

Bodyguard 3591

Chapter 3591 Successful Charging

Not to mention, Lin Yi didn't lack people like that around him-there were Meng jueguang, Meng Tong, Xu lingchong, and Kang Zhaoming, all of them waiting for Lin Yi to make a mistake!

Although it was risky, it was still possible to do it within a small range. With Xiao ran, Qiao hongcai, and even his own people, Lin Yi didn't have to worry so much. If he really had to, he could wear the mask and go to the market to do business with people outside. This way, no one would suspect Lin Yi even if there was a real risk.

Other than using his own good Jade to exchange for other people's useless Jade, there was another safer and more convenient way in front of him-the spirit jade mine.

Using the stealth of the Jade space, Lin Yi could hide a few pieces of spiritual Jade during the mining process. Even if the mines were heavily guarded, they'd still be looking for spiritual jades that were full of spiritual energy. No one would want to keep an eye on trash jades with little spiritual energy. After careful consideration, the feasibility of doing so was actually higher than exchanging for spiritual Jade with others.

After thinking about it, Lin Yi decided to go to the spirit jade mine and try it out. As long as he understood the process, it shouldn't be hard to grab the opportunity to pick up something. Not to mention, Lin Yi's demand for spiritual Jade wasn't too high in the short term. He already had three pieces of spiritual Jade, big and small. If he thought of gathering five more pieces, he would have enough to buy back the five herbs needed to make the heaven's path golden pill.

The night passed uneventfully, and the next morning, Lin Yi and the other miners received a message from the cave's forbidden spell and gathered outside.

Meng jueguang's face darkened as he looked at the group of excited newbies, especially when he saw Lin Yi. His mouth twitched, and he was in a terrible mood. He'd lost two pieces of spirit Jade yesterday, and it still hurt.

You'll be crying after you enter the mine! Meng jueguang glared at the nonchalant Lin Yi, not in the mood to waste his breath on these newbies. He went down to the mines with his men after counting the names on yesterday's list.

Although the vein of the spirit jade mine was at the bottom of the mountain range, strictly speaking, it was right below everyone's cave abodes. However, the entrance to the spirit jade mine was not here. Not only was it not close to everyone's cave abodes, it was actually quite far away. With their Sky Class late phase strength at the very least, it took them almost an hour to reach their destination.

The entrance to the spirit jade mine was actually a magnificent Pavilion that was not inferior to the welcoming new pavilion. The plaque in the middle was engraved with three dark gold characters, spirit Jade Hall.

There weren't many people going in and out, but the security was tight. Although it wasn't as exaggerated as having a guard every three to five steps, cold-looking guards could be seen everywhere. What shocked Lin Yi was that every single guard here was at least at the peak of the early Foundation Stage. This meant that even the weakest guard here was at the same level as Meng jueguang.

This was the first time all of the newcomers had come here, so they couldn't help but look around curiously. However, no matter where they looked, even if they just took a few more glances, they would immediately attract the strict gazes of the guards on the side, as if they would pounce on them in the next moment. Everyone was so scared that they kept quiet out of fear. No longer daring to look left or right, they could only obediently follow Meng jueguang forward.

Taking in everyone's expressions and seeing that they had all become obedient, Meng jueguang put on the dignified air of the eldest senior brother in charge and explained, "The spirit Jade Hall, like our welcoming new disciples Pavilion, is one of the few halls on the North Island that are independent of the three great pavilions. They are in charge of the mining and distribution of spirit Jade. It can be said that every piece of spirit Jade on the North Island is taken from the spirit Jade Hall."

An independent Department? Lin Yi's heart skipped a beat-so there were other independent departments apart from the three pavilions. The welcoming new pavilion was the camp for newcomers, and the spirit Jade Hall was in charge of the spirit jade mine. So, it was likely that the other independent halls also had their own unique functions.

At this moment, a newcomer asked, "senior brother Meng, you said that the mountains around us are all spirit Jade mines. If that's the case, then anyone can just find a hidden place and dig down to find spirit Jade. Even if the spirit Jade Hall wants to interfere, they can't do anything, right?"

All the newcomers nodded thoughtfully. Although the spirit Jade Hall seemed to have a lot of people, and all of them were experts, the mine vein stretched across several mountains. Even if all the experts of the spirit Jade Hall were to patrol it without rest, they would probably not be able to cover it.

Don't overestimate the moral integrity of cultivators, but at the same time, don't underestimate the courage of cultivators. The spirit Jade moved people's hearts, and no matter how strong the spirit Jade Hall was, it couldn't stop the pursuit of the spirit Jade. Finding a hidden place to secretly dig out spirit Jade ... Not to mention the others, even the weakest of the GreenCloud Pavilion's new disciples present here couldn't help but have such thoughts.

"Find a hidden place and secretly dig for spiritual Jade? Hehe, you wish!" Meng jueguang sneered and looked at all the newcomers as if they were idiots. After feeling a sense of superiority, he explained, ""Don't think that the mines are spread all over the mountain range, as if you can find spirit Jade just by digging a few hundred feet in any place. In fact, wherever there are spirit Jade mines, the

top experts of the three pavilions have already set up a formation. In the areas covered by the formation, not only can you not dig for spirit Jade, you can't even dig up a piece of mud. Instead, you'll suffer a backlash from the formation's attacks, which can lead to serious injuries or even death! You can dig out spiritual Jade, but you can't shake the foundation of the mountain. Otherwise, if you destroy the foundation, no one can cultivate in peace in the cave abode!"

Si si si!

All of the rookies were so scared that they gasped. It had to be said that some of them had actually thought of doing so, but they hadn't had the time to do so in the past two days because they hadn't familiarized themselves with the environment. Now that they heard Meng jueguang's words, they were filled with fear. If someone had dared to do this two days ago, they would have been dead by now.

"There is only one entrance to the entire spirit jade mine, and it's within the spirit Jade Hall. To prevent anyone from stealing the spirit Jade, a body search is required whenever you enter or exit. So, you'd better keep your hands clean when you work here in the future. Don't think that you'll get away with it. I've already explained the rules yesterday. If you're caught with your dirty hands and your greed, don't blame me, the eldest senior in charge, for not helping you." After Meng jueguang finished speaking, he glared at the crowd as a warning.

Chapter 3592 Distribution Of The Kuangqu

After all, he was the eldest senior brother in charge of this group of GreenCloud Pavilion's new disciples. If any problems were to arise, then he, as the eldest senior brother in charge, would also be held responsible. He might even be accused of not teaching them well and be replaced. If that were to happen, he would suffer a huge loss.

"Don't worry, senior brother Meng. We won't dare to tarnish the reputation of the GreenCloud Pavilion.
" All the rookies shuddered and hurriedly swore in unison.

Meng jueguang nodded and glanced at Lin Yi, who was following behind the group. If it was someone else, he would be afraid of getting involved, but if it was Lin Yi, he would be more than happy. Compared to the risk, getting rid of Lin Yi was the most satisfying thing!

However, he could only think about it in his head. After yesterday's loss, he wouldn't dare to do anything to Lin Yi again for a while. However, it was good to find a chance to piss this guy off first!

Meng jueguang led the group down a long corridor. According to the terrain, they should be underground by now. However, the walls on both sides were inlaid with natural fluorescent stones every two Zhang. Although the surrounding environment was secluded, the light was as bright as it was outside.

Moments later, Meng jueguang stopped in his tracks. Looking at the three-foot-tall door in front of him, the rookies could not help but gulp. It seemed like the legendary spirit jade mine was behind this door.

