

## Bodyguard 3261

### Chapter 3261 Exposed

Was it for him or Xu Shihan? Perhaps ... He was just passing by?

However, he tianzu's actions later explained his purpose. The red sports car dashed in front of Lin Yi's car, and a man jumped out of the passenger seat. This man was freynold, a Sky Class early phase master! Stopping a speeding car was a piece of cake for him!

It was impossible to kill him-a car couldn't kill a Sky Class!

Not only would he not die, but the car would probably be scrapped! "Stop the car, Qiqi!" Lin Yi said immediately.

In fact, Qiqi was already slowing down the moment Lin Yi spoke-she and Lin Yi were practitioners, so it wouldn't be a problem if the car was sent flying, but Shihan and Yiyi would be in danger! Of course, she had no idea that Cheng Yiyi was also a cultivator!

However, freynold clearly wasn't just standing there waiting for Lin Yi's car to drive over-he ran over to Lin Yi's car as soon as he got off, and Qiqi couldn't stop him even if she braked!

A Sky Class master's speed wasn't something to be taken lightly, and as freylano charged at him, he suddenly sent a kick at Lin Yi's car, making a loud bang and sending the car flying up a rock!

"Be careful!" "Shihan!" Lin Yi shouted and quickly hugged her tightly, circulating the art of Dragon mastery and using his pure Qi to protect her!

As for yang Qiqi and Cheng Yiyi, they were fine-Lin Yi didn't have to worry. Yang Qiqi was a physical practitioner, and her body was stronger than spiritual practitioners. Cheng Yiyi, on the other hand, was an Earth class, so there was no need to worry. Even if the car broke, they would be fine!

There was a violent bump and rolling, and the car rolled a few times on the gravel before coming to a stop. The car was completely deformed, but Qiqi and Cheng Yiyi were fine, and Shihan, who was under Lin Yi's protection, was fine too!

But a moment later, freyuno ran over and grabbed the deformed door, pulling it open easily. The door fell off, and freyuno turned to look at Lin Yi and the others with a mocking smile.

"He's not dead? As expected, the whole carriage is filled with cultivators, you really can't judge a book by its cover!" "Get out of the car and come back with us," freylanor said."If you surrender, I won't touch you for now. Otherwise, you'll have to suffer!"

"Freynold, what do you mean? Is this how you treat the customers of miracle doctor Guan's company?" Lin Yi asked faintly, still trying his luck.

"A guest?" Freo sneered and said,""Lin Yi, stop acting-you think we haven't found out who you are?"

As a matter of fact, Freya-ang and he tianzu only just found out about Lin Yi's true identity. He tianzu had already reported Ling Yi and Xu Shihan's identities to his father, He dan, and naturally, he wanted to investigate Ling Yi's background and see if he was from miracle doctor Guan's medical company.

In the end, the investigation revealed Ling Yi's identity-Ling Yi was the killer of elder Chen, Lin Yi! Elder Wang immediately recognized the person who was impersonating Ling Yi!

So, He dan TOU immediately called he tianzu, telling him not to act rashly and to calm Lin Yi down first. A large number of reinforcements would arrive soon!

However, he tianzu didn 't-he got the call and started chasing Lin Yi, ready to make his move! He was young and didn't believe that Lin Yi could kill elder Chen instantly. In his opinion, it must be elder Wang's dereliction of duty. He didn't want to embarrass himself, so he exaggerated Lin Yi's strength to absolve him of the responsibility.

As far as he tianzu knew, no matter how strong Lin Yi was, how could a Sky Class early phase kill a Sky Class mid phase peak instantly? How could he be Insta-killed when his strength was completely unequal?

It was like a golden class master killing a Mystic class master-he tianzu didn't believe it at all! Plus, the most important thing was that Lin Yi lied to him, and that made he tianzu very angry. He needed to get back at Lin Yi, and he couldn't just give away the blue crystal for nothing.

Of course, there was another reason-he wanted to get rid of her as soon as possible! If her father saw her, she would probably ruin his plans! He tianzu's practitioner's Arts was a pure yang practitioner's Arts-it wasn't suitable for him to get close to women, as they'd slow down his cultivation speed. Although he was Sky Class late phase peak now, bullet head still wanted him to reach the full circle as soon as possible-his private life was restricted before that.

So, if he saw Xu Shihan, he probably wouldn't let him kiss her! In fact, he Tianzu's lecherous nature could be explained by the fact that he had been holding himself back all these years!

The children who were with him all cultivated different mental cultivation methods. He Tianzu was envious of them, but due to the family rules, he had to sneak in. Even so, he was reprimanded and grounded by his father several times when he was found out.

But this time, after seeing Xu Shihan, he couldn't suppress the desire in his heart. He swore that he would get Xu Shihan to bed, he couldn't wait anymore! So, he and Freynold attacked together.

Lin Yi knew that things were bad when Freyando called out his name. He knew that Freyando already knew who he was, and there was no point in hiding it anymore. He quickly calculated.

But on the surface, Lin Yi got out of the car obediently and said, "I can get off the car and go back with you, but Yang Qiqi is just a friend I made in the Ice Palace test-she has nothing to do with me. Can you let her go?"

"Sure!" Freyando nodded, not hesitating at all. He didn't know what sort of relationship Lin Yi had with Qiqi-she grew up in Europe, after all, and Lin Yi was a practitioner from Huaxia. The two shouldn't have any interactions!

And Lin Yi said that he met Qiqi in the test of the Ice Palace-that explained everything. Qiqi was very passionate about the rewards, and the overseas practitioner's Association knew about it as well. They didn't send anyone to take part in these tests, because it was too dangerous, and the rewards didn't match the effort.

Qiqi's background was complicated-she had a close relationship with the biggest assassin group here, the butterfly Assassin group!

Chapter 3262 The Tenth Style Of The Wild Fire Eight Trigrams Palm!

And it was said that she was related to that powerful man from back then, too, so the overseas practitioner's Association didn't want to offend her. Even though the assassin group from the secular world wasn't a big threat to them, and that man had disappeared for many years, they didn't know if he had anything to do with her. However, they didn't want to make enemies with her-she was a member of the overseas practitioner's Association, after all.

"Yang Qiqi, leave this place!" Lin Yi looked at Qiqi and gave her a reassuring look, telling her to leave first.

Qiqi trusted Lin Yi unconditionally-she didn't think too much about it. She thought that Lin Yi had complete confidence in dealing with these two, and her presence here might put him in a difficult position.

And so, Qiqi nodded and left without another word. Perhaps, in Qiqi's eyes, Lin Yi was invincible? In the Ice Palace, at the practitioner's trade association, and at the sky elixir sect, Lin Yi had shown his extraordinary abilities-she didn't think he'd run into any danger!

After all, Qiqi still needed to help Lin Yi collect materials in Europe-it wouldn't be good for either of them if they fell out with these people!

The blue crystal box was taken by Qiqi-Lin Yi had hinted at that on purpose, too. Freynold saw it, but didn't say anything. There was no need to investigate if Qiqi really needed the blue crystal.

