

Bodyguard 3771

Chapter 3771 Take It Back

Speaking of which, Xiao ran and Lin Yi were both newbies who were very close to him. As a senior brother, it wasn't appropriate for Lin Yi to suggest exchanging caves with Xiao ran, since it might chill Xiao ran's heart.

However, he had to say this because there had never been a first in literature and a second in martial arts. The higher-ups of the three pavilions only valued the number one newcomer. Other than that, it did not matter how many second or third places he took.

If Meng Tong won first place in this newcomer's assessment while they were in such a good situation, they would have lost the good situation. For their small group, it would be a great loss.

It was obviously not worth it to sacrifice Lin Yi's first place for Xiao ran.

Xiao ran didn't complain when his senior brother said that. Instead, he nodded and said, ""That's right. Boss Lin Yi, you're our pillar of support, you have to put the big picture first. You can't destroy your own wall for me, or I'll never be able to rest in peace!"

The only one who didn't say anything was Qiao hongcai. After all, Xiao ran was his brother, and he couldn't say anything since Lin Yi was doing this for Xiao ran.

However, from his expression, it was clear that he didn't agree with Lin Yi's decision. It was good that his boss was loyal, but if he was too loyal and fell into the trap, it would benefit trash like Meng Tong. Just thinking about that scene made him extremely unhappy.

To her surprise, Lin Yi laughed. "You're wrong. Even if Xiao ran and I changed caves, Meng Tong would never be able to surpass me. Trust me, he will."

"Ha?" Xiao ran, the miserable senior brother, and the others could not help but look at each other.

Although they didn't know what was going on, it was just as Lin Yi said. Even if he moved to cave number one, Meng Tong still wouldn't be able to surpass him, at least not in the first four rounds.

First of all, he'd already gotten 105 points from the previous two rounds, and with the 15 points from cave one, he'd be able to keep his high score of 120 points even if no one challenged him.

With his hidden strength at the peak of the early Foundation Stage, any new disciple of the GreenCloud Pavilion, including Meng Tong, would only be crushed by him. In other words, anyone who took the initiative to challenge him would only give him points, allowing him to gain more points.

Meng Tong, on the other hand, had accumulated seventy-two points in the previous two rounds. With the one point from cave No. 15 at the foot of the mountain, his initial points for the challenge Round were seventy-three points.

Even if he followed the rule of points maximizing and challenged cave number two from cave number fourteen at the foot of the mountain and won all the battles, he would only get 104 points at most. In addition to the initial points, he would have 177 points.

If he was smart enough not to challenge Lin Yi, he'd still be ahead of Lin Yi by fifty-seven points after the challenge Round, which was quite a big gap.

On the other hand, if he challenged Lin Yi on impulse, not only would he lose Fourteen Points, but he'd also give Lin Yi another Fourteen Points. In that case, he'd only be leading by twenty-nine points.

With Meng Tong's hatred for Lin Yi and all the clamoring he'd done before, there was no way he'd let go of this rare opportunity. Otherwise, with so many new people watching, he'd lose face as the new boss.

With the information that Li Zhengming had provided, Meng Jueguang and the others might not stop him. They also wanted to know how strong Lin Yi was now, and Meng Tong, the strongest of the GreenCloud Pavilion's new disciples, was the best candidate to test Lin Yi.

A difference of twenty-nine points wasn't that big for Lin Yi. After all, he had chosen forty seeds in the test.

With the innate advantage of the Jade space, not to mention the seed of the heart-devouring exquisite grass, which had to be kept by him, it would not be a problem to cultivate thirty-five of the remaining thirty-nine seeds. Then, even after deducting the forty points he had to pay for the forty spiritual herb seeds, he could still guarantee a net profit of sixty-five points.

This was just a pessimistic estimate, and it was already far enough to exceed the difference of twenty-nine points. In fact, even if Meng Tong had tactfully chosen to admit defeat and not directly challenge Lin Yi, his final points in the first four segments would still not be as high as Lin Yi's!

At that time, Lin Yi would get at least one hundred and eighty-five points, while Meng Tong would only get one hundred and seventy seven points.

Of course, this score didn't include Meng Tong's spiritual medicine trial. However, it should be known that for GreenCloud Pavilion's new disciples who had extremely poor spiritual energy in their immortal's caves, this was a completely ridiculous trial.

Even if Meng Tong, like the other newcomers, only received ten spiritual herb seeds conservatively, he had to at least cultivate four seeds to break even. He had to cultivate five seeds to earn a net profit of four points. For them, who didn't have a cheating device like the Jade space, this was a gift from the sky.

As for six, that was impossible!

So, even if Meng Tong was very optimistic and managed to grow six seeds, he would only get 184 points in the first four rounds-he was still one point behind Lin Yi!

This was already his most optimistic estimate, while Lin Yi's was the most pessimistic one. If some newbies were stupid enough to give him points, or if more seeds were grown, then Lin Yi's points would be even higher.

In other words, no matter how they looked at it, Lin Yi would always be able to suppress Meng Tong, not giving him any chance to reverse the situation.

However, only Lin Yi could figure out these plans. The brothers wouldn't be able to figure it out even if they racked their brains. After all, they didn't know that Lin Yi had the Jade space, a godly tool that could guarantee the survival of the seeds.

Although they didn't understand, they didn't know what to say when they saw Lin Yi's confident face. An extraordinary person was an extraordinary person, and Lin Yi had done more than one miracle.

There were some things they couldn't understand, but that didn't mean Lin Yi couldn't do it.

"But ..." Xiao ran still hesitated.

Lin Yi cut her off before she could finish. "No buts. I gave you this cave dwelling back then. Now that I want it back, do you still have any objections? Besides, your spirit herb seeds are all in my hands, and I want to find a good cave to cultivate the seeds. If I get your cave, not only will the spiritual Qi be more abundant, but there won't be many people bothering me during the challenge, and I don't have to worry about the daily supply of true Qi. How great is that?"

Chapter 3772 Extremely Shocked

At this point, Xiao ran couldn't find a reason to refute, and he couldn't help but feel grateful.

He knew that Lin Yi was just trying to save him some face-he was obviously helping him, but Lin Yi was making it sound like he needed the cave number one.

There was probably no other boss in the world who took care of his underlings like this!

"Then ... I'll be thick-skinned and accept it." Xiao ran finally nodded and said nothing more.

With a personality like his, he wouldn't show it on his face no matter how much Lin Yi did him a favor. But if Lin Yi needed anything in the future, he'd be the most enthusiastic one, willing to go through fire and water for him.

In fact, Xiao ran understood it because he had kindly reminded Lin Yi about the shoes of loutai during the Sky Class test in the common world. In fact, Lin Yi didn't need his reminder at all with his strength.

However, this simple act of kindness had earned him Lin Yi's friendship, and he'd been able to walk all the way until now! He knew that although Lin Yi didn't show much care in the test, and he was still calm on Sky Class Island, there was an 80% chance that Lin Yi accepted him in the end because of this!

Lin Yi did take good care of Qiao hongcai, but he didn't give her as much as he did! Xiao ran understood this.

"That's a good brother!" Lin Yi smiled and patted his shoulder. He paused for a moment. "You and Hong Cai don't need to worry about the spirit herb seeds like the others for a while. I think you can take this opportunity to prepare to break through to the foundation building realm. After all, you two have the foundation building pills in your hands, so there's no need to delay this matter for too long."

The miserable senior brother nodded in agreement and said, ""Junior Brother Lin is right. To us cultivators, no matter what the rules are, the most important thing is still strength. As long as we are strong enough, everything is easy to talk to. Even if we fall behind temporarily, we can still catch up in the future. However, if we are not strong enough, it doesn't matter how advantageous our position is. Therefore, strength is the way to rule."