"After this door, you'll be in the Kuangqu of the spirit jade mine. But before you go in, you have to follow me there to sign a contract." Meng jueguang pointed to the side of the door, where a table and a few cabinets were placed. The cabinets were filled with countless white papers and contracts, and behind the table sat a white-bearded old man who was dozing off.

Meng jueguang led the group over and patted the old man on the shoulder. The old man opened his eyes and smiled at Meng jueguang. "Junior Brother Meng, it's you. Why? Are these the new disciples of our GreenCloud Pavilion this year?"

"Not bad." Meng jueguang nodded and then introduced the man to everyone. "This is senior brother Dai Wuchang. He's from our GreenCloud Pavilion and is now in charge of the contract in the spirit Jade Hall. Why don't you hurry up and greet senior brother Dai?"

"Greetings, senior brother Dai!" The newbies hurriedly greeted him. Although this senior brother impersonator didn't appear to be very young, his strength was only at the peak of early Foundation establishment. According to the rules of the world of cultivation, the strong were respected, and this person's seniority was similar to Meng jueguang 's. Everyone could only address him as senior brother.

However, this generation's Wuchang was an old man, and actually wasn't absorbed by the mysterious Pavilion. Presumably, he should be an existence with very weak strength. The mysterious Pavilion didn't care about him, so they ran to the GreenCloud Pavilion, this trash collection station.

Dai Wuchang nodded and turned to Meng jueguang. ""Junior Brother Meng, how many contracts do you want this time? which Kuangqu do you want?"

"I'll have to trouble you to pass me two tickets for the No. 7 Kuangqu, ten tickets for the No. 8 mine, and one ticket for the No. 10 mine,"Meng jueguang said after some calculations.

"Alright, I'll give it to you now. Wait, the 10th Kuangqu? You want Kuangqu 10 too?" Suddenly, Dai Wuchang froze and looked at Meng jueguang in surprise. ""Junior Brother Meng, you're wrong. You're talking about the ninth Kuangqu, right?"

Meng jueguang shook his head and smiled coldly at Lin Yi,"Senior Dai, you didn't hear wrong. I want a ticket to the tenth Kuangqu. That's a public mine, so there shouldn't be a problem, right?"

Following Meng jueguang's gaze, Dai Wuchang finally understood what was going on-this guy was planning to mess with Lin Yi! He chuckled and shook his head as if it didn't concern him,"Of course. The 10th Kuangqu is known as a dead mining area. I was just worried that no one would mine it. I'll prepare it for you now."

"Public Kuangqu? Dead Kuangqu? What's wrong with senior brother ku?" Lin Yi sensed that something was up and turned to his miserable Shixiong.

The poor guy didn't have much say in this, but he didn't want Lin Yi to be tricked without knowing it. Even if he couldn't help Lin Yi, he'd at least help him understand the situation and avoid losing out blindly.

The poor guy shook his head helplessly and sighed before explaining to Lin Yi, "According to the amount of spiritual Jade and the distribution density, the spirit Jade Hall has divided the entire mine vein into ten Kuangqu, from good to bad, from one to ten. The smaller the number, the higher the quality of the mining area."

"According to the customary rules, Kuangqu areas 1 to 3 are in the center of the mountain range and belong to the disciples of the skyward Pavilion. Mining areas 4 to 6 are outside the center of the mountain range and belong to the disciples of the profound secrets Pavilion. Mining areas 7 to 9 are around the mountain range and belong to the disciples of the GreenCloud Pavilion. As for mining area 10, it is a public mining area on the periphery and disciples of all three pavilions can enter and mine. At the same time, although there are spirit jades in mining area 10, they are extremely rare. Only a few pieces can be excavated all year round. Even if it was excavated, it would be useless Jade with thin spiritual energy. Ordinary people were not willing to go in and waste time. It was very difficult to see people all year round, so it was called a dead Kuangqu. The quality of the Kuangqu corresponds to the spiritual Qi in the mountain range. This is also the reason why the cave abodes of the rising Sky Pavilion are the best. The area beneath their cave abodes is the best mining area!" At this point, even the honest senior brother couldn't help but get angry. "I originally thought that no matter how much senior brother Meng targeted you, he would at most assign you to the ninth Kuangqu. In that case, no matter how low the Jade yield is, you would still have some gains. I didn't expect him to actually want the dead mining area ten. Junior Brother Lin, let's go. There's no need to waste our time in this place!"

Heh, I didn't expect that my poor senior brother, a good man who had been submissive for ten thousand years, would actually have an angry side. It's really rare!

Lin Yi was touched by the funny scene, and patted the guy on the shoulder, "It's fine, since we're here, we'll take things as they come. Even if it's the dead Kuangqu area, it's not impossible to find spiritual Jade. Besides, if we run away at this time, wouldn't we be a joke? No matter what, I should at least see what this spirit jade mine looks like!"

"Aiya! Junior Brother Lin, don't be a coward, just come with me!" Lin Yi didn't seem to understand the severity of the situation at all, and the bitter-looking Shixiong couldn't help but panic. "You don't know this, but this spirit jade mine isn't for free. If you sign the mining contract, you'll have to work here for at least three months. Other than important days like the newcomer's trial and the ranking competition, you have to come here to mine at all times. Otherwise, you'll be severely punished for violating the contract!"

Chapter 3593 Switch Failed

He had to work for at least three months? Lin Yi paused-it wasn't just him, the other newbies who'd heard their conversation all had worried looks on their faces as they started whispering amongst themselves.

Three months was neither long nor short. For cultivators with long lifespans, even if three months passed in vain without any gains, it was not a big deal. But for the newcomers present, the meaning of three months was completely different!

Don't forget, if they wanted to enter the GreenCloud Pavilion to further improve their strength, they had to reach the foundation establishment stage within a year. Three months was already a quarter of a year!

Once they signed the contract, it would mean that their cultivation progress would be slower than new miners like Xiao ran in the next three months. After all, even if the spiritual energy in the spirit jade mine was naturally rich, they would not be able to concentrate on their cultivation, and the effect would be greatly reduced.

But then again, if they could earn enough spiritual Jade in the next three months, they would not suffer any losses, because this would lay a good foundation for the next nine months of cultivation. By then, the cultivation effect would definitely be much better than Xiao ran and the others, and it was entirely possible for them to catch up from behind! As long as they could successfully reach the foundation establishment stage, they would be the victors!

At the end of the day, signing the mining contract was a gamble. If they could mine enough spiritual Jade in the next three months, they would win! If the amount of spiritual Jade harvested was too little, or even nothing in the end, it would be a loss, a big loss!

However, if this gamble could be considered a win or lose for the other newbies, then for Lin Yi, who was about to be assigned to the tenth Kuangqu, he would lose without a doubt.

In three months 'time, as long as the others were a little more diligent, they might be able to earn seven or eight pieces of spiritual Jade if they were lucky. Even if they were unlucky, they could at least earn four or five pieces. But in the tenth Kuangqu, which was known to be a Dead Mine, Lin Yi might not even be able to earn a single spiritual Jade after three months.

In fact, according to his past experience, in the tenth Kuangqu area, not to mention good jades full of spiritual energy, even useless jades with thin spiritual energy were rare. It was simply a fool's dream to get 100 pieces of good jades in exchange for a reward.

If it were anyone else who had heard this situation, they would have wisely chosen to retreat. It was better to be a coward than to waste three months of precious cultivation time. At this time, if they still braced themselves to fight, they would simply be stupid!

