

## Bodyguard 3611

### Chapter 3611 Who's The Real Boss!

With that, Lin Yi turned around and left, leaving lingchong and the others staring at each other with ugly expressions.

They actually welcome people to watch again? And you don't mind losing face? 'This bastard is too F \* cking infuriating. I can't tolerate this anymore. I can tolerate him, but I can't tolerate him!'

To avoid further embarrassment, Meng jueguang waved his hand, signaling for the other newcomers to disperse. He then carefully looked at Xu lingchong, who had an ugly expression on his face.

"Meng jueguang, as the new manager of the GreenCloud Pavilion, are you really going to watch him continue to be so arrogant? If you don't have the ability, then don't just sit in this position and waste food. I believe that there will be people willing to stand up against Lin Yi!" Xu lingchong looked at Meng jueguang angrily.

He'd thought that Lin Yi was a talent when he heard that Meng jueguang kicked him to the tenth Kuangqu, but now it seemed that he was just a useless idiot!

Seeing that Xu lingchong had turned the blame on him out of embarrassment and anger, Meng jueguang instantly threw his previous worries to the back of his mind and was sweating profusely. He was just a small manager at the bottom of the hierarchy. How could he withstand young master Xu's anger?

Moreover, Meng jueguang had just been accepted by Xu lingchong. If he did not handle this well, it would be strange if Xu lingchong would pay him any attention in the future!

Fortunately, Meng jueguang still had the quick-witted mind of a minor character. He rolled his eyes and said, "Young master Xu, don't worry. This Lin Yi was able to dig out so many good Jade in two days in a row. I'm thinking that there must be something fishy going on. He might have found a high-quality mine!"

Xu lingchong nodded thoughtfully. This analysis did make some sense. Even if it was the tenth Kuangqu area, it was a man-made area, and was connected to the other high-quality mines. The Jade drop rate was low, but that didn't mean there wouldn't be good Jade. If Lin Yi really found a high-quality mine by chance, it wouldn't be surprising if he found good Jade for a few days in a row.

Seeing Xu lingchong's approval, Meng jueguang's spirit was lifted and he continued to message, "So I think we can transfer him to another Kuangqu for a few days. After we find out the details of the quality Jade produced in the tenth mine, we can find a way to deal with him. What do you think, young master Xu?"

"This ... It's not impossible," Xu lingchong said as she pinched her chin.

Although Xu lingchong wanted to mess with Lin Yi, he couldn't do it directly due to his status. Even if he wanted to mess with Lin Yi, he couldn't do it too simply and violently. Otherwise, even if he screwed Lin Yi over in the end, he'd become the laughingstock of all the other young masters and young ladies. So if he wanted to mess with Lin Yi, he had to make it so that no one could pick a bone with him!

Even though Meng jueguang's suggestion would take some time, Xu lingchong had the patience to wait for a few days.

"Fine, I'll leave this to you. If you do well, I'll get Hu Yun Feng to reward you. But if you screw it up, you'll have to deal with it yourself." Lingchong said as he glanced at Meng jueguang. Before coming up with a better plan, letting the new manager deal with Lin Yi wasn't a bad idea.

Meng jueguang quickly patted his chest and promised, "Don't worry, young master Xu, I promise I won't let that Lin Yi have an easy time! Since that brat was blind enough to provoke our young master Xu, I dare not say anything else, but it's more than enough to deal with this little bastard from the secular world. He'll suffer in the future!"

"Alright!" The gloominess on Xu lingchong's face finally dissipated. She paused and said, "Oh right, earlier today, that Lu bianren from your Pavilion wanted to change Lin Yi's Kuangqu, and I met him and gave him a good scolding. I saw that these useless GreenCloud Pavilion newbies weren't too happy with you, so if you change Lin Yi's mine next, you can use this to make a big deal out of it!"

Hearing this, Meng jueguang's eyes lit up and he hurriedly thanked him, "Thank you for your guidance, young master Xu! Young master Xu is indeed as observant and wise as the rumors say. The leader of the new generation of the three pavilions is indeed worthy of his reputation!"

"Heh, what new generation leader? you've got a glib tongue!" Hearing this, Xu lingchong's mood improved. Although he had a strong backing and was a famous young master of the three great pavilions, it would be too much to say that he was the leader of the new generation. Although there were very few young people with deeper backgrounds and stronger abilities than him, there were still some. However, Meng jueguang's flattery was not wrong. This young master Xu loved to hear such words!

Meng jueguang let out a breath of relief as he watched lingchong leave with the two. He wanted to suck up to this young master, but it was still a lot of pressure when they were face to face just now. Luckily, he managed to suck up to him in time, or he wouldn't have been able to fool young master Xu.

"Ninth cousin, what did young master Xu mean by that? what is he trying to do?" Meng Tong waited until Xu lingchong and the others were far away before he turned to Meng jueguang and asked in confusion. Even Meng jueguang was frightened in front of a young master like Xu lingchong, let alone him, a new disciple at the lower level, who did not even dare to breathe.

Meng jueguang looked at him, and then at Lee Zheng Min, who was also at a loss. He was speechless as he held his forehead and said, ""Rotten wood can't be carved. Your brains are full of paste. You can't even understand such an obvious thing. You're really stupid!"

After a pause, Meng jueguang saw that the two of them were still confused, so he patiently explained, "Young master Xu already said that the third house master Lu bianren wanted to change Lin Yi's Kuangqu, but because of young master Xu, he didn 't. If I were to change Lin Yi to the seventh mine, how do you think the others would react?"

Meng Tong finally reacted and clapped his hands in excitement. "Even our third Pavilion master couldn't do it, but our ninth elder cousin did it. He's really showing off his face!"

"That's not all, Lin Yi provoked big senior time and time again, and big senior still let him go and moved him to the seventh Kuangqu. This is simply returning good for evil!" Li Zhengming quickly added.

"Hehe, although what you two said isn't wrong, you're not on point." Meng jueguang gave a noncommittal smile before his eyes turned cold. "Clouds with a flip of my hand, rain with a flip of my hand, I'm going to let those blind fence-sitters clearly see who the real boss is! Whoever I want to let live well will live well, and whoever I want to make life difficult will definitely not live well! Our backing is Xu lingchong, how can this poor thing compare to Lu bianren?"

Chapter 3612 Not That Stupid?

Meng Tong and Li Zhengming finally realized that Meng jueguang's final objective was to use this opportunity to establish his might in front of the new disciples of the GreenCloud Pavilion! As expected of the experienced eldest senior brother in charge, this was truly far-sighted!

"Then ... Ninth cousin, what should we do next? should we go find Dai Wuchang to change Lin Yi's Kuangqu?" Meng Tong asked, scratching his head.

"No, we're going to Lin Yi." Meng jueguang shook his head, "changing Kuangqu can be a big or small matter. With young master Xu supporting the spirit Jade Hall, there won't be any problems. However, if Lin Yi doesn't agree and refuses to sign the contract, then it's all in vain!"

"You still don't agree to move him to the seventh Kuangqu? Lin Yi's not that stupid, is he?" Meng Tong's face was full of surprise. To any normal person, being able to move from the tenth Kuangqu to the seventh mining area was simply a blessing that could not be cultivated even in a few lifetimes. How could they refuse?

However, Meng jueguang looked at him as if he was looking at an idiot. "Not that stupid? He would be a fool if he agreed so easily! If it were you, you could dig up eight to ten pieces of good Jade every day in the tenth Kuangqu. If someone wanted to switch you to the seventh mining area and you could only dig up six to seven pieces of good Jade a day, would you do it?"

"Uh ..." Meng Tong didn't know what to say. If that's the case, it wouldn't be easy to get Lin Yi to agree to change Kuangqu. He said weakly, "What should we do if he doesn't agree?"

