Chapter 2851 Trapped Again

"Ah ... I'm sorry. It's all because of me. I've angered the Dragon of five demons and implicated you." Qiqi said apologetically-Lin Yi had helped her time and time again, how could she not be touched? Once she got over it, Qiqi felt guilty-Lin Yi didn't owe her anything, so why was he helping her again and again?

"It's nothing. Even if it didn't throw me down, I would have jumped down to find you. " "We're a team, we can't just leave you here, can we?" Lin Yi said.

"Right, how's Zhang naipao?" Qiqi asked.

"I've avenged you. " Lin Yi didn't go into the details, but he believed that Qiqi should be able to understand what he meant.

As expected, Qiqi's jaw dropped-Lin Yi's strength was out of her expectations, but it was to be expected. After all, Lin Yi had always crushed his opponents under his feet.

"En ..." Qiqi nodded, but thinking about how she'd failed to get the Dragon of five evils's scales back, she felt a little down.

Little 9th's condition was getting worse-it wasn't this bad before, but it was getting worse and worse in the past year! Qiqi had been busy looking for herbs and treatment methods for little 9th!

Qiqi's family was a large assassin organization, but it was only one of the largest in the common world. If it weren't for little Jiu's condition, they wouldn't have any contact with the practitioner world at all. But now, in order to cure little Jiu's condition, Qiqi had no choice but to step into an unknown realm.

"What's wrong with you?" Lin Yi asked after seeing Qiqi's face turn serious.

"It's nothing ... I just didn't get what I wanted in this test ..." Qiqi sighed.

"You want to go to the Dragon of five evils and ask for its scales?" Lin Yi's heart skipped a beat as he asked.

"Yes, I wanted to talk to it, but it ignored me. I thought it was asleep, so I went to pick one up, but it was just pretending to be asleep. It picked me up and threw me off the cliff ..." Qiqi said, depressed.

"Ugh ..." Lin Yi thought that Qiqi's way of doing things was a little too much, but who would've thought that the Dragon was this strong if he hadn't fought it himself? Plus, Qiqi didn't know the strength of the Dragon of five evils.

"Forget it, I'll think of another way." Qiqi sat on the ground, hugging her legs. Although she said that, anyone could see the helplessness in her eyes.

"Do you have to ask for the scale of the Dragon of five evils?" Lin Yi asked, his heart softening.

"As long as it's something on the Dragon of five demons 'claw, it's fine. It doesn't have to be a scale. However, if a piece of its flesh is cut off, wouldn't it be even more infuriated?" Qiqi said.

"If it's something else on the claw, do you think this will work?" Lin Yi took out the Dragon's nail he'd collected earlier and put it in front of Qiqi.

"This is ..." Qiqi blinked.

"This is the nail of the Dragon of five demons. I've fought with it before. It used its nail to stab one of my friends, but the nail broke, so I kept it." Lin Yi said.

"Ah?" Qiqi was pleasantly surprised-she didn't think that the Dragon's nail would be in Lin Yi's hands! Did this mean that she didn't come here for nothing? Qiqi was about to take the Dragon's nail from Lin Yi's hands when she remembered how precious it was-she couldn't just take it for free."I ... Don't have anything to exchange with you ..."

"Then you can use yourself to exchange for it." Lin Yi said seriously as he tried to hold back his laughter.

"Ah!" Qiqi was taken aback-she didn't think that Lin Yi would come up with a condition like this."Can ... Can you change the condition? I can buy on credit ..."

"Where am I supposed to find you if you run away?" Lin Yi said.

"I ..." Qiqi fell silent. That's right, where would Lin Yi find her if she ran? The point was that Qiqi really wanted the Dragon's nail from Lin Yi-with it, there was hope for xiaojiu's recovery.

"Hehe, I'm just teasing you." Lin Yi placed the nail on Qiqi's hand and smiled,"Take it, it's a gift for you. Don't always think of others as so bad in the future!"

Qiqi couldn't hold back her tears as she took the Dragon's nail from Lin Yi.

"Why are you crying again? Didn't I say I was just joking ..."Lin Yi didn't know what to say as he looked at the tear-streaked face.

"No..." Qiqi shook her head."Lin Yi, you're a good person ... I ... I won't kill you ... But I already have someone else in my heart, I'll repay you in other ways."

"Is this a good person card?" "So be it," Lin Yi said with a smile, not really bothered.

"Thank you!" Qiqi smiled through her tears.

"How do I use this thing?" Lin Yi couldn't imagine how the nails of the Dragon of five evils could cure someone,"Are we just going to eat it?"

"I don't know either. I only found out about the use of the Dragon of five evils's claws after asking around for a long time and looking up many ancient books." "How do I use it ..." Qiqi said, "I think it's by eating it?"

"Alright, just pretend I didn't ask." "Let's get ready and head back to safety," Lin Yi said. "Qikun and the others are probably getting impatient. "

"Okay ... But how do we get up there?" Qiqi raised her head and saw how high the cliff was-it was impossible to jump up.

"I've come down with someone else once before. We've left some climbing marks on the cliff over there. We just have to follow the marks and jump up." Lin Yi said as he pointed to a place not far away.

"That's good. " Qiqi let out a breath of relief-she really didn't know how to get up there otherwise. She was good at Qinggong, but she couldn't jump that high!

Lin Yi brought Qiqi to the place where he jumped and climbed with tianshuo. He decided to give it a try, and so he jumped towards the first landing point tianshuo had hit out.

"Ha!" Lin Yi jumped up confidently, but he realized the problem after he jumped. He didn't jump as high as Tian Gang! It wasn't even half of Tian Huan's strength-this was the difference between Earth Class late phase and Sky Class late phase peak!

Chapter 2852 Lamenting The Past

Lin Yi didn't think about climbing up when he went down the cliff to save Qiqi-as far as he was concerned, he could easily climb up with the Big Dipper mark on the cliff.

But now, Lin Yi realized that he was wrong-he'd forgotten the most important thing, and that was the difference in strength between him and Tian Gang. Lin Yi's running speed was about the same as a Sky Class master, but that didn't mean that his pure energy's explosive power was the same. The height that a Sky Class master could jump was not something Lin Yi could reach with his current pure energy.

Qiqi blinked as she saw Lin Yi jump and land-she realized the problem as well! She'd seen the marks left by the Big Dipper, but the height of those marks was something Qiqi couldn't reach!

She knew her own Qinggong-there was no way she could jump this high, and Lin Yi's failure made her face change. "These marks are too high, I can't jump up ..."

"I can't jump up there either ..." Lin Yi smiled bitterly. That jump just now had used up almost all of his energy, but he still didn't reach the height of Tian Huan. This kind of difference in strength couldn't be made up for.

Even if Lin Yi used up all his pure energy, he still wouldn't be able to beat Tian Gang. From the looks of it, not only could Tian Gang jump that high, but he also retained his strength to use his Qi to hit the cliff. Lin Yi, on the other hand, used up all his strength just to jump, let alone hit the cliff!

Plus, with Lin Yi's current strength, it probably wouldn't cause any damage to the cliff. Tian Gang was Sky Class late phase peak, but he only made a few shallow marks on the cliff.

"Ah? "Then we'll ..."Qiqi's eyes went wide."We can't go up?"

