

Bodyguard 3721

Chapter 3721 Fatal Weakness

But it was different now-Lin Yi was their common enemy. They weren't alone anymore, and their backgrounds were strong. This was because they had the support of young master Xu lingchong.

It wasn't just their intention to kill Lin Yi, it was young master Xu's will!

With young master Xu's deep background, even if he used a conspiracy to kill a newcomer, as long as it was not a simple and violent assassination, it would be enough to settle the aftermath without any fatal risks.

And so, people like Meng jueguang could only take advantage of Lin Yi on a small scale, not daring to do anything too big. But now, Lin Yi had to die.

"As long as young master Xu wants him dead, he'll die for sure, so you have to look far ahead, kid. Don't be so short-sighted and waste your time on points. The key is to find a way to kill Lin Yi as soon as possible, understand?" Meng jueguang earnestly advised.

"Oh oh, ninth cousin brother is still the best. You see the blood in the problem!" Meng Tong looked enlightened.

"That's for sure. If you don't have such foresight, how can you be the third Pavilion master in the future?"

Meng jueguang smiled proudly and said, "Young master Xu just told me that he's contacted the Masters in the Hall of Justice. He wants us to come up with a plan to kill Lin Yi in the next test. But before that, we have to study this kid's biggest weakness first. As long as we find his weakness, it will be difficult for him to survive this time! You've been dealing with him for a long time. Tell me, what's this kid's biggest weakness?"

"Greatest weakness?" Meng Tong tilted his head and thought for a moment. Then he shook his head weakly and said, "This guy doesn't seem to have any major weaknesses,"

Although he was the biggest enemy of all the new disciples in the pavilion, and in theory, he should be one of the people who understood Lin Yi the most, he hadn't found a fatal weakness in Lin Yi's body yet.

The only weakness might be that this guy could not distinguish between good and useless Jade. However, this weakness could only be used to take advantage of him at most. It was not realistic to use this to kill him.

"No, everyone has a fatal weakness, so this kid must have one too. It's just that we haven't noticed it yet!" Meng Jue Guang shook his head and turned to call Lee Zheng Ming over, "Zhengming, what do you think is Lin Yi's biggest weakness?"

After all the previous incidents, especially after testing out Lin Yi's strength for them, Meng jueguang trusted Li Zhengming quite a bit. He didn't plan to hide this secret from him, and they could all brainstorm together.

Lee Zheng Ming was stunned. He had noticed the two of them whispering to each other. They were probably planning something that they could not tell anyone. He wanted to get closer to eavesdrop on

them, but he did not expect to be called over directly. They even asked for his opinion directly. This was exactly what he wanted.

"Lin Yi's weakness? Does being lecherous count?" Lee Zheng Ming replied without changing his expression.

"Lecherous? This is indeed a weakness. Unfortunately, at most, it will only sow discord between him and miss Shangguan like last time. It will not be of any use in the next assessment, let alone kill him!" Meng jueguang was a little disappointed.

These two were indeed plotting against boss Lin Yi! Lee Zheng Ming suddenly understood what was going on, and then he deliberately fell into deep thought and did not continue to speak.

The few of them frowned and thought for a long time, but they still couldn't figure out what to do. Suddenly, Meng jueguang changed the topic. "If we can't figure out what Lin Yi's weakness is right now, we can change our way of thinking. What does this kid like to do?"

Meng Tong's eyes lit up and he immediately replied, "I know this, he's just acting tough! I hate to see him acting cool the most, he's asking for a beating!"

Since Meng Tong had already helped him answer, Lee Zhengming was happy to go with the flow, "That's right, from his past performances, Lin Yi does like to act cool. "

On the surface, he was laughing inside-boss Lin Yi was just strong, and that was why he could stay calm no matter what happened. How was that acting cool? "Then, Meng Tong, you can't even tell how strong

your opponent is, but you've been dreaming about trampling him under your feet all day long. What is that?"

"This is right!" Meng jueguang clapped his hands and said, "why did we call this kid a newbie?" It's because this little one is always acting tough. In other words, acting tough has become a habit of his life. If he uses it well, this is his most fatal weakness!"

"How should I make use of this?" Meng Tong was still confused.

Meng jueguang, however, kept him in suspense and said in a profound voice, "We'll talk about that in two days when we're planning with young master Xu and the others. With young master Xu's influence and my plans, Lin Yi won't be able to survive the second round!"

Meng jueguang's master-like attitude made Meng Tong start to flatter him. Li Zhengming, on the other hand, chuckled in his heart. It seemed like he would be able to give boss Lin Yi a valuable piece of information in two days!

Three days 'time was neither long nor short, and in these three days, almost all of the newcomers in the welcome Pavilion were extremely busy.

In addition to dealing with the injuries left from the first pressure test and recuperating their physical state, they also had to make last-minute preparations in the last moments. Those with high points had to maintain their lead, while those with low points had to try their best to catch up as soon as possible.

In short, everyone wanted to be at the top and no one wanted to fall behind.

However, compared to the busy newbies, Lin Yi was the only one who surprised everyone-other than his normal daily training-this guy didn't do any special training for the second test-he even went to the spirit Jade Hall to mine ores-this was unbelievable!

One had to know that in order to cooperate with the newbie assessment, the spirit Jade Hall allowed the newbies to not report for the next three days, but Lin Yi went to the mines of his own accord. If this news spread, everyone would laugh their teeth off!

Don't forget, this guy was an unlucky fellow who was assigned to the tenth Kuangqu. Even if he was lucky, he might not be able to earn a single piece of spiritual Jade even if he worked hard for a month!

Ignoring the important newcomer assessment and going to the dead Kuangqu to mine instead, this kind of brainless feat could only be described with a classic saying, "throwing away the watermelon to pick up the sesame."

All of the newbies who'd been in awe of Lin Yi because of his perfect score in the first round scoffed at the news-did he think he'd already secured first place after just passing the first round? Are you an idiot?

Chapter 3722 Defensive Competition

They didn't know that Lin Yi would get two to three pieces of useless Jade every day from the tenth Kuangqu, and they'd turn them into good jades full of spiritual energy the moment they changed hands. It was much better than them making last-minute preparations.

What was worth mentioning in these three days was that after Li Zhengming took the lead last time, the other newbies swarmed over like sharks that smelled blood-Lin Yi had gotten the extra ten pieces of

spirit Jade from the champion's prize. In just three days, they'd exchanged all of them with waste Jade, not leaving a single piece behind.

Adding on the results of his mining and hiding these days, Lin Yi's spiritual jades were close to four hundred and fifty. It was still quite a distance away from the star inkstone's price of a thousand spiritual jades, but it was still a while before the next inner street opening day. Lin Yi wasn't in a rush.

In fact, even if he did not have enough spiritual jades, he would have a way to make up for the shortage. Of course, it would be ideal if he could gather enough spiritual Jade before that.

No matter what, Lin Yi had to get that star inkstone.

Three days passed by in a flash. All the new disciples of the three pavilions gathered in the main hall of the welcome Pavilion once again. Each and every one of them was rubbing their fists and rubbing their palms together. They were all smug. Unlike the first test, the second test didn't require him to go anywhere else. He could complete the test in the welcoming new pavilion's own territory.

The second test was similar to the first test of resisting pressure, but the content was different. This test was the most basic of all cultivators, but at the same time, it was also one that was often ignored by many-defense ability.

One had to learn how to take a beating before fighting. Otherwise, no matter how strong one was, they would still be a cripple with an uneven development, and it would be easy for others to grasp their fatal weakness. Even the street punks knew this principle, and the high and mighty cultivators present were naturally aware of it.

