

Bodyguard 3551

Chapter 3551 Preparations To Open The Seal

When Lin Yi went back, he suggested that boss Bai increase his strength as well, but boss Bai rejected him. His next step was to wait for Bai Weitao and he meiyue to give him a great-grandson, and enjoy the happiness of a family at home. As for these sect disputes, he didn't want to get involved anymore!

Naturally, Lin Yi would inherit all of this. As long as ancestor xuanchen was not in charge of the five-elements sect, he would be at ease.

The five cars started moving slowly, heading towards the sky Class Island ... Which was West of the five elements sect, in the direction of the endless West Sea ...

The endless western sea was not far from the five elements sect. After about an hour's drive, they arrived at the seaside of the endless western sea.

After everyone got off the carriage, patriarch xuanchen and Chancellor Nantian called Yu Ning and Chen Yushu to the side. According to what they said before, they had probably confirmed the location and time of the appearance of the Sky Class Island, while the others were saying their final goodbyes to their family and friends.

Lin Yi and his lackeys were sitting in the same bus-the entire bus was filled with Lin Yi's people, and there wasn't enough space. A lot of people were still standing, since they were in two buses when they came!

"Boss, I've brought Skybolt pig as well. You're driving to Sky Class Island, do you want to bring him along?" Chentian said-he'd brought everything he could from Lin Yi's Villa as he'd been told, including some daily necessities like phones, computers, solar power banks ... Who knew what Tianjie Island had?

"Yeah." Lin Yi put the items into the Jade space, but the pig was in a tough spot-how was he supposed to bring this little guy over? One had to know that even though the inheritor and the Pathfinder had to work together to open a path to Sky Class Island, practitioners who were too weak wouldn't be able to get through!

It was probably the same for spirit beasts-anyone under Sky Class late phase peak couldn't go through the tunnel, and even if the inheritor, Awakener, and naipao were fighting the pressure together, the remaining force was still quite overbearing!

So, those who were too weak would be crushed to death by the pressure-even Sky Class late phase peak, those who weren't at full strength, would be crushed by the pressure. Only sky Class full Masters could pass through safely.

To be honest, Lin Yi wanted to bring Skybolt pig with him to Sky Class Island, but how to do that was a complicated problem.

"Stupid Lin kid, can't you just put the pig in the Jade space you made?" Elder Jiao's voice sounded in Lin Yi's ear.

"Jade space?" Lin Yi blinked,"I thought you can't put living things in the Jade space?" How come the pig can go in?"

"That was in the past, not now!" "You can put Skybolt pig in the Jade space you created," elder Jiao said. "It won't die."

"Oh? Does that mean Tang Yin and I can go in too?" Lin Yi asked, surprised.

"You guys can't go in yet. Only primordial spirits can go in." "The next time I refine the Jade space, I might be able to achieve this!" Elder Jiao said.

"Next time? Wasn't the stone gate already at its end? There's nothing left, and I don't have a way to make it either. " Lin Yi asked, confused.

"When you entered the Sky Class Island through the mortal world, the pressure was too much for a soul clone like me to handle. I'm afraid I'll never wake up again, and I'm not sure if I'll still be in contact with the Sky Class Island! Even if I don't have a long sleep and can't establish a connection with my main body, I won't be able to work normally. " Elder Jiao said.

"I see ..." Lin Yi suddenly felt sad. He'd been with elder Jiao this whole time, was this the time when he was leaving?

"Alright, there's always an end to my support. It can't last forever. When I'm in a long sleep or when I lose contact with my true body, I'll transfer the mental cultivation technique and some other things I know into your mind. When your strength reaches that level, this part of the memory will automatically unseal and appear in your mind!" Elder Jiao said.

"Alright!" Lin Yi nodded, determined.

"Boss Lin Yi, are we bringing or not?" Wu Chengtian saw that Lin Yi was silent and was confused. He didn't know that Lin Yi was talking to elder Jiao in the Jade space.

"I'll bring it. " With that, Lin Yi picked Skybolt pig up and the pig disappeared into the Jade space!

After entering, Lin Yi took a look and realized that the pig was still alive. There was nothing wrong with it, and the little guy seemed to like the Jade space a lot. The spiritual Qi here was very rich, and that was what the pig liked the most!

It was happily dancing in the space of the jade pendant, in high spirits!

"Eh? Boss Lin Yi, where are those things and Skybolt pig?" Chentian asked, confused.

"Oh, I have a storage bag, like Doraemon." Lin Yi said.

"Oh, oh!" Wu Chengtian nodded and didn't ask further. As far as he was concerned, Lin Yi had done many amazing things. This was just a small matter.

After chatting with the people present, it was time for Lin Yi to leave because the xuanchen ancestor had already sent a signal."Inheritors, trial-takers, quickly gather!"

Apart from the family and friends who had patriarch xuanzhen, who stayed behind in the mortal world, to maintain order, the other inheritors and trial-takers all came to patriarch xuanchen's side!

"Yu Ning, Yu Shu, take the main positions at the back of the eight trigrams!" Said patriarch xuanchen.

"I'm too tired, please wait for a while!" "We're only showing up at Sky Class Island at 11:35, what's the rush?"Yushu said lazily.

"That's right. I'm so tired. Everyone, let's take a break." Naturally, Mengyao was with Yushu.

"Don't talk nonsense! At a time like this, he was still throwing a tantrum! Hurry up and prepare to open the sky Class island's seal!" The xuanchen ancestor was a little anxious. Chen Yushu was so difficult to deal with, dropping the ball at the critical moment!

"We're not going to open the car if you're so fierce. Hmph, Lin Yi honey, get us some herbal tea, my throat's on fire. " Xiaoxiao jumped out.

"Yeah, the view here is great! Shield bro, let's camp here! Liangy, give me a tent. " Yushu said with a smile.

"No problem, I'm here to serve boss Lin Yi and his sisters-in-law! Pao, go get my treasure car! We can have whatever we want, and if you want a living person's head, we can take it now. " Pinliang said, trying to get on Zhaoming's good side as he rubbed his head.

Chapter 3552 Sky Class Island Appears

"F * ck, I'm begging you-after the Sky Class island's seal is lifted, you can do whatever you want, but can you just stop making a scene here?" Zhaoming turned around and dodged-he didn't think they'd do something like this when they were already at Sky Class Island!

What made him even more curious was why pinliang had betrayed him. He needed to find a chance to ask. This wasn't right, pinliang should be on his side! He was really puzzled!

"There's no use begging me, go beg shield bro. Shu will only listen to shield bro. " Chen Yushu replied.

"F * ck!" Kang Zhaoming was helpless. He had just completely fallen out with Lin Yi, and now he had to go and beg Lin Yi? He sighed and turned to Lin Yi, who was quietly standing there doing something,""Boss Lin Yi, you're the one who opened it! Hurry up and give the order, Sky Class Island is about to appear!"

"Oh, no rush." Lin Yi took a deep breath and came out of the Jade space.

He took advantage of the fact that no one was disturbing him, and entered the Jade space with his primordial spirit. He wanted to test if he could raise the pig's strength to Sky Class late phase peak!

After all, when he was at the full circle of the Sky Class, he could only help people and spirit beasts reach Earth Class late phase peak. Cultivators could use Qi gathering pills to reach the full circle of the Sky Class, but not for spirit beasts. The effect of the pill was almost negligible.

Although Skybolt pig had entered the Jade space, Lin Yi was still worried that something might happen to him. He was counting on Skybolt pig to meet up with Liju! Otherwise, who would know who you are? You can't just say whatever you want.

The personal notes could be snatched, but not by Skybolt pig. If Skybolt pig didn't like you, then it meant that he didn't like you. If he complained to Zhang Liju, he might just kill you with one slap!

