

Bodyguard 3751

Chapter 3751 Psychological Game

In this way, Yu Zhe's sword Qi would be equivalent to a waste, and it might even reveal an opening to receive the move. After all, if he wanted to condense the next wisp of sword Qi, he would still need a little time. This might not be a big flaw in normal times, but in this kind of close-range attack where the hands and feet were connected, this was definitely a fatal flaw!

But now that he'd seen through Lin Yi's plan, all of that was gone. He had the initiative in his hands, and Lin Yi was just a piece of meat on his chopping board, ready to be killed at any time!

"Although you're a little smart, it's a pity that you've met me. You're destined to die today!" Yu Zhe grinned as he aimed at Lin Yi's retreating back. He had calculated Lin Yi's escape direction in advance and the sword Qi on his fingertips instantly poured out. Wherever it passed, Jade and Jade would be shattered. No one could stop it. It was the 23rd Style of deadly continuous sword!

BOOM! The earth quaked and the mountains shook. The powerful sword Qi was like rotten wood, directly splitting the mountain forest in front of him in half. Its power was monstrous.

However, at this moment, Yu Zhe's face didn't have any trace of pride. Instead, it was ashen, and there was even a bit of panic.

There was no other reason. This sword that he was determined to win, he actually missed!

He was less than three meters away from Lin Yi when he made his move, and he was prepared for Lin Yi's attack because he knew what Lin Yi was planning. There was no chance of him missing.

But the truth was, he had really failed. The powerful sword Qi destroyed half of the forest, but it didn't even touch Lin Yi's clothes. In the face of such a result, even Yu Zhe, this kind of scheming person, couldn't help but be angry from embarrassment!

The reason why he missed was simple-Lin Yi had intentionally revealed his plan to the enemy. According to what he said just now, Yingluo, I'm sorry. I lied to you!

From the beginning to the end, this was a scam, a typical psychological game.

Lin Yi had all sorts of powerful trump cards, and he wasn't afraid of his opponent, but he wasn't stupid enough to go head to head with him. At the end of the day, he was only an expert at the peak of the early stage of the foundation building realm. He was one level lower than his opponent. If he were to fight him head-on, the possibility of him suffering a loss was obviously greater!

No matter how strong or how confident the weak person was, it would always be the worst strategy to fight head-on against the opponent. The best strategy would always be to attack the opponent's heart and try to lure the opponent to reveal a flaw. Then, he would instantly reveal his powerful trump card and kill the opponent in one blow.

Back in the common world, Lin Yi was able to defeat opponents of a higher level directly, but those were just paper tigers. He had a level but no real strength. It wasn't that simple when he faced a strong opponent like this.

How many of the disciples of the three pavilions of the heaven rank were mediocre? This was especially true for the rising Sky Pavilion, which was a powerful existence!

The psychological game was just a greeting. The battle had just begun.

In that instant, Lin Yi was just pretending to move. If it was someone with slow reflexes like Meng Tong, he wouldn't be able to see through Lin Yi's fake move at all. He wouldn't be able to react in time, let alone detect Lin Yi's intention.

However, Yu Zhe's reaction was too fast and his mind was too sharp. He thought that he knew Lin Yi's intention from the start and thus fell for Lin Yi's trap.

To put it bluntly, this psychological game was actually a psychological trap that Lin Yi had set up for smart people like Yu Zhe. It might not work on other ordinary people, but it worked on smart people who were confident in their abilities.

After understanding this point, Yu Zhe's face suddenly became extremely ugly.

At this moment, there was only a body's distance between him and Lin Yi. He was supposed to bully the weak, and this distance was the best chance to kill Lin Yi. Lin Yi had no chance of escaping.

However, just because he fell into Lin Yi's carefully designed psychological trap, the situation suddenly turned upside down. Now the one who had the upper hand was the "weak" Lin Yi!

After his sure-kill move missed, he was exhausted and couldn't continue. Yu Zhe was a mid-Foundation Stage master, but in a short exchange, he revealed a fatal flaw in front of the "weakling" Lin Yi!

Naturally, Lin Yi wouldn't let go of such a well-planned opportunity. He clenched his fist and threw a punch at Yu Zhe's chest while the latter was running out of energy. The fiery fist intent surged out and hit the man's chest without resistance.

The 23rd Style of wild fire Fist!

"Hmph! You've tried so hard to trick me, but that's all you've got!" After receiving this punch, Yu Zhe acted as if nothing had happened. However, before he could finish his sentence, his body shook violently.

Hu! The clothes at the chest area were instantly burned to ashes, and even the skin and flesh that were exposed inside were also charred black. It was a shocking sight.

What was even more shocking was that the fiery fist intent didn't dissipate. It was like a fire attached to the opponent's body, constantly burning it. Even though Yu Zhe used his powerful true Qi to suppress it and prevent it from spreading, the area that had been hit was still burning.

This was a new change that Lin Yi had just learned after reaching the twenty-third stance.

Among the previous twenty-two moves, the wild fire Fist had always been on the path of extreme yang and strength. Although this could increase the lethality, there was no room for change. Once the lethality was not effective, it was easy to fall into a passive position in high-level confrontations.

However, in addition to the blazing fist intent of these twenty-three forms being fierce and domineering, there was also a continuous force. And it was because of this force that Yu Zhe, who was in front of him, actually had an additional burning state after being hit.

Just like that, the wild fire Fist's practicality was greatly increased. When facing a high level opponent, even if its destructive power could not cause fatal damage, the burn effect would still be very useful.

This was because burns meant severe pain, and under severe pain, even the most intelligent person would often lose their usual rationality.

Of course, the burn effect could only cause severe pain. Although it looked very horrifying on the surface and might have been fatal to an ordinary person, it was impossible to burn a powerful Foundation Stage master like Zhe to death.

Chapter 3752 Long Wait

Lin Yi couldn't help but shake his head in disappointment. Twenty-three forms of wild fire Fist, hit in the chest at such a close distance without any defense. If the opponent was at the same level as him, the injury would be quite serious. However, on the opponent's body, this kind of injury was at most a flesh wound. It was already good enough for him to feel pain.

Lin Yi was still disappointed, but Yu Zhe was already furious from the pain, "What kind of weird martial technique was this? Although its power wasn't that heaven-defying, the after-effects of the burning were truly annoying. Even if he used true Qi, he could only suppress it and couldn't eradicate it in a short time!

"Very good! You're doing all this just to provoke me, right? then I'll tell you now, you've succeeded!"

Yu Zhe stared coldly at Lin Yi, who backed off immediately after throwing out a punch. He gritted his teeth, "Unfortunately, this is not good news for you. I don't want to worry about the Supreme-grade foundation-breaking pill you have on you anymore. I'm going to tear you into pieces!"

After saying that, Yu Zhe endured the burning pain from his chest and took a step forward. The surrounding sky, earth, and forest instantly changed color. Everything that could be moved and could not be moved made a rustling sound as if a storm was coming. The movement was far more violent than when he had just condensed the 23 forms of the "fatal continuous sword"!

Was this guy planning to use his ultimate killing move? Lin Yi's heart tightened as he circulated the art of Dragon mastery to replenish the Qi he used up from the twenty-three forms of wild fire Fist. He held his breath and focused, waiting for the next attack.

If they were both at the same level, Lin Yi might have chosen to strike first. After all, sitting around and waiting for death was never his style. But now, he was the "weak" on the surface, and he had to choose to wait for the time being to make good use of this advantage.

