

Bodyguard 3831

Chapter 3841 Internal Struggle

Being swept by Nan tianyong's gaze, although he knew that his cheap master was already extremely weak at the moment, Yu Zhe still couldn't help but tremble in his heart and hurriedly hid the sword Qi at his fingertips behind his back.

Even though Yu Zhe was in frequent contact with Nan tianyong, he still didn't know how strong a peak late Foundation establishment cultivator was. He didn't know if Nan tianyong had the ability to kill someone in his dying state.

Although the temptation of killing his master was huge, Yu Zhe didn't dare to act rashly before confirming Nan tianyong's true state.

"Master, how are you? are your injuries serious?" Yu Zhe hid the sword Qi at his fingertips behind his back, while pretending to be worried.

After a long while, Nan tianyong did not speak. Or, strictly speaking, he could not speak at all at this moment. It was already extremely difficult for him to maintain his last breath. If he forced himself to speak, he would probably die without being able to catch his breath.

The Super energy bomb that Lin Yi had been holding in for two whole hours wasn't just for show. This kind of power was enough to pose a fatal threat to any peak of the late Foundation Stage, not to mention that Nan tianyong had underestimated his opponent the moment he was hit. He wasn't prepared at all and even let Lin Yi throw the energy bomb to his face!

At such a close distance, under such a terrifying attack, it was already very impressive that Nan tianyong was able to survive. If it were any other peak late Foundation Stage expert, they would have already become a corpse. They might not even have an intact corpse!

Seeing that Nan tianyong couldn't speak at all, Yu Zhe was slightly relieved and sneakily revealed his sword Qi. Killing his master was too treasonous after all. Even if Yu Zhe already had such a plan, when it was time to really make a move, he still couldn't help but tremble in panic.

"Tsk, what's there to be afraid of? one sword strike is equivalent to at least 50 years of bitter cultivation!" Yu Zhe secretly encouraged himself. He took a deep breath and prepared to behead this cheap master of his.

However, at this moment, from the direction of the market, there was a sudden sound of footsteps and noise. Yu Zhe was shocked and immediately reacted. These people should have been attracted by the huge movement just now!

As expected, the discussion was getting closer and closer.

"Look! A few mountains have collapsed!"

"This is nothing. Look at this deep pit. F * ck, what kind of expert is this? it can't be that he's a perfected Foundation establishment cultivator, right?"

"Eh? There seems to be someone in front?"

“.....”

This time, Yu Zhe panicked.

If there was no one around, he'd just kill his cheap master and push the blame on Lin Yi. It was indeed a good thing. However, under the current circumstances, with so many people watching, if he dared to do so, once he was noticed by anyone, he would definitely be consigned to eternal damnation.

Something like killing his teacher could only be kept a secret. If it was leaked even a little bit, he would definitely become the target of public criticism. At that time, not only would the three great pavilions want to kill him, but Nan tianyong's family and friends would also want to kill him. Even these onlookers would besiege him in the name of justice.

From now on, he, Yu Zhe, would be The Public Enemy of the World, and there would be no place for him!

If his strength was already strong enough to be invincible, then it would be fine. At most, his reputation would be ruined. However, Yu Zhe was only in the middle stage of the foundation building realm. If he were to carry the heinous crime of killing his master with this strength, then there was no doubt that his life would be ruined, and there would be no possibility of him turning things around.

With such a temptation before him, killing Nan tianyong would be equivalent to his 50 years of bitter cultivation. Furthermore, he could blow up the matter and use the three pavilions to force Fang Lin er to have nowhere to hide. If he missed this opportunity, he would not have another one in his next life.

Yu Zhe wasn't willing to give up just like that!

Seeing that the onlookers from the distance were getting closer and closer, Yu Zhe gritted his teeth and immediately decided to dig Nan tianyong out of the ground and carry him on his back. He turned around and ran without saying a word.

"Someone's running!" An onlooker with good eyesight shouted from behind, which immediately caused a clamor.

However, they couldn't figure out what was going on at all. Even if someone had the thought of looting a burning house, they didn't dare to rashly give chase.

