

## Bodyguard 3141

### Chapter 3141 The Exhibition

"Oh?" President Shen originally wanted to finish the current matter before summoning Ouyang Nong, but this Ouyang Nong was different from others. He was the grandson of Ouyang Chuan Qi, so President Shen gave face to Ouyang Chuan Qi and said to the messenger disciple, ""Okay, let Ouyang Nong in!"

"Yes." The disciple nodded and took his leave.

Ouyang Chuanqi was about to get up, but he also sat down and waited for Ouyang Nong to come. However, Ouyang Chuanqi was a little amused in his heart. This Ouyang Nong really knew how to seize the opportunity! But this was good too-with Zhaoming here, people wouldn't say he was behind the scenes!

There was nothing to hide if everyone saw it-Zhaoming would tell them when he got back, and the sky elixir sect would have to suffer in silence!

"Guild leader Shen, guild leader Ouyang, disciple Ouyang Nong greets the two elders!" Ouyang Nong said respectfully as he walked through the door. He didn't pay any attention to Kang Zhaoming, but Kang Zhaoming didn't think much about it. After all, Ouyang Nong was an internal member of the Association. It was normal for him to not know him.

"Ouyang Nong, what's the important thing for you to come here? Why didn't I hear you mention it before?" President Shen was a little puzzled. After all, these vice presidents were usually stationed in their respective markets and territories. They would only come back unless there was an important matter. However, Ouyang Nong had not called in advance! Could it be that he had contacted legend Ouyang in advance?

However, when President Shen looked at Ouyang Chuanqi, he saw that Ouyang Chuanqi was also surprised and curious, so he dispelled this idea. It seemed that Ouyang Chuanqi did not know about this matter in advance.

"President Shen, President Ouyang, I've come here with an important matter. The reason I didn't call you beforehand was because it was too important, so I wanted to report it to you personally!" Said Ouyang Nong respectfully.

"Oh? What's the matter?" President Shen suddenly became interested. Since Ouyang Nong said so, it meant that it was not a small matter.

"It's like this. There's a customer who wants to cooperate with the cultivators trade association to sell a kind of heaven-defying divine weapon!" Ouyang Nong said.

"You can handle this matter on your own. There's no need for you to come personally for a heaven-defying divine weapon, right? Just a phone call?" President Shen asked, puzzled.

"That's right, little farmer. You have to learn to be independent. You can't always ask me and Grandpa Shen for help. How can you grow like this?" Said Ouyang Chuanqi.

"No, there's more than one heaven-defying divine artifact!" "This is a heaven-defying divine weapon that can be mass-produced!" Ouyang Nong said.

"Mass production? what's so heaven-defying about that?" President Shen asked in surprise.

"Yeah, just like this medicinal pill. How can something that can be mass produced be called heaven-defying?" Said Ouyang Chuanqi in a cooperative manner.

"Guild leader Shen, guild leader Ouyang, although this item can be mass-produced, it's already heaven-defying!" Ouyang Nong said proudly, ""This thing is called a grade one automatic medicinal cauldron!"

"A grade one automatic medicinal cauldron? What's that?" President Shen was stunned. He had never heard of a divine weapon with this name.

"It's a type of medicinal cauldron that can automatically refine first-grade pills!" Ouyang Nong said.

"Automatically refining first grade pills?" President Shen opened his eyes wide and looked at Ouyang Nong in disbelief, ""Ouyang Nong, you're not talking nonsense, right? A medicinal cauldron that could automatically refine pills? I didn't hear wrong, did I? How can there be such a thing? if this thing can automatically concoct pills, what's the point of alchemists?"

"That's right, little farmer, you couldn't have been scammed by someone, right? This elder Kang Zhaoming in front of you is an elder of the sky elixir sect. Why don't you ask him if he's ever heard of this thing?" Ouyang Chuanqi was also "shocked" as he pointed at Zhaoming.

Kang Zhaoming was surprised by Ouyang Nong's words. An Automatic Grade one medicine cauldron? How could such a thing exist in this world? Is this an international joke? When he heard legend Ouyang's question, he immediately replied, ""That's right. What grade one automatic medicinal cauldron? did Mr Ouyang get scammed? I've never even heard of such a cauldron in the sky elixir sect. You have to know that all the first and second grade cauldrons on the market are made by us. We're the manufacturers,

and we've never heard of any cauldrons that can automatically refine pills. If there was such a thing, would we not know?"

Ouyang Nong looked at Kang Zhaoming and spat out four words that almost made Kang Zhaoming puke blood, ""You're ignorant!"

"You ... You ... Hmph! I can't be bothered to argue with people like you. You're a typical example of helping people count their money after being cheated!" Kang Zhaoming raged.

"Elder Kang, please calm down. Let me ask Ouyang Nong, what is going on?" President Shen waved his hand at Zhaoming, signaling him to calm down. He then turned to Ouyang Nong, ""Little farmer, tell me, what's going on? You're usually a smart person, why are you so muddled now? How could such a thing exist?"

"Facts speak louder than words. President Shen, please wait a moment. You'll understand what's going on after watching my demonstration!" Ouyang Nong didn't argue. He just waved his hand and made a gesture to the back. Then, he pointed to the small hole coming from the door and said, ""This is our market's Alchemist's Kasaya, little hole. Guild leader Shen and guild leader Ouyang should have some impression of it, right?"

"That's right, I remember him. I was the one who assigned him to you!" Ouyang Chuanqi nodded and said, ""I have an impression."

President Shen didn't have much of an impression of it, but he did know about alchemists. However, he was even more curious."Ouyang Nong, do you mean that your grade one automatic medicinal cauldron was tested by the small hole?"

"But ..." Ouyang Nong nodded his head.

"You're so silly!" President Shen didn't know whether to laugh or cry. "Ouyang Nong, think about it. An Alchemist has only touched the medicinal cauldron a few times. How could he help you examine that medicinal cauldron? He doesn't understand either?"

"President Shen, I've already said, please continue to watch!" As Ouyang Nong spoke, he said to little Kong, "Xiao Kong, make them a spirit gathering pill!"

"Yes, vice guild leader Ouyang!" "Yes," little Kong replied. After he finished speaking, he took out the automatic Grade one medicinal cauldron from his backpack and placed it on the ground in front of everyone. Then, he sat down cross-legged.

"What kind of cauldron is this?" Guild leader Shen, guild leader Ouyang, and Kang Zhaoming all looked at the item in shock, not knowing what it was.

"This thing is called a grade one automatic medicinal cauldron. Next, I will demonstrate how to make the spirit gathering pill!" As Xiao Kong spoke, he opened the automatic Grade one medicinal cauldron and displayed the empty cauldron to everyone!

Chapter 3142 Very Magical

Then, he took out the ingredients for the spirit gathering pill from his backpack and put them into the medicinal cauldron. Then, he closed the lid of the medicinal cauldron and turned on the automatic medicinal cauldron!

A beeping sound rang out, and the automatic Grade one medicinal cauldron was successfully activated. Meanwhile, little hole had chosen to refine the spirit gathering pill. Then, according to the instructions on the liquid crystal screen, he condensed the pill fire and began to refine the pill ...

This series of actions made the people present dumbfounded. Even if Ouyang Chuanqi had already heard about the situation of this medicinal cauldron from Ouyang Nong before, he was still very shocked at this moment. Wasn't it too intelligent? Why did it look like the smart rice cooker today? put in the rice, press a button, and then it would all automatically?

Guild leader Shen, legendary Ouyang, and even Kang Zhaoming all gathered around little Kong to watch him make the pill! If it was in the past, the small hole would definitely be nervous and cause the pill to fail. But now, it would not. All of these were hints, and the small hole was not afraid of being anxious and missing something.