Only after finding a 100% chance, would his trump card really have the effect of a hammer strike. If he used it to waste the opponent's powerful martial arts, it would only expose his trump card in advance. Other than that, it was meaningless.

Seeing Lin Yi's tense and alert posture, Yu Zhe gathered an unprecedented powerful aura and sneered in disdain, "The weak will always be the weak. So what if you rack your brains to take the initiative? In front of the absolute difference in strength, all schemes and intrigues are just a joke. Today, I'll let you see what it means to be a strong man you can't afford to offend before you die!"

If it wasn't for the constant burning pain, he might still be fighting with Lin Yi, but he didn't have the patience to do so now.

At the end of the day, what really decided the outcome of a battle was still strength. With enough strength, he only needed to crush his opponent to death, and there was no need to waste too much effort!

Yu Zhe's body shot towards Lin Yi like a cannonball again, much faster than the speed he showed just now. He was in front of Lin Yi in the blink of an eye.

Lin Yi was shocked-this guy was hiding his strength after all. If he'd used the 22 forms of the flaming Eight Trigrams palm instead of the 23rd form of the wild fire Fist, the guy would've seen that he'd used up all his Qi, and the consequences would've been unimaginable.

With the speed he was displaying now, there was still a chance he could've dodged the attack if he used all his strength, despite the fact that the opening wasn't small. If Lin Yi just used the only move he had that could've killed his opponent, then he'd be in big trouble.

It could be seen that after falling into his psychological trap, this guy was not as panicked as he appeared to be. Instead, he conveniently set a trap for himself. If he had thought that he had seized the fatal flaw just now and attacked with all his might, he might have become a corpse on the ground now.

As expected, he was a dangerous and cunning fellow, full of schemes!

Yu Zhe's figure flashed in front of Lin Yi, and the sword Qi on his fingertips rose high. Looking at his posture, it seemed like he wanted to split Lin Yi in half from head to toe.

In fact, if he really did come down and Lin Yi didn't Dodge in time, it was almost a foregone conclusion. This sword Qi was even more powerful than before. Even if Lin Yi used his strongest 22 styles of the wild fire Eight Trigrams palm, he might not be able to fight it.

Unfortunately, why would Lin Yi just stand there and let him do whatever he wanted?

Lin Yi subconsciously wanted to Dodge the sword Qi, but before he could do so, he felt a fatal warning in his heart. At the same time, the Jade space kept sending warnings.

Yu Zhe's eyes were filled with disdain as he watched Lin Yi's sidestep. As expected, all schemes and intrigues were useless in the face of absolute strength. Lin Yi had no chance of escaping if he used his strongest move!

If he didn't Dodge, he would die. If he dodged, he would die. This was his strongest killing move, the 24 styles of life-taking consecutive sword.

It was a terrifying technique that could only be practiced by those who had reached the middle stage of the foundation building realm. The opponent was only a grassroots rogue cultivator at the peak of the initial stage of the foundation building realm. How could he Dodge it so easily?

The sword seemed to give the opponent a chance to avoid it, but in fact, there was no chance at all. This was because the 24 life-threatening consecutive sword forms did not just end with this sword. There was an even more fatal follow-up sword waiting for him.

As expected, just as Lin Yi dodged to the right, he realized that there was another "Yu Zhe" on his right. He didn't know when it happened, but there was also a strong and sharp sword Qi gathered at his fingertips. This "Yu Zhe" had been waiting here for a long time!

This wasn't his real body. It was just an illusion created at the last minute because of the powerful martial technique, the [life stealing continuous sword 24 forms]. However, although Yu Zhe was a fake, the sword Qi was real sword Qi, and its power was exactly the same as the one on the fingertips of his real body.

As long as he willed it, the second follow-up sword Qi and The Phantom could appear within two Zhang of him at any time. In this way, no matter how the opponent dodged, he could only avoid the first one, but never the second one. This was the domineering part of the 24 styles of deadly continuous sword!

"Die in peace." Yu Zhe smiled at the "frightened" Lin Yi. Because Lin Yi dodged, the sword Qi in his real hand was completely split apart, but the one in the Shadow's hand hit Lin Yi's back.

Pfft! The powerful sword Qi pierced through Lin Yi's body, causing blood to splatter everywhere.

Chapter 3753 I'll Lie To You This Once

However, the smug smile on Yu Zhe's face froze as he looked at Lin Yi who was still standing in front of him. He couldn't believe it, ""How is that possible?"

With the power of the [twenty-four styles of deadly continuous sword], even a mid-stage Foundation master wouldn't be able to stand here even if he wasn't dismembered by the sword Qi, let alone a peak-level early Foundation Stage master from Lin Yi District!

Lin Yi, on the other hand, was covered in blood as he returned a faint smile. "I'm really sorry. I already expected your second sword Qi. The reason why I let you hit me was just to trick you again. I'm just that humorous. I'm really sorry to disappoint you. "

Before he could even finish his sentence, Lin Yi activated his stored energy and struck his opponent's chest with the strongest killing move with the necklace's enhancement-the 22nd style of the raging fire Eight Trigram palm!

At this moment, Yu Zhe had just used the twenty-four forms of the deadly continuous sword and used up a lot of Qi. He was in a state of exhaustion and was completely defenseless against Lin Yi's palm.

A mid-Foundation Stage practitioner was sent flying a hundred feet away by Lin Yi's palm, his chest caved in and blood spurted out of his mouth. He couldn't even make a basic quick recover and fell to the ground, Dead or Alive!

"In front of absolute power, all schemes and intrigues are just a joke. That's a good saying. I'll take it as an early compliment from you." Lin Yi looked at Yu Zhe from a distance. He didn't know if Yu Zhe was Dead or Alive. He took a deep breath and tried to straighten his body. He gritted his teeth and looked at the bloody mess under his left armpit. Fortunately, the injury wasn't light, but it wasn't too serious. It wouldn't be too troublesome to recover.

The injury was under his left armpit because Lin Yi had anticipated the attack and prepared for it.

Originally, he could have avoided the second strike and retreated, but this way, he would lose the opportunity to kill his opponent. It would not be easy to find such an opportunity again.

Hence, he came up with this plan on the spot-he adjusted his body to let the second sword Qi Pierce his left armpit, giving the impression that he was killed by the sword Qi. However, in reality, this injury was far from enough to kill Lin Yi!

Once he managed to deceive the other party's eyes, the next step would be simple. He struck out with the 22 styles of the wild fire Eight Trigrams palm and the world fell silent.

With Yu Zhe's cautiousness and cunningness, no matter how hard Lin Yi tried, it would be hard to find an opportunity to kill him. Yu Zhe would react immediately if something went wrong, and Lin Yi might not be able to kill him even if he used a killer move.

However, after being burned by the wild fire Fist, he gave up on thinking and chose to use his strength to crush Lin Yi. This was the root of his tragedy.

When both sides 'true strength was about the same, a psychological battle would be the key to determine who would have the last laugh. After all, everyone's strength was about the same, so what could one use to crush them?

Therefore, when Yu Zhe gave up on thinking, the winner of this battle was already decided.

Lin Yi let out a long breath and calmed himself down before walking towards Yu Zhe.

Although today's battle was a psychological victory, it was not easy at all. As the saying goes, evil must be eliminated, and the roots must be cut. Now that things had developed to this point, he naturally would not let the other party live.

