

Bodyguard 3821

Chapter 3821 Throwing Away

Trash like Meng Tong wouldn't be a threat to Lin Yi no matter how much he leveled up, but he had to think about his underlings! If they were caught off guard and either Xiao ran or Qiao hongcai was killed, it would be an unacceptable loss.

"You're too kind, boss Lin Yi-it's my duty, I don't deserve your thanks!" Lee Zheng Ming was moved when he heard that.

They were all new bosses, but they valued their underlings more. Comparing Lin Yi to Meng jueguang and Meng Tong was like comparing heaven and earth!

"You deserve it. Without your information, the two of them might have been in trouble. So you don't have to be humble. I'll remember all the credit for you." Lin Yi smiled as he patted Li Zhengming's shoulder.

Lee Zheng Min was touched, but he was still a little stunned,""It's a pity that I didn't dare to continue to fish for information from Meng Tong. Otherwise, it wouldn't have been difficult to get specific plans from his arrogant and foolish character. "

"It's fine. You were right not to go to him and try to get more information from him. Otherwise, with an old fox like Meng jueguang keeping an eye on you, it would be very easy for him to see through your tricks. There's no need to lose the big picture over a small matter. After all, safety first. " Lin Yi comforted before adding,"And this information of yours is enough for me."

Lin Yi wasn't bluffing-he was speaking the truth. He suddenly remembered that miss Shangguan was present the entire time Xu lingchong and Meng jueguang were having a private discussion.

Although both Xu lingchong and Meng jueguang had deliberately avoided the eyes and ears of others, and even their underlings such as Lee Zhengming were not allowed to get close to her, it was impossible for them to point fingers at miss Shangguan.

Shangguan LAN 'er's status was higher than Xu lingchong' s, and she was pretending to be at loggerheads with Lin Yi. If she wanted to hear anything, Xu lingchong and Meng jueguang would be more than happy to please her-who would stop her?

So even if he couldn't get the details of the plan from li Zhengming, Lin Yi could still find a suitable opportunity to ask miss Shangguan about it since he already knew about it.

After that, Lin Yi smacked his head."By the way, I've been idle for the past two days, so I'm planning to start refining pills. Zhengming, you can go back and adjust your state these few days. I'll give you two foundation building pills then, and you can start preparing to break through to the foundation building realm."

Lin Yi's words stunned li Zhengming for a moment, and his nose twitched, almost tearing up.

He'd come to Lin Yi in person today not only to provide information, but also for the foundation pill.

Li Zhengming didn't really want to ask Lin Yi about this because he didn't think he'd make any contributions. However, breaking through to the Foundation Stage was the most important thing right

now-he'd fall behind the others if he continued like this, and he'd have no chance to compete in the future.

He'd been rejected by Meng jueguang earlier, and now he'd turned to Lin Yi, the real boss, for help. This was the only choice Li Zhengming had.

From the fact that both Qiao hongcai and Xiao ran were successful in breaking through to Foundation, Lin Yi could tell that the foundation pill he got from the back mountain test was given to Qiao hongcai already. As a newbie, he wouldn't have a second one.

However, Li Zhengming wasn't looking for Lin Yi for the foundation elixir. He wanted Lin Yi's help to make the elixir. After all, he just got three sets of ingredients from Meng jueguang, and Lin Yi was already an elixir master back in the common world. This was an open secret.

But even if Lin Yi was an Alchemist, he might not have the ability to make the foundation pill. Li Zhengming had no other choice but to try his luck with Lin Yi.

But what Li Zhengming didn't expect was that before he could even think of how to say it, Lin Yi had already taken the initiative to bring it up. From the beginning to the end, Lin Yi didn't even mention any additional requests. It was just to help him break through to the Foundation Stage!

On one hand, it was Meng jueguang's fault, and on the other, it was Lin Yi's loyalty. With such a sharp contrast, Li Zhengming would be heartless if he didn't shed tears.

There's only difference when there's a comparison. Comparing the senior Steward, Meng jueguang, to Lin Yi, Li Zhengming felt like he was in a cave. There was no way to compare at all.

"Boss Lin Yi, I actually came to you today not only to report some information, but also to ask for your help in making the foundation pill." Li Zhengming rubbed his nose and suppressed his emotions. He then took out the three sets of ingredients Meng jueguang gave him and handed them to Lin Yi.

"Oh? You've even prepared the spirit herbs and materials. That's not bad. It saves me the trouble of going out to make a trip. " Lin Yi's eyes lit up.

The ingredients for the foundation pill were all common goods that could be bought in the market, but Lin Yi didn't have enough on hand. After all, even if he wanted to build his own spiritual medicine storage, it had only been a short time, and it was far from the scale. If Li Zhengming didn't give him some, he would have to make a trip to the market for some of the herbs.

Although he used preconceived smokescreens to trick Yu Zhe into not linking Lin Yi and Lin er together, it was obvious that Yu Zhe and his master, Nan tianyong, would definitely stay around the market and continue to investigate. They wouldn't give up until they found Lin er.

So, if Lin Yi went to the market with the identity of Lin er, it was quite risky. He might be stopped by Yu Zhe and Nan tianyong if he wasn't careful. Although Lin Yi wasn't afraid of Yu Zhe, the other side still had Nan tianyong. A guy who could be the supervisor Deacon of the rising Sky Pavilion was definitely not a small matter.

If he was blocked by these two, then with Lin Yi's strength at the peak of the early Foundation Stage, he would be in deep trouble.

However, if he didn't use Lin er's identity and used Lin Yi's real face to go to the market, it would be even more suspicious. After all, Lin Yi's good jades had already been traded away with waste jades, and if he bought anything in the market, it could arouse the suspicion of Meng jueguang and the others, which would be bad.

If there wasn't a need, Lin Yi didn't plan on going to the market anytime soon!

Chapter 3822 The Seed's Transformation

But now, for the sake of Lee Zhengming, he decided to take a risk. After all, Xiao ran and Qiao hongcai had already reached the foundation establishment stage, and Lee Zhengming was his underling in secret, so he couldn't let them down.

What Lin Yi didn't expect, however, was that li Zhengming would take the initiative to give him the ingredients for the foundation elixir. It was a pleasant surprise.

"That's good. Zhengming, go back and prepare well. I'll give you the foundation building elixir tomorrow." Lin Yi consoled li Zhengming. As someone who had the Shennong medicine cauldron, Lin Yi could even successfully make the Golden Foundation pellet and the barrier-breaking Foundation pellet, so a mere Foundation pellet was nothing to him.

"Boss Lin Yi, I'll take my leave now." Lee Zheng Ming nodded gratefully, but he did not say any more flattering words and left immediately.

He knew that Lin Yi was different from the likes of Meng jueguang. Flattery had no effect on him, and if he wanted to gain his trust, he had to take action. With Lin Yi's usual style, as long as he was willing to work for him, he wouldn't mistreat himself.

After Li Zhengming left, Lin Yi started preparing for work. Although making the foundation pill wasn't challenging, it still took a lot of time. He had to take care of the eighty-five seeds first and make sure that they were filled with Qi at the right time.

According to what the sissy manager of the spirit herb nursery had said, it had been almost twenty days. It should be about time. Even if not all eighty-five spirit herb seeds had survived, at least a portion of them should have developed first.

But what made Lin Yi speechless was that all eighty-five seeds seemed to have been silenced. Nearly twenty days had passed, and there was no movement at all. Lin Yi couldn't help but wonder if it was because the Jade space had too much Qi, and the seeds weren't used to it.

