### Chapter 3481 The Medicinal Cauldron Is Repaired!

Many conditions were required to repair a weapon. First of all, divine weapons (including medicinal cauldrons) were all spiritual objects. When they were forged, they needed a large amount of true Qi, and so did the repair!

Otherwise, the requirements for the environment would also be very harsh! It had to be repaired in a place with abundant spiritual Qi, or else the repair would likely fail! It was the same for alchemy. However, there was a medicinal cauldron for alchemy. True Qi could be poured into the medicinal cauldron to gather together. However, weapons could not be placed in something like a medicinal cauldron. This was because weapons came in all shapes and sizes. It was impossible to forge a unified container for them.

Of course, it might be difficult for others to find a place with such an abundance of Qi, but it wasn't a problem for Lin Yi, who had a godly tool like the Jade. All he had to do was bring the cauldron to the Jade space and fix it.

Lin Yi moved on to the second condition, which was to repair the cauldron-it had to be a Sky Class or higher practitioner. The higher the cauldron's level, the higher the practitioner's level. Of course, this wasn't absolute-the surrounding environment could affect this!

For example, if a Sky Class late phase peak repair master were to repair a first class medicine cauldron, he would be able to do it in a normal environment-his own strength and Qi would make up for the lack of the environment.

And a Sky Class early phase could also repair a Tier 2 medicine cauldron in a place with plenty of Qi-this was the environment that made up for his shortcomings!

Lin Yi's heart was filled with joy when he saw this! He'd thought that the Shennong medicine cauldron was an ancient divine artifact, and that it would require a very high level of strength to repair it. As far as Lin Yi was concerned, he'd have to be at least a Sky Realm master, right?

But he didn't think that being a repairman had this benefit-the environment around him could help him recover his strength. This meant that the Qi in the Jade space should be limitless, which meant that Lin Yi could repair any high-level cauldron as long as he was in this environment!

Of course, this rule was only limited to the restoration of the medicinal cauldron. Repairing other things naturally had other conditions, and they were not completely the same.

Lin Yi continued to look at the other conditions-if he wanted to repair the cauldron, he needed Dark iron, steel, and blue crystal powder. These three things seemed to be the most basic things for crafting and repairing.

However, Lin Yi had all three items with him right now, and he still had some of them left. He could use them.

All that was left was the chant for refining the forging fire, but it was extremely complicated, making Lin Yi dizzy! But according to Lin Yi's past experience, he could already use the Jade space to create the forging fire. Because of the essence Necklace, Lin Yi didn't need to study the complicated chant anymore. He just needed to achieve the same goal.

"Jing Jing, I can roughly repair it. Help me guard and don't disturb me. I'll calm down and repair it!" Lin Yi said to Han Jingjing, who was busy typing on her laptop.

"En en, Lin Yi bro, you fix it, Jing Jing is busy here too! I guess we'll work on it together!" Han Jing Jing said.

Lin Yi nodded and sat cross-legged on the bed before entering the Jade space! Because his real body was still outside, there was nothing strange about his appearance! After entering the Jade space, Lin Yi suddenly realized that the cauldron was in the condensed space in the Jade space, while he was in the space with elder Jiao and the ghost!

The two spaces were independent and not connected-Lin Yi didn't know what to do. It seemed like the Shennong cauldron couldn't be brought here, right?

This discovery gave Lin Yi a headache. It was completely different from what he had imagined. He couldn't help but ask,"Elder Jiao, I want to ask, can I take the things that are in the space created by my jade pendant?"

"We can 't!" Elder Jiao replied.

"..." Lin Yi gave up completely. What was the point if he couldn't get it?

"But your primordial spirit can go over!" Elder Jiao's last sentence made Lin Yi go wild with joy,"Your true body can't go in, but your primordial spirit can."

"Then ... How do I enter with my primordial spirit?" Lin Yi couldn't help but ask.

"It's very simple. You just need to use your will. You can think of your primordial spirit going over and it will go over." Elder Jiao said.

With a thought, Lin Yi's spirit entered the space beside him! Lin Yi found the broken Shennong cauldron behind the mountain of energy stones. He sat down cross-legged, prepared the materials, and started to repair the Shennong cauldron according to the method on the scroll ...

Time flew by, and with the experience from refining the Jade space and the essence Necklace, Lin Yi was very familiar with the process.

In addition, there was an endless amount of spiritual Qi in the Jade space, which made the repair process very smooth.

Lin Yi was extremely excited. When he got the Shennong cauldron before, he could only look at it but not use it. Plus, he had a brush with the fake Shennong cauldron in the tomb, and that made him very helpless.

But now, everything was different. Lin Yi could easily repair the Shennong cauldron, making up for his previous shortcomings!

Of course, he had to thank the right Panhu for this. If he had not given him this damaged Shennong cauldron, he would not have had the chance to repair it ...

Lin Yi only finished repairing the Shennong cauldron in the early hours of the morning. The process was full of twists and turns, but it was still considered smooth. The small problems that appeared were still within a controllable range.

"Jing Jing, the Shennong cauldron has been repaired. Take a look!" He said. Lin Yi exited the Jade space with the Shennong cauldron.

"Oh? It's repaired?" Han Jingjing lifted her head from the code and looked at Lin Yi, "Lin Yi bro, you're amazing! You can fix the cauldron just by sitting there! Are you an auto-repair machine?"

"Hehe, I've kept the cauldron with me. I used a special method to repair it. I'll tell you more when I have time." Lin Yi's method of repairing the cauldron in the Jade space was too complicated, and he couldn't explain it all in a short time. He decided to tell han Jingjing later.

"Alright, I'll take a look at the Shennong cauldron." Han Jingjing didn't ask further. If Lin Yi didn't say anything, she wouldn't ask. This was the advantage of han Jingjing.

Chapter 3482 Refining The Gathering Qi Pill

Han Jingjing was indeed a genius. She had only taken two days to complete such a complicated transformation of the Shennong cauldron!

Of course, this was also because of her experience with making grade one and two automatic medicine cauldrons. This automatic medicine cauldron also had an energy replenishment function, with an external energy stone box to absorb the energy from the energy stones, in case Lin Yi didn't have enough strength and failed!

"Lin Yi bro, Jing Jing's done! Take a look!" Han Jing Jing passed the modified automatic cauldron to Lin Yi.

The modified Shennong automatic medicinal cauldron was divided into two parts. The main part was the Shennong medicinal cauldron, and beside it was an electronic device. On top of it was a touch-able display screen similar to a tablet computer, and below it was the place where the energy stones were placed.

"This thing ... It really looks like a combination of modern and ancient technology!" Lin Yi sighed.

"That's right. The Shennong cauldron can't be replaced for the time being. If we can find a replacement material, we can make a new one. It will also look more beautiful and natural. But now, it's no longer the same." Han Jing Jing said.

"That doesn't matter. Whether it looks good or not, it's fine as long as it can be refined into medicinal pills!" "It's for use, not for looking!" Lin Yi said with a wave of his hand.

"Hehe, Lin Yi bro's consoling Jing Jing!" Han Jingjing smiled, "don't worry, Lin Yi bro. I'll help you change it to something even stronger in the future. With my current skill level, this is the only way. Lin Yi bro, you can start making pills now!"

"Jing Jing, I have a total of fifteen sets of Qi gathering pill refining materials now. I should split them into several batches to refine them. That would be the best way to produce the most Qi gathering pills." Lin Yi knew that Han Jingjing's medicine cauldron would usually have an enhancement effect, and it was common for her to make three out of two!

