Chapter 3131 Two Pieces Of Good News

If Lin Yi's guess was right, this person was Liu Jinghan, the one he'd met once at the noble House meeting!

It was just that Jinghan was wearing a veil back then, and Lin Yi didn't pay much attention to her, so he didn't have a deep impression of her. This was the first time he'd seen this legendary genius girl of house Liu!

I wonder if there's any place with special geniuses? At least, Lin Yi didn't see it yet-house Liu still had a ton of debt. The only thing he could tell was that all the genius girls liked the White BMW X5M.

But no matter what, Lin Yi still stood up and walked out of the room,""Miss Liu Jinghan, right?"

"It's me, Mr. Lin Yi, nice to meet you!" Jinghan locked the car and tidied up her messy hair before smiling at Lin Yi-there wasn't any respect or flattery in her smile, only respect and gratitude."Thank you for your trust, Mr. Lin Yi, for giving us House Liu the responsibility of the business."

"En, come in and talk." Lin Yi nodded and gestured for Jinghan to come into the living room."Since we're working together, you can call me boss like fatty Lai, or you can call me Lin Yi. It's a bit awkward to keep calling me Mister Lin Yi."

"Boss?" Jinghan paused, "I'll call you Lin Yi then ..."

Jinghan thought it was weird for a girl to call someone boss.

"Sure." Lin Yi nodded.

"Then you don't have to call me miss Liu Jinghan. Five words is longer than four words. You can just call me Jing Jing. That's what my family calls me." Jinghan said.

"Jingjing?" Lin Yi frowned. To be honest, he didn't like Liu Jinghan calling him that name. In his heart, there was only one Jingjing, han Jingjing. She was a girl who was very important to Lin Yi, so he wouldn't use that name to address others. "I'll just call you Jinghan. "

Jinghan was surprised, but she smiled. "Of course you can."

The two sat on the sofa in the living room, and Lin Yi placed the automatic cauldron on the coffee table. "This is the grade one automatic medicinal cauldron that my friend invented. I'll tell you the specific functions of this medicinal cauldron ..."

With that, Lin Yi explained the automatic cauldron's functions to Jinghan, and gave her the encrypted program and the plan for the chip production from little nine.

"I understand now. With these things, both house Liu and fatty Lai will have a great comeback!" "Don't worry, Lin Yi-as long as we can mass-produce the cauldrons, we'll make up for our losses, and we'll even be able to make a huge profit!" Jinghan said confidently.

"En, I'll leave it to you. Do as you see fit." Lin Yi nodded and didn't say much, "If there's nothing else, you can go back to Yanjing."

"Alright, Jingjing will go back first. I'll keep in touch with you if there's any news." Jinghan said.

After sending Jinghan off, Lin Yi was a little disappointed. Jinghan was completely different from the person he was looking forward to seeing. They were both pretty, but they had different styles, and the way they talked was completely different. Lin Yi lost interest in getting close to Jinghan.

Not long after Liu Jinghan left, the villa welcomed another guest-it was Xu Shihan's colleague, Cheng Yiyi. Lin Yi didn't expect Cheng Yiyi to come to visit Xu Shihan, it was a bit unexpected.

"Lin Yi, long time no see, did you miss me?" Cheng Yiyi asked as she walked into the living room with a smile.

Lin Yi shrugged-it wasn't an easy question to answer. It'd be too hurtful if he said he did, and it'd be too hurtful if he said he didn't. "Yiyi, did you come here to work or just to play?"

"It's kind of work. There's a duet with us in Han's new album. She's been living here and won't go back to the company, so I had to come here to practice with her!" Cheng Yiyi spread her hands and looked at Lin Yi with interest. "By the way, Lin Yi, how did you deal with our han? You actually made her come to live with you?"

"Cohabitate ...?" Xu Shihan was just getting a drink for Cheng Yiyi when she heard Cheng Yiyi's question. She jumped in shock and almost threw the drink in her hand. "Yiyi, don't talk nonsense. I'm only here to see Yaoyao. She has something to do and has to leave. I'm here to send her off!"

"But she's already gone. Why don't you go back?" Cheng Yiyi, on the other hand, looked at Xu Shihan mischievously, "Han, it's not good to tell lies, especially to big stars!"

Xu Shihan's face reddened immediately. She would be lying if she said that she didn't like Lin Yi, but a good impression was a good impression, it didn't mean that she liked him! Lin Yi cured Xu Shihan's headache and protected her many times. It was hard for Xu Shihan not to like him.

But she knew that Lin Yi had too many girlfriends, and she reminded herself not to join in the fun.

"Yiyi, don't talk nonsense. Lin Yi has a girlfriend, you know that. Alright, let's go practice our singing!" Xu Shihan passed the drink to Cheng Yiyi and said.

"Alright, alright. I just arrived and can't rest. I still have to practice with you!" Cheng Yiyi rolled her eyes helplessly and took a sip of her drink before turning to Lin Yi. "I have high hopes for you. Han rarely gets so close to guys!"

"Thank you ..." Lin Yi didn't know whether to laugh or cry.

To be honest, Lin Yi didn't have any special feelings for a big star like Xu Shihan. In his eyes, Xu Shihan was just a pretty girl that he had just met, and he was only a little more familiar with her than Liu Jinghan. He had never thought about pursuing Xu Shihan.

After all, Lin Yi wasn't a fan-he didn't have any favoritism for this girl who was always jumping around.

The days that followed were as calm as ever-Xu Shihan and Cheng Yiyi were practicing their songs upstairs, Chen Yushu went to school in the day, and Lin Yi was in his room, refining the forging fire.

But in the midst of all this, there were two pieces of news that made Lin Yi excited. The first one was that the production line for the automatic Grade one medicine cauldron was in place, and everything was ready to start!

The second was Qiqi's message, telling Lin Yi that there would be an auction in Europe next January, and there would be blue crystals for sale!

Chapter 3132 Discussing Business

Soon, the grade one automatic cauldron was in Lin Yi's hands, ready to be sold on the market. At the same time, Liu Jinghan called Lin Yi to tell him the good news!

"Lin Yi, do you think ... If we put our product on the market now, will it attract other people's attention?" Jinghan was confident in the product, but she was afraid that the hidden or ancient masters wouldn't be able to stand the loneliness and would try to take it by force.

"This, I've thought of it before. So, if you want to sell it, you can cooperate with the cultivators trade association. The normal and five-in-one enhanced versions will be sold by our company. As for the limited-edition ten-in-one automatic medicinal cauldron, it will be auctioned by the cultivators trade association!" "And on the surface, it'll be a business between you and the practitioner's trade association. That way, you'll be able to intimidate the public!" Lin Yi said.

"Alright, but I don't know anyone from the cultivators trade association. I'll need your help to contact them. In this way, we don't have to do any advertising. With the cultivators trade association spreading the news, I can save a part of the advertising costs." Jinghan said.

"Alright, I'll contact the cultivators trade association now." Lin Yi nodded.

After hanging up, Lin Yi called vice guild leader Ouyang.

"Mr. Ling, how have you been? did the Dongfang family cause you any trouble?" Vice guild leader Ouyang hadn't contacted Lin Yi since the last time they parted ways. He was worried, "I didn't dare to call you during this period of time. Now that I hear your voice, I'm relieved."

Vice guild leader Ouyang's sincerity touched Lin Yi, "Vice President Ouyang, I'm fine. I've already killed that Dongfang hard. The Dongfang family hasn't caused me any trouble yet."

"That's good ..." Vice guild leader Ouyang said, ""By the way, recently, the ancient Dongfang family and the ancient Feng family have sent people to the cultivator trade association to inquire about you. How did you provoke the ancient Feng family again?"

"It's nothing. We've had a feud for a long time. It's fine." "Vice-President Ouyang, I'm actually calling you to talk business!" Lin Yi said nonchalantly.