Even humans had times when they were weak and could not take in nutrients. If too much fertilizer was applied to other ordinary crops, the seedlings would also burn.

Although ordinary crops couldn't be compared with spiritual seeds, which were the essence of heaven and earth, and the spiritual Qi of heaven and earth was not ordinary fertilizer, it couldn't be ruled out in this situation.

Fortunately, although these 85 spirit medicine seeds showed no signs of growth, the color of their seed skin was round and full, not looking like they were about to wither.

Lin Yi felt that the seeds hadn't fully matured yet, but after being nourished in the Jade space, their life force was much better than when he first got them.

It was only Lin Yi's own guess, but it made sense.

Back then, the sissy manager had said that because these spirit herb seeds were cultivated in batches by the spirit herb nursery, even if they could grow, they would be a batch with congenital deficiencies. Not only could they not be left for cultivation, but even the spirit herb plants cultivated could not be compared to the spirit herbs that grew naturally in the wild.

All living things had spirituality, and the seeds of spirit herbs were even more so. Now that they were placed in the unique environment of the Jade space, it was entirely possible that they would not develop and instead accumulate to make up for their innate lack of Yuan Qi.

If that was the case, it would be a good thing for Lin Yi. After all, he only had two heart-devouring exquisite grass seeds. If the quality of the seeds was too poor, it might not even be enough for two Foundation-level golden cores, maybe even one. That would be too much.

However, no matter how he guessed, as long as these seeds didn't die or rot, Lin Yi could only continue to wait. He couldn't even ask for other people's opinions. After all, this involved the important secret of the Jade space. Unless it was someone he could completely trust, he couldn't let anyone know.

As usual, Lin Yi transferred his Qi into the eighty-five seeds before making some preparations. He then used the ingredients Li Zhengming provided to start making the foundation elixir.

The process didn't need to be explained-after all, he'd had the experience of making the Golden and barrier-breaking Foundation pills before, so he was already very familiar with the process. Making the foundation pills was a piece of cake for him.

The night passed uneventfully, and before dawn the next day, the restriction of Lee Zheng Ming's cave No. 2 at the foot of the mountain was lightly touched.

Li Zhengming was taken aback, thinking that Meng jueguang and the others were looking for him again. After all, he did tell Lin Yi about the foundation building pill last night, and Lin Yi agreed to it without a second thought. Even a layman like Li Zhengming knew that refining pills was no easy task.

Even though the grade of the foundation building elixir wasn't high, the process of refining it was still extremely taxing on the mind. In order to ensure the success rate, one had to make full preparations beforehand.

This preparation did not only refer to the alchemy materials, but more importantly, The Alchemist himself had to spend time to adjust his condition and recuperate his spirit. This time varied from person to person, but according to Lee Zheng Ming's knowledge, even the best Alchemist would have to prepare for at least a whole day from the moment they received the Commission.

As for those who immediately started to refine it as soon as they got the materials, it was simply a mountain cannon, and there was no guarantee of success.

One had to know that even if one was well prepared, the success rate of most alchemists was only about 20% to 30%. If one was not well prepared, then even this 20% to 30% success rate would be impossible. It was likely that the success rate would be less than 10%.

In this case, the three sets of ingredients that Li Zhengming had taken from Meng jueguang were not even enough to be wasted. However, according to his observation, his current boss Lin Yi had always been calm and steady, and he shouldn't be so reckless when it came to things like refining pills.

As a result, Li Zhengming didn't even think about Lin Yi and the foundation pill the moment the cave's restrictions were triggered. He was thinking about what Meng Jueguang and the others were up to this time. They might be up to some dirty tricks.

However, when he opened the door of the cave abode, Lee Zhengming could not help but be stunned again. There was no one in front of him, not even the shadow of Meng Jueguang and the others that he had expected.

Confused, Lee Zheng Ming scanned the area outside once more. When his gaze habitually swept past the edge of the steps at the entrance of the cave abode, his eyes could not help but narrow. In that corner, there was an inconspicuous gray cloth bag.

Chapter 3823 Worship And Admiration

"Don't tell me ..." Li Zhengming couldn't help but be shocked. This inconspicuous corner was one of the secret ways he and Lin Yi agreed to contact each other. Other than Lin Yi, no one would put things in a corner that they wouldn't notice at all.

Seeing that there was no one around, Lee Zhengming quickly put the gray cloth bag into his sleeve and turned around to return to his cave.

After closing the door of the cave abode and closing the restriction, Lee Zhengming took a deep breath and suppressed the excitement in his heart. He reached out and slowly opened the cloth bag. Then, his eyes suddenly widened.

"This ... This is too fast!" Looking at the two pills lying quietly in the cloth bag, even if Lee Zheng Ming had already mentally prepared himself for this in advance, he could not help but gasp.

These two pills were naturally the foundation pills Lin Yi made for him-he'd just told them about it last night, and they'd arrived this morning before the sun even rose! Even Li Zhengming, a Sky Class island's native, couldn't help but be flabbergasted by the speed and efficiency of the delivery.

In that instant, Li Zhengming couldn't help but respect his boss Lin Yi.

Lin Yi's promise to his Lackey was one thing, but compared to him, Meng Jueguang's backing was already Ten Streets away. Li Zhengming couldn't even compare Lin Yi to him anymore.

On the other hand, Li Zhengming was in awe of Lin Yi's skill.

It'd only been eight hours since he'd finished talking to Lin Yi last night, and any other refiner wouldn't even be ready yet, but his boss Lin Yi had already taken out the foundation pills-and what made Li Zhengming's heart race was that he had two!

He'd only given Lin Yi three sets of ingredients, and Lin Yi started making them without any preparation. He'd even made two successfully, with a success rate of almost 70%! This was unbelievable!

This was where Li Zhengming was wrong. In fact, Lin Yi didn't just give him these two Foundation pills when he made them last night. He made five in total, but he didn't want to make a big deal out of it, so he kept the other three for himself. Otherwise, Li Zhengming's jaw would've dropped even more.

Li Zhengming was born in a big family on a Sky Class Island, and he'd been influenced since he was young. His vision was far beyond that of other grassroots practitioners, and even with his vision, he was completely stunned by Lin Yi's skills!

Li Zhengming originally thought that for a powerful newbie like Lin Yi, making elixirs was only his secondary profession, and he wouldn't be that accomplished.

After all, it was common knowledge that refiners only had levels but no strength. From Lin Yi's domineering performance before, his strength wasn't weak at all-he was one of the stronger ones even among his peers.

Yet, a person like this was actually an Alchemist! This in itself had already subverted everyone's understanding of alchemy, and now Li Zhengming found out that his boss Lin Yi's alchemy skills were far beyond that of ordinary alchemists! Other than being shocked, he couldn't find any other words to describe his current mood.

After staring blankly at the two foundation building pills for a long time, Li Zhengming finally muttered, ""Boss Lin Yi, you're a Miracle Man!"

Putting aside the fact that his strength was unbelievably strong, the key was that he treated his subordinates extremely well. Even Xiao Ran and Qiao Hong Cai, who were originally unremarkable grassroots rookies, were now far ahead of the other GreenCloud Pavilion's and even the Skyward Pavilion's and mysterious Pavilion's rookies. This was something that was simply unimaginable in the past.

Now that he found out that this guy was also a skilled refiner, even someone as tough as Li Zhengming couldn't be angry at his boss anymore.

Before this, Li Zhengming still thought that Lin Yi was just slightly better than him in terms of luck, and that he would have the chance to surpass Lin Yi in the future, but now, he no longer had that thought.