"I can't go up." Lin Yi nodded. He was too focused on saving her and didn't think of these things, but it was too late now! Unless there was another practitioner like Tian Gang coming down to save them, Lin Yi really couldn't do anything.

"Then how did you guys get up there before?" Qiqi asked curiously.

"My friend was Sky Class late phase peak before ..." Lin Yi told Qiqi about how he replenished tianshuo's strength on the way up. Qiqi knew that she already knew enough, so Lin Yi didn't need to hide anything.

"Ah, I see! Then ... Are there no other paths?" Qiqi asked with a frown.

"No..." With that, Lin Yi told Qiqi what he'd discussed with Tian Gang about the five fiend mountains. He'd been trapped once already, so he didn't think about finding another way out.

"You can't get out? How could she ..."Qiqi couldn't accept this-she'd finally found something from the Dragon Claw, and wanted to give it to little nine as soon as possible, but she was stuck here.

"That is the truth." Lin Yi was helpless, but there was nothing he could do. "If there was another way out, we wouldn't have used such a clumsy method ..." He said.

"Then ... What about your Sky Class late phase peak friend? Will she find out that you didn't go back and come to find you?" Qiqi asked expectantly.

"That friend of mine was just a random acquaintance. We only met at the last minute. After going up from here, she left. How could she possibly come back?" Lin Yi shook his head. He was worried as well, but looking at Qiqi's face, he knew that she'd go crazy if he kept on panicking. He tried to act calm, but he was actually panicking as well.

However, Lin Yi's hope was on Skybolt pig-he didn't come down with him, and if he waited for a while and Skybolt pig realized that he didn't go up, would he go and report to Feng Shashi and the others?

However, if it was just Li Ciba and Feng Shangshi, Lin Yi couldn't guarantee that they'd be able to get up. They might even be trapped here! Lin Yi had thought of letting Li Ciba go and punch the cliff, but he was only sky Class mid phase. He was a physical practitioner, but the most important thing was that Lin Yi couldn't help him recover his energy. The spring rain had no effect on physical practitioners, and even if Lin Yi brought him up, he'd probably give up halfway!

Of course, he could let Li Ciba recover naturally and bring him up again when he recovered. This way, he could go up one level, but the disadvantage was obvious-the training time was limited. After twenty days, the Qi of the five evils would enter the body. Lin Yi was fine, but Li Ciba and the others couldn't. They would probably go crazy before they even reached half of the height.

So this method wouldn't work. Lin Yi was conflicted-he didn't know what the pig would choose.

"Then ... You still came to save me ... Doesn't that mean that you're trapped here with me?" Qiqi looked at Lin Yi with sympathy, not knowing what to say. She'd seen the help and care Lin Yi's given her, but she didn't know how to repay him.

"Hehe." Lin Yi smiled, but didn't say anything. He could tell from the mark on Qiqi's ring that she came from the place where he trained when he was young, and since she was so close to the ninth Princess,

she must have been a core disciple there. But Lin Yi was still young back then, and his memory was stuck in his childhood. He didn't even remember Xiaoxiao and the ninth Princess, let alone this girl. As the saying went, "girls change eighteen times when they grow up," He probably wouldn't have any impression of it.

Yang Xiaoxiao was his master's daughter, and the ninth Princess was his adopted daughter. The two were training partners when Lin Yi was young, and from then on, his master had taught him that as a team leader, he couldn't give up on any team member-he had to have the spirit of unity and cooperation. This was one of the reasons why Lin Yi came to find yang Qiqi.

Thinking about yang Xiaoxiao and the ninth Princess, Lin Yi felt a little emotional. He hadn't been back for so many years, and it was time to go back and see them. From the resentment in the ninth princess's words, Lin Yi could hear that she was very unhappy that he hadn't gone back to see her for so many years!

It was just that Lin Yi's previous life was a drifting and unstable one-he'd been living his days without a permanent home.

Chapter 2853 Familiar Words

Now that he'd settled down, he'd come across danger in his life, but it was different from before. He had a goal now, and a sense of presence.

After looking at Yu Ning, Lin Yi looked at the ninth Princess again.

"I told you, you're a member of my team. I won't give up on any of my team members ..." Lin Yi said.

"Ah ..." Qiqi found the words familiar, but she couldn't quite put her finger on it. She only felt gratitude towards Lin Yi in her heart, and she decided that if she could leave this place successfully, she'd do everything she could to help Lin Yi find the things he needed in Europe.

"Don't be too anxious, there will always be a way. Let's eat something first. You're hungry, right?" Lin Yi asked.

"En ... A little ..." Qiqi touched her empty stomach. She was worried that she couldn't leave this place, but now that Lin Yi said it, she really was hungry.

"Then wait for me here, I'll go catch some fish from the lake over there." With that, Lin Yi stood up and walked towards the lake that Skybolt pig had pointed him to.

Qiqi looked at Lin Yi's back as he walked away, her heart filled with complicated feelings and guilt. Time reveals a man's heart-she'd treated Lin Yi badly, and it was like repaying kindness with enmity, but he didn't care about the past and always helped her when she was in danger. Qiqi wasn't a stone-hearted person, so how could she not be touched?

Lin Yi, naturally, didn't know that Qiqi's opinion of him had changed. He caught a couple of fish and quickly went back to where he was before. He cleaned the fish and put them in a clean place, starting to barbeque them.

"Alright, let's eat," Lin Yi gave most of the grilled fish to Qiqi, but only picked up one for himself.

"You ... Why did you only eat one?" Qiqi asked, a little embarrassed to keep everything to herself.

"I'm a spiritual practitioner, so I'll be fine after a while. You're a physical practitioner, so you'll recover slower. " Lin Yi said.

"Then ... I won't stand on ceremony ..." Qiqi nodded. The difference between spiritual practitioners and physical practitioners was that spiritual practitioners could absorb the Qi of the world and turn it into their own energy for their own use, while physical practitioners could only strengthen their bodies through constant body strengthening!

Even though physical practitioners could also use the surrounding Qi for their own use after they trained in martial arts, their recovery speed was still slower than spiritual practitioners!

Physical practitioners used up their energy slowly, because martial arts skills used the spiritual Qi around them instead of their own. Each had its own advantages and disadvantages.

However, if a physical practitioner didn't use their martial arts, then naipao's Bramble Arts would lose its effect-it could reflect 80% of Qi back to 240%, but if a physical practitioner didn't use their martial arts and just used their own body to hit naipao, the Qi wouldn't reflect back at all.

However, even if the Masters from the divine fist position didn't know about this, they wouldn't be able to do much damage to Zhang naipao with just their physical strength. After all, physical Masters relied on their skills to win.

This was also the reason why physical Masters were no match for spiritual masters at low levels, but when they were at high levels, they were usually stronger than spiritual masters of the same level! This was also because the Qi that physical Masters used was around their body, unlike spiritual masters who

used their own Qi. The higher the level of the physical Masters, the more spiritual Qi they could use, and naturally the more powerful they were.

Qiqi had her fill of grilled fish, and sat on the ground, looking at the cliff in a daze. The sky was getting dark, but she didn't feel sleepy-she was trapped here, and she didn't know when she could get out.