"Breaking through to the foundation establishment stage? I was also thinking the same thing!" Qiao hongcai said excitedly.

To be honest, he was the one who disliked Meng Tong the most out of all of them. He felt extremely aggrieved when he saw Meng Tong, this trash, successfully reach the foundation building stage while he was too afraid to take the foundation building elixir.

If he kept this up until Meng Tong came to challenge him, he'd have no chance of fighting back against a Sky Class full master-he'd be defeated by Meng Tong face to face, and that feeling would be even worse. Just thinking about it would drive him crazy!

And so, he'd been planning this for a long time, and after listening to Lin Yi and his poor senior brother's suggestions, he made up his mind-whether or not he succeeded, he'd have to find a chance to try.

If he succeeded, then he would have the power to fight Meng Tong!

However, in comparison, Xiao ran, who was more powerful and had a deeper Foundation than him, appeared to be a little hesitant. "This ... That's true, but if I'm not completely confident, I'm afraid I'll waste this rare foundation building pill ..."

He'd already touched the wall between Sky Class full foundation and Foundation, but there was still a chance of failure when it came to Foundation-and it wasn't a small one.

With Xiao ran's nature of seeking perfection, he would not take this step easily unless he was fully prepared.

"You ah, although this steady temperament is a good thing, sometimes it's better to take some risks. After all, how can cultivation always be without danger? Even if you fail this time, there's still a next time, right?" Lin Yi explained, smiling.

In his opinion, Xiao ran's character was very reliable, and he was quite talented. He would definitely be the material for great things in the future. However, this guy was a little too comprehensive, and sometimes he would become a burden.

On the contrary, Qiao hongcai, who was far less confident in breaking through to the foundation establishment stage than him, was more courageous in taking this step. Although many people thought that this was a rash move, it was also a form of motivation at times!

After all, cultivation had always been like a boat sailing against the current. If one did not take this step for a long time, they might fall behind others and never have the chance to surpass them again.

Xiao ran was a little stunned when he heard this.

Lin Yi didn't need to say this-he knew this himself. In fact, he knew himself far better than a bystander like Lin Yi. Being steady and low-key was his strength, but sometimes, he was a coward, which became a weakness in his character.

With his current strength and Foundation, in addition to the foundation building elixir he had obtained from the trial at the back mountain, his chances of breaking through to the foundation building realm were actually not small, at about 70%.

If it was Qiao hongcai, he wouldn't even need Lin Yi or his brother's reminder-he'd be ready to break through to Foundation already, but he was still preparing. 70% wasn't enough for him, and he'd wait until he had 80% or even 90% before he'd take the risk.

It couldn't be said that he was timid, but this was entirely due to his personality. He was calm when he didn't move, but when he did, he had to be completely confident.

At other times, this might not be a bad thing. However, in the current welcoming new pavilion, where the competition between the newcomers was so intense, it was not very suitable. If he continued to hesitate, even if he had the advantage in strength, he would gradually be caught up, or even surpassed.

"Alright, I got it." Xiao ran finally took a deep breath and nodded under the encouraging gazes of Lin Yi and the others.

He couldn't let trash like Meng Tong ride on his head all the time-if everything went as expected, he'd be up against him in the next challenge, and he couldn't lose face for Lin Yi. A 70% chance was not small, it was time to take a gamble!

After all, Lin Yi's enemies were Xu lingchong, Meng jueguang, and the others. If they had to force Lin Yi to take action personally to deal with a small fry like Meng Tong, then it would be a dereliction of duty on Xiao ran and Qiao hongcai's part!

Lin Yi and the poor guy looked at each other and nodded, pleased.

As a small group, Lin Yi alone wasn't enough. Everyone had to be strong enough to take charge of a group. This way, they'd be able to have a bigger voice in the future, and get rid of all the obstacles in their way.

After coming to an agreement, they immediately went to find Meng jueguang. After all, leaving aside the matter of breaking through to Foundation establishment, the exchange of immortal's caves between the newcomers still needed the approval of the steward.

"What? You want to exchange cave abodes with Xiao ran?" After hearing Lin Yi's words, Meng jueguang and the others were stunned. (The mobile game "the school Belle's personal bodyguard" is already online. Search for "the school Belle's personal bodyguard" in the browser and download it immediately! The murlocs are in the eastern sea server!

Chapter 3773 Didn't Dare To Agree

Since the first round of the challenge was about to start in the afternoon, they were prepared to let Meng Tong challenge Lin Yi from his original spot at the 14th cave. After all, this was part of the challenge plan, and they could also test Lin Yi's strength. It was killing two birds with one stone, and even Xu lingchong came over to support him.

She didn't expect Lin Yi to come up with something like this just as the challenge was about to start.

"I remember that senior brother Meng said at the beginning that the welcoming new pavilion allows newcomers to exchange immortal's caves with each other. So, there should be no problem for us to do this, right?" Lin Yi raised a brow.

Meng jueguang and Xu lingchong looked at each other and quickly understood Lin Yi's intention. Anyone with eyes could see that under the rules of the challenge, cave number one was definitely the most awkward and unsolvable position. Lin Yi was obviously trying to act cool by asking to exchange with Xiao ran!

This kid was indeed a newbie at acting tough. He was always thinking of acting tough in front of his underlings. It was like he had a mental disorder!

"Although that's true, it's still a critical period for the newcomer examination. It seems a little inappropriate for you to exchange abodes now." Meng jueguang said perfunctorily.

He knew what Lin Yi was trying to do, but he didn't have the time to think about the pros and cons yet. He needed to delay and think about it.

"It is the welcoming new pavilion's rule to allow newcomers to exchange immortal's caves with each other. Do you think that the rules have to be changed because of a temporary newcomer assessment? Furthermore, in the rules of the newcomer assessment, there is not a single rule that goes against this. Please state clearly where senior brother Meng's words are inappropriate!" Lin Yi's face was calm as usual, but there was a hint of unquestionable authority in his tone.

Even if Meng jueguang didn't agree, Lin Yi still had other ways. As long as he challenged Xiao ran in the first round in the afternoon and defeated Xiao ran as a formality, they could still exchange caves.

However, in this way, Xiao ran would have one less chance to challenge as compared to exchanging abodes in advance. He would also lose two points from cave No. 14 at the foot of the mountain.

If Lin Yi beat him as the owner of cave No. 14, he'd trade the cave with Lin Yi, but the points would be taken from him. Lin Yi would get his initial fifteen points, but he wouldn't get Lin Yi's initial two points. From Xiao ran's point of view, it would be a bit of a loss.

Of course, Xiao ran wouldn't complain about this, because the two points didn't benefit others, but fell on Lin Yi's head. But Lin Yi wasn't satisfied.

Since he proposed to exchange cave abodes with Xiao ran, he didn't take these points seriously at all. These points were of no use to him, but they might be very important to Xiao ran.

Since he'd decided to do it, he had to do it to the best of his ability. He was fighting for Xiao ran's welfare, so Lin Yi naturally had to pay attention to it.

Lin Yi's performance moved all the newbies present-he was willing to jump into the pit to save his underlings! It was rare to see a boss love his underlings to this extent!

Everyone, especially Lee Zheng Ming, was deeply touched.

Luckily, he had the foresight to join boss Lin Yi's side-if it were a stupid boss like Meng Tong, he'd probably be forced to jump into Lin Yi's trap instead of helping him out. F * cking hell, it'd be a waste to compare people!

