Chapter 3711 Pressure Assessment

After all, she was the Miss, and if Lin Yi was in danger, she could stop him. At most, people would find out about their relationship, but at least Lin Yi's life was safe.

Xu lingchong naturally didn't notice Shangguan LAN 'er's little thoughts. He thought that this miss would like the program he arranged, but little did he know that she was the little Senior Sister who claimed to be covering for Lin Yi!

Looking at Lin Yi in the crowd, Xu lingchong smiled coldly. This was the first time they arranged a test for newbies to resist pressure. It shouldn't be too surprising if something happened during the test and some unlucky newbies died!

Lingchong hadn't discussed this with Meng jueguang and the others-it was a spontaneous decision he'd come up with on the spot, and so pinliang and Li Zhengming couldn't provide Lin Yi with any information beforehand.

However, the warning look in Shangguan LAN 'er's eyes was enough to explain the problem. Lin Yi had already sensed the fatal danger!

After all, at the summit of the hidden families in the secular world, there was already someone who wanted to take the opportunity to kill him. This time, it was just Xu lingchong, which was not new at all.

However, even though he could tell that the other party had bad intentions, Lin Yi didn't plan to retreat at all. He had enough confidence that he could escape unscathed.

After he reiterated the rules in front of everyone, Hu Yun Feng allowed all the newcomers of the welcome Pavilion to enter the high platform and accept the pressure test together. At that time, the points of the newcomers from the three great pavilions would be assessed separately, and they would not affect each other.

The points for this round of the pressure-resistant assessment would be divided into two parts. One was the time limit points, and the other was the ranking points.

The time limit was to see how long you could last. If you could last for more than an incense stick, you would get five points. Two incense sticks would be ten points, three incense sticks would be fifteen points, and so on until you had a maximum of thirty points.

The so-called ranking and points were based on your ranking among the three pavilions 'rookies. If you were able to persist for the longest time and were ranked first, you would have 15 points. The second place would have 14 points, and so on. The last place, 15th place, would only have 1 point.

In theory, the person with the highest score in this segment would be able to obtain 30 time limit points and 15 ranking points at the same time. In total, it would be 45 points!

Of course, it was basically impossible to obtain this theoretical full score. An ordinary person could only persist for three incense sticks. As for persisting for six incense sticks and above to obtain 30 points? It was impossible.

"Pretentious newbie, I hope you can survive this round. I'm still waiting for a chance to redeem myself! Hahaha!" On the way, Meng Tong deliberately leaned over to show off his biceps, showing off the aura of an early stage foundation building expert.

This idiot had also broken through to the early Foundation establishment stage? On the side, Xiao ran and Qiao hongcai looked at each other with shock on their faces. Although they each had a foundation building elixir, they were not like Meng Tong, who could get the foundation building elixir from Xu lingchong. Thus, they had not dared to use it so easily.

But Lin Yi wasn't surprised at all. After all, he'd already received information that this guy had taken both the foundation elixir and Foundation elixir at the same time. If he still couldn't reach the Foundation Stage, then he'd be a real piece of trash.

Not only was Meng Tong in the Foundation Stage, he'd also observed Kang Zhaoming and Zhong pinliang-the two of them were in the early Foundation Stage as well. Putting everything else aside, just from the perspective of cultivation resources, it was a wise move for them to cling onto Xu lingchong's thick leg.

Including Lin Yi himself, in just a month, there were already four Foundation Stage disciples in the new batch. This was something that was hard to imagine in the past. Of course, this was all thanks to the foundation building elixir.

"This guy was just lucky, even if he successfully reached Foundation establishment, it's no big deal. You don't need to take it to heart, the most important thing is to deal with this pressure test and fight for a good start. However, safety first, you have to act within your means and not act rashly. " Lin Yi warned the two.

He was an experienced person and knew that in this kind of pressure test, one's mind could not be mixed with too many distracting thoughts, or it would easily cause problems.

In particular, this time, they were facing the pressure array of the law enforcement Hall. In addition to the common pressure of genuine Qi, there was also a faint spiritual pressure. Under the double attack of the body and the spirit, the slightest carelessness would cause the collapse. There was no room for any carelessness, and even more so, they could not blindly put on a brave front.

Xiao ran and Qiao hongcai both nodded. They knew when to retreat. Points were important, but they had to be alive to fight for them. There were six segments to the newcomer assessment. This was only the first segment, and there was still time.

As soon as he entered the circular platform, he immediately felt his body sink. Not only was his body crushed by a powerful true energy, but even his spirit seemed to be suddenly shackled by a heavy chain. All his nerves were instantly tensed up, giving people the feeling that they would break at any time.

As his spirit was being suppressed, the genuine Qi in his body also began to gradually stagnate, which in turn caused the physical body to be squeezed and destroyed more seriously, further increasing the burden on his spirit. The two affected each other, forming an extremely terrifying vicious circle.

Lin Yi couldn't help but sigh-this pressure test was much harder than the Hidden House Summit in the common world!

After all the newcomers of the three pavilions had entered the venue and taken their seats, Hu Yunfeng exchanged a look with a few experts of the law enforcement Hall who were also seated. Then, he signaled for the first joss stick to be lit, and the first test of pressure officially began!

No matter what level of strength they were at, the pressure test had always been an excellent method to test one's talent and potential, especially in a large array like this one that could exert pressure on the body and the mind at the same time. Everyone's talent and potential were clearly visible at a glance, and it was easy to determine who was better.

After all, if it was purely physical pressure, it would completely depend on whether the true Qi in each person's body was strong or not. This could only measure the strength of each person at the current stage, but it could not measure the potential for future development.

In other words, even a good-for-nothing who had no so-called potential for development could obtain high points in this test of pure physical pressure as long as he had enough strength.

However, once mental pressure was added at the same time, the effect would be completely different. Relying on true energy might be able to resist for a while, but if one's will was not strong enough, under the pressure of the vicious cycle, no matter how strong the true energy in the body was, it would not be able to last long.

Only someone with the same strength and will could have the last laugh under such a double pressure formation.

Chapter 3712 Leaving The Venue

For cultivators, strength could only represent one moment, but determination was the key to affecting the limit of their strength in the future. Only those who had the same strength and determination could obtain enough points in such a test.

Otherwise, if one was lacking in any aspect, be it strength or determination, it would be impossible to obtain high points in this kind of test. Only in this way could the meaning of the newcomer assessment be reflected, and the value of each point.

One had to know that every point gained in the newcomer assessment would be recorded in the archives of the three pavilions. It would affect the level of recognition the three pavilions had for each newcomer. The amount of points not only determined whether one could gain an advantage in the newcomer assessment, but it also affected the treatment one would receive after entering the three great pavilions.

After all, even the best cultivation resources in the three great pavilions were limited. When the time came, would these resources be distributed to the trash with low points and weak in all aspects, or to the geniuses with high points and strong in all aspects? The answer was clear.

Lin Yi wasn't the only one who knew this—all of the other newbies knew this as well, and so none of them dared to slack off. They had to give it their all. Otherwise, he would not only lose the starting line, but his entire future cultivation career.

After the test officially began, all the newcomers from the three pavilions began to use their mental cultivation methods to resist the pressure. It was as if they were facing a great enemy, and they were going all out. They were afraid that even the slightest bit of slack would cause them to lose their footing. However, there were a few people who were clearly more relaxed than the others.

