

Bodyguard 3571

Chapter 3571 Something's Wrong With Elder Jiao

Lin Yi had even started redone the caves in front of everyone. This was a complete provocation to a big Senior Manager like him who had all the power! One had to know that even a Senior Steward like him didn't dare to point his finger at these things under his oppression!

It was a pity that they'd already made it clear that they were allowed to exchange caves in private-this was one of the pavilion's rules, after all. Meng jueguang couldn't stop them even if he wanted to, and he could only slap himself in the face. If he hadn't blurted out the rule, this newcomer wouldn't have been able to take advantage of him like this.

"Hmph, what are you still gathering here for? disperse and go back to your own cave abodes! As for the two of you in the secular world, you can go and ask for your future cultivation mantras from the paupers!" Meng jueguang was pissed off just by looking at these new people, especially Lin Yi. If it weren't for the rule that inner disciples couldn't attack outer disciples, he would've attacked Lin Yi already. He was just a country bumpkin from the common world, who the hell was he?!

It was a pity that inner sect disciples were not even allowed to challenge outer sect disciples, unless the outer sect disciples had already advanced to the foundation establishment stage! He could only seek revenge in other ways in the future.

Since the eldest senior brother steward had spoken, the group of newbies looked at each other and could only disperse, eager to experience their own cultivation cave abodes.

"Ninth cousin, you have to help me-you're not really letting me live in that cave number fifteen, are you? how am I supposed to beat that damn Lin Yi in a month's time if that happens?" Seeing that most of the people had left, Meng Tong ran to Meng jueguang's side and complained.

"Hmph, who can you blame for your own failure? you can't even defeat a counterfeit from the secular world. You've really lost all your face!" Meng jueguang cursed angrily. He had had high hopes for Meng Tong and had been prepared to train him to be his right-hand man, but now he had gotten himself into trouble before he could even do anything.

Meng Tong's face suddenly turned red, and he hurriedly explained, "Ninth cousin, don't you know how strong I am? I was just careless and let Lin Yi take advantage of me. I wanted to give him some face, but he attacked me so badly!"

"That's true," Meng jueguang said thoughtfully, "that brat is indeed sinister. If we were to fight fair and square, there's no reason for a local Paragon like you to lose to a parallel world trash like him. "

"That's why I'm saying that I'll definitely beat him up in next month's ranking competition. However, if ninth cousin brother really lets me live in cave number fifteen at the foot of the mountain, it'll be hard to say." Meng Tong quickly said. What he was most afraid of was that Meng jueguang would no longer care about him. If he lost such a powerful backer for no reason, he would have no place to cry to.

"Hmph, how can I go back on my words in public? Listen up, kid, whether you want to live there or not, you're going to stay in cave number fifteen at the foot of the mountain!" Meng jueguang shot him a stern look, causing Meng Tong to quiver in fear.

After a moment's pause, Meng jueguang slowly said, "But you don't have to worry. You may be living in the worst cave, fifteen, but that Lin Yi wants to live in fourteen, which isn't much better than yours. I'll find a way to give you more spirit Jade, and it'll be enough for you to shake him off by a large margin. You'll be able to use the worst cave and trample him under your feet, and it'll be more satisfying to get your revenge! This also proves that you're stronger than Lin Yi to begin with-if you weren't stronger than him at the start, how could you beat him in a worse training environment?"

"Yeah! Ninth older cousin brother is indeed brilliant!" Meng Tong's eyes lit up with excitement.

For newcomers, there were two main cultivation resources. One was the cultivation cave, and the other was the spiritual Jade. In comparison, the effect of the spiritual Jade was far better than that of the cultivation cave abodes, especially compared to the inferior cultivation cave abodes at the foot of the mountain. The effect was hundreds or even thousands of times better. Otherwise, spiritual Jade would not have become the first choice for most people to help them break through to the foundation establishment realm.

However, even so, there were two disadvantages to spiritual Jade compared to cultivation caves. One was that it was rare and hard to come by, especially for newcomers. The second was a one-time consumable. If one absorbed it with all their strength, the heaven and earth spiritual Qi inside would be completely consumed in two or three days at the fastest, or four or five days at the slowest. It was not like a cultivation cave that could be used for a long time.

According to the rules, the GreenCloud Pavilion would distribute a piece of spiritual Jade to the newcomers every month. Although this process seemed fair, it was important to note that there were differences in the size of the spiritual Jade. The ones in charge of the distribution of spiritual Jade were Meng jueguang and the other senior stewards. When the time came, it would be up to Meng jueguang to decide the size of the spiritual Jade! As for the nominal senior brother in charge, bitter bamboo, he was directly ignored by them!

Putting aside Meng jueguang and Meng Tong's plans, Lin Yi entered cave number fourteen after informing his miserable senior brother, Xiao ran, and Qiao hongcai.

He didn't need to use any mantras, so he didn't know if Xiao ran needed it or not. If Xiao ran needed it, his miserable senior brother wouldn't make things difficult for him.

After looking around, Lin Yi realized that all the Qi in the cave came from the ground, and the Qi was around eight to ten times denser than outside. In the secular world, this would be a Holy Land for practicing, but Lin Yi was already used to the high concentration in the Jade space and didn't care at all.

According to this, even the best cave at the top of the mountain wouldn't be as good as the Jade space, let alone the one at the bottom of the mountain. This was why Lin Yi gave the cave to Xiao ran and Qiao hongcai. It'd be crazy if Lin Yi still didn't have the confidence to guard a Treasure Mountain like the Jade space.

After closing the door, Lin Yi sat down cross-legged and entered the Jade space.

On top of each cultivation cave, there was a forbidden spell. After a new person entered the cave, the forbidden spell would be activated. Outsiders were not allowed to enter without permission. This was also to prevent people from being disobedient and sneaky taking advantage of other people's absence to occupy other people's cave. After all, the production of heaven and earth spiritual energy in each cave was limited in a certain time.

When changing the cave dwelling, it was necessary to ask a Foundation Stage expert to help remove the forbidden spell, and then re-open the forbidden spell.

This was Lin Yi's first time in the Jade space since he'd been transported to Sky Class Island, and the scene in front of him surprised him.

"Elder Jiao!" Lin Yi couldn't help but be surprised at elder Jiao's strange state.

Elder Jiao was standing on the ground as usual, but for some reason, he was like a transparent shadow, not moving at all!

The elder Jiao before was just a clone, but he could still see it-it was alive, but this was the first time he'd seen something like this.

Chapter 3572 Three Distinguished Guests

"Elder Jiao? Hey ... Jiao?" But no matter how Lin Yi called out to him, he didn't respond!

He'd get angry if Lin Yi called him Jiao before, but now he really didn't.

"Kid, stop shouting. This old thing has been like this since just now." The ghastly thing's voice came from Lin Yi's side, giving him a fright!

"Eh ... Senior ghost, you're awake? What do you mean it's been like this since just now?" Lin Yi didn't expect the thing to wake up.

"He was like this when you came to Sky Class Island from the mortal world." The ghastly thing said indifferently.

"Uh ... No way? If I go to Sky Class Island, will I affect elder Jiao? It seems like ... What he said before was true!" Lin Yi sighed, but he was a little confused. "But senior ghost, why are you fine?"

"What do you mean I'm fine? Don't tell me you're looking forward to something bad happening to me?" The demonic thing was instantly enraged, "how can I be the same as him?" I originally came from Sky Class Island, who knows how he got here?"

"Uh ... It was a slip of the tongue." Lin Yi laughed dryly to calm the thing down. He was a little surprised, "So you're from Sky Class Island?"

"Naturally!" "I don't mind talking to you more now," the ghastly thing said indifferently, "I'm quite satisfied with your strength for now!" Do me a favor in the future. It'll be your way of repaying me for helping you so many times!"