However, even if they understood the reason, it did not mean that they were willing to work hard in this area. The reason was simple. No matter how one looked at it, this was definitely a thankless task.

Putting aside the fact that there weren't many high-grade defensive martial arts, even if they were lucky enough to obtain one, they wouldn't be willing to spend a lot of effort and money to cultivate it. After all, defense was ultimately passive. If the opponent didn't attack you, no matter how heaven-defying your defense was, it would be useless.

After all, defensive abilities were not as intimidating as powerful offensive abilities. For experts of the same level, after they had learned powerful offensive martial arts, they could go kill people and steal treasures, go on adventures in secret realms, obtain more cultivation resources, and quickly level up, forming the legendary snowball effect.

But what could a defensive expert do? Other than having a slightly stronger ability to stay alive, there was nothing else he could do. Even if he were to face an expert of the same level, he could only fall into an awkward situation of being passively beaten, let alone if he were to meet someone stronger.

The only advantage was that he was more resistant to attacks than others. If he encountered a stronger opponent, what was the use of having a strong defense when he was faced with a stronger attack? The turtle shell would be broken one day, the only difference was a little longer and a little shorter, that was all.

This wasn't just a matter of face. More importantly, it was easy to fall behind others and become a stepping stone for other experts of the same level.

Taking ten thousand steps back, even if you were in a small team where everyone had their own strengths and cooperated with each other, a superhuman defense ability could indeed have an

unexpected effect in many cases. However, once there was a fatal danger, as the team's defensive master, did you have to stand in front of everyone?

To put it nicely, such a person was a powerful shield, but to put it bluntly, he was just cannon fodder. Once a fatal threat appeared, the first to die would definitely be the defensive expert in front.

Who would be willing to be such a useless character who would become the first choice of cannon fodder in critical times?

Everyone had their own selfish motives, so most people would make the same choice in the process of cultivation. Even if they knew that defense was very important, they would still put most of their energy into offense and movement techniques, and would not put too much effort into defense, even if it left a fatal defensive flaw.

This wasn't stupid, but a helpless choice forced by reality. If they didn't do this, it was very likely that they wouldn't even be able to reach today's height, let alone have a bright future.

However, although the theory that defense was useless was recognized as a bloody reality by the entire cultivation world, there was also a common consensus in the cultivation world, and that was that a true top expert would always be able to attack and defend, and would never have a weakness in defense.

If he was only strong in offense and had no achievements in defense, then even if this person could be famous for a while, he definitely wouldn't live for long, because any expert of the same level could kill him by surprise attack.

Those who could attack and defend didn't have this concern, so they could live longer and naturally become more famous!

The three great pavilions had spent all sorts of resources to nurture these new disciples, not because they wanted to nurture fake experts who only knew how to attack and not defend. What they needed was a true expert who could truly attack and defend, and could become the main pillar of strength!

As such, it was extremely normal for such a defensive ability assessment to appear during the crucial newcomer assessment.

This time, the method of testing their defensive ability could be described as simple and crude. It was to be beaten up.

Every newcomer participating in the test was free to choose a full-force attack of a level of strength. As long as they could withstand it and recover from their injuries within a certain period of time, they would be able to obtain the corresponding test points.

Just like the points of the first test, the points of this test were divided into two parts.

One was strength points, which corresponded to the strength level chosen. Sky Class late phase peak was 5 points, Sky Class full phase was 10 points, foundational early phase was 20 points, peak early phase was 30 points, and nothing above that.

After all, the newbies here were at most early foundation level practitioners. It was already very rare for them to be able to take a full-powered strike from an early foundation level practitioner. As for a peak

early foundation level practitioner, even Kang Zhaoming and the others had a 90% chance of being killed in one hit.

As for the higher-ranked ones, they didn't even need to think about it. Even if someone wanted to challenge them, the welcoming new pavilion wouldn't agree to it. Because that wasn't a newbie assessment, it was a public murder.

Chapter 3723 Overestimating Oneself

In addition to strength points, the other part was recovery points, which was how long it would take to recover after taking a full-force blow of the corresponding level. The shorter the time it took, the higher the points.

The calculation method of the recovery points corresponded to the strength points. The points were obtained by multiplying the recovery time by the corresponding proportion.

For example, if someone chose to launch a full-force attack from an early-stage foundation building cultivator, then his strength points would be 20 points.

If he needed two hours to recover, it would mean that it was a minor injury, and the recovery points would be equivalent to 100% of his strength points, which was also 20 points.

If he needed half a day to recover, it would mean that he was only slightly injured. The recovery points would be 80% of his strength points, which was 16 points.

If he needed a day to recover, it would be a wound. The points he would need to recover would be 60% of his strength points, which was 12 points.

If he needed three days to recover, it would mean that he was seriously injured, and his recovery points would be 40% of his strength points, which would be eight points.

If he needed more than three days to recover, it meant that his injuries were extremely serious. His recovery points would be 20% of his strength points, which was four points.

Those who didn't recover after ten days would have zero points! This was because his defensive ability was simply too weak. He was simply lucky to have survived!

The total points of strength and recovery would be the total points of the second assessment. This way of calculating points could not only assess everyone's defensive ability, but also take into account their recovery ability. After all, for cultivators, injuries were always inevitable, so self-recovery was also a very important ability.

When all the newcomers had arrived, Pavilion master Hu Yun Feng finally arrived. Among the people who had appeared with him this time, there was actually an elder in the center. It was the fourth elder of the GreenCloud Pavilion, Zhao Hong Bo, who had shown his face on the newcomer instructor's Day.

Other than that, Lin Yi also saw the law enforcement Hall Masters he met a few days ago, along with two old acquaintances, Xu lingchong and Shangguan LAN 'er.

While everyone's attention was on Zhao Hongbo and the others, li Zhengming secretly gave Lin Yi a look, and Lin Yi smiled back, indicating that he knew what to do.

Late last night, he had received a piece of information from Lee Zhengming, which listed in detail the conspiracy of Meng jueguang, Xu lingchong, and the others. So, it was not strange at all for him to see these people from the law enforcement Hall today, because these people were the important part of the plan to deal with him.

Lin Yi couldn't help but feel helpless when he thought about the people led by Xu lingchong, trying to kill him with all sorts of methods. He wanted to train hard, but these guys just wouldn't let him rest.

Although he didn't have a good way to take out these enemies in a short time, with Lin Yi's various methods, and with Zhong pinliang and Li Zhengming as his spies, he had no problem protecting himself.

You have a good plan, and I have a ladder over the wall. There is still a long way to go, and I will always find a suitable opportunity to kill him in one blow.

Hu Yunfeng went up the stage, and after signaling the newcomers to quiet down, he said in a clear voice, ""This is Zhao Hongbo, elder Zhao. I believe I don't need to introduce him any further. He has very deep attainments in healing injuries. As this round of the resistance test is extremely dangerous, the elders Association has specially appointed elder Zhao to be the special Judge for this round of the newcomer assessment. While he is in charge of ensuring fairness and justice, he will also promptly treat any fatal injuries that appear during the process of the challenge. However, if that's the case, don't expect any points for this round of the assessment."

Pausing for a moment, Hu Yun Feng then pointed to a few experts from the law enforcement Hall and said, ""You've just met these few people three days ago. They will be the examiners for this round of the resistance assessment. Of course, before that, their strength will be sealed by elder Zhao to the corresponding level. So as long as you choose the corresponding level of strength, you won't suffer any attacks that exceed that level. You can rest assured about this."

