

Bodyguard 3201

Chapter 3201 Han Jingjing's Plea

Besides, there were a few useful first class elixirs that Lin Yi didn't have. The sky elixir sect could join them, but they didn't-what did that mean?

When vice guild leader Ouyang told Lin Yi the news, Lin Yi was both shocked and furious! This was a blatant impersonation-Lin Yi didn't even need to think to know that it was done by Kang Zhaoming. The guy loved doing things like this, and house Kang was like that too.

"Brother Lin, I'm under a lot of pressure in the practitioner trade association right now. Many of the sects that were supposed to be here for the auction today didn't show up, and they all went to the sky elixir sect to buy it. Although the cauldron was sold for one billion today, and it looked good, the enthusiasm for the auction is obviously not as high as before. Also, the sky elixir sect is selling so many of them without limit. After a while, the market will be saturated, since the practitioner market is only so big. Our customer base is fixed, and after these people buy their cauldrons, they won't buy ours anymore! So, our practitioner exchange Association is now split into two factions. One faction is constantly trying to persuade the Grand Chairman to let us give up on selling your products and choose to be the agent for the sky elixir sect's products!" Vice guild leader Ouyang said.

"I understand. I'll study it for a while and then give you a plan." Lin Yi said in a low voice.

"Alright, brother Lin, I'll be waiting for your news!" Vice guild leader Ouyang was naturally on Lin Yi's side, but he didn't have the final say in the practitioner's trade association. He had an elder backing him up, but the pressure was still huge.

Lin Yi had just hung up when Jinghan's call came in. He picked it up quickly. "Jinghan, what happened? Kang Zhaoming finished the cauldron replica, did he get the manufacturing information?"

"Lin Yi bro ... I just wanted to talk to you about this, it's my mistake ..." Liu Jinghan said apologetically.

"What's going on?" Lin Yi asked.

"The most important part of our grade one automatic medicinal cauldron is the source program in the single chip. This source program has always been in my own hands and is stored in the secret room in my office." "But Kang Zhaoming found my father and used my father to open my office door. He entered the secret room and copied the source program from my computer ..." Liu Jinghan explained.

"Liu Tianli?!" Lin Yi's face darkened after hearing Jinghan's explanation. Last time, Lin Yi let house Liu go because of han Jingjing's request, but he didn't expect Liu Tianli to do this again! Lin Yi really wanted to kill him."How did he get into the office? And how did Kang Zhaoming find him?"

"My office right now used to be my father's office. After he stepped down, he went to the drug rehabilitation centre and stayed in the sanatorium ever since. What I didn't expect was that Kang Zhaoming actually found my father and used forty packs of cigarettes to tempt him into opening the door to the office and the secret room! "This used to be my father's office, so my father has the key too. I didn't reset the password and fingerprint data, so my father can get in too ..." Jinghan explained helplessly.

"Jinghan, I let Liu Tianli go last time because of a friend! However, I didn't expect that not only did he not repent, but he also caused me even more trouble this time. I will definitely not let him off this time. I hope you can understand!" Lin Yi was determined to kill him this time-this Liu Tianli really pissed him off! He let him go last time, but this time, he didn't repent. There was no need for Lin Yi to let him go.

Jinghan fell into silence. She knew that her father had made a huge mistake, but this man was her father, and she didn't want him to die! In fact, people who took drugs lost their rationality-it was normal

to be tempted. Jinghan understood that as well, but Zhaoming was the only one to blame for using such tactics.

"Lin Yi bro ... My friend wants to talk to you ..." Jinghan said after some hesitation.

"Oh? Who was it? You're pleading for Liu Tianli?" Lin Yi frowned and asked.

"Lin Yi bro, it's me ..." Han Jing Jing's voice came from the other end of the phone.

"Jing Jing? Why did you go to Beijing?" Lin Yi blinked, not expecting Jingjing to be Liu Jinghan's friend!

"En en, Lin Yi bro, I'm going to Yanjing to discuss some things with Jinghan sis! After my research during this period of time, I've added a few pill-refining procedures into the automatic Grade one medicinal cauldron. It can upgrade the 1-in-1 medicinal cauldron. After the upgrade, the 1-in-1 medicinal cauldron can become 15-in-1, and there are five new pill-refining procedures added!" "It contains two important medicinal pills and three less commonly used medicinal pills!" Han Jingjing said. I'm going to do this. Anyone who has purchased our 1-in-1 special edition medicinal cauldron can upgrade it to a 15-in-1 medicinal cauldron after paying the 200 million upgrade fee! As for the single version of the cauldron, you can also add a new pill into it after paying the 50 million upgrade fee, turning it into a two-in-one cauldron!"

"Oh? This is a good thing!" Lin Yi was overjoyed! In this way, the problem faced by the cultivators trading Association would be solved! Lin Yi's cauldrons could provide further upgrades, but the sky elixir sect's cauldrons couldn't!

The sky elixir sect's was cheap, but it was a one-time use item-Lin Yi's could be upgraded later on, and it was obvious which one was more cost-effective! If it was the same product, the sects and Noble houses would definitely buy it at a lower price. But if it was different, they would naturally choose the one that could be upgraded. No matter how poor these ancient sects were, they wouldn't buy something that couldn't be upgraded just because it was 500 million Yuan cheaper.

"En, en, then Lin Yi bro won't hold you responsible for this, right?" Han Jing Jing asked.

"Don't pursue it?" Lin Yi was a little surprised-he didn't think that han Jingjing would plead for house Liu again, but Lin Yi wasn't displeased at all."Jing Jing, have you thought about it? You were the one who invented this, but Tianli stole it because of Jinghan's negligence. Don't you feel unhappy?"

"No, Jingjing's about to level up too, so Zhaoming can make a whole bunch of fake cauldrons and keep them for himself if he can't sell them. He'll lose even more money, how great would that be!" Han Jing Jing said.

Chapter 3202 Closely Following Behind

"Alright, since you said so, then we'll just forget about this. You and Jinghan can discuss how to upgrade the business." Lin Yi didn't dwell on the matter. After all, this was han Jingjing's creation, and Lin Yi was just sitting back and enjoying the fruits of others 'labor. Even han Jingjing, the inventor, wasn't unhappy about it, so what was there for Lin Yi to be unhappy about?

This was han Jingjing 's, and even if she gave it to Kang Zhaoming for free, Lin Yi wouldn't be able to say anything about it, much less plead for house Liu. And so, Lin Yi agreed.

In fact, as long as han Jingjing wasn't angry, Lin Yi wouldn't be angry either. Lin Yi also felt that han Jingjing's hard work was sold to Kang Zhaoming because of Liu Jinghan's negligence and Liu Tianli's betrayal. It made his efforts for han Jingjing's sake a little unworthy, but han Jingjing herself didn't feel that it was wrong.

The news of miracle doctor Guan medical company's cauldrons being able to upgrade spread like a spring breeze to all the ancient sects and Noble houses. This made those who had been waiting to see the situation turn to the cultivator trade association again!

The families and sects who bought the 10-in-one cauldron from miracle doctor Guan medical company were all grinning from ear to ear! Although the price of their cauldrons was high, and people had thought they were being cheated, now it was all good. The people who bought the cauldrons from the sky elixir sect were the ones who were greedy and suffered a big loss!