"Alright, as long as it's within my ability!" Lin Yi didn't reject it. After all, the ghost had helped him a lot. He even left his puppet clone in the villa in the common world to protect his friends and family.

"Didn't that old thing say that he was going to pass on some memories to you? You didn't receive it?" "But my guess is that this Jiao yazi was like a puppet-like terminal before this. He could move on his own, but he was controlled by a mother behind him. I suspect that after you came to Sky Class Island, the mother lost contact with him. In other words, he couldn't receive the mother's command signal, and that's it ..." The ghost combined his own situation with Lin Yi's. "Although I can still establish a connection with the puppet, this connection is already very strained. It can only be maintained when your family is in danger and I give orders to the puppet to fight the enemy. But now, I can't feel what he sees or where he is! So, if elder Jiao's parent isn't as strong as me, or if they didn't expect him to come to Sky Class Island, it's reasonable to lose contact with him. "

"So that's how it is!" Lin Yi was a little disappointed, but he knew that if what the ghost said was true, he wouldn't need to think about healing elder Jiao for now.

However, what puzzled Lin Yi was the fact that he didn't receive any information at all. Could it be that he could only unlock his memories when he reached a certain level of strength? Elder Jiao probably wouldn't lie to him, so he'd just wait!

Other than elder Jiao, there was also Skybolt pig lying in the Jade space. Lin Yi brought Skybolt pig in consideration of his treasure-hunting nature, but he was unconscious now. Fortunately, there was no threat to his life. It seemed like he just needed to rest in the Jade space for a while and he would recover.

It seemed that even if the spirit beasts were in the space of the jade pendant, they were more or less affected. This teleportation array should be specially designed for human cultivators!

Lin Yi decided to stabilize his Tiandao level first, which was in the early Foundation Stage.

He'd just broken through to the early Foundation Stage, and his Foundation wasn't very stable yet-he needed to stabilize it as soon as possible.

Four hours later, Lin Yi suddenly opened his eyes. He felt the forbidden spell in his cave shake, but it wasn't the violent kind. It was more like a message, like someone in the secular world rang a doorbell.

He stood up and removed the forbidden spell, and walked out of the cave to find the other newbies coming out of their own caves with confused faces. They seemed to have received the same message as him.

Xiao ran and Qiao hongcai moved closer to Lin Yi as soon as they saw him. The three of them had formed a small team after the change of caves, and Lin Yi was naturally the leader.

At the same time, the miserable senior brother who was standing not far away also walked over to the three of them.

"Greetings, senior brother ku." Lin Yi and the other two greeted. Not only Lin Yi and Xiao ran, but even Qiao hongcai didn't dare to show any disrespect. Of course, this was all for Lin Yi's sake. Otherwise, even if he didn't ignore this manager like the others, he wouldn't have greeted him so politely.

"Greetings, junior martial brothers." Seeing the three of them greeting him together, the miserable senior brother was actually a little excited. Ever since he had taken the position of the steward senior brother, he had never enjoyed such treatment.

Although if this matter had happened to any other Senior Steward, it would have been natural for even more newcomers to take the initiative to greet him, but he was different. From the first day he took office, he had been directly suspended by the powerful eldest senior brother Meng jueguang. He was completely an invisible person on the edge.

He was the one who did all the dirty work, but he held no power at all. He had a weak personality, and he had no restraint or deterrence on the newcomers. If anyone dared to get close to him, Meng Jue would make life difficult for them. If he still wanted people to treat him with respect, then that would be a real miracle.

But now that he had Lin Yi and the other new disciples under him, he finally regained some of his dignity as a manager. He couldn't help but tear up as he swore to himself that he couldn't be weak and unprincipled like before, even if it was for these new disciples. At least, he couldn't let them be bullied too badly by Meng jueguang.

"Brother ku, was it you who activated the forbidden spell in our cave?" Lin Yi asked.

The miserable senior brother nodded. "That's right. It was senior brother Meng's orders. He went to welcome a few distinguished guests and asked me to call you out first."

Welcome a few distinguished guests? To call everyone out in such a big formation, could it be that some Big Shot had come from above?

As everyone looked at each other, Meng jueguang had already brought his men over. To Lin Yi's surprise, they were all familiar faces. There were three of them in total. The one in the lead was the emissary from the rising Sky Pavilion, followed by Kang Zhaoming and Zhong pinliang.

Chapter 3573 Canvassing For Votes

What were they doing here? Could it be that Kang Zhaoming had encouraged this Messenger to cause him trouble?

Lin Yi's heart skipped a beat. With Zhaoming's vengeful personality, it was only natural that he'd come looking for Lin Yi for revenge if he'd found himself a sugar daddy. They'd signed a peace treaty back in the common world, but now that they'd all joined the pavilion, the Treaty didn't mean much to them.

Lin Yi didn't say anything as he watched them walk over slowly. He had to play it by ear. The emissary was strong, but he himself was an early Foundation Stage master. Even if he really fought with him, he might not be at a disadvantage. Can't you just run if you can't win? Moreover, the welcoming new pavilion had its own rules. So, it shouldn't allow these people to casually attack the new disciples.

"Young master Xu, please wait a moment. I'll introduce these new people to you, in case they don't know who you are and offend you." Meng jueguang nodded and bowed to Xu lingchong with a fawning expression.

Although the other party was the young master of the rising Sky Pavilion, and strictly speaking, he had no relationship with the manager of the GreenCloud Pavilion, it would be extremely stupid to neglect him because of this. Don't forget, the pavilion master of the welcoming new pavilion, Hu Yun Feng, had the backing of an elder of the rising Sky Pavilion. A casual word from this young master Xu could cause Meng jueguang to be annihilated in a matter of minutes.

Xu lingchong lightly nodded her head. Only then did Meng jueguang turn to face the GreenCloud Pavilion's new disciples. Immediately, his expression changed to one of dignity as he said in a clear voice, "Listen up, this young master Xu lingchong beside me is the grandson of the third elder of the rising Sky Pavilion. He's also the senior brother in charge of the inner sect of the rising Sky Pavilion. I don't think I need to explain how distinguished his status is. Hurry up and greet senior brother Xu!"

"Greetings, senior brother Xu." The new disciples of the GreenCloud Pavilion hurriedly greeted him in unison.

"No, thanks." Xu lingchong impatiently waved his hand. He had no interest in meeting these trashy GreenCloud Pavilion newbies at the bottom of the hierarchy. He turned to Meng jueguang and ordered, "Let's get down to business and stop wasting my time. "

"Alright, alright," Meng jueguang quickly replied and turned to the crowd. "Young master Xu is here for the new Deacon. Although this has nothing to do with you, each of you has a right to vote once, so I still have to explain it to you."

"As we all know, in addition to the three Pavilion Masters, each of the three pavilions has two senior managers who are responsible for everyone's daily cultivation, resource allocation, and task allocation. There are a lot of complicated matters to handle."

"In order to better manage you new disciples and enhance the Brotherhood among you new disciples, the welcoming new pavilion has specially set up a new Deacon position in addition to the six managing senior brothers. The responsibility is to uniformly distribute some low-level tasks such as cleaning, cooking, and so on to the new disciples of the three pavilions. This new Deacon will be elected by all the new disciples through a joint vote. Only those who have more than two-thirds of the votes will be elected. Do you understand?"

A group of rookies suddenly understood, and those who were slightly smarter quickly figured out the trick.

Although the position of this new Deacon was only in name responsible for distributing some of the lowest-level tasks and did not involve any cultivation resources, it was only an appearance. In fact, this position was extremely important for any newcomer.

There were three reasons for this. The first was that he was the only newcomer Deacon in the welcoming new pavilion. He was naturally the role model for all the newcomers. Even if it was for the sake of the entire welcoming new pavilion's face, it was inevitable that some of the cultivation resources would be allocated to him. Otherwise, if the representative of the newcomers, the role model, couldn't even pass the Foundation Stage in the end, wouldn't it make everyone laugh their teeth off?

