Chapter 3811 What A Good Person

Yu Zhe shook his head with a bitter smile. "Young master Xu, this person looks completely different from that Lin er. I can tell with one look."

In fact, it wasn't just his appearance that was completely different. Yu Zhe's impression of Lin er was that he was a very cunning and troublesome fellow. He wasn't like what Meng jueguang had said, who liked to brag and hype himself up. He had a problem with his intelligence. It sounded like two completely different people.

It was only because of Xu lingchong's face that he went through so much trouble to come to the Ying Xin Pavilion. It wasn't good for Yu Zhe to just leave like this. From his perspective, even if this Lin Yi wasn't the Lin er he was looking for, he couldn't rule out the possibility of other newbies.

"Brother Meng, the newbie I'm looking for, other than his strength, he should have quite a lot of spiritual jades-at least a few hundred spiritual jades. I wonder if this Lin Yi or any other newbies fit the criteria?" Yu Zhe asked.

He did not intend to go into detail about what had happened that day because it involved precious treasures like the star inkstone and the high quality foundation-breaking pill. If he were to reveal it in front of Xu lingchong and the others, then even if he could successfully drag Lin er out later on, he would probably have nothing to do with it.

Only by keeping quiet could one make a fortune. Although Yu Zhe didn't mind being a thug for a young master like Xu lingchong, when it came to these precious treasures, there was nothing more to say.

In fact, not to mention this first young master Xu, Yu Zhe, even his own master, Nan tianyong, had never mentioned the matter of the star inkstone and the Supreme-grade foundation-breaking pill. They had only been vague and perfunctory. In the face of benefits, it was the true nature of cultivators to not recognize their own family.

"A few hundred pieces of spiritual Jade? That's impossible-Lin Yi's a poor guy, and it'd be a miracle if he could even take out a piece, let alone a few hundred. The other newbies might not have a few hundred, but they're much better off than a poor guy like Lin Yi. " Meng jueguang firmly denied.

He still thought that Yu Zhe was here for something good, so he continued to belittle Lin Yi.

However, he wasn't lying. At least in the eyes of the others, including him, it was impossible for Lin Yi to have any spirit Jade on him. As long as he could get a few good pieces of jade, they'd be immediately exchanged with these new disciples with waste Jade.

With the wolf-like nature of these GreenCloud Pavilion newbies, leaving Lin Yi a good piece of Jade was already a great act of kindness-what about a few hundred? This was simply impossible. There might not even be a few hundred pieces of useless Jade.

Not to mention, useless Jade was only useful for fooling an idiot like Lin Yi-it'd be impossible to get away with it if it was used outside. He'd be dead if he were found out.

After hearing Meng jueguang's words, Yu Zhe completely eliminated the possibility of Lin Yi. After all, other than the similar build, Lingyu was a completely different person from the Lin er he knew, whether it was in terms of appearance, style of conduct, or background. There was no connection between them.

Seeing Yu Zhe's disappointed expression, Meng jueguang couldn't help but ask, "Senior brother Yu, why are you trying so hard to find this newcomer? this little brother doesn't dare to boast about anything else, but I know every single newcomer in the GreenCloud Pavilion like the back of my hand. Why don't you tell me more about it, and perhaps I can help you look for one?"

The reason he said this was to see if he could get any benefits from it. If possible, he could also push Meng Tong out.

Yu Zhe was still disappointed, but his eyes lit up when he heard Meng jueguang's words.

In the welcoming new pavilion, Meng jueguang was undoubtedly a local tyrant. In terms of understanding of the new disciples of the welcoming new pavilion, he was far above people like young master Xu and Pavilion master Hu Yunfeng. If he wanted to find someone, it would be a piece of cake, so having his help was naturally the best.

"Thank you for your kindness, brother Meng. The person I'm looking for is called Lin er. Of course, that's most likely an alias. As for my conditions, they're as I've just told you. I won't hide it from you, brother Meng. This man is my mortal enemy, and I almost died at his hands a while ago. I must take revenge, so I hope brother Meng can help me!" Yu Zhe asked with a sincere expression.

F * ck! After hearing this, Meng jueguang wanted to slap himself in the face. After all this time, there had been no so-called benefits, but it turned out that this guy was looking for his mortal enemy!

He was even trying to belittle Lin Yi, and even wanted Meng Tong to take his place. Now that she thought about it, didn't her words help Lin Yi instead? didn't she help him clear his name?

If he'd known earlier, he would've tried his best to pin the blame on Lin Yi-who cared if Lin Yi was the Lin er this guy was looking for? he'd just make Lin Yi a big enemy for no reason!

She'd just wasted a great opportunity like that, and she'd even saved Lin Yi from a disaster like that! What the f * ck was this?!

However, now that he had said it, Meng jueguang couldn't change his mind no matter how regretful he was. He could only give a perfunctory nod and drop the matter.

"Young master Xu, Pavilion master Hu, I would like to take a look at the other two pavilions 'newcomer's arena. Is that alright?" Yu Zhe turned to Xu lingchong and requested.

If he couldn't find the person he was looking for in the GreenCloud Pavilion, then it was perfectly normal for him to turn to the ascending heaven Pavilion and the mysterious Pavilion. Furthermore, the strength of the newcomers from these two pavilions was definitely higher than that of the GreenCloud Pavilion, which was a place for trash. The possibility of Lin er being mixed in with them was also far greater than that of the GreenCloud Pavilion.

However, this was, after all, the territory of the welcome Pavilion. Under normal circumstances, outsiders like him were not allowed to wander around. Of course, as long as Xu lingchong and Hu Yunfeng gave their consent, there would naturally be no problem.

"You can go." Xu lingchong waved his hand impatiently, indicating for Hu Yunfeng to accompany him.

Although he had not achieved his goal today, this fellow was still an inner sect disciple of the rising Sky Pavilion. He had treated young master Xu with great respect and could be considered half a family member. It was not a big deal for him to do him a favor.

Watching Yu Zhe and Hu Yunfeng leave, Lin Yi couldn't help but smile from afar. As he expected, this trick really worked!

Chapter 3812 I Admit Defeat!

Of course, Meng jueguang himself was not aware of this. By the time he realized this, his intestines would probably have turned green with regret! The phrase "being too smart for your own good" was used to describe a self-righteous smart person like Meng jueguang!

After the uninvited guest, Yu Zhe, left, he was a little puzzled. Lin Yi, Lin er, their names were similar. Logically speaking, they should be the same person. Did those people hear it wrong?

Lin er's name wasn't known much, but when he was selling spirit beasts, it was still heard by some people. Now that Yu Zhe had found out about it, it was understandable that there was an error.

The fifth round of the GreenCloud Pavilion's Rookie Challenge had officially begun.

This time, it was different from the past. The two big shots, lady Shangguan and young master Xu, were watching the battle. Any normal person would want to show off and leave a good impression on these two people. It should be known that if one was taken in as a younger brother by either one of them, one would have a bright future.

With such thoughts, along with the anger and grudges accumulated from the previous four rounds, today's Rookie Challenge could be said to be filled with the smell of gunpowder from beginning to end. It was very exciting.

As usual, the first to open the curtain of the battle was still the highlight of the top five. Xiao ran from cave abode No. 14 at the foot of the mountain was the first to challenge cave abode No. 13, Meng Tong.

When he heard Xiao ran call his name, Meng Tong's face instantly fell. He exchanged a look with Meng jueguang, who also had a helpless look on his face. In the end, he had to brace himself and walk up to the ring with heavy steps.

It was different from the previous round. In order to trick Qiao hongcai, Meng Tong had clearly taken a grade four great recovery pill and had already recovered, but he still pretended to be injured and weak.

