Chapter 3291 The Flaw Of The Jade Space

GE Xian explained the information he got to Lin Yi in detail, "Right, they found out that those Sky Class Masters were all killed by the blood-clad yellow spring sect ..."

"Oh?" Lin Yi couldn't help but frown. These people had actually found out about the blood-clad yellow spring sect? To be honest, Lin Yi felt sorry for the three old ancestors. Although the man was killed by them, he also gained an advantage. He quickly asked, "Then ... Have they gone to find the people of the blood-clad yellow spring sect?"

"He should have gone, but ... There's no result. The people of the blood-clad yellow spring sect are unscathed, but the president of the Black Horse Association, Qian Boguang, is dead. Of course, I can't find out how he died. I only know that he's dead!" "The current situation is that all the members of the revenge Festival have fallen silent. I don't know what kind of agreement they have reached with the blood-clad yellow spring sect in secret. As a result, the current situation has become like this ..." GE Xian said.

"Oh? That's weird ..." Lin Yi frowned. There was no need for Lin Yi to rack his brain for information that even GE Xian, an ancient person, didn't know about. There must be something that no one knew about, but Lin Yi didn't have access to it at his level.

"Then ... Other than that, is there any news that they've come to find me?" Lin Yi asked.

"Not yet. I don't know what the people of yellow spring sect said to them, but they've all given up. "

"There's no news of any progress so far," GE Xian replied.

"Alright, I got it. Help me keep an eye on these people's movements. If they want to find me, let me know immediately." Lin Yi said after a moment of silence.

It was weird, but Lin Yi decided to wait until things calmed down before going back. He decided to rest here and observe.

"No problem, boss!" GE Xian quickly said.

After hanging up, Lin Yi wasn't in a good mood, but he didn't show it in front of Qiqi and nine. He'd been away from Island X for so many years, after all, and it was rare for him to come back. He just wanted to have some fun with the two.

At least, these few days on the island, Lin Yi found the feeling of his childhood. Xu Shihan and Cheng Yiyi were also very fond of the island's scenery, but when they saw the teams of assassins going through strict training, they could guess how cruel and boring Lin Yi's childhood was.

"Lin Yi bro, I want to eat mud fish. Can you go catch some for us today?" Qiqi was missing her childhood as a mud fish-of course, she didn't know if she was missing her childhood or if she was missing the time they fought together during the sky elixir sect trials.

It was also during the test at the sky elixir sect that Qiqi and Lin Yi finally got to know each other. This mud fish was a childhood memory, and it was also the matchmaker for the two, and so Qiqi had a special feeling for it.

"Alright, I'll go now." Lin Yi smiled and nodded.

The mud fish had to be made with special care. It had to be made with yellow mud from the small river. Although the fish supplied on Island X could be directly made with mud, there was no mud. Moreover, the taste of wild fish and reared fish was different.

"It's more dangerous over there, so you guys don't have to go. I'll go by myself. " Lin Yi said to the group. Qiqi and Yiyi were strong enough to go with him, but there were still xiaojiu and Shihan. He couldn't just leave them here alone, so he decided to go.

"Sure, be careful then, Lin Yi bro." Qiqi said. She was the owner of Island X, after all, and she couldn't just ignore the guests just because she wanted to go fishing with Lin Yi.

Lin Yi nodded and quickly made his way to the forest. He was filled with emotions the whole time-it was a familiar path, a familiar environment. It was just that he hadn't been here for more than a decade, and the path was still as familiar to him as it was when he was young.

He made his way to the river and dived in to catch the fish, only to realize that he'd forgotten to bring a bucket after he caught one. One or two was fine, but there were so many people here, and everyone had a good appetite-he'd have to kill at least ten or twenty fish. The fish wasn't big, either, so how was he supposed to bring it back?

Lin Yi didn't want to go back to the bucket anymore when he suddenly had an idea! Didn't he have the Jade space? Wouldn't it be better to just put the fish in?

Lin Yi had placed food in the Jade space before, but the food was frozen in the space. It was still hot and fresh when he took it out, so Lin Yi decided to put the fish in the Jade space. It would be fresher if he brought it back alive.

With that thought, Lin Yi wanted to put the fish into the Jade space, but what made him feel strange was that the fish didn't enter the Jade space. This was the first time something like this had happened!

Could it be that ... The Jade space was not working? Lin Yi froze and subconsciously tried to put the fish into the Jade space again, but he failed. There was no fish in the Jade space, and the fish in Lin Yi's hand didn't disappear!

"That's strange!" Lin Yi frowned and tried to use his mind to take out a spirit beast's elixir from the space in the Jade. The elixir was successfully held in his hand, and with another thought, it returned to the space in the Jade!

In this case, it was certain that the Jade space was not out of order, but something had gone wrong! Could it be that the things he put in were different?

"Elder Jiao, why can't I put my fish in the Jade space?" Lin Yi asked, confused.

"Of course it's impossible for a living thing." Elder Jiao said with a straight face.

"Living things? Then aren't you and I still alive?" Lin Yi blinked.

"You and I are not in a normal state. You entered the Jade space with your primordial spirit, and I'm not much different. This is not my real body." "There's no oxygen here," elder Jiao said. "How do living things survive?"

"So that's how it is. Then, only after the fish dies can it be put into the Jade space?" Lin Yi asked after some thought.

"It's like this for now. " Elder Jiao nodded.

Chapter 3292 Determined

"Temporarily? In other words ... In the future, it's possible to let living things in?" Lin Yi could hear the special tone in elder Jiao's voice.

"I remember ... After the Jade space was upgraded, it had such a function. However, your level has not reached the required level, the stone door has not opened, and my memory has not fully recovered, so I can only say this much." Elder Jiao said.

"Oh? In other words, even if I continue to create the Jade space, I won't be able to achieve such a function?" Lin Yi asked after some thought.

"Yes. If you continue to refine it now, you can only expand the space of the jade pendant, but you can't upgrade its functions." Elder Jiao said with certainty.

"Okay ..." Lin Yi was planning to use the blue crystal and the remaining yellow jade and colored steel to continue making the Jade space, but now it seemed that he'd only be increasing the storage volume. He couldn't change its performance, which disappointed him a little. "Forget it. I'll use the remaining materials to study and refine the essence Qi necklace!"

Lin Yi hadn't been able to make up his mind these past few days whether to continue making the Jade space or an Essence Necklace.

Lin Yi was pretty confident in making the Jade space-with his previous experience, he had a 100% chance of success. An Essence Necklace, however, was a different story. Even though one could make an Essence Necklace at the first stage of Yellow Class, Lin Yi assumed that since the lowest level of a forger was Yellow Class, he should be a Yellow Class forger now that he could make a Jade space. In theory, he could make an Essence Necklace.

Of course, this was only in theory. In reality, there could be some unexpected accidents, and this wasn't something Lin Yi could control. There was a certain risk, too. If the materials were wasted and the essence Necklace wasn't made successfully, then Lin Yi's overseas trip would be in vain. It wasn't worth it.