After hearing this, the group of newcomers heaved a sigh of relief.

Judging from their auras, these Hall of Justice Masters were obviously above the peak of the early Foundation Stage-they were making these people the examiners because they were afraid that even if they chose the Sky Class full cultivation level, the opponent would still make a mistake in their control and deal them an early Foundation Stage or even stronger attack. That would be a big joke.

Fortunately, since these people's strength would be sealed by Zhao Hongbo on the spot, there shouldn't be any problems. What's more, even if there was a problem, Zhao Hongbo would save him in time. This arrangement was already very thoughtful, and it was unlikely for a fatal accident to happen.

Unless it was someone who overestimated himself and challenged someone of a higher level, then he really couldn't blame anyone else if he died. That really proved the saying that if he didn't seek death, he wouldn't die. However, a cultivator with such a stupid IQ was better off not!

However, just as the newbies were sighing in relief, Lin Yi's lips curved up into a mocking smile.

The information provided by Lee Zheng Ming was very clear. Whether it was Zhao Hong Bo or these Masters of the law enforcement Hall, they had already communicated with Xu Ling in secret, and they were all key links to deal with him. In addition to people like Meng jueguang and Meng Tong, it could be said that the entire resistance test was a trap arranged by them, and they were just waiting for him to fall into it.

It was really a big show! Lin Yi's lips twitched mockingly-he already knew what was going to happen next.

"Before the test begins, I'll give you one last reminder. Points are important, but if you overestimate your abilities and end up losing your life, you can't blame anyone else, especially those newcomers who want to show off. It's glorious to challenge those of a higher level, but it's a pity that they're not heroes, but idiots!"

As he spoke, Hu Yunfeng looked at Lin Yi in the crowd, giving people the feeling that his words were specifically directed at Lin Yi.

The surrounding newbies' gazes all focused on Lin Yi, their eyes full of mockery. Wasn't Lin Yi the "attention-seeking newbie" that Hu Yunfeng was talking about?

"Hehe ... The so-called fatal trap tailored for one's own weakness has already begun?" Lin Yi said with a faint smile, not thinking much of it.

People who liked to act cool were usually calm and rational, but once they were mocked, they'd think of ways to slap the other party's face. They wouldn't even hesitate to act tough for it. This was their biggest weakness, and it was also Lin Yi's biggest weakness!

Chapter 3724 Meng Tong's Trump Card

These were the exact words that Meng Jueguang said in the information provided by Li Zhengming. Their next series of plans were all based on this point. They wanted Lin Yi to be taunted and provoked, so that he would lose his mind and make decisions that he didn't know his own strength. This would give them the best chance to kill Lin Yi!

Hu Yunfeng's "nameless taunting" was only the first wave, and these people would keep trying to provoke Lin Yi, to stimulate his acting tough nerves!

In all fairness, Meng Jueguang's plot was actually remarkable. If it had been anyone who really liked to act cool, if they had not received any information in advance or had not hidden their strength, there was a ninety percent chance that they would have fallen for it.

Unfortunately, Lin Yi didn't just have these two advantages, he wasn't someone who liked to show off. With his style, when he was really needed, he wouldn't act rashly without reason.

"Alright, elder Zhao will seal the strength of these law enforcement Hall examiners on the spot. All of you should get ready. The assessment will begin soon!" Hu Yun Feng finally announced.

All the newbies gathered in groups of two or three, making their final preparations. Lin Yi, on the other hand, was naturally surrounded by his miserable senior, Xiao ran, and Qiao hongcai.

At this time, Meng Tong brought a large group of new disciples to the front and glanced at Lin Yi. He sneered, "Pretentious newbie, last time you were lucky enough to get a full score because the pressure formation went out of control. But this time, we're fighting with our true strength. It's not something that can be overcome with some luck! I'll have to ask around, what level do you plan to choose?"

Lin Yi's eyes narrowed, but before he could say anything, the newbie beside Meng Tong started mocking him, "That goes without saying-he'd definitely choose Sky Class full foundation-this guy only made it to the Foundation Stage with a Foundation pill, and he's not even that strong-if he'd chosen an early-Foundation Stage, he'd be dead on the spot!"

"That's right. Pavilion master Hu Yunfeng just said that challenging someone of a higher level is not a hero, but an idiot. But for us newbies, we have to change that. Challenging someone of the same level is definitely an idiot. So, it's better to choose a heaven class full cultivation!"

"What Sky Class full master? I think it's better to choose Sky Class late phase peak-what if we get killed by Sky Class full Masters in one hit, what would people say?! So it's better to choose Sky Class late phase peak, it'll be easy!"

.....

The group of newbies that came with Meng Tong mocked and taunted him, challenging Lin Yi's bottom line. However, no matter what they said, Lin Yi just looked on coldly and remained silent.

To put it bluntly, the reason Meng Tong had brought these people here was to provoke him.

These people didn't know the core of Meng jueguang's plan, but as long as he promised them some benefits, it was just a few words in front of Lin Yi. It wasn't a difficult thing at all, and they were happy to cooperate. Not to mention, they already had a conflict with Lin Yi back in the back mountain test, and Lin Yi had gotten a God-tier full score that made people jealous. They didn't like Lin Yi from the start!

Lin Yi already knew what was going on, so no matter how they taunted or taunted him, he didn't do anything. His brothers, on the other hand, couldn't stand it anymore.

The miserable senior brother couldn't help but step forward to reprimand Meng jueguang. No matter what, he was still the senior brother in charge of the GreenCloud Pavilion's new disciples. Even if Meng jueguang made him a mere figurehead, he still had the authority to reprimand the new disciples.

Xiao ran and Qiao hongcai were filled with righteous indignation and even wanted to challenge them to a battle to teach these ungrateful bastards a lesson!

However, Lin Yi reached out his hand to stop them. It was a waste of time and energy to argue with these people. However, Lin Yi's face still darkened a little.

Seeing Lin Yi's dark face and silence, Meng Tong was secretly happy. From his point of view, the more Lin Yi held back his words, the more likely he would act tough later. This guy was used to acting tough, and he would definitely choose a higher level to slap their faces!

But before that, he still had to give this guy a strong dose of medicine to ensure that nothing would go wrong.

Meng Tong raised his hand, and the newcomers behind him immediately fell silent. He then said proudly, "No matter what level you plan to choose, I'll still be kind enough to inform you. It'll be a pity if you commit suicide when your points are surpassed by luck! I'm telling you, I'm going to choose the peak of the early Foundation establishment stage!"

The moment this was said, the surrounding rookies immediately sucked in a cold breath in cooperation. Their shock was not feigned. It was truly shock that came from the bottom of their hearts. This was because Meng Tong had never said that he wanted to choose the peak of the early Foundation establishment stage!

Challenging someone of-higher cultivation level was an act of stupidity. Pavilion master Hu Yun Feng's words were not for fun. Don't forget that defense was a weak point for the vast majority of people. It was already rare to be able to withstand-full blow from an expert of the same cultivation level-challenging someone of-higher cultivation level in this kind of environment was no different from courting death!

But Meng Tong said it with such confidence. From his expression, he didn't seem to be faking it. He really intended to challenge those above his level!

"Hehe ... When the time comes, I'll have a fourth-grade great recovery pill in my mouth and ask the examiner to go easy on me? This way, you'll really have the capital and confidence to challenge the peak of early Foundation establishment. " Lin Yi smiled coldly to himself. Li Zhengming had specifically mentioned this in his report.

