

Bodyguard 3741

Chapter 3741 Fancied By Both

What a weird scientist! Lin Yi couldn't help but chuckle. Not only was he not surprised, but he even thought more highly of this guy now.

After all, the profession of a forger was similar to alchemy. One had to study hard. The more one could calm down and think deeply, the more likely they were to achieve a breakthrough. The rag King's eccentric personality might not be suitable for dealing with people, but it was not a bad thing for a forger.

Lin Yi smiled and didn't bother with him anymore. He turned to a quiet corner and put the bag of spirit Jade, the Nine-Tailed cloud piercing leopard's front paw, and tail into the Jade space. He then walked into the inner street.

It was the break of dawn, and the guard took out the "Open Day" sign just as Lin Yi reached the entrance of the inner street, signaling for the people who had been waiting to enter.

With the first batch of people entering the inner street, Lin Yi went straight to the Hong Chamber of Commerce. He couldn't wait to know if the star inkstone he was thinking about was still there!

He walked into the Hong Chamber of Commerce's attic with familiar steps and quickly went up to the second floor, heading straight for the corner where he found the star inkstone last time. However, Lin Yi's heart immediately sank when he saw that the display cabinet was empty. The star inkstone was gone.

Rushing so quickly, but in the end, he still missed it?

Lin Yi smiled bitterly. He didn't want to give up, but there was nothing he could do. He decided to walk around a little more and go back. After all, he was prepared for this.

However, just as he was about to give up, he suddenly caught a glimpse of a staff member of the Hong Chamber of Commerce carrying an exquisite wooden box as he passed by. The mysterious aura emanating from the wooden box made his heart skip a beat. This situation was exactly the same as the time he had discovered the star inkstone!

Could it be that the star inkstone is in this wooden box?

Lin Yi's intuition told him that the box was in a private room.

Lin Yi asked around before he came last time, and he learned that this private room was used for trading valuables. After all, valuables shouldn't be exposed, and valuable items that were worth hundreds or even thousands of spiritual Jade should be traded in a secret place.

If it was placed in a crowded and noisy public place like the lobby on the first floor, it would easily attract the attention of some people with ulterior motives. The Hong Chamber of Commerce was rich and powerful, so there was nothing to be afraid of. However, customers who had spent a large amount of spiritual Jade might not have the confidence to do so.

If he was followed and ambushed after leaving the Hong Chamber of Commerce, not only would his precious treasure be snatched away, but he would also waste a large amount of spiritual Jade. In serious cases, he might even get himself killed. This was not a joke.

Therefore, out of consideration for the privacy of the customers, the Hong Chamber of Commerce had specially set up this private room for the trading of valuable items.

If a customer fancied any valuable treasure from outside, they could directly go in and discuss the deal with the manager. The staff of the Hong Chamber of Commerce would help them pack it up and not let outsiders see what was inside and have any evil thoughts.

The door of the private room was not tightly closed, but only half-closed. After all, businessmen always had to open their doors to welcome guests from all over the world. It was impossible to close their other businesses just to protect the privacy of their customers. That was unrealistic.

The Hong Chamber of Commerce was already very thoughtful to open a private room to avoid unnecessary trouble for the customers.

Through the half-closed door, Lin Yi saw a familiar back, and his heart jumped.

The back was the same inner sect disciple he'd seen last time-he'd changed his clothes, and wasn't wearing the signature uniform anymore, but Lin Yi could tell that this was the same person!

If he'd only guessed that the box might contain a star inkstone before, then he was absolutely sure now that he'd met this competitor!

Immediately after, Lin Yi heard the manager say to the man, ""You can open it and check to see if it's what you want. If you're interested, then according to the previous price, it'll be 1000 spiritual jades. As there's a large number of spiritual jades, our Hong Chamber of Commerce can specially send someone to your residence to collect them."

A thousand spirit jades, it was indeed the star inkstone!

Lin Yi took a deep breath and entered the room before the man finished the deal with the manager.

"This customer, how may I help you?" The manager turned to Lin Yi with a smile.

He still had to take care of the deal with this person, but that didn't stop him from entertaining Lin Yi. After all, those who had the guts to come into the room were all tycoons with a lot of spiritual jades in their hands-they were the god of wealth that the business needed to entertain and rope in.

Lin Yi didn't even get a chance to reply, but the disciple was already looking at him warily. Lin Yi recognized him-he was the star inkstone competitor he met last time, Yu Zhe.

After one look at Lin Yi, Yu Zhe also quickly recognized Lin Yi's identity and was shocked.

He knew that Lin Yi's intention was probably the same as his, for the star inkstone. He quickly closed the lid before Lin Yi's eyes landed on the box, not wanting Lin Yi to see the star inkstone inside.

In his eyes, Lin Yi was just a poor freelancer-theoretically, he shouldn't have that much spirit Jade to buy star inkstones, but since Lin Yi dared to walk into this room, it meant that he had some confidence. It was better to hide it a little, just in case.

After all, if Lin Yi really found out about the star inkstone in the box, he'd have to bid for it on the spot. That'd be troublesome.

What he didn't know was that Lin Yi had already determined that the box contained the star inkstone-it was useless to try and hide it.

However, Lin Yi's face didn't change. He didn't even look in the manager's direction. He turned to the manager and said, "Shopkeeper, I saw a star inkstone here last time. Do you still have any in stock?"

The words made Yu Zhe's heart skip a beat-what he was afraid of really happened! The old fox, who'd been in the business world for years, obviously noticed the business opportunity in this!

Sure enough, the shopkeeper's eyes lit up when he heard this. After looking at the expressions of the two people, he immediately replied, "There is, but our store only has one star inkstone in total. If Sir really wants it, then you can only bid against this Sir. According to the rules of the market, the one with the highest price will get it."

Chapter 3742 Sorry

This time, no matter how Yu Zhe tried to hide it, it was useless. Looking at the shopkeeper's excited expression and Lin Yi's disgusting face, he wanted to give himself two slaps!

If he had known that such a person would appear, he would have directly agreed to the deal without a second word. There was no need to drag it out and let people bring the goods over for inspection!

But now, he was too smart for his own good, and was forced to bid with others. It was simply a trap!

However, now that things had come to this, no matter how much regret he had, it was useless. The most important thing now was to get the star inkstone at all costs. This was his greatest hope for rising up in the future. If he missed it, he might not be able to accomplish anything in this life. Therefore, he definitely could not let this opportunity slip by.

"Shopkeeper, I think you'd better ask first if this person can take out a thousand spiritual jades. I'm very suspicious of this!" Yu Zhe glared at Lin Yi with hostility.

The shopkeeper paused and looked at Lin Yi up and down, suspicious as well. After all, Lin Yi's ordinary outfit didn't seem like someone who could take out a thousand spirit Jade so easily.

Lin Yi smiled and put the bag in front of him, opening it for the two. It was full of high-quality spiritual Jade-he'd prepared them before entering the inner street.

Yu Zhe was taken aback. He really didn't expect that this unassuming and poor rogue cultivator would be able to take out so many spiritual jades so easily!

However, after taking a closer look, Yu Zhe's face suddenly had a bit of ridicule, and he sneered, ""This bag of spiritual jades looks like it's a lot, but there's a thousand Yuan in it? Heh, I think it's not even half of it. You have the nerve to take it out and embarrass yourself?"

The shopkeeper carefully estimated and nodded. "I estimate that there are about four hundred spiritual jades in this bag. It's indeed far from a thousand spiritual jades. Sir, if you can only take out these spiritual jades, I can only apologize to you."

"Hehe ... You have good eyes, manager." Lin Yi smiled faintly.

