

## Bodyguard 3151

### Chapter 3151 Studying The Medicinal Cauldron

For example, when refining a first-grade pill, the set temperature and fire intensity were the same parameters. However, if the alchemist's control of the temperature was slightly off, such as the temperature being slightly low, he could increase the fire intensity to increase the success rate of the pill.

This was a subtle adjustment in the sense of perception, but it was different when he really used this grade one automatic medicinal cauldron to refine pills. Originally, an Alchemist thought that his alchemy fire temperature had reached a certain temperature, but in fact, the liquid crystal screen of the medicinal cauldron showed that it was slightly higher or lower. Moreover, the deviation rate of this high and low was different for each type of pill during the refinement!

It could be said that an Alchemist's alchemy was completely based on their feelings. It was simply impossible for them to record the temperature, intensity, and time of their alchemy. If others followed this method of refining, they would probably fail because everyone's feelings were different!

Just like how some people felt that salty food was delicious, and some people felt that sweet food was delicious, it was difficult to sway the opinions of many. It was the same logic for alchemy! As the saying goes, the master leads the way and the cultivation depends on the individual. This sentence was most suitable to describe alchemists.

Therefore, patriarch xuanchen shook his head and said, ""That's impossible, alchemy is something that can only be understood, not explained. If you really want me to say it, I can't even say the time and fire used to refine each pill! Different alchemists may use different time and temperature to refine the same pill, which involves a personal habit. However, this Automatic Grade one cauldron not only adjusts according to the alchemist's personal attributes the first time it is used, but it can also display the true temperature of the alchemist's pill fire on the LCD screen at any time. "

Professor ban Jieming the second was only asking casually. He did not know much about alchemy, and after hearing that it was so complicated and troublesome, he gave up on the idea of remaking it. After all, remaking it seemed to be more difficult!

However, professor Benjamin II was a little puzzled. Who invented this thing? This inventor's mind was not inferior to his genius doctor! However, even so, professor Benjamin II still felt that if this inventor were to go against his master, it would be a small trick, because he didn't even learn one-tenth of his master's ability!

However, Benjamin the second also knew that his master was busy with something important and had no time to care about these small things.

"Then I'll open it and see." Professor Benjamin II examined the exterior of the automatic cauldron and said, ""We can only think of a way to cut it open. This medicinal cauldron uses the current very advanced seamless welding technology. There are no screws to fix the space."

"Alright, small one, cut open this medicinal cauldron." Patriarch xuanchen ordered small one.

Professor ban Jieming the second had intended to use the laser to cut the cauldron, but little one had taken out a heaven-grade sword and cut it around the cauldron. The cauldron had been broken!

Professor Benjamin II's mouth twitched as he looked at the perfectly cut medicinal cauldron. The internal structure was not damaged at all. He thought to himself, "these cultivators are really perverted. Fortunately, if my bio-humans are successfully modified, I will not be weaker than these people!"

However, after professor Benjamin II dismantled the cauldron, he did not care about the structure. Instead, he continued to dismantle the cauldron and removed the chip on the circuit. He was disappointed to find that the pin and shape of the chip were completely unique. It did not meet the International standards for components at all. It must be a non-universal chip that he had made!

Although professor Benjamin II had already thought of this possibility, he was still a little disappointed after seeing it with his own eyes! Previously, he was still hoping for a fluke. After all, the person who could invent such a thing might not necessarily be good at electronic circuits and encryption!

These were two different fields, and he didn't believe that anyone could master them at the same time. However, from the looks of it, this person was very powerful. This single-chip was made by himself, and there was no data on the parameters at all. It would be even more difficult to crack it!

"How about this, give me a few days. I'll go back to my lab and crack this chip. If there are results, I'll let you know. If there are no results, I'll let you know. However, it won't work if you want to replicate it by cracking it." Dr. Benjamin II frowned and said, "However, I have to remind you that the possibility of cracking a counterfeit is relatively small. This is because this single-chip is a non-standard, self-made special single-chip, which is very difficult to crack!"

"Is that so ..." Patriarch xuanchen was a little unwilling but helpless when he heard what professor Benjamin II said. After all, professor Benjamin II had made it clear that this kind of thing could not be forced. It was not something that could be replicated just because one wanted to. It required a lot of technology!

Even the scientific experts from the center, which had always been famous for their advanced technology, said so. Patriarch xuanchen also dispelled the thought of looking for someone else. Although he did not study these things, he had an understanding of the Center's technological level.

However, the xuanchen ancestor was puzzled. Lin Yi was a cultivator, so why did he have such a scientific expert by his side? Even boss Bai couldn't do anything, right?

Professor Benjamin the second left in a hurry. However, on the same night that he left, patriarch xuanchen and Zhaoming received a call from him!

"No, just give up." Professor Benjamin the second's words made the xuanchen ancestor and Zhaoming's anticipation drop to the bottom.

"Professor Benjamin II, what's going on? Can't you break it?" "What's wrong?" patriarch xuanchen asked, unwilling to give up.

"To be honest, after I came back, I did a detailed study of this single chip based on some of the components and circuits outside the circuit board. This single chip is not a regular single chip, but a kind of concept single chip proposed by the hacker world more than a decade ago. With the level of technology at that time, the concept of that concept was only an idea and temporarily impossible to realize. I didn't expect to see a finished product a few years later. However, even if I knew some of the information back then, I still couldn't understand it." There's no way to break it!" Dr. Benjamin II said firmly.

"Oh? Then can you find the person who first proposed the concept of a single chip? Perhaps, he had a way to break it? Even if he didn't create this thing, there should be some connection, right?" "What's wrong?" patriarch xuanchen probed.

Chapter 3152 Kang Zhaoming's Plan

"That's impossible. That person was once known as the king of hackers, codenamed 'I love little Ming'. However, her identity was later confirmed. With my status, it's impossible to invite her ..." Benjamin II shook his head and said.

"Why?" Patriarch xuanchen was naturally not in the mood to care about the hacker's name. He only wanted to know if he could get him to leave the mountain.

"Because she's the crazy woman who destroyed central and killed my senior, Dr. Benjamin I ..." Dr. Benjamin II's words were unclear, but patriarch xuanchen understood what he was saying and was shocked!

He naturally knew of the lunatic from back then. The person known as "lunatic yang" was one of the dual evils of Vajra who swept through the ancient level. Patriarch xuanchen would definitely not provoke such a person if he could!

Although this person had disappeared, it was impossible for ancestor xuanchen to make an enemy out of his family. If this lunatic were to appear again one day, the five-elements sect might just become a no man's Gate.

Therefore, after hearing what professor Benjamin II said, patriarch xuanchen dropped the subject and did not pursue the matter. Instead, he said, ""What should we do now? Are we just going to give up?"

"I suggest that you use commercial espionage to settle this matter. As long as you get the other party's Research and Development Information, I'm confident that I can create a new one." Professor Benjamin II said.

"Get the research and development materials?" Patriarch xuanchen was slightly taken aback. He suppressed his displeasure and said, ""Once I get the information, I can give birth on my own. Do I still need you?"

"You can't say that. I can guarantee that after you get the information, it's impossible to produce it. Many components on this circuit board are non-standard. Even if you get the core information, we can only use other existing electronic substitutes because you simply can't buy the electronic components on this medicinal cauldron!" "Of course," professor ban Jieming the second said, "if you think your sky elixir sect has the ability, you can ditch us and do it on your own!"