If the other party was already dead, then it would be for the best. If they were not dead, then he must take advantage of the other party's heavy injuries and unable to move to finish him off. Otherwise, once he found an opportunity to escape, there would be endless trouble.

As he slowly got closer, he paid attention to every movement on the other party's body. However, when Lin Yi was less than six meters away, Yu Zhe was still lying on the ground, facing the yellow soil without any movement. There was no sound of a living person, giving people the feeling that he was completely dead.

This was not normal! Lin Yi's heart went on alert. If it was a peak early Foundation Stage master, his 22 forms of the raging fire Eight Trigram palm would be able to kill him in one hit, but against Yu Zhe, a mid Foundation Stage master, it would be a bit of a stretch.

Even with the power of the profound Qi necklace, it would at most cause him to be seriously injured and on the verge of death, but it was unlikely to kill him directly, let alone kill him like this, without even a trace of breath.

With the cunning that this guy had shown before, it was not impossible for him to play dead and wait for a chance to counterattack after he had numbed himself.

If it was someone else, they would've wanted to get closer to confirm if the person was Dead or Alive, but Lin Yi stopped twenty feet away. He used the Jade space to replenish his Qi and prepared for the twenty-first style of the raging Eight Trigrams palm.

Although the power of the 21st style of the wild flame Eight Trigram palm was incomparable to the 22nd style, it was more than enough to deal the finishing blow in this situation.

Lin Yi had already made up his mind-it didn't matter if this guy was pretending to be dead or not, he'd give him one last hit right here and now. After that, it'd be impossible for him to play dead anymore, since he'd be dead for sure.

As expected, the dead "corpse" couldn't hold it in anymore after realizing Lin Yi's intention. It rolled to the side to escape Lin Yi's palm and threw a handful of silver dust.

Lime? That was Lin Yi's first reaction, and he didn't know whether to laugh or cry. A mid-Foundation Stage practitioner throwing lime powder to run away when he couldn't win a fight-wasn't this street gangster's sense of déjà vu a little too ridiculous?

However, Lin Yi immediately realized that the lime powder wasn't normal. Not only could it block his vision, but it could also explode.

BOOM! The ground shook as the dust exploded into a small mushroom cloud, startling Lin Yi.

If he had not gathered his Qi in advance to prepare the twenty-first style of the wild fire Eight Trigram palm and used it to offset most of the frontal impact, and fortunately, he had not been too close just now, or else the explosion alone would have caught him off guard and added injuries to his injuries. In that case, he might have been killed by the other party.

This was simply a man-made powerful dust explosion!

Lin Yi patted the dust off his body and looked at the empty space in front of him. He couldn't find the man's figure.

Chapter 3754 He Actually Ran Away

Chase! That was the first thought that came to Lin Yi's mind, but the enemy should've escaped quite a distance away by now. It was hard to find the direction in a short time.

Just as Lin Yi was about to find a direction to test his luck, he heard footsteps in the distance. His heart tightened-it'd be troublesome if someone found out he was chasing Yu Zhe.

After all, this guy was an inner sect disciple of the rising Sky Pavilion. If Lin Yi killed him in front of everyone, it would be like challenging the three pavilions in public. Even if he wanted to die, this wasn't the way to go about it.

Lin Yi felt helpless as the footsteps got closer and closer. He was in a better state than Yu Zhe, but not by much. He couldn't continue the pursuit if he was discovered, and if it was someone with evil intentions who wanted to take advantage of him, he wouldn't be able to escape.

To play it safe, Lin Yi gave up on the chase and left the scene quickly, sighing.

This guy was really cunning and difficult to deal with. Even this couldn't kill him, and he actually let him escape. Was this guy a weasel?

Moreover, apart from the deadly chain swords that had been split into two, this guy also had this strange and powerful powder. He was really full of tricks and couldn't be underestimated.

However, now that he had escaped with such a great opportunity, it would be very difficult to get rid of this person in the future. After all, although they knew that he was an inner sect disciple of the rising Sky Pavilion, they didn't even know his name. It would be very difficult to find such an opportunity again.

Plus, even if he did get a chance like this in the future, with the cunning, cautious, and powerful strength the guy showed, Lin Yi wouldn't be able to play with him like he did this time unless he used even more powerful strength to crush him.

"Forget it. Since he has escaped, I have no choice but to be more careful when I use the thousand thread mask and Lin er's identity in the future."

Lin Yi shook his head helplessly. He was lucky that he was wearing the qiansi mask today to hide his identity. Otherwise, if he had made an enemy out of the other party with his real identity, he wouldn't be able to live in peace in the future.

He already had a bunch of sworn enemies like Xu lingchong and Meng jueguang. If he were to add in the cunning and brutal Yu Zhe, he would have to waste his time with these idiots every day in the welcoming new pavilion. Then, what was the point of focusing on his cultivation?

Lin Yi avoided the eyes and ears of the people on the way and returned to the Ying Xin Pavilion without a hitch. He started to heal his wounds immediately. He was a little regretful that he didn't kill Yu Zhe, but he managed to buy the star inkstone today. It was a great success.

A treasure that could help people break through to the Golden core stage perfectly. If this news were to spread, it would be a powerful opportunity that would make everyone in the world envious!

Lin Yi didn't need it for a while, but one day, he'd be the strongest golden core cultivator, and he'd be able to step into the ranks of Sky Class island's top masters-just thinking about it made his blood boil!

What Lin Yi didn't know was that after he left for an incense stick's worth of time, not far from the center of the dust explosion, a half-dead and injured guy crawled out of the thick yellow soil with difficulty. It was Yu Zhe.

Although Lin Yi had been using psychological warfare from the start to the end to toy with his opponent, there was one mistake he made-he had underestimated the power of the twenty-two styles of his raging Eight Trigram palm.

Although it was indeed impossible for the twenty-two forms to directly kill a master in the middle stage of the foundation building realm, with the perfect opportunity just now, the palm almost exerted one hundred percent of its power. After Yu Zhe was hit by this palm, even if he didn't die, he would be seriously injured.

And then he used the powder to release a dust explosion, which inevitably added to his injuries. It was impossible for him to escape far in such a short time.

Yu Zhe knew that as long as he ran to a place with people, Lin Yi wouldn't dare to chase him no matter how brave he was, but the problem was that he'd followed Lin Yi for so long before, and he'd made a sneak attack only in this extremely remote corner.

If he wanted to get back to the main road with more people, he had to run at least two miles away. With his injuries, there was no way he could run that far without Lin Yi's detection. He could only stay where he was and bury himself deep in the ground while the dust exploded. His only chance of survival was to bet that Lin Yi wouldn't stay here for long.

This was a real move-not to mention how long he'd be staying, but he'd be forcing himself into a dead end.

It was impossible for an ordinary person to survive being buried alive deep in the soil. Although a mid-stage foundation building expert like him was not a problem, don't forget that he was in a state of serious injury and on the verge of death. If he was buried for a long time, he would suffocate to death like an ordinary person.

Moreover, even if he didn't suffocate to death, he might not have the strength to struggle out of the soil. At that time, he would still die.

But Yu Zhe didn't think so much. He just did it, trying to survive in the face of death. In the end, he grabbed the last chance of survival!

Of course, there was a element of luck in this chance of survival-if it weren't for someone passing by, Lin Yi would've stayed behind to search for them. He wouldn't let them go so easily.