However, in this round, Meng Tong was not so lucky to get a third grade four great recovery pill from Meng jueguang. Therefore, although he was seriously injured, in order to scare Xiao ran, he had to pretend to have recovered in front of everyone.

Unfortunately, things didn't go according to his wishes. Xiao ran didn't care at all and challenged him without any hesitation.

"What's that Meng Tong doing? isn't this Xiao ran Lin Yi's little brother? isn't it good to take this opportunity to take care of him?" Xu lingchong looked at Meng Tong's cowering behavior and could not help but frown.

Although Meng Tong wasn't enough to enter young master Xu's eyes, he was still Meng jueguang's follower and one of his men. It was unacceptable for him to be so timid in front of Lin Yi's follower, Xiao ran!

Since he hadn't been to the welcome Pavilion for a while, and he didn't pay any attention to low-level minions like Xiao Ran, Xu lingchong didn't carefully observe Xiao ran's strength at all. He didn't know that Xiao ran was already an expert in the early stage of the foundation building realm.

Young master Xu also didn't know that Meng Tong, an expert in the early stage of the foundation building stage, had already been so weak that he had suffered heavy injuries in two consecutive battles. Now, he was going into battle with a body full of serious injuries. With his current condition, not to mention facing an expert of the same level as Xiao ran, even if he were to put a publicly acknowledged weakling like Cha Wu in front of him, he could easily make him kneel down!

"Uh ..." Meng jueguang was immediately embarrassed and speechless.

One had to know that Xu lingchong had high hopes for him. Recently, he had started to help him build up his reputation in the upper levels of the three pavilions, paving the way for him to take over as the third Pavilion master. If he told him now that not only did he fail to deal with Lin Yi, but he was also slapped in the face by two of Lin Yi's lackeys, how could he still continue to live in front of young master Xu?

Just as Meng jueguang didn't know how to explain this to young master Xu, the judge announced the start of the match.

However, this battle between the two early Foundation Stage experts ended quite quickly.

In Meng Tong's current state, he didn't dare to fight Xiao ran. After all, they were natural enemies. Besides, they had an unpleasant experience in the first round. He was afraid that Xiao ran would take the opportunity to take revenge or even kill him directly. So, before the judge finished speaking, he raised his hand and shouted, "I admit defeat! I admit defeat!"

The crowd below the stage was in an uproar. A familiar situation had already happened in the first round. At that time, it was also him and Xiao ran, but Xiao ran was the one who admitted defeat. Now, only four rounds had passed, and the situation had been completely reversed.

What an ironic 'instant retribution'!

For Xiao ran, this was a battle that he could hold his head high. He had forced Meng Tong, the so-called new boss of the GreenCloud Pavilion, to admit defeat. This was something that no one had ever done before. He had completely vented his anger!

However, for Meng Tong, he did not feel so good at this time. A few rounds ago, this guy could only cower and did not even have the courage to face him. Now, in the blink of an eye, he had turned around and rode on his head. He even forced him to surrender. Who could understand this kind of depression?

More importantly, young master Xu happened to be present in today's round. This was the backer of his backer. This was not only embarrassing, it was killing him!

While the crowd was in an uproar, young master Xu's face instantly turned as black as the bottom of a pot when he heard Meng Tong's words. Meng jueguang, who was standing beside him, could not help but cover his face.

Although Meng jueguang knew that Meng Tong had no other choice, young master Xu did not know the whole story!

To be honest, although he brought Yu Zhe here for another reason, he was also full of anticipation to see Lin Yi's group in trouble. After all, he also brought Shangguan LAN 'er, the Miss who didn't like Lin Yi in name, and promised that she would make Lin Yi in trouble!

It was a perfect match for the newcomer's challenge. After all, even if Lin Yi didn't get into trouble, it was still a pleasure to see his underlings get crushed by Meng Tong.

The result was good. Meng Tong didn't do anything when he walked up to the stage. As soon as he came up, he admitted defeat and surrendered without saying a word. This was a F * cking slap to young master Xu's face in front of everyone, and it was an earth-shattering slap!

Looking at young master Xu's gloomy face and silent expression, Shangguan LAN 'er couldn't help but grin and hold back her laughter.

You guys want to fight my Lin Yi Lil 'bro? you're delusional! Who's protecting him?! Oh right, these people don't know about my relationship with Lin Yi Lil 'bro! They believed me just because I was putting on an act, they're so stupid!

Chapter 3813 Great Satisfaction

"Uh ... Young master Xu, I'm sorry for not doing my job well and embarrassing you! However, can you listen to my explanation? I have my own difficulties. " Seeing young master Xu's gloomy expression, Meng jueguang hurriedly pleaded for mercy.

He was afraid that Xu lingchong would leave in a fit of anger and put him on the blacklist. If that happened, he would really have no future at all. Even the position of the third Pavilion master of the welcoming new pavilion that he was about to obtain would be in vain.

Xu lingchong's face darkened and she was silent for a long time. She glanced at Meng Tong, who was trembling with fear and almost peed his pants. Then, she turned her head and said in a deep voice, "Go on, I'm listening."

"Yes, yes. Young master Xu, you might not know this, but Lin Yi's two underlings, Xiao ran and Qiao hongcai, have both successfully entered the Foundation Stage for some reason!" Meng jueguang carefully explained.

"Eh? There's such a thing?" Xu lingchong had thought that Meng jueguang would find some excuse to brush him off, but he had not expected such a shocking piece of news.

It wasn't easy for a newbie to Reach Foundation in such a short amount of time-it was all thanks to him that Zhaoming and the others were able to break through so early. They wouldn't even have the courage to try if they didn't have the foundation elixir and Foundation elixir.

On the other hand, Lin Yi's group didn't even have the basic foundation elixir, let alone the foundation liquid that they couldn't even buy. The only people backing them up were poor bastards like Lu bianren, too-they had no way of getting them any elixirs.

Since that was the case, how could he successfully break through to the foundation building realm?

If Lin Yi's case was a special case, then Xiao ran and Qiao hongcai, these two small fries, had successfully entered the Foundation Stage! This was really confusing!

Xu lingchong was confused and could only continue to listen to Meng jueguang patiently. Meng jueguang obviously could not give any reasonable explanation and could only tell young master Xu everything that had happened in the past few rounds in detail.

Shangguan LAN 'er and Curly Bear were also listening with great interest. Although Lin Yi didn't do it himself, it was quite interesting to listen to Lin Yi's underlings fighting with Meng Tong!

Strictly speaking, Lin Yi was Shangguan LAN 'er's junior Brother, so Xiao ran and Qiao hongcai were naturally her underlings as well. As for Meng Tong, he was the underling of that annoying fellow, Xu lingchong. So, what Meng jueguang said was equivalent to an invisible confrontation between her and Xu lingchong?

One should know that Shangguan LAN 'er's dislike for this hypocritical young master Xu lingchong was not small. Over the years, she had been annoyed by this annoying fellow many times. However, due to their relationship as elders, she could not completely ignore him. Over time, she had accumulated a lot of resentment. Therefore, when she heard these things at this moment, it was needless to say how much she was secretly pleased and relieved!

Just as Meng jueguang was racking his brain to explain to young master Xu, Lin Yi's group, on the other hand, were all relaxed and talking cheerfully.

Meng Tong surrendered as soon as he came up. Although this result was somewhat unexpected, it was reasonable. After all, a grade four great recovery pill was not an ordinary pill that could be found on the street.

Meng jueguang was already at his limit when he was able to get him two. If he were to continue to throw money at Meng Tong like a bottomless pit, even someone with a strong background like Xu lingchong might not be willing to spend so much money, let alone Meng jueguang.