"Oh? Business?" Vice guild leader Ouyang was stunned for a moment before smiling bitterly. ""Mister Lin, as you know, there's no way we can continue with the pill business. The sky elixir sect has sent over

a large amount of rank one and rank two pills recently, especially rank one pills. We can sell them until this time next year without a problem. The sky elixir sect doesn't need us to pay in cash either. They're just distributing the goods, and we'll pay them when they're sold. I really can't change such a good preferential policy. After all, this is a good thing for the cultivators trade association to make money. I can't stop you just because of our relationship! Besides, I really can't change anything. "

"Hehe, Vice-President Ouyang, the business I'm looking for you to talk about this time isn't a medicinal pill business, but a medicinal cauldron business!" Lin Yi said.

"A medicinal cauldron?" Vice guild leader Ouyang was stunned. ""Mr. Ling, you mean you have medicinal cauldrons to sell? This is not a problem, but medicinal cauldrons are not bestsellers, so very few people buy them. After all, this thing is not a consumable. As long as you are not a beginner, it is very rare for you to make a furnace explode ..."

"Hehe, this cauldron of mine is different from ordinary cauldrons. I can't explain it in a few words. How about this, I'll go see you now and explain it to you personally." Lin Yi said.

"How about this? let's set a place and I'll go out to meet you. There are some trusted aides planted by the headquarters at the cultivator trading Association. I'm afraid it will be disadvantageous for you if you come over at this time." Said vice guild leader Ouyang after some thought.

"Alright, let's meet at the teahouse at the foot of the mountain." Lin Yi said. There was a small village at the foot of the mountain near the practitioner's trade Association's market. There was a big teahouse there, and they did some storytelling, cross talk, and so on. Lin Yi decided to meet them there.

"Alright, I'll head over now." "I know the owner of the teahouse, so I'll go get a private room first!" Vice guild leader Ouyang said.

"Alright, see you later!" Lin Yi hung up the phone and took the batch of automatic cauldrons Jinghan sent him to the teahouse near the practitioner's trade association.

He'd just parked his car when a young man in the practitioner's exchange Association uniform came up to him, "Mr. Ling?"

"It's me. " Lin Yi had seen this disciple beside vice guild leader Ouyang before-he was probably vice guild leader Ouyang's trusted aide. He nodded."Vice guild leader Ouyang sent you here, right?"

"Yes, the Vice President is already waiting in the private room. This way please, Mr. Ling!" As the disciple spoke, he made an inviting gesture.

He followed the disciple to a room on the second floor of the teahouse, and the disciple knocked on the door. He opened the door and let Lin Yi in before leaving, obviously not going to get involved in the conversation.

"Mr. Ling, you're here." Vice guild leader Ouyang stood up and greeted Lin Yi with a smile.

"Vice guild leader Ouyang, thank you for coming." Lin Yi was confident that vice guild leader Ouyang would be more than happy to work with him after he took out the automatic medicine cauldron, but he was still very touched by vice guild leader Ouyang's attitude before he even took it out.

"I naturally have to take the initiative when business comes to me. Moreover, with our current relationship, there's no need to be so polite. Mr. Ling, what is that medicinal cauldron you were talking about?" Vice guild leader Ouyang casually waved his hand.

"This is it." With that, Lin Yi took out the automatic cauldron from his bag. It was a 1-in-1 limited edition, and Lin Yi wasn't planning on taking it away today. He wanted to give it to vice guild leader Ouyang as a promotional sample.

After all, no matter how amazing the promotion was, without the real thing, the people from the ancient sects and hidden houses might think that they were bragging. After all, the scientific way of alchemy was too unbelievable. If it wasn't for the fact that this thing really existed, no one would believe it.

"This ... This cauldron is very strange. Why is there a display screen on it?" Vice guild leader Ouyang asked after seeing the cauldron in Lin Yi's hand.

"This cauldron is called an automatic cauldron, and as the name suggests, it can automatically make grade one pills ..." With that, Lin Yi explained the function and usage of the automatic cauldron to Ouyang.

Chapter 3133 Testing The Medicinal Cauldron

Vice guild leader Ouyang didn't pay much attention to it at first, but Lin Yi said that this thing could automatically refine elixirs, and he was instantly interested! The more he heard, the more shocked he was. This thing was simply a heaven-defying divine tool. Didn't that mean that as long as one was an Alchemist, they could refine pills? Even an Alchemist without the wood attribute could use this medicinal cauldron to refine pills?

As long as one could control the alchemy fire proficiently, one could refine a grade one elixir with a 100% success rate. This medicinal cauldron could simply replace the market for grade one elixir! After all, who would buy others' if they could make it themselves?

No matter how cheap the sky elixir sect's grade one elixir was, the cultivator trade association would still be able to increase the price of the elixir. How could it be more economical than refining it himself? Moreover, if he wanted to make it himself, he could make it whenever he wanted, so he didn't have to worry about not being able to buy it or having no stock when he urgently needed it.

"Mr. Ling, what you said ... Is it true?" It was no wonder Vice-President Ouyang was suspicious. After all, no one would believe it so easily. This thing was too magical, beyond the comprehension of normal practitioners. Even if Lin Yi took it out, Vice-President Ouyang didn't think that Lin Yi would lie to him, but he still asked.

"It's absolutely true!" "If you don't believe me, Vice President Ouyang, you can find an Alchemist to test it out for you!" Lin Yi nodded.

"Alright!" Vice guild leader Ouyang did not reject the offer because he also wanted to witness how amazing the grade one automatic medicinal cauldron was. Hence, he took out his phone and dialed the number of the disciple who had been standing at the entrance. "Little duo, give Xiao Kong a call and ask him to come to my room immediately!"

The little hole mentioned by Vice-President Ouyang was an Alchemist of the cultivator trade Association's city square. The so-called Alchemist was a disciple who had studied alchemy and was very good at it. However, because they did not have any wood attribute in their bodies, they could not become an Alchemist. However, they had no problem being an Alchemist in charge of checking and examining pills.

An Alchemist only needed to judge the color of a pill. Xiao Kong was an Alchemist under vice guild leader Ouyang.

Very quickly, there was a knock on the door. Vice guild leader Ouyang said, "come in." A thin and weak young man walked in and said respectfully, "Vice guild leader Ouyang, I'm here. May I know why you're looking for me?"

"Of course there is. I want you to test something!" "Mr. Ling, could you please explain how to use this to the hole?" vice guild leader Ouyang asked.

"Alright," he said. Lin Yi nodded and pointed at the automatic cauldron. "This is a first grade medicinal cauldron. However, this medicinal cauldron's function is to automatically refine pills!"

"Automatic pill refining?" Kong's eyes were wide open as he looked at the direction Lin Yi was pointing at, unable to believe his ears. "Mr. Ling, did I hear you wrong? There are cauldrons that can automatically refine pills?"

"You didn't hear wrong!" Lin Yi smiled, "but, although these cauldrons are called automatic cauldrons, it doesn't mean that they don't need manual intervention at all. Some of the steps in the process are automatically activated, increasing the success rate ..."

With that, Lin Yi explained the way to use an automatic first grade medicine cauldron to Xiao Kong. Xiao Kong was an Alchemist, and naturally understood what Lin Yi meant. His eyes flashed with eagerness!

It was precisely because his body lacked the wood element that he became an Alchemist. One had to know that without the wood element, no matter how good one's control of the alchemy fire was when

refining pills, one could only rely on luck because one couldn't sense the changes in the medicinal cauldron.

But now, this automatic first grade cauldron that Lin Yi was talking about didn't require any of that at all. The fire's intensity was completely adjusted by the cauldron itself, and there was a time and temperature curve on the cauldron to tell the refiner what temperature the fire should be at. This way, even a slightly experienced refiner, or an elixir tester like Kong Dao, could successfully make first grade pills!