Originally, out of the fairness and fairness of the assessment, no one was allowed to consume any medicinal pill. Otherwise, if one were to consume a heaven-defying life-saving medicinal pill like the grade four great recovery pill, as long as one could hold on for one breath, one would be guaranteed to not die. Moreover, one could rapidly recover from one's injuries after the event. This was simply cheating!

If it had been anyone else, Zhao Hongbo, as an elder judge, would have stepped in to stop them in order to maintain his glorious and positive image. However, Meng Tong was a key part of their plan to provoke and deal with him. For the sake of young master Xu lingchong, even Zhao Hongbo would turn a blind eye.

In any case, as long as they didn't reveal it, others wouldn't know the inside story. They would only think that Meng Tong was F * cking awesome, to be able to retreat unscathed from a cross-level challenge!

Chapter 3725 Cross-Level Challenge

Under the admiring and envious gazes of the newbies, Meng Tong smiled proudly and looked at Lin Yi disdainfully, "As an early Foundation Stage expert, we must have the dignity of an early Foundation Stage expert, especially the few of us who succeeded in building our Foundation first, we must set an example for others, so as not to let people think that the stronger the strength, the less courageous they are. Of course, if you don't have the strength, then just pretend I didn't say anything. After all, not just any random person can do something like challenging someone of a higher level! Hahaha!"

Without waiting for Lin Yi's reply, Meng Tong laughed and turned to leave. His mission was completed. With Lin Yi's usual acting tough performance, it would be weird if he didn't think of a way to slap the faces of these people after being mocked to this extent!

The newcomers left with Meng Tong, and Qiao hongcai clenched his fists indignantly and said, ""These bastards are too much! Boss Lin Yi, you have to perform well later and get a perfect God-tier score. Slap their faces until they can't take care of themselves anymore! Let's see if they still have the face to say these things then!"

"Wrong!" The guy looked at Lin Yi's dark face and quickly said, ""These people are obviously trying to goad Junior Brother Lin into challenging someone of a higher level. If you do that, you'll fall into their trap. Junior Brother Lin, you'd better think twice. This is not a joke!"

"Indeed, these people are too deliberate. There must be something wrong if it's abnormal. Boss Lin Yi, you can't act rashly," Xiao ran reminded.

After listening to the words of these two people, Qiao Hong finally realized the mystery behind it and said with lingering fear, ""Damn, that's too sinister! Did Meng Tong have this kind of brain? It's definitely Meng jueguang behind this-I was just bullshitting, don't take it to heart, boss Lin Yi-safety first! With Meng Tong's strength, he dared to choose the peak of the early Foundation establishment stage? That's bullshit, he's trying to trick you into it, boss Lin Yi!"

Lin Yi only smiled when he saw how worried the three were, "Don't worry, I don't look like a brainless person. Don't worry, I know what to do. "

The three looked at each other, relieved to see Lin Yi as calm as ever. To be honest, they were really afraid that Lin Yi would lose his mind and choose a peak of the early Foundation Stage. That would be a big problem.

After all, the resistance test this time was different from the resistance to pressure test. During the resistance to pressure test, one could still decide whether to leave or not by observing one's condition. However, the resistance test this time was different. Once the level was determined in advance, there was no chance to change it.

If he rashly chose to challenge someone of a higher level because of a moment of impulse, the final result was very likely to be killed by the examiner in one move. At that time, even if elder Zhao Hongbo was present, he wouldn't be able to find a chance to save him.

As they spoke, Zhao Hongbo had already sealed the strength of the Hall of Justice's practitioners-Sky Class late phase peak, Sky Class great completion, Foundation early phase, and peak early phase-they'd each have an examiner, and since most of the newcomers were Sky Class great completion Masters, they'd have two extra examiners for Sky Class great completion, and they could rotate between them.

After that, the second round of the newcomer assessment, the resistance assessment, officially began.

To everyone's surprise, the order of the assessment this time wasn't in accordance with the tradition of the skyward Pavilion taking the lead and the GreenCloud Pavilion taking the last place. Instead, the GreenCloud Pavilion's new disciples were the first to take the lead.

Lin Yi smiled to himself. Xu lingchong and the others really put in a lot of effort to target him this time-they even noticed such a small detail.

The reason was simple-even if he'd been provoked by Meng Tong and the others, even if he'd lost his mind for a moment, he'd still calm down after a long time. Without enough confidence, he might give up on the cross-level challenge.

However, with the GreenCloud Pavilion's newbies taking the lead, Lin Yi wouldn't have any time to react and the plan would be successful!

Seeing that Zhao Hongbo and the examiners of the law enforcement Hall were ready, Hu Yunfeng announced to the newcomers in a clear voice, ""Next, we'll officially begin the second round of the assessment. Starting from the newbies of the GreenCloud Pavilion, the two senior stewards will first organize everyone to register publicly. After that, the assessment will begin according to the strength level of each person who registered, from the weakest to the strongest. As the new disciple Deacon, Junior Brother Kang is in charge of recording. "

After Hu Yunfeng finished speaking, Meng jueguang deliberately glanced at Lin Yi with a cold smile, but he didn't let Lin Yi sign up first. Instead, he walked to Meng Tong's side, indicating for him to start.

Meng Tong immediately held his head high and said proudly, "Meng Tong, early-stage Foundation establishment, challenging the peak of the early-stage Foundation establishment!"

As soon as he said that, the entire place burst into an uproar. The newbies from the other two pavilions, who had not known about this beforehand, looked at Meng Tong in disbelief!

Don't forget that Pavilion leader Hu Yun Feng had specifically emphasized that everyone should not choose to challenge those of a higher cultivation level just to be a hero. That would be hopelessly stupid behavior. However, the first to register, Meng Tong, had directly chosen to challenge those of a higher

cultivation level. Moreover, he had chosen the most difficult peak of the early Foundation Stage. This was truly shocking.

It must be known that there was a common understanding in the cultivation world that the higher the level of strength, the more difficult it was to challenge someone of a higher level. If it was said that the challenge of a higher level between low-level cultivators still happened from time to time, it was extremely rare for those at the early Foundation Stage and above.

This was because, at a lower level, the difference in strength was only one and two. A little use of other trump cards was enough to make up for this gap, so the difficulty of challenging those of a higher level was not too great.

However, for those at the early Foundation Stage and above, the difference in strength was between 10000 and 20000. The gap was not something that ordinary trump cards could make up for. If one wanted to challenge someone at a higher level, the possibility of success was very low.

What's more, this was a test of resistance. In the eyes of ordinary people, it was no different from courting death if one wanted to challenge someone of a higher level in the aspect of defense, which was the weakness of most people!

However, when they saw Meng Tong's confident expression, the rookies found it hard to believe, but they didn't dare to mock him for fear of being slapped in the face.

No matter what, this guy was the first person to successfully build his Foundation among all the newcomers. Perhaps he had some powerful trump card that could deal with a cross-realm challenge. After all, at this level, no one was an idiot who didn't know life and death.

Chapter 3726 Still Goading

Could it be that this guy was a defensive expert? The newcomers looked at each other. Meng Tong was the Big Brother of the current batch of GreenCloud Pavilion's newcomers. The other two Pavilion's newcomers had some understanding of him. However, it was rumored that this guy cultivated the thousand legs technique, which had nothing to do with defense.

If he was an expert who focused on defense, it would be easier to understand why he proposed a cross-level challenge at this time. After all, even if he was a cross-level expert, it was unlikely that he would be killed in one move. At most, he would be seriously injured. But Meng Tong was clearly not one of them!

