### Chapter 3561 A Plate Of Loose Sand

He didn't even bother to look at Lin Yi as he walked straight to the center. The second generation cultivators looked down on him, but they still greeted him respectfully, "young master Xu."

After all, not only was Xu lingchong stronger than them, but his background was also stronger than theirs. If they were to offend him, not only would they be in trouble, but even their family's background would be implicated. They would not do such a stupid thing.

"These two are from the rising Sky Pavilion, and they will be my men in the future. Please take care of them." Lingchong pointed at Zhaoming and Kang Zhaoming as he greeted the second-generation heirs.

The second-generation cultivators looked down on Kang Zhaoming and Zhong pinliang from the bottom of their hearts, but they accepted them reluctantly because of lingchong and the fact that the two were good with their words. Since these two people had latched onto young master Xu's thigh, they could be considered people with some sort of background.

As the two joined the second generation, Dongfang Badao and pugilist WUFA joined the left circle as well.

Unlike the arrogant second-generation practitioners, this circle was filled with people who weren't young. The youngest was at least forty or fifty years old, and their average strength was higher than the others. They were at least Sky Class late phase peak Masters. Although they didn't talk much, they all looked scheming, overbearing, and not easy to deal with.

"These people are all from the mysterious Pavilion. Although they don't have a deep background like the second generation cultivators, they are, after all, old. Their strength is generally much stronger than experts of the same level. It's best to hide from them if you meet them in the future." The bitter-looking brother continued to advise Lin Yi and Lin Yi, "And these guys are the most difficult to deal with, always taking advantage of their seniority. Although some people are older than them, they broke through to the Sky Class earlier, so they don't look old! These people's advantage was the pavilion master of the profound secrets Pavilion behind them! "It's said that the mysterious Pavilion's Pavilion master is one of the most powerful figures on our sky rank North Island. He's not easy to deal with, and he's very protective of his own people. Even the pavilion master of the rising Sky Pavilion is his junior! Therefore, we'd better not touch these people! You also know that in the secular world, there's such a thing as Pengci. We have it here too! If these old things can't handle it well, they'll blame it on you. At that time, if the pavilion master is still willing to stand up for a small matter, we'll still be the unlucky ones!"

Lin Yi and Lin Yi looked at each other speechlessly. They couldn't mess with a second generation cultivator, and neither could they mess with the old man. No matter who they met, they had to keep their tails between their legs. The Qingyun Pavilion was the weakest of the three pavilions-this was true.

The most depressing thing was that these old guys actually knew how to scam? Was this the cultivation world?

"Come on, let me introduce you to the new disciples of our GreenCloud Pavilion. They're also grassroots rogue cultivators like you, but they were selected from all over the island."

The poor guy led the two towards the last small circle. If the second generation from the ascending Pavilion gave people the impression of being arrogant, and the old men from the mysterious Pavilion gave people the impression of being strong, then the first impression this bunch of grassroots freelancers from the GreenCloud Pavilion gave people was that they were a bunch of loose sand.

Their average strength was the weakest out of the three circles, only sky Class late phase. There weren't even many Sky Class late phase peak, and those who reached completion were even rarer. They didn't have any strength or background. The dozen of them just stood there loosely, and when they

occasionally communicated with each other, they were all in a low voice. They didn't even have the confidence to speak a little louder, which showed how weak they were.

However, this small circle was divided into several groups, each doing their own things.

The miserable senior brother led Lin Yi and Lin Yi to the crowd and introduced them, ""Fellow brothers, these two beside me are new disciples from the secular world, Lin Yi and Xiao ran. They will be our future disciples, so you can all get to know each other."

Lin Yi was new here-he was stronger than everyone here, but he didn't want to show off. His main purpose here was to see the medical Saint and pill God Zhang Liju, not to fight with these people.

Therefore, he and Xiao ran cooperated and greeted the crowd. However, the crowd only looked at them coldly and was not even willing to greet them, let alone communicate with them.

"Hey, we're all new here and not familiar with each other yet. It'll get better in the future." The miserable senior brother's face suddenly turned red, and he laughed awkwardly to help himself out of the situation.

Even the poor Shixiong didn't expect these people to be so cold, and the most embarrassing thing was that he'd made a fool of himself so quickly. No matter what, he was still an outstanding disciple of the previous generation, and was appointed as a manager by the pavilion. He was one of the two managers of the pavilion! In the future, he would still be in charge of their daily cultivation, missions, and the distribution of cultivation resources. These people were not giving them any face.

"Ha ... It's fine, there's still a long way to go." Lin Yi patted the guy's shoulder in understanding. He had already seen that this poor senior brother was a good person, but he didn't have much prestige. His character wasn't tough enough, so even these newcomers didn't buy it. They simply thought that he was a good person who was easy to bully.

But what made Lin Yi a little confused was that he and Xiao ran were Sky Class late phase peak Masters, and that was why they were able to come to Sky Class Island. How did this group of people, who were only sky Class late phase, get here?

But it wasn't the right time to ask, and Lin Yi decided not to ask. He'd wait until there was no one around.

But just then, a man walked out from the group-it was the only sky Class late phase Peak Master in the group. Their age wasn't known, but they could tell from his appearance that he wasn't even thirty years old.

He walked in front of Lin Yi and looked at the two of them,"From the secular world? I can't believe there's someone in a country bumpkin place like the common world who knows how to train! This is really an eye-opener for me-coming to our Sky Class island's northern island must be the blessing of eight generations of our ancestors, right?"

As soon as he finished speaking, the other newcomers standing at the side also laughed. Originally, they, the grassroots individual cultivators, were the lowest in this place. They could only be submissive and not dare to speak. But after hearing these words, they suddenly realized that they were not the worst. There were actually people who were lower than them!

Even if they were all grass-root solo cultivators, the difference between the Sky Class Island and the secular world was like heaven and earth! The natives of the sky Island were naturally much more noble than the country bumpkins from the secular world!

Chapter 3562 Meng Jueguang And Meng Tong

At that moment, the group of people found a sense of superiority over Lin Yi and Xiao ran, and their cold expressions were replaced with laughter.

Lin Yi, on the other hand, didn't think much of it-he'd gotten used to hiding his emotions all the time he'd been in the common world.

However, Xiao ran's expression changed immediately! These guys act like quails in front of others and don't even dare to speak a little louder, but in front of us, they're acting like big-tailed wolves. Not to mention that they're grassroots rogue cultivators, but they call us country bumpkins? Compared to those arrogant and despotic second generation cultivators, this group of guys who only knew how to bully their own kind was even more hateful!

However, Xiao ran knew that he could only think about it in his heart. Back then, wasn't his house also crowded by those ancient sects? It was understandable that such a phenomenon would occur everywhere.

"Two junior brothers, please calm down. Take a step back and everything will be fine. You will be severely punished for fighting privately in the welcoming new pavilion." The poor Shixiong quickly tried to calm them down, afraid that the two would start fighting in a fit of anger. Not only would they be punished, but he would also be implicated.

Of course, there was one type of competition that was allowed, and that was a challenge. However, he was afraid that Lin Yi and the others would be at a disadvantage, so he couldn't tell them about it. After all, from his bitter senior brother's point of view, people from the secular world definitely didn't have as

solid a Foundation as those from the Sky Class Beidao! After all, the density of the spiritual energy in the world was incomparable to the incantation of a mental cultivation method!

In the past few years, there had been some Masters from the secular world who had successfully made it to the top and entered the high-level core of the various sects in Nakajima, but they were only a few.

Lin Yi nodded faintly. He'd seen too many of these people, and he was already numb to them. With his strength now, he could even kill these people in seconds! Even if he was facing his senior brother, he wouldn't be weak.

