### Chapter 3491 Divine Tool For Alchemy

Lin Yi didn't think that Bing Tang would break through in such a short time. This meant that she had successfully comprehended the inheritance, and she had already touched the wall to complete the inheritance. This meant that she broke through as soon as the inheritance was completed!

Rock Candy, on the other hand, was even more surprised when he saw the six pills in Lin Yi's hands! She wanted to show off to Lin Yi how strong she was, breaking through to full stage so quickly and catching up to him!

But looking at the six pills in Lin Yi's hands, he felt defeated. This Lin Yi was a demon! In such a short period of time, he had refined six pills. What kind of speed was this?

"Wow wow wow? Senior Sister Bing Tang, Lin Yi honey, you guys are so in sync! Could it be that there's an affair?" Xiaoxiao's eyes were wide open.

"En, if you come back from Sky Class Island, I'll have to thank big sister Xiaoxiao for taking care of me ..." Bing Tang was a straightforward person, and although she blushed a little when she said this, she still expressed what she wanted to say.

"Ahhhhhhhhhhhhh! No way? Lin Yi honey, you've already taken Bing Tang and her sister?" Xiaoxiao cried out in excitement.

Senior Sister Bing Tang? What kind of address was that? Rock Candy was speechless, but ... It was indeed a mess!

"Let's not talk about this anymore. Lin Yi, how are you so fast at making pills? You didn't make it in advance to fool me so that I would admire you, did you?" Rock Candy couldn't believe it. Lin Yi's speed was fast and the success rate was low, but Lin Yi's success rate was high too! This was too abnormal!

"Sister Bing Tang, Lin Yi honey doesn't need to lie to you. I saw him make it with my own eyes, and there's still the heat and fragrance of the pill here!" With that, Xiaoxiao pointed at the spot where Lin Yi was refining.

Rock Candy was a Sky Class master-how sharp were his senses? She didn't notice it before, but Lin Yi's reaction shocked her so much that she didn't notice the small details. Now that she checked, it was as she expected.

Plus, she didn't think that Lin Yi and Xiaoxiao would lie to her about something like this, but she still said, ""Lin Yi, I have some ingredients for the great recovery pill, can you help me make them? Xiaoxiao and I, two girls, are going to the heaven class test. It's so dangerous, what if something goes wrong? You'll be the one who'll feel heartache then, so why don't you work a little harder now and help me refine it?"

"Are you testing me?" "Tell me, how many do you want?" Lin Yi smiled bitterly.

"There are ten sets of materials. Just make eight for me!" After saying that, Rock Candy found it a little funny himself. For other refiners, making five was already impressive, but Lin Yi making eight was already a rare feat!

"Alright, I'll make ten for you!" "Now?" Lin Yi asked. Then why don't you and Xiaoxiao go out and wait for me?"

"What are you doing? Xiaoxiao can watch you refine pills, and I'm affecting you?" Rock Candy was a little unhappy-she'd accepted Lin Yi in her heart, so she treated him as one of her own, and Lin Yi still had to be on guard against her, which made her very unhappy.

After all, she thought that Lin Yi was afraid that she'd attack him during the process, but how was that possible? Even if she didn't have this little little little Mistress relationship with Lin Yi, she wouldn't do something as ungrateful as that.

"No..." Lin Yi didn't think that Bing Tang would have such a big reaction. After a long silence, Lin Yi looked at Bing Tang and asked, ""Are you serious?"

"Then what do you think?" "If you don't believe me, then ... You can give me a hug ..."

Rock Candy had lived in the Ice Palace since she was young. In her heart, hugging a strange man was already a very intimate act, which was why she said that.

"Okay, okay, let's get together, let's get together, let's get a hug!" Xiaoxiao called out.

"..." Lin Yi didn't know what to say, but he saw that Bing Tang had her eyes closed and was just standing there, not moving. Her eyelashes were trembling, and she was obviously very nervous. Lin Yi hesitated. Should he hug her or not?

If he didn't hug her, would Rock Candy be unhappy? She was already unhappy just now? At that thought, Lin Yi walked over and gently hugged Rock Candy ...

Rock Candy's body went soft and fell into Lin Yi's arms, breathing heavily. It was obvious that Rock Candy had never experienced this before ...

Maybe it was because she was in love, but Bing Tang's body was emitting a cold air. Only Lin Yi's body with five elements and seven attributes could withstand it. If it was someone else, they might not be able to withstand it! The more she was aroused, the colder it became. Then ... If they were really in bed, wouldn't she be frozen into a popsicle?

"Yi, you're here?" At this time, aunt Qing's voice suddenly came from the door of the treasure house. She had received news that Lin Yi was here, but she had something to do at the time, so she let Feng Xiaoxiao go first. When she was done, she rushed over and saw Lin Yi hugging Rock Candy, as intimate as she could be!

Aunt Qing was stunned, and Bing Tang reacted as well when it heard her voice. It subconsciously wanted to break free from Lin Yi's arms, but after thinking about it, it was nothing. She was the authority of the Ice Palace, and whatever she did, she did.

Hence, Bing Tang only opened her eyes and smiled at aunt Qing in embarrassment. The two shallow dimples on her face made people feel that she was exceptionally happy at this moment.

"It's fine, I'm just walking around. I'll go back first, you guys continue ..." Aunt Qing smiled and shook her head. She really didn't have enough brain power. Lin Yi and Bing Tang, weren't they enemies? Why did they hug each other secretly?

I really can't understand the world of young people. I'm old ...

Aunt Qing left as quickly as she came, and Bing Tang was a little embarrassed as he pushed Lin Yi away. "Hey, you refine the pill first!"

"Alright," he said. Lin Yi completely believed in Rock Candy now-this Ice Girl really was a person who dared to love and hate. Lin Yi was a little surprised, "Xiaoxiao, close the door to the treasure vault then. However, I'm sure Aunt Qing has already informed the other disciples, so no one will dare to come near here. However, it's still good to be on guard."

"En!" Xiaoxiao nodded and closed the door.

Lin Yi, on the other hand, took out the automatic Shennong medicine cauldron that Han Jing Jing had given him and placed it in front of him.

"Eh? What was this thing? It's so strange. " Bing Tang asked as he looked at the things Lin Yi took out.

"A divine tool for alchemy!" "Didn't the Ice Palace buy the automatic Grade one and two cauldrons I sell?" Lin Yi asked.

Chapter 3492 Rock Candy's Strange Character (1)

"No, it's too expensive. I was planning to send Feng Xiaoxiao to get one from you, but I'm asking for one from you now. Give it to me!" Bing Tang stretched out his hand and said.

"Hehe, but there's no need for that. If you need to refine anything, just come find me." Lin Yi said with a smile.

"That's true. " Bing Tang looked at Lin Yi's weapon curiously, "This thing can automatically refine pills? No wonder your success rate is so high and so fast. It turns out that you have something good in your hands!"

"It's alright. " Lin Yi nodded, "but this isn't for sale. I'm the only one who has it."

"No wonder, but it's right to keep good things for yourself." Rock Candy nodded. "Then you can start now. Do you need Xiaoxiao and my help?"

"There's no need for that. " Lin Yi waved his hand and opened the cauldron. "Just give me the materials!"

"Alright!" Rock Candy went to get the ingredients for the recover pill and gave them to Lin Yi. She'd prepared them for someone else to make it, but she didn't have a good relationship with the sky elixir sect, so she just left them here.