"This ..." After hearing this, patriarch xuanchen finally understood why professor Benjamin the second was so confident. It turned out that professor Benjamin the second was certain that the five elements sect did not have the technical talent in this area and that they would not be able to produce it even if they had the means of production.

"Let's not talk about anything else. Just look at the heat resistance of the circuit boards and components. Most of the existing components will be eliminated. Therefore, our Center's 50% of the profits is not an unreasonable demand." Professor Benjamin II reminded.

"Alright, I'll try my best." Patriarch xuanchen hung up the phone helplessly.

It seemed like he had thought too simply of it. When the xuanchen ancestor told Zhaoming what the professor said, Zhaoming's expression changed, but he quickly made up his mind.

"Father-in-law, why don't we start from Lin Yi's company or the common house Liu? we'll just get the information and make a copy?" Kang Zhaoming suggested.

"Are you confident? At the very least, they couldn't do it openly. They had to do it secretly! You can bribe their employees, but you must never use threatening means. Otherwise, the cultivators trade association will not be so easy to deal with. " After a moment of hesitation, patriarch xuanchen also decided to use this method. After all, the five-elements sect was really too poor now. All their funds

were invested in a bunch of grade one pills that were a pity to throw away. It was not easy for them to get some money back and buy two Automatic Grade one medicinal cauldrons. This forced patriarch xuanchen to have other ideas.

"I know, I've done this a lot in the past." "But, we have to start from two aspects, the common house Liu and fatty Lai's miracle doctor Guan medical company!" Zhaoming said, nodding. "Miracle doctor Guan's medical company is easy, my cousin is the Vice President there. It's not easy to deal with, but if you have the right methods, you won't be invincible!" As for the secular Liu family, I have to find a starting point. I haven't had much contact with them in the past, so I don't know what their weaknesses are!"

"Oh? What are you going to do about miracle doctor Guan's medical company?" Patriarch xuanchen nodded and asked.

"Honey trap!" Zhaoming's eyes flashed with a dark look. "This cousin of mine has a strange habit. He has a strong desire to protect the women I've played with. As long as I act pitiful in front of him, it will arouse his desire to protect them. If they really do have sex, the alchemy School will come out and cause trouble for him. This matter couldn't be explained clearly, and even if boss Bai wanted to interfere, he had no reason to! We'll force him first, and if he doesn't obey, we'll ruin his reputation and kill his entire family! In his fear, I'm afraid he'll help us get the information!"

"Kang Zhaoming, what do you mean? You're not going to let my daughter go, are you?" "You!" Patriarch xuanchen said angrily. "Do you want to die?"

"Uh ... Father-in-law, you've misunderstood. I'm saying to let little peach go, not little eleven ..."

Zhaoming jumped in shock, realizing that his words had been misunderstood. No wonder the xuanchen ancestor was so angry!

"Oh, little peach, that's fine," Patriarch xuanchen nodded. He really did not think much of an ordinary maidservant, and her life and death had little to do with him." "However, what if little peach isn't willing to go?"

"Hehe, that's impossible!" Kang Zhaoming said confidently, "although my looks can't compare to pan an 's, I'm still a first-class handsome man. Women who fall in love with me are always head over heels for me. If I ask little peach to go, there's no way she won't go. I dare say that she's willing to sacrifice herself for me!"

Kang Zhaoming wasn't bragging. At least, wasn't that what Fen did back then? She couldn't forget Kang Zhaoming, she was even going crazy.

"Alright, I'll leave this to you!" "Of course!" Patriarch xuanchen nodded. "But you have to remember. It's fine to put on an act, but if something really happens between you and little peach, don't call me father-in-law anymore!"

"Don't worry, father-in-law. With little Peach's looks, she's far from little eleven 's. It's impossible to be completely done!" Zhaoming said.

"En, as for the common Liu family, I'll help you investigate them and give you some reference materials. Then you can think of a way to make your move!" Patriarch xuanchen nodded and said.

"Yes!" Kang Zhaoming went to look for little peach. He hadn't spoken to her since their last breakup, and now that he was in her territory again, little peach was slightly surprised!

Chapter 3153 What Happened Back Then

"Little peach, long time no see! Did you miss big brother Kang?" Zhaoming made a self-proclaimed handsome pose as he walked over to little peach.

A hint of confusion flashed across little Peach's eyes. However, she still said, ""Elder Kang, you're already engaged to someone else. Please conduct yourself with dignity and stop ... Flirting with little peach ..."

"Haha! Little peach, there are no outsiders here!" Zhaoming's face changed as he sighed, "Little peach, you also know that above the sky elixir sect is the five elements sect, right? You're considered the closest person to the heavenly silkworm transformation's young sect master, so you should know the situation here! I, your brother Kang, didn't have a choice!"

"What ... What do you mean ..." Although little peach had already given up on Kang Zhaoming, she still felt some compassion when she heard his words. Curious, she asked, ""Brother Kang, why are you saying this ..."

"Little peach, I'm saying this to tell you that patriarch xuanchen's daughter, little eleven, has taken a fancy to me and wants me to marry her. You also know how powerful patriarch xuanchen is. Even young sect master Tian doesn't dare to disobey his orders. I'm just a small elder. Do you think I dare to disobey?" Zhaoming said helplessly, "I had no choice. I could only say those heartless words to you before, but those were definitely not my original intentions!"

"Is ... Is that so?" Little peach was an innocent person without many thoughts. Although she had already given up on Kang Zhaoming and even hated him to the core, she was still confused after hearing his explanation. Was Kang Zhaoming really forced into this?

As for what Kang Zhaoming had said, little peach was well aware of it. Patriarch xuanchen was a domineering elder who stood by his words. In the sky elixir sect, his words carried enormous weight. Therefore, if that was the case, Kang Zhaoming would never dare to go against his words.

However, was this true?

"Of course!" Zhaoming nodded, "I had no choice!" Little peach, you should also know that there's a saying that people can't act on their own when they're in the pugilistic world. If I don't want to die and harm you, I can only agree to this marriage!"

"I ... I know." Nodding, little peach said, "big brother Kang, I don't blame you. I can only blame myself for not having this fate. I wish you and sister eleven happiness."

"Little peach, don't say that!" Kang Zhaoming saw that little peach had misunderstood him and quickly explained, ""Actually, we can still do what we did in private as long as we don't get caught by patriarch xuanchen!"

"Big brother Kang, you can't do that! Little peach can't harm you! If that's the case, you'll definitely be in trouble if others find out!" Hurriedly, little peach shook her head.

"Little peach, since I've said this, I'm also quite confident. This is only the worst-case scenario. However, there's one thing that I need you to do right now. If you do it well, we can be together openly. Although you can't be my main wife, you can still be my second wife!" "If you do this well, my master, the xuanchen elder, will definitely agree and be your matchmaker!" Zhaoming said.

"Re ... Really?" Little peach had grown up in an ancient sect, so she didn't have the concept of monogamy in her mind. As long as she could be with Kang Zhaoming, she didn't care if it was a big wife or a small wife.

"Naturally, it's true." Kang Zhaoming nodded. "But this is a difficult task. The man might take advantage of you. Although I like you and don't mind it, I'm afraid that you will mind it!"

"Ah?" Little peach was momentarily stunned. She was going to be taken advantage of by a man? Truth be told, little peach was unwilling to do so. She was a very conservative person. Although she hadn't completed the last step with Kang Zhaoming yesterday, her heart was already on his side. How could she be willing to have any physical contact with another man?