There were indeed only four hundred pieces of spiritual Jade. Although he still had some in the Jade space, and even had two hundred pieces of spiritual Jade from Chen heihu, some of these spiritual jades were useless jades with insufficient spiritual energy. They were too short to be filled with spiritual energy in the Jade space.

"Since you can't afford a thousand spiritual jades, why are you still here? what a waste of time!" Yu Zhe couldn't help but let out a sigh of relief when he heard this. He turned to the shopkeeper and said, "If that's the case, then I'll pay a thousand spirit jades. The star inkstone is mine."

"Indeed," The shopkeeper nodded, a little regretful. He'd thought that this would be a good situation with two tigers competing for food, and he'd be able to earn a lot of spirit Jade from it. He didn't expect Lin Yi to be a complete bystander, only bringing out four hundred spirit Jade. There wasn't any competition at all, and he'd been overjoyed for nothing.

But just as the manager and Yu Zhe were about to make a deal, Lin Yi suddenly spoke up, "Hold on. What if I add these two foundation building barrier-breaking pills on top of the 400 spiritual jades?"

The two froze at the same time-an ancient-looking box had appeared in Lin Yi's hands!

Yu Zhe's heart sank. The foundation breakthrough pills were sold in the Hong Chamber of Commerce at four hundred spiritual jade pieces, which meant that the two pills were worth eight hundred spiritual jade pieces. With the four hundred spiritual jade pieces in the bag, Lin Yi's bid was equivalent to twelve hundred spiritual jade pieces, far more than his one thousand spiritual jade pieces!

Of course, he didn't think that Lin Yi was bragging. The box wasn't open, but if there was nothing inside, Lin Yi would be embarrassing himself!

"This customer, what do you say?" The shopkeeper turned his head to look at Yu Zhe.

The meaning was clear-if he couldn't go higher, then this one and only star inkstone would go to Lin Yi.

Yu Zhe was silent for a moment before glaring at Lin Yi. He was determined to get the star inkstone, and he wouldn't allow anyone to touch it!

However, Lin Yi didn't even look at him. In this kind of place, it was always the spirit Jade that spoke. Whoever had more spirit Jade would have the right to speak. It was useless no matter how Yu Zhe glared at him.

"I bid 1200 spiritual jades!" Yu Zhe finally gritted his teeth. "The foundation-breaking pill is worth four hundred spiritual jade pieces. But that's the selling price. I don't think it'll be that high if we buy it back, right?"

1,200 pieces of spiritual Jade was already the maximum amount he could borrow. It was impossible to raise even one more piece.

This was because even if people did high-interest loans, they still had to look at the person. If it was obvious that it exceeded the person's upper limit of repayment, they would not lend it to you at all. Otherwise, it would be a waste. Even if you killed the other party, you would not be able to recoup your losses.

Although Yu Zhe was an inner sect disciple of the rising Sky Pavilion, his background was far from as deep as Xu lingchong 's. Usually, he could only borrow a thousand spiritual jades at most. It was already considered a favor to be able to borrow two hundred more spiritual jades. There was no way he could borrow more than that!

However, even though he could only offer one thousand two hundred pieces of spirit Jade, Yu Zhe was still confident that he would be able to win the star inkstone.

Lin Yi's 400 spiritual jades and two Foundation breakthrough pills were also worth 1200 spiritual jades in theory, but one shouldn't forget that the Hong Chamber of Commerce had set the price for each pill at 400 spiritual Jade.

In other words, to the Hong Chamber of Commerce, the cost price of a foundation building barrier-breaking pill was not even 400 spiritual jades. In their eyes, it was already at its limit to be worth 300 spiritual jades!

So the two Foundation breakthrough pills that Lin Yi took out were only worth six hundred spirit Jade at most in a situation like this. With the addition of four hundred spirit Jade, it was equivalent to the bid of one thousand spirit Jade, naturally not as much as the actual twelve hundred spirit Jade he had!

Actually, from this perspective, Yu Zhe thought that the price of one thousand one hundred spirit Jade was enough to completely overshadow Lin Yi, but he still chose to directly call out the price to the upper limit of what he could afford. In order to ensure that he would get the star inkstone, he was going all out!

As expected, the manager nodded and turned to Lin Yi, "That's right. Although the price of the foundation-breaking pill is 400 spiritual jade pieces, if you want to use it as payment, you will have to pay the recycling price. I can only charge you 300 spiritual jade pieces. Two Foundation-breaking pills plus 400 spiritual jade pieces can only be considered as a discount of 1000 spiritual jade pieces."

After a pause, the shopkeeper immediately added, "Of course, if someone else had also offered a thousand spiritual Jade, we would still be biased towards your two Foundation-building barrier-breaking pills. After all, it would save us some trouble in purchasing them. However, now that this guest has offered a thousand and two hundred spiritual Jade, I'm very sorry."

Chapter 3743 Supreme-Grade Foundation-Breaking Pill

If they accepted Lin Yi's two Foundation breakthrough pills and four hundred spirit Jade, the Hong Chamber of Commerce would be able to save on the trouble of restocking the goods, but now that Yu Zhe was bidding one thousand two hundred, it was equivalent to exchanging the two Foundation breakthrough pills for spirit Jade at four hundred each. They could even save on the trouble of selling them, and it was clear which one was better.

Yu Zhe looked at Lin Yi with a mocking face. He was pretty sure that he'd get the star inkstone. As far as he was concerned, Lin Yi wouldn't use two Foundation breakthrough pills as a price unless he had no other choice. This was probably all the money this poor freelancer had-he couldn't possibly have more spiritual jades than him!

However, Lin Yi opened his mouth and asked, "That's not entirely true, right? In the pill display cabinets outside, I saw that the same pills have different prices. Could it be that these pills are all sold at the same price?"

The manager didn't reply, but Yu Zhe couldn't help but burst out laughing. He pointed at Lin Yi and teased, "You're indeed a poor wandering cultivator who hasn't seen the world. Let me give you some science! You see those high-priced pills, they are all imported from Nakajima, and they are personally refined by the high-level alchemists there. How can they be the same price as the local ones? You came from some unknown place, how can you be compared to master Nakajima? Hahaha!"

Lin Yi smiled faintly and opened the box in front of the two without saying anything.

Hiss! Looking at the two snow-white pills inside, the shopkeeper couldn't help but suck in a breath of cold air. He hurriedly pounced over and carefully observed them, even taking a special magnifying glass from the side.

However, Yu Zhe didn't see anything strange. Although he could also recognize that this was the foundation-breaking pill, he was only an ordinary cultivator, after all, and not a merchant like the shopkeeper who specialized in doing business, let alone an expert Alchemist. A medicinal pill like the foundation-breaking pill would only be remembered when one encountered a barrier during a breakthrough. At other times, he had no opportunity to come into contact with it.

However, when he saw the shopkeeper's abnormal reaction, he was a little puzzled.

It's just two Foundation breaking pills, what's so rare about them? Although the value of the foundation-breaking pill wasn't low, it was still a very common pill. If it was a Foundation-building golden core, then it was still reasonable!

Yu Zhe disapprovingly curled his lips, but for the sake of the star inkstone, he could only patiently remind him, "Shopkeeper, these are just two ordinary foundation building barrier-breaking pills. According to what you just said, they're worth at most three hundred spiritual jade pieces each. Even if

you add another four hundred spiritual jade pieces, it's still not comparable to my bid of one thousand two hundred spiritual jade pieces. Just look at this kid's poor appearance and you know that it's impossible for him to raise the price any further. There's no need to hesitate, right? Hurry up and stop wasting time!"

His endless chatter finally interrupted the shopkeeper's action of wanting to take a closer look. He stopped and looked at him with a strange expression, "Do you still think that this guest's Foundation-breaking pill is only worth three hundred spiritual jade pieces?"

Although the shopkeeper had concealed his facial expression very well, Yu Zhe could still clearly feel the hidden ridicule.