Lin Yi took out four sets of ingredients, hesitated for a moment, and took out five! According to the capacity of the medicinal cauldron, it could hold about five portions of materials at a time! However, Lin Yi decided to see if four or five would maximize the profit!

Lin Yi turned on Shennong's automatic medicine cauldron, and a welcoming image appeared on the screen. It was Han Jing Jing's smiling face, with a line of words below: "It's the smart alchemy system that Jing Jing created for Lin Yi bro, V1.0. "

Seeing this welcome page, both Xiaoxiao and Bing Tang were surprised!

"Who is this han Jingjing? How could he be so powerful? These medicinal cauldrons were all invented by her?" Rock Candy asked curiously.

"It's Lin Yi's husband's other small wife, I don't know if she's ranked before or after you, but she's definitely after me!" Xiaoxiao explained.

Bing Tang nodded. Her thinking was still the same as the ancient times, so she didn't really care how many wives Lin Yi had. They were all Sky Class practitioners, and their lives were unlimited. She didn't care about these small things.

On the other hand, Rock Candy was happy that Lin Yi had so many people around him who could help him, "Then she's really powerful!"

Lin Yi entered the menu and chose the third class Xuanji recover pill. He clicked confirm and a line of words appeared on the screen!

"Please wait a moment, Jing Jing is currently creating the script for Lin Yi bro. After Jing Jing's calculations, putting in five sets of ingredients at a time will give you the maximum profit ..."

It was indeed five portions! He'd only made four last time, so he didn't really pay much attention to the notification, but he had a vague impression of it!

With that thought, Lin Yi put five portions of the ingredients into the cauldron and started channeling his Qi into it!

But when Lin Yi put the ingredients in, Rock Candy saw the notification on the screen and was even more shocked, "The pill refining script has been generated. According to the weight of the medicine cauldron, five sets of materials have been added into the pill refining. The estimated refining time is three hours and fifty minutes. The estimated number of pills produced is eight!"

Five portions of ingredients could produce eight great recovery pills? How was this possible?

However, Lin Yi didn't question the notification on the screen, so Rock Candy continued to read.

In the end, after nearly four hours, Lin Yi finished the refinement and opened the cauldron. There really were eight recover pills!

However, Rock Candy's first reaction wasn't shock. He glared at Lin Yi, "You told me that you still have the ingredients for the icy heart Jadestone pill. In fact, you don't have any. You're afraid that I'll be suspicious if you make too many of them. You're lying to me, right?"

"F \* ck ..." Lin Yi didn't think that Bing Tang would think of this. He couldn't help but smile bitterly. This Ice Lady was quite vengeful! Lin Yi said helplessly as he looked at Bing Tang. "We didn't hug before!"

"Hmph! Then you're not allowed to lie to me in the future. Whatever Xiaoxiao knows, I'll only know! Didn't you and her just hug?" Rock Candy said.

"Lin Yi honey touched my chest!" Xiaoxiao interrupted.

Lin Yi didn't know whether to laugh or cry. "I didn't do it on purpose ..."

"No, you did it on purpose at the auction. You didn't do it on purpose when you were racing ..." Xiaoxiao said.

"Then ... You can touch it too!" Rock Candy didn't listen to Xiaoxiao and Lin Yi's argument, sticking out her chest and saying.

"Um ... Let's get back to business ..." Lin Yi didn't know how to deal with this. Rock Candy was really ... He was open about things after making a decision.

"Coward!" "Hmph!" Rock Candy snorted. "You were so bold to kill patriarch xuanchen's disciple, but you're so timid when it comes to me!"

"I ..." Lin Yi took a deep breath and pounced on Bing Tang.

"Ya!" Rock Candy was shocked ...

"Lin Yi honey, you can do it ..." Xiaoxiao said as she danced.

At first, it was just two people fighting, but it became three, and Xiaoxiao joined in as well. And so, in the end, everyone's clothes were all messed up. Even though the three were Sky Class Masters, this kind of fighting wasn't just physical, it was mental as well, and they were tired after a while.

Lying on the ground, Bing Tang glared at Lin Yi. "I've never been so crazy in my life. I let you touch this part, so why are you touching the other parts?!"

"That's Xiaoxiao's ..." Lin Yi said innocently.

"Nonsense, it was obviously your hand!" Rock Candy said angrily.

"Feng Xiaoxiao was holding my arm ..." Lin Yi explained.

Xiaoxiao, on the other hand, was laughing non-stop. Lin Yi only spoke up after the three were done resting. "Rock Candy, do you know that there's a book in the Ice Palace that's suitable for those with a sponge body?"

"The matter that aunt Qing was talking about before, is it your friend?" Rock Candy suddenly thought of something and said, ""The Wang Xinyan you carried here last time?"

"Yeah, that's her." Lin Yi nodded.

"Was she before or after me?" Rock Candy suddenly asked.

"Uh ... Before." "But she was the first person I met on the train when I came to Songshan ....." Lin Yi said with a bitter smile.

"I'm just asking, I don't mean anything else. " "Otherwise, I won't know how to address you when we meet in the future," Rock Candy said calmly.

"..." Lin Yi thought that Rock Candy was weird sometimes. She was jealous of things that didn't matter, like Lin Yi not telling her how to make elixirs. But it didn't really matter to Xinyan.

Chapter 3493 Rock Candy's Strange Character (2)

"I'll go get it for you. " Bing Tang stood up and tidied his clothes before walking to a bookshelf not far away. He found a book and said to Lin Yi, "This is it. However, I don't know if she can cultivate it. It must be complemented with pure spiritual energy from heaven and earth ..."

"How did the senior of the Ice Palace train?" Lin Yi asked after some thought.

"At that time, the spiritual Qi wasn't this thin. Later on, she went to Sky Class Island, and I think it was patriarch ice who came back to borrow her. I'm not too sure about the details, but it's just a legend ..."

Rock Candy said.

"Does this mean that Grandmaster ice has already reached the realm of perfection? We can take people directly to Sky Class Island?" Lin Yi was a little surprised. Getting onto Sky Class Island wasn't as difficult as it seemed, but it required so many inheritors to open it at the same time. One could imagine how difficult it was.

But the ice Grandmaster was able to travel between Sky Class Island and the mortal world on her own. She was a very powerful person! If ... Wait! Lin Yi found out that the Shennong cauldron replica was taken away from Zhang Liju's tomb-did Zhang Liju come back for it himself?

If his wife, Grandmaster ice, could do it, then the even more powerful Zhang Liju could do it as well!

That meant that Zhang Liju's strength ... Was at a level that Lin Yi didn't even dare to imagine!

"Grandmaster ICE's power level must be very strong, but I don't know if she can go to Sky Class Island directly. Maybe Grandmaster Xue and master Zhang Liju came back together and said no, so they didn't let her in. Master Zhang Liju also has a few inheritor wives, and just like you, he went back and forth!"

The first part of Rock Candy's sentence was as serious as it could get, and the last part made Lin Yi faint.

Lin Yi didn't know whether to laugh or cry when Rock Candy suddenly blurted out words. It wasn't entirely true that she was jealous-Rock Candy didn't sound like she was angry when she said that. It felt like a normal conversation, and Lin Yi really didn't know what her personality was.

"Alright, I'll go back and try it out. But I have a large number of energy stones, so it should be able to replace it. When the time comes, I'll let her use the energy stones to cultivate. It should be possible, right?" Lin Yi actually wanted to directly increase Xinyan's strength-only he had endless strength here, and he could have as much as he wanted. He wasn't afraid of Xinyan's sponge body at all!