"Of course it's to tempt him. I'll tell you in detail when the time comes!" Meng Jue Guang looked at Lee Zheng Ming and said.

Even though Lee Zheng Ming was the first newcomer to get close to Meng jueguang, he was not as trusted as Meng Tong. For one thing, li Zhengming was not like Meng Tong, who had a natural and reliable relative relationship with Meng jueguang. For another, li Zhengming was a bit of a schemer. Although the things that Meng Tong, this brainless fool, did were usually not very reliable, from Meng jueguang's perspective, he preferred this kind of simple-minded fool, because this kind of person would not have any thoughts that he should not have. If it were li Zhengming, it would be hard to say.

After Lin Yi returned to the cave, he unexpectedly saw two people at the stone table in front of the new couple's cave. One of them was the miserable senior brother. As for the other one, although he didn't look middle-aged, his temperament revealed a profound understanding of the vicissitudes of life. It could be seen that his age and experience were not shallow, but he had never seen him in the welcoming new pavilion.

Sitting on the stone chair, the man was like an old monk meditating. However, the miserable senior brother would stand up from time to time to look around. Looking at their posture, the two seemed to have been waiting for a long time.

Seeing Lin Yi's figure, the miserable Shixiong quickly stood up and waved from afar, "Junior Brother Lin, over here!"

"Brother ku, are you here to find me?" Lin Yi walked up to him with a surprised look on his face as he sized up the person sitting on the stone chair.

"That's right. Come, Junior Brother Lin, let me introduce you to Pavilion Master Lu of our Welcome Pavilion. He's also a senior brother from our own GreenCloud Pavilion. " The poor guy quickly introduced.

Was this the legendary third Pavilion master? Lin Yi's heart skipped a beat as he cupped his hands in greeting. "Greetings, Pavilion Master Lu."

"Don't call me Pavilion master, just call me senior brother!" Lu bianren waved his hand and looked Lin Yi up and down carefully. He suddenly smiled, "It's just like what Junior Brother ku said, Junior Brother Lin is not an ordinary person. It's our GreenCloud Pavilion's fortune to be able to get a newbie like Junior Brother Lin. "

"No... Senior brother Lu, you're too kind!" Lin Yi waved his hand. Although he had absolute confidence in himself, he still felt embarrassed to be complimented like this. After all, no matter how powerful he was in the common world, he was still a newbie here. There were many people stronger than him.

"Hehe, I'm not just saying this to get close to you. Junior Brother Lin, you should have heard of my current situation in the welcome Pavilion. I've been idle all day long, so I can only read ancient books and Scriptures to comfort myself. However, I've learned a little about how to judge people from this. Whether it's your appearance or temperament, you're not an ordinary person." Lu bianren laughed.

Lin Yi couldn't help but look at the depressed third house master in a new light-not because he was complimenting him, but because he appreciated how calm and open-minded he was in this awkward situation.

If it were someone else in Lu bianren's position, they'd have to at least try to maintain their high and mighty image as the pavilion master in front of a newbie like Lin Yi. They'd at least try to cover it up a little, but someone like Lu bianren, who was able to face it so calmly and even laugh at himself, was really a rare find.

After some small talk, they got to the point-it was Lu bianren's idea for them to wait for Lin Yi here. First, he wanted to meet this amazing newcomer from the common world, and second, they felt that it was

necessary to find a chance to comfort Lin Yi since they didn't get a good start today. Otherwise, Lin Yi would really give up on himself because of the three months he spent in the tenth Kuangqu.

Lin Yi was surprised and touched as he listened to his miserable senior brother's recount of their encounter with Xu lingchong in the day.

In order to find a way to change his Kuangqu, he had run around and even put his face on the line to beg for help. This senior brother of his was truly a sincere and honest person, and Lu bianren, the third Pavilion master, was also very generous. In his current situation, leaving the cliff of reflection to run around for him was no small risk. If the Grand Pavilion master Hu Yunfeng found out about this, he would be charged with dereliction of duty, and this would only make things worse for Lu bianren.

"Junior Brother Lin, although Xu lingchong's threat might not come true, I can't take this risk for the sake of our GreenCloud Pavilion. As your senior brother, I'm very ashamed of this. However, I hope you can understand." Lu bianren explained sincerely. The senior brother beside him also had a guilty expression, hating his powerlessness.

"Senior brother Lu, you're being too serious. It was my own choice to go to the tenth Kuangqu. If you guys bring disaster to GreenCloud Pavilion just to change mine areas for me, then I, your Junior Brother, would really feel uneasy." Lin Yi said, waving his hand.

"It's a blessing for our GreenCloud Pavilion that Junior Brother Lin is so understanding!" Lu bianren's admiration for Lin Yi increased even more. "I'm afraid it'll be very difficult for me to change your Kuangqu with my ability. However, your main task in the welcoming new pavilion this year is to build your foundation. Even if you waste these three months, as long as you work hard in your cultivation, you should be quite confident with your strength and aptitude. At that time, Junior Brother ku and I will try to prepare some cultivation resources for you to help you!"

Chapter 3613 Maybe She's Always Been Lucky

"Thank you for your kind intentions, but ..." Lin Yi thought about it and decided to tell the two what happened these few days. They would find out sooner or later anyway, so they wouldn't have to worry about him anymore, "My two senior brothers probably don't know this, but even though I was assigned to the tenth Kuangqu, I still managed to dig up quite a lot of good Jade. In the long run, it shouldn't be a problem for me to dig up eight or ten pieces a day, so it wouldn't be a waste of time."

"What? You can dig up eight to ten pieces a day?" Lu bianren and the miserable senior brother were shocked and looked at each other in disbelief.

Both of them had explored the tenth Kuangqu before, so they were very clear about the situation inside. Good Jade was simply a dream, and it would be a miracle if they could dig up ten or twenty pieces of useless Jade a day. In order to avoid angering Lin Yi, the miserable Shixiong didn't even dare to come over to ask about the situation. He was afraid that if he didn't find a good piece of Jade in two days, it would make both of them awkward.

"Hehe, although I am also very surprised, perhaps the mine that senior martial brother ku found for me is a rare and high-quality mine that can produce a lot of good Jade, so the two senior martial brothers don't need to worry about me." Lin Yi said with a smile. He wouldn't reveal his trump card, of course-the high-quality mine was more than enough. Meng jueguang and the others would probably think the same.

"Is that so? Although there are a lot of good-looking pieces of jade in that mine, I've only seen a few good ones. " The guy didn't know what was going on-the mine he'd found for Lin Yi was one of the rare high-yield mines in the tenth Kuangqu, but eight to ten pieces of good Jade a day? this was ridiculous! He'd helped Lin Yi dig a few times before, but he'd never come across anything like this.

"This ... Perhaps senior brother ku didn't dig deep enough, and now I've gotten the advantage." Lin Yi had to lie.

"That's possible. Maybe your mine is hidden deep and is connected to the high-quality Kuangqu." Lu bianren nodded and heaved a sigh of relief. "No matter what, if you can keep digging out good Jade, then your three months won't be a waste. This is a great thing." After the senior brother reacted, he also said excitedly, "If you can dig up eight to ten spiritual jades a day, then you should be able to earn seven to eight spiritual jades in three months, Junior Brother Lin. That would be very beneficial for your future cultivation!"

Seven or eight pieces of spiritual Jade? My target is 140 Yuan! At the rate of two pieces a day, he would have at least 140 pieces in three months! Lin Yi laughed inside, but kept nodding on the surface. In fact, seven or eight pieces of spiritual Jade was no small amount for a newbie.

"Since Junior Brother Lin's situation is alright, we can rest assured. In the future, if you have any problems, you can ask Junior Brother ku, or you can come to the cliff of reflection to find me. It's getting late, so we'll take our leave first. " Lu bianren greeted him and left with his miserable senior brother.