However, Lin Yi's purpose here was different. He didn't need to lower himself to the same level as these idiots.

However, from the performance of these people, one could tell that the reason why the GreenCloud Pavilion was the weakest among the three pavilions was not simply because they were grassroots rogue cultivators!

A pitiful person must have a hateful side to them. Whether it was in terms of strength or background, this group of people's starting point was naturally lower than those from the rising Sky Pavilion and the mysterious Pavilion, but they only knew how to act tyrannically within their own nest. It would be strange if they could still make the GreenCloud Pavilion stronger.

Seeing that Lin Yi chose to give in, Xiao ran naturally didn't make a move. He wasn't as strong as Lin Yi, and he was determined to keep a low profile. Naturally, he wouldn't rush out.

However, even if the two of them chose to give in, it didn't mean that the other party would let them go. The leader of the group walked up to the two of them and mocked, ""What's wrong? You don't seem to be convinced and want to spar with me? Alright, I, Meng Tong, am famous for being helpful. I'll do my best to spar with you guys and let you know the difference between sky-class Island and the secular world! Let's Have a Battle?"

"Hehe ... If you're willing, then we'll do as you wish. It's been a long time since I've hit anyone in the secular world, because no one dares to hit me. " Lin Yi smiled nonchalantly. He didn't want to cause trouble, but he wasn't afraid of trouble either. If this guy wanted to practice, then so be it. If he didn't get rid of these flies, then there wouldn't be much trouble in the future!

Plus, Lin Yi didn't even need to show his true strength when fighting someone like him-he'd just suppress it to Sky Class late phase peak, and he'd be able to kill him.

"Meng Tong, are you causing trouble again?" At this time, a deep voice suddenly sounded from behind them!

Lin Yi turned around to see a man in his thirties. He had a very strong aura, even stronger than his miserable senior, who was at the peak of the early Foundation Stage.

"This man's name is Meng Jue Guang. Just like me, he's also the manager of the welcoming new pavilion. His strength and ranking are both above mine, so you must not offend him in the future." The poor guy quickly introduced Lin Yi and Lin Yi in a low voice.

Yet another figure that could not be offended! Lin Yi didn't know whether to laugh or cry. He'd only been in the pavilion for a short while, and this guy had already said the same thing three times. It turned out that there wasn't a single person in the entire Pavilion he could afford to offend, no matter if it was inside or outside the pavilion. They were all gods.

They were both managers of the welcome Pavilion, but this Meng jueguang was much more impressive than the miserable senior brother. All the disciples of the GreenCloud Pavilion greeted him respectfully as he passed by. In contrast, no one on the miserable senior brother's side paid him any respect, except for Lin Yi and Xiao ran.

Seeing Meng jueguang appear, the previously haughty Meng Tong immediately bowed and greeted him. "How could I? I'm just introducing the situation to my two junior brothers from the secular world so that they won't embarrass our GreenCloud Pavilion in the future, right?"

"The two junior brothers from the secular world?" Meng jueguang looked at Lin Yi and Xiao ran meaningfully before speaking faintly, "That doesn't mean that a newcomer like you has the right to meddle in our Affairs. Junior Brother, since you've gone through so much trouble to bring these two junior brothers from the mortal world here, you'll be responsible for teaching them in the future. This is to prevent them from bringing in the bad habits of the mortal world and ruining our GreenCloud Pavilion's reputation."

"Miserable senior brother" was just a nickname. "Miserable senior brother" wasn't really a "miserable senior brother." However, Meng jueguang, as the eldest martial brother in charge of the GreenCloud Pavilion here, was calling this "miserable senior brother" by his nickname. No matter how one looked at it, it was a little disrespectful.

"Yes, senior brother Meng." On the other hand, the miserable senior brother didn't think that there was anything wrong with it. He simply smiled and nodded.

Lin Yi smiled faintly, but Xiao ran wasn't that scheming. His breathing was a little rushed.

Although this senior brother Meng jueguang's words were dignified, the disdain in his words and Meng Tong's were simply the same. Moreover, his words were clearly announcing to everyone that the two of them were trash that he looked down on, so he had thrown them to the miserable senior brother. In this way, wouldn't Meng Tong and the others become even more unscrupulous in the future?

Meng jueguang only glanced at the two and turned to Meng Tong, "Meng Tong, don't think that I'll be biased towards you just because we're from the same village. Let me tell you, not only will I not be biased towards you, but I'll be very strict with you in the future. Do you hear me?"

As soon as he said that, everyone's eyes changed again.

Senior brother Meng jueguang's words had a hidden meaning. If he was particularly strict with Meng Tong, didn't that mean that he valued Meng Tong?

Chapter 3563 Welcome Party

Moreover, the two of them came from the same village, so it was obvious that their relationship was much closer than that of the others. This wasn't a warning to Meng Tong. He was clearly announcing that Meng Tong was one of his own people. He was here to support Meng Tong.

"I know, I know. Ninth cousin, don't worry. I won't embarrass you." Meng Tong chuckled, his face filled with pride. He also addressed Meng jueguang as a relative in his village, as if he was showing off to everyone.

He'd already been one of the rarest Sky Class full Masters in the group, and now that he had Meng jueguang backing him up, he'd be the Big Brother of the newcomers in the future, without a doubt.

The situation was stronger than the person. Originally, the GreenCloud Pavilion's new disciples had been doing things their own way. After hearing Meng jueguang's words, the two small circles that had been divided up immediately surrounded Meng Tong. In order to live a more comfortable life in the future, they had to quickly pick a side. Otherwise, if others made things difficult for them, their days would be miserable.

Of course, under these circumstances, the relationship between the two of them was not reliable at all. These people were all fence sitters who had gone to mingle with Meng Tong for the sake of benefits. No wonder the GreenCloud Pavilion was so chaotic and had such a bad atmosphere.

With that, the two were completely excluded from the new group, standing with their miserable brother-they were completely alone.

"Brother Lin, it seems like our situation isn't looking too good." Xiao ran said with a bitter smile.

Humans were social creatures. No matter where they were, if they were excluded from the group, their end would generally not be good, especially now that they had just arrived, and the strength of each other was not very outstanding.

Lin Yi, on the other hand, shook his head indifferently, "Don't worry, don't we still have our miserable senior brother? we won't suffer too much. "

In the common world, Lin Yi had always been a freelancer-even if he stood at the top of the world, it was because of his strength, not his backing!

If he'd known about his background earlier, Lin Yi wouldn't have been able to stand up for himself. Lin Dongfang is my grandfather, and Yang Ming is my master. Isn't that invincible?

Comparing backers was a show of weakening one's strength.

"Heh, don't expect too much from me, Lin Yi junior. I may be one of the two managers, but all the power is with senior Meng. The people in the pavilion trust him more, and there are many things I can't say for sure." The miserable senior brother shook his head with a bitter smile. In fact, he also had a backer, an elder of the GreenCloud Pavilion. However, his backer went to the eastern island to complete a mission, and then disappeared without a trace.

However, in order not to worry Lin Yi and Xiao ran, he consoled them,""However, don't worry, my two junior brothers. Within my authority, I'll definitely do my best to help."

Xiao ran laughed awkwardly. Even his senior brother had no confidence in his words. It seemed like his future days would not be easy.

Lin Yi, on the other hand, didn't really mind-he had the Jade space as his trump card, after all, so he didn't have to worry about practicing. His main task now was to familiarize himself with the environment and find out more about the elixir God Zhang Liju as soon as possible before making his next move.

While they were talking, the pavilion master of the welcome Pavilion, Hu Yunfeng, and the Vice Pavilion master, Feng Song, walked to the high platform in the middle of the hall, one after another, instantly attracting the attention of all the newcomers.