Yu Zhe's face reddened. He suppressed his anger and asked, "Isn't that the case?"

The shopkeeper shook his head helplessly. Although there was disdain in his heart, after all, businessmen always had to be friendly to make money. If he didn't explain it clearly in person, this Yu Zhe would probably continue to be entangled here. He could only be patient and say, "You just said that even if it's the same foundation building barrier-breaking pill, how much spirit Jade it's worth depends on the quality, right?"

"That's right, so what?" Yu Zhe suddenly felt that something was wrong.

The shopkeeper explained patiently, "it's also a foundation building barrier-breaking pill. The average quality one can only guarantee a breakthrough to the early-stage foundation building or the peak of the early-stage foundation building realm. Once you reach the higher mid-stage foundation building realm, it'll be difficult to have any obvious effects. Therefore, the recycling price will be at most 300 spiritual jades. If it's imported from Nakajima, the higher quality foundation building barrier-breaking pill can

guarantee the success rate of breaking through even after the mid-foundation building stage. This kind of recycling price can be more than 400 spiritual Jade. "

"So what? Shopkeeper, are you trying to tell me that this poor rogue cultivator somehow got his hands on a Foundation-breaking pill of the same quality as master Nakajima 's?" Yu Zhe sneered as he glanced at Lin Yi.

Lin Yi, on the other hand, smiled calmly, not taking the provocation to heart at all. He didn't need to say anything-someone else would slap the other's face for him.

"That's not the case. " The shopkeeper shook his head.

"That's incredible!" Yu Zhe relaxed immediately. He was really afraid that this poor freelancer Lin Yi would get his hands on two high quality foundation breakthrough pills!

After all, even though the possibility of this happening wasn't high, if one was really lucky, there was still a slight possibility.

However, before he could heave a sigh of relief, the shopkeeper gave him a meaningful look. His eyes seemed to be speechless and pitiful. Then, he continued, ""But aside from normal and high quality, there's also a type of pill called the Supreme quality! The Supreme-grade foundation-breaking pill produced by the pill God Zhang Liju can guarantee a 100% effect even at the late-stage of Foundation establishment. I'm sure you've heard of this, right?"

The pill God and medical Saint Zhang Liju, as a top figure from the North Island, was now a business card of the North Island. If the cultivators from the North Island hadn't even heard of Zhang Liju, then they would be too embarrassed to go out and meet people.

Alchemy God's products were definitely superior-grade!

Yu Zhe had heard this famous saying countless times, and he'd heard about how Liju made the extreme-quality foundation-breaking pill.

It was said that when Zhang Liju randomly sold a Supreme-grade foundation-breaking pill, its price was easily pushed to thousands of spiritual jades. No matter how many spiritual jades one had, they might not be able to get it. Normal high-grade foundation-breaking pills couldn't be compared to it.

"What do you mean? Only an alchemy God like Grandmaster Zhang can refine a Supreme-grade foundation-breaking pill. Not only does it require a sky-high price of over a thousand, but it also requires a deep background to be able to buy it. What the hell does it have to do with a poor wandering cultivator like him?" Yu Zhe's face was full of confusion after hearing the shopkeeper's words.

As far as he was concerned, a poor freelancer like Lin Yi might have a chance of getting a high quality one if he got lucky, but a high quality one wouldn't have anything to do with him at all!

Chapter 3744 Not Fated With You

After all, he had stayed in the library Pavilion for a full three years. He didn't need to go out to know about the world. Although Yu Zhe wasn't an Alchemist, he still knew a lot about these things.

As far as he knew, there were only a handful of alchemists in the entire history of the sky-class five islands who could make a high quality foundation-breaking pill. After all, someone like Zhang Liju was a once-in-a-century genius, and no one else could compare to him.

Normally speaking, being able to make a high-quality foundation-breaking pill was already very rare in the world of alchemy. Looking at the entire Sky Class island within an island, there weren't many alchemists who could do this, and the North Island's own pill Hall couldn't even make it. As for the legendary Supreme-grade foundation-breaking pill, that was purely a dream!

Moreover, even if this poor rogue cultivator was lucky enough to get two Supreme-grade foundation-breaking pills, he would definitely hide them and would not take them out for trade.

However, the shopkeeper's next words made Yu Zhe, who had made a solemn vow, dumbfounded. "'I'm sorry, the Supreme-grade foundation-breaking pill is a legend, but the two pills in front of us are true legends! This guest, a real person doesn't reveal his true appearance, this old man has been disrespectful just now!"

With that, the manager bowed to Lin Yi. A customer who could take out two high quality foundation breakthrough pills so easily was a living God of Wealth in their eyes!

"I don't dare!" Lin Yi quickly helped him up. The manager wasn't very friendly to him, but there wasn't anything he could point out. He was still neutral.

However, Yu Zhe, who was at the side, was completely stunned when he heard this.

"F * ck! How was that possible? Shopkeeper, you've made a mistake! This poor guy could also take out a Supreme-grade foundation-breaking pill? And two? Who the F * ck would believe that!" Yu Zhe was stunned for a long time before he blurted out in shock.

However, before his voice fell, the shopkeeper's originally kind face sank. Saying that they, the shopkeeper, had misjudged him was like scolding a bald donkey in front of a monk. It was simply a slap in the face!

Moreover, how could he have misjudged such an important and rare item like the Supreme-grade foundation-breaking pill?

"This customer, it's up to you whether you want to believe my eyes or not. But if you speak rudely, I can take it as a provocation to our Hong Chamber of Commerce. Please conduct yourself with dignity!" The shopkeeper said with a cold and stern face.

It was as if a basin of cold water had been poured on his head. Yu Zhe suddenly came to his senses. The Hong Chamber of Commerce was a Colossus that even the higher-ups of the three pavilions had to treat with respect. He, an inner sect disciple of the rising Sky Pavilion, could still find a sense of superiority in other places. However, in front of the Hong Chamber of Commerce, he was not even worth a fart!

Not to mention how serious the consequences would be if he offended the Hong Chamber of Commerce, the star inkstone that he had been longing for was still in the hands of the other party!

Yu Zhe hurriedly tried to salvage the situation. "Shopkeeper, please don't take it to heart. I was just in a moment of desperation. I made a mistake!"

The shopkeeper's expression finally eased a little. He looked at him and said, ""Even if we take the two Supreme-grade foundation breakthrough pills as the lowest price, which is 800 spirit Jade per pill, it would be worth 1600 spirit Jade. With the additional 400 spirit Jade, it would be a total of 2000 spirit Jade. If you can't offer a price of more than 2000 spirit Jade, then don't even think about the star inkstone."

Although he said that, in the shopkeeper's heart, even if Yu Zhe could really take out two thousand spirit Jade, it wouldn't be able to compare to Lin Yi's two high quality foundation breakthrough pills.

After all, if he could attract a group of second-generation cultivators to participate in the auction under the name of the Supreme-grade foundation building breakthrough pill, the real profit he could generate would definitely be far more than two thousand spiritual jades. It would not be a problem to make three or four thousand spiritual jades!

Two thousand spiritual jades? Damn, why don't you just Rob someone!

Yu Zhe's eyes almost popped out from the shock. Fortunately, he reacted quickly enough and covered his mouth with his hand, barely managing not to curse out loud. Otherwise, he would have been directly thrown out on the spot.

He was already at his limit when he bid 1200 spiritual jades. He was even taking a huge risk. He would not be able to fork out 2000 spiritual jades even if he was beaten to death!

Not to mention Yu Zhe's shock and speechlessness, even Lin Yi, the owner of this pill, couldn't help but Twitch his mouth when he heard the manager's words. He only knew that the value of a Supreme-grade foundation-breaking pill was much higher than a normal one, but he didn't expect it to be this high.