"Hehe, boss, look at this. Meng jueguang and Meng Tong have always been so arrogant in front of us, but now that Xu lingchong is here, they immediately shrink back like turtles. Look at how they don't even dare to breathe. They're so F * cking coy!" Qiao hongcai said, gloating.

Lin Yi couldn't help but laugh. "Hehe, who asked them to insult this young master Xu as soon as they came up? it's rare for them to come to the welcome Pavilion, but they came up to see Meng Tong surrender to Xiao ran. If I were him, I'm afraid I'd also be depressed to death. Of course, I can only vent my anger on Meng jueguang and his underlings!"

The miserable senior brother and Xiao ran looked at each other and laughed. It was rare to see Meng jueguang and Meng Tong in such a disadvantageous position. Even the two of them, who were honest and kind, could not help but feel a sense of comfort and satisfaction!

"Heh, it's a pity that Meng Tong is probably scared out of his wits. I was waiting for him to challenge me to a fight to the death and see if his thousand legs or my cold iron Palm is more powerful. It's a pity that I won't get the chance today." After a few jokes, Qiao Hong shook his head with regret.

Lin Yi couldn't help but chuckle and shake his head, "Come on, you'd better hurry up and challenge the higher-ups to get more points. That's what you should be doing right now. As for dealing with Meng Tong, I promise you that you'll have plenty of such opportunities in the future."

"Alright, I'll listen to you, boss." Qiao hongcai nodded and walked up to the ring under everyone's gaze.

As one of the four early Foundation Stage Masters of the GreenCloud Pavilion, and having fought with Meng Tong twice in a row, both of them had suffered heavy losses. Qiao hongcai had completely removed the label of trash from his body. The label on him was no longer just Lin Yi's Lackey, but a true influential figure.

Now, in the GreenCloud Pavilion, no one could look down on him. On the contrary, when they thought of his fierce performance in the two life-and-death battles with Meng Tong, everyone couldn't help but feel their scalps go numb. They didn't even dare to look him in the eye for fear that this fellow would misunderstand and take it as a provocation. If they were targeted by him, they wouldn't even be able to cry.

According to the principle of maximizing points, Qiao hongcai's next challenge was naturally to challenge cave abode No. 11 at the foot of the mountain, which was ranked above him. The result of this duel was obvious.

After finishing the battle in one move, Qiao Hong easily got the points and left the stage under everyone's respectful gazes.

Looking at such a disgusting scene and listening to Meng jueguang's story, young master Xu's expression had completely sunk. He had never thought that in the short time he had not paid attention to this matter, so many changes had happened here. Furthermore, it was such an embarrassing change!

Seeing young master Xu's sullen face and his silence, Meng jueguang's heart almost jumped out of his throat. Although he was the eldest senior brother in charge of the GreenCloud Pavilion and had a Grand presence in front of the new disciples, he didn't even dare to take a deep breath in front of young master Xu.

Chapter 3814 Easier Said Than Done

Strictly speaking, he couldn't be blamed for being useless. No one had expected that Xiao ran and Qiao hongcai, these two insignificant minions, would be able to succeed in building their Foundation at the same time. But in the end, he could only blame himself for not doing his job well.

As a big senior, he couldn't even take care of two of Lin Yi's lackeys-this was a fact that couldn't be covered up no matter how hard he tried to come up with an excuse. Meng jueguang felt embarrassed, and he didn't dare to find any excuses to avoid young master Xu.

Based on Meng jueguang's many years of experience, the best way to deal with this situation was to put on a sincere and ashamed look in preparation for a scolding. He didn't need to say anything else, because anything else would be unnecessary.

The young master Xu in front of her was a really smart person. Any action of shirking responsibility in front of him would be stupid. The more she said, the more wrong she would be. She might as well put on a good attitude and leave a good impression of being pragmatic.

As expected, after a moment of silence, Xu lingchong said, "Alright, I've got a rough understanding of the situation. It's not your fault, old Meng. After all, no one would have expected that two small fries of the other party would suddenly succeed in building their Foundation. Besides, it's normal that Meng Tong alone can't handle it. You don't have to blame yourself too much."

After all, Xu lingchong was not an ordinary hedonistic young master. His shrewdness and tolerance were far beyond that of ordinary people. Once a person like Meng jueguang entered his eyes, as long as he did not make a mistake in the key principle of loyalty, he could completely tolerate small mistakes like ordinary ones.

Because only in this way could he create an image of being open-minded, and in the future, there would be more talents who would rely on him and be willing to work for him.

Moreover, Meng jueguang's actions this time were indeed excusable. If Xu lingchong were to hold onto this matter and not let it go, it would appear that he was too narrow-minded. Not only would it not help the situation, but it would also easily ruin his reputation. The gains did not make up for the losses.

"Thank you for your understanding, young master Xu. I won't say any more hypocritical flattery. I hope that young master Xu will look at my performance in the future, and I will do my best to not disappoint you again." Meng jueguang said with tears of gratitude.

Xu lingchong was obviously very pleased with this. He put down his pride and reached out to Pat Meng jueguang on the shoulder. "Alright, old Meng, I can see your loyalty. Work hard in the future, and I won't mistreat you."

Shangguan LAN 'er's mouth twitched as she looked at the master and servant's act of sacrificing themselves for their bosom friend. Even though she was inexperienced, she could feel the pretense. Birds of a Feather really did flock together. These people were so hypocritical, they couldn't compare to her Little Junior Brother Lin Yi at all!

What they didn't know was that Xu lingchong was intentionally pulling Meng jueguang along to put on a show. His vision wasn't just limited to Lin Yi in the welcome Pavilion-he was doing this to create the image of a wise young master, to spread his reputation through the mouths of these people present, paving the way for him to take over the Xu family in the future!

The master and servant acted for a long time. Seeing that everyone was already discussing it, they stopped with satisfaction when they saw that the effect was almost there.

"Come to think of it, what do you think we should do in this situation, old Meng? we can't just let Lin Yi's lackeys continue to be so arrogant, can we? Otherwise, where will I put my face if this continues?" Xu lingchong asked.

He was a smart person, but his focus was always on the higher-ups, and he wouldn't waste too much energy on people at the bottom like Lin Yi. If he had to do everything himself, then what was the point of having a subordinate like Meng jueguang?

Young master Xu felt that as the master, his job was to back Meng jueguang up and help him solve some problems he couldn't solve. Meng jueguang was more than enough to deal with a low-class figure like Lin Yi.

Meng jueguang had been waiting for Xu lingchong's words for a long time, and he immediately replied, "Young master Xu, although Lin Yi's group seems to be too big for us to deal with, from what I can see, it's actually very easy to deal with them. As long as we can regain the upper hand in terms of strength, everything else will be solved."

"Oh? Old Meng, how do you want to regain your advantage?" Xu lingchong said with a frown.

He knew that the strength Meng jueguang was talking about was the strength of the new people under him. After all, if he didn't want to take the risk, he had to deal with Lin Yi's group through these new people. Lin Yi and the others were all in the early Foundation Stage, while Meng jueguang's new people only had Meng Tong. In comparison, they were too weak.

However, if he wanted all of Meng jueguang's new disciples, other than Meng Tong, to break through to the foundation establishment stage as soon as possible, he would need to spend a lot of medicinal pills and resources. The key was that he might not see any results if he invested so many resources.

Because even Meng jueguang, the manager of the group, couldn't guarantee the loyalty of so many new people. Plus, it was unknown how many of them would succeed, and they might not be able to gain the upper hand against Lin Yi's group.

Meng jueguang had already considered this and immediately said, "Young master Xu, even if more resources are distributed to more than one person, it might not have an immediate effect. However, if we concentrate all of them on Meng Tong, we can raise his strength by one level and make him reach the peak of the early Foundation establishment stage. What do you think?"

