Chapter 3581 Mining The Spiritual Jade

He saw Lin Yi's expression and knew that Lin Yi wanted to try again, so he didn't stop him. Lin Yi had his own opinions anyway-if he wanted to make it, then so be it. When the effect wasn't great, he'd give up!

"Alright, then I'll thank senior brother ku in advance. However, I'll talk about the pill refining matter after I get the heart-devouring exquisite grass. This is the most important material." Lin Yi nodded.

Since the heart-devouring exquisite grass could only be found in the back mountain, and the back mountain would only allow new people to enter the trial on the 25th, he could only wait for a while. This was the perfect time for him to think of a way to obtain more spirit Jade. Otherwise, even if he managed to obtain the heart-devouring exquisite grass, he would not have enough spirit Jade to purchase the other five herbs and would not be able to refine the heaven's path golden pill.

With that thought, Lin Yi turned to the guy and asked, ""Brother ku, if I want to get more spiritual jades, is there any way?"

"Well, in addition to the spiritual Jade that the welcoming Pavilion will give you every month, there are only two ways to obtain another spiritual Jade." The miserable senior brother counted with his fingers and said, "one is that if you have any natural treasures in your hands, you can sell them in the market. You can exchange them for spiritual Jade. You should know this." As for the other one, you can go and complete the daily tasks that our welcoming new pavilion issues to the new disciples. This way, you can also get spiritual jades as a reward. "

"I see. Brother ku, can you tell me what kind of mission I have to complete?" Lin Yi asked, deep in thought.

As for the first method, he couldn't use it right now. He didn't have any extra treasures on him, and even if he did, they were from the mortal world. He wouldn't be able to sell them for a good price on Sky Class Island, so he might as well keep them.

The miserable senior brother nodded and said, "you newcomers are not strong after all. The purpose of coming here is to cultivate. It's more important to break through to the foundation establishment stage as soon as possible. Therefore, the welcoming new pavilion will not give you any truly challenging tasks. In addition to some temporary small tasks, the most common daily task is to enter the spiritual jade mine under our feet and mine. "As for the low-level tasks such as cleaning the kitchen, they don't have spiritual Jade as a reward. They're all on the tab. For example, if you clean for a year, you may be rewarded with one or two spiritual Jade at the end of the year. This will depend on the new Deacon's opinion and whether he can apply for it for you!"

It seemed that Lin Yi didn't need to consider the last option anymore. No matter who became the new manager, they wouldn't be able to give him any rewards, especially Kang Zhaoming.

Spiritual Jade was a priceless item. If he could obtain spiritual Jade by simply spending some effort to do some low-level tasks such as cleaning and cooking, then the welcoming new pavilion would have gone bankrupt long ago.

But hearing that the daily mission for the new disciples was to mine, it made sense-this was a spirit jade mine, after all, and it was normal to rely on people. But it was still out of Lin Yi's expectations-if it was just mining, they could just find some young men, why bother all these Sky Class Masters?

The guy saw Lin Yi's confusion and smiled, ""The spirit jade mine is different from the others. Ordinary people can't go down and mine it."

"Why is that? Could there be some special reason?" Lin Yi asked curiously.

"Junior Brother Lin, you should know that spirit jades contain extremely dense spiritual energy of heaven and earth. Even if the spirit jade mine doesn't go through any special guidance and gathering, the spiritual energy of heaven and earth that it naturally exudes is already far beyond the outside world. As for the world's spiritual energy, the more the better for us heaven rank and above cultivators, but for ordinary people without any strength, it's not a good thing. Those with a slightly weaker physique might not be able to withstand it for half a day and explode to death. Not to mention normal people, even practitioners under Sky Class wouldn't be able to do it!" The miserable senior brother shook his head. "It's like an ordinary person. He can't live without oxygen. But if he were to run into an environment with high concentration of oxygen, he would be poisoned by oxygen and die!"

Lin Yi nodded, quickly understanding the logic behind it. This was a classic case of the weak not being able to receive the supplement-the spiritual Qi was a great supplement, but if it was too much, it would become poison.

Practitioners like Sky Class had long trained their bodies-they were tens to hundreds of times stronger than normal people. Naturally, the Qi was a tonic for them, but for the weak, it was a deadly poison.

Ordinary people and low-level cultivators were unable to mine the spirit jade mine. After all, the spirit jade mine was a very important strategic resource, so it was impossible to find outside cultivators to mine it. After counting, the most suitable people for this job were the new disciples in the welcome Pavilion. After all, they were already outer disciples, so they could use it with ease.

Of course, the inner disciples of the three pavilions could also do this task. However, when their strength reached the level of the inner disciples, they could definitely do some challenge tasks with higher rewards. Why did they have to go to the mines and do hard labor with these newcomers? it would be embarrassing if it was spread out.

For a newbie like Lin Yi, he didn't have to worry about losing face-he was already at a cultivation bottleneck, and no matter how hard he meditated, he wouldn't be able to make any progress in a short period of time. He had to rely on the heaven's path golden core if he wanted to break through as soon as possible.

Not to mention the heart-devouring exquisite grass, he would only have a chance to get it on the 25th when he entered the back mountain for the trial. If he could earn enough spiritual Jade before that, he could gather the materials as soon as possible and start refining pills. As far as Lin Yi was concerned, this mining mission wasn't a bad choice.

"Senior brother ku, what's the reward for this mining mission?" Lin Yi asked.

The reward was the most important-mining was hard labor, but they were all Sky Class Masters, after all, and the reward couldn't be too low. Otherwise, no one would be willing to take the mission.

"Saving one in a hundred miles means that for every hundred pieces of spiritual Jade you harvest, you will receive one piece of spiritual Jade as a reward. If you don't have enough for a hundred pieces at the moment, you will have to put it in your account first. You will only be able to receive your reward when you have collected a hundred pieces." The miserable senior brother patiently answered all the questions and then added, ""On average, a newbie can mine about three to ten pieces a day, so it's normal to not be able to mine. However, with experience and good luck, it's possible to pick up 20 to 30 pieces a day. "

"That sounds pretty good?" Lin Yi calculated. Even if he could only get ten pieces of spiritual Jade a day, that would be a hundred pieces in ten days, and he'd get one piece of spiritual Jade as a reward. Compared to the welcoming Pavilion only giving out one piece of spiritual Jade every month, this was already quite a high reward.

Chapter 3582 Revenge

"It does sound good." The senior brother laughed bitterly and shook his head. ""But Junior Brother Lin, don't blame your senior brother for beating you up. The one in charge of this task is the senior brother in charge of the three pavilions. And it's not like you don't know the situation of our GreenCloud Pavilion. The decision is in the hands of our senior brother, I have no say in it at all."

"This ... Is a problem." Lin Yi didn't know what to do. He wanted to do this mining mission, but if Meng jueguang didn't agree, it would all be for naught.

Lin Yi thought for a moment, "although he has the power to make the decision, this is a daily mission recognized by the pavilion. In principle, it's encouraged for new people to do it. If I mention it in front of everyone, he can't just reject it without any reason, can he?"

Although Meng jueguang was the eldest martial brother, the welcoming new pavilion was not owned by his family. Even if he held some power in his hands, it was not something he could do as he pleased. At the very least, he had to maintain fairness on the surface. Otherwise, if word got out, there would definitely be people coming to settle the score with him.

"That's true, but even if he's forced to agree to let you mine, he'll still have a way to make things difficult for you. " The miserable senior brother was deeply touched by this and said, ""There are good and bad spiritual Jade ores down there. It's easy to find spiritual Jade in high-quality Kuangqu. If you're lucky, you might be able to find a hundred pieces in three to five days. However, in low-quality mines, the chances of finding spiritual Jade are very low. If you're unlucky, you might not be able to find a single piece of spiritual Jade even if you work hard for an entire day. This is very common."

