from the previous ones! In the past sky elixir sect's trials, those who successfully collected herbs could only get one of the sky elixir sect's current rank 3 elixir or a heavenly treasure!"

Chapter 2806 The Start Of The Trial

"The results of this test will be changed. If you successfully collect one herb, you can exchange it for a rank 3 pill or a heavenly treasure the sky elixir sect already has. If you successfully collect two herbs, you can exchange it for a rank 3 pill or a heavenly treasure the sky elixir sect already has. Of course, depending on the type of pill, the sky elixir sect has the right to reject any requests. Of course, you can also exchange it for a third rank pill or a natural treasure that the sky elixir sect already has!" Tian Ji Suan paused and continued, ""The three medicinal herbs can be deduced in this manner ..."

"Ah!" All the cultivators present were in an uproar. They didn't think that the sky elixir sect would offer such good conditions for the test this time. They were all very tempted. They could even request to be made into elixirs for themselves! This was a great opportunity that he had never had before!

The Ice Palace disciple was especially excited-she'd only come here to try her luck. The sky elixir sect wouldn't make the ice heart Jade bone pill for the Ice Palace, so even if she passed the test, she'd only get one third level elixir that the sky elixir sect already used-but what if she got two?

However, she was only excited for a moment before she shook her head. Even if she could get the two herbs, the sky elixir sect had their own choices when it came to refining third ranked pills. They wouldn't refine a third ranked pill for her!

Seeing that she had no hope of getting the pill, the Ice Palace disciple decided to back out as well-Bing Tang had told her that if it worked, she'd go to the test. If it didn't work, she'd just come back-there was no need to risk her life for a pill.

"The five evils Savage Land is extremely dangerous. I hope that everyone will not fight during the trial. After all, there are a lot of medicinal herbs there and they are not too difficult to find. The main thing is that there are too many spirit beasts there and it is not easy to collect them. So, it is best for everyone to come back as soon as possible after you have obtained the medicinal herbs." "In the trial, life and death are up to fate," Tian Ji Suan said."The sky elixir sect won't be responsible for anything. Alright, practitioners who have any objections can leave tonight. Those who don't have any objections, go to elder Kang and pay the trial deposit!"

After Tianji finished his words, some people left, while others stood up to line up for Kang Zhaoming's deposit. When Lin Yi was about to swipe his card, Feng Shasha was a step ahead and helped Lin Yi swipe it. As for Kang Zhaoming, he was expressionless the entire time, as if he had nothing to do with this.

This surprised Lin Yi-did the kid change? Why didn't she show any reaction to his appearance? Could it be that there was a bigger conspiracy hidden in this?

After paying the security and registering his strength, Lin Yi took the entrance card and left. The sky elixir sect didn't even check the strength of the participants, and it wasn't as strict as the Ice Palace's.

But thinking about it, the Ice Palace was here for the outer disciples, while the sky elixir sect was here for the herbs and money-it didn't matter how strong you were-Mystic and above didn't have a limit, and as long as you could pay the deposit, you could join as you pleased.

Of course, Lin Yi was wrong. Only this year's sky elixir sect test didn't check the participants' strength. The previous ones had a strict check of the participants' strength, not allowing any cheating!

After all the participants had paid their fees, Tianji asked the innkeeper to arrange for everyone to go back and rest. He then said, "Tomorrow morning at six o'clock sharp, gather here on time. I will lead everyone to the heavenly elixir sect's trial grounds, the vast desolate lands of the five evils! Please come here on time, or the deposit will not be returned if you miss the time limit!"

"Yes!" Everyone responded in a serious manner.

"There's one more thing I want to remind everyone of. From the start of the trial until we leave the sky elixir sect, no one is allowed to tell anyone about what happened here! Cameras and other electronic devices are not allowed to record the situation inside the five fiends Savage Land!" Tianji Suan warned at the end. This was also because he was afraid that someone would record the terrain of the five evils Savage Land so that it would be more convenient for him to participate in the trials in the future.

Everyone nodded in understanding. After all, these requests were reasonable.

After everyone left, Tianji took Zhaoming and left as well. Zhaoming's eyes scanned the inn, praying that naipao would put in more effort this time and get rid of Lin Yi.