Even if she lost some every day, Lin Yi would be able to make up for it.

"En, then you should go back quickly. The heaven class" trial might be near. " "I'll see you at the trial then!" Rock Candy said.

"Alright, after I finish refining the rest of the great cyclic pellet, I'll bid my farewell to aunt Qing!" Lin Yi realized that Rock Candy didn't drag things out at all. Even if it was very happy with Lin Yi today, it didn't miss anything. It just let Lin Yi Do his business.

"Lin Yi honey, you're leaving again!" Xiaoxiao, on the other hand, was a little reluctant.

"En, I'll be leaving after visiting aunt Qing and Yu Bing." Lin Yi nodded.

Lin Yi finished making the rest of the pills, and Bing Tang and Xiaoxiao accompanied Lin Yi to see aunt Qing.

"Tang Tang, you and Lin Yi, are you together?" Aunt Qing looked at Bing Tang and asked mischievously.

"En ..." Rock Candy didn't feel too embarrassed and only nodded. "Aunt Qing, don't you always say that he's very good, but ... I find that he's indeed very good!"

"Yeah, I'm glad that you're with Lin Yi." "This is a very good home for you," said aunt Qing with satisfaction.

"Aunt Qing, I haven't had the time to tell you yet, but my inheritance ... Succeeded, and the moment I succeeded, I broke through to Sky Class late phase peak. I'll go to the Sky Class test with Xiaoxiao ... And here in the Ice Palace ..." Bing Tang was worried that if she and Xiaoxiao left, there would be a gap in the Ice Palace's strength, and without a strong practitioner, the other sects would bully them.

"Aunt Qing will be here to keep watch." "I'm not strong, but I'll protect the Ice Palace with my life ..." Aunt Qing smiled.

"By the way, Rock Candy, does your Ice Palace still have the ingredients for the Qi gathering pill?" Lin Yi asked.

Aunt Qing was Sky Class mid phase peak now-she'd gone up a small class since the first time she met Lin Yi, and she only needed four Qi gathering pills to reach full circle.

"What you mean is that you want to refine pills for aunt Qing, and then help her break through to the realm of great fulfilment in one go?" Bing Tang froze for a second, understanding what Lin Yi meant.

"That's right-I can ignore the other sects, but I can't ignore the Ice Palace. You and Xiaoxiao are gone, but my friends Yu Bing and qijiu are still here-I can't let anything happen to them. " Lin Yi said with a nod.

"But, after taking the Qi gathering pill, aunt Qing might not be able to advance to the heavenly Dao in this life ..." Rock Candy was a little hesitant.

"Sect master, it's already my greatest wish to protect the Ice Palace-breaking through to the sky Dao or not, I've never even thought about it. As long as I break through to full cultivation, I'll be able to protect the Ice Palace for a while!" Aunt Qing said indifferently.

"Rock Candy, in fact, it's not impossible to break through to the heavenly Dao by taking a Qi-gathering pill!" Lin Yi waved his hand, "I wasn't familiar with you before, so I didn't tell you the details. But now, you, Xiaoxiao, and aunt Qing are all people I trust. I won't hide it from you!"

"Oh?" Bing Tang raised her head and looked at Lin Yi.

"Actually, I'm not sure if you know that I'm Zhang Liju's disciple, but I've gotten his alchemy manual in his tomb, and I'm considered his disciple. I also found a way to reach the sky Realm by taking pills ..." Lin Yi said it because Xiaoxiao and Bing Tang were his closest people, and aunt Qing was like a family elder to him. Aunt Qing had been helping him with all her heart, so Lin Yi didn't hide anything from them. "He left behind a method to concoct a pill called the heaven's path golden pill ...."

"Heaven-Dao gold core? You mean, if I consume this heaven's path golden pill, I'll be able to ascend to the heaven's path?" Bing Tang froze, a little surprised. She'd never heard of such a magical thing before, but before seeing Lin Yi make pills, she didn't know that there was an automatic Shennong medicine cauldron!

"That should be the case, but I haven't gotten the recipe yet. After I return, I'm going to the ancient tomb to see if I can get the recipe." "I'm going to Sky Class Island for another reason," Lin Yi said. "As for breaking through to Sky Realm, that's a small matter. "

Chapter 3494 South Nether Divine Skill

"Ah, that's great. If there's another way to advance, then aunt Qing won't have a problem." Bing Tang calmed down and glared at Lin Yi, "Why didn't you say so earlier? I was worried about you!"

"You haven't hugged me yet!" Lin Yi said with a smile.

"Hmph!" "Then go see Yu Bing and make the Qi gathering pill, then go back and find the recipe!" Bing Tang glared at Lin Yi.

"En ..." Lin Yi nodded.

Yu Bing was doing pretty well in the Ice Palace-he could take a leave and return to the Hidden House Yu. He was a small leader here now, and had been promoted from outer sect manager to vice-manager of the Ice Palace. Above that was the elder level-it was because he wasn't strong enough now, but once he was strong enough, he'd naturally be promoted to manager!

No male disciple had ever entered the core of the Ice Palace before, but that didn't mean there wouldn't be any in the future. Yu Bing had Lin Yi's connections, and he was doing a good job himself, so he broke through quickly.

"Boss, you've come to see me!" Yu Bing was very happy to see Lin Yi, "I've contacted my family and found out that my sister is an inheritor, and has already left. I hope that you can take care of her in the

future Sky Class test ... I'm not strong enough, but I'll stay in the common world and help you guard the Ice Palace!"

"Yes, I understand what you mean, but I'll get you and Qi Jiu stronger first, and then you'll use a Qi gathering pill to reach Sky Class early phase and help aunt Qing guard the Ice Palace. We'll talk about the rest when I get back!" Lin Yi said.

He'd already planned it out-Yu Bing might not be able to level up on his own after taking the Qi gathering pill, but he'd still give them a few energy stones each for them to cultivate. When Lin Yi came back, or when he'd settled down on Sky Class Island and let them pass, he'd help them level up again!

"Ah? Boss Lin Yi, can I take the pill too?" Yu Bing was both surprised and happy-he was in the Hidden House Yu, and under the influence of the Hidden House Yu, it was already amazing that he was able to reach Sky Class. If not, Yu Xiaochen wouldn't have fallen out with the Hidden House Zhao over the Qi gathering pill.

So Yu Bing didn't reject the pill, in fact, he was looking forward to it, "It's already good enough that I'm Sky Class early phase-boss, I'll go get qijiu right now!"

"Alright!" Lin Yi nodded ...

After settling the two down, Lin Yi went to make Qi gathering pills. He told Bing Tang that he would give them a Qi gathering pill each, and left some energy stones for them to cultivate.

After that, it was time for Lin Yi to return. He had to go to Zhang Liju's tomb before the Sky Class test, and the next test would be ...

Lin Yi didn't know the purpose of this test. Did ancestor xuanchen do it just to select the spots for the meeting of the Sky Class? However, Lin Yi felt that this was unnecessary ... No matter what he thought, the five elements sect was the one who started the Sky Class Island Plan, and as long as he didn't piss them off too much, he had to follow their rules!

After leaving the Ice Palace, Lin Yi took Xinyan's Arts back to Donghai city-he planned to settle her down first before heading to the tomb with Xiaoke ... Xiaoke ... Lin Yi couldn't help but feel sad.

He subconsciously wanted to bring Xiaoke along, but then he remembered that she was already unconscious. He thought back to the time they spent together. Their love was short, but Xiaoke gave her everything. She was a stubborn and persistent girl.