He did not feel this way for no reason. He had been in the welcome Pavilion for more than a month, and he had encountered this kind of situation many times. In fact, ever since he took the initiative to approach Meng jueguang, Meng Tong had not taken care of him. Instead, he had been setting him up.

After being defeated by Lin Yi in one move on the first day, Meng Tong could only stay in cave number fifteen, which was the worst and worst cave. Li Zhengming, on the other hand, occupied cave number

two because of Meng jueguang's care. Meng Tong had been forcing li Zhengming to change his cave, but li Zhengming refused, which led to all kinds of resentment and hatred.

Then, when he went to the spiritual Jade Hall to mine, Meng Tong had forced him to contribute the spiritual jades he had excavated in various ways, both openly and covertly. However, he was unwilling, and there were all kinds of resentment and hatred.

After that, during the trial at the back of the mountain, Meng Tong had forced him to put the spiritual herbs on his head. Even if he had to give him one less spiritual herb in order to keep his place in the top ten, he would immediately be filled with all kinds of hatred.

It was fine if he didn't think of her when it came to good things, but when it came to bad things, he was the one who was testing Lin Yi!

With all these misdeeds, it was a huge insult to Lin Yi's boss to put Meng Tong next to Lin Yi. A piece of trash like Meng Tong wanted to be a new boss? what kind of sh * t was this?!

Faced with Lin Yi's interrogation, Meng jueguang and Xu lingchong looked at each other before replying, "Although there is such a rule, what you are doing now is taking advantage of a loophole. As the senior brother in charge of the GreenCloud Pavilion, I can't make a decision. It just so happens that young master Xu is here. As the saying goes, the onlooker sees more clearly. I believe young master Xu will definitely give a more reasonable and fair answer. I'll explain the situation to young master Xu in detail, so you can wait here for a while. "

With that, Meng jueguang ignored Lin Yi and the others, following Xu lingchong to the side to discuss.

"Hehe, these guys are really sleazy. Even for such a small matter, they have to discuss the pros and cons before giving an answer. They are really petty." Qiao Hong Cai saw these people's posture as if they were facing a great enemy and couldn't help but laugh in a low voice.

Xiao ran laughed, "they're scared of boss Lin Yi. They're probably afraid that there's some kind of scheme behind this. They're using their own yardstick to measure a gentleman's heart. They're right!"

Lin Yi chuckled, "it doesn't matter. As long as they have a normal IQ, they'll understand that this is a good thing for them. If they don't even have this IQ, then there's no need to worry about them anymore. They're just clowns."

The miserable senior brother couldn't help but sigh when he saw this scene.

As the eldest Senior Steward, Meng jueguang had always been a domineering man. However, despite being a Senior Steward, he had been powerless in front of Meng jueguang for the past few years.

Yet Lin Yi, a rising star in the secular world, was this worried-not only Meng jueguang, but even Xu lingchong, who had a deep background, was worried! This was something he wouldn't even dare to imagine in the past!

Chapter 3774 This Is Good

This Lin Yi Junior Brother was just as Lu said-he wasn't an ordinary person. He'd be like Zhang Liju, the divine Alchemist who'd also come from the secular world, and become a dragon!

Xu lingchong, Meng jueguang, and the others came to a secluded area and asked, "Old Meng, do you think Lin Yi has some other motive for doing this? Although this guy isn't very smart, he wouldn't jump into a trap of his own accord, right?"

Meng jueguang frowned and thought for a moment before saying in a deep voice, "Young master Xu, I've been thinking about it. Lin Yi's doing this will only win people's hearts, it's useless. This is the challenge rules, no matter how hard he tries, it's useless."

"Maybe he's after the 15 initial points in cave number one?" Meng Tong suddenly said.

Meng jueguang rolled his eyes at him and could not help but curse, "Are you an idiot? even if you can get 15 points in cave No. 1 at the foot of the mountain, you can't challenge others to get points anymore. You can only wait for others to challenge you. What's the point of guarding these 15 points?"

However, Xu lingchong was a little hesitant. "Didn't you say that this guy chose 40 spirit herb seeds at once when he was in the pill Hall? If he changed to cave number one at the foot of the mountain this time, not only would he be able to win over the People's hearts and successfully obtain 15 points, but because no one wants to take the initiative to enter the pit, I reckon that no one will be willing to challenge him in the first ten rounds. "

"That's right. This way, this guy can save his energy and focus on dealing with the 40 spiritual herb seeds. Killing three birds with one stone. He's really cunning. Fortunately, young master Xu saw through him!" Meng Tong quickly agreed.

With Xu lingchong's words, even Meng jueguang, who had originally thought nothing of it, could not help but become cautious.

Li Zhengming saw this and knew that things were not looking good. If this continued, Lin Yi's plan to exchange caves with Xiao ran would probably fail. After all, the rules were set by people, and Xu lingchong was here. It would only take a few minutes for him to find an explanation to stop him.

After a moment of silence, Lee Zheng Ming suddenly said, ""Young master Xu, senior brother Meng, I have an idea, but I don't know if I should say it."

Meng jueguang and Xu lingchong looked at each other. After all, li Zhengming was the most valued person among the new recruits, other than Meng Tong. Meng jueguang immediately nodded and said, "You tell me."

"It's like this, I think that Lin Yi's overestimating himself. He took the forty seeds himself, and that was already suicide. With our GreenCloud Pavilion's standards, no matter how much effort we put in, these forty seeds will all wither to death, and Lin Yi won't be an exception!" Lee Zheng Ming said with conviction.

When Xu lingchong, Meng jueguang and the others heard this, they nodded in agreement. In fact, if they wanted to ensure the survival rate of the spirit herb seeds, they had to be in a specially built environment like the spirit herb nursery. Otherwise, even with their conditions, they could not guarantee the survival rate.

So when Lin Yi said he'd pick all forty, he'd already jumped into the pit. There was no way he'd get out.

After a short pause, Lee Zheng Ming continued, ""So, I don't think it's possible to change the result even if he and Xiao ran were to exchange cave abodes. Moreover, this is a good thing for boss Meng Tong!"

"What do you mean?" The few of them were stunned.

Li Zhengming said slowly, "in fact, if things continue to develop normally, Lin Yi would've killed himself in the trial of elixirs. So, as long as boss Meng Tong wins the points according to the plan, he'll definitely be able to overtake Lin Yi. However, if we keep Lin Yi in cave number fourteen, there's a big variable that can easily ruin things."

Meng jueguang was also a wily old fox, and he understood what Lee Zheng Min meant.

"Zhengming, you're saying that Lin Yi will come and challenge Meng Tong every time he challenges someone?" Meng jueguang gasped.

"Not bad." Li Zhengming nodded, "although boss Meng Tong is already an early Foundation Stage master, Lin Yi can't be underestimated either. Judging from his performance last time when he was able to withstand a full-force attack from a peak early Foundation Stage master, boss Meng Tong's situation won't be too optimistic if he's up against him."

"What the hell are you talking about?" Meng Tong was instantly pissed off. Lin Yi was his arch-enemy, and Li Zhengming just said that his situation wasn't looking good in front of young master Xu. He was asking for a beating!

"You're the one who's talking nonsense!" Meng jueguang glared at him. Between Meng Tong and Lin Yi, it was obvious who was stronger. This was something that anyone with eyes could see, and they naturally wouldn't be stupid enough to deceive themselves.

Even if they arranged for Meng Tong to fight Lin Yi, they only wanted him to test Lin Yi's strength. They never expected him to win. If Lin Yi was so easy to deal with, why would they be here racking their brains?

Only then did Meng Tong let out an embarrassed Hmph. In fact, even he himself, who was bursting with confidence after entering the Foundation Stage, didn't dare to say that he was 100% able to take Lin Yi down after the resistance test. He thought that he only had a 30 - 40% chance of winning.

