

Bodyguard 3411

Chapter 3411 Unexpected Resistance

Yu Dake quickly went to open the other hidden compartments, and Lin Yi also started to help! He didn't expect that things would take a turn for the better, and it was an unexpected surprise!

The two of them worked together, and soon, all the secret compartments were opened. The life diary of the Yu family ancestor was taken out. Yu Dake held it in his hand and began to search for his ancestor's name carefully.

Yu Haitang had been found.

Yu Dake carefully picked up Yu Haitang's booklet and quickly flipped through it. Lin Yi, on the other hand, leaned over.

Soon, Yu Dake found out the cause of Yu Haitang's fainting and how she had been treated.

As it turned out, Yu Haitang had helped her brother defend against an attack during a competition, and her consciousness and spiritual power had been depleted, which had led to her being unconscious. After that, the Yu family went to many doctors and took many spirit herbs, but there was no effect.

In the end, she was introduced to Zhang Liju, the medical Saint of the generation. Zhang Liju had used some unknown method to wake Yu Haitang up and return her to normal! This made the Yu family extremely grateful.

However, to their disappointment, there was no mention of the treatment process. They could only tell that it was Zhang Liju who saved Yu Haitang, but they didn't know how.

Zhang Liju ... Lin Yi didn't know whether to laugh or cry. He thought that even if he couldn't find a miracle doctor to cure Yu Haitang, he could at least find a successor, but now, he was the successor!

How was he going to treat her?

However, the only thought that Lin Yi had was that the last time he went to the tomb, someone had been there before. At that time, Lin Yi guessed that Zhang Liju might have returned, which meant that Zhang Liju didn't die, but went to Sky Class Island and broke through to sky path.

But, even if he was alive, Lin Yi wouldn't be able to contact him. This guy had already gone to Tianjie Island, how was he supposed to find him? Was he going to Sky Class Island? But now, even the xuanchen ancestor didn't know how to get to Sky Class Island, let alone Lin Yi himself!

Other than that, Lin Yi had another hope-he had Zhang Liju's medical notes, and after looking at it for a while, he gave Lin Dongfang a copy.

He hoped that Zhang Liju would write this down in his notes.

"Mr. Lin ... This ... Wasn't Zhang Liju supposed to be dead?" Yu Dake's face was pale. He knew about Zhang Liju's tomb and that Lin Yi and Yu Xiaoke fell in love there.

Since he was already dead, how could he be treated?

"I have Zhang Liju's medical notes. I'll make a call now and ask my old man ... My God-grandfather to check if there are any cases of Yu Haitang!" Lin Yi said.

"Ah, that's great. Mr. Lin, please make the call." Yu Dake quickly said.

He'd asked old Lin about it before, but the old man wasn't too sure-it'd take a while before they'd be able to find out anything about Zhang Liju, but it was a lot easier now that they had a target.

Not long after the call went through, old Lin's voice came from the other end."Yi, you're back?"

"Uh ... I didn't go back ... I went to the Yu family in the hakunamarta desert ..." Lin Yi just remembered that he didn't go back and didn't tell old Lin. He quickly explained.

"So that's how it is. Then, did you find the cause of Yu Xiaoke's coma and the solution?" "I haven't found any good ideas yet!" Old Lin said.

"I did find it, but there's no detailed information. I only know that it's caused by the depletion of my consciousness and spiritual power. There's no mention of how to remedy it or how to treat it." "The only thing we know is that the Holy Doctor Zhang Liju treated him before, and it was a success. So old man, can you take a look at Mr. Zhang Liju's medical notes and see if there's any mention of this?"

"Alright, I'll take a look now!" Old Lin nodded.

"Alright, that's all for now. Contact me at any time when you find it." Lin Yi said.

Yu Dake had organized all the Yu ancestors' life journals together. He was going to bring them back and not keep them here. He and Lin Yi packed up and left the mansion. Since there was nothing left here, there was no point in keeping them here.

"Mr. Lin, are you going to look for the poison refinery base?" Yu Dake was surprised to hear that Lin Yi was going to look for his comrades, "The Yu family has lived here for so many years, but we've never heard of any poison refinery base nearby."

"Perhaps it was just built in the past few years. You've already left." "It's better to ask the Paoli clan about this-they might know better." Lin Yi shook his head.

"That's good, then let's go and pick up the Li clan now." Yu Dake nodded and said.

"You want to come with me?" Lin Yi wanted Yu Dake to go back, but he didn't expect him to follow them.

"En, let's go together and see if we can help. Although my strength is relatively low and I haven't broken through to the heaven rank yet, it's always good to have someone to help me." Yu Dake said.

Lin Yi nodded and didn't refuse. The two only drove one car this time, and it was Lin Yi's Grand Cherokee. The Land Rover was staying at the Yu family's mansion for the time being, so there was no need to drive two cars.

This time, the two of them were extremely familiar with the path to the Pao li tribe. They arrived at the tribe without any trouble, and the one who stopped them was tortu!

However, when tortu saw that it was Lin Yi and Yu Dake, he immediately became friendly, "So it's Lin shaoxia and Yu shaoxia. You're here to take some more energy stones, right?"

"I'm not taking the energy stones away this time. There's no rush for the energy stones. I have something to ask you." "Don't you know that there's a poison base in the desert?" Lin Yi said, waving his hand.

"A poison refinery base?" Tortu was stunned for a moment before his expression changed slightly. "Young hero Lin, I don't know ... Why are you asking about this?"

Lin Yi's heart dropped when he saw tortu's expression. Could it be that the paili family had some sort of connection to the base? In that case, wouldn't there be some resistance if he wanted to go to the poison refinery base?

Lin Yi didn't want to be enemies with the Paoli right now, so he nodded slightly, "That's right, it's the poison refinery base. One of my friends has been caught in the poison refinery base, and I want to go find him."

Chapter 3412 Unexpected Changes

"So it's this matter!" Tortu's expression immediately relaxed, "I thought it was something important!" That's not a problem. Lin shaoxia, don't worry. I can't guarantee anything else, but for this matter, we can help you get someone back!"

"That's good. I'll have to trouble you. " Lin Yi could tell from tortu's tone that this base had something to do with the Paoli-he wouldn't be so cocky otherwise!

"No problem! Lin shaoxia, you and Yu shaoxia can stay here and rest. Then, tell me who you're looking for and what he looks like. Just wait for my news!" Tortu patted his chest and said.

"That's good. " Lin Yi didn't reject the offer. He parked the car with Yu Dake and entered the house.

Lin Yi and Yu Dake walked into the Paoli's house, and not long after, tuo riyue came to Lin Yi's place and greeted warmly, ""Young hero Lin, you're here! I heard from tortu that you're here to look for your friend. Don't worry, we'll help you with this. Tell me your friend's name, and it's best if you have a photo ..."

"I'll have to trouble you then, old master Thor. His name is Ying Zhijia. I'll send you his picture, but please give me your phone number. " Lin Yi nodded. He wasn't in the mood to think about the Paoli's connection to the base-he just needed to find the pangolin.

"Okay, thank you for your understanding, young hero Lin." Tuo riyue said as he gave his email box. Lin Yi then sent him the picture of the pangolin.

Thor nodded and went to work, leaving Lin Yi and Yu Dake in the room to rest.