So Lin Yi decided to try and see if he could increase Skybolt pig's strength!

Of course, Lin Yi didn't plan to raise Skybolt pig's strength in front of everyone. Even if everyone in the car was his followers, there would be spiritual Qi gathering when a spirit beast leveled up. The xuanchen ancestor and the others were all Sky Class full Masters-they were no fools. There was no way they wouldn't feel the spiritual Qi gathering in the car!

If he found out that Skybolt pig had leveled up, he would be asking for trouble! Lin Yi didn't want others to know that he was already a heaven-Dao Foundation establishment early phase.

When Lin Yi was Sky Class, the most he could do was raise his follower to Earth Class, and when he was Earth Class, he could raise it to Mystic. This wasn't a big secret, and anyone could find out if they wanted to. Now that Lin Yi could raise Skybolt pig's strength with his bare hands, it was no wonder that there was no problem!

Lin Yi had to use Qi gathering pills to help his followers reach full circle before, and now he didn't? Most cultivators knew that spirit beasts could not level up after eating pills!

And so, Lin Yi decided to secretly test it out in the Jade space! The pig's body was in the Jade space as well. Even if it broke through, there wouldn't be any spiritual Qi outside.

Lin Yi's primordial spirit entered the Jade space and went to the space where Skybolt pig was at. He started leveling up Skybolt pig! After the Jade space was modified, only Lin Yi's soul could travel back and forth. Tang Yin couldn't feel the existence of the other space anymore, so she could only enter the main space!

To Lin Yi's surprise, his leveling up ability was still effective-the pig was now Sky Class late phase peak! Especially with the new art of Dragon mastery combined with the battle tactics of creation, the speed of improvement was even faster. In just half an hour, the Skybolt pig had advanced to the great circle of the heaven rank!

"Boss Lin Yi, let's start, or it'll be too late ..." Zhaoming said bitterly.

"Alright, everyone, get ready." Lin Yi had no choice but to walk over-Sky Class Island was a place he couldn't afford to waste time on. He had to go, or he'd be messing around with them.

Lin Yi walked over, and the inheritors started to get ready. This made ancestor xuanchen a little helpless. All of a sudden, Lin Yi became the leader!

In fact, with Lin Yi's current situation, the xuanchen ancestor would not dare to stop his followers from going to Sky Class Island. However, most of Lin Yi's followers were from ordinary and hidden houses. They had not entered the ancient world and were not so desperate to pursue the path of heaven. To them, the completion of Sky Class was already very satisfying!

Their thoughts were still stuck in the scope of the secular world, and they were unwilling to leave. Their goal was to revitalize the family.

"Yu Ning, Yu Shu, take the main positions at the back of the eight trigrams!" Patriarch xuanchen spoke again.

Yu Ning and Yu Shu, on the other hand, obediently stood in their positions on the Bagua diagram!

"Young ... Young master Lin, stand at the center of the eight trigrams!" Patriarch xuanchen continued.

Lin Yi nodded and went to the center of the diagram. After that, Mengyao, Xiaoxiao, Tang Yun, guanxin, and xiaojiu all went to their positions. Naipao, on the other hand, stood at the front, facing the endless West Sea!

That was because he was in charge of blocking the fiercest five evils demonic Qi! Of course, the five evils demonic Qi might have a huge side effect on a weakling like taganlong, but it didn't affect Lin Yi that much!

However, the five evils demonic Qi and the five elements 'power were pressing down on Lin Yi at the same time. The most important thing was that Lin Yi seemed to be unable to use his Arts to resist the pressure. He was being told to do something!

"All inheritors, get ready!" "The Sky Class Island is about to appear!" Chancellor Nantian said.

Chancellor Nantian's words made everyone's heart tighten slightly. Everyone's expression began to turn serious! The spiritual energy of heaven and earth began to gather on the surface of the sea, which was originally very calm. The waves also began to become violent and turbulent!

In just a moment, the world Energy above the sea became more and more violent, and the sea turned into a stormy sea!

"Yu Ning, Yu Shu, determine the exact location of the Sky Class Island!" Chancellor Nantian suddenly opened his mouth and said loudly, ""The Qi of heaven and earth is gathering, a Sky Class Island is about to appear ..."

Yu Ning and Yu Shu didn't dare to delay. At this moment, it was as if the sky Class Island had already appeared in their minds, and the two of them blurted out without thinking, "Due east, 30 degrees to the North."

Chapter 3553 Preparing To Open Sky Class Island

As soon as the two of them finished speaking, everyone looked in that direction.

Sure enough, the Qi was the most violent at a thirty-degree angle to the northeast. The sea breeze whistled and the waves surged. Although they couldn't see the sky Class Island, it was good to have a direction!

"All inheritors, please get ready. The pressure of the five elements and five evils will come at any time!" As much as Chancellor Nantian hated Lin Yi, he couldn't let him die. If he died, they wouldn't be able to go to Tianjie Island anymore, and he wouldn't be able to bring his new little brother, ancestor xuanchen.

In the distance, the other cultivators were frowning as they watched everything nervously. The power of the heaven and earth spiritual energy was too great, beyond their imagination! At that moment, it was as if the entire world was shaking at the appearance of the Sky Class Island.

This situation lasted for about half an hour, and the violent world Energy seemed to be getting more and more violent. In the northeast 30 degrees, a white foggy area gradually appeared. They didn't know what it was, but they were all very excited. This was probably the legendary Sky Class Island!

"The Sky Class Island has appeared! All participants, prepare to land on Sky Class Island!" Chancellor Nantian shouted loudly!

The cultivators were excited and excited at the moment, but they did not dare to breathe loudly or cheer out loud. All of them looked nervously at the phenomenon in front of them, waiting for the next order from Chancellor Nantian!

The ground under his feet also began to shake with the violent spiritual energy of heaven and earth. The waves on the surface of the sea also became more and more turbulent, and the spray could actually reach a height of dozens of meters!

The foggy white area touched everyone's heart. Suddenly, the White area on the sea surface suddenly shot out colorful lights. If one looked carefully, there were actually seven colors, but there was also a black light!

This should be the light of the five elements and seven attributes, and that black was the five fiends devil Qi!

Everyone was very nervous as they stared at the White area without blinking. Was this ... The legendary Sky Class Island?

"The pressure is about to activate, inheritor and naipao, please protect the user!" Chancellor Nantian shouted!

As soon as he finished speaking, a blinding light shot out from the Sky Class Island, blinding everyone for a moment.

They were all Sky Class full Masters, and normally, even a bright light wouldn't affect their vision, but this time, they couldn't see anything, and even their perception was blinded!

Be it the inheritors or the cultivators, they had never thought that there would be such a dazzling light in this world that they could not see anything!

However, compared to the others, Lin Yi could sense the situation outside from the Jade space. He didn't know when, but the White area was getting closer and closer to the sea! Or rather, it had been very close before, but because of the light and shadow, it seemed very far away.

As the strong light burst out, the endless pressure of the five elements and seven attributes, as well as the pressure of the Qi of five evils, were suddenly released at this moment and swept towards the direction of the coast!

"Quickly start using your heart cultivation to resist!" Chancellor Nantian shouted!

The pressure had already been fully increased!

The inheritor and naipao didn't dare to slow down-they quickly started channeling their Arts, trying to defend against the storm of pressure!

At this moment, it was a suffocating feeling-naipao was absorbing the Qi, and he was probably the most relaxed one out of all of them! Although he was absorbing it continuously, he was better than the other inheritors!