But, Kang Zhaoming said that he didn't mind, and most importantly, he could be with Kang Zhaoming after this! Thinking up to this point, little peach was both excited and hesitant. For a moment, she couldn't make a decision.

"Little peach, think about it. As long as you're willing, you can be with me forever!" Zhaoming said, trying to tempt him.

"Alright ... I'll do it!" "Alright!" Little peach said, gritting her teeth and nodding.

"That's great, little peach! With this, we can be together forever!" "Go back and prepare," Zhaoming said. "I'll bring you out. As for why you're leaving, don't tell young master Tian. I'll ask my master, patriarch xuanchen, to apply for leave for you!"

"Ah ... Okay ..." Little peach nodded. Although she liked Kang Zhaoming and believed his words this time, she no longer blindly trusted and obeyed him without thinking.

This time, Kang Zhaoming had told her not to tell Tian Gang, but little peach decided that she would tell Tian Gang when she returned! Because she didn't want to hide it from Tian Huan! No matter how much she liked Kang Zhaoming, Tian Gang was still her master. This was something that would never change.

Zhaoming, on the other hand, didn't know about little Peach's other thoughts. Seeing her nod, he thought that she had been tricked again, so he happily went to make preparations and plan.

As for little peach, she immediately went to report to Tian Gang.

In Tian Gang's room, she was refining the elixir needed for the Tianjie Island Plan with patriarch xuanzhen. After refining another elixir, patriarch xuanzhen put it away and wiped the sweat off his forehead. ""If ... If only I could make a few Tier 3 automatic medicinal cauldrons. That Tier 1 automatic medicinal cauldron is obviously much more advanced than mine. Those Tier 1 automatic medicinal cauldrons can refine medicinal pills as long as they know how to refine pills. This one can't. It also requires some skills."

"Master, who is that person? Since she's so powerful, why don't you take her as your disciple?" Tian Gang was a little puzzled. Since this person also had talent in alchemy, wouldn't it be more convenient to discuss these automatic alchemy matters in the future if he accepted her as a disciple?

"She has a master ..." Ancestor Xuan Zhen smiled bitterly and said, ""Moreover, his master is someone I can't afford to offend!"

"She has a master? Who is her master?" Tian Gang was slightly stunned. This was the first time that patriarch xuanzhen had told her about the past. In the past, he would not have mentioned these things.

"Back then, there were two very powerful people in the pugilistic world. They were called the dual fiends of the Vajra. I believe you're familiar with them, right?" Asked patriarch Xuan Zhen.

Chapter 3154 Confess Honestly

"Oh? Could it be that her master is one of the dual fiends of Vajra?" Tian Gang was shocked.

"Not really, but they're their friends." "No!" Patriarch xuanzhen shook his head. "His surname is sun, and he's also a very powerful figure. He can link cultivation with science!" I heard that he's been working on something that can store the world Energy and carry it with him for cultivation at any time. As for whether it's successful or not, I'm not sure. I've only met them once and haven't seen them since. "

"I see ... Then the master and disciple are really powerful. But the dual fiends of Vajra sect know that you are from the five elements sect. Didn't they come to the five elements sect to cause trouble?" Tian Gang asked with some doubt.

"Hehe, at that time, the dual fiends of Vajra had already disappeared, and I got to know them under the name of an itinerant cultivator ..." Patriarch xuanzhen suddenly felt embarrassed. "Tian Gang, do you think I'm too timid?"

"Of course not. A wise man submits to circumstances. At that time, no one was a match for the dual fiends of Vajra. So, master did this to protect the five elements sect." Tian Gang shook his head.

"Alright, let's not talk about this anymore. The little girl from back then must have grown up by now, but she's probably a little younger than you. I don't know if we'll have a chance to meet again, but I really want to know, did Lin Yi come up with this cauldron on his own, or did someone help him?" Patriarch xuanzhen sighed. It was not that he did not think about asking boss Bai, but he could not, because patriarch xuanzhen wanted to crack the imitation of this grade one automatic medicinal cauldron. If patriarch xuanzhen asked, boss Bai might think that he was here to inquire about information. Therefore, patriarch xuanzhen could only shut up.

As for informing boss Bai that patriarch xuanchen wanted to make an imitation of the medicinal cauldron, it was meaningless. Xuanchen had to do it even if he was informed. Furthermore, xuanchen was doing this for the sake of the five elements sect, so patriarch xuanzhen could not make the call.

As the two of them were talking, they suddenly shut their mouths at the same time because someone was coming!

"It's little peach," Upon hearing little Peach's footsteps, Tian Gang immediately said,"

Sure enough, a knock on the door and little Peach's voice came from outside,""Young sect master, are you free? I have something to discuss with you!"

"Come in, little peach," Tian Gang said directly. Since patriarch Xuan Zhen was not an outsider, she did not avoid the topic.

"Young sect master, I hope I'm not disturbing you?" As soon as little peach entered the room, she noticed that Tian Gang and patriarch Xuan Zhen seemed to be refining pills. Immediately, she asked,"

"It's alright, I won't disturb you!" "Little peach, if you have something to say, just say it," Tian Gang said, waving his hand.

"This ..." Little peach glanced at patriarch xuanzhen. She did not wish to hide the truth from him, but what she wanted to say was too embarrassing. She could not bring herself to say it in front of him.

"Hehe, I'm going out for some fresh air." Standing up, patriarch Xuan Zhen walked out of the room with a smile. He wasn't here to get some fresh air. Rather, he was here to guard the door for Tian Gang. From the looks of it, little peach had something important to say.

After patriarch Xuan Zhen left, little peach breathed a sigh of relief. Although she knew that with patriarch Xuan Zhen's strength, he could easily eavesdrop even from the outside, it was fine as long as he did not do it in person.

"Young sect master, big brother Kang came looking for me today ..." Little peach said with a slightly flushed face.

Tianshuo frowned at the mention of Zhaoming's name, his guard up, "Kang Zhaoming? Why is he looking for you?"

"He ... He said that he actually still likes me ..." Saying so, little peach told Tian Gang everything that Kang Zhaoming had told her. She didn't hide it from him, simply because she didn't want to lie to him. Moreover, in little Peach's mind, Tian Gang was more experienced and knowledgeable, so he could help her make decisions on these matters.

"You're talking nonsense!" After hearing little Peach's retelling, Tian Gang mercilessly criticized her, "Little peach, he lied to you! It was only after he broke up with you that patriarch xuanchen proposed to marry his daughter to him, not like before! You have to be clear about the time, don't be deceived by his flowery words!"

"Ah?" At this moment, little Peach's mind went blank! Although it was hard for her to accept this fact, she also knew that Tian Gang would not lie to her! Although Tian Gang's personality was very cold, he would definitely not lie about this kind of thing!

But why would Kang Zhaoming lie to her? What was the reason? Right now, little peach wanted to run over and argue with Kang Zhaoming. She wanted to ask him why he lied to her!

How could Tian Gang not guess what little peach was thinking when he saw her expression? So, she said faintly, "little peach, Kang Zhaoming isn't a reliable person. He's willing to do anything for his own benefit. If he can betray you today, he can betray his master and fiancée the day after tomorrow. Don't take it to heart. As for arguing with him, there's no need to go."

"Then ... Should I go and reject him?" Little peach said after hesitating for a moment.

"No need to reject him. Just agree to his request. Then, we'll see what he's up to." Tianshuo was suspicious of Kang Zhaoming's sudden visit to little peach. He wanted to see what kind of trick he was up to, so he wanted little peach to beat him at his own game!