What he didn't know was that with his strength, he didn't even have a chance of winning against Lin Yi. 30 - 40%? what a joke!

"Zhengming's concern is very reasonable. If every time Meng Tong challenges a higher-up, Lin Yi will immediately challenge him and beat him back to his original state, then Meng Tong won't get any points at all in this Challenge Round. This way, these points will even be enough to make up for the losses he suffered in the trial of spirit herbs. Meng Tong won't have any chance of overtaking him!" Meng jueguang agreed.

For the sake of his senior brother's face, he wanted to kick Lin Yi down from the number one position. If he blocked Meng Tong's path to promotion just to prevent Lin Yi from getting what he wanted, it would obviously not be worth it.

He wasn't the only one-even the outsider, Xu lingchong, wasn't happy seeing Lin Yi at the top of the leaderboard.

"So you're saying that if we agree to Lin Yi's request, we'll be able to kick him away without giving him any chance to cause trouble?" Xu lingchong nodded thoughtfully.

"Young master Xu is wise, you're right!"

"There'll be plenty of chances to test his strength in the challenge anyway," Meng jueguang quickly flattered, "why don't we save it for the last? when the time comes, it'll be a done deal. Whether Meng Tong wins or loses, Lin Yi will be stepped on!" Since this kid wants to act cool, then let him. Young master Xu, what do you think?"

"Well, that's it then." "If it's the last, I can help Meng Tong think of a way!" Xu lingchong agreed. I can't help him every time-if Lin Yi keeps challenging him, even I won't be able to do it!"

Chapter 3775 Disdain

After all, Meng Tong wasn't a direct subordinate of young master Xu like Kang Zhaoming. Young master Xu would still want to take in a scheming guy like Meng jueguang, but he wouldn't even look at someone like Meng Tong if he wanted to join him.

Of course, it was a different story now that they were dealing with Lin Yi. To him, if he could see Lin Yi being stepped on, it would be a great pleasure!

However, even with his background, it was okay for him to help Meng Tong once in a while. But it was unrealistic and unnecessary to make him bleed for every challenge.

After all, Meng Tong's mission was only to test Lin Yi's strength. If they expected him to kill Lin Yi directly, even with young master Xu's help, they could only say that they were dreaming!

After the group came to a consensus, Meng jueguang turned to Lin Yi. "Since you've made up your mind to exchange abodes with Xiao ran, and there's such a rule, I won't stop you as the eldest senior brother in charge. Fine, I'll agree to this."

"Alright, thank you for your understanding, senior brother Meng." Lin Yi smiled faintly-he'd expected this answer, not surprised at all.

"You're too kind, Junior Brother Lin Yi. " Meng jueguang and Xu lingchong couldn't help but laugh at Lin Yi's calm attitude. What did he mean by simple-minded but physically strong? This Lin Yi was a classic example! Although he wasn't weak, his intelligence was lacking!

"You can continue to act tough. Since you're so stupid as to take the initiative to jump into the pit, then just stay in the pit and don't think about coming out again. When things are settled, I'll let Meng Tong test you out!"

After Meng jueguang nodded, Lin Yi only needed to report this to the Ying Xin Pavilion, and he could exchange caves with Xiao ran. In addition, Xiao ran would be able to challenge the others for challenge points in the first round of the afternoon challenge as the owner of cave number fourteen.

Time flew by. After noon, the new disciples of the three pavilions gathered in the main hall of the welcome Pavilion once again to prepare for the first round of the challenge.

Faced with this challenge segment, which was quite similar to the previous years 'assessment system, all the newcomers had a bit of nervousness and excitement on their faces.

Although this was already the fourth assessment segment, and the rookies should already be very used to the pace of the assessment, this was after all different from the previous three assessments.

Even though the first three tests were not easy, they were all one-sided tests. If you had the ability, you would get points. If you didn't, you wouldn't get any points. There weren't too many variables or surprises.

However, this time was different. The most prominent part of the Challenger League was competition. It was a brutal competition between rookies. There were many variables and accidents in this. It wasn't just about strength.

Planning and luck were both important elements.

If they didn't prepare a strategy in advance, it wouldn't be useful no matter how strong they were. Once they were targeted, they wouldn't even know how they died.

Whether they should take the initiative to challenge, when to do so, what they should do when they were challenged, whether they should go all out to fight for points, or show weakness and hold back their strength, or even retreat to gain some leeway. These were all key questions that every newcomer had to think about.

If he couldn't give an answer that was most suitable for him, then even if his strength was higher than others, he would still end up with a bitter end.

Hu Yunfeng finished his announcement on the stage, and the first round of the challenge competition officially began.

The three pavilions' rookies were separated into three different areas. They were challenging each other at the same time. However, the scene was rather cold. Not a single one of the three pavilions' rookies took the initiative to challenge the other rookies.

This was not a surprise. In fact, anyone with a quick mind could understand the trick.

According to the rules of the Challenger League, every newcomer had a chance to challenge someone. This was optional. However, everyone had a chance to be challenged at the same time. This was a mandatory chance that couldn't be rejected. If they were selected, they wouldn't be able to escape.

As such, a problem arose.

Once one took the initiative to challenge others, then no matter if they won or lost, a large amount of true energy would inevitably be consumed in the end. Even if one's strength was stronger than the other, once the other party took advantage of the situation and had no choice but to accept the challenge, it was basically a disaster.

After all, they were all newbies, and even if there was a gap between them, it shouldn't be that big. Of course, Lin Yi was an exception.

Therefore, for any newcomer, the most feared situation was that they had just challenged someone, and then immediately another person would take advantage of the situation. That would be a big loss.

Therefore, the current stalemate was inevitable.

In fact, when this rule was made, the higher-ups had already considered the possibility of such a situation. Some people had suggested to set up some additional rules.

For example, all challenges had to be reported in writing before the start of the challenge. Another example was that every newcomer had World War II immunity. In other words, as long as they had taken the initiative to challenge others before, they could no longer accept anyone's challenge in this round. This could avoid the awkward situation of everyone being afraid of each other in public.

There were many such suggestions. At least, the rules seemed fairer and more reasonable, and it could also protect the newcomers.

Fists and feet had no eyes, so it was not unusual for casualties to occur in the process of battle. In fact, there were a few deaths every year in the past, and if one was forced to participate in the battle in a bad state, the possibility of casualties would only be greater.

However, Shangguan Tianhua, the pavilion master of the rising Sky Pavilion, suddenly said something in the elders' meeting, which shut everyone up.

"What's the point of the newcomer assessment? isn't it to let the newcomer with the most potential stand out? If he can't even handle such a small problem, what's the point of setting up protective rules? what's the use of this kind of newbie even if he stands out? can he carry the weight of the three pavilions?"

As soon as he said that, the other elders were rendered speechless. With Shangguan Tianhua's overwhelming power, even the other big shots of the Council of Elders would not dare to disobey him easily.

In fact, when the welcoming new pavilion had first submitted the assessment rules, Shangguan Tianhua had scoffed at them.

In his opinion, only the cruelest and most primitive competition could make the strongest newcomer stand out. Once the assessment rules were complicated, it might be more comprehensive and fair on the surface. He did not know that this was the same as the examination system in the secular world. The newcomers who were finally selected looked very strong and beautiful, but once they were released, they would immediately become weak dregs without any competitive power.

Chapter 3776 Challenge By Name

After all, there was no such thing as fairness in the world of cultivation. A fair environment was created by man, but the people who were selected had to face a cruel world that was completely unfair. Tragedies often happened like this.