Kang Zhaoming, Zhong pinliang, Meng Tong, and Lin Yi were all at the early Foundation Stage and above. They were much stronger than the newbies who hadn't even reached the Foundation Stage yet, and it was much easier for them to deal with them.

After all, putting aside the strength of their mental fortitude, the four of them were powerful and naturally had more capital than the others. If everyone's mental fortitude was on the same level, then they would definitely have the last laugh without a doubt.

And of the four, Lin Yi was the one who was the most at ease-not only because he was at the peak of the early Foundation Stage, but more importantly because he had the Jade space behind him, which allowed him to replenish the lost Qi at any time.

In other words, if it was just like the summit of the hidden families in the secular world, where he was only being pressured with his physical body, he could sit here for as long as he wanted, because the true Qi in his body would never run out.

But this time, there was an even more powerful spiritual pressure, and it was a whole new test for Lin Yi. But even so, he was still far more composed than the others. The logic was the same, his capital was far more robust than all the others combined!

He didn't have to worry about running out of pure Qi-he just had to focus on the mental pressure. This was Lin Yi's biggest advantage over the others.

In terms of determination, don't forget that this guy was a strong man who had fought his way up from the secular world. He was as calm as ever when he criticized others, and he had always gotten stronger when he met someone stronger. He had never retreated. How could such determination lose to others? Nonsense.

However, while Lin Yi was able to maintain his composure, the others didn't have the ability to do so, nor did they have a strong will like him. After holding on for a short while, sweat started to appear on the rookies' foreheads, slowly sliding down. This was a sign that they were starting to struggle!

One had to know that Sky Class full cultivation practitioners, under normal circumstances, no matter how intense they were, or how high the surrounding temperature was, as long as their body's Qi was not exhausted, they would never show the fatigue of an ordinary person.

Once they showed such signs of fatigue, it meant that they were not far from being weak ordinary people!

Sure enough, after half an incense's time, the first person to withdraw appeared. It was a new disciple of the GreenCloud Pavilion. Although it had only been half an incense's time, when he walked out of the high platform, his legs were already trembling and his body was soaked in sweat.

The man looked back unwillingly, but in the end, he could only hang his head in dejection and move to the rest area on the side with heavy steps.

If he did not last for the time it takes for an incense stick to burn, it meant that his score for this assessment was zero. Being the first to withdraw meant that he only had one point in his ranking. Adding the two segments together, his score for the first segment was a pitiful one point.

In theory, this was the lowest number of points that could be obtained. Even if others wanted to get lower points than him, it was impossible.

However, no matter how unwilling he was, one point was a foregone conclusion. Meng jueguang and the miserable Shixiong, the two managers of the pavilion, had already recorded him down, and would hand him over to Kang Zhaoming, the new manager, to announce it all. There was no way to change it.

If he was given another chance, even if he knew that he would become a shameful laughingstock in the future, he could only clench his teeth and make the same choice. After all, if they overrated themselves and continued to stay in there, not only would they not be able to get more points, but they might even lose their lives here. This was not a joke!

After the first precedent, a second and third soon followed. By the time Pavilion Lord Hu Yun Feng ordered someone to light the second joss stick, a third of the seats were already empty. In other words, one-third of the newcomers in the three pavilions could not last for the time it takes for an incense stick to burn before they had no choice but to quit.

This was in line with the statement on the notice. There were six segments to the newcomer assessment, and every point was not that easy to obtain!

Even now, Lin Yi was still at ease, not feeling any obvious pressure. He was starting to show signs of mental fatigue from the pressure, but it didn't affect the flow of Qi in his body. This, in turn, reduced the pressure on Lin Yi himself, so that he wouldn't end up in a vicious cycle of mental and physical burden.

All the newbies, including Lin Yi, knew that once a vicious cycle started, it meant that they wouldn't be far from being eliminated.

After the second joss stick was lit, many of the newcomers in the hall were clearly relieved. Not long after, they began to leave the venue.

This kind of double pressure torture was really not something that ordinary people could endure. To be able to persist for the time it takes for an incense stick to burn and obtain five time limit points was already a result that they were satisfied.

Since they knew that there was no hope of holding on until the second incense stick burned out, they might as well quit instead of fighting for the ranking and points. At least they wouldn't have to risk their lives.

When he lit the 3rd joss stick, the total number of all the newbies in the 3 pavilions was less than the number of fingers on one hand

Chapter 3713 Playing With Me On Purpose?

However, to everyone's surprise, among these ten people, there were four new disciples from the GreenCloud Pavilion. This number was more than the rising Sky Pavilion and the profound secrets Pavilion, accounting for a small part of the total!

These four people were Meng Tong, Xiao ran, Qiao hongcai, and Lin Yi. Other than them, there were three people left from the ascending Sky Pavilion and the mysterious Pavilion.

The pavilion master Hu Yun Feng's expression clearly darkened. Although the assessment points of the three great pavilions were calculated separately, this comparison was, after all, clear at a glance. If someone were to spread this news, the higher-ups would most likely think that he was incompetent as the pavilion master of the welcome Pavilion.

After all, he had the soaring Pavilion's backing. If he couldn't even take care of the soaring Pavilion's own newbies and allowed the weak GreenCloud Pavilion's newbies to climb to the top, how could he bear such words?

If someone were to blow this matter up, he, Hu Yunfeng, might become the next Lu bianren, and could only get out of his office before the end of his term.

However, the good thing was that not long after the third joss stick was lit, two new disciples from the GreenCloud Pavilion took the lead to withdraw. This caused Hu Yun Feng's expression to ease up a little.

The two that had stepped out were Xiao ran and Qiao hongcai-both of them were the cream of the crop among the Sky Class full Masters in terms of strength and will, but they were still only strong in the Sky Class full Masters level-they couldn't compare to the early Foundation Masters.

For the two of them, being able to persist for more than the time it takes for two incense sticks to burn was already quite commendable. This result was already higher than the others by a level.

At this time, Xu lingchong suddenly gave a look to the Masters on the stage, and they all nodded without a trace. In an instant, the double pressure on Lin Yi's head suddenly increased, more than twice as strong as before!

Lin Yi's heart skipped a beat-these people were finally going to make a move on him after waiting for so long! One had to know that there was no such thing as increasing the pressure in the middle of the pressure assessment. In theory, the intensity should be the same from the beginning to the end!

The reason why they didn't target Lin Yi right from the start was because Xu lingchong and the law enforcement Hall Masters had their own concerns.

The reason was simple-they could easily control the strength of the pressure around Lin Yi, but he was still an early Foundation Stage practitioner. It would be too strange if he died on the stage in the first incense stick's time!

And now, the time for three incense sticks to burn was finally ripe. After holding on for the time it took for two incense sticks to burn, even an early Foundation Stage practitioner was starting to feel like they couldn't hold on any longer. It wouldn't be too surprising if they killed Lin Yi on the stage.

When people heard about it, they would at most sneer at the fact that the secular world produced inferior experts, and would not suspect them!

After the time for two incense sticks to burn, the pressure suddenly doubled. It was like running a marathon for 20 kilometers and suddenly having a sandbag equal to your weight pressed on your body. The difficulty was not just a simple sum of numbers to double, but ten times, even twenty times!