However, Lin Yi didn't have any intention of backing down. He didn't come for the reward in the first place. Since the number ten dead Kuangqu area had a scarce amount of spiritual Jade, it was likely that the supervision wouldn't be as strict as the other mines, which would make it easier for him to tamper with the mines. In other words, Lin Yi only wanted useless Jade to have the Jade space. It'd be troublesome if he had to trade it for a good Kuangqu with high production of spiritual Jade and get monitored!

But the bitter senior obviously didn't know Lin Yi's plan. He saw that Lin Yi's face was still relaxed and natural, and couldn't help but stomp his feet in panic. Lin Yi was one of the few people who respected him from the bottom of his heart, and the bitter senior didn't want him to lose out, especially this kind of obvious loss!

He tried a few more words of advice, but Lin Yi didn't change his mind. In the end, Shixiong gritted his teeth and walked towards the two.

Seeing his senior brother squeeze his way over, Meng jueguang looked at him in surprise. In the past few years, he had gotten used to seeing his senior brother's submissive appearance, but he had never seen such a determined expression on his senior brother's face. He could even sense a bit of momentum.

This good-for-nothing actually had an imposing aura? Meng jueguang couldn't help but be amused by this strange thought. He pursed his lips and said, "Poor Junior Brother, what are you doing?"

To his surprise, his senior brother didn't answer him as respectfully as he usually did. He didn't even look at him. Instead, he said to Dai Wuchang, "Please give me a contract for the seventh Kuangqu on behalf of senior brother!"

"Oh? Could it be that this poor Junior Brother also had to go to the mine to collect Jade? Don't tell me that the rules of the welcoming new pavilion have changed, and you, as the managers, can actually take private jobs?" Dai Wuchang looked at his miserable senior brother with a strange expression.

In order to prevent these senior brothers from neglecting their proper duties and neglecting their duty of teaching new disciples, the welcoming new pavilion had clearly stipulated that they were not allowed to take any private work. After all, they already had a high monthly salary, which was enough for their daily cultivation expenses. It was fine if he only wanted to supervise and maintain the order of the new disciples in the GreenCloud Pavilion. However, if he wanted to mine the ores personally, that was not possible.

"No, I'm here to ask for this contract for Junior Brother Lin. According to the rules, any manager has the right to arrange a contract for a new member. There shouldn't be any problem with me doing this, right?"

Under Meng jueguang's intense gaze, the bitter-faced senior brother finally bit the bullet and said these words. This was the first time in many years that he had publicly disobeyed Meng jueguang's intentions.

"Oh? "That's right, but ..." Dai Wuchang was taken aback and turned to look at the gloomy Meng jueguang. Although in theory, Meng jueguang had the power to do so, he had always been the one calling the shots all these years. What right did he have to speak?

"As for Lin Yi's arrangements, I've already decided on it. The contract for the tenth Kuangqu was prepared for him, so you don't have to do anything unnecessary, Junior Brother." Meng jueguang coldly looked at his miserable senior brother. Although he was extremely angry in his heart, the other party was still a Senior Steward of the same level as him. He couldn't directly flip out like he did when facing a newcomer.

"The 10th Kuangqu is publicly acknowledged as a dead mining area. As the welcoming new pavilion's manager and senior brother manager, I have to be responsible for the cultivation of the newcomers. I, I think this will be detrimental to Junior Brother Lin's future cultivation!" The miserable senior brother stammered.

In the face of Meng jueguang's many years of accumulated prestige, this was the first time his senior brother had openly argued with him. He felt a little guilty and even stuttered in his words.

Meng jueguang gritted his teeth. Although he really wanted to beat up this ten-thousand-year-old coward, he could only suppress his anger in front of so many people. After all, the words "bitter" were not without reason. At this time, not to mention making a move, even if he said half a word wrong, it would be said that he deliberately suppressed the newcomer. This was a very fatal stain to the senior brother in charge.

Meng jueguang gave Dai Wuchang a look. Dai Wuchang nodded in understanding and interrupted with a cold face, ""Poor Junior Brother, your words are wrong. Yes, your welcoming new pavilion has its own rules, but our spirit Jade Hall also has its own arrangements. Does that mean that the 10th Kuangqu is not a mine and no one is needed to mine it?"

Chapter 3594 Take A Step Back And Everything Will Be Clear?

"Uh ..." The miserable senior brother was taken aback. He had not expected that instead of Meng jueguang retorting, Dai Wuchang would be the one to make the first move. Little did he know that this impermanence and Meng jueguang were the same type of people!

Seeing that his senior brother was at a loss, Dai Wuchang continued to say coldly, ""Just because he has a good relationship with a newcomer, you want to arrange for him to work in a good Kuangqu. Does your family own this spirit Jade Hall?"

"This ..." The senior brother was speechless.

However, Dai Wuchang continued,""Poor Junior Brother, don't think that just because I'm from the GreenCloud Pavilion, you can side with the people of our own Pavilion. On the contrary, in order to not give the people of the other two pavilions any leverage, I have to be even more strict with my own people. This matter concerns the reputation and image of the entire GreenCloud Pavilion, so don't blame me for not giving you any face!"

These words were spoken in a righteous manner, and even the reputation and image of the GreenCloud Pavilion were brought up. The miserable senior brother was instantly speechless. He had never been good with words, and he had already mustered up his courage to oppose Dai Wuchang this time. However, he didn't know what to say after Dai Wuchang's sudden scolding.

Meng jueguang looked at this scene with contempt and smugness. A coward would always be a coward. Since he was a salted fish, he would never be able to make a comeback!

"Since senior brother Dai has already put it this way, then as our own people, we can't make things difficult for him for our own personal interests, right?" Meng jueguang pretended to be open-minded and smiled coldly at Lin Yi."Lin Yi, I'll make it clear that the contract for the tenth Kuangqu is yours. I won't blame you if you want to be a coward now. After all, taking a step back is the way of the world. This is the catchphrase of my poor Junior Brother. You must have learned some essence from him these few days, hahaha!"

Everyone laughed along-it was Lin Yi who got thrown to the tenth Kuangqu, after all, and since it didn't concern them, they were more than happy to watch the show. In fact, the rookies were quite unhappy that they were assigned to the eighth Kuangqu instead of the better seventh area, but they didn't dare to go against Meng jueguang, so they could only find comfort in Lin Yi, who was in a worse state.

The guy's face reddened after being ridiculed like that in public, but he'd used up all his courage just now. He didn't dare to say anything anymore, only looking at Lin Yi, hoping that Lin Yi would leave with him.

Lin Yi, however, only smiled as he looked calmly at the cocky Meng jueguang. "At least I can learn something from brother ku. But if I follow you, brother Meng, not only will I not learn anything, but I might even end up losing the rice. It seems that it is better to follow brother ku."

He went for wool and came home shorn! Meng jueguang's face changed-Lin Yi's words had hit where it hurt. He was still feeling the pain of giving away the two pieces of jade yesterday, and he couldn't help but look at Lin Yi suspiciously. He wasn't sure if Lin Yi was just saying this by chance or if he was just trying to rub salt into his wound!

Of course, even if he knew that Lin Yi was purposely exposing him, Meng jueguang would at most think that Lin Yi had seen through yesterday's framing. He would never have thought that Lin Yi had hidden the two pieces of spiritual Jade in the Jade space.

Lin Yi ignored him and turned to the guy, "Senior brother ku, you don't have to worry about me. I know what to do."

With that, Lin Yi strode over and took the contract from Dai Wuchang, signing his name on it.

"Al!" The guy shook his head helplessly at the scene, but it was too late for him to stop it now. He'd have to think of a way in the future to make Lin Yi suffer less in the Kuangqu.

"Hmph, as expected of the strongest newcomer. You are indeed bold!" Although Meng jueguang praised him, his eyes were filled with gloating.