Hearing this, Xu lingchong's eyes lit up. "Not bad, not bad. As long as Meng Tong can regain his overwhelming strength advantage, it won't matter how many early Foundation Stage cultivators Lin Yi's group has. We'll kill them one by one. That's a good idea, old Meng!"

However, after a pause, Xu lingchong immediately shook her head and said, "But, even though that's true, if I remember correctly, Meng Tong only managed to break through to the foundation building stage last month, and he even took a foundation building pill and foundation building liquid. It's not easy for him to reach the peak of the early foundation building stage in a short time!"

Meng Tong was overjoyed at first, thinking that he would be able to get a lot of benefits this time. However, after hearing Xu lingchong's words, his heart sank to the bottom.

Now that even young master Xu was saying this, her dream of reaching the peak of the foundational level and taking revenge on Lin Yi and the others was just a dream, wasn't it?

However, Meng jueguang did not give up. He continued to fight for him. "Young master Xu, I know that you've invested too many resources in us. We feel that we can't repay you, so we can only do your bidding. But, we really can't just watch a guy like Lin Yi continue to be so arrogant, or it'll affect young master Xu's reputation, and we won't be able to eat or sleep in peace. "

Chapter 3815 Meridian Heart-Shattering Pill

Meng jueguang's words were emotional and tearful. Even Xu lingchong, who was a smart person, was momentarily confused.

The meaning of Meng jueguang's words was clear-this was the only way to deal with Lin Yi. They had to throw resources at Meng Tong so that he could reach the peak of the early Foundation Stage as soon as possible and regain the advantage.

Otherwise, they'd have to watch Lin Yi and his gang continue to be arrogant. By then, it wouldn't just be them who'd lose face-it'd be master Xu lingchong's face as well. If they couldn't even handle a mere newcomer from the secular world like Lin Yi, what grand plans would they have in the future!

However, it was easier said than done to quickly raise Meng Tong, an early Foundation establishment expert, to the peak of the early Foundation establishment stage.

If this guy's strength was profound and he had already touched the barrier between the early Foundation Stage and the peak of the early Foundation Stage, then it was fine. After all, it was just a matter of a Foundation breaking pill. Young master Xu had no reason to hesitate.

The problem was that this guy had only reached Foundation establishment less than a month ago. He hadn't even relied on his own strength, but rather on the two-pronged approach of Foundation establishment pills and Foundation establishment liquid to forcefully Reach Foundation establishment.

It could be said that Meng Tong's Foundation was even worse than that of an ordinary early Foundation establishment expert. Otherwise, he wouldn't have been defeated by Qiao hongcai, who had only reached the foundation establishment stage a few days ago, twice in a row!

In theory, he should have had a lot of advantages over other experts of the same level, but he had only been able to tie with Qiao hongcai twice. This in itself was already enough to explain the problem.

To forcibly raise an early-stage foundation building expert with such a weak Foundation to the peak of the early-stage foundation building realm, although young master Xu's background wasn't completely helpless, the resources consumed in this process were simply not comparable to a mere Foundation-breaking pill!

If the medicinal pills and resources needed here were converted into spiritual herbs, it would not be as simple as a few hundred spiritual jade pieces, but at least a thousand spiritual jade pieces!

With such a huge price, even a young master like Xu lingchong, who had a deep background, would definitely feel heartache to the point of vomiting blood once he spent it.

Moreover, if he really had such a powerful pill that could forcibly increase a person's level, why didn't he keep it for himself? why did he give it to Meng Tong, a subordinate who couldn't even be considered a trusted aide?

However, looking at the eager expressions of Meng jueguang and the others, Xu lingchong was, after all, a young master. If he were to reject them so directly, he would still feel that it was a little embarrassing.

After all, what Meng jueguang said was the truth. If they didn't think of a way to increase Meng Tong's strength, it would be very difficult to punish Lin Yi and his gang of idiots, at least through the proper channels.

In the face of absolute strength, no matter how clever Meng jueguang was, he couldn't take Meng Tong's place. No matter how clever his plan was, in the end, even his two lackeys wouldn't be able to take care of Lin Yi, let alone Lin Yi.

And if it wasn't the last resort, Xu lingchong didn't want to use a method like getting someone to assassinate Lin Yi. Even if this method was simple and direct, it would still leave some evidence behind. If the law enforcement Hall sniffed out any clues, then his life would be over!

It wasn't worth it to take such a risk to deal with Lin Yi before the core benefits were involved. The most realistic and reliable way was to let Meng jueguang deal with him!

After hesitating for a long time, Xu lingchong glanced at the pitiful-looking Meng Tong before turning to Meng jueguang and saying, "With Meng Tong's current condition, if we want to force him to advance to the next level, ordinary pills will definitely not work. If we really want to do this, I think we can only try using some unpopular recipes. What do you think, old Meng?"

"An obscure and cold recipe?" Meng jueguang was stunned for a moment before he nodded repeatedly. "Young master Xu is wise. I actually think so too. It's impossible to achieve the effect we need with ordinary pills."

Meng Tong, who was listening to the conversation between the two, was confused. He had no idea what the so-called "unorthodox cold fangs" were. He only knew that young master Xu seemed to have agreed, and he was still secretly happy.

However, they didn't know that anything that was called an unorthodox method meant that it was not an ordinary path. Everyone knew that in the matter of cultivation, no matter how careful one was, one could never be too careful. One wrong step meant one wrong step after another. The risks involved were not to be joked about!

In fact, both Xu lingchong and Meng jueguang were well aware of this. With young master Xu's background, if he really wanted to help Meng Tong level up at all costs, he had a more reliable way.

For example, Lin Yi's golden core Plus the foundation breakthrough pill could increase his strength in a short period of time without any side effects. Even if he failed, there was no danger.

Although young master Xu might not be able to get a Foundation-building golden elixir, he could also get other elixirs to replace it. However, each of these elixirs was extremely precious. Even if he spent thousands of spiritual jades, he might not be able to buy them. Even if young master Xu had them, he would not give them to Meng Tong.

Moreover, even if young master Xu was truly supremely righteous and generous enough to offer a pill of this level, it was impossible for it to fall into Meng Tong's hands. Meng jueguang would have snatched it from him long ago, so why would he leave it for someone as stupid as Meng Tong?

There was no free lunch in the world. Meng Tong had been so stupid as to believe that young master Xu and Meng jueguang would really give him such a great benefit. He must have been blind!

Seeing that Meng jueguang had no objections, young master Xu ignored Meng Tong's reaction and immediately said, "Then let's do it this way. I just happen to have a Meridian heart-shattering pill in my collection. It was given to me by a high-level Alchemist a few years ago. As long as you use it well, it's enough to raise your level. It doesn't matter how poor your Foundation is."

"So it's the meridian heart-shattering pill!" Meng jueguang's eyes twitched upon hearing this. He had heard of this pill by chance before. It was a pill with heaven-defying effects, but at the same time, it was a pill that made people shudder with fear!

Just as young master Xu had said, this elixir did have the heaven-defying effect of forcibly raising the strength of the foundation establishment stage by one level. However, at the same time, it also had a side effect that made people's scalps numb. That was, after taking this elixir, one would suffer an hour of heart-breaking pain every day at midnight and noon!

Chapter 3816 Jumping Into The Pit Of Fire

What did it feel like to have his heart shattered? In the past, no one knew that once the heart was shattered, even the most powerful cultivator would die without a doubt. However, ever since the meridian heart-shattering pill was introduced, it made the living experience this kind of heart-shattering pain that was worse than death!

After consuming it, before one could break through to the next level, one could only suffer! If they remained stagnant for a lifetime, they would only be free when they finally died.