"I ... Can I try now?" Kong asked, rubbing his palms together. Lin Yi and vice guild leader Ouyang wanted him to test it out, and he wanted to try it out as soon as possible to fulfill his dream of becoming an Alchemist.

"Of course you can. I asked you to come here for the test." Vice guild leader Ouyang said.

"Then ... This thing can't be damaged, right?" Xiao Kong was a little scared. Although he didn't know the value of this thing, he had been in the cultivator trade Association's market for many years. He knew that this was a heaven-defying divine weapon. This thing couldn't be sold for a sky-high price. If he broke it, he wouldn't be able to afford it even if he was beaten to death.

"It won't. If you can break it so easily, this thing wouldn't have any value." Lin Yi smiled, "you can experiment as much as you want. I have some ingredients for the spirit gathering pill here, you can try making it!"

"Oh? It's a spirit gathering pill?" "This spirit gathering pill is considered a medium-difficulty pill among all the grade one pills. You have to change the intensity of the fire several times during the process. Are there any simple grade one pills like the life-preserving pill?" Kong Dao was a little surprised and timid.

The so-called resurrection pill was a healing elixir that was one grade lower than the minor resurrection pill. However, because its effects were not obvious, very few alchemists knew how to make it. It was only used as an entry level elixir refinement for disciples to make.

"Even if you want to test this pill, I don't have the materials for you to do so. I only have the spirit gathering pill." Lin Yi said with a bitter smile.

"Then ... I'll try?" Xiao Kong glanced at the medicinal cauldron and asked somewhat nervously.

"It's fine, just try it. As long as you can control the temperature of the alchemy fire, you can definitely succeed." Lin Yi said with a smile.

"Alright!" Xiao Kong took a deep breath and eagerly picked up the automatic Grade one medicinal cauldron in front of him. He followed the instructions on it and put the materials for the spirit gathering pill into the medicinal cauldron. Then, according to the instructions on the medicinal cauldron, he pressed the "spirit gathering pill" button. After that, the circuit of the automatic Grade one medicinal cauldron started. On the screen, the words "spirit gathering pill automatic refining" were displayed. Below it was a line of instructions, asking The Alchemist to place his palm on the area where the pill fire was condensed and to start condensing the fire-type pill fire!

Xiao Kong quickly followed the instructions and placed his hand on the designated area. Then, he began to condense the fire-type pill fire.

"Beep." A buzzing sound came from the automatic Grade one medicinal cauldron, and the words "fire-type pill fire identification normal, automatic pill refining system starting ..." Appeared on the screen!

Immediately after, a prompt appeared on the screen."Countdown begins. Please adjust the temperature of the pill fire to the designated temperature according to the instructions on the screen!"

Chapter 3134 Way Of Cooperation

Then, at the bottom right corner of the screen, two temperature prompts and a countdown appeared. The temperature in front was the designated temperature, and the temperature in the back was the actual temperature. The Alchemist only needed to control the actual temperature to the designated temperature within the designated countdown.

Therefore, this grade one automatic medicinal cauldron was quite simple and convenient to refine pills. As long as The Alchemist was literate and knew how to control the alchemy fire, then adjust the temperature of the alchemy fire according to the instructions, it would be fine. Even if the temperature he felt was not accurate, there would be actual instructions on the screen, which reduced the error even more!

Xiao Kong was surprised at the grade one automatic medicinal cauldron's intelligence. However, in his excitement, he quickly adjusted the temperature of the alchemy fire to the same temperature as the designated temperature according to the prompt on the screen. Another countdown began to show!

"Please maintain the current temperature until the countdown ends before the next pill refinement prompt appears! The temperature for the next pill refinement will be XX degrees. Please prepare to change the temperature in advance. "

Above the countdown, there was such a prompt, allowing The Alchemist to understand it at a glance. It was very human-like, and little hole had never seen such a Simple Alchemy method. As long as he followed the prompt and changed the temperature of the alchemy fire along the way, he would be fine. He did not need to consider the fire intensity or practice refining a certain kind of medicinal pill in advance!

As everyone knows, in order to concoct a certain pill, many alchemists would waste some material simulations and attempts in advance. The powerful alchemists would fail once or twice, while the less powerful apprentices would waste many attempts before they could find the feeling and pattern!

However, a Grade 1 automatic medicinal cauldron was not needed. It did not need one to feel anything, nor did it need one to know the steps of pill refinement. There would be prompts on the screen on how to refine the pill. It was a complete fool's operation. This not only shocked Kong Tong, but vice guild leader Ouyang was also dumbfounded!

If this thing were to really go on the market, one could only imagine how much attention it would bring. At that time, not only would hidden houses, ordinary sects, ancient houses, and ancient sects rush to buy it, but even some rogue cultivators who could condense elixir fire would come to buy it!

Vice guild leader Ouyang had been in contact with heavenly materials and earthly treasures and divine weapons for many years. Naturally, he knew how powerful this grade one automatic medicinal cauldron was. The profits and influence that such an item could bring were boundless!

Now, the only thing he had to wait for was whether the grade one automatic medicinal cauldron could successfully refine the medicinal pill!

Vice guild leader Ouyang was nervous, and so was Lin Yi. He trusted Han Jing and knew that this automatic cauldron should be fine, but he couldn't test it out himself. He couldn't change the temperature of the refinement fire, so this automatic cauldron was useless to him. He asked vice guild leader Ouyang to find a disciple to test it out.

Time, minute by minute, second by second, finally, a notification appeared on the medicinal cauldron's LCD screen: "The spirit gathering pill has been successfully made! Please stop the refinement of the pill fire, open the cauldron, and take out the pill!"

"We've succeeded just like that?" Xiao Kong was a little surprised. Although he had strictly followed the instructions on the cauldron's screen all the way, he didn't have much confidence in himself. After all, he was an Alchemist, not an Alchemist. Moreover, he hadn't come into contact with alchemy for a long time!

Even when he had just started learning alchemy, it was impossible for him to successfully make the spirit gathering pill, let alone now!

However, the small hole still opened the lid of the medicinal cauldron as instructed. Immediately, a medicinal fragrance came out from the medicinal cauldron and filled the entire private room!

Everyone present, be it Lin Yi or vice guild leader Ouyang, or even Kong Dao, were no idiots. Only after the pill was successfully made and the cauldron was opened would the fragrance come out. If the pill failed, then there would be a burnt smell!

"He actually succeeded?" Vice guild leader Ouyang's eyes widened as he looked at the cauldron in little Kong's hand. He was extremely excited! This was a pill refined by his own disciple right under his nose, so it was impossible for there to be any trace of fraud. Therefore, the only explanation was that this grade one automatic medicinal cauldron lived up to its name!

"Pill Halo! There's a pill Halo on a first ranked pill?" Xiao Kong carefully took out the spirit gathering pill from the automatic Grade one medicine cauldron. However, the moment the pill touched his hand, he let out a super-shocked cry. "How is this possible?!"

"Why is it impossible? what's the big deal about pill Halo? all of the pills that Mister Ling has provided in the past have pill Halo ...""What? Are you saying that this pill that was refined by itself also has a pill Halo?"

"Yes, Vice President, look!" As he spoke, Kong Dao showed the pill in his hand to vice guild leader Ouyang.

"Hiss ... As expected ... It's pill Halo! Moreover, the color and smoothness of this pill can be said to be of the highest quality!" Vice guild leader Ouyang was extremely shocked. Although most of the rank one pills Zhaoming provided had the same effect, they were made by the sky elixir sect's advanced level pill Masters. How could they compare to a normal disciple like Kong?