But now, it seemed that it was better to try making an Essence Necklace. The space in the Jade wasn't big, but it was enough for Lin Yi. He couldn't bring everything with him, and there was no need to!

Since the Jade space couldn't store live fish, Lin Yi had no choice but to take off his shirt and use it as a net to cover the water. He put all the fish in it and hung it by the river.

Lin Yi then went back to catching fish, and after twenty in one go, he returned to the grass patch with his dripping shirt!

"Ah? Lin Yi bro, you're just using your clothes to store the fish?" Qiqi was a little surprised-Lin Yi's bare upper body made her blush, but they'd been living together since they were kids, after all, and she was used to it.

Xu Shihan and Cheng Yiyi, on the other hand, lived in Lin Yi's Villa. It was inevitable that Lin Yi would wear a little less, but there was never a time when he would wear so little. The two were a little shy, but because they liked Lin Yi, they didn't scream.

On the other hand, nine looked at Lin Yi's muscles with interest, "Lin Yi bro, I didn't think you'd have such a great figure now. Sigh, I'm probably the one with the worst figure out of all of you ..."

Lin Yi paused, but his heart ached when he looked at her thin figure. He'd been avoiding her all these years, and he'd neglected her feelings. She was different from normal people-she usually sat in a wheelchair and didn't exercise, and her body was very thin. She was still like a little girl after so many years, with small breasts and stuff.

"Little Jiu, you are ..." Lin Yi looked at Xu Shihan and Cheng Yiyi, but he didn't hide anything from them. He could trust these two, "You're an inheritor. When you become a cultivator, I'm afraid that not only will your figure become very good, but your strength will also be higher than mine!"

"Hehe, that's right. It's a good thing I have this opportunity." Little nine laughed. Going to the yellow Earth high school was an opportunity for her, but it was also a challenge. The future had become uncertain, "I'll be leaving soon, and my brother ... The tyrant will be here to pick me up. Lin Yi bro, will you send me back?"

"Yes, I will." Lin Yi nodded without hesitation. Although he had a lot of problems now, and the balance between him and the ancient sects could be broken at any time, Lin Yi knew that he didn't know when he would be able to see little nine again. He had to come and send her off.

"I'm just saying. Lin Yi bro, you don't have to send me off. I know it wasn't easy for you to come overseas, and the overseas practitioner's Association is your enemy right now. " Nine shook his head and spoke before Lin Yi could, "Alright, let's make mud fish ..."

Lin Yi was silent for a moment, but he'd made up his mind! Now, Lin Yi may be Sky Class early phase peak, but he could really kill Sky Class mid phase peak in seconds!

When Lin Yi was Sky Class early phase, he couldn't kill a Sky Class mid phase peak instantly, but he could take care of the injured Dongfang Jian. Now that he was Sky Class early phase peak, it was only natural that he could kill Sky Class mid phase peak.

As for whether or not he could kill Sky Class late phase Masters, that was still an unknown. He'd only fought with he tianzu, the Sky Class late phase Peak Master, and he'd only been able to injure him, but not kill him. As for Sky Class late phase, he hadn't fought with him yet.

However, Lin Yi believed that if the description of the necklace was true, he would be able to increase his strength by a whole level after putting on the necklace. Whether it was his attack or defense, they would both increase accordingly.

In other words, after Lin Yi put on the necklace, he would be equivalent to a Sky Class mid phase master, and at that time, killing Sky Class late phase Masters in seconds should be an easy thing!

This way, Lin Yi's strength increased again, and he had more cards up his sleeve. He wouldn't be caught off guard when he went back. Of course, he might not be able to defeat a Sky Class late phase peak, but

he could still take advantage of the fact that they weren't prepared and heavily injure them, unlike he tianzu's light injuries.

Therefore, this essence Qi necklace seemed to be an important item!

Lin Yi's first goal was to make an Essence Necklace!

Chapter 3293 Targeting The Enemy

Second, he had to get to Sky Class mid phase as soon as possible-if he were, then the necklace would be like a tiger with wings!

With that thought, Lin Yi turned to Qiqi."Little seven, can you get a Qi gathering pill?"

"Qi gathering pill ..." Qiqi blinked."Lin Yi bro, you need Qi gathering pills? But, doesn't that mean that I can't level up on my own after eating it?"

Qiqi wasn't a spiritual master, but she had some basic knowledge.

"Hehe, I'm special. I can level up after eating it." Lin Yi didn't hide it from her. It wasn't a secret, after all, and everyone around him knew about it. "Xiao Qi, doesn't the overseas cultivators Association provide free elixirs to the members of the Association? Do you have the right to receive it?"

Lin Yi turned his attention to the overseas practitioner's Association-if Tang Yuqi could get a pill from there, then yang Qiqi should be able to get one too, right?

"As long as you're a member of the overseas cultivators Association, you're qualified. As long as your strength has reached the corresponding level, you can apply to receive it." "But I'm a physical master, there's no way I'm going to get a Qi gathering pill!" Qiqi explained.

"That's not a problem. You can cultivate both internal and external cultivation. " "If you're an Earth Class late phase peak spiritual practitioner, will you be able to get a Qi gathering pill?" Lin Yi asked.

"This is definitely possible." Qiqi said with certainty,"but after getting it, if you successfully break through to Sky Class, you'll still have to become an elder of the overseas practitioner's Association. It's impossible to leave the Association like Tang Yuqi-there's pros and cons. It's free, but it's also a slave contract."

"What if the promotion doesn't succeed?" Lin Yi asked. After all, the Qi gathering pill could help an Earth Class late phase peak break through to Sky Class early phase, but it didn't have a 100% success rate. There was a chance of failure, but the chances were small.

"If you fail, you can apply for it again after half a year, but this is your last chance." "There's been cases of failure in the overseas practitioner's Association as well,"Qiqi said," but they all succeeded the second time. "

"In that case ... Can you help me apply for a Qi gathering pill?" Lin Yi was a little excited after hearing Qiqi's words-he really did get what he wanted. It wasn't realistic for Lin Yi to count on Kang Zhaoming's Qi gathering pill, especially now that Lin Yi's true strength was exposed. A snob like Kang Zhaoming would probably just turn on him and not put him in his eyes anymore, so Lin Yi had to think of a way himself.

"But ... Dual cultivation is easy to say, but it's extremely difficult to do. My father left me the spiritual arts and pithy formulas, but I still put all my energy into physical cultivation. I don't have any Foundation in spiritual cultivation!" Qiqi smiled bitterly, "even if I start training now, I don't know when I'll be able to reach Earth Class late phase peak. Lin Yi bro, I'm afraid I can't help you with this ..."

"Hehe, don't worry, I can do it now." "Do you remember the spiritual arts?" Lin Yi asked with a smile. Can you recite it silently? If possible, we can start now!"

"Now? What do you mean, cultivating here?" Qiqi's eyes went wide, not quite understanding what Lin Yi was getting at.