But after thinking about it a little more, Lin Yi quickly understood the situation. After all, a high quality foundation breakthrough pill was different from a normal one-it was a rare resource that could only be found by luck.

As the saying went, "the rarer something is, the more expensive it is." The shopkeeper had already reduced the two Supreme-grade foundation building barrier-breaking pills to 1600 pieces of spiritual Jade. This was already an extremely low price. If he were to really sell them, the price would at least double!

Moreover, no matter how high the price was, there would definitely be people who would compete for it, especially those second generation cultivators with deep backgrounds. In order to get this rare good thing, they would not care about such a small amount of spiritual Jade!

Although he'd underestimated the value of the two Foundation breakthrough pills, Lin Yi didn't feel the pain of losing out.

After all, to him, as long as he prepared the materials, he could refine another Foundation breakthrough pill at any time, and he would definitely be able to refine a Supreme grade pill. However, the star inkstone was a unique piece, and if he missed it, it would be gone forever.

Thus, two Supreme-grade foundation breaking pills and four hundred spirit jades in exchange for a single star inkstone was definitely worth it!

The shopkeeper waited for a moment, and seeing Yu Zhe's Red face and his silence, he said, ""Time is precious. If you can't give a higher price as soon as possible, this old man can only announce that you have no fate with the star inkstone."

Not fated to be with me? How can it not be fated with me?

I've been living in the sutras Depository for three whole years before I finally discovered this priceless treasure that can change my fate. For this, not only did I borrow a high-interest loan of 1200 spiritual jades, but I've also thought about it day and night for an entire month. Now, I've actually announced that I have no fate with it!

F * ck your mother, you're not fated to be with me! At this moment, Yu Zhe's expression had become extremely twisted and ferocious. However, he still had the last bit of rationality left, so he bit his lips and didn't speak.

Because he knew that if he were to say anything rude at this time, he would have to face the Masters of the Hong Chamber of Commerce. These people's strength was comparable to the core disciples of the three pavilions. They were not people he, Yu Zhe, could afford to offend!

Yu Zhe didn't notice that his lips had been bitten, and a line of bright red blood flowed down the corner of his mouth. His face was silent, but he was roaring in his heart: Two thousand spiritual jades! Where the hell am I supposed to get 2000 spiritual jades?! It wouldn't be enough even if he sold himself!

Chapter 3745 The Spirit Jade Card

Seeing his gritted teeth, the shopkeeper couldn't help but shake his head and then directly announced, ""It seems that the result is already very obvious. This guest, can you please leave for a while?"

The manager's expression was still polite, but his words weren't polite at all. Yu Zhe knew that if he backed out now, it would mean that the one and only star inkstone he'd been thinking about would belong to Lin Yi, and he'd have to return empty-handed!

This meant that Yu Zhe had worked so hard for so long, but in the end, not only had he failed, but he had also been in debt.

One had to know that although the 1200 pieces of spiritual Jade he had borrowed from someone were still piled up in his cave abode and had not been put to use, he had to pay a huge amount of interest every day. It had only been a few days since he had borrowed them, but the interest alone had already reached an astonishing three-digit amount, and it would only increase in the future!

Originally, if he had been able to successfully obtain the star inkstone, Yu Zhe wouldn't have cared about such a small amount of spirit Jade. As long as he became stronger in the future, not only would these people not ask him to return the spirit Jade, but they would also rush to give him spirit Jade, making him their protective umbrella.

But now, his wonderful vision was instantly shattered. What awaited him was the cruel reality. Those high-interest creditors would definitely come to his door to force him to pay the debt. With his current strength, he could not afford to offend these people. It should be known that these people were not good people!

As a result, one could easily imagine how miserable his future would be!

In a short moment, he had fallen from heaven to hell. Yu Zhe's heart was not only roaring, but he was also hysterical, gradually turning into a demon!

However, no matter how hysterical he was in his heart, Yu Zhe didn't show it on the surface. In the eyes of others, he was just silently and unwillingly biting his lips, that was all. Yu Zhe glared at Lin Yi viciously before leaving the room.

This star inkstone will forever belong to me alone, no one can take it away from me! A mere grassroots rogue cultivator actually dared to compete with me, he really doesn't know how to write the word "death"!

"Customer, later when you leave our Hong Chamber of Commerce, you must be careful." The manager couldn't help but remind Lin Yi as he watched Yu Zhe leave.

He had been in the Hong Chamber of Commerce for decades and had seen countless people. He had seen this kind of scene many times. No matter how deep Yu Zhe hid, he couldn't escape his fiery eyes.

"Thank you for the reminder." Lin Yi smiled faintly.

In fact, there was no need for the shopkeeper to remind him. Just now, when the other party looked at him, he had already felt a sharp killing intent. Although it was hidden very well, the sinister poison in it simply made people shudder. If he couldn't even detect this, then he would be too slow.

It seemed that there would be some trouble when they went out later! Lin Yi sighed to himself. From the man's aura, he could tell that he was in the mid-Foundation Stage, one level higher than him. He was never afraid of fighting someone of a higher level, but the risk was still high.

However, it was just a bit of risk. Lin Yi had fought his way up from the common world and he never knew what fear was.

So what if the other party was a mid-stage foundation building expert? if they really bumped into him without knowing what was good for them, they might start a massacre! He'd been on Sky Class Island for over a month, and he'd never killed anyone!

The manager's respect for Lin Yi grew even higher after seeing how calm and collected he was-he could tell that Lin Yi was at the peak of the early Foundation Stage from the way he didn't hide his aura.

And as a peak early Foundation Stage expert, in the face of the threat of a middle Foundation Stage expert, he was still able to remain so calm, this was a very rare thing. If it was someone else, they would have been panicking and not know how to deal with it.

It seemed that this customer was able to take out two Supreme-grade foundation-breaking pills so casually because he had great confidence and not because he was lucky!

With this additional appreciation, the shopkeeper's attitude was obviously more polite and attentive than before. He took the initiative to ask, "I am Hong Zhong, may I know your name?"

Under normal circumstances, Hong Zhong was the shopkeeper of the Hong Chamber of Commerce. Even if he was polite to others, it was only on the surface. He rarely took the initiative to tell others his name.

After all, although he was only a branch Manager, the Hong Chamber of Commerce was one of the top Chambers of Commerce in the middle Island. The huge resources in the hands of any Branch Manager

were enough to make even the higher-ups of the three pavilions on the North Island jealous. His status was self-evident. Even the core disciples of the three pavilions could not be compared to him.

What's more, Hong Zhong's surname was Hong. The hidden meaning behind this was self-evident. Although Hong Zhong was a branch of the Hong Chamber of Commerce, he was also a member of the Hong family!

He had taken the initiative to ask for his name, which meant that this guest had become a special guest that the Hong Chamber of Commerce had to take care of. This was a good thing that many people could only dream of. In the entire North Island, there were not many people who had this qualification.

"My surname is Lin, and my first name is two." Lin Yi said as he bowed slightly.

"So it's young hero Lin. How about we start the trade now? You can take a look at what you want first. " Hong Zhong knew that Lin Yi couldn't wait to get his hands on the star inkstone. He pushed the wooden box in front of Lin Yi and suggested.

"Alright," he said. Lin Yi nodded and opened the box to take a closer look. He confirmed that this was the star inkstone he saw last time, "I don't have any problems with that."

"That's good. " Hong Zhong packed up the box immediately, while Lin Yi handed over the two high quality foundation breakthrough pills and the bag of four hundred spiritual jades to Hong Zhong.

After the exchange, Lin Yi felt a weight off his chest-he finally got the star inkstone he'd been dreaming about!