This was all thanks to the grade one automatic medicinal cauldron! At the thought of this, vice guild leader Ouyang wanted nothing more than to pick up the automatic Grade one medicinal cauldron in front of him and give it a kiss. He cried out, "a divine weapon!"

However, Lin Yi was present, and vice guild leader Ouyang could only control his excitement. He asked Lin Yi in disbelief, "Mr. Ling, have you really decided to give this grade one automatic medicinal cauldron to the cultivators trade association? Then what price do we have to pay?"

"Vice-President Ouyang, I think you've misunderstood. I brought this grade one automatic medicinal cauldron with the intention of working with you. Cooperation is a win-win situation. You don't have to pay any price!" "You guys auction as usual, just take the draw!" Lin Yi smiled.

"To be honest, Mr. Ling, even if we don't take a Commission, if this Automatic Grade one medicinal cauldron were to be auctioned here, it would bring unimaginable fame and popularity to our cultivator's trade association. Therefore, we are auctioning it for free. Logically speaking, we still have to pay a

price!" "But, Mr. Ling, we're not outsiders. Since you've said so, I won't refuse!" Vice guild leader Ouyang sighed.

"That's natural! The cultivators trade association isn't something that you can decide on your own, Vice-President Ouyang. However, with our long-term cooperation, I believe that promotion won't be a problem!" This was what Lin Yi valued-the higher vice guild leader Ouyang's position was, the more beneficial it was to Lin Yi!

After all, as Lin Yi's level increased, he'd need more and more strange treasures. Other than having Qiqi help him out overseas, he had to rely on the practitioner's trade association here!

Chapter 3135 You're That Ruthless Person?

After all, most of Lin Yi's followers were hidden, and they couldn't get any treasures no matter how high level they were. On the other hand, Lin Yi wasn't at the level where he could completely control the ancient level yet, and even if he had a few followers, it was only a personal relationship-their families wouldn't support him fully.

And so, Lin Yi chose to work with vice guild leader Ouyang, even giving away a portion of the profits!

Of course, the most important thing was that the practitioner's trade association was participating in this business, so there wouldn't be anyone who would covet it. Plus, Lin Yi and Vice President Ouyang were life and death friends, so Lin Yi didn't mind making friends with him.

"Hehe, Mr. Ling, if that's the case, I won't be polite! May I ask, how are we going to cooperate?" Vice guild leader Ouyang asked after nodding his head.

"My company has produced three different types of medicinal cauldrons. One of them is a single grade one automatic medicinal cauldron, another is a five-in-one grade one automatic medicinal cauldron, and the last one is the limited edition of the ten-in-one grade one automatic medicinal cauldron in front of you, Vice President Ouyang!" "The first two are sold by our company," Lin Yi said, "and the last one is auctioned by the practitioner's trade association, where Vice President Ouyang is!" For the first two types, there are five single grade one automatic medicinal cauldrons, which are the same as the five-in-one Automatic Grade one medicinal cauldron. However, the one you have here has five additional types of medicinal pills that our company doesn't have!"

"This ..." Vice President Ouyang was a little disappointed when he heard that Lin Yi's company had sales as well. What was the difference between 10 in 1 and 50 in 1? Wouldn't it be fine to just buy two five-in-one or ten single versions? Who would buy it from him then?

However, Lin Yi said that his company only sold tier one automatic cauldrons with five different types of pills. Whether it was the five-in-one version or the single version, if you wanted to buy another tier one automatic cauldron with five different types of pills, you had to go to the practitioner's trade association!

Vice guild leader Ouyang understood Lin Yi's intentions and gave him a thumbs up, "High, this is really high! The auction here can't be held at any time. It needs to be prepared for a period of time in advance. During this time, we can only promote it. What if the cultivators who see the promotion are eager to buy it? You can only buy the five-in-one or single emergency edition with simple functions from Mr. Ling. If you want the limited edition with 10-in-one functions, you can only wait to come to our auction to buy it! This way, he could maximize his profits! Mr. Ling, you're really made for business!"

Lin Yi couldn't help but smile bitterly. He wasn't the one who thought of this-it was Yushu and Jingjing who thought of it. What did it have to do with him? However, at this moment, he could only smile and nod, ""Moreover, in order to be fair and to prevent people from selling it privately, the automatic Grade one medicinal cauldrons for sale have the function of recognizing an owner. When an Alchemist refines a pill for the first time, the alchemist's alchemy fire will be locked. It will be impossible for others to use it again!"

"No way? It even has a binding function?" Vice guild leader Ouyang was stunned for a moment before he gave a thumbs up. "Mr. Ling, you're doing a great job! In this way, if a sect has two alchemists, they can only buy two. If they have more than one disciple, they have to buy more than one. It's really difficult to not make money!"

"Haha ..." Lin Yi laughed, "However, the sample I'm giving you doesn't recognize an owner. Anyone can test it, and it'll be more convenient for Vice President Ouyang's publicity! Of course, you can't sell this item. Vice guild leader Ouyang, you should know this!"

"Don't worry, Mr Ling. I will keep this safe. It's impossible for you to snatch anything from the hands of the cultivators trade association!" Vice guild leader Ouyang patted his chest as he promised.

Lin Yi believed the Vice-President's words. After all, there were so many treasures in the practitioner's trade association that people coveted. If they really went all out, then the Association wouldn't even exist anymore!

At that thought, Lin Yi couldn't help but be curious about the background behind the cultivator trade association. So many ancient sects, even the five elements sect where the xuanchen ancestor was from, had never had any ideas about the cultivator trade association. The power behind this Association was probably not to be underestimated!

This was also the reason why Lin Yi was on good terms with vice guild leader Ouyang. Lin Yi also knew that there was someone backing him up, a higher-up of the practitioner's trade association. As long as Lin Yi managed this relationship well, it would be able to help him step into the ancient world!

"That's good. I'm very confident in vice guild leader Ouyang." Lin Yi said with a smile.

"Mr. Ling, since we're already so close, you don't have to call me Vice-President Ouyang. I'm a few decades older than you. If you don't mind, you can call me brother Ouyang!" Vice guild leader Ouyang said with a smile.

Lin Yi almost burst out laughing at what Ouyang said. Most people would say that they were older by a few years and then call them 'elder brother'. However, when it came to vice guild leader Ouyang, it became 'older by a few decades'!

However, this was normal in the world of practitioners-he was only in his early forties, and according to the hierarchy of practitioners, he was still an upright young man. Other than the disciples of the ancient houses and sects who were in their teens, vice guild leader Ouyang was already very young to be in his forties!

And so, Lin Yi calling him Ouyang bro wasn't a problem at all, not to mention that Lin Yi was a Sky Class master.

"Alright, I'll call you brother Ouyang then!" Lin Yi nodded,"but, since we're going to be honest with each other, I'll tell you my real name as well. Ling Yi is just a name I use outside. My real name is Lin Yi!"

"What? Y-y-you're Lin Yi?" Vice guild leader Ouyang's body shook at the mention of Lin Yi's name. He pointed at Lin Yi in disbelief,"Ling Yi ... Lin Yi, no wonder ..."

"Brother Ouyang, why do you have such an expression? Is there a problem?" Lin Yi looked at vice guild leader Ouyang strangely."Actually, I didn't lie to brother Ouyang on purpose. I've always used the name Ling Yi in the trial."

"I know that. It's nothing." Vice guild leader Ouyang waved his hand, evidently not bothered by Lin Yi's alias. He was shocked, "You're the legendary ruthless rogue cultivator who crushed the everyday and every day sect to the point where they couldn't even retaliate?"