The power of the pressure was unbearable and suffocating. However, each inheritor knew their own mission! If the person in the middle was taganlong, they might not have been so hardworking, but the person in the middle was Lin Yi, the person they loved deeply-someone they could give up their lives for. All the inheritors gritted their teeth and persevered ...

Beads of sweat rolled down the inheritors' foreheads. Lin Yi saw it and his heart ached, but there was nothing he could do!

There was nothing he could do here. He had his mission!

As the pressure was released, the Sky Class Island gradually became clear. Through the colorful light, a huge white Island appeared in front of everyone.

It was as if the island was still so far away, but it was also close in front of them!

However, the island seemed to have appeared out of thin air because there was nothing on the calm sea when they came here!

"A fourth-dimensional space?" Elder Jiao's voice sounded in Lin Yi's ear, "This Sky Class Island is actually hidden in a fourth-dimensional space!"

"A fourth-dimensional space?" Lin Yi blinked.

"That's right, it's similar to the space in the Jade. This Sky Class Island is hidden in a fourth-dimensional space in the endless West Sea. No wonder human technology couldn't discover this special Island the size of a small country!" Elder Jiao said.

"I see!" Lin Yi understood-normal people wouldn't find out about the Jade space, would they?

But this way, not just anyone could enter and leave the Sky Class Island-no wonder they had to use formations to open the seal!

"Attention, Enlightener, your mission is coming!" Just as Lin Yi and elder Jiao were sighing, Chancellor Nantian's voice rang out, "Get ready-after the pillar of light opens, we'll go up and open the sky Class Island!"

Light the main passage? Lin Yi was taken aback, but in the next moment, he saw a beam of light shoot into the center of the formation, where Lin Yi was standing!

"Quickly enter the light pillar and open the seal!" Chancellor Nantian shouted!

Lin Yi was surprised to find out that the pillar was solid. In other words, he could walk on the pillar!

With that thought, Lin Yi didn't dare to delay and quickly stepped onto the light pillar, walking forward!

However, the pressure around him made it hard for him to balance himself! However, he didn't dare to divert his attention to resist the pressure. The light pillar was a round pillar, and the top was extremely smooth. Lin Yi would fall down if he got distracted!

"Inheritor, hurry up and use your Arts or Lin Yi will be in great danger. The pressure will concentrate on him and he'll be shattered into pieces!" Patriarch xuanchen roared. He was also threatening the inheritors by saying this, forcing them to do their best!

As expected, the moment they heard that Lin Yi was in danger, the inheritors had to speed up their practitioner's Arts!

Chapter 3554 Landing On Sky Class Island (1)

Lin Yi followed the pillar and carefully reached the top. At the top, he saw something like a spinning star. It was the thing that was constantly emitting five-colored light!

"Awakener, place your hands on it and activate the mantra!" Chancellor Nantian said loudly.

Lin Yi put his hand on the spinning star and realized that it wasn't a real star-it was an illusion. But no matter what it was, Lin Yi quickly started to chant the arts!

The moment Lin Yi activated the chant, it was as if some force was pushing the sky Class Island, which was originally half-submerged in the sea, to suddenly rise up from the sea, getting bigger and bigger. Finally, at the edge of the coastline, a tunnel-like formation suddenly appeared, just like the formation they used to go to the five evils Savage Lands and five evils mountain range!

At this moment, Lin Yi finally understood-this tunnel was opened by the five elements energy, as if something was hinting to him that if he stopped the chant, the tunnel would disappear!

At that moment, Lin Yi wanted to jump down and lead the inheritors into the sky Class Island, but he realized helplessly that his hands were like glue-he couldn't pull them back!

This feeling was the same as when he was at the stone door of the cave, making him unable to extricate himself!

Just as he was about to retreat, a voice seemed to hint to him that this was his mission! To open this inheritance, they had to hold on until the last moment-only at the last moment could they enter the Sky Class Island!

They were burning themselves to help the other cultivators who wanted to come to the island! This was their mission!

It turned out that being the Pathfinder wasn't a good job, and that stupid taganlong was still very proud of himself! But Lin Yi didn't regret it. After all, he had to do this for the inheritors! Lin Yi could feel the

inheritors' mental and physical exhaustion—if they didn't use their full strength, the pressure would land on Lin Yi. It was hard to say if Lin Yi would be killed by the pressure, but the opening of Sky Class Island would definitely stop!

"The pathway has appeared, and the trial-takers are beginning to land on the island! Xuanchen, you go first with me!" With that, Chancellor Nantian took the lead and rushed into the tunnel, with patriarch Xuanchen following closely behind!

After that, Zhaoming and the other practitioners followed the queue and entered the tunnel one by one. They could see that the inheritors were all shaking, and they probably couldn't hold on much longer. Everyone had to reach the island as soon as possible!

Tian Gang, Song Lingrui, Bing Tang, Xue Li, Wang Xinyan, Han Jing Jing, Xiao Ran, Zhong Pinliang, and the others were worried about Lin Yi and the inheritors, but they had to follow the order and enter the tunnel. They could only pray that Lin Yi and the others would be able to enter the tunnel successfully!

However, after everyone had entered the tunnel, Guan Xin couldn't hold on any longer. Her body swayed and she fell to the ground! Guan Xin was the weakest of all the inheritors!

After him was nine, and behind him were Mengyao, Yushu, Yuning, Tang Yun, and Xiaoxiao! It seemed that they couldn't hold on any longer and had all fainted on the spot!

As soon as they fainted, the pressure on Lin Yi's side increased sharply, and the tremendous power directly pushed him down from the light pillar!

Lin Yi fell into the sea!

Lin Yi was surprised, but he was worried about the inheritors-he wanted to see how Mengyao and the others were doing, but to his surprise, the path to Sky Class Island was becoming more and more empty after he left the pillar ...

The entire Sky Class Island started to sink! Lin Yi panicked-he was in a dilemma! He knew that with his departure, the path to Sky Class Island would disappear!

If he quickened his pace now, he could enter! But what about Chu Mengyao and the others?

Even if Lin Yi ran over and saved one of them, he couldn't save the second one! The eight trigrams Formation was huge, and each inheritor was quite far away from each other. It was extremely difficult for Lin Yi to save one and return!

"Help me look after them and wait for my return!" Lin Yi shouted to his followers in the distance and quickly flew into the sky Class Island tunnel!

He had to go to Sky Class Island! Chu Mengyao and the others didn't seem to be in a big problem. At least Lin Yi could still feel their life force, so he asked his men to bring them back first.

Song Lingshan, sun Jingyi, Xu Shihan, Cheng Yiyi, and Ying Ziyu all rushed over-this was the last thing Lin Yi saw!

Naipao hesitated before following, but the tunnel was already starting to flash by the time he did. He didn't even know if he could reach Sky Class Island, and it all depended on luck ...

"Yaoyao, Shu, Tang Yun, Xiaoxiao, Yuning, Guan Xin, little 9.....Wait for me!" Lin Yi sighed. He'd thought that they'd be his biggest support on Sky Class Island, but they'd all fainted!

The last thing Lin Yi saw was them fainting around the eight trigrams Formation, and with a bright white light, the tunnel disappeared along with Naipao. Lin Yi and the other practitioners all disappeared under the bright light ...

Phew ... The only thing that made Lin Yi feel at ease was that these lackeys and the women he left behind were all top-class Masters, Sky Class late phase peak! They were the strongest in the common world! With them around, Lin Yi didn't have to worry about Yao Yao not having anyone to take care of her.

After entering the tunnel, Lin Yi felt like he had entered an illusory space, and then his eyes lit up ...

Everything in front of him was covered in white light, and Lin Yi entered a temporary state of blindness. He subconsciously closed his eyes and entered the Jade space, activating his spiritual sense and spiritual power to sense the situation around him ...

