

Bodyguard 3271

Chapter 3271 Discovered

However, if Secretary Lu knew the General Manager, he should have this kind of card in his hands, right? Lin Yi calmed down a little at the thought.

Lute took the elevator to the 29th floor of the conch group. He got out of the elevator and walked to the end of the corridor. He knocked on the door of an office.

After a while, an inquiry was heard from the office. "Who is it? What's the matter?"

"It's me, Lute, Secretary Fanny. " Lute was obviously very familiar with the General Manager's Secretary. As soon as he said his name, the office door opened.

"Hello, Mr. Lute. The General Manager is in the office. Please come in." Fanny replied politely.

This action made Lin Yi realize that he had found the right person. It seemed that Lute was really a core member of red conches, otherwise he wouldn't be able to walk into the general manager's office like it was flat ground! However, thinking about it, it was true. The business managers in the business department didn't know, but Lute, the business department head, couldn't not know about the group's money laundering.

"Lute, what's the matter ..." A deep male voice sounded, but just as the voice sounded, the tone changed. "Fanny, can you check if there's anyone following us?"

As he spoke, his Sky Class late phase peak strength was fully revealed, as if he was going to use his spirit sense to sense if someone was following him!

Lin Yi's heart skipped a beat-he didn't expect the red conch to have a Hidden Dragon! Lin Yi remembered that Dafeng bro said that red conches didn't have any strong Masters in the headquarters? From the looks of it, brother Dafeng clearly didn't know much about the core secrets.

Lin Yi subconsciously stopped his spiritual sense. His spiritual power had already been discovered by the other party. If he continued, he might ruin it!

Since he'd achieved his goal and knew where the general manager's office was, he didn't need to investigate further. He didn't really care what Lute and the General Manager said, since he wasn't really doing business. Trade secrets were worthless to him.

Of course, on the surface, Lin Yi was still sitting in Lute's office with his eyes closed, not showing any signs of abnormality.

"Honorable boss, there's no one outside." Fanny might be a pretty Secretary, but she was an Earth Class master. Of course, it was impossible for her to sense Lin Yi's presence with her strength, not to mention that Lin Yi had already removed his divine sense. Fanny couldn't feel anything at all.

"Perhaps I'm being too sensitive." The General Manager nodded. It was only a momentary feeling before, but when he used the mantra to carefully search the vicinity of the office and even the electric ladder, he found that no outsiders had entered, and everything was normal."Lute, what's the matter?"

Boss, the purchasing manager of the Buffon family hotel came and wants to cooperate with us on the purchase of aquatic products." With that, Lu te told the General Manager all of Lin Yi's conditions.

"In that case, this Yi Ling is here to seek help?" The General Manager smiled faintly and said, ""You're giving us a huge order but you don't want us to make money?"

"It's like this. From what Mr. Yi said, he knows that we're in the drug business. This foreign trade is just for money laundering. That's why he's here to cooperate with us." Luther nodded and said.

"Hehe, but it's nothing. With the strength of the Buffon family, it's easy to know our background. He is taking advantage of us, and we are laundering money. It's mutually beneficial!" "We can agree to his conditions," the General Manager said with a smile. "And we can reduce our current lowest wholesale price by another ten percent. However, the premise is that the monthly cash flow must be more than 50 million euros."

"Okay, boss, I'll talk to him." Lu te nodded.

"Of course, you can ask him. If he can make the quota more than 200 million euros, I can reduce it by 20%!" The General Manager said. In fact, the shipping company of the aquatic products was also a subsidiary of red conch. It was a aquatic product breeding company!

If this company wasn't trying to make money, it couldn't even break even. It could only live well with the secret financial support of red conch's headquarters, and the only purpose of this company's existence was to help red conch launder money!

After all, it was really hard to say the cost of breeding. Even if they didn't make money, they could still say that they made money. It was just that it was up to their own people.

"I understand." Lute didn't stay for long. After reporting the matter, he left the office and took the elevator back to his own office.

Fanny, check this Yi Ling's background for me and ask the Buffon family if there is such a person." The General Manager said to Fanny after Lute left.

"Oh? Boss, are you suspecting that there's a problem with him?" Fanny hurriedly asked in shock.

"I don't know. Maybe it's just my intuition. I felt that there was a high-level cultivator investigating my place. I don't know if it has anything to do with Yi Ling." The General Manager said.

"Argh! Okay, then I'll contact the Buffon family in a while. " Fanny hurriedly nodded.

"I'm going to make a deal with President he of the overseas cultivators Association tomorrow. That old man is a sly old fox. I'm afraid he'll play some tricks!" The General Manager continued.

"Oh? Boss, do you mean that Yi Ling is a member of the overseas cultivators Association?" Fanny was taken aback.

"Yes, I'm afraid they're here to check out the place. If they're honest with the trade, it's fine. I'm just afraid they won't be honest." The General Manager said worriedly.

"Boss, since when did the overseas cultivators Association start a drug business? Weren't they cultivators? You didn't even touch these things before?" Fanny was a little confused. This was something she had wanted to ask before.

"It's true that they're cultivators, but I don't know why they said that they're in need of money. It's not easy for me to find out the details. After all, the overseas cultivators Association is a transcendental organization. I don't dare to investigate or offend them too much. " The General Manager shook his head.

Fanny clicked her tongue, but didn't dare to ask any more questions. The red conch was usually strong enough, right? However, compared to the overseas cultivators Association, it was still a lot worse. After all, the overseas cultivators Association was an organization where cultivators gathered. On the other hand, the red conch was just a drug trafficking gang with cultivators.

Lute went back to his office and explained the terms and conditions to Lin Yi, but Lin Yi wasn't interested in that.

Chapter 3272 Unable To Hide

Therefore, after a warm perfunctory reply, he said that he would go back and ask the Buffon Hotel group's Board of Directors to see what the maximum purchase limit could be, and then give Lu te the news.

Lute didn't think too much about it and sent Lin Yi to the door passionately, getting his Secretary to send Lin Yi out of the building.

Of course, this made it convenient for Lin Yi as well. He could secretly take a few photos of Secretary Lu from different angles, so that he could disguise himself when he went back.

After saying goodbye to Secretary Lu, Lin Yi quickly left the conch group and didn't stay for long. The Buffon family hotel group's purchasing manager was all made up. Although Lin Yi's master knew the Buffon family's master, old Buffon, Lin Yi didn't want to trouble old Buffon at all. He didn't want to get him involved in the trouble.

After all, the red conch was not a good person. Although the Buffon family was huge, it was not wise to make an enemy out of nowhere. Therefore, it was very likely that the other party would quickly investigate and find out that Yi Ling did not exist in the Buffon Hotel Group.

Of course, Lin Yi didn't care about that. It was the last time he would appear in the conch group as Yi Ling. He would come again tomorrow, but not as Yi Ling.

Lin Yi hailed a taxi and went to the town's biggest cosmetics market. He came here to buy some necessities for his makeup-he'd be Secretary Lu tomorrow!

It'd been a long time since he'd touched these things, but it was his line of work, after all, and he was very familiar with it. After he'd finished, he went straight back to the bath center.

Of course, Lin Yi made sure that no one was following him before he entered the center.