Although the sky elixir sect claimed that their cauldrons were original, the people from the sects and Noble houses weren't stupid. They could tell that the sky elixir sect was trying to copy the cauldrons from miracle doctor Guan medical company. The functions were the same, there were no changes or additions. Who would believe that it was an original?

Miracle doctor Guan medical company's Swift counterattack proved this point as well-they were targeting the counterfeits on the market. If the heavenly elixir sect was an original creator, then why didn't they upgrade themselves immediately?

The heavenly elixir sect's cauldron sales center had gone from a hubbub of voices to a completely deserted place. Everyone went to the cultivator trade association to sign up for the auction. Those who bought the cauldrons also went to the Liu Corporation to upgrade the cauldrons!

As a result, the sky elixir sect's grade one intelligent medicinal cauldron was like a flash in the pan. The few people who bought it regretted it too much. They couldn't return it, and they couldn't go to Liu's group to upgrade it, because they didn't support the upgrade of pirated chips.

"Motherf * cker! This Lin Yi's too cunning, I'm afraid he's already thought of a plan. Once we make the replica, he'll level up and trick us!" Kang Zhaoming said angrily.

"Alright, let's not talk about this anymore. The initiative is in their hands now, the only thing we need to do now is to keep up with Lin Yi's pace, we can't be too far behind!" However, patriarch xuanchen was very calm. "The most important thing now is to buy a 15-in-one medicinal cauldron. Then, we can crack the program inside and upgrade the products we sell. As long as our after-sales service can keep up, even if we're counterfeits, we'll still sell well!

"That's true. However, the key question is, how are we going to get the 15-in-1 medicinal cauldron procedure back?" Zhaoming said worriedly, "I've used the same method once, I can't use it again. Even if I go to Liu Tianli, it'll be useless. Let's not talk about whether he can take me there or not. Even if I go, Liu Jinghan might have changed the password and still won't be able to get in."

"You can think of a way to solve this. Discuss it with professor Benjamin II and see if he has any way to crack the new program." "After all," patriarch xuanchen asked, "he has already come into contact with those source programs. Is there any other way?"

"Alright, I'll ask him." Kang Zhaoming nodded.

After the conversation, he called Dr. Benjamin II.

"Professor Benjamin II, I have something to tell you!" Kang Zhaoming answered the phone and said directly.

"I know, is it about the 15-in-1 upgraded version of the medicinal cauldron?" Professor ban Jieming the second was obviously paying attention to the cauldrons on the market as well-he already knew about Lin Yi's upgrade.

"That's right. If we don't improve and upgrade our products, no one will buy them! This doesn't just involve my own interests, but also the interests of your Center. The money earned will be shared between us, so if you don't think of a way, our previous efforts will be in vain. " Zhaoming said.

"Who says I'm not thinking of a way? I've been studying the programmer's driver that you copied for me these past few days!" "With the programmer's driver," professor Benjamin II said,"I can crack the parameters and definitions of the special chip. With these things, I will know the general principle of the chip. Then, I can start cracking it."

"Oh? Is that true? So, you've already broken through the chip?" What Zhaoming didn't expect was that the programmer's driver that he copied back so casually would be so useful!

"Of course. In these few days, I will be able to successfully reverse-read the program in the single chip!" "Without this driver," said professor Benjamin II,"I probably wouldn't have been able to crack it for the rest of my life. But with this, everything has become much easier."

"That's great! Alright, I'll give you a 15-in-one medicinal cauldron in the next few days. If you can crack the program, we'll also provide the medicinal cauldron upgrade service. " Zhaoming said.

"Sure, send me one." "By the time your bag arrives," professor Benjamin II said,"I'll probably be done with the decryption."

"Alright, I'll go and prepare now!" Zhaoming said.

What Lin Yi didn't expect was that the heavenly elixir sect also launched a cauldron upgrade service a week later, and the upgrade fee was only 100 million Yuan, half of Lin Yi's 200 million! They also announced to the public that as long as miracle doctor Guan medical company's cauldrons were upgraded, they would do the same in no more than a week.

The news excited all the users who bought the sky Elixir's cauldron, while the sects and families who were ready to buy Lin Yi's cauldron started hesitating! After all, the sky elixir sect's cauldrons were much cheaper, and the cost of upgrading them was also much cheaper!

Although the speed of leveling up was slower than Lin Yi's cauldron, it wasn't that much slower. A week or so was still acceptable, as long as it could level up!

Chapter 3203 Can't Be Completely Resolved

Everyone knew that the sky elixir sect's cauldrons were fake, but they were cheap and of good quality. Getting the same function as Lin Yi's cauldron at this price was still acceptable!

And so, after the users who had purchased the cauldrons successfully upgraded, the sales of the cauldrons began to increase again! This dealt a critical blow to Lin Yi's medicine. The sales of Lin Yi's medicine decreased, and although the practitioner's trade association would auction their medicine every issue, the final price was still around 100000. It wasn't too high! Sometimes, the price would even be lower than the sky elixir sect's.

The only reason was that the cost of upgrading this cauldron was higher than the sky elixir sect's cauldrons! Other people's upgrade costs were cheap!

This sudden blow made Lin Yi very depressed and helpless. He thought that with Han Jing Jing's upgrade service, the cauldron's sales would recover, but it seemed that he was too naive. Kang Zhaoming wouldn't let this go easily!

Lin Yi called Jinghan again. The construction of the orphanage started again, and they needed money every day. Yu Xiaoke's wish was to build the biggest charity orphanage, children's charity Hospital, and charity school. These things were completely free, and the construction cost alone was extremely high, not to mention the future investment.

However, cauldrons were really profitable, so when Xiaoke put forward these ideas and plans, Lin Yi didn't even think about it and got fatty Lai's approval. Xiaoke must be surprised that his dream came true!

But now that the sales of the cauldrons were dropping, it wasn't enough to support the orphanage's investment at all. This made Lin Yi a little anxious.

"Jinghan, what's going on? How did Kang Zhaoming get an upgrade? This time, isn't the upgrade program only in our hands? Did Kang Zhaoming get his hands on it again?" Lin Yi was a little troubled-how did Kang Zhaoming do that?

"The upgrade program hasn't been leaked, but I'm afraid that Kang Zhaoming's people have already cracked our chip. I'm guessing that Kang Zhaoming has also copied the program driver from my computer. This program has the parameters of the chip we're using, and according to these parameters, if the enemy has a master, they can crack our chip. It's a program that was deciphered from our upgraded medicinal cauldron." Jinghan said.

"It's like this?" "Then can we change the chip the next time we upgrade?" Lin Yi asked with a frown.

"We can replace the entire circuit board, but this is the only mature chip at the moment. If we want to develop a new model of chip, let alone the fact that we can't do it with our current technical strength, even if we can do it, it will take a long time! So I'll have to ask your friend for help. " "It's all my fault," Jinghan said apologetically. " If I didn't put these things in the company, I'd be fine. "

"Forget it," he said. "I don't blame you for this," Lin Yi shook his head, "you can't just leave it at home if you don't put it in the company, can you?" You can only blame your father, Liu Tianli, for getting carried away by the drugs!"