Guild leader Shen, legendary Ouyang, and Zhaoming all saw the content on the screen. They looked at how serious little Kong was, and slowly began to believe in this high-tech God-defying item. Zhaoming, on the other hand, didn't look too good!

The appearance of a tier one automatic cauldron was a huge blow to the market, especially to Zhaoming. It was a nightmare! He'd made so many Tier 1 pills, and if everyone could use automatic Tier 1 cauldrons to make pills in the future, who would still buy the sky pill sect's pills?

And so, Kang Zhaoming kept praying in his heart. It was a lie, it was a lie!

"Whoosh, whoosh, whoosh." Little Kong finished the last step and heaved a sigh of relief. Following the instructions on the screen, he put away the alchemy fire and said, "Alright, the pill is ready. Guild leader Shen, guild leader Ouyang, and vice guild leader Ouyang, please inspect it!"

"Oh? It's done?" "You haven't even opened the cauldron, how do you know it'll work?" President Shen was shocked.

"That's right, Xiao Kong. If I remember correctly, although you can control the alchemy fire, you can only be an Alchemist and not an Alchemist because you lack the wood attribute in your body. How did you manage to refine pills?" Ouyang Chuanqi also asked.

"Guild leader Shen, guild leader Ouyang, this is the amazing part of an Automatic Grade one medicinal cauldron. As long as you can control the pill fire, regardless of whether you're proficient in refining pills or if you have wood attributes in your body, as long as you can change the temperature of the pill fire at will, you can use an Automatic Grade one medicinal cauldron to refine pills. Moreover, it's a 100% success rate. There's no possibility of the pill being wasted." As he spoke, the small hole opened the automatic Grade one medicinal cauldron's lid. Instantly, a fragrance filled the room, and a round, full spirit gathering pill with a pill Halo jumped into everyone's eyes!

"This ..." Kang Zhaoming pointed at the pill in little Kong's hand in disbelief,""How is this possible? This was illogical, this was simply illogical! What grade one automatic medicinal cauldron? it's all a lie! It's all an illusion! You must be an experienced Alchemist. Are you pretending that you don't have any wood attribute? What are you up to?"

"Elder Kang, I remember this small hole. There's no wood attribute in its body. If you don't believe me, you can check it yourself!" Said Ouyang Chuanqi somewhat unhappily.

"Fine, I'll check!" Kang Zhaoming didn't care if Ouyang Chuanqi's tone was good or not. He had to clear things up and expose this scam! As he said that, he grabbed the small hole's hand and began to check it. However, he was shocked when he checked it! That was because there was really no wood attribute in Kong Dao's body, only fire attribute!

"This ... This is impossible!" Kang Zhaoming was even more incredulous after checking. He pointed at the hole and said, "Even if you don't have the wood attribute, you have the fire attribute, so you can still make the spirit gathering pill. Practice makes perfect. You can make it a few more times and master the feeling. Don't think I don't know!"

"This is my second attempt!" Kong frowned. "Vice guild leader Ouyang can be my witness!"

"That's right. Xiao Kong is indeed refining the spirit gathering pill for the second time!" Ouyang Nong nodded and said affirmatively. Previously, little Kong had made one pill. In order to let him have more energy during today's performance, Ouyang Nong had not allowed him to continue making other pills.

"You're all on the same side. How can I believe what you say?" Kang Zhaoming waved his hand and said to little Kong Dao, "If you have the ability, then help me refine another pill. Refine a life returning pill ... No, refine an energy returning pill!"

The Qi recovery pill was a pill used by golden class Masters to quickly recover their strength and Qi. The recovery effect wasn't obvious, and it was only effective for golden class Masters, so no one made this kind of unpopular pill!

After all, there wasn't a market for these things. The Golden class Masters in the sect were all normal disciples, and they rarely used Qi recovery pills in fights. The Golden class Masters in the secular world didn't even have a way to buy these pills, so Qi recovery pills were very rare. Even Kang Zhaoming didn't dare to say that he could make it in one try. After all, he'd never made it before, and he didn't even know how to make it.

President Shen didn't stop Zhaoming from making the claim-he was still a little skeptical, after all, and wanted to see if the automatic cauldron in Xiaomo's hands could make other tier one pills!

"It can be refined!" Little hole looked at the menu on the automatic Grade one medicinal cauldron. There was indeed an option for "Qi returning pills," so he nodded his head and said, "But I don't have the ingredients for the Qi recovery pill ..."

"Go and prepare a few sets of ingredients for the first ranked pill, including those for the Qi returning pill." President Shen pointed to a disciple who was on standby not far away and ordered.

"Yes!" The disciple nodded in acknowledgment and ran down to prepare.

Kang Zhaoming's heart jumped at Kong's words. He had a bad feeling about this. After all, Kong's answer was too straightforward! But Zhaoming still encouraged himself, "You don't need to show off. We'll talk after you've refined it."

After a while, the disciple came back with a few bags in his hands. It seemed that there were all kinds of first-grade alchemy materials in them.

"President Shen, these are the ingredients for the Qi recovery pill, and these are the ingredients for the other first ranked pills." The disciple handed the bag to President Shen.

Guild leader Shen nodded his head and took the ingredients for the Qi recovery pill. He passed them to Xiao Kong, while the rest were placed on the ground at the side, "Xiao Kong, can you make Qi recovery pills now?"

"It can be refined!" Little Kong nodded and directly poured the bag of ingredients for the Qi returning pills into the automatic Grade one medicine cauldron!

#### Chapter 3143 Kang Zhaoming Gets Scammed

After that, he covered the small hole and selected the "Qi recovery pill" option. Following the instructions, he condensed the elixir fire and began to make Qi recovery pills!

The bad feeling in Zhaoming's heart grew as he watched Kong operate the automatic medicine cauldron. Could he really make Qi recovery pills?

Among the people present, in addition to Ouyang Nong and Xiao Kong who knew the truth, even Ouyang Chuanqi's eyes were wide open. He watched Xiao Kong refine the pill without blinking. It seemed that he also wanted to know whether this alchemy would be successful.

"Phew ... Pill completed!" Xiao Kong put away his alchemy fire and then directly opened the lid of the automatic Grade one medicinal cauldron. He didn't even take a look and directly said this. His words were filled with confidence. Or rather, it was confidence in the automatic Grade one medicinal cauldron!

"It's really done!" President Shen looked at the Qi returning pills in the cauldron and said in shock, "This grade one automatic medicinal cauldron is actually real! This is truly a heaven-defying divine artifact!"

"This ... How is this possible? That's impossible!" Zhaoming's face was green. "No, I have to try it myself. Otherwise, I'll think that you're cheating!"

Now, Kong Dao was in a difficult position. He raised his head and looked at vice guild leader Ouyang. After all, this medicinal cauldron was no joke. What would they do if it was damaged?

Ouyang Nong hesitated for a moment and then made a decision, ""Xiao Kong, let him use it. This medicinal cauldron won't break, but you should tell elder Kang how to use it!"

"Alright," he said. When Xiao Kong saw that Ouyang Nong had agreed, he nodded. Although he was not willing to use this person who always doubted him, he could only do as Ouyang Nong said.

Zhaoming took the automatic cauldron and suppressed the disdain in his heart. He reminded himself that he had to find out if this thing was really useful-this was a huge matter! He had to report to the xuanchen ancestor immediately after he returned and ask for a decision!

Therefore, he listened carefully to Xiao Kong's introduction on how to use the automatic Grade one cauldron. Then, he picked up a bag of grade one elixir materials on the ground and took a look. It was a misty body tempering pill that he had never made before! It was another medicinal pill that was not of much use!

The body tempering pill was a simplified version of the foundation building pill. Basically, no one made it because its effects were worse than the foundation building pill. No one needed it.