If Lin Yi decided to be a coward now, then even as the manager, he would only be able to take advantage of Lin Yi verbally at most, but he wouldn't be able to really make Lin Yi suffer. But now that Lin Yi had signed the contract without saying anything, he'd have to suffer in the future!

Even the unlucky Lin Yi, who was assigned to the tenth Kuangqu, dared to sign a contract, so the other newbies weren't going to back down. Three months it was, then-they'd be able to earn something if they worked harder from now on.

After everyone signed the contract, they were each given a Jade card. It was probably made from the worst Jade, and there was a number on it. The others were number seven and eight, but Lin Yi's was number ten.

"The one in your hands is a pass token. The number marked on it will determine the number of Kuangqu you can enter. Other than this, you can't enter the other mining areas," Dai Wuchang returned to his seat after giving his instructions. He pressed some unknown mechanism, and the huge metal door in front of everyone slowly opened on its own ...

"Alright, since you all have the passage title plate, then follow me in." Meng jueguang beckoned and led the way through the door. The others exchanged a glance before following suit.

Behind the door was not the Kuangqu as he had imagined, but a huge compartment. In addition to four uniformed elite guards, there were four other staff members who were responsible for searching the entering and exiting disciples.

These staff members had all been specially trained. From top to bottom, they would not miss any possible corner. Their performance was extremely professional. In the face of such a strict body search procedure, anyone who tried to hide the spiritual Jade was courting death. There was no possibility of them getting away with it.

But Lin Yi did notice that the workers seemed to be very close to Meng jueguang-they'd searched the newbies thoroughly, but Meng jueguang was only there for show. In addition, that Dai Wuchang had also clearly helped Meng jueguang suppress the poor. It seemed like this Senior Steward was doing quite well in this place!

After a body search, they passed through the next room and officially entered the spirit jade mine. It was a deep and empty space. The distance between the bottom of his feet and the top of the mine was about four to five feet. It was not a simple and crude mine as he had imagined. It was obviously a huge mine mansion that had been carefully reinforced and designed. Bright fluorescent stones of various sizes were embedded in every corner of the mine. At first glance, it did not look like a mine, but a mysterious underground world, which was pleasing to the eye.

In this deep and empty mine, there were ten mine tunnels that led to various places in front of everyone!

Chapter 3595 Not Easy To Strike!

Each tunnel entrance was guarded by experts, marked with numbers one to ten. Needless to say, these ten tunnels led to their respective Kuangqu. Only after showing the corresponding passage token were they allowed to enter.

Meng jueguang led Meng Tong and Li Zhengming into tunnel No. 7, while the other new disciples entered tunnel No. 8. As for Lin Yi, he entered tunnel No. 10 with his miserable senior brother.

"Brother ku, don't you need a special pass to come in?" Lin Yi turned to look at the guy, surprised. When he had entered, he had clearly seen that his miserable senior brother had only shown the guard his Jade token as the welcoming new pavilion's steward. On the other side, Meng jueguang had also done the same.

"That's right. The identity token of the welcoming new pavilion's manager is still valid here. However, because I'm from the GreenCloud Pavilion, I can only enter and exit the 7th, 8th and 9th Kuangqu. Of course, the 10th mining area is a public mining area, so I can also enter and exit as I please. " The miserable senior brother nodded.

After a pause, he immediately complained,""Junior Brother Lin, you really shouldn't have signed the contract just now. I've tried Kuangqu 10 before, and I couldn't find any good Jade. However, since things have already come to this, I can't do anything about it. I'll take you to a few places where I've dug out spirit Jade. Although I've only been able to dig out some useless Jade, it's still better than you blindly doing useless work like a headless fly. "

"Then I'll have to thank senior brother ku." Lin Yi replied with a smile.

Although he was already in the early stage of the foundation building realm and didn't have the pressure of time like other new people, three months wasn't a short time. If he really couldn't dig out anything, it would be a pure waste of time. However, it was enough to dig out the useless Jade.

The tunnel was long and winding. According to the miserable senior brother, the 10th Kuangqu was already at the edge of the tunnel. The two of them walked for more than an hour before they reached their destination.

Along the way, although they occasionally saw a few people, they could be counted with one's fingers. Even when they arrived at the real mining site, there were only two or three people in the large mining

area, two of which were even uniformed guards. The name of the tenth dead mining area was indeed well-deserved.

The two bored guards looked at each other when they saw Lin Yi and Lin Yi. ""Heh, another two unlucky fellows."

Even the trash of the GreenCloud Pavilion was unwilling to come to this Kuangqu. Those who were assigned to this place must be the unlucky ones who had offended the higher-ups. As the guards of this place, they were already used to such things.

The bitter guy's face turned black. He was actually being treated as an unlucky fellow by the guard! Previously, Meng jueguang had seemed to be very happy with himself, having acquaintances wherever he went. On the other hand, he was suffering. That was ... Truly a living hell!

"I'm the senior martial brother in charge of the GreenCloud Pavilion's welcoming new pavilion, and I'm here to send disciples to the Kuangqu area to mine!" The senior brother said.

"Bitter happiness?" The two guards were obviously stunned, "I've never heard of you. You're the senior Steward?" Wasn't the steward senior brother Meng Jue Guang and ku bi? Where's the joy?"

"Um ... I'm bitter. Bitter is my nickname, and bitter joy is my original name ..." The bitter senior brother explained with a bitter smile.

"D * MN, wouldn't it have been fine if I had told you earlier that you were suffering?" The guard nodded, then waved his hand, indicating that the poor man could go in.

The poor guy nodded to the two guards and brought Lin Yi to the mine he was familiar with.

However, he had only taken two steps when he heard the two guards talking behind him.

"So he's the bitter one. After seeing him today, he's indeed a bitter one!"

"That's right, but I think that the one beside him is the real loser. He followed the wrong person. If he had followed Meng jueguang, how could he have come here?"

"Sigh, there's nothing we can do about that. In fact, aren't we the same? If I didn't offend Dai Wuchang, a powerful figure in the spirit Jade Hall, how could I have been sent here?"

Lin Yi heard the conversation as well-the guy's name was bitter joy, but it was clear that he'd accepted the name himself, so no one recognized him during the registration.

The two walked into the Kuangqu put down the named baskets they'd gotten at the entrance. They took out the shovels and forced their senior to demonstrate to Lin Yi himself, giving him some tips and tricks for mining.

It was worth mentioning that in order to prevent the spiritual energy of heaven and earth in the spiritual Jade from being damaged during mining, the shovel used for mining was made of Jade. However, it was similar to other iron shovels in that it was hard, sharp, and very practical. Not only could it easily cut

through soil, it could even pierce through hard rocks. Lin Yi even thought that this thing could be used as a weapon.

After getting the hang of what the guy taught him, Lin Yi quickly got to it-it wasn't a complicated thing, after all, and he'd still have to use his strength. With Lin Yi's strength at the early Foundation Stage, this amount of physical work was nothing to him. He wouldn't feel tired at all even if he worked non-stop for an entire day.

This was the tenth Kuangqu, and the Jade drop rate was extremely low, but Lin Yi's current location had his poor senior's experience, after all. His luck wasn't bad either, and he managed to get his first spiritual Jade after a while.

After wiping away the soil on the surface with a cloth, the pure white jade quickly bloomed with brilliance. It looked exactly the same as the spiritual Jade in his hand. However, after carefully sensing the spiritual energy in it, he found that it was very thin, with a concentration of less than one percent. It was a typical piece of waste Jade.