Lin Yi's guess was right. Secretary Fanny got in touch with the Buffon family very quickly. Although the Buffon family had a big business, it wasn't long before they confirmed if there was a hotel Procurement Manager named Yi Ling. After all, the procurement Manager was a middle-level leader.

The reply that Secretary Fanny received was that there was no one named Yi Ling in the hotel group. There was no such person in the entire leadership team of the Buffon group!

There was indeed a problem!

When Fanny reported this to the General Manager, he wasn't too surprised. He only furrowed his brows slightly, and after a moment of silence, he said to Fanny, ""Fanny, contact the overseas cultivators 'Association right now. Tomorrow's transaction will be carried out in my general manager's office. No one is allowed to participate except for President he TOU!"

"Ah? Will the other party agree to this?" Fanny was slightly taken aback.

"If you agree, then we'll make a deal. If you don't agree, then forget it." "Today's matter is a bit strange," the General Manager said. "I don't need to get into trouble because of a business deal!"

"Yes, my boss." Fanny nodded, and went to carry out her orders.

Perhaps the overseas cultivators Association was really short on cash. In order to close the deal, they actually agreed to the General Manager's request! After all, although the overseas cultivators 'Association was a big business, most of them were stable and unmovable industries. The annual income was basically fixed. If they wanted to take out an extra sum of money, they had to do other businesses.

The reply of the overseas cultivators Association made the General Manager slightly relieved.

Lin Yi didn't go straight to his room, but went to Cheng Yiyi and Xu Shihan's room and knocked on the door.

Footsteps came from the room, but no one spoke immediately. Lin Yi could feel someone standing behind the door mirror, and after a while, the door opened, revealing Cheng Yiyi's surprised face.

"Lin Yi, you're done?" Cheng Yiyi moved aside to let Lin Yi in.

"You're quite vigilant." Lin Yi was very satisfied with Cheng Yiyi's actions.

"Yeah, if anything goes wrong, I'll run away with Han." Cheng Yiyi said.

"En, where's Han?" Lin Yi asked.

"She's asleep. She actually waited for you the entire night. She couldn't hold on any longer, so she fell asleep." Cheng Yiyi said.

"You've also waited the entire night?" Lin Yi asked, looking at Cheng Yiyi.

"I ... I'm a cultivator. It's fine." Cheng Yiyi was a little embarrassed.

"You've worked hard." Lin Yi knew that since Xu Shihan didn't sleep last night, Cheng Yiyi must have stayed with her. Now that Xu Shihan was resting, Cheng Yiyi still had to be on guard, in case someone came looking for trouble.

"It's fine ..." Cheng Yiyi shook her head. "I've hurt han too much in the past. Now, I can only try my best to make up for it ..."

At this point, Cheng Yiyi's expression suddenly changed!

"What's wrong?" Lin Yi quickly asked.

"Feng Tianhu called me before, but I pretended not to hear him. I didn't answer or reply, afraid that I wouldn't know how to answer him if he asked me about what happened here ..." Cheng Yiyi was naturally referring to Lin Yi's actual strength. He wasn't even that strong, let alone killing Sky Class late phase peak Masters. Even if it was a normal Sky Class late phase Peak Master, Lin Yi still wouldn't be a match for them, and he was being chased everywhere.

Lin Yi froze and frowned. The news of he tianzu hunting him down here would probably spread very quickly, and Lin Yi didn't believe that the overseas practitioner's Association had nothing to do with the other ancient sects. From the way they knew about the automatic cauldron, they had some sort of connection with the other ancient sects.

Therefore, once the news that he was being hunted spread out, then his previously bragged god-like ability would also fall from the altar without being attacked! However, this was something Lin Yi couldn't stop. Their mouths belonged to them, and Lin Yi couldn't control them!

He believed that once this news spread, his enemies would be ready to make a move again. He'd have to go back and get himself ... Just the thought of it gave him a headache!

"You tell him the truth!" Lin Yi said after a moment of silence. Since he couldn't hide it anymore, he might as well let Cheng Yiyi tell the truth. Otherwise, he'd be hurting her.

"Ah?" Cheng Yiyi blinked, not expecting Lin Yi to ask her to tell the truth.

"It's impossible to hide this matter. " Lin Yi waved his hand. "The overseas practitioner's Association must have some connections with the other ancient sects. Even if they didn't, they wouldn't be so kind as to keep my secret. They'll probably spread the news and let my enemies come for revenge, right?"

Chapter 3273 Xu Shihan's Discovery

"You're right ..." Cheng Yiyi sighed. Lin Yi was telling the truth, and even if she tried to hide it, she couldn't, ""Then I'll call him back now!"

"Yeah." Lin Yi nodded, "you should rest after you're done. I'll go and get ready. I still have things to do tomorrow!"

"Alright," he said. Cheng Yiyi replied.

After Lin Yi returned to his room, Cheng Yiyi called Feng Tianhu.

"Yiyi? Why didn't you pick up my call earlier?" Feng Tianhu asked.

"I'm with Lin Yi and the others, it's not convenient to pick up. " Cheng Yiyi said matter-of-factly, which was the most effective excuse.

"Oh." Feng Tianhu didn't have the slightest doubt and continued, ""How's the situation over there? Did you sign a contract with that entertainment company?"

"No, something big has happened here ..." Cheng Yiyi said in a low voice.

"Oh? What's the big deal?" Feng Tianhu was slightly taken aback.

"It's like this ..." With that, Cheng Yiyi told Feng Tianhu about how he tianzu from the overseas cultivators Association came to harass Xu Shihan, and how Lin Yi offended he tianzu, and how they got into a fight on the way, and how Lin Yi ran away.

Feng Tianhu was extremely shocked after hearing this! Yes, listening to Chen Yiyi's story, it was a bit like a fantasy story!

"Really? Lin Yi ... Was no match for a Sky Class late phase peak? How is this possible?" He couldn't be blamed for not believing it-after all, Lin Yi's rumors were too godly, and the difference between before and after was beyond his imagination!

"It's true!" "Why Would I Lie to You about such a big matter?" Cheng Yiyi said with certainty.

Feng Tianhu thought about it and agreed. Cheng Yiyi's lies would do her no good in this matter. Besides, whether this news was true or false, the ancient level would probably send news soon. When the time came, they would know!

Therefore, he did not question further and said,""Okay, I got it. You continue to stay by Lin Yi's side and think of a way to ask him why he couldn't even beat a Sky Class late phase peak. Also, what's with the rumors about him killing people instantly?"

"Alright, I understand." "I'll try my best to get information out of him." Cheng Yiyi nodded.

"Okay, I'll hang up first ..." Feng Tianhu had not recovered from the shock. He had to digest this news and inquire about it! He didn't think that Cheng Yiyi would lie to him, since she had no reason to.

However, the matter was too serious. Feng Tianhu didn't believe it directly, but decided to wait and see! After all, so many Sky Class Masters did die! If it wasn't Lin Yi, then who was it?

Cheng Yiyi hung up the phone and turned to leave the washroom, but the moment she turned, she saw Xu Shihan standing at the door with an angry face! "Xiaohan?" Cheng Yiyi could not help but be shocked."You ... You're awake?"