This was obviously the welcome ceremony that the miserable senior brother had mentioned earlier. Logically speaking, this was the best opportunity to establish his prestige in front of all the new disciples. The main pavilion master and two vice Pavilion Masters of the welcome Pavilion should have appeared together. However, the third Pavilion master of the GreenCloud Pavilion was still busy with his so-called miscellaneous Affairs. He didn't even have the opportunity to show his face. It could be said that he was pitiful.

Hu Yunfeng looked around, and wherever his gaze landed, the noise immediately quieted down. Even the group of second generation cultivators in the middle was no exception. This was not because they had taken the initiative to give face, but because they had been completely intimidated by Hu Yunfeng's aura. When one's strength reached a sufficiently high level, a casual move could intimidate people's hearts. And this Hu Yunfeng was able to sit in the position of the welcome Pavilion's Pavilion master, so he obviously did not have an undeserved reputation.

"New disciples, no matter where you come from, no matter what background you have, since you have come to our Welcome Pavilion, you are all outer sect preparatory disciples from today on. Everyone is treated the same."

"For the next year, the welcoming new pavilion will provide you with unimaginable cultivation resources. There is only one rule for the distribution of these cultivation resources, and that is, the strong will get them. The higher your ranking, the more cultivation resources you'll get, and vice versa. Everything you've earned is based on your own strength. Blaming the heavens and blaming others is the behavior of the weak. "

"Within a year, if you can successfully reach the foundation establishment stage, then congratulations, you will be able to enter the three great pavilions that everyone dreams of, obtain better cultivation resources, and improve your strength and cultivation. However, if you can't reach the foundation establishment stage within a year, then I'm sorry, the welcoming new pavilion doesn't support idle people, let alone useless people. You'll be sent to the toughest place on the island to do hard labor, and you won't be given any cultivation resources. If you can't break through, you'll have to spend the rest of your life in poverty, and you won't be able to take a single step out. "

"The above are the most important rules of the welcome Pavilion. Do any of the newcomers have any questions?" Hu Yunfeng looked at the crowd below the stage and asked in a clear voice.

"May I ask when the first ranking competition will be held today?" Someone in the audience asked.

"Of course not. The first ranking competition is scheduled for today next month," Hu Yunfeng said as he stroked his white beard.

"If that's the case, how should we distribute the cultivation resources this month? I'm afraid it'll be very difficult to achieve true fairness!" The man continued to ask.

Everyone's ears immediately perked up. This question was very reasonable. After all, not all resources could be divided equally like medicinal pills. Many natural resources such as cultivation caves couldn't be divided fairly. It was impossible to let everyone exchange cultivation caves every day. If that happened, not only would they be exhausted, they would also die of exhaustion.

"According to the usual rules, the first month's resources will be distributed according to the order of the three great pavilions. The skyward Pavilion will be the first, followed by the profound secrets Pavilion, and lastly the GreenCloud Pavilion. As for how the newcomers will be distributed, that's an internal matter of each Pavilion. It will be discussed by your two senior managers, and I won't ask any questions." Hu Yunfeng explained.

Chapter 3564 Spiritual Jade

As soon as these words came out, the whole place was in an uproar. The group of second-generation cultivators from the rising Sky Pavilion were naturally very proud of themselves. As for the newcomers from the other two pavilions, their faces were not so good, especially those from the GreenCloud Pavilion, who all had bitter faces.

"You're biased towards this bunch of second generation cultivators from the start. What's the point of treating everyone equally!" The grassroots individual cultivators below the stage were immediately excited.

If the rules of the welcome Pavilion had always been to favor the second generation of cultivators, then it would have been acceptable. Although the crowd was dissatisfied, they could only accept it. However, Hu Yun Feng had put on a fair and just attitude. He had clearly given this group of grassroots individual cultivators a beautiful hope, but reality was so cruel. No wonder they were so excited!

Hu Yunfeng's expression changed slightly when he heard the voice, but he quickly returned to normal. He looked at the crowd and said, "You all came from the cultivation world or the cultivation tribes on the island. What do you think is fair in the cultivation world? The ascending Sky Pavilion and the mysterious Pavilion are indeed stronger than the GreenCloud Pavilion, and this arrangement is made according to their overall strength. If you think you have the ability to enter the GreenCloud Pavilion in the future and turn it into the number one Pavilion on our heaven rank North Island, then I'm afraid that the GreenCloud Pavilion will be given priority for the best immortal's cave, right? So, what was favoritism? I'm doing this out of fairness and justice, with no selfish motives. I've arranged the best immortal's cave for you, and I don't have any benefits for myself, right?"

Although these words were said in a dignified manner, it was telling everyone that the strong were stronger than the weak. However, although the people of GreenCloud Pavilion were uncomfortable hearing this, there was nothing they could do.

Hu Yun Feng's few words had already displayed the cruelty of cultivation to everyone, especially to these weak grassroots rogue cultivators of the GreenCloud Pavilion. He wanted to go, but he couldn't.

Fair? When had there ever been true fairness in the world? The strong were respected. This was the most fundamental truth of this world. It was the same everywhere.

After Hu Yunfeng's speech, the welcome ceremony came to an end. For all the newcomers, what happened next was what they were most concerned about-the division of the cave abodes.

According to Pavilion master Hu Yunfeng, the best cultivation cave abodes were naturally reserved for the second generation cultivators of the skyward Pavilion. The slightly inferior ones were reserved for the old men of the mysterious Pavilion. The worst ones were reserved for the new grassroots rogue cultivators of the GreenCloud Pavilion.

The general situation was already like this, and it was impossible to change it by relying on the strength of the newcomers. For the grassroots newcomers of the GreenCloud Pavilion, the most realistic thing at the moment was to find a relatively good immortal cave among the worst immortal caves. After all, even the worst batch of cultivation abodes had good and bad ones.

He couldn't afford to offend the second generation cultivators of the rising Sky Pavilion, the old man of the mysterious Pavilion, and the remaining people of the GreenCloud Pavilion. All of them were grassroots rogue cultivators without any Foundation, so they should be able to compete with each other.

Under the lead of Meng jueguang and the miserable senior brother, everyone headed towards the GreenCloud Pavilion's immortal's cave. It wasn't too far from the welcoming new pavilion master, just in the mountain range behind them.

"Brother Lin ... The spiritual Qi here is really dense. Compared to the spiritual Qi in the mortal world, it's so thin that it's almost negligible. The difference is more than a hundred times. No wonder everyone dreams of coming to Sky Class Island." Xiao ran said to Lin Yi.

Lin Yi couldn't help but nod. The two of them came from the common world, and they had a deep impression of this. He hadn't felt this when he was in the welcoming Pavilion, but now that he had stepped into the mountain, he immediately felt the spirit Qi in the air. This was simply unimaginable in the secular world.

However, Lin Yi had the Jade space, so he didn't need too much spiritual Qi. He pretended to be surprised.

"Hey! You're indeed a country bumpkin who has never seen the world. You're making a fuss over such a small amount of spiritual Qi, you're really a disgrace to our GreenCloud Pavilion. " Meng Tong, who was walking in front, turned his head and sneered.

The others all laughed along. They were all nervous about splitting up their homes, but they regained their confidence when they saw Lin Yi and Xiao ran, these two bumpkins from the secular world. Needless to say, the two worst cultivation cave abodes would definitely belong to these two.

Xiao ran's face reddened at the mockery, but Lin Yi didn't react much to it. He only smiled faintly. These people were nothing more than clowns with twisted minds, trying to make their presence known in front of him after being pressured by the two pavilions.

Seeing this, the miserable senior brother could only smile bitterly and help the two of them out. "Junior brothers, you may not know this, but the mountain we're standing on isn't an ordinary mountain. It's a Spirit Mountain, and there's a huge spirit jade mine buried under it. That's why there's spirit Qi coming out from the ground and dissipating into the air. It's much denser than anywhere else on the island."