It was a quiet night, and Lin Yi left the practicing space at four-thirty the next morning. He went to the bathroom and washed up before walking out of his room.

At first, Lin Yi was thinking about raising qikun to Earth Class early phase, but he didn't have the Qi gathering pill with him right now, and qikun was Mystic mid phase peak-it wouldn't be of much use even if he reached Mystic late phase peak, so Lin Yi decided not to bring this up.

What Lin Yi didn't expect was that Zhao qikun, Feng Shasha, GE Xian, and Li Ciba had already left the room and were chatting not far away from Lin Yi's door. Seeing Lin Yi come out, Zhao qikun said, "Boss, you're awake."

"En, you guys are early. I was still thinking of cultivating for a while." "Right, where's Qiqi?" Lin Yi asked.

"You still haven't gotten up, right?" Qikun looked at the room at the end of the corridor, "We can't call her. Why don't you call her, boss?"

Everyone, including qikun, didn't know what Lin Yi's relationship with Qiqi was, and naturally couldn't wake her up.

"Alright, I'll go get her." Lin Yi knew Qiqi's room number and walked to the end of the corridor, but just as he was about to knock, Qiqi's room door opened. She jumped at the sight of Lin Yi, "You ... Why are you at my door?" she asked.

"I'm here to wake you up. It's almost time," Lin Yi said.

"Oh oh ..." Qiqi clutched at her chest, panting.

She felt that the test was full of danger, and she was worried that someone would do something bad to her. She didn't sleep well last night, and Lin Yi gave her a fright.

The sky had just brightened, but the square in front of the inn was already filled with disciples who had come to participate in the trial. Everyone held an attitude that it was better to come early than late, waiting for the arrival of the divination.

At Sixo' clock sharp, Tianji arrived at the square. Kang Zhaoming, who had followed him yesterday, didn't come today.

Chapter 2807 Fifth Fiend Savage Land

"Time's Up. Cultivators who are participating in the trial, please walk with me to the teleportation point of the five evils Savage Land!" Tian Ji Suan didn't say much and went straight to the point.

Everyone did not dare to delay and quickly followed behind Tian Ji Suan, heading up the mountain together.

Lin Yi brought Skybolt pig to the front, while Feng Shanshan, li Ciba, GE Xian, Zhao qitan, and yang Qiqi followed behind. Looking closely, it seemed that most practitioners formed their own small circle.

However, there were exceptions-Zhang naipao and Mo BA. The everyday and every day sect didn't have a good reputation, and the strength that Zhang naipao had displayed before was something that everyone feared, so no one wanted to be on his side.

They walked for about a few dozen miles, but since they were all cultivators, they walked very quickly and didn't feel tired at all. Tian Ji Suan only stopped when they crossed the sky elixir sect's Mountain range and came to a very remote place in the back mountains.

Up ahead, there was a large building that looked like a sacrificial altar. It was strangely shaped, and near the altar, a few disciples of the sky elixir sect were already waiting there. It seemed like they had made preparations in advance.

"We've already arrived at the five evils Savage Lands 'teleportation array. This teleportation array can randomly send you to any location in the five evils Savage Lands. Only one person can be teleported at a time, so even if you form a team now, it won't be easy for you to meet each other once you arrive at the five evils Savage Lands. Let me remind you that the best way is to find the spiritual herbs on the illustrated Handbook as soon as possible!" As he spoke, Tian Ji Suan pointed at a notice board in front of the teleportation array. On it was the spiritual Herb Guide that everyone was looking for. He continued,""After you find the spiritual medicine, head south. There's a teleportation array at the end of the southern end of the five evils Savage Land. Once you enter the teleportation array, you can return safely!"

Everyone nodded. The five evils Savage Land was indeed mysterious. Lin Yi thought that if he didn't have the map, it would be a lot of effort too. No wonder so many people couldn't come back.