However, the less popular the pill was, the happier Zhaoming was. He'd never made it before, so it'd show the usefulness of a tier one automatic cauldron.

Zhaoming put all the ingredients into the cauldron and followed what little hole said. He activated the automatic cauldron and chose the "body refinement pill" method. He then started to gather the fire and make the body refinement pill!

It didn't take long for Zhaoming to realize that this method was way too simple. He didn't even need to use his brain-all he had to do was follow the instructions on the cauldron and change the temperature!

Finally, Zhaoming followed the instructions and finished making the body refinement pill. He opened the cauldron, and his heart sank! As expected ... The refinement was a success!

Looking at the round, full, and glowing body tempering pill, Zhaoming didn't know if he should laugh or cry. He'd succeeded, but he didn't want to succeed!

Success meant that the sky elixir sect's dominance would be completely changed ... Plus, Zhaoming suddenly remembered that he made a huge batch of rank one pills! Who would buy them now that the cauldron was out?

Zhaoming subconsciously glanced at the number of pills a grade one cauldron could make. Ten types, there were ten types! Other than the three less common ones, the other seven covered all of the rank one pills that Zhaoming had given them!

This was simply a scam! Kang Zhaoming almost threw the grade one medicine cauldron out of his hand. If he didn't know that it was priceless, Kang Zhaoming would have smashed it!

"I ... I'll be leaving first!" Zhaoming was in a hurry to report this to the xuanchen patriarch, so he didn't plan on staying any longer.

"Wait, elder Kang, I'm afraid we don't need so many of these first grade pills." Ouyang Chuanqi called out to Zhaoming.

"This ..." Kang Zhaoming was really afraid that something would happen, but he still forced himself to calm down, ""It's fine. Let's put it here for sale first. After all, there's only one cauldron. Mass production will take time ..."

However, Zhaoming's expression was uglier than crying when he said that. He wasn't sure himself, so he could only take one step at a time.

"That's good!" Guild leader Shen nodded. "After all, this is a luxury item. The price must be heaven-defying. Many sects can't afford it!"

"That's true!" Zhaoming relaxed a little after hearing the words. It was true that this item wouldn't be cheap. So what if it was heaven-defying? The cost was high!

It was just like how everyone knew that it was cheap to build things in a factory, but you couldn't build a factory just because it was cheap, right? Or rather, you can't grow and breed your own vegetables when you open a restaurant, right?

Kang Zhaoming left the pills with his followers, leaving only guild leader Shen, Ouyang Chuanqi, Ouyang Nong, and Xiao Kong in the living room.

"Ouyang Nong, where did this heaven-defying medicinal cauldron come from?" President Shen asked curiously.

"I won't hide it from you, President Shen. This Automatic Grade one medicinal cauldron came from a friend of mine. His company invented this Automatic Grade one medicinal cauldron, and he's cooperating with us!" Ouyang Nong said.

"Oh? What company? Which sect is he from? Not only is he proficient in alchemy, but he can also create such a heaven-defying medicinal cauldron?" "What's wrong?" Ouyang Chuanqi also asked in 'surprise'.

"His name is Lin Yi, and his company is called miracle doctor Guan medical company!" "I believe that President Shen and President Ouyang are no strangers to this name!" Ouyang Nong said.

"What? Lin Yi? Miracle doctor Guan's medical company?" President Shen's eyes were wide open. If it was someone else, they wouldn't pay much attention to Lin Yi, but President Shen was the leader of the practitioner's trade association. A company that made so much money from the common world, with products that had similar effects to the pills, President Shen had to pay attention to it! President Shen had even sent people to buy the Golden creation medicine and injury medicine for research, but only gave up when they found that it was really just a mixture of medicinal powders.

#### Chapter 3144 The Panicking Five Elements Sect

However, President Shen didn't expect to hear the name of the company from Ouyang Nong's mouth again today! Plus, he'd heard of Lin Yi's name-he'd been quite famous in the ancient world these days, even if it wasn't as loud as Thunder, he'd heard of him. He'd put on a show during the test, defeating the everyday and every day sect's Zhang naipao-this was enough to make him proud.

"This Lin Yi, isn't he a practitioner? As for miracle doctor Guan's medical company, if I remember correctly, isn't it a company in the secular world? Didn't elder Kang's company go bankrupt because of this company?" Ouyang Chuanqi also thought of something. His expression turned solemn and he sternly asked Ouyang Nong, ""Ouyang Nong, Lin Yi and Kang Zhaoming are enemies, don't let yourself be used by him! Kang Zhaoming sent over so many rank one pills, and now you're giving him an automatic medicine cauldron. Aren't you trying to make things difficult for him?"

If this was said by someone else, President Shen would definitely think that it was Ouyang Chuan Qi and Ouyang Nong who had planned this in advance. However, this was said by Ouyang Chuan Qi, which was different. If this matter was really related to Ouyang Chuan Qi, how could he say these words? If he had not said it, it would have been difficult for guild leader Shen to think of these things. Only after he had said it did guild leader Shen realize the hidden meaning behind it. Therefore, guild leader Shen had ruled out the possibility that legendary Ouyang had known about it in advance.

"Guild leader Ouyang, how did the farmer know that Kang Zhaoming would be here today? how did he predict that he'd be here so soon after Kang Zhaoming?" At this point, President Shen turned to look at Kong Dao and asked, "Xiao Kong, since you've come all the way here, you've already come to see me, right?"

"Ah, yes!" Xiao Kong was currently fiddling with the automatic Grade one medicinal cauldron in his hands. When he heard President Shen's question, he quickly answered!

Xiao Kong was just an ordinary disciple, and his love for tier one automatic medicinal cauldrons was all over his face. With such a person who showed both joy and anger on his face, President Shen could tell with a single glance that he wasn't lying, so he was even more certain of his guess. However, he still asked, "Little farmer, did you know that there's a grudge between Lin Yi and Kang Zhaoming?"

"I know." Ouyang Nong nodded his head.

"You know?" President Shen's expression changed slightly, and he frowned. "I know. Why didn't you say so?"

At this moment, Ouyang Chuanqi's face also changed slightly. He didn't know what Ouyang Nong was up to.

"Ah?" Ouyang Nong paused, "before this, all the elixirs in our market were supplied by Mister Lin Yi. Last time, Mister Lin Yi brought some first and second grade elixirs for me to sell, but our practitioner's trade association had exclusive use of the elixirs from elder Kang of the heavenly elixir sect. So I could only reject Mister Lin Yi and tell him about the situation. At that time, Mister Lin Yi was quite angry. He seemed to hate this elder Kang very much."

"Just like this?" President Shen asked with a strange expression.

"That's right, isn't this considered a grudge?" "But it's not a big deal," Ouyang Nong smiled bitterly. "I didn't think much of it at the time, but Mister Lin Yi brought me a grade one automatic cauldron. After I finished dealing with the market, I came over to meet guild leader Shen and guild leader Ouyang to explain this."

"Oh, then why didn't you call me before?" President Shen asked.

"If I didn't see it with my own eyes, would you believe me if I called you or guild leader Ouyang?" Ouyang Nong spread his hands and said helplessly.

"That's true. " "Ouyang Nong, you're pretty close to this Lin Yi?" Chairman Shen nodded.

"Yes, we've been working with him before. I'm sorry for rejecting him last time, but the practitioner's trade Association's rules can't be broken, so I had to reject him. But this time, I saw Kang Zhaoming lose, and from a selfish point of view, I'm quite happy!" Ouyang Nong said.

Ouyang Nong's words were open and aboveboard. Although he was a little narrow-minded, he said what was on his mind. This made President Shen's remaining doubts disappear, so he said, "Alright, how much can Lin Yi's company produce from this? If this thing were to be auctioned, it would probably be sold for a sky-high price!"