"Spirit jade mine? Could it be that this spirit jade mine contains the spiritual energy of heaven and earth?" Lin Yi's heart skipped a beat-this reminded him of the energy stones in the common world.

"That's right. You can mine spirit Jade from the spirit jade mine, and spirit Jade contains very rich spiritual Qi. It's an excellent item to assist in cultivation. According to the rules, the welcoming new pavilion will give you a piece of spirit Jade every month. You'll know when you use it." The senior brother explained.

A piece of spiritual Jade would be given out every month? This treatment sounded pretty good, but he didn't know what the specific effects would be. Compared to his Jade space, he didn't know which was better.

However, from what Lin Yi could feel, even if this spiritual Jade was stronger than an energy stone, it didn't have as much energy as the space in the Jade.

But there was something else Lin Yi wanted to know more urgently. Spiritual jades sounded like they were of a higher grade than the energy stones from the common world, but they still contained the spiritual Qi of heaven and earth. If his Jade space could charge the energy stones from the common world, did it have the same effect on spiritual jades?

For example, could he use the spiritual Jade that others had used to recharge? If the spiritual Jade was really better than the Jade space, and he could charge it, it would be a great weapon for cultivation!

This question was related to his future cultivation plan. When he got the spiritual Jade, he had to test it out as soon as possible.

"Senior brother ku, are these cultivation residences related to this spirit jade mine?" Xiao ran, who was at the side, suddenly asked.

"That's right. The cultivation cave is located on top of this spirit jade mine. Although the concentration of spirit Qi is quite different according to the location, even the worst one is at least ten times denser than the outside. As for the better ones, it's hundreds or even thousands of times denser."

#### Chapter 3565 Allocation Of Cave Abodes

Lin Yi and Xiao ran finally understood-the worst was only ten times, while the better ones were hundreds or even thousands of times. The difference was like heaven and earth-no wonder these people were so excited about the distribution of the caves.

The miserable senior brother sighed and continued, ""For you newbies, spiritual jades are very difficult to obtain at other times except for the one given out every month. Therefore, the most important thing that will affect your cultivation progress is the cave. Those with a good cultivation home will naturally progress at a tremendous pace. Those with a bad cultivation home will only improve a little compared to the outside world,"

The words were directed at Lin Yi and Lin Yi, but the others heard it as well. Everyone fell silent.

Although the ranking competition would be held a month later, the starting line of this first month would naturally be far ahead of the others. Moreover, the strength of these grassroots rogue cultivators from the GreenCloud Pavilion was much weaker than those from the rising Sky Pavilion and the profound secrets Pavilion. Therefore, although it seemed that they still had a chance to make a comeback by relying on the monthly ranking competition, the difficulty was simply as difficult as ascending to the heavens.

If they were already weak and got the worst cultivation resources, they would not be able to get a better result in the ranking competition. They would only continue to be ranked last and enjoy the worst cultivation resources. Such a vicious cycle would only widen the gap between them. It would be difficult for them to turn the tables in this life. From this, it could be seen that the decline of the GreenCloud Pavilion had been destined from the very beginning.

At this moment, Meng Tong suddenly sneered and said, "Heh, even if I can't compare to those people from the heavenly Pavilion and the mysterious Pavilion, as long as this old man can become the strongest in the GreenCloud Pavilion, I will still be able to ascend to the GreenCloud Pavilion in the future and advance a step further. However, as for the country bumpkins of the secular world, I advise you to not hold such unrealistic expectations. Just be at ease and prepare to do hard labor after a year, hahaha!"

That's right, the GreenCloud Pavilion was inferior to the ascending Sky Pavilion and the mysterious Pavilion, but as long as they could trample on their own people, they would still be able to soar in the future!

After hearing Meng Tong's words, the newbies "eyes all lit up. They stared at Lin Yi and Xiao ran as if they were prey. Persimmons should always be crushed by the soft ones. These two country bumpkins from the secular world were the weakest persimmons!

Lin Yi and Xiao ran looked at each other helplessly! They didn't do anything, but they somehow became the target of everyone! What happened to them after they came to Sky Class Island? But it didn't matter-he'd deal with it as it came. Lin Yi was a strong man who'd killed his way up from the common world, so why would he be afraid of these local grassroots?

As he spoke, Meng jueguang had already come to a stop. At the foot of the mountain, there was a dense collection of cultivation caves. There were fifteen in total, each of which was not very large, about the height of a person, and only about ten square meters in area.

Meng jueguang's gloomy gaze swept across everyone's faces before he finally opened his mouth and said, "I've set up three cultivation caves on this mountain for you. The one on the peak has the densest spiritual Qi, but it's now given to the rising Sky Pavilion. The one on the mountainside has the second most spiritual Qi, which now belongs to the mysterious Pavilion. And the one given to you bunch of trash is the one at the foot of the mountain in front of you, the worst cultivation cave in the entire

mountain! Work harder and cultivate harder, so that I can have a few more Foundation Stage experts as soon as possible. Otherwise, I won't be able to raise my head in front of the other two Pavilion managers, and don't blame me for coming back to deal with you!"

Everyone looked at each other and didn't dare to say anything. They had already accepted the reality. Since they had entered the GreenCloud Pavilion, which was a place for trash, the treatment they received was the worst. This was something that they had long expected.

Among them, only Meng Tong and a few others had the qualifications to become Foundation establishment experts. Others didn't even dare to think about it.

"However, even the worst cultivation abode has good and bad ones." Meng jueguang pointed to the doors of the cultivation caves behind him and said, "You see the number marks at the entrance? let me tell you, from number 1 to number 15, the bigger the number, the thinner the spiritual Qi inside. The spiritual Qi in number 1 can barely reach a hundred times that of the outside, but after number 10, it's usually only about ten times that of the outside."

At this point, Meng jueguang counted the number of newcomers present. There were exactly fifteen people, no more and no less. He couldn't help but reveal a playful expression. "Oh, that's right. What I said just now is an old story. In the past few years, there hasn't been any new people sent from the secular world. The GreenCloud Pavilion usually only recruits twelve or thirteen new people, and the highest number is fourteen at a time. Therefore, cave number fifteen has been abandoned for a long time. The spiritual Qi has also been blocked by the pavilion master's formation technique, and it has only been reopened today. I suggest that unlucky Junior Brother move out and cultivate in the open, hahaha!"

Upon hearing this, everyone's expression suddenly changed. They were all on tenterhooks, afraid that they would become the unlucky ones. If they were assigned to cave abode No. 15, they would really be unable to find their graves even if they cried.

"Alright, we'll start distributing the cave abodes now. Those whose names are called, step forward." As Meng jueguang spoke, he took out the name list and began to allocate the immortal's caves, showing no intention of discussing with his miserable senior brother.

One had to know that the pavilion master Hu Yun Feng had made it very clear that the distribution of the cave abodes was decided by the two senior brothers in charge of each Pavilion. In other words, the senior brothers should also have the right to speak on this matter.

Seeing the group of new people looking at him with a playful look, the bitter senior brother's face couldn't help but turn pale. If he kept silent on this critical occasion, he wouldn't be able to have any prestige in front of these new people in the future.

"Uh, senior brother Meng, can you let me take a look at the allocation of the cave abodes?" Under the watchful eyes of the crowd, the miserable senior brother mustered up his courage and said.

"What's there to see? these cave abodes aren't even given to you!" Meng jueguang shot him an annoyed glance.

Meng jueguang's words were not wrong. The three Pavilion Masters and six stewards of the welcoming new pavilion all had their cultivation cave abodes set up on a separate mountain next to them, but this was not what the miserable senior brother was asking about at all. He could only mumble awkwardly, "Uh, but ..."

