Chapter 3321 Not Using Common Sense

This was also in line with the rumors Lin Yi had heard before, that he was able to kill a practitioner with a lower status in seconds!

Could it be that Lin Yi was hiding something when he was overseas? Patriarch xuanchen frowned. It seemed like he had made a bad move. He reckoned that those people who went to cause trouble for the blood-clad yellow spring sect had found out something.

Otherwise, no wonder these people didn't go looking for trouble with Lin Yi-they didn't dare! He had foolishly sent people to the Dark Palace, but in the end, they were either dead or crippled, and he had no way to avenge his disciple ...

"If that's the case, does that mean Lin Yi still has the ability to kill high-level practitioners in seconds?" Patriarch xuanchen asked with a frown.

"Yes, master ..." Little four was a little sad, ""My and Xiaowu's injuries ..."

"You guys go and recuperate first, I'll think of a way!" Ancestor xuanchen told little four and little five to be at ease. In fact, he was just saying it. If he had a way, taganlong would have been cured long ago. He wouldn't have to be at odds with Lin Yi to save taganlong. Not only was little eleven covered in injuries, but Lin Yi also took away little one's divine weapon.

"Yes, master!" Although they knew that there was little hope of recovery, and that ancestor Xuan Tian's injuries were the same back then and he had not recovered, let alone the two of them, they still had hope that ancestor xuanchen could think of a solution.

After little four and little five left, patriarch xuanchen sighed. ""Zhaoming, what do you think of this?"

"Father-in-law, it seems that the overseas cultivators Association is trying to trick us. Isn't this a lie? We've suffered heavy losses, we can't let him off!" Zhaoming knew that he couldn't do anything to Lin Yi anymore, so he turned to the overseas practitioner's Association.

"Zhaoming, you don't know about my relationship with bullet head. He wouldn't lie to me," After calming down, patriarch xuanchen felt that bullet head he had no reason to lie to him. After all, they were brothers and did not have any major conflicts.

"Ah?" Kang Zhaoming froze. He dan TOU's last name was he, and so was the elder xuanchen's last name. Although he didn't know the elder's real name, he knew little Eleven's real name-he Meiqi. Therefore, he guessed that the elder was related to the president of the overseas cultivators Association, He dan TOU.

"Others call me patriarch xuanchen. In fact, my real name is he submarine." "That's a rather unique name," patriarch xuanchen said with a smile. "That's why I don't usually tell others."

"Uh ..." Zhaoming didn't know what to say after hearing the name. Nuclear submarine, nuclear warhead, could the two be brothers? It seemed very possible!

"He dan TOU is my younger brother, my biological younger brother, so he shouldn't be lying to me. Something must have gone wrong in between." "Perhaps Lin Yi isn't used to the environment overseas and can't use his strength?" patriarch xuanchen waved his hand.

"As expected! But this Lin Yi thing ... I don't really know, what you're saying is possible. " "I've heard that Lin Yi has to pay a price for killing a high level practitioner in seconds. I'm afraid that he didn't meet the necessary conditions when he was overseas. "

"What you said makes sense." "Yes." Patriarch xuanchen nodded and said, "I'll call bullet head first."

With that, the xuanchen ancestor didn't avoid Zhaoming and dialed bullet head's number.

"Bullet, how are your injuries?" "What's wrong?" asked patriarch xuanchen after picking up the call.

"Big brother, my injuries are still fine. Although the people from red conch and I were both injured, the injuries weren't particularly serious. We can recover." "Big brother, you called me about Lin Yi. Is there any news?" He dan said.

"Bullet, I have news on Lin Yi. I forced him out with that move, but ... The result was completely different." Patriarch xuanchen sighed and recounted what had happened to He dan.

"What? Lin Yi was that strong? Can he really kill a Sky Class late phase peak in seconds?" "But, why did he run away when he was overseas?" bullet he asked in shock. Why is that so?"

"I don't know about that. I called you to ask if Lin Yi's facing any problems overseas. For example, are you injured or for some other reason?" "Bullet," patriarch xuanchen said. "Think carefully. Is there anything special about it ..."

"I believe you ..." Bullet he's forehead broke out in cold sweat, and he felt a lingering fear! He tianzu would've been dead already if Lin Yi didn't have any problems! He could even finish them off if bullet head and the General Manager from red conches were both injured!

But Lin Yi didn't do that, which meant that there was a special reason why he didn't do it ... What was it?

Suddenly, bullet head he thought of something and quickly said, ""Big brother, I remember now-when Lin Yi was overseas, he wasn't Sky Class mid phase, he was Sky Class early phase peak. You just said that he's Sky Class mid phase now, so he must've broken through during this time ... I have a guess ..."

"What speculation?" "What's wrong?" patriarch xuanchen asked hurriedly.

"Is it because when Lin Yi was overseas, he was on the verge of breaking through, so he didn't dare to overdraw his energy to use those big moves, afraid that it would affect his breakthrough? that's why he was chased by us, and hid somewhere to level up. Now that he's broken through, he's bold enough to use big moves! "As for the acclimatization you mentioned overseas, I don't think it's possible. After all, it's a bit too ridiculous ..." Bullet he analyzed.

"Hmm ... What you said seems to make sense!" Patriarch xuanchen nodded in agreement. Most cultivators would choose to go into seclusion before breaking through and not use their Qi to activate their ultimate moves. Lin Yi was obviously one of them.

"Ah, big brother, I'm so glad I didn't chase after him back then. Otherwise, if Lin Yi was pissed, the celestial ancestor might be dead!" Bullet head he said in fear.

"Yeah, you can't think of Lin Yi with common sense. Alright, I understand, you just focus on recovering. Don't worry about Lin Yi's side, I'll think of something!" Said patriarch xuanchen.

Chapter 3322 Biding Our Time

"Alright, big brother!" Even if the xuanchen ancestor didn't say anything, He dan TOU didn't plan on looking for trouble with Lin Yi anymore. After all, he didn't think that the overseas cultivators Association was Lin Yi's match at all. Wouldn't he be looking for death if he went?

After ending the call, he looked at Zhaoming and said, ""You've heard it. Maybe we're all wrong. The blood-clad yellow spring sect is just a smokescreen released by Lin Yi. Perhaps, before he went overseas, Lin Yi already had signs of a breakthrough, so he didn't want to waste his strength and Qi using his martial skills. That's why he hired the blood-clad yellow spring sect as a fighter. But in fact, Lin Yi still has the ability to kill high-level cultivators in seconds. "

Kang Zhaoming nodded after hearing this. His face flashed with an unreconciled look, "Father-in-law, I think we can't let this Lin Yi live anymore-he can kill Sky Class late phase peak in seconds now, so in time, does that mean he'll be able to kill you too? By then, who in the entire world of practicing would be able to fight Lin Yi? Doesn't that mean Lin Yi can kill whoever he wants, no one can control him?"

"Not bad!" Patriarch xuanchen also nodded with a solemn expression. ""Lin Yi, it's time to get rid of him. Otherwise, he'll be a huge problem in the future!"

"Father-in-law, why don't I start preparing the ultimate Qi gathering pill? With Lin Yi's current strength, he's still interested in this thing, but when he gets stronger, he won't even need this pill anymore! We won't be able to kill him even if we want to!" Kang Zhaoming suggested.