"The classification of this grade one automatic medicinal cauldron is like this. There are single edition, five-in-one edition, and the ten-in-one limited edition in my hand ..." As he spoke, Ouyang Nong told guild leader Shen and Ouyang Chuanqi the classification of the automatic Grade one medicinal cauldron.

After hearing this, President Shen understood that Lin Yi had probably gotten the practitioner's trade association to back him up and sell it together, but it was only a limited edition. However, President Shen didn't mind. This kind of heaven-defying item could attract some popularity by auctioning it at the practitioner's trade association. Everyone could make money, so why not?

"Alright, little farmer. From now on, you will be fully in charge of the auction, sale, and publicity of this Automatic Grade one medicinal cauldron. I will also assign you a few disciples who are proficient in alchemy to help you." President Shen said.

"Many thanks, President Shen!" Ouyang Nong was very happy in his heart. It seemed that he had managed to get away with it today. President Shen did not doubt him at all.

Ouyang Nong left with little Kong to start on the publicity. Zhaoming, on the other hand, returned to the five elements sect immediately and went to patriarch xuanchen's room.

"Father-in-law, it's bad, something big has happened!" Kang Zhaoming couldn't care less about his manners anymore as he spoke in a hurry.

"Oh? What happened?" The xuanchen ancestor knew that something big must have happened- Zhaoming wouldn't lose his composure like this otherwise. He'd been training in the five elements sect and the sky elixir sect recently, and he'd become much calmer than before. He'd been through a lot.

"The cultivators trade association has created a grade one automatic medicinal cauldron that can automatically refine grade one pills. In that case, who are we going to sell our grade one pills to?" Zhaoming said with a sad face.

"Oh? What grade one automatic medicinal cauldron? There's such a thing? It could automatically refine grade one pills? Zhaoming, are you sure you didn't mishear?" Patriarch xuanchen frowned. This term sounded extremely absurd in his ears. The cauldron could move on its own? Then what was the use of alchemists!

"It's absolutely true. I didn't hear about it. I saw it with my own eyes!" "And I even tried it out, and it's true!" Zhaoming said. I can even successfully refine a grade one pill that I've never refined before!"

"Oh? What happened? tell me in detail!" Patriarch xuanchen immediately realized that this was probably not an ordinary matter.

Chapter 3145 The Exhibition

"It's like this ..." Zhaoming quickly relayed the information he'd obtained to the elder.

After hearing Zhaoming's words, patriarch xuanchen's face turned frighteningly dark. There really was such a heaven-defying grade one cauldron? Which force invented this?

"Did you find out which force invented this?" Asked patriarch xuanchen.

"No, they didn't. They didn't mention the situation at that time, so I didn't ask." "I just wanted to come back as soon as possible, so I'll be leaving," Zhaoming said.

"I'll go ask around. " "Yes." Patriarch xuanchen nodded."Where are our Grade-1 pills?"

"We'll leave it at the cultivators' trade fair for the time being. It's been a long journey, so there's no point in taking it back. It's not easy for us to sell it ourselves, so we have to rely on them to sell it." Zhaoming's face changed as he spoke. "Father-in-law, do you think that the bastards of the cultivator trade association are deliberately setting us up? They made us refine so many grade one pills and then made an Automatic Grade one medicinal cauldron. Aren't they trying to kill us? This is simply a scam!"

"Who are you trying to scam?" The xuanchen ancestor frowned and glared at Zhaoming. How dare Zhaoming call himself his father in front of him?

"Uh ... Father-in-law, you're my father-in-law, which means you're my father. What I mean is, the cultivators trading Association is scamming you!" Kang Zhaoming quickly replied.

"Cultivators pay some to trick me?" Patriarch xuanchen pondered for a moment, then said, ""Logically speaking, it shouldn't be possible. We didn't draw any from the cultivator trade association. On the contrary, we have been working together. Moreover, from what you said before, neither stretching Nine Heavens nor legend Ouyang knew that Ouyang Nong had obtained a medicinal cauldron. I know about Shen Jiutian. He has always valued the reputation of the Association. He would never do something that would harm others without benefiting himself. "

"That's true. At that time, guild leader Shen and guild leader Ouyang were both skeptical about the medicinal cauldron that vice guild leader Ouyang took out." Kang Zhaoming nodded.

"That's why, with the name of the cultivator's trade association, they wouldn't do such a thing. I think this is either an emergency or the person who provided the cultivator's trade association with the grade one automatic medicinal cauldrons is targeting us behind our backs!" This was the conclusion that patriarch xuanchen came to after analyzing the situation.

"Father-in-law, what should we do now?" Kang Zhaoming asked.

"I'll ask around first. " Said patriarch xuanchen.

In the next few days, whether it was the ancient level or the hidden level, everyone received news from the cultivator trade association. That was that the cultivator trade association had launched a new auction item, a first grade automatic medicinal cauldron, which could automatically refine pills!

This news was like a thunderclap, and it instantly spread to all the ancient and hidden levels. This thing was too heaven-defying, and it was impossible not to pay attention to it! Alchemists had always been the weakness of the ancient sects and hidden houses.

This was also the reason why the hidden you family and the sky elixir sect had so many rogue cultivators. Although The Alchemist themselves weren't strong, after they formed a scale, there would definitely be people who would join them. But if their own sect or family could also refine elixirs in the future, wouldn't that reduce the probability of their own family or sect's diners joining others?

Although everyone was skeptical about this news, in the following days, the cultivators trade association was planning to hold an exhibition of grade one automatic medicinal cauldrons. This made those who were suspicious and those who were not suspicious want to go and see what happened!

Even patriarch xuanchen and patriarch xuanzhen had disguised themselves as ordinary people to attend the exhibition. After all, there were many disciples who came to visit, and it would be difficult for them to be recognized even if they put on makeup! Patriarch xuanchen brought Zhaoming to one side while patriarch xuanzhen brought Tian Gang to the other.

After Ouyang Nong's impassioned speech, Xiao Kong carefully took out a medicinal cauldron from his backpack. It was a strange medicinal cauldron. Naturally, it was a grade one automatic medicinal cauldron!

However, when they saw the liquid crystal screen on the automatic Grade one cauldron, Tian Ji's eyes flashed with surprise. Beside her, patriarch xuanzhen was also shocked. They both thought of the same thing at the same time-the modified grade three cauldron that patriarch xuanzhen had used to refine the pills for the Sky Class Island Plan!

"This thing ... Why is it as strange as master's strange grade three medicinal cauldron?" Tian Gang asked.

"I feel like it's related, but we'll see." Patriarch Xuan Zhen pointed at the stage and said.

Following that, Xiao Kong started his live performance of refining elixir pills. Under the watchful eyes of the crowd, he threw the medicinal herbs of a first-class spirit gathering pill into the medicinal cauldron and began to refine the elixir pills. Soon after, the elixir pills were formed, and the aroma filled the air. The quality was excellent!

This made the people present click their tongues in wonder, because Ouyang Nong had already said before that Xiao Kong was only an Alchemist. Moreover, he only had the fire attribute in his body and no wood attribute. This made most of the people present believe the magic of this grade one automatic medicinal cauldron!

After all, many people recognized little Kong. They knew that he was an Alchemist and that he did not have any wood attribute in his body. However, some people were still skeptical and wanted to try it out for themselves. However, under little Kong's guidance, these people successfully refined a grade one pill. This made everyone present finally believe in the magic of a grade one automatic medicinal cauldron!

Tian Gang and patriarch Xuan Zhen looked at each other and saw the shock in each other's eyes.