"En, right now, but I'm the one helping you!" "I can quickly increase other people's strength, but we were in a hurry last time and I didn't help you," Lin Yi said. "Now's a good chance. "

"You'll help me increase my strength?" Qiqi was even more surprised, "Lin Yi bro, you're saying that you'll be able to raise my strength, and earth Class late phase peak at that?"

"Yes, that's it." "Okay." Lin Yi nodded, "you just need to use the practitioner's Arts, leave the rest to me!"

"Really?" Qiqi was a little surprised, but she still said, "But, there's no need to rush-if I were to become an Earth Class late phase peak right now, the overseas practitioner's Association would probably suspect me. I'll have to do it step by step, so it's best if you get me to Earth Class early phase right now, and then I'll show up at the overseas practitioner's Association, so they'll be prepared."

"You're right. " Lin Yi nodded seriously-he'd only considered getting the pill from the overseas practitioner's Association, but he never considered the possibility that they'd suspect Qiqi!

Of course, the overseas practitioner's Association would be happy if Qiqi could level up slowly. After all, one more practitioner meant one more strength. Otherwise, they wouldn't have gone to such great lengths to make Tang Yuqi stay.

Therefore, as long as he did it right, it was not impossible to get two Chi-amassing pills! But, he had to give the second pill to Qiqi-the overseas practitioner Association would be suspicious. Qiqi had leveled up so quickly before, and that meant she was pretty talented-it'd be a problem if she didn't level up after one and two!

Lin Yi wouldn't have to worry about the overseas practitioner's Association if he took two Qi gathering pills in a row, but he couldn't stay overseas for long, could he? Qiqi's base camp was overseas, after all, and Lin Yi didn't want to cause her any trouble.

"Then I'll raise your strength to Earth Class early phase first!" Lin Yi said with a nod.

"Okay, then I just need to use the mantra, right?" Qiqi asked.

"Yes, leave the rest to me." Lin Yi said. As long as he didn't forcefully compress his Qi, his clothes wouldn't explode. He didn't have to worry about Qiqi running around naked.

Qiqi started the practitioner's Arts, and Lin Yi grabbed her wrist and started the same. Under everyone's curious gazes, Lin Yi's Qi started flowing into Qiqi's body!

Xu Shihan and Cheng Yiyi, on the other hand, weren't as good-after all, they'd already seen Lin Yi's miraculous abilities back in the orphanage. However, it was still shocking for them to see a person with no spiritual practitioner's Foundation go all the way to Earth Class early phase!

Especially Cheng Yiyi-she thought that Feng Tianhu was just asking for death by going against Lin Yi. Lin Yi could raise a normal person to Earth Class late phase peak, so wouldn't he be able to reach Sky Class in the future?

Chapter 3294 Refining The Necklace

If Lin Yi could mass-produce Sky Class Masters, then who would be his match in the ancient world? Cheng Yiyi was glad that she had made this choice. Otherwise, she would have to follow Feng Tianhu to the end of the road, and things would probably not end well for her.

Nine was shocked as well-she'd been separated from Lin Yi for so many years, but they'd always kept in touch through the phone. She thought that she knew Lin Yi's situation, but it seemed like she didn't!

Lin Yi had so many amazing things that she didn't even know about. When did he get these abilities?

Of course, the one who was shocked the most was Qiqi herself-she started channeling the practitioner's Arts, and felt her strength skyrocket like a force-she went from a physical practitioner with no spiritual foundation to golden class early phase, and it was still growing!

Early phase golden class, early phase peak golden class ... All the way to early phase Earth Class ... Qiqi felt like she was in a dream-she'd grown from nothing to something in just a short while, and her strength had increased so much! This completely changed her understanding of practitioners!

In her previous knowledge, which cultivation expert didn't take it one step at a time? No one had ever gone from being a spiritual practitioner to an Earth Class early phase in one afternoon.

This was probably the only one of its kind, right? Everyone present, other than Shihan, could feel the change in Qiqi's strength-she was using her Arts, and so her strength was revealed.

Xiaojiu didn't have much strength, but he had been exposed to cultivation when he was young, so he could still tell the difference between cultivators. Cheng Yiyi was also quite shocked-how did Qiqi become as strong as her in the blink of an eye?

Cheng Yiyi wanted to cry. It wasn't easy for her to get to where she was today-she'd been trained by Feng Tianhu since she was young, and all she did was train. But look at yang Qiqi, she'd become an Earth Class early phase all of a sudden if she was on good terms with Lin Yi.

"Am I dreaming?" Qiqi's question was what the others wanted to ask as well.

"Hehe, you can go to the overseas cultivators Association and announce this News Now. As for the reason, you should think of it yourself. I don't know much about the overseas cultivators 'Affairs." Lin Yi said.

"Yeah, I know. I'll tell them that my family told me to keep it a secret, but I've reached Earth Class and I've hit a bottleneck, so I'm here to find some practice resources." Qiqi, on the other hand, found an explanation quickly.

After all, her family was different from other individual cultivators. It was reasonable to have such rules. She believed that the overseas cultivators Association would not say anything.

"Alright, then you should leave as soon as possible. I'll continue to improve your strength when you return." Lin Yi said.

"Yeah, I'll leave tomorrow morning." Qiqi said with a nod.

Lin Yi was about to get up when he looked up to see Cheng Yiyi standing next to Qiqi with an envious look on her face. He couldn't help but smile bitterly-it seemed like this girl wanted him to help her level up as well, but she was probably too embarrassed to ask."Yiyi, I'll help you get to Earth Class late phase peak!"

Lin Yi's initial wariness towards Cheng Yiyi had turned into trust. He could feel that Cheng Yiyi liked him, or she wouldn't have betrayed Feng Tianhu. Feng Tianhu still had her brother's trump card.

Now that Lin Yi had revealed his true strength, Cheng Yiyi couldn't put all her hopes on him. However, she still supported Lin Yi as always, which touched Lin Yi.

At the very least, Cheng Yiyi was sincere. She didn't just want to please him and ask him to help save her brother!

Cheng Yiyi was stunned by Lin Yi's words. In fact, she had wanted Lin Yi to help her level up back in the orphanage, but she was too embarrassed to ask. Her relationship with Lin Yi wasn't that good back then, and she didn't succeed in seducing him either, so she gave up.

After all, she knew that her relationship with Lin Yi wasn't as good as it seemed on the surface. Perhaps Lin Yi was still on guard against her, but she didn't expect Lin Yi to bring this up on his own.

Cheng Yiyi, of course, didn't know that Lin Yi liked her because of her loyalty. She thought that Lin Yi was being kind.

"Re ... Really?" Cheng Yiyi didn't know what to do as she looked at Lin Yi, not daring to believe what she was seeing.

"Of course it's true. You're one of us, so it's reasonable for me to help you increase your strength."
"Alright, let's start." Lin Yi waved his hand.