But what made Lin Yi regret was that there was nothing but endless white light around him. It was like a strange space, and Lin Yi couldn't even see his companions or enemies.

His feet seemed to be suspended in the air at this moment. He couldn't step on anything, as if he was completely weightless in the air.

Lin Yi knew that there was nothing he could do now, and he could only wait quietly.

Lin Yi didn't know how much time had passed, but he felt like it was half an hour before the White disappeared, and he felt like he had stepped on something-it was land

Chapter 3555 Landing On Sky Class Island (2)

Lin Yi opened his eyes and was greeted by a tall, bare stage. He wasn't the only one standing on the stage-Kang Zhaoming, Zhong pinliang, Dongfang Badao, master WUFA, and Xiao ran were there as well. There were no other participants, only six of them!

Of course, other than boxer WUFA and Xiao ran, who weren't that close to Lin Yi, the only people who had grudges against Lin Yi were Kang Zhaoming and Dongfang Badao.

Zhong pinliang was Lin Yi's follower now, and considered an ally, but where were the others?

What about Tian Huan? Where's song Lingrui? Naipao? What about ancestor xuanchen? Where's the pear with rock sugar? Wang Xinyan and han Jingjing? They all disappeared at the portal in front of the Sky Class Island-how did they all disappear?

However, the high platform Lin Yi was on was surrounded by cliffs. There were no obstacles on it, and it was clear how many people there were. There was no place to hide.

"What the hell is this place? This is Sky Class Island? Why isn't there anything?" Kang Zhaoming came back to his senses and couldn't help but curse, "Damn it, did I get tricked?"

"Boss Lin Yi, what do you think?" Pinliang was confused-this was Sky Class Island? But there was nothing on this Island, it wasn't even a Sky Class Island! And where did that Zhang naipao kid go?

"The spiritual Qi of heaven and earth here is very abundant. However, we are all alone here. We don't see any sects or people. This is very strange." Lin Yi hadn't been to Sky Class Island before, so he didn't know what was going on.

Before, everyone had imagined the Sky Class Island to be a beautiful place with many masters to help them break through to the path of heaven. But now, there were no masters, just a cliff. How were they going to deal with it?

Looking further away, the high platform was surrounded by white fog. It was impossible to see anything in the distance. The only thing that could be seen clearly was that there was a cliff below the high platform, and it was so deep that the bottom couldn't be seen. The fog was too thick to see further down.

Dongfang Badao was one of the most proactive people. After arriving here, he realized that it was different from what he had imagined. Furthermore, he didn't know where the rest of the people had gone. Three quarters of the people had suddenly disappeared. Who would be happy about this?

Could it be that when those people came over, they didn't stand firmly on the high platform and directly fell into the cliff? At the thought of this, everyone broke out in cold sweat.

But after calming down, Lin Yi wasn't that naïve. He felt that since the teleportation formation on Sky Class Island could send all these people here, they couldn't let some of them die, right? Then these people had probably been teleported here, but they might have been teleported to other similar places!

This reminded Lin Yi of the sky elixir sect's test. Everyone was in the five evils wild land, and they were also teleported there. The environment here was a bit similar to the five evils wild land, and although there wasn't any five evils energy here, it was just a feeling.

"What do you think, master WUFA?" Dongfang Badao couldn't help but ask. This Martial Master WUFA was the Grand Elder of divine fist Palace, and because of li Ciba, divine fist Palace didn't go against Lin Yi before, but they weren't exactly close.

"I can't tell for now." Master WUFA shook his head. "But, since the Sky Class Island is so famous, I don't think they'll harm us. Let's wait. Look at Lin shaoxia, he's not in a hurry."

"Hmph, we're all on the island. Everyone's equal. Young hero Lin is just a junior!" Dongfang Badao hmphed coldly. Before opening the Sky Class Island, everyone had said at the Sky Class meeting that their goal was to successfully reach the sky Class Island, so they weren't allowed to fight each other during the opening.

So if Dongfang Badao didn't provoke Lin Yi first, Lin Yi wouldn't kill him either, so he had no worries.

Of course, this agreement might not be valid until they reached the island and formed their own factions, but at least it was still valid for now.

Everyone stayed on this high platform for more than half an hour. They couldn't help but feel a little strange and anxious. What kind of thinking was this? This Sky Class Island wasn't just a high platform for everyone to spend the rest of their lives on, was it?

There wasn't even a girl here, and they couldn't even have offspring, so being gay wouldn't allow them to pass on their bloodline.

"Is there anyone? F * ck!" Kang Zhaoming finally lost his patience and shouted. His voice echoed in the sky but no one answered.

"Boss Lin Yi, it can't be the Sky Class island's seniors testing us, right?" Pinliang asked after some thought. He had the memories of the Mad dragon patriarch in his head, so he had some understanding of the ancient customs.

"Test? That's a possibility ..." Lin Yi nodded, "I'm not too sure." But, at least there should be some hint, right? Let's wait and see. "

Pinliang nodded and ran off to the side, looking for any hints on the stage.

However, about ten minutes later, a long howl suddenly came from the sky. This made everyone's originally anxious mood instantly solemn, and they looked up at the sky.

An aerial spirit beast had appeared in the distant sky!

Although it was only a spirit beast, it still made everyone excited. At the very least, it meant that there were living creatures nearby and not a lonely Dead Island.

At this time, when the aerial spirit beast flew closer, everyone was even more excited because there was a person sitting on the back of the aerial spirit beast. Although they could not see the age and gender, they could guess that the person who could appear here must be a top master!

"Senior, senior, wait a moment!" Kang Zhaoming shouted. He was the one who was in a hurry to leave.

"Here, here!" Dongfang Badao yelled out as well. He had come here to break through to the heavenly Dao, not to waste time on this high platform.

However, there was no need for them to call out for it. The aerial spirit beast had already flown over here. They saw the spirit beast flying lower and lower, and the people on the spirit beast could also be seen!

It was a man in his thirties, but he was only thirty because of his looks-his actual age was unknown. After all, the practitioners here were probably Sky Realm or above-Sky Class could keep their faces forever, let alone Sky Realm practitioners.

The flying spirit beast stopped at the edge of the platform but didn't land. The man on the spirit beast looked at Lin Yi and the others coldly and curled his lips,""The people who came to our North Island this time are all old, weak, sick, and disabled. How disappointing!"

Chapter 3556 Guide

"Who's the old, weak, sick, and disabled?" Dongfang Badao's temper was as overbearing as his name. This man called him old, weak, sick, and disabled, so he was naturally unhappy! Who wasn't an elite in

the world of cultivation after successfully landing on Sky Class Island? Just as he was feeling good about himself, his face turned ugly when he heard the man's words." "I was the head of an ancient noble House, the Dongfang family, Sky Class late phase peak full master!"

The man's eyes sharpened, and with a wave of his sleeve, an invisible force shot out from his hand. Dongfang Badao was immediately knocked to the ground with a "plop". He struggled for a long time before he got up with a red face. However, he did not dare to act rashly again.

To be able to teach him a lesson from afar, what kind of expert was that? In the entire world of cultivation, it was a unique existence, even Lin Yi couldn't!

"You're really weak. " The man hmped and turned to Lin Yi and the others impatiently. "I'm the emissary of the North Island of the heaven rank. I'll take you to the North Island's welcoming new pavilion to report. Which of you newcomers will come with me?"

"Argh! Senior, senior, I'm leaving!" At this moment, Dongfang Badao had completely put away his previous arrogance. He could no longer tell the strength of the person in front of him. It was obvious that his level was higher than his. Furthermore, he was the one who led them to the welcoming new pavilion. He could not be rash.