Qiqi was a practitioner-the car was flipped over and beyond recognition, but it could still be driven if she pushed it back up. She pushed the car back onto the highway and drove off.

At this time, he tianzu also walked over! In Lin Yi's eyes, freyando wasn't a threat at all, but he tianzu was! A Sky Class late phase peak-Lin Yi didn't know if he could kill him in seconds with his current strength!

Besides, Lin Yi had been too busy recently and didn't try to use the tenth style of the palm. If he could, he might be able to fight he tianzu.

Lin Yi took a deep breath and looked at he tianzu,"He tianzu, I don't think there's any enmity between us, and I'm not lying to you. If you investigate, you'll find out that I'm the boss behind miracle doctor Guan's medical company! If your overseas cultivators Association wants to buy grade one and grade two automatic medicinal cauldrons, you have to go through me first. You can't avoid me, so I think we can sit down and talk about it. "

He tianzu frowned-Lin Yi's words made sense. Could it be that his father had thought of this as well when he didn't want him to do anything? Then, if he were to act rashly, he would have almost ruined the big plan.

Although it was important to avenge elder Chen, the automatic medicinal cauldron was equally important. With the automatic medicinal cauldron, the overseas cultivators Association could refine more elixirs and cultivate more cultivators.

"I'll make a phone call. " He tianzu nodded slightly and dialed bullet he's number,""Father ..."

He tianzu didn't say anything about stopping Lin Yi, only saying that he had Lin Yi under control. He then told bullet head what Lin Yi said. On the other side, he tianzu nodded and hung up the phone after a while.

"How is it?" Lin Yi asked. He tianzu's answer would determine his next move.

"Lin Yi, you're the boss behind miracle doctor Guan's medical company-there's no need for you to lie to me about that, but I can tell you that you're not the only one selling automatic cauldrons-the sky elixir sect is selling them as well, and we can buy them from them! I don't need to go through you!" He tianzu said.

Lin Yi frowned. Sky elixir sect ... Indeed, a replica of the sky elixir sect. It seemed like a problem.

"They're just imitations of our products and don't have much research and development capabilities. Our grade two automatic medicinal cauldrons will be on the market very soon. I believe young master he is very clear which one of them has more development prospects." Lin Yi said.

"Hehe, that's just your side of the story. The sky elixir sect is an old school in elixir making, how do you know they don't have the ability to research and develop? Without butcher Zhang, I won't eat hairy pigs!" "But, Mr. Lin, it's fine if you want to atone for your crimes. As long as you do me a favor and get miss Xu Shihan to sign with my company, we'll be business partners, and we'll be even," he tianzu said indifferently.

"I'll go back and consider it?" Lin Yi asked after some thought.

"Consider? If you agree, I'll take Xu Shihan away, and we'll be done. Otherwise ... Just pretend I didn't say anything. " He tianzu threatened. In fact, he bullet's phone call had made it clear that if Lin Yi could offer a higher price, they could work together. After all, elder Chen's life wasn't as important as the overall interest of the overseas cultivators Association.

Of course, even if Lin Yi didn't cooperate, the sky elixir sect would still be there to get rid of him. They could still buy automatic cauldrons.

And so, this ambiguous answer gave he tianzu a chance, a chance to win over Xu Shihan.

Lin Yi didn't think that this rich kid was stupid enough to bring Xu Shihan back first. It seemed like his plan wouldn't work. With that thought, Lin Yi sighed, "He tianzu, have you thought it through? Do you really want to go against me?"

"Lin Yi, what do you mean? I was kind enough to contact a film company for miss Xu Shihan-how is that going against you?" He tianzu asked with an indifferent expression.

"Hehe, I'm afraid you know best what you're thinking, don't you?" Lin Yi smiled, not denying it.

"Okay, you don't have to know what I'm thinking. This is my request. If you agree, then we'll sit down and have a good talk. If you don 't, then we'll break up." He tianzu looked at Lin Yi as if he had the whole situation under his control. Lin Yi didn't have a choice.

"Is that so ..." Lin Yi took a deep breath, ""Let me think, can I?"

"Of course you can." He tianzu nodded nonchalantly. As far as he was concerned, Lin Yi's "thinking about it" was just a matter of pride. He didn't think that Lin Yi had the courage to fight back.

Lin Yi pretended to lower his head and think, but he was actually reciting the chant. Suddenly, he attacked!

"Wild fire Eight Trigram palm, the tenth style of the Pixiu!" Lin Yi shouted as he threw a palm at he tianzu.

#### Chapter 3263 Escape

This was Lin Yi's first time using the tenth form of the palm, and although he couldn't guarantee success, he had to try!

However, Lin Yi didn't dare to use his full strength and reserved a portion of his pure energy. After all, even if he could kill he tianzu, there was still freyand ou, and Lin Yi couldn't bet all his money on he tianzu.

Fortunately, Lin Yi was able to successfully use it-it seemed that Sky Class early phase peak was still capable of using the tenth style of the palm. However, Lin Yi could clearly feel that this palm didn't have the same exhilaration as when he used it on the others.

He tianzu's body trembled a little, and he was forced to take a few steps back. Blood trickled down from the corner of his mouth, but he was obviously not dead. Instead, he had suffered a serious injury!

"Cheng Yiyi, hug me from behind!" Lin Yi shouted suddenly, and with that, he put Xu Shihan on his shoulder. Cheng Yiyi was an Earth Class practitioner, and her reaction was extremely fast. She jumped onto Lin Yi's back, and Lin Yi ran!

Lin Yi was wearing the lightning-chasing Gale boots, and he'd already learned the chant to use the weapon. If he couldn't kill he tianzu, he could only run!

"Chase!" He tianzu didn't expect Lin Yi to sneak attack him! He tianzu thought that Lin Yi would give in for sure, but he didn't expect Lin Yi to attack him when he wasn't prepared!

Although this attack wasn't fatal to he tianzu, it was enough to affect his movement and strength. Therefore, he tianzu quickly took out a small medicine bottle from his pocket, poured out a pill, and put it into his mouth.

Freyando wasn't an idiot-he was the vice president's son, and while he hung out with he tianzu, he wasn't his underling. He was only an early phase Sky Class master, and if Lin Yi could injure he tianzu, then he must be a very strong person. He might only be Sky Class early phase peak on the surface, but if Lin Yi could injure he tianzu, then his strength must be as the rumors said-extremely strong!

But, as skilled as they were, they weren't too much of a problem-if a couple Sky Class late phase peak Masters surrounded Lin Yi, or even a complete master, then he'd be dead for sure!

With that thought, freyando started to regret his decision. He should've told he tianzu not to do anything, but now that he tianzu was injured and Lin Yi had run away, he didn't dare to do anything.

"Freyuno, why don't you go after him?" He tianzu quickly asked after he had recuperated and recovered from his injuries.

"Young master he, I'm only sky Class early phase-wouldn't I be sending you off if I went after him?"

"You're not even a match for him," Freo said with a bitter smile. "If I go now, I probably won't be able to come back!"