"Yiyi, who did you call just now? You betrayed Lin Yi?" Xu Shihan glared at Cheng Yiyi angrily. She just woke up in a daze to go to the toilet, and when she walked to the door, she heard Cheng Yiyi talking to someone on the phone. At first, Xu Shihan didn't pay attention and wanted to walk in, but when she heard Lin Yi's name, she stopped in her tracks!

Xu Shihan jumped in shock. Cheng Yiyi was actually telling on Lin Yi to the person on the phone!

Of course, Xu Shihan was still very rational and didn't stop Cheng Yiyi on the spot. She didn't know who was on the other end of the phone, and if she stopped her on the spot, wouldn't she alert the enemy? Should he let the person on the other end of the phone know that Cheng Yiyi had been exposed? Would they harm Lin Yi immediately?

And so, Xu Shihan waited until Cheng Yiyi hung up the phone before she questioned her angrily.

"Han, listen to me, it's not what you think ..." Chen Yiyi was panicking. She didn't think that Xu Shihan would wake up at this moment, and that she would be at the door of the washroom, listening to everything she said.

"You're not? I heard it with my own ears, how could it be fake?" Xu Shihan said coldly.

"Han, let me explain ..." Cheng Yiyi didn't tell Xu Shihan the truth. She had already made up her mind, but as time went by, Cheng Yiyi betrayed Feng Tianhu. She didn't want to hurt her relationship with Xu Shihan, so she didn't say anything.

"How are you going to explain this?" Xu Shihan asked.

"Actually ... It's like this. It all started from that time at the orphanage ..." Cheng Yiyi knew that she couldn't hide it from Xu Shihan anymore, so she decided to tell her the truth. It started with the orphanage blocking the attack of the great elder of the dark horse gang for her ...

Xu Shihan's angry expression softened at the mention of Cheng Yiyi standing up to protect her! That's right, Cheng Yiyi's sacrifice to protect her was real, and Xu Shihan had always been grateful to her.

It turned out that Cheng Yiyi knew that the Grand Elder of the dark horse gang had come to assassinate the old principal of her mother's orphanage! Moreover, Cheng Yiyi was aware of the previous assassinations! However, Cheng Yiyi had never been able to kill him!

Xu Shihan's heart softened as she listened to Cheng Yiyi's story. Cheng Yiyi was also a girl with a hard life, and what made Xu Shihan most helpless was the fact that Cheng Yiyi's boss was her own third uncle!

This kind of internal strife in the family made Xu Shihan unable to get angry, she only felt helpless!

"So, Lin Yi already knew about this, and he asked you to tell Feng Tianhu this?" Xu Shihan asked. She didn't call Feng Tianhu third uncle, because she felt that Feng Tianhu didn't deserve to be her third uncle.

"Yes, Lin Yi said that it's impossible to hide it. People will find out sooner or later, so there's no need to hide it." Cheng Yiyi nodded and said.

"Then I've wrongly accused you." Xu Shihan sighed. "Yiyi, to be honest, I really don't want to lose our friendship. It's a good thing you didn't let me down."

"Actually, I've already done a lot of things to let you down, han! "I'm already very satisfied that you can forgive me. I don't dare to hope that we can be as close as sisters again ..." Cheng Yiyi said carefully.

"Yiyi, you're thinking too much. Actually, from the looks of it, you're not a bad person at heart. You're just doing this for your brother's sake. Besides, you've never really hurt me, so I don't blame you."

"Right, where's Lin Yi?" Xu Shihan shook her head.

Chapter 3274 Guessed It

"Lin Yi went back to rest. He has something else to do tomorrow, so let's not disturb him, okay?" At this point, Cheng Yiyi paused for a moment before continuing, ""But, han, if you don't believe me, you can go ask Lin Yi."

"There's no need for that. I believe you. " "I'm just a little worried about Lin Yi," Xu Shihan said with a wave of her hand. "I wonder if the people from the overseas practitioner's Association will be able to find us here. "

"I'm more worried about the ancient sects than the overseas cultivators Association. " "The overseas practitioner's Association is overseas, after all, but those ancient sects ... Will they come after him if he goes back?" Cheng Yiyi smiled bitterly.

"I don't know, but there's no point in us worrying about it. Lin Yi should have a plan by now, right?" Xu Shihan trusted Lin Yi more, she believed that Lin Yi would have a plan.

"You're right, worrying about it ... Is useless. " Cheng Yiyi shook her head with a bitter smile.

After Lin Yi went back to his room, he put on the qiansi mask and looked at Secretary Lu's picture on his phone. He started putting on makeup. Secretary Lu and Lin Yi looked very similar with the qiansi mask on. As long as he put on some disguise, he believed that even lute wouldn't be able to recognize him!

Especially people with Eastern faces-in the eyes of Westerners, they were all the same, and Lin Yi's disguise was basically perfect! As for Secretary Lu's clothes, Lin Yi didn't manage to get them-they were custom-made by the conch group, and Lin Yi didn't have the ability to get them, so he decided to just take them off Secretary Lu tomorrow!

After he was done, Lin Yi took out his phone. He hesitated for a while before calling GE Xian!

"Boss, why did you call me?" GE Xian picked up the phone excitedly. In fact, the ancient level had been filled with rumors of Lin Yi's might. As Lin Yi's follower, GE Xian was very proud. If his boss was strong, this follower would be proud too, right? No one knew that he was Lin Yi's follower, but he was happy for himself!

"It's like this, GE Xian. In the past two days, have there been any rumors about me in the ancient level?" Lin Yi asked after some thought.

"The rumors about you, boss?" GE Xian was slightly stunned. After a moment of silence, he said, ""No. If we're talking about rumors, it's still the rumor that you killed the Grand Elder of the Black Horse gang. Other than that, there's nothing else."

"Oh? If there are any other rumors, let me know immediately. " Lin Yi said. It seemed that the news about him and the overseas practitioner's Association hadn't reached the ancient level yet. Once it did, he'd be in trouble when he returned!

He believed that even if the sky elixir sect didn't go after him, the everyday and every day sect and the Dongfang family would definitely come after him. After all, these two sects had the greatest enmity with him, and they were practically irreconcilable!

"Alright, I got it." GE Xian replied.

In fact, at the same time, Kang Zhaoming had already found out some things about Lin Yi with the help of small one! It was not easy to hide things at the level of the ancient times from the five elements sect. From all kinds of clues, patriarch xuanchen had already roughly deduced a conclusion!

After listening to small one and Zhaoming's report, patriarch xuanchen frowned. His conclusion was a little shocking, but it was reasonable."In that case, whether it was the Dongfang family, the everyday and every day sect, or the Black Horse gang, the people of the blood-clad netherworld sect were all nearby when the incident happened, right?"

"It's like this. We can draw this conclusion based on the tracks of the old ancestors of the blood-clad yellow spring sect!" Little one nodded. After all, as long as the place wasn't a secret place, it was possible to find out that several old ancestors of the blood-clad yellow spring sect had gone to a certain place.

"So, Lin Yi must've hired the people from the blood-clad yellow spring sect to kill the people from the Dongfang family, the everyday and every day sect, and the Black Horse?" When patriarch xuanchen said this, he became a little suspicious again!