"The Kuangqu allocated to our GreenCloud Pavilion is not that great to begin with. If senior brother Meng were to assign you to the worst mining area, who knows how much effort you'll have to put in to mine all 100 pieces of spiritual Jade? you might not even be able to get your reward after working hard for one or two months. Instead, it'll delay your own cultivation progress. It's not worth it." The guy said, worried that Lin Yi might go to a dead end.

"Senior brother ku, don't worry. I will think about it carefully before I decide." Lin Yi said with a nod. Lin Yi needed the herbs, and mining was the only way.

Of course, he was aware of the possibility that his miserable senior brother was talking about. In fact, according to Meng jueguang's style of doing things, once he proposed to enter the mine, it was a certainty that he would be assigned to the worst Kuangqu. If it were anyone else, the final result would not be worth it.

But Lin Yi was different. Don't forget that he had the Jade space, a God-tier device. Spirit jades were the same as energy stones in the secular world, and since the Jade space could charge energy stones, it might be possible that it could charge spirit jades as well!

Lin Yi had been busy consolidating his realm these past two days and hadn't tried it out, but he could now. Of course, he'd have to spend some time first to use up enough Qi from this Jade, or he wouldn't be able to see the results when he tried it.

And if the experiment was successful, it would be a great fortune for Lin Yi. He could steal some useless Jade without any Qi from the mine, and after charging it in the Jade space, he could turn it into real spiritual Jade to trade with others.

In this way, it would not matter even if Meng jueguang assigned him to the worst Kuangqu. Spiritual Jade was not easy to find, but useless Jade should not be so difficult to find! When it was in Lin Yi's hands, it would be a spiritual Jade!

Lin Yi couldn't wait to go back and do his experiments. He was about to say goodbye to his miserable senior brother, but before he could say anything, he looked up and saw Meng jueguang and Meng Tong

walking down from the eighth cave, talking and laughing. Lin Yi even vaguely heard his own name from the two.

Why did these two ill-intentioned fellows mention his name for no reason?

Just as Lin Yi was frowning to himself, the two men saw him as well, and their faces froze as if they'd just been seen through. They looked at each other, and a strange smile appeared on each of their faces.

"Isn't this the strongest newcomer of our GreenCloud Pavilion? Could it be that he had run out of spiritual Jade? Did you come to seek warmth from your poor Junior Brother?" "It's a pity that my poor Junior Brother is just a clay Buddha. He can't carry a great God like you!" Meng jueguang said sarcastically.

"Greetings, senior brother Meng." Despite Meng jueguang's sarcasm, Lin Yi still cupped his hands and greeted him politely, and Lin Yi greeted him back.

"Hehe, the strongest newcomer? He was the most pretentious newbie! You'll make a fool of yourself in the ranking competition next month!" Meng Tong mocked.

He still couldn't get over the fact that Lin Yi had defeated him in one move, especially after that, when some random guy gave Lin Yi the title of the strongest newcomer in the GreenCloud Pavilion! This pissed him off!

"Hehe ... I've never heard of the strongest rookie, but I hope you won't underestimate your opponent again in the ranking competition next month. Otherwise, if I accidentally beat you in one move, I'll be accused of being pretentious again. I'll be very wronged." Lin Yi replied with a smile.

"Hmph! Just wait and see! You'll be crying in due time!" Meng Tong's face froze at Lin Yi's words.

Everyone in the pavilion, including Meng jueguang, thought that Meng Tong lost to Lin Yi because of carelessness, but he himself knew that he had given his all in the previous fight to show off. In other words, Lin Yi defeating him in one move was a display of each other's true strength.

To be honest, Meng Tong was a little scared of Lin Yi now, but it was a good thing that he had Meng jueguang behind him, so he could be taken care of both openly and secretly. On the other hand, Lin Yi had offended a Big Shot like Xu lingchong in public, so he would be suppressed in all aspects. Under these circumstances, as long as he cultivated well for the next month, it would be enough for him to close the gap.

Besides, he was a Sky Class full master here-there was no way he'd be afraid of a country bumpkin like Lin Yi! The ranking competition next month was a great chance to get back at him! At that time, he would let all the new disciples see clearly who was the strongest new disciple of the GreenCloud Pavilion!

However, thinking about the plan he'd just discussed with Meng jueguang, Meng Tong became proud again. As long as the plan worked, they wouldn't have to wait until next month's ranking competition to see the pretentious Lin Yi in trouble!

With that thought, Meng Tong winked at Meng jueguang-he couldn't wait to see Lin Yi in trouble.

Meng jueguang nodded in understanding and said to his senior, "It's already the 4th day.

Chapter 3583 Going To The Market Again

"The new disciples should be familiar with the welcoming new pavilion, but they are still not familiar with the outside world. So I am going to call them out and go to the East Market to familiarize themselves with the environment. After all, this is also the responsibility of us as the senior brothers in charge." Meng jueguang said indifferently.

"You're right, senior brother Meng," The miserable senior brother nodded in agreement. It was an annual practice for the steward senior brother to bring the newcomers around to familiarize themselves with the environment, so it was not strange for Meng jueguang to raise this matter at this time.

"En, since Junior Brother Lin is already here, you can take him to the market and wait for us. I'll go and call the other newcomers." Meng jueguang ordered.

"Uh ... Senior brother Meng, why don't I go and get the new guy?" The senior brother asked carefully.

Normally, this kind of menial errand was his job, or else why would he be called a menial worker? he had long since gotten used to it, but for the first time, Meng jueguang was going to personally run the errand. Was the sun rising from the West?

But Meng jueguang waved his hand and glanced at Lin Yi mockingly, "No need. You should bring our strongest newcomer over first so that he won't waste his precious time. Hehe!"

With that, Meng jueguang left with Meng Tong without waiting for the miserable senior brother to speak.

The miserable senior brother looked at the back of the two people in the distance and couldn't help but mutter in wonder, "Senior brother Meng's style today seems a little different from before?"

Lin Yi shook his head as well. Meng Jueguang was just mocking him, but it was strange that he didn't use this opportunity to make Lin Yi run errands for his poor Shixiong. According to normal logic, even if this opportunity did not cause him any substantial losses, it should at least be used to disgust him. Given Meng Jueguang's personality, how could he let it go so easily?

Lin Yi and the miserable senior brother looked at each other, unable to come up with an answer. The two could only follow Meng Jueguang's instructions and wait for them at the market.

Lin Yi had just been to the market, but he had to act as if it was his first time in order not to give himself away. After all, it was his first time in the market with his original appearance.

The two of them waited at the entrance of the market for a moment before they saw Meng Jueguang leading a group of new disciples over from afar. As for Meng Tong, he seemed to have been left behind for some reason. He jogged all the way to catch up and gave Meng Jueguang a meaningful look, which the latter nodded in understanding.

Xiao Ran and Qiao Hongcai were also in the crowd. They let out a breath of relief when they saw Lin Yi and their miserable senior brother. They greeted the two before looking around curiously.

Seeing this noisy market, the faces of the group of newbies all had jubilant and excited expressions. There were many markets in the common world that were a hundred times more lively than this, but this was a practitioner's market! Anyone who walked in and out of it was at least a Sky Class master, and the goods here, be it skills, pills, or treasures, were all things that couldn't be bought anywhere else. There was no way to compare the two.

Although these newcomers only had one piece of spirit Jade in their hands, and it was even a spirit Jade that had used up most of its spiritual energy, it was basically impossible for them to buy anything in the market. However, Meng jueguang had not brought them out for shopping, but to familiarize them with the environment. Therefore, Meng jueguang still patiently introduced them to many of the rules of the market.

Of course, Meng jueguang wasn't that kind-hearted. He just wanted these disciples to think that he was knowledgeable and admire him. Otherwise, this Coolie would have long become a slave.