"There's one more thing that I want to remind everyone clearly. The time you stay in the five evils Savage Land is strictly more than 20 days. Normally, you must come out in half a month. If you don't come out in 20 days, then you won't be able to come out." "The five evils Savage Land is the territory of

spirit beasts," Tian Ji Suan reminded. "It's full of mystery and strangeness. If a normal cultivator stays in the five evils Savage Land for more than 20 days, the Qi of the five evils will invade his body. Once the five evils enter his body, the cultivator's cultivation will be completely destroyed and he can't continue cultivating. In serious cases, he will die from Qi deviation. So, when the time is up, regardless of whether you've collected the herbs or not, you must come out, or you'll bear the consequences!"

"What's the Qi of five evils?" Naipao asked, confused.

"The Qi of the five evils is a combination of spiritual Qi of five attributes. Once it invades a cultivator's body, it will cause terrible damage!" Tian Ji Suan explained, "for example, if a fire attribute cultivator has the Qi of five evils in his body, then the fire attribute genuine Qi in the Qi of five evils can be absorbed by him. This is his primordial genuine Qi and will not affect him in any way. However, the genuine Qi of the other four attributes of the five evils will stay in the body and can not be removed."

Naipao nodded-he didn't really mind. He had the Wasp absorption Arts, and Qi of any element wouldn't hurt him-this Qi of five evils was useless to him.

However, naipao's goal in the five evils wild land was to get pinliang a bone cleansing pill-as long as he got the ingredients, he naturally wouldn't stay here for too long.

But Lin Yi was surprised. He had the five elements, but he was still a practitioner. He didn't know if the Qi of the five evil spirits would affect him.

"Alright, since there are no more questions, please enter the teleportation array in order and enter the five evils Savage Land!" Tian Ji Suan said to everyone.

From the front to the back, all the cultivators participating in the trial entered the teleportation array one by one. They stood in the middle of the sacrificial altar-like building and then disappeared. They had obviously entered the five evils Savage Land.

Lin Yi had a kind of respect for ancient teleportation formations and stuff like that. They were all super-scientific phenomena that science couldn't explain.

When it was Lin Yi's turn, he strode into the teleportation formation, and the disciples nearby activated some sort of device, causing Lin Yi's body to disappear ...

Lin Yi's vision went dark as if he had entered a long tunnel. His eyes brightened up as he found himself in a strange place. The altar under his feet had turned into a mountain, and the scenery was brand new. Rolling green mountains, steep cliffs, and beautiful blue sky and white clouds. It was like a new world, as if he had returned to the ancient world.

"Skybolt pig, what is this place? how far is it from the teleportation formation?" Lin Yi asked. The pig's sense of direction was very strong, and he could tell the distance if it wasn't too far away.

"Ji Ji ..." The pig shook its head in confusion. It could no longer sense which direction they came from.

"Aowu aowu ..." Lin Yi was talking to Skybolt pig when he heard a roar from a spirit beast not far away. Lin Yi was shocked and remembered that there were many spirit beasts in the five evils Savage Lands, many of them were even sky rank!

Lin Yi quickly looked around vigilantly and found a hiding spot on the cliff behind him. It wasn't a long-term plan, but it was a temporary shelter. With that thought, Lin Yi carried Skybolt pig and jumped up to the hiding spot.

Sure enough, not long after, a spirit beast that looked like a tiger but had horns on its head flew over. Although this spirit beast was not weak, it was obvious that its spiritual intelligence was not high. It was not as smart as the spirit beasts that lived alone in the human world.

Perhaps it felt Lin Yi's presence, but after Lin Yi went into hiding, it circled around where Lin Yi was before and found nothing. It ran away without looking around.

This Earth Class spirit beast was really stupid. Lin Yi shook his head, but he couldn't guarantee that all the spirit beasts here would be as stupid as this one. So Lin Yi didn't come down from the cliff for now, but decided to observe the situation first before thinking of a plan.

From the looks of it, Lin Yi couldn't tell where he was on the map from the surrounding terrain. He needed to observe the nearby terrain to confirm it.

Chapter 2808 Five Evils Mountain Range

Lin Yi was hiding here, and although it looked safe, a few dumb spirit beasts passing by didn't notice him, but a flying spirit beast in the air did. It was a bat that was several times larger, its body was black as ink, and a pair of huge wings like a glider. On its head, there was a sharp spike-like antenna.

After it noticed Lin Yi, it immediately charged at him, causing Lin Yi to be shocked! It was a Mystic mid phase bat, but luckily the Skybolt pig was a Mystic late phase peak spirit beast.