After sending the two off, Lin Yi was just about to turn around and return to his cave when he saw two people walking towards him from afar, even extending their hands to greet him. It was Meng jueguang and Meng Tong. Lin Yi couldn't help but be happy-what day was it, why did everyone come looking for him?

He didn't like the two, but Meng jueguang was the big Senior Steward, after all. Lin Yi couldn't just ignore him, so he stopped and waited for the two. "Senior brother Meng, I wonder what you need from me?"

As they neared, Meng jueguang told Meng Tong to bring the newcomers back to the cave, while he led Lin Yi to a quiet corner. "Junior Brother Lin Yi, there's a little misunderstanding between us, and that's why I assigned you to the tenth Kuangqu out of anger. I admit that I was wrong in doing this, but I've thought it through. There's no deep hatred between us, and you're a new member of the GreenCloud Pavilion, while I'm the manager. There's no reason for us to be so tense, right?"

Hmm? What kind of thinking was this? Had Meng jueguang gone insane? Was this a sign of reconciliation? But Lin Yi didn't believe that he would be so kind!

Lin Yi nodded, not denying it, but he was thinking to himself-what was this big senior trying to do? There was no reason for Meng jueguang to take the initiative to talk to him like this, judging from his usual overbearing style of handling things. Lin Yi didn't think that the guy would really want to make peace with him unless the sun rose from the West. Something was wrong!

Meng jueguang chuckled at Lin Yi's reaction."I know you don't believe me, Lin Yi, but it's okay. You can judge whether I'm serious or not by my next move. To express my apology and sincerity, I've decided to transfer you to the seventh Kuangqu. What do you think?"

"Transfer me to the seventh Kuangqu?" Lin Yi suddenly understood-this was the main point! This guy wasn't here to make peace, he was here to see Lin Yi digging out eight to ten pieces of good Jade in two days and couldn't sit still!

"That's right, Lin Yi Junior Brother, you've been in the tenth Kuangqu for two days, you should know what's going on inside. You may have been lucky these past two days, getting a few good jades, but in the long run, you can't be this lucky every day, right? In terms of the rate of Jade production, although the seventh Kuangqu is not considered a good mining area, it is still much better than the tenth mining area!" Meng jueguang earnestly advised.

"Maybe I'll always be this lucky?" Lin Yi raised an eyebrow and asked back with a faint smile, "You've heard about it too, right? they said that I was extremely lucky to be able to reach the sky Island from being a solo cultivator!"

"Hmph, it's understandable to be lucky for a moment, but have you ever seen someone who is lucky all the time? It's been so many years, your luck should be pretty much used up!" Meng jueguang's face turned cold as he pursed his lips. "You know Pavilion Master Lu and Junior Brother ku, right? The two of them were extremely lucky to have been favored by one of the Vice Pavilion Masters of our GreenCloud Pavilion. Not only did they have a lot of good cultivation resources, but they were also promoted. Their backer, the Deputy Pavilion master, had gone on a mission. It was unknown whether he was alive or dead. There was no news from him, so their luck had come to an end! That's why people can't believe in luck too much! Speaking of these two people, I saw Pavilion Master Lu and my poor Junior Brother on the way here. I'm sure you know that these two wanted to find Dai Wuchang to change your Kuangqu during the day, but they didn't do so because of young master Xu, right?"

"Oh, I see!" Lin Yi nodded, his eyes still calm. "I've also heard about the ore exchange. "

Chapter 3614 This Is Yours If You Agree

Meng jueguang laughed sarcastically, "then you should understand your current situation." Changing a Kuangqu can be a big or small matter, and not just anyone can do it. It requires a strong network of connections. To tell you the truth, what those two can't do, I, Meng jueguang, can definitely do it. This is my only chance, and there won't be another chance after this!"

Lin Yi couldn't help but chuckle-this guy was the one who couldn't wait to get himself out, and yet he had to act like he was doing him a favor. He shook his head, "Although the seventh Kuangqu area is better, I can find good Jade in the tenth mining area, and there are fewer people there. I also like this kind of secluded place, so I appreciate your kindness, but I can't do as you say."

He'd already figured out the trick to stealing spiritual jades in the tenth Kuangqu-if he were in the seventh area, which was under stricter surveillance, it'd be easier to get spiritual jades, but he'd at least have to re-explore the environment. He might not even be able to keep stealing spiritual jades as smoothly as he was doing now, and there was no way he'd do something as stupid as this.

Moreover, there were more good Jade and less useless Jade in the seventh Kuangqu, which made it even more difficult to operate.

"It seems like Lin Yi Junior Brother still doesn't believe me." Meng jueguang shook his head, acting as if he was in pain. He knew that Lin Yi wouldn't agree-in fact, even if he were in Lin Yi's position, he wouldn't agree so easily, unless he saw enough benefits.

Lin Yi thought that Meng jueguang would give up, but he didn't leave. Instead, he gave Meng Tong a look, and the latter brought a black bag over.

Lin Yi had noticed the bag from the start, but he didn't know what it was for. He didn't expect the things in the bag to be prepared for him!

"It's fine if you don't believe me, but after seeing these in the bag, I'm sure Lin Yi Junior Brother won't doubt my sincerity anymore!" Meng jueguang chuckled and took the bag from Meng Tong, opening it and waving it in front of Lin Yi.

Lin Yi's eyes narrowed-it was dark, but the moonlight was bright enough to see what was in the bag. It was pure white-it was full of spiritual jades! By a rough estimate, there were at least fifteen pieces of spiritual Jade in the bag!

"What does eldest senior brother mean by this?" Lin Yi narrowed his eyes as he looked at Meng jueguang playfully. If he was willing to spend so many spiritual jades just to get him to agree to change Kuangqu, it was a little too much!

If Lin Yi had given Meng jueguang a gift for the transfer from the tenth Kuangqu to the seventh mine, it wouldn't have been this many spirit jades, but it was at least logical! However, the situation was the

exact opposite. Not only did Meng jueguang ask for Lin Yi's transfer to the seventh Kuangqu, but he was even willing to spend so much money on it. This didn't make sense at all!

"There are 16 pieces of spiritual Jade in this bag. As long as you agree to change Kuangqu, these are all yours. How about it?" Meng jueguang and Meng Tong looked at each other, their eyes filled with sincerity and anticipation.

In fact, if it wasn't Lin Yi, any other newbie would've been moved by the sudden amount of spirit Jade, and even lose their composure. As the saying goes, money can move people's hearts. Ordinary people in the secular world could sell everything for money, but the temptation of spiritual Jade to cultivators like them was even greater!

Plus, moving from the tenth to the seventh Kuangqu was something that most people wanted, and if Lin Yi didn't agree to it, then he'd have to be crazy!

However, to their disappointment, Lin Yi didn't show any obvious reaction to all the spiritual jades. He didn't even look at them for a second, not even a second.

Could it be that this fellow had noticed something fishy about the spiritual Jade?

Meng jueguang's heart jolted and he quickly tried to tempt him. "Junior Brother Lin Yi, think about it carefully. Even if you could mine ten pieces of good Jade every day in the tenth Kuangqu, you'd only earn three spiritual jades in a month. These sixteen spiritual jades are equivalent to half a year's income from mining. For you newbies, saving half a year's time is very precious. I don't think I need to waste more time, right?"

"Ninth cousin, since he doesn't even want the spiritual Jade that's delivered to his door, why don't you just give me all these spiritual Jade? later on, you can also transfer me to the tenth Kuangqu. I'll do nothing and watch him every day. I'd like to see how this guy can dig out good Jade!" Meng Tong chimed in from the side. Meng jueguang had already taught him this set of rhetoric, or else he would not have had the brains to do so.