If it weren't for Lin Yi, Zhaoming and the other early Foundation Stage practitioners would've puked out a mouthful of blood from the sudden attack. They might've even died on the spot.

Unfortunately, their target was Lin Yi. Not only was he a peak early Foundation Stage practitioner who was hiding his strength, but he was also a strong-willed man who was sitting in the Jade space. The pressure doubled was enough to crush any newbie here, but it couldn't do anything to Lin Yi.

Lin Yi was starting to feel a little tired from the double pressure, but that was all. With his current mental state and the replenishment from the Jade space, it wouldn't be a problem for him to hold on for the time for two incense sticks to burn!

Lin Yi's calm and collected performance made the Masters from the law enforcement Hall stunned. Xu lingchong was still giving them signals with her eyes, signaling them to attack Lin Yi. They didn't know that they'd already made their move, but they didn't show it on Lin Yi.

This kid was indeed quite capable. A mere newcomer from the secular world could actually withstand such intense pressure with a normal expression. No wonder even a young master like Xu lingchong had to target him!

A few of the law enforcement Masters were secretly shocked, but this was Xu lingchong's order-they couldn't just stop like this. After exchanging a look, they immediately worked together to increase the pressure around Lin Yi's body to three times its original strength!

At that moment, the pressure on Lin Yi's body increased, and he started to feel mentally tired. The circulation of the art of Dragon mastery in his body became a little blocked, but it wasn't a big problem. At least it wasn't a vicious cycle yet, and he could still continue.

However, while Lin Yi was fine, Meng Tong, who was not far from him, was the first to suffer.

It should be known that including all the surrounding attics and buildings, the pressure formation of the law enforcement Hall was a natural integration. Even if these experts of the law enforcement Hall could join forces to adjust the strength of the pressure in some places, it was impossible to be completely accurate to a single person. The people around them would inevitably be affected.

In other words, when they released triple the pressure on Lin Yi's head, Meng Tong, who was not far away from Lin Yi, was also affected. However, the pressure on his head was not as exaggerated as triple the pressure, but it was double!

Double the pressure on Lin Yi wasn't a big deal, but on Meng Tong, it was deadly!

Don't forget, although he was an early Foundation Stage expert, he had only broken through yesterday with the help of the foundation pill and Foundation elixir. He was a complete newcomer to the early Foundation Stage.

Compared to the other Sky Class Masters, he was naturally confident, but compared to the same level of foundational level, he was just a weak noob.

Pfft! Meng Tong was already struggling, and at this time, the pressure on his body suddenly doubled. He was caught off guard and immediately spat out a mouthful of blood.

This scene immediately caused the other newcomers to cry out in surprise. This was the first newcomer to be forced to spit blood today, and it was one of the four early Foundation Stage experts, Meng Tong. It was truly a surprise!

After spitting out blood, Meng Tong did not dare to stay on the stage any longer. He hurriedly stumbled down the stage, afraid that he would lose his life!

"F * ck! Are you F * cking toying with me on purpose?" After getting off the stage, Meng Tong's first reaction was to curse at the experts of the law enforcement Hall on the stage, which caused an uproar among the newcomers.

In fact, this was excusable. After all, the third joss stick's time was almost up. If this accident had not happened, he would have been able to hold on for at least three joss sticks 'time no matter how hard it was, and get an additional five time-limit points.

Chapter 3714 Secretly Taking Action

He didn't expect that because of this sudden change, Lin Yi's side still didn't do anything strange, but he, Meng Tong, became the unluckiest guy. It would be weird if he didn't feel depressed after encountering this!

However, just as he cursed, Meng Tong's dissatisfaction was immediately driven away by Xu lingchong's stern gaze. Although he did not know Xu lingchong's arrangements beforehand, he would be stupid if he said that he could not react after experiencing it personally.

Xu lingchong let out a breath of relief when Meng Tong finally realized the crux of the problem. She ordered the Masters of the Hall of Justice to target Lin Yi in secret. This kind of thing must not be exposed. If Meng Tong revealed this in front of everyone, it would be a big problem!

Fortunately, although this guy was stupid, he was not so stupid that he would tell others everything. The others who heard him curse just now would at most feel that it was inexplicable, but they would not guess the whole story from this.

However, the miserable senior brother, Xiao ran, Qiao hongcai, and the others could tell that Meng Tong's words definitely had a lot of hidden meaning.

Although they were not sure what had happened to Meng Tong, when they looked up at the stage again, their eyes were filled with worry.

One should know that these elders of the Hall of Justice were all acquaintances of Xu lingchong. Even if they were to target him on purpose, their biggest target would be Lin Yi, not Meng Tong. Meng Tong might have ended up injured because he was caught in the crossfire!

And now that the early Foundation Stage Meng Tong had been pushed down, Lin Yi, who was also in the same early Foundation Stage as them, would be under even more pressure and in an even more difficult situation!

Although it was said that in any segment, one had to do their best to get more points, personal safety was more important!

Don't risk your life just for a few points. It's not worth it!

However, as Lin Yi's accomplices, they couldn't help even if they could guess Lin Yi's situation. They couldn't even warn him because it would distract him and cause a big problem.

The only thing they could do was to pray that Lin Yi would be fine. Otherwise, they might have to prepare to collect his body.

At this moment, while the group was worried about Lin Yi, the Masters on the stage looked at each other awkwardly. Not only did they not hurt Lin Yi, but they also made Meng Tong die a wrongful death. This was really embarrassing!

Fortunately, by the time the fourth incense stick was lit, only Lin Yi, Kang Zhaoming, and Zhong pinliang were left. Fortunately, the two of them were far away from Lin Yi, so they didn't end up like Meng Tong.

Four times the pressure!

The pressure on Lin Yi's body increased again, and his spirit became even more tired. The flow of Qi in his body became even more stagnant, and he couldn't completely block the pressure from the outside world like before. This increased the burden on his spirit, and the vicious cycle effect that happened to other people finally appeared.

This time, even with the Jade space he could replenish his Qi quickly, Lin Yi was starting to feel the strain.

This kid finally couldn't hold on any longer! The elders all breathed in relief after watching Lin Yi's performance. Even so, Lin Yi's performance as a new member of the common world was enough to leave a deep impression.

In the entire three pavilions, there were only a handful of people who could withstand four times the pressure as an early-stage Foundation, not to mention Lin Yi who had already lasted for three incense's time.

After holding on for a while, the fourth incense stick was about to burn out. Lin Yi knew that he couldn't hold on any longer, and so he decided to leave after he got the points.

As long as he chose to withdraw in time, even these experts of the law enforcement Hall would not be able to do anything to him. Moreover, the time limit of four incense sticks plus the points he had obtained from the first place of the GreenCloud Pavilion was already a considerable amount. There was no need for him to take the risk and ask for more.

However, just as the fourth incense stick was about to burn out, just when he thought he had achieved his goal and was most relaxed, the jade pendant's warning sound suddenly rang out in his mind!

The pressure on Lin Yi's body suddenly increased by a huge amount, from four times to six times, and it was still increasing!

Even with the Jade's warning, Lin Yi wasn't prepared for such a sudden change. He almost vomited blood, but he forced himself to hold it in. Sure enough, these people weren't just targeting him. They simply wanted to take this opportunity to kill him!