It was a reasonable deduction. The patriarchs of the blood-clad yellow spring sect were at the place where the rumors happened, and the sect's business was to kill people. As long as Lin Yi paid enough, it wasn't impossible for the patriarchs to come!

However, the only thing that puzzled patriarch xuanchen was that although the blood-clad yellow spring sect was an anomaly in the ancient sect, they were also a member of the ancient sect. There was nothing wrong with them taking people's money to help them get rid of disasters, but wouldn't killing so many top experts in a row incur the wrath of the masses?

In the past, although the bloody-clothed yellow spring sect also accepted business, they would never accept this kind of task when it involved the head of the sect. After all, if you killed an ordinary disciple, the sect would not care about it. Every debt had its debtor, and they would only find the person who hired the murderer to settle the score.

But you killed their elder or something, isn't this a blood feud? Ancestor xuanchen didn't believe that the blood-clad yellow spring sect would be so foolish. Was he trying to become The Public Enemy of the ancient level? Even if the blood-clad yellow spring sect had the support of the five elements sect, they wouldn't dare to do this, right?

Even patriarch xuanchen himself didn't dare to say that he could easily kill celestial venerable pure Yin of the everyday and every day sect. This would simply create a deadly feud!

However, ancestor xuanchen felt that even if one patriarch in the blood-clad yellow spring sect had gone mad, it was impossible for three to go mad at the same time. Were these three people trying to make an enemy out of the entire ancient level or something?

Or were they backed by someone even more awesome? Patriarch xuanchen was truly puzzled!

"It's possible. Otherwise, Lin Yi had a grudge against the blood-clad yellow spring sect in the past. "
"Zhao Qibing did hire people from the blood-clad yellow spring sect to kill Lin Yi before," Zhaoming said with a nod.

Ancestor xuanchen nodded. He wouldn't believe that Lin Yi was in cahoots with the blood-clad yellow spring sect. There was obviously a huge conflict between the two, but what benefits did Lin Yi use to get the blood-clad yellow spring sect to take action?

If the blood-clad yellow spring sect was determined to support Lin Yi, they would still have to get past the sect first even if they spread the news to deal with Lin Yi! If he wanted to deal with Lin Yi, he had to make the blood-clad yellow spring sect let him go, but how could he do that?

Chapter 3275 A Coincidence

"Did the everyday and every day sect's heavenly venerate pure yang succeed in reaching the great circle?" After a moment of silence, patriarch xuanchen raised his head and asked.

"I'm not sure. I heard that after the death of heavenly venerate chunyin, heavenly venerate Chunyang has been working hard to reach the consummate level. However, there has been no news of him." Small one shook his head, indicating that he was not too sure.

"Go and investigate it, then decide if this news should be released or not." Said patriarch xuanchen.

"Yes, I'll go and find out now." Little one quickly replied.

Ancestor xuanchen nodded. Now, the blood-clad yellow spring sect had two Sky Class late phase peak Masters. This was an advantage that other ancient sects couldn't compare to. The reason why the blood-clad yellow spring sect could become an anomaly was also because of their strength.

Although the five-elements sect could suppress him-the xuanchen and xuanzhen ancestors were Sky Class late phase peak Masters, and the xuanchen ancestor was even stronger than the average Sky Class late phase Peak Master-the five-elements sect really couldn't do anything about this!

With boss Bai around, the xuanchen ancestor had to be careful of boss Bai. Since they had made an agreement, the xuanchen ancestor would not interfere with anything related to Lin Yi on the surface. If he had to do it, he could only do it in secret.

Therefore, only the everyday and every day sect, the Dongfang family and the dark horse Association could deal with the blood-clad yellow spring sect. However, they must have the strength to do so!

The everyday and every day sect only had One Sky Class late phase peak, and that was kuangniu. Celestial master pure yang was trying to break through to Sky Class late phase peak, but whether he'd succeeded or not was still unknown!

The Dongfang family currently did not have a master in the Great Perfection realm, and the one with the most potential to reach the Great Perfection realm, the Silver Star of the East, was already dead. Furthermore, Dongfang Badao was too old and had already passed the peak of his cultivation. It would not be an easy task to reach the Great Perfection realm.

The last one was the Black Horse gang-they only had one grand Elder who was in seclusion, and the president who'd just broken through to Sky Class late phase peak.

However, in order to kill the three old ancestors of blood-clad yellow spring sect with an absolute advantage, they must have at least three experts of Great Perfection realm. It would be difficult to kill three of them, let alone four.

Therefore, it was crucial for heavenly venerate Chunyang to successfully advance to the great circle.

Patriarch xuanchen was used to planning before taking action. If he did not have absolute confidence in defeating the blood-clad yellow spring sect, he would rather not release the news for the time being! After all, as long as the yellow spring sect was still alive, it'd be difficult to touch Lin Yi.

.....

Lin Yi looked at himself in the mirror after putting on makeup-he looked exactly like the Secretary on the phone! Lin Yi left the bath center after he was done.

Of course, there were so many people in the bathhouse that no one would notice if Lin Yi was a customer or not.

Lin Yi got a taxi and headed to red conch group.

Soon, they arrived at the conch group. Lin Yi paid the taxi fare and walked in with a swagger. He looked like Secretary Lu now, and everyone in the group probably knew him.

As expected, someone greeted Lin Yi as soon as he entered the company.

"Secretary Lu, why did you go out? Wasn't she in Mr. Lute's office just now?" A staff member from the business department of the conch group greeted Secretary Lu.

"Haha ..." Lin Yi smiled and mimicked Secretary Lu's voice, "I went out to do something."

"Oh ..." The employee didn't suspect anything and went back to his work, while Lin Yi took the elevator to Lute's office.

What Lin Yi needed to do now was to find Secretary Lu as soon as possible. He had to knock the Secretary out and wear his uniform to the General Manager of the conch group.

Lin Yi didn't walk around after exiting the lift, but went straight to the men's bathroom. This floor wasn't like the one below, and if Lin Yi and Secretary Lu showed up at the same time, they might be discovered. Lin Yi decided to wait in the bathroom.

He didn't believe that the Secretary wouldn't come to the washroom all the time—it'd be Lin Yi's chance if he did.

Lin Yi started his long wait in the washroom, but luckily there were many cubicles. One of them was locked for a long time, so no one would suspect anything.

Patience was something Lin Yi could do easily. He waited for more than three hours, but Secretary Lu still didn't show up. Lin Yi wasn't in a hurry, and finally, after three and a half hours, Secretary Lu walked into the washroom!

The Secretary was in the urinals, and Lin Yi wasn't in a hurry. He waited for the Secretary to finish urinating and put on his belt before appearing behind him. He took out the nine Fu Xi needles from the Jade space and stabbed the Secretary a few times, and the Secretary fainted.

With Lin Yi's acupuncture, Secretary Lu wouldn't wake up for a while, and most importantly, he'd lose his memory for a short period of time after he woke up. He wouldn't remember what happened before.

This was the effect Lin Yi wanted to confuse the people from red conches.

He dragged the Secretary into a cubicle and quickly took off his shirt, pants, and watch. He put them on and locked the door before jumping out!

Lin Yi was now Secretary Lu.

Lin Yi didn't stay long after he left the washroom. He took the elevator and went to the floor where the general manager's office was. He had Secretary Lu's elevator card in his pocket, and he passed the verification process easily.