"Alright, then you should start preparing to refine it! Looks like this is the only way-even if we have to offend boss Bai, we have to get rid of Lin Yi. Otherwise, he'll really be a big problem!" Patriarch xuanchen pondered for a moment before nodding his head and speaking with determination!

"Yes, sir. I'll go and prepare the materials for the refinement now!" Kang Zhaoming was extremely happy. The xuanchen ancestor finally agreed to use this ultimate move to kill Lin Yi. This time, Lin Yi ate the ultimate Qi gathering pill. Let's see if he can survive!

"Oh right, you have to keep the matter of little San and the others a secret. Don't tell anyone!" "If boss Bai knows that we're targeting Lin Yi, we can't give him the pills anymore!" The xuanchen ancestor reminded.

"I understand!" Kang Zhaoming nodded.

.....

Lin Yi had recovered his pure Qi by now, and he told Mengyao to call the Grand Elder to his room.

"Young hero Lin, you called?" The Grand Elder appeared in front of Lin Yi respectfully, as respectful as she could be!

"Grand Elder, let's not waste any time. Since Yaoyao has said so, I'll heal you!" Lin Yi said faintly.

"Haha, then I'll have to thank young hero Lin! But, Lin shaoxia, you're Yaoyao's husband, so you're also a member of the Dark Palace, so I won't say any more polite words. I'm also a soldier under Yaoyao, and it'll be good for the Dark Palace if I recover my strength!" The Grand Elder had become Mengyao's subordinate in the blink of an eye, and Lin Yi was speechless!

"Grand Elder, let's not talk about this anymore. We all know what kind of person you were in the past and what my relationship with the Dark Palace is. If it wasn't for Yaoyao, I wouldn't have made a move." Lin Yi waved his hand, not bothered by the Grand elder's compliments.

"Haha, good ..." The Grand Elder laughed awkwardly, ""Young hero Lin, what do you need me to do now?"

"You don't have to do anything, just wait." With that, Lin Yi reached out and took the Grand elder's wrist. He started channeling the third stage of the art of Dragon mastery and started healing the Grand Elder!

Lin Yi was getting more and more familiar with the third stage of the art of Dragon mastery, which greatly reduced the healing time. The Grand elder's injury was nothing to Lin Yi, and this level of injury could be healed in an hour or so.

However, as Lin Yi's practitioner's Arts circulated, he was pleasantly surprised to find that the third stage of the art of Dragon mastery was close to completion. Could it be that he was about to break through to the third stage?

If that was the case, Lin Yi could go back to the West Star Village and open the fourth stone door. What would be inside? Lin Yi was looking forward to it!

The art of Dragon mastery didn't show any signs of breaking through before, but just as Lin Yi was about to give up, it broke through. Could it be related to his own breakthrough?

Lin Yi could only attribute it to this-the increase in his strength meant that his body could store more Qi. Was this the reason for the art of Dragon mastery's breakthrough?

This discovery made Lin Yi very happy. He didn't think that healing the Grand Elder was the right decision. Sometimes, doing a good deed would bring him unexpected rewards!

Lin Yi didn't think that the depression from running for his life would bring so many good things in exchange. Not only did his strength increase, but his art of Dragon mastery was also about to reach stage three full circle.

After quickly healing the Grand elder's injuries, Lin Yi decided to level up his Arts here! To be honest, Lin Yi hadn't been training in the Jade space this whole time. He had too many things to do, and his strength level was also increased by using elixirs. He neglected the most basic way to level up, but since the chant was showing signs of breaking through, Lin Yi wouldn't let it go this time ...

News spread especially fast in the ancient world. Even if patriarch xuanchen and Zhaoming kept quiet, many disciples in the dark Palace saw what happened. You couldn't ask them to keep it a secret, and in fact, Lin Yi didn't need them to keep it a secret. He wanted to use these people to spread his strength.

And so, it didn't take long for the people of the ancient level to know that Lin Yi had returned, and that he'd unleashed his power in the dark Palace, killing a Sky Class late phase peak and injuring two other Sky Class Masters.

However, this was just the Dark Palace disciple's side of the story-no one knew if it was verified or not. After all, no one had heard of the ancient level robbery gang before, and this new gang only disappeared after the dark Palace appeared. No one knew if there was a group or not, and so this might be a lie made up by the Dark Palace to boost Lin Yi's reputation.

Chapter 3323 Tier 2 Automatic Medicinal Cauldron

Who didn't know about the relationship between Lin Yi and Chu Mengyao, the head of Dark Palace? So there was nothing wrong with Mengyao helping Lin Yi!

Of course, the three old ancestors of the blood-clad yellow spring sect were the most shocked! They were having a headache over whether they should continue helping after Lin Yi returned. Although Lin Dongfang was backing them up, they couldn't explain it to Lin Yi!

Lin Dongfang didn't want the sect elders to tell Lin Yi about this, so they had no excuse to help Lin Yi anymore. They were troubled when they heard shocking news-Lin Yi killed a Sky Class late phase peak in seconds and injured two Sky Class late phase peak Masters?

Was that even possible? The three old ancestors of yellow spring sect had similar thoughts as the others. They were the ones who truly understood Lin Yi's strength, so they called him immediately.

"Mister Lin Yi, I'm the sinister old master of the blood-clad yellow spring sect!" After the ghastly ancestor picked up the phone, he said straightforwardly, ""There's been a rumor going around these few days-it's said that you killed a Sky Class late phase peak and injured two of them? Is this true?"

"It's true," Lin Yi didn't hide it. After all, the blood-clad yellow spring sect had been showing enough kindness all this time. There was no need for him to lie to them. Besides, he wanted to spread the news.

"Oh? Mr. Lin Yi, you're this strong now?" The ghastly forefather asked in surprise.

"It's like this-I've leveled up again-I'm Sky Class mid phase now, and I can use my secret Arts to kill Sky Class late phase peak in seconds. " Lin Yi said.

"I see!" The Grandmaster let out a breath of relief after hearing Lin Yi's confirmation. He knew that Lin Yi wouldn't lie. If Lin Yi said that, then he had full confidence. The Grandmaster said,"By the way, when you weren't around, the Dongfang family, the everyday and every day sect, and the Black Horse gang came to me together. They found out that we killed those people, but they thought that you were the one who hired us."

"Oh? Did they cause you any trouble?" Lin Yi felt a little apologetic about this. Although the blood-clad yellow spring sect was doing it for the mission, they still helped him after all. If he didn't spread the news, it wouldn't be easy for them to investigate the blood-clad yellow spring sect after he killed these people in seconds.

"It's been settled, but we have to keep a low profile for the time being." "But I'm afraid that they'll go after you instead of us," the ghastly patriarch said.

"I know, it's okay. Thank you for the reminder!" Lin Yi said.

"Alright then, that's all for now!" The old man didn't want to say too much-there were some connections that Lin Yi didn't know about, after all, and he couldn't say anything.

However, to Lin Yi's surprise, be it the Dongfang family, the everyday and every day sect, or the Black Horse, they all chose to stay silent. They didn't come looking for trouble with Lin Yi because they really didn't know what Lin Yi's plans were!

Lin Yi's back? And he instantly killed a Sky Class late phase peak? Even though many of them were still suspicious, they weren't stupid this time. They were still scared when they went to cause trouble for yellow spring sect, but now that Lin Yi had returned, they didn't dare to do so!