He was willing to give up his life for the one he loved! The kids from the orphanage and Lin Yi, Yu Xiaoke had always been like this.

Lin Yi clenched his fist at the thought-he didn't need to go to Sky Class Island, and as long as he could make the heaven's path golden dan Liju left behind, he could break through to the heaven's path even in the common world, but he had to go.

Xinyan and Jingjing were surprised to see Lin Yi back so soon.

"You didn't spend more time with Feng Xiaoxiao?" Xinyan didn't think it was a good idea, but she was still happy-Lin Yi must've been worried about her practicing, and that was why he'd come back so quickly!

This made Xinyan feel that she was still very important in Lin Yi's heart, at least no less than Xiaoxiao! She didn't want to compare herself to Tang Yun or Chu Mengyao-there wasn't much to compare. But for Feng Xiaoxiao and Han Jingjing, she felt that she was pretty much on par.

"I'll take care of your cultivation first, and then I'll go to Zhang Liju's tomb!" With that, Lin Yi took out Xinyan's practitioner's Arts manual from the space in the Jade. He didn't have time to look at it in detail back at the Ice Palace, so he put it away. Now that he saw the name of the manual, he jumped!

"The South nether Divine Art!"

"The South nether Divine Art?" Wang Xinyan and Han Jingjing blinked when they saw the name. "Why does it sound like the star-sucking great skill of the North deep?"

Lin Yi, on the other hand, frowned-this was similar to Naipao's wasp absorption Arts, and there was an explanation written on the title page of the South nether Arts-it was probably the doing of that elder!

"South nether divine skill: this skill is a very secret skill. You can use this skill to absorb the genuine Qi and spiritual Qi of others. Please hide it in the treasure Pavilion and don't look at people easily. Those with evil intentions should practice it with caution!"

"However, from the explanation of this mantra, this [South nether Divine Art] really does suit Xinyan. Right now, she's just lacking a large amount of Qi. If she can absorb Qi from people or objects and make it her own, then it won't be a problem," Lin Yi explained, "it's just that this technique is a bit vicious, but Xinyan can absorb energy from the energy stone, not from people!"

"That's true. " "A knife can be used to kill, it can also be used to cut vegetables ....." Xinyan nodded.

"Xinyan, it's good that you don't feel any pressure. Let's see how to cultivate!" Lin Yi nodded. He was afraid that Xinyan would reject him, but it didn't seem to be the case. The name and nature of the practitioner's Arts didn't affect her much!

"Yes, Lin Yi, don't worry, I'll train hard and reach Sky Class, and then ... I'll be with you guys forever ..."

Xinyan nodded seriously. She knew that the life of a Sky Class master could be extended indefinitely, and that was why she wanted to train so much!

Chapter 3495 Heaven Rank?

"En!" Xinyan nodded obediently, and opened the box to look at the chant ...

"It's a bird, and the sea will transport them to the South. The southern underworld was the heavenly Lake. It's broad and profound, vast and boundless, and the sea holds all rivers ..."

However, this was only the first volume of the South nether divine power, the Qi transformation chapter. According to the description on it, it could transform the spiritual Qi of heaven and earth for one's own use, but it did not say anything about how to operate the genuine Qi or how to use it!

In other words, Xinyan's practitioner's Arts could only absorb Qi, but not use it. She could only absorb the Qi of the world and other people's Qi, but couldn't use it in a fight.

Without the practitioner's Arts, Xinyan couldn't use her pure Qi, either. She was now a harmless master, but her strength had increased.

But even so, Lin Yi was satisfied. He didn't need Xinyan to do anything, as long as she could be with him. Xinyan's biggest contribution was to help him speed up his cultivation.

Although he couldn't use it now, he might be able to use it in the future.

"So Lin Yi said," since this is suitable for you, you should start training now. Absorb my Qi for your own use, and when I help you reach Earth Class late phase peak, you can take the Qi gathering pill!"

"Then ... Will I cause you harm if I absorb your true energy?" Xinyan asked, worried.

"I won't. I can replenish my Qi very quickly if I give it to someone else. I'm different from others." "So you don't have to worry about anything, just use the practitioner's Arts," Lin Yi said.

"Alright, I'll give it a try." Wang Xinyan nodded and started to follow the chant of the [South nether secret art]. It wasn't hard to understand, and with Lin Yi's guidance, Wang Xinyan learned it easily.

Although he was a little rusty, it didn't affect his cultivation.

"Alright, you can start absorbing the physical energy I'm transferring to you!" Lin Yi started channeling his art of Dragon mastery as well, placing his hand on Xinyan's pulse and transferring his Qi into it ...

An unprecedented suction force began to devour the pure Qi Lin Yi was transferring!

This absorption speed surprised Lin Yi-it wasn't like he'd never transferred Qi to others before, but it was never this fast! Xinyan was practically using up all her energy!

The good thing was that the Qi in the Jade space was endless, and Lin Yi was only acting as a conductor! But even so, Wang Xinyan's absorption rate was obviously faster than Lin Yi's supply rate, and so Lin Yi's physical strength was also taken away by Wang Xinyan!

Of course, Lin Yi didn't mind too much. The Jade space's lack of supply was filled up by his own body. Even if it sucked dry, Lin Yi didn't care. He had the Jade space and he could recover at any time!

It was common knowledge that a cultivator's physical strength and true Qi were limited. After using them, their physical strength and true Qi would be exhausted, and they would need to recover for a period of time before they could replenish it again.

However, there were some special cultivators who were exceptions, such as alchemists. After their physical strength and true Qi were used up, they could still overdraft their own physical strength and true Qi. In other words, they could overdraft the physical strength and true Qi that they used to rush levels.

However, if this part of physical strength and true energy was overdrawn, the cultivator's strength level would drop!

On the contrary, it was the same for Xinyan-she was the same as naipao, able to absorb the energy of others on her own, and make them lose their energy and drop to the lowest level possible.

Naipao had used this move to become invincible in the pugilistic world. It was just that he'd met a mutant like Lin Yi, who'd ruined his path to becoming a master.

It wasn't long before Lin Yi realized that Xinyan was doing the same thing-she wasn't letting him go, either, and was starting to drain him of his energy.

And so, Lin Yi started to fall from Sky Class late phase peak-after a while, he felt that he was only sky Class late phase peak left!

Xinyan, on the other hand, had started from a normal person to a practitioner, from golden class early phase, golden class early phase peak, golden class middle phase ... All the way to golden class late phase peak, ready to break through into Mystic!

Xinyan's clothes were all blown apart the moment she broke through-the way she broke through was different from how Lin Yi helped his lackeys level up. In essence, Xinyan leveled up on her own, different from the others who leveled up passively.

Lin Yi was only providing Xinyan with enough Qi for her to level up.

But Xinyan's clothes were blown to pieces, and she was only stunned for a moment. She'd already taken off all her clothes at han Jingjing's house, so she didn't really care about it anymore, and continued to chant her Arts!

She was more excited than shy now-she'd become a Mystic in such a short time, what a speed!

After Mystic, it was Earth Class ... Earth Class late phase peak ... Lin Yi was surprised to find that Xinyan didn't stop at all-she was still absorbing the energy he was transferring!

What was going on? His other followers all stopped naturally when they reached Earth Class late phase peak, and he couldn't transfer his Qi to them anymore, but Xinyan had no problem!

Lin Yi thought about it carefully and realized that it made sense. Xinyan's practitioner's Arts was to absorb the Qi from other people for her own use, and so her Arts allowed her to absorb any Qi. Lin Yi's restrictions were only on the other Arts, but there were no restrictions on Xinyan's Arts!