"Uh ... It seems so." "I'm not a practitioner, though," Lin Yi smiled bitterly, "I was just sparring with a disciple. "

Chapter 3136 Vice Guild Leader Ouyang's Past

"I've long heard of your great name!" Vice guild leader Ouyang 's' I've heard so much about you 'wasn't out of politeness. It was the truth! Lin Yi's fight with Zhang naipao-he'd heard of this long ago-it'd been so many years, and there weren't many people in the world who could make the disciples of the everyday and every day sect suffer. Other than the two legendary dual fiends from ten years ago, who else could?

Even Vice President Ouyang did not dare to provoke the disciples of the everyday and every day sect. It was not that the cultivator trade association was afraid of them, but if Vice President Ouyang provoked them, the cultivator trade association would not stand up for him. After all, patriarch kuangniu of the everyday and every day sect had a good relationship with the cultivator trade Association's Grand Supreme Honorary President ...

"Brother Lin, I didn't expect this legendary figure to be you!" In his early years, vice guild leader Ouyang had suffered a loss at the hands of the disciples of the everyday and every day sect. When he had participated in a trial organized by the cultivator trade association when he was young, he had also fought with celestial venerable pure Yin of the everyday and every day sect and suffered a huge loss. If it weren't for the presence of the elder of the second venerated vice guild leader, who had prevented celestial venerable pure Yin from killing him, vice guild leader Ouyang would probably not have returned alive!

As a result, he respected Lin Yi very much for defeating the everyday and every day sect's disciples. He called Lin Yi "brother Lin" right away.

"Why are you calling me brother Lin?" Lin Yi blinked.

"We're both practitioners, and the path of martial arts comes first. You call me brother Ouyang, and I call you brother Lin-this is normal, since we're both Sky Class Masters!" Vice guild leader Ouyang said matter-of-factly.

Lin Yi nodded and didn't dwell on the names. He was curious, "Brother Ouyang, it seems like you have a grudge against the everyday and every day sect?"

"Al, not bad! I won't hide it from you, brother Lin. I've once fought with the everyday and every day sect's celestial venerable Chun Yin during the cultivators Association's trials. I was defeated in the end. If it wasn't for the fact that I have a senior in the Supreme Elder Council and celestial venerable Chun Yin doesn't dare to touch me, I would have died a terrible death!" "That's why Brother Lin has helped me vent my anger!" Vice guild leader Ouyang said with emotion.

"The cultivators trade Association's trial? What's that?" Lin Yi asked, surprised.

"Oh? You don't know?" Vice guild leader Ouyang looked at Lin Yi, surprised. "This is a trial that all the disciples of the ancient level know about. You ... Oh, right, you're a rogue cultivator!"

"That's right. What is this trial for?" Lin Yi asked curiously. After all, every test was more or less an opportunity for the practitioner, and there were many unexpected benefits.

Just like the Ice Palace test and the sky elixir sect test that Lin Yi had taken part in-it was the same!

"The location of this trial is called the ancient island!" Vice guild leader Ouyang didn't try to hide anything and immediately introduced, ""The ancient island is the only vestige that can be discovered in the entire ancient level. I don't know how the cultivators trade association discovered it in the first place, but I know how to open the ancient island. Those who enter the ancient island for the trial can find the natural treasures they need as much as they want! There are many precious herbs and treasures left behind from the ancient times. As long as you find them, they're yours! Of course, other people can also take it, and they have to pay when they come out!"

"Pay? You can get these things just by buying them with money?" "That's a sky-high price," Lin Yi blinked.

"It's not like that!" Vice guild leader Ouyang smiled and said, "It's not to the extent of being a heaven rank. It's true that it's expensive. However, our cultivator trade association is a business. Our goal is to make money, so we have a specialized elder to evaluate the value of the things that the cultivators bring out from the ancient island. However, the price will definitely not be heaven-defying. After all, the reputation of the cultivator trade association is there!"

Lin Yi nodded, realizing that the practitioner's trade association was an organization that sought money. It was understandable for them to make money from this test, but what made Lin Yi curious was where this ancient island came from.

But it was obvious that vice guild leader Ouyang didn't know about these things, so Lin Yi didn't ask, ""Will this trial start soon?"

"This trial is not held at a fixed time. After all, there are many conditions to open the ancient island, such as the right time, place, and people. It can't be opened at any time!" "There are people in the cultivator trade association who are in charge of researching the ancient island. They will estimate the time it will

open based on some of the phenomena on the island and then start organizing the registration of the participants!" Vice President Ouyang said.

"So that's how it is." "Yeah." Lin Yi nodded, "what's the limit?" Can I go too?"

"Naturally! The condition is that all Sky Class Masters can participate, and brother Lin has already met this requirement-you just need to pay the entrance fee of one billion. " Vice guild leader Ouyang said.

"Pfff ... Cough, cough, cough ..." Lin Yi started coughing loudly after hearing the words. "I say, brother Ouyang, I didn't hear wrong, right? One billion? And it's only the entrance fee?"

"Uh ... I didn't hear wrong." Vice guild leader Ouyang smiled bitterly. "As I said before, the cultivators trading Association will not offer a price that is too heaven-defying and unacceptable, but it will definitely not be cheap."

"It's indeed not cheap!" Lin Yi smiled bitterly, "I can't take out this one billion, at least for now!"

"Haha, but with this Automatic Grade one medicinal cauldron in hand, I believe that this amount of money will not be a problem for brother Lin!" "What's the matter, brother Lin?" vice guild leader Ouyang asked with a smile. "Are you interested in this trial?"

"According to what brother Ouyang said, there are so many good things inside. I think any cultivator would be interested in it, right?" "When was the last time it was held?" Lin Yi asked with a nod.

"Twenty-five years ago. It should be about time. This ancient island usually opens once every twenty to thirty years!" Vice guild leader Ouyang said.

"Twenty-five years ago? Would brother Ouyang be a Sky Class master then? "And now ..." Lin Yi looked at him strangely. Lin Yi couldn't be blamed for that-vice guild leader Ouyang was already Sky Class twenty-five years ago, and he was still Sky Class early phase peak? Wasn't this a little unrealistic?

Chapter 3137 Can't Take Revenge

"Haha, I knew you'd ask. To be honest, because of my senior in the high Elders Council, I was also trained as an important disciple of the practitioner trade association. I was only nineteen or twenty years old then, which was the same age as you, brother Lin, but I was already Sky Class early phase!" Vice guild leader Ouyang was a little proud as he spoke, but he remembered that Lin Yi was Sky Class early phase as well and smiled bitterly."Brother Lin's a solo practitioner now-he's a world of difference from us sect disciples! To be able to become Sky Class early phase peak at your age proves how extraordinary you are!"

Lin Yi waved his hand, signaling for the Vice guild leader to drop the praise."Brother Ouyang, why don't you talk about your own matters?"

"Alright! I won't go into the details when I participated in the cultivators trade Association's trial. During the trial, heavenly venerate pure Yin of the everyday and every day sect injured me. Although he spared my life, he injured the foundation of my meridians. This is also the reason why I haven't made much progress in my cultivation realm for so many years! Until now, my meridians have not recovered and I have been removed from the list of disciples that the cultivator trade association is focusing on training! If it wasn't for that elder of mine, helping me get some medicine from time to time, I wouldn't even be able to recover from my injuries, let alone being a Sky Class early peak!" Vice guild leader Ouyang sighed with emotion."I may have an irreconcilable feud with celestial master chunyin, but I'm no longer his match now. I heard that he's in seclusion trying to break through to Sky Class late phase peak. He might not succeed with his age and experience, but even if he fails, he's someone I can only look up to now. I've also said that the everyday and every day sect has a relationship with our cultivator trade Association's honorary chairman. It's impossible for our cultivator trade association to stand up for me, not even that elder of mine! If we want to get back at them, we'll have to do it ourselves. After all, this is a conflict we've had in the trial, and we can't break the rules!"

Lin Yi nodded. It seemed that it would be very difficult to get his revenge.

"Brother Ouyang, my condolences." Lin Yi didn't know how to comfort her.