After tuo riyue left, Yu Dake lowered his voice and said, ""Mister Lin, it seems like there's something going on between the Paoli clan and the poison refinery base!"

"That's for sure. Otherwise, they wouldn't have been able to take charge of everything. " Lin Yi smiled faintly, "But with their help, it will save us a lot of trouble."

"That's true. Then we'll wait for the news. " Yu Dake nodded.

At night, the Paoli clan's tuer riyue clan leader set up a banquet for Lin Yi and Yu Dake. They treated Lin Yi as a guest of honor. After all, having a good relationship with someone as powerful as Lin Yi was beneficial to the Pao li race.

"Lin shaoxia, don't worry. I've already spoken to the people at the base. The person in charge said that he has an impression of them. The people at the base are all Asians, so they must be here." "That's why young hero Lin just needs to wait," tuo riyue raised his glass and said. "He still has to give us face!"

"Thank you. I'll wait for a while then." Lin Yi raised his glass as well.

Because their goal had been achieved, the dinner was very harmonious and joyous.

On this side, the person in charge of the poison refinery base was called Lou Tianqi. He could be considered a small leader. Of course, his life was not as comfortable as brother Dafeng 's. Although the

two of them were Lords of their own regions, he led a group of bio-humans and could not be compared to brother Dafeng.

Today, the leader of the Paoli clan, tuo riyue, had called him and said that he was going to take someone away. However, he did not take it seriously. After all, the place where he was at was within the territory of the Paoli clan. If he wanted to refine poison in peace, he could not avoid the Paoli clan.

For the sake of peace, they would provide the Paoli clan with a huge sum of money every year. In return, the Paoli clan would not cause him any trouble. If other powers came, the Paoli clan would also help to protect them.

After all, the profits of making poison were too high, and many noble houses, hidden houses, and sects were drooling over it. Without a powerful backer, the profits wouldn't be enough for these people to make a living.

It was only when Lin Yi was looking for someone that the Pao li clan came to help.

However, when Lou Qitian pulled out Ying Zhijia's file, he was shocked. He thought that if the Paoli clan was looking for him to ask for someone, it must be someone who had just been captured by the poison refinery base. Otherwise, why would they not look for him after so many years?

However, this Ying Zhijia was not only captured many years ago, but his identity was also a little special. He was a Special Agent of the supernatural Investigation Bureau, and he used the first batch of bio-human medicine!

There was no antidote for this kind of medicine. It would destroy one's mind and consciousness. One could only move by hypnosis. To put it bluntly, one was a walking corpse. However, the latter medicine had been improved and there was an antidote. Although one was hypnotized, one could recover with one's mind!

Of course, even if he could recover, Ying Zhijia's identity as a Special Agent of the supernatural Investigation Bureau could not be let go so easily! This was a key person that the headquarters had specially instructed him to focus on. He did not dare to release them without permission.

So, after hesitating for a while, he called Thor riyue back.

"Hello, Mr. Lou, how is it? did you find the person I wanted?" Seeing that it was Lou Qitian, tuo riyue picked up the phone in front of Lin Yi.

"Master Thor, I'm sorry, but I don't have the person you're looking for. Do you think you've made a mistake? I don't have any impression of it at all. " Lou Qitian said.

"No? How was that possible? Didn't you tell me that you have an impression of it?" Thor riyue's expression changed. "You patted your chest and promised me that there would be no problem. What do you mean by this? You think I'm easy to fool?"

He couldn't be blamed for getting angry-he'd promised Lin Yi over and over again that there wouldn't be any problems, and now that he'd said that and Lin Yi didn't get it done, where was he supposed to put his face? It was like slapping his own face.

"This ..." To be honest, Lou Qitian didn't dare to offend the Paoli clan. He had been living in the Hakuna Marta desert for many years, and if it weren't for the protection of the Paoli clan, Lou Qitian would have been overwhelmed by those big families and sects who came to seek help.

However, he really had no way to deal with this matter. When he heard tuo riyue's question, he knew he couldn't hide it anymore. He could only lower his voice and remind him, ""Clan leader Thor, is there anyone around you? There's something I want to tell you in private. "

"There's no one here, just tell me!" Tuo riyue couldn't get up and leave now. If he did, it would seem like he was hiding something from Lin Yi. He could only force himself to sit there.

"It's like this ... Clan leader Thor, the person you've asked me to find has a special identity ..." Lou Qitian said carefully, ""His file is locked by the headquarters, I can't release him without permission ..."

"What do you mean?" Thor riyue asked.

"To be honest, this person is a Special Agent from the supernatural Investigation Bureau. He was the one who wanted to deal with us, red conch!" Lou Qitian didn't hide anything and said directly.

Chapter 3413 Sneaking Into The Base

"What?" Thor riyue couldn't help but be stunned! He knew about the supernatural Investigation Bureau, and he also knew that the poison refinery base belonged to the red conch. However, this was a foreign land, and the supernatural Investigation Bureau could not control this place. Therefore, the Pao li clan did not have much interaction with the supernatural Investigation Bureau.

"Yes, so if we let him out and he's a bio-human with dementia, you won't be happy either. But if he returns to normal, all the secrets of our red conch will be exposed!" At this point, Lou Qitian paused for

a moment and said, ""Besides, this man was caught a few years ago with the first batch of bio-human medicine. Without the antidote, he can't recover. Please don't make things difficult for me ... It's my fault. How about we increase today's tribute by 10%?"

Every year, the poison refinery base would give the Paoli clan a lot of protection fees. This 10% increase was equivalent to a lot more. It could be seen that Lou Qitian was really in a difficult position, but he couldn't afford to offend tuo riyue. Otherwise, he wouldn't have been so humble.

"I see ..." Thor riyue hesitated for a moment, then said, ""Someone else asked me to do this. I'll ask again."

"Alright, please understand, clan leader Thor." Lou Qitian quickly said.

After hanging up the phone, tuo riyue's face was extremely ugly, but he was apologetic as he turned to Lin Yi, ""Lin shaoxia, I'm sure you heard the reason over the phone. You see ..."

"I would like to ask, how is this poison refinery base related to your Paoli clan?" Lin Yi didn't answer directly but asked back.

"This ..." Thor riyue hesitated for a moment and said, ""We're in the hakunamarta desert, and we're considered local tyrants. If he's here, he'll have to seek our protection. If we don't do anything, many sects and families will come here every year to seek help! That's why he gives us a huge protection fee every year! However, that's all there is to it. Our Paoli race will not participate in such things. "

"Alright. In that case, what will you do if the poison refinery base is gone?" Lin Yi said as he looked at tuo riyue.

"This ..." Thor riyue didn't think that Lin Yi would be this cruel. He didn't know what to do,""Young hero Lin, don't you think you're going a little too far? the red conch is behind the drug refinery base. If you go against them ...

"I'm just asking you. If I want this poison refinery base to disappear, what will you say?" Lin Yi said, enunciating each word.

"Sigh, young hero Lin, you know that this poison refinery base pays us a lot of offerings every year. If it disappears all of a sudden ..." Tuo riyue was really distressed.

"Two lives!" Lin Yi raised his hand and raised two fingers, "No matter how severe your injuries are, as long as you are still alive, I will help you recover!"

"When do we make our move???" Tuo er riyue, who had a bitter face just now, suddenly stood up excitedly and asked.