The commotion just now was really too exaggerated. Conservatively, it would take at least a master of the foundation building realm to make such a big commotion. Even if both sides fought and injured each other, it was not something that the people present could deal with.

To be able to fight against a peak Foundation Stage expert, even if the other party was seriously injured, he must at least be at the peak of the late Foundation Stage. Only then would he have the confidence to take advantage of the situation. Otherwise, it was very likely that he would not get any benefits, but would instead lose his life.

However, peak late Foundation establishment cultivators weren't common on the streets, at least not in the outer streets of the market! This was because although the huge commotion had attracted many spectators, none of them had such strength.

As for the others, they did not have the strength and naturally did not have the courage to make a move. In the world of cultivation, although the law of the jungle had long been accustomed to, and even taking advantage of the situation was not strange, the premise was that one had to have the strength.

It was also because of this concern that Yu Zhe was able to take Nan tianyong away smoothly. Otherwise, with his strength of the middle stage of the foundation building realm, and with his injury, it would be very difficult for him to escape in one piece in front of so many passers-by.

Carrying the dying Nan tianyong, Yu Zhe didn't run too far. He came to a secluded corner and immediately stopped.

Taking a deep breath, the killing intent in Yu Zhe's eyes was even more determined than before!

The reason why he brought Nan tianyong to such a secluded place was not that Yu Zhe had given up the idea of killing his teacher. On the contrary, his only purpose was to get rid of the onlookers and not let these people ruin his big plan.

Because Nan tianyong and Yu Zhe often appeared in the market these days, even these passers-by could easily recognize them, so Yu Zhe didn't think that he wouldn't be recognized.

Once he was recognized, it would be easy for him to leave a hidden danger behind if he wanted to do anything. Even if he killed Nan tianyong secretly, the risk was still extremely high.

Therefore, Yu Zhe carried Nan tianyong away in front of so many people not to hide his identity. He only wanted to hide one thing, Nan tianyong's life!

Yu Zhe didn't want anyone to know that Nan tianyong was still on the verge of death!

Chapter 3842 Killing Master

As long as they didn't let anyone see if Nan tianyong was Dead or Alive, then even if he really killed his master, he could push the blame on Lin Yi without leaving any traces!

The development of everything just now was indeed as Yu Zhe had expected. Those onlookers didn't have the courage to chase after him, and with such a long distance, there was no way to confirm whether Nan tianyong was Dead or Alive.

They would only think that Yu Zhe was afraid of being robbed and carried Nan tianyong away out of careful consideration!

Everything was within Zhe's control.

"So, there won't be anyone to disturb us now. Are you ready to go, my master?" The sinister smile on Yu Zhe's face at the moment was truly chilling.

Nan tianyong, who was on the verge of death and couldn't sense what was happening outside, seemed to have realized something and suddenly opened his eyes!

Then, without any warning, Nan tianyong grabbed Yu Zhe's ankle and said, ""Go ... Go on? What road?"

Being grabbed by Nan tianyong like this, Yu Zhe instantly broke out in a cold sweat and had goosebumps all over his body. Even a scheming guy like him couldn't help but turn blank at this moment.

Nan tianyong was a true peak late Foundation Stage expert. Even if he was on the verge of death, if he suddenly had a final burst of energy and used a killing move, Yu Zhe, a mid Foundation Stage expert, would not be able to withstand it.

However, after waiting in fear for a moment, he realized that Nan tianyong didn't do anything at all. After looking at his pale face carefully, Yu Zhe's suspended heart finally settled down.

Although he still had some doubts in his heart, at this moment, the arrow was already on the bow and had no choice but to be fired. After all, he had already said what he had just said, and it was impossible to turn back.

Even if Nan tianyong was seriously injured and on the verge of death, he might not be able to clearly hear what Yu Zhe had just said. Even if he heard it now, he might not be able to recall it after the incident. However, Yu Zhe didn't dare to take this risk.

Nan tianyong's simple mind was not bad, but as a peak late Foundation Stage expert, could he really be some hopeless idiot? What if this guy had already completely understood his plan and was only acting to confuse him, preparing to settle the score after autumn?