Secondly, although the new deacons were only in charge of distributing some of the lowest level tasks, as long as they did it well, they could establish a wide network among the newcomers of the three pavilions, which would be of great benefit to their future development. To give a very simple example, no one was willing to do the task of cleaning the outhouse. If I assigned it to others but not you, then wouldn't you be grateful for my good?

Third, since the new disciple Deacon was a position in the welcoming Pavilion, it was inevitable that there would be benefits. Even if it was not as generous as the senior disciple in charge, there would still be some subsidies. Compared to the other new disciples, it was natural to win at the starting line.

After thinking through these three points, the minds of the GreenCloud Pavilion's new disciples immediately became active. Since the position of the new Deacon was to be voted by the people, did that mean that they would also have a chance? If he sat on the position of a new Deacon, wouldn't he also be able to soar in the future?

However, when they saw the overbearing gazes of Xu lingchong and the others, their faces instantly stiffened. They immediately reacted. To the new disciples of the GreenCloud Pavilion, this was simply an unrealistic fantasy!

Among all the new disciples of the three pavilions, the votes had to exceed two-thirds to be elected. What kind of concept was this?

This meant that not only did he have to conquer all the new disciples of his own GreenCloud Pavilion, but he also had to conquer at least half of the new disciples of the rising Sky Pavilion and the mysterious Pavilion. Was this possible? Let alone those second-generation cultivators from the rising Sky Pavilion, even those old men from the profound secrets Pavilion wouldn't pay attention to you. You want them to vote for the trash newbies from your GreenCloud Pavilion? dream on!

"According to our past experience, the new Deacon is usually the new disciples of the rising Sky Pavilion. There were a few times when the deacon was snatched away by the mysterious Pavilion. However, this has never happened in our GreenCloud Pavilion." The poor guy explained to Lin Yi and the others.

Lin Yi nodded, as he expected this. This group of second-generation cultivators from the rising Sky Pavilion would never put the new disciples of the other two pavilions in their eyes. On the other hand, the old men from the profound secrets Pavilion could still compete with them because of their strength. As for the GreenCloud Pavilion, they could only be bystanders in this kind of matter. To them, the only difference was whether they would be conquered by the rising Sky Pavilion or the profound secrets Pavilion, that was all.

"It seems that everyone has understood. That's good." Meng jueguang was already used to this kind of thing, and he wouldn't have any unrealistic ambitions to fight for a new member of his GreenCloud Pavilion. He turned to Kang Zhaoming and said, "This is Kang Zhaoming from the rising Sky Pavilion, junior Kang. He's also the candidate that young master Xu supports this time. Everyone should know what to do during the voting tomorrow morning, right?"

Lin Yi finally understood-so Zhaoming wasn't here to cause him trouble, he was just using his tiger skin to get votes. What did this guy say to make lingchong so supportive of him? At the very least, Zhong pinliang, who was also with lingchong, didn't get such good treatment.

Chapter 3574 There Are Three Who Object

As for the other new disciples, they were all silent. They couldn't help but look at Meng jueguang with a strange expression. Even if a new disciple of their own GreenCloud Pavilion didn't have the ability to compete for the position of new Deacon, as the eldest senior brother of the GreenCloud Pavilion's manager, he was solicitously canvassing for votes for outsiders. This was too disappointing!

"Brothers and sisters of the GreenCloud Pavilion, I'll leave the voting to you all. If I, Kang Zhaoming, take the position of the new disciple, I'll treat you well in the future!" Zhaoming took the chance to make a promise.

Of course, his words were purely lies. If he really became the new Deacon, wouldn't the lowest level of dirty work fall on the heads of the new disciples of the GreenCloud Pavilion? could it be that he would let the second generation of cultivators of the soaring Pavilion do the dirty work? Not to mention the second generation cultivators of the rising Sky Pavilion, even those powerful old men of the mysterious

Pavilion were not people he would want to offend easily. The easiest to bully would be the trash newcomers of the GreenCloud Pavilion.

"Hehe, Junior Brother Kang can rest assured. We GreenCloud Pavilion's new disciples don't have any good points, but we do have one. We are absolutely honest and obedient. Just wait to become the new disciple's Deacon. At that time, don't forget this elder brother!" Meng jueguang chuckled.

Zhaoming may be a new member of the common world like Lin Yi, but he had Xu lingchong, the young master of the rising Sky Pavilion, protecting him. Naturally, he was worth sucking up to.

"Then I'll have to trouble senior brother Meng to help me keep an eye on it. This opportunity is very important to me, I can't miss it." Zhaoming said, worried. This was a matter of his future, and he had to be careful.

"Hehe, Junior Brother Kang, don't you worry. This is a public by name vote. If anyone dares to disobey, just watch how I'll deal with them." Meng jueguang didn't hide his words at all. The newcomers' expressions changed. The threat in his words was too direct.

However, the rookies also understood that they had no hope of being elected. It didn't matter who they voted for, so they didn't want to offend their Senior Steward, Meng jueguang, over such a small matter.

Seeing everyone nod their heads, Meng jueguang couldn't help but point his chin at Kang Zhaoming, pleased with himself. However, his face changed when he saw Lin Yi and the other two. The three didn't have any intention of going along with him at all—they just stood there with their arms crossed, looking on coldly.

The others were afraid of Meng jueguang because they didn't want him to make things difficult for them, but Lin Yi and the other two were already at loggerheads with him. It wouldn't do them any good to obey Him now. They might as well act tough.

To Lin Yi, he'd already offended Meng jueguang even if he didn't want to. If he let Kang Zhaoming get into the new manager position as he wished, there'd be more or less trouble in the future. At the very least, the dirtiest and most tiring work would be on Lin Yi's head. He couldn't let Kang Zhaoming get what he wanted.

In fact, even if Xu lingchong helped him to get the votes from the sky-piercing Pavilion, he might not be able to get the old geezers from the mysterious Pavilion. According to the rule that the votes had to exceed two-thirds, as long as Lin Yi and the other two from the Qingyun Pavilion didn't agree, even if the others voted for him, there was a high chance that he wouldn't be chosen!

He'd just patted his chest and made the big talk, and now someone wasn't cooperating-his old face heated up a little. He'd've scolded anyone else already if it were someone else, but he couldn't do anything to a new guy like Lin Yi.

It's obvious that he doesn't listen to you. Even if you make things difficult for him in the future, he's not afraid of you. What can you do?

"Senior brother Meng, don't tell me you can't deal with them?" Kang Zhaoming quickly realized that something was wrong. After all, Lin Yi and the other two's Mountain-like posture was the complete opposite of the other newbies' 'submissiveness. Not to mention, Lin Yi was a thorn in his side-it was hard for him not to notice.

"Uh ... There are always some arrogant and disobedient newcomers. There's still a long way to go. I'll let them know how powerful I am." Meng jueguang had no choice but to put on a straight face.

"There's still time ..." Zhaoming couldn't help but roll his eyes. To Meng jueguang, of course, there was still time, but he couldn't wait that long. The voting was tomorrow morning, and if he couldn't get all the votes from the GreenCloud Pavilion, he might not even get two-thirds of the votes. Then all his efforts would have been in vain.

No, he had to nip this risk in the bud. As for revenge, he'd have plenty of chances in the future as long as he became a new Deacon!

Zhaoming explained the situation to lingchong, who nodded, signaling for him to handle it himself. After all, Kang Zhaoming was the person he publicly supported, and he had made a lot of noise before coming here. If he couldn't get chosen tomorrow, then if word got out, young master Xu would be embarrassed as well!