"Alright, young sect master, I'll agree to his request. Let's see what he's up to!" Little peach nodded.

"Take this pill and follow me." Tian Gang suddenly pulled out a small porcelain bottle from his bosom. He then poured out a pill from the bottle and handed it to little peach.

"This is ... A concealment pill?" Little peach was slightly stunned. Although she wasn't an Alchemist, as Tian Huan's maidservant, she had heard and seen some pills before, so she knew some of their names

and uses! The pill's effect was to hide a person's presence-if she didn't do anything, even a Sky Class wouldn't be able to detect her!

However, this thing could be used for information gathering, but not for assassination. After all, as long as the chant was used, the effect of this pill would be lost. Unless it was consumed by ordinary people or cultivators did not use the chant, it was not very useful unless it was used for information gathering.

And this pill was a third grade pill. It was very difficult to refine, so very few alchemists would refine these things. The ones in Tian Gang's hands were the ones he had refined when he was practicing to refine third grade pills. He didn't expect them to come in handy now.

"I'll take you to see what Kang Zhaoming said after he went back. " After saying so, Tian Gang pulled little peach out of the window

Chapter 3155 Belated Effort

Tian Gang's strength was at the peak of the late stage of the Sky Class. Although ancestor xuanchen was at the peak of the late stage of the Sky Class, if Tian Gang wanted to hide his movements, ancestor xuanchen would not be able to detect it. As long as Tian Gang did not use the mantra and xuanchen did not take the initiative to search for him, there would be almost no problem.

Meanwhile, little peach had consumed a concealment pill, so it was naturally impossible for her to be discovered by patriarch xuanchen.

The two of them sneaked to the window of patriarch xuanchen's room. Zhaoming had just entered the room.

"You're back?" The xuanchen ancestor looked at Zhaoming and nodded.""How's the situation?"

"Father-in-law, everything went smoothly. Little peach, that silly woman, believed my words and thought that I was being true to her. She's already agreed to my proposal!" Kang Zhaoming said proudly.

Little peach, who was standing beside Tian Gang, heard Kang Zhaoming's words. Her body trembled as anger and resentment flashed through her eyes. She didn't think that Kang Zhaoming would lie to her again! To actually say such words in front of ancestor xuanchen!

As expected, tianshuo was right-Zhaoming wasn't a reliable person!

"En, but be careful. Don't let me find out that there's actually something going on between you and her!" Patriarch xuanchen nodded.

"Don't worry, father-in-law. With little Peach's ghostly appearance, who would like her? I'm disgusted even if I go to bed after turning off the lights!" "She's nothing compared to little eleven!" Zhaoming quickly said. They were on completely different levels! I used to get close to her in order to please the heavenly silkworm transformation, but now, I have a backing like you, father-in-law, I don't need to please anyone else!"

"Alright, since that's the case, you can go and make the plan!" The xuanchen ancestor nodded in satisfaction. Although Zhaoming's previous actions of pursuing little peach in order to please the heavenly silkworm transformation were seen as shameless in the eyes of ordinary people, the xuanchen ancestor was a sinister person. In his eyes, he felt that Zhaoming was a man of great potential. Zhaoming was sinister, but it was enough as long as he wasn't.

"Father-in-law, I'll go back now ..." Zhaoming said and left.

Outside the window, little Peach's face was pale and her body was shaking in anger. She never would've thought that Zhaoming had been using her all this time to get close to Tian Gang! Little Peach's tears began to fall. Although she had been sad when she was rejected by Kang Zhaoming before, she had never been this sad!

However, Tian Gang gently patted little Peach's shoulder before silently leaving with her. As they left, patriarch xuanchen seemed to have sensed little Peach's emotional fluctuations. When patriarch xuanchen walked to the window and opened it, he saw a disciple passing by not far away. Thus, he shook his head, thinking that he had been overly suspicious.

"Young sect master, I'm sorry. I did put in a lot of good words for Kang Zhaoming in front of you before ..." Little peach said sadly and regretfully after seeing Kang Zhaoming's true colors.

"It's okay, I don't blame you for this. It's human nature to put in a good word for your lover. " "I'm bringing you because I want you to see Kang Zhaoming clearly. Don't be tricked by him again. "Tianshuo waved his hand.

"Young sect master, don't worry. I'll cut off all ties with him!" Little peach said firmly.

"There's no need for that. You can beat them at their own game and see what they want to do." Tian Gang guessed that Kang Zhaoming and the xuanchen ancestor were probably brewing some sinister plan again. With little peach in charge of gathering information, it would save Tian Gang some time!

Although it was fine to have the heavenly butterfly secretly follow them, Tian Gang would try not to use the heavenly butterfly if possible. After all, they would encounter ghosts if they walked too much at night, and the secret of the heavenly butterfly could not be discovered by patriarch xuanchen.

"Alright, young sect master. Little peach will listen to you." "Then, what should I do?" little peach hurriedly nodded.

"Just do what Kang Zhaoming tells you to do, and tell me. I'll tell you what to do." Tian Gang said.

"Alright, young sect master!" Little peach replied.

.....

Blood-clad yellow spring sect.

"Ghastly Grandmaster, I've found out that Lin Yi became a cripple not long ago. He's been poisoned by a hidden house Zhao's poison, and he can't use his Qi anymore. His meridians are all broken, too. It's easy to kill him now!" Reported the sinister old ancestor, the supervisor of the blood-clad yellow spring sect.

"Oh? So you're saying that we should send people to kill Lin Yi now?" Old ancestor yellow spring asked.

"This ... As I said, it was a while ago, but Lin Yi's recovered now, he's full of energy ..." The old man smiled bitterly.

"Fuck!" Old ancestor yellow spring couldn't help but curse, "What the hell were you doing before? Why didn't you say so earlier? You're only saying this after he's recovered? Is there any meaning to it?"

"This ... The intelligence team just reported this to me. I came to report to you as soon as I could ..." The ghastly ancestor said, feeling wronged.

"Those good-for-nothings in the intelligence team, you've already found them an eyesore. Didn't you rectify it? Don't you know that intelligence is the most important thing for an assassin?" Old ancestor yellow spring said in a disappointed tone.

"Old ancestor yellow spring, as you know, we're an ancient sect, and our intelligence-gathering habits have been passed down from ancient times. These people rely on their legs and mouths, and don't use modern technology at all," "It's fine if we're asking about people and things in the world of cultivation, but it's hard to find out anything about people in the secular world. Our sect is an assassin organization in the cultivation realm, and we don't touch anything in the secular world. Who would've thought that we'd run into an alien like Lin Yi?" the ghastly old ancestor explained.

"What you said does make sense." Old ancestor yellow spring nodded in agreement. He wasn't as angry as before. "However, this is not efficient. If we always do it after the fact, where will we get our revenge?"

"This time, it's not all belated advice! I've also gotten some other news about Lin Yi. I'll tell you in detail, old ancestor yellow spring." The ghastly forefather said hurriedly.

"About Lin Yi? Alright, then tell me. I hope it's good news." Old ancestor yellow spring nodded.

"It's like this-the intelligence team received news that a Sky Class mid phase Peak Master died in the Dongfang family-Lin Yi killed him!" The ghastly forefather said.

#### Chapter 3156 Lin Yi's Family

"You call this good news?" Old ancestor yellow spring frowned."This Lin Yi, he actually killed a Sky Class mid phase peak-what's his actual strength?"

"According to my investigation, it's Sky Class early phase." The ghastly forefather said.