It wasn't an exaggeration at all—Li Zhengming was completely convinced by this boss Lin Yi now. A monster like this wasn't someone a normal person like him could compare to. Perhaps only a legendary person like the miracle doctor Zhang Liju could be compared to him!

Although he'd already given up on chasing Lin Yi, Li Zhengming's desire to break through to the Foundation Stage didn't decrease at all. In fact, it became even stronger.

Both of them were Lin Yi's underlings, and Xiao Ran and Qiao Hongcai were already one step ahead of Lin Yi. If this continued, Li Zhengming would fall behind even more, and that was something he didn't want to see.

Because the stronger Lin Yi was, the more unpredictable he was—this meant that his followers would have a brighter future, and they'd be more determined. As a result, the competition between them would become more intense.

Li Zhengming was full of admiration for Lin Yi as his boss, but that didn't mean he was willing to submit to Xiao Ran and Qiao Hongcai, let alone lower his head to them. These people were just lucky to have boss Lin Yi's favor as soon as they arrived, and that was why they were able to reach the Foundation Stage one step ahead of him.

Li Zhengming himself had two Foundation pills in his hands, and he had hope of breaking through to the Foundation Stage soon. This also meant that the fight for the number one position under Lin Yi had just begun.

However, the foundation pill didn't have an absolute effect on breaking through to the Foundation Stage. In reality, it only changed the meridians in the body to be more suitable for cultivation, and it only had a certain degree of auxiliary effect for breaking through to the Foundation Stage. It didn't mean that any Sky Class master who took the foundation pill would definitely succeed.

The foundation was the most important process for all cultivators. Whether the foundation was stable or not directly determined how far they could go in the future. Therefore, this process could not be replaced by any medicinal pills.

To break through to the foundational level, the most important condition was to have a strong foundation-only by relying on one's own strength, and truly touching the barrier between Sky Class full phase and the early phase of the foundational level, could external items like the foundational dan have the effect of stimulating the breakthrough.

To forge iron, one needed to be strong. Otherwise, no matter how many foundation building pills one took, it would be in vain. Especially if one failed to break through continuously and the body's instinct developed a resistance to it, it would be a fool's dream to rely on foundation building pills to break through to the foundation building realm again. It would be impossible to succeed in this lifetime.

Chapter 3824 Waiting To Be Humiliated

With Lee Zheng Ming's current strength and Foundation, it was not difficult for him to break through to the foundation building realm. It was basically a piece of cake. Moreover, he had two foundation building pills in his hands. Even if he could not succeed the first time, he would have a second chance. There was no need to worry about not succeeding.

Li Zhengming's confidence aside, Lin Yi's pace was as calm as ever after giving him the two Foundation pills. He trained when he needed to, and channeled Qi into the seeds when he needed to. He even went to the spirit Jade Hall to mine during the day. He had nothing to do anyway.

Other than that, Lin Yi's main task now was to guard the eighty-five seeds in the Jade space, especially the two heart-devouring exquisite grass seeds. After all, these would directly affect when he could advance to the next level.

To Lin Yi, he was surrounded by all kinds of strong enemies. It was already a little difficult to just rely on his strength at the peak of the early Foundation Stage. He needed to advance to the mid Foundation Stage as soon as possible to have more confidence and more freedom to move around.

Another three days passed, and there was still no movement from the seeds. Even the usually calm Lin Yi couldn't help but feel uneasy.

Counting the days, it had been a full 22 days since these spirit herb seeds were transplanted into the Jade space. They should have borne fruit long ago.

It was as the saying went-other than Lin Yi, all the other newbies had planted their first batch of seeds, Dead or Alive. As such, before the sixth round of the rookie Challenge began, almost all the rookies surrounding the stage were talking about the spiritual herb seeds.

From the results of the first attempt by the new disciples of the GreenCloud Pavilion, it could be said that the situation was not optimistic.

If someone were to do a quick calculation, they would realize that out of all the new disciples in the pavilion, other than Lin Yi, Xiao ran, Qiao hongcai, and Li Zhengming, the other eleven had tested twenty-three seeds. Only two of them had successfully grown and were sent to the spirit medicine nursery for scoring.

The two lucky fellows had each drawn a spirit Herb Seed with a strong vitality and relatively low requirements for the outside world, so they had managed to obtain some gains. However, the remaining nine people, including Meng Tong, had completely lost the first batch of spirit herb seeds.

Although this result was disastrous, it was still reasonable. After all, it was very difficult for the immortal's caves of GreenCloud Pavilion's newbies to meet the spiritual energy needs of the spiritual herb seeds. Also, because of the newbies "challenge, many people couldn't even guarantee a fixed amount of zhenqi supply at a fixed time. There were many newbies like Meng Tong and Cha Wu, who were often seriously injured in the challenge fights.

This had also made the GreenCloud Pavilion's new disciples realize that the spiritual medicine trial was simply a scam to them.

The only use of the spirit herb seeds was to deduct points when they were collected. Basically, the points would be deducted as much as they were collected. Even if there were a few spirit herb seeds that could be cultivated from the ancestral grave, it would only deduct a few points. If he wanted to earn a few points through this segment, he was simply blind.

However, it was fortunate that most of the GreenCloud Pavilion's new disciples already knew their own limits. Thus, they only reported the minimum number of ten pills. At most, they would only lose ten points in this segment.

Other than blind weaklings like Cha Wu, who were already at the bottom of the rankings, the other newbies wouldn't have their points deducted as long as they had some gains in the challenge Round. Also, because everyone's points were deducted together, it didn't have any obvious impact on their rankings.

However, someone suddenly recalled that when they were at the spirit medicine nursery, a newcomer who stood out alone had signed up for a total of forty spirit medicine seeds!

The more he reported, the more points he would lose. Now, this guess had been verified and become an iron-like law. Therefore, while the other rookies only needed to lose ten points, this idiot who reported a whole 40 spiritual herb seeds would lose a whole 40 points!

Of course, there were also people who bet that Lin Yi would be lucky enough to grow one or two out of the forty seeds, but that would only save him a few points at most.

Even if Lin Yi's strength was strong enough to be at the top, there were some things that strength couldn't solve. No matter how strong a person was, they had to pay for their own stupidity.

"Oh, the number one newbie of the GreenCloud Pavilion who signed up for 40 spiritual medicine seeds. How's the cultivation of the spiritual medicine seeds going? I don't think I've seen you go to the spiritual medicine nursery these past two days to report on your work!" Two uninvited guests arrived at the center of the room-Kang Zhaoming and Zhong pinliang.

Although the sixth round of the rookie Challenge was about to begin, there was still a little bit of time before that and he couldn't do anything big. However, if he just wanted to find an old enemy to say a few sarcastic words and be happy, that would be enough.

Kang Zhaoming and Zhong pinliang naturally became the center of attention the moment they appeared, especially Kang Zhaoming. Because he was under the care of the young master Xu lingchong, his fame in the pavilion was no less than Lin Yi 's, and he was undoubtedly the number one newcomer in the pavilion.

Kang Zhaoming and Lin Yi were two people who hated each other in the common world. Now that they were in the welcoming Pavilion of the North Island, one became the number one newcomer in the rising Sky Pavilion and the other in the GreenCloud Pavilion. It was a wonderful scene to see the two of them fighting in public.

In an instant, everyone's eyes were focused on Lin Yi, not hiding their gloating at all.

Especially Meng jueguang and Meng Tong-they weren't ready to take the meridian heart-shattering pill yet, and so they had to endure under the influence of Lin Yi's gang for the time being. There was only one word that could describe how Lin Yi was getting ridiculed by Kang Zhaoming-it was so satisfying!