"BOOM!"

Soon, Xinyan broke through again, officially stepping into the sky Class! What surprised Lin Yi was that Xinyan's practitioner's Arts were clearly better than naipao 's! Naipao could suck it all out, but Xinyan didn't seem to have that problem.

Of course, what Lin Yi didn't know was that both the Wasp absorption Arts and Xinyan's Southern nether Arts originated from another powerful practitioner's Arts. It was just that this practitioner's Arts had been lost, and the two factions had made up new versions of it!

Chapter 3496 Opening The Stone Door Of The Ancient Tomb

The southern nether Divine Art could only be cultivated by cultivators with the corresponding physique, and no one else could cultivate it. As for the Wasp absorption Divine Art, everyone could cultivate it, but the side effects were also very obvious, and its power was not as great as the southern nether Divine Art.

Lin Yi was surprised, but he didn't stop the practitioner's Arts-he continued letting Xinyan absorb the Qi from her body. Of course, this was only Lin Yi-if it were someone else, they'd be level-down already, and wouldn't be able to recover even if they tried!

Lin Yi, on the other hand, could recover very quickly.

Xinyan's strength was still rising, and Lin Yi was really envious of this practitioner's Arts. If he had the same ability, he wouldn't have to spend so much effort on it!

Lin Yi had gone through a lot of trouble from golden class all the way here, but the people around him all leveled up smoothly, including his opponents. Lin Yi sighed, but he wasn't too envious.

Lin Yi didn't level up as fast as them, but in the entire common world, who could say he wasn't the first? Who dared to say that they had the strength to surpass Lin Yi? The same heaven class, but different.

Lin Yi was able to kill Sky Class Masters before they reached the peak, but even if he was a Sky Class master now, who could say that he could kill a master of the same level? This was the difference between them!

There were pros and cons to leveling up quickly, but Lin Yi had to take it one step at a time to get to where he was now. He had the strength to look down on the entire world of practicing.

Sky Class late phase peak!

Lin Yi didn't think that Xinyan would be able to make it this far-was this the special characteristic of a sponge body? At the end, Lin Yi didn't have any Qi left-it was all taken away by Xinyan, just like what happened with naipao. The only difference was that Lin Yi's meridians weren't injured, and he could recover quickly.

However, just because Lin Yi's Qi was gone didn't mean that Xinyan had stopped. She was still absorbing the Qi from the sky and earth from the Jade space, until she reached the peak stage!

Lin Yi was a Sky Class full master as well, but all the Qi in his body wasn't enough for Xinyan to reach full phase-he had to use it with the Qi in the Jade space.

This thing worked pretty much the same way as a power bank-charging and discharging were different, and there was a loss of power. So it wasn't like Xinyan would become a peak Sky Class master just because Lin Yi gave her all his Qi!

Unless the esoteric sect's experts had such strength! Lin Yi didn't know what tantra was, though-he'd only heard it from the elder once. He didn't know the details, but he guessed that it was probably some ancient sect with some evil Arts.

Xinyan had successfully broken through to Sky Class late phase peak, and even she found it unbelievable! Once upon a time, this was an existence that had to be looked up to. But in the blink of an eye, he had become one?

"Xinyan, you should get used to it first. I'm exhausted from all the energy you've absorbed, I need to recover my strength and true Qi!" Lin Yi had dropped a level and became a class Zero Master, naturally, he needed to recover quickly!

Although most people didn't dare to cause Lin Yi trouble anymore, Lin Yi was afraid of accidents happening. He needed to be in peak condition at all times.

"En ..." Wang Xinyan blushed. Her relationship with Lin Yi was getting closer, so when Lin Yi said that she sucked him until he was exhausted, Wang Xinyan couldn't help but think of other things ... She wasn't an innocent little girl who didn't know anything.

But Lin Yi didn't seem to notice anything, and Xinyan quickly hid her emotions and went to get used to her Sky Class late phase peak with Jingjing.

The next morning, Lin Yi finally recovered his peak strength, and after talking to Wang Xinyan and Han Jingjing, he was ready to go to the tomb.

Lin Yi brought Skybolt pig to Zhang Liju's tomb. He used to bring you Xiaoke with him, but this time, he was alone, and it made his heart heavy.

This was already Lin Yi's nth time in the tomb, and other than feeling a little heavy, he was familiar with the way. He walked straight to the stone door in the deepest part of the tomb.

Lin Yi found the last line of text beside the stone door!

"Simplified recipe for the heaven's path golden core. Sky Class late phase peak, Mystic first level refiner can open this door,"

Sky Class late phase peak-he had already reached that level, but what about a Mystic first level?

Lin Yi didn't know if the "Dun" represented "he" or "he," but it was a bit ambiguous.

However, Lin Yi thought about it. He was already a practitioner of the five elements and seven attributes, and the five attributes were all real attributes, forming an attribute cycle in his body. He already met the requirements of being a refiner!

It was just that the practitioner's Arts were complicated, and Lin Yi didn't have the time to experiment and practice. With Han Jing Jing's automatic medicine cauldron, Lin Yi didn't need to study the practitioner's Arts anymore.

However, now that he had Han Jing Jing's medicinal cauldron, he should be considered a top-tier Alchemist, right? Even if his stamina and Qi weren't enough to make a Mystic first level pill, it should be enough.

With that in mind, Lin Yi reached out and pushed the door.

The door didn't move at all, and Lin Yi blinked as he remembered the stone door in the Xuanyuan cave!

The stone door was an inanimate object-Lin Yi was strong enough, but he couldn't tell the door through words, could he? So Lin Yi had to show his strength to let the stone gate test him.

It was probably the same for the door of the ancient tomb.

Lin Yi quickly activated the art of Dragon mastery, displaying his full strength as a Sky Class late phase peak!

However, there was still no response from the door! Could it be that he still needed to display the strength of an Alchemist? Lin Yi had no choice but to activate the refinement fire, but before he could do much, the stone door started to creak and open ...

The room was a secret chamber. After opening it, there was a stone platform in the center of the room. On the stone platform was an ancient-looking small box. Other than that, there was nothing else.

It seemed that the main function of this secret room was to store such a pill recipe.

Lin Yi stood at the door for a while, and after realizing that the Jade space didn't give him any warning, he took a deep breath and walked in!

Chapter 3497 Heaven Trial Begins

It seemed like there was no danger here, and Liju didn't set up any traps.

"Heaven's path golden core". These were the words carved on the box.

Lin Yi took a deep breath, picked up the box, and opened it carefully ...

There was a small scroll in the box. It didn't disappoint Lin Yi, but it didn't surprise him either. Lin Yi fantasized about how great it would be if there was a completed heaven's path golden core in the box.

However, it wasn't there. It seemed like there was only one pill recipe.

Lin Yi opened the box carefully and took out the recipe, opening it up slowly ...

A simplified version of the heaven-Dao gold core!

There were a few big words on the scroll, and Lin Yi continued reading.

"The heavenly Dao is emotionless, and the heavenly Dao is unkind, looking down on all things. No matter how the heavens and earth changed, the Dao would not change. This Dao was the heavenly Dao! However, the heavens reward the diligent ..."

After looking at some complicated introductions, Lin Yi had a general understanding of the heavenly Dao. The heavenly Dao was a kind of fight against heaven. Under the heavenly Dao, it was a fight against man and himself, but above the heavenly Dao was more like immortal cultivation, beyond the scope of body refining.