"It's not bad. If we save up enough of this useless Jade, we can exchange it for good Jade." The miserable senior brother consoled him.

Lin Yi nodded, and one of the two guards walked over with a scale. He weighed the Jade and wrote down the number before throwing it back into the basket and leaving.

"What is he doing?" Lin Yi asked, confused.

"This is the same surveillance procedure for all Kuangqu. In order to prevent anyone from secretly hiding spiritual jades, every time someone excavates a spiritual Jade, the guards will weigh and record the number. When it's time to report, all the spiritual jades that you've excavated will be weighed again. If the number differs too much from the number provided by the guards, especially if it's much less, you'll be isolated for investigation." The senior brother explained.

Lin Yi couldn't help but click his tongue. They already had to conduct a strict body search to enter and exit the mine, but he didn't expect there to be this kind of monitoring process. Other things aside, the spirit Jade Hall really did a perfect job in preventing people from stealing spirit Jade.

Chapter 3596 Opportunity

"If it's a good Jade full of spiritual energy, it's understandable to be checked so strictly. But is it the same for useless Jade?" Lin Yi said.

The miserable senior brother nodded. "It's the same. No matter if it's good Jade or bad Jade, the process is the same. Only at the end, before entering the warehouse, will there be a special person to distinguish the quality, sort out the good Jade and the bad Jade, and record the corresponding amount as the basis for future payment."

This ... This matter was a little tricky!

According to Lin Yi's original plan, hiding a few pieces of jade should be a piece of cake, but this way, even if he only hid one piece of Jade, it was very likely that people would find out.

After all, once a spiritual Jade was dug out, the guards would come over to weigh it and record the data. When it was time to hand in the work, they would have to re-weigh it. If the number of spiritual jades harvested every day was not much, even if it was just one piece secretly hidden, there would be a big difference between the two data!

Or could he hide the spiritual Jade in the Jade space the moment he dug it out and pretend that he didn't find it?

Lin Yi naturally came up with this idea, but he quickly gave it up after secretly looking back at the two guards.

The reason was that no one came to this dead Kuangqu area to collect Jade, so the two guards would look at Lin Yi from time to time out of boredom. The process was different when they dug up the Jade compared to when they didn't, and it wasn't a short one. Perhaps Lin Yi didn't even have time to dig it out completely before the two guards walked behind him to weigh it-there was no way to escape their surveillance.

However, if he couldn't make a move before the guards weighed the spiritual Jade, it would be even more impossible after that. At that moment, Lin Yi even felt that he had made a mistake coming here. If he couldn't think of a foolproof way to steal the spiritual Jade, then the next three months would be a complete waste of his practicing time.

He thought of all the possible ways he could do it as he continued to mine-his luck was pretty good, after all, and he found another spirit Jade in just half an incense's time.

"It seems that this Junior brother's luck is not bad! Although it's much lighter than normal good Jade, it's still a bit heavier than the first one. It's clear that even if it's a useless Jade, it's still a good piece of useless Jade!" The guard who came over to weigh them sighed with a smile.

Originally, according to the rules of the spirit Jade Hall, under normal circumstances, the guards were not allowed to chat with outsiders. However, the work at the tenth Kuangqu was really boring. Even if they casually chatted to relieve their boredom, their colleagues would turn a blind eye to it.

"The weight of good Jade is heavier?" Lin Yi suddenly had an idea after hearing the Guard's words. He turned to the miserable senior brother and asked.

"That's right. Junior Brother Lin, don't you know that even if they are of the same size, a good Jade full of spiritual energy is much more valuable than a useless Jade with thin spiritual energy!" The miserable senior brother nodded.

"I see." Lin Yi let out a breath of air. If that was the case, then even if they were to face the strict surveillance procedures of the spirit Jade Hall, there might still be a loophole.

"Brother ku, I have a basic understanding of the situation here. You don't need to waste your time with me anymore. Why don't you go and do your own things?" Lin Yi turned to his bitter-looking brother.

"This ... Alright, then I'll take my leave first." The miserable senior brother nodded. He'd followed Lin Yi here today because he didn't want Lin Yi to be at a disadvantage, but now that things had come to this point, he couldn't just keep wasting time here. He might as well go back and think of a way to help Lin Yi.

Lin Yi's thoughts were starting to take shape as he watched his poor brother leave-the most important thing was the weight of the spiritual Jade. Spiritual jades full of Qi were heavy, while spiritual jades with thin Qi were light-this was the reason why Lin Yi wanted to use it.

The two guards would look over from time to time, but they didn't pay attention to the situation all the time. According to Lin Yi's plan, he could take the weighed Jade from the basket and put it in his Jade space when the guards weren't paying attention, charge it, and put it back quietly. If he could get a few more pieces, the extra weight after charging should be enough to match a piece of spirit Jade, and even

if he managed to steal one, he'd still be able to get it. There was not much difference in the weight after the work was handed over and weighed, so he could get away with it.

After thinking about it, the only flaw in this plan was that there would be quite a few good quality Jade in the storage. It wouldn't be a problem in other high-quality Kuangqu, but in the tenth mine, it was a little too obvious.

But then again, this wasn't a big problem. No matter how obvious it was, people would only say that Lin Yi had heaven-defying luck, but no one would think that Lin Yi had secretly turned useless Jade into good Jade and put it back. After all, in the logic of normal people, using their own good Jade as a mine Jade to hand in was simply crazy!

If the good Jade wasn't mined on the spot and he already had it, then what was the point of handing it over? he could just keep it for himself! If they had to count it as the result of mining and expect a reward of one hundred Yuan for one piece, their brains must have been kicked by a donkey! Plus, there was a body search before entering or leaving-it was impossible for Lin Yi to bring the spiritual Jade in!

With the plan decided, Lin Yi put it into action immediately. After digging for eight hours non-stop, other than the obviously useless jades, there were eighteen "useless spirit jades" of all sizes in his basket. This might not be much in other high-yield Kuangqu, but this was dead Mine number ten. It was already pretty good to have this result. Even the guards who came to weigh the Jades were amazed.

Of course, according to the tenth Kuangqu's usual behavior, although these 18 pieces of spiritual Jade looked impressive, they were 100% useless Jade, so there was no need to be envious.

It looked like Lin Yi was mining all the time, but during the process, he'd secretly used the Jade space to store eight pieces of spirit Jade into the basket!

This was because the spiritual Jade was taken out from the middle of the basket. It still looked the same on the surface and there were not many changes. The guards who were standing far away would not be able to notice anything unusual if they did not look carefully.

In the next four hours, in order to prevent the guards from coming, Lin Yi purposely didn't dig out any spiritual jades. He only sneaked them back into the basket after the spiritual jades in the Jade space were fully charged.

Chapter 3597 It Can Be Operated As Expected

According to the difference between the previous and the subsequent spiritual jades, he found that the weight of these eight full spiritual jades was equivalent to ten pieces of useless Jade. This also meant that under the premise of ensuring that there was not much difference in the weight, he could secretly hide two spiritual jades!

Two pieces of spiritual Jade-they were useless, but in Lin Yi's hands, they were real good Jade! Hiding two pieces a day might seem like a small number, but if he could keep doing it smoothly, it would definitely be a considerable amount of wealth.

Plus, Lin Yi didn't touch the Jade that looked good on the outside, but was rotten on the inside. He only touched the kind that looked useless on the outside, the kind that didn't even have a layer of skin, the kind that only had a bit of energy. If that little energy was used up, the Jade would break.

The guards probably wouldn't count the number of jades like this, but they'd definitely remember the ones that looked good. If Lin Yi really touched them, it'd be a problem! However, whether it could move or not, he still had to try! If they were really strict on the quantity, then Lin Yi would have to return the spiritual Jade he stole!