In the eyes of a powerful figure like Shangguan Tianhua, it was a cruel and primitive competition, like one Mastiff out of ten dogs, that would truly select the newcomers with the most potential.

After throwing ten puppies into the cave and killing each other, the one that survived would definitely be the strongest one. This was the law of nature. It was cruel and simple, but extremely effective.

However, even though Shangguan Tianhua was disdainful of the elders' suggestion, as the high and mighty Pavilion master of the rising Sky Pavilion, it was impossible for him to ask about every detail. Otherwise, people would say that he had extended his hand too far.

The reason why he had spoken this time was purely because these people had taken the rules of the assessment too seriously. The dignified elders Guild had actually discussed for half a day just for the matter of the welcoming new pavilion. Shangguan Tianhua could not stand it any longer, so he had spoken out to give them a severe blow.

Of course, this involved all kinds of behind-the-scenes games between the big shots. Some restless people wanted to make a big deal out of it and use this to expand their influence, but he, Shangguan Tianhua, wanted to suppress these signs. All these were not something that could be revealed to outsiders.

Regardless of how the higher-ups in the Council of Elders were playing games, at least there was no objection to this point after Shangguan Tianhua had spoken. Without the protection of the corresponding rules, how to break this awkward deadlock would be left to the newcomers to solve themselves.

Ordinary rookies did not dare to take the initiative to challenge him due to various concerns, but those truly powerful rookies would definitely not be bound by such a small problem.

Otherwise, if no one dared to break the deadlock, it could only be said that there were no strong people in the welcoming new pavilion this year. At least, there was no such peerless heaven's pride expert as the current master of the law enforcement Hall, Gongyang Jie.

As expected, the awkward situation didn't last for long. In less than half an incense's time, it was broken by someone. The first person to issue a challenge was unexpected yet reasonable. It was Meng Tong of the GreenCloud Pavilion.

Meng Tong was the first to step onto the stage. His extremely invasive gaze slowly swept across the faces of every GreenCloud Pavilion newbie. Every newbie who was swept by his gaze subconsciously shrank their necks, not daring to look him in the eye.

This domineering feeling of being invincible was something that Meng Tong had been dreaming of ever since he entered the welcome Pavilion, but he had never been able to achieve it. What was the meaning of being in the limelight? this was the real limelight!

Meng Tong couldn't help but laugh smugly. He was extremely arrogant.

"What's with this idiot? if boss Lin Yi wasn't in cave number one and couldn't challenge others, would he even have a chance? It's true that when there's no tiger in the mountain, the monkey will be the king!" Qiao hongcai cursed.

In the entire GreenCloud Pavilion, there were only two people who were stronger than the other newbies and had the confidence to break through the situation. One was Lin Yi, and the other was Meng Tong.

As for the others, Xiao ran, Lee Zhengming, and the others, although they had a huge advantage against the other newbies of the GreenCloud Pavilion, they were only sky Class full Masters after all. Even if they were stronger than the other Sky Class full Masters, they wouldn't be able to completely crush them.

To put it bluntly, only Lin Yi and Meng Tong had the strength to crush all the other new disciples of the pavilion. They were both in the Foundation Stage, and were above these Sky Class peak Masters. One-on-one crushing was a natural thing to do.

But now, Lin Yi had jumped into the pit himself because he had switched caves with Xiao ran. The only one left who had the capital to show off was Meng Tong.

After all, Meng Tong's strength was at the initial stage of the foundation building realm. No matter how much Qiao hongcai disliked Meng Tong, he couldn't change the fact.

Lin Yi and the others looked at each other and smiled at Qiao hongcai's complaint. It was a good thing that he couldn't challenge Meng Tong, who was ranked lower than him. Otherwise, with his personality, he would be the first one to challenge him, and Meng Tong would be forced to accept the challenge.

"Let's see who this guy is going to challenge. If I'm not wrong, he will start with you two. " Lin Yi speculated.

As expected, before Lin Yi could finish his sentence, Meng Tong locked his eyes on Xiao ran and said proudly, "I, Meng Tong from cave number 15, challenge Xiao ran from cave number 14!"

As soon as these words were spoken, the other newbies of the GreenCloud Pavilion heaved a sigh of relief. Immediately after, their gloating gazes all focused on Xiao ran.

Strictly speaking, Meng Tong and the others were on Meng jueguang's side, but it was precisely because there were too many of them that they were not given any benefits or care.

The points were related to their future. Meng Tong would not give up, and neither would they. If Meng Tong wanted to get to the top, he would have to step over their dead bodies. This was inevitable.

However, before they were stepped on by Meng Tong, it was still a happy scene to see Xiao ran's bad luck in front of them.

Although he was mentally prepared for this, Xiao ran was still a little stunned when the real thing came to an end. Then, he stepped into the ring.

"Don't work too hard. Pay attention to protecting yourself. It's not too late to get back at you after you've built your Foundation. There's still a long time before the competition. If you can't do it, just admit defeat." Lin Yi suddenly reminded.

Although Xiao ran was very strong, he was still a far cry from Meng Tong, an early Foundation establishment expert. He had almost no chance of winning.

Lin Yi wasn't worried that Xiao ran would go all out to fight Meng Tong, but he was worried that Meng Tong would take the chance to kill Xiao ran!

The nature of the challenge Tournament was basically the same as a duel. Although there would be some emergency measures, it would never avoid life and death. As the saying went, fists and feet had no eyes, and life and death were determined by fate. This was a natural rule of the ring. Even the welcoming new pavilion, which had always been very protective of newcomers, was no exception.

Just like the battle between rookies, there were no restrictions in the Challenger League. Even if the opponent was killed in the ring, no one would be held responsible.

However, there was one thing that was stated clearly that no weapons were allowed in these kinds of challenges. After all, a divine weapon could affect a person's strength to a large extent.

If a Sky Class full master suddenly took out a powerful weapon, he could even challenge an early Foundation Stage master-this was obviously unreasonable. After all, what the welcoming new pavilion needed was a strong newcomer, not a parasite that relied on a divine weapon to survive.

Moreover, they could still control their fists and legs. However, if they all brought weapons into the battle, they would either die or be injured. The three great pavilions only recruited so few new people. Before the challenge Round ended, they would probably all be dead.

Chapter 3777 I Give Up

However, even if he didn't use any weapons, with Meng Tong's current strength, if he really wanted to take the opportunity to kill Xiao ran, he was still very confident. And from the standpoint of the two sides, the possibility of this happening was more than 90%.

Since they couldn't deal with Lin Yi directly, they'd start with his lackeys-that was the simplest logic!

Xiao ran paused at Lin Yi's reminder. He turned around and smiled,""I understand. I will protect myself!"

With that, Xiao ran walked up to the ring with his head held high. He didn't seem nervous at all. His expression was as calm as water, giving people the feeling that he was even more confident than Meng Tong!

F * ck, this guy couldn't be a hidden master like Lin Yi, could he?!

Seeing Xiao ran's performance, Meng Tong couldn't help but Mutter in his heart.

It was just as Lin Yi had thought-Meng jueguang had told Meng Tong to kill Xiao ran and Qiao hongcai as mercilessly as he could when fighting them.

However, the situation before him made Meng Tong's heart feel a little weak. Although they had been focusing on Lin Yi and ignored Xiao ran and Qiao hongcai, they had fought against each other during the back mountain test.

At that time, Meng Tong had yet to successfully build his Foundation, and Xiao ran was exhausted from being chased by so many people. However, his strange and mysterious Shadowstep left a deep impression on them.

To be able to possess such a movement technique, could it be that he was an ordinary person?

Although Meng Tong had always been arrogant, he still had a good eye for people. Otherwise, he wouldn't have been able to reach where he was today.