He tianzu paused for a second, but nodded. Freyando was right-he was only sky Class early phase, and if Lin Yi could even injure him, who was Sky Class late phase peak, killing freyando would be no problem!

At this moment, he tianzu believed that Lin Yi had killed elder Chen, but he wasn't willing to give up. He gritted his teeth and said, ""Let's go after him together, we can't let him get away! You deal with the two women, I'll deal with Lin Yi!"

"Alright!" Freynold had no problem dealing with two women, as long as he didn't face Lin Yi directly!

Lin Yi had already run far away by now, and while tianzu and Freya were Sky Class Masters, it was still quite a challenge for them to catch up to him. They watched as Lin Yi's figure got further and further away, and they were a little confused-how could he be so fast?

Lin Yi didn't dare to rest for even a second. After all, he tianzu was injured, but it was clear that he had recovered after taking the recover pill. If he caught up to Lin Yi, it would be easy to kill him.

After all, Lin Yi had already used up most of his Qi when he used the tenth style of the raging fire Eight Trigram palm, and the remaining Qi He had was used on running.

And so, Lin Yi carried one on his back and one on his back as he sprinted on the highway. Fortunately, there weren't many cars on the highway, or they'd be scared to death by Lin Yi's actions!

Although he tianzu and Freya Ango weren't slow either, and Lin Yi had the two of them dragging him down, he had the butterfly microsteps and the godly Greaves on his feet. He was extremely fast, and in the blink of an eye, he had left the two far behind!

"Damn, this kid is stepping on firestorm wheels, right? How can he run so fast?" He tianzu had also used all his strength, but not only did he not get closer, but he was also getting further and further away, which made him very depressed!

"It's indeed strange. There's something strange about this kid!" Freyando said. He didn't know that Lin Yi had a relic on him, but he could tell that Lin Yi was different from normal people.

Finally, Lin Yi was gone, and tianzu and freylano had no choice but to stop and rest in the Wheatfield.

At this time, he tianzu's phone rang.

"Hello ... Dad ..." He tianzu's voice was very careful. After all, he had misjudged and made a mistake.

"Heavenly ancestor, where are you?" Bullet he's voice came from the phone.

"Dad, I'm sorry. I acted rashly and not only did I get injured by Lin Yi, but I also let him get away!" He tianzu said in a depressed manner.

"What?" Bullet head he's voice paused, and then he said angrily, ""Didn't I tell you to calm him down first and wait for us to get there?"

"I ..." He tianzu naturally didn't dare to talk about Xu Shihan, so he could only say, ""Lin Yi seemed to have noticed something. After leaving the auction, he drove straight to the highway. We had no choice but to stop him!"

"Oh? Then you could have followed them. You've wasted such a good opportunity!" He dan TOU knew that Lin Yi was a practitioner, and it would be hard to catch him again if he got away. He knew that it was useless to scold he tianzu now, "Forget it, so be it. I wanted to use this incident to make Lin Yi give up some of his benefits so that we could get some of the automatic cauldrons, but it seems that if Lin Yi runs back, he'll never come here again. We have nothing to threaten him with."

Chapter 3264 Bullet Head He's Big Brother

"That ... Where's yang Qiqi?" He tianzu asked after a moment of hesitation.

"Yang Qiqi and Lin Yi should be acquaintances, but they're pretty close. She grew up here, and doesn't have much interaction with the practitioners there. Her background is complicated, too, so it's best not to touch her." He dan TOU shook his head, rejecting he tianzu's suggestion. He didn't want to offend others because of Lin Yi, not to mention that yang Qiqi was a member of the overseas practitioner's Association. If he took his anger out on yang Qiqi because of Lin Yi, it would cause the other members to be resentful!

They did not know if they were enemies of the overseas cultivators Association when they made friends. If they took their anger out on an enemy, the others could forget about making friends.

"Then, our automatic medicinal cauldrons ..." He tianzu was a little dejected as he knew that he had gotten into trouble.

"Looks like I can only ask the sky elixir sect ... Although I don't want to contact that person, I have no choice. Now that things have come to this, I can only ask for his help ..." He dan TOU sighed. He had been thinking about getting an Automatic Grade one medicine cauldron, but miracle doctor Guan medical company's Automatic Grade one medicine cauldron was inextricably linked to Lin Yi, making him unable to start. He wasn't familiar with the sky elixir sect, either, so he could only ask that person to help him, but ... He had already broken off with that person back then. She didn't want to have any more contact with him ...

"Dad ... I'm sorry ..." He tianzu could also tell that his father was in a difficult position, and he felt a little helpless and apologetic.

"Forget it, you and freyando should come back. Let's just leave this matter at that. We'll deal with Lin Yi later. Now that we know his strength, he can only injure you and run away, so he's not that strong." Bullet head he consoled.

"Yes, father!" He tianzu quickly nodded in agreement.

He tianzu and Freo dejectedly returned to the overseas cultivators Association's headquarters and saw he Tiao's gloomy face.

"You two, kneel down!" Although he tianzu was his son, the overseas cultivators Association had its own rules. Even if he was he tiaozu's son, he still had to go through the formalities.

"Yes ..." Both he tianzu and freyando didn't argue. They kneeled down in the hall. Although freyando was tied up, he had no choice since he didn't stop them.

"Think about your mistakes first, I'll ... Contact the practitioners in Huaxia ..." Bullet head really didn't want to make the call-it'd been so many years, and he'd already left his home. Fifty years ago, he had an argument with his big brother, and eleven years ago, he'd successfully reached Sky Class late phase peak and established the overseas practitioner Association, a big sect that wasn't any weaker than the ancient sects. The heartache he felt wasn't something normal people could understand.

Although bullet he understood that his big brother had reprimanded him for his own good, he just couldn't get over it. So many years had passed in the blink of an eye. Although he knew his big brother's number and what he was doing now, he still didn't contact him.

After all, his big brother was in the light while he was in the dark.

However, today's events had caught him off guard. He had hoped to get the right to buy the automatic medicine cauldron from Lin Yi, but now he could only place his hopes on his big brother. After all, his big brother had some connections with the sky elixir sect, while he knew nothing about it. He had no connections with the sky elixir sect at all.

When he arrived at a secret room, bullet head dialed the number that he had called several times over the years but had always hung up on.

"Hello? Who is it?" A deep voice came from the other side of the phone.

"Big brother ..." After hearing this voice, He dan TOU's eyes were filled with tears. For a moment, he was filled with emotions ...

"A bullet?" When the person on the other end of the phone heard this voice, he couldn't believe it and asked subconsciously.

"It's me ... Big brother ..." Bullet head initially thought that he had a grudge against his big brother. However, after he said this, The Grudge that had been buried in his heart for decades suddenly melted ...

"Bullet, where are you? How have you been these past few years? When are you coming back to help me? The five-elements sect is now completely under my control. Back then ... I taught you a lesson because I was afraid that master would be wary of me, but that won't happen anymore. I have the final say here ..."