"Back when he was Earth Class, he could kill Sky Class Masters in seconds, and now that he's Sky Class ... It looks like you'll have to do it yourself if you want to kill Lin Yi. Maybe ... It'll be safer if you and I do it together." Old ancestor yellow spring wasn't an idiot-if Lin Yi could kill Sky Class mid phase peak, who could guarantee that he couldn 't?

According to his many investigations, he had underestimated Lin Yi's strength every time, which brought immeasurable and painful consequences to the blood-clad yellow spring sect. So this time, old ancestor yellow spring was no longer arrogant. He had learned to be smart and cautious.

"Not bad! But there's one thing that hasn't been confirmed yet-some of the other Sky Class Masters of the Dongfang family died at Lin Yi's hands as well, and it was an instant kill! So, we can't estimate Lin Yi's combat strength yet!" "Plus, the most important thing is that Lin Yi tricked elder Kang Zhaoming from the heavenly elixir sect a while ago, but they didn't do anything about it!" The old man continued. No one else knows, but we do. The sky elixir sect is backed by the five elements sect ..."

"Oh? What's going on?" Old ancestor yellow spring asked immediately.

"It's like this, Lin Yi invented a grade one automatic cauldron that can refine pills on its own ..." With that, he told old ancestor yellow spring about Lin Yi's recent movements.

"It's not that the five elements sect doesn't want Lin Yi, but they're worried about the practitioner's trade association! However, I'm worried about Lin Yi-we'd better not mess with him!" Old ancestor yellow spring said after some thought.

"Yeah, that's why I don't agree with directly making Lin Yi our enemy!" "So, other than that, the intelligence team has a suggestion. Lin Yi's too weird, but we can target his family!" The old man nodded. As long as Lin Yi's family dies, he'll be heartbroken, and it'll be a blow to him, and he'll have his revenge!"

"Good! Then get the intelligence team to find out who Lin Yi's family is and where they are. We'll take action once we find out!" Old ancestor yellow spring said.

"Yes, this subordinate will go investigate!" The ghastly forefather quickly agreed.

In fact, there was no need for an investigation. The intelligence team had made this suggestion because they had already found out something. Therefore, not long after the ghastly ancestor went back to understand the situation, he brought the person in charge of the intelligence team to old ancestor yellow spring.

"Your subordinate, flying cat, greets old ancestor yellow spring!" The person in charge of the intelligence team was called flying cat. He did have the ability to fly on roofs and vault over walls. However, his ability was limited to the world of cultivation. He was slightly lacking in gathering information about the secular world.

This was also the reason why it took so long to investigate Lin Yi.

"En, Yin Sen said that you've found out about Lin Yi's family?" Old ancestor yellow spring asked. He was quite happy this time. The efficiency of the intelligence team had almost made him curse his mother, even though his mother had died a long time ago.

"Yes, old ancestor yellow spring. According to my investigation, the women who are closest to Lin Yi are Chu Mengyao, Chen Yushu, Tang Yun, Feng Xiaoxiao, Wang Xinyan, and han Jingjing. These are the few who are close to Lin Yi. The rest don't appear by his side often, so I didn't continue my investigation!" The flying cat said.

"Oh, so you're saying that if we kill all these women, Lin Yi will be sad? But that Chu something Yao, why did that name sound so familiar? Where have I heard it before?" Old ancestor yellow spring asked.

"Old ancestor yellow spring is wise!" "This Chu Mengyao is the heir of the palace of the dark night. She's also the reason why the great elder of the palace of the dark night became enemies with the ancient Eastern family!"

"Inheritor? Then what are you still saying? Do we dare to touch such a person? Now that she's dead, our blood-clad yellow spring sect has become The Public Enemy of the ancient level!" Old ancestor yellow spring frowned immediately. Even though the blood-clad yellow spring sect was an unusual existence in the ancient world and no one dared to provoke them, they would only face death if they violated the interests of the entire ancient world. "Can't you say something useful?" old ancestor yellow spring was very annoyed.

"Uh ... The only good thing is that we can't touch any of these women ..." The flying cat smiled bitterly.

"None of them can be touched? What do you mean by that?" Old ancestor yellow spring was stunned for a moment, thinking that he had misheard.

"Chen Yushu, if we're not wrong, she's the fire element inheritor that the five elements sect has been nurturing through the Hidden House Yu. As for Tang Yun, she's the inheritor of the snow Valley, and is now an elder of the valley! Xiaoxiao, on the other hand, was the heir of the Ice Palace, and the Vice sect master! As for han Jingjing, she was the student of the five elements sect's ... Ancestor Xuan Tian. However, she was not an ordinary student. She was a student who knew how to refine pills. Ancestor Xuan Tian valued her very much, so even ancestor Black Earth did not dare to touch her! "As for Wang Xinyan, she's an elder of the sky elixir sect and the fiancée of the xuanchen patriarch's son-in-law, Kang Zhaoming's big brother, Kang Zhaolong. This person ... It's not easy to touch her ..." Flying cat explained.

"Fuck!" Old ancestor yellow spring couldn't help but curse, "No matter what, Lin Yi only has inheritors and people related to the five elements sect. How are we supposed to kill him? Our blood-clad yellow spring sect will die no matter who we kill! Even if we have to kill the people from the everyday and everyday sect, we can't go after the people related to the five elements sect!"

"This ... Old ancestor netherworld, please let me finish!" The flying cat pulled a long face and said helplessly, "'I'm just reporting the results of the investigation to you, but that doesn't mean that the people I'm going to tell you can't be touched ..."

"Oh, then go on, who else can you touch next to Lin Yi?" Old ancestor yellow spring asked with a frown.

"We can't touch the women around Lin Yi, but we can touch his family." "According to our investigation, Lin Yi has returned to a place called West Star Village a few times. He has a grandfather there, but I can't

find out his name. I only know that his surname is Lin, and he's just an ordinary village man from the secular world. It's not worth investigating his name, and I only know that he's a travelling doctor."

"Oh? You mean we should make a move on this person?" Old ancestor yellow spring asked.

Chapter 3157 Dealing With Lin Dongfang

"Not bad! Only if he dies will Lin Yi be sad and we won't get into any trouble!" Flying cat nodded, "otherwise, killing any of the women around Lin Yi would be a huge problem. Only this old man would be fine if he died. So, I suggest that we kill this old man!"

"Oh, since he's just a country bumpkin, then any golden class master should be enough, right?" Old ancestor yellow spring said indifferently.

"This won't do." "I'm afraid what if Lin Yi goes back?" flying cat shook her head.

"That's true. If that's the case, Yin Sen and I will go there personally. We'll kill this old man first and then wait for Lin Yi to come to his death!" At first, old ancestor yellow spring was worried about going to the common world to touch Lin Yi. After all, the blood-clothed yellow spring sect was different from the ancient sects. There was no revenge in the assassin group. Once you took the mission, you would either kill or be killed. If the assassin group also took part in revenge, it would be a mess!

However, Lin Yi was a freelancer, and they didn't have any power when they investigated him, so the sect chose to take revenge. However, it was done in secret, and the other ancient sects wouldn't be happy if it was out in the open!

If I'm powerful enough to escape death, you'll send more people to kill me? This clearly went against the mission's original intention and messed up the rules!

The blood-clad yellow spring sect was also not allowed to make a move in the secular world. This was not only a rule of the ancient times, but also a forced promise made to the assassin groups in the secular world. They would never cross the boundary and taint the assassin world of the secular world.