What if Lin Yi really did have the strength to kill Sky Class late phase peak in seconds? Then, would it be able to instantly kill an expert at the consummate level? All of this was unknown, so these people kept silent at the same time.

These days, Liu Jinghan's grade two automatic medicine cauldron was ready and was being sent to the practitioner's trade association for bidding! But this time, Zhaoming wasn't worried.

The sky elixir sect was the only one who could make Tier 2 medicine cauldrons, and so no matter how well Lin Yi's cauldrons sold, they'd still need the raw materials. As long as Kang Zhaoming didn't agree, they'd have no more materials. So Kang Zhaoming was planning on making a profit from the raw materials, taking a share of the profits without worrying about it affecting his business. After all, the demand for Tier 1 and Tier 2 automatic medicine cauldrons were different.

Compared to a grade one automatic medicinal cauldron, anyone with a fire attribute physique could become a grade one Alchemist after some training and learning to control a grade one automatic medicinal cauldron. The operating conditions of a grade two automatic medicinal cauldron were slightly more demanding!

First of all, those half-baked alchemists lacked the wood element in their bodies, and it was extremely difficult for them to become a second class Alchemist. They weren't Han Jingjing, and they didn't have Lin Yi's help either. The possibility of them becoming a second class Alchemist was almost zero!

Therefore, the target of this Automatic Grade two medicinal cauldron was those real alchemists. This Alchemist could be someone who had just stepped into grade two from grade one or a mature grade two Alchemist. In any case, as long as he was a grade two Alchemist, he could use a grade two automatic medicinal cauldron!

However, the demand would be a little lower-these thirty automatic cauldrons were enough to cover all the refiners. Even if they didn't have enough, they wouldn't lack too many. Zhaoming's expectations were off!

After all, he'd never seen a finished product of these tier two automatic cauldrons before. He'd only heard about how powerful they were and what kind of pills they could make. As far as he was concerned, these tier two automatic cauldrons should be the same as tier one automatic cauldrons. As long as they were a refiner, they could use them. The sales should be high!

And so, in order to profit from this, Kang Zhaoming stopped the supply of second grade medicine from the market right after right-hand Tiger gave Lin Yi his cauldron. His goal was to hoard them and sell them to Lin Yi at a high price!

Plus, Zhaoming was worried that he wouldn't be able to make money if the supply didn't meet the demand, so he'd prepared a batch of second grade cauldrons to sell to Lin Yi at a high price!

"That's a good idea, Zhaoming!" Patriarch Xuanchen nodded in agreement. ""We're going to kill Lin Yi, but before he dies, we're going to squeeze out all his value! With the help of this grade two Medicine cauldron, we can make a fortune!"

The sky elixir sect's grade one smart medicine cauldron was also on sale, and its functions were comparable to Lin Yi's automatic medicine cauldron. However, as the market was reaching saturation, the price dropped steadily from the initial rush. This also made patriarch xuanchen and Kang Zhaoming feel a sense of danger!

Chapter 3324 The Five Elements Sect's Worry

These two people were not cut out to do business. One of them was focused on researching things related to cultivation and inheritance, while the other was a sneaky person. Therefore, the two of them only blindly followed the trend and did not know how to predict the market at all. They had spent a lot of effort to obtain the technical plan for the grade one automatic medicinal cauldron, but the sales volume was getting lower and lower!

Just like house Kang back then, they relied on monopolizing the market to get rich. Once the market was hit, they would lose everything. It was the same with Kang Zhaoming now. Liu Jinghan might not be his opponent in terms of ideas, but in business, even ten Kang Zhaoming's couldn't do it.

Therefore, after the two of them saw the predicament, they set their sights on the grade two automatic medicinal cauldrons that had not yet been sold on the market. They hoped to make a fortune through the supply of raw materials for the grade two automatic medicinal cauldrons.

However, they had never thought about how big the market for this grade two automatic medicinal cauldron was. Or rather, the two of them had misunderstood and thought that the grade two automatic medicinal cauldron was the same as the grade one automatic medicinal cauldron. The threshold for use was very low, and anyone could use it. Therefore, there would definitely be a surge in sales.

"Then, should we use the money we earned from the grade one intelligent medicinal cauldrons to mass-produce grade two medicinal cauldrons?" Kang Zhaoming asked.

"That's right. When the time comes, the production of Tier 2 automatic medicinal cauldrons will not be able to avoid our raw materials!" "Yes." Patriarch xuanchen nodded."Since we can't earn money from the production and sales of grade two automatic cauldrons, we have to hold onto the market for raw materials."

"Who said we can't sell it?" Zhaoming waved his hand, pleased with himself,"Father-in-law, we're the supplier of the raw materials. We can use this as a bargaining chip to negotiate with Lin Yi. He'll have to give us some of the grade two automatic cauldrons he produces for sale at a low price. This way, we can directly brand it as our heavenly elixir sect's grade two intelligent cauldrons for sale. It won't make our customers think that we don't have any follow-up products and technical support."

"Oh? That's a good idea-you're a business genius, aren't you, Zhaoming?" The xuanchen ancestor felt that it made sense, but he didn't know about the business in the secular world and didn't know that this was one of the most common ways of doing business. It didn't require any business brain since it could be seen everywhere in the market, but it was a business genius when it came to Kang Zhaoming.

"Haha, it's just a small trick!" Zhaoming said, but he looked proud of himself.

"You'll be in charge of following up on this. As for the extreme Qi gathering pill, we need to hurry up and get it out to eat that Lin Yi kid!" Said patriarch xuanchen.

"Don't worry, father-in-law!" Kang Zhaoming nodded.

But what Zhaoming didn't expect was that even after he'd made a few hundred Tier 2 cauldrons, neither Lin Yi nor Liu Jinghan had expressed their interest in buying one!

The cultivator trade Association's second grade automatic medicine cauldrons were starting to be auctioned, and the number was getting smaller and smaller. The sects that bought them all had good reviews, but Liu Jinghan didn't show any intention of buying more!

Kang Zhaoming knew that Liu Jinghan only had thirty grade two cauldrons from the right coiled Tiger. She didn't have any more. They were about to be sold out, so why was there no news at all?

Could it be that he was deliberately keeping a low profile so that he would not raise the price?

However, when there were only ten Automatic Grade two cauldrons left, neither Lin Yi nor Liu Jinghan contacted him. This made Zhaoming very confused. How could he do business like this?

There are only ten left in the inventory. If you don't restock, do you not want to do business? Moreover, it would take a certain amount of time to produce it, right? It's impossible to say that you bought the raw materials and immediately produced them? Do you think this is an automatic production line? However, the production of grade two automatic medicinal cauldrons all required manual production.

"Father-in-law, what do you think Lin Yi is trying to do? Is he trying to make a one-shot deal and not sell it in the future?" Zhaoming couldn't take it anymore and went to find the xuanchen ancestor.

Patriarch xuanchen wasn't as confident in his financial ability as Zhaoming, so he was dumbfounded. "Zhaoming, it won't be too hard to produce these automatic cauldrons. Lin Yi won't stop selling them, will he?"

"I don't think so. It's hard to create this thing, but it's still profitable. This money is enough for Lin Yi to build an orphanage or something. He won't give up." Zhaoming shook his head, "I'm just worried that Lin Yi's going to make his own Grade 2 medicine, or buy it from other sources. Then we won't be able to sell our Grade 2 medicine."