It wasn't just the newbies from the other two pavilions who were looking at each other-even the GreenCloud Pavilion newbies who knew about this were shocked. They'd heard Meng Tong's smug declaration earlier, and they'd thought that he was just saying it to provoke Lin Yi. Who would've thought that this guy was actually planning to do it!

An early-stage Foundation expert who had just broken through not long ago was actually going to challenge a full-power attack from the peak of the early-stage Foundation. This kind of thing, just thinking about it made people's blood boil!

"This guy is crazy, right? He's actually going to challenge the peak of the early Foundation Stage? did he bribe the examiner?" Qiao hongcai was dumbfounded and couldn't help but question in a low voice.

If he were to rely on pure strength, considering how Meng Tong had been defeated by Lin Yi in one move on the first day, it would be suicide to challenge someone at the peak of the early Foundation Stage. Other than bribing the examiner and cheating, Qiao hongcai couldn't think of any other explanation that was more reasonable.

The senior brother was also in disbelief, but he shook his head and said, ""That's impossible. The strength of these examiners was sealed in front of elder Zhao, and this seal doesn't just seal the upper limit of their strength, it also seals the lower limit of their strength. In other words, if Meng Tong signs up for the peak of the early Foundation establishment stage now, the examiner won't be able to go easy on him even if he wants to, because any of his moves will be at the peak of the early Foundation establishment stage. If Meng Tong doesn't have a strong defense, it'll be useless even if he bribed the examiner. "

"Does that mean Meng Tong really has the strength?" Xiao ran asked in shock.

No matter how she looked at it, Meng Tong didn't seem like someone with such strength. Her boss Lin Yi was more like it, but if he really had to sign up for a peak of the early Foundation Stage, it would be hard for him to do so.

"It doesn't matter if he has the strength or not. Since Meng Tong dared to say this in front of everyone, he must have made preparations." Lin Yi's lips curled up in a playful smile.

There was indeed nothing wrong with the words of the miserable senior brother. However, he had neglected one point. Although Zhao Hongbo was the fourth elder of the GreenCloud Pavilion, and ordinary people couldn't even speak to him, let alone ask him to cooperate and play any tricks, don't forget that there was still young master Xu lingchong present.

Other people were just ants in Zhao Hongbo's eyes and didn't have the right to talk to him, but this young master Xu was Xu Yuanzheng's most valued grandson. To a certain extent, he represented Xu Yuanzheng himself. If young master Xu were to ask him for a favor, as long as it wasn't too out of line, elder Zhao would definitely agree.

And this time, the request that Xu lingchong made to him was within his scope of authority, and it was as easy as lifting a finger.

Xu lingchong's request was very simple. Zhao Hongbo only needed to represent the examiners of the early and peak stages of the foundation establishment stage when he was sealing the strength of these law enforcement Hall experts. He just needed to leave a little leeway during the sealing process.

According to the normal seal, every examiner's strength would be locked. Once they were sealed to the corresponding level, the power of their attacks would be fixed, and there would not be any fluctuations. In other words, if a newcomer chose the same level, the power of their attacks would be strictly the same. Only this way could ensure the fairness of the assessment to the greatest extent.

However, Zhao Hongbo, who had been repeatedly warned by Xu lingchong, had left some room for the examiners at the peak of the early Foundation establishment stage and the beginner Foundation establishment stage to fluctuate during the sealing process. Although the power was still roughly the same, as long as they were willing, they could increase or decrease the power by 30%.

This way, he could go easy on Meng Tong and not accidentally kill him, but he could also guarantee Lin Yi's death.

Thinking about it, if Lin Yi chose the peak of the early stage of Foundation, everyone already knew that it would be extremely difficult to challenge someone of a higher level. If he were to add another 30% of his strength to that Foundation, he'd definitely die. There was no chance of survival at all.

The reason he'd gotten the examiner to do this was because he wanted Lin Yi to have a backup plan. There was a 90% chance that he'd force Lin Yi to choose the peak of the foundational level, but there was still a chance of failure.

With this backup plan in mind, even if Lin Yi chose to be in the early Foundation Stage, he'd still have to suffer a full-strength blow from the examiner. Even if he didn't die, he'd have to be heavily injured for at least half a month before he could recover.

Just as Li Zhengming's information said, Xu Lingchong and Meng Jueguang's group had already racked their brains to deal with Lin Yi. They wanted to make sure that nothing would go wrong and get rid of Lin Yi, a thorn in their side!

Seeing everyone's surprised reaction, Meng Jueguang smiled playfully. Lin Yi wasn't an ordinary character, after all. He wasn't that easy to deal with. If Meng Tong was just fainting and wasn't the first to sign up, how could this guy be fooled?

After Meng Tong signed up, Meng Jueguang didn't let Li Zhengming sign up second. Instead, he walked directly to Lin Yi. Everyone's eyes focused on Lin Yi, each with a playful and expectant look.

Meng Jueguang curled his lips in disdain. "Junior Lin Yi, if I remember correctly, you're the first person to enter the foundation Stage in our Pavilion, and you even got a perfect score in the last test. I wonder what rank you're going to choose this time? Of course, this is understandable. It's human nature to seek advantages and avoid disadvantages, so it doesn't matter if you're a little cowardly. At most, people will gossip about you, and it's better than losing your little life, don't you think so?"

Under everyone's gazes, Meng Jueguang's words clearly had ulterior motives, trying to provoke Lin Yi into falling for it. Lin Yi's miserable senior brother, who was standing beside him, quickly gave Lin Yi a look, telling him to keep calm and not fall for Meng Jueguang's trap!

Xiao Ran and Qiao Hongcai were also nervous. They were all fresh blood, and they wouldn't be able to take it if they were in Lin Yi's position, being provoked by Meng Jueguang in front of so many people.

Chapter 3727 Didn't Take It Seriously

However, Lin Yi was their boss. How could they fall for such an obvious trap?

However, Lin Yi's next words shocked everyone, "Lin Yi, early Foundation Stage, challenging the peak of the early Foundation Stage,"

What? The peak of the early Foundation establishment stage?

The poor guy, Xiao ran, and Qiao hongcai were all shocked. They looked at each other-Lin Yi actually fell for such an obvious trap?

It wasn't just the few of them-even li Zhengming couldn't hide the shock on his face. The others might've thought that Lin Yi would fall for the trap, but he was the only one who wouldn't.

He'd given Lin Yi the information he'd received last night, telling him the details of the plan so that Lin Yi wouldn't be caught off guard and fall for it.

Even if it was any ordinary person, after knowing the other party's plot in advance, they would definitely not be fooled again, right? But Lin Yi was a Hidden Dragon among men, and even after receiving the news, he still chose peak early Foundation Stage. What was going on?

Li Zhengming couldn't believe his eyes as he looked at Lin Yi's calm face. He didn't know what was going on. Even if Lin Yi's own strength was already at the peak of the early Foundation Stage, it was clear that

this was a trap for him. The opponent would unleash an attack that was 30% stronger than the peak of the early Foundation Stage, would Lin Yi be able to take it?

Of course, Lin Yi had the Jade space and the art of Dragon mastery-he only needed a second to recover, and so he could even fight mid-Foundation if he chose mid-Foundation, but he didn't want to be too shocking. He had to be careful, too, and if he chose mid-Foundation, even if Meng jueguang and the others crazily increased the examiner's strength by 30%, Lin Yi was afraid that he'd be killed in one hit!

"Lin Yi junior-brother isn't going to lose his mind, is he?" Shangguan LAN 'er, who was standing in the distance with her little Curly Bear in her arms, covered her mouth in surprise.