Zhaoming was overjoyed as he quickly followed behind lingchong towards Lin Yi. He thought to himself, "let's see if Lin Yi can still be so tough now that young master Xu is here!"

Pinliang, on the other hand, was a little worried. He was under lingchong's protection on the surface, but he was Lin Yi's spy. After these few hours of interaction, he already knew that Xu lingchong not only had a deep background, but his own strength was also extremely high. If boss Lin Yi were to go against him, he might suffer a big loss!

"You're Lin Yi? I heard it's very impressive in the secular world!" Xu lingchong stopped in front of Lin Yi with a mocking look on his face.

This time, it attracted everyone's attention-they couldn't help but look at it with anticipation when they saw that the main character was the Lin Yi of the common world again. This Lin Yi was in big trouble!

Lingchong Xu didn't even bother to stand up for Zhaoming before-with his status on the Sky Class Island, he was a famous existence in the three pavilions. It was a bit unreasonable for him to teach an outer sect disciple who just landed on the island a lesson. If people knew, it'd be like he was bullying the weak.

But lingchong was really angry today-he'd brought Zhaoming to the mysterious Pavilion before, and the two old geezers did give him some face and helped him promote the place, but it was obvious that they weren't very enthusiastic. Only a few people responded, and he didn't know if they were sincere or not.

This made him feel a little embarrassed. However, after all, the mysterious Pavilion's strength was only slightly inferior to the rising Sky Pavilion. He, Xu lingchong, didn't have the strength to show off in front of these old men.

All this while, the new deacons had been selected between the rising Sky Pavilion and the mysterious Pavilion. Even if the mysterious Pavilion could not be elected, they would not easily support the rising Sky Pavilion.

Chapter 3575 I'm Sorry I Can't Do That

"Is that so? I'm Lin Yi, but I don't know if I'm famous in the common world. " Lin Yi replied faintly.

"Heh, it looks like Kang Zhaoming was right, you're good at acting cool!" Seeing Lin Yi's calm face, Xu lingchong was instantly amused,"But I'll remind you-Sky Class Island isn't like the normal world where the Qi is thin-there are Sky Class Masters like dogs here, and with your puny strength you'd better tuck your tail between your legs, or you'll die without even knowing how you died!"

"I will accept senior brother Xu's teachings." Lin Yi remained unmoved.

Xu lingchong smiled contemptuously and said, "I've heard about the conflict between you, Kang Zhaoming, and Zhong pinliang in the common world, but since we're already here on Sky Class Island, I'll make the decision as your senior. As long as you vote for Kang Zhaoming tomorrow, all your conflict in the common world will be written off!"

Without waiting for Lin Yi to reply, Xu lingchong turned around and left. After all, from his point of view, he was already giving the other party face by coming out personally to say this. As for the other party not agreeing to reconcile, that was impossible unless this Lin Yi's brain was kicked by a donkey!

However, Lin Yi's next words made his face change, ""I'm sorry, but I can't accept senior brother Xu's good intentions. "

"What?" Xu lingchong paused and turned around in disbelief, looking at Lin Yi coldly."Kid, say that again!"

"Oh." Lin Yi acted like he was very obedient,"Since senior brother Xu wants me to say it, then I have to say it. I'm sorry, I can't accept senior brother Xu's good intentions, but I won't vote for Kang Zhaoming."

As soon as these words came out, the whole place was in an uproar. Rejecting young master Xu so directly without giving him any face-did this Lin Yi really think that this was the common world where he could do whatever he wanted? didn't he know that this guy could easily beat him down with one hand?

At this moment, everyone was looking at Lin Yi as if he was a dead man!

Even the pavilion master Hu Yun Feng had to fawn over this young master Xu, and he, a mere newcomer from the secular world, actually dared to publicly disobey young master Xu. If this wasn't courting death, what was?

"Good! Very good! You really have character!" Xu lingchong was so angry that he started laughing. In this mere Welcome Pavilion, he'd never met a newbie who dared to disobey him in public. Lin Yi was the first!

"It seems that you still know a little about the rules. You know that an inner sect disciple like me can't attack an outer sect disciple like you, so you're unscrupulous!" Xu lingchong thought that he understood where Lin Yi's confidence came from and laughed coldly, "But you've probably forgotten one thing. You can only stay in the welcoming new pavilion for a year. After a year, whether you successfully enter the GreenCloud Pavilion or become a good-for-nothing and be sent to do hard labor, no matter what, no one will be able to protect you ... Humph Humph ..."

Lin Yi's expression didn't change in the face of such an undisguised threat. He just looked at the other person calmly. Lingchong felt like he'd just punched cotton-any other newbie would've been pissing their pants and begging for mercy already if threatened like that-there'd never been a guy like Lin Yi!

"Hmph, it seems like you still don't understand your situation! You're really a big-hearted person!" Lingchong Xu looked at Lin Yi as if he was an idiot and continued to sneer, "Even if I don't do anything to you, don't think that you'll be safe just because you've been hiding in the welcoming new pavilion for one year. To tell you the truth, I have many ways to deal with you. When the time comes, I'll make you cry in a rhythmic manner!"

"I've always been like this, I can't help it! Eat, drink, and don't forget to keep it in your heart. Take a bath, wash your feet, and feel comfortable for every second ... Today, I'll get drunk, and tomorrow, I'll be troubled. " Lin Yi said helplessly as he shrugged.

He had seen this kind of threat many times when he was in the secular world. At that time, his strength was even lower than now, but now he was still full of vigor. And he's even crying rhythmically? Who knows who will be the one crying then!

People who threatened Lin Yi were either dead, or became Lin Yi's lackeys, or lived under someone else's protection. Kang Zhaoming was one of them.

Perhaps, after a long time, Xu lingchong might need someone's protection to be safe.

"You ... You're good. Since that's the case, I won't say anything more. Meng jueguang, you know what to do, right?" Xu lingchong's face was ashen as he looked at Meng jueguang and asked coldly.

"Don't worry, young master Xu. He basically won't have any more cultivation resources in the future. " Meng jueguang hurriedly said.

"Hmph!" Meng jueguang nodded and snorted before turning to leave. Meng jueguang's last words had allowed him to regain some face.

Zhaoming was overjoyed at the words! On this sky rank North Island, how could one improve without cultivation resources? That was simply a fool's dream.

Lin Yi might look strong now, but they were both Sky Class late phase peak full cultivation-they had the same starting point.

As a refiner, Zhaoming was a bit weaker now, but once he broke through to heaven-PATH Foundation, that would be Lin Yi's time of death!

He gloated as he gave Lin Yi a middle finger. He was a little disappointed that Lin Yi didn't agree to vote, but it wasn't a big deal. He could just go to the mysterious Pavilion and get a few more votes! Just now, there were a few old men who were still somewhat respectful towards Xu lingchong. He thought that as long as he gave them enough benefits, they would still support him.

In comparison, Lin Yi had completely offended Xu lingchong, which was an even bigger gain. This way, even if he didn't have to do anything, Xu lingchong would take the initiative to find a way to deal with Lin Yi. Lin Yi could just wait to cry!

At the same time, pinliang didn't speak to Lin Yi, but he did give him a few looks before leaving. He was a spy to begin with, and now that lingchong was preparing to deal with Lin Yi, it was time for him to come in handy-he'd just tip Lin Yi off.

As Xu lingchong and the others left, the other newbies looked at Lin Yi gloatingly and left, laughing and chatting. Meng jueguang and Meng Tong were in a good mood at the moment. They laughed at each other and said,"Tsk, tsk, someone is going to be in big trouble this time. An idiot from the secular world really doesn't know the immensity of heaven and earth!"

After watching these people leave, the miserable senior brother said with a face full of worry,""Lin Yi junior, you were too rash just now. Take a step back and everything will be fine-we can't afford to mess with a second generation cultivator like Xu lingchong!"