"I understand. After this incident, I will be more careful. I removed all of my father's authority in the company. Now, my father has nothing to do with the company, and his position as the president has also been removed." Jinghan said.

"Are there any countermeasures on Jingjing's side?" Lin Yi asked after some thought.

"Jing Jing, tell me. The next version of the upgrade program that she's researching is actually to allow the medicinal cauldron to automatically change the temperature when refining pills. The Alchemist doesn't need to change the temperature according to the temperature curve. This way, as long as you're a beginner Alchemist who can condense a pill fire, you can refine pills with an Automatic Grade one medicinal cauldron without having to skillfully control the temperature of the pill fire." "But, since Kang Zhaoming was able to break our chips, Jingjing had to change the way she leveled up. She's going to make a new set of equipment, and use it to achieve the same functions as before!"

"Oh? Then wouldn't Kang Zhaoming be able to solve this?" "As far as I know, there's a program in this, right?" Lin Yi asked. Can't the chip that stores the program be cracked?"

"It's different. " Jinghan explained."Although there's a single-chip in this device, there's no computing program inside. It can't calculate the required temperature of each Alchemist's alchemy fire according to the current temperature of the alchemist's alchemy fire. To put it bluntly, this is a Wi-Fi module with a unique identification ID number. You can access the company's server through this device. All the computing is done remotely on the company's server."In the end, the calculated data instructions are collected through this module to change the required pill refining temperature of the medicinal cauldron. This peripheral has no program in it."

"Then can't Kang Zhaoming make a copy of this?" Lin Yi asked.

"The ID serial number of each peripheral is unique, and it needs to be verified by the server to obtain the operation data. Unauthorized ID serial numbers can't access the server. If a repeated ID serial number logs in multiple times at the same time, it will be blacklisted by the server and be disqualified from the operation of the ID serial number." "So a simple imitation won't work," Jinghan said.

"Oh? That's a good idea, who thought of it?" Lin Yi was a little surprised. This kind of long-range server calculation would probably leave Kang Zhaoming at his wit's end.

"It's me ..." Liu Jinghan said, embarrassed. She took the credit from han Jingjing, but she didn't even blush at it. It was like it was only natural.

"That's good. " "We'll use this method for future upgrades as well!"Lin Yi nodded.

"It's safer this way, but it's only relative. As for Kang Zhaoming, as long as he collects data from the servers, he can still rewrite the code, but it'll take a long time. It won't be as easy as before. " "To put it bluntly, they just need to gather data and put it together. Once the data covers a lot, they don't need to do any calculations at all. They just need to satisfy the needs of the public."

"That's true. " Lin Yi nodded, sighing as he realized that the problem wasn't solved yet. He could only take the lead for now.

Chapter 3204 Mrs. Tang Got Hit

It seemed that he had to call little 9th and ask her to help him develop another single chip. "Alright, then you can work on this peripheral. I'll also ask others to help me research a new single chip."

"Okay, Lin Yi bro, I understand." Jinghan said.

After hanging up, Lin Yi called little nine and told her about the development of the new generation of single chip chips. Little nine agreed without hesitation, but after agreeing, she asked, "Brother ah Yi, you promised sister seven and I that you would come and visit us. Why haven't you come yet? Did you forget about this?"

"Nine ... I don't believe you don't know what I'm doing ..." Lin Yi couldn't help but smile bitterly.

"Isn't it just being a bodyguard for a big star?" Little nine snorted, a little unhappy.

"Since you know ... You should also understand my difficulties. Now that someone is targeting her, I can't leave her behind and leave the country on my own, right?" Lin Yi said helplessly.

"Is that so ... Then leave this to me. If Xu Shihan goes abroad, you'll go with her, right?" Little nine asked.

"That should be the case, but why is she going abroad?" Lin Yi blinked.

"I'll think of a way to get her to hold a concert or a commercial event in Europe. You just have to come with her." Little nine said casually.

"You?" Lin Yi was surprised-he didn't think that nine was this capable, being able to host events and concerts in Europe like she was the boss of some Financial Group.

"What, are you looking down on me? I'm telling you, I'm the hacker Princess, and my influence in the computer industry is unparalleled. As long as I put out a word, those technology-related financial groups will be eager to please me. " The hacker Princess said.

Lin Yi suddenly remembered that the hacker Princess was already at the top of the hacker world. If she wanted to hold Xu Shihan's concert or some commercial event, it wouldn't be a difficult thing!

"That's fine. I'll go over as long as I have the chance." Lin Yi said.

"You said it yourself. I'll think of a way in a while." Little nine said.

After ending the call with nine, Lin Yi was about to tell Xu Shihan the news in advance when his phone suddenly rang!

Lin Yi picked up his phone-it was song Lingshan!

"Lingshan, what's wrong?" Lin Yi answered.

"Lin Yi, something's happened, aunty Wang was beaten up!" Lingshan said, panicking.

Tang Yuqi planned to stay in China and then bring his father back. Under normal circumstances, he was a member of the overseas cultivators Association. If he stayed in China for a long time, he should resign from the overseas cultivators Association. Therefore, Tang Yuqi resigned according to the normal procedures. However, the other party didn't want him to leave and wanted him to stay. However, Tang Yuqi had made up his mind, so the overseas cultivators Association sent two people to Donghai city to persuade Tang Yuqi.

In the hotel Tang Yuqi was staying in, he received the two important figures of the overseas practitioner's Association. They were both elders of the Association, and were both Sky Class Masters. One was Sky Class mid phase, and the other was Sky Class mid phase peak. These were people that Tang Yuqi couldn't even see normally, but now that two of them were here, he was overwhelmed by the favor.

"Elder Wang, elder Chen, I'm really flattered by your presence!" Although Tang Yuqi didn't understand why the two elders would go there in person and he was going to leave the overseas cultivators Association, he still had to show the necessary courtesy.

"You're welcome, brother Tang. You're a Sky Class master now, and a candidate for the elder position of our overseas practitioner's Association. We're on the same level!" Elder Wang said, Sky Class mid phase.

"That's right, brother Tang. You and I can call each other brothers from now on," Elder Chen also said the same thing.

"This ... The two elders are too polite. How can I, Tang Yuqi, be on equal footing with the elders of the overseas cultivators Association? Moreover, I've already submitted my resignation and will be leaving the cultivators trade association soon. I really can't accept being called a younger brother. You can just call me little Tang or Yu Qi!" Tang Yuqi said sincerely.

However, what Tang Yuqi didn't expect was that not only did his words not make the two elders happy, but it also made their faces become gloomy!

"Brother Tang, that's a bit different-you're a Sky Class now, and you're one of the top existences in the overseas practitioner's Association!" "If you were a normal practitioner, it'd be fine if you left, but Sky Class and above are not allowed to leave!" Elder Chen said. "This is the answer that our elders Guild has given after consulting the Association's President and Vice President! If you want to leave the cultivators trade association, you must not do so!"

"This ..." Tang Yuqi was suddenly in a difficult position. "I'm going to settle here now. I can't be in charge of the overseas cultivators Association anymore. Even if I don't want to leave, I have no choice. Can you make an exception for us?"