The elevator went up slowly and stopped on the 29th floor. The door opened, and Lin Yi walked out. There was another person in the corridor! This person was the General Manager's Secretary, Fanny!

"Eh? Isn't that Lu Xiansheng? What are you doing here? Are you looking for the boss?" Fanny looked at Lin Yi, confused.

"That's right, miss Fanny. What are you doing?" Lin Yi already knew Fanny's name from her name tag. He heard it when he used his perception yesterday, but he didn't know how it was spelled.

"Mr. Lu, the General Manager is receiving the guests of the overseas cultivators Association. He doesn't have time to see you for the time being. If you have anything to say, you can arrange another time. I was just about to get some hot water and make coffee for the guests." Fanny said.

Chapter 3276 Bizarre Thoughts

"Oh, I see!" "Great, I'll go get some water with you then." Lin Yi nodded.

Lin Yi didn't think that the huge conch group would have no hot water in the general manager's office, and that they had to go to the hot water supply point on every floor to get hot water. He wasn't too sure about the internal management of the company, but it would be easier for him to get close to the general manager's office.

"Alright." Fanny readily agreed. "It just so happens that I can't carry all of them on my own. You can help me carry them in. You're not an outsider, after all."

"Of course, no problem." Lin Yi nodded.

Not an outsider? Lin Yi really didn't know why he wasn't an outsider! However, it was true that Lin Yi knew that the General Manager had arranged for Secretary Lu to train by lute's side. Perhaps the Secretary was a relative of the General Manager's family?

Lin Yi wasn't wrong-Secretary Lu was the brother of one of the General Manager's concubines, and that was why he treated him so well. Of course, Lin Yi didn't know about this.

He went to the hot water supply with Fanny to get some hot water. He then took the coffee and walked to the general manager's office with Fanny.

Fanny was well aware of Secretary Lu's identity. In fact, she was also the General Manager's confidant. Such nepotism was a common occurrence in the conch company, and she didn't treat Secretary Lu as an outsider at all.

After knocking on the door, Fanny pushed it open, and Lin Yi walked in with a cup of coffee.

The General Manager was slightly surprised to see someone behind Fanny, but when he saw that it was Secretary Lu, he didn't say anything. After all, she was one of his own, and she knew the company's secrets.

Lin Yi placed the coffee in front of the General Manager and ... The president of the overseas practitioner's Association, bullet head! Yes, Lin Yi was extremely shocked at this moment. He didn't think bullet head would appear here. Did bullet head he know that he was in Ruida town and wanted to find him through the red conch?

Lin Yi's heart skipped a beat at the thought, but he kept his face impassive. He was Secretary Lu, after all, and had nothing to do with Lin Yi!

"President he, the goods are ready. I wonder if you've prepared the money?" The General Manager didn't seem to mind Lin Yi at all.

"Of course." Bullet head he pointed at a suitcase at his feet and nodded.

Lin Yi heard the conversation between the two and relaxed. So these two were here to trade drugs, it had nothing to do with him! However, why did this President he want to trade drugs? The overseas cultivators Association was doing well. Why did they start doing this kind of business?

Of course, what Lin Yi didn't know was that President he wanted to buy a batch of automatic cauldrons, but he was shocked when he asked patriarch xuanchen about the price! Why was this thing so expensive? The internal price wasn't cheap either. President he wanted to buy a few dozen medicinal cauldrons, which was already over ten billion. Where would President he find so much budget?

Without money, he could only think of ways to earn it. The overseas cultivators Association's previous businesses all had fixed income. It was impossible to say that one of the businesses could make more money as it wished.

Therefore, President he and the higher-ups of the overseas cultivators Association had a discussion. It was better to sell drugs. This was the fastest way to earn money. Moreover, they had their own hotels and bars. They did not do this business in the past because the overseas cultivators Association did not want to be involved in the underworld. With stable income, there was no need to worry about these things.

But it was different now. If he didn't earn this money, he wouldn't have the money to buy an automatic medicinal cauldron. So, President he personally visited the conch group to carry out the drug deal.

Of course, President he was a Sky Class late phase peak, and that was why he dared to go alone. If it was someone else, they wouldn't dare to come here! However, it was precisely because the overseas cultivators Association was powerful and it was the first time doing business with the conch group that the General Manager was so careful. He was afraid that the other party would backstab him and decided to carry out the transaction in the conch group's headquarters.

"Alright, since we're all smart people, then we won't say much." "President he, shall we make the deal now?" asked the General Manager.

"Alright, sure." "But, shouldn't you let me see the goods first?" He dan TOU nodded.

"Naturally, there's no problem." The General Manager nodded. To buy something, one had to look at the goods. This was the law that almost all transactions followed. It was not a rare thing to get the goods first and pay later.

The General Manager waved his hand at Fanny, and said, ""Fanny, go and get the goods."

"Okay, boss." Fanny nodded, then turned around and went into the office.

"I'll help you. " Lin Yi said, grabbing the chance.

Lin Yi had seen that there was no safe in the outer room of the general manager's office. Obviously, no one would place a file safe in the outer room, they would put it in a place where no one else could access.

Fanny didn't say anything, allowing Lin Yi to follow her into the room. Even the General Manager didn't find anything wrong with it. Secretary Lu's sister was his concubine, and she had already given birth to a son for him. He trusted Secretary Lu as much as Fanny.

Moreover, Secretary Lu used to be a warm-hearted and hardworking young man. Otherwise, even if he was his brother-in-law, the General Manager might not have taken a fancy to him. He had entrusted him with an important task and arranged him to learn by Lu TE's side. This was also in preparation for him to take over a higher position in the future.

Lin Yi and Fanny entered the office together, and Lin Yi immediately saw the safe near the desk. Unfortunately, the safe was double-verified with a password and a fingerprint, so it couldn't be missing.

Of course, Lin Yi could use brute force to break it, but he couldn't do it now. Even if Fanny wasn't here, she wouldn't have the time.

What to do? How could he get the yellow document from the safe? If only he could retrieve things from a distance. As long as he thought about it, he could get the yellow document in the safe. How great would that be?

Eh? Lin Yi suddenly had an idea! His jade pendant ... Could it do it?

Normally, Lin Yi used his mind to put things into the Jade space. For example, if Lin Yi saw an item in front of him, he just needed to think and put the item into the Jade space. Then, the item would enter the Jade space smoothly without Lin Yi having to do anything.

And now, if Lin Yi wanted the yellow folder in the safe, could he get this folder into the Jade space as well?

Chapter 3277 The Heaven And Earth Great Shift

With that in mind, Lin Yi took advantage of the time Fanny was opening the manager's closet to walk over to the safe. He then activated his will and sent the yellow folder into the Jade space.

All of a sudden, two yellow folders appeared out of thin air in the Jade space. This discovery made Lin Yi both surprised and happy-his hypothesis was correct. As long as he thought of something, and it could fit in the Jade space, he could put it in the Jade space, even if it was separated by a safe!

Elder Jiao said that the Jade space was some kind of fourth-dimensional space, and wasn't restricted by the three-dimensional space. The rules of the two were different, and Lin Yi easily stole the folder!