Lin Yi's heart skipped a beat. Meng Tong's words hit his soft spot. If this guy really did come to the tenth Kuangqu and keep an eye on him all day long, then things would be a bit troublesome!

Meng Tong had already checked all the spiritual jades, so how could Lin Yi have done anything to them?

"16 pieces of spiritual Jade is such a huge sum. Eldest senior brother, you're not just doing this for the sake of changing my Kuangqu, right? I don't think there's such a good thing." Lin Yi's mind spun quickly, but he had to act like he was moved.

There was no free lunch in the world, and Lin Yi's reaction was the most normal reaction of a calm and rational person. It'd be abnormal if he agreed to it right away!

"Hehe, Lin Yi Junior Brother is indeed one of the best among the newbies, he's very careful." Meng jueguang chuckled and said, "you're right about this. Other than asking you to agree to change your Kuangqu, there's another reason why I'm giving you these 16 pieces of spiritual Jade. But don't worry, it's just a small matter. I won't make things difficult for you."

"What is it?" Lin Yi asked.

"I remember that a few days ago when we gave you the spiritual jades, you got the smallest piece-it should be the size of an egg. I wonder if Lin Yi-Shidi used it up these few days?" Meng jueguang stared at Lin Yi with a burning gaze.

"Not yet, why?" Lin Yi's heart skipped a beat-what was this guy thinking about his little spirit Jade for? was there something special about it?

"That's good. " Meng jueguang immediately heaved a sigh of relief and said,"Lin Yi Junior Brother, as long as you give me this little spirit Jade and agree to exchange it for the seventh Kuangqu, then these 16 pieces of spirit Jade will all be yours! How is it? this senior brother has taken care of you, right?"

Chapter 3615 A Weird Reason

Putting aside the matter of changing Kuangqu, anyone with a normal IQ would know which to choose if they wanted to exchange sixteen spiritual jades for a small spiritual Jade.

Meng jueguang thought that he'd finally achieved his goal, but Lin Yi's next words almost made him spit blood."No, I won 't."

"F \* ck! You still don't want to exchange? You're crazy!" Meng jueguang didn't even have time to speak before Meng Tong jumped up. Sixteen spirit jades for a small spirit Jade, and he still wasn't willing to trade-this Lin Yi was a lunatic!

"You shut up!" Meng jueguang glared at him before turning to Lin Yi."Why not? Don't you trust me?"

Lin Yi looked at him, amused." 16 pieces of spiritual Jade in exchange for my little spiritual Jade? even a fool can see that there's a problem with this. Perhaps this little spiritual Jade of mine is special and worth far more than 16?"

"Hey, I'm taking care of you and giving you benefits. Not only are you ungrateful, but you also think that you're a rare commodity that can be kept?" After Meng jueguang came to his senses, he immediately burst into laughter and said disdainfully, "Don't be delusional, kid. There's nothing special about that little spirit Jade of yours other than its small size. If it weren't for me taking care of you, your little spirit Jade would only be worth half a piece of spirit Jade at most. It's simply a fool's dream!"

"Since there's nothing special about it, why did you exchange so many spiritual jades with me? could it be that all your spiritual jades are worthless trash?" Lin Yi asked. In fact, he didn't find anything different about the little spirit Jade other than its size, but he didn't believe that there wasn't anything fishy about it.

"You can eat whatever you want, but you can't say whatever you want!" Meng jueguang's expression changed and he said righteously, "Sky Class Island strictly prohibits trading useless jades in the market. Besides, Lin Yi Junior Brother, you've been mining for two days already. You should know the situation in the spirit Jade Hall. Useless jades have always been gathered in the mines to continue absorbing the spiritual energy of the world. Not a single piece is allowed to be released. How could I have so many useless jades?"

Lin Yi looked at him noncommittally. Meng jueguang wasn't lying, but it wasn't completely false. At most, he could use it to trick newbies. Sky Class Island did have a rule that no one was allowed to use waste Jade to trade, but it was just like counterfeit money in the secular world. It could be banned on the surface, but it couldn't be completely stopped in private.

Of course, for cultivators, it was very easy to distinguish a good Jade waste. Therefore, the success rate of using a good Jade waste to pass off as a good Jade was not high. Therefore, under normal circumstances, people would consume the spiritual energy in the spirit Jade completely and would not deliberately waste the spiritual energy to leave behind a good Jade waste. Therefore, for most people, it was normal to have one or two pieces of unused Jade, but it was rare to have 16 pieces!

However, while it might be impossible for others, it wasn't impossible for Meng jueguang, who was scheming to trick Lin Yi. Besides, he had a wide network in the spirit Jade Hall, so it wasn't hard for him to get a few pieces of useless Jade!

Afraid that Lin Yi would continue to question him, Meng jueguang quickly dispelled his suspicions, "Forget it. I'll tell you the truth in case you're suspicious. The reason why I'm willing to pay such a high price for your little spiritual Jade is not only to get you to agree to change Kuangqu, but also because someone has asked me to use your spiritual Jade as a jade carving."

"A jade carving?" Lin Yi blinked. This was a common thing in the common world, but even though spiritual Jade was of the best quality, it was filled with the Qi of heaven and earth, making the material quite hard. It shouldn't be easy to make a jade carving like this.

"That's right. As you know, spirit jades that are filled with spiritual energy are very hard and difficult to cut. However, if the spiritual energy inside is consumed, the quality of the Jade will decline. So if you want to use spirit Jade to make jade carvings, you must use an original spirit Jade of similar size. "In a jade mine, these spirit jades are divided into veins. The size of each piece you mine depends on the original vein that was broken out. You can't smash it as big as you want, so the small ones are more suitable for carving. Even an expert at the peak of the late Foundation establishment stage would find it difficult to cut the big ones completely!"

Meng jueguang glanced at Lin Yi and continued, "It's going to be the only granddaughter's birthday soon. The grandson of our GreenCloud Pavilion's elder Zhao, Zhao Yu, wanted to find someone to carve a Jade Rabbit as a birthday gift, so he went around looking for egg-sized spirit jades. Now, he's come to me, and I thought that you just happened to have such a small spirit Jade in your hands, so I wanted to trade it with you. Now you know the whole story, right?"

Lin Yi nodded-this explanation wasn't empty at all. After all, other than being size enough, his little spirit Jade didn't have any other special features. Other than making a jade carving, it really didn't have much use.

However, from another perspective, Qiao hongcai and Xiao ran weren't very smart, so wouldn't it be easier for him to threaten them? Why look for a thorn like him? So Lin Yi still didn't believe him.

Meng jueguang saw this and quickly struck while the iron was hot."This kind of small spirit Jade is actually useless in my hands. Although it's rare to see one of this size, I can still find it as long as I go out and ask around. I'm buying this piece of spirit Jade at such a high price because I'm taking care of you! It's still the same sentence, after this village, there won't be such a shop again. If you're not willing, I'll turn around and find someone else without a second word!"

Lin Yi pondered for a moment before replying,"If you want to exchange it for my little spirit Jade, sure, I want thirty pieces!"

When Meng jueguang heard the first half of the sentence, he was a little happy, but when he heard the second half, he was only left with shock and anger. Meng Tong, who was beside him, could not help but jump up and say,"F \* ck! You bastard, you're just raising the price!"

"Seventeen pieces, no more!" Meng jueguang hesitated for a moment before saying. Lin Yi, you need to think this through-you're not the only one with little Ling Yu, don't go overboard!"

"Twenty-eight pieces." Lin Yi said faintly.

"Eighteen pieces!" At any other time, if Meng jueguang didn't immediately turn hostile, he would have at least flicked his sleeves and left, but now that his plan was on the verge of success, he couldn't bear to waste all his efforts, so he gritted his teeth and continued to raise the price.