"Lin Yi, what do you think? if we don't think of a way to get out when the time is up, will the Qi of the five evils enter our bodies and cause Qi deviation?" Qiqi asked, worried.

"I don't think so. I'll walk around tomorrow and see if there's a way out." Lin Yi said.

"En ..." Qiqi nodded. She didn't know why, but after going through so much with Lin Yi, she trusted him more and more. Lin Yi's words made her feel at ease.

The next morning, Lin Yi started looking around for a way to leave, but he couldn't find anything. It seemed like Tian Gang knew this place well. If she said there was no way, then there was no way!

Since Tian Gang was here to receive the inheritance, he must know more about the five evils mountain range than Lin Yi did. Lin Yi couldn't find a way and gave up. He turned to the lake and continued to catch fish.

After catching a few fish, Lin Yi went back to where he and Qiqi were at and continued grilling.

Qiqi couldn't just sit back and do nothing, seeing that Lin Yi had returned. "What can I help you with? Why don't I clean up these fish?"

"It's fine. I'm used to it. Just wait." Lin Yi shook his head and started cleaning the fish ...

Yanjing city.

Tianli finished the pack of cigarettes quickly-he tried his best to reduce the number of cigarettes he smoked, but it didn't take long for him to finish the last pack of cigarettes.

Tianli picked up his phone and was about to call Mr. Lang when his phone rang. To his surprise, it was from Mr. Lang.

"President lang, I was just about to call you!" Tianli said with a smile.

"President Liu, are you in a hurry? are you afraid that I'll run away after you give me the money?" Little purity asked with a bright smile.

"Haha, how can that be? President lang and I have a comprehensive strategic cooperation, and our medicinal herbs business is worth hundreds of millions a year. Do you think President lang will be interested in this thirty million?" Tianli didn't think that Mr. Lang would lie to him. On one hand, it was thanks to the hypnotist, and on the other hand, the two companies would have a few hundred million in business each year after signing the contract. Mr. Lang wouldn't be interested in such a small amount of money.

"I was just joking. Boss Liu, I have good news to report to you!" Xiao Chunjie said.

"Oh? What good news? Do you have cigarettes again?" Tianli asked, surprised.

"We do have cigarettes, but they were all booked out as soon as they arrived. Mr. Liu, I think you should just bear with it for a while. We should focus on making money!" Little purity said.

Chapter 2854 Plan To Reel In The Net

"Ah? It's already booked out? Not a single bit left?" Tianli was taken aback. "President lang, that won't do. At least leave some for me. I'd rather earn less money than keep my own!"

"But, the profit is very high. The purchase price of this pack of cigarettes is about 10000 Yuan. I resold it for more than 20000 Yuan. There are a total of 2000 packs of cigarettes in this batch. Once resold, I can get 200% of the profit!" Little pure said, "we invested 30 million, including the money we used to bribe the gang leaders when we smuggled them in. This batch of goods was sold for more than 50 million. That's more than 20 million in profit!"

"Then it's not a big deal. Leave me ten ... No, twenty!" Tianli had thought that the cigarettes would be expensive, but it didn't seem that expensive. He let out a breath of relief and ordered more.

"Twenty? I'll try my best ... Ten should be fine, but twenty depends on the situation!" Little purity hesitated for a moment and said, ""Oh right, President Liu, let's split the money we earned. We'll each get 13 million. Shall I transfer it to your company's account?"

"Oh? Was this the only business he was going to do? You won't do it again in the future?" Tianli asked, stunned. The profit was very tempting-he was a conservative person, and while it was fine to stay in business, starting a business was a bit difficult. He didn't want to let go of this opportunity.

Plus, the cigarettes had become a necessity in his life, and without them, he couldn't imagine how much he would have to endure. Subconsciously, he hoped that the business would continue.

"It's too much money to bribe the snakeheads once we cross the border. This time, it's through connections. Next time, I'm afraid they'll have to spend about 20 to 30 million before they're willing to help us smuggle ships. In that case, there won't be much profit. I'm thinking of doing it once and forget about it." "After all, our capital is limited," President Lang said, playing hard to get. "It's not interesting to go through it again!"

"I see ..." Tianli didn't know the details of smuggling-he'd always been doing proper business, and even if he wanted to import something, he'd go through the official customs channel. He'd never asked a smuggler to make a ship do the smuggling, so he believed what Mr. Lang said. However, Tianli wasn't willing to give up. "Then should we increase the amount of goods we buy each time, or should we talk to those gang leaders again?"

"This ... It's not impossible. First, I'm afraid that I'll take up too much of your funds. Second, I'm afraid that you'll think that this business isn't the right one and won't be interested in it." President Lang said.

"We can do some research on the funds. As for this business, I'm not interested in such a huge profit. How can that be possible?" "I see, Mr. Lang, where are you?" I'll go find you and we'll talk about it in detail. "

"I'm at the hotel. I'll take Cui to your company to talk about it. I'll also bring you the cigarettes on the way." Little Purity said.

"Alright, I'll be waiting for you in the company." Tianli said.

Half an hour later, Xiaochun arrived at Tianli's office with the hypnotist, and Tianli welcomed them warmly in the reception room.

"President lang, you're amazing. You've made such a high profit in just a few days!" It wasn't like Tianli hadn't seen money before, but to be able to make so much money in just a few days, it was a speed that couldn't be underestimated.

"Haha, you're too kind. It's nothing. If not for President Liu's great support, I wouldn't have made so much money!" "But it's not impossible for us to continue investing ..." Little purity waved her hand and smiled.

"Yes, the more you invest, the greater the return. For example, if you invest a few hundred million, the return will be even greater!" Chui mianshi seized the opportunity and said.

"That's right. Then let's invest 500 million. I hope we can earn more money!" Tianli didn't know what was going on, but a strong desire to invest suddenly appeared in his mind-he said without even thinking.

"That's fine. Let's sign another contract and continue with this business." Little purity said.

"Okay, no problem. I'll start to raise the money in two days!" Tianli's company didn't earn much after being the agent for miracle doctor Guan's medical company, but they had a lot of cash flow. It was hard

for them to even gather one hundred million when Lin Yi was treating Zhenhu, but five hundred million wasn't a problem now!

Although most of it came from the company's funds, it was still okay to embezzle some from time to time. After all, Lin Yi trusted house Liu a lot, and he never checked the accounts before. Tianli had a lot of room to do things.

"The contract is still the same as last time, just a change in the number." Chui mianshi said as she took out a contract from her bag and handed it to him.

Tianli nodded and looked through the contract. It was the same as the last one, but the investment amount wasn't fixed."No problem. I'll sign it now and raise the funds for you!"

They'd worked together many times already, so Tianli didn't have any suspicions and signed the contract.

In the next few days, Tianli started to raise money for little pure. He used the company's funds to buy herbs for miracle doctor Guan's medical company, as well as some of the money from the clients, and transferred it to Mr. Lang's account.

With cigarettes, Tianli's future days were going to be a lot more comfortable. He would smoke every day, fantasizing about how the five hundred million would suddenly become one billion. With that, no one would doubt their ability to expand.

However, two days later, little pure called again.

"Boss Liu, it's me." Little purity said.

"President lang, what's the matter? How's the organization of our goods?" Tianli asked.