"Old fogey, what are you shouting about? You've already offended the emissary, so I'll go!" Zhaoming said immediately. The flying spirit beast looked like it could only fit two to three people, and he didn't know if three could fit, so he had to fight for a chance.

"My spirit beast can only seat three people. In that case, the two of you can come up first!" The man said indifferently.

"Ah, we also want to go!" Pinliang pulled Lin Yi aside and turned to Zhaoming and Dongfang Badao.
"Don't tell me you guys want to snatch it from us?"

Lin Yi was the strongest here, followed by Zhong pinliang. If Zhong pinliang wanted to drag Lin Yi first, the others probably wouldn't dare stop him!

"Zhong pinliang, from what I know, you and Lin Yi were enemies! The one you like is Chu Mengyao, and this kid took her away from you. The one I like, Guan Xin, was also taken away by this kid. We should boycott him together! How about this, we'll team up, we'll go first, and kick out that old fogey Dongfang Badao!" Kang Zhaoming cursed in his heart. He didn't want Lin Yi to beat him to it.

Pinliang was just about to object when Lin Yi shook his head and gave him a look.

Lin Yi wanted pinliang to leave first, and he'd stay.

It wasn't that Lin Yi didn't want to leave, but he felt that if there were people on this North Island, they couldn't just take a few people without taking the others. Among them, the one with the worst relationship with Lin Yi was Kang Zhaoming, so Lin Yi wanted Zhong pinliang to keep an eye on Kang Zhaoming and stop the kid from talking nonsense with the guide.

"That's ... Fine. " Pinliang jumped out immediately and pointed at Dongfang Badao,"Old Eastern man, do you want to spar with me, mad dragon?"

"Hmph!" Dongfang Badao already knew that pinliang was the Mad dragon patriarch from the everyday and every day sect. The Mad dragon power had already injured him in the secular world, so he was naturally no match for pinliang. He was reluctant, but there was nothing he could do. He could only watch as pinliang and Zhaoming got on the flying spirit beast.

"May I ask ... What should we do?" Dongfang Badao could not help but ask.

"What should I do? what should I do? my mission is to bring back two outstanding talents. You old, weak, sick, and disabled people are too weak. Just wait here!" The man curled his lips and sneered.

With that, he activated his flying spirit beast and took off, bringing Kang Zhaoming and Zhong pinliang away ...

Dongfang Badao was so infuriated that he felt a little regretful. If he hadn't said something so unpleasant, would he have been left here? But now, someone else had stolen his seat.

What puzzled him, however, was Lin Yi sitting cross-legged on the platform and practicing. Didn't this kid know how to rush?

Lin Yi's guess was right. Just as the others were waiting, another flying spirit beast flew over, but this time, it was an old man in his fifties or sixties. His eyes were dark and cold as he looked at the people on the platform. Before anyone could say anything, he pointed at Dongfang Badao and master WUFA, "You two newbies, come up!"

Dongfang Badao was already an old man. He was a little annoyed that he was called a newbie. However, he had already experienced the power of these people and did not dare to act rashly. Someone welcomed him and he quickly got on his flying spirit beast.

Boxer WUFA was also a little puzzled, but he still followed the flying spirit beast. Obviously, this guide in his fifties or sixties was more interested in the older newcomers.

The only people left were Lin Yi and a practitioner from a small family. This person was also the most silent one here, not saying a word after he got on the stage.

This person was Xiao ran. He came from the Xiao family, a very small cultivation family in the secular world. This family used to be a low-tier ancient family. Because the strength of several generations in the middle was weak, they were removed from the ancient level and never rose again.

In this generation, it wasn't easy for a cultivation genius named Xiao ran to appear, and that was why he was able to participate in the Sky Class meeting again. The Xiao family was still hoping that Xiao ran would come back and restore the Xiao family's glory after he broke through to the heavenly path ...

In this kind of family environment, Xiao ran learned to keep a low profile. He didn't dare to mess with anyone, as it would bring disaster to his family. But now, only he and Lin Yi were left. After spending a few times with Lin Yi, he felt that Lin Yi was a good person. So he stood up and smiled bitterly at Lin Yi, "Brother Lin, with your strength, you could have left long ago ... Why ..."

"Hehe, since they've all left, there's no reason for us to stay here. I reckon someone will come to pick us up soon." Lin Yi said with a smile.

"Lin shaoxia is quite open-minded!" Xiao ran said in admiration.

"Look, someone's coming!" Lin Yi said, pointing somewhere nearby.

Xiao ran was taken aback and looked up. Indeed, there was a black dot in the sky that was getting bigger and bigger. It was the aerial spirit beast that he had seen before!

The spirit beast approached, and on it was a freckled young man in his twenties. He stopped the flying spirit beast and looked at Lin Yi and Xiao ran, his face showing that he already knew it,""Come on, you two. It's the same every time

Chapter 3557 Brother Ku

It seemed like the young man had anticipated that he would be able to pick up Lin Yi and Xiao ran!

However, his attitude wasn't as arrogant as the previous two. Instead, he looked quite approachable.

"Alright, thank you, senior!" Xiao ran looked at Lin Yi and got on his flying spirit beast.

Lin Yi followed.

The aerial spirit beast took off slowly. Xiao ran could not help but ask,""Senior, how should I address you?"

"Alright, don't call me senior. I'm just an idiot. Just call me an idiot senior brother." The freckled man shook his head and said.

"Ha?" Xiao ran was stunned. He thought that this freckled man was easy to get close to, but he did not expect him to be so easy-going. He even gave himself the nickname "miserable senior brother".

"You two are wandering cultivators from the secular world, right?" The senior brother asked.

"I guess so ... How do you know?" This surprised Lin Yi-he knew a bit about Xiao ran's background, and calling him a freelancer wasn't a stretch. After all, house Xiao wasn't an ancient noble House anymore.

"There are six people who were teleported to the North Island. The first one who came to pick them up was from the rising Sky Pavilion. Those two must be powerful figures sent by the big sects, right?" The bitter-looking senior brother asked with a smile.

"Yes, senior ... Senior brother ku, how did you know?" Xiao ran was also a little surprised.

"The second person to come and pick them up is someone from the profound secrets Pavilion. Those two people must be cultivators who look very old, right?" The miserable senior brother continued to guess.

"Right again." "Why is that, brother ku?" Lin Yi nodded.

The miserable senior brother did not explain and only continued, ""I'm the emissary of the GreenCloud Pavilion. Our GreenCloud Pavilion has the lowest status among the three pavilions. We're always the last to be selected, and most of the disciples who join us are rogue cultivators from the grassroots. "

"Uh ... So senior brother means that those people from before have also joined the rising Sky Pavilion and the profound secrets Pavilion?" Lin Yi was a little surprised-he didn't think that Sky Class Island would be like this. There were sects here, and there seemed to be three different factions in one. It was quite a headache.

"Not bad! The rising Sky Pavilion is the most prominent Pavilion on the North Island of the heaven division. It's filled with the second generation of cultivators and the outstanding descendants of the island's famous families. Even if they're from the secular world, they're all core disciples of big sects. " "This is the one you can't provoke the most on the heaven stage North Island," said the miserable senior brother. Next was the mysterious Pavilion, which was filled with old men. Of course, it wasn't that the other pavilions didn't have any old men, but they had a lot of them, and they didn't like young people, not even those who entered Sky Class early and stayed young forever, unless they were their own children and grandchildren. This group of people took advantage of their age, and some of them were the elders of the Sky Class North Island. They weren't as strong as the sky Pavilion, but they weren't weak! And the weakest of them all is our GreenCloud Pavilion!"