"Ah ... Oh, oh!" Cheng Yiyi saw that Lin Yi was straightforward, so she didn't try to be bashful anymore and handed it to him ...

And so, under everyone's numb gazes, Lin Yi raised Cheng Yiyi's strength to Earth Class late phase peak ...

At night, Lin Yi didn't care about Qiqi and Yiyi's excitement. After greeting everyone, he went into isolated practicing and started studying the making of an Essence Necklace. He took out the book on making an Essence Necklace from the Jade space and flipped through it carefully. He'd read it once when he first started making the forging fire, but the practitioner's Arts for golden class were too hard to practice, so he gave up for now.

But now, Lin Yi was able to create a Jade space, and an Essence Necklace only required a golden class forger. As far as Lin Yi was concerned, if he could create a Jade space, he should be able to make an Essence Necklace too.

Lin Yi continued to read the refining method, "the basic requirement is to be a forger!"

A forger? Lin Yi smiled. He had a headache when he first got this method, but he could try it now! Things were really unpredictable. With the passage of time, many things could be easily solved.

Then, he continued to read, "the material required for refining is a piece of top-grade jade pendant!"

A piece of high-quality Jade? Lin Yi had a high quality Jade with him right now, but he didn't know if he could use it. Of course, it wasn't that the Jade couldn't be made-what Lin Yi meant was that he couldn't use it. He didn't want to break it, after all.

Chapter 3295 Success!

"Elder Jiao, it's written here that the profound Qi necklace needs a carrier, which is the jade pendant. I wonder if this jade pendant of mine can be used to refine it?" Lin Yi asked. It was better to ask elder Jiao about this-he didn't want to make a decision on his own.

"Of course you can." Elder Jiao didn't play dumb this time. He said with certainty, "Judging from the refining method, it was just an expansion of a small space in the jade pendant to store five spiritual beasts' inner cores. Therefore, your jade pendant was not damaged. You can rest assured. Even if you fail, the jade pendant will not be damaged. At most, your inner core will be wasted."

"It's enough to feel heartache that my essence Qi inner core is crippled!" Lin Yi smiled bitterly. It took him a lot of effort to collect these five cores, and now they were wasted. Lin Yi's heart ached.

"That's still better than having the jade pendant destroyed, right?" Elder Jiao chuckled.

"That's true ..." Lin Yi nodded.

After preparing the five cores, the yellow jade, the blue crystal, and the colored steel, Lin Yi took a deep breath and started making the necklace.

Although the jade pendant was not broken, once the refinement was unsuccessful, all the materials would be wasted!

These materials were all painstakingly gathered by Lin Yi. He almost lost his life for this blue crystal, so he couldn't afford to be careless!

He read through the instructions of the necklace a few times before carefully placing a certain ratio of colored steel, yellow jade, and blue crystal on the ground. He then took off the jade pendant around his neck.

Before making the necklace, Lin Yi read through the instructions a few times. Of course, the instructions were simpler-it wasn't much different from the Jade space, but there were a few more steps.

Fortunately, Lin Yi had the experience of successfully forming the Jade space on his first try. This time, he could start successfully.

The first step was the same as creating the Jade space, but Lin Yi used the same chant to create the space in the Jade, not the one for the necklace.

The chant was way too complicated, and Lin Yi didn't have the confidence to learn it, nor did he want to try it out.

Fortunately, the process went smoothly, just like the first time Lin Yi created the Jade space.

Lin Yi's hands kept on gathering the forging fire, and from time to time, he needed to use his hands to change the shape and shape of the supplementary materials, fusing them with the Jade.

After repeating this process for a while, Lin Yi finally reached the most important step. It was completely different from the Jade space. The five elixirs didn't require much space, so it didn't take much time or materials. It took Lin Yi three days to create the Jade space when he was at home, but it didn't even take a day for him to enter the second step!

The second step was to let the inner pellet enter the Jade space and merge with it. Lin Yi had seven of them-one from Gou huli's Lion, two from the Wulong haotte mountain range, one from the Qian Mountain sect, one from the damn thing, one from the Sky Class practitioner at the practitioner's market, and one from the sky lightning pig in the sky elixir sect's test.

However, the elixir that the damn thing gave him was obviously different from other elixirs, and the damn thing didn't let him use it either, so Lin Yi couldn't just use it. As for the remaining six, he could use them to make an essence Qi necklace.

But Lin Yi only prepared five and kept the extra one. He was afraid that he wouldn't succeed this time and it'd be bad if he lost six of them, so he kept one for himself. If he succeeded, he could make another one.

This step was actually the most difficult one. It was not only about putting the five inner elixirs into the space of the jade pendant, but also fixing them at a certain point in the space of the jade pendant. The five inner elixirs had to form a five-element cycle and be fixed at their respective supporting points in the space. There could not be any deviation!

But, in fact, Lin Yi had a big advantage-other forgers didn't have this connection with the Jade at all. In other words, when a forger placed the pill into the Jade space, it was completely based on feeling and skill. Whether or not it could be fixed on the support point was entirely based on luck. If it didn't work, it would be a waste of an inner pill, and it wouldn't be able to be taken out if it wasn't fixed on the support point. He could only cripple them.

But Lin Yi was different-what surprised him was that not only could he "see" what was happening in the Jade space, he could even take out the first time the elixir fell without a support!

This was also because the way he created the small space was the same as the Jade space, and Lin Yi could use his consciousness to control the Jade space!

This way, Lin Yi's work was a lot easier. Putting it back again if he couldn't put it properly was a bit slower, but he succeeded with every one of them. Lin Yi decided to put the remaining 6th inner dan on the fire support point!

Every time he added a spirit beast's inner pellet, the chances of increasing his defense and attack would increase. Lin Yi put it on the fire element, which meant that when Lin Yi activated the fire element skills,

the chances of his moves becoming stronger and the chances of defending against fire attacks would increase as well.

When the five supporting points were fixed, he could add the elixirs to them, and the corresponding attributes would be enhanced. This made Lin Yi very excited-he had successfully fused all six elixirs!

Five days passed by in an intense manner. Lin Yi was very nervous as he followed the instructions step by step.

But the heavens didn't let down the hard-working. Finally, on the fifth night, Lin Yi finished all the steps.

Lin Yi looked at the Jade that had returned to its original appearance and slowly put away his forging fire. The essence Necklace was finally formed!

The Jade in his hand didn't look any different from before, and it looked exactly the same from the outside, but Lin Yi knew from his first experience that this was what the Jade looked like after it was made.

Chapter 3296 Something Is Wrong!

The refining instructions had clearly stated that this essence Qi necklace had a thirty percent chance of increasing the power of defense and attack. However, after adding an essence Qi inner core, it could increase the power of fire attributes by fifty percent. In the future, with each additional inner core, it would increase the power of fire attributes by twenty percent, and this would stack.

Although a fifty percent chance didn't mean that it would definitely increase attack and defense, it was still a lot stronger than before. Lin Yi was already very satisfied.