One could only say that there was always a way out. Although Yu Zhe had made a mistake from the beginning when he set his eyes on Lin Yi, his luck wasn't bad in the end. Even if he knocked his teeth on the iron plate, he still managed to keep his life.

Whoosh! Whoosh! Whoosh! Whoosh!

Finally seeing the light of day again, Yu Zhe greedily gasped for air. Although the injuries on his body were so serious that he could die at any time, but with the vitality of a middle stage Foundation Stage master, if there was no external interference, as long as he didn't want to die, he still had a chance to live.

Heh, luckily I have a trump card, otherwise I would really be killed by you today!

Shaking, Yu Zhe struggled to get up from the ground, but he didn't leave. Instead, he looked around and looked at Lin Yi's path, muttering weakly to himself, "The welcome Pavilion is the only place in this direction. Ordinary grassroots rogue cultivators shouldn't go this way. Could this guy be a newcomer in the welcome Pavilion? That's impossible! Since when did the welcome Pavilion have a newcomer at the peak of the early Foundation Stage? Or perhaps, this guy is the welcoming new pavilion's manager?"

After thinking for a long time, Yu Zhe almost fell to the ground because of his serious injury and weakness. He barely managed to stabilize his body before staggering away.

Chapter 3755 Obvious Gap

No matter what, he had to take revenge today. He also had to find a way to get that star inkstone!

But if he wanted to do this, the most important thing was to recover from his injuries first. Only after investigating this guy's background could he do things more conveniently.

Thinking of this, Yu Zhe's staggering steps suddenly stopped, and a trace of sinister viciousness flashed in his eyes, "However, before that, he could encourage others to do something for him. At least, he could

find a way to investigate this guy's background, and his cheap master happened to be the best candidate!

Putting aside Yu Zhe's desire to take revenge on Lin Yi, Lin Yi quickly returned to the normal pace of welcoming new people after getting the star inkstone.

During the day, he would still go to the spirit Jade Hall to mine on time. At night, he would still meditate and cultivate in his cave. Occasionally, he would exchange insights with his miserable senior brother and the others. They would talk about everything and talk about the recent events on the island.

Other than that, Lin Yi didn't care about Yu Zhe at all. After all, it was Lin er who had a grudge against Yu Zhe, not Lin Yi.

He'd been spending a lot of time and effort on the newcomer's test, and there wasn't anything he needed to do with his Lin er identity.

After all, as long as Lin er didn't appear, it would be useless even if Yu Zhe found thousands of super experts to seek revenge. Because no matter how many people they had, it was impossible to find this imaginary Lin er. Since they could not find Lin er, there was no need to talk about revenge.

After a few days of peace, the third segment of the rookie evaluation was finally about to begin. And at this moment, the rookies who had been injured from the resistance test had basically returned to normal. Everyone's points were then released on the public roll.

On the GreenCloud Pavilion's side, Lin Yi's performance of scoring full points twice in a row, along with his total points of 105 in the first two rounds, was a solid lead that no one could shake.

Meng Tong, who was in second place, had a total of seventy-two points. He was thirty-three points away from Lin Yi.

Anyone with eyes could tell that as long as Lin Yi performed as usual in the following tests without making any fatal mistakes, even if he couldn't get full marks like the first two, he'd be able to lock in the number one spot of the GreenCloud Pavilion.

After Meng Tong, Xiao ran was in third place with forty-three points, Qiao hongcai was in fourth place with forty-two points, and Lee Zhengming was in fifth place with forty-one points.

The GreenCloud Pavilion's newbies who were ranked further back were clearly different from the previous five. Their points were all below 30, and the last one only had a pitiful 11 points.

Although the rookie evaluation had only completed two rounds, the rookies were already beginning to show clear differences.

Even if in the later stages of the assessment, some of the newcomers were good at or bad at these assessment items, and their rankings would inevitably fluctuate, but on the whole, it was almost impossible for the newcomers at the back to pose a threat to the people at the front.

Putting aside the weirdo Lin Yi and Meng jueguang, Xiao ran, Qiao hongcai, and Li Zhengming were all 12 points ahead of them.

A twelve point difference didn't seem too big of a difference, but these people weren't like Lin Yi, who could get God-level full points so easily. Even if they had a few points that could surpass these three, their combined strength was there, and it would be good enough if they could keep the difference from widening.

It was unrealistic for them to catch up from behind. Otherwise, they would not have only obtained such a pitiful number of points after two rounds.

Meng jueguang's eyes twitched as he looked at the ranking on the public roll.

He was the most powerful senior disciple in the GreenCloud Pavilion. In the future, he might even become the third Pavilion master. He was not someone that a nobody like his senior disciple could compare to.

And that was the truth-other than Lin Yi and the other two, the other newbies had all joined him, and the guy was no match for him at all.

However, at this embarrassing point ranking, even Meng jueguang, who had always been thick-skinned, couldn't help but blush in embarrassment.

He had a total of twelve GreenCloud Pavilion newbies under him, and among the top five of the group, he only occupied two positions. One was Meng Tong's second position, and the other was Li Zhengming's fifth position.

On the other hand, the miserable Shixiong had all three of his men on the list, and Lin Yi, who they saw as a thorn in their side, even took the first place without a doubt. No one could shake him.

With such a stark contrast, it was really awkward!

And this was when Meng jueguang didn't know about li Zhengming's matter. If he knew that li Zhengming had betrayed Lin Yi and became Lin Yi's spy, he would be so angry that he would spit blood. As the eldest senior brother in charge of the GreenCloud Pavilion's new disciples, how the hell was he supposed to face the others when his disciples were only ranked one in the top five?

Meng jueguang even subconsciously felt that the newcomers under him had been looking at him strangely for the past few days. If this continued, these newcomers would gradually start to think that he could not bring them any benefits, and that he could not even compare to the other side's suffering. That would be a little troublesome.

Once he lost his prestige in front of these newcomers, then even if Meng jueguang could become the third Pavilion master as he wished, he would only be a commander with no authority. His situation would probably not be much better than Lu bianren 's, who was about to be kicked out.

No, I have to quickly think of a way to stop this!

He'd been thinking of ways to get rid of Lin Yi before, so he'd barely spent any time thinking about it, but now that he'd realized the potential danger, he naturally had to think of a way to solve it.

Their plans to kill Lin Yi had failed twice in a row, especially during the resistance test. They'd racked their brains to come up with such a perfect and fatal trap, but Lin Yi had escaped unscathed. Before they found out who Lin Yi was, neither Xu lingchong nor Meng jueguang had the intention to touch Lin Yi.

However, just because he didn't touch Lin Yi didn't mean that he wouldn't touch Lin Yi's lackeys!

Chapter 3756 Spirit Herb Cultivation

Even if he didn't deliberately try to kill them, he had to at least come up with a strategy to suppress their points in the subsequent assessment rounds. After all, their current points ranking was too glaring!

Meng jueguang pinched his chin and curled his lips as he looked at Lin Yi's group in the distance. I'll let you be proud for a while. I didn't have time to deal with you before, so I let you take advantage of the loophole. Next, you'll be crying!

Putting aside the troublesome Lin Yi, if it was just Xiao ran and Qiao hongcai, these two newbies, Meng jueguang wouldn't have taken them seriously at all. In his eyes, dealing with these two people was a piece of cake!

According to the usual practice, after all the newcomers of the three pavilions had gathered, Pavilion master Hu Yunfeng would appear and announce the rules of the next assessment segment. Just like the first segment of the suppression-resistance assessment, the location of the third assessment segment was also not at the welcoming new pavilion but the pill Hall.