Of course, Dafeng bro said that there was only one yellow folder, and Lin Yi got two. One of the folders must be something else, not the address of the base, but it didn't matter. He'd take it back first. Lin Yi didn't dare to take it out now, since Fanny was right next to him.

After that, Lin Yi went to Fanny's side quietly, and she pulled out a small black box. It was obviously filled with drugs!

"It's here. It's so heavy. You can carry it. " Fanny said to Secretary Lu.

Lin Yi nodded, happily taking the box of drugs and leaving the office with Fanny.

"Boss, I've brought the things." Fanny pointed at Lin Yi as she spoke.

Lin Yi placed the box on the coffee table and opened it, showing the contents to the president.

"President he, please inspect the goods!" The General Manager nodded and said to President he, "I believe you're an experienced man. Before you came, you've done some research on the purity of the drugs. I've prepared the purest goods for you. After all, you and I are both leaders of reputable organizations. I can't lie to you just because of a deal."

He dan TOU did do his homework on drugs, and did a preliminary test on the drugs in Lin Yi's box. He found that it was just as the General Manager said-the box was full of high-purity goods. He smiled in satisfaction, "President he, if that's the case, then we'll hand over the money and the goods!"

As he spoke, bullet head was about to pick up the box of money on the ground and place it on the coffee table for the General Manager to see.

However, He dan TOU's action made Lin Yi's heart skip a beat! The whole box was in euros! Judging from the size of the box, there were at least a few hundred million euros in it! If they could get it, it could solve the financial crisis of the orphanage!

With that thought, Lin Yi moved the money into the Jade space without making a sound. The space in the Jade wasn't big, but it was more than enough to fit the whole chest of euros. In an instant, the whole chest was empty-all the Euros had gone into Lin Yi's Jade space.

It was at this time that bullet head entered the password into the box, and the box opened with a bang. However, the box did open, and everyone except Lin Yi was stunned!

This box ... Was actually empty! Of course, the one who was the most surprised was bullet head he himself. His face immediately turned gloomy and his breathing became rapid. After a long while, he said angrily, "General manager, what's the meaning of this?"

"President he, I was going to ask you the same question. You brought an empty box to trade, and you're asking me what I mean?" The General Manager's face also became gloomy. The box was empty, which made the General Manager wonder if this President he was trying to Rob him.

"What do I mean by bringing an empty box? How could I bring an empty box to trade?" As He dan TOU spoke, he lifted the box with his hand and said coldly, "I know clearly whether this box was filled with money or not. Now that it's empty, how can I not feel it?"

"President he, from what you're saying, you don't think that I've taken the money in the box, do you?" The General Manager also asked coldly.

"Hmph!" Bullet head he snorted coldly. Although he didn't say it clearly, the meaning was self-evident.

"President he, what I want to remind you is that this box has been at your feet since we entered. I haven't even touched it. Also, do you think I can take the money without opening the box? Who do you think I am? A magician? I don't think even a heavenly Dao expert has the ability to take things from a distance, right? This was no longer something that cultivators could do. If it wasn't high-tech, then it must be some special ability! "However, do you think that there's such technology or such special abilities now? If I had this ability, I would go to the bank to move gold bricks, and I wouldn't have to sell drugs to make money!" The General Manager's face regained its calmness and he explained indifferently, ""Of course, this doesn't rule out the possibility that President he is a thief trying to call for a thief and deliberately framing others!"

"You ..." President he was pissed off by the manager's words, but he wasn't stupid-it was true, the box had been by his feet the moment he came in, and it wasn't even with him. Plus, he was a Sky Class late phase peak-there was no way he wouldn't notice if someone opened the box and stole the money right under his nose. Plus, the money in the box wasn't a small amount-even if he wanted to move it, it would take a while-who could steal it all at once?

However, it was impossible to say that the box had been replaced because he had set the password himself. Moreover, there were some symbols of the overseas cultivators Association on the box. It was impossible for the red conch to make such a fake box in a short time!

Besides, who could have switched the box under his nose?

Therefore, President he was also a little puzzled at this moment. Was this a ghost? Did I not bring the money over at all? He was also a little uncertain! After all, this matter was very strange. If the money had disappeared into thin air, it would be really strange.

"Alright, do you have a computer here? I'll transfer the money to you!" Bullet he took a deep breath. Although he was very puzzled, he couldn't stop the transaction. He didn't have cash, so he could only use the transfer method.

Although it would be a huge loss if he really lost the money, he would lose everything if he did not continue with the deal.

"Yes, I can." The General Manager was also a little puzzled as to what this President he was up to. Was this person sincere in the deal? Did he really give her money? However, this was not important as long as bullet he agreed to the transfer."Fanny, go and key in my account number on my laptop, then bring it over!"

Chapter 3278 Songshan Orphanage

"Okay, boss!" Fanny nodded and turned around to go to the office to get her laptop.

Lin Yi, on the other hand, followed behind Fanny as if it was only natural, looking as if he wanted to help.

It was Lin Yi who had brought the drugs over before, so neither Fanny nor the General Manager had any suspicions about him.

Fanny was clearly used to doing this for the General Manager. She turned on her laptop and opened up an online bank page with ease. She entered the conch group's company account number, and below it was the account number and password for the cashier. It was time to enter the password for bullet head.

"I'll help you!" Just as Fanny was about to pick up the laptop, Lin Yi appeared and extended his hand, gesturing for her to give it to him.

Fanny didn't think too much about it and nodded. She let Lin Yi pick up the laptop, and the two of them walked out.

However, Lin Yi intentionally walked half a step behind Fanny. He'd been staring at the laptop the whole time, and while Fanny wasn't looking, he quickly started typing on the keyboard.

Lin Yi's hands were pretty fast, or he wouldn't have been able to take the money from the scammers and Wang Xinyan when he first came to Songshan. He finished his operation as soon as he stepped out of the room.

After walking out of the room, Lin Yi placed the laptop in front of bullet head respectfully and smiled, ""President he, please enter your card number and password!"

The laptop screen was facing bullet he, and neither the General Manager nor Fanny looked at it because they had to enter the password. Lin Yi, on the other hand, avoided suspicion, "The coffee's cold, I'll go get some hot water!"

With that, Lin Yi pushed the door open and walked out of the general manager's office!

"President he, please inspect the goods!" The General Manager nodded and said to President he, "I'm sure you're an old hand, and you've done your homework on the purity of the drugs before coming here. I'll prepare it for you, but of course, Lin Yi didn't come out of the office to get hot water-he's running. He's already got what he wanted, and he'd be looking for trouble if he stayed here.

And so, Lin Yi went into the elevator, but he didn't go straight to the bottom floor, but to the floor where the real secretary had fainted. He quickly walked into the washroom, switched his clothes with Secretary Lu 's, and massaged the back of her neck a few times before pushing the door open and walking out. He estimated that the Secretary would wake up naturally in about ten minutes.

After Lin Yi was done, he quickly got into the elevator and left the conch group. He stopped an inherited car outside the building and quickly left.

Upstairs, in the general manager's office.

"Okay, general manager, I've successfully transferred the money. 300 million euros is the price we agreed on before." Bullet he pressed the confirm button on the computer, entered the text message Captcha on the phone, and completed the transaction.