"That ... Grassroots aren't weak, right ..." Lin Yi smiled bitterly.

"Heh, there's still a long way to go!" The guy shook his head,"our practicing Foundation wasn't as solid as his before, so there's a difference when we're both Sky Class late phase peak. After breaking through to the sky, which is my current level, we call it the Foundation Stage, and there's a difference in strength." Don't be fooled by the nice name of the GreenCloud Pavilion. When it was first named, it meant that those grassroots could rise up in this place. But ... Hehe. Also, don't mention the heavenly Dao anymore. It's a big category. If you tell others that you're a heavenly Dao expert, they'll think that you're arrogant!"

"Oh? You still can't tell me?" Lin Yi blinked. Didn't they talk about the heavenly Dao in the common world? Could it be that there was an even higher level above the Foundation Stage? As for the three pavilions, Lin Yi didn't really care.

"En, the so-called heavenly Dao is just an ethereal general term for all the levels." The miserable senior brother was not stingy with his words and said everything he knew, "In the past, we cultivators cultivated both internal and external Qi and body. Those were all to increase the strength of the body, while the heavenly Dao was a kind of pursuit that went against the heavens. You can also understand it as cultivation. Before the heavenly Dao, you cultivated, and now you cultivate. In the mortal world before the heavenly Dao, your strength is equivalent to the meditational stage of cultivators, and after stepping into the heavenly Dao, you'll reach the foundation establishment stage, which is when you've truly touched the path of cultivation. "

"You're the heavenly Dao, but you're not the strongest?" Lin Yi didn't think that there would be so many levels in the heavenly Dao.

"Of course, I'm an expert in the early stage of the foundation building realm. Above me, there's still the peak of the early stage of the foundation building realm, the middle stage of the foundation building realm ..." The miserable senior brother explained.

Hearing this, Lin Yi's self-satisfaction fell to the bottom of the valley. When he was in the common world, he used the omnipotent Arts together with the creation battle tactics and the art of Dragon mastery's fourth stage, heaven-stealing, to successfully break through to the heavenly path. It was a whole new level of strength, and Lin Yi thought that he had reached the end of the practitioner's path, the last stop!

As long as he got to Sky Class Island and found the pill God Zhang Liju, he could find a way to wake up Yu Xiaoke and the pangolin. He could then go back, but he didn't expect Yu Xiaoke to still be unconscious. There were seven more inheritors who were unconscious. The pressure on Lin Yi was huge.

But that was fine, they could just ask Zhang Liju together-who would've thought that with his strength, he was the weakest! It seemed a little different from when Lin Yi first came here, looking for Zhang Liju in a high-profile way.

"Alright, but it seems like our GreenCloud Pavilion is the most harmonious one. Senior brother ku is so kind, but those two who tried to get close to the emissary were so arrogant!" Xiao ran nodded and said.

He didn't feel that there was anything wrong with joining the GreenCloud Pavilion. He was a low-profile person, and after coming here, he naturally had to keep a low profile. He didn't have any backing, and his own strength wasn't particularly good, so he had to be careful in everything he did.

"Harmony? Hehe ..."The miserable senior brother laughed strangely."I won't say anything more. You'll know when you see it ..."

"Isn't that the case?" Lin Yi blinked-he'd thought that the GreenCloud Pavilion would be a peaceful place with grass roots.

"Just because I'm harmonious doesn't mean that others are harmonious. I'm just a poor guy. I was just sent here to pick people up, but I'm always bullied. That's my personality ..." The poor senior brother shook his head.

"Isn't this good? The two from before ... They seemed to be very powerful?" Xiao ran asked in confusion.

Lin Yi, on the other hand, was looking at the poor guy in confusion. Wasn't the guide supposed to be a very powerful person? The emissary who had received him in the secular world was even more impressive!

Chapter 3558 Backing Xu Lingchong

But this was the North Island, and he was from the middle Island, so Lin Yi didn't have to worry about him coming for trouble! This confirmed Lin Yi's guess-the Sky Class Island was split into many regions, and the other practitioners had probably gone to other islands!

"Previously, they were here to pick the best, while I was here to pick up the rest. No matter who was left, I had to pick them up ... If eldest senior brother steward knew that I picked up two itinerant cultivators like you, I would be scolded again. This is a thankless job, who would be willing to do it!" The miserable senior brother shook his head. "He's just bullying my ability. He's a tyrant at home. If he's capable, he should go and compete with the rising Sky Pavilion and the profound secrets Pavilion!"

"It turns out that the two of us are the weakest." "We're okay, brother ku," Lin Yi said, a little speechless. "We're not too weak."

"Sigh, you don't have to say all this. I understand. But I'm used to being scolded. It's fine." The miserable senior brother shook his head.

However, Lin Yi could tell that this poor guy was a very good person. He would answer all his questions! By now, Xiao Chen knew that the Sky Class North Island was only a part of the island. There were other teleportation platforms on the island, and there were other people in charge of receiving them. As for where they were taking them, Xiao Chen didn't know either. With his ability, he really didn't know that much!

"Brother ku, have you heard of this Zhang Liju?" Lin Yi finally asked the question he wanted to ask the most. Now that he knew that Tian Gang had gone somewhere else, Lin Yi was relieved. Since they were all on Sky Class Island, he would see them sooner or later.

"Zhang Liju? Pill God Zhang Liju?" The miserable senior brother was stunned and said, "I know, he's a famous person who walked out of our heaven stage North Island. I don't know where he is now. I was selected from the nearby village as a grassroots disciple and just joined the GreenCloud Pavilion not long ago. There are many things that I don't know either!" To put it bluntly, we're all newbies. It's just that I'm a little luckier, and I've already broken through to the heavenly axiom. I'm an expert at the early stage of the foundation building realm. "

"Many thanks, senior brother ku." Lin Yi nodded. He didn't have a definite answer, but at least he knew that Zhang Liju should be here! He'd already suspected that Liju wasn't dead when they were in the tomb, and now that something was missing from the tomb, Lin Yi assumed that Liju had gone back to get it. Since he'd broken through to the sky, he should be on Sky Class Island-it was true!

While Lin Yi, Mengyao, and the miserable Shixiong were investigating the situation, Zhaoming and pinliang were already getting on the good side of their guides. Unlike the miserable Shixiong, their guides were quite influential-their name was Xu lingchong, the grandson of the third elder of the rising Sky Pavilion, a true practitioner's second generation.

In every Pavilion, the person with the most power was the pavilion master. However, under the pavilion master were the few elders! However, the pavilion master rarely asked about such small matters. It was already good enough for an elder to come forward to welcome the new members.

"F * ck, he succeeded in building his Foundation at the age of 30. Those so-called cultivation geniuses are simply a pile of shit compared to senior brother Xu!" Kang Zhaoming was shocked after learning the background of the person. He immediately tried to please him.

He knew very well that if he wanted to stay on Sky Class Island, he couldn't just rely on his own strength-the most important thing was to hold onto someone strong, and this Xu lingchong was obviously a big strong support. As long as he could get on his good side, not to mention staying on Sky Class Island, even getting revenge from Lin Yi would be a piece of cake.

Back then, he only managed to get in touch with elder xuanchen by sucking up to little peach. If he were to get in touch with the pavilion master, lingchong would also become Zhaoming's stepping stone. In Zhaoming's eyes, lingchong would become a pile of sh * t just like little peach.

Xu lingchong was overjoyed and thought, 'this kid is not bad!' But on the surface, he put on a calm smile- Zhaoming's flattery hit the nail on the head. There weren't many people in the entire North Island who'd reached heaven-way Foundation before the age of thirty, and there were only a few of them in every batch. Lingchong's strength was largely due to the use of precious resources, but he was now at the peak of late Foundation-enough to crush many of his peers.