Although he didn't know what it was for now, he would know once he went back and asked that damn thing. If it was something that the big boss of the spirit beast clan valued so much, it must be a precious treasure that could only be found by chance!

After the deal was done, Hong Zhong took out a dark green jade card from his cabinet and handed it to Lin Yi, "Young hero Lin, this is the spiritual Jade card. It's not only used by our Hong Chamber of Commerce, but also by all the other large-scale regular businesses in the merchant Union on the five big islands of the heaven class. It can replace real spiritual Jade for purchase. This way, the next time you buy such precious items, you can directly use the spiritual Jade card, and you don't have to go through so much trouble to carry a whole bag of spiritual Jade like this time."

That's equivalent to the Union Bank card in the secular world?

Lin Yi's heart skipped a beat-the spirit Jade card felt cold to the touch, and the quality of the Jade was obviously higher than high-tier spirit Jade!

Chapter 3746 Wooing

The pure spiritual Qi circulating inside seemed to contain an extremely exquisite miniature formation. This was clearly a very rare high-grade item.

In the middle of the spirit Jade card, there was a number displayed. 400!

Lin Yi turned to look at hongzhong, surprised. Did this mean that he'd return the extra four hundred spiritual jades to him in the form of a spiritual Jade card?

Hong Zhong smiled at the right time. "This is just a small token from my humble shop. Please accept it. If you have a large amount of spiritual Jade on hand, you can find a large merchant like our Hong Chamber of Commerce at any time and ask them to help you top-up the spiritual Jade card."

He paused and saw that Lin Yi seemed to be a little suspicious, so he continued, "Don't worry, young hero Lin. The spiritual Jade card is protected by a specialized miniature formation. As long as you inject your Zhen Qi into it to activate it, the miniature formation inside will recognize your unique Zhen Qi characteristics. No one else can impersonate you, change it, or destroy it. If you want to make a transaction, you only need to input your Zhen Qi to combine it with another spiritual Jade card, and the payment will be completed. Every time you use a spiritual Jade card in a major trading company, you'll leave a relevant message in the merchant Union. So, it's fine even if you lose it by accident. You can find the merchant Union to make a replacement. "

In that case, wasn't this a personal true energy certified silver union card?

If what hongzhong said was true, then this spiritual Jade card was indeed very safe. People could even cut off their fingers to fake a fingerprint identification, but this spiritual Jade card ... Unless Lin Yi injected his Qi into it, no one would be able to transfer a single piece of spiritual Jade from it even if they killed him.

"Then many thanks, manager Hong." Lin Yi nodded in thanks.

Although he had the space in the jade pendant and didn't need to worry about the storage of the spirit Jade, it would still be a little troublesome if he wanted to buy precious treasures from a place like Hong Chamber of Commerce.

In order to prevent the secret of the Jade space from being exposed, he had to take the spiritual Jade out of nowhere and carry it to the Chamber of Commerce before he could buy anything.

A few hundred pieces of spiritual Jade like today's was not a big deal. It was fine to carry them, but what if he needed a few thousand or even tens of thousands of spiritual Jade in the future? He couldn't possibly carry it back and forth, right?

Therefore, this spiritual Jade card was very useful at this time. Since the merchant Union, which had influence all over the five big islands, had guaranteed it, its reputation was not a problem. Since the other party had taken the initiative to offer it to him, there was no reason for him to refuse.

"You're too kind, Lin shaoxia. For an important guest like you, it's a win-win situation to prepare a spirit Jade card for you. It'll be convenient for you to take care of our business in the future, so it's not worth thanking. By the way, if you use the spirit Jade card in the Chamber of Commerce under the merchant Union, you can get a 10% discount. " Hong Zhong politely said with a smile.

A 10% discount? Lin Yi raised a brow. If he used this card to buy some treasures in the future, he could save a lot of spirit Jade. It seemed that the merchant Union was really spending a lot of money to attract big customers.

In fact, Lin Yi was wrong on this point. The spiritual Jade card was an important measure used by the merchant Union to protect their big clients, but it was also a symbol of status as well as a trading function. It wasn't easy to get.

It was hard for ordinary people to get one. Even some second-generation cultivators with a strong background would not be able to get one if their status or financial resources did not reach a certain threshold. To put it bluntly, in the entire cultivation world, only the rich or the powerful could have a spiritual Jade card.

Lin Yi was able to get this card today all thanks to the two high quality foundation breakthrough pills. Otherwise, he wouldn't be able to get the Hong Chamber of Commerce's true approval even if he paid thousands of spirit jades for a star inkstone. He wouldn't have gotten the spirit Jade card from Hong Zhong for nothing, and there were still four hundred spirit jades in it!

Hong Zhong's actions were obviously to cast a long line to catch a big fish.

With his many years of experience in reading people, he could tell that although this young man who called himself Lin er looked ordinary, he was actually a man with hidden abilities.

Not to mention that this guy was at the peak of the early Foundation Stage, but he was able to remain calm in the face of the threat of a mid Foundation Stage master. Just the fact that he could take out two supreme quality foundation breakthrough pills was enough to prove that this person was not ordinary.

It did not matter where he had obtained the two Supreme-grade foundation-breaking elixirs, but treasures of heaven and earth had always belonged to the strong. For Lin er to be able to take them out so easily, he must have hidden his powerful abilities or his powerful background. There was no third possibility.

As for the so-called "Lucky Dog", Hong Zhong had been the branch manager of the Hong Chamber of Commerce for so many years and had seen all kinds of people and things. He had long recognized one thing. In this world of cultivation, where there were cunning people everywhere, anything that seemed to be coincidental was in fact inevitable. There was no such thing as "Lucky Dog". Treasures like the Supreme-grade foundation-breaking pill would only fall into the hands of the strong, without exception.

As for those who thought that there was such a thing as luck in the world of cultivation, in the end, they just didn't understand. They thought that other people were just idiots who were lucky, but in fact, they were the idiots who were confused by appearances.

Powerful strength and powerful background-Lin Yi was definitely one of the two. In Hong Zhong's eyes, Lin Yi was worth befriending and developing. Giving him the spiritual Jade card and 400 spiritual jades was just a test. If Lin Yi performed better in the future, there would be more benefits.

"Thank you for your love, manager Hong. I'll take my leave now." Lin Yi kept the spirit Jade card and the star inkstone before standing up to leave.

"Take care, young hero Lin." Hong Zhong stood up to send him off, but before he left, he added, ""In the future, if young hero Lin has something as good as the high quality foundation breakthrough pill, you can take care of our Hong Chamber of Commerce's business. If the accumulated value is considerable, this old man can help you upgrade your spiritual Jade card to a VIP spiritual Jade card. You can enjoy a 20% discount and more benefits."

As a businessman, Hong Zhong was more curious than anyone else about why Lin Yi could take out two high quality foundation breakthrough pills, but it was obvious that this was a private matter. He wouldn't be Hong Zhong if he were to ask.

If she really did that, not only would she not be able to win Lin Yi over, but she might even make him unhappy and even raise his guard against her. That would be a huge loss. It was better not to mention it for the time being and use some benefits to get closer to the other party. When the time was right, even if he didn't ask, this kind of thing would be taken the initiative to say it.

Chapter 3747 Sneak Attack On The Road

As the old manager of the Hong Chamber of Commerce for decades, Hong Zhong's grasp of the human heart could only be described with one word: shrewd.

"Alright, then I'll have to trouble you when the time comes." Lin Yi nodded and turned to leave.

Lin Yi knew very well why Hong Zhong was so attentive to him. To put it bluntly, the two high quality foundation breakthrough pills had raised doubts in Lin Yi's mind, and he'd come up with all kinds of mysterious conjectures, trying to win him over to create more profits for them.

This was something that every merchant with foresight would do. It was just that shopkeeper Jin was more experienced and outstanding in his work, and he made people feel as if they were bathing in the spring breeze.