"Hehe, why don't you try it, Lin Yi bro?" Han Jing said with a smile.

"Try it?" Lin Yi blinked.

But since Han Jingjing said so, Lin Yi believed her. He composed himself and suppressed all the distracting thoughts. He crossed his legs and sat down for a while, adjusting his body to its best condition. He was ready to start refining.

Lin Yi turned on Shennong's automatic medicine cauldron, and a welcoming image appeared on the screen. It was Han Jing Jing's smiling face, with a line of words below: "It's the smart alchemy system that Jing Jing created for Lin Yi bro, V1.0. "

Lin Yi couldn't help but smile bitterly as he looked at the welcome page. Han Jingjing was really interesting, coming up with this.

Then, a few options appeared on the screen!

1. Known pill refinement
2. The unknown pill recipe will be automatically analyzed.
3. Satellite network online update

Looking at the three options, Lin Yi couldn't help but be surprised. This cauldron didn't just seem to be able to make known elixirs, it could also make unknown ones?

But Lin Yi didn't have any unknown pills yet, so he opened the first option, "refine known pills."

After entering, there were many choices of first, second, and third class pills. Lin Yi directly chose the third class pill, and found the Qi gathering pill in the sub-table and clicked on it. A line of words appeared on the screen!

"Please wait a moment, Jing Jing is currently creating the recipe for Lin Yi bro's Qi gathering pill. After Jing Jing's calculations, putting in five sets of ingredients at a time will give you the maximum profit ..."

Lin Yi was dumbfounded when he saw the line of text! Han Jingjing was right. He would know once he tried. He would know!

And so, Lin Yi followed the instructions and put in five sets of Qi gathering pill ingredients, pressing the confirm button!

The tablet let out two crisp beeps, and Lin Yi raised his head to see the display: "The pill refining script has been generated. According to the weight of the medicine cauldron, five sets of materials have been added into the pill refining. The estimated refining time is three hours and twenty-four minutes. The estimated number of pills produced is seven!"

Three hours wasn't a long time, but Lin Yi couldn't help but be surprised when he saw the number of elixirs he made. Seven!

However, this was only for Han Jingjing. If it were anyone else, they could only refine one pill at a time. If they succeeded, it was a success. If they failed, it was a failure!

Lin Yi, on the other hand, was mass-producing the pills, and he could even make a new one with the leftovers. Naturally, the efficiency was high!

"After hearing the dripping sound, please inject pure energy into the medicinal cauldron. The medicinal cauldron will automatically adjust the intensity of the fire, the temperature, and the attribute of a single fire!"

He just needed to input true Qi? Lin Yi blinked—didn't that mean that this cauldron didn't need an Alchemist to use it? At that thought, Lin Yi turned to look at Han Jingjing in confusion.

Han Jingjing seemed to have noticed Lin Yi's confusion as well, "Lin Yi bro, Jingjing has actually mastered this technique a long time ago! Previously, since he could convert the energy in the energy stone into alchemy fire, it was not difficult to convert the physical strength and true Qi of the cultivator into alchemy fire! However, if this technique were to appear, alchemists would become worthless. Without many restrictions, anyone could refine pills. Although it might cause medicinal cauldrons to sell well temporarily, in the future, this thing might depreciate! On top of that, every practitioner's stamina and Qi is different—Jing Jing can't analyze them one by one, but she knows Lin Yi bro's stamina and Qi, so don't worry, Lin Yi bro. Only Jing Jing can use this cauldron, no one else!"

"So it's like this!" Lin Yi nodded. This saved him a lot of trouble, and he let go of all his worries!

If he wasn't confident in his refinement fire, then wasn't he confident in his stamina? He'd helped others level up a couple of times already, and he was confident in his own strength! Not only that, Lin Yi had the space in the Jade, a killer weapon. He could use the art of Dragon mastery to transfer the pure energy from the space into the cauldron. This way, Lin Yi's body was like a conductor, and he didn't need to waste his own energy!

Of course, Han Jingjing didn't know about this. She thought that Lin Yi was also exhausted, and that was why she set the energy stone's location!

With that thought, Lin Yi cleared his mind and got to work. He sat down cross-legged and started channeling the art of Dragon mastery, quickly pouring his pure Qi into the medicine cauldron according to the instructions ...

#### Chapter 3483 Continuous Breakthroughs In Strength

The medicinal cauldron emitted a crisp and soft hum, and the tablet computer at the side also appeared with the words "refining in progress, heating in the ...", And a countdown beside it!

After that, the medicinal cauldron began to heat up slowly. After warming it up for about an incense stick's time, it finally entered the pill refining state.

The automatic Shennong medicinal cauldron had been modified by Han Jing Jing's genius. As long as the flow of true Qi was not cut off, the internal program would automatically adjust the flame and temperature. The excess true Qi would be stored in the energy stone at the bottom of the medicinal cauldron. If the true Qi was exhausted at the end of the pill refinement, the medicinal cauldron would detect that there was not enough true Qi and automatically activate the reserve true Qi stored in the energy stone to make up for it!

However, this wasn't really useful for Lin Yi, unless he was refining a higher level pill and his Qi wasn't enough to support the refining process. Only then would he use the energy stone to make up for it!

From this perspective, Han Jingjing's design was still useful.

Under the control of the pill fire generated by true Qi, the medicinal herbs in the medicinal cauldron began to change little by little. This process was slow and gentle. If it were an ordinary person, they would not be able to detect it at all. However, this was precisely the process that alchemists enjoyed the most.

However, Lin Yi wouldn't be able to enjoy it! He didn't know what was going on in the cauldron. He was looking at the tablet beside him!

Time passed by slowly, and Lin Yi only needed to input pure energy into it. He didn't have to worry about anything else, and the countdown on the screen was slowly ticking ...

Finally, along with the final crisp sound, the pill refining finally ended!

The whole process was calm and uneventful, but Lin Yi was still very nervous. After all, this was his first time using Shennong's automatic cauldron to make a pill, and it was a Qi gathering pill. It was five sets of ingredients! He'd be crying if he went blind!

After calming himself down and stabilizing his breathing, Lin Yi stood up and opened Shennong's cauldron.

As soon as the lid was opened, a strong medicinal smell filled the entire space. Lin Yi only took a whiff and felt refreshed.

Looking at the signs, it should be considered a success, right?

Lin Yi looked into the cauldron expectantly, and as expected, there were seven Qi gathering pills quietly lying inside, each one full and fragrant ...

It was a success!

The quality of the Qi gathering pill was extremely high, comparable to the one he found in Liju's tomb. Lin Yi took one out to have a look-it was indeed extraordinary!

"Jing Jing, let's start consuming it now. This thing ... Although we don't have to eat it while it's hot, the earlier we consume it, the faster our strength will increase!" Lin Yi said.

"En, en, then let's take it together!" Han Jingjing also picked up a Qi gathering pill.

"Right, Jing Jing, it's best if we take it separately, because when the Qi gathering pill breaks through, the clothes on our bodies might be torn, it's not convenient for the two of us ..." Lin Yi suddenly thought of this serious problem.

"It's fine!" Han Jingjing said indifferently, ""Jing Jing is Lin Yi bro 's, it doesn't matter if she sees it. Are you afraid of Jing Jing?"

"Uh ... That's not the case." Lin Yi was taken aback, but since han Jingjing didn't care anymore, he didn't want to be embarrassed anymore. He closed the curtains and said to han Jingjing, ""If that's the case, why don't you take off your clothes? otherwise, you'll be blown to pieces."