"That's impossible!" Elder Wang spoke up as well, "old Chen and I came here to bring you back. Don't think too much about it. You're only as strong as you are today because of the pills our overseas practitioner's Association gave you. Without our resources, how could you be a Sky Class master now?" Don't forget your roots!"

"This ..." Tang Yuqi hesitated. He wasn't an ungrateful person. He also knew that it wouldn't be good if he refused at this time. However, he had indeed decided to stay here. He really couldn't handle the affairs of the overseas cultivators Association.

"It's just a few cultivation pills and resources from your overseas cultivators Association, right? I'll return these things to you. Don't make things difficult for my nephew!" Mrs. Tang, who was standing outside the door, heard the conversation and walked in.

Mrs. Tang was a Mystic now, and her hearing was naturally better than normal people. She heard everything from outside the door, and was a little angry at the two elders' unreasonable attitude.

"Who are you? You'll pay? Do you know how many pills we've given him? There's the Qi gathering pill, Qi gathering pill, Qi gathering pill-these are all very valuable pills, what do you know as a Mystic?" It wasn't elder Chen's fault for looking down on Mrs. Tang-she was a Mystic class master, a low level existence in their eyes. They thought she didn't know the importance of these pills!

Chapter 3205 An Arrogant And Despotic Person

"I'm from the snow Valley. I can give you all these things. You can go back now. Tang Yuqi won't go back with you!" Mrs. Tang said to the two elders, "Not only will I return it to you, but I will also give you more heavenly treasures!"

"Hmph, we don't need these things. We have them too. We only want Tang Yuqi to go back with us!" "I don't care if you're from the snow Valley or not. You'd better not meddle in the internal affairs of the overseas cultivators Association. Otherwise, I won't be polite!" Elder Chen said indifferently.

"You won't be polite?" Mrs. Tang chuckled coldly. "This is the territory of the ancient sect, not the overseas practitioner's Association. I should be the one advising you not to cause trouble here. Otherwise, I won't go easy on you!"

"Pa!" Elder Chen slapped Mrs. Tang's face. He was going to bring Tang Yuqi back to work with him, so he didn't want to make their relationship too stiff. After all, if he slapped Tang Yuqi, it wouldn't look good when they worked together after they went back.

However, Mrs. Tang was different. She was just Tang Yuqi's second aunt, and she was only a Mystic class master. Her status in the valley shouldn't be high, so elder Chen didn't care about her at all and slapped her.

"You ... You hit me?" Mrs. Tang covered her swollen face in shock and anger. "You actually dare to hit me? are you trying to provoke the snowy valley?"

"You're just a Mystic class master, and you're representing the valley?" Elder Chen sneered in disdain, ""Don't think that I don't know anything. Even if you're from the snow Valley, you can't be an important person. Alright, go to the side and stop talking. If you continue to talk to me, be careful that I don't beat you up until you're disabled!"

"You ... I'm the mother of the great elder of the snow Valley. I'm the supervisor of the snow Valley and the overseas cultivators Association. I'll remember this. I'll get someone to kill you two!" Mrs. Tang pointed at elder Chen angrily.

"Kill us? I'll kill you now!" Elder Chen kicked Mrs. Tang's body and sent her flying to the wall with a loud thud. She was barely breathing when she landed on the ground. It was obvious that she wouldn't be able to live if she wasn't rescued!

"You ... You're too much!" Tang Yuqi looked at his second aunt, who had been beaten up like this because of a disagreement, and said angrily, ""She's innocent. Why did you do this to her? You know the rules of the overseas cultivators Association. You can't attack ordinary people!"

"Is she an ordinary person?" Elder Chen laughed mockingly. "I heard that she's from the snow Valley. She's even a patrolman. How is she an ordinary person?"

"Yes, she's a cultivator!" Elder Wang also nodded his head and chimed in.

"Al!" Tang Yuqi had no choice but to take out a small recovery pill. He hesitated for a moment and changed it to a big recovery pill. A small recovery pill probably wouldn't have any effect on mother Tang's injuries. Even if she took it, she would be a cripple after she recovered. A big recovery pill, on the other hand, should be able to completely heal her injuries.

However, just as Tang Yuqi took out the pill, elder Chen snatched it away and said, ""Since you're quitting our overseas cultivators Association, please return our elixir pills to us!"

"You ..." Tang Yuqi was furious, but he couldn't say anything wrong. Elder Chen was right. This was indeed the case. These elixirs belonged to the overseas cultivators Association.

"Of course, if you agree to go back with us and become an elder of the overseas cultivators Association, I can still return this elixir to you. After all, you're also an elder and you can use these elixir pills as you please." Elder Chen threatened.

"This ..." Tang Yuqi was in a difficult position. If he accepted the elixir, it meant that he had to go back with elder Chen. Even if his father came back, he couldn't visit him often. In fact, Tang Yuqi's plan was to go to the snow Valley for a short stay every once in a while and become a guest elder of the snow Valley. This way, he would have the right to live in the snow Valley. But if he went overseas, it would be impossible to even become a guest elder, let alone a short stay.

The key question was, Tang Yuqi's father had already returned, so why was he still going overseas? Wasn't it unnecessary?

However, Tang Yuqi also knew that if he didn't agree now, then elder Chen would definitely not give him the elixir. Then, there would be no hope for his second aunt. This was not what Tang Yuqi wanted to see!

Gritting his teeth, Tang Yuqi had no choice but to say to elder Chen, "Alright, I'll go back with you. You can return the great recovery pill to me!"

"This is the way!" Elder Chen nodded his head in satisfaction, then said, "You can't give her the big recovery pill, but you should give her the small recovery pill! Wasn't she the mother of the great elder of the snow Valley? Didn't she have so many cultivation resources? Then she will definitely have a great recovery pill to take when she returns. Now, we just need to keep her alive and save a great recovery pill. "

"This ..." Tang Yuqi was very angry, but at this time, he also knew that he couldn't argue with elder Chen. Time was tight. If he didn't give mother Tang the small reversion pill, then mother Tang's life would be in danger!

So, Tang Yuqi had no choice but to take out the small reversion pill and give it to mother Tang. After taking the small reversion pill, mother Tang's breathing calmed down. Her life was saved, but her strength was crippled. Of course, this was under the premise that she didn't have the big reversion pill.

Song Lingshan had been accompanying Mrs. Tang these past few days, not for Tang Yuqi, but for Lin Yi! Mrs. Tang was Tang Yin's mother, after all, and Tang Yin's position by Lin Yi's side was self-evident. In order to leave a good impression on Mrs. Tang, Song Lingshan had been staying by her side for the past few days. When she heard the argument in the room and saw that Mrs. Tang was injured, she didn't dare to stop her, but she quickly called Lin Yi's phone!

"What? Aunt Wang was beaten up? Who beat you up?" Lin Yi felt a fire burning in his chest after hearing Lingshan's call. "She's a cultivator, who can hit her?"

"He's a practitioner too, from overseas. Here's what happened ..." Lingshan explained everything to Lin Yi in detail.

"Wait for me, I'll go over now." Lin Yi said quickly and drove to the hotel Tang Yuqi was staying at. Aunt Wang had given Lin Yi a lot of help in the past, and now that she was in trouble, Lin Yi couldn't just leave her be.