Walking up to the ring, Xiao ran's expression was as calm as an ancient well. He stared back at Meng Tong without backing down. Although the aura around him was still calm and indifferent, if one felt it carefully, one could detect the hidden powerful fighting spirit!

For a moment, the other rookies who were gloating in the audience suddenly fell silent.

Like Meng Tong, they had more or less seen Xiao ran's strength. At least, during the back mountain trial, he was not at a disadvantage when facing them, except that he could only choose to run away when he was outnumbered. He was far from being in a sorry state like Qiao hongcai.

Xiao ran was a strong man, and while he wasn't as overpowered as Lin Yi, he wasn't someone who could be dispelled. This was a common understanding between them.

Looking at Xiao ran's calmness in the face of Meng Tong on the stage, the rookies had a faint feeling that Xiao ran might not have no chance of winning!

"Tsk, you're just a heaven class peak phase weakling, why are you acting all high and mighty! Of all the things you can learn, all you learn is some ignorant fool who doesn't know the immensity of heaven and earth to show off. You're really stained by ink, but I'm in a good mood, so I can teach you a lesson!" "But it's understandable. Your boss is the king of acting tough among the new artistes!" Meng Tong suddenly sneered.

He had already reacted. So what if Xiao ran wasn't simple? as long as he hadn't built his Foundation, he would never be a match for Xiao ran. The only difference was that he would have to use a little more effort.

Before Xiao ran could say anything, Qiao hongcai couldn't help but jump out and fight back for him,""May I ask this newbie Meng, if you add color to the ink-black color, what other patterns can you come up with besides black? I didn't study much, so please don't lie to me!"

As soon as he finished speaking, the whole audience burst into laughter. When Meng Tong came to his senses, his face instantly turned the color of pig liver.

I didn't study much, so please don't lie to me. Since you didn't read much, how did you become a complete heaven class? are you going to say that you can't even read?

If he wasn't standing in the ring at this moment, Meng Tong would probably have rushed over and stepped on Qiao hongcai. When one's intelligence had been reduced to a laughing stock, what was the use of being an early Foundation establishment expert?

Lin Yi smiled and nodded at Qiao hongcai-this guy was quite brave, speaking his mind straight from the start, and he was still the same now!

Meng jueguang and the others, on the other hand, could only hold their foreheads in their hands, speechless. This Meng Tong guy was really a piece of trash. Fortunately, they didn't expect this guy to be able to deal with Lin Yi, or they would've been blind.

Meng Tong had no choice but to glare at Qiao hongcai. He then turned to the judge sent by the three pavilions to supervise the fairness of the trial. He suppressed his anger and said,"Lord Judge, can we start now?"

The judge wasn't a disciple of the GreenCloud Pavilion, but a disciple of the mysterious Pavilion who was specially assigned to this place in order to prevent secret operations. Seeing this, he smiled indifferently and immediately announced,""Both sides are ready. The first round of the rookie Challenge will now begin."

Meng Tong immediately laughed hideously. The aura of an early stage foundation building expert was fully displayed around him. It seemed that he intended to go all out to kill Xiao ran as soon as he arrived. He was ready to kill Xiao ran to vent his anger!

After all, there was an absolute difference in their levels. No matter how impressive Xiao ran was, it was still quite dangerous for him to face an early-stage Foundation establishment expert who was going all out. It was not an exaggeration to say that he was in danger.

However, before Meng Tong could make a move, Xiao ran turned to the judge and said, "I give up."

F * ck! Meng Tong almost choked on his own breath. His body instantly spasmed and he almost spat out a mouthful of blood. The crowd below the stage was in an uproar as they looked at each other in disbelief.

'You've pretended to be an expert for a long time. Not only did you tease Meng Tong, but even the newcomers in the audience were looking forward to it. In the end, you just said 'I give up?'

Are you F * cking kidding us?

Not only were Meng Tong and the others stunned, but even Lin Yi and the others didn't expect this. Giving up was the same as admitting defeat. Xiao ran never said he would do this!

"This, how can this be? wouldn't that be letting Meng Tong off easy?" Qiao hongcai was immediately dumbfounded.

In his opinion, when facing a trash like Meng Tong, even if he was no match for him in strength, he must not let the other party have an easy time. Even if both sides were injured or even fought to the death, he would not hesitate. What was the difference between Xiao ran losing without even fighting and surrendering to the enemy?

However, Lin Yi smiled, ""There's no such thing as 'cheap'. Xiao ran is much more flexible and pragmatic than I thought. Giving up this round will only mean losing two challenge points. Other than that, he won't be affected in any way. Not only will he not be injured, but he won't even waste a trace of true energy. He can even get the most favorable position, cave No. 15, at the foot of the mountain. In the next few rounds, he can build his Foundation in peace. He's a classic example of retreating to advance. Well done!"

Chapter 3778 Retreating For The Sake Of Advancing?

"That's right. According to the rules of the challenge, as long as you give up or admit defeat, the opponent can't attack again. This way, Meng Tong won't have any chance to attack. However, to be able to make such a decision, Junior Brother Xiao must be very bold. " The miserable senior brother also sighed.

It was obviously not wise to fight Meng Tong head-on when they knew that their strength was not equal. However, it would take a lot of courage to admit defeat in public. A little hesitation might cause blood to splatter on the spot.

After Xiao ran finished speaking, everyone present was stunned for a long time. Even the judge from the mysterious Pavilion was stunned for a long time before he regained his senses and announced, ""Xiao ran from cave number 14 at the foot of the mountain has forfeited. Meng Tong from cave number 15 at the foot of the mountain wins!"

"Hmph, at least you know what's good for you. Otherwise, this Lord would have long kicked you into meat paste!" Meng Tong glared at Xiao ran and sneered.

Xiao ran glanced at him expressionlessly and didn't say anything. He turned around and walked down the ring, only to be greeted by the boos of the other rookies.

But all of a sudden, the fighting spirit hidden in his body became even stronger.

"After you've reached the Foundation Stage, you can come and deal with this guy properly." Lin Yi smiled and patted his shoulder.

"Yes." Xiao ran nodded heavily. When he looked at Meng Tong on the stage again, his fighting spirit had been restrained, and he had returned to his ordinary self.

However, Lin Yi, who was familiar with him, knew that this idiot had been targeted by a powerful guy. He didn't even need to do it himself. Perhaps it wouldn't be long before a new Xiao ran would challenge this guy.

With Xiao ran's Foundation, even if Meng Tong took the lead in building his Foundation, it was hard to say who would win.

On the stage, Meng Tong didn't come down immediately. According to the challenge rules, no one could challenge him as the master of cave number fourteen, except for Xiao ran, who was ranked lower than him. However, he didn't go down immediately. Instead, he pointed at Qiao hongcai, who was standing beside Lin Yi.

"It's your turn next round. When that time comes, will you learn from others and be a coward? I'll be waiting to see!" Meng Tong laughed contemptuously and turned to leave the stage.

"F * ck, what's with this idiot? does he really think he's invincible in the early Foundation establishment stage? just wait and see!" Qiao hongcai clenched his fists.

He wasn't Xiao ran. Even if he knew that it was wise to retreat in order to advance, he couldn't take it lying down. He knew that he would lose, but he would rather fight to the death with Meng Tong. He would never give up on his own initiative!

Lin Yi and the others looked at each other and shook their heads helplessly. They couldn't persuade Qiao hongcai to change his mind.

However, this was also good. He could fight with Meng Tong, an expert in the early stage of the foundation building realm. This kind of cross-level combat would be greatly beneficial for him to break through to the foundation building realm later. At that time, he just had to be careful not to be killed by Meng Tong.