"Alright!" Han Jing Jing nodded and nimbly took off her clothes. She sat cross-legged on the bed, not feeling that there was anything wrong with it!

Lin Yi, on the other hand, was moved, but ... He needed to consume the Qi gathering pill right now, so he quickly got rid of these thoughts and took off his clothes. However ... There was still a natural physiological reaction, which made Lin Yi very embarrassed!

Han Jingjing glanced at her and stopped looking at her. It seemed that han Jingjing's self-control was much stronger than Lin Yi 'S. Lin Yi really didn't know how han Jingjing's brain grew.

At this time, han Jingjing had already put the pill in her mouth. Lin Yi smiled bitterly and did the same!

He'd already taken the extreme Qi gathering pill before, so it was a walk in the park for him. The pain was something he could endure, and the sudden surge of energy was something he just had to grit his teeth through!

On the other hand, han Jingjing's face looked like she was in pain, but she could hold on and not make a sound. She was a very strong girl, just like when Lin Yi helped her level up ...

Time passed by slowly.

Han Jingjing successfully broke through to Sky Class early phase, but what made Lin Yi a little disappointed was that he didn't break through to Sky Class late phase peak full completion after taking the Qi gathering pill. He was infinitely close to full completion, but there was still some distance!

Although this small difference didn't affect Lin Yi much-he could kill Sky Class Masters in seconds now, but his own strength was still a little imperfect.

"Jing Jing, continue to consume them. In theory, after you consume another seven Qi gathering pills, your strength should be on par with mine. Consume them slowly while I refine some more!" Lin Yi said.

There were only five left, and han Jingjing still needed two more, so Lin Yi had to continue.

"En, en, thank you, Lin Yi bro!" Han Jing Jing nodded.

"What's hard for me? it would be hard if I didn't have your medicinal cauldron. But refining pills now is a piece of cake for me. " "It's the first time I've realized that elixir making can be this easy!" Lin Yi smiled.

Han Jingjing was very happy to be complimented by Lin Yi, her face blushing, ""Lin Yi bro, hug!"

"Ugh ..." Lin Yi was taken aback, but he saw that there was only joy in Han Jingjing's eyes, and there was no complicated desire. He went over and picked her up. Lin Yi, on the other hand, was quite uncomfortable holding it in. He quickly put her down and turned around, planning to focus on the refinement.

Time passed slowly, and Han Jing Jing continued to consume Qi gathering pills, while Lin Yi continued to refine pills ...

By the time Han Jingjing finished her last pill, she was already Sky Class late phase. Although she was a fast practitioner, her strength was real!

This time, Lin Yi still made two sets of seven-pill Qi gathering pills, fourteen in total!

Chapter 3484 Sky Class Late Phase Peak!

Lin Yi took out four of them after some hesitation. He gave three to Han Jingjing and kept one for himself.

Lin Yi was planning to break through to Sky Class late phase peak in one go! Otherwise, Lin Yi's heart wouldn't be perfect.

And three pills for Han Jingjing would also allow her to successfully break through to the full completion of the Sky Class!

Lin Yi was planning to bring Han Jingjing to Sky Class Island-she could be one of his most powerful helpers!

Because Lin Yi only took one pill, his breakthrough speed was faster than Han Jingjing's. This time, Lin Yi finally successfully broke through to Sky Class late phase peak. Although it didn't feel much different from before, Lin Yi felt very satisfied!

Once upon a time, this was Lin Yi's ultimate goal-Sky Class late phase peak, full phase-it was a realm he'd been dreaming of, but now, it was achieved so easily!

Lin Yi didn't think that the last few levels would go so smoothly. It could be said that these were the easiest levels Lin Yi had broken through so far! Of course, if it was someone else, it might be the most difficult level to break through!

But Lin Yi broke through so easily, thanks to Kang Zhaoming and right-hand Tiger. Without them, there wouldn't be Lin Yi now!

Han Jingjing, on the other hand, was breaking through to Sky Class late phase peak. Lin Yi only had ten Qi gathering pills left-if he gave them to Wang Xinyan, she should be able to break through successfully. Before Earth Class late phase peak, she could rely on Lin Yi to level up!

Wang Xinyan was very happy to see Lin Yi back, but Lin Yi went to Han Jingjing's bedroom and stayed there for a few days without any news. Wang Xinyan finally started to worry!

When she asked Han Xiaochao about it at school, he said he didn't know either. It seemed like the two had never come out before, so one day after school, Wang Xinyan finally couldn't help but go to Han Jingjing's house to see if anything happened to Lin Yi and Han Jingjing!

The straight-A student han Xiaochao didn't know anything, so Wang Xinyan decided to see for herself.

At this time, Lin Yi and han Jingjing had just broken through, and han Jingjing was now Sky Class late phase peak full master. She was very excited and couldn't help but jump into Lin Yi's arms, ""Lin Yi bro, you're so good ....."

Wang Xinyan, on the other hand, had just pushed the door open ... The scene in front of her, coupled with the fact that Lin Yi and han Jingjing weren't wearing any clothes, and what han Jingjing said, made Wang Xinyan's face flush!

"I ... I didn't see anything ... I'm leaving ..." Xinyan thought to herself that Lin Yi wasn't usually like this. Why was he so engrossed in this after playing with han Jingjing for so many days? What was this han Jingjing doing, didn't she know that Lin Yi had other things to do? She even pestered Lin Yi time and time again, saying how strong he was ...

But Lin Yi had lived with her for so long, yet he'd never touched her. Was it because he was worried about Kang Zhaoming? But it couldn't be-even if he was worried before, it was fine now. Why did Lin Yi go to han Jingjing's first? Instead, he hugged her at night and did not move?

Was it because he was not proactive enough ... Or was it because he was not attractive enough? Wang Xinyan was conflicted ...

"Wait a minute, sister Xinyan, you come with us!" Han Jingjing said in all seriousness, ""We're only Missing You Now!"

"Ah?" Wang Xinyan was still struggling with her decision, but after hearing han Jingjing's words, she flinched. Han Jingjing wanted her to join? Wouldn't that be three people together?

Xinyan couldn't understand why the innocent Jing Jing would suddenly become like this. Could it be that he had been corrupted?

"I ... I don't want it, you guys can continue ..." Wang Xinyan stammered, as if she wanted to escape.

"Wait a minute, sister Xinyan, we're all done, you're the only one left!" "It might be a little painful, but it's because you can be with Lin Yi bro forever. Don't you want to?"

"I ..." Wang Xinyan's face was even redder than before, and her breathing became uneven. Han Jingjing's words were a hint again!

"Sister Xinyan, come quickly! I just gritted my teeth and got over it!" Han Jing Jing called out.

"Then ... Okay ..." Wang Xinyan had been successfully bewitched by han Jingjing. She closed the door and gritted her teeth. "I'll take off my clothes too?"

"En, en!" "Of course!" Han Jingjing nodded and said, "of course!"

"Then strip!" Xinyan gritted her teeth and quickly stripped herself naked, thinking that Lin Yi had already seen her naked during the training, so what's the point of taking it off now?

She'd already decided to give it to Lin Yi, so what was there to hesitate about?

Lin Yi, on the other hand, was dumbfounded. He didn't think that Xinyan would be this fast, but from her expression, she must have misunderstood something. Lin Yi didn't believe that Han Jingjing, who was so smart, didn't see it. This girl did it on purpose!