Although it sounded a little funny, how could a high and mighty ancient sect like the blood-clad yellow spring sect compromise with an assassin organization in the secular world? But he had compromised!

The biggest assassin organization in the secular world was led by Mister yang of the Vajra duo demons, one of the two ruthless men who had swept across the ancient world. In the face of this Mister yang, the King of Assassins in the cultivation world of Xue Yi and Huang Quan had to bow their heads and leave the blood-clad yellow spring sect with Mister yang.

Although the departure of the King of Assassins in the cultivation world was known to the entire ancient world, no one knew that master yang was the King of Assassins in the secular world. This was an inside story of the assassin industry. The blood-clad netherworld sect did not dare to disclose it without Master Yang's permission.

Moreover, this was not something to be proud of. It was simply unbelievable that an assassin organization in the cultivation world would lower their head to an assassin organization in the secular world!

It was true that the two ruthless men had disappeared for over a decade, and the other ancient and hidden levels had started to forget the negative effects they brought, but it was still best if they could kill Lin Yi without breaking their promise.

After all, the two ruthless people known as the king Kong duo fiends had cast a shadow in Yomi and Xue Yi's hearts! The West Star Village was in a remote area and wasn't considered a common place anymore. Killing Lin Yi's family there and attracting Lin Yi to kill him wouldn't be breaking the promise!

"Why don't we ... Get the blood-robed patriarch to do it? You and him are both Sky Class late phase peak-no matter how weird Lin Yi is, he'll have to die if the three of us attack him together!" The ghastly forefather suggested cautiously.

"That's good. The blood-robed patriarch is coming out of seclusion soon. It's a good time to go and relax. Killing people is also a good choice." Old ancestor yellow spring nodded after a moment of silence.

"If that's the case, it'll be hard for Lin Yi not to die!" The ghastly forefather laughed eerily.

Sky elixir sect.

After setting up the plan, Zhaoming went to find little peach again.

On the surface, little peach didn't seem to notice anything, still looking forward to being with Kang Zhaoming in the future. However, she was thoroughly disappointed in him.

"Big brother Kang, did you call little peach here because you've already confirmed that matter? What do you need little peach to do?" Little peach asked enthusiastically.

"It's like this-there's a great opportunity for you to go to miracle doctor Guan's medical company and become Xiaobo's Secretary!" "Kang Xiaobo's Secretary left, and the company is currently hiring, but you need to have a certain level of understanding of medicine. You fit that requirement, and you're a professional in medicine and medicine. I believe that this job will be easy for you!" Because being a Secretary is also a job to help people, and you're also the young sect master's servant in the sky elixir sect, so these things are easy for you to do!"

At first, Kang Zhaoming was still racking his brain on how to get little peach to Kang Xiaobo's side so that she could get close to him. He wanted to use some underhanded methods, but he didn't expect such an opportunity to suddenly appear in front of him. This made Kang Zhaoming inexplicably happy. This was simply made for little peach!

In fact, it was because the company was in a crisis a while ago, and the Secretary who worked for Xiaobo through connections submitted his resignation letter because he had bad judgment and thought that the company would fall.

Xiaobo didn't hire a new Secretary because the company wasn't in a good position until Jinghan's grade one automatic cauldrons sold well and the company was back on track. Fatty Lai and Xiaobo took a break and started hiring new employees who left when the company was in trouble, and Xiaobo's Secretary was one of them.

This created a good opportunity for Kang Zhaoming. He sent little peach away without any effort, not even having to make up a story.

"Alright, I'll apply for the job now. But How do I apply for leave from the young sect master?" "Oh?" little peach hurriedly nodded and asked,"does that mean I won't be taken advantage of?"

"That won't do. Haven't you heard of the saying? If the boss has something to do, the Secretary will do it, and if he has nothing to do, the Secretary will do it. If you don't get taken advantage of, how are you going to get close to Kang Xiaobo and make him trust you completely, and then steal the technology of the automatic medicine cauldron?" Kang Zhaoming shook his head, "it's fine. I won't despise you. I'll just treat it as you're making a sacrifice for me. Little peach, don't worry and go!"

Sadness filled little Peach's heart. If it weren't for tianshuo showing her Kang Zhaoming's true colors, she might have been bewitched by him and believed his words!

Chapter 3158 Readily Agreed

But now, little peach treated this as a joke. With a calm expression, she asked, ""Then ... Will Kang Xiaobo be interested in my looks? He's the big boss, what kind of woman hasn't he seen? how could he like me?"

"That's not for sure. My cousin has a special fetish, and the woman he likes is different from the others. He likes cripple too, let alone you ..." Zhaoming realized that he'd said something wrong here and quickly explained, ""Little peach, of course, I'm not saying that you're ugly. You're a talented woman with a hidden talent. I believe that Kang Xiaobo will realize this when the time comes, so you don't have to worry. As long as you're willing to put in some effort, you'll definitely be able to hook him!"

"Alright, I'll try." Little peach nodded. If it was before, she would've been angry at Kang Zhaoming for talking to her like that, but now, Kang Zhaoming was just a passerby in her eyes. There was nothing to be angry about.

"Remember, no matter what, you have to get on Xiaobo's good side and get the information!" "We can only be together in the future if we get the information, or else master won't allow me to marry the second wife ..." Zhaoming said.

"Okay, I know." Inwardly, little peach despised him. 'Even if I obtain the information, it's impossible for patriarch xuanchen to agree to me being your concubine.'

"Since that's the case, go and make your preparations. I'll get master to inform the young sect master. I believe that with patriarch xuanchen around, the young sect master won't obstruct you over such a small matter." Zhaoming said.

"Brother Kang, I'll be leaving first." Little peach nodded.

Looking at little Peach's back as she left, a cold smile appeared on Zhaoming's face, "I just don't know what to do with little peach. Perfect, I'll give her to my little brother who likes to pick up used shoes. Tsk, tsk, Kang Xiaobo sure got lucky this time. I've never touched little peach before, but she looks like trash. I'm not interested in touching her at all ..."

After little peach left, the first thing she did was to go to Tian Gang's room and tell him everything that Kang Zhaoming had told her today.

Tian Gang frowned slightly. This meant that the xuanchen ancestor and Kang Zhaoming wanted to deal with Lin Yi and get the information on how to make a grade one automatic medicine cauldron from him! Sure enough, he didn't let little peach pretend to deal with him for nothing. She actually got such an important piece of information. Should she ... Remind Lin Yi?

However, after thinking for a while, Tian Gang decided to let go of this thought. Firstly, if she informed Lin Yi now, it would be easy for him to be exposed. Secondly, what identity did she have to inform Lin Yi?

Most importantly, little peach had already betrayed Kang Zhaoming, so Tian Gang didn't have to worry about her betraying Lin Yi. He nodded, "I know, you can leave first, I'll think of a way."

"Alright, young sect master." Knowing that Tian Gang wouldn't harm her, little peach left with peace of mind.

However, after little peach left, Tian Gang suddenly said, ""Tian die, come in."

A black shadow floated in from the window. It was Tian die!

"Young sect master!" Tian die's face was cold as she respectfully said to Tian Gang.

"Tiandie, go investigate Kang Xiaobo from miracle doctor Guan's medical company and come back to me immediately!" Tian Gang ordered Tian die.

"Yes, young sect master!" Tian die replied and disappeared again.