However, Lin Yi did benefit a lot from this. After all, he had hidden his identity when he came here, and although he strolled around a few times, he didn't know much about the rules of the market. He didn't know much about the rules, but now that Meng jueguang explained it to him, he had a rough idea of how to trade here.

In this market, although there were many situations of bartering, they were rare. After all, it was very rare for both parties to be interested in each other's items, and the value of both parties was about the same. Most of the time, they still used the common currency, spiritual Jade, to trade with each other.

This was easy to understand-first, spirit Jade was very common on Sky Class Island, and second, it was a precious item, useful to all practitioners. Other than Lin Yi, who had the Jade space, even the higher level practitioners were still very reliant on spirit Jade for their training. There was no risk of depreciation, and it became the common currency for trade.

However, even if everyone acknowledged that spiritual Jade was the common currency, there were still some considerations. The most important thing was the quality and size of the spiritual Jade.

The so-called quality of a spiritual Jade was determined by the concentration of the spiritual energy of heaven and earth in the spiritual Jade.

According to the rules of the market, the spiritual Jade used for trading must be unused and full. Once someone was found to have used their own spiritual Jade to trade as New Jade, the management staff of the market would punish them severely. This was to prevent anyone from using this loophole to take advantage of the chaos and ruin the reputation of the market.

After all, to cultivators, the value of a full spiritual Jade and a spiritual Jade that had been used was completely different. If they accidentally collected a spiritual Jade that had used up most of its spiritual energy, it would be a huge loss for the seller. In addition, the waste jades in the spirit jade mine with insufficient natural spiritual energy could not be taken out and used. If they were placed in the secular world, they would simply be natural counterfeit money.

As for the size of the spiritual Jade, it was even easier to understand. Even if the concentration of heaven and earth spiritual energy inside was the same, if the size was different, the value of the spiritual Jade would naturally be different.

Normally, the price of spirit jades in the market was based on the average size of the most common spirit Jade. As for the egg-sized piece in Lin Yi's hand, its actual value was only a little more than half a piece. People would only reluctantly accept it if it was two or three pieces. As for the large spiritual Jade that he had given to Meng Tong before, he would be very happy even if it was just one or two pieces.

Of course, there was another rule to pay attention to, and that was to never be dishonest and act as three hands. Once discovered by the patrolling management staff, it was a small matter to cripple one's cultivation on the spot. There was no way to reason with them even if they were beaten to death!

These managers were all Masters of the law enforcement Hall, and they had the power to decide the life and death of the Sky Class Island disciples. So, even if it was something they wanted, they had to follow the rules!

Chapter 3584 Mission Registration

Moreover, those who didn't have a shop were fools. Those who didn't have a bit of strength wouldn't dare to sell things here! Every item in their stall would be locked onto by their will at all times. If it was really taken away by someone, the person who the will disappeared to would be the one who stole it. They could directly take the person's life and no one would help them!

After introducing the rules, Meng jueguang turned to Lin Yi and said coldly, "Those poor B * stards from the secular world must be more careful. Don't think that this is a country bumpkin's place. Keep your hands clean. Otherwise, if you really take someone else's things and get beaten to death, you can only blame yourself!"

Of course, Meng jueguang's words had a deeper meaning, because ...

Lin Yi didn't make a sound on the surface, but he was shocked inside!

Lin Yi had the Jade space, and he could put anything he liked into it without anyone knowing, just like how he got the red conch and the money from the overseas practitioner's Association back in the common world!

He'd really wanted to do that before, but he wasn't an impulsive person-he'd decided to observe first! However, at this moment, after hearing Meng jueguang's words, he felt that he was lucky! In the future, unless he was out of his mind, he wouldn't dare to try this method of reaping without sowing!

If he were to really steal something and was locked onto by someone, not only would the fact that he was wearing the thousand thread mask be easily exposed, even the matter of the Jade space might be discovered!

Just because no one in the common world found out, it didn't mean that no one on Sky Class Island would find out. If they found out, Lin Yi would be in deep trouble. He wouldn't do something like this, losing the bigger picture for a small gain.

The group of newbies followed Meng jueguang around the market, and from time to time, they would see something that caught their eye. Although they only had one piece of spiritual Jade on hand, this did not hinder their enthusiasm to ask for the price. Even if they did not have it now, they could still buy it in the future when they had more money. Moreover, after knowing the price, they would always have a direction to work towards in the future.

If the other newbies were doing this, Lin Yi could do the same as well. He took the chance to ask for the prices of the five herbs he needed, but in order to avoid being seen through, he asked for the prices of many other items as well, showing his enthusiasm.

Meng jueguang and Meng Tong saw this and couldn't help but sneer. As far as they were concerned, with Lin Yi's current situation, even if he only got one piece of Jade per month, he would only be able to get the lowest quality one. What's the point of asking so much? even if he saved up for a year, he might not be able to afford one item-he was just a clown!

But Lin Yi clearly didn't care about their expressions. He calculated carefully-if he wanted to buy the five herbs he needed, he'd need at least eight pieces of spiritual Jade, and he only had half a piece right now. He was short of seven and a half-it was a long way to go.

The group strolled through the outer and middle streets. As for the most mysterious inner street, it was clear that with their strength, they could not enter. In truth, even the most powerful of the group, Meng jueguang, the eldest martial brother in charge, did not have the right to enter the inner street. He could only stare in a daze from a distance and then withdraw.

This was because entering the inner street was not based on one's strength, but one's identity! One had to be an outstanding inner sect disciple of the three pavilions and could only enter with an identity tag.

Although Meng jueguang had the qualifications to become an inner sect disciple, he was the inner sect disciple of the most miserable of the three pavilions, the GreenCloud Pavilion. There were not many inner sect disciples in the entire GreenCloud Pavilion who were qualified to enter the inner street!

Only the top-ranked disciples in the three Pavilion competition were qualified to enter.

After walking around the market, Meng jueguang led the group back to the welcome Pavilion, but he did not immediately dismiss them.

This trip to the market seemed to have ignited the new people's ambitions. Compared to the restraint and tension when they first arrived, the new people were clearly much more active and calm, as if they were gradually regaining their confidence as Sky Class Masters. Even when facing the strong and powerful big senior, Meng jueguang, they still dared to ask their own questions, unlike the silence at the beginning.

After all, those who were able to reach Sky Class late phase and above weren't weak at all-there were only a few people like this poor brother who was always a Yes Man. Most of the newbies here, despite being sent to the house for good-for-nothing, still had their own ambitions.

This trip to the city square had not only broadened their horizons, but they had also finally confirmed that the most basic condition for achieving their ambitions was spiritual Jade.

On this Sky Class Island, without spiritual Jade, everything was just empty talk. They couldn't buy martial skills, medicinal pills, or any heavenly treasures. And without the assistance of these external objects, if they relied on their own cultivation, the vast majority of people present would never reach the foundation establishment stage even if they cultivated to their deaths, let alone higher realms.

A single cent was hard for a hero, and a spiritual Jade was hard for a Sky Class master as well. Without a spiritual Jade, they wouldn't be able to do anything in the future.

"Senior brother Meng, how can we get more spirit Jade?" Someone asked the question that was on everyone's mind, and one burning gaze after another immediately focused on Meng jueguang.

"That's a good question," Meng jueguang chuckled, a hint of pride in his eyes.

As the eldest senior brother of the steward, his main power was to distribute the spiritual Jade. This was also the reason why everyone respected him, fawned over him, and even feared him. He was not afraid that everyone had ambitions, but he was afraid that they had no ambitions!

Those with ambition would want the spiritual Jade and would listen to him obediently. However, if they had no ambition, they would be unyielding and would be difficult to discipline.