Once one stepped into the heavenly Dao, it would be the beginning of the immortal cultivation path. One's strength and lifespan would be completely different from now!

Of course, it was just a description-Lin Yi didn't know the details.

And then there was a note from Zhang Liju-the heaven's path golden elixir was a recipe he copied from the book of strange things, but it was Mystic first level-he couldn't make it!

However, after a long period of modification and research, he had simplified the pill formula into a simplified version of the heaven's path gold core. The effects of this heaven's path gold core were not as powerful as the original!

It was said that the original heaven's path gold core could be consumed throughout the entire period of time, while the simplified version was only effective for a single period.

However, a simplified heaven's path golden core could only be refined by a fourth-grade Alchemist.

A fourth-grade pill? Lin Yi blinked-he could really try this. With Han Jing Jing's legendary weapon and endless stamina and Qi, he should be able to make a class 4 pill.

With that thought, Lin Yi started looking at the simplified recipe for the heaven's path golden pill-Dragon Dawn grass, heavenly medicine root, Kuji fruit, heart-devouring exquisite grass, firewood Flower Leaf ...

There weren't many ingredients, only five in total, but they were all ingredients that Lin Yi had never heard of before. Even with Lin Yi's vast knowledge of ingredients, he had never heard of these things before. This made Lin Yi a little nervous-could it be one of those rare and hard to get ingredients?

The next step was the method of making the elixir, but Lin Yi didn't even have the ingredients ready yet, so there was no point in looking at the method!

With that thought, Lin Yi put the recipe into the Jade space and left Liju's tomb. He returned to Donghai city and went to boss Bai's place!

Lin Yi didn't know the ingredients on the recipe, but boss Bai, who was once a top-tier refiner, should know. Lin Yi decided to ask.

Boss Bai was a little surprised at Lin Yi's sudden visit, but he nodded after Lin Yi explained his purpose, "You've retrieved the pill formula? Let me take a look at the medicinal herbs on it!"

"Alright," he said. Lin Yi quickly took out the recipe, and boss Bai started studying it carefully. A while later, Lin Yi saw that boss Bai didn't say anything. He asked, "How is it, Mr. Bai? can you get these alchemy materials? "

"Some do, but most of them don't. Dragon Dawn grass and Chai Ming flower are very rare, but they can still be obtained. I've vaguely heard of heavenly medicine root, but I've never heard of heart-devouring exquisite grass and bitter fruit. Your pill recipe is not easy to get! " "I suggest you don't get your hopes up," boss Bai said directly, "after all, the herbs we had back then might have gone extinct by now. Or

rather, this herb was already extinct back then, and we don't even know where Grandmaster Zhang Liju got it from ..."

"Is that so ..." Lin Yi was a little disappointed, ""That is to say, I have no way to refine it?"

"It's hard to say, but I suggest you don't spend your energy on this. " "You can use it as a backup, but shouldn't you focus your energy on the heaven class test?" boss Bai said.

"I understand!" Lin Yi nodded and kept the recipe. He was still a little unwilling, but he knew that if boss Bai hadn't heard of it, there was no point in asking anyone else!

It was only old Lin left now, and if he didn't know either, then Lin Yi really had to give up.

With that thought, Lin Yi didn't stay any longer. He said goodbye to boss Bai and returned to his home in Donghai city. Wang Xinyan was probably at school, and han Jingjing wasn't at home either. She was probably at school or at home.

Lin Yi, on the other hand, gave old Lin a call-he needed to know if he could get the materials for the heaven's path golden pill ...

However, what disappointed Lin Yi was that old Lin and boss Bai's knowledge of these uncommon herbs were similar-he'd never heard of the heart-devouring exquisite grass or bitter fruit.

These two things were probably extinct, or rather, Lin Yi didn't know where to find them.

Helplessly, Lin Yi gave up as his time was limited-the Sky Class test was about to start!

On this day, the five elements sect announced to all the noble families, sects, and ancient clans that the heaven class test had officially begun!

All qualified participants, please head to the location of the five elements sect within five days after receiving the notice. You will not be allowed to enter if you are late!

Lin Yi drove Xinyan and Jingjing to the five elements sect in the Grand Cherokee, leaving the secular cauldron business to fatty Lai and Xiaobo. The manufacturing technology for grade one and two automatic cauldrons was already mature, and Jingjing didn't plan on selling higher-grade cauldrons.

Han Jingjing had never intended to take over the grade-3 pill market.

At the same time, the participants from the other ancient sects, as well as the wandering cultivators with the map fragment of the sky order Island, all made their way to the five elements sect ...

In the five elements sect, patriarch xuanchen was plotting with Zhaoming about the trial ...

"Father-in-law, what's the main purpose of this trial, can you tell me? I don't even know what I'm supposed to do there, and what if I run into Lin Yi, I don't even know!" Kang Zhaoming was worried.

## Chapter 3498 The Trick In The Trial

"The main purpose of this trial, the ultimate goal, is to let the inheritors of the five elements and seven attributes go to the Dragon of five evils cave in the five evils Savage Land to receive the final inheritance blessing and strengthen their attributes in preparation for the opening of Sky Class Island!" "It's not that," ancestor xuanchen said. "The other trial-takers are there to protect their safety and lure out the Dragon of five evils to deal with it, so as to create time for the inheritors! This could also be considered a test for the trial-taker! If you survive, you'll have the right to participate in the Sky Class meeting and the sky Class Island Plan. If you're injured or killed, or if you leave early, you'll naturally lose the right!"

"Dragon of five evils? What's that?" Zhaoming blinked.

" This Dragon of five evils is the king of the spirit beasts in the five evils Savage Land. It's very powerful, with the strength of heaven class late phase peak. It's a top-tier spirit beast, and it's not impossible to break through to the heavenly path! " " There's a light of inheritance of the five elements power in the Dragon of five evils's cave, " ancestor xuanchen explained. " It can strengthen the attributes of the inheritor of the five elements and make the opening of the sky Island more perfect! Otherwise, the inheritors "physiques might be different due to some differences. If one element was weak, it could affect the other inheritors and cause the opening of the Sky Class Island to fail! Therefore, in order for this matter to proceed smoothly, we have to send out trial-takers to restrain the Dragon of five demons and let the inheritors receive the blessing of the inheritance!"

" Oh, then ... We can't determine who will put in more effort. If a participant hides behind and doesn't attack, then we can muddle through! " Zhaoming asked, confused.

"Indeed. However, in order to prevent such a thing from happening and to protect the inheritor's safety, I initially wanted little one to be the trial supervisor. However, there was no news of him after that. I wanted little two to go with you and secretly act as a recorder. He will record the entire process and I will use it to evaluate the score." "However," ancestor xuanchen said, "I've changed my mind after the consecutive accidents. I plan to personally supervise the battle ..."

"Father-in-law, I have a good idea." "Actually, it doesn't really matter if there's one more or one less in the meeting," Zhaoming said. When the Sky Class Island opens, we'll all go together. We won't lose anything anyway ..."

"That's true, but it's very hard to open sky Class Island, and the time when the passage opens isn't fixed- it could be long or short. What if we can't get through in time with so many people?" "No." Ancestor xuanchen shook his head. "The current situation is unknown. Also, after we reach Sky Class Island, will there be a limit to the resources to break through to the heavenly path?" If it's limited, then the more people there are, the more people there will be. Everyone's share will be less. This is what I've been worried about!"