"..." Yu Dake was speechless. He just said he didn't want the income to go away, and now he was helping Lin Yi!

However, Thor riyue did not seem to mind at all. Instead, he was very excited. The other members of the Paoli clan were the same.

Lin Yi's promise was much more important than the money the red conch gave him. No matter how much money you had, it couldn't be exchanged for your life, especially for these top-tier practitioners. Even if they used treasures to save their lives, they would lose their strength.

Hence, with this promise, forget about money, even if Lin Yi gave the entire base to the Paoli, tuo riyue wouldn't be moved.

"There's no hurry. I'll go to the base to investigate first and find my friend. Then, I'll destroy the base." Lin Yi waved his hand. "If we just go in and kill them, I'm afraid that they'll kill my friend or move him to another place to threaten us."

"You're right. Young hero Lin is really thoughtful." "Alright!" Thor riyue nodded. "I'll wait for your signal, young hero Lin. If you're in danger, we'll rush in at once!"

"Then I'll have to thank the old master of the Thor family!" Lin Yi nodded.

"What are you saying? it's what I should do!" Thor riyue, however, smiled and shook his head.

"Okay, I'll get ready." Lin Yi said, satisfied.

"Mr. Lin, shall I go with you?" Yu Dake said.

"Not yet. Wait for my signal. I'll contact you." Lin Yi said, making a phone call gesture.

"Okay, Mr. Lin. Be careful." Although tuo er riyue didn't know how Lin Yi wanted to investigate, he couldn't ask too much now. If he asked too much, it would seem like he was going to tip Lou Qitian off. In fact, he didn't mean that at all. He was just concerned about Lin Yi.

After the Paoli's dinner, Lin Yi asked for the address of the base and went there alone.

The base was located in the vast desert, and it would be hard to find without the exact coordinates. Lin Yi found it quickly with the help of the satellite.

This was a place similar to a prison. It had tall walls and gloomy iron gates. There were no signs or buildings around it. Even from a distance, it looked like a Mirage.

Lin Yi parked the car behind a small sand dune some distance away and recorded the coordinates before getting out. He put on the mask and walked towards the eerie base.

Lin Yi appeared at the entrance of the base, and he knocked on the metal door a few times ...

In fact, even if Lin Yi didn't knock, the people inside could see Lin Yi's arrival through the surveillance.

Two men in denim clothes quickly appeared behind the metal gates of the base, evidently confused by Lin Yi's sudden appearance. What was this guy doing?

"I heard that this is an illegal drug refinery base?" Lin Yi said as he slammed on the door.

"Who are you? Where did it come from? What do you do?" The two men were on guard against Lin Yi's question, not confirming or denying it.

"You don't need to know where I'm from. People call me a Grand thief. I'm here to get some money to spend." Lin Yi said with a cold smile as he kicked the door open.

"Great thief?" The two burly men were stunned for a moment before they finally understood! It turned out that this guy in front of him had heard of a poison refinery base from somewhere and was here to seek benefits!

Chapter 3414 The Simplest Way

"Hahahaha!" The other man heard Lin Yi's words and laughed out loud as if it was a very funny thing!

Although there had been people who had come to the base to cause trouble, those people had either been caught by the experts of the base and refined into drugs, or had been driven away by the people of the Pao Li family.

However, those people usually came in groups, and it was rare to see a person like Lin Yi here alone!

"What are you laughing at? What's so funny? If I don't show some of my strength, you guys won't know that there's always someone better?" Lin Yi said as he revealed his strength as an Earth Class early phase!

He had suppressed his strength to Earth Class early phase-the two men didn't realize that he was Sky Class mid phase!

"Just this little bit of strength?" The two men were stunned by Lin Yi's strength-as far as they were concerned, anyone who dared to cause trouble here had to have some strength, at least Sky Class. Lin Yi was only an Earth Class, but he was this strong!

"What do you mean by this little bit of strength? Don't you know that in the common world, an Earth Class is already a very strong existence? I don't even see a golden or Mystic class master often!" Lin Yi said, very cocky.

"..." The two burly men were speechless. Where did this rogue cultivator come from? Had he never heard of hidden houses or ancient sects? Earth Class was already a very powerful existence?

They were strong in the practicing world, but in the ancient world, they were just small fries. The two of them were Sky Class early phase!

However, after knowing Lin Yi's strength, the two of them immediately looked at each other and suddenly held Lin Yi on the left and right!

"You ... What are you doing? Don't blame me for being impolite!" Lin Yi was shocked and immediately called out.

"Hey, kid, you're just an Earth Class early phase and you're trying to act tough with us? you really don't know how high the sky is!" With that, the two men revealed their strength as Sky Class early phase, "Kid, if you don't want to die, then be good and don't move. Otherwise, I'll make your death worth it!"

What they meant by "dying a valuable death" was to kill Lin Yi and give his body to the doctors for research.

"Ah ... You guys are Sky Class! How was that possible? Wasn't this just a drug refinery base of a criminal gang? How can there be such a powerful expert here?" Lin Yi was shocked.

"Hmph! I'm not afraid to tell you, but we're a famous International Criminal organization, and we have a lot of Sky Class Masters!" Of course, a lot of this was just to scare Lin Yi-there wasn't much. They were the only ones in this base, and even Lou Qitian wasn't a Sky Class master.

"Ah, I'm sorry, I'm just passing by. I'm leaving now, let me go ..." Lin Yi was shaking in fear.

"You want to leave now? I'm sorry, it's too late!" "Since you're here, then stay here," the burly man said coldly.

"No, you can't do this. My friends know I'm here, they'll come for me. I'm not alone ..." Lin Yi shouted.

"Oh, that's good. We'll capture them as well." The man said faintly. Lin Yi was only an Earth Class early phase, how strong could his companion be?

" There was no other method that was easier than this.

Lin Yi was strong, but this place was heavily guarded with security and surveillance cameras everywhere. It wasn't easy for Lin Yi to get in, and he had to hide his identity after getting in. It would be even harder to investigate.

However, now that Lin Yi was captured, they could investigate openly. Since these people captured the pangolin to make poison, Lin Yi was just giving himself up to them. As expected, they captured Lin Yi.

Lin Yi was escorted into the base, one on the left and the other on the right. One of the men quickly went to report to Lou Qitian, but Lou Qitian wasn't interested in an Earth Class early phase coming here to cause trouble. He let the two men send Lin Yi to the bio-human transformation.

Lin Yi was led to a place that looked like a lab in the base, and the person who received him was a middle-aged man in a white coat.

The Man in Black who didn't report to Lin Yi pushed Lin Yi to a chair and asked sternly, "Kid, what's your name?"

"Ling Yi, what, are you afraid now? You're trying to find out my background?" Lin Yi said, acting all cocky.

"Hahaha!" The burly man laughed after hearing that. "'Ling Yi, right? From today on, your name is 9527. This will be your life-long code name here, and it will never change. "

"9527 ? "Lin Yi blinked-that was a pretty lucky number.

"Find all the mobile devices on his body, and then handcuff him. I'm going to modify him." The man in the white coat said indifferently.

"Okay, doctor." The man nodded and started searching Lin Yi's body. After searching for a long time, he didn't find anything like a mobile phone, only a pill bottle with a small recovery pill.