Lin Yi didn't dislike this kind of thing. In fact, he was new to Tianjie Island and needed business partners like this.

After all, out of the four major things that cultivators valued the most, wealth was the first. Only with strong financial resources could one ensure a steady stream of various natural treasures, continuously and quickly upgrade, until they reached the top of the cultivation world.

The 'wealth' he was referring to was naturally not the kind of wealth in the secular world, but the hard currency that could dominate the cultivation world, such as spiritual Jade.

Lin Yi could now steal two or three pieces of spirit Jade from the spirit Jade Kuangqu every day, and sometimes he could even use Meng Tong's group to exchange good Jade for a little more, but it was all just a small business, far from the level of wealth.

And if he really wanted money to bring out its full potential, then he had to make it big. It was unavoidable, and Lin Yi needed to find a reliable business partner to fully utilize his hidden cards and strengths, paving the way for his future development.

From their short interaction just now, Hong Zhong, the old manager of the Hong Chamber of Commerce, definitely had the ability to become his business partner. If they could really work closely together, with Lin Yi's trump cards and Hong Zhong's shrewd business skills, it wouldn't be hard for him to make a big name for himself in the future.

Of course, time would tell. This was a matter of future, and Lin Yi had to look into it.

Unless he could truly understand each other's background, he would not easily treat anyone as a business partner. At most, they would use each other. After all, this was a matter of life and death, so he could not be too careful.

After leaving the Chamber of Commerce, Lin Yi didn't rush back to the Ying Xin Pavilion, but walked around the inner street for a while.

After all, there was only one opening day in a month for the inner street. He had to take advantage of this rare opportunity to familiarize himself with it. Even if he didn't buy some things for the time being, he had to have a concept in his heart. If he needed to use them in the future, he would have a target in mind and not waste his efforts everywhere like a headless fly.

Lin Yi left the market after he was done with the inner street, ready to head back to the pavilion when the Jade alerted him of a fatal attack.

An extremely sharp sword Qi came from an extremely tricky angle, aiming for Lin Yi's back from a hundred feet away. It was so fast that no one could defend against it.

With the help of his lightning-chasing Gale boots, Lin Yi pushed his butterfly steps to the max and twisted his body, barely dodging the fatal blow. Even so, he still felt a lingering fear.

This Qi wasn't dazzling at all-it looked ordinary, and even the Qi of a Sky Class could be a hundred times stronger than this. However, the power of the two couldn't be compared at all.

If the sword Qi of Sky Class Masters was one, Lin Yi wouldn't care about it at all, but this one was at least eight hundred, or even a thousand. If Lin Yi didn't Dodge it in time, he'd be dead.

If it wasn't for the Jade, he would've been in hell by now.

Even if Lin Yi wanted to heal, he needed time. Wouldn't the enemy take the chance to stab him again?

"Heh, a mere grassroots rogue cultivator actually dodged my deadly continuous sword 22 forms, not bad!" A familiar figure slowly walked out from the tree trunk beside the road. It was Yu Zhe, who had competed for the star inkstone at the Hong Chamber of Commerce.

As expected, it was this guy!

Lin Yi had expected this-the guy had already revealed his killing intent back at the Hong Chamber of Commerce, but he didn't dare to do it at that time.

After leaving the Chamber of Commerce, Lin Yi made two rounds around the inner street. His main purpose was to find out where this guy was, because he knew that this guy would definitely follow him.

The result, however, was unexpected-he circled the inner street twice, but still couldn't find any trace of the guy with his senses. He gave up helplessly and left the market.

In fact, it'd been a whole incense's time since they'd left the market, and even with Lin Yi's cautiousness, he couldn't help but wonder if the guy had given up.

Therefore, a moment of carelessness would lead to danger.

Lin Yi's face was calm, but his heart was full of relief. If it wasn't for the Jade, he would've been killed!

This guy clearly knew that he was at the peak of the early stage of the foundation building realm, but with his strength as a master of the middle stage of the foundation building realm, he followed him for so long before making a move. Moreover, he didn't care about his dignity at all, choosing to make a sneak attack that no one could avoid.

Whether it was his patience or caution, it had clearly shown that this guy was definitely not an ordinary person. He was completely different from the superficial performance he had at the Hong Chamber of Commerce!

Lin Yi's heart tightened as he looked at the confidence in Yu Zhe's face. This guy had been acting since the Hong Chamber of Commerce. The superficial look he put on was all an act to numb Lin Yi and make him think that this guy was nothing!

This fellow was far more powerful and cunning than Meng jueguang!

This was an out-and-out strong enemy!

Lin Yi's face didn't change, but his heart was on high alert.

He'd been on Sky Class Island for over a month, and he'd seen many strong people-he'd even personally experienced the power of an elder, who were far stronger than this man.

However, at the end of the day, these people weren't his true enemies-they'd never shown their killing intent so openly before. Even if it was Xu lingchong or Meng jueguang, his enemies, they'd have to think hard and find a suitable opportunity to kill him, unlike this person who didn't even say anything and just killed him right away.

It seemed that the thousand thread mask had its advantages and disadvantages!

Chapter 3748 Dangerous Person

Lin Yi smiled bitterly to himself. Wearing this item could hide his identity and do a lot of things that he couldn't do before, but it was the same as losing a layer of protection.

Don't forget, the three great pavilions had always valued newcomers. Anything that involved newcomers was not a trivial matter. Especially if a newcomer was killed, it would definitely alarm the law enforcement Hall.

Even a young master with a strong background like Xu lingchong didn't dare to use simple and violent methods to deal with Lin Yi. He could only use some tricks in the dark. As for the others, they didn't have the guts to do that. Even if they were enemies with Lin Yi, they wouldn't dare to kill him directly.

But now, it was different. Because of the mask, Lin Yi was no longer Lin Yi. He was Lin er.

Lin Yi was a newbie in the GreenCloud Pavilion, but Lin er was just a grassroots freelancer with unknown origins. Killing Lin Yi, a newbie of the pavilion, would cause a lot of trouble, but killing Lin er, a grassroots freelancer, wouldn't cause any trouble.

As long as they did not make a move in broad daylight, the law enforcement Hall would not care if they were committing murder or arson. What did the life and death of a mere grassroots rogue cultivator have to do with them?

"If you're a little smarter, then quickly hand over the star inkstone. That way, you can slightly calm down this old man's anger and I'll leave you with an intact corpse later." Yu Zhe looked at Lin Yi teasingly, not making a move yet.

He wasn't afraid of Lin Yi running away at all-Lin Yi was like a mouse cornered by a cat, there was no way he could escape.

He was just a peak early Foundation establishment cultivator, and he was an inner disciple of the rising Sky Pavilion who was only at mid Foundation establishment. How could he possibly escape? Can you run away?

"May I ask, what is the use of this star inkstone?" Lin Yi raised an eyebrow, unruffled.

Of course, he did not really want to know the use of the star inkstone, because there was no need for the other party to explain this kind of thing. When they returned, the damned thing would naturally explain it to him. The reason why he had asked this question was because he wanted to know how much the other party knew.

From this, he could determine the necessity of killing the other party!

That's right, Lin Yi wasn't thinking about escaping, he was thinking about killing! Although the opponent was a mid-Foundation Stage practitioner, one of the rare strong ones even among mid-Foundation Stage practitioners, Lin Yi still had the confidence to kill him.

Although it was very difficult to challenge those of a higher level, it also had a unique advantage. That was, it naturally wrapped itself in the coat of the weak, and could play the pig to eat the Tiger!

No matter how cautious the other party was, because they thought that they had the absolute upper hand in strength, they would more or less underestimate the enemy. This was inevitable. The cunning and cruel opponent in front of him was the same. Otherwise, this guy would have already killed him and would not stop to talk nonsense.