"That is impossible! A second class cauldron wasn't that hard to make-as long as it was a Sky Class golden class third level refiner, they'd be able to make it. But how many Sky Class golden class third level refiners were there?

Besides, many of the materials used to make this grade two cauldron are exclusively controlled by our sky elixir sect. They come from the edge of the five evils Savage Lands, and other sects have no way to get them!

Was it Lin Yi, or was it that han Jingjing? Or boss Bai? Even if they could refine it, would they be able to find the materials?

"That's true, Lin Yi's probably trying to put on airs ..." Zhaoming's phone rang right after he finished his sentence. He looked at it-it was his big brother Zhaolong!

The Hidden House you was now wavering because of Lin Yi's strength. They didn't dare to reveal Lin Yi's information, but Zhaolong didn't have this worry. He called Zhaoming as soon as he got the news.

"What's the matter, big brother?" Kang Zhaoming asked after picking up the call.

"Zhaoming, there's something you need to listen to. Lin Yi just called Yu Panhu, asking if house you had any more second class cauldrons. Lin Yi wanted to give them some, but Yu Panhu didn't have any left, so he promised to help him think of a way to squeeze out one or two ..." Zhaolong said.

"What?" Kang Zhaoming was still worried when he heard the good news. He slapped his thigh and said excitedly, "That's great, that's great! Big brother, your information is very important. Don't worry, if there are any benefits in the future, you will definitely not be left out!"

"Haha, we're family, house Kang will always be your home!" Zhaolong said with a smile.

Chapter 3325 Who Gave The Dark Palace The Glory?

"Alright, I'll see if there's anything else the sky elixir sect can do in the mortal world after a while. I'll let you do it then!" Zhaoming had the confidence to do so now. He was the son-in-law of the xuanchen patriarch-it was a piece of cake for him to get a few projects for house Kang, not to mention that Zhaolong had done a great job this time.

After hanging up, he didn't scold Zhaoming for giving house Kang benefits because he heard what Zhaolong said on the phone. Lin Yi was starting to buy more second grade cauldrons!

However, Lin Yi didn't go to the sky elixir sect or the five elements sect to buy it. Instead, he went to right Panhu!

"Haha, this Lin Yi, why doesn't he think about where house you're getting their second class cauldrons from? they're supplied by the sky elixir sect! As long as we get the source, no matter how strong Lin Yi is, no matter how wide his connections are, it'll all be for naught!" Patriarch xuanchen heaved a sigh of relief when he heard the news.

Therefore, after consuming the calming pills, patriarch xuanchen and Zhaoming started to mass-produce grade two cauldrons. To them, this was a once-in-a-lifetime opportunity to monopolize and make a fortune-how could they let it go?

However, at the end of the sale, when there were only three grade two automatic medicinal cauldrons left, the cultivator trade association announced to the public that these were the last three grade two automatic medicinal cauldrons to be auctioned. From now on, this type of Automatic Grade two medicinal cauldron would no longer be on the market. These three Automatic Grade two medicinal cauldrons would be given to the dark night Palace as a gift!

Next, new models of products would be launched. However, there were still some technical difficulties that had not been overcome in this new model, and the release time was yet to be determined. In other words, these thirty grade two automatic medicinal cauldrons would become out of stock on the market!

The cultivators who had been indifferent to the auction were shocked and regretful. The reason was simple. They thought that after the auction, as the number of cauldrons increased, this thing would become cheaper and cheaper. So, they weren't in a hurry. According to the market of the automatic Grade one cauldrons, the sky elixir sect would definitely release a counterfeit. At that time, this thing would be worthless.

However, who would have thought that this thing would become out of stock? and the last three were not even auctioned off, but directly given to the Dark Palace. What was the meaning of this? Could it be that they couldn't even buy medicine for regret?

It was true that they couldn't buy any more, but the Dark Palace didn't need three at all-one was enough. The other two were just a gift from han Jingjing to Chu Mengyao. Chu Mengyao was publicly acknowledged as Lin Yi's first wife, so han Jingjing would naturally try to please her.

Mengyao would decide who to sell the other two to-not only would it help the sect build up connections, but it'd also generate income for the sect!

"Elder dark night, your Dark Palace has been developing well recently. We're both from the ancient level, so we should get to know each other. I'll definitely pay you a visit in the next few days!"

"Elder an ye, I heard that your Palace Master Chu's boyfriend is Lin Yi, Master Lin-he's so strong, he could kill Sky Class late phase peak in seconds! We're all so envious!"

"That's right, dark night elder. Your dark night Palace not only has an inheritor, but also a master like Lin Yi. It's hard for you to not get rich ..."

The Grand Elder of the Palace of Darkness was here to represent the palace at the auction. She didn't want to come, but Mengyao told her to, so she had to come! In fact, Chu Mengyao already knew that Han Jingjing would give her three tier two automatic cauldrons, so she let the Grand Elder go. Otherwise, she wouldn't have joined in the fun!

However, the Grand Elder didn't know that the Dark Palace wasn't rich, and she couldn't afford a grade two automatic medicinal cauldron. Most importantly, the Grand Elder wasn't very sociable. In fact, it couldn't be said that she wasn't sociable. In ancient times, strength was respected. If you didn't have strength, the Dark Palace would be weak. Who would be willing to pay attention to you?

It was good that she didn't pay attention to you, it was already good enough that she didn't make fun of you. That was why the Grand Elder had never been willing to participate in these kinds of sadistic gatherings, even though she had once vowed to herself that in her lifetime, she would make the Dark Palace stand at a height where others would fight to curry favor with them, just like the sky elixir sect now!

However, as she grew older and time passed, although her dream of becoming the Grand Elder had never changed, reality had made her understand that it was impossible for the Dark Palace to catch up to her. Ye Wan 'er was just a puppet, and she, with her own power, could not change anything at all!

However, everything changed after Mengyao became the head of the Dark Palace! Of course, the Grand Elder understood that it wasn't that Mengyao changed, but rather that she found a good bodyguard-Lin Yi!

The Grand Elder was well aware of Mengyao's relationship with Lin Yi, but she still insisted on treating Lin Yi as Mengyao's fiancé-she could see the bright future of the Dark Palace!

However, even though the Grand Elder was optimistic about the future development of the Dark Palace, he did not expect this moment to come so quickly and so suddenly!

At this moment, the Grand Elder had a feeling that it was unreal and he couldn't deal with it. Looking at the sect Masters and elders who were flattering him, the Grand Elder had an impulse to cry!

She had done it, she had finally done it. Although it wasn't done by her Grand Elder, it didn't matter. As long as the Dark Palace developed, she would die without regrets.

The Grand Elder didn't expect Lin Yi's influence to be this great, to be able to make these people sail with the wind! Wasn't it just a grade two automatic medicinal cauldron? In fact, Lin Yi's deterrence was also a factor!

These ancient sects didn't have any grudges with Lin Yi, and other than a few, none of them wanted to make him their enemy! Who cared if Lin Yi could really insta-kill her or not? Lin Yi's strength must be very strong, so these people shouldn't mess with him!

Although the Grand Elder was busy exchanging pleasantries with these people, she was happy in her heart. She wished she could do this every day ...