However, to be precise, the third round was not the pill Hall's assessment. Pavilion Lord Hu Yunfeng leading all the newcomers to the pill Hall was just a formality. He wanted everyone to pick some spirit herb seeds from them and bring them back to cultivate them.

As everyone knew, any cultivator in the world of cultivation had to deal with all kinds of medicinal pills. The only difference was how many pills they had.

Some people had strong backgrounds and great conditions-they could eat all kinds of pills for a living, but some didn't have the conditions and could only save up resources so that they could use a pill to help them break through at the most critical time. There were even people like Lin Yi who were alchemists themselves, making all kinds of pills themselves.

In short, no matter what kind of person they were, they would need the help of all kinds of elixirs in their long cultivation life. Otherwise, in today's world where the spiritual energy was getting thinner by the day, it was simply unrealistic to rely on their own efforts to break through. Even if they could succeed, it would only be a very small number of people with extremely high talent. The other 99% of people could not do without all kinds of elixirs.

But to make a pill, other than the need for a professional pill master, the most important thing was the rare and common ingredients. Without all the ingredients, even a pill God like Liju couldn't do anything without rice.

However, any spiritual medicine was a treasure of heaven and earth. Even the most common and low-grade spiritual medicine was only compared to other spiritual medicine. Compared to other plants, it was still an extremely rare and precious item. It was impossible to collect it in large quantities, let alone other rare goods like the heart-devouring exquisite grass.

Naturally, the method of artificially growing spiritual medicine came into being.

However, although spiritual herbs were also plants, they had harsh requirements for their growing environment. They were far more demanding than ordinary plants and flowers. Even if there were cultivators who specifically spent a lot of energy to take care of them, their survival rate would always be maintained at an extremely low level. Moreover, their growth cycle was generally very long. They often worked hard for decades. If they were not careful, they would wither and die. All their efforts would be in vain.

However, after thousands of years of experience, the Sky Class island's cultivation world had already come up with a very mature method to grow spirit herbs.

Not only was its survival rate much higher than before, but with the addition of manual ripening methods, its growth cycle was also greatly shortened. Many common spiritual herbs could be planted and cultivated on a large scale to ensure its supply and demand.

Of course, this was only limited to some common spiritual herbs. Most of the special spiritual herbs were extremely rare, and there was no experience in growing them. Their survival rate was still extremely low. Otherwise, if it could be cultivated on a large scale, it would have been popularized a long time ago, and not called a rare spiritual medicine.

Looking at the entire Sky Class island's northern part of the island, the most authoritative in the area of growing spiritual herbs was naturally the hall of pills.

This time, Hu Yunfeng had brought the newcomers from the three pavilions here to collect the seeds of various spiritual herbs. They would then bring them back to their respective cave abodes to be nurtured. This was the third segment of the newcomer assessment, the spiritual herb trial.

The pill Hall was the same as the law enforcement Hall. It was the most famous outside of the three great pavilions on the North Island. It was one of the few independent halls that could be heard by everyone.

Compared to the law enforcement Hall, which was cold and quiet but had an extremely strong pressure, the pill Hall was built on the mountain and welcomed people in all directions. Regardless of the architectural layout or the flow of people, it was obviously much more amiable and easy-going than the law enforcement Hall. At least, it would not make people feel uncomfortable.

After all, strictly speaking, other than being an independent Department of the three great pavilions and being responsible for the supply of pills for the three great pavilions, the pill Hall was also a large Chamber of Commerce organization similar to the Hong Chamber of Commerce in a sense.

Don't forget, the miserable senior brother was still pondering whether he should gather 200 pieces of spiritual Jade and come to the pill Hall to find an Alchemist to help refine the foundation building barrier-breaking pill.

Every year, just by collecting fees from refining medicinal pills for others, the pill Hall could earn an astronomical amount of wealth. In addition, the pill Hall also cooperated with large merchants like the Hong Chamber of Commerce to sell all kinds of medicinal pills in bulk. This way, it would earn another astronomical amount of wealth.

With the two added together, the pill Hall was definitely one of the richest departments in the three great pavilions. Even the spirit Jade Hall, which was responsible for mining spirit Jade, was at most on par with it.

It was also because of such a huge financial resources that the pill Hall could support the wide collection of all kinds of rare spiritual medicines and spend a lot of money to win over many alchemists. Otherwise, if these two things could not be done, the pill Hall would only exist in name.

Under Hu Yunfeng's lead, the newcomers of the three pavilions climbed up the mountain. After bypassing layers of antique buildings, what appeared in front of the newcomers was an intoxicating verdant.

Even from a few hundred feet away, one could smell the refreshing fragrance of the spirit herbs. This was the most important source of the pill Hall's spirit herbs, the spirit herb garden it had developed.

It covered an area of several dozen acres and consumed a lot of manpower and resources. The pill Hall had planted and cultivated hundreds of spiritual herbs here. In order to ensure a sufficient supply of spiritual energy, high-quality spiritual jades filled with spiritual energy could be seen everywhere on the ground.

In a natural environment, there was no need to deliberately do this for the growth of normal spirit herbs. The spirit herb nursery was obviously doing this to increase the production. If it was allowed to grow naturally, there would not be many spirit herbs growing in this small area of dozens of acres.

As far as the eye could see, not only were there all kinds of priceless spiritual herbs, but there were also spiritual jades all over the ground. It was a breathtaking sight. The rookies from the three pavilions, who had never seen such a world before, could not help but swallow a mouthful of saliva.

This place was like a paradise on earth!

Chapter 3757 The Pill Hall's Chief Steward

Even Lin Yi was impressed by the scene. In a place like this, spirit Jade was even less valuable than it was in the spirit Jade Hall.

After all, even though the spirit Jade Hall produced spirit Jade, they still treated it as spirit Jade. Every place was heavily guarded. However, in the spirit medicine nursery, the spirit Jade was thrown around like stones. Moreover, it seemed that the supervision was not very strict and they did not treat the spirit Jade as a treasure at all. The only mission of their existence was to release spiritual energy to serve the spirit medicine.

But other than surprise, Lin Yi didn't have any greed in his mind. With his qualifications, as long as he had the opportunity to come here, it was as easy as lifting a finger to steal some spirit Jade, but doing this too much would eventually lead to problems.

If Lin Yi wanted to earn a large amount of spiritual Jade in a short time, it was obvious that making elixirs would be faster. He could just make a high quality foundation breakthrough pill and sell it for thousands of spiritual Jade-it was much more reliable than this small robbery.

Of course, if he really wanted to sell the pills, he had to use Lin er's identity. It was a bit risky, and if he didn't have to, the cautious Lin Yi wouldn't do it.

Moreover, even if Lin er had a hidden identity, it was impossible for him to sell a large number of pills frequently. He would definitely be targeted by people with ulterior motives, and that would not be worth it!

What Lin Yi needed to do now was to level up and train again and again, so that he could get to the central island as soon as possible and see Zhang Liju.

After waiting for a while, the spirit medicine nursery's Chief Steward finally arrived. He was a middle-aged man with extremely soft and gentle lines. Coupled with his actions, this soft characteristic was even more obvious. In the words of the secular world, this kind of gentle man was actually a sissy.

What made Lin Yi a little surprised was the fact that he didn't see Xu lingchong at all-the young master had always been there to kill him in the first two segments.