Back then, he TOU TOU said some pretentious things because he was young and his elder brother was patriarch xuanchen. Patriarch xuanchen usually doted on his younger brother, but he was afraid that his brother's words would cause his master to be wary, so he taught he TOU a lesson. Unexpectedly, he TOU TOU was young and rash, so he left the mountain Gate and disappeared!

As He dan TOU was only an in-name disciple of the five-elements sect and not a direct disciple, he was not very important. Patriarch xuanchen's master did not send anyone to look for him. Since he had left, it was fine. Due to the sect rules, it was impossible for patriarch xuanchen to look for him. This matter could only be left unsettled.

Years later, when patriarch xuanchen took control of the five elements sect, he secretly inquired about the whereabouts of warhead, but there was no longer any news, which made him feel very regretful! As

he grew older, patriarch xuanchen also gave up searching for him. After all, he did not think that bullet head he could have cultivated to a high level. After so many years, he might have already passed away.

After all, he xiaodai was just a spoiled brat who relied on his brother's power to run amuck in the sect. He didn't care much about cultivation, but he didn't expect he xiaodai to actually call him. He was actually still alive?

"Big brother ... I'm overseas. You know the overseas cultivators Association, right ..." He TOU TOU said while sobbing.

"I know. You're a member there? I know about the overseas cultivators "Association. Although it's not a small organization, it's someone else's business after all." Patriarch xuanchen invited.

"Big brother, I'm the one who founded the overseas cultivators Association ..." Bullet he smiled bitterly and said,""Could it be that I, your little brother, am so weak? Big brother can take charge of the five elements sect, but I can 't?"

"What? The overseas cultivators Association is yours?" "Elder Chen?" patriarch xuanchen was shocked."Then, elder Chen, who was killed by Lin Yi, is your subordinate?"

"Not bad! They're from my side, and I've been looking for Lin Yi for a long time!" Thinking about Lin Yi running away, bullet head gritted his teeth in anger. If he could get rid of Lin Yi with his brother's help, it wouldn't be a bad idea,""Big brother, the five-elements sect should still be the most powerful ancient sect, right? Can you help me kill Lin Yi?"

Chapter 3265 Exposed

"Bullet, it's not that I don't want to help you ... I just want to tell you that Lin Yi isn't someone you should mess with. You'd better not go against him!" Ancestor xuanchen muttered to himself for a moment before he spoke seriously.

"Brother ... What do you mean by this? How was Lin Yi not to be messed with? Did you just listen to the rumors? I've heard that Lin Yi can kill Sky Class late phase peak in seconds, but that's just a rumor-it doesn't count!" He dan TOU didn't expect his big brother to actually believe this nonsense! "That Lin Yi ... He's running away from my son, but he only managed to injure him ..." Lin Yi laughed.

As he spoke, He dan explained the entire process to patriarch xuanchen in detail!

"Bullet, is what you said true?" Patriarch xuanchen was extremely shocked when he heard that! In that case, Lin Yi was nothing to be afraid of. He didn't think that his brother would lie. Although the two brothers hadn't seen each other for more than 50 years, he believed that bullet head wouldn't lie to him on such a big matter.

"Of course it's true. That Lin Yi is only sky Class early phase peak-he's indeed stronger than the other Sky Class early phase peak, and the fact that he was able to injure my son proves that. But it's not a serious injury-a big recovery pill can completely solve the problem." Bullet head he said.

"Oh?" Patriarch xuanchen could not help but fall into deep thought. Things did not seem normal!  
"You're saying that Lin Yi went overseas?"

"Yes, Lin Yi's here ..." With that, He dan TOU told ancestor xuanchen what Lin Yi did here.

"Lin Yi ... Going to look for the blue crystal?" Patriarch xuanchen was slightly surprised. He naturally knew what the blue crystal was used for. It was a material that forgers could use! Taganlong needed a blue crystal to make an Essence Necklace, but Lin Yi took the scroll and essence inner core before he could even make it. He was also injured, and the process was delayed.

Could it be that Lin Yi was looking for the blue crystal to make an Essence Necklace?

He couldn't be blamed for thinking that way. After all, the blue crystal was only used for forging weapons and had no other uses. As for whether Lin Yi was a forger or not, he didn't think too much about it. To him, if Lin Yi could make an automatic cauldron, he might be able to make weapons as well. Even if he couldn't, it wasn't difficult to make an Essence Necklace. He might be able to make it with other special methods.

"Big brother, what's wrong?" Warhead he was slightly stunned, 'that blue crystal, other than forgers, no one else can use it! I still have a lot of these things here, do you need them, big brother?"

"I have a lot too. I don't need it. I just suspect that Lin Yi is forging ..." Ancestor xuanchen shook his head. "Forget it, let's not talk about this anymore. Lin Yi may be a little weak on your side, but the rumors here are real and don't seem to be fake ..."

With that, ancestor xuanchen told He dan about Lin Yi's legend. He dan dan was surprised and suspicious. The deaths of the Sky Class late phase peak and Sky Class late phase peak Masters were also true. He didn't think that ancestor xuanchen didn't confirm whether these people were dead or not, so they were definitely dead. As for how they died and whether it had anything to do with Lin Yi, he didn't know. But from the looks of it ... Lin Yi was a strange person!

Thinking of this, bullet head he nodded and said, ""Big brother, I understand what you mean. Let's just forget about Lin Yi. I won't provoke him for now. We'll talk about it when the truth comes out."

"Yeah, I'll start investigating Lin Yi. Just wait for my news." Said ancestor xuanchen. He was actually very confused as well. What was going on with Lin Yi? why did his strength not match the rumors?

"Alright, big brother. One more thing, the five elements sect, isn't it related to the sky elixir sect? Can you help me to ask them to buy some Automatic Grade one medicinal cauldrons?" Bullet head he asked.

"Oh, that? no problem." Patriarch xuanchen readily agreed and said,""This cauldron was created by my son-in-law. It's just for sale under the sky elixir sect's name. I'll give you ten good ones later!"

"Ah ... Then thank you, big brother!" Bullet head he said happily.

"It's a small matter ..." Patriarch xuanchen shook his head.""Bullet, when I'm ready, you can come and get it. We brothers can get together ..."

"Alright!" This time, bullet head he readily agreed.

"Yeah, bring your son along too. I've never seen my nephew before." Said patriarch xuanchen.

He dan ended the call with patriarch xuanchen, and the latter immediately called Zhaoming over.

"Father-in-law, what's the matter?" Kang Zhaoming walked over and asked respectfully.

"It's like this-go and investigate Lin Yi for me, especially how he's fought Sky Class Masters and killed them in seconds-investigate everything in detail!" Patriarch xuanchen instructed.

"Oh? This ... What is there to investigate? father-in-law, is there a problem?" Kang Zhaoming was surprised and asked curiously.

"En, it's like this ..." Thus, the xuanchen ancestor told Zhaoming about the conflict between Lin Yi and the overseas cultivators Association in Europe.

Kang Zhaoming's eyes lit up! If this was true, then it meant that Lin Yi wasn't as scary as the rumors made him out to be, and he wouldn't have to be afraid of Lin Yi anymore. He was afraid that Lin Yi was invincible before, so he didn't dare to say anything, but now ...