"The goods are almost organized, but there are some other things I want to discuss with you. We're going to do it, how about we do it big?" Little purity asked.

"Make a big one? What did that mean? How did you make it big?" Tianli asked, surprised.

"How about this? I'll go with cui, and we'll talk in detail in your company!" Little purity said.

"Okay, then I'll be waiting for you in the company." Tianli said.

This time, little pure and cui mianshi arrived very quickly. Less than 20 minutes after hanging up the phone, they arrived at the reception room of Liu Tianli's company.

Chapter 2855 Spirit Beast Going Berserk

"President lang, what's your plan?" Tianli asked.

"I'll let cui tell you the details. " Little pure made a hand gesture to cui mianshi. Today was the day to close the net, so to be on the safe side, little pure was prepared to let cui mianshi explain.

Even though Chui mianshi had been constantly giving Tianli psychological hints all this time, and with the addition of little pure and Tianli 's' good 'friendship built up with cigarettes, there were no flaws at all.

"Well, it's the harvest season for tobacco leaves in that small country, so the price of cigarettes has been much cheaper recently. It's about 8000 Yuan per cigarette. If we take this opportunity to bring back a large number of cigarettes, even if we can't sell them all at once, we can still sell them for a month and slowly sell them. We can still make more money." Chui mianshi told Tianli the story she had prepared beforehand. Of course, she didn't need to waste her breath-she was already hypnotizing Tianli when she spoke.

"In other words, as long as we invest more money, we can earn more money?" Tianli understood what she meant.

"That's right. What's boss Liu's intention? Although we can earn more money now, it will take up a lot of funds. Isn't it still profitable to put these funds in the bank?" Chui mianshi said on purpose, but as she spoke, she used her hypnosis to hint to Tianli that it was okay to use up the funds, as long as they could make money.

"It's not a big deal-I'm familiar with miracle doctor Guan's medical company, so it's okay to transfer the money to them later. It's not a problem to delay it for a month or so, but it's a little difficult to raise more money. We'll have to wait for miracle doctor Guan's medical company to send their products over this month. I'll sell them wholesale, and the provincial agents and distributors will have to pay me back first. It'll take a few days. " Tianli wouldn't have been so blind if he had been in another business, but he had smoked this cigarette before, and he knew how good it was. There were many rich people who felt the same way as him, and with Chui mianshi's hypnosis, there was only one thought in his mind, and that was how to raise the money. He didn't even think about suspecting anything.

"Alright, it's up to you, President Liu. It'll be best if this deal is successful, but don't bring a burden to your company! There's no end to earning money, there'll be more opportunities in the future!" Little purity said, pretending to be generous.

"Haha, President lang, money is definitely not a problem. Since I've agreed, I can naturally get it. Since there's such an opportunity, let's make a big one. I'll go and prepare now!" Tianli didn't say anything else, and quickly went to get the money.

"Alright, I won't disturb you any longer, President Liu. If there's any good news, please share it with me." Little purity also stood up. "Then I'll take my leave. President Liu, please go ahead!"

With the position as the main agent and supplier of miracle doctor Guan's medical company, funding wasn't a problem for Tianli. As long as both sides put in some pressure, he could raise one billion. So after sending off President lang and cui mianshi, he lit a cigarette and started to smoke. At the same time, he started to think about how to use the company's funds ...

Today was the 15th day of the sky elixir sect's trial. Only a small number of participants had returned to the back mountain of the sky elixir sect through the teleportation formation. Most of the participants would be staying here forever!

In the five evils Savage Land, the corpses of cultivators could be seen at a fixed distance. They were all cultivators who had been killed by spirit beasts.

Qikun, Shasha, Ciba, and GE Xian were all panicking-today was the day they were supposed to leave the five evils Savage Lands, and Lin Yi wasn't back yet! Although there was still a delay of five days, there had been no news for so many days. There might not be any news in the next five days!

"Boss hasn't returned yet, what should we do?" Feng Shasha looked at Zhao Qikun-he was the first one to follow Lin Yi, and he knew his personality the best. So with Feng Shasha's question, Li Ciba and GE Xian also looked at him.

"Let's wait for two more days. If boss doesn't come back in two days, we'll go to the teleportation array together and leave this place first!" Qikun said after some hesitation. He understood Lin Yi's personality-if he met with danger or trouble, then they'd only be a burden to him if they stayed!

Moreover, there was five evils Qi in the five evils Savage Land. After 15 days, the five evils Qi would invade the body of the cultivator. Once the time reached 20 days, it would be beyond the tolerance range of a normal cultivator. If they didn't leave, the five evils Qi would cause them to faint or even go into Qi deviation.

So, there was no point in them waiting here. If they were hit by the Qi, Lin Yi would have to find a way to save them. It was better to leave first.

"This ... Isn't very good. Without boss, we'll be in a very dangerous situation. We might even die Here!" Li Ciba admired Lin Yi the most-he'd just avenged his fellow disciple! If he didn't have Lin Yi as his boss, Naipao would be like an enemy to him. He was different from the others-Naipao wouldn't let him stay in a safe place, even if he didn't kill him.

"Ciba, you've misunderstood me. Boss is a man of his word. If we continue to wait here, the Qi of the five evils will inevitably invade our bodies. If he can't deal with it, then we can't either. The boss told us to leave after the trial ends today, so we'll wait for two more days. If he doesn't come back by then, we'll leave first." Qikun explained.

"That's good. " Feng Shangshi understood what qikun meant and nodded, ""Brother qitan is right, boss is strong. We can't help much here and might even drag him down."

Li Ciba nodded. Although he didn't want to leave, qikun and Feng Shangshi's words made sense. He knew that there was no point in waiting here, so it was better for him to leave. However, he was more worried about something else, "These past few days, the spirit beasts outside seem to have gone berserk. In the past, as long as there was a long distance, the spirit beasts would not take the initiative to attack cultivators, but now, the spirit beasts are chasing and attacking cultivators. I'm afraid that even if we go out, we won't be a match for these spirit beasts. If we're not careful, we might die Here. It's really a dilemma ..."

Chapter 2856 Still No Way

"I've observed that spirit beasts are less active at night. If my guess is correct, the spiritual Qi of heaven and earth, or the Qi of five evils, is more dense at night, which is convenient for spirit beasts to cultivate. Therefore, they rarely walk around at night. Even if they see human cultivators, it shouldn't be a big problem if they don't provoke them." GE Xian was an observant person. It was impossible to sell information at the ancient level without keen insight. He would inadvertently notice many things that others did not notice. He had been observing the pattern of the spirit beasts 'insurrection for the past few days and came to this pattern: "However, it wasn't like this for the entire night. Between two and four in the morning, not a single spirit beast passed by the safe zone."

"Oh? Is that so?" Feng Shangshi was overjoyed. "GE Xian, you're really well-informed. You've even discovered this pattern?"

Normal cultivators would find it hard to notice the pattern of the spirit beasts "insurrection under such a tense situation. Even the sky elixir sect didn't know! This was because no one could predict the movement patterns of the spirit beasts after they went berserk!