It seemed that it was indeed as Lee Zhengming's information had said. Xu lingchong and Meng jueguang had temporarily given up the idea of directly plotting against him. Instead, they were retreating in order to advance. They were planning to figure out his strength first before killing him.

After exchanging a few pleasantries with Hu Yun Feng, the spirit medicine nursery's Senior Manager immediately ordered someone to bring over a box. Using a voice so gentle that it could make one's hair stand on end, he began to explain the specific rules of this assessment to the rookies.

However, although the Sissy's voice made people's scalps numb, it had one advantage. It was very detailed and on point. At least it could let the rookies understand it thoroughly and not be blurred.

"Newcomers, there are 40 kinds of common or uncommon elixir seeds in this box. Oh, I'm sorry, the seeds are still in the cultivation room. These are just the labels for you to choose."

"According to the rules of the newcomer's assessment, each of you will randomly draw at least ten spiritual herb seeds from here, one for each. If you are willing, you can even take away all forty of them. At the same time, I will give each of you a seed cultivation vessel for you to bring back to cultivate."

"The cultivation of spirit herb seeds, in addition to the environment that is compatible with their habits, there are two key points to determine whether they can be successfully raised. The first is to ensure that there is sufficient spiritual energy, which is the most basic requirement for them to survive. The second is to infuse true Qi every day to accelerate their ripening. This not only makes up for the lack of spiritual energy, but also greatly reduces their growth cycle. Otherwise, even if you endure for a few years, you may not be able to see them take root and germinate."

"Generally speaking, if everything goes well, they can sprout and survive in 15 to 20 days. As for how to infuse true Qi into the spirit herb seeds, I will find the senior brother in charge of this in the spirit herb nursery to demonstrate and explain to you later."

A Sky Class practitioner was different from the Sky Class—they could release their Qi outside their body, and that was why Lin Yi could release Qi from his other acupuncture points! He could do it, and so could the others. It just depended on whether or not everyone was willing to do it!

Lin Yi could recover in an instant, but for others, it would take days to recover if they used up their energy, and they might even drop a level if they overused it!

Therefore, when they heard that they had to pour in true energy, most of the newcomers felt their hearts ache ...

"There is one thing you must take note of. Once you use true energy to accelerate the ripening of the spirit Herb Seed until it takes root, sprouts, and completely survives, you must ensure that there is a sufficient supply of true energy every day during this period. Otherwise, due to the artificial change in the growth mechanism, it will wither and die very quickly, just like a lack of spiritual energy."

"Of course, the survival rate of spirit herb seeds is not high. It is normal for them to wither and die. In fact, even the disciples of the pill Hall can not guarantee that they can keep them alive 100%. For new people like you, it is already a good result if you can successfully cultivate five Zhu spirit herb seedlings from ten spirit herb seeds."

"Your points for this assessment will be calculated according to the number of spirit herb seeds you have successfully planted. "Within the three-month assessment period, as long as you successfully cultivate a spiritual medicine seedling, you will be able to obtain three points. If you fail, no points will be deducted. However, don't think that you can choose as many spiritual medicine seeds as possible just because you're like this. Because before that, for every spirit Herb Seed you collect, one point will be deducted first. "

"In other words, if you take away all 40 spiritual herb seeds now, you will first have to deduct 40 points. If you can't cultivate more than 14 spiritual herb seedlings in the next three months, not only will you not be able to obtain any points in this assessment, but you will also have to deduct the points that you have worked hard to earn in the previous two segments."

"However, if you have the ability to cultivate all 40 spiritual medicine seedlings, you will be able to obtain 120 points directly. Even if you deduct the 40 points from before, you will still be able to earn a net profit of 80 points. Isn't it very tempting?"

"It's a pity that it's impossible. Even the best spirit herb botanist in our spirit herb nursery can't make all forty spirit herb seeds grow in three months. So I advise you to be more realistic and do what you can. Otherwise, your points will be deducted. It's not worth it."

"Now, we can start drawing lots to select our seeds. All the newcomers, do your best."

After the sissy great manager finished speaking, Hu Yun Feng immediately gestured to the senior managers of the three great pavilions to organize the newcomers to line up and draw lots. They would start from the ascending Sky Pavilion, and the GreenCloud Pavilion would follow the usual practice.

Chapter 3758 Another Run

As the rookies had been informed beforehand that the third round of the spirit herb trial's assessment would last for three months, the fourth round would begin three days later. The two rounds of assessment would be carried out at the same time, and it was very likely that they would be exhausted. If they were to choose too many at this time, then because they could not guarantee the daily supply of true energy, it was very likely that the tragedy of having their points deducted, as mentioned by this sissy, would occur.

As a result, even the confident newbies were extremely cautious. They only picked ten or so seeds, and the most didn't exceed twenty. Even Zhaoming, who was the most popular Alchemist, only picked twenty despite his natural advantage.

After the soaring Pavilion, the profound secrets Pavilion's more experienced and prudent old men naturally wouldn't make any out-of-the-ordinary stupid choices. They were generally between ten to twenty.

As for the GreenCloud Pavilion's new disciples, they were the weakest and had the least confidence. Thus, they generally only chose the minimum of ten seeds. If it wasn't for the restrictions of the rules, they would have even fewer choices.

Although Xiao ran and the others might not lose to the newcomers of the other two pavilions in terms of strength, it was not to be forgotten that cultivating spiritual herb seeds required a large amount of spiritual energy in addition to a large amount of true energy. If the spiritual energy in the cave abode was insufficient, it was useless no matter how strong the true energy was. The spiritual herb seeds would still wither and die.

As for Xiao ran's cave number two at the foot of the mountain, although it was already considered pretty good among the newbies of the GreenCloud Pavilion, it could not be compared to the caves of the newbies of the other two great pavilions. The weakest one had a higher concentration of spiritual Qi than his cave number two at the foot of the mountain.

Under such circumstances, choosing only 10 seeds was clearly a wise move. Because, with the poor conditions of these new disciples, it was very possible that they wouldn't even be able to grow these 10 seeds. If they chose too many, wouldn't they be digging their own graves?

Instead of daydreaming and fantasizing about how many points he could obtain in this segment, it was better to think about how not to be deducted. This was more realistic and wise.

While the other newbies were lining up to draw their seeds, Lin Yi was at the end of the line, silently observing the forty spirit herb seeds provided by the spirit medicine nursery. One of them made his eyes light up.

Heart-devouring exquisite grass! There was actually heart-devouring exquisite grass among these forty spirit herb seeds!

The sissy manager did say that there were some common ones and some uncommon ones, but Lin Yi still didn't expect the heart-devouring exquisite grass seed to be among them!

After all, in terms of rarity and value, the heart-devouring exquisite grass was definitely a whole lot more valuable than other normal herb seeds. To Lin Yi, this was a meat pie that fell from the sky!

Lin Yi's heart was on fire-he'd only just reached the peak of the early Foundation Stage, but as long as he spent some more time stabilizing his strength, he could start preparing for the mid-Foundation Stage.

The most crucial part of this was the foundation-stage golden core, and the key to the foundation-stage golden core was the heart-devouring exquisite grass.

He'd spent a lot of effort and risked being hunted by the ghost-eyed Golden Eagles in the outskirts of the back mountain before finally getting one from the cliff. Lin Yi knew that he'd have to rack his brains to get another.