With that thought, Zhaoming quickly nodded."Okay, father-in-law, I'll start investigating this matter now!"

"En, go ahead. If there's anything you can't figure out, just report it to me and we'll discuss it together!" Said patriarch xuanchen.

"I understand!" Kang Zhaoming accepted the order and went to investigate excitedly.

After Zhaoming left, elder xuanchen fell into deep thought! He had never thought that the overseas cultivators Association was his younger brother's force. If the five elements sect were to come, it would be even more powerful than before. It would have a greater say in the future plan!

This time, with he Yatou here, patriarch xuanchen was prepared to discuss the plan with him

Chapter 3266 After-Work

After all, the overseas cultivators 'Association would be a helping hand in this plan! Sky Class late phase peak, each and every one of them would be useful.

Lin Yi carried Xu Shihan and Cheng Yiyi as he ran. He didn't know how far they ran, how many towns they passed. Finally, Lin Yi used up all the energy he had left. He had no choice but to stop and put Xu Shihan and Cheng Yiyi on the side of the road.

Lin Yi knew that he wasn't running in a straight line, and the possibility of them finding him was very low, but he still didn't let his guard down. After putting the girls down, he hid behind a pile of grass near an open-air farm.

"I'm sorry, Lin Yi ... I've caused you trouble ..." Xu Shihan looked at Lin Yi apologetically.

Lin Yi waved his hand, "it's not your fault. He tianzu is interested in you, that's a small problem. The real problem is that I killed their elder Chen, but it's nothing. Didn't we run away?"

"Is yang Qiqi okay?" Xu Shihan was worried about yang Qiqi's safety.

"I'll make a call and ask. " Even if Shihan didn't say anything, Lin Yi was ready to call Qiqi and ask her about her current situation.

The call went through quickly, and Qiqi's worried voice came through,"Lin Yi bro, how are you guys?"

"We've escaped successfully. It's fine. You don't have to worry about us. But you, will you become enemies with the overseas cultivators Association because of this?" Lin Yi asked, worried.

"It's fine. They won't dare to do anything to me. " Qiqi shook her head."Plus, I'm not stupid enough to admit our relationship. I'm just saying that you've helped me in the test before. That's why I'm treating you."

"That's good. " Lin Yi nodded and let out a breath of relief. It seemed that Qiqi was quite a smart person, not as stupid as he thought! But it wasn't surprising-this was Qiqi's territory, and she'd only been a guest in the last few trials, weak as she was. Who else would they bully, not her?

But, Qiqi being a member of the overseas practitioner's Association explained why she leveled up so quickly. The Association would definitely give her some physical practitioner's elixirs regularly.

"Lin Yi bro, they're not chasing you guys? Do you want me to help you gather some information?" Qiqi asked.

"Please don 't!" Lin Yi rejected immediately,"Qiqi, don't be careless. Although they won't dare to do anything to you, you're still related to me. It won't be good if they get suspicious. What you have to do is to take the initiative to admit your mistake to the Association and cut off all ties with me. Do you understand?"

"Ah? This ..."Qiqi wasn't too willing-it was fine if she pretended to have nothing to do with Lin Yi, but if she had to draw a clear line between them, it was a little ...

"Qi Qi, be obedient! I'll still need you to Scout for information in the future, so you can't have anything happen to you. " Lin Yi said seriously.

"Okay ..." Qiqi knew that Lin Yi probably had things he needed her to do in the future, so she nodded.

"Also, if the overseas cultivators Association asks about the blue crystal, don't tell them that you bought it for me. Just say that you bought it yourself." "If they ask you what you want to do, just say that you heard that blue crystals can be used to make God weapons. Buy them and see if you can find someone to make them for you." Lin Yi said.

"Alright, I got it." Qiqi nodded, not asking any further.

"Also, when they asked why Xu Shihan and I came to the auction, you told them that it was you who wanted to come. We were just accompanying the guests and trying to gain some experience, but we didn't see anything good, so we didn't bid." Lin Yi said.

"Alright, I understand." Qiqi was a smart person-she knew that Lin Yi wanted her to help him collect more materials. If she said that this time was what Lin Yi needed, she wouldn't be able to participate in auctions anymore.

"That's it for now. After I settle down and wait for the news to die down, I'll go to Island X and meet you there." Lin Yi said.

Island X was one of the places where Lin Yi lived when he was young. His master and his wife were there, but he never went to Island X after his master left.

Lin Yi, Xu Shihan, and Cheng Yiyi took advantage of the dark sky and came to a nearby town. The three didn't dare to reveal their identities, so they didn't stay in a hotel. Instead, they went to a bath center. They could rest in the bath center at night, but they didn't need to register, which was very convenient.

Lin Yi's guess was right-someone from the practitioner's Association came to her before she could even apologize to them! He needed to find her to understand the situation!

But, when she arrived at the practitioner's Association, President He dan TOU was still very polite to her, not doing anything to her, "Yang Qiqi, please have a seat. I've called you here because I want to know some things!"

"President he, I'm sorry ... I met the wrong person. I didn't know that Ling Yi was the enemy of our overseas practitioner Association ..." Qiqi said apologetically and self-reproachfully, ""Please punish me, President he!"

"Qi Qi, what are you doing!" He dan TOU waved his hand. "I'm not here to condemn you. I know you don't know. It's not your fault. I just want to know some things!"

"Alright, please go ahead, President!" Qiqi nodded.

"Here's the thing, how did you and Lin Yi meet?" Bullet head he asked.

"Ling Yi ... That's Lin Yi, he used the name Ling Yi during the test. I was bullied during the test, and Lin Yi probably saw that I was a girl, all alone, so he helped me out." "After that, he helped me during the sky elixir sect test ... And so we became friends!" Qiqi said.

Bullet head nodded-it was just as he'd guessed-Qiqi and Lin Yi were just acquaintances, just slightly better friends, nothing more."Then, what is he doing here?"

"He's here to help Xu Shihan and Cheng Yiyi contact the entertainment companies they're working with. As the host, it's only natural that I entertain them. " Qiqi said.

"Then they're going to the auction?" Bullet he continued to ask.

Chapter 3267 Brother Dafeng's New News

"I was the one who suggested the auction. I told them that there was an auction and that there might be some resources that could be useful to cultivators being auctioned, so I told them to go and join in the fun." "But," Qiqi said,"there's nothing useful for him at this auction. "

"Oh, what about the blue crystal?" Bullet head he nodded and asked.

"That ... I'm just buying it for future use ..." Qiqi said, embarrassed."I heard that blue crystals are a material used to forge divine weapons. I was thinking that I could gather some materials and see if I could ask someone to help me forge a divine weapon when I reach the heaven rank ..."

"Oh?" Warhead he was taken aback by Qiqi's words-he didn't think she'd buy the blue crystal for this purpose! He didn't know whether to laugh or cry,"Qiqi, don't you know that blacksmiths have been gone for a long time? Even if you manage to gather all the materials, you won't be able to forge a divine weapon!"