"Twenty-six pieces." Lin Yi said, his face unchanged-it seemed that he was in the mood to continue.

Gritting his teeth, Meng jueguang took out four pieces of spiritual Jade from his wide sleeve..

Chapter 3616 A Bag Of Useless Jade

He hesitated for a moment before throwing the Jade into the black bag with the sixteen pieces. He placed it on the table and pushed it towards Lin Yi, "Twenty dollars, not one more. Either you agree to the deal or you drop it. It's up to you!"

"Then forget it." Lin Yi looked at the man teasingly before turning around to leave. In any case, even if the deal did not go through, he would not lose anything. He could continue to mine in the tenth Kuangqu area in the future. He would keep the spiritual Jade and live his life as usual.

Even if Meng jueguang had ordered Meng Tong to monitor him, it would only be for a short period of time. If he wanted to monitor him for three months, Meng Tong would have to stop cultivating or ask for spirit Jade. He was willing, but Meng Tong himself was not.

F \* ck! This was a total of twenty pieces of spiritual Jade! To think that he would just throw it away like that! Was this fellow really that carefree and uninhibited?!

Meng jueguang and Meng Tong were dumbfounded. It was only when Lin Yi was about to return to the cave that Meng jueguang reacted and called out helplessly, "Twenty-five Yuan."

Lin Yi smiled and turned around. "Deal," he said.

Lin Yi only took out his little spirit Jade when he saw Meng jueguang take out five more pieces of spirit Jade from his sleeve. However, when it was time to exchange, Meng jueguang suddenly took back the bag of spirit Jade and placed a piece of paper on the stone table instead. He pouted at Lin Yi, "Since it's a deal, let's sign it first."

Lin Yi glanced at it-this was the contract for the Kuangqu exclusively owned by the spirit Jade Hall. In order to prevent Lin Yi from going back on his word, this big senior brother of his had made full preparations. As long as Lin Yi signed it, he wouldn't be able to change his mining area even if he went back on his word.

Hehe, wasn't it just digging a hole for him to jump into? this act was quite decent!

Lin Yi couldn't help but chuckle. He didn't waste any time and signed the contract. Only then did Meng jueguang release his grip on the black bag and take Lin Yi's little spirit Jade.

"Then, thank you for your care, senior brother Meng." Lin Yi smiled and left with the heavy bag of twenty-five pieces of spiritual Jade.

Meng jueguang and Meng Tong looked at each other and let out a long breath as they watched Lin Yi walk back into the cave. "This kid is really not easy to deal with. It's really not easy to fool him. Fortunately, I brought so many useless jades in case of an accident. Otherwise, I would really be in a difficult position!"

The bag of spirit Jade he gave Lin Yi was a useless Jade he got from the spirit Jade Hall through his connections. He wanted to make Lin Yi suffer, otherwise he wouldn't be so generous to give in to Lin Yi!

"Hehe, that kid is still smug and thinks that he has taken advantage of them. In fact, he is a complete fool. When he finds out that these are all useless jades that only look good, I'd like to see what kind of wonderful expression he will have tomorrow!" Meng Tong chuckled from the side.

These twenty-five pieces of useless Jade seemed like a lot, but in fact, they were all just a thin layer of energy on the surface. The core in the middle was a piece of trash Jade, so it was just that there were many of them. The energy added together was only one-tenth of that of the egg-sized good spirit Jade.

So from Meng jueguang and Meng Tong's point of view, Lin Yi was definitely screwed this time. Not only did he stupidly agree to change Kuangqu, but he even gave up a piece of little spirit Jade. It was a double loss! To think that he still had a shrewd look when he was trading. This kind of self-righteous idiot was simply unique in the world!

After returning to the cave, Lin Yi took out the twenty-five pieces of spiritual Jade and checked them one by one. Just as he had guessed, all 25 pieces of jade were useless with only a trace of spiritual energy.

In fact, this was a very normal thing. With his relationship with Meng jueguang, even if Meng jueguang's excuse of searching for little Ling Yu was true, this kind of good thing would never fall into Lin Yi's hands. Twenty-five pieces of good Jade for a lower spiritual Jade-Lin Yi never believed in something as good as this.

Although it seemed like Lin Yi was losing out by trading twenty-five pieces of useless Jade for his little spirit Jade, it was exactly what he wanted in the Jade space. Otherwise, he wouldn't have foolishly agreed to it after guessing the other party's intentions.

Since the Jade space could quickly recharge spiritual jades, any piece of Jade in Lin Yi's hands would be a good piece of Jade through and through. Not to mention twenty-five pieces of jade for one piece, even if it were two pieces of jade for one piece, it was still a profit for him.

What Lin Yi needed right now was this kind of useless Jade. Compared to working hard in the Kuangqu for an entire day just to steal two pieces of spiritual Jade, Meng jueguang's schemes were like delivering goods to Lin Yi's door. He gave him twenty-five pieces at once, which was equivalent to half a month's worth of Lin Yi's work. It would be better if he did it a few more times!

On the other hand, changing Kuangqu wasn't worth mentioning at all. Lin Yi didn't get the good Jade by luck anyway-he had the Jade space, a cheat-like device, and he could get good Jade anywhere.

Moreover, from the results of Meng Tong and Li Zhengming's daily mining, the seventh Kuangqu didn't only produce good Jade, but the chances of finding useless Jade were obviously higher. This way, as long as Lin Yi was familiar with the environment and the distribution of guards, it would be easier for him to steal spiritual Jade than in the tenth area.

On the morning of the second day, Lin Yi went to report to the spirit Jade Hall as usual and met Meng jueguang and Meng Tong at the entrance. He went up to them and greeted them, "Good Morning, senior brother Meng."

"Morning." Meng jueguang looked at Lin Yi's expression carefully, but he couldn't find a trace of change in his expression. He exchanged a look with Meng Tong in surprise. Did this guy not realize the trick in the spiritual Jade?

Since Meng jueguang had already informed Dai Wuchang and the others, Lin Yi was able to get the pass to the seventh Kuangqu without a hitch. He entered the tunnel without saying a word to the two, not showing any signs of abnormality.

"Judging from this kid's reaction, he probably hasn't realized that the bag of jades is full of useless jades. Otherwise, he wouldn't be so calm!" Meng jueguang turned to Meng Tong and muttered.

"Hey, I thought this guy was quite smart when I saw his performance before, but it turns out that's just his appearance! Even a pig wouldn't be so slow to find that bag of useless Jade after a whole night. He's even dumber than a pig!" Meng Tong chuckled, taking pleasure in his misfortune.

"Otherwise, I don't think this kid is really stupid. Maybe he's just too carried away after earning so many spiritual jades. Anyone would be so happy that they'd lose their heads, right?" Meng jueguang, on the other hand, didn't underestimate Lin Yi—he pinched his chin, deep in thought ...

#### Chapter 3617 A Suspicious Person

Then, he continued, "that's a total of twenty-five pieces of spiritual Jade. For ordinary people, it's simply a windfall. It's just like what they say in the secular world about winning five million from the lottery. It's normal for him to not react for a night. Besides, the excuse I gave him yesterday was reasonable and not a lie. He'd be crazy if he didn't believe it!"

"That's true. We've racked our brains to set such a trap for him. If this kid reacted so quickly, then it would be a waste of ninth older cousin's efforts." Meng Tong nodded in agreement.

"Heh, who knows, this kid might be in a daze for the next few days. He thought that he had become a nouveau riche with twenty-five pieces of spiritual Jade, but in the end, he found out that this pile of Jade is all useless. Hahaha, the higher the expectations, the worse the fall. His expression will be very interesting!" Meng jueguang said rather smugly.