"Xinyan, put on some clothes first. Your situation is different from Jingjing's ..." Lin Yi said helplessly.

"I ... I ..." Xinyan froze, her face turning pale. Lin Yi didn't like her after all ... If not, why was it that Han Jingjing could do it, but she couldn't? At this time, Wang Xinyan didn't care about her shyness anymore. She stuck out her chest and faced Lin Yi, "She can do it, so can I. Why can't I?"

"She has the practitioner's Arts, and that's why she's at Sky Class late phase peak, but you don't-I can't help you with that! I'll have to wait until you have the practitioner's Arts!" Lin Yi explained.

"Increase my strength?" Xinyan was taken aback as she looked at the two, "You guys ... Are you guys improving your strength?"

"Yeah, what did sister Xinyan think we were doing?" Han Jingjing said innocently.

"Then ... Why do you need to take off your clothes to increase your strength?" Wang Xinyan was confused.

"After taking the Qi gathering pill, it's very painful to level up. Your whole body will be very hot, and your clothes will be burned to ashes!" "In order to save on clothes, I'll just take them off!" Han Jingjing said.

Xinyan's face reddened, and she covered her chest subconsciously."I ... I ... Why didn't you say so earlier?"

"I did. Jingjing has always been right." Han Jing smiled and said,"eh?" Did sister Xinyan misunderstand something? Sister Xinyan's thoughts are so complicated!"

#### Chapter 3485 Problems With Wang Xinyan's Cultivation

"Dead silence, you're making fun of me!" Wang Xinyan reached out to hit han Jingjing, but she was exposed again. She didn't care if she was naked or not, she just sat on the bed."So you're all Sky Class late phase peak now?"

"Yes," Lin Yi nodded,""Xinyan, I'm also preparing to raise you to Sky Class late phase peak-a lot has happened recently, so let's put on some clothes first before we talk, okay?"

Lin Yi felt a little awkward.

"Just wear a single layer. It's not like you haven't seen it before!" Wang Xinyan didn't care anymore, she let go and didn't think too much.

"That's good. " Lin Yi and han Jingjing got dressed as well-they were at home anyway, so it didn't really matter if they only wore a single layer of clothing. The three of them didn't feel like they were strangers.

With that, Lin Yi told Xinyan everything that had happened recently, as well as Yu Xiaoke, the pangolin, and all the inheritors ...

"You're saying that you're going to land on Sky Class Island, and that you're going to take me and Jing Jing with you?" Xinyan asked, surprised.

"Yes, Jingjing is my helper. I want to bring her along, but I'm worried about your body, so I want to bring you with me. Also ... I'm already used to having you by my side." Lin Yi nodded seriously.

"En ..." Wang Xinyan was happy that Lin Yi said that. She was one of the most important people to him. However, after a while, Wang Xinyan still asked, "Then, song Lingshan, sun Jingyi, Xu Shihan, you're not bringing them?"

"Lingshan's the person in charge of the supernatural Investigation Bureau now, so I'll leave the matters of the cultivator Association to her as well! "Jingyi's practitioner's Arts and strength level are different from ours-I can't help her level it up, so she can't go. As for Xu Shihan, she's a star, after all, and she has her own career ..." Lin Yi said. "Plus, it's not like we won't be coming back-we can come back after this is over, and we can bring them back with us. And Wu Chengtian and his little brothers, I'm planning on bringing them back too-of course, that's if I can make a name for myself on Sky Class Island!"

Lin Yi might be able to do whatever he wanted in the common world, sweeping through the ancient sects, but that was all there was to it. Sky Class Island was full of unknown, and the weakest one should be a Sky Class late phase peak full master. Even if Lin Yi could fight people above his level, he wouldn't be able to do much there.

So Lin Yi didn't take too long to finish his sentence-everything was unknown!

So Lin Yi didn't make any promises, because everything was still unknown!

It was only then that Xinyan realized that the day was getting closer and closer ... Was it all going to end? Or was it a new beginning?

"I believe you can do it." Wang Xinyan said firmly.

On the train, it was as if they had made a promise in their previous lives. The first time they met, they were destined to love each other for a lifetime.

Xinyan wasn't an emotional person, but sometimes she had to believe in the miracles of fate.

The memories of her and Lin Yi came back to her, and the first time she moved into the villa appeared in her mind.

Shu "carried" her and kidnapped her to the villa. From then on, she was destined to never be separated from Lin Yi, right?

"I'll ask aunt Qing again and see if she has any ways to help you increase your strength. The Sky Class test is just around the corner, and Sky Class Island is about to open-if you can't increase your strength, you won't be qualified," With that, Lin Yi dialed aunt Qing's number.

"Yi, you've been pretty famous recently-aunt Qing's heard a lot about you in the Ice Palace!" Aunt Qing said with a smile on the other side of the phone.

"Man ... Please don't make fun of me, aunt Qing. You're a senior, and you've watched me grow step by step until now ..." Lin Yi was a junior in front of aunt Qing, and he would never forget her help back then.

"It's true that a hero isn't afraid of being born into a poor family ... I'm afraid Rock Candy is the one who's most conflicted now. Should she keep her promise to you?" Aunt Qing didn't think much of Lin Yi and Bing Tang before.

After all, no matter how much she liked Lin Yi, he was just an outsider. She had watched Bing Tang grow up, but after knowing that Lin Yi was that person's descendant, aunt Qing's attitude towards Lin Yi changed. She also treated him as her closest junior.

"That's just a line from the song ..." Lin Yi smiled bitterly, "Aunt Qing, the matter of the rock Candy was just a joke at the beginning and I didn't take it seriously. You can tell her, don't be so conflicted."

It wasn't that Lin Yi didn't have any feelings for Rock Candy-it was a satisfaction to conquer a cold girl like her, but since she didn't want to, Lin Yi couldn't force it. Plus, Lin Yi's mind was on the Sky Class Island now, and he had to put his personal feelings aside!

Once the Sky Class Island matter was over and there was nothing else to worry about, then it would be time to talk about love! Lin Yi was still young, and he had a lot of time. Plus, his girlfriend was a Sky Class master, and his life was extended forever. The endless years after that were the time to enjoy.

"The Ice Palace is a place that keeps our promises-we'll do what we've said, especially the sect master!"  
"Let's not talk about this anymore, Yi. What's the matter?" aunt Qing asked.

"It's about my friend Wang Xinyan, I've told you about her before. Have you found her practitioner's Arts?" Lin Yi asked.

"I've found the information, but I haven't gotten it yet!" Aunt Qing said, "that manual is kept in the treasure vault of the Ice Palace, and only rock Candy can open it-no one else can!"

In the Ice Palace, Rock Candy's strength was completely the style of a man of his word-it wasn't like the other ancient sects, where they had their Grand elders at the top. The Ice Palace, however, was different, and Lin Yi could understand what aunt Qing was saying.

"Then, didn't you tell Bing Tang?" Lin Yi asked.

"I haven't found the right time yet, Yi-you know, you've been in the limelight recently, killing Sky Class late phase peak Masters in seconds. Rock Candy's most afraid of hearing your name right now, so I didn't bring it up when I saw how depressed she was every day." Aunt Qing said helplessly, "but Yi, if you want it, you'd better come to the Ice Palace yourself. Maybe she'll give it to you after you see it."

Chapter 3486 The Icy Heart Jadestone Pill Is Formed!