The excitement on this side caused the face of someone on the other side to turn frighteningly dark! This person was Kang Zhaoming. He came with small one. He thought that Lin Yi would beg him to order the ingredients for the three Automatic Grade two cauldrons after they were sold out!

By then, Kang Zhaoming could demand unfair conditions from Lin Yi!

Chapter 3326 Subverting One's Understanding

For example, leaving Wang Xinyan, returning her to his big brother, taking back little one's heaven-grade weapon, and so on ...

But the scene in front of him made him feel like he'd been struck by lightning-he couldn't even speak!

What? After these thirty grade two automatic medicinal cauldrons were sold out, they were not going to sell anymore? An improved product? But he had not overcome the technical difficulties? What was the meaning of this? The launch date unknown? In other words, it might not even be listed on the market?

If he did not overcome that technical difficulty, would there be no grade two automatic medicinal cauldrons for sale in the future? How could this be? What should he do about the 300 grade two cauldrons that he had just made in his house? Who are you selling to?

Small one's breathing was also rapid. He knew that he and patriarch xuanchen were bound together for good or bad. What if the grade 2 cauldrons that patriarch xuanchen and Zhaoming sold couldn't be sold?

"Brother Kang, we ..." Small one took a deep breath and turned to Zhaoming.

"Don't panic!" Zhaoming forced himself to calm down. "It's impossible that Lin Yi doesn't need a second class medicine cauldron. Otherwise, why would he call the Hidden House you? He had to overcome the technical difficulties of making a grade two automatic medicine cauldron, but the raw materials were grade two. Besides, Lin Yi wasn't stupid. If he really couldn't overcome the technical difficulties, would he be so stupid as to give up on this market? I don't believe that Lin Yi would be that stupid-he'll definitely continue making tier two automatic cauldrons, so we won't be able to keep our tier two cauldrons. It's just a matter of time!"

"You're a genius, Junior Brother Kang! You've figured out Lin Yi's thoughts so quickly! No wonder master thinks so highly of you!" Small one heaved a sigh of relief, as if he'd eaten a calming pill!

To him, Zhaoming was quite capable. No wonder elder xuanchen married little eleven to him. He wasn't strong, but he had a high IQ. Wasn't the five-elements sect lacking someone like him?

The two of them calmed down and returned to the five elements sect. Zhaoming told patriarch xuanchen about his analysis, and the latter was relieved as well. After all, Zhaoming's analysis made sense.

What they didn't know was that these Automatic Grade two cauldrons were only a substitute for what Lin Yi suggested. The purpose was to trick Zhaoming, and Jingjing had already found a replacement material for a grade two cauldron.

As for the so-called technical difficulty, it was just that han Jingjing wanted to improve the grade two automatic medicinal cauldrons. After all, the number of people who could control the current grade two automatic medicinal cauldrons was limited. Only grade two alchemists could use them. However, there were only a few grade two alchemists in the entire ancient world. If you produced so many grade two automatic medicinal cauldrons, who were you going to sell them to?

This thing couldn't be broken so quickly unless it was handled incorrectly. Otherwise, a medicinal cauldron could be used for a few years or more than a decade. It would be impossible to sell another medicinal cauldron like this.

During this time, Lin Yi had been staying in the dark Palace to cultivate. The art of Dragon mastery was about to break through to the full third stage, and Lin Yi was ready to rush up in one go. However, he knew that this wasn't something that could be done overnight. Whether he could break through successfully or not was up to fate!

Just as the Grand Elder was happily returning to the Dark Palace with the three tier two automatic medicine cauldrons, Lin Yi received a call from han Jingjing, or rather, Liu Jinghan.

Although many sect leaders and elders wanted to use high prices or other resources to exchange for a Tier 2 automatic medicine cauldron from the great elder, the great elder didn't agree. She was clear about her position in the dark Palace and was prepared to let Chu Mengyao make the decision when she returned!

However, she recorded down the offers from each house and asked Mengyao to decide which house she should sell the extra two automatic cauldrons to.

"Jing Jing, it's about the tier two automatic medicinal cauldron, right?" Lin Yi picked up and asked.

"Yes, Lin Yi bro, you're a god! You know everything!" Han Jingjing said in surprise.

"Liu Jinghan, stop complimenting me ... I'm not used to it ..." Lin Yi sweated. He felt a little awkward when han Jingjing complimented him.

"I'm han Jingjing! Could it be that Lin Yi bro likes a business genius like Liu Jinghan?" Han Jing Jing asked.

"Han Jingjing, then." Lin Yi smiled bitterly, "do you have a new plan?" In fact, you can make your own decisions. There's no need to discuss everything with me. "

"Actually, it's like this. Using grade two automatic cauldrons that replace cauldron materials can be sold on the market at any time. We've already found a solution to the problem of the cauldron materials. However, if it's only a grade two automatic cauldron that replaces materials, even if the quality is slightly better, it's impossible to promote sales." Han Jing Jing said, "the current Tier 2 automatic cauldrons use the cauldrons of the sky pill sect as the raw material. They can be used for years or even decades. But the substitute material we have can be used for decades. There is a difference in essence, but the difference is not big. We can't wait for a decade to sell it."

"Oh? What's the situation now?" Lin Yi asked. The sales of the automatic cauldrons had been pretty good recently, and Lin Yi had gotten a large sum of money from the overseas practitioner's Association, which was still in the Jade space. He didn't have time to give it to you Xiaoke, and with that money

transfer, the orphanage didn't need money anymore. They were on the right track, and one of Lin Yi's worries was solved.

And so, Lin Yi didn't really need that much money. But he knew that the company had grown to a large scale, and house Liu, fatty Lai, Kang Xiaobo, and the others were all relying on it to survive. It couldn't stop or close down, and so Lin Yi had to help them as much as he could.

"The current situation is that Jing Jing has invented a medicinal cauldron that can allow a first grade Alchemist to refine a second grade pill." Han Jing Jing's words were earth-shattering, and Lin Yi jumped!

"What? A first ranked Alchemist can refine a second ranked pill?" It was no wonder that Lin Yi was surprised-this was a completely different story from the thousand-year-old rules of the world of practicing. If a first class refiner could make a second class pill, then the status of a second class refiner would drop!

It could be said that this was a great thing for most people, but a small number of people would have a hard time. They were originally high and mighty second grade alchemists, but now they were the same as first grade alchemists.

Chapter 3327 Separation

"Yes, but there's still a technical problem!" Han Jing Jing said, "the principle of this grade one and grade two automatic medicinal cauldron is to rely on a grade one Alchemist to control the temperature of the alchemy fire. In terms of the intensity of the fire, a grade one Alchemist's alchemy fire is definitely not as strong as a grade two Alchemist's alchemy fire. This part can be supplemented by external forces!"

"What I'm thinking about is a material that can store and provide spiritual energy. As long as we can find this material, we can create grade one and grade two automatic cauldrons. However, it's quite difficult to find this material, and it's also a problem to charge it with energy! "Although we can earn a large sum of profit in the future by continuously helping grade one and grade two cauldrons charge their energy, even if we find this material, it's still difficult to charge it and how to charge it!"

What han Jingjing said wasn't complicated at all-it was just something that a first grade refiner couldn't do, and they had to use the energy stored in this new automatic cauldron to make up for it. It was the same as Lin Yi's idea of using a combined attack to make multiple refiners refine pills at the same time. He didn't think that han Jingjing would apply it to the new automatic cauldron after hearing it-she was a little genius.