Seeing Lin Yi on the verge of breaking down, all the Masters from the Hall of Justice laughed coldly. Young master Xu had specifically told them to treat this Lin Yi well. Even if they didn't kill him directly, they had to at least injure him severely. How could they let him walk out of here unscathed?

It was too late to retreat now!

It seemed that he would have to pay the price of some injuries this time! Lin Yi thought to himself. Even if the opponent did this to him, he was confident that he could hold on until the end of the stage. He would only get injured, and for someone like him who could heal himself easily, it wasn't a painful price to pay.

Just as Lin Yi struggled to get up, the voice of the ghost sounded in his mind, "Little brat, do you need my help?"

Lin Yi was stunned. After hearing the ghost's words, he smiled and sat back down.

What the hell was this guy doing?

The crowd went into an uproar-anyone with eyes could tell that Lin Yi wasn't going to make it, and he'd be lucky to be able to force his way out of the stage, and now he was going back to his seat? did he really want to give up his life for these ridiculous points?

"This Lin Yi has some strength, but he doesn't have much brain. Life and points, you can't even tell which is more important. It seems that even if you can survive, you won't have a future. The other newcomers should take this as a warning. " The pavilion master Hu Yun Feng commented lightly.

"You're right, Pavilion master-this Lin Yi has always been full of himself, but he only made it to the Foundation Stage Two days ago with a Foundation pill, and now he thinks he's the best of the new batch! I reckon that he's forcing himself to stay on top because he doesn't want to lose to junior martial brother Kang and junior martial brother Zhong who are both at the early Foundation establishment stage. He also didn't think about what kind of Foundation he has. It's really a pity for our GreenCloud Pavilion to cultivate such an overconfident newcomer, wasting such a good foundation establishment pill for nothing. " Meng jueguang played along and pretended to be regretful.

Chapter 3715 Last Laugh

Xu lingchong sneered and said,"it seems that you can quickly find a piece of cloth to wrap his body in. If he had entered the battle just now, he would probably only be seriously injured. At least, his life would not be in danger. But now, he is greedy for points and sat back down. It is impossible to think about it again. Just wait to collect his body!"

He'd thought it was a bit of a pity-after all, from Lin Yi's performance just now, he'd at most be heavily injured, but not killed. But now, Lin Yi went back to his seat halfway through-he was asking for death!

The sins of the heavens could be forgiven, but one's own sins could not be forgiven! Since the idiot Lin Yi wanted to die, he couldn't blame anyone else.

After saying that, Xu lingchong turned to Shangguan LAN 'er and said,"That idiot Lin Yi dared to mess with our Junior Sister LAN 'er before, he didn't know what was good for him. Now he's overestimating himself and trying to fight for his life up there. He's really asking for death, and we can't stop him. This is a good opportunity for you to get back at him, Junior Sister!"

Shangguan LAN 'er was still hesitating on whether she should step out and save Lin Yi, and she glanced at him, "Did you do this?"

"Hehe, you could say that. But I didn't ask him to sit back down. As the old saying goes, 'if you don't seek death, you won't die'. If he didn't cooperate, I really couldn't do anything to him!" Xu lingchong said smugly in a low voice.

Shangguan LAN 'er frowned. Although she was worried about Lin Yi's safety, she thought that since it was Lin Yi's own choice, it was better to wait and see. Even if she didn't interact much with Lin Yi, her intuition told her that Lin Yi was not an idiot who overestimated his own strength!

She'd already made up her mind-even if Lin Yi really made a mistake this time, she'd stop him when she was sure he was in danger!

At this time, the miserable senior and the others had almost the same mentality as her. Compared to Shangguan LAN 'er, they knew Lin Yi much better. They knew that if Lin Yi didn't have the confidence, he would never be so reckless. He must have his reasons for doing this!

However, even if they believed in Lin Yi, they still couldn't help but worry. This wasn't a joke!

At the same time, Meng Tong and the other new disciples of the GreenCloud Pavilion began to mock him.

Thinking back to the test in the back mountain, Lin Yi had threatened them with his fake Foundation Stage aura, and they couldn't help but grit their teeth in hatred. Now that Lin Yi was asking for trouble, it was a great thing!

Only Li Zhengming, who was standing in the middle, was also sneering, but he wasn't laughing at Lin Yi. He was laughing at the group of ridiculous idiots beside him!

He was the only one in the room who knew Lin Yi's true strength, including his fellow disciples. As someone who'd broken through to the peak of the foundational level in just a month, how could they possibly understand what Lin Yi was doing?

Lee Zheng Ming felt as if he was watching a group of sparrows laughing at a Swan for overestimating its own ability. Little did he know that this guy really had the ability to soar to the top!

When you scoff at others, the real idiot is actually yourself in the mirror!

In contrast to the crowd below the stage who didn't know what was going on, the Masters on the stage were mocking Lin Yi's performance, but they were also confused and couldn't understand it.

One had to know that the pressure above Lin Yi's head had increased to more than eight times! Not to mention that he was just a newcomer in the early stage of the foundation building realm, even if it were these experts of the law enforcement Hall, they felt that they might not be able to withstand it!

If Lin Yi could get to where he was today, he couldn't be a pure idiot. Even if he wanted to die, there was no need for him to choose such a stupid way to die in this situation, right?

However, what happened next made everyone's jaws drop!

After Lin Yi sat back down, his expression became extremely relaxed. Not only did he not show any signs of being crushed, but his complexion was also starting to improve.

They had really seen a ghost!

At that moment, everyone in the audience didn't know what to say. With Xu lingchong as the leader, the group of people who were initially calling Lin Yi an idiot was like ducks that were suddenly grabbed by the neck-they didn't even know how to squeak anymore!

Li Zhengming laughed so hard that his stomach hurt when he saw how speechless everyone was. Boss Lin Yi was indeed worthy of his reputation. What a F * cking slap to the face!

Even a normal person would be able to tell that Lin Yi wasn't showing any signs of failing at all. Not only that, he was doing great! He was sitting there like he was on vacation, not feeling any pressure at all.

Shangguan LAN 'er and the bitter fellow let out a breath of relief-this Lin Yi really did let them have a roller coaster ride with him.

After a while, the fifth incense stick was lit, and even Kang Zhaoming and Zhong pinliang, who weren't affected, couldn't hold on any longer. They left the stage one after another, and Lin Yi was the only one left.

Xu lingchong, Hu Yunfeng, and the others looked at each other, their faces turning green and black!

What the f * ck was going on?! Didn't they say that they would kill Lin Yi? why did it suddenly turn out like this?

Xu lingchong couldn't help but start to doubt whether these guys on the stage were actually helping her!

Otherwise, Lin Yi was already at his limit, and if they really wanted to deal with him, they could've just put some pressure on him. There was no way he could've let him stay so long!

Feeling the pressure coming from Xu lingchong below the stage, a few of the law enforcement Hall Masters looked at each other, gritted their teeth, and raised their pressure by a large amount, twelve times the pressure!

This was already the limit of their control. If they released the restriction any further, the power would be beyond their control. At that time, it was very likely that even they themselves would suffer a serious backlash.

There wasn't anyone else in the field anyway, so they didn't have to worry about anything else-they just had to focus on this weird Lin Yi. They didn't believe that this kid could take on twelve times the pressure!