"What the hell is this?" He threw it back to Lin Yi, not even interested in it, " 9527, where's your phone?"

"Why do we cultivators need numbers?" Lin Yi blinked.

"I didn't expect him to be poor. Give him an injection." With that, the man took out his shackles and cuffed Lin Yi to the chair, not allowing him to move.

The chair was made of steel and iron, and normal practitioners couldn't break free from it at all. After handcuffing Lin Yi, the man went to the side to rest.

This time, it was the doctor's turn to modify Lin Yi!

"What is this? Oh my God, I heard that the people here will be transformed into bio-humans. Am I going to be the same?" Lin Yi exclaimed.

"Bio-humans are old news. This is the latest drug. It will allow you to maintain your will, but it can also exhaust your physical strength when you are working." "It's easier to manage if you have your own will. If you want to survive here, you have to be obedient and work more. Only those who work more will give you food!" The doctor said lightly.

"Don't think that you don't need to eat just because you're cultivators. You can't cultivate here. There's no spiritual energy here at all, and it's all polluted by the waste gas of drugs."

Chapter 3415 Three Roommates

"In addition, there is also poison in this drug. If you don't inject the antidote within a month, you will lose your self-consciousness forever and become a walking corpse puppet bio-human."

"Ah ... This is so bitter!" Lin Yi couldn't help but feel bitter.

"Who asked you to barge in without knowing the limits? You deserve it, just accept your fate. " The doctor said faintly as he injected a syringe into Lin Yi's arm!

As the syringe was slowly pushed in, Lin Yi couldn't help but cry out. The medicine wasn't injected into Lin Yi's body at all, but was transferred into the Jade space when it was on the needle!

"This needle ... Inject it. Do I have any negative reactions?" Lin Yi transferred the medicine into the Jade space slowly, but he was still worried. If something happened after the injection and he didn't show it, wouldn't he attract the suspicion of these people?

"It's a high-level medicine, and there won't be any side effects-you'll only need to take it once a month, apart from being a bit more capable than a normal Earth Class.

"That's good ..." Lin Yi seemed to have accepted his fate and lowered his head, ""Sigh, I really shouldn't have come back then ..."

"There are many people who regret their actions!" The doctor pulled out the syringe and said to the big man, ""Alright, take him away. We'll start work tomorrow!"

"Okay, doctor!" With that, the man unlocked Lin Yi's handcuffs and leg cuffs and brought him out.

Lin Yi was silent the whole way and didn't resist, and the man didn't talk to him.

They came to a room and the man pushed Lin Yi in.

It was a four-person room, and three people were sitting on the bed. The man left after pushing Lin Yi in.

Lin Yi looked around and saw that three of the four beds were occupied. The bed near the door was empty, and Lin Yi walked over to it.

"Kid, you're pretty cool. What level of expert are you? hurry up and report!" A man with a crew cut spoke from the bed opposite Lin Yi 's.

Lin Yi looked at him-he was just an Earth Class mid phase, after all, and he wasn't much in Lin Yi's eyes.

"F * ck, I'm talking to you, didn't you hear me? Kid, let me tell you, if you don't want to be trained by me every day, then quickly come and greet our boss. This is our boss, Meng gaohai. " The flat-head man was a little pissed off at Lin Yi's disregard. He stood up and walked towards Lin Yi, pointing at a long-haired man by the window.

Lin Yi looked at him coldly-the man was called Meng gaohai, and he was a Sky Class early phase-he really couldn't be underestimated! What Lin Yi didn't expect was that there were Sky Class early phase Masters here!

He didn't know how he got caught, but it had nothing to do with Lin Yi. His purpose here was to find the armadillo, and he didn't care about other people.

Lin Yi only took one look before lying down.

"F * ck, kid, are you looking for death?" The guy with the crew cut was enraged by Lin Yi's lack of response and revealed his strength as an Earth Class mid phase.

"En, actually I don't want you to court death, but since you insist on it, I can only satisfy you! I'm already unhappy enough that I was caught. If you continue to provoke me, don't blame me for being impolite. " Lin Yi said faintly as he looked at the man.

"Ha!" The guy reacted as if he'd just heard a joke-he tried to grab Lin Yi, but before he could even touch him, Lin Yi sent out the first style of his raging fire Eight Trigram palm.

It had been a long time since Lin Yi used the first style of the palm, but it was more than enough to deal with a low-level master like this.

"Boom! Boom! Boom!" The man with the crew cut immediately let out a blood-curdling scream and was sent flying. He fell to the ground with a loud crash and could not move an inch.

The people in the drug refinery base were simply too lazy to care about this kind of fight between cultivators. After all, it did not matter if one more or one less person was there. Moreover, these people were all rebellious, so it was difficult to use high-pressure policies to manage them.

"How is that possible? Earth Class early phase? How could he have injured Fanzi?" The long-haired man, Meng gaohai, finally took Lin Yi seriously. He stood up and showed off his Sky Class early phase strength,"But kid, no matter how powerful you are, no matter how powerful you are, you'll still be beaten up by me."

"Sky Class early phase? I'm sorry, but I've slapped a lot of Sky Class Masters before, and you're the weakest. " Lin Yi said faintly.

Now that he'd made a move, Lin Yi changed his mind. He'd wanted to investigate the armadillo incident with the mentality of a lone wolf, but it didn't seem like that would work anymore. These people didn't have any intention of letting him go.

However, since he didn't want to let them go, he would beat them into submission! Lin Yi was planning on getting some information the next day, but of course, he'd have to pay a price if he wanted the information he needed.

But now, these people didn't even need to give any benefits. He just had to subdue them with his powerful strength and make them do things for him! This Meng gaohai was a Sky Class early phase master, and the boss of this place at that-his words must be extremely important here! With him here, it'd save them a lot of trouble!

Of course, Lin Yi didn't need them to obey Him wholeheartedly. He didn't want them to be his lackeys anyway.

In the world of practicing, the strong were respected everywhere, so Lin Yi just needed to make Meng gaohai submit to him and everything would be fine.

"Hahaha!" Meng gaohai laughed, "you're just an Earth Class, but you're talking big. Have you ever seen a Sky Class before?" If you're really that powerful, would you have been caught and brought here?"

"The sixth style of the wild fire Eight Trigrams palm!" Lin Yi waved his hand and slapped it on Meng gaohai's body. Lin Yi didn't want to talk to him anymore-it was useless. Strength was the only thing that mattered. With Lin Yi's speed, he could kill him easily, but he didn't want to kill him.

"Pfft! Pfft! Pfft!" Meng gaohai was still laughing when he suddenly spat out a mouthful of blood and was sent flying. Fortunately, Lin Yi didn't kill him on the spot.

Meng gaohai fell to the ground and spat out a few mouthfuls of blood before gasping in shock. "You ... You're not Earth Class early phase ... You ... You've been hiding your strength ..."

"You're right-not to mention you, even if a Sky Class late phase peak was standing in front of me, I'd kill him with ease and joy. " Lin Yi said faintly.

Chapter 3416 A Clue

Lin Yi wasn't bragging, but these people weren't even worth looking at if he let small one out.

"Then why did you come here ... Cough cough ..." Meng gaohai spat out a few more mouthfuls of blood as he spoke. Lin Yi might have held back, but he was a Sky Class early phase-he was a bit weak. He couldn't even talk.