In the first round of the GreenCloud Pavilion's Rookie Challenge, although Meng Tong had won without a fight, there was no doubt that he had broken the awkward stalemate. This allowed the other rookies to not be afraid of each other and not dare to take the initiative to challenge him.

Sure enough, a short while after Meng Tong stepped down from the stage, a newcomer immediately issued a challenge. It was the owner of cave No. 12.

Originally, if Meng Tong hadn't made a reservation for the next round of challenge in front of everyone, Qiao Hong would have definitely been the first to make trouble. However, he really didn't plan to fight again this round.

After all, no matter how straightforward his personality was, he wouldn't be stupid enough to know that he would have to challenge a stronger opponent in the next round, but still foolishly waste his true energy in this round. That wouldn't be brave, but rather stupid.

However, the fact that the owner of cave No. 12 went up first was more or less out of everyone's expectations, because this guy's name was Cha Wu. Although his strength had barely reached the full completion of the heaven class, he was still a weak newcomer.

In the first two rounds, being the first to leave the stage earned him one point, and in the second, he got ten points for challenging Sky Class late phase peak. In total, he got eleven points-he was now the last in the pavilion.

This Cha Wu was called a weakling by others and he definitely deserved it. He actually dared to follow after Meng Tong and take the initiative to challenge him. This inexplicable confidence really makes people surprised.

However, when he announced the name of the Challenger, the entire place was in an uproar.

"Cave number twelve Cha Wu challenges cave number one, Lin Yi!" Cha Wu looked down at Lin Yi and shouted.

Heh, strange things happen every year, but there are especially many this year!

Lin Yi raised an eyebrow in surprise at being called out in public. This guy was only a weak Sky Class full master, and he dared to challenge him? where did this guy get his courage from?

According to his original judgment, in this one-on-one challenge Round, Meng Tong was probably the only person who had the confidence to challenge him. If the others had even the slightest bit of brains, they wouldn't be so stupid as to take the initiative to come at him. He didn't expect such an accident to happen in the first round!

Under everyone's gaze, Lin Yi lifted his leg and was about to go up the stage, but before he did, he was pulled back by the miserable Shixiong to say a few words.

"Junior Brother Lin, this is a rare opportunity to advance by retreating. If you give up this round, you'll immediately get cave number twelve at the foot of the mountain. This position will not only be convenient for you to plunder points later, but also suppress Meng Tong. Two birds with one stone!" The senior brother said excitedly.

The rules were clear-if Lin Yi admitted defeat to this weakling, it'd be a bit of a joke, but anyone with eyes could see the underlying meaning.

He'd lost fifteen challenge points, but he'd gotten a chance to turn things around. With Lin Yi's strength, he could go through the caves one by one if he wanted to-he could even earn a hundred points, let alone fifteen!

To Lin Yi, who was trapped in cave one, this last-place scum of the GreenCloud Pavilion was like a Buddha saving a life. This kind of opportunity was something he couldn't even ask for.

Lin Yi only smiled at the suggestion, not saying anything as he walked up to the stage.

Lin Yi didn't look angry at all, nor did he show any fighting intent or killing intent. Cha Wu couldn't help but laugh inside-he was right!

As the number one newbie of the pavilion, all of them were well aware of Lin Yi's current situation.

Chapter 3779 How To Choose?

Lin Yi was indeed a very powerful man, but he'd stupidly trapped himself in cave number one just because he wanted to show off to his lackeys. He had no place to put his strength to use.

If this went on, Lin Yi's title as the number one newcomer would be crippled for good.

If Meng Tong, the biggest competitor, was cautious and did not take the initiative to challenge him, it was estimated that no one would take the initiative to give him points until the end of the challenge. In the end, he could only guard his poor starting points and end up in an embarrassing situation.

Cave number one corresponded to fifteen starting points, which was a lot for other newbies, but for someone like Lin Yi who got full points in two rounds, it wasn't even enough to fill the gap between his teeth.

He had the strength to crush everyone else, but he had to get through the entire Challenge Round like this. How could a guy like Lin Yi, who wanted to show off all the time, be willing to just let it go?

Even if you used your toes to think, you could feel the grievance and depression inside!

Of course, this was a pit of depression for Lin Yi, but for the other newbies, it was a great opportunity. It all depended on whether they had the courage!

When everyone knew that challenging Lin Yi was suicide, when everyone automatically ignored the number one newbie who'd dug his own grave, what would happen if a newbie suddenly jumped out to challenge him? and this newbie's cave rank was very low! What would Lin Yi Do?

Are you looking for death? That was just a subconscious reaction-any normal person would be able to see this opportunity once they came back to their senses, and Lin Yi was no exception.

Think about it, as long as they lost the first round, they would definitely be able to earn hundreds of points in the next challenge. Who would be willing to miss such an opportunity?

Once he missed it, it would be very difficult to have a second chance.

Thus, with this train of thought, Cha Wu, who was ranked at the bottom among all the GreenCloud Pavilion's new disciples, suddenly realized that his chance had come!

One had to know that even though it wasn't difficult for the other rookies to think of this, the problem was that they might not have the courage to throw the pot to the ground.

Even if they challenged Lin Yi and Lin Yi admitted defeat, they wouldn't be able to secure their spot in the first cave if they didn't have the strength. Not only would they lose the chance to challenge him, but they'd also have to give up the fifteen points sooner or later.

However, it may not mean much to other newbies, but to Cha Wu, this weak trash who is at the bottom, it has an extraordinary meaning!

The reason was simple. He was weak, and he had only gotten a pitiful 11 points in the first two rounds. If this continued, it was almost certain that he would end up at the bottom. Therefore, while the other rookies were still calculating how many points he had, he had already sentenced himself to death.

Many times, one also needed capital to break a broken jar, and this Cha Wu's capital could be said to be exceptional!

In his current situation, he was bound to be last anyway. It was meaningless to calculate how many points he had. Instead, he might as well do something that would leave a deep impression on others. When the time came, he might be able to reverse his fate.

For example, right now, when everyone else didn't dare to challenge Lin Yi, the number one rookie, he jumped out and admitted defeat. If this news spread, what would the effect be?

A guy who forced a strong person like Lin Yi to admit defeat-this was an unprecedented record, and he'd definitely be a tyrant! When he entered the GreenCloud Pavilion, even normal people would look at him with respect!

In other words, he wasn't afraid that Lin Yi wasn't strong enough for this challenge, he was afraid that Lin Yi wasn't strong enough!

Because the stronger Lin Yi was, the more his name would be spread, and the more Cha Wu would benefit from it!

As a newcomer, the newcomer assessment was not the only way to stand out. As long as one was smart and flexible, it was also a good choice to use the shoulders of other powerful newcomers to climb up. No matter how many points he had, he would have something to brag about in the future. That was enough.

So, to challenge Lin Yi at this time might be unbelievable to other newbies, but to Zha Wu, it was a godsend. If Lin Yi's brain was as normal as his little brother Xiao ran 's, if he was a little more tactful, the success rate of today's challenge would be at least 90%.

It wasn't just Lin Yi who would cooperate almost 100% of the time-Cha Wu had another advantage, and that was that Meng jueguang had gathered all the newbies together to discuss an important countermeasure against Lin Yi's group before the start of the competition.

Including Meng Tong, there were no restrictions on the competition between the twelve newcomers, but when it came to Lin Yi's trio, Meng jueguang had added an internal rule on top of the challenge rules.

And that was, if any of the twelve of them challenged Lin Yi's group, the other eleven weren't allowed to challenge them again for a week!