"Master, this tier one automatic cauldron is much more advanced than your tier three God equipment cauldron. This is an electronic display and it can refine more than one type of pill. Yours is only a single ..." Tian Gang said.

"Who invented this thing?" Patriarch xuanzhen was also very surprised. After all, it was so similar to his cauldron. He couldn't help but think of the little girl he had met years ago. She should be younger than Tian Huan. Could she have invented it?

"Of course, what everyone is looking at is a demonstration item. The real auction item will have to wait for a while before the auction can start. Although the function of the auction item remains the same, there is a restriction, and that is that it can only be used by one Alchemist. When The Alchemist uses it for the first time, the true Qi information of The Alchemist will be recorded. It will be invalid if anyone else uses it." "I hope everyone can understand!" Said Ouyang Nong.

Although this restriction seemed a bit overbearing, it was good enough to find one Alchemist in a sect or family. Even if they only had fire attributes, there would not be more than two or three, so this restriction was still acceptable.

#### Chapter 3146 The Five Elements Sect's Plan

"But, before the auction, I need to make one thing clear. This Automatic Grade one medicine cauldron is a joint product of our practitioner's trade association and the common world's miracle doctor Guan medical company. The agent in the common world is the common house Liu!" Ouyang Nong's words set off a storm at the scene!

The common Liu family? Miracle doctor Guan medical company? No one was unfamiliar with the people behind these two houses-it was the recently famous freelancer Lin Yi!

"Lin Yi!" Kang Zhaoming spat out the two words viciously.

"As expected, they are our enemies! It seems that we have really wronged the cultivators trade association!" When ancestor xuanchen heard the name miracle doctor Guan medical company, he immediately thought of Lin Yi. Lin Yi had a good reason for doing this-since they took over his market, he'd make sure they couldn't sell their pills!

"Father-in-law, how should we deal with this?" Kang Zhaoming gritted his teeth in anger. Lin Yi again! He did not expect to go for wool and come home shorn with patriarch xuanchen this time. He shot himself in the foot and refined so many first-grade pills. Who was he going to sell them to?

"What else can we do? When the time comes, I'll buy a few of these grade one automatic medicinal cauldrons and bring them back to study them. I'll see if I can replicate them!" Patriarch xuanchen said unwillingly.

"How about we attack house Liu and miracle doctor Guan's medical company in the secular world? This thing is probably made by the common house Liu and miracle doctor Guan's medical company. Let's go there and see if we can get the manufacturing information!" Kang Zhaoming's brain was quite fast. Since this thing was related to Lin Yi, it was likely that it was commissioned by house Liu or miracle doctor Guan's medical company to produce it. After all, the practitioner's trade association didn't know about this before, so the only possibility was that Lin Yi cooperated with Ouyang Nong after producing it. So if he wanted to get the research information, it was easier to find the manufacturer directly.

Plus, Kang Zhaoming had done this kind of business before, so he was very familiar with it.

"No!" Patriarch xuanchen shook his head and denied firmly. ""Since Ouyang Nong mentioned the secular Liu family and miracle doctor Guan medical company separately and said that he would launch it together with them, it means that both the secular Liu family and miracle doctor Guan medical company are strategic partners of the cultivators trading Association. If we touch any one of them, we will be making an enemy of the cultivators trading Association. It's not a wise move!"

"Ah? Father-in-law, don't tell me that our five-elements sect is afraid of the cultivators trade association?" Zhaoming asked, confused.

"Since you're my son-in-law, I won't hide some things from you! Although our five elements sect is a dragon-like existence in the ancient level, the cultivator trade association is an existence that has transcended the ancient level!" Patriarch xuanchen said in a low voice.

"An existence that has transcended the ancient level? What do you mean by that?" Zhaoming blinked.

"The cultivators' trade association covers the hidden and ancient levels. However, there are also cultivators' trade associations above these levels. Although I don't know if the two are the same organization, I'm afraid there's an 80% chance that they are the same." "That's right," ancestor xuanchen said seriously. "If the cultivator trading Association is at that level behind the current one, then even if we were at that level, we wouldn't be able to make an enemy of the cultivator trading Association, let alone the current us!"

"What do you mean by this level and that level?" Zhaoming didn't know what was going on.

"It's nothing. You just need to know that behind the cultivator trade association, there seems to be an even stronger backer. Don't provoke them easily. And they won't take the initiative to break any rules and find trouble with others because the purpose of their organization is to seek wealth. " The reason why patriarch xuanchen was not sure if the two were the same was that the cultivators trade association here earned money from the secular world. The transactions at that level did not use cash but a substitute.

"Oh ..." Zhaoming didn't understand, but he knew that if the xuanchen elder didn't dare to mess with the practitioner's trade association, then the xuanchen elder wouldn't dare to cause trouble for him. His timid personality hadn't changed, and he could only hide if he couldn't beat the xuanchen elder. "Father-in-law, do you think this thing was made by boss Bai?"

"Boss Bai, Han Jing Jing, Lin Yi, all three are possible! It's not a surprise that the three of them came up with such a strange thing!" Patriarch xuanchen had already guessed it. ""But so what if I know? If the information is in boss Bai's hands, we'll suffer even more in silence, and it won't be easy to get it!"

"Yeah, I can only buy a few and study them before making a decision." Kang Zhaoming nodded.

As for Tian Gang, when he heard that Lin Yi was the mastermind behind all this, his eyes lit up with excitement. This thing was made by Lin Yi's company? During this time, tiandie had been reporting Lin Yi's information back to them. Naturally, tianshuo knew that both house Liu and miracle doctor Guan's medical company were Lin Yi's forces.

On the other hand, xuanzhen didn't know what Tian Gang was thinking. When he heard about Lin Yi, he naturally thought of boss Bai. Could it be that boss Bai really made this thing? Then ... Would boss Bai know the little girl from back then?

For a long time, patriarch xuanzhen had been trying to find the little girl and ask her to help him modify a few more cauldrons. However, he had never seen her again, which made him a little regretful. So, he decided to call boss Bai when he got back.

"However, the automatic Grade one cauldrons sold by the secular Liu family are not the limited edition 10-in-1 cauldron that I have. Instead, they are five single versions and five-in-1 cauldrons. The five-in-1 edition contains five single versions, but it is five different grade one pills compared to the 10-in-1 limited edition that I have!" Ouyang Nong introduced, "if you can't wait, you can contact the secular Liu family to buy a single version and a five-in-one medicinal cauldron. However, the ten-in-one limited edition has to wait for the auction!" However, the number of medicinal cauldrons that will be auctioned each time will not be many, only three. Please be prepared!"

A single edition? Five in one? Ten in one? The people present were secretly criticizing the cultivators trading Association for doing business. It was obviously the same thing, but they sold it in several different kinds. However, it was not appropriate to say anything. After all, if you could wait and were confident that you could get the 10-in-one limited edition, you would not have to buy the single or five-in-one edition.

Chapter 3147 Lin Yi In Danger

The lively exhibition ended, and the people present left one after another. They all had their own thoughts. Some held a wait-and-see attitude, some wanted to immediately contact the secular Liu clan after returning and buy a single version of the automatic Grade one medicinal cauldron to test it out.

Some had already made up their minds to keep all the automatic Grade one medicinal cauldrons in their bags.

Zhaoming and the xuanchen patriarch were naturally envious, but that didn't stop them from buying a grade one automatic cauldron from house Liu for research.

As the automatic cauldron incident began, the Dongfang family finally found out Lin Yi's identity!

"Father, brother, this kid isn't Zhang naipao from the everyday and every day sect, he's Lin Yi! We've all been deceived by him!" When Dongfang jinxing received the news, he came to the place where Ouyang Badao and Ouyang Yinxing were in seclusion in a fit of rage.