Before the spirit beast riot, the movements of these spirit beasts could be said to be irregular. They could cultivate when they wanted to, rest when they wanted to, and attack when they wanted to! However, it was different now. They were in a frenzy to find cultivators every day, but they could not be

in a frenzy 24 hours a day. There must be a time for them to rest and cultivate. This time was between two to four in the morning when GE Xian discovered them.

"I'm ashamed. I only confirmed it last night. After all, I wasn't sure about my guess before." GE Xian shrugged and said, "with our speed, we can reach the teleportation array in two hours. After all, we are not far from the teleportation array. We don't need to leave three days in advance. We can just leave two days in advance. We can wait another day."

"That's good, then we'll wait for three more days!" Qikun nodded. "This is a good time to test out the rules of the spirit beast insurrection."

Under the cliff of the five fiends mountain, Lin Yi had been catching and roasting fish for Qiqi every day- he'd already given up on finding a way out, and Qiqi had become a little quiet as well, especially with the end of the test coming closer and closer. She was feeling even more depressed.

"Lin Yi, today's the fifteenth day of the test. Do you think we can't get out?" Qiqi asked as she took the grilled fish from Lin Yi and stuffed it into her mouth mechanically.

"If you can't get out, isn't living here not bad?" Lin Yi explained with a smile. In fact, Lin Yi was worried as well, but it was useless to be worried when he had no other choice.

"Haha, don't try to comfort me-if we stay here for more than twenty days, the Qi of the five evils will enter our bodies, and we'll all die Here ..." Qiqi smiled bitterly. "Although I don't have much social experience and am a fool, I know that the rules of the trial are true ..."

Lin Yi's heart was heavy at Qiqi's words-the Qi of the five evils was fine for him, but not for Qiqi. Helplessly, he entered the Jade space.

"Hey, I say, senior old ghost, do you have any good ideas for me to leave this place?" Lin Yi asked the ghostly thing directly.

"..." The thing stayed in the corner and didn't answer Lin Yi.

"Hey, I know you're not asleep yet, so answer me quickly. Otherwise, if I die Here, you can forget about cultivating! This Jade space is bound to me. If I die, this Jade space might be gone. " Lin Yi threatened.

"You won't die. The Qi of five evils here is not harmful to you. Instead, it's useful. Although it's not as pure as the spiritual Qi in the Jade space, you can still use it for cultivation." The ghostly thing finally spoke,"can't you just disturb me?" It's very difficult for me to enter a dormant state!"

"That's not for sure. What if the Qi of the five evils enters my body? There are accidents in everything, and even if there aren't any accidents, there's no point in me living here alone. I might even commit suicide!" Lin Yi threatened the ghost.

"Oh, if you really don't want to live, I can't do anything about it. I'll just leave the Jade space. As I said before, although the Qi of five evils here is not as pure as yours, I can still cultivate!" The ghostly thing said unhurriedly,"Think carefully before you die."

"Alright, I'm begging you. Do you have any way to get me out?" Lin Yi said, trying to use both tactics now that his threat had failed.

"I really don't have any." The demonic thing shook its head. "Why don't you call over a spirit beast that can fly? I'll communicate with it and see if it can bring you up."

Lin Yi was speechless. "This ... Where should I go to get one? There aren't any spirit beasts nearby. "

"Then I have no other choice. I will continue to enter the dormant state. Don't disturb me if there's nothing important!" The thing said to Lin Yi and disappeared.

"Elder Jiao ..." Lin Yi looked at elder Jiao.

"I don't have a choice either. But you should train a little more. When you become a heaven's path expert, my memory might be restored. I might even be able to call for flying saucers and bring you up." Elder Jiao said.

"Heaven's will ... Flying saucer ..." Lin Yi's face darkened as he returned to reality.

"What are you doing?" Qiqi really had a lot of free time these past few days-she asked Lin Yi after seeing him just sitting there like an idiot, "Are you cultivating?"

"No, I didn't," "I'm thinking of a way to get out," Lin Yi shook his head.

"Have you thought of a way?" Qiqi asked.

"Not yet," Lin Yi shook his head and gave a grilled fish to Qiqi. "Here, the last grilled fish. It's done, you can eat it!"

"Oh ..." Qiqi took the grilled fish and started eating. After finishing, she sat on the ground and looked left and right, not knowing what to do. Suddenly, she saw the fish bones she had eaten before, and started setting them up.

Everyone knew how to eat fish, but it would take some effort to put all the fish bones together in order after eating the fish. The big bones in the middle were easy as long as they were not broken. But the bones on the back and belly were small and messy, so it was much more difficult to put them together in order.

However, Qiqi arranged the bones carefully-perhaps this was the best way to kill time when she was bored.

Chapter 2857 Familiar Words 2

Lin Yi blinked as he looked at Qiqi arranging the fish bones, sinking into his memories ... Back when he was young, his master had come up with a question like this to train his memory and observation skills-putting the fish bones back after eating was a test every year, too.

However, all of this had become part of Lin Yi's memory, forever. His master had left, and he didn't know where she went. As for the fish bones, Lin Yi didn't go and place them one by one anymore. One reason was that Lin Yi didn't need to train his memory and observation skills like this anymore. Two, Lin Yi was gradually stepping onto the path of a practitioner, leaving the days of being a killer ...

Lin Yi was filled with emotions as he looked at Qiqi, as if he was back in his childhood ...

Lin Yi wasn't surprised that Qiqi knew how to do this-she was from that assassin organization, after all, and this sort of training should be pretty common. It was just that she wasn't that familiar with it, and it seemed like it'd been years since she last did it.

Qiqi was focused on putting the bones together-it wasn't just Lin Yi, but she felt like she'd returned to her childhood as well. It was normal for people to reminisce when they were in despair, and it was the same for her.

Before she knew it, half an hour had passed. Qiqi used to only need a couple of minutes to piece a set of fish bones together, but things were different now. Sometimes, she needed half a day to piece one together.

Qiqi picked up a fish bone, put it down, and picked it up again. She wasn't sure what to do-this was a similar fish bone, one on the back and belly of the fish, and the length and thickness were about the same. She frowned and started thinking.

After a while, Qiqi finally put her hand down and placed the bone on the fish's stomach.

"This is a Fishbone on the back of a fish. I've told you the difference many times, but why can't you remember it?" Lin Yi didn't know whether to laugh or cry at Qiqi's actions, but he realized that something was wrong after he finished!

The person in front of him was yang Qiqi, not his childhood playmate, yang Xiaoxiao ... His master's daughter, yang Xiaoxiao, used to mess up this fish bone too, and Lin Yi had to correct her every time.

"Ah?" Qiqi froze, her eyes a little dazed. She raised her head and realized that it was Lin Yi! In that moment, she even thought that Lin Yi was the same person, "What did you just say?"

"Nothing, I said you misspelled it. This fish bone should be here." Lin Yi said, pointing at the fish's back.

"How did you know?" Qiqi was confused-she was too caught up in her own memories to hear what Lin Yi said, or maybe she was hallucinating.

"I also tried." Lin Yi said.

"Oh ... Thank you ..." Qiqi put the bone back on the back of the fish. "I didn't expect you to do such a boring thing."

"Are you bored ..." Lin Yi was considering if he should tell her that he was from that assassin group as well. He wasn't familiar with Qiqi before, but they'd met so many times, and this time, they were friends in need. Lin Yi didn't have to worry about her character. This girl was a bit of an ingrate, but she wasn't one to blabber and go around telling people.