Although she didn't know all the details, Xu lingchong did reveal some information when he invited her over in order to save face in front of her. It seemed that the most important part was to provoke Lin Yi to make a choice that he didn't know his own strength. Wouldn't he fall right into their trap this way?

Just as they were panicking, Xu lingchong and the others who were scheming against Lin Yi all smiled, praising Meng jueguang for being an old hand at scheming. Lin Yi was a little hard to deal with, but he was still too inexperienced to play tricks on Meng jueguang.

"Very good, you've got guts!" Meng jueguang gave him a thumbs up and said with a mocking smile,"I hope Junior Brother Lin Yi won't become one of those idiots the pavilion master is talking about. Otherwise, it'd be such a waste for a genius like you to die in the middle of our training."

Meng jueguang laughed heartily as he turned around and left, allowing the other GreenCloud Pavilion disciples to continue their registration.

The brothers quickly gathered around Lin Yi, worried. "Junior Brother Lin, you're too rash. How can you fall for such an obvious trap? They won't show any mercy in this kind of assessment. Even if they kill you in one move, they won't have to bear any responsibility. They'll die in vain!"

Lin Yi, on the other hand, was calm and didn't seem to regret it at all.

"Junior Brother Lin," the miserable senior brother said anxiously, "you're in the early Foundation establishment stage right now. It looks like you're only a step away from the peak of the early Foundation establishment stage, but the difference between the two is like heaven and earth. It's not that easy to challenge someone of a higher level! Why don't I go and tell Pavilion master Hu that you should just forfeit this round of assessment. Even if you don't get any points, it's still better than losing your life. Really, I'm not joking with you!"

In order to protect him, this miserable senior brother really spared no effort!

Lin Yi was touched, and looked at Shangguan LAN 'er, who was hesitating to say something. If he really did give up halfway like his senior brother said, it would be a little against the rules, but this little Senior Sister would definitely come out and help him, and he would be able to avoid this disaster.

However, it was only the full power of the peak of the early Foundation Stage. Other people might not dare to imagine it, but did he need to be afraid?

Not to mention the fact that he was hiding his strength at the peak of the early Foundation establishment stage, even if the other party used 30% more of his strength, it would still be impossible to kill him in one blow. With the Jade space to quickly replenish his true Qi and the art of Dragon mastery's self-healing effect, no matter how serious his injury was, it was just a fleeting cloud!

Lin Yi immediately gave Shangguan LAN 'er a reassuring look and patted his shoulder, "Senior brother ku, don't be so excited. I'm not acting rashly this time. I'm sure I can handle this. Don't worry!"

"Really?" Even with Lin Yi's words, the miserable senior brother still couldn't believe it. Even Xiao ran and Qiao hongcai looked at each other.

Although Lin Yi always gave people surprises, this was still beyond their comprehension. An early Foundation Stage practitioner challenging a peak early Foundation Stage practitioner's full-powered attack-this wasn't something a normal person could do!

"It's more real than real gold. You guys just wait and see. " Lin Yi nodded with certainty.

The poor guy, Xiao ran, and Qiao hongcai had nothing to say. Since Lin Yi had already said it, there was no point in them saying anything more. They could only let him be.

After a while, all the newbies in the pavilion had signed up. After counting all fifteen newbies, three chose Sky Class late phase peak, ten chose Sky Class full phase, and the remaining two were Meng Tong and Lin Yi, who chose early Foundation peak!

Putting aside Meng Tong and Lin Yi, the other GreenCloud Pavilion disciples were all relatively conservative in their choices. No one chose to challenge someone of a higher level than them. After all, the Sky Class full master and the early Foundation Stage were two completely different levels, and the difference was even greater than the difference between the early and peak of the early Foundation Stage. No one was stupid enough to make such a stupid choice.

Among the crowd, there were three people who even chose to challenge a lower level. Although this kind of performance seemed a little cowardly, it was a wise choice for those who truly knew their own limitations.

Just as Hu Yunfeng said, challenging those of a higher level was stupid. If one didn't have the strength, then even if they braced themselves and chose to challenge those of the same level, they would still be stupid. At that time, the ones who would suffer the most injuries and die the most miserably would often be these people who didn't know their own limitations.

This was especially true for a certain someone who had made the same choice after seeing others choose the peak of the early Foundation Stage. He was definitely the dumbest of the dumbasses.

However, as the person in question who was the center of everyone's attention, Lin Yi's face was calm the entire time, as if he didn't feel any pressure at all. It was as if the full power attack from a peak of the early Foundation Stage wasn't even something he was worried about.

Chapter 3728 Uncertain

Xu lingchong and the others pursed their lips in unison. The title of the pretentious newbie was indeed not in vain. This guy was really good at acting. He was clearly at death's door, but he could still pretend to be calm. It made people angry!

However, this was also good. The more he could pretend now, the more miserable he would die later, which would be even more satisfying!

After all the new disciples had signed up, the second round of the test, the resistance test, began. According to the instructions, the test would start from the lowest level, Sky Class late phase peak.

Under the mocking gazes of all the rookies present, the three rookies who took the initiative to admit defeat went up the stage one after another.

Although they were flustered, they were still Sky Class full Masters. Even if they didn't know any defensive martial skills, the strength of their Qi was more than enough to deal with an attack of a lower level.

Soon, the three of them finished their assessment one after another. The process was plain and ordinary. Although each of them was more or less injured, their injuries were not serious. They should be able to recover within two hours.

In other words, the three of them should be able to get five points of strength and five points of recovery. The second round's points would be a total of ten points. Although it was barely enough to reach the strength points of the others, it was already a harvest in itself to be able to pass this level without any danger.

If they'd chosen to use the full power of a heaven class full strength attack, they might have already become corpses lying on the ground. What was the point of getting more points? At the end of the day, people still needed to know their own limits and know how to be content. Only then could they live long.

After the Sky Class late phase peak, it was time for the Sky Class full phase test. There were ten people in total, and if it wasn't for the pavilion leader Hu Yunfeng's foresight to prepare three examiners to take turns, one examiner would have been exhausted, and the test process would have been delayed.

Compared to the previous three people's uneventful expressions, the scene was obviously full of twists and turns now that it was the Sky Class full completion's turn.

After all, even when facing an all-out attack of the same level, if the defense was weak, it was still very easy to be in danger. Not only could it be seriously injured, it could even be fatal!

The reality was just as everyone had expected. The first person to go on stage was already heavily injured by the examiner's palm strike. Looking at his pale face, it was already a blessing that he didn't die. He probably wouldn't be able to recover in the next ten days to half a month. In other words, if there were no major accidents, his recovery points would be zero!

Including the 10 strength points, this guy's total points were exactly the same as the previous three, but the others were more sensible, so they only suffered some minor injuries. This guy was more miserable. Not only did he have to recuperate for the next ten days, but it might even affect the next assessment round. It was simply not worth it.

As expected, one must know one's own limits! Looking at this guy's miserable state, the three people who had been ridiculed before were instantly in a good mood.

As for the other guys who were about to go on stage to accept the test, after seeing this scene, their hearts couldn't help but start to beat like drums. In the end, their strength wasn't much stronger than this unlucky fellow!

However, the registration had already been made public in advance, so there was no room for regret. At this time, no matter how scared they were, they could only brace themselves and go up.

Among the next nine people, two were seriously injured, four were injured, and only three were slightly injured. It seemed that they would recover within two hours and could get the full recovery points.

These three people were all directly related to Lin Yi. One was Xiao ran, one was Qiao hongcai, and the last one was li Zhengming.