Without waiting for the miserable senior brother to finish speaking, Meng jueguang had already waved his hand and began to select names to allocate the immortal's caves. "Qiao hongcai!"

"Here!" Someone among the newcomers immediately stepped forward. As for the miserable senior, he could only awkwardly retreat. No matter how much he had an opinion, Meng jueguang was completely ignoring him, so what could he do?

Chapter 3566 Who Dares To Challenge?

His own strength wasn't a match for the other party, and his only backer in the GreenCloud Pavilion had disappeared without a trace. He couldn't compete with the other party in any aspect. Other than continuing to be a coward, what else could he do?

Lin Yi patted his shoulder to comfort him. The poor guy was a nice guy, but no matter where he was, honest people were always bullied.

Lin Yi turned to the newcomer-he had some impression of him. He was the loudest one among all the people who called Hu Yunfeng "unfair."

"Ninth cousin, don't forget me." Meng Tong, who was in the crowd, immediately became anxious. With Meng jueguang's support, he had thought that cave abode number one was already in his pocket. He had not expected that the first person Meng jueguang called out to was not him, but Qiao hongcai, who he had never met.

"What's the hurry?" Meng jueguang glanced at him with dissatisfaction before turning to Qiao hongcai, who had stepped forward, and sneered.

Just before he left the welcoming new pavilion, he had been specifically called over by Pavilion master Hu Yun Feng to give some instructions, and the target was Qiao Hong Cai. Who asked this idiot to shout the loudest just now? you're a grassroots rogue cultivator who's nothing, yet you dare to call for bullsh \* t fairness! Didn't anyone teach you that in the world of cultivation, fists are the fairest thing?

Being stared at like this by Meng jueguang, Qiao hongcai suddenly felt that something was wrong. At first, he thought that he had left a deep impression in the heart of this senior brother steward, which was why he had taken care of him first. Now that he thought about it, although he had left a deep impression, it might not be a good thing! As the saying goes, the bird that takes the lead gets shot!

As expected, Meng jueguang looked at him and sneered, "Congratulations, Junior Brother Qiao. From now on, cave abode number fifteen is yours."

Cave abode number fifteen at the foot of the mountain! It was the worst immortal's cave in history, which was not much better than being in the open air!

Qiao hongcai's mind couldn't help but be in a daze. When he heard the gloating laughter of the other newcomers around him, he finally came back to his senses. He clenched his fists, and blue veins appeared on his forehead. "Why do I have to go to the worst immortal's cave? Senior brother Meng, I didn't offend you! Wasn't this immortal's cave distributed according to strength? Since the ascending Sky Pavilion and the profound secrets Pavilion are the strongest and have the best, then even if we are the weakest, we can still distribute it according to our strength, right? I'm a Sky Class late phase peak, after all-I'm not full, but I'm at least average! How did I get assigned to cave number 15?"

"You didn't offend me, but I can't afford to offend anyone you've offended!" Meng jueguang sneered coldly, "why? is Junior Brother Qiao not satisfied with my arrangements?" Then you can Sue me! Go to the great Pavilion master of the welcoming new pavilion and Sue me!"

This order had clearly been given by Hu Yunfeng, so Meng jueguang wasn't afraid of Qiao hongcai at all!

"I ..." Qiao hongcai gritted his teeth. Although he was unwilling, he didn't dare to contradict Meng jueguang in public. At least he still had cave number fifteen. Although it was the worst cave in history, it was better than nothing! Although he didn't know if Meng jueguang had any backing, he was really not afraid of Meng jueguang telling on him. At this moment, he could only suppress his anger and say, "I don't dare to. But since we're supposed to break through to the foundation establishment stage, and I've given you the worst cave, you won't blame me if we fail!"

"Hollering? You said you don't dare, but you still dare to talk about conditions with me? If you're still not satisfied, then that's fine. I've always been a fair and Democratic person. " "I'll give the best cave abode number one to Meng Tong, but I'll also give you a chance to challenge him. If you can beat him, cave abode number one will be yours. According to the rules of the cultivation world, the strong are respected. Don't say that I didn't give you a chance! If you can't even defeat him, I can't possibly give cave abode number one to you, right? Would Junior Brother Meng Tong also say that I'm being unfair? It's my fault that you can't break through to the foundation establishment stage?"

Hearing Meng jueguang's words, Meng Tong immediately jumped out excitedly and provoked Qiao hongcai, "Do you want to fight? if it wasn't for my ninth cousin, I wouldn't even bother with a Sky Class late phase peak like you, but I'll give you a chance today! If I lose, I'm willing to take cave number 15, and if I can't reach the foundation establishment stage, I won't blame the heavens or anyone and let senior brother Meng scold me!"

"Qiao hongcai, what do you think about Junior Brother Meng Tong's noble character and unquestionable integrity?" Meng jueguang was very satisfied with Meng Tong's reaction. Now, he wanted to see what Qiao hongcai had to say.

Qiao hongcai looked at the eager Meng Tong, and his face suddenly turned green and purple. He was only sky Class late phase peak, and he just broke through not long ago-his foundations weren't that stable yet, and his opponent was Sky Class late phase peak full phase! They were at least two levels apart, how was he supposed to fight? If they were to really fight, they might not even be able to take a casual move from him!

Seeing that Qiao Hong Cai had retreated, Meng Tong said with a smug and disdainful expression, "Gutless trash, I think you shouldn't be called Qiao hongcai in the future, just call him trash Qiao!"

Meng jueguang had expected this and smiled nonchalantly. Turning to the rookies, he said, "What I said just now doesn't only apply to him, but to all of you as well. If you're not satisfied with the cave abode assigned to you, it's no problem. As long as you can beat Meng Tong here, cave abode number one is yours! Of course, if you have a good relationship in private, you can also exchange immortal's caves in private. I won't interfere with that!"

Meng Tong stuck out his chest cooperatively. There were fifteen newbies here, and other than Lin Yi and Xiao ran, he was the only one who was Sky Class late phase peak. No one could beat him. As for Lin Yi and Xiao ran, these two bumpkins from the secular world, even if they were both at full cultivation, he wouldn't put them in his eyes. After all, he was a Sky Class island's earth cannon, and even if they were at the same level of strength, his true strength was much stronger than the weak foreigners from the secular world. There was no way to compare them.

Seeing that no one dared to say anything, Meng jueguang continued to call out names. "Lin Yi!"

"Here, senior brother Meng." Lin Yi replied faintly and walked out of the crowd. He was here to look for Zhang Liju, not to cause trouble. Lin Yi didn't think much of what this guy was doing, but he wouldn't stop him. The cultivators who could reach this place should have made preparations long ago. In the cultivation world, the strong were respected. If you were not as good as others, there was nothing to say.

#### Chapter 3567 Lin Yi's Challenge

"Cave abode number 14!" Meng jueguang looked at Lin Yi with a mocking smile. "You should really thank this useless Junior Brother Qiao. If it wasn't for him stirring up trouble at the orientation, cave number 15 would've been prepared for you. Now, although cave number 14 is the worst compared to the other caves, it's still a good deed done by your ancestors compared to cave number 15."

This Lin Yi was an outsider, and he'd been through a lot of trouble, so it'd be weird if Meng Jue was nice to him.

Without waiting for Lin Yi to speak, Meng jueguang continued, "Xiao ran, cave abode number 13!"

"Here!" Xiao ran walked to Lin Yi's side and thought for a moment before whispering to Lin Yi, ""Brother Lin, why don't you come to my cave number 13 to cultivate together in the future? although it's not much better than cave number 14, it'll still be of some help."