In the several hundred years since the establishment of the law enforcement Hall, there had never been a precedent of an early Foundation establishment expert being able to withstand such a strong pressure. Not to mention an early Foundation establishment expert, even an expert at the peak of the late Foundation establishment stage couldn't do it!

Yet another incense's time passed, and Lin Yi still didn't move at all. His expression was natural, and his breathing was steady-he was no different from when he first entered.

Everyone present was completely speechless. Their faces were all red from embarrassment and anger.

They were almost certain that Lin Yi wasn't at his bullsh * t limit at all. He was just pretending to be going into the arena to play with them. He was probably enjoying the scene of them being idiots!

Chapter 3716 Finally Out

But then again, even if they thought that they'd been tricked by Lin Yi, they still respected him out of their natural instinct to respect the strong. After all, it was a miracle to last six incense worth of time!

They didn't even know that the pressure on Lin Yi's head wasn't just twice as strong as they thought it was, it was twelve times!

Xu Ling couldn't help but grit her teeth at young master Xu, silently cursing at those law enforcement Hall bastards on the stage for not putting in any effort. Otherwise, how could so many people not be able to handle a mere Lin Yi!

The Masters from the Hall of Justice, on the other hand, were all ashen-they were almost driven crazy by Lin Yi!

One had to know that even they themselves were struggling to withstand the pressure. If this went on, they would be in big trouble before Lin Yi collapsed!

So many experts of the law enforcement Hall had joined hands to deal with a newcomer of the welcoming new pavilion. If they didn't kill or cripple the newcomer, but instead injured themselves, it would be a joke if it got out.

Twelve times the pressure was already the limit they could control, but with Lin Yi's calm and collected attitude, he could even sit here for a year and a half, let alone two more incense sticks!

I've really seen a ghost today!

Now that things had developed to this point, these experts of the law enforcement Hall were already in a difficult position. They could only brace themselves and continue to hold on. Otherwise, they would not be able to explain to young master Xu lingchong.

Lin Yi could handle the pressure at twelve times the normal level? If such words were to spread, not only would no one believe them, they might even think that it was an insult to their intelligence!

In fact, even they themselves found it hard to believe. They couldn't help but wonder if there was something wrong with the pressure formation. Otherwise, there was no way to explain the strange situation in front of them!

"Little brat, do you still want to continue? Since they have nothing to do, this old master is very happy to play with them!" The thing chuckled in Lin Yi's mind.

Lin Yi couldn't help but chuckle to himself. He realized that the damn thing's condition had improved a lot since he came to Sky Class Island, but it must have something to do with the environment!

Now, they even had the leisure to play and bully these children of the law enforcement Hall with great interest!

These so-called experts of the law enforcement Hall were nothing more than children in front of this demonic thing, a top-notch elder of the spirit beast clan. They did not know if it was their honor or their sorrow to be able to exchange blows with an elder-level expert through the great pressure formation.

That's right, the one fighting against the twelve-fold pressure wasn't Lin Yi himself, but the thing!

As an elder of the spirit beast clan, one of the top-tier Masters on the entire Sky Class Island, even with only a part of his essence spirit left, dealing with this level of pressure was still a piece of cake for him. The so-called twelvefold pressure was nothing in his eyes!

Lin Yi, on the other hand, was the "main character" in everyone's eyes, and he didn't feel any pressure at all. It was no different from when he was meditating in the cave, and in the eyes of others, he was as calm as a cloud and a breeze.

However, no one knew that Lin Yi had a God hidden in his body. If he continued to sit there without any restraint, even if the people didn't know the inside story, they'd be suspicious, and all kinds of rumors might start spreading. It'd be more or less troublesome.

As for the people involved, they were more shocked than the others, but Lin Yi wasn't afraid of them spreading any rumors. After all, what they did couldn't be seen in public, and they'd be the first ones to get into trouble if people found out!

He looked at the six incense stick that was about to be lit, and smiled. He used his spirit sense to reply to the ghost, "Senior, let's stop after the seventh joss stick is lit."

After six incense's time, he'd be able to get thirty points, and with the fifteen points from the first place, Lin Yi had a full forty-five points. Even if he continued, his points wouldn't go up anymore-it was meaningless.

"Oh? Kid, you know when to stop!" The ghostly thing chuckled and said, ""Fine, since you've said so, this old master won't meddle in this matter. But after playing with them for so long, I have to leave them some mementos."

Lin Yi laughed to himself. He didn't know what this thing was planning, but he could already feel sorry for these Masters. This thing's methods were definitely extraordinary.

By the time the sixth incense stick was burnt out and the seventh incense stick was lit, Lin Yi was still meditating. On the other hand, the Masters who were in charge of controlling the pressure were all sweating-they couldn't take it anymore!

They looked at each other in dismay. A wise man knows when to retreat. Why don't we let this brat go for now and stop for the time being? at most, we'll be scolded by young master Xu, but we won't be implicated by a mere newcomer!

However, just as they were about to stop, the intensity of the pressure in the field suddenly began to rise uncontrollably. It instantly broke through the limit of twelve times and began to rapidly approach fifteen or sixteen times. In less than a breath's time, it reached an unprecedented height of twenty times!

The Masters from the Hall of Justice were shocked, but before they could react, Lin Yi, the person they'd been planning to deal with, stood up and walked down the stage.

This guy was finally willing to come down!

The crowd was in an uproar-Lin Yi was the only one from the three pavilions to get forty-five points in the first round!

Even if they'd been "toyed" with by Lin Yi, his strength was clear for all to see. No matter how resentful they were, they could only say one word in the face of this god-like performance-respect!

Looking at the performance of all the newbies in this segment, even Kang Zhaoming, the most popular new disciple in the rising Sky Pavilion, only got thirty-five points. Not to mention the extra fifty points that he got as a compensation, it was nothing compared to Lin Yi's God-level performance.

Chapter 3717 Hard To Get Off

As for the GreenCloud Pavilion newbies who were Lin Yi's direct competitors-Meng Tong, who was second in this segment, only had twenty-four points, followed by Xiao ran, who had twenty-three points, and Qiao hongcai, who had twenty-two points. They were all far ahead of Lin Yi.

"Junior Brother Lin, you really scared us to death just now!" The group gathered around Lin Yi and complained jokingly.

To be honest, they were really worried-not only for Lin Yi, but also for themselves.

Don't forget, even though Lin Yi's position was higher on the surface, Lin Yi was the backbone of their group. If something happened to Lin Yi, it would be impossible for them to fight against Meng jueguang and the others. It would be hard to live by then.

"Ha ... I told you guys, I know what I'm doing. I won't do anything stupid," Lin Yi smiled faintly.

The miserable senior brother and the others looked at each other and smiled bitterly. How could they not be worried about the situation just now?

"He's our boss Lin Yi, after all," Qiao hongcai chuckled, "full God-level performance is nothing to him!" This result is within my expectations, so I'm not worried at all. "

Xiao ran, who was beside him, glanced at him and added, ""Yes, you only trembled when you spoke just now."

"F * ck! I'm out of strength, not worried about boss Lin Yi!" Qiao hongcai shouted.

Lin Yi and the others couldn't help but smile-who would be so weak that they'd be shaking just from speaking? This guy was really insincere!