Xiao ran and Qiao hongcai didn't say anything, but it was obvious from their expressions that Lin Yi was acting on impulse.

Chapter 3576 Failed

"Don't worry, brother ku," Lin Yi smiled, "I'll take responsibility for what I've done. Even if Xu lingchong wants to deal with me, I won't let you guys get involved." Besides, he just didn't have any cultivation resources. I'm already in cave abode No. 14, how bad can it be? Furthermore, even without Xu lingchong's warning, what kind of spiritual Jade do you think Meng jueguang would have given me? Is there a difference?"

"This ... That's true," Xiao ran and Qiao hongcai looked at each other helplessly. Lin Yi had already offended Meng jueguang, and it was true that even without Xu lingchong's orders, Lin Yi's future would not be easy.

"Junior Brother Lin, don't worry too much. Don't worry. Since things have come to this, I won't just stand by and watch. After all, I'm the second senior brother in charge ..." The senior brother said. However, when he said the words "second senior brother in charge", he was still a little lacking in confidence!

"That's right, with senior brother ku protecting us, if we have any cultivation resources, we can't keep them to ourselves. We'll definitely give them to brother Lin," Xiao ran and Qiao hongcai quickly said, ""We're working together, so we're considered a small circle ..."

If these words were to be said, others would probably scoff at them. After all, under the leadership of a bitter man, what ability could he have?

However, they were already labeled as Lin Yi's group. If they backed down now, they would only become a laughingstock. They might as well brace themselves and fight with Lin Yi to the end. Maybe they could turn things around!

"Then, thank you for your support!" Lin Yi was touched.

As the saying goes, a friend in need is a friend indeed. In terms of friendship, he did not have a deep relationship with these three people, but at this time, they were still not abandoning each other. It could be seen that these three people had good characters, and he had not misjudged them.

After exchanging a few words, the few of them returned to their respective cave abodes to cultivate, and the night passed without a word.

The next morning, the forbidden spell in each of their respective immortal's caves once again trembled. After all the newcomers had gathered, they were led by Meng jueguang to the main hall of the welcome Pavilion. Just as mentioned yesterday, this morning was the day to vote for the newcomer Deacon.

Lin Yi saw Kang Zhaoming and Zhong Pingliang again, but he didn't see Xu lingchong. He thought it through and figured it out. Xu lingchong was an inner sect disciple of the rising Sky Pavilion, not the welcoming Pavilion's manager. He came out yesterday as a guide, so he should be in the rising Sky Pavilion normally.

However, even though lingchong had left, it didn't mean that he was no longer a threat. This was because Lin Yi clearly noticed that the pavilion master Hu Yunfeng was sizing him up just now, and there wasn't any good intentions in that gaze. It seemed that after yesterday's incident, he had already been remembered by Hu Yun Feng. Who asked this welcoming new pavilion's Pavilion master to be the soaring Pavilion's loyal dog!

Lin Yi was on his guard, but while Hu Yunfeng was the head of the welcome Pavilion, and was one of the top figures here, it wouldn't be easy for him to deal with him openly without a special reason. As long as

he was more careful in the future, he'd only get played. With the help of the Jade space, Lin Yi really didn't have to be afraid of these little tricks.

Seeing that all the newcomers of the three pavilions had arrived, Hu Yunfeng introduced the position of the newcomer Deacon and directly entered the voting round.

This was a public in-name vote. In other words, no matter who voted for whom, everyone could see it on the spot. There was no such thing as manipulation. Of course, Kang Zhaoming's canvassing for votes yesterday was still allowed. It wasn't against the rules.

To make it easier to vote, the three managers would all give their names in advance. The sky-piercing Pavilion had Kang Zhaoming, the mysterious Pavilion had Zhang Li Xing, a Sky Class full cultivation newcomer from the Sky Class Island, and as for the GreenCloud Pavilion, they didn't even have a candidate since they didn't have any hope of being elected. So if everything went as planned, the new Butler would be one of Kang Zhaoming and Zhang Li Xing.

Under the management of the six senior brothers, the voting proceeded smoothly. The final result was Kang Zhaoming with 27 votes and Zhang Li Xing with 18!

Kang Zhaoming's face turned ugly. Although he had far more votes than Zhang Li Xing, the problem was that it wasn't enough!

There were a total of forty-five new members in the three pavilions. To be elected as a new member Deacon, the number of votes needed to be at least two-thirds. In other words, including his own votes, he needed at least thirty votes, and he was three votes short!

Anyone with eyes could see that the fifteen votes from the ascending Pavilion were all for Kang Zhaoming, the fifteen votes from the mysterious Pavilion were all for Zhang Li Xing, and the twelve votes from the GreenCloud Pavilion were for Kang Zhaoming. The last three votes were for Zhang Li Xing! The three people who cast these votes were Lin Yi, Xiao ran, and Qiao hongcai!

F * ck! Kang Zhaoming's anger was burning, but he couldn't let it out. After yesterday's incident, it was expected that Lin Yi wouldn't vote for him. So he purposely dragged Xu lingchong to the mysterious Pavilion's side, hoping to get a few scattered votes to fill in the gap. These people all agreed to it yesterday, but they didn't expect that all of them would vote for their own Zhang Li Xing today, causing him to fail at the last minute!

"Hmm ... As the votes for both of them are less than two-thirds, the vote this time is invalid. The position of the new Deacon is temporarily empty. After the ranking competition next month, we will discuss among ourselves and choose a Deacon based on the strength of these two candidates! After all, these two candidates were jointly recommended by all of you. Right now, it's only because of the votes that a new Deacon hasn't been selected. So, when the time comes, whoever is more powerful will go up!"

Hu Yunfeng had been ordered by lingchong to let Zhaoming take the position, but he couldn't just lie in front of so many people. However, Hu Yunfeng had cleverly said that after the ranking competition ended, the pavilion Masters would choose a Deacon from the two candidates. This would not give these people a chance to vote again. Whoever they chose would be up to the pavilion Masters!

No one could find any fault with the crown he had mentioned. He was really a complete hypocrite.

"Good, at least I didn't let this guy succeed!" Xiao ran and Qiao Hong couldn't help but heave a sigh of relief. They were all on Lin Yi's side, and if Kang Zhaoming really took over, they wouldn't be able to live a good life. Now, at least for the next month, they didn't have to worry about this anymore.

Lin Yi, on the other hand, didn't have much of an expression on his face. He'd already expected this outcome, and even if Kang Zhaoming really did become a new manager, he wouldn't be a real threat to Lin Yi. It'd just save him a bit of unnecessary trouble.

Chapter 3577 The Distribution Of The Spiritual Jade

Plus, Hu Yunfeng had made it very clear. Anyone with a good heart would understand that Zhaoming's promotion was only delayed for a month.

"Hmph, just you wait!" Kang Zhaoming cursed angrily. Zhong pinliang, on the other hand, let out a breath of relief. He was forced to choose Kang Zhaoming, otherwise he wouldn't be able to go undercover anymore. He was really afraid that Kang Zhaoming would win!

After the voting, the new disciples of the three pavilions returned to their respective cave abodes. However, they did not disperse just like that. Instead, each and every one of them was extremely excited as they waited for their senior brother steward to give them the most important benefit of the welcoming new pavilion-one piece of spiritual Jade a month!

"One piece of spiritual Jade per month. This is the rule of our Welcome Pavilion. When I Call Your Name, you will come up one by one to get it!" Meng jueguang's eyes swept across the room, pausing on Lin Yi and the other two as a sinister smile appeared on his face.

Fifteen pieces of spiritual Jade were laid out on a red cloth, crystal clear and white. Even from a few meters away, everyone could feel the spiritual Qi of the world around them. It was so pure and dense that even these Sky Class Masters couldn't help but drool.