Xiao ran was already under Lin Yi's care when he was in the common world, and now that he was on Sky Class Island and saw that Lin Yi got cave number fourteen, and that he was better than him, he naturally had to return the favor. As far as he was concerned, a drop of kindness should be repaid with a spring! Otherwise, Xiao Chen would be letting down his own conscience!

"Hehe ... Cultivate together? Poor Junior Brother, didn't you teach them the rules?" Meng jueguang's strength was high, so his hearing was naturally good. When he heard Xiao ran's words, he immediately laughed mockingly.

"Uh ..." The senior brother's face was full of embarrassment. He could only step forward and explain to the two of them, ""Junior brothers, the amount of spiritual energy produced by the cultivation cave is fixed every day. If two people cultivate together, the effect will be shared. Even if it's cave number one, if two people go in, the effect will at most be similar to that of cave number seven or eight. Moreover, after a long time, the spiritual energy of the cave will be overdrawn, and the effect will slowly deteriorate. So, the pavilion master has stipulated that each cave can only be used for one person to cultivate."

"I see." Lin Yi understood and patted Xiao ran's shoulder, "I appreciate your kindness, but the cultivation method I practice is a bit special. It doesn't have a high requirement on the concentration of spiritual energy. Cave No. 14 is enough. Besides, didn't this senior brother Meng say that there's still a chance to change it?"

A special cultivation technique? These words made Meng jueguang sneer in his heart. He'd been on the North Island for so many years, but he'd never heard of a cultivator who didn't need spiritual energy, unless it was a physical cultivator! But Lin Yi was clearly a spiritual master, wasn't that just bragging? However, from Meng jueguang's point of view, Lin Yi was just pretending to be strong and didn't want people to look down on him.

As for the last part of his sentence, Meng jueguang didn't think much of it. Lin Yi may have come to the island with the strength of Sky Class late phase peak, but a peak in the common world might not even be as strong as the Sky Class late phase on the North Island.

As for Lin Yi, he probably didn't know the situation yet. He thought that he was at the top of the world in the common world, and he was still the same after coming to Sky Class Island. He didn't know what he was doing!

Why was the Sky Class Island called Sky Class Island? Didn't that mean that on the island, there were as many sky rank powerhouses as dogs? Sky Class was just the most ordinary of disciples here, and they thought they were Masters?

"Brother Lin, you're preparing to ..." Xiao ran was shocked. He couldn't help but admire Lin Yi when he saw Lin Yi nod calmly.

Like Lin Yi, he wasn't happy with Meng jueguang and the others, but he didn't have the confidence to challenge a local Sky Class late phase peak. After all, no one knew how big the gap was between the Sky Class Island and the secular world, and the risk was huge.

While they were talking, Meng jueguang had finished distributing the rooms. The newbies were all happy and sad at the same time-those who got a good one were naturally overjoyed, while those who got a bad one were all frowning as if they'd lost their parents. The only thing that comforted them was that the three worst caves had probably been taken by Lin Yi and the other two unlucky bastards.

"I'll say it one last time. If you're not happy with me, come out and challenge Meng Tong. If I hear you talk behind my back again after today, don't blame me for being impolite."

Meng jueguang swept his cold eyes over the newcomers. He had made up his mind to establish Meng Tong's prestige today. After all, Meng Tong was his direct subordinate. He would take this opportunity to establish his prestige and help him manage these newcomers in the future.

"Who else is unconvinced? hurry up and step out!" Meng Tong said arrogantly. This was a chance that Meng jueguang had specially prepared for him to show off, and he would not let it go so easily. It would be best if some blind fool could step forward and show these people his strength!

Unfortunately, no one dared to challenge Meng Tong despite his anticipation. Even if they weren't assigned to the ideal residence, they'd only criticize him in their hearts. Challenging a Sky Class late phase peak like this? Wouldn't that be asking to be humiliated?

"Tsk, a bunch of cowards without guts!" Meng Tong cursed in disdain. When he glanced at Lin Yi, his eyes suddenly lit up, "That country bumpkin from the secular world, didn't you say you wanted to challenge me to a battle? what's the matter? are you a coward now?"

"Hehe ... I didn't say anything because I wanted to give this chance to the others. But since everyone is so humble, I can only force myself to do it. It would be impolite to refuse." Lin Yi chuckled as he walked out of the crowd. "Maybe everyone thinks you're too easy to beat up, so they're not willing to beat you up!"

"A chance to show off? Too easy to beat?" Meng Tong laughed wildly as if he had just heard a big joke. "You, a country bumpkin from the secular world, actually think this is an opportunity to show off? The ignorant are truly fearless. Today, I'll teach you the difference between the Sky Class Island and the secular world!"

Lin Yi smiled nonchalantly and turned to Meng jueguang. "Senior brother Meng, since you're the one who asked us to challenge you, I don't think you'll violate the rules of the welcome Pavilion. I just want to know, what if we're killed or injured?"

"Fists and feet have no eyes. As long as it's a formal fight, and both sides have agreed, no one will be held responsible for the death or injury." Meng jueguang sneered, but his face was full of ridicule.

As far as he was concerned, even if Lin Yi was Sky Class late phase peak, he was still a fake from the common world-even a normal Sky Class late phase peak could take him down, let alone a local master like Meng Tong. He actually boasted shamelessly and asked what to do if he was killed or injured. People from the secular world really knew how to act tough!

#### Chapter 3568 Victory In One Move

However, people who had never seen the world all felt that they were the most awesome. Wasn't a frog at the bottom of a well the same?

"Don't worry, no matter what, we're still fellow disciples of the GreenCloud Pavilion. At most, I'll only cripple you, not kill you!" Meng Tong clenched his fists as he walked towards Lin Yi with a sinister smile.

The surrounding people hurriedly retreated to the side and looked like they were watching a good show. After all, this was the first battle they'd witnessed since joining the pavilion. On one side was the strongest of the new disciples, Meng Tong, and on the other was Lin Yi from the secular world. They were both very interesting people, so they naturally had to enjoy the show.

"Junior Brother Lin Yi, if you can't do it, just admit defeat. This way, he won't be able to attack you after the battle." The guy said to Lin Yi before backing away. Like the others, he didn't think Lin Yi would win, and if Lin Yi didn't admit defeat, he could die.

Xiao ran had seen Lin Yi's strength in the common world, but he was still worried. He couldn't tell Lin Yi to stop, though, so he said, ""Good luck, brother Lin!"

Lin Yi nodded to the two and turned to Meng Tong, "Please,"

"Hmph, you still dare to act tough in front of me when you're in trouble. You really don't know how to spell the word 'death'!" Meng Tong laughed as he pounced in front of Lin Yi and used the twentieth form of the thousand legs without any warning.

This was a martial technique he was used to. A thousand legs had the power of a thousand catties, and it was powerful enough to kill even a local expert of the same level, not to mention that the other party was just a parallel import from the secular world.

Everyone's face changed as they were hit by the shockwave. Only Lin Yi, who was the one involved, wasn't flustered at all. He didn't use any fancy moves and used the fifteenth style of the raging fire Eight Trigram palm!

He didn't want others to think that he was too strong, so he didn't use his strongest move! However, just the 15th style of the wild fire Eight Trigrams palm was enough to kill a Sky Class late phase peak-he didn't want to take Meng Tong's life, since he probably wouldn't be able to stay on the North Island anymore.

Therefore, his purpose was only to establish his power and make people feel that he was not easy to bully, but he would not kill people at the first moment! If Meng Tong could back down, that would be great. If not, then he would bring it on! He didn't kill Meng Tong, so those big shots wouldn't stand up for him.

Bang! Bang! BOOM!