No matter what level of master one was, underestimating the enemy was always a weakness, especially when facing a "weakling" like Lin Yi, who had a strong trump card. This weakness was fatal!

"You don't know the use of the star inkstone?" Yu Zhe was obviously taken aback by Lin Yi's question. He didn't know that Lin Yi was so full of twists and turns. He thought that Lin Yi just wanted to know the truth before he died.

Yu Zhe looked at Lin Yi up and down with interest. He didn't know what the star inkstone was for, but he still dared to take out two high quality foundation breakthrough pills. This meant that this wandering practitioner wasn't poor at all, but was a rare rich man?

"I only know that this thing is not simple. As for what it is used for, I'm not sure." Lin Yi replied faintly.

"Heh, then you better be prepared to die with your eyes wide open. You can't be so naïve as to think that I would be so kind as to tell you, right? What a fantasy, who do you think I am, an idiot?" Yu Zhe sneered, a trace of malevolence flashed in his eyes, as if he was ready to attack.

Lin Yi's heart sank-this guy was hard to deal with.

However, Yu Zhe continued,""However, if you hand over something valuable, such as a Supreme-grade foundation-breaking pill, I can let you die with a clear reason."

Ha, so he wanted to take the opportunity to extort money!

Lin Yi's lips curved into an unnoticeable smile as he reached into his pocket. When he took it out again, he had a small box similar to the one he had at the Hong Chamber of Commerce in his hand. He opened the box and there was a high quality foundation-breaking pill inside.

He'd made six last time, and he'd given the bitter senior two, eaten one, and used two to trade for the star inkstone. The one he had now was the last.

Seeing the high quality foundation barrier-breaking pill, Yu Zhe's face clearly showed a bit of greed. Putting aside the star inkstone, a treasure that could change the trajectory of fate, the high quality foundation barrier-breaking pill was a fatal temptation to any Foundation Stage expert, even a peak late Foundation Stage expert.

This Yu Zhe in front of him was no exception.

At the end of the day, even if he could obtain the star inkstone, it wouldn't be of any use in a short period of time. At the moment, a high quality foundation breakthrough pill was far more practical than the star inkstone. Furthermore, it was also a treasure that could only be found by luck!

"Is there more? If you can come up with more good things to satisfy me, I might consider letting you go."
" Yu Zhe deliberately tempted.

Let me go? Lin Yi couldn't help but curl his lips-this guy really thought of him as an idiot. If he took out more treasures, he'd probably start killing and robbing him right away, let alone letting him go.

"No, you can tell me now." Lin Yi said, his face expressionless.

Yu Zhe couldn't help but shake his head in disappointment, "That's really a pity, but today's trip was worth it to be able to get a high quality foundation breaking pill. Of course, I believe you must have some good stuff hidden on you. Since you don't want to take it out yourself, I'll help you!"

As he spoke, Yu Zhe's feet exploded and he pounced at Lin Yi at a speed that was hard to follow with the naked eye!

From the beginning to the end, he didn't want to tell Lin Yi anything, nor did he want to spare Lin Yi's life. The only reason he talked so much was because he wanted to extort more good things from Lin Yi.

However, since Lin Yi didn't want to take it, he wouldn't force him. After all, these things would still fall into his hands after he killed Lin Yi.

It was just that they might be destroyed by the sword Qi in the process of fighting, but since things had already developed to this point, so be it if it was destroyed. He would kill them first.

Lin Yi's eyes narrowed as he looked at his opponent's movements. His opponent's speed was on par with his, even with his lightning storm boots and butterfly microsteps. On top of that, he had displayed a powerful sword Qi when he started the sneak attack. This was a dangerous and troublesome person!

Chapter 3749 The Strongest Golden Core Expert

"Hold on!" Lin Yi suddenly called out and held the extreme grade foundation breaking pill in front of him as he sneered, "If you don't mind me destroying it now, then bring it on!"

Yu Zhe stopped in his tracks as he looked at Lin Yi with killing intent.

The longer he waited, the more problems he'd have to face. He was confident that he'd be able to kill Lin Yi and get the star inkstone back, but he didn't know what could happen if he dragged it out. After all, it'd be troublesome if some other master came across him.

However, even though he wanted to kill Lin Yi as soon as possible, he couldn't bear to give up the pill. Just like how he had absolute confidence in killing Lin Yi, if Lin Yi really wanted to destroy the pill in his hand, it would only take a single thought-he wouldn't be able to stop him in time.

"Fine, then I'll tell you the use of the star inkstone so that you can die with a clear understanding! But before that, you have to give it to me." Yu Zhe said in a low voice.

Lin Yi couldn't help but chuckle, "you really think I'm an idiot?" If I were to give you this pill now, would you still be talking nonsense with me?"

"Then tell me, what do you want me to do to make you feel at ease? don't say stupid things like" I'll tell you first,"or I'd rather kill you directly!" Yu Zhe said with a gloomy face.

"You're a mid Foundation Stage practitioner,"Lin Yi chuckled," no one would come to a place like this, which means no one can save me. My life is in your hands, so why are you being so petty?" If I'm lying to you, you can just torture me and make me wish I were dead. You won't lose anything anyway. If I'm a good person and keep my word, I might even get a Supreme-grade foundation-breaking pill. This kind of opportunity doesn't come by often. "

Yu Zhe looked at Lin Yi deeply, and after a moment of silence, he burst out laughing. "Fine, since you're about to die, I'll tell you right now. The number of people who know the use of this star inkstone can be counted on the fingers of one hand. I've been flipping through all the Scriptures and ancient texts in the library Pavilion, and I've only chanced upon a page of an ancient fragment. Although you're about to die, I have to say that you're very lucky."

Lin Yi listened quietly, but his heart was a little shaken. This meant that this star inkstone really did have a big background.

Pausing, Yu Zhe took a deep breath and said, ""According to that ancient remnant page, star inkstone is produced in deep trenches at the bottom of the ocean and is formed by absorbing the essence of the ocean for hundreds of millions of years. To us cultivators, this is the most generous gift from the heavens. Whoever obtains it will be able to become the strongest Jindan stage expert, there is no other!"

The strongest Jindan expert!

Lin Yi was surprised-ever since he'd come to Sky Class Island, the people he'd come into contact with the most were either new people who hadn't even made it to the Foundation Stage yet, or practitioners like this guy-other than some special occasions, he'd never come into contact with practitioners above the Foundation Stage.

However, this didn't mean that Lin Yi didn't know the concept of the Golden core stage. After all, it was common knowledge for practitioners.

The reason why the welcoming new pavilion didn't set up a corresponding teaching course was that this general knowledge was too basic. For example, strength level was just like eating and drinking for

ordinary people. There was no need to waste time on teaching it. As long as they were let out to interact with people, they would naturally understand it with a few words.

Simply put, on this Sky Class Island, those below the Foundation Stage were considered to have yet to enter the sect. The Foundation Stage was the starting point, and the Golden core stage was the true master!

Although, by common sense, cultivators who could cultivate to the Golden core stage were already one in a million geniuses, it must be known that there were also differences between geniuses. And the Golden core stage was the most distinct dividing line between all geniuses. It determined the height that each cultivator could reach in the future.

For the weaker ones, no matter how hard they tried and how much resources they consumed, they would never be able to break through in their lifetime and could only helplessly stop at the early jiedan stage. For those who were slightly better, even if they had the hope of advancing to the next level, even if they could break through, they would only become the weak among the experts of the same level in the future. The rest of their lives would be fixed, with almost no possibility of turning the tables.

Out of all the Golden core cultivators, only the most outstanding few could break through and become the top of the Sky Class Island.