Chapter 3206 Mortal Enmity

So, Lin Yi rushed to the hotel as fast as lightning. At the door of the room, he saw Tang Yuqi giving Mrs. Tang the small recovery pill! Seeing Mrs. Tang's miserable state, Lin Yi was really angry!

"Who did it?" Lin Yi walked into the room as he spoke, his Sky Class early phase strength fully displayed.

"I did it. Why, are you going to stand up for her?" Elder Chen looked at Lin Yi and asked back with disdain. In his eyes, Lin Yi was just a Sky Class early phase—he didn't need to put him in his eyes at all!

And so, he revealed his Sky Class mid phase peak as he spoke! In fact, what he didn't know was that even if he didn't show it, Lin Yi could still see his strength.

"Yes, I am." Lin Yi nodded, "overseas practitioner's Association, I don't want to make enemies with you. I'll give you a chance. Leave now and I'll let this go. Otherwise, we'll be enemies to the death."

"Death feud? Hahaha!" Elder Wang burst out laughing. "That's too funny. Death feud? Do you have the right to say that our overseas cultivators Association is your mortal enemy? Do you think you're very awesome? Sky Class early phase, you're nothing in my eyes!"

"You're also from the snow Valley?" Elder Chen asked. Lin Yi was a Sky Class early phase, after all, and he was different from Mrs. Tang's Mystic class. Sky Class Masters were highly valued in any sect! Just like how they treated Tang Yuqi, Lin Yi was the same. If something happened to Lin Yi, his sect wouldn't let it go.

"No, I'm Lin Yi, I'm a freelancer!" "If you've heard of my name, you'd better leave now. I'll say it again-if you make me your enemy, I'll kill you!" Lin Yi said faintly.

"A rogue cultivator?" Elder Chen was stunned for a moment before he laughed out loud, ""Good, very good. Then I'd like to see what a death feud is! To tell you the truth, we're leaving with Tang Yuqi!"

Lin Yi didn't want to make things difficult for Tang Yuqi before, so he didn't make a move, but now he couldn't take it anymore. He'd warned him already, and if elder Chen didn't listen, there was nothing he could do!

"The ninth move of wild fire Eight Trigrams palm!" Lin Yi's hand shot out suddenly, a palm towards the laughing elder Chen!

Lin Yi's sudden attack caught elder Chen off guard, but he wasn't too nervous. He'd be injured at most, and then he'd have a reason to kill Lin Yi. Plus, he had the recover pill, so he wasn't afraid of getting hurt!

Moreover, Lin Yi was using the ninth form. Although elder Chen had never heard of the raging fire Eight Trigram palm, it didn't matter. He knew the power of the ninth form. It wouldn't affect him much!

However, what he didn't expect was that Lin Yi's ninth style of the palm had the power of the fifteenth style of a sky tier martial skill! If this move hit him without any defense, he would die without a doubt!

However, it was too late when he realized this! Elder Chen followed in Mrs. Tang's footsteps as Lin Yi's palm landed on his body. His body flew out and hit the wall with a loud bang. He landed beside Mrs. Tang. His mouth was full of blood. He was breathing more heavily than he was breathing. He was on the verge of death! However, he was in a worse state than Mrs. Tang. He only spat out two mouthfuls of blood before he died!

"Ha!" Mrs. Tang had just woken up, and although her meridians were all destroyed, she could still speak. She looked at elder Chen, who was dead beside her, and laughed wildly, "Old thing, weren't you trying to act cool with me? Are you dumbfounded now? He's dead, right?"

As for elder Wang, he was shocked! Elder Chen is dead? He died just like that? He looked at Lin Yi in disbelief, his face full of disbelief! After all, Lin Yi was only a Sky Class early phase-how could he kill a Sky Class mid phase peak elder Chen? It was completely unrealistic! This subverted his way of thinking!

A cultivator with such a huge gap in strength could actually kill a cultivator who was stronger than him? What kind of thinking was this? He felt that his thoughts could not keep up.

"You ... You killed elder Chen?" After a long while, elder Wang said in shock.

"He's dead. I've said it before. If I make a move, we'll be mortal enemies. Isn't he dead?" Lin Yi shrugged nonchalantly.

"You ..." Elder Wang didn't know what to say. "You're just a rogue cultivator. How dare you kill our elder Chen? aren't you afraid of the overseas cultivators Association's revenge?"

"Revenge? Sure, it's no big deal-before you get your revenge, you can ask around and see how many ancient sects I've got a grudge against, and how many Sky Class Masters I've killed already. " Lin Yi said.

"Ah?" Elder Wang was taken aback-he didn't think that Lin Yi would be this strong, making enemies with so many ancient sects. How was he still alive? He didn't know if it was true or not, but it was true that he didn't dare to act rashly. His strength was not as good as elder Chen 's. If he dared to act rashly at this time, he would die without a doubt in his opinion. So, he could only say in a trembling voice,""Alright, in that case, we'll meet again!"

Elder Wang didn't dare to say anything threatening, afraid that Lin Yi would make him stay if he said too much. Carrying elder Chen's body on his back, he quickly jumped out of the window and disappeared from everyone's sight.

Tang Yuqi let out a breath of relief and said to Lin Yi gratefully,""Brother Lin, thank you for helping me out this time. Otherwise, I really wouldn't know what to do ... However, you shouldn't have asked elder Wang to leave just now. You should have asked him to leave the great recovery pill behind. If second aunt doesn't take the great recovery pill, I'm afraid she'll only be a cripple for the rest of her life!"

"Oh, it's fine. Get me a room and bring aunty Wang over. I'll treat her myself!" In fact, Lin Yi had just used the ninth style of the raging fire Eight Trigram palm, and his body was very weak. He just didn't show it now. He wanted to be alone in the room, and in the name of healing, he wanted to recover.

"Brother Lin, you can cure it?" Tang Yuqi was very surprised.

"En, Lin Yi's a great doctor, this injury is nothing!" Lingshan explained.

"Ah ... Okay!" Tang Yuqi was very curious, but he didn't ask. After all, Lin Yi's ability to treat Mrs. Tang should be a secret, so Tang Yuqi quickly got a room and helped song Lingshan and Mrs. Tang into the room. Please pay attention to the murlocs 'public reputation, account Yuren22.

Chapter 3207 The Worry After Making Enemies

Lin Yi entered the room and smiled at Mrs. Tang, "Aunty Wang, don't be nervous. Your injury is nothing to me, but can you please keep this a secret for me? Don't tell these things to the snow Valley?"

"Of course you can!" Mrs. Tang nodded without hesitation. After all, her heart was on Lin Yi's side, and even if Lin Yi didn't say it, she couldn't just tell him about it.

Lin Yi nodded and started channeling the third stage of the art of Dragon mastery, healing Mrs. Tang's injuries and recovering his Qi at the same time.

In Tang Yuqi's room, Tang Yuqi was frowning.

"Lingshan, although we're done with this for now, the overseas practitioner's Association won't let this go easily. I'm sure they'll come looking for trouble again, and Lin Yi, brother Lin, will be dragged into this!" Tang Yuqi sighed.