It wasn't an exaggeration to say that the meridian heart-shattering pill was an out-and-out self-abusing pill. Even if its effects were more magical and heaven-defying, no one would dare to use it because of such a strong side effect. Once consumed, the consequences would be too horrible to imagine!

The creator of this pill was a genius Alchemist, and it was said that his talent in alchemy was extremely shocking. He wasn't any weaker than the divine Alchemist and medical Saint Zhang Liju.

However, the difference between him and Liju was that this genius was never recognized by the practitioner world. Because he created all sorts of weird recipes, he was even classified as a heretic practitioner. He was hunted down by the righteous sects, and all he could do was hide from them all year round.

Until one day, his wife, who had been with him for so long, was besieged and killed by cultivators of the righteous path. However, because of his lack of strength, he could only watch his wife die helplessly.

After that day, this genius Alchemist officially joined the evil cultivators 'camp. In order to remind him that he should not forget the humiliation of enduring hardships and suffering, and at the same time, to quickly improve his strength, the meridian heart-shattering pill was produced.

However, although the effects of the meridian heart-shattering pill were heaven-defying and its side effects were shocking, its recipe was rarely circulated in the market, and very few alchemists could refine it. Its reputation was far from matching its heaven-defying effects, and it was only circulated among a very small number of alchemists and well-informed people.

If it wasn't for a chance encounter, even an experienced fellow like Meng jueguang might not have even heard of its name, much less a newbie like Meng Tong.

Until this moment, Meng Tong had not realized the hidden danger. He was still fantasizing that the name Meridian heart-shattering pill sounded awesome. Could it be that after using this pill, he could shatter someone's heart with a simple move?

More importantly, it could even forcefully increase one's strength by one level. What an awesome medicinal pill!

"Old Meng, there shouldn't be any problem if you give this precious Meridian heart-shattering pill to Meng Tong, right?" Xu lingchong asked again.

He knew all about the side effects of the meridian heart-shattering pill, and so even if he knew that it was extremely rare, he didn't feel any heartache. After all, he wouldn't use it himself, and it was just a collectible value in his hands. If he could use it to get rid of Lin Yi, then it would be the best!

As for whether Meng Tong's life would be ruined after taking it, it was not within his consideration. After all, in young master Xu's eyes, Meng Tong was not even a little brother. At most, he was just a chess piece.

Since he was a chess piece, he naturally didn't have to consider human rights. If he destroyed it after using it, he would just find another.

However, Meng jueguang was different. Not only was Meng Tong his younger brother, but they were also relatives. If he watched Meng Tong jump into the fire without saying a word, not only would he be blamed by Meng Tong in the future, but he would also be too ashamed to return to his hometown.

Young master Xu regarded Meng jueguang with great importance, so at a time like this, he had to seek Meng jueguang's opinion.

"This ..." Meng jueguang could not help but hesitate. Putting aside the fact that Meng Tong was his relative, he was still his most loyal follower. No matter how Black-bellied Meng jueguang was, he had to consider his own reputation.

After all, if Meng Tong had fallen into his trap, who would be willing to work for him if word of this got out?

However, just as Meng jueguang was hesitating, Meng Tong, the clueless party involved, eagerly jumped out and took the initiative to offer his help. "Young master Xu, I can do it! I will not let young master Xu down! Ninth older cousin brother, say something!"

At the same time, Meng Tong secretly tugged at Meng jueguang's sleeve, gesturing for him to quickly agree.

Meng jueguang didn't know whether to laugh or cry. The saying "the ignorant are fearless" was absolutely right. He had hesitated for a rare moment out of kindness, but Meng Tong was so eager to jump into the fire pit that he couldn't even stop!

And looking at this situation, if he didn't quickly agree on his behalf, he might even think that he was blocking his way to progress, and he would bear a grudge for no reason!

Left with no choice, Meng jueguang nodded at Xu lingchong and said, "Thank you for your reward, young master Xu!"

"Thank you, young master Xu, for your generous reward!" Meng Tong followed suit and thanked him with a face full of joy.

Meng jueguang could only shake his head at this. He knew that as long as he explained the stakes, no matter how brainless Meng Tong was, he would never rush to take this pill, but what could he say in this situation?

Not to mention anything else, just the fact that young master Xu was eyeing him covetously from the side already made it difficult for Meng jueguang to speak in detail. After all, when young master Xu mentioned this Meridian heart-shattering pill, it was their own fault. If they were to be picky and refuse to cooperate now, where would they put young master Xu's face?

On one hand, Meng Tong was the idiot who was rushing to jump into the fire pit himself, and on the other hand, he had to consider young master Xu's face. So for Meng jueguang, this was his only choice.

As for whether or not Meng Tong would bear a grudge against him in the future, that was no longer within Meng jueguang's scope of consideration. It was Meng Tong's own idea to jump into this trap. Meng jueguang had never said a word of encouragement, so when the time came, he would not be the one to blame.

"Okay, that's it. I'll go back and find it. In two days, I'll have someone send this Meridian heart-shattering pill here. Old Meng, you should also help Meng Tong prepare it. This pill's effect is heaven-defying, which means that its efficacy is very overbearing. If we don't make full preparations in advance, we might be in danger." Xu lingchong ordered.

These words were not false, medicinal pills were a kind of medicine, its medicinal properties were far better than any kind of medicine, even if it was a Foundation Stage golden pill, this kind of mild, no side effect medicinal pill, because its medicinal properties were too strong, if not adjusted to the state and rashly took it, it was very easy to be weak and unable to supplement, a good medicinal pill would eventually become a life-threatening poison.

Chapter 3817 I Won't Let You Down

For an unorthodox medicinal pill like the meridian heart shattering pill, one had to be even more careful when consuming it. What kind of concept was it to ignore the foundation of one's strength and forcefully raise one's strength by one level?

Even if it was a Foundation Stage golden core, it could only let Lin Yi touch the wall of the peak early Foundation Stage. It couldn't let him become a peak early Foundation Stage master all of a sudden. From this aspect, the effects of the meridian heart-shattering pill were even above a Foundation Stage golden core!

Even if he didn't consider the side effects of the heart-breaking pain, just the domineering effect of leveling up alone was enough to figure out the hidden risks!

Not to mention that Meng Tong's current state was one of serious injury. If he was allowed to take the pill without any preparation, he would not even be able to experience the pain of a broken heart, let alone advance to the peak of the early Foundation Stage. He would have to report to the underworld directly.

Although Meng Tong was not a smart person, he still had some common sense. When he heard Xu lingchong's words, he thought that she was concerned about him. He immediately shed tears of gratitude and said, "Young master Xu, you really care too much about your subordinates. It's simply a blessing that can't be repaired in a few lifetimes to be able to work under you!"

However, young master Xu wasn't concerned about Meng Tong's life or death. He was more concerned about whether the meridian heart-shattering pill would go to waste!

Although the side effects of the meridian heart-shattering pill were terrifying, it was still a very rare pill. Moreover, its effects could indeed be said to be heaven-defying. Even if Xu lingchong didn't take it himself, he would still feel a little heartache if it was wasted without showing its effects.

Towards Meng Tong's brainless display of loyalty, Xu lingchong could only roll her eyes speechlessly. 'An idiot like you who helped count the money after being scammed is not worthy of being my subordinate. At best, you're more like cannon fodder!'

Meng jueguang could only smile awkwardly from the side. He looked at Meng Tong with pity and helplessness in his eyes. He really didn't know what to say about losing such a brainless cousin.

Lin Yi and the others, on the other hand, were suspicious as they watched Xu lingchong and Meng jueguang's group mumbling to each other. What were these guys up to this time?