Even if he could find it in the outer area of the back mountain, he wouldn't be able to enter with his current status. There were layers of restrictions in the back mountain, and without the permission of the back mountain Hall, no one could enter or leave the back mountain. Lin Yi, who was new to the GreenCloud Pavilion, was no exception.

He did not expect that the precious item that he might not be able to obtain even if he racked his brains for it would actually come to him on its own during the assessment mission!

However, it wasn't easy for Lin Yi to get it even though it was one of the forty. His only right was to report the number and then pull out the corresponding number of tags.

In other words, unless Lin Yi signed up for 40 spiritual herb seeds, he might just miss this heart-devouring exquisite grass seed!

However, in a situation where all the other rookies had only reported 20 seeds at most, if he were to announce 40 seeds at once, he would obviously be suspected unless he was a publicly acknowledged idiot!

Lin Yi, on the other hand, had always been a Maverick, but from his actions, especially after getting two perfect God-level scores, he was nothing like an idiot in the eyes of the crowd.

Lin Yi frowned as he watched the newbies draw their lots. It was almost his turn, and his head hurt.

He absolutely didn't want to have this heaven-sent opportunity to obtain the seed of the heart devouring exquisite grass. At the same time, he couldn't miss it. After all, if he missed it, it would be extremely difficult to obtain the heart devouring exquisite grass in the future. Even if he racked his brains to sneak into the back mountain, he might not be able to successfully find the heart devouring exquisite grass.

If it really didn't work, he could only shock the world and choose all 40 spiritual medicine seeds!

Lin Yi gritted his teeth. The heart-devouring exquisite grass was the key to making a Foundation-level golden elixir, and the elixir directly affected his strength level, allowing him to face all kinds of unpredictable dangers in the future. In comparison, even if people suspected him, he could only give it his all.

At that time, he could just use his identity as an Alchemist to perfunctorily brush it off. Even if these people were suspicious, they shouldn't be able to associate it with the Foundation Stage golden core for a while. The risk wasn't too big, it was better than losing the seed of the heart-devouring exquisite grass.

After everyone had picked their lots, Lin Yi was the last one.

"Lin Yi Junior Brother, tell me, how many seeds do you want?" Meng jueguang, who was responsible for maintaining order in the GreenCloud Pavilion, glanced at Lin Yi.

He really wanted to get rid of this troublesome Lin Yi, but he still had to maintain his composure as a manager in public.

Moreover, this test was basically hosted by the people from the spirit medicine nursery. If young master Xu lingchong didn't show up, Meng jueguang wouldn't be able to talk to these people and naturally wouldn't be able to cause trouble for Lin Yi. Even if he wanted to cause trouble, he wouldn't be able to do anything and could only follow the procedure.

Although he didn't have the chance to do anything, crown could at least make some comments out of it. What if Lin Yi got carried away by the victory and decided to pick twenty or thirty seeds?

Chapter 3759 Taking The Initiative To Court Death

Even if he couldn't kill him, he could take the opportunity to trick him and make his points drop rapidly. Meng Tong might even overtake him. That would be a great thing!

"You're the number one newcomer of our GreenCloud Pavilion. No matter what, you should sign up more and make our GreenCloud Pavilion proud!" Meng jueguang sneered with a solemn and righteous expression.

"Hehe, maybe you guys don't know this, but this Lin Yi bro was already a refiner back in the common world. He's very familiar with the habits and characteristics of these herbs-he's a real expert! Getting twenty to thirty of them is a piece of cake for him, and that's already a waste of his ability. I think it'll be fine no matter how many he gets!" Kang Zhaoming saw this and started to flatter.

With all the grudges he'd had with Lin Yi before, he wouldn't let go of a chance like this to embarrass Lin Yi.

After hearing what he said, the other new disciples were all in an uproar. They knew that Lin Yi was strong, but they didn't expect him to be an Alchemist.

Although alchemists had a high status in the world of cultivation, because most of their energy was invested in alchemy and their strength was improved by taking various pills, they were generally weaker than other experts of the same level.

Of course, there were exceptions to everything. The pill God Zhang Liju wasn't just a top-tier Alchemist, he was also extremely powerful-he wasn't any weaker than the other big shots of Sky Class islands.

What the rookies didn't expect was that the Lin Yi standing in front of them was also a monster like this. Not only was he strong enough to crush Masters of the same level, but he was also a rare refiner!

Although his level was far from being on par with the God of alchemy Zhang Liju, he was already an impressive existence compared to the newcomers from the three pavilions.

All of a sudden, all the new people looked at Lin Yi with even more envy and jealousy.

"Damn, so you're actually a pill master! He couldn't waste this great opportunity. He had already gotten two full marks in the previous matches. It wouldn't make sense if he didn't try to get a higher score this time, right? I think 30 is too little. Since you're a newbie, you should at least get full marks. Otherwise, you'll be demeaning!" Hearing this, Meng Tong immediately agreed in shock.

As far as he was concerned, if Lin Yi didn't make any fatal mistakes, he'd never be able to surpass Lin Yi in the following tests-he'd only be stepped on by him. Only a test like this one where points were deducted would be able to help him close the gap and even surpass him.

Of course, this was all under the premise that Lin Yi made a big mistake in his heat of the moment. If Lin Yi were to sign up for ten seeds like the other newbies, he wouldn't stand a chance at all. The huge advantage he'd accumulated from the previous two rounds was enough to take him down.

Lin Yi glanced at them with a half-smile-this was a classic tactic of overpraising!

However, it was just as well. If these people didn't help, he really couldn't open his mouth to bid 40 pills. But now, it was logical.

"Junior Brother Lin, you should be safe and just name ten pills. It's not easy to get these things, and it's easy to affect the fourth assessment. It'll be very difficult. Don't listen to these people's bewitchment." The miserable senior brother reminded him in a low voice.

Lin Yi nodded in understanding, giving the man a reassuring look. He walked to the front and spoke indifferently, "Since everyone's encouraging me, I have no reason to disappoint them. I'll bid forty then. Actually, Kang Zhaoming's right, I wanted to bid eighty!"

As soon as he finished speaking, the entire place was in an uproar.

The bitter-faced guy and the others who were on Lin Yi's side were dumbfounded, and even Meng jueguang, Kang Zhaoming, and the others who'd been making sarcastic remarks were stunned. Was Lin Yi really that stupid? he'd just been pushed around a bit and he'd pick all forty like an idiot?

And 80? You're really worthy of your title as a newbie at acting tough! Meng Tong was also secretly overjoyed. He had great hope!

The sissy manager couldn't help but cover his mouth as he looked at Lin Yi up and down in surprise. "Are you sure?"

When he had introduced the rules earlier, he had clearly stated that even the disciples in the pill Hall who were the most proficient in planting spiritual medicine could not cultivate 40 spiritual medicine seeds in three months. The survival rate was not guaranteed at all.

This Lin Yi was a newbie, and even if he was a refiner who was more familiar with spiritual herbs, he was just using the chance to hurt himself by asking for forty!

One must know that although alchemists often came into contact with spiritual herbs, in the end, it was a completely different matter from being a spiritual herb gardener!

To put it bluntly, The Alchemist profession was like a chef. Although he came into contact with all kinds of vegetables and ingredients every day and could make good dishes, it was simply a scam to ask him to grow vegetables because of this! How could cooking and growing vegetables be the same?