This rule was a one-sided attack against Lin Yi's group, and the purpose was obvious-it encouraged the newbies to challenge Lin Yi's group as much as possible. Even if they couldn't kill them, they'd tire them out to death!

The newbies who challenged Lin Yi would also get enough time to rest and recover!

With this unspoken rule as a cover, Cha Wu's decision to challenge Lin Yi became even more relaxed and unscrupulous.

After he successfully made Lin Yi admit defeat and took over cave number one, the other newbies wouldn't challenge him for a while, whether it was for the points or because of Meng jueguang's unspoken rule.

For someone like him who wanted to gain the right to brag, that was enough.

Lin Yi's calm expression confirmed Cha Wu's suspicions. He couldn't help but be overjoyed-this was a heaven sent opportunity! Today was a great day for a reversal of fortune!

After a moment, the discussions of the rookies below the stage gradually died down. Some people had already seen through Cha Wu's wishful thinking. Other than feeling envious, they did not have any temper.

After all, they weren't as carefree as Cha Wu, the number one from the bottom. To them, points weren't dispensable, but were their lifeblood. Even if they knew that this chance had a high chance of success, they might not be willing to risk it.

The judge looked at Lin Yi and Cha Wu, who were standing opposite each other. Seeing that the two were ready, he announced, "GreenCloud Pavilion's Rookie Challenge Round one, second match. Cave number twelve, Cha Wu, challenges cave number one, Lin Yi. The match begins."

Chapter 3780 I'll Wait For You To Admit Defeat

As soon as he finished speaking, the two sides did not move at all, nor did they feel nervous about fighting to the death. They just stood on the stage and looked at each other.

Seeing Lin Yi's nonchalant reaction, the stone in Zha Wu's heart fell to the ground. As he expected, Lin Yi didn't have any intention to fight at all. He was just like his little brother Xiao ran, ready to admit defeat!

Although there was a 90% chance that Lin Yi would admit defeat, Cha Wu was still worried that Lin Yi might lose his mind and beat him to death.

With the great disparity in strength between them, once they really started fighting, this would really cause a death!

But now, if Lin Yi really wanted to do it, he would've done it already. He wouldn't just stand there and waste time.

Looking at his posture, this number one rookie who always loved to show off was probably having a mental struggle. He probably couldn't bring himself to admit defeat for a while?

Cha Wu laughed to himself without changing his expression. "It's fine. As long as you don't fight, GE has time to wait for you to admit defeat!"

He was no longer nervous. Instead, he felt a little regretful.

He'd heard that the technology in the common world was very advanced, and there was something called "phase chicken" or something-it was said that you could film the scene and show it to others. It'd be great if he had something like that in his hands right now-he could film Lin Yi's surrender, and he'd have evidence to show off in the future!

Unfortunately, no matter how advanced the technology of the secular world was, it couldn't reach the sky Class Island.

Not to mention the fact that there were very few cultivators who could teleport to Sky Class Island, even if they wanted to, those so-called high-tech things couldn't withstand the teleportation. Not only was there no way to teleport, but even if they were lucky enough to teleport, they would only become a pile of useless scrap metal.

Time passed slowly, but the two people on stage still showed no signs of fighting. This time, not only did the other rookies below the stage start to get impatient, even the judge couldn't help but urge, ""Both parties, please pay attention to the time. If you don't fight within half an incense stick's time, it will be regarded as the Challenger forfeiting and the challenged party will win."

Within half an incense's time, if both sides had not fought, then the Challenger must take the initiative to attack. Otherwise, it would be regarded as a forfeit. This was the clear rule of the challenge competition. After all, who asked you to initiate the challenge?

Half an incense's time passed in a flash. Cha Wu finally couldn't hold it in anymore. Seeing that the judge was about to announce the verdict, he hurriedly said, "Judge, please wait a moment. This newbie Lin must have something to say."

As he spoke, he couldn't help but complain that Lin Yi was taking too much time-he'd be done with the mental battle after half an incense's time, and there was no point in wasting time like this!

Acting tough newbies were really pretentious. Wasn't it just opening his mouth to admit defeat? did he need to take so long to prepare?

At that moment, everyone's eyes, including the judge's, fell on Lin Yi. Lin Yi smiled faintly, "If you really want to put it that way, then I really do have something to say."

Hearing this, Cha Wu immediately lets out a sigh of relief. This is finally over. I thought that this guy was going to change his mind because he couldn't bring himself to lose face. This really F * cking makes my heart tremble!

To his surprise, Lin Yi looked him up and down with a half-smile on his face. "This brother Cha Wu, are you sure you don't want to admit defeat? then I'm going to make a move."

Gah?

"What ... What do you mean?" At that moment, Cha Wu thought he heard wrong. He stared at Lin Yi in disbelief for a while, and with the unexpected clamor from the audience, he finally reacted.

Not only did Lin Yi not want to admit defeat, but he even wanted me to admit defeat? This didn't make any F * cking sense!

Was this guy really so stupid that he couldn't even figure out the situation? This was a chance for you to save yourself-you should've admitted defeat. Wasn't it you, Lin Yi?

'If I'm prepared to admit defeat, then what's the point of the challenge? what's the point of giving you points if you think I have too many points?

Cha Wu wasn't the only one. All the rookies on the stage were baffled. Even Meng jueguang and the others were in a daze.

Originally, Cha Wu's action of taking advantage of the loophole had made Meng jueguang extremely angry. Although he had been encouraging his new subordinates to challenge Lin Yi's group, but a weak piece of shit like Cha Wu, who was ranked last, had taken the initiative to challenge Lin Yi. This wasn't a move against Lin Yi at all, but a move to help him.

If Lin Yi surrendered and got cave number twelve, not only would he create an opportunity for himself, but he would also cause a lot of trouble for Meng Tong. What cha Wu did was simply a trap!

However, to everyone's surprise, Lin Yi didn't even respond to that. He didn't even want to admit defeat and use this opportunity to get out. This was such a good opportunity, and he didn't know how to grab it. Instead, he just stupidly asked Cha Wu to admit defeat. This couldn't even be described as stupid-Lin Yi's IQ was really worrying!

It wasn't just Meng jueguang and the others, even the bitter fellow and Xiao ran were stunned. Lin Yi knew better than them how to retreat in order to advance-it didn't make sense that he couldn't see the situation clearly when it was his turn, right?

He didn't know that although retreating for the sake of advancing was the best strategy, it wasn't necessary to retreat for the sake of advancing all the time.

If Lin Yi was in need of points right now, then he might really go along with Cha Wu's wishes, but the problem was that even if he stayed in cave one forever, he didn't need points at all!

Since that was the case, then what was the point of retreating to advance!

Lin Yi looked at the helpless Cha Wu and smiled faintly, "How is it? Just admit defeat, or fight me seriously? To be honest, my hands and feet are a little itchy right now, and I can move my muscles and bones. "

"F * ck, you're an idiot! Why don't you grab this opportunity and fight with me? what's the point of earning my four points? Do you even understand the principle of retreating to advance!" Reality is too cruel. Cha Wu couldn't help but roar gloomily.

With his weak strength, he really didn't dare to fight a monster like Lin Yi. If he did, even a bone or tendon injury would be a light one, but it might even be a fatal one. It wasn't worth losing his life for that, but he didn't want to give up just like that, so he had to use this method to remind Lin Yi.

Meng jueguang and the others "faces darkened-was this guy tired of living? was he afraid that he wouldn't be able to help Lin Yi out?

To his surprise, Lin Yi didn't care about his "kind" warning at all. Before he could finish his sentence, Lin Yi's body flickered and appeared in front of him in the next instant, a hot fist intent surging around him. It was as if he could turn a person into charcoal in an instant.