Lin Yi thought that Xiao ran was the strongest among the three-they both came from the common world, after all, and he knew Xiao ran's background very well. Xiao ran was reserved and calm, and he was the type who accumulated a lot of strength before unleashing it. He wasn't weak in defense either, and it should be easy for him to pass this test.

That was the truth. Xiao ran was calm and collected from the beginning to the end, while Qiao hongcai was only slightly injured, but he looked a little embarrassed. What Lin Yi didn't expect was that li Zhengming was even more relaxed than Xiao ran.

When Lee Zhengming was faced with the examiner's full-powered attack, a layer of frost instantly formed on his chest, blocking a lot of damage for him. Therefore, it was only a few moments after he got off the stage, but this guy had already stood up. After Zhao Hongbo checked on him on the spot, he announced that his injuries were fully recovered!

Lin Yi remembered how li Zhengming had intentionally hidden his strength to keep a low profile. Lin Yi believed that this guy must have held back as well. If he had used his full strength, he might not even have been injured. This guy was a real strong person.

If it wasn't for the fact that he was two levels stronger than the guy, Lin Yi wouldn't have been able to make this guy submit to him. He might even have to be on guard against him, but now that li Zhengming had become his underling, the stronger he was, the better.

Now that all the tests were completed, the focus of the crowd naturally shifted to Meng Tong and Lin Yi. Their expressions were complicated-respect, envy, mockery, playfulness, and all sorts of other meanings.

There were only four early Foundation Stage Masters among all the new disciples in the three pavilions. Since Kang Zhaoming and Zhong pinliang hadn't registered yet, Meng Tong and Lin Yi were very likely to be the only two new disciples who could skip a level and challenge the peak of the early Foundation Stage. This kind of challenge was very rare, and everyone naturally had to open their eyes wide to see it clearly.

The examiner was ready, and under everyone's eyes, Meng Tong glanced at Lin Yi with disdain, "Newbie acting tough. You first or me first?"

"As you wish." Lin Yi shrugged indifferently.

"Tsk, just by looking at you, I know you're not confident. I'll show you mercy and lead the way. I'll let you know what a real expert in the early stage of the foundation building realm is like. A guy like you, who barely succeeded in the foundation building realm by relying on the foundation building pill and dog shit luck, is simply not enough!" Meng Tong laughed coldly and walked toward the examiner.

This was their plan all along-if Meng Tong didn't take the test, Lin Yi might go back on his word.

But if Meng Tong took the initiative to go first, Lin Yi's heart would be numbed when he saw Meng Tong successfully withstand the full-powered attack of a peak early Foundation Stage cultivator. He'd have the illusion that if Meng Tong could do it, then he himself could do it too. Only then would he be willing to step into the abyss of death!

"Hehe

Chapter 3729 Vicious Killing Intent

He had clearly seen Meng Tong secretly take a pill before the others turned their attention to him. Needless to say, it was the grade 4 recover pill mentioned in Lee Zhengming's information.

As long as it wasn't a direct one-hit kill, as long as a Foundation establishment expert still had one last breath, they could rely on the heaven-defying effects of this fourth grade great recovery pill to take the person back from the hands of the god of death and quickly recover their vitality.

If it was used on an ordinary person, as long as they were not weak and could not take it, they would be able to recover in an instant no matter how serious their injuries were. They might be on the verge of death a moment ago, but they would immediately be full of life after taking it.

If it was used on an early stage foundation building expert like Meng Tong, the amount of Yuan Qi He needed to replenish was far more than that of an ordinary person. The effect would not be so abnormal, but he would definitely be able to recover within a day.

It was said that this Grade 4 great recovery pill was personally provided by Xu lingchong. This young master Xu had really invested a lot of capital to deal with him this time!

However, Lin Yi didn't plan to report Meng Tong in public even though he saw Meng Tong break the rules and consume the pill first. If he did, the pill would be instantly eaten by Meng Tong, and the dead couldn't testify. The only person who had the right to check if Meng Tong had consumed the pill first would definitely not be on Lin Yi's side.

Therefore, instead of reporting it in public and asking for a snub, it was better to watch from the side and give these guys a big surprise later!

Under everyone's gaze, Meng Tong walked up to the examiner with a smug look on his face. The crowd couldn't help but secretly sneer at him. He was a villain who had achieved success!

When he was ten feet away from them, the examiner nodded to Zhao Hongbo and Hu Yunfeng, then silently exchanged glances with Xu lingchong, Meng jueguang, and the others. Only then did the examination begin.

"The next test will be for the peak of the foundational level. Are you ready?" The examiner confirmed for the last time.

"Not bad! Come on. " Meng Tong didn't even lift his eyelids, acting like a peerless expert who regarded his opponent as a blade of grass.

F * ck! If young master Xu didn't order me to go easy on you, I would've killed you with one palm for your annoying appearance!

Meng Tong clearly needed to cheat in order to pass the test, but he still had to put on a disdainful attitude. Meng Tong's nature made the examiner's stomach hurt from disgust, and he cursed in his heart.

However, no matter how much he disliked Meng Tong, for the sake of Xu lingchong's grand plan, the examiner could only pinch his nose and bear with it.

Not only could he not kill his opponent with one palm, but he also had to deliberately leave 30% of his strength for his opponent to go easy on him. Otherwise, with Meng Tong's strength, if he were to give him a full-power attack of the peak of the early Foundation establishment stage, there was a 90% chance that he would be killed with one blow. Even if he had prepared a grade four recover pill in advance, he would not have the chance to swallow it!

Like most of the other rookies, Meng Tong did not practice any defensive martial arts techniques. The only way to deal with this kind of assessment was to gather his genuine Qi in his chest as much as possible to block the examiner's attacks.

It was a no-brainer choice-it couldn't be compared to those defensive Arts, but it was still effective, especially for someone like him, who was in the early Foundation Stage. His Qi was already strong enough to nullify a full-force attack from a Sky Class full master.

But now, he was facing an attack from the peak of the early Foundation Stage. The damage that this little amount of true Qi could offset was obviously not enough, but it was better than nothing. It was better than doing nothing.

Everyone present held their breath and waited for the examiner to make his move. After all, it was not easy to see the power of a peak early Foundation Stage expert in the welcoming new pavilion.

The examiner didn't disappoint. Without any preparation, his seemingly ordinary palm strike went from slow to fast. By the time it crossed a distance of three meters and reached Meng Tong's chest, it was already carrying the force of a Thunderbolt!

There were so many Sky Class full Masters here, and just looking at it was enough to make their hearts jump. The palm in front of them was just a normal attack of a peak early Foundation Stage master, and didn't have any strong martial arts effects, but its power was still not something they, who hadn't even reached the Foundation Stage, could handle.

At this moment, just looking at it from the side made their hearts tremble. If they were in Meng Tong's position, they would definitely die. No matter how powerful the elixir was, it would not be able to save their lives.

"Bang!"

Meng Tong let out a muffled groan and flew backward like a kite with a broken string. He fell more than ten feet away. Looking at his current state, he was no longer as arrogant as before. His face was as pale as a sheet of gold paper, and he kept vomiting blood!

F * ck! Fortunately, he had consumed the grade four great recovery pill in that instant just now. Otherwise, he would have died!

However, even though the class 4 recover pill had already begun to display its heaven-defying medicinal power in his body, Meng Tong still could not stop his vision from turning black. He held on to his last breath and barely managed to not fall down. His internal organs felt as if they had shifted positions. This feeling was worse than death.