"It's nothing, Lin Yi helped because of aunty Wang," Lingshan didn't think that it was because of Tang Yuqi. It all depended on how one looked at it. Although Lin Yi and Mrs. Tang didn't seem to have anything to do with each other on the surface, Lingshan knew their relationship. Lin Yi also made an enemy of the overseas practitioner's Association because he helped Mrs. Tang. It wasn't a big deal.

"Aunty Wang is still my second aunt, and this is all because of me!" Tang Yuqi blamed himself. "It's all my fault. I spoke too fast back then and reported the news of me breaking through to Sky Class. Otherwise, they wouldn't have known about this. If I applied to leave the overseas cultivators Association, they might have approved it directly. They wouldn't have sent people here."

"It's already happened, there's no point in talking about it anymore. Let's see what Lin Yi has to say!" Lingshan said.

As they were talking, Lin Yi walked in with Mrs. Tang, who was as good as new. Mrs. Tang was full of energy, as if she had just been injured. Tang Yuqi couldn't help but be amazed at this phenomenon!

"Second aunt, you're done?" Tang Yuqi asked in surprise.

"Yeah, it's all good." Mrs. Tang had complete trust in Lin Yi, so she nodded naturally.

"Good! Brother Lin, I've just discussed it with Lingshan. The overseas practitioner Association won't let this go easily! They lost a Sky Class master this time, they'll definitely come for revenge!" Tang Yuqi said.

"I know that, but aunty Wang is from the snow Valley, so she shouldn't be afraid. As long as they don't dare to go to the snow Valley to cause trouble when we go back, they'll only be courting death." "As for me, I think they'll do some investigation before making a move. They won't act rashly since this isn't their territory!" Lin Yi said.

"You're right, but I've caused you trouble!" Tang Yuqi said seriously.

"You should worry about yourself now. This conflict started because of you, so you're the one they want to take revenge on and threaten the most." Lin Yi said.

"I know, but we have to face it. Now, we just have to wait for my father's flight to arrive here today. We'll head to the snow Valley. You're right, we're the safest in the snow Valley." Tang Yuqi said.

Lin Yi may have sounded relaxed, but he was actually feeling a bit of pressure. After all, the overseas practitioner's Association was different from the ancient sects here-they weren't as well-informed, and they didn't know about Lin Yi's "past" either. If they really came for no reason, it'd be hard for Lin Yi to deal with!

After all, Lin Yi killing Sky Class late phase peak in seconds was just a rumor, and it was already very hard for Lin Yi to kill a Sky Class mid phase peak elder Chen now. It would take a long time to recover his stamina, and if elder Wang had made a move earlier, Lin Yi would've died for sure!

All of this was a lie, and Lin Yi was really afraid that it would happen, but there was nothing he could do about it. He didn't regret it, and after all, aunty Wang had helped him back in the valley, and he was very grateful.

Lin Yi received a call from Ken not long after he got home.

"Big brother Lin, it's Ken!" "The orphanage ..." Ken said. "Things haven't been going well these days. We don't have enough money to keep going. Xiaoke sis has been troubled ..."

Lin Yi picked up the phone and listened to Ken's complaints. He was helpless too. Kang Zhaoming's response was too fast. He immediately launched the cauldron upgrade service, forcing Lin Yi to delay the new upgrade and make the new peripheral!

However, the manufacturing and development of the peripherals still required a certain amount of time, which caused a time gap. Recently, the sales of the medicinal cauldron had declined, and they still had to save money for the development of the peripherals and then build the Cloud Virtual Machine. This way, the funds allocated to the orphanage would naturally be reduced.

However, the construction of the orphanage had already started. There was no turning back now and they could not stop! In fact, Yu Xiaoke herself was surprised that Lin Yi and fatty Lai would agree to her idea of a charity organization.

Yu Xiaoke was doing everything for the child, but she wasn't stupid. Lin Yi helped her time and time again for free, and Yu Xiaoke couldn't accept it anymore. She knew that she owed Lin Yi more and more, and Yu Dake hinted to her that Lin Yi still liked her, which made Yu Xiaoke very depressed.

However, for the sake of the children, she had to accept it and take it one step at a time. So, even if Lin Yi reduced the funding, she didn't call him to rush or ask. She was afraid that Lin Yi would ask for more if she made the call!

In fact, Yu Xiaoke was also confused-was she really that good? Lin Yi had so much money, and he had a lot of pretty girls around him-did he really have to spend so much time and effort on her? Yu Xiaoke didn't think she was worth that much money!

However, Lin Yi's help was still endless. This made you Xiaoke feel strange, but at the same time, she couldn't stop! She couldn't refuse even if she wanted to.

Yu Xiaoke wanted to earn some money to relieve her stress. Even if it was a drop in the bucket, it was better than nothing! However, Yu Xiaoke didn't know what to do other than being a thief.

Ken saw all of this, and he couldn't help but call Lin Yi.

Lin Yi thought for a while, and an idea came to him."I do have an idea. The superstar Xu Shihan is with me right now. If she can host a charity concert and a donation event, we'll probably earn some money, but not much. It's nothing compared to fatty Lai's support!"

Fatty Lai took out 500 million to give to the orphanage, but the concert and donation would only be 100 or 200 million at most. After all, they had just held a donation before, so they wouldn't get much this time.

Chapter 3208 Beginning To Refine The Jade Pendant

"Sure, that's great. I'll tell Xiaoke sis now, so she won't have to worry about being a thief again." Ken said happily.

"Yeah, you tell her, I'll talk to Xu Shihan about it." Lin Yi said.

"Alright. Thank you, Lin Yi bro!" Ken was ready to tell Xiaoke the good news.

On Yu Xiaoke's side, she heard Ken's news. She knew that Ken was looking for Lin Yi. Otherwise, how would Lin Yi know that she was worried? However, she had no reason to reject Lin Yi's proposal.

After hesitating for a while, Yu Xiaoke finally agreed and reported to the Dean.

On Lin Yi's side, he found Xu Shihan, who was rehearsing with Cheng Yiyi. He told her about the charity performance at the orphanage, and Xu Shihan agreed without hesitation. After all, her relationship with Lin Yi was good, and she was very grateful for Lin Yi's care and protection during this period of time.

As Xu Shihan's best friend, Cheng Yiyi naturally agreed to help out in the charity event. Xu Shihan's popularity was already bursting, and with Cheng Yiyi, this charity event would definitely be a huge success!

After all, Xu Shihan and Cheng Yiyi had completely different styles. One was pure and innocent, while the other was sexy and hot. The fans of the two didn't overlap, and this would increase the number of people in the concert.

"One more thing, I have a friend in Europe. She wants to invite you to Europe for a performance or a business event. I wonder if you're interested?" Lin Yi asked.

"Oh? To Europe?" Xu Shihan was a little surprised-she was popular in the Asian market, but not in the European market. Inviting her to perform in Europe was something that had never happened before, and so she was smart enough to figure out the key point."Lin Yi, I'm afraid you're invited this time, not me, right? Your friend wanted to see you, but you rejected her because you said you were my bodyguard. Is that why she invited me?"

"Alright, you've guessed it," Lin Yi didn't think that Shihan would be so smart.

"Okay, then we can go and explore the market. This is also a good thing. Of course, no problem." Xu Shihan nodded.