Therefore, Meng jueguang had brought these newcomers to the market not only to familiarize them with the environment, but also to arouse their desires. As long as they had desires and ambitions, he would not have to worry about these people not listening to him in the future!

Taking in the eager expressions of the newcomers, Meng jueguang said in a dramatic tone, "There's only reward if you put in effort. Apart from the monthly spiritual Jade that the welcoming Pavilion will give you, there's only one way to get more spiritual Jade. Come to me and accept a mission. You'll only be rewarded if you complete the mission!"

"Senior brother Meng, may I ask what the mission is?" Someone asked anxiously.

"It's very simple. Go to the spiritual jade mine to mine. As long as you mine a hundred pieces, you can get a piece of spiritual Jade as a reward! Whoever wants to go, you can come and sign up with me now!" Meng jueguang announced.

As soon as he finished speaking, the group of newcomers 'breathing suddenly became heavy. It took a moment for them to react.

Chapter 3585 Lin Yi's Request

"Senior brother Meng, I want to register!"

"Senior brother Meng, count me in!"

"Senior brother Meng, me too, me too!"

“.....”

A group of people immediately surrounded Meng jueguang, each one of them trying to please him. Although Meng jueguang was pleased in his heart, he still pretended to be unhappy. "What are you quarreling about! What kind of a system is this? Come one by one. Those who want to sign up, raise your hands high!"

With Meng jueguang in power, everyone quickly quieted down, afraid that if they made him unhappy, they would lose their jobs. At this time, if anyone did not perform well, they would immediately attract the angry glares of the others and cause public anger.

This was the effect he wanted!

Meng jueguang smiled proudly. If it was in the past, he would've been able to make these newbies submit to him on the first day of registration. He didn't expect this freak to appear this year. He stole all the limelight on the first day, not only making Meng Tong a laughing stock, but also embarrassing him as the Senior Manager. He couldn't even establish any prestige in front of these newbies.

However, in the end, an arm couldn't win against a thigh. In the end, he, Meng jueguang, was the eldest senior brother in charge of managing things. Although he had to go through some trouble, these newcomers still had to listen to him! If he didn't listen to Meng jueguang, why would he listen to a country bumpkin like Lin Yi?

All of the newcomers who wanted to sign up for mining had their hands raised high in the air. Meng jueguang randomly picked a name, and the newcomer immediately acted as if he had hit the jackpot. He thanked Meng jueguang profusely and fawned over him. There were even some who swore on the spot that they would follow his every order from now on. Meng jueguang was greatly impressed.

After a round of selection, twelve of the fifteen new disciples were standing behind Meng jueguang, and the remaining three were naturally Lin Yi's trio.

Looking at the crowd's mocking eyes, Xiao ran and Qiao hongcai clenched their fists unwillingly. To be honest, like all the other newcomers, they also wanted to seize this opportunity to earn spiritual Jade. But the problem was that they couldn't.

This wasn't purely because of their stance. It was mainly because they had taken advantage of the time when Meng jueguang had called out names to force their senior brother to analyze the situation for them. She'd said this to Lin Yi before, and it could be summarized in ten words: Mining was risky, so he had to be careful.

This risk was not life-threatening, but if they were assigned to the worst Kuangqu, it was very likely that they would end up wasting a lot of cultivation time and not be able to collect 100 pieces of spiritual Jade in the end. They would not be able to get any reward. The gains would not make up for the loss.

Among the three of them, Xiao ran already had cave abode number one at the foot of the mountain. Compared to the others, he did not rely on spiritual jades as much. He only needed to work hard in his cultivation. Qiao hongcai, on the other hand, was only at Sky Class late phase peak, and his short-term goal was to break through to Sky Class full phase. He didn't need much spiritual Jade at this stage, and he could do it with the resources he had.

After listening to their senior brother's advice, the two of them thought about it and finally chose to give up this opportunity. It was not wise to overstep their boundaries, and the key was to take care of the present.

However, to everyone's surprise, Xiao ran and Qiao hongcai, Lin Yi's henchmen, didn't raise their hands. It was Lin Yi himself who raised his hand, ""Senior brother Meng, I want to register."

What was going on?

The newbies went into an uproar-even their two lackeys were able to resist the temptation, but their boss Lin Yi couldn't? This was too F * cking cowardly! Did this guy have any shame at all!

"Oh?" Meng jueguang was also stunned for a moment, but when he came back to his senses, he sneered with a strange expression."It seems that the temptation of spiritual jades can not be underestimated. Even our strongest newcomer is tempted! As the eldest martial brother in charge, I can't favor one over the other. Since you've made up your mind to sign up, then I'll count you in. "

"Thank you very much, senior brother Meng." Lin Yi smiled faintly.

"Well said, well said." Meng jueguang smiled meaningfully. He couldn't reject Lin Yi's open registration, and of course, he wouldn't reject it.

Seeing this, Meng Tong immediately panicked and whispered into Meng jueguang's ear,"Ninth cousin, how can we let that bastard Lin Yi get something like this? if he gets lucky and gets a spiritual Jade, then my ranking competition next month will be over!"

"Idiot! I'm helping you!" Meng jueguang turned his head and cursed in a low voice,"If he didn't sign up, I wouldn't have been able to do anything to him. But now that he's signed up, I'll just throw him into the dead Kuangqu. I guarantee that he won't be able to collect 100 spiritual jades in his life. In this way, he

won't have much time to cultivate, and your chances of winning will be greatly increased. You're really a rotten wood that can't be carved!"

Of course, there was something else he didn't say. If even a thorn like Lin Yi had to give in to a big senior like him, wouldn't the others have to be even more obedient? With this incident, Meng jueguang had also regained the face he had previously lost!

"So that's how it is! Ninth older cousin brother is indeed brilliant!" Realization dawned on Meng Tong- he'd never thought of this at all, and had been afraid that Lin Yi would get his hands on the spiritual Jade. Now that Meng jueguang had explained it, he finally understood that Lin Yi was just digging his own grave!

"Nonsense, if it was you with a pig's brain, you wouldn't have seized the good opportunity that came to your door!" Meng jueguang pursed his lips and asked in a low voice, ""Have you done the things I asked you to do before? did anything go wrong?"

"Hey, ninth cousin brother, don't worry. I've done as you said. There's absolutely no mistake!" Meng Tong immediately understood and promised.

"That's good. If this plan works, then you won't have to think about how to deal with Lin Yi in the ranking competition next month, because he won't live to see that day! A mere newcomer from the secular world dares to challenge me. This time, I'll let him know how many eyes the horse King has!"

Meng jueguang sneered and turned to the crowd. "There are some rules in our welcoming new pavilion that are similar to the rules of the market City that I told you about before! "Since you're going to the mine, I must remind you that you must cultivate your body first. You must be a good person before you do anything. The disciples of the welcome Pavilion must have a good character. Although the spiritual Jade is coveted by many, you'd better control your hands and feet. I'll say the ugly things first. If anyone

steals something that they shouldn't take and taints the reputation of the sect, according to the sect rules, the meridians of the inner force experts must be crippled! Physical style masters directly broke their arms and legs! Of course, this is only if I find out about it. If the people of the law enforcement Hall find out about it, they'll beat you to death directly. You're unlucky!"

Chapter 3586 The Theft Of The Spiritual Jade

Si si si!

All the rookies present gasped! Some of them had the same idea, but Meng jueguang's words made them break out in a cold sweat-breaking their meridians meant that they'd be a cripple for the rest of their lives, and they wouldn't even be able to practice anymore! To Sky Class Masters like them, this was worse than sending them to their deaths!

Whether it was spiritual or physical practitioners, they were basically living like dogs on Sky Class Island.