If this kind of medicinal cauldron were to be on the market, it would probably bring about an unimaginable rush to buy it, and the follow-up after-sales service to charge it would also bring an astronomical profit. But the same problem was, how could it store energy and true energy?

Lin Yi's eyes lit up. The first thing he thought of was uncle Fu's heirloom, the White energy stone. The thing Yu Dake brought over was the same thing. In other words, this white energy stone could store and release energy, but it was rare. It was considered a treasure by uncle Fu's sect, and they didn't find much of it later on. One could imagine how rare it was.

But later, Yu Dake brought over a treasure map, which said that there were a lot of these stones in the treasure ... Could he get these stones out?

With that thought, Lin Yi fell silent and started planning! Even without the incident with Han Jing, Lin Yi was planning on going to the hakunamarta desert. According to the red conch's information, there was a poison base there, and it was the largest one. There might be news of the pangolin there.

"Lin Yi bro, what are you thinking? Are you thinking of that white energy stone?" Han Jing Jing asked.

"You've also thought of it?" Lin Yi then remembered that han Jingjing knew about this as well. When they had nothing to do, Lin Yi even gave the stone to han Jingjing to study.

"That's right. When Jing Jing designed the grade one and two automatic medicinal cauldrons, she used this white energy stone as a reference. Jing Jing thought that the principle of these things is probably the same, so Jing Jing also used the White energy stone as the prototype when she designed it!" Han Jing Jing said.

"In other words, as long as we have these white energy stones, we can mass produce them, right?" Lin Yi nodded, even more determined to go to the desert now.

"Yes, but this is only the first step to solving the problem. The key is to charge ..." Han Jing Jing paused for a moment before continuing, ""Or, I can exchange it with enough white energy stones!"

"This is a difficult problem." Lin Yi frowned. Where did the energy from the energy stone come from? After using it, could it be recharged? "Jingjing, wait a minute, I'll make a call and ask about this!" Lin Yi said after some thought.

Lin Yi smacked his head. How could he forget about boss Bai? Boss Bai was once the sect leader of the five-elements sect and was very knowledgeable. Since little eleven didn't take the energy stone away after seeing it, but threw it aside in disdain, it meant that she had seen it before!

So, since she had seen this thing before, how could boss Bai not have? With that thought, Lin Yi decided to ask boss Bai.

"Okay, Lin Yi bro, I'll be waiting for your news! By the way, I'm back in the villa in Eastern Sea city. When are you coming back?" Han Jingjing was starting to miss Lin Yi. She wasn't home when Lin Yi came back, and when she received the news, Lin Yi had already left!

In fact, Lin Yi only stayed for one night in the villa before leaving, and Han Jingjing wouldn't be able to make it back in time the next day.

"Alright, I'll go back now. I'm also going to visit teacher Bai." Lin Yi said.

"Then I'll be waiting for you." Han Jingjing nodded happily.

Lin Yi got up and left the room-he had to leave the Dark Palace. He'd been here for about a week, and while his art of Dragon mastery was close to the full stage, it wasn't there yet. It'd been a few days since he'd reached that stage, and it was time for him to leave.

Although Chu Mengyao knew that Lin Yi couldn't stay with her in the dark Palace forever, she didn't expect that when the day really came, she would be so sad, just like the last time they parted.

Mengyao fantasized about Lin Yi staying with her in the dark Palace-they didn't see each other much, and Lin Yi spent most of his time cultivating, but it was enough. It was just like back in the villa, and she felt safe knowing that Lin Yi was by her side.

However, Chu Mengyao was a rational person. She knew that Lin Yi still had a lot of things to do. It was impossible not to leave. Only when Lin Yi kept improving could they be together again!

Lin Yi needed to get stronger for the Sky Class Island Plan!

After saying goodbye to Chu Mengyao and the Grand Elder, Chu Mengyao didn't show it on her face even though she was reluctant to part with them. She only had a slight sadness on her face. The Miss was like this. She kept many things to herself and never said them out loud.

That night, Lin Yi rode the purple lightning Beast back to Donghai city. When he got home, he saw Han Jingjing in the living room.

"Lin Yi bro, you're back!" Han Jingjing, Chen Yushu, and Wang Xinyan were all very familiar with each other, so she didn't feel like a stranger at all.

"Yes, Jingjing, pack up. We're going to see Mr. Bai together." Lin Yi wanted to get this done as soon as possible before leaving for the hakunamarta desert.

Han Jingjing didn't have much to pack, so she stood up and left the house with Lin Yi ...

Chapter 3328 Visiting Mr. Bai

Yushu and Xinyan were helpless, but they'd heard from Jingjing that Lin Yi was going to see boss Bai after he came back.

It was already very late, but boss Bai was still happy to hear that Lin Yi was here. He told them to come over, but Lin Yi was surprised to see he meiyue in the living room!

He didn't expect he meiyue to move into boss Bai's house. Did that mean that Bai Weitao had already settled things with he meiyue?

As expected, when Lin Yi's eyes landed on him, he was a little embarrassed,""Boss, I've already brought meiyue to meet her parents. We've made an appointment to go to Southeast Asia tomorrow, so meiyue will be staying here tonight."

Lin Yi nodded. He felt that he meiyue wasn't a reliable person, but since Bai Weitao liked her, Lin Yi didn't want to interfere too much.

"I wish you all a good time!" Lin Yi said with a smile.

"Boss, are you really not going? "Not with sister-in-law Xinyan ... Uh ... And sister-in-law Jingjing ..."
When Bai Weitao saw han Jingjing, he knew that he had said something wrong. He had said it without thinking. It was really harmful!

Han Jingjing was here, but she just had to mention Wang Xinyan. Bai Weitao was a little depressed! Even an idiot would be able to tell that Lin Yi and han Jingjing had a special relationship.

However, han Jingjing did not seem to be jealous at all. Instead, she was a little shy when he called her sister-in-law, which made Bai Weitao feel relieved.

"I'm not going. I have a lot of things to do. Are you two going with me tomorrow?" Lin Yi asked.

"Fan ganhe and Zhang duopan are also going. Who knows why they are going? However, we're not on the same trip. " Speaking of this, Bai Weitao was a little annoyed. These two people were really haunting

him. He meiyue had already confirmed her relationship with him, was Zhang duopan still trying to interfere?

"The two of them?" Lin Yi frowned, "Be careful,"

"Don't worry, boss. I'll stay away from them. " Bai Weitao nodded.

Lin Yi didn't say anything else and turned to boss Bai, "Mr. Bai, shall we talk in the study?"

"Let's go!" Boss Bai knew that Lin Yi had something to do, coming to visit at this hour. He stood up and walked to the study room first, with Lin Yi and Han Jing following behind.

After they entered the study, Bai Weitao smiled and said to he meiyue, ""Meiyue, it's getting late. Shall we go rest?"

"Rest? what rest? Lord Bai hasn't even rested yet, and you're telling me to rest? What are you thinking about?" He meiyue and Bai Weitao hadn't broken through the last line of defense yet, but the two of them had already kissed and hugged, and even so, Bai Weitao couldn't stop!

"Hehe, then let's watch TV here for a while!" Bai Weitao laughed dryly and sat on the sofa helplessly.