"It's fine, I've already thought it through! I can't take revenge by myself, but if one day, someone can help me take revenge, I'll definitely acknowledge that person as my master and serve him at all costs to repay him!" Vice guild leader Ouyang said.

"Personally take revenge? Why can't I?" Lin Yi asked.

"My meridians are seriously injured-they've mostly recovered after all these years, but some of them won't be completely healed. Unless these old injuries are healed and I can break through to Sky Class mid phase and continue training, I'll never be able to reach the peak of my strength." Vice guild leader Ouyang shook his head helplessly.

"Xiao Kong, you can leave first. I have something to say to vice guild leader Ouyang." Lin Yi said as he waved his hand at the disciple.

However, he was focused on the automatic cauldron and didn't seem to hear Lin Yi's words at all. Lin Yi couldn't help but smile bitterly-he'd underestimated the attraction of a legendary weapon like this to a refiner.

However, this was also a good thing. One could imagine what kind of crazy Sales it would cause after this medicinal cauldron hit the market!

"Xiao Kong, you go out first. I have something to discuss with brother Lin!" Vice guild leader Ouyang scolded. Although this Kong Tong was his trusted aide, he wouldn't have let him test out this tier one automatic medicine cauldron otherwise. But vice guild leader Ouyang knew that what Lin Yi was going to say next was probably a secret. He couldn't let Kong Tong know.

"Ah!" Xiao Kong was jolted back to his senses after being hit in the head. He looked at vice guild leader Ouyang in a daze. "Vice President, what's wrong?"

"Go out for a moment, I have something to discuss with brother Lin!" Vice guild leader Ouyang said.

"Yes!" Although Xiao Kong nodded his head in agreement, his gaze still lingered on the automatic tier one medicinal cauldron on the table, somewhat reluctant to part with it.

"You can take it out and study it." Lin Yi waved his hand.

"You can take it out and study it." Lin Yi waved his hand and said nonchalantly, "That disciple from before was also an Earth Class late phase peak. There shouldn't be anyone here who would dare to repair the things of the Association, right?"

"I'm sure not!" "No one has ever dared to anger the cultivators trading Association, so you can rest assured, Mr. Ling!" Vice President Ouyang said. Xiao Kong, aren't you going to thank Mr Ling?"

"Thank you, Mr. Ling!" Xiao Kong held the automatic Grade one medicinal cauldron and loved it so much that he did not want to put it down. After all, this was a treasure that could allow him to become an outstanding grade one Alchemist! From the looks of it, he didn't hear Lin Yi's words at all and didn't know that Lin Yi's surname was Lin. He thought that Lin Yi's surname was Ling!

"Brother Ouyang, I think that from now on, this cauldron should be managed by little Kong. When the time comes for the demonstration, let him be in charge as well." Lin Yi said faintly.

"Ah?" Little Kong was instantly stunned. This way, wasn't this medicinal cauldron almost the same as his personal cauldron? He was suddenly at a loss.

"Xiao Kong, aren't you going to thank Mr. Lin?" Vice guild leader Ouyang hurriedly said.

"Thank you, Mr. Ling!" Xiao Kong was overjoyed as he expressed his gratitude.

Vice guild leader Ouyang couldn't be bothered to correct Kong Dao's slip of the tongue. He simply waved his hand, indicating that he could leave.

After Kong left happily, only Lin Yi and vice guild leader Ouyang were left in the room. Vice guild leader Ouyang said, ""Brother Lin, you can speak now."

"I can heal your injuries!" Lin Yi's words shocked vice guild leader Ouyang.

"You ... You can cure it? How was this possible? My meridians are broken and I'm injured in no other way. Unless there's a legendary fourth-grade great recovery pill, but that's a legendary existence!" Vice guild leader Ouyang asked in shock and confusion.

"I don't have a grade four great recovery pill, but I do have a way to cure your injuries." "But please keep this a secret, brother Ouyang!" Lin Yi said.

"Naturally!" Vice guild leader Ouyang was shocked, but he nodded after hearing Lin Yi's words, "I'll keep it a secret for sure. But, what method do you have to heal the injured meridians?"

"Just don't move," With that, Lin Yi reached out and took vice guild leader Ouyang's wrist. Vice guild leader Ouyang was shocked-if he didn't know that Lin Yi wouldn't harm him, and that he wouldn't be able to resist even if Lin Yi did, he'd be scared to death!

Chapter 3138 The Legend Of Ouyang

"Alright!" Vice guild leader Ouyang understood that Lin Yi couldn't harm him, so he calmed down and nodded. Although he was confused, he still sat on his seat without moving.

Lin Yi started channeling the first stage of the art of Dragon mastery and started repairing vice guild leader Ouyang's meridians. Even though Lin Yi and vice guild leader Ouyang were on very good terms, Lin Yi still held back some of his strength. After all, the two of them hadn't been in contact for long. Even if Lin Yi trusted him, he still had some hidden cards.

The first and third stages of the art of Dragon mastery were both capable of repairing damaged meridians. However, the speed at which they were repaired was different. Even so, a look of shock quickly appeared on vice guild leader Ouyang's face. He could feel that his meridians were being repaired at an unbelievable rate!

He wanted to ask Lin Yi why it was so magical, but he remembered that Lin Yi told him not to move. He swallowed his words and waited for Lin Yi to finish the treatment.

In the blink of an eye, three hours had passed. In reality, not most of the meridians in vice guild leader Ouyang's body had been damaged. Only a small portion had been damaged. Otherwise, he would not have been able to possess his current strength.

It was just that these three hours were extended by Lin Yi. If he used the third stage of the art of Dragon mastery to repair it, it would only take ten minutes.

"It's done," Lin Yi pretended to be very weak and took his hand away from vice guild leader Ouyang's body, letting out a breath of air. He was very relaxed, but he still had to put on a show. He wanted vice guild leader Ouyang to be grateful.

As expected, vice guild leader Ouyang didn't even have time to be surprised or happy when he saw Lin Yi's weak state. He quickly asked, "Brother Lin, how are you? Do you need to replenish your strength and true Qi now?"

"Let's talk about it later. I'm going to rest for a while!" Lin Yi waved his hand and pretended to rest with his eyes closed. "Brother Ouyang, how do you feel?"

"Good, very good! Brother Lin, I don't know how to thank you, but as long as my meridians are healed, I'll be able to break through to Sky Class mid phase in two days!" "Brother Lin, I finally understand what you mean by 'take revenge on your own'... However, it's not that I'm not confident, but I've been delayed for too long. It's almost impossible to catch up to heavenly venerable chunyin! However, recovering my meridians is also a great thing for me. As long as I can break through to the late stage of Sky Class in the next few years, I'll have a chance to obtain the resources of the practitioner's trade

association and reach the peak of the late stage of Sky Class. That way, I'll have a chance to set foot on Sky Class Island, and it'll be hard to say who'll reach the sky path first-it'll be my only chance. It'll be impossible for me to take revenge against the sky path. "

Lin Yi nodded noncommittally. Vice guild leader Ouyang was right-he was very wise. He didn't have the ability to fight someone of a higher level than him, and so even if he was Sky Class late phase peak, celestial master Chun Yin would've already been a Sky Class late phase peak by then. There was no way to compare the two.

"If there's a chance, I'll help you get your revenge." He didn't need to write a receipt for empty promises anyway, so Lin Yi just promised casually. After all, he still had some enmity with the everyday and every day sect.

"Thank you!" Vice guild leader Ouyang didn't take it seriously. Lin Yi could fight enemies above his level, but he was still a long way from killing celestial master Chun Yin."Mr. Lin, I'll remember today's favor. If you need anything, I'll do my best to help!"