Compared to Lin Yi and the others, Xu lingchong, Hu Yunfeng, and Meng jueguang's faces were extremely ugly.

Don't forget, they were all mocking Lin Yi for overestimating himself in front of everyone, and now, Lin Yi was walking off the stage with a perfect score. Those words naturally turned into sharp slaps on their own faces, and their cheeks hurt-it was so painful that it was engraved in their hearts!

It was really rare to see someone slap themselves in the face so ruthlessly.

Just as all the newbies were talking about Lin Yi's God-level full score and their points, the group of Masters on the field who were supposed to be done were stuck in a quagmire, their faces full of disbelief and fear.

What are these idiots doing up there? Did he not dare to come down because he was too embarrassed to face me?

Xu lingchong's face was extremely dark right now. He thought that it would be a piece of cake for these people to deal with Lin Yi. He thought that even if Lin Yi didn't die this time, he would at least be half-dead, but he didn't expect Lin Yi to come out unscathed and even get a perfect score. How could he accept this?!

If it was just embarrassing himself in front of these newbies, it would be fine, but the point was that he was just boasting in front of Shangguan LAN 'er, saying that he'd kill Lin Yi to avenge her, hoping to win

the little princess's favor. Now, not only did he fail to win her favor, but he even made a fool of himself in front of her!

The great young master Xu couldn't even handle a newbie like Lin Yi-this was a big joke.

Little did they know that Shangguan LAN 'er was very happy at this moment."No wonder you're my Junior Brother, you really make full use of my power!"

Under his embarrassment, young master Xu's anger could only be transferred to the Masters of the law enforcement Hall on the stage. If they had not been incompetent, how could he have fallen into such an embarrassing situation?

What he didn't know was that it wasn't that the people on the stage didn't dare to come down to face him, but that they simply couldn't come down at this moment!

Twenty times the pressure had completely exceeded the limit of their control. The entire law enforcement Hall's pressure formation began to operate at full force. At this time, their roles were no longer the Masters of the formation, but like the newcomers just now, they had become the victims of the suppression of the formation!

It was 20 times the pressure as soon as it appeared, and it was even rising uncontrollably!

Pfft! All the experts of the law enforcement Hall spurted out a mouthful of blood at the same time. This horrifying scene really frightened everyone in the audience. Even the angry young master Xu was stunned.

What the hell? Wasn't he just in charge of controlling the intensity of the pressure? was there a need to make them vomit blood? this was too exaggerated!

However, at this time, no one could answer their questions at all. At this time, the experts of the law enforcement Hall who were still on the stage were completely in a difficult situation. The pressure that was more than 20 times stronger smashed on their heads. This was not something that the experts of their level could resist.

Let alone resisting, even if they wanted to stand up and escape the scene, they had the will but no strength. Even if they said an extra word or let their guard down, it could lead to serious injuries.

All of them were overwhelmed with shock. If this continued, they would really die under the pressure of this fully-operating formation!

The only one who knew the truth, Lin Yi, didn't have any sympathy for them at all. After all, these people were trying to kill him just now, and if it weren't for the help of these ghosts, he would've been seriously injured at the very least.

And now, it was these people's turn to suffer the consequences of their actions!

Although they didn't know what had happened above, Xu lingchong, Hu Yunfeng, and the others below finally realized that something was wrong. But even if they realized it, it was useless. Because other than the experts within the law enforcement Hall, outsiders like them had no way of knowing how to control the pressure formation.

If he went up rashly, the only outcome would be to accompany these experts of the law enforcement Hall to die!

Seeing that the injuries of the people on the stage were getting more and more serious, and that they might die in a moment, everyone in the audience suddenly felt their hearts palpitate. An unparalleled powerful aura suddenly came from far away and swept towards the direction of the crowd.

Lin Yi was shocked-this aura was similar to the three elders he saw at the back of the mountain!

In the blink of an eye, a young man with sword Qi around him suddenly appeared on the high platform. The pressure on him was more than 20 times stronger, but it seemed to be useless. He did not seem to be struggling at all.

The young man's sharp eyes swept across the crowd below the stage. Everyone who was caught by his gaze, including Xu lingchong and Hu Yunfeng, was unconsciously trembling as if they were walking on thin ice. It was as if they would be killed by his gaze the next moment if they were not careful.

Chapter 3718 Gongyang Jie, The Hall Master

This person's strength should be comparable to an elder-level expert! Lin Yi said to himself. The man looked young, but his real age shouldn't be that young anymore. Otherwise, no matter how talented he was, he couldn't be this strong.

The young man's eyes then fell on the Masters of the law enforcement Hall. Looking at their embarrassing appearance, he frowned slightly and said, "A bunch of trash!"

After saying that, he stretched out his hand and waved it in the air. The super-powerful pressure that was crushing down on their heads was instantly swept away, and the pressure formation also quietly returned to its original state, as if it had never been operating at full power.

The law enforcement Hall's experts finally struggled back from the edge of death. They didn't even bother to adjust their breathing. They hastily knelt down in front of the young man and respectfully said in unison, "Greetings, Hall Master!"

The new disciples looked at each other. Those who were more knowledgeable had already guessed the young man's identity. He was Gongyang Jie, the current master of the law enforcement Hall!

It was said that Gongyang Jie was a recognized genius of the three pavilions. He was 38 years old, but his strength was comparable to an elder. He was the youngest Hall Master in the history of the law enforcement Hall, and also the most ruthless Hall Master.

Lin Yi had heard his senior mention this guy before-it'd only been three years since he'd taken over, but he'd managed to turn the Hall of Justice into a solid piece of metal with his powerful methods. The most important thing was that two of the elders from the three pavilions had already been knocked out of the dust by him!

This was something that his predecessor had not been able to do for decades!

Hearing about him was not as good as seeing him in person. This person was indeed not simple! Lin Yi sighed in his heart. He suddenly noticed that Li Zhengming was a little nervous.

Lin Yi was confused-a Big Shot like Gongyang Jie shouldn't have anything to do with li Zhengming, who was only a Sky Class Peak Master. What was there to be nervous about?

However, on second thought, with li Zhengming's family background, the law enforcement Hall was forced to stop investigating the case of the destruction of qiushui villa under the pressure of the mastermind, who was an elder with the surname of Li. However, Gongyang Jie had not taken over the law enforcement Hall at that time!

If the person in charge of the investigation was Gongyang Jie, the result might have been completely different.

What Lin Yi didn't know was that li Zhengming wasn't regretting that Gongyang Jie didn't take over the law enforcement Hall back then. There was an even more shocking reason!

However, before he obtained sufficient strength, even if he had a great resentment, he could only bury it deep in his heart and not dare to show it. Otherwise, he would be met with a disaster!

Li Zhengming turned to look at Lin Yi. As far as he knew, there was no one in the three pavilions who could stand up to a genius like Gongyang Jie, but if it was his boss Lin Yi, who had done so many shocking things, he might have a chance of winning.

They hoped that boss Lin Yi could be like that miracle doctor Zhang Liju, rising to fame in the secular world!

"What's going on?" Gongyang Jie's calm tone didn't contain any emotion, but it gave people a feeling of inexplicable overbearingness, making people unable to have any thoughts of disobeying him.