However, after he meiyue sat down, she glanced at Bai Weitao and said shyly, ""Bai Weitao, how about this, you go take a shower first! Seeing that you've endured so much these days, I promised to reward

you tonight. I can help you ... Once with my mouth, but you have to clean yourself. If you can't clean yourself, don't blame me for not keeping my word!"

"Ah!" After Bai Weitao heard he meiyue's words, he was pleasantly surprised. He quickly stood up and patted his chest, promising, "Don't worry, I'll definitely wash it properly. I guarantee that it'll be very clean. I'll make sure to wash it three times inside and three times outside. You won't be able to find any problems!"

"En, alright. I'll look at the time. Don't come out in less than half an hour!" He meiyue nodded in satisfaction.

"Of course, half an hour is too little. It'll take at least 30 minutes!" Bai Weitao laughed and rushed to the bathroom.

He meiyue, who was sitting on the sofa, had a complicated look in her eyes when she saw Bai Weitao enter the bathroom. She then stood up, picked up a cup on the coffee table, and walked in the direction of the water dispenser. However, when she passed by the study room, she seemed to slip and had to hold on to the door of the study room before she could stand.

Lin Yi was a Sky Class master, and he did feel someone coming in, but he didn't pay much attention to the sound of the water dispenser! After all, it was Bai Weitao and the others outside the door, and Lin Yi didn't have to suspect anything. Besides, this person only went to get water and didn't stay in front of the study.

At this moment, Lin Yi had just finished his small talk with boss Bai, briefly explaining what had happened recently before getting to the main point!

"Teacher Bai, I'm sure you've heard about the latest Tier 2 automatic medicinal cauldron, right?" Lin Yi asked.

"Why haven't I heard of it? This automatic tier two medicinal cauldron of yours has been in the limelight recently. But what's the matter? I heard that this medicinal cauldron has stopped selling. Are you preparing to research an improved version?" Boss Bai asked.

"That's right. That's true. The rumor is true." "We're developing a new generation of Tier 2 automatic cauldrons. We're no longer using Tier 2 cauldrons as raw materials, but we've encountered a technical problem!" Lin Yi admitted.

"Oh? You've already found a substitute material? That's great!" Boss Bai nodded and said, "I wanted to tell you before that even if the raw materials of this grade two medicinal cauldron were ordered from the Hidden House of you, their medicinal cauldron also came from the sky elixir sect, which is the five elements sect, so this isn't a long-term solution. But since you've found it, there's no problem!"

"Yes, but the current difficulty is to make this grade two automatic medicinal cauldron even more intelligent!" "It's like this ..." Lin Yi said.

With that, Lin Yi explained the new "grade one and two automatic cauldrons" to boss Bai in detail.

"Oh? In that case, this medicinal cauldron is actually so powerful?" Boss Bai was an experienced refiner, and his understanding of refining was even deeper than Lin Yi 'S. He was very surprised to hear that there was a cauldron like this-he knew what kind of impact it would have on refiners!

"Yes, but white energy stones like this are rare ..." Lin Yi said, ""Here's a map that a friend gave me. It's said that there's a white energy stone mine in the distant Hakuna Marta desert. There are many white energy stones inside ..."

"The hakunamarta desert? You're going there to get the energy stones?" Hearing that, boss Bai immediately frowned!

Chapter 3329 Not Human

"What's wrong, Mr. Bai? is there something wrong?" Lin Yi's heart dropped when he saw boss Bai's expression-things weren't as simple as he thought.

"Lin Yi, even if you go to the Hakuna Matata desert, you might not be able to get the White energy stone!" "No!" Boss Bai shook his head and said,"because I know this white energy stone very well. It was recorded in detail in the diary of the five elements sect!"

"What do you mean? Could it be that there were no white energy stones there? Is this map a lie?" Lin Yi asked, surprised.

"The map is not a lie. There is indeed a white energy stone mine there!" Boss Bai paused for a moment, then continued, ""However, it's not a land without an owner. It's been controlled by someone a long time ago, and it's a cultivation family!"

"A cultivation family?" Lin Yi's heart skipped a beat-it seemed that things weren't as easy as he thought!

"That's right. That place is no longer part of our Huaxia, but a foreign land, the hakunamarta desert. There is a mysterious race called the Paoli race. This race can be said to be human, but they are also not human. No one knows what they are exactly because they have never revealed that they appear in

human form. However, they look very different from normal people. At first, everyone thought that they were foreigners, so it was normal for them to look different. However, with the development of science and Technology, the internet became more and more popular. When people in the world of cultivation also used the internet, people found that the appearance of this race was different from that of foreigners. It was special, so we suspected that they were not human!" Boss Bai explained.

"The Paoli clan? Not a human?" Lin Yi was a little surprised, but he wasn't shocked. After all, he had seen the big fire Lion Clan, the spider Clan, and the purple lightning Beast, who were all training spirit beasts. It wasn't surprising that other non-human races could train.

"That's right, but I can't be sure either. Apart from our five elements sect, the Paoli clan is also in contact with the cultivators trade association. Other than that, they don't have much contact with anyone else, and there's very little information about them ..." Boss Bai paused for a moment before continuing, ""Back then, they came to China's cultivation world to do business. Through our five elements sect, they contacted the cultivators trade association and then exchanged white energy stones for the cultivation resources they needed!"

"In that case, their white energy stones can be sold?" Lin Yi's interest was piqued, "However, these white energy stones seem to be rare nowadays?"

"Yes, but that was in the past. In the past two to three hundred years, the Paoli clan has stopped contacting this place. During their last transaction, they also said that the White energy stone ores were getting less and less. They wanted to keep the remaining for their own use. The cultivation resources that they had traded were enough for them to use for a few lifetimes, so they stopped their transactions." "So," boss Bai said, "after the passage of two to three hundred years, many cultivators who know about this white energy stone have either passed away or are too lazy to mention it."

Lin Yi nodded. Time could erase many things. Two or three hundred years was enough for the White energy stone to be buried in the tide of history. Because, let alone two or three hundred years, even a hundred years was enough for people to forget these things!

However, it was not surprising that little eleven and the others knew about the White energy stone. The five elements sect was the first sect to have contact with the Paoli clan. There might still be a small stock of white energy stones in the five elements sect. No wonder little eleven did not care about it!

"If that's the case, then this thing belongs to the Paoli clan. In that case, even if I go to the Hakuna Marta desert and find the location on this map, it will be useless. I won't be able to get the White energy stone?" Lin Yi couldn't help but feel disappointed. It seemed that Yu Dake's so-called treasure map wasn't a treasure map, but a map of the Paoli clan's territory. The people who came back probably exchanged for a white energy stone and a map from the Paoli clan, thinking of exchanging for it in the future. However, these two things somehow ended up in Yu Dake's hands, making him think that they were some good things.

"That's not necessarily the case. After so many years, the Paoli clan might have found a new energy stone mine. It's just that after so many years of not trading, the remaining cultivation resources in their hands are sufficient, so they have not come to trade again. " "So," boss Bai waved his hand and said, "if you have this with you, it won't hurt to go and take a look."

"So that's how it is. In that case, I should really go and try my luck!" Lin Yi said with a nod.

"That's right. The Paoli clan is one of the easier ones to get along with. To them, as long as you pay them a sufficient price and show them your sincerity, they will definitely return the favor." Boss Bai said.