This was a natural thought. After all, young master Xu was the backer of Meng jueguang's group. Now that Meng jueguang could no longer do anything to them, his only choice was to ask young master Xu for help.

"Boss, why don't we make a guess and see what these guys are up to next?" Qiao hongcai wasn't worried at all as he smiled at Lin Yi and the others.

He had been in a pretty good mood recently. After fighting with Meng Tong twice in a row, both of them had been seriously injured. He had quickly adapted to the strength of the early stage of the foundation building realm and his strength had been completely stabilized.

If he had not fought Meng Tong to the death, he would have needed at least half a month or even more to reach this level under normal circumstances. But now, he had done it in just a few days. It was no wonder he was in a bad mood!

The senior brother laughed and said, ""In my opinion, senior brother Meng and the others may want to get a few pills like the ultimate golden pill. In the current situation, except for the ultimate golden pill, which can instantly improve their strength, they can't do anything to the junior brothers by relying on Meng Tong alone."

The Golden core limit could increase one's strength in a short time. In this way, even if they were both early Foundation establishment experts, Qiao hongcai would no longer be able to beat Meng Tong, who had taken the Golden core limit. Moreover, there was at least a three-day buffer between each round of the challenge, so as long as the plan was in place, the weak period of the Golden core limit could be avoided.

In the bitter senior brother's understanding, this was already the best solution he could think of. In fact, it was indeed feasible, and the price was not high. It was just the price of a limit Jindan.

Xiao ran and Qiao hongcai both agreed with what their miserable senior brother said, but Lin Yi shook his head, deep in thought.

"If it was only Meng jueguang himself, it wouldn't be strange for him to use the ultimate golden core. But now that even young master Xu lingchong has appeared, if he's still limited to the ultimate golden core level, it's too small and doesn't seem like his style. In my opinion, what they're plotting is definitely not as simple as a few rounds of the challenge. They must have some higher level methods. " Lin Yi analyzed.

"En, that's right. Junior Brother Lin's words make more sense." The miserable senior brother and the others nodded in unison.

It was just as Lin Yi had said. Although his senior brother's idea was reliable, it was only from Meng jueguang's perspective. With Meng jueguang's background, he had already done his best to help Meng

Tong get the ultimate golden core. However, he didn't consider the fact that there was young master Xu behind him.

For someone of Xu lingchong's level, the ultimate golden core was obviously child's play. If it was just about a mere ultimate golden core, with his status, how could he have discussed it with Meng jueguang and the others for such a long time?

Plus, Lin Yi and the others clearly saw Xu lingchong's hesitation at the start. What kind of big deal was it to make a young master Xu like him hesitate?

"In that case, we'll have to be on guard against them. Otherwise, even if Meng Tong can't deal with us, we'll still be caught off guard by young master Xu and Meng jueguang's schemes." Xiao ran said with a grave expression.

Lin Yi nodded. "That's right, but there's no need to worry too much. We'll deal with whatever comes our way. In the end, strength is the way to go. Meng jueguang only has Meng Tong, an early-stage Foundation Stage cultivator, under him. This is a fact that no one can change."

"Hehe, I really hope that Meng Tong this trash will quickly eat some awesome medicinal pill before challenging me. Otherwise, with his pitiful amount of courage, he probably won't dare to challenge me again in this lifetime." Qiao hongcai chuckled.

Although both of them had suffered heavy losses, for Qiao hongcai, who had only succeeded in building his Foundation a few days ago and was at a great disadvantage in martial arts techniques, this was no different from winning against a stronger opponent.

As for Meng Tong, who originally had the absolute upper hand, it was likely that a shadow had been left in his heart. If he didn't make a huge breakthrough in his strength, it would be very difficult for him to have the confidence to face Qiao hongcai again, let alone defeat him and wash away his shame.

"Just wait, I believe they won't let you down." Lin Yi smiled faintly.

With the young master Xu lingchong involved, Lin Yi could totally predict that things wouldn't be that simple, but from his perspective, there was nothing to worry about.

Chapter 3818 Lee Zhengming's Request

Not to mention that his hidden strength was not something that Meng Tong could match, but the two spies, Lee Zhengming and Zhong pinliang, were enough for him to have the upper hand in many things. He naturally did not have to worry too much about the so-called conspiracies.

In the fifth round of the newcomer challenge, because of the arrival of lingchong Xu and his team, every match was filled with the smell of gunpowder, but there were not many twists and turns. In the end, Lee Zhengming defeated the Challenger again. As for Lin Yi, the publicly acknowledged No. 1 newbie, he was just a bystander for the entire round.

After the challenge ended, the new members dispersed. However, Lee Zheng Ming, who had just won a match and gained a lot of points, did not look any better. He did not return to his cave abode like the other new members. Instead, he went straight to Meng jueguang, his senior in charge. He was his true backer in name.

"Senior brother Meng, regarding Lin Yi's group, I have some thoughts, I wonder if I can report it to you?" Lee Zheng Ming purposely squeezed out a smile as he walked to Meng Jue Guang's side.

"Oh? Zhengming, what do you have in mind? tell me. " Meng jueguang's interest was piqued when he heard that it was related to Lin Yi.

However, Meng Tong, who was beside him, curled his lips in disdain. "He's just a heaven class peak phase, what ideas can he have? he's just talking on paper, wasting time. "

Although Meng Tong was still injured, his energy was completely different from before after what happened just now. He was completely immersed in the joy of becoming a peak early Foundation Stage master, and a mere Sky Class full master like Lee Zhengming was nothing in his eyes.

When Lee Zheng Ming heard this, he could not help but want to curse out loud. Damn you, Meng Tong! If you didn't take the foundation building liquid from Xu lingchong along with the foundation building elixir, would someone like you have successfully built your Foundation?

Come to think of it, during the trial by fire at the back of the mountain, if I hadn't sacrificed my spirit herbs and tolerated everything, you probably wouldn't even have gotten this foundation building pill. Now, you still have the face to mock me for my low strength. This person is too shameless!

However, Lee Zhengming suppressed his anger and ignored Meng Tong's sarcastic remarks. He turned to Meng jueguang and said, "Senior brother Meng, you've seen it for yourself. Lin Yi's gang now has three early Foundation Stage cultivators, while we only have boss Meng Tong. If this continues, the gap between us will only get bigger! That's why I think that the most important thing right now is to find someone to share the pressure with boss Meng Tong. Only then can we block Lin Yi's attack and have a chance to take back the initiative. "

Meng jueguang fell silent. They were all smart people, and while Li Zhengming didn't say it out loud, the meaning was clear. He wanted to be like Meng Tong and stand up against Lin Yi's group!

If it was just a hot-blooded idea, Meng jueguang wouldn't have anything to say, but Li Zhengming wasn't a brainless person like Meng Tong. With his current strength as a peak Sky Class, it was impossible for him to challenge Lin Yi's group of three early-stage Foundation Stage cultivators. He would never do that.

The key to Li Zhengming's words was that he wanted to be the one who could share Meng Tong's burden, and the premise was that he had to have the strength. At the very least, he had to be an early stage foundation building expert!

If he wanted to break through to the foundation building stage in a short period of time, then he needed to have a combination of medicinal pills. Not to mention the combination of the foundation building pill and foundation building liquid like Meng Tong's, at least a foundation building pill was the most basic!

This was what Meng jueguang was troubled about. In terms of strength and loyalty, Li Zhengming was already qualified enough in his opinion. Normally, giving him a foundation building pill would not be a big deal. However, the problem was that he did not have any foundation building pills on hand!

For a young master like Xu Lingchong, a mere foundation building pill was nothing in his eyes. Even if it was a foundation building elixir that couldn't be bought in the market, he could get it by simply asking. But for Meng jueguang, this matter was not so easy to deal with.