Lin Yi only raised an eyebrow at the mocking Kang Zhaoming. "Don't tell me that the fabled new Deacon has to be in charge of guarding the spirit medicine nursery? That's really a tough job. It seems that I should find an opportunity to reward you with a few pieces of spiritual Jade. "

Zhaoming paused, and pinliang, on the other hand, was trying his best to hold in his laughter. This Kang Zhaoming had been trying so hard to make a fool out of boss Lin Yi, but he'd choked on the first sentence. It was like asking for a beating-it was a scene to watch.

Under everyone's gaze, Zhaoming choked for a while before he sneered,"Is that so? It's really hard for a loser like you from the GreenCloud Pavilion to have the time to do so. However, forgive me for being curious, but do you have any spirit Jade with you? don't tell me you're taking out a pile of useless Jade?"

Chapter 3825 It's A Little Tragic

Lin Yi had been traded for a good piece of Jade, and quite a few people in the pavilion knew about it. In everyone's eyes, it was probably only Lin Yi's own lackeys who didn't know about it-if they knew, they'd

probably all join in and screw this stupid boss of Lin Yi's over, driven by profit. After all, there was an old saying, "don't let the fertile water flow into others' fields!"

Everyone smiled at Zhaoming's words, but no one interrupted in detail, afraid that Lin Yi would react. After all, no matter how stupid Lin Yi was, it was still easy to expose something like this in front of him.

Lin Yi and the others looked at each other and smiled. The miserable senior brother and Xiao ran had heard about the rumors of Lin Yi being tricked by people with Jade. Lin Yi had already explained everything to them with the same story he told the miserable senior brother.

Kang Zhaoming and the others were all gloating over Lin Yi's misfortune. They thought that boss Lin Yi was an idiot who didn't know how to differentiate good Jade from useless Jade. They didn't know that they were the ones who believed in such a ridiculous statement. They were the real idiots who were helping people count the money after being sold.

Seeing that Lin Yi didn't want to talk to him, Kang Zhaoming changed the topic, "I'm here as an Alchemist to talk to you. The first batch of six spiritual medicine seeds was tested, but three were cultivated and only had a 50% survival rate. I'm not very satisfied with my results. What do you think, newbie Lin?"

As soon as these words were spoken, the surrounding GreenCloud Pavilion newbies couldn't help but suck in a breath of cold air. Three out of the six had survived. A 50% survival rate. This result was simply the result of all the effort put in by all the GreenCloud Pavilion newbies combined!

Other than Lin Yi's group, the other eleven new disciples only managed to grow two seeds. They couldn't compare to Kang Zhaoming at all.

According to the sissy manager of the spirit medicine nursery, newbies like them would be lucky if three out of ten seeds could survive. Kang Zhaoming's 50% survival rate was already the limit, it was too much!

If they were not satisfied with this result, then the rest of them would just buy a piece of tofu and die.

After a while, everyone's eyes returned to Lin Yi, who smiled faintly and said seriously, "Only 50% survival rate-that's pretty bad. Zhaoming, you've got to work hard, don't embarrass us alchemists."

Lin Yi's caring expression almost made everyone burst out in laughter. This Lin Yi was just too much!

"Gah!" Zhaoming's face darkened-his 50% success rate was already enough to blind the people in the spirit medicine nursery, you idiot! You've been here for so long and you haven't even grown a single one, what face do you have to talk to me like this?!

Pinliang couldn't help but chuckle to himself-Zhaoming wanted to show off in front of boss Lin Yi, but not only did he fail, he even got stepped on by boss Lin Yi! He was probably going to explode from anger!

"Is that so? Then I'd like to ask, newbie Lin, how many pills have you cultivated in the past few days? you won't bring shame to us alchemists, will you?" Kang Zhaoming's face was dark as he forced a cold smile.

"Hehe ... Didn't you just say that the new Deacon's requirements include guarding the spirit medicine nursery? can't you just open your eyes wide and watch? Or is it that your math was taught by your physical education teacher and you're not confident in yourself?" Lin Yi looked at Zhaoming with a weird expression, as if he was thinking that Zhaoming was stupid.

Everyone was looking at him as if he was an idiot, and he wanted to slap them all into idiots, but that wasn't realistic. Even if he could, he wouldn't be able to beat Lin Yi.

"Hmph, you're so eloquent. I'll wait to see you cry!" Zhaoming hmphed coldly. The newcomer challenge was about to begin, so he gave pinliang a look and left.

Pinliang laughed coldly to himself-you idiot, you really didn't get enough of being stepped on, did you? boss Lin Yi went from the common world all the way to Sky Class Island, and you're getting braver with every setback! This psychological quality was not something an ordinary person could possess!

Luckily, I've been working under boss Lin Yi for a long time, or I'd be stepped on again!

Looking at the backs of Kang Zhaoming and Zhong pinliang, the bitter-faced guy and Xiao ran looked at each other. Although they managed to get rid of the arrogant guy with their words, they still looked at Lin Yi with worry.

"Junior Brother Lin, are you sure you can handle all those spirit herb seeds on your own ...?" The senior brother could not help but ask.

Lin Yi didn't just take the forty seeds himself, he even took Xiao ran's and Qiao hongcai 's. Even the poor guy didn't know that Lin Yi still had li Zhengming and Zhong pinliang's seeds, but he knew that if something went wrong with Lin Yi's side, they would all be wiped out in the test.

It wasn't a big deal for a newbie like Lin Yi to be completely annihilated, but the guy was worried that Lin Yi would waste all his pure Qi on these seeds after all the provocation.

Once he used up too much pure Qi, not only would his strength be affected, but he might even reveal a flaw in the challenge. This was something that even the strongest master couldn't avoid, and Lin Yi, the number one newbie of the pavilion, was no exception.

Even the honest and kind Shixiong couldn't help but wonder if this was a trap set up by Meng jueguang and the others specifically for Lin Yi!

According to their previous speculations, after Xu lingchong's appearance in the last round, Meng jueguang was sure to make a big move, and this big move might not be targeted at Xiao ran and Qiao hongcai, his two underlings. It was very likely that he would wait for an opportunity to attack Lin Yi.

After all, with the involvement of young master Xu, it was too easy to deal with Xiao ran and Qiao hongcai. If you want to catch the thief, you must first Catch the King!

It wasn't just the bitter senior who had this worry-Xiao ran and Qiao hongcai had thought of it as well. After all, Zhaoming and Meng jueguang were all under young master Xu-they were on the same side! It was only natural for them to have this sort of tacit understanding!

Lin Yi blinked at the question, but before he could answer, Qiao hongcai waved his hand,""The spiritual herb seeds don't matter at all. So what if we're all annihilated? do you think we're short of this little bit of points?"

Chapter 3826 The End Of The Challenge

"What?" The miserable senior brother was stunned when he heard this, but Xiao ran nodded in agreement and said, ""That's right. We're not short of these points at all."

Even if they were completely annihilated, the two of them would at most lose ten points each, but to them, who were now in the early stage of the foundation building realm, so what?

Meng Tong, who was also at the early Foundation Stage, was completely suppressed by the two of them. Other than their boss, Lin Yi, no one else in the GreenCloud Pavilion had the strength to fight against them. The upcoming newcomer's Challenge competition was a feast for them to obtain points.

In the upcoming newcomer's challenge, Xiao ran and Qiao hongcai could almost get a hundred points. In comparison, the ten points deducted from the trial of elixirs were not worth mentioning.