From the first day of registration, he'd never had any advantage over Lin Yi, be it directly or indirectly. On the contrary, it was him who'd embarrassed himself quite a bit, and even when he'd kicked Lin Yi to the Kuangqu ten, he'd still been doing well and losing face.

But this time, Lin Yi really did get scammed by him. Not only did he get a new Kuangqu, but he also lost a good piece of Jade. He was practically getting blood all over his face! To a manager like Meng jueguang, playing with a troublemaker like Lin Yi was far more satisfying than dealing with the other fence-sitters! This was something he'd been looking forward to!

If these two knew that their plan didn't work on Lin Yi, and even gave him a big gift instead, he wondered what their expressions would be like. Of course, as long as Lin Yi didn't say anything, these two Fortune Girls would never find out the truth, and they'd probably continue to be proud of themselves!

He walked along tunnel seven, and while it was the same winding path with the same environment, Lin Yi could clearly feel the difference between this and tunnel ten. Tunnel No. 10 was not only more remote and remote than tunnel No. 7, but it was also more obvious that tunnel No. 10 did not have as many people.

Compared to the No. 10 tunnel, which was devoid of any living people, the No. 7 tunnel was bustling with activity. From time to time, they would see some of their peers. In fact, a mining area like the seventh Kuangqu, which was ranked in the middle and lower reaches, was indeed one of the few mines that had the most people.

After all, the majority of the people who came here to mine, other than Lin Yi who was a pure newbie, were those who hadn't successfully built their Foundation in the Ying Xin Pavilion before. According to the rules, they couldn't join the three pavilions directly, and could only do hard labor in the spirit jade mine while trying to break through.

Compared to the powerful mysterious Pavilion and the powerful rising Sky Pavilion, the probability of the grassroots rogue cultivators from the GreenCloud Pavilion failing to reach the foundation establishment stage was obviously higher. Therefore, naturally, they were assigned to the Kuangqu to do more hard labor. As for the mining area that was ranked higher, although it had a higher Jade production rate, it was given to the rising Sky Pavilion and the mysterious Pavilion. Compared to mining area 7, which was given to the GreenCloud Pavilion, the number of people was naturally less.

After reaching the seventh Kuangqu, Lin Yi looked around and found an empty spot to start working. He wasn't planning on hiding the spiritual jades today-his main goal was to Scout and familiarize himself with the environment. After all, with the twenty-five pieces that Meng jueguang gave him yesterday, Lin Yi had thirty-one pieces of spiritual Jade in his hands now, enough for him to buy a few sets of ingredients for refining elixirs. It could be said that he didn't need spiritual Jade urgently in the short term, and he could take it slow and steady.

He kept an eye on his surroundings as he dug, and he quickly found a few useful pieces of information.

Firstly, the surveillance of the seventh Kuangqu far exceeded that of the tenth mining area. Although the two Kuangqu weren't too different in size, the 10th mine only had two guards, while the 7th mine had ten guards. Not only were there regular sentries, but there were also special patrols. A normal Sky Class master wouldn't be able to do anything with such a tight surveillance-it was suicide.

Second, there were indeed many people in the seventh Kuangqu. There were dozens of mining spots scattered across the huge Kuangqu No. 7. Other than a few that were left unvisited, each of the other mining spots had at least one or two people mining there. Some popular mining spots were even surrounded by four to five people. This was not mining for spiritual Jade, but fighting for it.

Third, the Jade rate in the seventh Kuangqu was much higher than the tenth area. In just an hour, Lin Yi had already dug up six pieces of spiritual Jade. Two of them were obviously useless jades, and they were thrown into the open space behind them, just like the people on the side did. There would be special

guards to take them away. Three of them were useless jades with only a good appearance but thin spiritual energy, and the last one was a good Jade full of spiritual energy. The speed at which the Jades were produced could not be compared to the time in the tenth Kuangqu two days ago.

Lin Yi nodded to himself. It was clear that the division of the Kuangqu by the spirit Jade Hall was reasonable.

As he was looking around, a loud noise came from not far away. Lin Yi couldn't help but turn to look and saw a familiar face.

Since all the other GreenCloud Pavilion newbies were assigned to the eighth Kuangqu by Meng jueguang and Meng Tong, Lin Yi didn't recognize any of the dozens of people in the seventh mine, except for one person-Li Zhengming.

Li Zhengming didn't do anything special from the first day up until now, other than sucking up to Meng jueguang. It felt like he was just Meng jueguang and Meng Tong's follower, nothing special about him. However, the impression he left Lin Yi was far from being transparent.

On the contrary, this person was very scheming and was much more difficult to deal with than the brainless Meng Tong. However, Li Zhengming had only been playing along with Meng jueguang and Meng Tong from the beginning to the end, and had never made things difficult for Lin Yi. As long as they didn't cross each other's path, Lin Yi didn't want to waste his energy on him.

The loud noise just now came from Lee Zhengming's place, and the other people around him, whether they were guards or miners, turned a deaf ear to it, as if they were used to it.

Only Lin Yi, a newbie, didn't know what was going on-it was just a spirit jade mine, why was there such a big commotion? was his mine going to collapse? Logically speaking, all the Kuangqu spirit jade mine had been reinforced by formations, so there was no possibility of it collapsing.

#### Chapter 3618 You Guys Are Awesome

In the next moment, Lin Yi quickly understood why there was such a commotion. Li Zhengming wasn't mining like the others, but using the Jade shovel as a weapon and striking the mine with all his might, showing off his Sky Class late phase peak strength!

It's just mining, do you have to be so exaggerated? is this guy crazy?

Lin Yi couldn't help but roll his eyes. Li Zhengming's way of doing things was indeed impressive-after all, it was the full power of a Sky Class late phase peak, and the power wasn't just for show. But the problem was that the spirit Jade was something that even a Foundation Stage master couldn't break through, and even the other ores around it were extremely hard. Li Zhengming's way of doing it looked like he was risking his life, but it was actually a waste of energy. It was far more efficient than normal mining skills!

Lin Yi didn't think that Li Zhengming was an idiot. It was easy to come to a conclusion after trying it once or twice, but to Lin Yi's surprise, after Li Zhengming calmed down the Qi in his body, he immediately repeated the same thing again. It was as if he had some deep hatred for the mine. Once he recovered, he would attack with all his might!

Is this guy really sick? Lin Yi pushed the thought out of his mind as soon as it appeared. No sky Class master was an idiot, and Li Zhengming must have his reasons for doing this.

Could it be that he was cultivating some kind of special martial technique while mining? Lin Yi looked at the guy up and down, deep in thought. It didn't look like it-it felt more like he was intentionally showing off his Sky Class late phase peak strength.

But, a mere Sky Class late phase peak ... This strength was probably one of the weakest here, even the guards and miners included. What was there to show off?

"Could it be ..." Lin Yi's heart jumped as he thought about his situation. He observed Li Zhengming more carefully than he had ever done before, and he finally realized what was going on. This guy kept on bragging about his Sky Class late phase peak strength just to hide his strength!

If it wasn't for the fact that his actions had piqued Lin Yi's curiosity, even if Lin Yi had the ability to see through the strength of Sky Class Masters and below, he wouldn't have noticed that this Li Zhengming, who looked like he was only sky Class late phase peak, was actually a Sky Class full master!

In fact, if it wasn't for Lin Yi's habit of hiding his strength, no one would think in this direction at all. Who would think that a Sky Class late phase peak guy was actually a Sky Class late phase peak full master!

However, why did Lee Zheng Ming deliberately hide his strength?

Lin Yi was a little troubled-he'd only been hiding his foundational strength because he'd been a stranger to this place ever since he'd come to Sky Class Island. There were also Xu lingchong, Meng jueguang, and Kang Zhaoming-old and new enemies. He'd hidden his strength so he'd have the initiative at all times, so he wouldn't get killed by these enemies.