As for why the weight of good Jade changed with more good Jade, the guards probably wouldn't doubt it. After all, no one would be stupid enough to count their own Jade in. They would only think that they had misremembered!

But if it was possible, Lin Yi would be working here for three months, and even if he didn't take into account the ranking competition and the newbie trial, he would have at least seventy days. If he hid two a day, that would be a hundred and forty Kuai!

One should know that the welcoming new pavilion only gave one piece of spiritual Jade to the newcomers every month. What kind of concept was 140 pieces? This was simply turning him into a nouveau riche. Even a Senior Steward like Meng jueguang with a lot of experience would not have so many spiritual Jade saved up!

Spiritual jades were consumables that could be used for both cultivation and trading. Let alone 140 pieces, it would be considered good if Meng Jue had 30 to 50 pieces in his possession. Otherwise, he would not have been in so much pain for so long just to pay two pieces of spiritual Jade.

This way, as long as Lin Yi had enough spiritual jades, he could buy even more precious natural treasures with just a word, let alone ingredients for elixirs. At the end of the day, this was just like the secular world. With more spiritual jades in hand, one's backbone would naturally become stronger, and one would naturally have more confidence in speaking and doing things.

However, all of this was built on the foundation that things would go smoothly. Although Lin Yi's plan to steal the spiritual Jade seemed to be complete, if the two guards who weighed him were really careful, they would notice something fishy. Of course, according to Lin Yi's observation of the two, the possibility of this happening wasn't high. Even if there was a chance of them being discovered, it was very small.

The two of them only took note of the number of waste jades other than gold and Jade. As for their weight, they only used a counter to add up the total. They didn't record the individual weight.

After working for a full 12 hours, the sky should have already turned dark outside. Suddenly, a faint bell sound came from the distance of the mine tunnel. One of the guards shouted at the top of his voice, "Alright, Bell is done. That's it for today. Pack up and hand in your work with me!"

Lin Yi looked around and couldn't help but chuckle. The guards were clearly shouting at him. There was no one else in the huge Kuangqu other than him and the two guards.

He got up and patted the dust off his body before putting away the Jade shovel and carrying the basket. He followed the two guards out of the Kuangqu.

"This Junior brother's harvest today is not bad. Tsk tsk, you've picked more than forty-two catties on your first day here. Although they should all be useless Jade, it's still not bad." One of the guards waved the account book in his hand at Lin Yi. He'd been stuck in this dead Kuangqu for a whole year, and it was rare for him to meet a new face, so he just wanted to talk to Lin Yi to relieve his boredom. "You've mined quite a lot of Jade that looks like good Jade. Even if they're all useless Jade, you can still exchange ten thousand pieces of good-looking Jade for a piece of good spirit Jade! You still have hope!"

Ten thousand Yuan! If Lin Yi didn't have a cheat, he'd be dead tired!

Lin Yi's sharp eyes saw his name at the start of the page, and below it was a string of numbers that looked like good jades. There was a special circle at the bottom, and it was an eye-catching number-forty-two catties and three taels. This was already the weight of the baskets minus it, and it was the final accurate record he had.

It was just as Lin Yi had guessed-there wasn't the pure useless Jade's total weight, only the total weight of the Jade. There were a lot of things that Lin Yi could manipulate in this.

"Hehe, it was pure luck! This senior brother, this is my first time here and I don't know the rules here. Can you tell me what the rules are?" Lin Yi saw that the guard was friendly and tried to ask.

To be honest, Lin Yi didn't think he'd give himself away, but it was the last test he'd have to face-he was still a little scared. This was the same as a student cheating in an exam. Even if the invigilator didn't catch the student cheating on the spot, they would still worry about whether they had left a trail on the paper after submitting it. For example, they would copy down the other person's mistakes exactly.

The guard looked at Lin Yi, thinking that he was bored anyway. He smiled,"The handover process is very simple. You hand over the basket of spiritual Jade you dug up, and I hand over my account book. The rest is none of our business. We just have to wait at the side. There will be someone in the warehouse who will specially re-weigh your spirit Jade. As long as the number is not too different from the 42.3 catties I marked, there will be no problem. "

"Will there be any discrepancies with this normal rule?" Lin Yi narrowed his eyes.

"Of course there will be. The same basket of Jade will have errors when it is weighed by different people. What's more, the scale in my hand is so simple and crude. It can't be compared to the accuracy of the big scale in their warehouse. However, the difference is usually within five taels." The guard replied.

Lin Yi nodded, deep in thought. A normal piece of spirit Jade of average size would weigh at least half a kilogram, and if the difference was less than five taels, it meant that it was a weighing error, eliminating the possibility of the Jade being stolen.

Moreover, when these spiritual jades fell down, they would be taken away by the guards and placed into the basket. This eliminated the possibility that the miners would absorb a portion of the energy inside first after mining them.

Chapter 3598 Face Slapped

If the upper limit of the margin of error was five taels, then it should not be a big problem! Lin Yi let out a sigh of relief. As an early Foundation Stage practitioner, he was more sensitive to weight than normal people. According to his estimation, the difference in weight between the eight pieces of spiritual Jade and the ten pieces of useless Jade was at most two or three taels.

"What if the difference is more than five taels? What will happen?" Lin Yi asked.

"Then you'll be isolated for inspection, and you'll have to strip naked for a body search!" The guard chuckled and looked at Lin Yi mischievously. "Brother, you're asking about this. Could it be that you've secretly hidden the spiritual Jade?"

"Senior brother, you must be joking. With such a strict body search, even if you wanted to hide it, you couldn't! If I don't hide it on my body, but in this mine, it's no different from not hiding it at all. I can't take it out anyway!" "Plus, the two guard brothers are doing their best here, I don't stand a chance!" Lin Yi smiled.

"That's right! Hehe, brother, you're right. The rules of our spirit Jade Hall are so strict. Ordinary people have no chance to steal spirit Jade, especially a newcomer like you who has no foundation. You can forget about it! Only those who have a wide network of connections have a slim chance. Tsk, tsk, what a world!" The guard sighed with envy and dissatisfaction.

Lin Yi couldn't help but think of someone-Meng jueguang! From his previous performance, this guy seemed to be very popular in the spirit Jade Hall. He should be the kind of person with a deep network that the guards had mentioned!

Given the temperament of this Senior Steward, Meng jueguang, he might even take a risk out of desperation! Lin Yi's heart skipped a beat, but it was just a fleeting thought. The most important thing now was to find out the rules of the spirit Jade Hall.

He'd gotten quite a bit of information from the talkative guard-it might not be of much use, but he had a rough idea of what they might face next.

An hour later, Lin Yi followed the two guards out of tunnel No. 10. To his surprise, Meng jueguang and his men were standing in front of the warehouse.

The tenth Kuangqu was the most remote area, and these people were much closer to the seventh and eighth areas. It wasn't strange for them to come back earlier than Lin Yi, but they should've already finished weighing their work. It was strange for them to still be waiting here.

But after seeing the gloating expressions on everyone's faces, Lin Yi quickly understood their intentions. They were all here to see him make a fool of himself!

"Oh, our strongest newcomer has finally come out. I thought he was so embarrassed that he wanted to die because he couldn't find the spiritual Jade. In a fit of anger, he would kill himself in the dead Kuangqu!" Meng Tong couldn't wait to jump out and mock Lin Yi as soon as he saw him.