The other people in the room were shocked as well, especially the guy with the crew cut. He regretted acting all high and mighty in front of Lin Yi.

"You're dying. I'll give you a choice. Work for me and I'll cure you. Or, you can wait for death here." Lin Yi said faintly as he looked at Meng gaohai.

"I ... If you can cure me, I'll definitely surrender ..." Meng gaohai knew how serious his injuries were. He was about to die, so what other choice did he have? Although he couldn't leave the base and refined poison every day, who would want to die? Especially since he was the boss of this place and had people to look up to him, he was even more willing to live comfortably and not die.

Now, although she had to submit to Lin Yi, she would still be under one person and above tens of thousands of people, which was a very powerful existence. Therefore, he agreed without any hesitation.

"Alright," he said. Lin Yi nodded and looked at the guy with the crew cut, "You should come over too. Your boss has already surrendered. You can't be thinking of stubbornly resisting me to the end and waiting for death, right?"

"No, no, boss 9527, we'll listen to you from now on ..." Crew cut's injuries weren't too serious, but he wasn't feeling good either. He quickly crawled over and pledged his loyalty to Lin Yi.

Meng gaohai didn't mind. He had already surrendered, so how could he expect his little brother to be loyal to him?

"Then I'll save your lives." With that, Lin Yi activated the art of Dragon mastery and started healing Meng gaohai and his head from both sides!

Although Lin Yi said that he could save them, Meng gaohai and crew cut didn't believe him. After all, their injuries were serious, and even the small recovery pill wouldn't be of any use. They had to take the great recovery pill, and if Lin Yi had something like the great recovery pill, there was no way he wouldn't have been taken away when he came in.

So they just wanted to give it a try, but they didn't expect Lin Yi to use pure energy to heal them instead of giving them pills! This was simply too miraculous.

They could feel their injuries healing bit by bit, and their respect and admiration for Lin Yi came from the bottom of their hearts!

This was how the cultivation world was. The strong were respected. If one was just a little stronger, they might hate it in their hearts and try to surpass it! However, if he was too much stronger than he had imagined, then there was nothing to hate. Since he could no longer surpass him, he might as well submit.

Their injuries healed very quickly. Lin Yi looked at them and said, "Now that you've recovered, you can choose to pretend to surrender and then secretly go and tell the people in the poison refinery base that I've only hidden my strength."

"I wouldn't dare ..." Meng gaohai quickly shook his head. "I, Meng gaohai, am not a villain who goes back on his word, nor am I a brainless fool! Boss 9527, since you're so powerful that you can seriously injure me with one move, then it's easy for you to deal with the few guards in this base. By then, you'll definitely take care of me as well. Unless I'm crazy, I wouldn't do that!"

"It seems that you can understand it?" Lin Yi was surprised by Meng gaohai's answer. He was worried that these people wouldn't work and would instead tell on him, ruining his plan.

Although he wasn't afraid of the people from the poison refinery base, and they definitely wouldn't be able to stop him, his purpose in coming here was to find the pangolin, so it was better to keep a low profile.

But thinking about it carefully, it seemed that this Meng gaohai was really scared. Since he was so obedient, Lin Yi didn't say anything more.

"Yes, boss 9527, you must have a purpose for coming here, right? If there's anything you need, just let this little brother do it. I don't have to say anything else, I still have some power here." Meng gaohai quickly said.

What he was most afraid of was that Lin Yi didn't need him anymore-what if Lin Yi killed him?

"Alright. Do you know where the first batch of bio-humans are staying?" Lin Yi asked.

"The first batch of bio-humans? Oh, boss, you're talking about those Walking Dead? they're not here, but in another dormitory building. " Meng gaohai said.

"In that case, we don't have any interactions with them?" Lin Yi couldn't help but frown.

"That's not it!" Meng gaohai saw Lin Yi's frown and immediately said,"Our work area is still very close to each other every day!"

"Very close? Then can we go over?" Lin Yi asked, looking forward to it.

"I can 't." Meng gaohai shook his head."Our work areas aren't together, but I can go over sometimes."

"Oh? What do you mean?" Lin Yi asked.

"Am I not the boss here? Some of the bio-humans are also very powerful and have superb strength. Because the initial drug was not particularly perfect, if these bio-humans were not hypnotized well, they

might go crazy. I will cooperate to suppress them, and correspondingly, they will give me some grace and privileges. " "Boss, if you have anything to do, I'll find an opportunity to do it!" Meng gaohai explained.

"Oh, in that case, take a look at this photo." With that, Lin Yi took out his phone from the space in the jade pendant. It was as if Lin Yi had just taken it out of his pocket, leaving Meng gaohai dumbfounded!

Lin Yi came in with his phone? Wouldn't they all be taken away? His had been taken away back then.

But as far as he was concerned, Lin Yi was already in the ranks of the miracle people, so it was reasonable for him to be stronger than others! With that thought, Meng gaohai quickly looked at the photo in Lin Yi's hand.

Looking at the photo, Meng gaohai couldn't help but sink into his memories ...

After a while, Meng gaohai said, "I seem to have some impression of this person. He went crazy before, and I was the one who suppressed him!"

"Oh? Are you sure?" Lin Yi's breathing quickened as he turned to Meng gaohai, "Take a closer look!"

"There's no mistake, it's this person!" Meng gaohai nodded, "I don't remember his name, but I do remember that he's a golden class master. After the injection, he'll reach Mystic or even Earth level when he goes crazy. The two Sky Class guards weren't around that day, and they were afraid that he'd hurt someone, so I took care of him!"

"Is he well?" Lin Yi asked.

"He was fine before, but I stopped paying attention to him after that. But if you're looking for him, boss, I'll help you find out tomorrow!" Meng gaohai said.

Chapter 3417 The Plan Begins

"Oh? Then I'll leave this matter to you. If you do well, I'll bring you out. As for the biochemical poison in your body, I'll find someone to help you get rid of it. " Lin Yi was thinking of Dafeng bro. Since Dafeng bro was a boss in the base, he should know something about the biochemical drug. He might have the recipe or source of the antidote.

"Really? I'm really grateful to you, boss!" It was a comfortable life here, but no one wanted to be used like a slave. Meng gaohai was a Sky Class master, and he was a very proud existence. How could he not feel aggrieved refining poison here every day?

In the past, he had no choice. He was very happy being the boss here, but after a long time, it was inevitable that it would be boring. He just didn't have the chance to go out.

Now that Lin Yi had promised him, it meant that Lin Yi had a way. In his eyes, Lin Yi was a powerful man. Not only was he strong, but he also knew how to heal. It wasn't impossible for him to detoxify the poison.

Thinking up to this point, Meng gaohai was extremely excited. He swore to himself that he'd get this done for Lin Yi.

"Then, boss, can I go out with you ..." The crew-cut guy asked carefully.

"And me ..." The younger brother who had been dumbfounded earlier also returned to normal at this moment. He also hurriedly asked.

"The three of you, when the time comes, leave with me. I can't control so many people." Lin Yi wasn't the type of person who liked to poke his nose into other people's business, and while he'd changed in the past year, that was only towards those who were close to him. He really didn't care about other people.

"That's great! Thank you, boss 9527!" The crew-cut guy and the dazed little brother quickly thanked him.