Lin Yi didn't bother testing the new necklace-he put it around his neck and walked out of the room. No one had disturbed him these past five days, but he was worried about yang Qiqi the most-he didn't know how she was doing!

Even if Qiqi shouldn't be in any danger at the overseas practitioner's Association, who knew what warhead would do after the incident with the red conch?

Luckily, Lin Yi saw Qiqi, xiaojiu, Shihan, and Yiyi sitting together in the living room, talking about something. They shut their mouths when they saw Lin Yi-it was obvious that the topic was related to him.

But Lin Yi wasn't in the mood for this-he let out a breath of relief after seeing that Qiqi was fine."Little seven, have you been to the overseas cultivators Association? How is it?"

"Yeah, I came back the day before yesterday." Qiqi, on the other hand, was quite relaxed,"the people from the overseas practitioner's Association were surprised that I'm an Earth Class early phase spiritual practitioner, but they didn't think too much about it since my family is special. However, I can see that the elders are very happy. After all, I didn't use any cultivation resources to get to Earth Class early phase-it wasn't easy. With this talent, I have a chance of getting into Sky Class."

Lin Yi nodded-it seemed that Qiqi wasn't doing so well overseas for no reason. At least from Lin Yi's point of view, she wasn't as useless as she'd been when they first met. Perhaps she was in contact with a different level from him! "It's good that they didn't suspect you. "

"No, I didn't. After all, I didn't hide my strength from them. They're still very happy." Qiqi shook her head. "They understand me, too. They even gave me a few small Qi gathering pills as a resource."

"Oh? It seems that the overseas cultivators Association is quite generous!" Lin Yi couldn't help but sigh. The overseas practitioner's Association was pretty nice to their members-they could've been friends if they weren't a bit too overbearing, but he nutou's parent style was hard to accept.

"Hehe, the overseas cultivators Association is not a sect with a deep foundation. If you join the association, you'll be like a servant eating away at a guest. If there's no benefit, how can you gather people together?" "People only stay in the Association after they've tasted the benefits," Qiqi said.

Lin Yi couldn't help but nod. It was true-the overseas practitioner's Association was more like one of those noble houses that recruited practitioners, not those big sects that had disciples to pass on. A short-term organization like this had its flaws.

"Did you see bullet he this time?" Lin Yi asked.

"No, I heard that President he is in closed door cultivation and won't come out in the short term. However, for this kind of matter, President doesn't need to come out personally, the elders can make the decision." Qiqi said.

Lin Yi couldn't help but be surprised-he'd wanted to ask how warhead was doing, after all-he'd left after setting up a trap, and he didn't know if warhead would fall for it. He'd wanted to get some information from Qiqi, but he'd gone into isolated practicing!

What was the meaning of this? Was the transaction a success or a failure? Why would he go into seclusion?

But it wasn't something he could reveal to Qiqi, and so he decided to continue helping her get to Earth Class late phase peak!

.....

In fact, after he dan TOU returned, he did not go into seclusion at all. Instead, he was seriously injured and was recuperating in the secret chamber! After all, what good would come out of a fight between two Sky Class late phase peak Masters?

It was either you die or I die, and the best case scenario would be for both sides to suffer heavy losses. And now, this was the best situation.

After he returned, bullet he was lying on the hospital bed. The more he thought about it, the more he felt that something was wrong. He was not a fool. It was fine if he was impulsive at that time. After all, impulsiveness was the devil. However, after thinking about it carefully, there were many suspicious points!

Bullet he thought about it. He must have brought a suitcase of money with him. There was no doubt about it. Even if the suitcase was around him, it was absolutely impossible for him to take the money away under his eyes with his strength.

It was even more impossible for the suitcase to be swapped. Bullet he had taken a closer look at the suitcase after he returned. It was undoubtedly his, so there was no possibility of a swap. But how did the money disappear into thin air? It was really like seeing a ghost!

Moreover, he had never heard of a place called Songshan orphanage in his life. At that time, he did think that red conch was trying to scam him, but after thinking about it, red conch was not crazy. Those drug lords had plenty of money. Why would they lie to the president of the overseas cultivators Association?

Even a fool would know that he was not to be trifled with. Moreover, he had used such a stupid method to scam others. It was a little impossible just thinking about it! At least, from bullet he's point of view, this money could be scammed no matter what. There was no need to get it from his own hands.

Besides, it wasn't a one-time deal. They would definitely cooperate in the future. Red conch had seen money before.

When warhead he realized that something was wrong, the General Manager also realized that something was wrong. After all, he felt that warhead he didn't have to put on such a show. He came to trade with an empty box and then entered his own account number to transfer the money. Wasn't he just looking for trouble?

What's the point of coming to the red conch headquarters to create such a low-level scam? Did he think he could get the drugs? The result was that both sides suffered losses, and no one gained anything. Therefore, the General Manager felt that unless he xiumian had nothing better to do, he would not do such a meaningless thing.

After the General Manager's suspicions were raised, he naturally sought Fanny out to confront her. Although he had absolute trust in Fanny, he couldn't guarantee that she'd done something to the computer.

Chapter 3297 Where The Problem Lies

However, no matter how he asked, it didn't seem like Fanny had done it. So, he thought of another very important person-Secretary Lu!

However, when he called Secretary Lu over for an inquiry, he was surprised to hear something big! Secretary Lu had actually fainted in the bathroom during the time when the General Manager was dealing with bullet head!

Secretary Lu didn't think that it was a big deal. He thought that he had fallen asleep in the toilet because he was too tired from work. He didn't think that someone had plotted against him because he didn't feel anything at all! Therefore, he did not report to the General Manager immediately after the incident.

Although the General Manager didn't really believe Secretary Lu's words, he found a shocking secret after he retrieved the company's surveillance video that day! In the video, there were two Secretary Lus. The other one entered the company later and hid in the bathroom as soon as he came in!

Later on, the real secretary Lu entered the washroom. Although he didn't know what happened, he soon walked out of the washroom and went upstairs to the general manager's office ...

What happened after that was what happened. After Secretary Lu passed the laptop to bullet he, he went downstairs again and went into the bathroom. Not long after, Secretary Lu, who had entered the company in his uniform, walked out of the bathroom and left the company ...

All of this pointed to the fact that there were indeed two Secretary Lu 's. The Secretary Lu who had entered the office to help him with the deal with President he was most likely the fake one!

This discovery made the General Manager a little speechless. Even after all his planning, he still failed miserably. His opponent had completely taken advantage of an unexpected loophole. He had never thought that the other party could become Secretary Lu, and it was exactly the same. He could not find any flaws at all.

Of course, he didn't think of this at the time. If he did, he would've noticed the difference if he looked at Lin Yi closely. After all, looks could be disguised, but there were still subtle differences in height and body shape. This couldn't be made up.

It was the same for the voice. No matter how similar it was, it was just a disguise. If one listened carefully, one would definitely notice the difference. However, the General Manager had never thought that Secretary Lu would be impersonated!