The leg and palm collided, and Meng Tong was sent flying by Lin Yi's palm. His internal organs felt as if they had shifted positions, and he didn't have time to struggle to get up. He vomited blood on the ground, which was a shocking sight.

Hiss!

Everyone went silent, only gasping as they looked at Lin Yi in shock!

To be able to send! Sky Class late phase peak flying with one palm ... What kind of power was this? were all the people in the secular world this overbearing?

It wasn't just the newbies-even Meng jueguang was looking at Lin Yi in disbelief. Meng Tong may be a grassroots practitioner, but he wasn't weak at Sky Class full cultivation, and yet he was defeated in one move by a common world weakling! This was too surprising!

"Thanks for letting me win ..." Lin Yi smiled lightly. In order to not expose his Foundation Stage strength, he had deliberately suppressed his strength to Sky Class full master, but even so, Meng Tong was still vulnerable in front of him.

"You can't even defeat a parallel import from the secular world. You're really useless!" Meng jueguang looked at the battered and exhausted Meng Tong on the ground and cursed in exasperation.

This was a special opportunity for Meng Tong to show off in front of the newbies, but Lin Yi took all the attention away from him.

The strong were respected, and these newbies were all fence sitters. The only reason they tried so hard to please Meng Tong was because he was strong and had a strong background, but now that Lin Yi took him down in one move, the situation changed.

Although these people wouldn't go to Lin Yi directly because of their big senior brother, Meng jueguang, they knew that it wouldn't be easy for Meng Tong to recruit them in the future from the way they looked at Lin Yi. At the very least, she had to ask Lin Yi, this mysterious guy.

Under everyone's gazes, Meng Tong struggled pathetically for a while before he finally got up and looked at Lin Yi with eyes full of hatred. This time, he had lost a lot of face in front of everyone. Being defeated by a country bumpkin from the secular world in one move was simply a great humiliation that would be difficult to wash away in this life! If word of this got out, he could forget about having a foothold in the welcoming new pavilion in the future!

"You look like you're not convinced, but it's okay. The match has just started and I've only made one move. I'm just warming up and haven't gotten into the right state yet. Why don't we continue?" Lin Yi looked at Meng Tong indifferently. It was obvious that the guy wasn't convinced.

More? F \* ck! Warm up? Not in the right state?

Seeing that everyone's eyes were focused on him, Meng Tong's expression changed again, and he subconsciously took two steps back.

Although Lin Yi didn't kill him just now, he was still injured by the fifteenth style of the wild fire Eight Trigram palm. Didn't he see that he was already spitting blood on the ground? At this time, he was struggling to get up because he was holding on to his last bit of face. If he were to be hit again, he would be killed on the spot!

A few of the newbies couldn't help but laugh when they saw Meng Tong being scared off by Lin Yi's words. Meng Tong was just showing off and acting like he was invincible, but he was scared to this extent after one palm. The contrast was huge!

He was just saying that Lin Yi was acting cool, but it seemed like he was the one who said that! He was really boasting shamelessly. Now, he failed to act cool and became an idiot!

"What are you laughing at? The battle between fellow disciples was just a sparring match. Was it that funny? You're laughing because you think you're good enough. Do you want to go up and try? And Meng Tong, you idiot, how long are you going to embarrass me? Quickly retreat!" Meng jueguang's face was livid. If it weren't for the fact that so many people were watching, he would have beaten Meng Tong up himself.

From the very beginning, Meng Tong had made it clear that he would support him. But now, he had become a laughing stock. This was not only embarrassing for Meng Tong, but also for Meng jueguang!

Chapter 3569 I Won't Even Give You Cave Abode No. 14

Feeling Meng jueguang's murderous gaze behind him, Meng Tong's heart skipped a beat, but he didn't want to lose face. He quickly puffed out his chest and said, "Hmph, what's a country bumpkin like you so proud of? you really don't know the immensity of heaven and earth! Just now, I was just thinking about my fellow disciples, so I didn't use my full strength. But I didn't expect that you would actually use your full strength to deal with me! If it wasn't for my strength, any other Sky Class late phase peak would've been dead already! My moment of soft-heartedness allowed you to take such a big advantage-do you really think you can beat me, a Sky Class Island full circle master? Truly a vile person intoxicated by success!"

Meng Tong's words made the rookies look at Lin Yi thoughtfully. These words saved some of Meng Tong's face. From his arrogant behavior just now, it was normal for him to be careless and not use his full strength!

After all, if someone were to say that a Sky Class Island master couldn't beat a normal World Master in the same level of strength, that would be too unreasonable-it was completely against common sense!

"So that's how it is. I was wondering why you were so easily crippled!" Lin Yi nodded in realization. "Like I said, it's easy and pleasant to beat you. But since it was a moment of carelessness, then please do your best and let's do it again. This is also fair and just. "

Lin Yi looked at Meng Tong with a half-smile after he finished speaking. This guy was clearly out of breath, but he still found an excuse. He was a dead duck that refused to admit defeat.

"Uh ..." Meng Tong's expression suddenly froze. Under everyone's gaze, he could only continue to say, ""Hmph! You're pretty mean, aren't you? I was already seriously injured by your sneak attack just now, and you still want me to fight you. You clearly want to kill me! How about this, just you wait-I'll show you what a real Sky Class full master looks like in the ranking competition a month from now! No... What is a Foundation Stage expert! When the time comes, I'll make you cry in rhythm!"

"A month later? That's good too. I'll train hard and maybe I won't need to ambush you. " Lin Yi said indifferently.

Since Meng Tong was so stubborn, Lin Yi didn't bother to force him anymore. He'd already achieved his goal of establishing his power, and if he continued to force him, he was afraid that the higher-ups of the pavilion would be disgusted, which wouldn't be good. He immediately turned to Meng jueguang and said, "Senior brother Meng, the rules you just set should still be valid, right?"

As for Meng jueguang, he didn't care if he offended him or not. In any case, his actions today had thoroughly offended him, and there was no way for the two of them to reconcile.

"Hmph, of course it still counts." Meng jueguang glanced at Meng Tong with an ashen face, but he did not deny it. After all, this was a rule that he had set in public. He couldn't just slap himself in the face and deny it.

"That's good, then I'll count on you, senior brother Meng. " Lin Yi smiled faintly. Everyone thought he'd ask Meng Tong for cave number one in a hurry, but he turned to Qiao hongcai instead, "Brother Qiao, I want to use my cave abode number 14 to exchange for your cave abode number 15. Is that possible?"

"Ah?" Qiao hongcai froze, looking at Lin Yi in disbelief. He'd already accepted his fate, but Lin Yi wanted to exchange caves with him!

Although cave abode No. 14 at the foot of the mountain was also the last among all the caves, it was still much better than cave abode No. 15, which was the worst cave abode in history and had been abandoned halfway. If cave abode No. 15 could make everyone despair, cave abode No. 14 could still surpass others as long as it worked hard!

One made people feel despair while the other gave them hope. The difference between the two was like the difference between heaven and earth!

"This ... Is this really okay?" After he reacted, Qiao Hong was overjoyed.

He wasn't stupid, and he could guess why Lin Yi did that. Although doing so would likely offend Meng Tong and even his big brother Meng jueguang, he was not afraid of it. Whether he offended them or not, it was impossible for these people to accept him. Otherwise, they would not have assigned cave abode No. 15 at the foot of the mountain to him without saying anything.

Now that Lin Yi had shown him kindness, he was able to change from fifteen to fourteen. It was like a meat pie that fell from the sky, it could even change the path of his life! How could he not be overjoyed!

"Of course you can. Senior brother Meng just said that we can exchange cave abodes in private." Lin Yi said indifferently as he looked at the dark-faced Meng jueguang.