Zhaoming's ability to read people's expressions was very strong, and he knew that he'd done the right thing just by looking at lingchong's face. "Before I came to Sky Class Island, I thought that Lin Yi was already a one in ten thousand years genius for reaching Sky Class late phase peak at nineteen years old- but now that I've met brother Xu, I realize how laughable that was-looking at cultivation from the common world's perspective is like looking at the sky from a well."

In order to please someone, you didn't just have to suck up to them, you also had to create a common enemy for each other. This was what Kang Zhaoming had learned from his experience. This was the case for him and patriarch xuanchen back then.

Judging from the performance of this senior brother Xu just now, he should not put those so-called cultivation geniuses in his eyes. As long as they were geniuses, they were generally proud and arrogant, and their sense of superiority was bursting. This kind of person could not tolerate their own kind of experts the most.

As expected, Xu lingchong was hooked. "A 19-year-old at the peak of the Sky Class? Could that Lin Yi be a core disciple of some big sect in the common world?"

"No, he's just an ordinary grassroots rogue cultivator. However, he's so awesome that he's unparalleled in this world. He's super good at acting tough!" Kang Zhaoming quickly replied.

"Grassroots rogue cultivator? Pretending to be awesome?" "Then maybe he picked up some weird practitioner's Arts-he's leveling up fast, but his Foundation isn't solid-even if he's a Sky Class late phase peak, breaking through to the Foundation Stage would be as hard as ascending to heaven." Lingchong said with a look of disdain. That's normal, you know the frog at the bottom of the well, right? He doesn't have anyone to compare with, if ... Hehe. "

"Senior brother Xu really has sharp eyes. If he had known about senior brother Xu earlier, he would have suffered a mental breakdown! But that Lin Yi has some tricks up his sleeves, and he's been acting like a tyrant in the common world. Everyone's angry, but they don't dare to say anything. Senior brother Xu, you have to do US Justice. " Zhaoming said, acting pitiful.

"There's such a thing? Isn't he just a grassroots rogue cultivator? how dare he bully you? could it be that the sect behind you is already so weak?" Xu lingchong frowned and said.

"Uh, it's mainly because the sect's elders were afraid of being accused of bullying the weak, so they didn't attack him for the sake of their face." Zhaoming said, shocked. He couldn't let this affect his image.

Chapter 3559 Drawing Hatred

Pinliang, on the other hand, only curled his lips. What face? he was obviously scared of boss Lin Yi's beating. Zhaoming sure knew how to make up stories. But he could tell that this Xu guy had been tricked by Kang Zhaoming. If he spoke up for Lin Yi, he might offend this Xu guy. It was best to wait and see what Kang Zhaoming could do.

Plus, Lin Yi's purpose for sending him here was to be a spy, so he couldn't act rashly. He just needed to report to Lin Yi in time. So, he pretended to be nonchalant and asked, "Senior brother Xu, if the two of us follow you, does that mean that no one will care about the rest of the people?"

"That's not the case. According to the usual practice, after our rising Sky Pavilion has chosen our people, the remaining people will be taken away by the other two pavilions." Lingchong looked at Zhaoming. "The mysterious Pavilion only picks old men. That Lin Yi you mentioned is so young, he must've been picked up by the weakest Pavilion, the Qingyun Pavilion. Hehe, that's a place famous for trash."

Grassroots unaffiliated cultivators did not have a strong foundation. Furthermore, because the newcomers were always the leftovers from the other two pavilions, the GreenCloud Pavilion's newcomers were always the weakest in terms of strength and potential. It was not an exaggeration to call them a place for trash.

"A place for trash? Then wouldn't they be bullied by us in the future?" Zhaoming's eyes lit up.

"You don't have to wait for the future, you'll be able to bully those trash in a bit. I'd like to see how proud that Lin Yi can be!" Xu lingchong smiled meaningfully.

"That's quite arrogant!" Zhaoming pretended to be excited, "it's just that when Shixiong Xu came to pick us up, this guy next to pinliang didn't even care about him. He didn't even want to come up. It's all thanks to pinliang that Shixiong Xu chose to join us. Otherwise, he would've been sent to the good-for-nothing shelter!"

"Oh? It's that kid! He doesn't look like much! Those with strength are called posturing, and those without strength are called idiots. I'll show you what it means to be an idiot!" Lingchong nodded faintly

before turning to pinliang. "But why did you abandon the dark and join the light? You used to work for that Lin Yi guy?"

"It's a long story. He took my woman and my little brother. I have nothing left, and one of my kidneys was cut off by him. If I want to survive, I have to pretend to be obedient to him. But now, I have a big backer like senior brother Xu. I'm not afraid of kidneys!" Pinliang said with a sad face.

"Damn, why are you so unlucky? It's a good thing you're with me, or else you'd be bullied to death!" Lingchong Xu didn't like pinliang, but he was one of his men now, and the guy was good with his words. He had accepted him.

While they were talking, the aerial spirit beast had already landed on an open space. In front of them was a magnificent Pavilion. In the middle of the gate, there were three huge golden words on a black background: welcome new pavilion.

At this moment, there were already people waiting in front of the gate. As soon as the flying spirit beast landed, a circle of people immediately surrounded it. The person in the lead had white hair and a child-like appearance. When facing others, he always had the demeanor of a master, but when facing Xu lingchong, he bowed and curried favor with her.

"This is the pavilion master of the welcoming new pavilion, Hu Yun Feng. Although the two of you have been selected by the rising Sky Pavilion, you will have to stay in the welcoming new pavilion to cultivate before you reach the foundation establishment stage. He will take care of you in the future." Xu Ling nodded to Hu Yunfeng and introduced him.

"Don't worry, young master Xu. As long as I'm here, the welcoming new pavilion will definitely not mistreat the two junior brothers. " Hu Yun Feng stroked his white beard and promised with a smile.

Although Hu Yun Feng was the pavilion master of the welcoming new pavilion in name, and it sounded very impressive, he was actually just a small team leader of the newcomers 'training camp. He was on a completely different level from the three great pavilions, the rising Sky Pavilion. Let alone the pavilion master, even an elder of the rising Sky Pavilion was a great figure that he had to do his best to climb up to and look up to.

The reason why he was able to sit firmly in the position of the pavilion master of the welcoming new pavilion was because he had the support of an elder of the rising Sky Pavilion. Naturally, he had to curry favor with Xu lingchong, the precious grandson of the third elder.

The position of the welcoming new pavilion's Pavilion master still had some benefits, and he still hoped to continue being the pavilion master. In the future, even if he had reached the end of the welcoming new pavilion, he would still need to have a strong network of connections to be able to survive when he was promoted to be a manager of the three great pavilions.

"So it's you, Pavilion master. No wonder you're so jealous of the bone immortal. I'm Kang Zhaoming, a new here. I'll be in your care in the future." Kang Zhaoming was in the spirit of sucking up to everyone.

Although he had already established a good relationship with Xu lingchong, who was a proper second generation cultivator, Xu lingchong was still an inner sect disciple of the rising Sky Pavilion. He would not be staying in the welcoming new pavilion permanently. The pavilion master in front of him was a good target for him to use in the future. To be more realistic, how he would fare in the welcoming new pavilion would completely depend on whether this Pavilion master would support him or not.

If Zhaoming could think of this, then pinliang naturally could as well. He didn't dare to disobey and quickly added, "I'm Zhong pinliang, I can at least help you with other things, but if you need anything in the future, just tell me. I'll be at your service. "

"You're too kind. You two junior brothers are both handsome and have young master Xu as your backing. Your future will definitely be bright." Seeing that the two of them were so understanding, Hu Yunfeng was naturally happy to push the boat along with the current and give them a hand. Not only could he please Xu lingchong, but he could also take in two more underlings, killing two birds with one stone.