"Hehe, you're too kind." Lin Yi smiled and didn't say anything else. What Lin Yi didn't know was that Vice President Ouyang's recovery and the automatic medicine cauldron were pushing for the elder behind him to make him a key disciple of the practitioner's trade association ...

"Brother Lin, I can't thank you enough for your kindness. I'll go back and start promoting the automatic Grade one medicinal cauldrons now. However, you have to tell me where to go if they can't wait to buy a single version or the five-in-one medicinal cauldron." Vice guild leader Ouyang asked.

"She's from the secular Liu family. She's one of my people. I'll get her to contact you when the time comes." Lin Yi said.

"Alright!" Vice guild leader Ouyang nodded. "Then I'll take my leave first. If there's any news, we'll exchange it."

Lin Yi told Jinghan the news as soon as it was done-with the Association's protection, Jinghan wouldn't have to worry about some people with bad intentions anymore.

Vice President Ouyang didn't stay idle either. After he returned to his office, the first thing he did was to call the elder behind him!

"What's the matter, little farmer?" A deep male voice came from the other end of the phone. This was the elder of vice guild leader Ouyang's number two honorary guild leader!

"Second Grandpa, I have something important to report to you." Vice guild leader Ouyang's name was Ouyang Nong. However, he had almost forgotten this name. Only his second grandfather called him by this name. The others, even the honorary guild leader, would address him as vice guild leader Ouyang in a business-like manner.

"Oh? What's the matter?" The No. 2 honored Supreme President was called legend Ouyang, and he himself was indeed a legend! There were almost no outsiders who joined the Supreme Elder Council of the cultivators trade association. In other words, except for the internally appointed core disciples who could be promoted to the level of the elders Council, no matter how outstanding the other disciples were, they could only be the president of the cultivators trade association at most. It was impossible for them to make any further progress.

As for Ouyang Chuanqi, he used to be a normal disciple, but it was said that during a test on the ancient island, he was picked up by one of the higher-ups in the practitioner trade association and was accepted

as a disciple. From then on, he rose to the top, not only becoming a Sky Class late phase Peak Master, but also the Honorary President of the number two Grand Supreme!

One had to know that there were only three Honorary Presidents, and the others were all elders. It could be said that legendary Ouyang was indeed a legend! Ouyang Chuanqi had no children, and the only outstanding one in the Ouyang family was Ouyang Nong. Therefore, he had been carefully cultivating Ouyang Nong to become his successor. However, he did not expect that Ouyang Nong would fail in the trial and be seriously injured by the disciple of the everyday and every day sect, celestial master pure Yin!

Chapter 3139 Teaching Zhaoming A Lesson

Although Ouyang Chuanqi used all his means and resources to find some natural treasures for Ouyang Nong, his injuries never fully recovered, and his cultivation strength was also stuck at the peak of the early stage of Sky Class, never to advance further.

However, legendary Ouyang would not say these things on the surface. If he did, Ouyang Nong would probably feel even worse.

"Second Grandpa, I'm done!" Ouyang Nong could lie to others, but he didn't dare to hide anything from his second grandfather, who was closer than his own grandfather!

"Are you done? What did that mean? What do you mean you've recovered?" "What's wrong?" asked Ouyang Chuanqi curiously.

"Second Grandpa, my meridians are fine!" "I'm fine!" Ouyang Nong said excitedly, "my injured meridians have recovered, and I've touched the barrier to breaking through. I'll be able to break through to the middle phase of Sky Class in two days!"

"Oh? Your meridians ... Are healed? How did he recover? What fortuitous encounter did you encounter?" Ouyang Chuanqi was very shocked. If he couldn't do anything about Ouyang Nong's meridians, then there was no way, unless the person inside came out ... However, although Ouyang Nong was outstanding, he did not deserve their special care. Therefore, Ouyang Chuanqi was really surprised.

"Yes, second Grandpa, I had a fortuitous encounter. Someone ... Helped me heal my meridians, but I can't reveal the details. I can't break my promise! Although I know second Grandpa will definitely keep it a secret for me, this is a matter of principle. We businessmen value trust, this is the most basic character. " Ouyang Nong said.

"Okay, I understand. I won't ask anymore. But no matter what, this is a good thing!" "I can help you cover it up," said Ouyang Chuanqi. "Just say that I've found some natural treasures. After you take them, you'll be cured by a freak combination of factors! I'll have to report your recovery to the higher-ups, and if you reach the mid phase, I'll consider putting you in charge of some of the things in the practitioner trade association!"

"There's no need ... To be more responsible," Ouyang Nong smiled bitterly and said, ""I'm afraid I can't handle it now!"

"What do you mean? How busy can the person in charge of a market be?" Ouyang Chuanqi's tone changed, and he was somewhat unhappy. ""Ouyang Nong, have you been idle for too many years after your injury? have you stopped improving? Since you've recovered your meridians, your final goal is definitely not just to become a Vice President!"

"Second Grandpa, you've misunderstood me!" Ouyang Nong quickly explained. "I mean, there is a more important thing for me to do now. I may not have the mood to be distracted by other things!"

"Oh? What's the important thing?" Asked Ouyang Chuanqi.

"It's like this ..." With that, Ouyang Nong told Ouyang Chuanqi about the automatic medicine cauldron, including the cooperation with Lin Yi.

Ouyang Chuanqi was able to struggle from a grassroots disciple to the number two honored Supreme guild leader. Naturally, he was not a simple character. When he heard about this tier one automatic medicinal cauldron, his eyes immediately turned green. "Ouyang Nong, are you telling the truth? Why did it sound so unbelievable? You saw the real thing?"

"I saw it. Not only did I see the real thing, but I also let my Alchemist here personally test it. The pill was successfully refined in one try, and not only is the color rich, but there is also a pill Halo. It can be said that ordinary alchemists can't reach this level!" Ouyang Nong said with a wry smile. To be honest, at first, he also had such concerns. After all, this thing was a bit too magical. But after seeing it with his own eyes, he knew that this thing was really so magical!

"Oh my God ..." Even though Ouyang Chuanqi was a wily old fox, he still exclaimed in shock. Ouyang Nong knew what this thing represented, and naturally, Ouyang Chuanqi knew it even better. No wonder Ouyang Nong said that there was no time. It was because of this thing!

However, legendary Ouyang suddenly thought of something. He slapped his forehead and said, "Little farmer, bring that Automatic Grade one medicinal cauldron to my place as soon as possible. I'm going to find the Grand Supreme Honorary President now. Once this medicinal cauldron is revealed, it will definitely cause the sales of the grade one pills to stagnate. If that's the case, we'll have to stop accepting the sky pill sect's grade one pills!

Even though the sky elixir sect was selling their elixirs for free, the cultivators trade association was too embarrassed to let them continue sending them elixirs.

However, legendary Ouyang suddenly thought of something. He slapped his forehead and said, "Little farmer, bring that Automatic Grade one medicinal cauldron to my place as soon as possible. I'm going to find the Grand Supreme honorary chairman now. Once this medicinal cauldron is revealed, it will definitely cause a stagnation in the sales of the grade one pills. If that's the case, we'll have to stop accepting the sky elixir sect's grade one pills!"

Even though the sky elixir sect was selling their elixirs for free, the cultivators trade association was too embarrassed to let them continue sending them elixirs.

"Stop?" A sinister look flashed in Ouyang Nong's eyes, "Second Grandpa, can we delay telling the sky elixir sect about this?"

"Oh? Why?" Legendary Ouyang was slightly stunned.

"Before this, my elixirs had always been supplied by this friend of mine, brother Lin. However, the sky elixir sect had suddenly monopolized the supply of the practitioner's trade association, causing my friend to take back all the elixirs that he had brought. I felt extremely apologetic in my heart, but brother Lin has not held any grudges against me and has even come up with a better cooperation plan. If I don't help to deal with the sky elixir sect soon, I will feel a little uneasy in my heart ..." Ouyang Nong said.