"I see ..." Kang Zhaoming was troubled, "However, we can discuss a rule in the Sky Class meeting- whoever passes it first will pass it later, and how the resources will be distributed after we get to Sky Class Island! It's said that the Sky Class island's Guide will come in contact with me soon, but that's just a legend-it's hard to say if there's really one. If there is, I'll have no problem finding out the situation on the Sky Class Island. Everyone can go, but the resources are limited, so I can only limit a few people."

"Father-in-law, this is what I'm thinking. Isn't the inheritor going to receive the last blessing of the inheritance this time? These inheritors are all Lin Yi's girlfriends, and with Lin Yi's infatuated personality, he wouldn't let his women suffer. When the time comes, we can let everyone hide and let Lin Yi face the Dragon of five evils alone. It'll be even better if Lin Yi can hold the Dragon of five evils alone, and we won't be in danger. If Lin Yi can't hold the Dragon of five evils and is killed by the Dragon of five evils, that'll be even better. We'll make our move to restrain the Dragon of five demons!"

"En, you're right. This is a good idea we can use. Why didn't I think of it before?" Patriarch xuanchen was overjoyed. That's right, using Lin Yi's relationship with the inheritor to send Lin Yi to his death-only a little guy like Kang Zhaoming would come up with such a wicked idea. He patted Kang Zhaoming's shoulder and said, "That's right-it'd be best if we could get rid of Lin Yi. It'd be a small matter for others, but at the Sky Class meeting, they'd have to give the five elements sect face, no? Who dares to oppose me? Without Lin Yi, I'd be the number one under the heavenly Dao! What I'm worried about the most is Lin Yi competing with us for resources-not only for himself, but for his friends and girlfriends as well. What would we have left then? As long as Lin Yi's dead, this won't be a problem anymore!"

"So, father-in-law, you agree with my proposal?" Zhaoming only had a flash of inspiration. When he heard the xuanchen ancestor say that they should go and protect the inheritor of the Dragon of five evils, the thought that flashed through his mind was-why should they help Lin Yi protect his girlfriend?

Hence, he thought of this ultimate trick.

"Yes, when the time comes, you can secretly make a connection. You have the title of my son-in-law, so you should be able to do this kind of thing without a doubt. You just have to hint that it's my intention."  
"However, you have to be careful. Once Lin Yi dies, you have to go and deal with the Dragon of five evils immediately. Don't let it return to the cave. Otherwise, the inheritors will be in danger, and all my efforts will be in vain!" Ancestor xuanchen said.

"Don't worry, father-in-law!" "I'll make good use of this opportunity!"Zhaoming said quickly.

"That's good." Ancestor xuanchen nodded. " Remember, you have to keep a low profile in the test and try to fan the flames. If Lin Yi can survive this and not be killed by the Dragon of five evils, you must let the people of the everyday and every day sect fight with him. Don't do it yourself. You are an Alchemist. Even if you used the Qi gathering pill and reached the full cultivation of Sky Class, your combat strength will still not be enough! "

"Okay, father-in-law, don't worry. I'm not a reckless person. I'm the best at instigating dissension behind people's backs!" Zhaoming promised.

" Yes, pack up and inform little eleven to head to the trial grounds with me ..." At this point, patriarch xuanchen suddenly felt a sense of desolation. Most of his disciples were dead, and only a few were left!

## Chapter 3499 Arriving At The Trial Ground

It was a good thing that Kang Zhaoming didn't die. Otherwise, little eleven would be a widow.

"I've been working overtime to make Qi gathering pills all this time, and not only have I reached full completion, my wife, little eleven, has also reached full completion-I want her to join the Sky Class test, and then we can go to Sky Class Island together! I don't want to be separated from her!" Zhaoming said.

"Oh?" The xuanchen ancestor was taken aback. He didn't know about this beforehand, but he was moved by Zhaoming's words. Zhaoming may be a sinister person, but he was good to little eleven!

Little eleven was already crippled and couldn't cultivate anymore, but it wasn't impossible to use the Tantra's Secret technique to boost the inheritor's strength through pills. It was just that after that, the inheritor wouldn't be able to use it, and it would just be a waste of pills. He didn't expect Zhaoming to be so generous!

He'd heard some rumors about little peach before and thought that Zhaoming was a heartless person, but xuanchen was the same, so he didn't say much. He still felt a little regretful, though, since little eleven was his daughter after all.

Now that he heard that Kang Zhaoming was treating little eleven well, he couldn't help but be happy, "Alright, I'm glad that you have such thoughts. Bring her along then! She hates Lin Yi and that han Jingjing as well-it'd be best if Lin Yi and han Jingjing die together, so you guys can vent your anger!"

"That's right, this time it's not just han Jingjing, even that bitch Wang Xinyan, I'm going to kill her! Motherf \* cker, she actually dared to make my big brother a cuckold, I'm going to kill her!" "Lin Yi's

family will die in this trial! If it weren't for the inheritors, I would've fed them all the dragons of five evils!" Zhaoming said with hatred.

"En, that's fine-we'll think of a way to kill them when we get to Sky Class Island. The role of an heir is only limited to the opening of Sky Class Island, and it'll be useless then," Patriarch xuanchen nodded.

"That's true, father-in-law is wise!" Kang Zhaoming nodded.

.....

It was similar to the other tests he'd been to-after driving through a few cities, it was a barren land. He could only see a few villages and a large piece of farmland, but there weren't even any villages ahead-it was just endless barren land!

Plus, the road was getting tougher and tougher-thanks to Lin Yi's experience, he'd be driving himself crazy if he didn 't. It was just a little bumpy.

But now, be it Lin Yi, Xinyan, or Jingjing-they were all Sky Class full Masters, and they didn't care.

It was the first time for both of them to participate in the trial, so they were very excited and excited.

Of course, it was the same for Lin Yi, because he could see Chu Mengyao, Chen Yushu, Yu Ning, Feng Xiaoxiao, little nine, and Guan Xin. Lin Yi wanted to go with Guan Xin, but the process of being an

inheritor was different from being a test-he needed boss Bai to escort him personally, so Lin Yi could only give up.

"Will this trial be dangerous?" Xinyan was excited, but worried at the same time.

"With Lin Yi bro here, we don't need to be afraid of danger!" Han Jingjing was very confident.

"If it's dangerous, there's one in every trial. It's mainly determined by the contents of the trial. We don't know what the trial is about yet, but we'll only know when we go." Lin Yi, on the other hand, was very calm. After all, he had to go regardless of the danger.

After another day, Lin Yi's car finally reached the location of the test, the five elements mountains!

This place shouldn't be far from the sky elixir sect, but they were in two different directions. No wonder there was something fishy between the sky elixir sect and the five elements sect. It turned out that the two sects were so close to each other. It seemed like they were on the other side of the five fiends mountain range, but he didn't know how to enter.

Lin Yi guessed that the five elements mountain range was part of the five demons mountain range, but the two shouldn't be directly connected. There was a barrier in the middle, and it was impossible to enter and exit freely.

At the foot of the desolate five elements mountain, there was a luxurious Inn built in a similar style to the inn that the sky elixir sect had used during their trials. It was specially prepared for the trial participants.

The similarity in style made Lin Yi think that the sky elixir sect and the five elements sect were somehow connected. Otherwise, they wouldn't be built so similar!

In the parking lot in front of the inn, there were already a few cars parked there. It was unknown whether they belonged to the other participants or the five elements sect itself. Of course, from the license plate, it should be in all kinds of places, most of which were driven by the trial-takers who arrived first.

Lin Yi, on the other hand, got out of the car with Xinyan and Jingjing after parking, and walked to the inn's entrance.