However, after a few days of observation, this Lee Zhengming didn't seem to be in the limelight like him. On the contrary, he was a low-key and transparent figure on the edge. He didn't have any covetous enemies, and his strength of heaven class peak was not that outstanding among the many newcomers in the welcoming new pavilion. Was it necessary to hide his strength in this world where the strong were respected?

However, Lin Yi didn't want to be a busybody since it didn't concern him. His current mission was to find a way to steal the spiritual Jade after he familiarized himself with Kuangqu. As for li Zhengming, he didn't care why he was hiding his strength as long as he wasn't a threat to him.

Other than li Zhengming, there was something else that Lin Yi was concerned about. It had been two hours since the start of the project, but he still hadn't seen Meng jueguang and Meng Tong. Lin Yi couldn't help but smile as he thought about it.

These two people did everything they could to get him to the seventh Kuangqu, but they did not show up. From the looks of it, they must have gone to the tenth mining area. Perhaps these two people were still trying to find out the secret behind him digging up so many good jades in two days!

Lin Yi could only say, "take your time, you two are good if you can find good Jade!" Not only was he awesome, he was really awesome!

As Lin Yi expected, the two really did go to the tenth Kuangqu.

It was just like what Lin Yi told Lu bianren and the miserable senior brother. After two days of summary, the two were sure that Lin Yi found a high-quality ore with a high Jade rate in the tenth Kuangqu. In terms of quality alone, this ore could completely surpass the seventh area.

In fact, for Meng jueguang, the eldest senior brother in charge, digging up eight to ten pieces of good Jade a day was nothing to be surprised about, and it was impossible for him to be moved. But the problem was that this was the tenth Kuangqu, which was sparsely guarded!

Although the seventh Kuangqu had a decent Jade production rate, it was heavily guarded. Under the watchful eyes of the public, it would be difficult for Meng jueguang to do anything. However, it was a different story in this dead mining area. With his connections in the spirit Jade Hall, it would be a piece of cake to do anything here!

The reason why he did not have any ideas about this place in the past was purely because there was no good Jade to be excavated here. However, if he found a Kuangqu here that was not inferior to the seventh mining area, the meaning would be completely different! As long as he did it well, Meng jueguang was confident that he could turn this place into his private spirit jade mine. With a large amount of spirit Jade, his future would be bright!

Of course, the most important thing was to confirm that there was indeed a high-quality mine here, so after Meng jueguang and Meng Tong arrived at the tenth Kuangqu, they asked the guards for details and went straight to the mine where Lin Yi had been mining.

"What is this? What is Meng jueguang, the welcoming new pavilion's steward, doing in our dead Kuangqu? Could it be that this newcomer called Meng Tong had offended him so badly that he had personally come to be his supervisor? It doesn't look like it. "

The two guards were confused. They were only responsible for providing the weighing book as proof of comparison. As for how many good jades were found after the quality check, it had nothing to do with them. Besides, the idea that the tenth Kuangqu didn't produce good jades was deeply rooted in the minds of the guards, so they didn't know that Lin Yi had handed in eighteen good jades two days ago!

"En, looks like this is the place. Let's start digging!" Following the guards "instructions, Meng jueguang carefully observed and confirmed the location of Lin Yi's Jade mining for the next two days. He couldn't wait for Meng Tong to start.

Chapter 3619 No Harvest At All

Meng Tong had already prepared a Jade shovel and was eager to try. Even if he found a high-quality mine here, Meng jueguang might not give him much spiritual Jade in the future. However, Meng jueguang was his biggest backer. As long as Meng jueguang made a name for himself, Meng Tong would naturally rise as well. Although Meng Tong had never been very smart, he still had the wisdom to survive.

Meng Tong waved his arms and started digging with all his might. However, the reality was completely different from what he had expected. After working hard for an hour, he only managed to dig out two pieces of spiritual Jade, and both of them were useless.

Meng jueguang couldn't sit still any longer-this was his future! Ever since he came to this conclusion, his ambition had been dependent on this mine. He wouldn't have gone to all this trouble to get Lin Yi away otherwise. After all, if it was just to fix Lin Yi, why would he change Lin Yi to the seventh Kuangqu? the reason why he brought up this condition was to tempt Lin Yi to agree to it as soon as possible.

But now, seeing that the Jade drop rate of this mine was far from what he had expected, Meng jueguang's side was in a difficult situation. If he couldn't find any good Jade no matter what, then the beautiful future he had anticipated was simply a daydream!

Picking up another spare Jade shovel, Meng jueguang could no longer care about the dignity of the eldest martial brother steward and impatiently went into battle himself.

"F \* ck! What year is it that even someone as ostentatious as Meng jueguang has come to mine in person?" When the two guards saw this scene from a distance, they could not help but drop their glasses in shock and were dumbfounded.

Both of them were from the GreenCloud Pavilion and had dealt with Meng jueguang a few times in the past. In front of the low-level guards of the Ling Yu Hall, Meng jueguang, as the welcoming new pavilion's manager, had always acted arrogantly. They had never seen him act in such a "friendly" manner before. Today, the sun must have risen from the West.

However, even with Meng jueguang's personal involvement, his Halo as the eldest martial brother in charge did not seem to be able to dig out many pieces of good Jade. Even if he did manage to dig out a few pieces of spiritual Jade, they were either trash Jade or useless Jade with thin spiritual energy. As for good Jade with rich spiritual energy, even though he and Meng Tong had worked hard the entire day, they had not managed to dig out a single piece.

Meng jueguang and Meng Tong did not stop until the bell rang to signal the end of work. They looked at the thirty pieces of jade in the basket and felt like crying.

What kind of F \* cking joke was this! That bastard Lin Yi dug out eight to ten pieces of good Jade in two days-it'd be great if it were us, working hard for a whole day and not getting a single piece-this was just too weird!

"You guys! You two must be lying to me, this isn't the mine that Lin Yi was digging at, right?" Meng jueguang suddenly turned to glare at the two guards, his embarrassment turning into anger.

The two guards were shocked. Not to mention that Meng jueguang's strength was above them, they could not afford to offend this guy just based on his vast network in the spirit Jade Hall. The two of them quickly clarified, "Senior brother Meng, what are you saying? Lin Yi did mine Jade at this mine before, why would he lie to you? If we lie, we will be struck by lightning!"

"Really?" Meng jueguang frowned doubtfully at the two. Strictly speaking, these two really had no reason to lie to him.

"Of course! Besides, you've been here before, senior brother Meng-you can tell which mines have been abandoned for a long time and which ones have been mined recently. Lin Yi's the only one who came to the tenth Kuangqu recently!" The two guards hurriedly explained.

"That's true," Meng jueguang reluctantly believed the two's words, but he began to doubt himself again. "Could it be that there are actually good pieces of jade among the spiritual Jade that I dug up today, but I was wrong about them?"

The same Kuangqu, the same mining spot, Lin Yi was able to dig out so many good jades in two days, while if it were him and Meng Tong, they'd work for nothing for a whole day without even getting a single piece of good Jade. Rather than believing such a ridiculous fact, Meng jueguang would rather believe that he'd made a mistake!

"Let's go and hand in the work!" The more Meng jueguang thought about it, the more likely it seemed. Without another word, he called Meng Tong and hurriedly set off on their return journey.

The two crossed the long tunnel number ten and finally reached the delivery point, bumping into Lin Yi who was coming out of tunnel number seven. Lin Yi was surprised to see the two sweating profusely, but he greeted them with a half-smile.

F \* ck, this kid couldn't be waiting here just to see us make a fool of ourselves, right?! Recalling what they had done two days ago, Meng jueguang and Meng Tong's hearts began to thump.