It was no exaggeration to say that the Golden core stage was a natural barrier in front of all cultivators. Whether one could cross it, and in what way, would directly affect whether one would be a Dragon or an insect in the future.

The strongest Foundation Stage expert, after breaking through, might gradually fall to dregs, but the strongest golden core stage expert, there had never been such a precedent.

This was because history had clearly stated that anyone who could become undefeatable in the Aurous core stage, as long as they weren't killed halfway, would definitely grow to become one of the top people on the Sky Class Island in the future.

This guy is so ambitious! Lin Yi looked at Yu Zhe's burning eyes and didn't think much of it.

It wasn't that he didn't care about the jiedan stage, but he was only at the peak of the early Foundation Stage. The most important thing at the moment was how to break through to the middle Foundation Stage. At this time, thinking about the strongest jiedan stage master was really too far beyond his reach.

He himself was like this, and the Yu Zhe in front of him was only in the middle stage of the foundation building realm. At this time, instead of hoping to become the strongest Jindan stage master, it was better to think about how to become a peak of the middle stage of the foundation building realm master.

As for the Aurous core stage, it was still unknown whether he could live until then. It was better to work hard towards the peak of the late Foundation establishment stage first.

However, not everyone could remain calm in the face of such temptation. In fact, if Lin Yi didn't have the Jade space, he might be as addicted to it as Yu Zhe was when he came across a treasure that could make him the strongest golden core stage master.

Of course, being calm was one thing, but Lin Yi's expectations for the star inkstone weren't any lower than Yuzhe 'S. He had all sorts of powerful trump cards, and his chances of breaking through to the Golden core stage were much higher than the others. The star inkstone naturally meant a lot to him, but he wouldn't let it get to his head just because of it.

"Eh? This kid even knows such a secret, interesting!" The voice of the ghostly thing that he had not heard for a long time suddenly sounded in his mind.

"Senior, is what he said true?" Lin Yi quickly replied with his spirit sense.

Chapter 3750 Powerful Opponent

Although Yu Zhe's words just now didn't seem to be a lie, this guy was an enemy after all. It was more reliable to find a ghost to verify this kind of thing.

"That's right. In the entire Sky Class Island, there are only a handful of people who know about this secret. If I didn't hear about it from the king of spirit beasts, even I wouldn't know. "

The ghostly thing explained, "the biggest use of the star inkstone is to help people perfectly break through to the Golden core stage. This kind of person is much stronger than experts who have broken through through through through other means. Although the saying that the Golden core stage is invincible is a little exaggerated, it's not far from it." As long as one's aptitude is passable, with the help of this thing, it won't be a problem for them to grow into a Big Shot in the future, which is why this old man asked you to find a way to buy it. "

"I see!" "Thank you for your advice, senior," Lin Yi said gratefully, "I would've missed this star inkstone if you didn't."

The thing didn't explain it in detail, but Lin Yi was able to figure something out from the words "perfect breakthrough to golden core."

Just like when he broke through to the foundation establishment stage, there were many ways to break through to the Aurous core stage. Although none of them were easy, the method of using the star inkstone to break through was, as expected, the most powerful method. Otherwise, it would not be worthy of the title of perfect breakthrough to the Aurous core stage.

"Hehe, if you're really grateful to this old master, then in the future, find a way to get this old master some fresh spirit beast inner cores. The higher the grade, the better. This old master will have a great use for them." The ghastly thing laughed.

Wasn't this fellow an elder of the spirit beast clan? They actually wanted him to get fresh spirit beast inner cores, and the higher the grade, the better. Wasn't this an encouragement for him to hunt and kill the spirit beast clan?

"Alright," he said. Lin Yi was suspicious, but he didn't ask. He'd just do as he was told if the time came.

"That's right, although there are very few people who know about star inkstones, they are still extremely rare treasures. You don't need this old master to teach you the principle of "treasuring a Jade makes you sinful," do you? If you want to live a slightly more peaceful life in the future, then it's best to quickly kill this brat opposite you. Otherwise, if he leaks it out, there will be endless trouble in the future. " After the ghastly thing warned him, it fell silent.

Lin Yi smiled faintly. Even if the thing didn't remind him, he'd already planned on doing this. After all, it wasn't good to let too many people know about a treasure like the star inkstone.

In the blink of an eye, Yu Zhe woke up from his greedy state. This guy wasn't a normal person after all. Even if he couldn't be as calm as Lin Yi, he wouldn't be immersed in it for too long, and he wouldn't lose himself.

"Alright, now that you've found out what you wanted to know, you can give me the Supreme-grade foundation-breaking pill now!" Yu Zhe stared at Lin Yi coldly.

Lin Yi, however, only smiled at him. "I'm sorry, I didn't intend to give it to you. I was lying. "

As he spoke, he reached out and put away the Supreme-grade foundation-building barrier-breaking pill in his hand. Coupled with the teasing expression on his face, even Yu Zhe, who was an extremely shrewd person, was so angry that one Buddha was born and two Buddhas were ascending to heaven!

"So, you're ready to taste what it's like to be better off dead? I'll satisfy you!" After saying that, a sinister look flashed across Yu Zhe's face, followed by a murderous intent!

He was so easily angered?

Lin Yi couldn't help but raise an eyebrow. If the opponent was someone like Meng Tong, he wouldn't have to take it to heart no matter how strong he was. He wouldn't even need to play psychological games and try to provoke the opponent to reveal his weakness.

However, he did not dare to underestimate the guy in front of him. Not to mention that the other party's strength was stronger than his, the cunning and caution he had shown before was quite troublesome. Facing such a strong enemy, it would not be easy to find the other party's flaws!

Don't forget how this guy pretended to be shallow at the Hong Chamber of Commerce. So now, was he really angered by him? Or could it be that he was just playing along and taking the opportunity to numb himself?

Lin Yi wasn't confident-he had to go all out. Even if he had all kinds of powerful trump cards, he was still facing a strong mid Foundation Stage practitioner. If he let his guard down, he'd be doomed!

Lin Yi didn't back off as Yuzhe closed in on him, but charged forward instead. With his full strength, he was even faster than his opponent!

Yu Zhe was suddenly startled, any normal peak early Foundation Stage expert facing him, a middle Foundation Stage expert, would definitely not have this kind of reaction, right? Could it be that this fellow thought that he could take him head on? This was too ignorant!

He was just a grassroots rogue cultivator. Where did this idiot get his courage from? Where did this courage come from?

Yu Zhe laughed hideously. He immediately pointed his fingers as a sword. An invisible and sharp sword Qi extended from the tip of his fingers. It was like a peerless sword showing its edge for the first time. The surrounding sand, stone, grass, and trees all made a rustling sound!

Lin Yi's heart moved-he realized that the sword Qi wasn't from some godly weapon, but from his own strength. This opponent was no small fry.

The sneak attack from before was already very powerful, but now the sword that the opponent's fingertips were ready to strike was no longer as hidden as before. Its lethality would only be stronger!

But even so, Lin Yi didn't have any intention of retreating. The two used their full strength and the distance between them was instantly shortened.

A breath later, there was only a three meter distance between the two. Yu Zhe seemed to have seen through Lin Yi's intention. The sword Qi that was gathered at his fingertips was condensed and not released. He actually treated it as a real weapon and stabbed at Lin Yi's face.

Just as the sword Qi was about to enter his body, Lin Yi twisted his body and changed his direction at the last moment, brushing past the sword Qi!

"Hmph, I knew you would play this trick. It's really a small trick, like showing off your axe in front of an expert!"

Yu Zhe laughed coldly and shifted the sword Qi between his fingers. If he didn't see Lin Yi's intention to escape, he would've already released the sword Qi.

In theory, there was no chance of missing from such a short distance, but if Lin Yi was prepared, he had a good chance with the speed he showed.