"Oh? Lin Yi?" Dongfang Badao had heard of this name before-Lin Yi had defeated Zhang naipao from the everyday and every day sect during the sky elixir sect's test. House Dongfang had wanted to work with Lin Yi and ask him about his weakness, but they'd always been an ancient noble House, high and mighty. They didn't want to ask a solo practitioner for advice, and so they'd put off the idea.

Who would have thought that Lin Yi would become their enemy!

"Yes, Xu Shihan's bodyguard is called Lin Yi, he's not a disciple of the everyday and every day sect at all. This Lin Yi is very strange, even the everyday and every day sect's Zhang naipao wasn't his match back in the sky elixir sect's test, so it's normal for him to be able to fight people above his level. We've walked into the wrong path that Dong fangqiang brought us, thinking that this guy is a disciple of the everyday and every day sect!" Dongfang jinxing said.

"That means that the person who colluded with Vice President Ouyang to kill Dongfang Jian at the practitioner's trade association was Lin Yi?" Dongfang Badao asked.

"That's right. It seems like it's 100% true!" Dongfang jinxing said with certainty, "father, you don't know. Just today, I received news that the class one automatic medicinal cauldron that the practitioner's trade association has been hyping up was launched by Ouyang Nong and Lin Yi together. The two of them are really close. From this, we can deduce that the person is Lin Yi without a doubt!"

"Good Lin Yi, very good! You're just a wandering cultivator, yet you've dared to oppose our Dongfang family time and time again. Do you really think that our Dongfang family is easy to bully?" Eastern silver Star slammed the table and rose to his feet, roaring in anger, ""Father, let me go and kill this little bastard to avenge the experts of the Dongfang family who died!"

"Don't be impatient!" Dongfang Badao was clearly not an impulsive person. He waved his hand and said, ""Right now, Lin Yi's working with the practitioner's trade association, and he's like the sun in the sky. If we kill him now, we'll be going against the Association. Even the sky elixir sect doesn't dare to mess with them, so how can we, the Dongfang family, go against them?"

The sky elixir sect's losses at the practitioner's trade association had spread like wildfire, and the reason was Lin Yi's Tier one automatic medicine cauldron. If the sky elixir sect could bear with it, why would the Dongfang family stand out?

"Father, are we just going to let it go like this?" Eastern silver Star was clearly not willing to give up, and his eyes were red as he asked.

"Of course we can't just let it go like this!" Dongfang Badao laughed coldly and said, ""We can't kill Lin Yi in the open now, but we can do it in the dark. However, we can't touch Xu Shihan for now. Even if we

do, we can't connect her to Lin Yi's situation. After the news is out, we can go after her when Lin Yi dies. That way, no one will suspect that Lin Yi's death is related to us."

"That's true ..." Eastern silver Star nodded. He clearly did not want to bring trouble to the Dongfang family for his revenge.

"Right, father-when I was investigating Lin Yi's identity, I asked the everyday and every day sect for confirmation, and it seems like they're sending an Earth Class late phase peak to kill Lin Yi!" Dongfang jinxing suddenly thought of something and immediately said.

"Oh? The everyday and every tomorrow sect? What's going on?" Dongfang Badao's interest was piqued.

"Before, I thought that Lin Yi was from the everyday and every day sect, so I called heavenly venerate pure yang and asked if their disciple, Zhang naipao, had come out of the sect recently. The answer I got was that after coming back from the sky elixir sect's test, Zhang naipao had fallen into the demon of his heart from Lin Yi's defeat. He's been depressed every day, where would he find the time to go out and kill our people?" Dongfang jinxing said, ""I didn't really believe it at the time, but I thought that the everyday and every day sect had no reason to lie to me, so I believed it ... After that, I received a call from house Feng's Feng Tianhu, telling me that the bodyguard beside Xu Shihan was Lin Yi. So I called the everyday and every day sect's pure yang God, telling him that I'm very sorry for misunderstanding them earlier, and that I've already found the real murderer-it's Lin Yi. He's also the enemy of the everyday and every day sect. "

"Oh? What did heavenly venerate Chunyang say after that?" Dongfang Badao asked with interest.

"Then, celestial master Chunyang said that even if we don't go after Lin Yi, they're going to send celestial master chunyin to kill him. If we have the same idea, we can tell them and go kill Lin Yi together. It'll save the other side from being unhappy if we kill him first." Dongfang jinxing said.

"Oh, that's great-with two Sky Class late phase peak fighting him at the same time, no matter how strong Lin Yi is, no matter how strong he is, he'll still die for sure!" Dongfang Badao's lips curled into a smile. ""That's great-the everyday and every day sect will be in the open while we'll be in the dark. If Lin Yi dies, we can push the blame on them!"

As for why the Dongfang family still wanted to help even after the everyday and every day sect did it, the reason was simple-so many of their people had died, how could they calm their anger if they didn't send someone to kill Lin Yi themselves?

Only by taking revenge with their own hands could they be at ease. Otherwise, the Dongfang family would continue to be sullen.

"That's good too, but two Sky Class late phase peak Masters going out-they really think too highly of Lin Yi!" The Silver Star of the East pursed his lips and said, ""That's right, big brother, you didn't mention that the East won't lose, right?

Chapter 3148 Sky-High Price Medicinal Cauldron

"No, after all, if we don't lose, we'll die in the test-we can't use that as an excuse to look for trouble. Plus, our Dongfang family isn't strong enough-we don't have a Sky Class late phase peak to back us up, and we're no match for the everyday and every day sect! That's why I didn't tell them and they didn't ask. " Dongfang jinxing said.

"Alright, then it's decided! Jin Xing, you discuss with the people from the everyday and every day sect again and see when we can get rid of Lin Yi together!" Dongfang Badao said.

"I'll make the call in a while. " Dongfang jinxing replied.

Heavenly venerate Chunyang, who received a call from Dongfang jinxing, immediately went to find Zhong pinliang, the Mad dragon patriarch.

"Master, the people from the Dongfang family just called, they want us to work together to deal with Lin Yi!" Heavenly venerate Chunyang replied honestly.

"Lin Yi ... You've already decided to kill him?" Pinliang wasn't willing to give up-he'd always wanted to get rid of Lin Yi himself one day, but the kuanglong master's soul was still in his body. He knew that he had to look at the big picture, and that was the only way!

Plus, naipao was his brother, and he didn't want anything to happen to him.

"Zhang naipao still hasn't walked out of his heart's demon-it looks like we'll have to kill Lin Yi for him to return to normal. It won't be good for his growth, and he'll have no one to motivate him, but it's still better than him never walking out of his heart's demon and never recovering!" "That's why I hope you can fulfill my wish, master,"heavenly venerate Chunyang said.

"Alright, tell the people from the Dongfang family to kill Lin Yi once chunyin comes out!" Pinliang nodded in agreement.

"Yes, Master." Heavenly venerate Chunyang nodded in response.

These few days of peace and quiet made Lin Yi temporarily think that the Dongfang family had given up on Xu Shihan. After all, so many people had died, and they hadn't sent any more Masters after so long. This matter was probably over, at least for now.

What Lin Yi didn't know was that there were two Sky Class late phase peak Masters coming for him! It wasn't that they didn't want to come, but that celestial master chunyin hadn't come out of seclusion.

The automatic Grade one cauldrons were officially on sale in the secular Liu family's company. Although the price was set extremely high by Liu Jinghan-a single version of the cauldron was sold for two hundred million Yuan, and the five-in-one cauldron was sold for eight hundred million Yuan-on the first day of business, they still sold three single versions of the automatic Grade one cauldrons and two five-in-one Automatic Grade one cauldrons!