"Yes, there's a notification on my phone. I'll be fine later." The General Manager nodded in satisfaction when he saw President he transfer the money so quickly. He also relaxed his vigilance. It seemed that the overseas cultivators Association was still very sincere in the deal. The disappearance of the euro in the box might have been an accident.

However, after waiting for about five minutes, the General Manager still didn't receive a text message notification from the bank. He couldn't help but frown slightly! His account was set up in one of the world's most advanced and efficient banks. Most transfers were received in real-time, and it was impossible for there to be no transfer after five minutes.

"President he, what bank are you from? It's been five minutes, why hasn't it arrived yet?" The General Manager could not help but ask.

"It's xxx bank. Don't we, who do gang business, usually set up accounts at xxx bank? It's safer and more efficient. " "You haven't received it yet?" bullet head he was slightly taken aback.

"That's impossible. It's the same bank as me, so it shouldn't be so slow." The General Manager also frowned, feeling that this matter was a little strange.

"My phone has received a notification that the transfer is successful. I want you. Can you call and check?" Bullet head he asked after a moment of silence.

"That's good. " The General Manager nodded before pulling out his phone and making a call to the bank. Of course, not even Fanny knew the password to his account; she only knew his bank account number.

After a while, the General Manager's brows furrowed slightly. He hung up the phone and said to bullet he, ""President he, I didn't receive your payment!"

"That's impossible. Look at the computer, it clearly indicated that the transfer was successful!" Bullet he was anxious as he pointed at the computer screen.

"Let me see?" The General Manager also felt a little strange. Could it be that there was a problem with the banking system? He turned his head to look at the computer screen that bullet head had moved over. It indeed showed,"the transfer has been successful. 300 million euros have been transferred to the account ..."

Seeing this, the General Manager could not help but be stunned. Then, he said, ""President he, did you transfer the money to the wrong person? My bank account is called conch group Trading Co., Ltd, not Songshan orphanage!"

"What Songshan orphanage?" Bullet he was stunned as well, but when he saw the name of the account he had transferred the money to, his face immediately showed surprise and anger. "General manager, are you kidding me? This is the account name your Secretary entered for me. I don't even know this Songshan orphanage!"

"Fanny, what's going on?" The General Manager turned to Fanny with a confused expression.

"Boss, that's impossible. I don't know any orphanage. I personally entered your account information. There's no mistake!" Fanny said with determination.

The General Manager nodded. In his opinion, Fanny wouldn't make such a low-level mistake. Besides, he had no connection to Songshan orphanage at all, so even if she did make a mistake, it couldn't be this ridiculous!

Therefore, the General Manager's gaze on bullet head he was a little unfriendly. ""President he, I think you're the one who's playing the game of a thief crying thief, right? I'm not afraid to tell you that Fanny is my woman, and she's the one who handles my money-laundering business every month. There's at least ten billion euros in money that she handles every month, so there's no way she could've stolen that little money! As for this computer, other than her, you're the only one who's touched it, and you changed it to something called Songshan orphanage, right? This is your Smurf, right?"

Chapter 3279 Both Sides Suffer

"F * ck your Grandpa! You're slandering me!" Bullet head's face was red with anger as he pushed the computer, smashing it into pieces against the wall. He jumped up, showing off his Sky Class late phase peak strength!

In bullet he's opinion, the General Manager was trying to backstab him, and he and Fanny were just playing a double-timer! He had felt that something was wrong before. He had lost a box of euros for no reason, and now the money was transferred to some orphanage!

Other than bullet he himself, everyone else here was the General Manager's men, so it was no wonder he was suspicious.

"He dan TOU, are you playing tricks with me? you want to take my drugs without spending a single cent, right?" The General Manager stood up as well, his Sky Class late phase peak strength fully displayed!

From the General Manager's point of view, which warhead was behind this? first, it used an empty box to fish in troubled waters, and when it saw that it could not be deceived, it transferred the money. In the end, it was transferred to the account of an orphanage. Was it trying to deceive people?

"Hmph, who knows who's playing tricks? general manager, if you give me the box of drugs now, I can pretend that nothing has happened. I'll admit that I'm unlucky to lose the euro in this box!" "Don't tell me that the orphanage isn't your account!" He dan TOU snorted coldly.

"Bullet head he, how can you say this? I think you're the one who's trying to get something for nothing. If you get lost now, I won't pursue this matter. The conch group doesn't welcome such an insincere business partner!" The General Manager also said angrily.

"You're looking for death!" When had he dan TOU ever suffered this kind of anger? He couldn't take it anymore. He took out a soft whip from his waist. This was his heaven-grade divine weapon, and he whipped it at the General Manager!

This soft whip was very similar to the heaven-grade divine weapon that small one used. However, small one's was a real heaven-grade divine weapon, while he Dan's was a similar one that he had collected from the five elements sect.

Small one's weapon was still in Lin Yi's hands.

"You're the one who's looking for death, right? You still dare to make a move in the conch group's headquarters?" The General Manager flew into a rage. He also pulled out two Balls of Fire from his legs and threw them at bullet head he. These were his heaven-grade divine weapons ...

Boom ... Boom ... Boom ..."

A loud noise came from the CEO's office-the two Sky Class late phase peak Masters were fighting ...

At this time, the real secretary Lu, who was lying in the toilet cubicle, slowly woke up. He didn't know what happened to him. He only remembered that he went to the toilet and didn't know what happened after that.

Could it be that he had fainted in the toilet? Secretary Lu quickly checked his body and found nothing unusual. There were no injuries on his body, and nothing was lost. He could only think that he had fainted in the bathroom because he was too tired and lacked sleep!

In fact, he had been quite tired these few days, so he didn't think much about it.

At this moment, Lin Yi had already changed two taxis and returned to the bath center! Lin Yi's goal was achieved-of course, he didn't know that the two Sky Class late phase peak Masters were already fighting. If he did, he'd probably be speechless.

He didn't think that Lin Yi would change the account on a whim, and bullet he really fell for it!

Of course, if he warhead had discovered the transfer before it happened, the result would be different. At that time, the General Manager would definitely not think that he warhead had modified it, nor would he think that Fanny had done it. Then, it could only be "Secretary Lu"!

And so, Lin Yi was afraid that something might go wrong. Before he returned to the bath center, he changed back to his original appearance, entered the bath center, quickly knocked on Xu Shihan and Cheng Yiyi's door, and ran away with the two.

The car was stolen by Lin Yi before, and it belonged to a local street racer gang. They probably stole it, so they didn't look for it after it was lost, letting Lin Yi Park it not far from the bath center.

Lin Yi didn't explain further and brought the girls to the nearest airport in town.

At noon, a large passenger plane took to the sky and flew to the city closest to Island X.

In the first-class cabin, Lin Yi reserved four seats. He had one row of seats, and Xu Shihan and Cheng Yiyi had another row. The two outer seats were facing each other, making it easier for the three to chat.

"Lin Yi, what's wrong?" Cheng Yiyi asked in a low voice.

"It's nothing. It's all settled. " Lin Yi obviously wasn't going to tell Cheng Yiyi and Xu Shihan about what happened in Ruida town, so they wouldn't worry for nothing.

And so, Cheng Yiyi didn't ask any more questions, and started chatting with Xu Shihan.