Plus, he was planning on going to the island where he trained after the test was over to visit yang Xiaoxiao and xiaojiu.

But Lin Yi didn't know if he'd be able to get out of this test yet, and he wasn't in the mood to talk about it. "Fish bones can train one's memory and observation."

"Eh? You were an assassin before?" Qiqi blinked.

"Every cultivator is actually an assassin. In the world of cultivators, today's friend may be tomorrow's enemy. If you don't have a keen intuition, I'm afraid you won't even know how you died!" "It's just like how you're kind enough to save someone, but that person wants to kill you instead," Lin Yi said with a smile.

"You ... Lin Yi, why are you still talking about this? I already said I won't kill you!" Qiqi's face was red, very embarrassed.

"I'm just giving an example, not you!" Lin Yi said innocently.

"I didn't say that." Qiqi denied.

"Hehe." Lin Yi smiled.

"What are you laughing at?" Qiqi asked.

"Nothing. I just feel that you look like a friend of mine from the past." Lin Yi was just telling the truth-he had an illusion that Qiqi was his childhood friend, yang Xiaoxiao, but it was just an instinct.

After all, it'd been so many years, and Lin Yi didn't even remember what yang Xiaoxiao looked like. The Yang Xiaoxiao right now should be training hard, preparing to inherit her father's former King of Assassins position! It was impossible for him to risk his life to enter the cultivation world and participate in some trial.

Although both of them were surnamed yang, many of the disciples of this generation were orphans. After they graduated, they followed their master's surname, yang, so this was not surprising.

"Your excuse for hitting on me is really poor." Qiqi rolled her eyes at Lin Yi, her voice weak.

"How is this flirting? I know you, okay?" "I'm telling the truth. You don't think that I'm trying to pursue you, do you?"

"That's hard to say. There's only the two of us left here. If we really can't get out, if you don't chase me, who do you chase? There aren't even any spirit beasts here!" Qiqi was just joking-it was too boring here, after all, and she'd accepted Lin Yi already, so she didn't have any hostility towards him anymore.

"Hehe, I really can't get out, so I'll consider it." Lin Yi said.

"No, I already have a Prince Charming in my heart. I'd rather die than submit." Qiqi said.

"Then haven't you heard of the Overlord forcing himself on the bow?" Lin Yi asked.

"If you're not afraid that I'll kill you, then do as you wish." Qiqi said.

"Haha ..." Lin Yi smiled and looked at the sky. It was already night. "Rest. I should start cultivating too."

"En ..." Qiqi didn't hesitate and lay down on the ground, ready to sleep. She wasn't on guard against Lin Yi-with his strength, it was impossible for him to do anything to her. It was just like what Lin Yi said-he could force himself on her.

Fifteen days was indeed the best time to leave the trial. This was the dividing line!

Chapter 2858 Passing The Trial

Although on the 16th day, the cultivators who stayed in the trial ground would not directly pass out or suffer from Qi deviation, they all experienced different degrees of weakness and dizziness, which were the signs of the Qi of five evils entering the body. They must leave the Savage Land of five evils as soon as possible before 20 days. After leaving, the Qi of five evils in their bodies would slowly dissipate. Once 20 days passed, they would pass out or suffer from Qi deviation, but the Qi of five evils in their bodies would not dissipate automatically.

Qikun and the others all had these two problems at different levels. Qikun and Li Ciba were Sky Class Masters, but they weren't that strong yet. Qikun was the most affected, followed by GE Xian.

"Qitan, if we really can't do it, let's leave tonight. I think your condition is the most serious and I'm afraid you can't hold on. If something really happens to you, then boss will be very worried." Feng Shanshan said.

"This ... Just hold on for one more day ... I can still do it. If boss doesn't come back tomorrow, we'll leave!" Qikun said after some hesitation.

"That's good. " Feng Shanshan nodded.

Below the cliff, Qiqi was in the same situation-her situation was even worse than qikun 's. She was weaker than qikun to begin with, and while her level was higher-Mystic late phase peak-her defense was much weaker than qikun' s. Plus, this was the mountain with the densest five evils Qi in the entire five evils wild land-the Dragon of five evils wouldn't be able to rule this place otherwise.

"Lin Yi, fifteen days have passed, today is the sixteenth day ... I'm a little dizzy, and I don't have any strength. Did the Qi of the five evils enter my body?" Qiqi's spirit dropped significantly.

"I think so, but don't worry. There's always a way out. Maybe there are other ways." "I'll go catch some more fish to replenish your energy,"Lin Yi said as he stood up.

Lin Yi didn't ask Qiqi if she was Xiaoxiao, but he knew that she was here to get medicine for nine. He was very concerned about her.

"En ... Thank you ..." Qiqi smiled. She suddenly felt that it was good to have Lin Yi by her side before she died. She thought that Lin Yi was a pervert, but now it seemed that he wasn 't-he was a good person!

If her heart wasn't already occupied by someone else, perhaps she would have fallen in love with him!

At that thought, all the good things about Lin Yi flashed through her mind-he carried Xiaoxiao to the Ice Palace test, going through all that trouble just to get medicine for his girlfriend. How touching was that?

And he had helped her again and again without asking for anything in return! No wonder that Yu Xiaoke girl liked him, he had so many good points ...

In the blink of an eye, Lin Yi had returned from fishing-he'd been fishing every day, and he'd always been grilling fish for Qiqi.

"Thank you ..." Qiqi didn't know what else she could say to express her feelings other than that. She took the fish silently and started eating.

However, Qiqi didn't have the energy she had yesterday-she'd fallen to a corner to rest after the grilled fish, her head spinning. Lin Yi, on the other hand, was fiddling with the fish bones out of boredom.

Even if Lin Yi was panicking, there was nothing he could do-he wasn't Zhang naipao, and he couldn't suck out the Qi from Qiqi's body. Qiqi wasn't a spiritual practitioner, either, and he couldn't help her refine or expel it.

That damn thing was right-the Qi of five evils was harmless to Lin Yi. He was no different from when he first entered the trial ground, full of energy ...

At the sky elixir sect's teleportation formation, Zhao qitan, Feng Shanshan, li ci BA, and GE Xian had successfully arrived at the teleportation formation according to GE Xian's prediction. They returned

safely, and when the four of them arrived at the mountain, the sky elixir sect disciples came up to check on them,"The four of you, please go to our sect's eighth elder and submit your name and spirit medicine for the trial!"

Zhaoming looked at the four, and his heart jumped when he saw qikun. Wasn't that Lin Yi's follower? Why didn't Lin Yi come out? Did naipao kill him?

With that thought, Zhaoming felt great-it seemed like he'd made the right decision to place his hopes on naipao. Why else would Lin Yi still be in there? It was the seventeenth day of the test, and Lin Yi's follower was out. There was no reason for him not to come out.

However, what made Zhaoming even more confused was why naipao wasn't out yet. Did he die with Lin Yi? However, he didn't care if naipao lived or died-if he died, then so be it.

"Feng Shasha, from the ancient Feng family, has successfully obtained a trial elixir!"

"Li Ciba, from the ancient godly fist Palace. You have successfully obtained a spiritual medicine!"