"Ah ... I don't know ..." Qiqi shook her head, lost."Our overseas cultivators 'Association doesn't have any, but the cultivators in Huaxia don't have any either?"

Looking at Qiqi's face, bullet he believed her words-the overseas practitioner Association didn't have much access to information, and all the practitioners here got their information from the Association. They'd never mentioned anything about forging, so it was only natural that Qiqi didn't know!

Moreover, the blue crystal was one of the materials for casting weapons. This was a secret that ordinary cultivators didn't know about. As He dan TOU had grown up in the five elements sect, he only knew a little about it! He didn't think that the blue crystal was what Lin Yi wanted anymore.

After all, Lin Yi wasn't that close to Qiqi, and he wouldn't tell her that he wanted to use the blue crystal for forging. It was a secret, and he wouldn't tell her if he were Lin Yi. The only possibility was that Qiqi was telling the truth, and this was what she needed.

"I don't think there's a cultivator who can forge weapons in Huaxia either." He dan TOU shook his head and no longer cared about this matter. He only said,""But if you want to collect them, then go ahead. Yang Qiqi, thank you for your cooperation. Go to the storage room and collect your resources for this month, then you can go back!"

"Ah ... Many thanks, President he!" Qiqi said quickly.

Bullet head nodded and didn't say anything else. As far as he was concerned, Qiqi wasn't suspicious at all-he only called her here for some routine questioning, and let her go.

Qiqi let out a breath of relief after leaving, but didn't show it. She went to get her resources and left the overseas practitioner's Association.

After Lin Yi settled down, he smiled bitterly. He wanted to go out with Xu Shihan to relax, but he didn't expect to run into this. Fortunately, he had the lightning storm boots, or he would be in trouble!

Fortunately, they were out of danger for the time being. However, Xu Shihan and Cheng Yiyi's cooperation was definitely ruined. Lin Yi would never allow them to work with the company here. Otherwise, the overseas practitioner Association would use them as a threat and send Lin Yi to his death. It would be troublesome.

This way, he'd lose some income. Thinking about Yu Xiaoke's orphanage, Lin Yi's head started to hurt. It was too big, and it was too late to stop now. There were sick orphans from all over the country, and with Yu Xiaoke and the Dean's personality, they wouldn't reject these children.

Lin Yi was thinking about all this when his phone rang. He thought it was Qiqi, but it was Dafeng bro from red conches! He hadn't contacted him in a long time!

"Dafeng, what's the matter?" Lin Yi quickly picked up.

"Mr. Lin, I've been trying my best to find out the locations of red conch's drug bases. They're all stored in the safe in the general manager's office of red conch's headquarters. There's a document with the detailed coordinates of the drug bases. I attended this year's General Meeting at the headquarters. The General Manager of red conch group, Jian Jia, is also the chief of red conch. When he was introducing us to the company's performance, he asked his Secretary to retrieve a document from the safe. It was in a yellow envelope. " Brother Dafeng quickly said,"however, the chief only introduced the profits of each base. He didn't mention the specific locations of these bases. However, I saw from the corner of my eye that there were map coordinates on it!"

"Oh? Dafeng, Are you sure?" This news made Lin Yi very excited-he'd been looking for the armadillo this whole time, and it wasn't just for himself-it was for Ziyu as well.

"Yes, I'm sure!" Brother Dafeng said with certainty.

"Alright, if this is true, then I'll reward you handsomely when we return. I'll raise your strength to Earth Class late phase peak!" Lin Yi said.

"Ah ... This ..." Dafeng bro was shocked. He didn't think that Lin Yi would give him such a generous reward. Earth Class late phase peak! If he really had this strength, then he might be able to get the Qi gathering pill or other pills from the headquarters to level up. With that, his strength would go up a level, and he could take on a more important position! At the thought of this, brother Dafeng said excitedly,""Mr. Lin, if I can reach Earth Class late phase peak, then I can even get a position in the headquarters. When that happens, I'll continue to work for you, Mr. Lin, and find out where your friends are!"

"En ..." Lin Yi replied faintly,""Tell me, what's the address of red conch's headquarters?"

"The red conch's headquarters is located in Ruida town in Europe. On the sinkhole road in Ruida town, there is a red building called the conch building. That is the headquarters of red conch!" Brother Dafeng said.

"Ruida town ... Pfff ..." Lin Yi didn't know whether to laugh or cry when he heard the name. When Lin Yi entered the bathhouse before, he felt that the address beside the bathhouse was familiar, as if he had heard of it before. Now that Dafeng bro mentioned it, Lin Yi was surprised to find that the town he was in was Ruileida town!

Sometimes, coincidences were too much of a coincidence. Lin Yi felt like his experiences could be written into a novel.

#### Chapter 3268 Red Conch Headquarters

"What's wrong, Mr. Lin?" Dafeng bro didn't know and was a little confused when he heard Lin Yi's laughter.

"Nothing. Which floor is the general manager's office on?" Lin Yi asked.

"I'm not sure about that. We held the debriefing meeting in the conference room. As for which floor the general manager's office is on, I don't know either." "I can't find out about this ..." Brother Dafeng said apologetically.

"It's fine, I'll go and find out myself." Lin Yi nodded-it wasn't a big deal, he just needed to make sure that the document was in the general manager's office!

"Okay, Mr. Lin, be careful!" Dafeng bro reminded him. If Lin Yi was fine, then he would get more benefits in the future. If something happened to Lin Yi, then he would basically be stuck in his current position until he retired! Who knows, he might even be implicated.

Lin Yi hung up and walked to the room where Xu Shihan and Cheng Yiyi were resting. He knocked on the door, and soon, Cheng Yiyi's voice came out, ""Who is it?"

"Yiyi, it's me." Lin Yi said.

Lin Yi's voice had just fallen when the door opened. Cheng Yiyi was standing in front of him in a sleeping robe, her hair wet. Her wheat-colored skin was shining under the moisture of the water vapor, making Lin Yi's eyes light up instantly!

It had to be said that Cheng Yiyi was full of wild beauty, and she was quite attractive to men. Lin Yi had been seduced once before, and now, seeing Cheng Yiyi standing in front of him so coolly, Lin Yi still felt a little unnatural.

"Yiyi, are you taking a bath?" Lin Yi wasn't expecting them to still be showering.

"No, Xiaohan is in the sauna. It's my turn later," "Do you think girls shower like you?" Cheng Yiyi laughed. "You just need to wash up a little."

Lin Yi blinked and smiled bitterly. Yes, the Miss and Shu used to have bubble baths and saunas every time they took a bath. It was just that Lin Yi didn't think too much about it.

"You're looking for han?" Seeing Lin Yi's stunned expression, Cheng Yiyi smiled and asked, but her heart felt a little sour. Lin Yi wouldn't take the initiative to look for her, would he? He must be here for Xu Shihan.

"You're fine too. " "I'm going out for a bit. Text me if you need anything, and call me if it's urgent. Don't worry about me, don't leave this place," Lin Yi said.

"Ah? You're going out?" Cheng Yiyi asked, slightly taken aback.