Although he was the senior disciple in charge of the GreenCloud Pavilion's newcomers and was in charge of the distribution of the various benefits for the newcomers, the resources he had in his hands had never included high-grade resources like the foundation building pill.

It should be known that in the early years, due to the lack of resources, the welcoming new pavilion did not provide foundation building pills for newcomers at all. If newcomers wanted to break through to the

foundation building realm, their biggest reliance was the cultivation cave and a few spirit jades assigned to them.

The foundation building elixir, on the other hand, was a benefit that had only appeared in recent years, and the quantity was extremely limited. It was usually reserved for the few most outstanding newcomers at the last moment.

This year, due to the special care of Zhang Liju, the divine Alchemist of the distant Middle Island, the three great pavilions' distribution of foundation building pills to the welcome new pavilion had doubled. This was why the phenomenon of the foundation building pills being awarded in the first month of the back mountain trial test had occurred. This was something that was simply unimaginable in previous years.

Even so, Meng jueguang's status was not high enough to interfere with the distribution of these foundation building pills. The reason was simple: he was only a Senior Steward and was far from qualified.

In the entire welcome new pavilion, there were only two people who had the right to speak about the distribution of these foundation building pills. One was the pavilion leader Hu Yun Feng, and the other was the Vice Pavilion leader Feng Song. Originally, according to the rules, the third Pavilion master also had a certain right to speak, but Lu bianren had long become a thoroughly marginalized figure, and he was about to be kicked out, so he naturally wasn't considered.

If Meng jueguang had already replaced Lu bianren as the third Pavilion master, then on account of the young master Xu behind him, he could have a hand in the distribution of the foundation building pills. Unfortunately, he was not yet in that position.

The distribution of the foundation building pills had nothing to do with him from the beginning to the end, and as an expert who was about to break through to the middle stage of the foundation building realm, he simply didn't have any foundation building pills that he didn't need. What could he do?

However, if Meng jueguang were to reject Lee Zheng Ming's request and say that he was powerless, it would be a little unreasonable. This was not because he found his conscience, but because he had many deep concerns.

Not to mention that he would lose face if he did this in front of his younger brother, the key point was that if these words were to spread, it would be a huge blow to his prestige as the eldest senior brother in charge!

After all, apart from Meng Tong, Lee Zheng Ming was the first new recruit to join his team. Compared to the other new recruits, Lee Zheng Ming was obviously stronger. Moreover, Lee Zheng Ming had worked hard without any complaints. Even if he did not make any major contributions, he had at least put in his blood, sweat, and tears.

Meng jueguang was the Senior Manager of the GreenCloud Pavilion. He was a well-deserved Big Boss in the eyes of the new disciples. If he couldn't even satisfy such a small request from Lee Zhengming, how could he have the face to lead the other new disciples?

Chapter 3819 Three Sets Of Materials!

Biased, useless, mean, and ungrateful. Once these gossips spread, the hearts of his subordinates would scatter, and it would be very difficult to gather them together again. And if even these new subordinates no longer took his words seriously, then what difference was there between him, the so-called eldest Senior Steward, and a transparent and marginalized person like Meng jueguang?

Meng jueguang knew very well that even if he had managed to get close to Xu lingchong, he would still need to be strong enough to be valued in the future. This strength did not only refer to himself, but also to the new underlings under him. These people were the foundation of his future success!

Therefore, Meng jueguang could not reject Lee Zhengming just like that. Even if he did not have any foundation building pills on hand, he should at least give a reasonable answer.

After hesitating for a long time, Meng jueguang finally said, "Zhengming, I'm very pleased that you have such a thought. However, it's a pity that I don't have any foundation building pills on hand. Otherwise, I wouldn't need you to ask. I would have given them to you long ago, right?"

Li Zhengming's heart sank at the words-he'd already secretly become Lin Yi's spy, but the idea he'd told Meng jueguang about breaking through to the Foundation Stage was true.

As one of the top five new disciples of the pavilion, the other four were already in the early Foundation Stage. He, Lee Zheng Ming, was the only one who was still struggling at the peak of the Sky Class, and he couldn't even see any hope. This was a torture to him.

Although he had to keep a low profile because of the blood feud, there was a limit to it. If he just watched someone around him who wasn't as talented as him successfully build a foundation while he, Lee Zhengming, stayed at the peak of the heaven class, then he wouldn't be keeping a low profile-he would be an idiot.

Therefore, Lee Zheng Ming was really eager to break through to the foundation building realm. Moreover, he did not ask for much, just a foundation building pill.

As Lin Yi's spy, Li Zhengming should be the one asking Lin Yi for help, but it hadn't been long since he joined Lin Yi. Other than sending a few intelligence reports, he didn't think he'd done anything for Lin Yi, and he didn't have any merits.

Strictly speaking, he joined Lin Yi because he had to save his life after his sneak attack failed. He didn't do it willingly, and Lin Yi letting him live was already a great favor. He didn't have the face to ask Lin Yi now.

In comparison, Lin Yi's group was in an advantageous position, and Meng Jueguang needed someone to share the pressure with him. Li Zhengming wanted to use this opportunity to ask Meng Jueguang for a Foundation pill, considering his past contributions and the current situation.

But he didn't expect Meng Jueguang to have no such intention at all!

Although he said that he didn't have any foundation building pills, this sentence was very likely to be true. But if he didn't have any, couldn't he think of a way?

One had to know that Meng Tong, who was also the subordinate of the senior disciple in charge, had used up a large amount of rare medicinal pills. Not to mention the foundation building pills and base building liquid, he had even used the grade four great recovery pill, which was known as a life-saving divine pill, and there were two of them!

He was willing to spend so much money on Meng Tong, who was a useless piece of mud. However, he was unwilling to even give up a Foundation-building pill to his equally loyal younger brother, at least in the past. This kind of behavior was too chilling!

It was a good thing that he was smart enough to secretly become Lin Yi's boss's spy. Otherwise, he'd really be blind if he had to follow Meng jueguang's back!

Seeing the disappointment on Lee Zheng Ming's face, Meng jueguang knew that he could not justify his actions. He thought about it and added, "Although I don't have any foundation building pills on hand, I have specially prepared three sets of spirit herbs and materials for you to make the foundation building pills, Zhengming. I can give them to you when we go back later. As long as you find an Alchemist to help you, not to mention one foundation building pill, even three foundation building pills are enough for you. I guarantee that it will be enough for you to break through to the foundation building realm!"

Lee Zheng Ming was stunned. Initially, he thought that Meng jueguang had finally found his conscience. However, at the end of the story, Meng jueguang actually gave him the materials and asked him to find an Alchemist to make the pills himself. 'What the hell is this?'

The foundation elixir was an extremely rare elixir for Sky Class full Masters like him, but strictly speaking, it wasn't that rare at all. The spiritual herbs and materials needed to make the foundation elixir were basically all common goods.

Even if one set of foundation building pill ingredients were to be sold at the market price, it would at most be worth three to four pieces of spiritual Jade. Three sets of foundation building pill ingredients added together would at most be worth ten pieces of spiritual Jade.

In other words, Meng jueguang was only willing to spend ten pieces of spiritual Jade on Lee Zhengming at most. There was no way he would invest more than that!

Meng jueguang was not even willing to take out ten pieces of spiritual Jade. Although his words were very nice, saying that he had specially prepared it for Lee Zhengming, the materials for the foundation building pill were common goods that did not need to be specially prepared. Any cultivator with a little

bit of Foundation would be able to find several sets of these spiritual herbs in their personal warehouse after their subconscious accumulation in the past!