It should be known that in the welcoming new pavilion, just because he was the pavilion master, it did not mean that his words carried enormous weight. There were still two vice Pavilion Masters behind him, who were eyeing him covetously.

He wanted to suppress his opponent and secure his position as the pavilion master. The key was to curry favor with the powerful elders of the rising Sky Pavilion behind him. The other key was to recruit as many underlings as he could. With more underlings, he would naturally have more say in the matter. Only then would he be able to truly be the master of the clan.

And what made Hu Yunfeng the happiest was that even though he wasn't weak now, he was still young and white-haired before breaking through to Sky Class late phase peak, and that's why he got his grandfather's face. On Sky Class Island, this was actually quite a shameful thing-the baby-faced guy might even be older than him! He really wasn't that old. He just grew up too quickly.

But Zhaoming's comment about him being like a celestial made him feel really good.

A moment later, the other two aerial spirit beasts that were lagging behind also arrived. Dongfang Badao's group also had someone to welcome them. However, it was not the pavilion master Hu Yunfeng, but the Vice Pavilion master of the welcome Pavilion!

This man's name was Feng Song. Like Hu Yunfeng, he had someone supporting him from behind. However, his backing was slightly weaker than Hu Yunfeng's. He was an elder of the mysterious Pavilion.

Chapter 3560 The Three Pavilion Masters

According to the profound secrets Pavilion's usual practice, Feng Song's age did not look young either. But his entire person had a kind of dignity that relied on seniority to take advantage of seniority.

Among the two vice Pavilion Masters, Feng Song was the one who posed the greatest threat to Hu Yunfeng's position as the pavilion master. Although his background was not as strong as Hu Yunfeng's, the newcomers chosen by the profound secrets Pavilion had basically all submitted to him. In terms of strength and appeal, he was not weak. He was currently Hu Yunfeng's biggest competitor.

As for the remaining vice Pavilion master, although he was of the same rank as Feng Song, his position in the welcoming Pavilion had been completely marginalized due to the lack of support from the GreenCloud Pavilion. Not to mention competing for the position of Pavilion master, he might not even be able to keep his position as the Vice Pavilion master. Even the new disciples of the GreenCloud Pavilion would at most address him as the third Pavilion master when they met. From this, one could see how awkward his position was.

If it wasn't for the fact that during the three Pavilion Summit, in order to maintain the balance of power, they had no choice but to arrange for a third Pavilion master, then the welcome new pavilion would have been Hu Yunfeng and Feng Song's world!

Compared to the first two groups, where the pavilion master and Vice-Master came out to welcome them, the last two, the miserable senior brother and Lin Yi, were completely ignored. Not only did they not see any important figures, but even the disciples of the welcome Pavilion didn't bother to pay them any attention. The GreenCloud Pavilion was a well-known place for good-for-nothing and was destined to have no future in this life. What was there to greet?

But what puzzled Lin Yi the most was that not only did the pavilion master not come, but the other people from the GreenCloud Pavilion also didn't come to welcome him? Even if they didn't have a big team, they should at least come for a bit, right?

This made Lin Yi feel that his Shixiong wasn't just spouting nonsense-even the worst of the pavilions wasn't as united as they thought!

Lin Yi wasn't the only one feeling depressed-even Xiao ran, who wanted to keep a low profile, was feeling the same. After all, everyone who came to Sky Class Island was at the peak of the common world. Even if they weren't overlords, they were at least the cream of the crop. When had they ever been ignored like this?

If everyone received the same treatment, there was nothing to feel unfair about. The problem was that the other party had an important figure coming out to welcome them, while they did not even have a low-level minion. The difference was too great.

This kind of differential treatment meant that he had already lost at the starting line from the beginning. It was easy to imagine how his days in the welcoming new pavilion would be.

The miserable senior brother had already expected this scene. Seeing the two's uncertain expressions, he could only awkwardly comfort them,""Although our GreenCloud Pavilion can't be compared to the other two pavilions, we do have a vice Pavilion master. Originally, we wanted to bring some people to welcome him, but the pavilion master called us out at the last minute for some other miscellaneous matters, so ..."

Lin Yi and Xiao ran looked at each other with a bitter smile. They knew that the welcoming Pavilion valued the newcomers very much from the grandiose attitudes of the other two sides, but the Vice-

Master of their own Pavilion was sent to do some chores at the last minute. He couldn't even come out to welcome the newcomers, which showed how weak his position was.

It was no wonder that even the internal department of the GreenCloud Pavilion was unable to achieve such unity. If it were any other newcomer who had been treated so coldly, if they were still able to obey the words of their vice Pavilion master, that would truly be a ghost.

It was a typical case of a bear in a nest!

"Let's go. There'll be a welcome ceremony in the main hall. Other than the few of you who were teleported here from the secular world, the other new people who were selected from the island are already there. I'll Take You There. " The miserable senior brother sighed.

Lin Yi and Xiao ran nodded-there was no point in grumbling now that things had come to this. They couldn't just switch sides and join the pavilion of hidden mysteries. They weren't that shameless, and even if they did, they wouldn't be accepted. They would've been picked already if they did.

He could only take things one step at a time.

After entering the welcome Pavilion from the main entrance and passing through a courtyard, the main hall was behind it. It was Grand and solemn.

Just as the poor guy said, there were already a lot of new people gathered here. There were about forty to fifty people, all selected from the various towns and villages on the island. Every one of them was at least Sky Class late phase, and even Sky Class peak late phase peak could be seen everywhere.

The newbies present had already spontaneously divided themselves into three small circles. The group in the middle consisted of a dozen people, each of whom was dressed in luxurious clothes and held their heads high. Their gestures were filled with a sense of superiority. Except for their own circle, they looked down on everyone else. Their voices were the loudest in the entire main hall, and they had the posture of natural leaders.

It was a familiar feeling-Lin Yi was reminded of how people in the city looked down on people from the countryside. It was the same.

"These new disciples were all selected by the soaring Pavilion. Each of them has a great background and are the second generation of cultivators. In the future, don't provoke these people, you can't afford to." The poor guy whispered to Lin Yi and Xiao ran, afraid that the two didn't know the details and would bring him disaster.

Lin Yi and Lin Yi finally understood-no wonder these people kept calling their family some elder or manager, they were all second generation cultivators! Although these people might not be very powerful, they all had deep backgrounds. If they really provoked the big shots behind them, it would indeed be a big problem.

At that moment, lingchong was walking past with Zhaoming and pinliang. Pinliang blinked at Lin Yi, and he nodded in understanding.

In a situation like this where they were new to the situation, letting pinliang join the skyward Pavilion was better than letting him stay in the GreenCloud Pavilion with him. At least he could get some useful information, which might come in handy in the future.

"Senior brother Xu, look, that guy with the pretentious face is Lin Yi." Zhaoming whispered into lingchong's ear. He couldn't wait for lingchong to deal with Lin Yi right now and embarrass him in public. He'd like to see how he'd be able to survive in the pavilion.

It was a pity that Xu lingchong did not follow his wishes. He was the grandson of the third elder of the soaring Sky Pavilion. If he were to deal with a newcomer from the secular world, not only would it dirty his hands, but he would also be laughed at by the second generation in his circle. He would not do something that would lower his status.

"I'll leave this country bumpkin to you. It's more satisfying to take revenge with your own hands, isn't it? don't worry, I'm behind you. It's just a matter of minutes for you to crush him. You'll get your wish later." Xu lingchong said indifferently.