"In that case, I'll have to Thank you, teacher Bai. It's getting late, I'll go back first." Lin Yi didn't stay any longer after getting the answer he wanted. It was getting late, after all.

"Alright, I won't send you off." Boss Bai paused for a moment and continued, ""I've heard about what happened in the dark Palace. It should be related to xuanchen. You should be careful."

"I know," Lin Yi was already suspicious of Kang Zhaoming, and now that boss Bai said it, Lin Yi was even more certain that this was the work of the xuanchen ancestor and Kang Zhaoming. However, even if he knew, Lin Yi couldn't do anything for now. Lin Yi knew his own situation. It was true that he could kill Sky Class late phase peak in one second, but he couldn't kill them continuously. Furthermore, there were Sky Class late phase peak Masters in the five elements sect, and Lin Yi couldn't just kill them directly.

Not long after Lin Yi and han Jingjing left boss Bai's residence, in the five elements sect, the xuanchen ancestor's face was extremely dark! Zhaoming, on the other hand, was in shock and disbelief as well!

"Father-in-law, is what you said true? Lin Yi doesn't even plan on using a class 2 medicine cauldron as raw material to make a class 2 automatic medicine cauldron anymore?" Kang Zhaoming asked, unwilling to give up.

"Not bad!" Patriarch xuanchen took a deep breath and said, ""It can't be fake, this information is very accurate. Lin Yi told boss Bai himself! Besides, my source of information can't lie to me!"

Chapter 3330 Disrupting The Plan

"In that case? All the grade two medicinal cauldrons that we created previously were all wasted?" Kang Zhaoming's entire body was like a deflated balloon as he collapsed to the ground! One had to know that this was his entire bet!

The idea was good-he'd be able to get ahold of the source of Lin Yi's raw materials and he'd be able to cooperate with him, but what about now? With Lin Yi replacing the grade two Medicine cauldron, all of Kang Zhaoming's grade two Medicine cauldrons were useless. Not only was it a waste of manpower and resources, but most importantly, the five elements sect no longer had the capital to cooperate with Lin Yi!

"If nothing goes wrong, it should be like this ..." Patriarch xuanchen was never a man of his word when it came to business matters, and now that something like this had happened, he had no idea what to do. However, he didn't blame Zhaoming. After all, he was the one who made the decision in the first place, and he had a lot of responsibility for this problem.

"No accident ... No accident ... Father-in-law, why don't we give him an accident?" Zhaoming's face turned vicious as he spoke. Lin Yi, you forced me to do this! Since you don't know what's good for you and don't want to work with us, then don't blame me for fighting you to the death!

"An accident? What's with this accident?" The xuanchen ancestor was at his wits 'end, but his eyes lit up after hearing Zhaoming's words.

"Hehe, isn't Lin Yi going to the Hakuna Marta desert to look for the Paoli?" "Father-in-law, you should have a way to contact the Paoli, right? Boss Bai had also said that as long as they were sincere enough and had enough bargaining chips, the Paoli clan would return the favor! If that's the case, why don't we make the Paoli clan refuse to work with Lin Yi and sell him the White energy stones? that way, Lin Yi's grade one and two automatic medicinal cauldrons will probably be ruined!"

"It's not that we can't do that, but if we do that, even if Lin Yi doesn't make the first and second grade automatic cauldrons, he'll only make the current second grade automatic cauldrons and replace them with new materials. Then we won't be able to compete with him!" The xuanchen elder didn't have Zhaoming's business mind, so he didn't quite understand what Zhaoming meant.

"It's like this. As long as they don't have white energy stones, they can only make the current tier two automatic medicinal cauldrons. Even if they replace the medicinal cauldron's materials, the function will still be the same, right?" Zhaoming paused for a moment before continuing, "If that's the case, then we'll have the strength to compete. Our sky elixir sect has also gotten one of the tier two automatic cauldrons on the market. When the time comes, we'll ask professor Benjamin the second to make a replica. It

should be possible. It's just a matter of time. When the time comes, we'll also be able to sell and compete with them. Then we don't have to worry about not being able to sell those tier two cauldrons!"

"Good idea!" The xuanchen ancestor nodded. He wasn't as smart as Zhaoming when it came to business matters, but he was more vicious than Zhaoming. He thought of an even crueler idea. "If Lin Yi's dead, does that mean that the cauldron will be sold exclusively to the sky elixir sect? At that time, we can earn this money however we want!"

"Oh? Father-in-law, you want to kill Lin Yi?" Kang Zhaoming was surprised and happy, "But Lin Yi-he's strong, but wasn't he able to kill Sky Class late phase peak in seconds before? Who should we send to kill Lin Yi?"

"Us? We don't need to do anything!" Patriarch xuanchen shook his head and chuckled. ""The Paoli aren't weak-from what I know, they already had three Sky Class late phase peak Masters, and I'm afraid they have even more now! Letting these people test the waters and kill Lin Yi is a good idea! Right now, no one knows if Lin Yi can take on Sky Class late phase peak, and so with the Paoli helping, it saves me a lot of testing. Plus, even if we fail, we won't lose anything. "

"That's a good idea. I didn't expect the Paoli clan to be so powerful. But, father-in-law, can they help?" Zhaoming was confident that the Paoli wouldn't trade with Lin Yi, but he wasn't so sure that they could kill him. He couldn't help but worry.

"I have to try this!" After a moment of silence, patriarch xuanchen said, ""How about this? I want you to take my token and negotiate with the Paoli tribe right now!"

"Ah? You're going there personally?" Zhaoming blinked.

"The Paoli clan hasn't been in contact with the cultivation world in the Central Plains for the past two to three hundred years. I don't have any way to contact them either. You must know that there weren't any mobile phones back then, and those spirit beasts that were specialized in sending letters, who knew the location, were all dead. There was really no way to contact them unless I personally went to their place!" "But don't worry," ancestor xuanchen said. "The earliest emissaries of the Paoli clan came to the Central Plains and contacted the five-elements sect. If you go as a disciple of the five-elements sect, they won't make things difficult for you!"

"That's good!" Kang Zhaoming thought that if he could kill Lin Yi, then what's the big deal with crossing mountains and rivers to the hakunamarta desert? As long as Lin Yi was dead, it would be worth it no matter how tired he was!

"In that case, pack up and leave tomorrow!" Patriarch xuanchen instructed.

The next morning, Zhaoming packed up his stuff and brought little one along with him, setting off for the Hakuna Marta desert ...

Lin Yi was planning to leave in a few days, but something big happened at this time. He had to stop his plan to go to the desert and stay in Donghai city!

Wang Xinyan fainted, and she fainted without any warning!

It was actually quite simple-Shu and Xinyan were supposed to wake up together this morning for Lin Yi's breakfast, but Xinyan was still sleeping.

At first, Shu didn't think much of it and went downstairs by herself. After all, it wasn't a big deal for Wang Xinyan to sleep in. From Shu's point of view, it was probably because Lin Yi just came back last night and Wang Xinyan was a little excited, the two of them chatted for a long time before going to bed.

And so, Lin Yi didn't see Xinyan, and asked Shu. She said that Xinyan didn't wake up last night, and Lin Yi didn't think too much about it.

But, after the two finished their breakfast, Xinyan still hadn't come down-Lin Yi found it odd!