"Ji Ji!" The pig said something to the bat.

"Wuwuwu ..." The Black Bat saw Skybolt pig and was obviously surprised. It didn't know why Skybolt pig was with a human cultivator.

"Ji Ji!" The pig started talking to the bat again.

The two Spirit beasts exchanged a few more words before the Black Bat left. The pig, however, turned to Lin Yi, "Ji Ji ..."

She pointed at the bottom, telling Lin Yi to leave.

"What's going on?" Lin Yi jumped down with Skybolt pig in his arms and returned to the ground.

Skybolt pig wrote on the soil, "That black bat wanted to attack you, so I used my strength to force it to leave. However, if we encounter a higher level flying spirit beast, I have no choice. I'm afraid that the Black Bat will go back and call for more companions, so we should leave this place as soon as possible."

"That's good." Lin Yi nodded and smiled bitterly. This was the world of spirit beasts, and human practitioners were insignificant in this world. He wondered how Qikun and the others were doing.

"Ji Ji ..." The pig started writing on the ground again.

"Oh? Are you saying that there are good treasures there?" Lin Yi paused as the pig wrote on the ground, There's a treasure there!

"Ji Ji!" The pig nodded.

Lin Yi hesitated after seeing what the pig wrote-his purpose here was to collect herbs for level three pills and protect qikun while he was at it, but the pig said that there was treasure here. Logically speaking, Lin Yi didn't want to go.

But since he was already here, he wouldn't give up until he got to the bottom of it.

"That treasure, is it very useful to me?" Lin Yi asked after some hesitation.

"Ji Ji!" The pig nodded.

"Then let's go and take a look!" "But, if you come across any of those herbs I need, help me find them!" Lin Yi said through gritted teeth.

"Ji Ji!" The pig nodded.

And so, one man and one pig went in the direction Skybolt pig pointed out. Lin Yi didn't know where to go to the safe spot on the map yet, and he didn't know the terrain yet. He might as well go to the place Skybolt pig pointed out first.

Skybolt pig's senses were sharp, and he would always alert Lin Yi if there were spirit beasts in the distance. Lin Yi wasn't in a hurry, so he found a safe place to hide. The whole journey was pretty scary, but what made Lin Yi depressed was that he didn't get a single herb!

There were spirit herbs, but they were all growing by the lake or beside the swamp. Those were usually the lairs of spirit beasts, and Lin Yi would avoid them as much as he could. Why would he go and pick them himself? Lin Yi finally understood why the sky elixir sect's trial rewards were so generous.

If he was already in such a state with the pig by his side, then those who didn't have the pig would probably have a hard time. No wonder only a few of them survived, let alone those who managed to get the spiritual herbs.

Lin Yi's heart trembled as he walked-after all, he wouldn't even be afraid of a Sky Class master. He could run if he couldn't win, right? But spirit beasts were different. Some of them were super fast, and Lin Yi couldn't outrun them at all. The Black Bat was like a plane, and it was in front of Lin Yi in the blink of an eye. Lin Yi couldn't compete with that speed at all.

He didn't know why, but he'd met quite a few spirit beasts before, but there weren't any at the end of the road. What made him feel strange was that there wasn't even a single spirit beast!

"Why aren't there any spirit beasts nearby?" Lin Yi looked at Skybolt pig strangely.

"Oink Oink ..." The pig shook his head, indicating that he didn't.

"Okay ..." Lin Yi continued to move forward, but his heart was full of vigilance. After all, there was always something wrong. It was hard to say what was ahead!

Otherwise, why were there so many spirit beasts before, but no spirit beasts here?

There was no more road ahead after a while-it was a long mountain range, and Lin Yi didn't know where it extended to, but it blocked his way.

"There's no more path ahead. Where is the treasure?" Lin Yi stood at the foot of the mountain, looking at the vast mountains.

"Ji Ji ..." The pig pointed at the mountain with its paw.

"You mean, the treasure is on the mountain?" Lin Yi asked.

The pig nodded.

"On the mountain...I'll see what this place is first." Lin Yi said as he took out the map from his pocket. He'd been walking for so long, and he had a rough understanding of the terrain, especially with the Green Mountains in front of him-it was a landmark.