"One more thing. This rule is not only effective in the spiritual jade mine, but also in the outside world. In the past, if a newcomer were to steal someone else's spiritual Jade, the outcome would be the same!" Meng jueguang laughed coldly as his eyes fell on Lin Yi. He waved his hand after a while. "Alright, you're dismissed. Those who have signed up to enter the mine, come out and gather tomorrow morning!"

Lin Yi looked at Meng jueguang, confused. His intuition told him that there was something behind that smile, but he couldn't tell what it was. He could only be on guard and take it one step at a time.

"Junior Brother Lin, this name of yours is not appropriate." The miserable senior brother beside him sighed and said, "It's fine if you can't mine any spiritual Jade, but if you waste your cultivation time, it'll be more and more difficult for you to improve your own realm ..."

Xiao ran and Qiao hongcai didn't know what was going on either-the losses outweighed the gains of mining under Meng jueguang. If even they could understand this, they didn't believe that Lin Yi wouldn't be able to.

"You don't have to worry, I know what I'm doing. I just want to take a look at the spirit jade mine. Think about it, the spiritual energy of heaven and earth there must be abundant. It's worth it for me to cultivate there instead of mining!" Lin Yi didn't explain much.

"Yeah!" The miserable senior brother slapped his thigh and said in realization, ""Why didn't I think of that? The spirit jade mine was filled with spiritual energy. Although it was not as good as the other abodes, it was still better than the ones at the bottom. No matter what, it should be better than Junior Brother Lin's cave abode number fourteen! However, Junior Brother Lin, you have to think about it carefully. If you can't mine a single piece of spirit Jade for a long time, we won't let you go there again, so this trick can only be used once ... Also, you can't just sit down and cultivate inside. If you can only cultivate while mining, the effect of your cultivation will be much worse. "

"If it can be used, then use it first!" Lin Yi smiled bitterly.

At this time, Xiao ran and Qiao hongcai were both a little embarrassed. Lin Yi gave them the best cave, but he had to go to the spirit jade mine to cultivate. It was really hard work!

One must know that the spiritual energy in the spirit jade mine might be similar to that of the number ten cave abode at the foot of the mountain. However, it was impossible for one to sit cross-legged and cultivate in peace inside. One had to keep working.

In this way, the effect of cultivation would be greatly reduced if one were to do two things at the same time. Therefore, most people would rather go to cave number thirteen than the spirit jade mine.

It was just that cave 14 was a bit too weak for Lin Yi to handle, which was why he decided to do this.

"Brother Lin, why don't we go to the mine? you should come to our cave ..." Qiao hongcai and Xiao ran exchanged a glance and said at the same time.

"No need, hehe. Besides, if we change it now, senior brother Meng will definitely not be happy. In that case, you can find an excuse to find trouble with me. You don't want me to be scolded, do you?" Lin Yi said with a smile.

"Well ..." Qiao hongcai and Xiao ran agreed with her.

"Alright, I'll go back first. You guys should go back and cultivate as soon as possible!" Lin Yi nodded and went back to his cave after greeting the three. He couldn't wait to do the spiritual Jade experiment he was thinking about.

However, he stopped as soon as he reached the entrance-he realized that the curse was gone!

Generally speaking, this kind of cave mansion's forbidden spell was not permanent, but it was impossible for it to lose its effect in a short period of time. However, the forbidden spells in the welcoming new pavilion's cultivation cave mansions were all re-arranged after the newcomers arrived, so it was far from losing its effect!

Lin Yi's heart jumped-could it be that someone had broken the forbidden spell? Although he had not mastered this kind of cave abode forbidden spell, he could infer according to common sense that if the cave abode forbidden spell did not automatically lose its effect, there was only one possibility left!

With that thought, Lin Yi quickly walked into his cave, feeling a little lucky that he had the Jade space and didn't leave anything valuable in the cave. It would be a huge loss if someone barged in without him knowing.

However, when he entered the cave, his eyes suddenly narrowed!

His cave abode was empty and there were no furnishings. Everything inside was clear at a glance. At this moment, in the most conspicuous place in the middle of the cave abode, there were two pieces of white and crystal-like spirit Jade!

Compared to Lin Yi's egg-sized piece of spirit Jade, the two pieces in front of him were much bigger. They were far above the average size, and the largest piece looked a little familiar to Lin Yi. It took him a while to remember that one of them was the one Meng jueguang gave Meng Tong!

At this moment, there was a commotion outside. Since there was no forbidden spell, Lin Yi could hear it clearly. The noise came from the cave number fifteen, and its owner was Meng Tong.

"Ninth cousin, you have to stand up for me. The forbidden spell in my cave abode has been broken, and even the spiritual Jade you sent me has been stolen!" Meng Tong wailed loudly, which immediately attracted the attention of the other newcomers who had yet to close their immortal's cave. They all gathered around to watch the show.

At the same time, there was a cry from another place. It was Lee Zhengming, who had occupied cave number two at the foot of the mountain. In Lin Yi's impression, this was the person who was closest to Meng Tong out of all the new disciples in the GreenCloud Pavilion. He received a lot of care from Meng jueguang, and the cave and spiritual Jade he was assigned to were all pretty good.

"Senior brother Meng, my cave abode's forbidden spell has also been broken by someone. My spiritual Jade has also been stolen!" Lee Zheng Min wailed in despair.

Could it be that he had really attracted a thief?

With that said, the rookies who had only come to watch the show were immediately alarmed. One after another, they returned to their cave abodes and precious items to check. If their spirit Jade had been stolen like the two of them, they would really be in deep tears!

"Everyone, hurry up and take a look. Who else's cave abode's forbidden spell has been broken, or what precious things have been stolen? hurry up and report!" Meng jueguang ordered in a low voice.

Chapter 3587 Framing Up

So that was how it was! Lin Yi's mouth couldn't help but curve up a little. He already knew what the other party was up to. No wonder Meng jueguang and the others were talking about something fishy, and specifically said that stealing in the pavilion would cripple the meridians of one hand and one foot. They were trying to frame Lin Yi!

"Who else is there?" Meng jueguang shouted at the top of his lungs again.

After checking the cave, the newcomers shook their heads. Their forbidden spells were still intact, and nothing was lost inside. They heaved a sigh of relief and looked relaxed as if they were watching a show.

This was how the cultivation world was like. If it didn't concern them, they would just leave it be. Whoever lost it would be the unlucky one. It was fine as long as they didn't lose it.

Not only that, but even though Meng Tong and Li Zhengming weren't as prominent as Lin Yi, they were still people that Meng jueguang paid special attention to. It would be a lie to say that the other newbies weren't envious or jealous at all when they saw them take away such a good cave and spiritual Jade. At this time, all of them were gloating over Lin Yi's misfortune.

Gloating my ass, a bunch of fools who were being played around with but didn't know it!

Meng Tong cursed under his breath. He made up his mind that after he took care of Lin Yi, he would take care of this bunch of blind people too. He would let them see who the real boss was!

"It seems that no one else has been robbed, right?" Meng jueguang deliberately swept his gaze around. Seeing that no one was speaking, he loudly said, "The theft of a spiritual Jade is no small matter! According to the rules of our Welcome Pavilion, this matter must be thoroughly investigated from the beginning, and the suspect must be caught and severely punished!"

"Senior brother Meng is wise. You have to catch this damned thief and give us Justice!" Meng Tong and Li Zhengming immediately cooperated and shouted in unison.

"Hmph, no Rascal has ever been able to fool me, Meng jueguang!" Meng jueguang's lips twitched as he snorted coldly, then turned to the crowd and said, "First of all, I can be sure that since this thief stole spiritual Jade and specifically targeted Meng Tong and Li Zhengming, he must be familiar with you guys."

The rookies looked at each other and only reacted after a moment, nodding their heads.

Among all the rookies, Meng Tong and Lee Zhengming had the largest spiritual jades. This was something that all the rookies present knew. However, it was unlikely that outsiders other than them knew about this. It was too much of a coincidence to say that it was purely a blind cat that had picked the two cave abodes of Meng Tong and Lee Zhengming by pure luck!