"Oh?" Lin Yi suddenly thought of something-that's right, the ice heart Jadestone pill! This was a level three pill-he couldn't make it before, but now he could easily do it. He knew what to trade with the rock Candy, "Alright, I'll go there in a couple of days!"

"En, then aunt Qing will wait for you!" Aunt Qing nodded and said.

After hanging up, Lin Yi told Xinyan and Jingjing his thoughts-he planned to head to the Ice Palace after making the pill!

Wang Xinyan and han Jingjing were very supportive of this! Lin Yi was a man of his word-he was ready to start now! Lin Yi had four sets of ingredients for the ice heart Jadestone pill, all from right-hand Panhu. He gave Lin Yi twelve sets of ingredients for the third class pill-four for the recover pill, four for the ice heart Jadestone pill, and four for the Qi gathering pill.

He'd already mixed the Qi gathering pill's ingredients together and used them all-he was planning on making the recover pill and the icy heart Jade bone pill in one go! The recover pill was very useful, too-it wasn't very useful to Lin Yi, but it was a life-saving item for han Jingjing and Wang Xinyan.

With the experience from the last time, Lin Yi was very familiar with this process!

Lin Yi followed the instructions and put in four portions of ingredients for the icy heart Jadestone pill before pressing the confirm button!

"Di di ..." The tablet made two crisp and long beeps, and then the screen showed: "The pill refining script has been generated. According to the weight of the medicine cauldron, four sets of materials have been put in this pill refining. The estimated refining time is two hours and fifty-two minutes. The estimated number of pills produced is five!"

Three hours wasn't a long time, but Lin Yi was a little disappointed at the number. There were only five! Five sets of ingredients for the Qi gathering pill had produced seven!

Of course, the situation was different for each type of elixir, so the results were different. This was already better than the others, so Lin Yi only felt disappointed for a moment before he started refining!

Lin Yi cleared his mind and sat down cross-legged, channeling his art of Dragon mastery. He quickly followed the instructions and poured his pure Qi into the cauldron. The cauldron buzzed, and the tablet beside it showed the words "refining in progress, heating ..." With a countdown beside it!

Unsurprisingly, along with the final crisp sound, the pill refining finally ended! As soon as the lid of the cauldron was opened, a strong medicinal fragrance with a gust of cold air hit his face. Although it was hot, it still made people shiver involuntarily!

This should be the special effect of the ice heart Jade bone pill. It was really an extremely cold pill. Except for people with special physiques, ordinary people would not be able to enjoy it!

After the cold Qi dissipated, Lin Yi looked into the cauldron and saw that there were indeed five ice heart Jadestone pills, the same color as the Qi gathering pills before-they were all of the highest quality! Of course, five was already a lot. Previously, the rock Candy only asked for one!

After making the pill, Lin Yi didn't stop and continued to make the recover pill!

He put in four portions of ingredients for the great cyclic pellet, but what surprised him was that the screen showed the estimated production number of six! There were also four portions, but there were five icy heart Jadestone pills and six great recovery pills! It was really magical.

But thinking about it, these pill recipes might not be accurate when they were first made. They were obtained through repeated experiments by The Alchemist. Some pill recipes might be a little more than one set, and some might be a little less than one set. If only one pill was made, there would be no difference, but the difference would be obvious when all the pills were made!

The process was the same as before, and after three hours, the great cyclic pellet was successfully produced. This was Lin Yi's third time making a proper pill, and he didn't expect it to be this easy. This was all thanks to Han Jing Jing's automatic medicine cauldron.

"What kind of high-end thing is this? how is it so advanced?" Xinyan couldn't help but ask after Lin Yi was done.

"This is an automatic Shennong medicine cauldron invented by Han Jing Jing. It can easily refine medicinal pills with its own intelligence." "Actually, Jingjing and I have been studying alchemy these days," Lin Yi explained.

"I see ..." Xinyan blushed, embarrassed by her dirty thoughts. Lin Yi was here for business, not for Han Jingjing! It wasn't nice to think like that!

I can't make wild guesses in the future!

"Alright, since the pill's done, I'll be heading to the Ice Palace now." Lin Yi didn't want to waste any more time-the five elements sect had already sent out a notice for everyone to sign up, and that meant that the Sky Class test was just around the corner. Who knew when they'd gather everyone there!

"En, Lin Yi bro, be careful!" Han Jing Jing said.

"Lin Yi, you can stay for a few more days. You haven't seen Feng Xiaoxiao for a long time ..." Wang Xinyan said. Although she and Feng Xiaoxiao weren't close, or even not knowing each other, it was Chu Mengyao and Chen Yushu who told her about Feng Xiaoxiao's past, but she also knew about Lin Yi and Feng Xiaoxiao's relationship.

"En, it's fine. We'll see each other after the heaven class test begins." Lin Yi didn't mind-the Sky Class test would start right away if they stayed a couple more days, and Xinyan wouldn't be qualified yet.

This time, Lin Yi decided to ride the purple lightning Beast to the Ice Palace, and he arrived at the town in one night.

Lin Yi had just been here a while ago, so he didn't really feel that emotional about the scenery!

However, Lin Yi was still Sky Class mid phase back then, and now, he had successfully broken through to Sky Class full phase. The difference between before and after was really shocking!

Thank you, right-hand Panhu, thank you, Kang Zhaoming ... Thank you, patriarch xuanchen ...

At the ice Spirit Inn, Lin Yi walked into the lobby and greeted manager li, who was arranging some documents."Manager li, we meet again!"

"Ah ... Young master Lin Yi, you're here!" Manager Li paused-he didn't think that Lin Yi would come to the Ice Palace again in such a short time!

"En, it seems that manager Li is not surprised this time." Lin Yi said with a smile.

"Haha, that's also why we don't have many guests all year round. Lin shaoxia's visit was a bit sudden, but I'm used to it now! May I know why you've come to the Ice Palace?" Manager Li asked with a smile.

Chapter 3487 Are You?

He could tell that Lin Yi was friendly with the people of the Ice Palace, and he wasn't as nervous as before!

"It's nothing, I'm here to find your Ice Palace's Candy Girl, I want to marry her!" Lin Yi asked.

"Gah!" Manager Li was dumbfounded! What? Marry ... Marry a Rock Candy Girl?

Manager Li didn't know what to say anymore-did Lin Yi have an engagement with Rock Candy? At his level, he naturally didn't know the inside story, but elder Li didn't dare to ask too much. He could only say carefully,""Lin shaoxia, I'll ... I'll just tell the sect master the truth, is that what you wanted?"

Lin Yi nodded. He was just joking, but he really wanted to get rid of this girl's pride!

With that in mind, Lin Yi turned to manager Li and said, "That's right, you can talk to her like that!"

"Okay ..." Manager Li nodded helplessly. He didn't have the right to argue with Lin Yi, so he had to speak the truth! Anyway, even if Rock Candy blamed him, it would be Lin Yi who let him do it, it had nothing to do with him!

Manager Li took out the satellite phone from his drawer and answered the call. Soon, Rock Candy's voice came through, ""Manager Li, what's the matter?"

"Palace Master, Lin Yi, young hero Lin, has come to our Ice Spirit Inn. He said ... He's here to marry you. What do you think?" Manager Li asked carefully.

"Lin Yi? To marry me?" Bing Tang felt embarrassed-last time, Lin Yi didn't mention this much, and she thought that he'd just let it go, but now he came all the way to the Ice Palace to talk about this!