"Meng Tong, what are you saying?" Meng jueguang pretended to be serious as he lectured him. "Our strongest newcomer is the direct disciple of our miserable Junior Brother. Even if he's really ashamed and resentful, he'll at most hide inside like a turtle. How could he hit his head and die? Can't you see that my poor Junior Brother is still alive and well? What kind of thing did their faction like to think of? That little picture book that someone took from the secular world ... Oh, right, it's called Ninja Turtle!"

"Oh, right, Ninja Turtle! Ninth older cousin brother is still the best at judging people! But this newbie is quite thick-skinned, maybe he'll only know what it means to be ashamed to death when he's weighed!" Meng Tong laughed weirdly, and the crowd burst into laughter. They'd been working hard for the whole day, and they couldn't wait to find a sense of superiority from this Lin Yi who was always in the limelight.

"It seems like you're not having a good time, brother!" The guard shook his head and chuckled at the scene. He brought Lin Yi to the handover area and handed the account book to the staff in charge of weighing. He gestured for Lin Yi to pour the spirit Jade in the basket onto a giant scale platform at the side.

"Hehe, guess how many catties of spiritual Jade our pretentious newbie has collected today. I'll start with one, three catties!" Meng Tong led the crowd and jeered.

The others were instantly delighted. They had already weighed it before, and even the smallest one weighed 20 catties. For Meng Tong and Lee Zhengming, who were assigned to the seventh Kuangqu, they weighed more than 30 catties. This number was already considered good for a newbie who had just started mining.

"Brother Tong, you're wrong. We're brothers after all. I think it should be at least four pounds!" Lee Zheng Min chimed in from the side.

"I'll bet five catties!"

"I bet four and a half catties!"

"....."

Lin Yi didn't even bother with them as the crowd was cheering. He took the basket down from his back and poured thirty to forty pieces of spiritual Jade on the scale, silencing the crowd instantly.

"42.5 Jin!" The staff noted down the numbers and compared them to the numbers in the book. There was only a difference of two taels. He nodded, signaling for Lin Yi to put the Jade back into the basket. "No problem,"

Lin Yi let out a breath of relief-he'd had his heart in his mouth before this, but he didn't think it'd be this easy. He was a little surprised.

However, after thinking about it carefully, the Kuangqu was so large and there were so many people mining. It was already very difficult to check the weight of the ore. If they were to check it in more detail, the workload would definitely make everyone in the spirit Jade Hall collapse. Moreover, there was a strict body search when entering and exiting, which had already put an end to everyone's attempt to hide the spiritual Jade to a large extent. This was only an auxiliary monitoring process.

Lin Yi let out a breath of relief, but the others, especially Meng Tong's group, were in a difficult position. They looked at the bright red number on the scale, speechless.

42.5 catties! What kind of concept was this? this was simply an instant kill. Even Meng Tong, who had received Meng jueguang's guidance, had only weighed 35 Jin in the end!

"This, this is definitely cheating! How could a dead Kuangqu area possibly have so many spiritual jades!" Meng Tong couldn't help but cry out.

Cheating? How could he cheat with this? Could it be that he had racked his brains to secretly bring his spiritual Jade in, then sneaked in and pretended to be the one who had dug it out to hand it over? Was there something wrong with his brain?

Seeing everyone turn to look at him with a strange expression, Meng Tong finally realized that he had said something extremely stupid. At this moment, even Meng jueguang was looking at him like an incurable fool.

Chapter 3599 Comfort In The Heart

"It seems that the bitter one is really concerned about you, a rare little brother. He helped you dig out a lot of spiritual jades, right?" Although Meng jueguang's expression was also somewhat unsightly, he was not as hysterical as Meng Tong. He raised his eyebrows and arrogantly made his own inference.

The others suddenly understood-with their poor senior brother's honest personality, it was possible that he'd help Lin Yi dig out spiritual jades to make up for it. With the help of a veteran like their poor senior brother, Lin Yi's 42.5 taels wasn't that exaggerated anymore. The depressed and embarrassed people suddenly felt balanced again. There were two of them, and they were one person. It was normal for Lin Yi to have more than them.

Lin Yi only smiled, not denying it. It was his bitter senior who helped him find the mine, after all, and taught him a lot of useful tips, but it was undeniable that this was the result of Lin Yi's own hard work.

It didn't matter if his senior brother taught him well or if he was lucky, Lin Yi dug out all these pieces of jade himself. There was no cheating involved. If it was really about cheating, his results were even more than this. After all, he had secretly hidden two pieces.

It was the truth, but Lin Yi didn't want to waste his breath on them if they insisted on thinking that way. They could think whatever they wanted about things that didn't matter to him, and Lin Yi couldn't stop them from trying to find a balance in their minds.

Lin Yi's calm face made everyone unhappy. They were here to see Lin Yi make a fool of himself, but now they were like clowns. Lin Yi was the one who made them a joke.

"Actually, the weight isn't the key. If you excavate twenty catties of spiritual Jade in a good Kuangqu, there might be ten pieces of good Jade full of spiritual energy. But in a well-known dead mining area, not to mention forty catties, even if you excavate four hundred catties of spiritual Jade, there might not be a single piece of good Jade." "At the end of the day, you'll only get paid if you get the best Jade. If it's all trash Jade with a little bit of Qi, so what if you empty out the entire Kuangqu? it'll still be in vain, won't it?" Hehe!"

"Yes, yes, yes! What senior brother Meng said is true. We only dig for Jade after we've taken a good look. We try to dig for Jade that looks good. If we just dig with brute force and don't pursue quality, it's not difficult for us to dig four hundred catties a day with our current strength, let alone forty-two catties. " Meng Tong immediately chimed in.

400 catties was an exaggeration, but if one didn't care about the quality and just dug randomly, it was possible to dig up 100 catties.

However, in the better Kuangqu, the Jades that fell were obviously useless. They didn't put them in the basket at all. Instead, they put them in the useless Jade basket. Only the Jades that looked like good jades were put in their own baskets.

On Lin Yi's side, however, he was the only one, so he put both the good and the bad together!

Everyone regained their confidence after hearing Meng jueguang and Meng Tong's words, and they looked at Lin Yi with disdain and mockery.

That's right, everyone came here to mine for the spiritual Jade-so what if Lin Yi could mine a few hundred pounds of Jade and beat everyone here? he was assigned to the tenth Kuangqu, and it was destined that he wouldn't be able to get any good spiritual Jade. Without good Jade, there would be no reward-this was common sense.

Although according to the rules of the spirit Jade Hall, even if you collected too much waste Jade, it could be counted as good Jade to receive the reward, this ratio was enough to make no one think about it. Even if the quality of the waste Jade was good, it would take at least 100 pieces to match the spiritual energy of one good Jade. As for the worse ones, those that were only half-covered with the outer layer of the spirit Jade, with the core of the waste Jade inside, the ratio was one thousand to one. To put it simply, if one wanted to earn spiritual Jade from this, it would be better to prepare for retirement here as soon as possible. At least, there was absolutely no hope in the short term.

As such, if one wanted to exchange for a reward at the end, they would have to spend 100000 Yuan to exchange for a piece of spiritual Jade. Therefore, these people simply gave up. According to the rules of the past, they would be thrown into the public trash basket.

However, this was also a process of accumulation. These waste jades could be exchanged for rewards over time, but they were pocketed by some people, Dai Wuchang and Meng jueguang.

However, this kind of thing also happened in the Kuangqu of the other two pavilions. It was the custom to pay respect to the steward of this Pavilion and the steward of the welcoming new pavilion. It was not a robbery, so no one would say anything when they knew about it.