"This is not an ordinary Inn. An important meeting is going to be held here and we don't accept guests. If you're not here to attend the meeting, please leave." Lin Yi, Xinyan, and Jingjing had just entered the lobby when a man in a Bagua robe stopped them. His tone was polite, but his words were firm!

"We're here to participate in the trial. " "Is this the meeting you mentioned?" Lin Yi said faintly.

"Oh? So he was a trial-taker? If you're a rogue cultivator, then please show us the invitation letter from the five elements sect, or the fragment of the sky order Island Map. " The man in the gossip robe nodded to the three.

"Among the three of us, the two of them are rogue cultivators, while I'm from a branch of the five elements sect, boss Bai's sect." Lin Yi said.

"What?" The man froze when he heard Lin Yi say that he was from a branch of the five elements sect. He remembered what Lin Yi told him before and had to be careful, "Alright, tell me your names and show me your strength. I'll register the three of you!"

"No problem!" Lin Yi, Han Jingjing, and Wang Xinyan all activated their Arts and revealed their full strength as Sky Class late phase peak, shocking the man! He was only a Sky Class early phase disciple of the five elements sect, and these three people were all Sky Class full Masters, this was too strong!

According to the rules, as long as they were Sky Class or above, there was no upper limit. So after seeing their strength, the man quickly nodded, "It's done. Then please show me the fragment of your entrance scroll and your invitation letter. I'll help you with the check-in procedures. "

Lin Yi nodded and handed over the three map pieces and the recommendation letter boss Bai wrote for him. The man checked them carefully and registered them one by one before returning them to Lin Yi, "Alright, that's enough. You guys keep it well. When the trial starts, you'll hand in these things. Don't lose them, or you won't be able to participate in the trial."

"Don't worry," Lin Yi took it and nodded.

Chapter 3500 Retreating Indifferently

"So are you going to stay in one room or three rooms?" The man in the eight trigrams robe asked.

"A suite," Lin Yi, Xinyan, and Jingjing were already very close to each other-there was no need for them to sleep in separate rooms. They were Sky Class late phase peak, but they had no fighting power. For safety's sake, Lin Yi had to sleep with them.

The man nodded and registered their requests before passing a room card to Lin Yi. "Third floor, Room 301."

After taking the room card, Lin Yi, Xinyan, and Jingjing prepared to go up. The Inns here all had the most primitive staircases, and there were no elevators. As the three were about to go up, a practitioner was about to come down.

However, the stairs were narrow and could only fit one person at a time. Lin Yi went up two steps, and the person went down two steps. This was a spiral staircase, and there was no platform in the middle, so only one side could go back.

Lin Yi didn't want to cause any trouble, and according to the rules of the common world, people had to leave first. They were just about to leave when the person above spoke.

"The one below, move away. F \* ck, I don't know where this rogue cultivator came from, and he even brought two girls with him. You really haven't seen the world!" This guy was a disciple from a foreign sect, called Lou taishu, Sky Class late phase peak full strength. This was already a very strong strength in the test, and so he'd always been arrogant. He'd just bullied a Sky Class late phase peak solo practitioner this morning, and he was full of confidence!

Moreover, in theory, one could bring spirit beasts and servants to participate in the trial. As long as they didn't follow the trial, it would be fine. It was normal to take care of the trial participants in their rooms, but most of the trial participants came here for the trial and not for enjoyment.

And so, it was only natural for loutai shoes to treat Wang Xinyan and han Jingjing as Lin Yi's family! Some solo cultivators, on the other hand, didn't know what to do with their strength. In front of the ordinary people of the secular world, they were very powerful, but in front of the ancient sects, they were nothing.

Lin Yi found it funny-this was an ancient level, and there was someone who didn't know him acting cool in front of him? Don't you know that those who act tough are either dead or disabled?

But just as Lin Yi was about to speak, a nervous voice came from behind him,"These brothers, when you're outside, if you suffer a loss, you'll gain an advantage. If you can avoid them, then avoid them ..."

Lin Yi blinked and turned around to see a thin man in his 20s or 30s standing behind him. Of course, he couldn't tell the age of a Sky Class master-who knew how old this man was?

"Thanks for the reminder ..." Lin Yi thought about it and decided to forget it. His mentality was different from before, and he couldn't be bothered with this kind of clown.

And so, Lin Yi took two steps back, letting the practitioner come down first.

"Hahahaha!" Loutai shoes was overjoyed to see Lin Yi backing off-he walked down the stairs and left arrogantly, not forgetting to show off his Sky Class full strength before leaving,"As a human, don't overestimate your abilities. Otherwise, you won't even know how you died!"

Lin Yi shook his head helplessly and looked at the person who warned him. He didn't know this person, and he probably didn't know him either, or he wouldn't have warned him. After all, Lin Yi was a fierce person in the ancient level, who would dare to mess with him now?

"This brother, take a step back and open up the sky. Moreover, you have brought your family here, so it's even more difficult to make enemies with such a narrow-minded person!" The man reminded Xiao Chen.

"You're right. How should I address you?" Lin Yi asked.

"I'm Xiao ran, a disciple of a fallen family. I'm not sure if you've heard of the ancient Xiao family?" At this point, Xiao ran couldn't help but laugh bitterly at himself, ""Because my house has been demoted from an ancient house to a normal house, and so I came here as a solo practitioner ... I'm Sky Class late phase peak now! Brother, how should I address you? He should be a loose cultivator, right?"

"Oh? Why did he say that? Can't I be from the sect?" Lin Yi asked, surprised. He'd never heard of an ancient house Xiao before, though-they were probably a fallen family, just like uncle Fu's sect. They didn't even have the right to participate in this test.

"Those sect disciples all have their eyes on the top of their heads, how could they be willing to back down?" At this point, Xiao ran smiled bitterly and said, ""Only rogue cultivators would be as humble as you. Besides, this is a trial, and people usually don't bring their families here. But you brought two girls, so you must be rogue cultivators, because the disciples of sects and families wouldn't do that. You'll be distracted, so I suggest that you send them back ..."

"Hehe, many thanks for brother Xiao's reminder. However, they are also here to participate in the trial." Lin Yi smiled, "they're both Sky Class full Masters. My name is Lin Yi, and I'm a freelancer!" Alright, I'm going upstairs too. Brother Xiao, you can go ahead with your work!"

"Ah? They're all at the peak of the heaven class?" Xiao ran looked at Lin Yi in disbelief and exclaimed, ""Ah, you're the legendary Lin Yi?!"

"..." Lin Yi nodded. He was speechless at Xiao ran's reaction. Even if he was famous now, he didn't have to be so dramatic, right?

"Oh, it's brother Lin. I've been a busybody ..." Xiao ran shook his head and smiled bitterly, "Then I won't disturb brother Lin any further ..."

"Okay, let's talk more in the future ..." Lin Yi nodded and went upstairs with Xinyan and han Jingjing.

"This guy's not bad, he's a warm-hearted person ..." Xinyan said after Xiao ran left.

"Yeah, I guess I suffered a loss at the hands of that person. But he's a simple and honest person. We can communicate more in the future. But for now, let's settle down first." "We don't know who patriarch xuanchen's men are," Lin Yi said. "It's best not to form groups. We'll see what happens first."

"We'll both listen to you anyway. We can't go and form gangs." Xinyan said with a nod.

The rooms here were very high-end. They were top-notch suites, but these cultivators didn't care about that. They were all top-notch experts and had enjoyed everything that they could.