"No need to thank him yet. Let's see if he has any use for you." Lin Yi said, waving his hand.

"I really need to use it!" Meng gaohai thought about it and hesitated for a moment before saying, "How about this? tomorrow, you guys will suffer a little and provoke those hypnotized bio-humans. Let them beat you up, and I will stand up for you. Then, it will be perfectly justified!"

"No problem!" The crew-cut guy and the dazed little brother agreed without a second thought. It didn't matter even if they were beaten half to death, let alone being beaten up! Didn't you see how boss 9527 was able to heal his injuries in an instant?

"Okay, then we'll do this tomorrow, like this, like this ..." Meng gaohai told Lin Yi his plan. It was simple, but it was feasible. Meng gaohai was someone with a plan, and Lin Yi found the right person.

After a Night of Silence, Meng gaohai, ping TOU, and the dazed underling were all extremely respectful to Lin Yi, and Lin Yi even knew their names and nicknames!

Early the next morning, a loud horn sounded. This was the wake-up call of the poison refinery base. Of course, it was targeted at the coolies who had their own thoughts. The bio-humans had been hypnotized. When the time came, they would automatically wake up and head to the work area.

"Boss, shall we go together?" Meng gaohai asked carefully.

"En, outside, you're still the boss. I'll call you boss, and you can just call me little one." Lin Yi said.

"This ... Alright." Meng gaohai hesitated before nodding in fear. He knew that if Lin Yi suddenly became his boss, he'd attract unnecessary attention. It was better to keep a low profile.

The four of them left the dormitory together, with Lin Yi, the crew cut guy, and the dazed guy following behind. They were now followers, and people didn't pay much attention to this new face.

Since Meng gaohai had brought him along and didn't bully him too much, it meant that this person was already Meng gaohai's underling, and no one would cause him any trouble.

A pungent smell hit him the moment he reached the working area. There was something boiling inside, and Lin Yi knew immediately that it was ice.

It seemed that this drug-refining area was not producing heroin, but rather chemical drugs.

After entering the working area, Lin Yi mimicked the others and started working. The crew-cut guy and the dazed Lackey were nowhere to be seen.

However, these two were Meng gaohai's underlings, so no one would question them. Meng gaohai's authority was not something that had only been established for a day or two. Even the people who patrolled the drug refinery base turned a blind eye to Meng gaohai. After all, they sometimes needed him to manage these prisoners!

After working in the work area for a while, Lin Yi copied everyone's actions. Fortunately, Meng gaohai was there to help him, and arranged a simple process for him. He just had to pick it up and put it down!

Lin Yi may be a Sky Class master, but there were too many bio-humans. He couldn't sense them one by one.

After a while, the crew-cut guy and the dazed little brother returned. Their faces were covered in injuries, and they were limping as they walked. When they saw Meng gaohai, they immediately cried and complained, "Boss, when we were going to the toilet, we passed by the bio-human area and were beaten up by a crazy bio-human!"

"What? He was beaten up by a crazy bio-human? Tell me, what's going on? What was this? He even dared to beat up my, Meng gaohai 's, underlings!" Meng gaohai suddenly exploded and said anxiously.

Meng gaohai was famous for being overbearing, and he had connections with the management of the drug refinery base. Therefore, when Meng gaohai got angry, no one else felt that anything was wrong!

When these people had first arrived, Meng gaohai had dealt with many of them.

At this time, a staff member of the drug refinery base walked over. When he saw Meng gaohai, he quickly consoled him, "Old Meng, that's enough. Why are you arguing with a bio-human who has no thoughts? There's no reason for those people to go crazy. If you're angry about this, it's not worth it!"

"Normally, it's fine, but you beat up my little brother. If I don't do anything about it, what would others think? Especially my new underling, yesterday I patted my chest and promised that no one here would dare to bully him, but who would have thought that in the blink of an eye, my two other underlings were beaten up like this. If I don't stand up for them, what would this new underling 9527 think?" Meng gaohai said as he pointed at Lin Yi, extremely excited.

"Well ..." The manager was an Earth Class early phase, and the two Sky Class Masters were just guards—they didn't really come to this area, and so Meng gaohai had to help with the security. He really didn't like Meng gaohai right now, and he knew he had to go along with him, "Old Meng, what do you think we should do?"

Chapter 3418 A Change In Thinking

"Actually, it's easy. I'll ask them to point out which bio-human did it, and then we'll beat him up and forget about it!" Meng gaohai snorted.

"This ... Alright." The manager hesitated for a moment and nodded, but said, "Take him out and bring him back to the dormitory to clean up. Don't stay here. It's not good for his image and he's holding up the others 'work ..."

"En, don't worry, I will give you face!" Meng gaohai pretended to give face and nodded. In reality, he was overjoyed. He knew that lecturing others in the office area was a bad influence. The management staff would definitely advise him to bring people out. This was something that he had experienced several times.

"Then you can go. The rest of you can continue with your work!" The manager said to the others.

"Small one, it's 9527. Come with me. I'll show you how good I am as your boss!" Meng gaohai waved at Lin Yi, signaling for him to come along.

"Alright, boss!" Lin Yi nodded and put down his work, following behind Meng gaohai.

The manager shook his head and didn't bother with them. Even Lou Qitian would affectionately call Meng gaohai old Meng when he saw him. He didn't dare to interfere in such small matters.

Lin Yi felt that Meng gaohai was a wonderful person. This method was simple, but it was very effective! And they were looking for someone with a legitimate reason too! Lin Yi thought to himself-he found the right person!

The four of them came to another work area of the poison refinery base. This area was filled with bio-humans who had no thoughts. These people looked dull, even more so than the dazed little brother.

These people didn't have any reaction to the arrival of these four people, as if they didn't exist. Meng gaohai said as he walked, "The two of you better watch carefully. Who's so bold as to hit my men? I'm going to kill him!"

"Alright, boss!" The crew-cut guy and the dazed little brother said firmly.

In truth, Meng gaohai was also searching for it himself. With four people searching together, it would be more efficient.

Unfortunately, there were too many bio-humans. Although the four of them were efficient, it was not easy to find them. They searched from morning to noon and then to afternoon, but they still could not find them.

The manager from before was a little puzzled. Why was Meng gaohai so persistent today? if it were any other day, he might have already given up impatiently! However, since they were willing to find one, the manager couldn't stop them. The four of them wouldn't be lacking in the work.

It wasn't until night time, when work was about to end, that Lin Yi was starting to feel a little disappointed when he heard dazed underling yell, "Boss, boss, that's him!"

Lin Yi, Meng gaohai, and the crew-cut guy followed the direction of the voice and looked at the dazed Lackey, who was pointing at a person beside him, excited!

Lin Yi looked calm on the surface, but his heart was pounding. Armadillo! He finally saw the pangolin! As expected, he wasn't dead-he was captured and made into poison! He finally had an explanation for this little sister of his.

Lin Yi clenched his fists at the thought. Meng gaohai was happy as well, but he was happy because he completed the task Lin Yi gave him. He wasn't as excited as Lin Yi.

Therefore, at this moment, his performance was in line with his current mood. He was a little excited that he had found the person. He pointed at the pangolin and said, ""Crew cut, take a look. Is it this kid?"