The experts of the law enforcement Hall who were lying on the ground looked at each other. One of them answered carefully, ""Hall Master, we were in charge of coordinating with the newcomer's assessment in the welcoming new pavilion. We don't know why the great pressure formation suddenly lost control. The reason is unknown."

"The reason is unknown?" Gongyang Jie's cold gaze swept across the few of them, causing their hair to stand on end.

If it wasn't for the fact that they only did something to Lin Yi and didn't know why the pressure formation suddenly went out of control, that look alone would've made them reveal the truth. As the master of the law enforcement Hall, it was easy for Gongyang Jie to get any secrets from them.

"This subordinate truly does not know." The few of them hurriedly lowered their heads even more.

Gongyang Jie didn't say anything. However, he didn't look like he was going to pursue the matter.

After all, the great pressure formation involved the arrangement of all the lofts in the entire law enforcement Hall. While it was powerful, any slight movement could affect the operation of the entire great formation. It was common for it to go out of control.

The men on the ground let out a breath of relief. They didn't lie to Gongyang Jie, but they didn't tell him anything about Lin Yi. If the master were to investigate, they'd be dead or skinned.

Gongyang Jie swept his cold gaze across the people from the welcome Pavilion and said, "The law enforcement Hall doesn't welcome irrelevant people. Since we're done here, hurry up and chase away these unrelated people."

Hearing this, the breathing of the rookies below the stage became heavier and they couldn't help but feel resentful. This guy was indeed powerful, but his words were a little too arrogant!

For a moment, everyone's eyes were focused on Hu Yun Feng. He was the pavilion master of the welcome Pavilion, their leader. At this time, it was natural for him to step in.

However, Hu Yunfeng acted as if he hadn't heard anything from the beginning to the end, not even daring to let out a fart.

It was true that the welcoming new pavilion and the law enforcement Hall were both independent departments of the three great pavilions. Putting aside their respective strengths, in theory, his position as the pavilion master of the welcoming new pavilion was on the same level as the hall Master of the law enforcement Hall. Moreover, the newcomer assessment had been approved by the elders Council. Therefore, he had the capital to reason with the other party.

However, his opponent was the famous Gongyang Jie!

He, Hu Yun Feng, was at most a slightly stronger ant in the eyes of the other party. To challenge such a fiend, what kind of joke was this? If he really dared to do this, perhaps the law enforcement Hall would invite him to be a guest alone tomorrow and dig out all his secrets. At that time, he could only wait for death!

After saying that, Gongyang Jie didn't even look at anyone else. He flashed out of the high platform and disappeared from everyone's sight.

Everyone in the audience heaved a sigh of relief as if a mountain had suddenly disappeared from their bodies. The pressure that Gongyang Jie gave them was even greater than the pressure test just now!

Then, everyone's eyes fell back on Hu Yun Feng, each of them filled with disdain and dissatisfaction. This guy's performance just now was simply too cowardly. Fortunately, he was thick-skinned enough to still look normal at this time!

Chapter 3719 The Array Is Broken

At this moment, Meng jueguang suddenly said something that diverted everyone's attention. "Pavilion master, since the coercion Grand array has gone out of control, then does this test need to be scored again?"

As soon as these words came out, the whole place was in an uproar again.

The pressure formation had gone out of control, which meant that the test just now was not accurate. In theory, there was indeed a need to re-examine!

Meng jueguang's intentions were clear-he wanted to help Hu Yunfeng out and at the same time, point his spear at Lin Yi. If they were to retake the test, the one who would suffer the most would be him, the one who got full marks!

But Lin Yi only smiled back, not planning to object at all. After all, he didn't rely on luck to get this point-even if he did it a few more times, he'd still get full points, and the result wouldn't be any different.

Hu Yunfeng pondered for a moment, then turned to Xu lingchong and said, "What do you think, young master Xu? You're their senior, and as an onlooker, you see things more clearly. Your opinion will definitely be more convincing!"

The rookies couldn't help but secretly look down on him. This Pavilion master was not only a cowardly turtle, but he was also good at flattering others. To be able to sit in this position, he indeed had some ability. It was a pity that he wasn't any decent person.

Xu lingchong, on the other hand, looked at the law enforcement Masters on the stage. If they couldn't take this opportunity to deal with Lin Yi for him, it wouldn't matter how many times he repeated the process. He immediately asked, "What do you guys think?"

A few experts of the law enforcement Hall looked at each other and smiled bitterly. They had only been here once, and they were already in such a miserable state. Again? Wouldn't that be throwing his life away?

Moreover, Gongyang Jie had just said that the law enforcement Hall did not welcome people with no status. If they helped the welcoming new pavilion reevaluate, they would be going against Gongyang Jie's wishes. This was not a joke!

"Young master Xu and Pavilion master Hu Yunfeng," the leader of the group said. "Actually, the array only lost control for a moment. Everything was normal before that. There's no need to re-examine it."

Xu lingchong was stunned when he heard this. He looked at the other people's eyes and nodded to Hu Yunfeng, not saying anything else.

"If that's the case, then it's settled. Let's return to the welcome new pavilion first." In addition, Junior Brother Kang, please work hard and display the points of each newcomer on the board. At that time, you can compare them. "

After the instructions were given, the new disciples hurriedly left the law enforcement Hall, this place that made them incomparably depressed, under the lead of their respective senior stewards. They returned to recuperate and prepare for the second assessment segment that would be held three days later.

Lin Yi gave Shangguan LAN 'er a look of gratitude as he left with the group. After all, this little Senior Sister came here today to support him, and it was only natural for him to thank her.

However, Shangguan LAN 'er still had to pretend to hate him on the surface, so she could only hint to him secretly with hand gestures.

"Hmph!" Shangguan LAN 'er replied with a cold Hmph on purpose, but she was secretly happy for Lin Yi.

Today, not only did Xu lingchong, the guy she hated the most, fail to harm Lin Yi, but Lin Yi even got a miraculous full score. It was simply too satisfying!

After the new members of the welcome Pavilion left, Shangguan LAN 'er also left with them. Only Xu lingchong stayed behind in the name of caring for his friends from the law enforcement Hall. His purpose was naturally to inquire about the inside story.

"What the hell are you guys doing? Did you just ignore my words? don't tell me you can't even handle a Lin Yi!" Xu lingchong looked at these law enforcement Hall experts who were in a sorry state and was filled with anger.

He had promised Shangguan LAN 'er that he would deal with Lin Yi today, but in the end, not only was Lin Yi unscathed, he even got a full score. Where was his face now?

Shangguan LAN 'er did not pay much attention to him, and since she had lost face today, she would not give him a good face in the future!

What he didn't know was that as long as he told her he was going to deal with Lin Yi, no matter how much Shangguan LAN 'er hated him, she would follow him. After all, she was Lin Yi's little Senior Sister!

The Masters of the law enforcement Hall looked at each other helplessly. Although this young master Xu had a strong background and couldn't be provoked, he was not as timid as Gongyang Jie when they were facing him. He was more or less embarrassed.

The leader of the group replied in a deep voice, "young master Xu, we've tried our best just now. Otherwise, we wouldn't have lost control of the Grand formation. Besides, you've seen what happened just now. If it weren't for Hall Master Gongyang's timely rescue, we would have been dead by now!"

"How did Lin Yi get away unharmed? You all tried your best, but he still got a perfect score?" Xu lingchong asked with a puzzled expression.