Could it be that the real culprit who stole the spiritual Jade was among the newcomers?

The more they thought about it, the more likely it seemed. After all, only they would know who had the biggest spiritual Jade. Besides, only newcomers like them who were extremely short of cultivation resources would take such a risk for one or two pieces of spiritual Jade, right?

Having successfully stirred up everyone's doubts, Meng jueguang smiled proudly and then pretended to be fair. "As your eldest senior brother in charge, from my heart, I absolutely believe that every single one of you is a man of good character and will never tarnish the reputation of our GreenCloud Pavilion. However, since such a thing has happened, before we investigate the outsiders, we must first be upright and upright. Only if there's no problem on our side will we have the confidence to investigate the outsiders. Don't you think so?"

"Senior brother Meng is right!" The group of newbies responded in unison. If he didn't do anything wrong, he wouldn't be afraid of ghosts knocking on his door. In any case, they weren't the ones who had done this, so Meng Jue could investigate however he wanted to. Perhaps there really would be a show to watch.

"That's good. Let's start with our own people!" Meng jueguang smiled smugly and deliberately analyzed, "Your caves" curses are theoretically strong enough to block a Sky Class late phase Peak's full

force attack-in other words, to break the curses of Meng Tong and Li Zhengming's caves, you'd need to be at least a Foundation Stage practitioner. But, those Sky Class late phase peak Masters might be able to do it too ..."

As soon as he said that, all the newbies "suspicious eyes fell on Lin Yi, who was standing at the entrance of cave No. 14. There were only three people at the peak of the Sky Class in the entire GreenCloud Pavilion-other than Meng Tong, there were only Lin Yi and Xiao ran from the secular world.

Xiao ran had always been quiet, and people didn't pay much attention to him, but Lin Yi had become the focus of everyone on the first day, and his hatred for Meng Tong was even deeper. Now that there was a problem, the first person to be suspected was naturally him!

"Junior Brother Lin, I'm not picking on you. I have a reason for this. I believe you can understand!" Meng jueguang walked up to Lin Yi with his men, a smile on his face."Moreover, your cave is the closest to Meng Tong 's, so it's reasonable for us to suspect you."

Xiao ran, Qiao hongcai, and the others wanted to stop him, but they didn't know how. They couldn't stop Meng jueguang from searching, could they? they wouldn't be helping Lin Yi, they would be harming him! This was simply three hundred taels of silver without any evidence!

Fortunately, Lin Yi gave them a reassuring look, which made them feel more at ease.

With Lin Yi's personality, he wouldn't do something so shameless and brainless!

"Of course I can understand." Lin Yi nodded faintly,"But senior brother Meng, I didn't have time to tell you that my cave abode's forbidden spell has also been broken by someone."

The crowd burst into an uproar again-if even Lin Yi's cave was destroyed, then things were getting complicated.

"Your cave abode's forbidden spell was also broken by someone?" Meng jueguang raised his eyebrows and sneered, "Did Junior Brother Lin also lose something?"

"Not really. I don't have anything valuable to lose here. Besides, unlike Meng Tong and the others, my spiritual Jade is small, but it's easy to carry around."

Lin Yi's tone was as calm as usual, but everyone could hear the sarcasm in his words. This was something that all the newbies agreed with. After all, Meng jueguang's favoritism was too obvious when it came to the distribution of the spirit Jade. Lin Yi wasn't the only victim-even the newbies were unhappy.

They were all newbies, so why did Meng Tong and the others get the largest amount of spiritual Jade, while they got the smaller amount?

It wasn't easy to build up his prestige, but one sentence from Lin Yi was enough to make it crumble! Meng jueguang's face stiffened and he coldly snorted, "There's always good or bad luck, but if Junior Brother Lin feels that the amount of spirit Jade he gets is too small and takes a risk, then don't blame me for not being polite! Don't you want to find the spiritual Jade? hurry up and search!"

Chapter 3588 Caught Red-Handed?

After he finished speaking, Meng jueguang looked at the bitter gourd with a profound look. One had to know that only a foundation level master could break the restrictions of the cave. He would frame Lin Yi first and then claim that the poor guy was his accomplice. After all, Lin Yi was only a peak stage master. He had to have an accomplice, right? Then that bitter fellow was the best candidate!

Although the pain wouldn't be able to stop him at the moment, if he were to replace the pain with one of his own, then the GreenCloud Pavilion's territory in the welcoming new pavilion would become his own independent kingdom!

Meng Tong and Li Zhengming responded, grinned, and rushed into Lin Yi's cave. Lin Yi didn't stop them, letting them search. Anyway, there was nothing else in the cave, so he wanted to see how these guys would get off the stage later!

Meng jueguang let the two search the room while he blocked Lin Yi at the door with a cold smile on his face, in case Lin Yi decided to do something desperate after they found the "stolen goods"!

However, after waiting for a long time, Meng jueguang only saw the two of them looking around and not finding the "stolen goods" that they had prepared beforehand. He thought that the two of them were deliberately putting on an act and immediately rolled his eyes. He had already done enough foreplay, so why the hell were they still putting on an act?

He couldn't wait to see Lin Yi's face after his meridians were destroyed. He couldn't help but get angry, "What are you two dawdling about for? hurry up and come out!"

Meng Tong and Li Zhengming looked at each other, their foreheads full of sweat. After listening to Meng jueguang's urging, they scanned the entire immortal's cave again, but it was still empty!

In fact, the cave was only so big, and it was clear what was inside. Even if he searched a hundred times, he still wouldn't find anything! Thus, they could only turn to Meng jueguang and smile bitterly. "Senior brother Meng, I didn't."

"No? "How could there not be ..." Meng jueguang hurriedly stopped. There were so many people watching outside, and he had almost exposed himself. "You two, come and look after him. I'll search him myself!"

"Yes!" Meng Tong and Li Zhengming quickly blocked Lin Yi's path. Meng jueguang strode into the cave and began to search personally. Lin Yi, the person in question, didn't seem to be dissatisfied at all. He just stood to the side and watched.

Meng jueguang looked around and saw that the immortal's cave was empty. He could see everything in it. In fact, there was no need to search at all, but it was just as Meng Tong and Meng Li had said, there was no "stolen goods" at all.

That shouldn't be the case. How could something that had been arranged long ago not be there? The cave abode was only so big, and it was difficult to even find a place to hide a piece of spiritual Jade. It should be easy to find something!

Meng jueguang was suspicious as he turned to see Lin Yi's calm face. This brat must have thought of some way to hide the spiritual Jade on him, which was why he dared to be so fearless!

"You two, search his body!" Meng jueguang grinned.

He'd already guessed what was going on-Lin Yi must've found the spirit Jade when he came back and thought of a way to hide it on him, but he was still able to act so calm at a time like this. The kid was a talent, but it was a pity that the older the wiser!

Why didn't we think of that! The two's eyes brightened, and they reached out to search Lin Yi. The spiritual Jade was huge, and no matter how hard he tried to hide it, it wouldn't be able to hide it if someone searched him like this.

Lin Yi's eyes flickered. There was no risk to him, but it wasn't his style to be searched so recklessly.

However, Meng jueguang seemed to have seen through his intentions. He sneered and threatened, "If you don't want to be identified as a thief, Junior Brother Lin, you'd better cooperate with us. Otherwise, according to the rules of the welcoming new pavilion, we can make an exception and attack you if you refuse to cooperate with us, regardless of whether you die or not. You'd better think about it carefully."

"Alright, in that case, I'll have to trouble the two of you to search carefully, in case you say you didn't search carefully and continue to put the suspicion on me." Lin Yi hesitated-he came to Sky Class Island with a purpose, and it'd be a huge loss if he broke the rules and got kicked out!