"GE Xian, rogue cultivator, has successfully obtained one spiritual medicine!"

"Zhao qikun, from the Hidden House Zhao, has received a spirit herb!"

It wasn't a problem for the first three to pass the test, but qikun, a Mystic from a hidden level, passed as well-this was quite mysterious. He was the first person to pass this test with such low strength.

However, the sky elixir sect wasn't too surprised to see the four of them come out together.

Originally, the four of them only had Two Spirit herbs in their hands, which they had gotten from the two disciples of the dark night Palace. However, along the way, they were lucky to see two cultivators who had been killed by the spirit beasts. On their bodies, they found two more spirit herbs, so each of the four had one.

After the registration, the four of them could return to the sky elixir Inn to wait for the final trial rewards. Once the twenty days were over, the trial rewards would be distributed.

Although there was a large group of sky elixir sect disciples standing next to the teleportation formation at the back of the mountain, there was actually a simple Palace behind them. This was the temporary residence of the young sect master of the sky elixir sect, the heavenly silkworm transformation!

Even Kang Zhaoming didn't think that the heavenly silkworm transformation would personally come to the outside of the teleportation formation!

Zhaolong registered the names of the group and rushed to the palace with the list. He knocked on the door carefully and said,"Young sect master, it's me, little Ming!"

"It's little Ming. " The heavenly silkworm transformation's voice rang out from within the palace,"Little peach, go open the door!"

Chapter 2859 Heavenly Cocoon Transformation?

"Yes, young sect master." Little peach quickly went to open the door for Zhaoming, who then followed her into the room.

"Little Ming, it's already past four in the morning, and there are trial-takers walking out of the teleportation array?" The heavenly silkworm transformation clearly didn't rest either. His eyes were bloodshot and he looked somewhat Haggard.

"There are four cultivators who have successfully passed the trial and brought back the trial spirit herbs." Kang Zhaoming quickly took out the record book and gave it to Tian canba, "Young sect master, this is the name list of those four people!"

"Oh, let me see." The heavenly silkworm transformation took the notebook from Zhaoming and looked at it. After reading the name, they looked disappointed. They didn't say anything, and no one knew what they were thinking.

Kang Zhaoming didn't dare to make a sound as he stood to the side and waited.

"It's been eighteen days, and he's still not out yet ..." The heavenly silkworm form mumbled to itself as it returned the notebook to Zhaoming.

"Young sect master, what did you say? Who didn't come out?" Kang Zhaoming didn't hear what the heavenly silkworm transformation said and quickly asked.

"Nothing ..." Heavenly silkworm transformation shook his head and said, ""I'm tired and want to rest for a while. Little Ming, you can go down first. But if anyone comes out, let me know immediately!"

"Yes, young sect master." Kang Zhaoming nodded and smiled, "Young sect master, you must be tired. I'll give you another massage!"

With that, Zhaoming reached out to grab the heavenly silkworm's shoulders. He felt like he was already very familiar with the place, and he often massaged them, so he didn't need further instructions.

The sky silkworm transformation wasn't in a good mood today, but Zhaoming didn't mind.

"Pa!"

A crisp sound was heard, and it was especially ear-piercing!

Zhaoming didn't even get to touch the heavenly silkworm form's shoulder before it sent a slap across his face!

"Ah!" Zhaoming was shocked and jumped. He covered his cheek-the teeth were all gone. It was painful, but he didn't know what was going on. He mumbled, "Young sect master, why did you hit little Ming ..."

Little peach was also stunned. Hadn't Kang Zhaoming been giving her massages all this time? Why did he hit Kang Zhaoming all of a sudden?

"What massage? Don't be so rude. Little Ming, remember your identity!" Heavenly silkworm said angrily.

"Ah?" Kang Zhaoming was dumbfounded. What was going on? Could it be that he had lost his memory during the heavenly silkworm transformation? Why was it that he could get a massage in the past but not today? Not only did he refuse to give her a massage, but he also slapped her and said that she was being rude?

Why didn't he say that before? Why did he only say it today? Kang Zhaoming was extremely depressed, but he also understood one thing. Little peach was right-accompanying a sovereign was like accompanying a Tiger. There was no reason to talk to the young sect master.

If he wants to hit you, then hit him. Whatever he says goes, and you don't even dare to refute!

"Yes ... Young sect master, I'm sorry ... I was too impulsive ..." Zhaoming held his cheek and was about to cry.

"Forget it, you can leave now ..." The heavenly silkworm felt that its reaction was a bit too strong. Looking at Zhaoming's pitiful face, it was moved. Did its brother ask for a massage? Otherwise, with Kang Zhaoming's personality, he wouldn't have the guts to do something like this!

At that thought, the heavenly silkworm clone suddenly realized that she'd misunderstood Kang Zhaoming. This guy sure was unlucky. However, as the young master of the sky elixir sect, it was necessary for her to maintain her dignity. She didn't show any sympathy at all as she closed her eyes and allowed little peach to take Kang Zhaoming away.

Only after little peach left the room did the heavenly silkworm transformation open its eyes once more ... What happened to me? Why did she care so much about him? Was it because ... He had fought side by side with her, and was a friend who had gone through thick and thin with her? or was it because he was the first man who had touched her body?

If Lin Yi was here, he would be able to recognize that this was the girl in yellow, Tian Ji! She was the elder sister of the heavenly elixir sect, and the young sect master of the heavenly elixir sect!

During the first few days of the test, her little brother Tian Bian was the one pretending to be the young sect master, but now it seemed like he wasn't doing it well. He even asked Zhaoming to give him a massage? Tian Gang didn't know whether to laugh or cry!

After passing the test, she changed into her heavenly silkworm transformation and moved into the villa. Her purpose here was to secretly check if Zhang naipao had passed the test. Zhang naipao was an important person to the five elements sect's future plan, and that was why Tian Gang had been paying attention to his news!

However, Tian Gang seemed to be more interested in Lin Yi's news, so Zhang naipao's news was not important anymore!

If this had happened in the past, Tian Gang would definitely have prioritized that plan. That was her mission, and also the mission of the sky elixir sect's rise. The five elements sect had already promised her that as long as the plan succeeded, the remaining power of the five elements sect would belong to the sky elixir sect. At that time, the sky elixir sect would become the number one sect in the world of cultivation!

For the dreams of his father and grandfather, Tian Huan had sacrificed himself.

But now, Tian Gang suddenly felt that all of this was an illusion ... But she could not escape it.

Her life was already going according to her plan, and there was no way to change it ...

Tian Gang touched his chest and blushed. He had a special feeling. He missed that moment when he was moved.

But she was afraid that she wouldn't have anything to do with Lin Yi in the future. Even if she did, it would be as the young master of the sky elixir sect, sky silkworm transformation, and not as Tian Gang.

At that time, the two of them might already be standing on opposite sides ...

Thinking of this, Tian Gang was a little dejected. He would no longer admit that he was Tian Gang in front of him.

He had to be strong. Tian Huan had only appeared during the trial, and now that he was back at the heavenly elixir sect, he was still in the heavenly cocoon transformation. He had to shoulder this responsibility!