"Oh?" Ouyang Chuanqi was slightly stunned. He muttered to himself for a moment, but still refused, "Little farmer, if he works with you, it's a win-win situation. You don't have to feel bad about it. After all, medicinal pills can't make money anymore. If he wants to make money, he can only do it from other aspects. But, there's no need to offend the sky elixir sect over something like this. I'm not afraid of

them, but it's better to have one more friend than one more enemy! Little farmer, as a merchant, you must know that profit is the most important!"

"That's right, benefits come first!" "If brother Lin can give me benefits that far exceed what I had at the sky elixir sect, I'll definitely abandon the sky elixir sect to please brother Lin!" Ouyang Nong said with a straight face.

"Oh? What do you mean by that?" "What's wrong?" asked Ouyang Chuanqi curiously.

"My injuries were healed by Lin Yi, brother Lin." Ouyang Nong said.

Ouyang Chuanqi's breathing on the other side of the phone suddenly stopped. After a moment of silence, he said,""Little farmer, I know what to do. Wait for my news!"

"Many thanks, second Grandpa!" Ouyang Nong knew that Ouyang Chuanqi had agreed to help teach the sky elixir sect a lesson.

Chapter 3140 Kang Zhaoming Fell For The Trap

"Remember, you didn't call me today, so I don't know about the grade one automatic medicinal cauldron. Three days later, bring the automatic medicinal cauldron to me and the first Supreme Leader. I'll pretend that I didn't know about it beforehand." Said Ouyang Chuanqi.

"Okay, second Grandpa, I understand!" Ouyang Nong said solemnly.

After hanging up, Ouyang Chuanqi dialed Kang Zhaoming's number.

"Hello, guild leader Ouyang. What's the matter?" Kang Zhaoming received a call from Ouyang Chuanqi and asked in fear.

"Nothing much. I just wanted to tell you that first-grade pills are selling quite well recently. If you still have more, send some to me. I'm afraid there won't be enough to sell!" Said Ouyang Chuanqi casually.

"I don't have any in stock, but don't worry, guild leader Ouyang. I'll be able to refine it very quickly. I'll get someone to refine it and send it over very soon!" Kang Zhaoming quickly replied.

"Oh, then you'll have to be quick. If there's no more stock here, then we can only purchase from other sources. After all, it's impossible for the cultivator's trade association to be against money!" Ouyang Chuanqi's casual words shocked Zhaoming!

If Ouyang Chuanqi really bought it from other channels, then wouldn't Zhaoming and xuanchen's efforts be in vain? No matter what, Lin Yi was just one person, and he didn't have many pills on him. The practitioner's trade association could take all of his pills in one go, and Zhaoming wouldn't even have time to cry.

"Don't worry, guild leader Ouyang. We'll work through the night to produce a large batch of Grade-1 pills and send them to you!" Kang Zhaoming quickly replied.

"Alright, I'll be waiting for you then." "I'll give you three days," said Ouyang Chuanqi.

"Three days is enough!" Kang Zhaoming let out a breath of relief.

Ouyang Chuanqi hung up the phone, and a sneer flashed at the corner of his mouth. He valued Ouyang Nong very much. He was now a person with one foot in the path of heaven. Before the opportunity of the Sky Class Island came, he had no other pursuits. His only thought was on Ouyang Nong, a junior.

Ouyang Nong's injury had always been a pain in his heart. Now that he had recovered, he was very happy. Therefore, he was extremely grateful to Ouyang Nong's benefactor. As long as Ouyang Nong asked, as long as he could do it, he would not refuse!

Secretly setting up the heaven elixir sect, on the premise that it would not affect the overall interests of the cultivator trade association, Ouyang Chuanqi also agreed.

Zhaoming, on the other hand, arranged for people to buy the ingredients for the first rank pill after hanging up the phone. The entire sect was mobilized, be it the five elements sect disciples or the sky elixir sect disciples, as long as they had free time, they all started making large amounts of first rank pills!

This time, Zhaoming and the xuanchen elder were really going all out. They used almost all of the five elements sect's current liquid funds to buy the ingredients for the first-grade pill! It was not to say that patriarch xuanchen was foolish and gullible. The main reason was that he believed that the Grade-1 pill could be sold after it was refined. After all, the spirit gathering pill was a very popular pill. In hidden aristocratic families, ordinary sects, and even ancient sects, the supply was in short supply, so it was impossible to make a loss after refining it.

No matter how shrewd patriarch xuanchen was, it was impossible for him to think of such a heaven-defying item like a grade one automatic medicinal cauldron. Such a thing did not exist in his mind at all!

Therefore, the xuanchen ancestor didn't think too much and ordered Zhaoming to find people to make a large number of grade one pills. It didn't matter if they couldn't be sold for the time being as long as they could stop Lin Yi from selling! Lin Yi's elixirs were all in his hands, and the sky elixir sect's first class elixirs could be sold for three to five years-they'd be sold out eventually!

For the other ancient sects and hidden houses, first level elixirs were very difficult to make. Even if they could, the success rate would be very low. But for the disciples of the five elements sect and sky elixir sect, it was a piece of cake!

In the blink of an eye, three days had passed, and Zhaoming had made over ten thousand first class pills, spending all the five elements sect's liquid funds!

"Haha, father-in-law, let's see if Lin Yi's going to die this time. With so many first class pills, it's enough to sell for three to five years. We're not in a hurry, let the practitioner's trade association sell them slowly and suffocate Lin Yi!" Zhaoming said excitedly as he looked at the small mountain of medicine boxes.

"En, bring some people to deliver these pills to the cultivators" trade association now!" Patriarch xuanchen nodded.

"Yes, father-in-law, I'll send it over now!" Zhaoming nodded quickly. This was a good chance to show his face and interact with the practitioner's trade association. He'd be able to stand firm in the five elements sect and the sky elixir sect, becoming the new leader.

Kang Zhaoming brought two disciples and rushed to the practitioner's trade association excitedly. They saw the first esteemed Chairman, Nine Heavens, and the second honorary chairman, Ouyang Chuanqi.

"Kang Zhaoming from the heavenly elixir sect greets guild leader Shen and guild leader Ouyang!" Kang Zhaoming said respectfully.

"En, elder Kang, you've worked hard!" President Shen nodded and gestured for Kang Zhaoming to sit down, "Your sky elixir sect's elixirs are selling pretty well, huh? but why did you bring so many this time?"

Naturally, Zhaoming couldn't say that he was trying to push Lin Yi into the market. Even President Shen wouldn't know who Lin Yi was if he said it out loud, and it wasn't good to say this kind of personal grudges out in the open, either. So Zhaoming just smiled, "Haha, the disciples in the sect don't have much to do recently, so we let them practice alchemy, so we've made more. But it's not a big deal. Pills are consumables anyway, and they won't spoil because they've been stored for a long time, so we can sell them slowly. We're not in a hurry to get money!"

Although making these pills used up most of the five elements sect's liquid funds, Kang Zhaoming wasn't worried. After all, the practitioner's trade association was selling pills every day. In a month or so, they would be able to earn back a sum of money, enough for them to make ends meet.

"You're right. " Guild leader Shen nodded, and then said to Ouyang Chuanqi, ""Guild leader Ouyang, you're in charge of the pill's inspection. Have elder Kang's men send the pill to the warehouse for inspection!"

"Alright, President Shen!" Ouyang Chuanqi nodded and was about to get up. At this time, a disciple of the cultivator's trade association walked in!

"Reporting to guild leader Shen and guild leader Ouyang. Vice guild leader Ouyang Nong requests an audience!" The disciple was obviously President Shen's confidant, so he didn't avoid the topic in this kind of occasion and directly came in to speak.