This made Rock Candy a little angry, but remembering that he promised Lin Yi that when he reached Sky Class late phase peak or became a Mystic first level refiner, he'd be Lin Yi's little, little, little wife-Rock Candy didn't know how to argue.

The Ice Palace was a sect that kept their promises, but that was just Candy's words in anger-it didn't count!

But now that Lin Yi had come all the way here, what was she supposed to do? However, after hesitating for a moment, Rock Candy still said, ""What's his current strength? Is he Sky Class late phase peak?"

"This ... I'm not sure!" "But, he can kill Sky Class late phase peak in a second-that should be it!" Manager Li said, sweating.

"That's not for sure, Lin Yi's good at fighting people above his level! I made a deal with him-when he's Sky Class late phase peak or above, or when he becomes a Mystic first class refiner, he'll be his ... Honey, Sky Class late phase peak and above are only at the full circle or sky path level, right?" Rock Candy didn't believe Lin Yi-he was only sky Class mid phase last time!

She rejoiced at her own cleverness. Fortunately, she had previously limited his strength level and did not say that he could fight against any experts.

"This ..." Manager Li looked at Lin Yi carefully. He didn't dare to offend Bing Tang, but he was even more afraid of offending Lin Yi!

This was a huge trap, but manager Li didn't dare to complain. He could only smile bitterly at Lin Yi, not saying anything ...

"It's about my strength, right?" Lin Yi's eyes and ears were sharp-he was a Sky Class full master, after all, and he'd be too weak if he couldn't hear the conversation between manager Li and Rock Candy, "It's fine, it's true even if I verify it ..."

With that, Lin Yi started channeling his practitioner's Arts, displaying his full strength as Sky Class late phase peak!

This powerful aura made manager Li's legs cramp up. Although Lin Yi didn't do anything to him, he still lowered his head subconsciously and curled up. He said to Bing Tang with a trembling voice, "Palace Master ... Lin shaoxia, he really is Sky Class late phase peak ..."

"What!" Rock Candy didn't really believe that Lin Yi could break through to full cultivation in such a short time-how many days had it been? However, she knew that manager Li would not lie to her! Manager Li was an old-timer of the Ice Palace, how could he join Lin Yi in this?

And so, the Ice Palace hesitated, a little scared and scared. "Tell Lin Yi that I'm not feeling well and can't go. Tell him to stay at the Inn!"

"This ..." Manager Li smiled bitterly and raised his head to Lin Yi to pass the message, but Lin Yi reached out and took his phone.

"Let me do the talking." Lin Yi didn't want to make things difficult for manager Li, so he picked up the phone himself. "Rock Candy Girl, why aren't you here? Are you trying to go back on your word?"

"I ... I'm not feeling well. How is it?" Rock Candy snorted.

"There are times when cultivators are not feeling well? A Sky Class can get sick?" Lin Yi asked.

"I ... I ..." Bing Tang's face reddened-indeed, how could a Sky Class get sick? What a great excuse ... But an idea came to Rock Candy all of a sudden. He gritted his teeth and said to Lin Yi, embarrassed, "Sky Class, I'm a girl too, I'll feel uncomfortable for a few days every month, can't I?!"

"Ugh ... That's fine ..." Lin Yi paused, but still teased, ""Well, I'm here to give you the icy heart Jadestone pill. Come back for it after your period. If it takes too long, I'll go back first. I still have something to do!"

"Ah? What? The icy heart Jadestone pill?" "You ... You succeeded?" Bing Tang was shocked and asked anxiously.

"En, but I'll be leaving first. You should rest well. It's better for girls to rest well at this time." Lin Yi said.

"I ... Today is my last day. I'm almost done. Wait for me, I'll go over now!" Bing Tang's breathing was rapid as she said this. She was simply too excited. This pill had already made Bing Tang look forward to it for many years!

"But I'm only giving it to my little little little little little wife! You are?" Lin Yi asked with a smile.

"I ... I ... I am!" Rock Candy was anxious and said through gritted teeth.

"Oh, alright then, I'll give it to you! I'll wait for you at the inn, and we can consummate our marriage tonight. You just finished your thing, so you can't get pregnant!" Lin Yi said.

"You ... You ... You you you!" Rock Candy was so angry that she hung up the phone. He immediately flew out of the cultivation room and sped down the mountain ...

"Hehe." Lin Yi smiled and shook his head, not minding at all. He handed the phone back to manager li.

"Young hero Lin, is the sect master coming? "Take a break then ..." Manager li took the phone and let out a breath of relief-at least he didn't have to be stuck in the middle.

Chapter 3488 Did You Eat Chi-Amassing Pills?

"Alright, you should leave me alone." "You can go." Lin Yi waved his hand.

With that, Lin Yi walked out of the station and waited for the rock Candy Girl.

Manager Li nodded and started to attend to his own affairs.

Lin Yi didn't wait for long at the door when he saw Rock Candy running over. It didn't look like it was on its period at all, it was really agile!

Rock Candy saw Lin Yi's half-smile from far away and was a little pissed. He glared at him and walked in front of him, reaching out his hand, ""Where are my pills?"

"You want to take away the medicinal pill with your empty mouth?" Lin Yi said with a faint smile.

"Then what do you want? I've been taking care of your girlfriend, Feng Xiaoxiao, for so long! If it wasn't for me, she would have lost her life!" Rock Candy had already thought of what to say when he came-he was going to use Xiaoxiao to convince Lin Yi.

"She's your sister, you should do this. " Lin Yi said.

[illegible]

"I'll do what I promised you!" Bing Tang glared at Lin Yi. Anyway, I don't have much fun being alone, and I'll have to find a partner in the future. Besides, I get along well with Feng Xiaoxiao, so I'll just let you have it then. But, you know about the inheritor thing, I have to keep my virginity, so ..."

"Who was the one who requested to be a Virgin?" Lin Yi felt that the request was a little weird. He wasn't strong enough to question it before, but with his current strength, he had nothing to worry about.

"The five elements sect, of course!" "It's patriarch xuanchen's request," Rock Candy said.

"It's him? If he doesn't, what can he do?" Lin Yi's words were full of pride. Not long ago, ancestor xuanchen was an existence that Lin Yi looked up to, but now, even if Lin Yi stood in front of him, he would still remain calm and composed. Ancestor xuanchen might not even be as strong as him!

"Not maintaining ..." Rock Candy was slightly stunned. In the past, she had always listened to the five elements sect. Even though she was so strong, she had never doubted these things that everyone knew!

It wasn't that he didn't want to question it, but he'd always thought that the five-elements sect was the strongest existence, and that even the sect master couldn't go against them. Whatever they said was true.

But now, Lin Yi said that he couldn't do anything about it. Yes, what could patriarch xuanchen do if he did not maintain it?

In the past, no one dared to question it. But now, such a person had appeared!

Looking at Lin Yi in front of him, Rock Candy suddenly fell into a trance. This thin figure suddenly became tall and straight! Once upon a time, in the Ice Palace, when he had Xiaoxiao on his back, he'd never even thought of her as a threat!

Even the little little little wife's joke was just a joke, but now, Rock Candy suddenly realized that Lin Yi had become the only existence in the entire ancient realm that could fight against the xuanchen ancestor!

Sometimes, one's impression of people would change in an instant, and it was the same for Rock Candy. She suddenly realized that Lin Yi wasn't that hateful, but very bold. This was the spirit that a practitioner should have!