It wasn't just the two of them-even Lin Yi, who'd signed up for the forty seeds, didn't feel as bad as he'd thought. With the foundations he'd built up from getting full marks in the two rounds before, the other newbies wouldn't be able to catch up to him even if he lost forty points.

In the entire GreenCloud Pavilion, the only newcomer who could pose a threat to Lin Yi was the second-ranked Meng Tong.

If Meng Tong was able to keep on crushing Lin Yi in the newcomer Challenge Round, and Lin Yi lost another forty points, then there would still be a chance to kick Lin Yi off the stage.

It was a pity that Meng Tong was still recovering from his injuries. He couldn't even defeat Lin Yi's two subordinates, Xiao ran and Qiao hongcai, let alone Lin Yi. If things continued like this, Meng Tong would never be able to catch up to Lin Yi in his life!

This way, it didn't matter to Lin Yi and the other two whether they were all wiped out or how many points they lost.

After thinking through this, the bitter senior brother could not help but smile. When one's strength was strong enough to be above everyone else, then no matter how many twists and turns the process took, no matter how big a mistake was made, the outcome was already determined.

However, Lin Yi opened his mouth and said, ""However ... I don't care if you're short of this little point. However, who said that my spirit herb seeds would be completely wiped out?"

"Ha?" The miserable senior brother and the others were instantly stunned. The results of the first batch of experiments by the other newcomers had already come out. If there were any spirit medicine seedlings that had survived, they would have definitely been sent to the spirit medicine nursery for scoring.

The requirements for a spiritual herb seedling were far above that of a spiritual herb's seed. Even the best of the rising Sky Pavilion's newbies were far from being able to meet the basic requirements for a spiritual herb seedling. If they didn't hand it over after cultivating it, then the outcome would be a hundred percent certain that it would wither to death in their own hands, and all their efforts would be in vain.

Therefore, anyone who successfully cultivated even a single spirit Herb Seed would immediately be sent to the spirit medicine nursery. Otherwise, no matter how many spirit herb seedlings they cultivated, it would be for nothing.

From what the brothers knew, Lin Yi hadn't been to the herb garden these days, which meant that no matter how many seeds he planted in the first batch, he didn't grow a single one.

This result was a huge blow to the invincible Lin Yi, and with Kang Zhaoming's taunting, the seniors were worried that Lin Yi would be depressed, so they brought up this topic to comfort him. But the guy didn't look like he'd been hit at all!

"Don't worry. Since you've left this matter to me, there's nothing to worry about. We'll just wait and see the results." Lin Yi said with a smile.

The guys looked at each other. They still didn't know where Lin Yi got his confidence from, but they nodded. After all, ever since they met Lin Yi, he'd never failed to do anything he said he wanted to do.

Then this time should be no exception!

The sixth round of the GreenCloud Pavilion's newcomer challenge, other than the initial disturbance, went according to everyone's expectations. Qiao hongcai and Xiao ran, the two mountains under Lin Yi, continued to challenge the others to gain points.

As for Meng Tong, he was the only one left who could pose a threat to them. Many people, including Lin Yi, thought that young master Xu was going to do something big after he appeared in the last round, but at least for this round, Meng Tong was still holding back.

In fact, he had no choice but to bear with it. The injuries he had suffered from the last time he fought with Qiao hongcai had not yet recovered. Even if he did, he might not be a match for Xiao ran and Qiao hongcai with his strength of the early stage of the foundation establishment.

Therefore, the only thing Meng Tong could do now was to pick on the weak persimmons after Xiao ran and Qiao hongcai challenged the higher-ups.

Although this method made him, the self-proclaimed new boss of the GreenCloud Pavilion, feel extremely aggrieved, he had no choice but to do so. Otherwise, in his current state, he would only be looking for a beating if he were to face either Xiao ran or Qiao hongcai.

Other than these three, there were two other top five. Lin Yi, the number one newcomer, was just a bystander, as always. Li Zhengming's side didn't have a chance to fight either.

But even if he didn't show his strength, Lin Yi could tell with his golden finger that this guy's aura was completely different from before. Without a doubt, it was because of the two Foundation pills that Li Zhengming finally broke through to the Foundation Stage, becoming the fifth early Foundation Stage master among the new disciples of the GreenCloud Pavilion!

However, it was unknown if it was because the others didn't notice it at all, or if it was because Li Zhengming was hiding it too well, but these people, including Meng jueguang, didn't even notice the changes in Li Zhengming's body. In their minds, Li Zhengming was still a Sky Class full foundation, not an early Foundation Stage master who could stand side by side with Meng Tong and Lin Yi.

Li Zhengming wanted to keep a low profile, and this was the result he wanted to see the most. Otherwise, Meng jueguang might ask him to deal with Lin Yi, and that would be troublesome.

The sixth round of the newcomer challenge passed just like that, but when Lin Yi returned to the cave and entered the Jade space out of habit, he took a casual look and was shocked.

With his current strength and all his past experiences, there weren't many things that could shock Lin Yi anymore, but the scene in front of him made him unable to close his mouth.

Chapter 3827 The Seed Sprouts

The eighty-five spirit herb seeds, which had been silent for twenty-two days, had all awakened after only one round of the challenge!

That's right, it was awakening!

Although these spirit herb seeds had not really grown into seedlings, strictly speaking, their current state was not much different from before. However, anyone with a discerning eye could see that they were different from the previous motionless feeling. They had already awakened!

The seed skin had begun to crack, and the sprouts and roots were already flourishing. It was a scene of prosperity.

Lin Yi's heart was still in his throat, but after seeing this, it finally dropped to the ground. Including the two heart-devouring exquisite grass seeds, all eighty-five seeds were alive. The Jade space didn't let Lin Yi down-it was a huge surprise!

Before the challenge today, they were all in a state of total silence, but in just one afternoon, all eighty-five seeds woke up! Lin Yi had seen all kinds of weird things before, and he couldn't help but find it hard to believe!

Nothing happened at first, but with Zhaoming's taunting, all eighty-five seeds woke up-it was a slap in the face! The idiot would faint from anger if Zhaoming found out about this.

But to the troubled Lin Yi, Zhaoming was a Lucky Star. Who knew how long he'd have to wait.

"All living things have their own intelligence, this saying is absolutely correct." Lin Yi couldn't help but smile.

If everything went as expected, in the next few days, the eighty-five spirit herb seeds that had awakened would really begin to take root and sprout. Under the nourishment of the pure spiritual Qi in the Jade space, it was only a matter of time before they grew into spirit herb seedlings.

However, Lin Yi suddenly realized that he had to go to the market.

Now, all 85 spirit herb seeds, including the two heart-devouring exquisite grass seeds, had been awakened. With the unique conditions of the Jade space, it was almost a matter of course to successfully cultivate them into stalks. Moreover, because the growth cycle of these spirit herb seeds had been artificially accelerated countless times, the day was not far away.

If everything went as planned, Lin Yi would be able to harvest two stalks of heart-devouring exquisite grass very soon, and he could start preparing for the foundation-stage golden pill.

However, if he wanted to refine a Foundation establishment golden core, just relying on two stalks of heart-devouring exquisite grass was clearly not enough. With his current stock of spirit medicines, he was unable to gather other materials. In order to not delay the refining of the foundation establishment golden core, it was necessary to go to the market City in the near future.

Although he knew that if he appeared in the market as Lin er in the near future, it was very likely that he would encounter Yu Zhe, his enemy. Even his master, Nan tianyong, might encounter him as well. This threat was definitely not to be underestimated.