Lin Yi shook his head speechlessly as he looked at the expressions on their faces. Just how low was their self-esteem for them to come to him for comfort? The fact that the GreenCloud Pavilion was so weak and had been passed down from generation to generation, it was clear that there was a reason for this!

Lin Yi wanted to see the expressions on these people's faces when the results came out. It was going to be interesting!

Under everyone's gazes, Lin Yi put the Jade back into his basket and sent it to the quality inspection Office. There were five specially trained quality inspection staff in charge of distinguishing the quality of the Jade, recording everyone's results for a day, and sending the Jade to the warehouse according to their grades.

Compared to the weighing process, the quality inspection was much more demanding. Even if there were five people working at the same time, there was still a long line of baskets in front of Lin Yi. The names on the baskets were Meng Tong and the other new disciples of the pavilion.

At this moment, they heard one of the quality inspection staff report, ""Lee Zheng Ming, six pieces of good Jade and twenty-two pieces of useless Jade!"

For a moment, all the new players looked at Lee Zheng Ming with envy. For the new players who were not familiar with mining on their first day, it would be considered good if they could get more than five pieces of good Jade in a day.

A few other newbies had already finished their quality inspection, and the best one only had four pieces of good Jade. Of course, these people were all assigned to the eighth Kuangqu, which was one grade lower than Lee Zheng Ming's seventh mining area, so it was normal that the results were not as good as Lee Zheng Ming's.

Immediately after, they heard a quality inspection staff report, ""Meng Tong, seven pieces of good Jade and twenty-three pieces of useless Jade!"

"No big deal!" The envious gazes from the crowd made Meng Tong smile proudly as he looked at Lin Yi provocatively. It felt so F * cking good to be in the limelight!

Chapter 3600 This Is Fake, Right?

"Hehe, don't be envious of the two of them. You'll feel better when you see the results of our pretentious newbie." Meng jueguang sneered as he led the way.

In fact, he didn't even need to think about it. The tenth Kuangqu was known to be a dead mining area, and Lin Yi's final result would be a pile of useless Jade, not a single good Jade!

This was exactly what Meng jueguang wanted. Newbies like Meng Tong and Li Zhengming who listened to him could stay in a good Kuangqu and get at least six or seven pieces of good Jade a day, while people like Lin Yi who didn't listen to him were assigned to the tenth mining area and couldn't get a single piece of good Jade after a whole day of hard work. The newbies here knew what to do after comparing the two!

Those who submit will prosper, and those who resist will perish! This was the minimum requirement that Meng jueguang had for himself-if he couldn't even do this among these trashy newbies, then he'd be letting down his authority and power as the manager. In fact, if it weren't for Lin Yi, this thorn-like guy, ruining his plans time and time again, he'd have done this already according to past experiences.

But now, not only was he unable to do that, he even had a very bad feeling about this. The source of this feeling was this morning's scene. For Lin Yi, he had to endure years of suffering, and now he dared to go against him in public. For someone who was used to having his word spoken, this was not a good sign!

Meng jueguang was able to enjoy his position as the eldest senior in charge because he had a wide network of connections. Although his background might not be very strong, he had built a good network of relationships with people from all walks of life through his scheming and research. But there was another more important reason, and that was Bitter Love.

According to the rules of the welcoming new pavilion, the newcomers of the three pavilions were managed by two senior brothers in charge. In other words, under normal circumstances, the power would be equally divided between the two senior brothers. However, in the GreenCloud Pavilion, Meng jueguang was able to monopolize the power without any suspense because of his miserable senior brother, who could be called a weirdo. In fact, if it were any other guy with a little bit of ambition, it would not have been easy for him to achieve this. After all, even if he had more experience, their positions were equal. Once they started competing, they would inevitably go through a lot of trouble.

Meng jueguang was originally very satisfied with the situation, but today, this guy disobeyed his will in front of everyone and even tried to arrange a new Kuangqu for Lin Yi. This was a challenge to his authority! Although this confrontation ended in a bitter defeat, it wasn't a good sign, especially with that restless Lin Yi instigating them behind their backs. It might cause even more trouble in the future!

Although in Meng jueguang's eyes, the bitter end was not a worthy opponent, it was still a problem. It was better to nip it in the bud as soon as possible. The most realistic way to achieve this was to take all

the other newbies under his wing before the bitter gourd attacked again. If Lin Yi was the only one under him, the bitter gourd wouldn't be able to shake Meng jueguang's position no matter what he did!

Meng jueguang was leading a group of newbies, laughing coldly as he watched Lin Yi dig for a whole day, only to find nothing good. How would he feel? He would definitely be so depressed that he would want to kill himself!

Lin Yi's face didn't change as he watched the staff drag him in, even smiling faintly. But in everyone's eyes, the guy was just trying to save face!

"Hehe, pretentious newbies are really good at acting pretentious. At this time, they can still maintain their face without changing their expressions. It really makes people sigh at their inferiority!" Meng Tong curled his lips and sneered.

He didn't like Lin Yi's calm attitude the most-he was the living embodiment of a poser, and if he were in Lin Yi's shoes, he'd be more than willing to learn. After all, who wouldn't love to act cool when they had an unfathomable amount of power?

"Hmph, how dare he offend senior brother Meng. He really doesn't know the immensity of heaven and earth. Let's see how he cries later!" Under Meng jueguang's deliberate guidance, some of the rookies had already come to an understanding and were clearly beginning to lean towards Meng jueguang.

If it was before, these normal newbies with no background wouldn't offend Lin Yi so publicly even if they didn't like him. After all, they could tell from how he defeated Meng Tong in one move on the first day that Lin Yi was a tough guy, and the consequences of offending him weren't good.

But now, on one side were Meng Tong and Li Zhengming's six or seven pieces of spiritual Jade, and on the other side was Lin Yi's destined zero piece. With such two distinct paths in front of them, it would be stupid if they didn't know which one to choose. Stepping on Lin Yi right now was a sign of their loyalty to Meng jueguang. It would be a waste not to step on him, but it would be too late if they didn't!

They were all Sky Class Masters-they weren't stupid. After one of them understood what was going on, the others quickly reacted, afraid that they'd be labeled as abnormal by Meng jueguang. They couldn't wait to start making fun of Lin Yi, each one more unpleasant than the last.

Although this group of newbies didn't have much talent, they weren't too stupid! Meng jueguang immediately laughed with pride. This was the effect he wanted. 'Damn it, damn it! You want to fight me with a piece of trash like you? you'd better take a piss and look at your own unlucky self!'

However, before he could finish laughing, the next sentence that came from the quality inspection Office suddenly stunned everyone. One by one, like a duck that had its neck pinched, their faces turned red, but they could not say a word.

"Lin Yi, eight pieces of good Jade and seven pieces of trash Jade! Twenty pieces of trash Jade!"

The so-called trash Jade was the kind of Jade that looked like waste Jade. This kind of Jade was disdainful to other new disciples. Of course, it was also a form of respect for their senior brother. Only 100,000 Yuan could be exchanged for a reward? when would that be? Rather than being crippled by his own hands, it would be better to give it to Meng jueguang.

However, even if they didn't mention the trash jades, Lin Yi had far less trash jades than people like Meng Tong and Li Zhengming, but the most important thing was that he had eight pieces of good Jade!

How could there be eight pieces? Wasn't that a dead Kuangqu where not a single piece of good Jade could be found? If a random newbie could get eight pieces of good Jade on their first day, then how could it be called a dead Kuangqu? this quality could be ranked above the seventh mining area! It was almost as little as the number in the fifth and sixth Kuangqu!

"This ... Is fake, right?" Not only Meng Tong and the others, but even Meng jueguang was dumbfounded!