Even Lin Yi was a little taken aback by the spiritual jades-it was as he'd expected-they were pretty similar to the energy stones in the common world, but the difference in quality was like a hundred thousand miles, not to mention the concentration of spiritual Qi.

After reaching the late phase of Sky Class, the energy stones in the secular world could only help with cultivation at most, but these spiritual jades could be used to break through to the Foundation Stage of the heavenly path. The difference between the two was obvious!

However, there were also differences in size between these spiritual jades. The largest one was the size of an adult's fist, while the smallest one was only the size of an egg. The difference between the two was at least double!

Of course, most of the spiritual jades were about the same size.

"Meng Tong!" Meng jueguang picked the biggest piece of spiritual Jade and gave it to Meng Tong, who, as if showing off, purposely waved it in front of Lin Yi before walking to the side happily.

After that, they watched helplessly as Meng jueguang distributed the larger pieces of spiritual Jade to the other newcomers. Xiao ran and Qiao hongcai's faces suddenly changed. Needless to say, the smallest three pieces of spiritual Jade would definitely belong to the three of them!

As expected, the spiritual jades that the three of them got in the end weren't particularly big-Lin Yi's was the smallest! Even if the three of them combined their stones, they might not be able to compare to Meng Tong's stone.

"Hehe, you're lucky this time. The smallest spiritual Jade is at least the size of an egg. Next time, I'll spend some time picking out a few smaller pieces from the warehouse. I'll also let you know who has the final say here!" Meng jueguang looked at the three of them smugly and laughed heartily as he walked away.

Previously, he did not have Xu lingchong's support, so he did not dare to go so far. After all, although he was not afraid of the welcoming new pavilion, he would still be scolded if someone used this matter to impeach him in the three pavilions.

However, things were different now. Xu lingchong had hinted to him in front of many people. When something happened, Xu lingchong would be the one to exonerate himself. He was the grandson of the third elder of the most powerful Pavilion, the rising Sky Pavilion. Other than a few second and third generation cultivators, he was someone who could do whatever he wanted. No one would dare to offend him because of a nobody.

"Using public office to take revenge for private matters! This ... This is too much!" Qiao hongcai's face turned red with anger and he said indignantly.

"That's true. If we let him do this, we'll be at a disadvantage in the future. Senior brother ku, you have to help us think of a way. " Xiao ran had the same feeling.

"Well ... I actually want to help you, but senior brother Meng has never allowed me to interfere with the distribution of spirit Jade. I don't know what to do ..." The miserable senior brother said helplessly with a bitter face. He really wanted to help, but he couldn't! When they went to the storehouse to retrieve the spirit Jade, senior brother Meng did not bring him at all. What else could he do?

Lin Yi spoke up, "it's fine. You guys don't have to make things difficult for him. It's not bad to cultivate in a cave anyway. The spiritual Jade may be small, but as long as you work hard, you'll have a chance at the ranking competition next month."

Xiao ran and Qiao hongcai felt a little comforted by Lin Yi's words. They didn't have enough spirit Jade for a cave, and they had to rely on themselves for cultivation-there was no point in blaming others.

The world of cultivation was like this. Xiao ran had experienced it in the secular world. The Xiao family was worse off than those ancient aristocratic families, so they had fewer resources. But didn't they still have to cultivate? What's the point of being envious?

It was even more so for Qiao hongcai on the North Island of the heaven stage. He couldn't be compared to the disciples of the three pavilions who were born to cultivate for the second or third generation.

Since there was a cave to make up for it, the two quickly returned to their own caves to cultivate after informing Lin Yi. The heavens rewarded the diligent, and as long as they worked hard, they didn't believe that they would lose to others. As for Lin Yi, he didn't go back to the cave immediately. He stopped his miserable senior brother.

"Junior Brother Lin, I know you're not feeling well ..." The miserable senior brother had a bitter look on his face. "Actually, I'm also very guilty. I ... As the senior Steward, I can't help you. I'm really suffering ..."

"Pfff ..." Lin Yi didn't expect his bitter senior to say that. He couldn't help but laugh. "Senior brother ku, that's not what I'm here for. If I really cared about this, I wouldn't have given the cave abode to Xiao ran and Qiao hongcai. I'm here for something else."

"Ah ... I see!" The poor guy thought about it and agreed-if Lin Yi cared about these resources, why would he trade them for someone else? It seemed like Lin Yi was a generous person-she was overthinking things, "Junior Brother Lin, you're looking for me for ..."

"It's like this, brother ku-you're the manager of the welcoming Pavilion, and you've been here for quite some time. You should've heard about the opening of the Sky Class Island in the mortal world and who's going to be the heir, right?" Lin Yi asked after some thought.

He'd wanted to ask these questions ever since he'd arrived at Sky Class Island, but the situation was completely different from what he'd imagined!

There were so many experts here, and the competition was so fierce! Lin Yi and the others were all elites of the common world, but here, they were all newbies, outer disciples. The difference between before and after was really hard to get used to.

Lin Yi thought that he would be able to meet Zhang Liju and tell him that he was his "inheritor"-he would probably be able to get Zhang Liju to check on Yu Xiaoke, the pangolin, and the other inheritors

Chapter 3578 I Have To Improve My Strength As Soon As Possible!

But now, he didn't even have the chance to meet Zhang Liju, he might not even be able to survive in the North Island.

"I know a little. I didn't know about these things at first, but before I became a reception envoy, the welcoming Pavilion would give us targeted training, so I still know a little about it." "Junior Brother Lin, why are you asking this?" the senior brother asked.

"If that's the case, then do you know what will happen to the inheritor when the Sky Class Island opens?" Lin Yi asked.

"Inheritor? Isn't that one of the tools to open the sky Class Island?" The miserable senior brother was slightly stunned and said, "didn't you use the inheritor to get to the island?" Usually, after the inheritor opens the Sky Class Island, they'll be crippled. "

"Crippled? What do you mean by that?" Lin Yi's heart skipped a beat as he asked.

"To protect the benefits of the island's local disciples, they can't let too many cultivators come to the island, so they set up a barrier." "Only the top-tier Masters of the common world can come on the island," the guy explained. "The seven inheritors, while they're also top-tier Masters, are usually disabled to prevent too many people from coming on the island. When they're under the pressure of the various elements released by the Sky Class island's sky pass, their consciousness and spirit will be sucked dry, and they'll fall unconscious after the Sky Class Island opens. Generally speaking, they are just tools for these top experts to come to the island and sacrifice themselves, but that doesn't mean that all inheritors and mediums will faint. Last time, a few inheritors came up ... Of course, this is only hearsay. For the details, you have to ask those elders to get a specific answer!"

"What!" Lin Yi didn't think that the truth would be like this. He'd guessed it before, but hearing it from his bitter senior brother still made him uncomfortable!

Yaoyao, Shu, Tang Yun, Xiaoxiao, little nine, Guan Xin, and Bing Tang were all unconscious. Perhaps they didn't want to get hurt, so they fainted. They must be worried that they would get hurt, so they did their best. They were all unconscious, just like Yu Xiaoke!

However, Lin Yi let out a breath of relief. Since it was also under the pressure and his spirit was overused, it was similar to you Xiaoke's situation. Zhang Liju should be able to save him.

With that thought, Lin Yi nodded. "Thank you, senior brother ku, I understand."

"Alright, Junior Brother Lin, you should focus on your cultivation. After the incident with the spiritual Jade, Meng jueguang won't be targeting you for the time being. Work hard on your own and achieve a good result in the competition a month from now. It'll be a good blow to these people's pride!" The senior brother encouraged.

"Don't worry, I'll work hard. " Even if it was for Yu Xiaoke and Chu Mengyao, Lin Yi still had to work hard! If he wanted to find Zhang Liju on the Sky Class Island, he had to find a place in the North Island first.