But compared to the Foundation Stage, this was nothing. He couldn't just ignore the materials for the Foundation Stage just to avoid the risk-that wasn't his style.

After making up his mind, Lin Yi put on the qiansi mask the next morning and appeared in the market as Lin er.

He'd bought the ingredients for the Foundation Stage last time for a total of eight spirit jades, and he'd successfully made a Foundation Stage golden core in the end, but he didn't plan on doing it again this time.

First of all, there were many people on the streets, and it was difficult to buy all the materials in the same shop. This meant that it would take a lot of time to find the materials, which would easily be noticed by people with intentions, which would greatly increase the possibility of encountering Yu Zhe.

Secondly, the quality of the herbs he could buy on the outer Street wasn't very high. He didn't have much choice last time because he didn't have much spirit Jade on hand, so he had to make do with it. Fortunately, he finally found the heart-devouring exquisite grass in the back mountain, which was of great quality, so it didn't affect the quality of his Foundation-stage golden core.

However, this time, even with the help of the Jade space to replenish his Yuan Qi, the two stalks of heart-devouring exquisite grass would definitely not be as good as the last one due to the innate deficiency of the spiritual herb seeds.

With that, if Lin Yi still wanted to guarantee the success rate of making the foundation elixir, he'd have to work on the other ingredients.

Because of these two, compared to the outer and middle streets, the inner market Street was obviously more suitable for Lin Yi's requirements. However, there was one point-not just anyone could enter the inner street. Whether it was strength or status, Lin Yi was still far from reaching the threshold of the inner street, and today wasn't the opening day of the inner street once a month.

However, Lin Yi still managed to get into the inner street as he wished. He had to thank manager Hong Zhong from the Hong Chamber of Commerce for this-he gave Lin Yi a Sky Class Island merchant Union's spiritual Jade card last time, and with it, the guards only gave him a surprised look before letting him through.

Just as Hong Zhong had said, not just anyone could get a spiritual Jade card like this. In the entire Sky Class Island, only a handful of people with status recognized by the merchant Union could get this kind of treatment. It was far better than the status of being an inner disciple of the three pavilions.

It would not be an exaggeration to say that the inner street was a place where most of the inner disciples of the three great pavilions had no right to enter. As long as one showed their spiritual Jade card, even if it was a dog, the guards would not hesitate to let it in. Even if it was a dog, it was still a dog with a spirit Jade card. No one had the right to stop it.

Because it wasn't an opening day for the inner streets, the place Lin Yi saw this time was far more deserted than the previous two times.

But even so, these merchants did not care at all. To be able to enter the inner street, even the most inconspicuous merchants meant that they had a huge power behind them. Their appearance here was not necessarily to compete for profits with a giant like the Hong Chamber of Commerce. The more important purpose was to show their presence. Even if they could not earn many spiritual jades, they could at least create a signboard in the exclusive land of the upper class so that people would not ignore them.

After entering the inner street, Lin Yi went straight to the Hong Chamber of Commerce. He had a good impression of Hong Zhong last time, and although he didn't plan on buying anything valuable this time, his intuition told him that it wasn't a bad thing to interact more with these old and wise businessmen.

Compared to the other shops on the inner street, the Hong Chamber of Commerce's popularity was much higher. Although it was not as crowded as the inner Street's opening day, it could still be considered a prosperous business. It was clear that the Hong Chamber of Commerce was not without reason that it could become one of the top Chambers of Commerce on the five big islands of the heaven class.

Chapter 3828 Enemies Meet

Even though there were a lot of guests, Lin Yi was recognized immediately by the waiter, ""Lin shaoxia, please come upstairs."

"You know me?" Lin Yi asked, surprised.

It would be understandable if this person was Hong Zhong, whom he had met last time. After all, he had given him a spiritual Jade card. It was normal for him to have some impression of him. However, it was a little exaggerated for this little servant who he had never met to know.

"Of course, we have to remember the name list and the appearance of the important guests every morning and night, so as not to treat any of the important guests too badly. This is the rule of the Hong Chamber of Commerce." The servant smiled and led Lin Yi to a private room on the second floor.

Lin Yi couldn't help but praise the Hong Chamber of Commerce-it was the top Chamber of Commerce on Tianjie Island, after all!

Stepping into the private room, shopkeeper Hong Zhong's face was immediately full of joy as he stood up to welcome him,""Young hero Lin, long time no see."

Lin Yi bowed slightly and returned the gesture."Shopkeeper Hong, how have you been? sorry to bother you again."

"Haha, you're too kind, Lin shaoxia. It's our Hong Chamber of Commerce's honor that you're willing to visit us. We can't ask for more. May I know what you need this time?" Hong Zhong said with a smile. He was secretly surprised that Yu Zhe and the others didn't find Lin er and cripple him. As expected, he was quite capable!

"I need to prepare some spirit herbs and materials. The higher the quality, the better. One set, five sets." Lin Yi took out a list and gave it to Hong Zhong. There were dozens of ingredients on it.

To play it safe, in order to avoid the Foundation Stage golden core pill recipe being recognized by people, the spirit herbs and materials needed for the Foundation Stage golden core this time only accounted for a small part of it. As for the rest of the spirit herbs and materials listed on the list, in addition to being used as a cover, the other purpose was to fill the spirit herb storage warehouse.

After all, as an Alchemist, he didn't need a spiritual medicine storage to have everything, but at least when he wanted to refine some common and basic medicinal pills, he couldn't have to come out personally every time. He even had to find a way to collect every kind of spiritual medicine material one by one. That would be too unprofessional.

Hong Zhong took Lin Yi's list and scanned through it. He was surprised, "If I may ask, is young hero Lin an Alchemist?"

Other than alchemists who would gather so many spiritual herbs and materials at once to fill the storage warehouse, other people would at most buy the corresponding spiritual herbs and materials even if they wanted to find someone to refine pills with. They would not spend spiritual jades on so many things that they might not need in their lifetime.

"That's right, this one is indeed an Alchemist, but I only have a rough understanding of it. I've made a fool of myself, manager Hong. " Lin Yi nodded faintly.

Since he'd probably have to deal with this manager Hong for a long time in the future, Lin Yi didn't plan on hiding anything. After all, if he really needed spirit Jade, selling some pills to this manager Hong wasn't a bad idea.

What's more, there was no need to deliberately hide his identity as an Alchemist. If he chose to hide it at this time, it would not be good if he accidentally revealed it or was discovered in the future.

Lin Yi's admission surprised Hong Zhong, but he kept a smile on his face. "Since ancient times, heroes come from the young. This saying is true. Young hero Lin's future is boundless."

Hong Zhong's words were a little exaggerated. Although alchemists were respected, their strength was generally weak. In the world of cultivation where the strong were respected, they didn't have the words "boundless future." After all, a freak Alchemist like the divine Alchemist and medical Saint Zhang Liju who could step into the top level of alchemy didn't appear even once in a few hundred years.

However, if the two Supreme-grade foundation-breaking elixirs were personally refined by Lin'er, it would be more than enough to match these four words.

Having been in the Hong Chamber of Commerce for so many years, Hong Zhong naturally had his own set of experiences in dealing with people and things. Although he now really wanted to know whether the two supreme quality foundation breaking pills were from Lin'er, he would not be stupid enough to ask such a question before their relationship was further deepened and stabilized. This time, he knew that Lin'er was an Alchemist, which was enough.

"Young hero Lin, please wait for a moment in the private room. I'll get someone to prepare it." Hong Zhong gave the list to the servant who was waiting at the door. Because it involved dozens of spirit herbs and materials, although the Hong Chamber of Commerce had all of them, it would still take a lot of time.