In fact, he didn't believe that these people would turn a deaf ear to his words. After all, they were all old acquaintances who had been friends with him for a long time. These people were now able to work in the law enforcement Hall, which everyone respected, because of their relationship with his grandfather, Xu Yuan Zheng. There was no reason for them to offend him in a perfunctory manner for a newcomer they didn't know.

Not only was Xu lingchong puzzled by this question, but the experts of the law enforcement Hall were also puzzled. If the formation was out of their control after the twelve-fold pressure, what about before that? Everything was clearly under their control!

It would be too fake if Lin Yi, a mere beginner Foundation Stage, could withstand the pressure twelve times stronger! This was impossible. Something must have gone wrong during the process, and they just didn't notice it at the time!

The few of them looked at each other for a long time before one of them thought for a moment and said, ""Young master Xu, and US brothers, at the fourth joss stick's time, that Lin Yi wanted to stand up and leave. From his behavior, it was obvious that he couldn't hold on any longer, but for some reason, he sat back down halfway! Don't you think this is weird?"

"Oh, right!" They all smacked their heads-they thought that Lin Yi was just trying to get the points, but it was weird.

"That's why I think that it's very likely that there was already a problem with the formation at that time and it was no longer under our control. Perhaps after that, there wasn't any pressure on him at all, which is why he could act so relaxed. However, we didn't notice it at all and continued to increase the intensity of the pressure. This caused the formation to completely lose control, causing us to suffer a backlash. " This person concluded.

When the others heard this, they couldn't help but agree!

Chapter 3720 Killing Lin Yi

Even Xu lingchong, who had been standing below the stage and watching coldly, felt that it made sense when he thought about it. Otherwise, there was no other way to explain why Lin Yi was able to recover so quickly even though he couldn't take it anymore.

"So, this time it's all that Lin Yi brat's fault, he just got lucky?" Although Xu lingchong believed this explanation, she still took it to heart.

"That's true. So, young master Xu, you really can't blame us for not doing our best this time. After all, it's up to man to plan, and God to succeed." The few of them sighed with emotion.

"Then why didn't you guys tell them to retake the test? that way, you'd have a chance to mess with Lin Yi again!" Xu lingchong frowned and said.

He didn't think much of Lin Yi before, but now that he was really thinking of ways to deal with him, he was pissed that Lin Yi got away with it.

Lin Yi was now a thorn in his side, and he wouldn't be able to get rid of him until he removed him.

The law enforcement Hall's experts couldn't help but look at each other and smile bitterly. "Young master Xu, you've seen our current state. We won't be able to recover without a few days of rest. Besides, you've heard Hall Master Gongyang's words. How can we disobey him?"

This time, Xu lingchong had nothing to say. This matter involved a powerful figure like Gongyang Jie, and even he had no choice.

In reality, even if his grandfather, Xu Yuanzheng, were to come personally, Gongyang Jie might not even be willing to accept it, let alone a mere young master like him.

After all, he was the number one person of the new generation of the North Island's three great pavilions. If he continued to develop like this, it was almost certain that he would become one of the three great pavilions in the future. Even Xu Yuanzheng, a Big Shot of the elders Association, could only politely call him Junior Brother when facing him!

"Speaking of which, young master Xu, with your power, isn't it as easy as crushing a bug to deal with such a small figure? Furthermore, this isn't the only segment of their rookie evaluation. In the next second segment, wouldn't it be even easier to do something to kill him?" A few people suggested.

There were six parts to the test, and the first part was the pressure test, which was the hardest part to kill. The second part, especially, made it easier to kill Lin Yi by accident.

"Well said!" Xu lingchong's eyes brightened and she said, "The second segment is set for three days later. The few of you should have more or less recovered by now. Since Hu Yun Feng is also looking for experts to help him as examiners, I might as well let the few of you make the trip. After all, one shouldn't trouble two masters for the same matter!"

"Good, we also have the same intention!" The few of them looked at each other, their eyes filled with malice. In the end, it was Lin Yi who caused them to be in this state. Naturally, they had to get back at Lin Yi!

Xu lingchong nodded. "Alright then. I'll get Meng jueguang and the others to discuss this with you guys three days later. They have deep grudges with Lin Yi and know his weaknesses better. This time, we have to make sure nothing goes wrong!"

He had already lost face in front of Shangguan LAN 'er once, and he could not lose face again!

Not to mention Xu lingchong and the others gritting their teeth and plotting against Lin Yi, Lin Yi himself didn't even care about these people.

As a matter of fact, with Lin Yi's true strength and all sorts of hidden cards, as long as Xu lingchong didn't take the risk and send people to assassinate him, even if he used all sorts of schemes and tricks against him, he might not be able to do anything to him in the end.

Not to mention, he had Zhong Pingliang and Lee Zhengming in this group of people. As long as they could get the information in time, no matter how delicate the plot was, it would be a joke if it was exposed.

Not long after returning to the pavilion, Zhaoming quickly put up the points for the first round on the announcement board, attracting the attention of the new disciples.

Some people were proud, some were sighing, some were calm, and some were anxious. It was another live show of all living things.

Since the points were split among the three pavilions, every newcomer only paid attention to their own Pavilion's points. In the GreenCloud Pavilion, Lin Yi's full score was naturally the best, leaving Meng Tong and the second place far behind.

Looking at the points and listening to the others "praise and envy for Lin Yi's perfect score, Meng Tong, who was originally full of himself and vowed to crush Lin Yi to get first place, was now fuming.

Lin Yi had forty-five points, while he only had twenty-four. This was only the first segment, and there was a twenty-one point difference between them. With such a huge difference, it meant that if Lin Yi didn't make any serious mistakes in the next five segments, he wouldn't be able to make up for it no matter how hard he tried!

In fact, with Meng Tong's strength at the early Foundation Stage, even if his Foundation wasn't stable, if he didn't get involved in something unfortunate, he could've lasted for three incense sticks, or even four like Kang Zhaoming and Zhong pinliang. Even if he couldn't compare to Lin Yi's full score, he wouldn't be left behind by so much.

Unfortunately, there were no 'ifs' in this world. If a person was unlucky, even a sip of cold water would be enough to fill the gaps between his teeth. It was impossible to stop it. Meng Tong could only admit that he was unlucky to have encountered such a situation.

How could he blame young master Xu lingchong? Even if he had ten times the courage, he would not dare to!

"Ninth cousin, you have to help me think of a way, or it'll be embarrassing for both of us if that idiot Lin Yi steps all over our heads!" Meng Tong had no other choice but to turn to Meng jueguang for help.

Meng jueguang looked at Lin Yi, who was surrounded by his brothers and laughed coldly, "Why are you in such a hurry? this is only the first segment. There are still many more opportunities to kill him. As long as he dies, so what if he gets more points? do you want to give the first place to a dead person?"

"Kill Lin Yi? Can you do that?" Meng Tong was shocked.

Although he'd always been against Lin Yi, he'd only wanted to trample Lin Yi under his feet to get back at him. He'd never thought of killing Lin Yi directly. In fact, it wasn't just him-even Meng jueguang didn't think of that before.

It wasn't that they weren't cruel enough, but if they killed a newcomer, things would get out of hand. They couldn't cover it up with their abilities, and it was easy for them to get themselves buried with him.