Of course, the rest of the people were just observing. They wanted to hear how other people felt after using it. After all, they were not sure whether the version sold in the secular world was the same as the one sold in the cultivator trade association. The only way was to wait for others to use it before they made a decision!

However, two of the cauldrons were bought by Kang Zhaoming's men. One was a single automatic cauldron, and the other was a five-in-one automatic cauldron. He planned to research it with patriarch xuanchen when he returned.

As for these people from the ancient and hidden levels, they were all very wise to not bargain or take it by force. After all, the secular Liu family was in a cooperative relationship with the cultivator trade association. If they dared to harm the secular Liu family, it would be equivalent to going against the cultivator trade association. They did not have the guts to do so!

One had to know that the practitioner trade association had three Sky Class late phase peak Masters in charge! This was a very strong force!

Jinghan didn't think that the first day's sales would reach 1.9 billion-it was a good start! The money from the first day alone was enough to pay off the bank's loan. At least, house Liu's loan would be fine. The sales from the next day and the day after would be enough to pay off fatty Lai's medical company.

Liu Jinghan called Lin Yi happily!

"Lin Yi, you know what? On the first day, our sales volume reached 1.9 billion!" Jinghan was a genius of house Liu, but this insane amount of money wasn't something she could keep calm about. What kind of business could make so much money in one go?

Although the cost of a grade one automatic medicinal cauldron was not low, and the cost of titanium alloy and a dedicated single chip could be said to be extremely expensive, compared to the price, it was a drop in the ocean, or even negligible!

"1.9 billion?" Lin Yi was shocked as well-he didn't think that they'd be able to sell this much on the first day. After all, Lin Yi had to put in a lot of effort to raise the funds for the medicine company to run again, but Jinghan sold this much on the first day."How many cauldrons did you sell?"

"Five, two in one, three in one." "But the cost is the same," Jinghan said.

Lin Yi naturally understood what Jinghan was saying-the only difference between the two was the programming in the chip, but the cost was the same. What surprised Lin Yi was that five cauldrons for 1.9 billion?

"Why are there so many? What's the price you set?" Lin Yi was shocked-the price was too high.

"A single version of the cauldron will be sold for 200 million Yuan, while the five-in-one cauldron will be sold for 800 million Yuan. This is the price that vice guild leader Ouyang and I have agreed on together. I have to set the price according to their estimated auction price and can not pull down the price." Jinghan said, "but from the looks of it, the sales are doing pretty well. At least there's no cold reception. From tomorrow onwards, there will be more people coming to buy. After all, many people are just waiting to see if it has the same effect as the one the practitioner's trade association saw."

"Alright, then you can continue selling. Report to me if you have any news!" Lin Yi, on the other hand, was relieved-the company issue had been troubling him for a long time, and it was finally over.

Five elements sect.

Zhaoming presented the two cauldrons to the xuanchen ancestor and said painfully, ""This secular Liu family is really black. They actually spent a high price of one billion Yuan on these two pieces of trash. If it wasn't for the payment from the sale of some pills by the cultivator's trading Association, I wouldn't have the money to buy them!"

The five elements sect's liquid funds were all used to make grade one pills, so they were almost empty. Fortunately, they still had the money from the pills they sold, otherwise, Kang Zhaoming really wouldn't be able to afford these two Automatic Grade one cauldrons. One had to know that these two cauldrons were sky-high prices!

Chapter 3149 Imitation Cauldron

"En ..." Patriarch xuanchen also felt that this item was ridiculously expensive. However, he had no choice. After all, it could refine pills on its own. One had to know that the value of a first grade Alchemist's skill was not limited to this. "What's so special about it?"

"I didn't dare to study it. This thing is very sophisticated. I was afraid of breaking it, so I showed it to you at once, father-in-law." Zhaoming said.

"This thing seems to be a combination of ancient and modern times. It has both electronics and ancient crafts. It's not easy to study!" As patriarch xuanchen spoke, he said to small one, "Small one, go and get your second senior uncle xuanzhen. We'll study this grade one automatic medicinal cauldron together!"

"Yes!" "Yes, patriarch!" Little one quickly replied and left the room to find patriarch Xuan Zhen.

After a while, patriarch xuanzhen brought Tian Gang to patriarch xuanchen's room. In fact, patriarch xuanzhen was also very interested in the automatic medicinal cauldron. Of course, he did not intend to say too much to patriarch xuanchen. With patriarch xuanchen's domineering personality, if he knew that the little girl he met back then could also modify the medicinal cauldron, he would probably capture her immediately!

Therefore, patriarch xuanzhen and Tian Gang each picked up a cauldron and studied it without expressing their opinions.

"It's very precise. The materials used to make this cauldron are different from a real first grade cauldron!" Patriarch Xuan Zhen came to such a conclusion after looking at the appearance for a while.

"Oh?" Patriarch xuanchen did not notice it. Previously, he only thought that the ingredients of the automatic Grade one medicinal cauldron were the same as those of a Real Grade one medicinal cauldron. However, he only noticed the difference after patriarch xuanzhen mentioned it. "This seems to be a common metal material used in the secular world, not the rare colored steel!"

"It should be titanium!" Zhaoming wasn't an idiot-he'd been in the common world for a long time, and with xuanzhen's reminder, he recognized the ingredients right away. "This kind of thing is often used on some of the products of the secular world! However, this titanium metal seems to be a little different. It has been processed!"

"En, do you have any other opinions?" The xuanchen ancestor nodded and looked at Zhaoming with anticipation.

"Father-in-law, second Shibo, there are some electronic circuits inside this Automatic Grade one medicinal cauldron. We don't know anything about these things. If we dismantle it rashly, it's very likely that we will damage this equipment. So, my suggestion is that we should hire a computer expert to crack this medicinal cauldron. There must be an electronic program inside!" Kang Zhaoming suggested.

"En, you're right. However, our five-elements sect has always dealt with these ancient sects. Which of these sects are good at this?" Patriarch xuanchen frowned and said, ""Zhaoming, do you know anyone?"

"I do have a candidate to try! I think he should have a way!" Zhaoming said after some thought.

"Who is it?" Asked patriarch xuanchen.

"And this person, father-in-law, you know her too. She's the leader of the Firewolf gang, miss Wanwan!"  
"The firewolves are an ancient sect that focuses on technology. Asking them for help is our only option," Zhaoming said.

"Not bad, Zhaoming-you're a quick-witted one. I wouldn't have thought of this if you didn't tell me," Patriarch xuanchen nodded and said, ""Alright, Zhaoming, you'll contact miss nie. If she has any requests, just tell her!"

"Okay, father-in-law, I'll contact them now." Kang Zhaoming nodded and left the room to make the call.

In the room, patriarch xuanzhen and Tiangang finally understood what patriarch xuanchen and Zhaoming were up to! It looked like they were going to crack and imitate a grade one automatic medicinal cauldron!

Patriarch xuanzhen frowned slightly. He felt it was shameful to copy someone else's technological achievements. After all, the five elements sect was the leader of the ancient times. It would really damage their reputation if they did such a thing!

Tian Gang, on the other hand, was deeply worried. She wanted to stop them, but she didn't have a good reason. She could only hope that Zhaoming and xuanchen wouldn't be able to solve it.

However, patriarch Xuan Zhen said, ""Xuanchen, you want to imitate this grade one automatic medicinal cauldron?"

"That's right, second senior brother, I believe you know the business opportunity of this thing. The most important thing is that the price of this medicinal cauldron is two hundred million for a single version

and eight hundred million for the five-in-one version. If we can replicate it, I'm afraid we can make a fortune!" Said patriarch xuanchen.

"Xuanchen, we're using the sky elixir sect's name to sell our goods. As the leader of the ancient sects, isn't it inappropriate for you to ask the sky elixir sect to make some counterfeits?" "This is a matter that will ruin our reputation!" Patriarch xuanzhen said.