Lin Yi nodded. Since he had nothing to do, he decided to take the time to walk around the Chamber of Commerce. There were so many valuable treasures here, and even if he didn't plan on buying them yet, it wasn't a bad thing to take the opportunity to learn more.

However, what Lin Yi didn't expect was that when he was wandering around the Hong Chamber of Commerce, he ran into someone without any warning-Yu Zhe.

As the saying goes, "enemies don't meet." Just at the corner of the second-floor showcase, the two were completely unprepared. They just met face to face, and in an instant, both were stunned.

Lin Yi had expected that since today wasn't the inner Street's opening day, a normal inner sect disciple like Yu Zhe wouldn't be able to enter the inner street, much less appear in the Hong Chamber of Commerce.

Otherwise, if Yu Zhe had the ability to freely enter and exit the inner street, he wouldn't have had to wait until the opening day of the inner street to make a move during the competition for the star inkstone.

And so, even though Lin Yi had been extra careful when he entered the market, especially when he passed the outer and middle streets, trying his best to avoid being noticed by people with ulterior motives, in case Yu Zhe's spies were among them. But after entering the inner streets, he couldn't help but let down his guard.

After all, in theory, this Yu Zhe really didn't have the qualifications to enter the inner street. The possibility of him appearing in the inner street was almost zero.

However, Lin Yi forgot that Yu Zhe wasn't alone. He had a master, the ascending Sky Pavilion's supervising Deacon, Nan tianyong.

With Nan tianyong's status, it was no problem for him to go in and out of the inner streets, but even so, he couldn't bring Yu Zhe with him. The problem was that he had a merchant Union's spiritual Jade card in his hands, just like Lin Yi.

Of course, this spiritual Jade card did not come from the Hong Chamber of Commerce, but from another top Chamber of Commerce in the merchant Union. In fact, with Nan tianyong's own strength and status,

he was still quite far from this spiritual Jade card. However, he had two more powerful brothers, and this spiritual Jade card was borrowed from one of them!

In order to investigate Lin er's matter, Nan tianyong had specially borrowed this spirit Jade card!

However, no matter what, now that the spiritual Jade card had appeared in his hands, he had the right to bring Yu Zhe out of the inner streets. This was the rule of the inner street. Any spiritual Jade card holder could bring another person into the inner street. It was an extra privilege for these important guests. Fourth update! Recommending Fishman's new book, campus Belle 2, "top quality cultivation young master." Lin Yi-Shizui will dominate the cultivation world.

Chapter 3829 No Fighting Allowed

He had always been thinking about the star inkstone. Other than scheming to snatch it back from Lin er, because he had been wandering around the city square these days, Yu Zhe would use his Master Nan tianyong's special privileges to enter the inner streets to shop every three to five days. All the large merchants, including the Hong Chamber of Commerce, were his targets.

If one star inkstone had appeared in the Hong Chamber of Commerce, then there might be a second one. This was something that no one could be sure of.

And even if he didn't have the star inkstone, he might still come across other heavenly treasures. He, Yu Zhe, had stayed in the book collection Pavilion for three years, and his knowledge of some secret treasures was even above that of some of the Chamber of Commerce's treasure appraisal experts. He might even have the opportunity to pick up a treasure.

As for his appearance at the Hong Chamber of Commerce at this moment, it was not strange at all. Although after the last storm, the Hong Chamber of Commerce clearly said that they did not welcome his master, Nan tianyong, but they had never said that even he, Yu Zhe, could not step in.

Yu Zhe had the same deduction as Lin Yi. Although he had been paying attention to the outer and middle streets of the market, even urging his Master Nan tianyong to throw out a lot of spirit Jade and find some merchants to be Lin er's informers, he never thought that he would meet Lin er in the Hong Chamber of Commerce when it wasn't an opening day for the inner streets!

The star inkstone was stolen, and he tried to sneak attack halfway, but was beaten half to death instead. Yu Zhe's resentment towards this Lin er could be said to be bone-deep, and he wanted to skin him and drink his blood. Otherwise, he wouldn't have been so calculative, going to such great lengths to dig Lin er out!

But this time, they met face to face without any warning. Yu Zhe was the same as Lin Yi-he was stunned.

After a while, the two reacted at the same time, and their first reaction was to kill each other. After all, both Lin Yi and Yu Zhe knew that they wouldn't stop until one of them died. There was no possibility of shaking hands and making peace.

This kind of hostile relationship was far more fatal than the enmity between Lin Yi and the people in the welcome Pavilion. Although people like Xu lingchong and Meng jueguang also saw Lin Yi as a thorn in their side, it wasn't to the point where they would fight to the death. At least they wouldn't take the risk and kill Lin Yi at all costs.

Even Yu Zhe's master, Nan tianyong, might not have such a strong killing intent towards Lin er. Only Yu Zhe had to kill Lin er.

There was only one reason, the star inkstone.

Cultivators were the most realistic group of people. When it came to benefits, there were no eternal friends or eternal enemies, unless they were deeply convinced, such as Xiao ran, Qiao hongcai, li Zhengming, and Zhong pinliang!

Even if he had been beaten half to death by Lin er before, to be honest, Yu Zhe might not have spent so much effort to dig Lin er out. There was only one fundamental reason for him to do so, and that was the star inkstone.

The star inkstone was a treasure that could change a cultivator's fate. He didn't even want to acknowledge his own father. If Yu Zhe was going to let Lin er, his enemy who had beaten him half to death, leave him alone, then he would be seeing a ghost.

In an instant, their auras were raised to the extreme without any reservation, and their strongest killing moves were launched at once.

After all, they'd fought to the death before, and they both knew each other's strength. Whether it was Lin Yi, who had the upper hand, or Yu Zhe, who had the advantage in level, they didn't dare to underestimate the opponent in front of them. Otherwise, they'd lose their lives if they weren't careful.

Although they had not collided yet, the killing moves of both sides had been revealed at this moment. One was the 24 styles of the [deadly continuous sword], and the other was the 22 styles of the [wild fire Eight Trigram palm]. The powerful momentum that the two sides had set off in an instant made the surrounding display shelves tremble. It was a dangerous posture as if a storm was coming.

The surrounding customers couldn't help but be surprised. Although Yu Zhe and Lin Yi were at the peak of the early Foundation Stage and mid Foundation Stage respectively, they didn't want to interfere.

The people who could enter the inner street were either rich or noble. Who knew if these two people were the grandsons of some Big Boss? if they rashly interfered, they might get into trouble. It was better to watch the show from the sidelines.

However, in the next moment, the trembling display case suddenly calmed down, and Yu Zhe and Lin Yi's strongest killing moves disappeared at the same time, giving people the feeling that none of this had ever happened.

It wasn't that the two of them stopped, but that they were forced to stop because an aura far beyond their level had enveloped them in an instant. Facing such a huge difference in level, neither Lin Yi nor Yu Zhe could ignore this warning.

If they didn't care and continued to attack, perhaps before they even used their killer moves, they would have become two corpses and never be able to step out of the Hong Chamber of Commerce again.

"Settle your personal grudges outside. The Hong Chamber of Commerce is forbidden from fighting. Otherwise, don't blame me for being impolite. Please conduct yourself with dignity." The cold voice of a guest master came into everyone's ears. Although they couldn't see the real person, just this unfathomable aura was enough to deter one side.

Lin Yi couldn't help but be shocked. He'd been on Sky Class Island for two months and had seen many masters, but judging from the aura alone, this guest master was definitely in the top ten.