Not long after Tian die left, footsteps were heard outside Tian Gang's room. If Tian Gang did not hear wrongly, it was patriarch xuanchen! She did not expect that patriarch xuanchen would personally visit her. This was a huge honor, and it also showed patriarch xuanchen's determination to send little peach out!

If it was a casual greeting from ancestor xuanchen previously, Tian Gang might have rejected it. However, now that ancestor xuanchen had come personally, not only would it attract suspicion, but Tian Gang would also be unable to resist ancestor xuanchen's anger.

After all, the reason why the sky elixir sect was able to become the leader of the ancient sects wasn't just because of their elixir making, but also because of the five elements sect's support. Without the five elements sect's support, the sky elixir sect would just be a small elixir making sect, and wouldn't be able to grow so quickly.

Thus, no matter if it was a private or private matter, Tian Huan could not refuse.

"Heavenly silkworm transformation, what are you busy with?" Under little Peach's lead, patriarch xuanchen walked into Tian Gang's room with a smile. Behind him was Zhaoming.

Heavenly silkworm transformation greets martial uncle xuanchen!" "Uncle xuanchen." Tian Gang hurriedly greeted him."I wonder what's the matter for uncle-master xuanchen to personally come here?" If you need me, just call me over. "

"Hehe, it's actually nothing much." Patriarch xuanchen shook his head and said with a smile,""Isn't it all because of me, your son-in-law? I'm sure you're aware of the matter between him and your maid, little peach. Although he has married my daughter, he still has his first love in his heart. In the beginning, I was against it. Naturally, I don't want my daughter to steal another woman's man! However, I don't know what kind of magic potion Zhaoming fed my daughter, but she actually agreed to let him take a concubine and make little peach his second wife! Since my daughter has already said so, as a father, I can't be a villain. So, I might as well fulfill their wishes. Anyway, my daughter is willing, so I can't say anything, right?"

Tian Gang naturally did not believe patriarch xuanchen's nonsense, but he still had to put on a shocked expression. ""Is that so? So that's how it is ... Then What do you mean, martial uncle?"

"Well, Zhaoming doesn't have much to do these days, so I told him to bring little peach Home to visit his family. It might take some time, so I came over to tell you that he's taking a leave of absence!" "In any case, you already have Tianxi as your maidservant," patriarch xuanchen said. "You don't need little peach, so there shouldn't be a problem, right?"

"Of course, there's no problem. Since uncle-master xuanchen has spoken, and the person involved is willing, I can't stop him!" Tian Gang laughed, "we are an ancient sect. We still have the customs of the ancient times. Polygamy is reasonable. It seems normal to me. Even I am the same. How can I ask my subordinates?"

After all, Tian Huan's image in the outside world was that of a Playboy with multiple women. There was nothing wrong with what she said, but it was just for Kang Zhaoming.

"Alright, since that's the case, Zhaoming, why don't you thank the young master of the heavenly silkworm transformation?" Patriarch xuanchen was very satisfied with Tian Ji's tactfulness, and the dissatisfaction he had for her previously disappeared.

Chapter 3159 Tian Huan's Expectations

"Thank you for your help, young sect master!" Zhaoming quickly cupped his fists. He didn't think that the heavenly silkworm transformation would be this easy to talk to, agreeing to it without stopping him at all! However, thinking about it, his father-in-law had personally come to visit. As a junior, how could the heavenly silkworm transformation not give him face?

The xuanchen ancestor was very satisfied. He thought that he would have to spend some time explaining, but he didn't expect Tian Gang to be so reasonable. However, the xuanchen ancestor was thinking from the perspective of a girl, but it seemed that the disguise of the heavenly silkworm

transformation over the years had made Tian Gang's character more like a man. The xuanchen ancestor didn't suspect anything and left with Zhaoming.

After patriarch xuanchen left with Zhaoming, Tian Gang and little peach were the only two left in the room. Tian Gang then said, ""When the time comes, you can apply for a job at miracle doctor Guan's medical company. Do what you need to do-you can get on good terms with Kang Xiaobo, but you don't need to seduce him. You don't need to pay attention to what Kang Zhaoming is saying to you, just do what you're supposed to do. As for the documents, don't think about them yet."

"Yes, young sect master." Little peach hurriedly agreed. To be honest, if she didn't sacrifice her looks, she would still be very willing to go to the mortal world and see the world. After all, she had lived in the heavenly elixir sect since she was a child and had never come into contact with the outside world. Although she wouldn't complain about anything, who wouldn't yearn for new things?

If possible, little peach would be more than happy to take a trip to the mortal world.

Tian die was quite efficient, and that night, a set of information on Kang Xiaobo was delivered to Tian Gang! The blood-clad yellow spring sect didn't use advanced technology, but tiandie didn't. There were many reports about Kang Xiaobo and miracle doctor Guan's medical company, and Xiaobo himself could find out about it by asking his former classmates.

When tianggang saw that Xiaobo was Lin Yi's first follower, he couldn't help but be surprised. He didn't think that Xiaobo and Lin Yi would have this kind of relationship ...

Kang Xiaobo was Lin Yi's follower, and little peach was his maid ... If little peach really did follow Kang Xiaobo, then it wouldn't be a loss ... Suddenly, tianshuo realized that he was overthinking things. Why was he suddenly thinking about all these random things?

This made Tian Gang's face heat up. Fortunately, there was only Tian die in the room. Tian die blindly worshipped Tian Gang and did not think that there was anything wrong with Tian Gang or question his actions.

"This Fen ... She's the woman Kang Zhaoming dumped before, and she jumped off a building? And a cripple?" Tianjie was a little surprised-Xiaobo was too much, falling for Fen!

As for Fen's leg recovering, Tianjie wasn't surprised at all. She'd fallen off the cliff and almost died, but Lin Yi still saved her. A leg wasn't a problem for Lin Yi at all.

However, these things also allowed Tianjie to come to the conclusion that Kang Xiaobo was a good person. This made her feel at ease regarding little Peach's matter.

After asking Tian die to leave, Tian Gang summoned little peach once more.

"Young sect master, you're looking for me?" Little peach didn't know why Tian Gang had called her over so quickly.

"Kang Xiaobo's not a bad person. If possible, he's not a bad choice." Tian Gang said indifferently. Even Tian Gang himself didn't understand why he said that. Was it just to find an illusion of his identity?

"Ah?" However, little peach was stunned. She had never expected Tian Gang to say such a thing."Young sect master, you are ..."

"It's nothing. Here's Kang Xiaobo's information. Take a look. I just feel that if you stay in the sky elixir sect, Kang Zhaoming will kill you sooner or later. Staying in the secular world is a good opportunity ..."

Tian Gang said as he placed a stack of information in front of little peach.

"Young sect master, I don't want to leave you. Please don't chase me away, okay?" Startled, little peach hurriedly replied.

"Who said I'm chasing you away? I'm just letting you stay in the secular world. Maybe one day, when I don't want to be the young sect master anymore, I'll go and find you. At that time, you'll still be able to see me. " "You should understand what I mean," said Tian Gang.

"Ah ... I understand ..." Little peach was slightly taken aback. Immediately, she recalled that Tian Ji was a woman. In that case, the heavenly elixir sect would definitely have to pass on its bloodline in the future. However, Tian Ji couldn't do that. Only Tian Yi could take over Tian Ji's position and give birth to a new young sect master.

Little peach, however, would never have thought that Tian Gang was only thinking about Xiaobo being Lin Yi's follower ...

"Yeah, take a look at this information. It'll help you get to know Xiaobo better," Tian Gang nodded.