When the plane landed in the city closest to Island X, Lin Yi, Xu Shihan, and Cheng Yiyi got on the transfer flight yang Qiqi had arranged for them to go to Island X. Only then did they relax.

They were finally completely safe! But Lin Yi was a little surprised-why didn't the conch group send people to search for him after something this big? As long as he pulled up the previous surveillance video, he could determine that the previous "Yi Ling" was a suspicious person. Then, after comparing it with bullet head he, his identity was almost obvious. With the abilities of the red conch and the overseas cultivators Association, it was possible to conduct a large-scale search in the vicinity. Why didn't anyone intercept him along the way?

But what Lin Yi didn't know was that the General Manager and bullet head were both heavily injured, both of them suffering from serious internal injuries! However, even so, the General Manager did not dare to kill warhead he. He only asked the overseas cultivators Association to send someone to pick up warhead he.

After all, He dan TOU's death had created a huge enmity between them. However, since they were only seriously injured and both of them were in a bad state, this matter could be considered over. When both

of them recovered and calmed down, they could renegotiate and discuss who was right and who was wrong.

But for the time being, the two were heavily injured, and there was no chance to negotiate. If the master didn't say anything, the underlings naturally wouldn't act rashly, so the matter was delayed, giving Lin Yi a chance!

In fact, Lin Yi regretted it the moment he entered Songshan orphanage's account-it didn't matter if the transfer was successful or not, the overseas practitioner's Association and red conch would send people to search for him if he bullet found out he wasn't even out of ruileida!

Secondly, Lin Yi was afraid that bullet he and the General Manager would come to Songshan city to take revenge on Yu Xiaoke for the account of Songshan orphanage, but after thinking about it, the possibility of the second possibility was smaller. After all, if the red conch wanted to do something in the country, it had to go through Dafeng bro, and Dafeng bro was Lin Yi's subordinate, so there was no need to worry.

Chapter 3280 Childhood, Future

As for He dan TOU, it wasn't easy for him to come here and cause trouble. After all, he'd suffered a loss once. If he came again, he wouldn't come for an orphanage. Besides, they didn't know if the orphanage had anything to do with Lin Yi.

After all, this was only Songshan orphanage's donation account, and anyone could transfer money to it. Lin Yi might've just entered a public service account randomly to trick bullet head.

But now that he'd reached Island X safely, he didn't have to worry about that anymore. He saw a car with a butterfly logo outside the airport, and he knew that it was Qiqi's car.

Lin Yi was very familiar with this symbol-he'd been in this organization for many years, and it was through this symbol that he'd recognized Qiqi as an assassin from the organization, and saved her.

After Lin Yi got off the plane, he got into the car with Shihan and Yiyi. As expected, yang Qiqi was waving at them with a smile! What made Lin Yi nervous was that 9th ... Was there too!

This was a girl who always helped Lin Yi in his daily life and missions. Lin Yi's breath tightened. He knew what nine was thinking, but he had a different opinion of her.

At that time, Lin Yi thought that the people in the assassin group were all wandering, with no future to talk about and no way to know their own future, so he ignored Nine's hints again and again.

Including Yu Ning's confession, Lin Yi also placed it in his heart.

But it was different now, and Lin Yi's thinking had changed. He didn't have to worry about these feelings anymore-their fates were similar, after all, and Lil Jiu was an inheritor.

In essence, she was no different from Chu Mengyao, Chen Yushu, and Feng Xiaoxiao. They were the same kind of people, and so Lin Yi could face her honestly now. He just didn't know if the feelings in her heart would still be love when they met again.

The good feelings of childhood may have stubbornly existed for many years, but when they met again as adults, they realized that this good feeling was just a child's play. In reality, things had changed.

Lin Yi's feelings were complicated when he saw nine again. He didn't know where he thought of her-was she his childhood playmate, or was she just a little sister, or was she still his first love?

To be honest, Lin Yi really did like seven and nine when he was young, but as he grew older and knew his mission, he buried that feeling deep in his heart. As time went by, Lin Yi didn't even want to see seven and nine face to face, because he didn't know what to say to them.

This was also the reason why Lin Yi didn't return to Island X, the place he used to live in when he was young.

However, Lin Yi had already thought things through. Some things couldn't be avoided just because he wanted to. Some people were destined to appear in his life.

Yang Qiqi, for example, had run into him time and time again in the test.

Take Lil 'Jiu for example-they kept in contact on the phone, but Lin Yi always avoided the relationship problems between them, and yet Lil' Jiu became an inheritor! Lin Yi couldn't avoid it.

Lin Yi already had too many inheritors for his women, and he couldn't reject nine joining them.

It was like fate was playing a joke on Lin Yi-nothing had changed from the start.

"Ninth Princess, long time no see." Lin Yi said after adjusting his emotions.

"Hmph," he snorted. A flash of surprise crossed Nine's eyes when she saw Lin Yi, but she still snorted coldly, "A long time? You're the one who doesn't want to see me, right?"

Lin Yi couldn't help but feel a little embarrassed by what she said. He laughed dryly and didn't continue the topic. He turned to Qiqi. "Qiqi, did the overseas cultivators Association cause you any more trouble?"

"No, they didn't. They just asked about it and didn't look for me again." Qiqi said, shaking her head.

Naturally, the overseas practitioner's Association wouldn't be so stupid as to touch Qiqi-she wasn't a solo practitioner with no foundation, after all. Even if she was a solo practitioner, it'd be disheartening to question her without any evidence.

In fact, everyone joined the overseas cultivators Association to seek protection from the organization. However, once the members were suspected and questioned, who would join the overseas cultivators Association in the future?

Luckily, nine was only complaining to Lin Yi to vent her dissatisfaction, so she didn't blame him too much.

She used to be in charge of the intelligence and overall planning of the entire killer organization. In her position, nothing in the killer organization was a secret to her. She was already numb to seeing killers sacrificing themselves from time to time.

She understood Lin Yi's thoughts-he was an assassin, too, and he couldn't see his own future. He couldn't Promise Her Anything, and he didn't dare to! She and Qiqi were the same.

Hence, there was no reason for nine to blame Lin Yi. Now, her identity had changed, and Lin Yi's identity had changed. Only then did they have a chance for the future, but this future was still very uncertain.

The inheritor plan, whether it was dangerous or not, and whether Lin Yi would be able to participate in it were all unknown. Although Lin Yi's thoughts had changed, the situation wasn't any better. Instead, it became even more unknown.

"Lin Yi bro, don't think too much about it. The future will have its own results. Can we go back to our childhood days and play around?" Little 9th had also thought it through and decided to cherish the good time in front of him.

"Alright!" Lin Yi had been exhausted during this period of time, and he still had to face the troubles that would come one after another when he returned to Donghai city! His true strength had already been exposed. Perhaps, after he returned, the Black Horse gang, the everyday and every day sect, the Dongfang family, and even the ancient Feng family would come to settle the score with him?

At that time, how would he deal with so many people looking for trouble with him?

Since he couldn't think of a way to solve it, Lin Yi might as well stay here and relax. He'd been too tired recently!

Of course, as long as Lin Yi didn't go back, the people around him wouldn't be a problem for the time being.