"En, I have something to do." Lin Yi didn't go into the details-he didn't need to.

"Alright, then be careful. Xiaohan and I will wait for you here ..." Cheng Yiyi nodded and gently reminded him without asking further.

Lin Yi sweated. Cheng Yiyi was wearing a bathrobe, and she was telling him that she and han were waiting for him. It sounded a little ambiguous, but it didn't matter if Cheng Yiyi was trying to seduce him or not. Lin Yi had to leave.

Cheng Yiyi sighed as she watched Lin Yi's back. It was just as Lin Yi had guessed-Cheng Yiyi was trying to seduce Lin Yi. Now that she'd revealed her identity to Lin Yi, there was no need to hide anything, much less hide her love for him.

However, it seemed like Lin Yi ... Had no feelings for her.

Shaking her head, Cheng Yiyi closed the door and walked to the bathroom. She wanted to talk to Xu Shihan about Lin Yi.

After Lin Yi left the bathhouse, he hailed a taxi. "To the sinkhole road."

Lin Yi spoke in English, so the driver could understand.

As for why Lin Yi was going to sky cavern road, the driver didn't ask much-it seemed like his English wasn't that good, and he could only do some basic conversing. He wasn't that good at chatting, but Lin Yi was even happier that no one asked him.

The sky had just brightened, and Tiankeng road wasn't a Commercial Street, so there weren't many people walking around. Lin Yi got out of the car and started looking for red buildings. There weren't many buildings on this Street, and soon, Lin Yi found a red building marked with "conch group" on the side of the street!

Conch group? Lin Yi shook his head. Why didn't they call it the Firewolf group? But his name didn't really matter to Lin Yi. His purpose here was to steal the document from the general manager's office.

Lin Yi bought a newspaper and pretended to be a passerby. He walked to a bench near the conch building and sat down, reading the newspaper like a tourist. No one noticed him.

Lin Yi kept his eyes on conch building, but what surprised him was that there were cars going in and out of the building even in the early morning. This discovery made Lin Yi frown!

After all, a normal company would have no people in the morning, but the conch group was different. There were so many people in and out in the morning, who knew if there would be people at night?

However, looking at the top of the building, many of the lights on the windows were not turned off. It was obvious that they had been turned on at night, but now that it was dawn, they had not been turned off in time. Obviously, there were people working in the conch group at night.

Lin Yi shook his head and picked up the newspaper. He walked to the restaurant across the street and observed that it was owned by a Scottish couple. He could tell from their clothes and the way they talked to their customers.

So Lin Yi chose this restaurant and walked in.

There weren't many people in the restaurant because it was still too early. There were only two or three customers shopping, and these two or three people were all brought in. They didn't choose to eat in the hall at all.

After they left, Lin Yi bought some food and sat down, acting as if nothing had happened as he started chatting with the couple.

"Auntie, you're not from here, are you? Scottish?" Lin Yi asked in English.

"Yeah, young man, how did you know? You're here for a vacation?" The lady boss didn't have anything to do at the moment, so she followed Lin Yi's lead.

"Yes, I've been there before. From your accent, you should be from there. Also, the decorations in your shop and your clothes are all from there." Lin Yi wasn't lying-he'd been to Scotland before on a mission.

"Hehe, this is just a small town, what's so fun about it? There aren't any good scenic spots. " The lady boss smiled at Lin Yi.

Chapter 3269 Business

"I came here to discuss business, so I walked around on the way. Actually, I'm not here for traveling." Lin Yi said.

"I see. However, there's really nothing to recommend you to go to. At most, you can walk around the area and see the local customs." The lady boss said with some regret.

"By the way, what's that red building over there for?" "Cars coming and going early in the morning?" Lin Yi asked casually.

"Oh, you're talking about the conch group!" "That's the biggest trading company in this town, covering almost all the trading industries in the town. The raw materials of our small shops are all supplied by the conch group!" It's also the largest import and export company in this area, so there are people delivering goods and discussing business all night long. "

"So that's how it is." Lin Yi understood, but he was still a little confused. It seemed that the conch group was a local company with no shady interests on the surface. They hid it well, doing civilian trade.

However, Lin Yi didn't believe that the conch group didn't have any illegal businesses. Perhaps it was just a cover-the more they were at the headquarters, the more careful they had to be. It'd be suspicious if a large group didn't have any legal business at all!

And this kind of import and export trade was just right for money laundering. On the delivery side, as long as they were also their own people, they would quote a lower price. One loss, one profit, which saved a lot of trouble.

However, this made it very difficult for Lin Yi to investigate the building. There were people coming and going in the company, and Lin Yi couldn't sneak in. He had to pretend to be a business person, but it would be hard for him to get into the core office area like the general manager's office!

In order to prevent these proper business people from entering those areas by mistake, there would be a lot of security guards patrolling. After all, these things couldn't be shown to these people, so if Lin Yi wanted to go to the key areas, he had to think of a way!

Lin Yi thought that he could finish it in one day, but it seemed like he'd have to spend some effort now.

"What, young man? do you want to do business with the conch group?" The lady owner saw the anticipation in Lin Yi's eyes and asked casually. In fact, Lin Yi's eyes were all fake, he couldn't really show his happiness and anger on his face.

"Yeah, to be honest, I'm also in the trading business. My partner actually takes the goods from the conch group. If I take the goods from him, I'll make less money, so ..." Lin Yi said, pretending to be embarrassed.

"Hehe, I knew it. How could you not know about the conch group? So you're here to use your connections. " The lady boss didn't think much of it-she thought that she'd exposed Lin Yi's Secret. She only smiled,"Actually, the starting point of the conch Group's business is very low. If you have money, you can go and negotiate with them. Take our restaurants for example. Each of us doesn't need a lot of goods, but if we work together, we can be considered a big customer. We can still get goods from the conch group directly!"

"Oh? Don't you need someone to help introduce you?" Lin Yi asked, surprised.

"No need." The lady boss waved her hand and said,"young man, you can just go there directly. There's a reception area at the entrance of their company. State your purpose of visit and he will introduce you to the relevant person-in-charge."

"Is that so? Thank you very much, I'll go take a look now!" Lin Yi smiled politely after hearing the lady's words.

"It's not a big deal. Go, young man!" The lady boss said indifferently.

Lin Yi paid for the meal and walked out of the restaurant, heading towards the conch group. As expected, there was a reception area below the building, and there were many businessmen consulting with each other. Lin Yi was greeted as soon as he entered.

"Boss, what business do you want to do?" A service staff asked politely.

"Seafood." Lin Yi said. He'd only thought of it when he saw the trucks transporting seafood-it seemed like aquatic products were one of the conch group's main businesses.

"How should I address you, Sir?" The waiter nodded and asked.

"My surname is Yi, my name is Yi Ling." Lin Yi said.

"Oh, sure, Mr. Yi." The staff didn't care too much about Lin Yi's name, only doing the registration."Mr. Yi, how much do you want each month?"

"Around 30 million euros." Lin Yi said.