What Xiaoke didn't expect was that when she told the Dean that Shihan would be attending the charity event, the Dean, who never opposed her suggestion before, actually went against it.

"Don't invite Xu Shihan here, this is an orphanage, we don't need all that hype," A strange look flashed across the old principal's eyes as she shook her head and refused.

"Ah?" Yu Xiaoke froze, thinking that she heard wrong,"Master, this is a good thing. Besides, it's very normal for celebrities to do charity performances. They have a lot of fans. If everyone donates a little, they'll have a lot. Why don't they need it?"

"Ke, I don't think it's appropriate to do that. Plus, he has his own things to do. If you ask him to do a charity show, isn't that Lin Yi doing him a favor?" The old principal thought for a while and said.

"But, isn't Lin Yi doing the orphanage a lot of favors? I won't be able to pay you back in my entire life, so this one time won't make much of a difference, right?" Yu Xiaoke was a little confused. Logically speaking, the Dean shouldn't have rejected him, and the reason for his rejection sounded so far-fetched. Yu Xiaoke felt that it was ridiculous!

"I'm just afraid of troubling others. " The Dean said helplessly after hearing what Yu Xiaoke said.

"Let's see what Lin Yi wants. If he wants to make things difficult for us, then so be it. If he doesn 't, then we'll just follow the plan, okay?" Yu Xiaoke said.

"Alright, let's see what Lin Yi thinks," The old principal nodded.

After getting Xu Shihan and Cheng Yiyi's confirmation, Lin Yi gave you Xiaoke a call.

"What are you doing!" Yu Xiaoke was excited and full of anticipation, but when the words came out of her mouth, they turned cold, as if she didn't want to answer the phone.

Lin Yi didn't mind and just smiled,"Xiaoke, as for Xu Shihan and Cheng Yiyi, I've already spoken to them. They can participate in the orphanage's charity event and help organize donations. We won't take a single cent from them, and they'll all be transferred to the orphanage's account."

"Ah, really? That's great!" Yu Xiaoke didn't expect Cheng Yiyi to come. Two big stars were more attractive than one. This way, the orphanage's financial situation would be temporarily alleviated.

When Yu Xiaoke picked up the phone, the Dean happened to be beside her. Seeing the excited Yu Xiaoke, she felt helpless and didn't know what to say. It seemed that even though she was against it, she had to agree to it.

"Of course it's true. Make the preparations on your side, I'll get someone to plan it, and then we'll proceed." Lin Yi said.

"En, en!" Yu Xiaoke nodded happily.

After hanging up, Yu Xiaoke turned to the Dean, ""Master, Lin Yi's done this time, you won't object anymore, right?"

"It's all done, what else can I say?" The Dean smiled and said to Yu Xiaoke, "Just do as you think!"

"Many thanks, master!" Yu Xiaoke was very happy that her master agreed.

Xu Shihan's and Cheng Yiyi's charity concerts and donations were all planned by their managers and companies. Lin Yi didn't have to worry about these things, and in his free time, he focused on researching how to condense the forging fire.

Now that Lin Yi could control the forging fire, he could officially start refining the Jade space!

But what pissed him off was that his Sky Class early phase still showed no signs of breaking through-his strength was still the same! Even with the help of the Jade space, Lin Yi wasn't satisfied with this speed. He missed the days when he slept with Xinyan-his practicing speed was skyrocketing back then!

But there was a limit to Xinyan's scent, and it'd be a problem if he took in too much of it-he'd rather slow down his practicing than do anything to Xinyan.

The good thing was that he could make the Jade space now, and it was a comfort to Lin Yi!

When Lin Yi felt that he had the ability to make the Jade space, he was ready to start!

Chapter 3209 Successful Refinement!

He greeted Xu Shihan, Cheng Yiyi, and Chen Yushu, telling them that he was going into isolation for a few days. Lin Yi went back to his room and prepared the three materials he needed to make the Jade. He then went through the method of making the Jade in detail.

After all, this was his first time, and he decided to be careful and do it step by step! The jade pendant wasn't broken, but once it failed, all the materials would be wasted!

These materials were all painstakingly gathered by Lin Yi, and he couldn't just watch them go to waste!

According to the instructions, Lin Yi put a certain ratio of colored steel, pure yellow jade, and blue crystal powder on the ground. There weren't any special requirements for the environment. He didn't need to have a cauldron to make it like a refiner.

A forger, on the other hand, had to use their own fire of forging to shape and shape the materials-as long as the ground could withstand the heat of Lin Yi's fire, the Jade space could be successfully created!

After preparing everything, Lin Yi slowly took off the jade pendant from his neck. This jade pendant was the thing that he'd relied on all this time, so naturally, he had to be extremely careful, in case he broke it!

"Elder Jiao, can you still hear me?" Lin Yi asked subconsciously after removing the Jade.

There was no answer! It seemed that the connection between the space of the jade pendant and his body was only established in the situation of physical contact. Once the jade pendant left his body, it would not have any mental communication with him.

With that thought, Lin Yi held the Jade in his hand again and asked,""Elder Jiao, can you still hear me?"

"I can do it now." "Lin Yi, you're going to start refining the Jade space?" elder Jiao's voice sounded.

"Yes, I am!" Lin Yi nodded,"I've gotten used to it after forging. I'm planning to start creating the Jade space now. Elder Jiao, do you have anything you want me to do?"

"No, I don't know how to do these things." "If you follow the instructions, you shouldn't fail!" Elder Jiao said.

"Alright!" Lin Yi gritted his teeth and placed the Jade in between the three materials. He started to create the forging fire and followed the instructions to create the Jade space ...

The method seemed simple, but every step had to be repeated for a long time. If it weren't for Lin Yi's super endurance, he would've given up on this boring process!

This was because forging a weapon took much longer than refining a pill. Furthermore, the steps were even more complicated! Not only must both hands be able to condense forging flames, but one hand must also assist in changing the shape and form of the material to fuse with the jade pendant.

Lin Yi, on the other hand, had a decent talent in forging! Or rather, the art of Dragon mastery changed Lin Yi's talent! Making the Jade space was extremely complicated, but Lin Yi followed the steps and everything went smoothly!

Three days passed by in a boring way, but Lin Yi wasn't in a hurry. He followed the instructions one step at a time, and finally, on the morning of the fourth day, all the steps were done. Lin Yi watched as the colored steel, the yellow jade, and the blue crystal powder all fused with the Jade. He followed the instructions and increased the temperature of the forging fire, starting the last step of the Jade-strengthening!

Three hours later, Lin Yi saw that the Jade's luster was getting closer and closer to when it wasn't made. He slowly put away the forging fire-the Jade space was finally formed!

Looking at the Jade in his hand, Lin Yi was very excited. Was this the Jade that had been refined? But there was nothing special about him! At least from the outside, they were exactly the same.

"Elder Jiao, the Jade space is a success, but it doesn't look special at all." Lin Yi couldn't help but ask.

"There's nothing special about this jade pendant, of course, but the space in the jade pendant has been formed." "I can't see the space you're using for cultivation even if you hold it in your hand!" Elder Jiao said calmly.

"This ... That's true," "So what should I do?" Lin Yi nodded.