Very quickly, Lin Yi found his location and the mountain range in front of him!

"Five evils mountain range?" Lin Yi froze, his face changing immediately. This mountain range was marked as an extremely dangerous place on the map!

However, the Jade didn't give any warning, which meant that the danger wasn't nearby. This map was a miniature version, and the places marked on it were likely to be several kilometers, tens of kilometers, or even hundreds of kilometers away. The danger might not be right in front of them.

"Skybolt pig, I've confirmed our current location, but the map says that this place is extremely dangerous. What do you think?" Lin Yi said as he placed the map in front of Skybolt pig.

Skybolt pig looked at the map and the mountains, confused. He didn't feel any danger, but after thinking about it, he realized that Skybolt pig's special ability was that he could search for treasures, but he couldn't sense danger. At most, he could sense the presence of his own kind, but it was only close, not far.

To go or not to go? Lin Yi was hesitating. The map clearly indicated that this was an extremely dangerous place, but he didn't want to give up. He was already here, and the treasure was useful to him. It would be a shame if he left without getting anything.

Chapter 2809 Battle At The Peak

Plus, the sky elixir sect's test wasn't something he could come to whenever he wanted to. He had to wait until the sky elixir sect organized it, and he wouldn't be able to enter if he came.

Go! Lin Yi gritted his teeth. He knew that there was a Tiger in the mountain, but he still chose to go to the Tiger Mountain. Since he was here, why would he leave? Many times, Lin Yi was the type of person who sought wealth from danger-where would he get anything without taking risks?

With that thought, Lin Yi made up his mind and started walking up the mountain.

The mountain road was very steep and rugged. There was no smooth road up the mountain.

Obviously, not only did no one go up the mountain, but there shouldn't be any spirit beasts either. From this, it could be seen that there was definitely some kind of danger hidden on this mountain. Otherwise, how could there be no spirit beasts nearby?

Moreover, even if there were no spirit beasts on land, there should be one flying in the sky, right? Lin Yi, however, didn't see a single one.

The path was hard to walk on, but it wasn't a cliff. Even if there wasn't a path, there were still some footholds. With Lin Yi's Qinggong, he should be able to reach the top.

"Which direction is Skybolt pig?" Lin Yi asked.

"Ji Ji!" The pig pointed at a direction not far away.

Lin Yi nodded and carried Skybolt pig forward slowly. After a few hundred meters, Skybolt pig started squeaking again.

"Ji Ji!" The pig pointed at a Stone Hill not far away.

"Oh? The treasure you mentioned is here?" Lin Yi asked, surprised.

"Ji Ji!" Skybolt pig nodded, then shook his head.

"What does that mean?" Lin Yi asked.

"Ji Ji!" The pig pointed at the hill and nodded. Then, it pointed at the mountain and nodded again.

"Oh, I understand. What you mean is that there are treasures here, and there are also treasures not far away, right?" Lin Yi understood what Skybolt pig meant.

"Ji Ji." This time, the pig nodded in satisfaction.

Lin Yi quickly moved towards the stone mound. There was nothing special about the stone mound, and the Jade didn't give him any warning when he tried to dig it up. It meant that there was no danger here.

Soon, the mound was dug open, and what surprised Lin Yi was that there was a spirit beast's skeleton under the rocks!

From the outside, it was hard to tell what beast it was-there were too many types of spirit beasts, and Lin Yi didn't even recognize the ones that were alive, let alone the ones that were dead.

Lin Yi didn't have to search too hard to find a spirit beast's elixir in the pile of bones-it must be the treasure Skybolt pig was talking about.

Lin Yi had six qi cores in his hands now-one from Gou huli's Lion, two from Wulong haotte mountain, one from the Qian Mountain sect, one from the damn thing, and one from the Sky Class practitioner at the practitioner's market.

But the inner pill that the damn thing gave him was obviously different from the rest, and the damn thing didn't let him use it either. Lin Yi couldn't just use it casually, and the remaining five could be used to make an Essence Necklace.