Kang Zhaoming and little peach left the courtyard together. Kang Zhaoming's face was still very swollen, but he didn't dare to take the small reversion pill. He could only hold on, and little Peach's heart ached at the sight, "Brother Kang, why don't you take a small reversion pill? Our sky elixir sect has plenty of these things, you can make them yourself ..."

"I didn't dare to eat it when the young sect master hit me." "Little peach, you're right. The young sect master's temper is unpredictable. He's probably in a bad mood today, so I'm the one in trouble ..."

Zhaoming smiled bitterly.

"That's right, brother Kang. You have to be more careful in the future. Otherwise, if I fall out of favor, how are you going to marry me?" Little peach was also a little worried.

"Don't worry, little sister peach. I'll definitely work hard for you and make the young sect master accept me!" Zhaoming said.

Chapter 2860 Legacy Failed

"Yes, yes!" Little peach looked at Kang Zhaoming with a dazed expression, "Brother Kang, you're the best ..."

Kang Zhaoming didn't dare to stay any longer and quickly returned to the teleportation formation. After all, he was the managing elder here. After exchanging a few words with little peach, he ran back.

Tian Gang's thoughts ran wild for a while. He didn't expect to hear footsteps coming from the entrance of the palace again, but this time, they didn't knock. They pushed the door open and entered. The palace wasn't locked, but the disciples of the sky elixir sect, even the elders, didn't dare to enter.

Tian Gang quickly opened his eyes and stood up to welcome them. Those who could enter like this were definitely those important people!

As expected, the newcomers were actually patriarch xuanzhen and patriarch xuanchen! Tian Gang was no stranger to patriarch xuanzhen, but he was not very familiar with patriarch xuanchen. Her heart tightened slightly when she saw patriarch xuanchen suddenly appear!

Only a few people knew about her relationship with patriarch Xuan Zhen. She had been hiding it from him all along! Of course, Tian Gang did not know that when she went to participate in the trial, patriarch xuanchen had already pointed out to patriarch xuanzhen that he knew that Tian Gang was patriarch xuanzhen's disciple and that patriarch xuanzhen had connections in the heavenly elixir sect!

On the surface, Tian Gang and Tian Bian obeyed patriarch xuanchen, but they still respected patriarch xuanzhen as their master. However, some things had to be hidden. Otherwise, not only would she and her brother Tian Bian be in trouble, but patriarch xuanzhen would also be in trouble.

"Huang 'er greets patriarch xuanzhen and patriarch xuanchen!" Tian Gang carefully bowed and greeted.

"Tiangang, call Master and uncle-master," Patriarch xuanzhen waved his hand. There were some things that he thought were secretive, but he did not expect that they could not be hidden from patriarch xuanchen's eyes and ears. Therefore, there was no need to hide his master-disciple relationship with Tian Ji.

"Yes ..." Tian Gang was alarmed. As expected, patriarch xuanchen knew about it! However, she was still the young sect master of the sky elixir sect, and so she saluted him again without changing her expression. "Chan 'er greets master and martial uncle!"

"No need to be so polite!" Ancestor xuanchen did not dwell on this matter and waved his hand. He was currently the temporary sect master of the five-elements sect, so although Tian Ji was ancestor xuanzhen's disciple, ancestor xuanchen had the most say. "Take a seat. I've already brought the five elements sect's physique test ball. Place your hand on it and check if the inheritance is successful!"

In patriarch xuanchen's eyes, Tian Huan was just a chess piece. He measured others by whether they were useful to him. If they were useless, he would kick them away.

"Yes!" Tian Gang sat on the floor of the living room as he was told, while patriarch xuanchen took out a box. He took out a round bead and placed it in front of Tian Gang. "It's not your first time taking the test. Try again."

"Yes!" Tian Gang quickly stretched out his hand and placed it on the physical test ball.

In an instant, the bead displayed five colors. Four of the colors were especially bright, but one of them was a little dim, and the center of this color was hollow.

If Lin Yi was here, he would be very surprised. The five elements sect had this type of physique testing bead! As for Tian Huan, he had four true attributes and one void attribute!

"What? He didn't receive the inheritance of the origin Energy, and he's still a four-element warrior?" Patriarch xuanchen's expression changed instantly, and Tian Gang was also shocked. He had actually failed to inherit his origin power?

"Tian Gang, didn't you say that you've already set up in the cave and activated the origin power of the five evils in the five evils mountain range?" Patriarch Xuan Zhen's face turned serious as he asked, "This time, the preparations were so appropriate, and you also took the marrow and bone cleansing pill. How could you have failed?"

"That's right. Could it be that something else happened when you accepted the inheritance?" Asked patriarch xuanchen.

"This ..." Tian Gang was shocked. She subconsciously thought of Lin Yi, but if she were to tell the truth, even if this had nothing to do with Lin Yi, the xuanchen ancestor would most likely vent his anger on Lin Yi. Although he could not do anything to Lin Yi because of boss Bai, it was possible that he would do something behind the scenes.

"What's wrong? Did something really happen?" "What's wrong?" patriarch xuanchen raised an eyebrow and asked.

"After I finished the preliminary preparations, I was about to accept the inheritance, but the Dragon of five evils returned ..." Tianshuo hesitated and said.

"What? The Dragon of five demons came after you were ready?" Slightly taken aback, patriarch xuanchen frowned and said, "That shouldn't be the case. Logically speaking, with so many cultivators above earth rank entering the five evils Savage Lands at once, the Dragon of five evils would definitely be alerted and lured out of the cave. He would then make some arrangements for all the spirit beasts in the five evils Savage Lands and give orders to fight against these earth-rank cultivators together. How could the Dragon of five evils return so quickly?"

As it turned out, the change in the sky elixir sect's trial rules was the doing of the five elements sect's patriarch xuanchen. Everything was to allow Tian Gang to successfully receive the inheritance!

The five evils Savage Land was the territory of spirit beasts. Human cultivators who entered would naturally be seen as enemies. However, after thousands of years of testing, the sky elixir sect found out that cultivators below Earth Class were the limit that spirit beasts could accept!

Golden class and Mystic class practitioners entering the five evils Savage Lands to refine their elixirs was dangerous, but that was if they accidentally ran into a spirit beast-they wouldn't let the spirit beast chase them and attack them. Or rather, the spirit beasts of the five evils Savage Lands looked down on practitioners with strength-they didn't welcome them, but they wouldn't go after them with a large group.

However, once the cultivator who intruded into the five fiends Savage Land was above earth-grade, these cultivators would be regarded as intruders. The Dragon of five fiends would then be drawn out and give orders to all the spirit beasts in the five fiends Savage Land to kill these cultivators together to protect its territory from the invasion of human cultivators.

This time, in order to lure the Dragon of five evils out of the cave and give orders, ancestor xuanchen did not hesitate to sacrifice the lives of so many cultivators above the earth rank. It was enough to show that he was a ruthless person. It was not too much to have a vicious daughter like little eleven. Even his daughter was not as vicious as him.

This was also the reason why the spirit beasts in the five fiends Savage Lands were so violent. In the first few days, the Dragon of the five fiends only gave orders to the spirit beasts near the five fiends mountain range. The spirit beasts also had a language to communicate with each other. The spirit beasts that received orders would immediately find a flying spirit beast that was good at transmitting sound waves!