"Second senior brother, I'll still say the same thing. You're not in charge, so you don't know how expensive daily necessities are!" "You don't know this," the xuanchen ancestor said bitterly. "We made a bunch of grade one pills and used all our liquid funds to make them. When we sent the pills to the Association, they told us that this automatic cauldron was invented by Lin Yi! This is really infuriating, isn't this clearly going against us? We've spent so many elixirs on this, and if we don't make this grade one automatic cauldron, the five elements sect will really go bankrupt. Where would we find the money to buy the materials we need to open the sky Class Island Plan?"

"Then why did you make so many first grade pills?" "Hmph!" Grandmaster Xuan Zhen snorted, "don't think I don't know. It's to stop Lin Yi from selling his pills, isn't it?" Xuanchen, you're so petty. Now that you can't sell the pills, you're blaming Lin Yi. When the time comes, I'll see if you can make a replica of the cauldron. Who knows, he might come up with something new!"

"Alright, second senior brother, you don't have to worry about these things. You should focus on refining pills. I'll take full responsibility for these worrying things!" Patriarch xuanchen said firmly.

"Forget it, I'm going back to concoct pills! Heavenly silkworm transformation, let's go!" Patriarch Xuan Zhen waved his hand and said to Tian Gang.

Looking at the backs of patriarch xuanzhen and Tian Gang, patriarch xuanchen laughed in disdain. New things? How could that be possible? This cauldron was probably Lin Yi's limit-he'd be able to make a copy himself and replace Lin Yi's market!

After all, as far as he knew, cauldrons were hard to make. Even if Lin Yi found titanium to replace the material of a first grade cauldron, a second grade cauldron wasn't as easy to replace as a first grade cauldron!

Chapter 3150 Professor Benjamin II

Even he wouldn't be able to make a second grade cauldron easily, let alone Lin Yi.

Kang Zhaoming found miss NIE's number and dialed it.

"Elder Kang?" Miss Ling's voice came from the other end of the phone. "Why are you calling me? Are you here to ask about the two test subjects?"

"Oh, let's not talk about the two test subjects first. There's no hurry. I have something else I need to consult with miss Ling about!" Zhaoming didn't care if elder Mian and guangyin lived or died-it wasn't his dad, after all. He was more concerned with the automatic cauldron.

"What is it?" Asked miss Ling.

"I wonder if miss Ling has an expert in cracking computer programs and electronic circuits?" Kang Zhaoming asked.

"Oh? What did elder Kang mean by asking this? What do you want to do?" Asked miss Ling.

"It's like this. I believe that you've heard of the grade one automatic medicinal cauldron that's been spreading like wildfire in the martial arts world, miss Ling?" Kang Zhaoming asked.

"That's right, I've heard about it. However, this thing has nothing to do with us. The direction of our Center's research is technology, which is completely different from these pills!" Said miss Ling.

"Hehe, miss Ling, you might not know this, but this grade one medicinal cauldron is a high-tech one!" With that, Zhaoming explained the tier one automatic medicine cauldron's general situation to miss nie.

"If it's like what you said, this thing might really be an electronic product! But, what's your purpose in telling me this?" Miss Ling asked.

"It's like this, I would like to ask young lady ni to help us crack and replicate this grade one automatic medicinal cauldron. Would young lady ni be interested? Of course, we will share the profits!" Kang Zhaoming invited.

"Oh? If my understanding isn't wrong, if I were to buy a medicinal cauldron myself and then replicate it, wouldn't I be able to enjoy the profits all to myself? Why do I have to share one with you?" Miss Ling asked.

"This ... Miss Huang, as you know, this cauldron not only requires superb computer and electronic skills, but also knowledge of alchemy. Our heavenly elixir sect and five elements sect are the authorities in this area! Moreover, miss Ling's sales channels shouldn't be as impressive as ours, right? How could a

product from the sky elixir sect and a product from the fire Wolf Gang be the same? Which one do you think the ancient sects will believe?" Kang Zhaoming quickly replied.

"You're right, I'll think about it ..." Miss nie nodded and went into deep thought. Kang Zhaoming didn't dare to disturb her and waited quietly for her reply.

After about three to five minutes, miss Ling spoke again, "I can agree to your suggestion, but this thing is not so easy to crack and replicate. We will provide technical support, and you will be responsible for manufacturing and selling it. The profits will be split 50 - 50!"

"50 - 50 ..." Zhaoming blinked. Wasn't this asking for too much? He had to ask for permission from patriarch xuanchen, so he said, "Alright, I'll ask for your permission. However, do you have such a talent on your side?"

"My boyfriend is a computer expert, but he's busy with other things and can't come back for the time being. However, he has a direct disciple called Dr. Benjamin II, who is also an expert in Computer Science. He can cooperate with you in the research and development!" Said miss Ling.

"Good! I'll report this to patriarch xuanchen. " Zhaoming quickly made his way to the xuanchen's room after getting the confirmation.

After knocking on the door, Zhaoming walked into the room to find that patriarch xuanchen and the heavenly silkworm transformation were no longer there. Zhaoming wasn't surprised, though, since they didn't really get along with patriarch xuanchen.

"Father-in-law, I've already given miss nie, the person behind the Firewolf gang, a call. She can send an expert in this area to help us research and crack the grade one automatic medicinal cauldron. However, the condition is that the profits must be split 50 - 50!" Zhaoming said.

"50 - 50, that's a bit too much." After hearing this, patriarch xuanchen frowned slightly. However, lady ni was not like the sect Masters of those ancient sects. She was not a pushover that could be manipulated by anyone. Since lady ni proposed this sharing method, it basically could not be changed. If it was changed, the other party was likely to terminate the cooperation, which was not worth the loss for patriarch xuanchen. After all, lady ni was the only person he could find for the time being. Even if patriarch xuanchen could recruit troops and buy horses for his use in the secular world, he could not cultivate talents. It would still take some time to set up the laboratory. By the time it was produced, the market would be saturated. How could he make a lot of money? The daylily was already cold!

Therefore, in the face of lady NI's exorbitant demand, patriarch xuanchen could do nothing but nod and say, "Alright, you promise miss Ling that we'll split it 50 - 50, but her people must come as soon as possible!"

"Alright, I'll let miss Ling know!" Kang Zhaoming nodded and went to give miss Ling a call.

After getting Kang Zhaoming's reply, miss Diana sent her boyfriend's student, Dr. Benjamin II, to look for Kang Zhaoming without hesitation.

Ban Jieming the second was indeed a very powerful person. After he picked up the cauldron and looked at it a few times, he roughly explained the principle of the cauldron, "There should be a single chip inside this cauldron that can adjust the intensity of the fire according to the time curve to achieve the purpose of alchemy. To be honest, now that we know the principle, we can actually create it if we want to."

"Manufacture?" Patriarch xuanchen frowned. Did he not think of creating a similar thing before? However, when alchemists refined pills, they relied on their own perception of the pill's form to adjust the flame's intensity at any time. However, this thing was only a feeling. Who could record the intensity of the flame while refining pills? Furthermore, the size of the fire was only his own perception. Even patriarch xuanchen could not tell how big the fire was!

Furthermore, there was also the coordination of time and temperature. A single deviation would cause the pill to be scrapped. This involved some complicated functional curves. After many days of observation by patriarch xuanchen, he discovered that this grade one automatic medicinal cauldron was not as simple as he imagined!

Indeed, it could automatically refine pills, but every Alchemist's control of the alchemy fire and temperature had slight deviations. These deviations, with the cooperation of the alchemist's perception, would not cause any consequences in actual alchemy because everyone corrected it through their perception when refining pills.