To Qiao hongcai, this was something that could change the course of his life, but to Lin Yi, it was just a small matter. It was Lin Yi's first time meeting Qiao hongcai, but from what he'd seen before, he wasn't a very strong man, but he was hot-blooded, and that was rare in the cold world of practicing. Lin Yi had a good impression of him, and he wouldn't be stingy when it came to a small favor like this.

"Then I'll have to thank brother Lin!" Qiao hongcai didn't bother looking at Meng jueguang and Meng Tong's expressions anymore. He agreed happily and walked behind Lin Yi.

After what happened today, Meng Tong and the others would hate him even more in the future. If he wanted to stay here, he had to team up with Lin Yi and the others. Although Lin Yi came from the secular world, he had a good impression of him and was worth befriending.

Lin Yi looked at Meng Tong and said, "then, cave number fifteen is mine now. Meng Tong, according to senior brother Meng's rules, I'm going to use it to exchange for your cave number one. You won't go back on your word, right?"

"What? You actually want me to live in the worst immortal's cave in history?" Meng Tong was still wondering why Lin Yi didn't exchange caves with him after winning, but instead exchanged caves with Qiao hongcai. What was he thinking? Could it be that he didn't want his own immortal's cave?

He'd been quite happy at first, but now that he'd realized Lin Yi's intentions, it was like a bolt of lightning had struck him. It took him a while before he realized what was going on, and his eyes darted between Lin Yi and Qiao hongcai, as if he wanted to skin them alive.

One had to know that even if he was asked to exchange cave number one for cave number fourteen, it was already enough to make him clench his teeth. He didn't think that Lin Yi would play even more ruthlessly-he wanted him to live in cave number fifteen, the worst cave in history!

This was a F \* cking irreconcilable hatred! The thought of living in the worst immortal's cave in history for the next month and becoming the laughingstock of all the newcomers made Meng Tong feel like he was about to have a mental breakdown!

## Chapter 3570 Respect Senior Brother Meng

"Ninth older cousin brother, you have to help me!" Meng Tong could only look at Meng jueguang. At a time like this, only his ninth cousin could decide his fate. As long as Meng jueguang said that it was invalid, everything would be fine.

Meng jueguang glared at him hatefully. If it wasn't for this useless piece of trash, he wouldn't have fallen into such an embarrassing situation. The words he had said before were already like water that had been spilled. How could he take them back with so many people watching? If he were to go back on his word at this time, not only would Meng Tong become a laughingstock, but even Meng jueguang would become a laughingstock in the welcoming new pavilion. He would be unable to lift his head in front of the stewards of the other two pavilions!

Under everyone's gaze, Meng jueguang could only grit his teeth and say, "This is the rule of the welcoming new pavilion. Everyone must obey it without exception! Even I have to obey it!"

Meng Tong felt as if he had lost his parents, but he could only swallow his anger under Meng jueguang's pressure. Lin Yi, on the other hand, smiled faintly, "Senior brother Meng is wise."

Meng jueguang gave a noncommittal "en," but his praise was as disgusting as eating a fly, the kind of fly that had just flown out of a cesspit.

But immediately, Lin Yi turned to Xiao ran, "Xiao ran, I'll exchange my cave abode number one for your cave abode number thirteen, is that okay?"

Changed again? The crowd went into an uproar. Lin Yi exchanged his number fourteen for Qiao hongcai's number fifteen to attack Meng Tong. It was understandable, but this guy wanted to exchange his number one for Xiao ran's number thirteen. No one could understand!

If it was someone else, they would be overjoyed to get cave number one at the foot of the mountain. Why would they take the initiative to exchange for cave number thirteen? Was there something wrong with his brain?

Could it be that he was purely noble and unquestionable? The world of practicing had always been cruel, and if this Lin Yi was able to stand out from the common world, he couldn't be this childish, right? could he have some other intentions?

"Uh ... Brother Lin, this is too valuable. I can't accept it!" Xiao ran was stunned for a moment before he quickly waved his hand and refused.

He and Lin Yi came from the common world together, so he was naturally closer to Lin Yi than the other newbies. It was natural for them to take care of each other, but the problem was that cave one was too important. It was so important that he might not be able to return the favor even if he did everything for Lin Yi in the future!

Of course, cave number one was the dream of all the new disciples, and Xiao ran was no exception. With his cultivation level of Sky Class late phase peak, if he used it with the effect of cave number one, he would be able to become the top disciple of the Qingyun Pavilion in the future, let alone compete with the people from the rising Sky Pavilion and the mysterious Pavilion!

This was an irresistible temptation to anyone, and it was the same for Xiao ran and Lin Yi!

Lin Yi did say that his practitioner's art was special, and that it didn't have a high concentration of Qi, but anyone with eyes could tell that it was just an excuse. No matter how weird or insane a practitioner's art was, the more Qi there was, the better it would be. There was no such thing as the stronger the Qi, the worse the effect.

"Just accept it, brother Xiao. If it really doesn't work, we can exchange it after you use it for half a month." Lin Yi said with a smile, but his words were undoubted, not giving Xiao ran a chance to refuse. "It's decided then, unless you want to cut off all ties with me in the future!"

He had to take revenge and repay kindness-this was Lin Yi's principle. Xiao ran's attempt to bring him to cave number thirteen was a good thing, and Lin Yi had to return the favor. Besides, they both came from the secular world, and they would be allies in the future. It might be a good thing for Lin Yi to help Xiao ran improve faster.

Seeing Lin Yi's determined attitude, Xiao ran hesitated for a moment before agreeing, ""Then ... Alright, I can't thank you enough for your great kindness. In the future, I'll be willing to follow brother Lin's lead."

Being born in a declining ancient house like house Xiao, Xiao ran was used to the fickleness of human nature, and he'd seen all sorts of schemes and intrigues, but this was the first time he'd come across someone like Lin Yi. He was only sky Class full phase, but his intuition told him that this Lin Yi in front of him was no ordinary person.

No matter if it was a show of gratitude or a long-term investment, Xiao ran knew that from today on, he was labeled as Lin Yi's ally. From now on, he would be in the Ying Xin Pavilion with Lin Yi-they would be together for good or bad.

At this time, all the newbies looked at Lin Yi in a different way. Their eyes were full of respect just now, but now, there was a bit of mockery on top of respect.

It seemed like Meng Tong was right-this Lin Yi guy was really good at acting tough. He only won by a fluke just now, and now he was acting all high and mighty. He really didn't know his place. Without the assistance of cave number one, his strength would not improve as fast as the others in a month. It would be fun to watch if he ended up losing the ranking competition.

He's just a country bumpkin who was lucky enough to get into the secular world. What's the point of being awesome? Even if he wanted to form a gang, he didn't have to do this, right? If you lose a month later, do you really think Xiao ran's side will still look up to you?

Wasn't it stupid to follow a weakling?

Lin Yi didn't seem to notice the change in the expressions of the people around him. He looked at Qiao hongcai, who was standing beside him, and decided to play nice, "Brother Qiao, I'll give cave number thirteen to you. I'll stay in cave number fourteen. I'll respect senior brother Meng's arrangement. After all, this cave was assigned to me by senior brother Meng."

"Ah? This ... Good. " Qiao hongcai was already a little numb at this time. This was the first time he'd seen a loner like Lin Yi, and this was nothing compared to what he'd just done. He cupped his hands at Lin Yi, "Brother Lin, thank you. If you need anything in the future, just let me know."

Although Qiao hongcai didn't say that he would follow Lin Yi's lead like Xiao ran did, he still called Lin Yi "brother Lin" and said that he had something to tell him. The meaning was obvious.

This bastard! Meng jueguang's blood was boiling as he looked at the scene before him. This was a good chance to build up his reputation, but with Lin Yi messing things up, it'd become a one-man show!