"Yes, yes! It's him!" The crew-cut guy also nodded excitedly.

"9527, you guys knock him out and bring him back to the dormitory. Teach him a good lesson!" Meng gaohai ordered.

"Yes!" Lin Yi nodded and walked up to them. As long as they didn't go crazy, these bio-humans wouldn't attack anyone who got close to them no matter how strong they were. They would continue working.

So Lin Yi easily knocked the pangolin out. Looking at the pangolin's pale face, Lin Yi's heart ached. His appearance hadn't changed, but he looked no different from a zombie now. It was clear that he had been living like a zombie all these years.

The manager saw that Meng gaohai had found the pangolin, but he didn't care. He didn't even look at it and allowed Meng gaohai and the others to take the pangolin away.

No one stopped him the whole way back to the dormitory. Lin Yi couldn't help but give Meng gaohai a thumbs up. This follower was worth it! What Lin Yi didn't expect was that a random thought of his would have such a miraculous effect!

If he had followed his previous idea of offering benefits and indirectly asking around, although it would be feasible, he was afraid that the efficiency would not be so high. Moreover, after a long time, word would spread from one person to ten people to a hundred people. By then, everyone would know about it, and the management staff of the drug refinery base would also know.

Lin Yi wasn't afraid of them, but he was worried that they would attack the pangolin first, and that wasn't something he wanted to see! If that were the case, it would be much easier for Lin Yi to bring the Paoli in.

Meng gaohai put the unconscious pangolin on the bed. Lin Yi looked at the pangolin, and couldn't help but freeze, remembering the time he spent on missions ...

The red conch had always been the biggest enemy of the supernatural Investigation Bureau. Although Lin Yi didn't know why the supernatural Investigation Bureau had a grudge against the red conch, he had been going against them ever since he entered the supernatural Investigation Bureau.

At that time, red conch's headquarters was still an existence that Lin Yi could look up to. Even the supernatural Investigation Bureau could only go against some people in red conch's Domestic Branch.

But now, even in front of the General Manager, Lin Yi was calm and collected. If he couldn't handle it, he'd let the dog bite them and let small one kill them.

"Phew ..." Lin Yi took a deep breath and held the pangolin's hand. Now, things had changed. Some of the people from the supernatural Investigation Bureau had gone their separate ways, while others had sacrificed themselves in battle ...

Huaijun, for example, went to the investigation Department right away-his body didn't allow him to stay there.

Thinking back to those days, Lin Yi used to think that life was boring, busy, and insecure, but now that he thought about it, he felt that it was very happy back then ...

Friendship in battle was the most precious, and love in battle was also the most memorable ...

Now, for ning, for the inheritors, Lin Yi had to fight to the end!

The Sky Class island's Tian Dao plan was right in front of them!

He'd thought that he'd be able to leave after opening the Sky Class Island and protecting the girls-the sky's laws didn't really concern him, after all.

Chapter 3419 Plan Completed

People who went to Sky Class Island never came back, and Lin Yi didn't feel any pressure for those who were about to reach the island. They could go if they wanted to, and after it opened, he'd take the method to break through to the sky path and bring his inheritor home. Whether or not they could break through to the sky path would depend on luck.

The Sky Class Island was said to be rich in Qi, but it couldn't compare to the Jade space. He'd rather go home and practice than go to the island!

Lin Yi didn't want to get involved too much-even if they broke through to the path of heaven before him, they wouldn't be able to come back. Lin Yi was already a top-tier practitioner in the world of cultivation.

No one would be able to touch Lin Yi's strength anymore-he could still retire and live a rich and exciting life with the Miss and the others if he stayed in this world of cultivation ...

But now, for you Xiaoke, he had to go to Sky Class Island, because Zhang Liju was there!

If he wanted Yu Xiaoke to wake up, he would have to go to Zhang Liju and ask for advice. This way, he would have to go to the island even if he didn't want to ...

Coming back to reality, Lin Yi took out his phone and called Dafeng bro.

Right now, there wasn't even a single guard in the dormitory building. During the day, these people had all gone to work, and even if Meng gaohai brought people back, no one would be monitoring him.

As long as they guarded the main gate and ensured that no one could escape, it would be fine.

Furthermore, these cultivators with a mind of their own all relied on potions and antidotes to survive. Who would dare to leave on their own? They had all seen how those disobedient cultivators had their antidotes cut off, and how they had died in their painful struggles.

Therefore, no one would dare to do such an irrational thing as running away.

Meng gaohai, ping TOU, and the little dazed man stood aside respectfully as Lin Yi took out his phone.

"Hello? Who is it?" Lin Yi was using a satellite phone, and Dafeng didn't know the number.

"It's me. " Lin Yi said faintly.

"Ah ... You're boss Lin Yi! Is there something you need from me?" "What happened?" brother Dafeng quickly asked in fear. He already knew what happened at the red conch headquarters.

The General Manager wasn't an idiot. After pulling out the surveillance videos of the nearby streets, he locked onto Lin Yi. With what he said to He dan from the overseas practitioner's Association, he was even more certain that Lin Yi was the imposter!

Then, after confirming what had happened in the country, he knew that this man was the one who had killed military counselor Zhuge.

It could be said that the General Manager hated him to the bone!

"Have you exposed what I did overseas?" "It's about the red conches headquarters," Lin Yi said.

"The General Manager already knows that you did it and has mentioned it to me. However, he also knows that I don't have any experts here, so he gave up and has no intention of continuing to target you, boss." "If he wants to make a move, I'll inform you at the first moment, boss!" Brother Dafeng quickly said.

"Well, I didn't call you this time to talk about this. I'm asking you, do you have the antidote for the bio-humans in the poison refinery base?" Lin Yi asked.

"The antidote for the bio-human? Boss Lin Yi, are you talking about the old bio-humans or the half-humans?" Brother Dafeng quickly asked.

"I want both." Lin Yi said.

Although Meng gaohai didn't know who it was on the phone, he let out a breath of relief when Lin Yi said he wanted both. It seemed that Lin Yi didn't forget about him. He was really afraid that Lin Yi would leave him alone after the task was done. Of course, he didn't dare to act rashly. After all, his strength was there, and he was no match for Lin Yi.

"The first type of bio-humans, those injected drugs that lose their minds, have no antidote." Brother Dafeng said, "that kind of drug is used to destroy a person's mind. Us cultivators also call it divine sense. It destroys the mind and makes them lose their own thoughts. Then, they can only be controlled through hypnosis."

Dafeng bro's words made Lin Yi's heart jump! No antidote? Previously, Lou Qitian had also vaguely mentioned it, and now that brother Dafeng had also said so, it was likely that there was really no antidote!

After all, brother Dafeng had been the person in charge of the poison refinery base, so he knew more! Mind ... Spirit sense ... Wasn't that similar to Yu Xiaoke's situation?

You Xiaoke fainted because she overused her spirit sense, but the pangolin's spirit sense was destroyed. They weren't the same, but they were pretty similar. Lin Yi let out a breath of relief. Zhang Liju would probably have a way to deal with this, right?

"What about the second type of semi-cyborgs?" Lin Yi asked.

"There is an antidote for that. Although I don't know how to make the antidote and don't know the formula, I still have a small stock. I can detoxify a few people, eight to ten is no problem. If there are too many, I will have to think of other ways." Brother Dafeng said directly.