But the two really did misunderstand Lin Yi-he'd expected that the two wouldn't be able to find any good Jade, but he wasn't in the mood to watch them make a fool of themselves. The reason why he met

them here was purely because he wanted to observe the Guard's routine. He stayed in the Kuangqu area for a while longer, and it was a complete coincidence.

However, even if it was a coincidence, in Meng jueguang and Meng Tong's eyes, it was definitely a coincidence created by Lin Yi X this bastard wanted to see the two of them embarrass themselves!

But even if the two didn't want Lin Yi to make a fool out of themselves, he still saw it as expected. There wasn't much to say about the weight, but the quality inspection results were: "Meng Tong, I have zero good jades and twenty-seven pieces of useless Jade."

This one sentence was a death sentence for the luck they had gotten on the road earlier. Meng jueguang and Meng Tong's expressions immediately turned dull, and they were unable to come back to their senses.

"Hehe ... To be able to dig out 27 pieces of useless Jade in the tenth Kuangqu, it's not a bad harvest. Congratulations." Lin Yi nodded with a faint smile.

In fact, he didn't know that Meng jueguang himself had joined the battle today. Based on his previous average of less than twenty pieces of useless Jade in the past two days, Meng Tong's twenty-seven pieces were indeed not bad.

Therefore, his blessings were truly from the bottom of his heart.

Meng jueguang and Meng Tong's faces immediately turned ashen. These words were nothing but mockery to them. This bastard was waiting to see them make a fool of themselves! As the manager of

the pavilion, it was always Meng jueguang's turn to mock the new people-who the hell did he get the chance to be mocked by them?! This Lin Yi was too much!

#### Chapter 3620 Secretly Causing Trouble

"What are you so proud of! You've only been lucky for two days, you won't be able to dig out any good Jade in the future!" Meng Tong couldn't help but say angrily.

"It'd be hard to say if they'd always been in the tenth Kuangqu, but now ..." Lin Yi raised his eyebrows."Lin Yi, seven good jades and twenty-three trash jades."

Meng Tong could not help but be stunned. Even Meng jueguang, who was standing beside him, looked at him as if he was an idiot. He had already been transferred to the seventh Kuangqu, so how could he not have found any good Jade? Saying such stupid words without thinking was simply a slap in the face!

"Do the two of you still wish to continue working hard in the tenth Kuangqu tomorrow? Junior Brother, let me give you a kind reminder. I've already taken away all the good luck in the tenth Kuangqu. It's very difficult to dig up good Jade. " Lin Yi said with a half-smile before turning around and leaving.

"F \* ck! This bastard's arrogance knows no bounds!" Meng Tong looked at Lin Yi's back and gritted his teeth,"And all the good luck in the tenth Kuangqu was taken away by him? He's just a country bumpkin from the secular world, what the hell is he!"

Meng jueguang was also furious, but he suppressed his anger and said thoughtfully,"What does this kid mean by saying this on purpose? Could it be that he's afraid that we'll continue digging in the 10th Kuangqu and end up finding good Jade?"

"Right! It must be like this!" Meng Tong's eyes lit up and he said excitedly, "This guy must be afraid that we'll dig out good Jade, so he deliberately said this to make us retreat. Ninth cousin brother is wise. This bastard is too cunning!"

"Hmph, it seems that's the case! Even if it's a high-quality mine, it's normal to have a fault in good Jade for a while. As long as we continue digging tomorrow, we'll definitely be able to dig out good Jade!"

Meng jueguang was still a little dejected at first, even starting to doubt if his theory about the high-quality mine was reliable or not, but after hearing Lin Yi's words, he had an idea and his face returned to its usual self, "That kid is too smart for his own good. He thought he could scare us away with a few words. Hehe, I just don't want to go along with his plan!"

"Haha, I told you that kid was an idiot! He actually dared to act smart in front of our ninth older cousin brother, that kid is really stupid!" Meng Tong laughed and echoed.

Putting aside the fact that Meng jueguang and Meng Tong were ready for another 300 rounds of fighting in the Kuangqu area, Lin Yi didn't expect his casual words to have such an effect. He didn't mean to take advantage of these two idiots, but they had cheap lives, and no one could stop him from doing whatever he wanted!

Of course, Lin Yi didn't care if Meng jueguang and Meng Tong continued to waste their time in the tenth Kuangqu or returned to the seventh mine. What he wanted to know was how to continue hiding the spiritual jades in the seventh mine like he did in the tenth mine. That was the priority.

After yesterday's observation, Lin Yi had a pretty good understanding of the seventh Kuangqu's environment. Although the security of the seventh mine was much tighter than the tenth, it wasn't without flaws.

After all, putting the Jade into the Jade space or taking it out was relatively more secretive, and could be done without a sound. As long as he found a less-watched mine, Lin Yi could copy the method he used in the tenth Kuangqu without any risk. Of course, the premise of all this was to find a remote mine.

After all, the seventh Kuangqu did not have those pure rubbish jades as a cover. It was fine if there was one less Jade in the basket, but if there were too many missing jades, it would be a little conspicuous to use them to recharge at the same time!

Although Lin Yi only dug out seven pieces of good Jade yesterday, strictly speaking, the quality of the ore he found was not bad. After all, he spent a lot of energy observing the environment yesterday, and if he really went all out to dig out spiritual Jade, it was possible to get eight or nine pieces of good Jade in a day.

More importantly, this mine was located in the middle of Kuangqu, and unlike other popular mines, there weren't three or four people fighting for it at all times. Judging from the person standing on the side, Li Zhengming guessed that this was probably a high-quality mine that Meng Jueguang had specially ordered to be reserved for Meng Tong, which was why other people didn't dare to take it recklessly, and that was why Lin Yi, who had replaced Meng Tong yesterday, had the advantage.

But this put Lin Yi in a difficult position. If there wasn't any special reason, wouldn't it be suspicious if he gave up on this high-quality mine and went to a remote one with a low Jade yield?

But if he continued to stay in this mine, there would be a bunch of guards staring at him from behind. He'd be noticed if he did anything sneaky. He couldn't carry out his plan like he did in the tenth Kuangqu. If he were to dig for money like the others, it'd be a bit of a waste!

For a moment, Lin Yi was caught in a dilemma. However, when he passed through the tunnel and arrived at the seventh Kuangqu, the scene in front of him made him stunned. The high-quality mine from yesterday was taken by Li Zhengming who was one step earlier!

Seeing Lin Yi, Li Zhengming raised his Jade shovel and gave him the middle finger, his hostility obvious.

Heh, could it be that this guy who had been hiding his strength had long been envious of Meng Tong's mine, but did not dare to show it due to Meng Jueguang's pressure? Now that he saw that Meng Tong was not coming, he decided to turn himself into a serf and sing his brother's praises?

Lin Yi laughed. If it was any other time, he would've gone over and taught this Lee Zhengming a lesson, but now, this was exactly what he wanted! He was still worried about how to change the mine in a legitimate way, but he did not expect that just as he was about to doze off, Lee Zhengming immediately gave him a pillow. This was simply a timely rain!

However, Lin Yi had really misunderstood Li Zhengming! From the strength he was hiding, it was clear that he was a low-key person. He only did what he did today because Meng Jueguang told him last night that he couldn't let Lin Yi steal a good mine today!

Seven pieces of good Jade Lin Yi dug out yesterday was enough to piss Meng Jueguang off. If he were to dig out seven more today, wouldn't he just be giving himself more trouble? Hence, Li Zhengming had no choice but to follow Meng Jueguang's orders and provoke Lin Yi to get him out of here.

Lin Yi glanced at Li Zhengming without saying anything and turned to walk to another mine.