Meng jueguang was stronger than his senior by a level-he should be at the peak of the early Foundation Stage. Lin Yi, on the other hand, was only at the early Foundation Stage. He might have a chance, but he didn't want to reveal his strength in public. Furthermore, if he were to make a move now, it would be easy for him to be criticized, and that would really be hard to explain.

But if they wanted to search, then so be it. If they couldn't find anything, it wouldn't be Lin Yi who would lose face, but their own face! "It can also help me clear my suspicion. I've always kept senior brother Meng's teachings in mind. I'll be an upright person!" He said with a smile.

"Hmph, that goes without saying. Don't think that you'll be fine just because you're hiding it on your body. Just wait to cry, you country bumpkin!"

Meng Tong and Li Zhengming searched Lin Yi's body from top to bottom. Suddenly, Meng Tong fished out a piece of spiritual Jade from Lin Yi's pocket and laughed proudly, "I found it! Let's see what you can say now that we've caught you red-handed!"

The crowd was shocked, but after seeing the size of the spiritual Jade in his hand, their eyes became weird. Lin Yi teased, "'Look carefully. This is my own spirit Jade. When did brother Meng's spirit Jade become so small and exquisite?"

F * ck! In the midst of the laughter, Meng Tong finally realized that the spiritual Jade was only the size of an egg, and it did not belong to him or Lee Zhengming.

Meng jueguang's face turned green with anger. 'Can't this idiot do something reliable? taking in such a guy as a Lackey is a complete loss of face.'

Meng Tong's embarrassment turned into anger, his face turning red. However, no matter how hard he and Li Zhengming searched, they couldn't find anything on Lin Yi's body other than this spiritual Jade.

"Idiot! I'll do it myself!" Meng jueguang impatiently dragged Meng Tong to the side. It should have been easy for him to do it himself, but why was it so unreliable when it came to this guy?

However, even after Meng jueguang personally searched the area, he still could not find anything. He did not believe in the rumors and searched the area again, but he still could not find anything.

Lin Yi raised his arms and looked at him, asking weakly, "Senior brother Meng, this should prove my innocence, right? I'm indeed the most upright person, right?"

Meng jueguang had already forgotten to answer, his face filled with disbelief. How could there not be any? That's impossible!

Since the two pieces of spiritual Jade were not hidden in the cave abode, they must be on him. No matter how good his hiding skills were, it was impossible that he could not find two pieces of spiritual Jade!

Could it be that this kid had secretly hidden the spiritual Jade outside? Meng jueguang couldn't help but suspect, but he immediately dismissed the idea. He'd been watching Lin Yi's every move since they'd returned from the market, and Lin Yi hadn't taken a single step out of the cave ever since. Under his watch, he wouldn't have the chance to hide outside even if he wanted to!

Chapter 3589 The Spiritual Jade That Disappeared

In addition, Meng jueguang felt that it was impossible to hide something as large as the spiritual Jade on one's body without anyone knowing, and that it would not be found no matter how hard one searched. The only way was to eat it. However, if one ate the spiritual Jade directly, even if it was an undigested item, it would still kill one.

Meng jueguang would never have guessed that Lin Yi had a Jade space on him that could store things, and the two pieces of jade were just sitting there quietly.

"Senior brother Meng, do you want to continue searching? I don't care, you can search as you wish, as long as you can prove my innocence in the end!" Lin Yi said innocently as he looked at the pale-faced man.

Could it be that this kid had never seen the two pieces of spiritual Jade before, and that was why he was so fearless?

Meng jueguang looked at Lin Yi suspiciously and suddenly thought of a bigger possibility. The two pieces of spiritual Jade couldn't have disappeared on their own, and since they couldn't be found on Lin Yi, they must have been taken by someone else!

"There's no need for that. Junior Brother Lin, you're innocent. You're an upright person, so don't be angry. Let's go to the other caves and search!" Looking at Lin Yi's calm expression, Meng jueguang felt as disgusted as if he'd eaten a fly-the type of big fly that would fly on cow dung all day!

"Ah? Search the other abodes?" Meng Tong and Li Zhengming looked at each other. It turned out that this was not part of the plan. However, when they saw Meng jueguang's extremely ugly expression at the moment, the two did not dare to say anything more and quickly responded and left.

Meng jueguang had no other choice but to search through every single one of their residences. After all, they'd already said that they'd search their own people first, and now that they didn't find anything suspicious on Lin Yi, they'd have to search everyone else as well, even if it was just for show.

Moreover, after thinking about this idea, Meng jueguang was indeed suspicious of the other newbies. It was not impossible for Meng Tongzhi to be found out when he went to Lin Yi's cave to put the spiritual jades, and then the two pieces of spiritual jades were stolen!

However, after searching all the other newbies and their caves, especially Xiao ran and Qiao hongcai, Lin Yi's two accomplices, the two spiritual jades were still nowhere to be found.

This time, Meng jueguang was really in a difficult position. He tried so hard to trick Lin Yi, but he didn't succeed. Instead, he lost Meng Tong and Li Zhengming's spiritual jades. It was like trying to steal a chicken but losing the rice.

However, even though he was in a bad mood, he still had to say some polite words. Meng jueguang could only brace himself and say, "Very good, we've finished the investigation and there are no problems. As the eldest senior brother in charge, I'm very pleased. I'll report the theft of the spiritual Jade to the pavilion master to continue the investigation. All of you can go back to your own work!"

Hearing this, everyone could only disperse one after another. They didn't see the good show they had imagined. At this time, each of their faces still looked as if they had not had enough.

"Poor Junior Brother, you should help the three of them with their forbidden spells." Meng jueguang casually ordered. Then, he pulled Meng Tong and Lee Zhengming to the side with a gloomy face. In his opinion, today's incident was definitely caused by his own people!

Meng Tong and his companion followed Meng jueguang to an empty corner. With a bitter expression, they asked, "Ninth cousin, what do we do now? we didn't get Lin Yi, and we've lost our own spirit Jade. How are we supposed to cultivate now?"

Hearing this, Meng jueguang stared coldly at Meng Tong and said with a fierce expression, "Meng Tong, I'll give you a chance to be honest. Did you embezzle the two pieces of spiritual Jade? You didn't even put the spirit Jade in Lin Yi's cave, did you?"

"Ah?" Meng Tong, who had been dejected at the moment, was startled by Meng jueguang's words. He quickly waved his hand and said, "Ninth cousin brother, what are you saying? do I look like that kind of person?"

"You don't look like it, but now that the two spiritual jades are gone for no reason, and neither Lin Yi nor anyone else has them, I can only think of one last possibility-you did something to them and pocketed them!" Meng jueguang sternly said.

Although li Zhengming was one of the participants in the plan to kill Lin Yi, he only provided a piece of spiritual Jade from the beginning to the end. Meng jueguang took advantage of the fact that Lin Yi left first to secretly destroy the forbidden spell of Lin Yi's cave. In the end, the real person responsible for putting the spiritual Jade in was Meng Tong. If there was really a mole, Meng Tong was the most likely!

"Ninth cousin, you can't accuse me like this! I really didn't hide the spiritual Jade! If you don't believe me, you can search me!" Meng Tong was so scared that he wanted to cry but had no tears.

Meng jueguang shot a glance at li Zhengming, and the latter immediately understood and searched Meng Tong's body. After a thorough search, he did not find any spiritual Jade.

Seeing this, Meng jueguang's expression softened a little, and Meng Tong finally heaved a sigh of relief. However, he heard Lee Zhengming's suspicious voice, "Could they be hiding somewhere else outside?"

"Lee Zheng Ming, what do you mean? Even you dare to doubt me?" Meng Tong was instantly enraged. He grabbed Lee Zhengming by the collar and roared, "You want to sow discord between me and ninth cousin brother and then benefit from it, don't you?"