Lin Yi's price wasn't a lot, but it was definitely not a small amount. The waiter's eyes lit up! They were all the lowest-level employees and did not know the company's real background at all. However, their manager had already informed these people that if they wanted a large volume of customers, the price could be appropriately discounted as long as their monthly cash flow reached a certain amount.

Of course, these service staff seemed to be making small profits but quick turnover, but the company's purpose was very simple, which was to launder money. The more cash they inhaled, the better it was for them to operate more conveniently.

"Sir, for a customer of your level, you can meet the account Manager directly!" The staff quickly gave Lin Yi a bill and said, "Now, go to the account manager's office on the second floor and find manager Crick. He will be your business manager in the future."

"Alright, thank you." Lin Yi nodded, took the list, and left the room! Up until now, everything was going smoothly, and Lin Yi had passed the first obstacle. The next step was how to get the customer Manager to bring him to the General Manager!

However, thinking about it, it was a bit difficult. For money laundering, the business manager level was probably the top. At most, one could see the head of the business department. As for the General Manager, it was almost impossible!

However, Lin Yi could only take it one step at a time. After all, everyone knew how to brag. Lin Yi would draw out a few big plans first and see if the other party would take the bait.

Lin Yi stood in front of the manager's door and pondered for a moment before pushing the door open. A man with a crew cut came up to him immediately, smiling, Sir, my name is Crick. Are you looking for me?"

"Yes, I am Yi Ling, the manager of the Buffon family's hotel procurement department. I came here this time to prepare for business cooperation with your company. The hotel near the Buffon family is planning to change to a water product supplier, so someone recommended the conch group to me." The Buffon family that Lin Yi was talking about was a huge arms dealer family in Europe. They had many other businesses under them, and the hotel industry was one of them!

Chapter 3270 A Countermeasure

The head of the Buffon family, old Buffon, who was in his eighties, was his master's good friend when he was young and also his master's disciple. Lin Yi could only think of him as the only person who could pull the flag!

As expected, Crick's expression changed as soon as Lin Yi showed the Buffon family's flag. He looked at Lin Yi with respect,""Hello, Mr. Yi. Welcome to our company for business cooperation. Don't worry, our price and quality are definitely the best in the industry!"

"Of course, to be honest, 30 million euros is just a random number. If we want to expand our business, it will definitely be more than that. So, Mr. Crick, can you help introduce your department manager?" Lin Yi said.

"That's no problem at all!" Even if Lin Yi didn't say it, Crick was planning to introduce Lin Yi to the department head. The Buffon family was a big family, and a small account Manager like Crick couldn't handle this level of order, nor could he sign it. He could only let the department head do it.

"Thank you, Mr. Crick." Lin Yi nodded.

With Crick's recommendation, Lin Yi successfully met the head of red conch's business department, lute. This was a middle-aged man with a big belly, but Lin Yi's intuition told him that this man should know some secrets about red conch!

"Hello, Mr. Yi. It's nice to meet you." Lute shook Lin Yi's hand formally and smiled,"Please come with me, we'll talk in detail!"

"Alright," he said. Lin Yi nodded.

Crick left the office after the introduction, and lute asked his Secretary to pour Lin Yi some tea. When Lin Yi saw lute's Secretary, he couldn't help but narrow his eyes, a flash of disbelief and shock.

Lute didn't see Lin Yi's shock, but Lin Yi had been looking at his Secretary for a long time, and Lute smiled. "Mr. Yi, you're Asian, right? My Secretary is the same. He's a very capable young man, and he was put by my general manager to gain experience. "

Lute was actually trying to express his good impression of Asians, and also to compliment Lin Yi. After all, Lin Yi was the God of Fortune in Lute's eyes! Red Conch needed to launder money. If he could get on the big ship of the Buffon family, then things would be much smoother in the future!

Although it was only the aquatic products supply of the hotel, if they cooperated more in the future, the other facilities of the hotel could be purchased from the Conch group. In this way, the Conch group could get a large amount of cash.

"Yes, I am!" "This kid's not bad," Lin Yi smiled.

Lin Yi's shock came from this Asian guy's looks! She looked almost the same as Lin Yi after he wore the Qiansi mask. Of course, it was impossible to say that they looked exactly the same, but they did look similar.

This discovery made Lin Yi extremely shocked and excited at the same time! After entering the Conch group, Lin Yi had been looking for a way to get to the general manager's office as quickly as possible, but he couldn't find the right way. This young man, on the other hand, gave Lin Yi a shortcut to the general manager's office.

Especially when lute told him that this guy was sent by the General Manager to train him-that was enough to prove that this guy knew the General Manager. If Lin Yi disguised as this guy, he should be able to get into the general manager's office without a problem!

Of course, for a former assassin like Lin Yi, disguising as someone who looked similar to him was an easy task.

However, Lin Yi didn't move at all. He only nodded and got to the point, ""Minister lute, since you know my background, then I...I also know some things about your company. It can be said that our cooperation is a win-win situation. I can increase the cash flow of the conch group, but you must give me the best price!"

Lute was slightly dazed, but remembering that Lin Yi was from the Buffon family, it wasn't surprising that he knew these secrets. The Buffon family was a family that sold firearms, similar to the red conches drug group, but firearms were legal in some places.

However, Lu te believed that the Buffon family would definitely do some illegal firearms business in secret, so it was refreshing to talk to smart people. Lu te immediately smiled and said, ""That's right. Since Mr. Yi is a wise man, I won't say much. You just need to tell me, how much money can your Hotel Group take from me in a month?"

" 50 million to 100 million." "But, this is only a hotel in the nearby area. If your company has enough advantages, you can buy Hotels in other areas that are further away from here," Lin Yi said.

"I understand." Minister lute nodded and said, ""Well, Mr. Yi, can you wait here for a moment? I'll ask the general manager and give you the best price. Even if you have to pay some money and some shipping, it's fine. "

"Alright, I'll be waiting for your news." Lin Yi smiled-this was the result he'd hoped for the most. It looked like lute knew about it, too, and didn't plan on hiding his money-laundering intentions from Lin Yi.

"Secretary Lu, please help me entertain Mr. Yi." Lute waved at his Secretary, then got up and left the office.

"Secretary Lu, right? I didn't sleep well last night, so I'm going to close my eyes and rest for a while. " Lin Yi said with a wave of his hand, telling the Secretary not to prepare any tea for him.

"Alright, then you can rest, Mr. Yi." Secretary Lu said quickly.

Lin Yi closed his eyes as if he was resting, but he wasn't actually. He was using his senses in the Jade space to sense the outside world, and now that he was a Sky Class, locking onto lute was a piece of cake.

Lin Yi's divine sense had been on lute the whole time, and he saw lute get into an elevator after leaving the office. The elevator was for private use, and it wasn't a normal passenger elevator. One had to swipe a card to get in, and this made Lin Yi frown!

Although this kind of card could be copied and deciphered, Lin Yi didn't have the chance to touch it. There must be a surveillance camera in the elevator, and it would take too long to crack it. Lin Yi wanted to get the document as fast as lightning, not to make these people suspicious. If these people changed the location of the base, it would be useless even if Lin Yi got the information.