Without a certain status and authority, one might not even know how to get to Nakajima.

"Then I'll go first, if you need anything you can find me!" The guy pointed at the mountain opposite Lin Yi's cave. "I'm on the mountain over there, in cave No. 9 ..."

"Okay ..." Lin Yi couldn't help but feel helpless. There were three masters and six senior managers in the pavilion, and the poor guy was cave nine. Didn't that make it ninth? It seemed to be the last cave dwelling!

But come to think of it, the last immortal's cave over there should be better than the best immortal's cave here, right? However, there was nothing he could do about it. Even if he was the weakest of the group, he still had the reputation of being the senior Steward. Meng jueguang could not possibly restrict him in this aspect, as that would be openly going against the rules of the welcome Pavilion.

After sending the poor guy off, Lin Yi started studying the spiritual Jade.

The spiritual Jade was crystal clear and warm to the touch. Not to mention the majestic spiritual energy of heaven and earth contained in it, the quality of this Jade alone was enough to make the rich and powerful all over the world go crazy for it.

It was impossible to produce such a top-grade Jade without the natural refinement of the spiritual Qi of heaven and earth for thousands of years. In the secular world where the spiritual Qi was thin, this was simply impossible.

Even ordinary energy stones, which were spirit stones, were very rare in the secular world.

Of course, for a practitioner like Lin Yi, the quality was only external-the most important thing was the concentration of Qi. After some careful comparison, Lin Yi realized that although this spiritual Jade was the same as the energy stones in the secular world, the spiritual Qi contained in it could reach up to a hundred times of the same volume. This meant that one spiritual Jade here was equivalent to a hundred energy stones of the same volume.

It was no wonder so many people were after the spiritual Jade like a flock of ducks. Some of the newcomers couldn't help but swallow their saliva and drool when they saw the spiritual Jade being displayed. With the Jade's help, his training speed was hundreds or even thousands of times faster, but it didn't have the same effect on Lin Yi. He only had to try it a little and he knew that the Jade's effects couldn't compare to his Jade space.

Putting the Jade aside, Lin Yi thought to himself-it seemed like he could save up on all the spiritual jades he got in the future. He wouldn't need them, but they were valuable items to the other practitioners on the island. He could use them to exchange for something he needed.

Two days passed by in a flash, and just as the miserable Shixiong had guessed, Meng jueguang didn't come looking for trouble these two days. Lin Yi was also happy to be free, consolidating his strength and preparing to break through to the peak of the early Foundation Stage.

However, even with the help of the Jade space, it wasn't that easy to reach the peak of the early Foundation Stage. No matter how hard Lin Yi tried, the Qi in his body grew very slowly. It wasn't completely empty, but the amount was negligible.

At this rate, Lin Yi would need at least a year and a half to reach the peak of the early Foundation Stage. Although this speed was already pretty good for others, Lin Yi wasn't satisfied.

Strength was the foundation of life. Lin Yi had already made enemies on all sides on his first day on Sky Class Island-not to mention people like Kang Zhaoming, but there were already quite a few foundation Stage enemies. Meng jueguang was watching him closely, and Xu lingchong was far away, ready to make a move.

Lin Yi was in the early phase of the Foundation Stage now, so he wasn't really afraid of these people, but if he didn't break through in the long term, it'd only be a matter of time before something happened.

Chapter 3579 Foundation Establishment Golden Core!

After all, even if these people couldn't beat Lin Yi, they could still encourage others to go after him, just like how Kang Zhaoming encouraged Xu lingchong and Meng Tong encouraged Meng jueguang.

But while he was anxious, the foundation level was a whole new realm-he'd never even heard of it before, much less experienced in it. No matter how hard he tried, he couldn't find a way to break through.

"Hehe, I used to think that you were quite smart, but now it seems that you were just lying!" The ghostly thing's mocking laughter suddenly came from the side.

Lin Yi blinked and looked at the ghost. "Senior ghost, where did you get that from?"

"You're clearly guarding Mount treasure, but you're still wandering around like a headless fly. Don't you think you're stupid?" The ghostly thing's tone was filled with unteachable eyes.

"Guarding the treasure Mountain?" "So you're saying that I have something that can help me break through faster?" Lin Yi asked, his heart moving.

"Nonsense! Isn't that the case for the one beside you? you don't rely on external forces and you want to make a breakthrough just by pondering on your own. Do you really think you're a god?" The ghostly thing laughed.

"The one on the side?" Lin Yi blinked, subconsciously thinking that the thing was talking about the spiritual Jade. "Although this spiritual Jade is good, it's of little value to me. It's not even one percent of the space in the jade pendant!"

"Who said it's from the outside? I said it's from the Jade space. It's in the storage space next door!" The ghostly thing helplessly reminded.

In fact, it wasn't a busybody-it didn't really interfere with Lin Yi's life before, and it only started talking to him after he landed on the island.

After all, it needed Lin Yi's help. Lin Yi's strength had increased, so he could help it one step closer!

In the secular world, it was still an unpredictable thing, so the ghost was naturally not in a hurry. But now that they were on the heavenly Island, and it was really close in front of them, it was impossible not to be anxious!

Lin Yi quickly searched through the Jade's storage space ...

This space was Lin Yi's, to begin with, so he was able to find things very quickly. It didn't take long for him to go through everything in the Jade space, and finally, his eyes stopped on a recipe.

It was something he had obtained from Zhang Liju's tomb in the mortal world. It was a heavenly Dao breakthrough method left behind by the God of alchemy, and it was the way to make the heaven's Dao golden core!

The heaven's path golden core was also known as the foundation golden core-it was the Golden core used by Sky Class late phase peak Masters to break through to heaven's PATH Foundation!

It was similar to the Qi gathering pill that Earth Class late phase peak took to break through to Sky Class.

Similarly, just like the Chi-amassing pill, the heaven's path golden pill was also the foundation establishment golden pill, and it was effective for cultivators at the foundation establishment stage and below.

However, after taking this thing, there was a slight weakness. It required the absorption of a large amount of spiritual energy to consolidate the realm, just like the ultimate Qi-gathering pill. If one could not coordinate with the absorption of a large amount of spiritual energy, it would cause a shortage of spiritual energy, which could lead to Qigong deviation or even a complete loss of strength.

This way, the effect was similar to the ultimate Qi gathering pill that Kang Zhaoming gave him! Of course, Lin Yi had the Jade space, so he didn't have any weaknesses!

However, for others, the spiritual energy in the cave abode was no longer enough for the heaven's path golden core to absorb. It could only be done with a large number of spirit jades.

Therefore, the cost of this was really terrifyingly high. Even Xu lingchong, a second generation cultivator, could only take a Foundation-building golden elixir once or twice with a large amount of spirit Jade. He couldn't afford to use it too many times!

Because these two things were very precious, especially the foundation Stage golden core. Not just anyone could refine it, it must be an Alchemist, and the success rate was extremely low.

The alchemists on the North Island of the heaven division would only succeed one pill after a hundred tries. Only the alchemists on the middle Island had a higher success rate.

Not to mention the grandson of the third elder of the rising Sky Pavilion, even the grandson of the pavilion master was restricted by the other two pavilions. It was impossible for him to use a Foundation Stage golden core endlessly. This was a decision that could only be made after the three pavilions had a meeting.

"Senior ghost, are you referring to the pill formula for the heaven's path golden pill? Although Jing Jing helped me modify the Shennong medicine cauldron back then, and I can refine this Foundation establishment golden pill with my current strength, the key is that I don't have the raw materials!" Lin Yi asked, confused.

"There's none in the common world, but that doesn't mean there's none on Sky Class Island. Keep an eye out here, and you might find something unexpected!" The ghostly thing pointed out.