Seeing this, the General Manager knew that both Fanny and Secretary Lu were innocent. They were innocent victims who had no idea what was going on. The main culprit was the fake Secretary Lu who had appeared out of nowhere.

"Fanny, go and get the company's surveillance footage from the past few days. Take a closer look and see if there are any suspicious people!" "Secretary Lu," the General Manager said to Fanny, "you should go and take a look as well. See if you have any impression of her!"

"Yes, my boss." Fanny hurriedly said.

Secretary Lu also nodded in agreement. The two of them left the general manager's office and went to the surveillance room to check the video. However, there was no other suspicious person except Yi Ling who came the day before.

The others were basically old customers who had a history of cooperation, so they were excluded. Only Yi Ling's identity was extremely suspicious. He claimed to be the manager of the Buffon family's hotel group's procurement department, but in fact, there was no such person at all. Secretary Lu also had a deep impression of him.

"Fanny, take out the images of Yi Ling and the person who impersonated me and compare them!" He said. Secretary Lu said.

"Okay, Xiao Lu, are you suspecting this Yi Ling?" Fanny quickly began to operate the machine. Her computer skills were pretty good, so she was able to capture the images of the two characters without much effort.

"En, yes, I suspect that this person is the one who impersonated me. He's the most suspicious!" Secretary Lu nodded.

Fanny took a screenshot of the two men's images, and upon closer inspection, she discovered that they were shockingly similar in terms of height and figure, apart from their appearances! These two people were simply the same person!

"It's him!" Secretary Lu also slammed the table and stood up.

"I'll report this to the General Manager. " Fanny quickly stood up and went to look for the General Manager. This was a good opportunity for her to clear her name. Although the General Manager felt that someone else had done it, she and Secretary Lu were still a suspect.

Soon, the General Manager, who had received the news, ran over. When he saw the comparison chart on the computer screen, he frowned. He was now 100% sure that he had been tricked!

However, what was Yi Ling's identity? Judging from Yi Ling's appearance, he should be an Asian. President he of the overseas cultivators Association was also an Asian. Then, could there be any connection between the two?

It was no wonder that the General Manager would be suspicious. After all, this incident happened too coincidentally. Only a few core figures such as him, Fanny, Secretary Lu, Lu te, and he nutou knew about the deal with the overseas cultivators Association. Yi Ling obviously knew about it in advance. He came to check out the terrain on the first day and came directly to the general manager's office to tamper with the deal on the second day.

If this person wasn't from warhead, the General Manager himself felt that things couldn't be so coincidental.

"Give me the phone, I want to talk to bullet head!" Although the General Manager's injury had not recovered, after taking the recover pill, he was almost fully recovered. He could still move in the wheelchair, but it was a little inconvenient to pick up the phone.

"Alright!" Fanny hurriedly handed the phone over to the General Manager, who was currently only thinking about questioning bullet head about whether he was the one who had created this scene.

The call went through quickly, and bullet he's angry voice came from the other end, ""What do you want?"

"You still ask me what I want? I can tell you that I've already investigated the matter, and there are surveillance videos as evidence. Don't tell me that this person wasn't sent by you, there's no such coincidence in this world!" The General Manager scolded.

"What are you saying? Who was it that I sent? What surveillance video? Are you crazy? What, do you still think that I'm trying to cheat you of your drugs? Am I crazy? I'm going to cheat you of your drugs?" Bullet head he snorted coldly.

"Hmph! I'll send the video to you, you can see for yourself!" The General Manager didn't want to waste time with warhead he, so he directly chose to send the video to warhead he's email

Chapter 3298 Lin Yi Again?

"I'll see!" Bullet he's phone indicated that he had received an email, so he hung up the phone and opened the email to read it.

However, the moment bullet head he saw it, his expression instantly became extremely horrified! Lin Yi? Why did this kid appear at the red conch headquarters? And the Secretary Lu that came on the day of the deal was Lin Yi in disguise?

Fanny had already clearly recorded the sequence of events and her reasoning, so it was easy to tell what the bullet was! However, He dan TOU didn't know whether to laugh or cry. So the General Manager was treating Lin Yi as one of his own?

Bullet he dialed the General Manager's phone again. Before he could speak, the General Manager's question came from the other end of the phone, ""How is it? We've caught them red-handed, right? You didn't expect me to have such a tight video recording, and our analysis and reasoning are also very exquisite, right? Do you dare to say that this person is not from your overseas cultivators Association?"

"Wait a moment!" Bullet he interrupted the General Manager impatiently and said coldly, ""First of all, I want to make it clear that I know this person. However, he is definitely not a member of our overseas cultivators Association!"

"You know him? He's not from your overseas cultivators Association?" "Can't you say something more convincing?" the General Manager pouted.

"Don't interrupt. What I want to say is that this person is not only your enemy, but also my enemy. His name is Lin Yi, and he once killed an elder of our overseas cultivators Association. He was just hunted down by us a few days ago. This is no secret, you can ask around and you'll know the details!" The nuclear warhead said.

"Really?" The General Manager was taken aback-the name Lin Yi sounded familiar, where had he heard it from?

"Of course it's true. I understand what you mean. You thought that I sent someone to check out the place and then did something to get your drugs, didn't you?" Bullet he asked.

"Yeah, why?" The General Manager was slightly taken aback.

"Then why do I have to do this? I can just take the empty box and change my account number. Do I need to send another person? Wasn't this an unnecessary move? And this is not feasible at all!" "Do you think I need to do this?" asked He dan TOU.

"Well ..." The General Manager thought about it. What he said made sense. He had made a mistake before and thought that Yi Ling was he Yatou's man. But now that he thought about it carefully, he Yatou didn't need to do that. If this Yi Ling was called Lin Yi and if he was an enemy of the overseas cultivators Association, the General Manager just needed to investigate and the truth would be revealed soon!

"Alright, I'll go and investigate. If I really misunderstood this matter, then I'll give you the drugs from this deal as an apology!" The General Manager was straightforward. After all, the place of the deal was his company. If there was a problem, it could only be his problem. He could afford to lose.

"Oh? Thanks a lot, I'll be waiting for your good news!" Warhead he didn't expect the General Manager to be so forthright. He was a little surprised, and his originally heavy mood was much better.

He was also relieved to see that Lin Yi and Qiqi really didn't have anything going on-Lin Yi didn't go look for her or go to her, but ran to Ruida town instead. He didn't know how he'd heard about the deal with the red conch, but he'd gone to sabotage it!

Bullet head didn't think that Lin Yi was targeting the red conch-he thought that Lin Yi was targeting him! After all, he had just started a feud with Lin Yi, and no matter how he thought about it, Lin Yi was coming for him. How could there be such a coincidence?

Therefore, when he thought about this, He dan felt a little apologetic. Although the box of money was lost in the red conch group and the transfer was also mistakenly made in the red conch group, it was not red conch group's fault.