Kang Zhaoming was the most popular new disciple in the rising Sky Pavilion. He was a refiner himself, but he only dared to bid twenty pills. He was asking for forty at once, and they were about to go through the fourth Test. Wasn't he looking for death?

"I'm sure," Lin Yi nodded with certainty, not caring about the weird looks everyone was giving him.

Even the sissy manager had nothing to say now-he'd already given Lin Yi a chance to back out of his kindness, but the guy wouldn't change his mind no matter what. There was nothing he could do but nod and order the seeds.

In fact, he didn't know Lin Yi at all, and it had nothing to do with him whether Lin Yi was Dead or Alive. He just felt pity for these spirit herb seeds.

They were all grown by the pill Hall in batches, and the cost wasn't too high, but they were still spiritual herb seeds. After they were grown, they would become real spiritual herbs, and if they were given to a newbie like Lin Yi who overestimated himself, not many of them would survive.

However, the welcoming new pavilion's newcomer assessment this time was an important measure approved by the elders Guild. As the spirit medicine nursery's Chief Steward, he could only pinch his nose and cooperate no matter how much his heart ached for these spirit medicine seeds.

As Lin Yi took the forty sealed seeds, jueguang, Zhaoming, and the others looked at each other, mocking expressions on their faces.

It seemed that after this pretentious newbie got two God-level perfect scores by luck, he really thought that he was invincible and dared to jump into any pit!

People always said that one wouldn't die if they didn't ask for it, but this idiot Lin Yi was the one who asked for it! No one could stop him!

Chapter 3760 Know Your Limits

In fact, after the spirit Jade exchange incident, both Meng jueguang and Meng Tong had come to the same conclusion-Lin Yi was strong, but he wasn't smart. He was just lucky and had some strength!

However, if they could make use of his intelligence, then Lin Yi really wasn't that hard to deal with!

Zhaoming, on the other hand, was surprised-Lin Yi wasn't supposed to be this stupid in the common world, so why was he acting so rashly on Sky Class Island? Could it be that the spiritual Qi of heaven and earth was too abundant, and he fainted?

"Pretentious newbie, we're looking forward to your God-level performance of getting three full marks in a row. Don't let us down! Of course, if you're accidentally wiped out and lose 40 points, that'll also be a good story, right? you have plenty of points anyway, so just take it as showing off your style!" Meng Tong couldn't help but chuckle as he teased.

As far as he was concerned, Lin Yi was asking for trouble this time. No matter how much of a refiner he was, it was impossible for him not to fall after signing up for all forty seeds. The only difference was how many points he would lose.

It wasn't realistic to kill all forty of Lin Yi's seeds, but it was possible that he'd lose twenty or thirty of them if the heavens had eyes.

In this way, Lin Yi would lose at least twenty to thirty points, and if Meng Tong could only get ten points this time, then the thirty-three points difference from the previous two rounds would be even, and he might even be able to reverse the situation. It would be great!

"Brother Meng Tong, you're thinking too much. Lin Yi's an Alchemist, after all, how could he be completely annihilated!"

Kang Zhaoming pretended to be righteous, "With his ability, it's definitely no problem for him to cultivate three or four. However, it'll be a little difficult to cultivate more. After all, the fourth round of the assessment is coming up soon. As the first person to stand out, he'll be under a lot of pressure. There's a limit to manpower sometimes, so we have to be considerate."

Meng jueguang nodded and continued, "Junior Brother Kang's words are very reasonable. Lin Yi has gotten two perfect scores in a row, and is the number one newbie in our Pavilion. The others should all learn from him. The fourth Test is a rare opportunity to spar with each other. This kind of opportunity to challenge experts is very hard to come by, so we can't let it go easily!"

All of the new disciples under him agreed immediately. Although Lin Yi wasn't on the same level as them anymore, everyone was jealous of him. They were all new disciples of the pavilion, so why was Lin Yi able to get all the attention he wanted while they couldn't?

Now that they had the chance to make things difficult for Lin Yi, they couldn't be any better!

Seeing the newbies' reactions, Meng jueguang, Kang Zhaoming and the others laughed proudly.

As far as they were concerned, Lin Yi getting forty seeds at once was already a lot of pressure. If he got targeted again in the next test, even if he couldn't kill him directly, he'd be exhausted to the point of lying on the ground. It'd be good enough if he could recover a little bit of pure energy for the test challenge every day, how could he grow forty seeds? You must be dreaming.

Meng jueguang and the others were proud of themselves, but Zhong pinliang and Li Zhengming, who were in the middle of them, were sneering at Lin Yi at the same time. With boss Lin Yi's style of doing things, he would never fight an unprepared battle. What the hell were these idiots laughing at? when the test results came out, they wouldn't even know who was the idiot!

Lin Yi didn't care about the mockery from Meng jueguang and the others as he walked back to the group with the forty seeds in his hand.

"Junior Brother Lin, you ... What should I say?" The poor guy didn't know what to say after seeing Lin Yi's calm face.

From his point of view, Lin Yi's actions today were indeed too reckless and brainless-it was no different from seeking death. But don't forget Lin Yi's performance in the previous two segments-it was beyond their expectations every time.

Especially during the resistance test, when Lin Yi chose to fight at the peak of early-stage Foundation despite his dissuasion. He even thought that Lin Yi would die on the spot.

As it turned out, Lin Yi never did anything he wasn't confident in. Even his poor senior wasn't sure if he could take a full-powered attack from a peak early Foundation Stage, but Lin Yi took it without saying a word and got away unscathed, even getting full marks for a God-level!

And so, while it was hard for him to believe that Lin Yi had chosen all forty, he didn't say much about it. After all, even if he didn't have the ability, it didn't mean that Lin Yi didn't have it. What if Lin Yi could really grow all these seeds?

But even if Lin Yi was confident enough to grow that many seeds, the fourth Test was about to begin, and it was obvious that he'd be targeted by Meng jueguang and the others. The poor guy was worried about Lin Yi's survival.

"Hehe, brother ku, you don't have to worry about me. I know what I'm doing,"

Lin Yi smiled as if nothing had happened. He looked at Xiao ran and Qiao hongcai, who were also hesitating to say something, and lowered his voice,""When we go back, both of you should give me the spirit herb seeds. I'll help you grow them."

"Ha?" The three of them, including the miserable senior brother, were stunned at the same time. Not only did this guy choose 40 spiritual herb seeds for himself, but he also wanted to ask for Xiao ran's and his Junior Brother 's. Wouldn't that make a total of 60 spiritual herb seeds?

"Boss Lin Yi, are you sure you'll be fine?" Even Xiao ran, who had always been calm and reserved, couldn't help but whisper in surprise.

He wasn't afraid of the matter being leaked and being accused of cheating by Hu Yunfeng and the others. In fact, if Meng jueguang and the others knew about it, they wouldn't stop him, but would instead take advantage of the situation and try to tire Lin Yi to death. Xiao ran was worried for Lin Yi.

After all, in the eyes of any ordinary person, 40 spiritual medicine seeds already meant that a lot of true Qi would be consumed for a while. Even if there was nothing else to interfere, this alone was already quite difficult.

Moreover, the fourth round of the newcomer assessment was about to be carried out simultaneously. If there were any slight twists and turns in the process, it was very likely that the true energy supply would be cut off for a few days. Then, according to the sissy manager of the spirit medicine nursery, the spirit herb seeds that had already been ripened by true energy would wither and die very quickly. Not only would all their previous efforts be in vain, but there was also the possibility of their points being deducted.