"Oh? I see. Thank you for your guidance, senior ghost. " Lin Yi suddenly realized-he really didn't know that he was guarding the treasure Mountain. He still wasn't used to thinking like a Sky Class Island-he was still stuck in the common world. Since he could gather the ingredients here, and he had the heaven's path golden core pill formula on hand, he could simply gather the medicinal herbs and start the refinement process.

After making up his mind, Lin Yi stood up and left the cave.

Lin Yi was a newbie, and he didn't know where to find the materials, but his bitter senior brother would know.

Although the senior brother didn't have much power, he definitely knew these common things.

With that thought, Lin Yi quickly went down the mountain to the opposite mountain. There were more than ten caves on this mountain, but no one used the caves after number nine.

Lin Yi came to the ninth cave. With his current strength, he could break the forbidden spell by force, but he didn't do that. He couldn't show his strength now.

Lin Yi used his Sky Class late phase peak strength and patted the ninth cave, waiting patiently.

Sure enough, after a while, the miserable senior brother came out of the cave with a puzzled expression.

Under normal circumstances, no one would look for the miserable senior brother, no matter how big or small the matter was. Other than some routine activities, the miserable senior brother would stay in the cave and cultivate.

Realization dawned on the miserable Shixiong when he saw Lin Yi. "Oh, it's junior Brother Lin. What's the matter?"

It turned out that no one usually looked for this miserable senior brother. His name of being a miserable senior brother was really well-deserved!

"Brother ku, it's like this, I have something to ask. Where do I usually get the heavenly treasures and herbs for cultivation?" "Someone's going to distribute them, or do we need to go to other places to collect them?" Lin Yi asked. Or should I say buy it?"

Chapter 3580 Kitajima City

"This matter!" "That's right." The miserable senior brother nodded and said, "other than the fixed monthly allowance, the rest of the cultivation resources can only be obtained by completing missions. Low-level and high-level missions all have cultivation resources! The only thing left was to participate in the trial. However, it was not something that you could participate in just because you wanted to. This would depend on the arrangements of the welcoming new pavilion. There was also the exchange

between disciples, and the purchase of items from the shops! With these two channels, you can go to the North Island Market to take a look. There are some disciples there who set up stalls to sell and Exchange cultivation resources. There are also some fixed shops that sell these things!"

"So it's like that, thank you senior brother ku." Lin Yi nodded. It seemed that this place was similar to the practitioner world in the common world, with exchanges, tests, and markets.

Following the directions, Lin Yi headed towards the market.

After going east from the pavilion and crossing two mountains, Lin Yi found the market very quickly. It was bustling with people.

It wasn't impossible for him to trade for the herbs he needed, or even encounter a ready-made heaven's path golden core.

However, Lin Yi didn't enter the market directly. He went to a corner and put on the mask. This way, he'd be a complete stranger. Even if something happened, no one would suspect him and expose his strength.

Although the market was initially spontaneously organized by some disciples and rogue cultivators, it had now grown to a large scale. Not only did it have established shops, but it was also divided into three trading streets according to strength. The market was built next to the mountain, with three streets side by side from the inside to the outside. They were called the outer Street, the middle Street, and the inner street.

Due to its reputation, not only the inner disciples of the three pavilions and the newcomers of the welcoming Pavilion came to set up stalls here, but many independent cultivators from the nearby cultivation villages also came. There were all kinds of martial skills, medicinal pills, and natural treasures. Moreover, because everyone's strength was similar, many things were directly available for newcomers. Therefore, this market was well-known far and wide, and it was a place that all newcomers must go.

Lin Yi walked around and found that most of the stalls were set up by Sky Class full Masters and below. The crowd was the largest and the liveliest. The people entering and leaving the middle Street were mostly experts at the initial stage of the foundation building realm. The flow of people was smaller than the outer Street, but it was still endless.

As for what the innermost part of the street looked like, Lin Yi didn't have the chance to see it. The guards at the entrance didn't let him in because they were too weak. Lin Yi only knew that the people who could come in and out were all strong people he couldn't see through.

It seemed that Sky Class Island was full of Masters!

Lin Yi sighed to himself and decided not to think about what the inner streets looked like. He decided to look around and look for the herbs he needed. After looking through the outer and middle streets, he only found five herbs listed in the recipe. As for the sixth and most important herb, the heart-devouring exquisite herb, he couldn't find it at all.

Could it be that this Sky Class Island didn't have any heart-devouring exquisite grass?! Or could it be that only the most mysterious inner street sold it? Lin Yi's heart tightened as he continued to look around, unwilling to give up.

Not only that, but he also did not encounter any ready-made heaven's path golden core. It seemed that this thing was indeed precious, and no one had taken it out to sell or exchange.

It seemed that he had to find his miserable senior brother and carefully inquire about this heart-devouring exquisite grass! Helplessly, Lin Yi turned around and left the market. Before he found the heart-devouring exquisite grass, it was useless to gather the other five herbs.

Not to mention, Lin Yi found out that the currency here wasn't money, but spirit Jade! Now, he only had a piece of spirit Jade the size of an egg, and he could not afford to buy these five herbs at all.

After leaving the market, Lin Yi put away the mask and went to his miserable senior brother's cave.

He came to the entrance of the ninth cave again and activated the forbidden spell. After waiting for a while, the poor guy came out again.

Seeing Lin Yi, the miserable Shixiong couldn't help but be surprised, ""Junior Brother Lin, why are you here again? Is there anything else?"

"It's like this," Lin Yi nodded, "there's one more thing I want to ask you, do you know where I can find heart-devouring exquisite grass?"

"Heart-devouring exquisite grass?" The miserable senior brother frowned and thought for a while. He said with uncertainty, ""I've heard people mention it before. It's said that this herb is very rare. It can't be found anywhere else here. There's only one place where it can be found."

"What place?" Lin Yi asked, his heart finally at ease. As long as he had the herb, it would be easy.

"Back mountain! Only on the 25th of every month will the disciples of the welcome new pavilion be allowed to go there to train. The purpose is to increase your actual combat ability, and then seek an opportunity to break through. " The miserable senior brother explained and then asked doubtfully,""But then again, the heart-devouring exquisite grass seems to be a very poisonous herb. Why are you asking about this, Junior Brother Lin?"

"I won't hide it from senior brother ku, I'm planning to make some pills for myself to help with my cultivation." Lin Yi replied, but didn't mention the heaven's path golden core. First of all, although he and the miserable senior brother were in the same group, they were not that familiar with each other. Second, even if he said it, it would be useless. The miserable senior brother could not help in this matter. If it was leaked and heard by someone with ulterior motives, it might cause unexpected trouble.

As for his identity as an elixir master, even if Lin Yi didn't say it, Kang Zhaoming would reveal it for him. There was no need to hide it.

"Junior Brother Lin, you're an Alchemist?!" The miserable senior brother said in shock. He was even more shocked. One had to know that while a refiner's status was high, their strength was much weaker than other practitioners of the same level. Lin Yi even defeated a Sky Class full master like Meng Tong with one move-this Lin Yi really was hiding his true strength!

Lin Yi only smiled in response, not saying anything.

"But this is also good. Since you can refine your own pills, even if it's not a very good pill, it can more or less make up for the lack of cultivation resources." The bitter-faced senior brother, on the other hand, was very happy for Lin Yi."However, I have to remind Junior Brother Lin that the elixirs in the secular world have very limited effects on us, so you should focus more on your cultivation. If you refine elixirs, they won't be of much help."

He felt guilty that he couldn't do anything about Lin Yi's resources being taken away by Meng jueguang, but now that he knew that Lin Yi wanted to make elixirs himself, he took the initiative,""If you need any materials, just tell me. I may not be able to help you much, but I've been on Sky Class Island for so long. Even if I don't have the materials, I can at least give you some ideas."