But fortunately, he had a grade four great recovery pill to extend his life, so his life was not in danger.

Although Meng Tong was dispirited and listless, he was still able to grit his teeth and force himself to sit up. He began to meditate and circulate his Qi to recover from his internal injuries. The onlookers' eyes were filled with shock and awe.

Not to mention how long it would take for this guy to recover, to be able to withstand the attack and not die was already a miracle in itself. There was no doubt about his strength!

After all, these new onlookers did not know that Meng Tong had taken a grade four great recovery pill. They thought that it was all because of Meng Tong's strength as an early Foundation establishment cultivator. Such a performance was naturally powerful!

"It's your turn next, right?" After sending Meng Tong flying, the examiner looked at Lin Yi from a distance with a playful expression.

Last time, in order to kill Lin Yi, these Masters from the law enforcement Hall tried to steal a chicken but ended up losing the rice instead. Because the pressure formation lost control for no reason, they were heavily injured instead. They lost all their face in front of young master Xu lingchong, and naturally, they hated Lin Yi because of this.

And then, the time for revenge finally came. The full power attack of the peak of the early Foundation Stage, which had increased by 30%, was launched by this kid, who was only an early Foundation Stage expert. There was no possibility of him being lucky enough to withstand it. Just wait for death!

Lin Yi shook his head helplessly as he sensed the killing intent in the examiner's eyes.

Originally, he had no grudges with these people, and he didn't even know them. In the end, they hated him because they failed to help the evildoer and even deliberately cooperated with Xu lingchong to kill him. It was really a pain in the ass to get involved in this kind of inexplicable mess.

Chapter 3730 Falling Into A Trap!

But, no matter if it was in the common world or on Sky Class Island, he'd always had enemies everywhere. He'd gotten used to it already, and it didn't matter if these people were here or not-who knew who'd end up being the one being trampled on!

Under everyone's gazes, Lin Yi gave the group A look to calm them down before walking over to the examiner and stopping three meters away from him.

He wasn't as arrogant as Meng Tong just now, but he was calm and composed, with the air of an expert.

The examiner couldn't help but stare blankly as he couldn't help but Mutter in his heart. Previously, when he saw this brat's calm and composed appearance, he could still think that he was trying to save face. But now that he was on the verge of death, he was still able to maintain this pretentious attitude. He didn't even look nervous at all. Wasn't he just too good at pretending?

Was it because he saw that even Meng Tong, who was in the front row, could endure it, so this kid thought that he could easily pass the test and was so unscrupulous?

The examiner laughed to himself. This kid was an expert at the initial stage of the Foundation Stage, yet he didn't even have this bit of self-awareness. Moreover, he didn't even have the slightest premonition of the danger within. If he were to die later, he really couldn't blame anyone else. He could only say that he was stupid!

The sins of the heavens could be forgiven, but the sins of one's own self could not be forgiven. This brat was so stupid that even the heavens would not help him!

Xu lingchong, Meng jueguang, and the rest looked at each other and smiled as if their scheme had succeeded. This was the final step of the deadly trap that they had so painstakingly set.

At this point, even if Lin Yi realized that something was wrong, it was impossible for him to turn back. He could only brace himself and hold on, and then what awaited him was a tragic death. There was no second possibility!

"Wuwuwuwu!" The suffocating pressure made the little Curly Bear in Shangguan LAN 'er's arms restless, and it couldn't help but cry at Lin Yi.

As a spirit beast, even if it was still in its infancy stage, the little Curly bear's ability to sense danger was still far above ordinary people. It could clearly feel the danger that made it instinctively scared, right above Lin Yi's head!

"Little white, be quiet." Shangguan LAN 'er furrowed her brows slightly. Because Xu lingchong had revealed part of the plan to her before, although she didn't know the exact details, she still felt that the current situation wasn't quite right. It was as if Lin Yi had completely fallen into the other party's trap and was in a bad situation.

However, even if she wanted to help Lin Yi now, she still had to consider her agreement with Lin Yi. She had to act like she hated Lin Yi in front of people, otherwise, not only would she not be of help to Lin Yi, she might even cause him more trouble.

Although Shangguan LAN 'er was usually not scheming and gave people a feeling of innocence and coquettishness, this did not mean that she was stupid. On the contrary, when she really wanted to think about something, she was much smarter than most people.

Lin Yi didn't explain why he wanted her to put on an act in front of people, but she could guess that there was a deeper meaning.

The reason for this was probably to numb some people-if they saw her close relationship with Lin Yi, it'd bring trouble to a new person from the common world like Lin Yi due to her special status, and it could even get her killed.

So she had to keep a distance from Lin Yi in front of others. This was a form of protection for Lin Yi.

If he tried to stop them now, he might not be able to help Lin Yi, but at the very least, this layer of protection would be destroyed. It wasn't a good thing for Lin Yi.

So, even if she knew that Lin Yi was in a bad situation, Shangguan LAN 'er still didn't stop him after struggling for a long time. It was only when Lin Yi gave her a reassuring look that she finally felt relieved.

This Lin Yi Junior Brother was confident in handling this crisis!

Although she knew that this kind of cross-level challenge was extremely difficult, although she had only met Lin Yi a few times and didn't know how much confidence he had, Shangguan LAN 'er instinctively chose to believe in Lin Yi. She believed that this Little Junior Brother of hers would be able to pass the test with ease!

"Please," he said. Lin Yi raised his hand slightly, signaling the start of the test.

He was acting! The examiner twitched his mouth disdainfully without a trace. Then, he quickly gathered the true Qi in his body in his palm and quickly reached the upper limit of the seal.

However, this was not the end. Even though he had reached the upper limit of the seal, he could still continue to mobilize the remaining genuine Qi through the gaps in the seal that were not very tight. It was just that it was more difficult to mobilize it, and the amount was limited.

After a while, the examiner's true Qi finally reached its limit. It had far exceeded the level of a peak early Foundation Stage expert, more than thirty percent!

This time, it was different from when he faced Meng Tong. The palm that had sent Meng Tong flying did not have any shocking aspects in the beginning. It was only when it hit Meng Tong at the end that it exploded with the power of a Thunderbolt.

But this time, even if the examiner didn't make a move, just by condensing his true Qi, everyone present was already starting to feel frightened. It was as if a storm was coming, and the pressure was so great that they couldn't breathe.

Why did it feel like this palm was much stronger than the one he had used against Meng Tong? Everyone couldn't help but feel suspicious, but because they were only sky Class full Masters, they didn't know much about the peak of the early Foundation Stage-they thought it was just an illusion.

Pavilion master Hu Yun Feng had clearly said that the strength of each examiner was sealed. For an attack of the same level, it was impossible for one palm to be lighter than the other. Therefore, this strange thought must be an illusion.

However, how could this be an illusion?

The palm that Meng Tong faced just now only had 70% of the power of a peak early Foundation Stage cultivator, but the palm that Lin Yi was facing now had 130% of the peak early Foundation Stage cultivator's power, almost double the former's power. The power was completely different!

"Oh no, Junior Brother Lin has been tricked!" The miserable senior brother's heart suddenly tightened. He was different from these newcomers. It was normal for newcomers to not understand the strength of the peak of the early stage of the foundation building realm, but how could he not understand?

Don't forget, he'd been stuck at the early Foundation Stage for a long time. He didn't take the breakthrough pill immediately after he asked Lin Yi to make it for sure, but he'd been making preparations for the breakthrough these days. He was only one step away from the peak of the early Foundation Stage, and he knew what strength he'd have after breaking through!