"No, no, brother Tong, listen to me. I'm just a little unwilling to lose my spiritual Jade. I really didn't mean to doubt you!" Lee Zheng Ming quickly explained, but as for what he was thinking, no one knew except himself.

Sure enough, after hearing Li Zhengming's words, Meng Jueguang looked at Meng Tong with a sharp gaze. Seeing that the situation was not good, Meng Tong quickly threw Li Zhengming aside and explained, "Ninth cousin, one of the two spiritual jades is mine. Do you think I would betray you just to steal the spiritual Jade that Lee Zhengming used? No matter how stupid I am, I would never do such a stupid thing!"

"That's true," Meng Jueguang nodded thoughtfully. Although he didn't believe in Meng Tong's character, it wasn't worth it to say that Meng Tong would betray him for the sake of half a piece of spiritual Jade. After all, with Meng Tong's relationship with him, it would be easy for him to get more spiritual Jade in the future. There was no need to take such a risk.

"That's why I think it's very likely that an outsider sneaked in while we were at the market. After all, the forbidden spell in this immortal's cave is gone, so it would be a piece of cake for them to steal the two spiritual jades!" Meng Tong quickly struck while the iron was hot, afraid that Meng Jueguang would continue to suspect him.

"That's possible." Meng Jueguang pinched his chin as he nodded. However, if that was the case, then this matter would be very difficult to investigate. The possibility of getting back the two pieces of spiritual Jade was extremely slim and could be ignored.

Chapter 3590 Huge Loss

"Senior brother Meng, what should we do now? without the spiritual Jade, what are we going to use to cultivate?" Lee Zheng Ming said with a bitter face.

Although Meng Tong was angry that Lee Zhengming dared to search his body, he also felt the same way after hearing what he said. With a dejected expression, he said, "That's right, ninth cousin, I still have to fight Lin Yi next month, what do I do?"

Meng jueguang looked at the two's dejected expressions and sighed helplessly. "This matter is also my fault for not being considerate enough, so I let outsiders take advantage of the loophole. How about this, you two follow me back to my cave abode and each take a piece of spiritual Jade as compensation. In the future, as long as you work hard for me, I will not let you suffer a loss."

"Senior brother Meng is wise! In the future, we'll be at your beck and call!" The two of them were overjoyed and quickly expressed their loyalty, attentively massaging his shoulders and back, flattering him.

On the surface, Meng jueguang appeared to be bold and open-minded, but his heart was secretly aching. For him, the eldest senior brother who held great power in charge, although spiritual jades were not as difficult to obtain as newcomers, giving away two pieces of spiritual Jade at once was enough to make him feel the pain.

She'd spent so much effort this time, and not only did she fail to get Lin Yi, she'd even lost two spiritual jades! Just thinking about it filled her with bad luck! Fortunately, the two spiritual jades weren't given for nothing when he saw how grateful the Meng brothers were. At the very least, he could buy some people's hearts.

Meng jueguang gritted his teeth-he'd have to find another chance to get rid of that detestable Lin Yi one day!

Repairing a forbidden spell was a difficult task, but since Meng jueguang had given the order, Lin Yi's senior brother had to do it. With his strength at the early Foundation Stage, it took him an hour to repair the forbidden spell. After that, there were still Meng Tong and Li Zhengming's caves waiting for him.

"Thank you for your hard work, senior brother." Lin Yi thanked him, only to see his miserable Shixiong waving his hand. He didn't even have time to take another sip of water before running back to Meng Tong's cave number fifteen and starting his work. He was afraid that Meng jueguang would come back later and say that he was lazy.

To be able to do so much as a steward, this was the only other place where this bitter senior brother could do this.

Lin Yi shook his head speechlessly and went back to his cave. He turned off the curse and got down to business. What he needed to do now was not to enter the Jade space to cultivate, but to experiment with the spiritual Jade.

In order to verify whether the Jade space could charge the spiritual Jade, the first thing he had to do was to consume most of the spiritual energy in the spiritual Jade. Only then would he be able to see the most obvious effect.

According to Lin Yi's original plan, he'd be spending more time to use up his spiritual Jade, but now there was no need for that-he had two pieces delivered to his door.

Thinking back, Meng jueguang and his gang were simply doing good deeds without leaving a name. If he came here a few more times in the future, he wouldn't even have to think about working in the mines. He would just have to stay in his cave abode, pick up the spiritual Jade, and throw it into the jade pendant space. Everything would be fine.

Lin Yi carefully felt the Qi in the two pieces of spiritual Jade-at least half of it was used up, and it was perfect for an experiment.

What he had to do next was simple-he just had to keep the two spiritual jades in the Jade space and wait for the results the next morning. As for Lin Yi, he just had to focus on his cultivation.

Even though he only needed to concoct the heaven's path golden pill to quickly break through to the peak of the foundation establishment stage, cultivation had always been a matter of sailing against the current. No matter how many pills he had, he still had to cultivate without stopping.

Xinyan had a huge part to play in Lin Yi's achievements today, but it was mostly due to his years of hard training.

As he entered the Jade space to cultivate, he waited for the results of the spirit Jade test. What surprised and pleasantly surprised Lin Yi was that after just two hours, the results showed that the spiritual Qi in the two Spirit jades became extremely rich. The density of the spiritual Qi was as rich as Lin Yi's own initial spirit Jade. In other words, the idea of using the Jade space to charge the spirit Jade was completely possible!

Before the experiment, the spiritual energy in the two spiritual jades had been consumed by more than half. Now, after only two hours, the spiritual energy in the Jades was full. From the looks of it, even if it was a useless piece of Jade that had almost used up its spiritual energy, it would be able to become a brand new piece of good Jade in at most four hours in this Jade space!

This effect felt even more obvious than the energy stones in the secular world. According to Lin Yi's guess, this was probably because the spirit Jade itself was more suitable as a carrier of the Qi of heaven and earth than energy stones. Although the spiritual Jade could hold much more spiritual energy than the energy stone, the speed at which it absorbed spiritual energy was also much faster than the energy stone. Therefore, the charging effect was only faster than the energy stone.

The Jade space was indeed a divine artifact that had never failed! This way, it would be easy for Lin Yi to solve the problem of not having enough spiritual jades.

In the future, he could use his good Jade that was full of spiritual energy to exchange for more useless Jade that was almost used up by others. For example, he could use one good Jade to exchange for three pieces of useless Jade. This kind of obviously advantageous thing would be done by many people. After all, to most people, no matter how many pieces of useless Jade they had in their hands, they were all useless Jade. They wouldn't think that useless Jade could become good Jade in Lin Yi's hands.

This way, one for three, three for nine, nine for twenty-seven ... With a godly item like the Jade space, Lin Yi was basically sitting in a treasure bowl. As long as he was careful not to attract unwanted attention, earning more spirit jades in the future would be a piece of cake!

However, with Lin Yi's current status and environment, it was still a bit risky to do this too much.

First of all, the people around him were all newbies, and they didn't have any spiritual jades with them. Not only did they not have good jades with spiritual energy, they didn't even have useless jades. After all, spiritual jades were essentially the same as energy stones in the secular world. If they were completely exhausted without a trace of spiritual energy left, the spiritual jades would break and they would never be able to absorb the spiritual energy of the world again. It would be useless even if Lin Yi got it back.

Second, those who reached Sky Class weren't idiots-they believed in self-serving, trading their own good Jade for someone else's useless Jade. Lin Yi would be fine if he did this once or twice, and people would think he was just being stupid, but if he did it too many times, people would start to suspect that there was something else going on. Even if they couldn't imagine a God-tier item like the Jade space, it'd still be troublesome for Lin Yi if they attracted the attention of the Masters.