"That's what everyone used to say, and I heard that only a Virgin can open the sky Class Island. There's no other way. " "I've already told you the details, but I'm not too sure ... The five elements sect won't tell me either," said Rock Candy. However, if you want to have something with me before that, then you'd better not do anything to Feng Xiaoxiao. After all, this is a big event on the ancient level, and I don't want you to ruin it for your own selfish desires, even though you have the strength to fight against ancestor xuanchen. "

"Hmm?" Lin Yi blinked-what did Bing Tang mean?

In fact, Bing Tang was a little surprised when she said it herself-she realized that she didn't hate Lin Yi anymore. On the contrary, she was happy to find Lin Yi as her home.

Thinking back, she didn't know many male practitioners at all-they were either the sect leaders or young masters, but these people were all very scheming. She didn't like them, either. Lin Yi, on the other hand, wasn't that bad after all this time.

If one looked at the problem from another perspective, they would realize that fulfilling that agreement was not particularly contradictory! But to say that he had fallen in love with Lin Yi, Rock Candy didn't think that he had yet. He just didn't reject Lin Yi, that's all!

However, Rock Candy's thinking had always been very conservative. Wasn't the marriage in ancient times also an agreement, and both men and women didn't know much about each other? At least, she was satisfied with Lin Yi's current strength.

"Nothing. I just said if you want to, it's fine if you don't." "Anyway, the Ice Palace has Xiaoxiao as the heir, so they'll get a spot for the sect leader, and the sect leader or elder will be able to attend the Sky Class meeting. So it doesn't matter if I'm an heir or not ..."

"Oh? That means that as long as a sect has an heir, the sect leader or Grand Elder can participate in the Sky Class meeting?" Lin Yi asked.

"Yes, but there's a condition-you have to be Sky Class late phase peak ..." Rock Candy said, "I feel like I'm about to break through ..." He said.

"Oh? I didn't know there was such a restriction!" "Do you need me to make you a Qi gathering pill so you can level up?" Lin Yi nodded.

What Lin Yi was thinking was that if every inheritor's sect had a fixed spot for them to level up, did that mean boss Bai would have one too? As the sect leader of the other five elements sect, boss Bai's strength was definitely not enough, so he could not participate. However, if boss Bai passed the position of sect leader to him, it would be fine. Therefore, there were still loopholes in this. If he did not have the admission ticket to the map fragment, he could still find a way to participate.

However, he was afraid that ancestor xuanchen would add a more than a year restriction. That would not do. This guy was targeting him, and Lin Yi could do nothing about it.

Of course, Lin Yi could use force, but his goal was to go to Sky Class Island. If things really went south, it wouldn't be good for him to interfere.

"Did you eat Chi-amassing pills?" Bing Tang froze and looked at Lin Yi, "I heard that you were searching everywhere for the materials to refine Qi gathering pills. So this is what you were looking for?"

Chapter 3489 The Palace Master's Boyfriend

"Yeah, how else do you think I leveled up? He was Sky Class mid phase a few days ago, and now he's Sky Class late phase peak!" Lin Yi didn't try to hide anything.

"I remember telling you this before-you can keep leveling up by eating the Qi gathering pill, all the way to Sky Class late phase peak, but it's not the real deal." "There are some essential differences between the two perfection stages, and you might not be able to advance to the heavenly Dao in your entire life ..."

"You've only heard of this, right? Who said that one could not be promoted to heavenly Dao after taking a Qi-gathering pill? Plus, I've taken the Qi gathering pill when I was in the earth Class, and I've been leveling up all the way, and I've also leveled up on my own. I didn't take any pills, but I still leveled up, didn't I?" Lin Yi asked back,"plus, who's ever broken through to the sky before?" Who would know how to break through? Since no one knew about it, what was the point of spreading rumors? Maybe even if we go to Sky Class Island, we won't be able to break through right away-Sky Class Island is just a higher level than the ancient level, and there might be sky path Masters there, but even if we go, we might not be able to break through successfully!"

"This ..." Bing Tang was speechless. Lin Yi's words made sense. Yes, no one had broken through to the heaven's path before. It was normal to not be able to break through after taking pills, but Lin Yi broke this logic!

Rock Candy didn't think that Lin Yi was lying. After all, Lin Yi wasn't even a third level refiner before, so he didn't have that many Qi gathering pills. He must've broken through naturally, breaking the curse of not being able to level up after taking the pills.

So ... At this moment, she was a little moved! Although she had touched the barrier of the consummate level, it was only a touch. It was impossible to break through without luck and coincidence. Some people might be stuck at this level for their entire lives.

With Lin Yi's situation as a reference, Rock Candy was silent the entire way. After a while, he said, "I'll consume the icy heart Jadestone pill first. If I successfully obtain the inheritance, there won't be any more barriers for me to level up. I'll be able to break through on my own ..."

"That's good. " Lin Yi didn't force it. After all, not everyone had the same thoughts as him, and it was hard to change Bing Tang's deep-rooted thoughts. Besides, Lin Yi had the Jade space, but Bing Tang didn't. If something really happened to Bing Tang and she couldn't level up, Lin Yi would be in big trouble!

"Then ... I'll go and take it?" Bing Tang turned to Lin Yi.

"En, here you go." Lin Yi took out a box from his pocket and gave it to the rock Candy, "You don't have to save your food here. If you don't comprehend the inheritance, eat another one until you do."

"Ah?" Rock Candy was slightly taken aback, 'you don't have one and you're eating another one? You think you have a lot of pills? Even if you're a third grade Alchemist, you can't say that you have a 100% success rate, right? As far as I know, it's even more difficult to make the icy heart Jadestone pill than the Chi-amassing pill!"

"More or less." Lin Yi thought, not a hundred percent, it's a hundred and twenty-five! With Han Jing Jing's modified medicine cauldron, Lin Yi could make the ice heart Jade bone pill with a 125% success rate-one set of ingredients for 1.25 sets!

"Ah?" Rock Candy was a little surprised, but she didn't doubt it. ""You made two? Then I ... Should leave one for the descendants of the Ice Palace-I shouldn't be so selfish! I'm the sect master of the Ice Palace, and I have to do something for the sect-the future sect master might need this too!"

"Take a look first," Lin Yi said, pointing at the box.

"Oh?" Rock Candy opened the small box in his hands and was instantly stunned! There were five icy heart Jadestone pills in the box. Not only that, but they were all of high quality!

On the surface of each pill, there was actually a ring of pill Halo! Rock Candy was the sect master of the Ice Palace, and had seen a lot-naturally, he knew what this meant. Even if it was the same pill, there was a world of difference between the one with a pill Halo and the one without.

Pill Halo meant that it was the highest quality of this kind of pill. Its effect was far from comparable to ordinary goods. This was a rare product that could only be encountered by luck. Even the most powerful Alchemist could not guarantee that every pill could produce a pill Halo!

But Lin Yi did it-these five pills were all of the highest quality!

This made Rock Candy look at the pill in his hand, stunned. He raised his head and looked at Lin Yi in surprise,""Your alchemy level is actually this high? You can actually make five of them? do you have that many ingredients for the icy heart Jadestone pill?"

"En, the hidden you family gave me four and I collected one for myself." Lin Yi didn't tell him the truth. After all, Rock Candy only said that she was going to be his little little little little wife, and he didn't really mean it. Lin Yi couldn't open his heart to her.

"Five ... Can you really achieve a 100% success rate? Your alchemy level has already exceeded third grade?" Rock Candy's eyes widened, and her face blushed."You ... You've really reached the first level of the mystic rank?" he asked.