With that, he lost two portions of money and got one portion of drugs, but it was still very balanced. After all, red conch was also affected because of Lin Yi!

As for the General Manager, he hung up and told Fanny to investigate Lin Yi's matter. This was quite easy to investigate, as Fanny called the person in charge of the headquarters in China, brother Dafeng!

"Dafeng, I'm Fanny." Fanny said after picking up the call.

"Ah, it's assistant Fanny. Hello, may I know what I can do for you?" Dafeng bro was Lin Yi's man, but he still treated Fanny with respect on the surface. After all, Fanny was his boss.

"It's like this, there's a guy called Lin Yi, do you know him?" Fanny asked directly.

"Lin Yi? "I know ... I've reported this person to the headquarters before. He's the boss behind miracle doctor Guan's medical company, and he destroyed military counselor Zhuge when they had a conflict. He's the one who told me not to mess with these strong practitioners in the country ..." Dafeng didn't know what Fanny meant and why she asked about Lin Yi, but he didn't dare to say anything and explained the truth.

"Oh? Lin Yi ... It's him?" Fanny was shocked. She didn't expect Lin Yi to be red conch's biggest enemy. Military advisor Zhuge was killed by him, and she heard from Jianwen that both red conch and the Firewolf gang had deep grudges with Lin Yi!

"Alright, I got it." Fanny didn't ask any further. It was enough for her to know who Lin Yi was. A master like this who was active in the Chinese practitioner world definitely had nothing to do with the overseas practitioner's Association!

He dan TOU wasn't stupid enough to send an expert to Huaxia's cultivation world to stir up trouble. If people knew about this, they would all unite to boycott him. This was simply courting death.

As soon as Fanny heard this news, she immediately went to the General Manager and explained the situation to him.

"What? F * ck, it's this Lin Yi again?" The General Manager thought the name was familiar, and now he finally remembered who Lin Yi was. This kid was one of red conch's enemies! "Lin Yi, Yi Ling, this is a cunning kid! So, this kid is here to cause trouble for our red conch headquarters?"

"It's very possible!" Fanny nodded in agreement.

"It seems like I've misjudged bullet head. This Lin Yi is obviously coming for us. He's probably still angry about what happened last time, and now that he's overseas, he's being hunted by bullet head. He's here to cause me trouble because he's upset!" The General Manager said after some thought.

Chapter 3299 Demanding The Qi Gathering Pill

"Yeah, what do we do now? Send an order to kill Lin Yi?" Fanny asked after some thought.

"That won't do-even the overseas practitioner's Association can't do anything to him, where are we supposed to find him? Forget it, let's not get involved in this. With Dafeng's ability, he'd be dead if he went to Lin Yi." The General Manager said, waving his hand.

"Then ... Are we just going to let this matter go?" Fanny was a little unwilling to accept the fact that she had been tricked.

"Let's forget about it for now!" The General Manager shook his head. "Our current business is only drug trafficking. We are not as powerful as the Firewolf gang. We should report this matter to the higher-ups and let the boss behind the scenes make a decision."

"Ah ... You mean that miss LAN?" Fanny's expression changed slightly upon hearing this.

The General Manager nodded slowly. Some things had already gone beyond the scope of his decision, so he naturally wouldn't force himself to do it.

Fanny was quite tactful. She knew that it was best for her to avoid the General Manager's call to miss LAN. This was a rule of the red conch.

After Fanny left, the General Manager called Ms. LAN.

"What is it?" Miss LAN picked up the phone quickly.

"It's like this ..." The General Manager told her everything about Lin Yi and bullet head.

"Lin Yi? I got it. " Miss LAN frowned-it was Lin Yi again, this guy sure knew how to cause trouble! However, miss Lan's mind wasn't on Lin Yi right now. In fact, to her, the Firewolf gang and the red conch were just by-products. Her ultimate goal was to find a person, that was the most important.

Hearing that miss LAN didn't have any comment or reply to this matter, the General Manager didn't dare to ask more. After hanging up the phone, he called bullet head again!

"President he, I'm sorry, but I've already done my investigation. It was Lin Yi who did it, so my promise is still valid. I'll have someone send the drugs over." The General Manager said.

In fact, the General Manager of the drugs company already felt that he owed him a lot. It was just that he Yatou did not explain this matter, so he pretended not to know.

"Oh? Alright, thank you!" Both of them thought that Lin Yi was targeting them, and so they didn't think too much about it, thinking that they'd gotten the upper hand.

Of course, it wasn't that the two didn't want to take revenge on Lin Yi, it was that they didn't have the chance for now. Miss LAN, who was behind the General Manager, didn't say anything, and he Shatsu was heavily injured. If they wanted to take revenge, they had to wait for the right time.

Lin Yi, on the other hand, was waiting for Qiqi's Qi gathering pill after making the necklace. Qiqi didn't go to the overseas practitioner's Association right away, but waited for about half a month before appearing at the Association!

This time, Qiqi appeared as an Earth Class late phase peak-this surprised both the elders and President he. They'd never realized that Qiqi was a practitioner genius!

"Yang Qiqi, you're Earth Class late phase peak now?" He dan TOU looked at Qiqi, a little shocked. He was glad that he didn't make things difficult for her because of Lin Yi, or she would've left the overseas practitioner's Association by now!

Let's not talk about whether or not Qiqi's background could make her leave-after all, Qiqi's family was huge overseas, and different from Tang Yuqi, President he really couldn't treat Qiqi the way he treated Tang Yuqi!

Plus, He dan TOU had gotten some information from his brother, patriarch xuanchen, these past few days-Qiqi's sister, Xiao Jiu, might very well be an earth-type inheritor called tu Ranran!

After all, ancestor xuanchen was the one who led the plan between the inheritor and Sky Class Island. Even if the yellow Earth high sect was a sect from the Western Region, it could not avoid ancestor xuanchen if it wanted to participate in the plan. It could only tell him the news of the inheritor.

This was how the news reached he TOU TOU's ears. He had contacted the xuanchen ancestor in the few days that he was injured and mentioned Lin Yi, but the xuanchen ancestor told him not to worry. After Lin Yi returned, there would be someone to deal with him!

"Yes, President he!" Qiqi nodded politely.

"Elder Wang, go get a recover pill and give it to Qiqi. It's a tradition of the overseas practitioner's Association, so don't reject it, Qiqi." President he said to Qiqi after he was done with elder Wang.

"Then I'll have to thank President he!" Qiqi said, pleasantly surprised.

"Qiqi, I heard that your sister Xiao Jiu is the inheritor of the Huang tu Gao sect?" Bullet he asked tentatively.

Qiqi's heart skipped a beat-she didn't think bullet head would know about this, but she decided not to hide it-after all, exposing little Nine's identity would only do her good!

No matter how powerful He dan was, he wouldn't dare go against the entire ancient world-xiaojiu's identity as the heir was like a protective talisman, and whoever dared to touch xiaojiu would be making an enemy out of the entire ancient world. All of the Sky Class late phase peak and peak Masters wanted to join the Sky Class Island Plan and become a Sky Class master.