At the end of the day, these spirit herbs and materials were basically dispensable to Meng jueguang. They were just trash that he usually did not even bother to look at, but now, he had taken advantage of the situation and said that they were spirit herbs and materials specially prepared for Lee Zhengming!

If it was not for the fact that he had been bearing a blood feud for so many years and had developed a strong forbearance, Lee Zhengming would have cursed out loud. 'Meng Jue, do you have to be so mean to your own people?!'

If he had directly shook his head and refused, even if he was mean and unkind, he could at least be said to be upright and aboveboard. But Meng jueguang, this fellow, not only did not want to give him the foundation building pill, but he also had to care about his reputation. He had used these materials that even he himself did not care for to fool him, and even made it seem like he was very generous and considerate of his subordinates!

What did it mean to be a whore and also want to build a good reputation? This was it!

Before Lee Zhengming could say anything, Meng Tong, who was beside him, jumped up in shock. "Damn, three sets of foundation building pill ingredients! That was three foundation building pills! Ninth cousin brother, you're too biased, you've never given me so much!"

After a short pause, Meng Tong pretended to be generous and patted Lee Zhengming's shoulder. "But it's fine-I'm already in the early phase of Foundation, and I'm about to break through to the next level-no matter how many Foundation pills I have, it's meaningless to me. I won't fight with a Sky Class full master like you-you can take advantage of me and enjoy it!"

Chapter 3820 Report The Information

Lee Zheng Ming's face turned even darker. It was a perfectly reasonable and legitimate request, but it was just a piece of scrap material that was used to fool him. How could this be called enjoying the benefits? If it was Meng Tong, you'd be so happy to see it!

In theory, three sets of ingredients for the foundation building pill were indeed enough to make three foundation building pills. It was also indeed enough for him, Lee Zheng Ming, to break through to the foundation building realm. However, the problem was that he was just a newcomer to the GreenCloud Pavilion. Where would he find the financial resources to find an Alchemist to help him make the foundation building pills?

In the pill Hall, no matter what kind of pill they made, other than having to provide the ingredients themselves, there was another basic condition, which was to turn in two hundred spiritual jades. One had to know that this condition was something that even the poor senior brother, who had been in charge for many years, couldn't do, not to mention Lee Zhengming, who was just a newbie at the great circle of the Sky Class.

The greatest value of medicinal pills was not in the materials, but in the refining process! Not to mention three sets of ingredients, even if it was five or eight sets, no Alchemist would dare to guarantee that they would be able to refine a foundation building pill!

Putting aside the pill Hall, if he wanted to buy a foundation building pill on the spot in the market, it would cost at least two hundred and fifty spiritual jade pieces. It was impossible for him, Lee Zheng Ming, to have the purchasing power!

In other words, the three sets of Foundation establishment pill ingredients that Meng jueguang had given him had been completely useless. Meng jueguang had probably expected this outcome, but he still had to pretend to be a good person!

Looking at Meng jueguang and Meng Tong's faces, Lee Zhengming felt disgusted at the thought of himself being so blind that he had to risk his life for such people!

"Then I'll have to thank senior brother Meng for your concern." Lee Zheng Ming could only hold back his anger as he feigned civility with the man.

Meng jueguang chuckled. "Zhengming, it's good that you can understand my painstaking efforts. I'm very pleased. If you do a good job in the future, I will definitely not treat you badly."

"I will, I will not disappoint senior brother Meng." The corner of Lee Zheng Ming's mouth twitched unconsciously. 'How stupid am I to believe Meng Jue Guang's words that he would not mistreat me?'

At this point, he'd lost all hope in Meng jueguang. If it weren't for the fact that he had to be Lin Yi's spy, he'd even have the heart to flip out at him in public. Fortunately, his patience was far better than ordinary people's-no matter how disgusted he felt, he could still endure it.

Other than continuing to be Lin Yi's spy, he was also very concerned about what Meng Tong said just now. Meng Tong said that he was about to advance to the next level!

When Xu lingchong was talking to Meng jueguang just now, they had deliberately found a remote corner. Even Lee Zhengming could not get too close to them, so he did not know what these people were planning. However, he was now sure that what these people were talking about was definitely related to what Meng Tong had just blurted out!

If one thought carefully about Meng Tong's casual words, they would find that there was a lot of hidden meaning behind them!

Meng Tong had just reached the foundation building stage not long ago and had barely succeeded by using a foundation building elixir and a foundation building elixir. Logically speaking, with his Foundation, he shouldn't have thought of advancing any further in a few years. But now, this guy had actually shouted such words!

Judging from his tone, Meng Tong did not seem to be daydreaming. It was actually feasible. The most likely possibility was that Xu lingchong and Meng jueguang had reached some kind of agreement in private that would allow Meng Tong to improve in the short term. It seemed that young master Xu was ready to go all out again!

With li Zhengming's vision, it was hard for him to imagine anything that could make someone as weak as Meng Tong improve so much in such a short period of time. However, this information was undeniable. He had to reveal it to boss Lin Yi as soon as possible so that they could make preparations.

Li Zhengming knew that Lin Yi was hiding his peak early Foundation Stage strength. Even if Meng Tong could go one step further, he wouldn't be able to pose any real threat to Lin Yi.

However, Xiao ran and Qiao hongcai were different. Although they were already in the early stage of the foundation building realm, if they were to face Meng Tong, who was at the peak of the early stage of the foundation building realm, without any preparation, it would be a very bad situation.

After getting three sets of Foundation pill ingredients from Meng jueguang, li Zhengming went to Lin Yi's cave number one at the foot of the mountain while there was no one around.

"Zhengming, why did you come here personally?" Lin Yi was surprised to see Li Zhengming at the entrance of his cave, but he quickly led him in.

As Lin Yi's spy, in order to ensure secrecy and safety, Li Zhengming had to avoid any contact with Lin Yi under normal circumstances. Even if he wanted to pass on information, he would use secret codes and notes, never face to face.

After all, no matter what, Meng Jueguang was a cunning old fox. With so many new disciples under him, he had eyes and ears everywhere. No matter how careful Li Zhengming was, it was still easy for him to give himself away if he got too close to Lin Yi. The consequences would be hard to say.

Since ancient times, traitors had always been more detestable than enemies. Meng Jueguang might not do anything to Lin Yi's underlings like Xiao Ran and Qiao Hongcai, but if he found out that Li Zhengming had turned into Lin Yi's spy, he might really take the risk and kill him.

However, the reason why Li Zhengming took the risk to personally appear in Lin Yi's cave this time was because he had another purpose.

"Boss Lin Yi, I got some information from Meng Tong's mouth today, and I think I need to report it to you." Li Zhengming's face was serious as he told Lin Yi everything that Meng Tong had said before, as well as his own analysis and guesses.

"I can't believe there's such a thing. This young master Xu is really willing to spend so much money on Meng Tong. He really thinks highly of me!" Lin Yi couldn't help but be speechless.

His analysis was the same as li Zhengming 'S. He didn't know what Xu lingchong and Meng jueguang were planning, but one thing was for sure-it was just as Lin Yi had guessed. The other party couldn't hold back anymore and was about to get serious.

From Meng Tong's words, it was possible to rule out the possibility that the miserable senior brother had speculated. What he meant was definitely not as simple as using the ultimate golden core to temporarily improve his strength, but to really improve his strength, from the early stage of the foundation building stage to the peak of the early stage!

"As expected, this is the style of a young master like Xu lingchong! Fortunately, Zhengming, you gave me this information in advance. Otherwise, if I was caught off guard, it would be a big problem!" Lin Yi sighed and turned to li Zhengming with a serious face."Although I can't expose your identity, I'd like to thank you on behalf of Xiao ran and Qiao hongcai."