"That's enough. " Lin Yi nodded and looked at Meng gaohai, "Actually, even if you don't have it, you can still apply to the headquarters!"

"What do you mean? Boss Lin Yi?" Brother Dafeng was slightly stunned.

"I'm currently at the base in the hakunamarta desert, and I'll take some people to destroy it. However, there are three people here, they're my underlings, and they've helped me before. Let them follow you

from now on and be your underlings, one of them is even a Sky Class early phase master, he should be able to help you!" "When I attack the base, bring your men over-just say that this Sky Class master was the one who tipped you off!" Lin Yi said. In this way, you and him can be considered to have made a contribution. Even if you didn't save Lou Qitian's life, at least you did your best. "

As for the whereabouts of the bio-humans in the base, Lin Yi didn't care. Dafeng bro could take them wherever he wanted to.

It wasn't that Lin Yi didn't want to save them, but he couldn't. One type of bio-human couldn't be recovered. Lin Yi still had a patient here, and one type of antidote wasn't enough. He might as well let Dafeng continue to carry them through hard labor. At least he could save their lives, and the people of the Paoli clan wouldn't have no income.

"Okay, no problem. Thank you, boss Lin Yi!" Brother Dafeng immediately replied.

After hanging up, Lin Yi looked at the excited trio and said faintly, "This is your good fortune. Follow Dafeng well in the future. He is also my little brother. Maybe in the future, when I completely destroy the red conch, I will still need you!"

"Yes! Thank you, boss, for saving our lives. We'll definitely work hard with brother Dafeng in the future and strive to help you as soon as possible!" Meng gaohai quickly said.

Chapter 3420 Returning To Songshan Again

Lin Yi, on the other hand, called the leader of the Paoli clan, tuo riyue.

"Young hero Lin, should we make a move now?" Thor riyue had been waiting for a long time.

"Old chief Thor, I've changed my mind." Lin Yi said faintly.

"Ah?" Thor riyue's heart suddenly thumped. Had he changed his mind? Didn't that mean that Lin Yi didn't want to attack the base, and his promise was useless?

"In a while, you will bring some people here and kill all the management of the poison refinery base. As for those bio-humans, you will also choose some evil people to kill. After that, one of my underlings will take over this place and push all the blame on the Pirates. If the drug refinery base continues to stay here, you will still have an annual income. " Lin Yi sighed. He was still a little soft-hearted, after all, and only let the Paoli kill some evil people, not all the bio-humans.

As for the base, Lin Yi wasn't worried. With Dafeng bro in control, he wouldn't do anything bad and wouldn't poison his own people.

Lin Yi wanted to fish in troubled waters after getting rid of some bio-humans. When Dafeng bro reported back, he'd say that the pangolin was killed too, and he'd be able to escape.

"So it's like this ..." Thor riyue was surprised and happy, and quickly said, ""I know, I'll bring people over now!"

As long as Lin Yi didn't go back on his word, it was fine. Plus, the situation was beneficial to the Paoli clan, so why not?

With tuo riyue's command, all the experts of the Paoli clan were dispatched.

It was a moonless and windy night, and all the members of the red conches in the base would be killed!

Meng gaohai didn't expect Lin Yi to be able to order the head of the family-this was shocking! They were already shocked that Lin Yi could control the high-level members of the red conch, and now they were shocked that Lin Yi was a celestial!

"Alright, I'll wait for you here!" Lin Yi nodded and hung up the phone, waiting quietly ...

With the experts of the Paoli family, it was a piece of cake for them to destroy the poison refinery base. In just one night, all the people from the red conches were killed. According to the files of these bio-humans, what they had done before was recorded. Tuo riyue chose some people who had done evil and killed them. The bodies were also torn apart and unrecognizable.

After doing all this, they led their people and quietly retreated. As for Meng gaohai, although he wasn't able to save the lives of the red conches members, he was able to protect the base.

Even if Meng gaohai's actions were reported, no one would think that there was anything wrong with it. After all, Meng gaohai was the boss of the poison refinery base, and he also had some Management Authority. However, he was not wearing the uniform of the base's manager, so he had survived.

As the boss, he naturally knew where to make a phone call. He found the big boss of the nearby red conch branch, brother Dafeng, on the phone and asked him to come over to help. Then, everything made sense ...

The armadillo was taken away by Lin Yi without anyone knowing. Not many people knew that he was still alive-these people were all Lin Yi's subordinates.

When the General Manager found out that the drug refinery base in the hakunamarta desert had been destroyed, he was very angry. "Dafeng, what happened? Who did this?"

"General manager, I'm not sure. When I came here, those people had already withdrawn. However, it is said that it was because they came here to extort money, but the person in charge here, Lou Qitian, not only did not give them money, but he also threatened them with malicious words. He also caught a few of their people to be coolies. Later, this group of people had many expert accomplices and directly wiped out the poison refinery base ..." Brother Dafeng explained.

"What about the Paoli clan? Wasn't that the territory of the Paoli race? Why didn't Lou Qitian find the Paoli clan to attack?" The General Manager asked with a frown.

"Isn't it all that Lou Qitian's fault? In the beginning, he thought that the other party was a pushover. Not only did he drive them away, but he also forcefully detained a few people to be coolies. Later on, he didn't take it seriously. After those people went back, they called people and directly destroyed the drug refinery base. Lou Qitian didn't even have the chance to make a call before he hung up! If it wasn't for the boss of a drug refinery base called Meng gaohai, who quickly called me, I wouldn't have known that something had happened here!" Brother Dafeng explained helplessly, "If I didn't come in time, these bio-humans would have been dead!"

"Damn, this Lou Qitian!" The General Manager was very angry. "He's really used to being arrogant. He doesn't have any vigilance at all. A good drug refinery base has been turned into this. How big of a loss do we have now?"

"The losses are very serious. All the raw materials for refining poison were destroyed, all the technicians were killed, and some bio-humans were killed. The rest were not lost because there is no cash here. However, it is impossible to operate it again without a year of planning." Brother Dafeng said.

"Alright, I'll leave the matters there to you." "Get him up and running as soon as possible," the General Manager said helplessly. "I'll leave all the people to you!"

"Yes, general manager!" Brother Dafeng quickly said. At this point, brother Dafeng's power had expanded further!

Lin Yi brought the pangolin back to the Paoli's Manor, but Lin Yi didn't feel any joy from the victory. The pangolin's condition wasn't looking good, and they could only rely on Liju now.

That night, Lin Yi said goodbye to the Paoli and returned to Songshan with Yu Dake. He wanted to tell Ziyu as soon as he found the armadillo-it was an answer to her, after all.

The car sped all the way and finally arrived at Songshan's first school's Gate the next afternoon. Lin Yi couldn't help but feel emotional as he looked at the familiar campus.

He still remembered that it was early March last year, when he came here and met the Miss and Shu for the first time. He had made an enemy out of Zhong pinliang! He didn't think that the people from back then would have already left, and that Zhong pinliang would be able to obtain his fortune and become a member of the everyday and every day sect.

The Miss and Shu had become inheritors, and were about to set off on the Sky Class Island.

Lin Yi sent a text to Ziyu, telling her that he'd be waiting for her at the school gate, and that she'd come find him after school.