However, Lin Yi wasn't a forger, so he couldn't make it yet. This inner dan wasn't completely useless, since making an Essence Necklace required at least five elixirs from a spirit beast. The more the better, and the higher the level of the spirit beast, the better the effect. Lin Yi didn't want to waste this one.

He put the pill away carefully and asked Skybolt pig,"The things in front are better than this?"

"Ji Ji!" The pig nodded.

"Alright, let's continue!" Lin Yi carried Skybolt pig up and walked towards the top of the mountain.

What made Lin Yi curious was that even though the map clearly indicated that this was an extremely dangerous place, he hadn't come across any danger at all up until now. This made Lin Yi feel strange and suspicious at the same time-did the sky elixir sect make a mistake?

Or rather, this place was an extremely dangerous place many years ago, maybe even a hundred or a thousand years ago, but now, perhaps the danger no longer existed. Otherwise, Lin Yi really couldn't explain why he was still safe and sound, without any problems.

Lin Yi finally stepped onto the top of the mountain. He wanted to see the whole place, but he couldn't see far away due to the thick fog. Maybe this was the natural weather.

Lin Yi shook his head and didn't waste too much time on it. He asked Skybolt pig, ""We've already reached the summit. Where is the treasure?"

"Oink Oink ..." Skybolt pig pointed at the cave, but before Lin Yi could reply, he felt a huge wave of pure Qi! It wasn't just Lin Yi, even Skybolt pig was pissed!

After following Lin Yi, it was rare for Skybolt pig's fur to stand up. When he was in danger, his fur would stand up, and there was poison on it. Lin Yi had seen it once in the tomb, and now that Skybolt pig's fur was standing up unconsciously, it was enough to show how terrifying it was.

Lin Yi followed the direction of the energy fluctuation and looked up. Not far from the peak of the mountain, in the blue sky, there were colorful lights. The light contained intense energy fluctuations, rumbling like thunder before a storm, making Lin Yi feel suppressed!

"Boom! Boom! Boom!" It was the sound of energy colliding. Lin Yi looked over and realized that the sound came from the cave at the top of the mountain. The colorful energy collision also came from the cave!

"Boom! Boom! Boom!" There was another loud explosion as the energy swept sand and stones in all directions. The clear sky suddenly turned dark. Although Lin Yi was a practitioner, he was still a little scared by this strange phenomenon.

"What ... What's that sound? Could it be a battle between experts? There's someone ... There? Or are there Two Spirit beasts having a sword duel on Mount Hua?" Lin Yi took a deep breath and muttered to himself.

"Ji Ji ..." The pig nodded, then shook his head.

"You mean, there's ... A person ... A man and a beast fighting there?" Lin Yi looked at Skybolt pig in surprise.

"Ji Ji!" The pig nodded. At this distance, it could already sense what was going on.

Chapter 2810 Going Or Not

Lin Yi's Jade didn't alert him, but even if they fought, they wouldn't be able to hurt Lin Yi here.

"A man and a beast in a battle ... They actually created such a terrifying energy collision?" Lin Yi's eyes were wide open in disbelief. Could it be that a practitioner was teleported to the top of the mountain and met a spirit beast there, and they started fighting?

At that thought, Lin Yi hesitated-should he try?

Even without getting close, Lin Yi could tell that the two weren't weak just by looking at the terrifying force of the battle from afar. It wasn't that Lin Yi couldn't create this kind of terrifying force, but the force he created was an energy bomb. Therefore, Lin Yi only felt strange when other people or spirit beasts created this force!

Lin Yi was hesitating, his eyes fixed on the cave in the distance. The sound of energy clashing was still there, it should be an intense fight between the man and the Beast ...

To go or not to go?

At that moment, Lin Yi heard another thunderous explosion. The ground under Lin Yi's feet started shaking, making Lin Yi flinch.

"What if ... The person in the cave is Feng Shishang or Li Ciba?" Lin Yi hesitated. Of course, from what he could see, the people in the cave definitely weren't Ge Xian, Qikun, or Qiqi-if it were them, they'd be dead already. How could they fight spirit beasts so intensely?

The practitioner in the cave was at least Sky Class early phase.

"Let's go and take a look!" Lin Yi gritted his teeth. Since he was here, he didn't want to give up the treasure in the cave, and he was worried about the people in the cave.