The only experts who could be considered as the top experts were the elders of the three pavilions and Gongyang Jie, the hall Master of the law enforcement Hall who appeared once in a hundred years. Apart from them, the guest elder of the Hong Chamber of Commerce was the most powerful.

Just a random guest warrior had such terrifying strength. As the top Chamber of Commerce on the five big islands of the heaven class, the Hong Chamber of Commerce's Foundation was really unfathomable.

Lin Yi was only scared, but Yu Zhe was completely terrified.

His master, Nan tianyong, had suffered a huge loss a while ago. Ever since he was thrown out of the window on the second floor, even with Nan tianyong's arrogant and overbearing character and his powerful background that was not inferior to the second generation young masters of the rising Sky Pavilion, he did not dare to take a step into the Hong Chamber of Commerce.

Even when he brought Yu Zhe into the inner street these days, he was a little jittery. He tried to hide as far away as possible, for fear of incurring the dissatisfaction of the guest experts of the Hong Chamber of Commerce.

Facing such an unfathomable guest master, even Nan tianyong could only suffer a loss, so Yu Zhe naturally didn't dare to be rash. He didn't know if Lin er had the same feeling, but he himself felt a real killing intent at that moment!

Chapter 3830 So Confident

The killing intent seemed to be saying, "if you dare to say anything, I'll kill you, absolutely!"

Although the strength of the middle stage of the foundation building realm wasn't considered strong here, this kind of intuition of life and death was innate to every cultivator. And the facts have proven that if this kind of danger warning intuition was ignored, it could really kill.

With a single threat, the two people who were colliding with each other had no choice but to stop at the same time. Then, the aura of this guest master disappeared in an instant, as if he had never appeared.

The others didn't pay any more attention to Lin Yi and Yu Zhe anymore. After all, with the guest Masters here, there was no way they could fight, unless these two had a hole in their brain and wanted to die under the guest Masters "hands.

"Hmph, you're lucky to be able to live a little longer. Unfortunately, your luck ends here." Yu Zhe looked at Lin Yi deeply, his eyes full of hatred. He turned and walked out of the Chamber of Commerce without stopping, leaving a sentence, ""I'll see you outside, Lin er. "

This guy, does this mean that he's going to block the door?

Lin Yi's eyes narrowed. He'd prepared himself for Yu Zhe, but this was the worst case scenario. He couldn't be happy about it.

"Lin shaoxia, it looks like you're in trouble this time." Hong Zhong's voice suddenly sounded from behind Lin Yi.

Lin Yi turned around to see the old man pointing out the window. This was the second floor of the Hong Chamber of Commerce, and the entire inner street was visible from the window.

Lin Yi walked to the window and looked down. His eyes naturally focused on Yu Zhe, who had just walked out of the Hong Chamber of Commerce. He saw Yu Zhe walking quickly to a middle-aged man not far away. After a few words, he and the middle-aged man both looked at Lin Yi who was standing at the window.

Even from a hundred feet away, Lin Yi could still clearly feel the killing intent!

Nan tianyong! The name popped up in Lin Yi's mind. He'd never seen this man before, but his instincts told him that this middle-aged man was Yu Zhe's master, Nan tianyong.

Lin Yi's heart sank at the sight.

Today, if he had only met his enemy Yu Zhe, although it would be a bit troublesome, it was not a big deal. Although the other party's strength was in the middle stage of the foundation establishment stage, he was a bit higher than him. After all, he had already beaten him half to death last time, so there was nothing to be afraid of this time.

However, with the addition of Nan tianyong, it would be as difficult as ascending to the heavens if they wanted to escape unscathed today.

Nan tianyong was the manager of the rising Sky Pavilion, and his strength was unquestionable. Even if he couldn't compare to the few guest Masters of the Hong Chamber of Commerce, he was definitely not someone Lin Yi, who was only at the peak of the initial Foundation Stage, could fight against. Being targeted by such a master in a place like this, he couldn't even escape!

He had never thought that he would be blocked by this master and disciple in the inner street. Today, he was in big trouble!

Seeing Lin Yi's serious expression, Hong Zhong suggested,""Young hero Lin, if you need it, I can find a way to get a guest master to escort you back."

The status of the guest Masters in the Hong Chamber of Commerce was extremely high. Under normal circumstances, they would not accept any tasks other than protecting the Chamber of Commerce. However, Hong Zhong's status as the branch manager was not as simple as it seemed. With his strength and popularity, even these arrogant guest Masters were willing to give him face.

Getting a guest master to escort Lin Yi Home was beyond business-it was a real favor.

But Lin Yi still declined quickly,"Thank you for your kind intentions, but there's no need to go through so much trouble. I have my own ways to deal with it."

"What?" Hong Zhong could not help but be stunned. Even with his rich experience, he could not understand Lin er after hearing his words.

With the strength of the peak of the early stage of the foundation building realm, he was able to deal with Yu Zhe, who was in the middle stage of the foundation building realm, and even seriously injured Yu Zhe to the point of near death. Although this result was more or less out of Hong Zhong's expectations, it was not incomprehensible.

Although it was rare to see someone of a higher level challenge, in Hong Zhong's eyes, Lin er was not an ordinary person, so it was not surprising that he could do such a thing.

However, even if Lin er could deal with Yu Zhe, it didn't mean that he could deal with Nan tianyong. After all, these two people were completely different.

Yu Zhe was only a mid-stage foundation building expert, but his master, Nan tianyong, was a peak late-stage foundation building expert. He was only one step away from the perfected foundation building realm!

To Lin er, who was only at the peak of the early-stage Foundation establishment, Yu Zhe, who was at the mid-stage Foundation establishment, was still within the scope of a challenge. However, Nan tianyong, who was at the peak of the late-stage Foundation establishment, was definitely not an existence that Lin er could deal with no matter how he thought about it. It was impossible!

One was at the peak of the early stage of the foundation building realm, while the other was at the peak of the late stage of the foundation building realm. There was a difference of four levels between them. Nan tianyong did not even need to use any martial arts techniques. With a casual punch or kick, he could defeat Lin er. There was no doubt about it.

This was common sense. No matter how profound Lin er's background was, it was impossible for him to turn the tables. It was also based on this consideration that Hong Zhong took the initiative to offer to do him a favor and let a guest master escort him back.

However, to Hong Zhong's surprise, Lin er rejected him without a second thought, and in a very straightforward way.

Hong Zhong couldn't help but begin to speculate. Could it be that this young man, whose strength was only at the peak of the early Foundation establishment stage, really had the confidence to deal with Nan tianyong, a peak of the late Foundation establishment stage? This was simply impossible!

What he didn't know was that the main reason Lin Yi rejected his suggestion so directly was that he didn't want to expose his identity. After all, if he let the guest Masters of the Hong Chamber of Commerce escort him back, it would be hard to hide his true identity.

Once people found out that he was Lin er, a newbie Lin Yi wearing a face-changing mask, it would be hard to clean up the mess. So in comparison, Lin Yi would rather face a dangerous person like Nan tianyong alone than expose his true identity.

But then again, when Lin Yi said that he had a way to deal with Nan tianyong and Yu Zhe, it wasn't a complete lie. In fact, in this short period of time, he had already thought of a strategy. Although it wasn't realistic to defeat the two of them, if he just wanted to escape, he had a lot of confidence. He just needed to be prepared in advance.

Although Hong Zhong wanted to do him a favor and lay the foundation for further communication in the future, he did not force it upon seeing the other party's firm refusal. "Since young hero Lin is so confident, then I won't do anything unnecessary."