"Yes, she's the young sect master of the yellow Earth high sect, earth Overlord. She's the long-lost younger sister." Qiqi nodded, speaking the truth.

"Hehe, you and she are both geniuses in cultivation. But, Qiqi, why didn't I see it before? how did you cultivate so fast? did you have a fortuitous encounter?" Bullet he asked. He wasn't suspecting Qiqi, of course-he just wanted to know if she had some sort of secret.

"President he, the reason I didn't practice spiritual before was because I couldn't calm my heart. You know, spiritual practice and physical practice are different, one is quiet and the other is active. Because of little 9th's matter, I went around looking for medicine to cure her, so I couldn't practice in peace. But now, her problem has been solved, so I can practice at home." "But due to the assassin group's special nature, we're not allowed to reveal our strength to the outside world. I was just stuck at a bottleneck before, and I only told the overseas practitioner's Association about this because I trusted them," Qiqi said.

"I see!" President he nodded-Qiqi's words made sense, and it seemed like she really was a genius at cultivation."Alright then. Qiqi, go back and continue to work hard on your cultivation. Send my regards to little Jiu!"

Chapter 3300 Breakthrough, Sky Class Mid Phase!

"Yes, President!" Qiqi nodded.

Elder Wang, on the other hand, had already brought the pill over. He gave it to Qiqi and left.

Qiqi returned to Island X without a hitch-even she didn't expect things to go so smoothly. It was probably thanks to little Nine's identity, though, that bullet he didn't suspect her so easily.

Lin Yi didn't think that Qiqi would be able to get things done so quickly. He couldn't help but sigh as she handed the pill over to him so easily. Qiqi had never held back anything when it came to their friendship, and the pill was an extremely important pill to a practitioner. But she didn't seem to be reluctant at all, giving it to him like it was just a normal thing!

"Qi Qi, you don't want to advance to the Sky Class?" Lin Yi asked with a sigh after receiving the pill.

"I do, but Lin Yi bro's here, and I don't have a use for this pill. It'd be a waste if I ate it," Qiqi said nonchalantly, shaking her head.

"Alright, Qiqi. But you have to eat the next one. Otherwise, bullet head he will be suspicious." Lin Yi reminded.

"It's fine. I'm afraid bullet he won't dare to harm me now. " Qiqi said with a wave of her hand, telling Lin Yi what bullet head told her about little nine.

"Oh?" Lin Yi blinked. The fact that xiaojiu was an earth-type inheritor was rare even in the ancient Huaxia cultivation world. How did the president of the overseas practitioner's Association get wind of this? Apart from the people of the yellow Earth high sect, only ancestor xuanchen knew about this. Could it be that the bullet head was still connected to ancestor xuanchen?

But, no matter what, this wasn't bad news. Lin Yi's original plan was to leave one Qi gathering pill for Qiqi no matter what, but now, he could probably take the second one for himself. Even if Qiqi didn't break through, as long as nine was here, bullet head wouldn't dare do anything to her!

But, that was just Lin Yi's idea-it was better to be safe. If he could get through this, he wouldn't need Qiqi's pill anymore-he just needed to build his name again in the ancient stratum, and then he wouldn't need Qiqi's pill anymore-Zhaoming's pill would come knocking on his door.

"If that's the case, I'll go into isolated cultivation and refine this Qi gathering pill first!" Lin Yi said.

Right now, Lin Yi had to do everything he could to increase his strength to deal with the situation he'd face when he returned to the country. He had to go back and intimidate the enemies in the ancient level.

Qiqi, Jiu, Shihan, and Yiyi all knew about Lin Yi's condition, and naturally wouldn't say anything.

That day, Lin Yi went into her room again, ready to take the Qi gathering pill!

That's right, the pill in Lin Yi's hand had a medicinal smell-it was a Qi gathering pill, but it didn't look as good as the one he had last time. It wasn't surprising, though, since the one he had last time was made by the pill God Zhang Liju-this pill was either from the sky elixir sect or from the old stock, and definitely wasn't as good as Zhang Liju 's!

But it was good enough-Lin Yi wasn't picky. The pill's effect would only be different when it was used to break through the barrier, and the better it was, the higher the success rate. There was no difference if it was used as an experience pill.

Lin Yi had the experience of consuming a Qi gathering pill before, so he wasn't too nervous. After preparing the pill, he took a deep breath and slowly put it in his mouth and swallowed it!

Immediately after, a warm current flowed from Lin Yi's abdomen to the rest of his body, followed by a burning sensation as if all his meridians were on fire!

Lin Yi had experienced this feeling before, and it was painful, but he knew that this was something he had to go through, so he didn't try to resist it. He let it develop naturally, gritting his teeth and waiting for the next development!

After that, the feeling of the fire burning his meridians became even more intense. Lin Yi felt that it wasn't just his meridians that were on fire-his entire body was on fire as well!

But even so, Lin Yi gritted his teeth and persevered. He was very familiar with this feeling-it was the feeling before he used the Qi gathering pill to break through, and the more painful it was, the more it was a sign of a breakthrough.

The energy from the Qi gathering pill flowed from Lin Yi's lower abdomen into all his meridians! As time went on, Lin Yi could feel the energy in his meridians increasing. The huge energy was attacking Lin Yi's meridians, as if it wanted to open them up and expand!

Beads of sweat rolled down Lin Yi's forehead. The pain was getting stronger and stronger, but Lin Yi was very excited!

After all, he'd be crying if he didn't feel this way-he'd probably want to die if he didn't get this Qi gathering pill after all that trouble!

As Lin Yi's pain increased, the Qi in the air gathered and circled above Lin Yi's head, forming a weak vortex! It resonated with the pure Qi in Lin Yi's body and circulated around his body at a high speed, increasing his body temperature!

Finally, Lin Yi heard a loud bang, and his whole body trembled. His meridians seemed to have exploded in an instant, and at that moment, Lin Yi knew that he had broken through!

Sky Class mid phase! The Lin Yi now had the strength of Sky Class mid phase-he was one step closer to the peak! Sky Class mid phase-he was only four levels away from Sky Class late phase peak.

Thinking about how he'd gone from golden class all the way to where he was now, Lin Yi was filled with emotions ... It'd only been a short year, but it felt like a lifetime. Too many things had happened in this year, and he had too many responsibilities on his shoulders. These responsibilities were constantly pushing Lin Yi to work hard!

Luckily, the Qi gathering pill helped Lin Yi break through successfully. Now, with the essence Necklace, Lin Yi could probably kill Sky Class late phase peak in seconds, right?

At that thought, Lin Yi calmed down a little. He'd at least find a good time to show off his strength when he got back, and intimidate the people in the ancient levels again. Even if it couldn't last long, it'd be a win for him if he could intimidate them for a while until Kang Zhaoming brought the pills back!