Since he'd made up his mind, Lin Yi didn't stop and ran towards the cave.

The path at the top of the mountain wasn't too hard to walk on. Lin Yi used his extreme speed to dash towards the cave. Not far from the cave, the sounds of battle were getting clearer and clearer. The intense energy fluctuations coming from the cave gave Lin Yi an unprecedented pressure!

It was only now that Lin Yi finally understood-the person fighting in there couldn't just be a Sky Class early phase. He could be a Sky Class late phase or even late phase peak.

Even Lin Yi, who was standing at the entrance of the cave, couldn't help but feel a chill down his spine. The powerful aura was not something he could withstand.

Taking a deep breath, Lin Yi wanted to give up, but since he was already here, he didn't want to leave without taking a look. After hesitating for a while, Lin Yi carefully walked towards the cave!

At the entrance of the cave, the first thing Lin Yi saw was a huge spirit beast. This spirit beast was abnormally huge, even bigger than any spirit beast Lin Yi had seen before. Its body alone was ten meters long, with four solid claws, a long tail, a long neck, and on its back, there was a row of hard sword teeth! If it wasn't for the fact that Lin Yi had seen too many strange spirit beasts, he would have thought that he was back in the Jurassic or Cretaceous period. This was clearly a dinosaur!

Lin Yi couldn't tell what kind of dinosaur it was, but it was a living dinosaur, both in size and appearance.

He looked at the beast's strength again, and it surprised him-it was a Sky Class late phase peak full cultivation! This was a spirit beast that was infinitely close to the cultivation of the heavenly Dao. Moreover, it seemed to be a spirit beast with extremely powerful offensive abilities.

"Aohou!"

To Lin Yi's surprise, the dinosaur spat out a ball of fire after the howl! This was actually a mutated dinosaur that could breathe fire?

He turned around and saw that the target of the fire was a human practitioner. To his surprise, the human was a young girl! The shapely figure and the tight-fitting yellow skirt-Lin Yi was quite surprised. He didn't think that the one fighting the dinosaur would be a female practitioner!

The Girl in the Yellow Dress quickly formed seals with her hands, and it was unknown what martial skill she was using. A strong light suddenly shot out from her hands, like a water column, and hit the ball of flame!

Sky Class late phase peak, as expected-Lin Yi was taken aback as he tried hard to recall if there was anyone this strong among the people in the test.

But the sky elixir sect's test was different from the Ice Palace 's-during registration, Zhaoming didn't check the strength of each and every one of the applicants, nor did he tell them who they were. So, only those who were familiar with each other would know about the other participants.

It was the same for Lin Yi-he'd been talking to Feng Shangping, li Ciba, GE Xian, Zhao qitan, yang Qiqi, and the others, and hadn't paid attention to anyone else. He really didn't have much of an impression of the girl.

"Boom! Boom! Boom!" The thunderous sound exploded in Lin Yi's ears again. Because of the close distance, the sound seemed to have entered Lin Yi's body, making his legs tremble!

It was too powerful! The ball of fire and the pillar of water collided with each other, creating a huge energy collision.

"Roarrrr!" The dinosaur roared again. Without stopping, it spat out another huge ball of energy from its mouth. This time, it was not a ball of fire, but a ball of water!

This situation made Lin Yi extremely shocked-what type of spirit beast was this? it was just spitting fire, and now it was spitting water? Was this spirit beast of the fire or water element?

However, if Lin Yi was stunned at this moment, he would be confused the next moment. The girl was the one who released the water pillar technique. She pointed at the water ball with her right hand and a fireball shot out from her fingertip ...

"Boom! Boom! Boom!" The thunderous sound rang out again, but this time, Lin Yi didn't tremble. He was already confused. He couldn't figure out the nature of the spirit beast anymore, and the girl's nature was driving him crazy.

The water ball and the fireball collided again, and after a huge burst of energy, they slowly dissipated.

Although it looked like the man and the Beast were evenly matched, the young girl was secretly complaining in her heart! She had used up most of her physical strength by using these martial skills in succession. Although human cultivators were powerful, they were obviously weaker than spirit beasts. Many spirit beasts were huge in size and had more physical strength and true Qi than human cultivators!