"I haven't tried it before, who knows!" Lin Yi shrugged, but with Han Jing Jing's cauldron, making higher level pills shouldn't be a problem.

"Alright, you've met my requirements. I've agreed to what I said before ... I'm sincere." Rock Candy sighed and said in a light tone.

"We'll see how it goes. I don't want to force you. I'm just joking with you because you're too proud."  
"Alright, go and take it-by the way, do the Ice Palace still have the ingredients for the pill?" Lin Yi smiled. Since you feel that you should leave some for your descendants, I'll refine them all for you. "

"Yes, it's in the Ice Palace's treasure vault. I'll Take You There-you can make it yourself. It should be enough for three or four portions." Rock Candy said.

"That's good, I still have some I collected myself, they're not complete, let's see if I can get a few more portions ..." Lin Yi was afraid that he'd get a few more pills after he finished, so he said that he still had a few portions of ingredients that weren't complete. That way, Rock Candy wouldn't suspect anything, but he was afraid that Rock Candy would ask him what he was missing, so Lin Yi interrupted before she could say anything, "You're letting me into the treasure vault? I thought only the sect master could enter?"

"Aren't you the boyfriend of the two Palace Masters?" Rock Candy said indifferently. Since it had already accepted this fact, it was no longer embarrassed!

Chapter 3490 What About You And Me?

However, only she knew what she was really thinking.

"Haha, alright, I'll just have to make some pills there and see what the Ice Palace has." Lin Yi didn't think that Bing Tang would ask him to go to the treasure vault without even asking.

Wasn't this change a little too big?

"I'll just look. " In rock Candy's heart, nothing was more important than the ice heart Jadestone pill. Since Lin Yi had taken the initiative to make a few more for the Ice Palace to pass down, the Ice Palace was willing to pay any price.

"..." Lin Yi smiled bitterly. Things were going too smoothly, and he felt like there was no challenge anymore.

The two came to the door of the treasure house, and Rock Candy opened the door to let Lin Yi in. "I'll ask Xiaoxiao to accompany you. I'm going to take the pill ..."

"Alright!" Lin Yi nodded. He missed Xiaoxiao a lot, but since Bing Tang didn't mention it, he didn't ask.

Lin Yi found the ingredients for the ice heart Jadestone pill in the treasure vault-he had four portions now, which meant he could still make five more pills! However, Lin Yi didn't split it up that much. He put all four portions into the cauldron!

As expected, the tablet made two crisp beeps after he pressed the confirm button, and Lin Yi saw the display: "The pill refining script has been generated. According to the weight of the medicine cauldron,

4.6 sets of materials have been added into the pill refining. The estimated refining time is three hours and twenty-nine minutes. The estimated number of pills produced is six!"

Six! It wasn't too bad for Lin Yi to get six out of five portions of 4.6, but he realized that the color and quantity of the ingredients were different each time, and so was the time taken!

Lin Yi sat down cross-legged and started making the pills, but not long after, the door to the Treasury opened, and Xiaoxiao's excited voice came through, "Lin Yi honey!"

"Xiaoxiao, I'm making pills, you can play by yourself for a while." This was only Lin Yi, who could speak while channeling his Qi-if it was someone else, they'd fail!

"Ah!" Xiaoxiao jumped, not daring to make a sound. She stuck her tongue out. "I'm sorry, I didn't know ..."

"It's okay, we can talk." Lin Yi said with a smile.

"Eh? What kind of medicinal cauldron is this? it's so advanced, and it even has an LCD display?" Feng Xiaoxiao knew that Lin Yi wouldn't lie to her, so she walked over. But when she saw the medicine cauldron in Lin Yi's hand, she was very surprised.

"This is a medicinal cauldron that Han Jing Jing modified." With that, Lin Yi told Xiaoxiao about what happened to Han Jingjing.

"It turns out that the medicinal cauldrons you sold were all modified by her. She's really a powerful person! Xiaoxiao really wants to see her in the future. I really admire her!" Xiaoxiao said sincerely, "She can be Lin Yi's husband's helper, but Xiaoxiao can't. I'm so jealous of her ..."

"Xiaoxiao, don't say that-you have a mission, and that's to open sky Class Island-you can't do without it!"  
"I'm going to Sky Class Island too, and I have to go ..."Lin Yi said.

"Oh? Lin Yi honey, you want to become a sky too?" Xiaoxiao was surprised-she knew that Lin Yi had been against this before. However, he didn't expect that he would want to go today.

"Because I have reasons that I must go. One is because of you ... Of the seven inheritors, other than elder Tang from the snow Valley, who I have nothing to do with, the others are the closest people to me. How can I not go?" Lin Yi smiled bitterly, "plus, I have other reasons ..."

"Ah?" Xiaoxiao's eyes went wide, "seven ... Six, the rest is Tang Yun sis ..."

Xiaoxiao didn't say anything-it seemed like Lin Yi still didn't remember Tang Yin, so she wouldn't say anything either. "Oh my God, Lin Yi honey, you're amazing! You've even taken the inheritor!"

"This is just a coincidence." Lin Yi said, but he was a little worried himself. Was it really a coincidence? Lin Yi told Xiaoxiao about Yu Xiaoke and the pangolin, as well as what happened to him recently.

The medicinal pill was also successfully refined!

As soon as it was taken out of the cauldron, a fragrant aroma filled the air. Six icy heart Jadestone pills were lying quietly in the cauldron ...

"My God! He's making six pills at once?" Xiaoxiao's eyes were wide open. She didn't know how to make pills, but she'd heard of it before, but she'd never seen a refiner who could make Liu Mei's ice heart Jade bone pill in one try!

"Yes, this is all thanks to han Jingjing." "You can use this cauldron to make elixirs ... But you have to keep it a secret!" Lin Yi smiled.

"En en! Of course I'll keep it a secret, I'm just as good at keeping it a secret!" Xiaoxiao nodded.

Lin Yi felt a little sad at the mention of Yushu. Everyone had left, but they'd be reunited soon, wouldn't they? Lin Yi's mood brightened up again at the thought of their reunion ...

Lin Yi then told her about Xinyan, and naturally, Xiaoxiao was surprised by her Constitution. She started helping Lin Yi look for the manual as well ...

"I remember that the cultivation manuals are all on the shelf over there. Senior Sister Bing Tang brought me here a few times before, and I've also been here to look for the incantations of the cultivation methods." Xiaoxiao pointed at the last shelf.

"Oh, here ..." Lin Yi suddenly remembered. What was the name of the manual? There were so many manuals here-how would he know what this senior of the Ice Palace was cultivating? "Xiaoxiao, I forgot to ask Auntie Qing what the manual is called!" Lin Yi blinked.

"It's okay, I'll help you ask!" Xiaoxiao was about to leave the vault when she heard the door open-Rock Candy was back ...

The appearance of the rock Candy surprised Lin Yi-she'd finished it already?

Lin Yi wasn't making any pills, and was walking around with Xiaoxiao instead. This made Rock Candy surprised-Lin Yi finished? Had it not started yet?

"Lin Yi ... You ... You're done with the pill?" Bing Tang looked at Lin Yi in surprise.

"En, you ... Also finished taking it?" Lin Yi asked, surprised."So fast?"

"Yeah, so fast ... I'm done. What about you?" Rock Candy nodded her head lightly and revealed her strength as a Sky Class late phase peak, as if to prove her words.

"I'm done too. " Lin Yi said as he placed the six ice heart Jade bone pills in front of him with a smile.