"After you wear the Jade space on your body, use your mind to sense it. You will find that inside the Jade, there will be a small storage space next to the Jade space. You can put your items in it." Elder Jiao explained.

"Oh?" Lin Yi quickly put the Jade on and used his mind to feel the space in the Jade. As expected, there was a small space beside the normal space in the Jade. It wasn't big, but it was formed. Lin Yi was very excited, "So, this is considered a success?"

"Yes, won't you know if you've succeeded or not after you try?" Elder Jiao asked.

"Try? How do I test it?" Lin Yi said.

"It's still your mind power. For example, you can use your mind power to store the teacup on the table into your Jade space." Elder Jiao said.

"I'll try. " Lin Yi couldn't wait to see the teacup on the table. He used his will to send the teacup into the Jade space.

As expected, the teacup on the table disappeared with a "whoosh," and in the next moment, Lin Yi saw the teacup on the table in the newly formed Jade space. The teacup was perfectly still in the Jade space, and Lin Yi tried to shake his body, but the teacup was still stable in the Jade space, not shaking with the movement.

In that case, even if Lin Yi put a cup of water into his interspace, he could guarantee that it wouldn't spill.

"How is it? not bad, right?" Elder Jiao asked.

"Not bad, not bad at all. It's really amazing!" Lin Yi said excitedly. With a space like this, Lin Yi could bring his important things with him without having to worry about losing them!

Lin Yi immediately took out the map fragments, the used energy stones, the beast's inner elixirs, the remaining materials from the Jade space, and the few heaven-grade weapons-he put everything into the Jade space.

The weight of the jade pendant did not increase at all! Lin Yi was amazed.

"Since you're so excited, I'll reveal another piece of information to you!" Elder Jiao suddenly said.

Chapter 3210 No Choice!

"Oh? What's the news?" Lin Yi blinked.

After the next stone door is opened, there will be a second refining method of the Jade space. After refining the Jade space, you can obtain even more magical benefits!" Elder Jiao said.

"What kind of benefits?" Lin Yi couldn't wait to ask, but he shook his head and smiled bitterly, "I'm afraid you don't even need to guess. You'll say that your memory hasn't been unlocked and you don't know for the time being, right?"

"Right, why are you still asking when you already know?" Elder Jiao said matter-of-factly, making Lin Yi grit his teeth in anger.

The success of the Jade space made Lin Yi a little excited, and in the days that followed, Lin Yi started helping Xu Shihan and Cheng Yiyi with the orphanage's charity performance.

Such a big event had to be publicized in advance. The warm-up period of this publicity would take at least a month. Otherwise, even if a big star suddenly held a concert, it would be impossible to achieve the expected effect.

During this period of time, what was worth being excited about was that Han Jingjing's new pill refining equipment had successfully been put on the market. Those sects and families who had originally thought that the sky elixir sect's counterfeit medicinal cauldron could also be upgraded were dumbfounded!

You can level up, but how can the heavenly elixir sect replicate a device that needs to be connected to WIFI and server-certified to calculate data?

Of course, this setting didn't just shock the people who bought cauldrons from the sky pill sect, it also caught Zhaoming off guard! He didn't expect Jinghan to come out with new peripherals instead of upgrading!

This rendered professor Benjamin II, who had cracked the encryption of the single-chip computer, completely useless! This was because the encryption method of the peripheral was completely different from before. If he wanted to crack it, he would have to do some research again.

The heavenly elixir sect's promise that they would provide upgrade services as soon as possible was now empty talk. After all, professor ban Jieming the second hadn't cracked the code yet, so what could he use to upgrade? They'd sold quite a few of them before, and they'd accumulated quite a number of customers, but if they didn't provide an upgrade service in a short time, their reputation would be ruined. It'd be even more difficult to sell these things again then.

After all, after so many attacks on piracy, it was hard to say if those customers would still believe in the sky elixir sect's fake cauldrons.

"Professor Benjamin II, when is the earliest you can crack this peripheral?" Kang Zhaoming was panicking. Although he had earned some money before, it was nothing compared to the loss of the first rank pill!

After all, half of the profits went to miss nie from the center, and Kang Zhaoming only got half! As for the other half, because they were selling the pills under the sky elixir sect's name and using their reputation, they would have to leave half for the sky elixir sect.

The remaining 25% was patriarch xuanchen 's. There really wasn't much left, and that was why Zhaoming was so frustrated. He was on the same side as patriarch xuanchen, so if he had to pay, it was him who had to pay!

"It's impossible to break through in a short period of time. " "I've checked the Liu's group's server. It uses a database and background system that is not available on the market. They must have made it themselves. It's very safe. At least, with my strength, I can't break through it in a short time!"

"What? Does that mean that we have no hope? Our cauldrons can't be upgraded?" Zhaoming's face changed-he didn't want the cauldron to be left on the shelf and not be upgraded! Who else would he sell it to then?

"It's not that there's no way. There's a way, but it's a little troublesome!" Professor Benjamin II said.

"What is it?" Kang Zhaoming quickly asked.

"It's very simple. We just need to buy more of these peripherals and cauldrons. Then, we will find a large group of alchemists and use these peripherals to refine pills. We will intercept and save the data transmitted by the server. This large amount of data basically covers the parameters of other alchemists. Generally, it can be matched and used. If we encounter a few that can't be used, we can custom make them and let them use the Liu corporation's peripherals to experiment with refining pills. After intercepting the data, we will upgrade them!" Professor Benjamin II said.

"Then how many cauldrons and external accessories do you need to invest in this?!" Zhaoming took in a cold breath,"plus, I'd be losing money if I buy a set of equipment and a cauldron for the person to test it on." It's already cheaper to level up than Lin Yi 's, and I'm buying another one of Lin Yi's cauldrons and accessories just for a parameter, what's wrong with me?"

"Then there's no other way. I'm talking about the easiest way to achieve it at the moment. If you don't accept this method, then I can only slowly study the Liu's group server, but don't get your hopes up!" Professor Benjamin II said.

"Then what about me?" Kang Zhaoming didn't want to give up. If professor Benjamin said that, it meant that there was no other way. However, he didn't want his business to be ruined just like that.

"You can think of other ways. For example, how did you get the program of your single-chip computer? you can use the same method to get the server program back!" Said professor Benjamin.

"Oh? What if he upgrades again after I get the server's program?" Kang Zhaoming asked.

"Another upgrade ... The possibility is not high. What I can think of is that this cauldron's function is already at its limit. Any more upgrades will only increase the variety of alchemy. However, it doesn't matter whether it's an upgrade to the single chip program or the server. We have already cracked the single chip. After it upgrades, we can launch the corresponding upgrade program in a day or even a few hours." Professor Benjamin the second said, "if it's a server upgrade, it's fine. I don't believe they can create a new back-end system and database with the same back-end system and database. All they need to do is upgrade it. As long as I have the source code, I can find the loopholes and methods to crack it. So, it's no pressure for me."

"In other words, if I get the server's back-end code and database, everything will be fine, right?" Kang Zhaoming's hope was reignited.

"You can say that." Dr. Benjamin II nodded.

"Alright, I'll try." Kang Zhaoming hung up the phone and started to plan in his heart. How should he get the Liu corporation's server back-end program and database?