"Alright, young sect master." Little peach picked up Kang Xiaobo's information. The information was extremely detailed. From being in the same class as Lin Yi when he was in school, to his conflict with Kang Zhaoming's family, to him attending Fen's birthday party and avenging Fen, to his appointment as the vice general manager of miracle doctor Guan's medical company, and so on. Everything was written clearly in the information!

In fact, when tianshuo first received the information, he was also quite surprised. Lin Yi was really a student? Plus, from the information, Lin Yi couldn't even go up against a common house before. One common house Yu was enough to make Lin Yi so afraid, not to mention a hidden house!

However, in less than a year's time, he had grown to such an extent. It was truly unbelievable! From a golden class to a Sky Class in less than a year?

Tian Gang suddenly felt a sense of defeat! She and Rock Candy were both top geniuses in the ancient world-other than people like naipao who used extreme methods to train, there were very few people like them who didn't need to take any pills to reach Sky Class!

Even so, it still took over ten years, unlike Lin Yi who stepped into Sky Class in less than a year! Before, Tian Gang thought that there was a huge gap between his status and Lin Yi 's, and that they would never have a chance to be together again.

But now that he had seen this information, Tian Gang's heart was filled with anticipation! If Lin Yi had more time, this ancient level would no longer be an obstacle to him. It would be like the noble House level and hidden level-they would all be his stepping stones.

At that moment, even the xuanchen ancestor would not be able to pose a threat to Lin Yi! Now, Tian Gang understood why ancestor xuanchen was so afraid of Lin Yi. In time, they were probably no longer Lin Yi's match!

Chapter 3160 Tiangang's Wish

According to Tian Gang's research, Lin Yi was the strongest in every level. It was easy for him to fight people of a higher level. If he reached Sky Class late phase peak, would he be the number one in the world? He was the number one person under the heavenly Dao!

This wasn't a joke, it was very possible!

Of course, tianshuo didn't give this information to little peach. The information little peach was reading was mostly about Kang Xiaobo, with only a small amount of information about Lin Yi.

"Kang Zhaoming ... Is such a bad person?" As little peach read through the information, her eyes filled with anger! She'd been completely mesmerized by Kang Zhaoming before, but now it seemed like she was too stupid!

"Little peach, have you finally seen through him?" Tian Gang shook his head, "Kang Zhaoming is a man blinded by greed. From the moment he joined the sky elixir sect, I knew that this person's nature wasn't good. But I saw that you liked him, so I didn't say much. Now it seems that you're at a disadvantage for not continuing your relationship with him. Otherwise, you'll still be at a disadvantage in the future!" One day, if Kang Zhaoming meets an even stronger backer, he can also shake off little eleven and elder xuanchen!"

"Sigh, young sect master, thank you for reminding me. Otherwise, I would've thought that Kang Zhaoming had no other choice." Little peach sighed. She had never imagined that her beautiful first love would end so cruelly. From now on, she had learned to be smart and would no longer trust others so easily.

"Alright, pack up and go to Kang Xiaobo's company. He's a nice guy, and if he likes you, it'll be a great marriage for you." Tianshuo had a pretty good impression of Xiaobo-plus, he was Lin Yi's follower, after

all. How bad could he be? Not to mention, Tian Gang's other goal was to get in touch with Lin Yi through little peach and Xiaobo.

Since Kang Xiaobo was a good person, and the ancient sect didn't care much about first and second wives, Tian Gang felt that he was a good match for little peach!

"Ah?" Little peach, on the other hand, was stunned. She didn't think that Tiangang would ask her to interact with Kang Xiaobo, and her face instantly turned red. Little peach wasn't someone who didn't know right from wrong. From Kang Xiaobo's introduction, she knew that Kang Xiaobo was a good man. Compared to Kang Zhaoming, one was like heaven, while the other was like Earth!

It was impossible for little peach to not have feelings for such a man. However, she had just suffered a setback in her relationship. It wouldn't be easy for her to walk out of her trauma and start another relationship. At the very least, she was a little disappointed and didn't dare to fall in love.

After hesitating for a moment, little peach said, "young sect master ... I want to serve by your side for the rest of my life. I don't want to get married ..."

"Haha, if you're with Kang Xiaobo, who knows, you might still be by my side in the future!" Tian Gang gave a mysterious smile.

"Ah? What did that mean? Young head, you like Kang Xiaobo too?" Little peach was slightly stunned.

"I don't like Kang Xiaobo. Alright, stop asking. Pack up and report to me if you have any news!" Tianshuo said, annoyed.

"Oh, okay! Young sect master. " Little peach nodded and left to pack her things ...

After all the ups and downs miracle doctor Guan's medical company had gone through, some of the employees who were wavering in the company quit and went to find a better job, while the others who were loyal to the company, fatty Lai and Xiaobo raised their positions and salaries accordingly, making them happy for their choices!

With her excellent theoretical knowledge and scholarly image, little peach had successfully made it past all obstacles and become Xiaobo's new Secretary! Kang Xiaobo was very happy with the new Secretary. Even fatty Lai was envious of her. Fatty Lai's Secretary had also resigned due to his connections. However, little peach was applying to be the vice president's Secretary, not the president's Secretary, so fatty Lai couldn't just take her away from him!

And so, on the first day of admission, little peach took up her post immediately. Her impressive professional knowledge impressed Kang Xiaobo, and he began to rely more and more on her ...

Kang Zhaoming was extremely excited about little Peach's success, especially since Kang Xiaobo was starting to trust little peach more and more. Kang Zhaoming felt that the day of him obtaining a grade one medicinal cauldron wasn't far away!

Due to the preconceived impression of Tianjie's information, little peach had a very good impression of Kang Xiaobo. Since Kang Xiaobo was the only person responsible for her work at the company, she interacted with him every day, causing little peach to pay more and more attention to him.

However, to Zhaoming's disappointment, little Peach's news had nothing to do with Automatic Grade one medicinal cauldrons. The work and financial reports that Kang Xiaobo handled every day had nothing to do with Automatic Grade one medicinal cauldrons either!

Either the automatic cauldrons weren't handled by Kang Xiaobo, or the medicine wasn't even produced by miracle doctor Guan's company! As Xiaobo's trust in little peach grew, she came into contact with more and more of miracle doctor Guan's company's core secrets. She even came into contact with the raw materials and costs of certain products such as the pain killers and injury medicine, but she couldn't find a single piece of information about Automatic Grade one cauldrons!

Of course, little Peach's report was filtered by Tian Huan. Tian Huan would always pass on information that seemed precious but was actually useless to Kang Zhaoming.

For example, there were many ingredients for the injury medicine and painkiller, but Tianjie had chosen the most common ones. He didn't even need to guess to know what they were and had little peach tell Zhaoming so that he wouldn't suspect anything!

As for the Tier 1 automatic medicinal cauldron, little peach really hadn't obtained any information about it. She hadn't been deliberately hiding it!

After a period of investigation, Kang Zhaoming gradually lost his patience. After all, he was also guessing that the automatic Grade one cauldrons weren't made by miracle doctor Guan's medical company, but were made by house Liu.

Now that he thought about it, it was really possible. Miracle doctor Guan's medical company was only in name. After all, the automatic Grade one medicinal cauldron was an electronic device, but miracle doctor Guan's medical company produced medicinal materials!

After Zhaoming's investigation, he found out that house Liu did own an electronics company. They used to make computer parts, but it was possible that they'd switched to making automatic medicine cauldrons!