Even if the possibility was not high, once it really became a reality, it would really be worse than death!

"I don't care anymore. Whether I'm going to succeed or fail, I have to take this risk!" After thinking through this, Yu Zhe's eyes were filled with killing intent. He no longer cared about whether Nan tianyong would have a final burst of energy before death. A sword Qi from his fingertips directly pierced towards the other party's chest.

"You!" Nan tianyong only managed to say half a word before his eyes were filled with disbelief. He used the last of his strength to resist, but even a peak late Foundation Stage like him couldn't move after being hit in the face by Lin Yi's super energy bomb.

After all, it was already a rare miracle to be able to hang on to his last breath.

Puchi! With a muffled sound of flesh being cut, the sword Qi from Yu Zhe's fingertips directly stabbed into Nan tianyong's heart, and then twisted it 360 degrees.

Nan tianyong's body suddenly trembled, the hand that was holding Yu Zhe's ankle clenched tightly, as if he had used up the last of his strength. Unfortunately, a great expert of the peak of the late Foundation Stage, at this time, did not have any strength to fight back.

Not to mention killing Yu Zhe, this traitorous disciple, with his final burst of power, it was unrealistic to even seriously injure him. At most, he would only leave a blue mark on his ankle, which was completely useless.

"You ... Won't ... Die ... A good death ... Someone ... Will ... Report ..." Before he could finish speaking, Nan tianyong's neck tilted, and he actually died.

"Tsk! Someone will take revenge for you?" Yu Zhe spent a lot of effort before he managed to pull Nan tianyong's hand away from his ankle. He sneered, ""There will indeed be someone who will avenge you. The title of the three Nan brothers is not for show, but the person who will kill you is called Lin er, isn't it?"

There was no one around, and no one saw that it was Yu Zhe who did it. The wounds caused by his sword energy were no different from the wounds caused by Lin Yi's energy bomb. He could completely blame it on Lin Yi, and no one would be able to see any flaws.

Pausing for a moment, Yu Zhe saw that although Nan tianyong had already died, his eyes were still staring at him, and he couldn't help but secretly sigh at his bad luck.

"Hmph! You died with your eyes wide open?" Yu Zhe sneered. "My cheap master, you don't have to die with grievances. Your disciple will personally invite your two brothers to take revenge for you!" However, before that, your disciple will reluctantly take over these treasures on your body!"

After saying that, Yu Zhe's eyes suddenly showed a greedy look, and then he bent down to search Nan Tian Yong up and down. One time wasn't enough, he even searched two or three times. He finally stopped after he had searched everything on Nan Tian Yong's body.

"A man can't be rich without a windfall, and a horse can't be fat without night grass. This saying is indeed true!" Looking at the various treasures found from Nan tianyong's body, even with Yu Zhe's shrewdness, he couldn't help but swallow.

He was at the peak of the late stage of the foundation building realm. How profound was his Foundation? for a mid-stage foundation building cultivator like Yu Zhe, this was not only worth fifty years of hard work, but even a hundred years might not be enough to earn this!

Overjoyed, Yu Zhe carefully kept the treasures in front of him one by one before carrying Nan tianyong's body on his back again. He deliberately put on a sorrowful look and turned back to the rising Sky Pavilion.

He would carry Nan tianyong's corpse and swagger through the city. First, he would make the matter as big as possible. Then, he would invite Nan tianyong's two brothers to take revenge for him. At that time, there was no need to worry about this matter not alerting the three great pavilions and the law enforcement Hall. That Lin er could forget about being free and unfettered!

Yu Zhe's plan could not be said not to be shrewd. However, he would never have thought that just as he carried Nan tianyong's body away, a familiar figure walked out from the bushes.

It was none other than Lin Yi, who had been running away with all his might after throwing the Super energy bomb.

"Hehe, he even dared to kill his own master, and now he wants to push the blame onto me. The rising Sky Pavilion has really raised a monster!" Lin Yi chuckled and shook his head. He'd come from the common world and made countless enemies, but he'd never seen someone so sinister!

Even Kang Zhaoming wouldn't kill patriarch xuanchen. This Yu Zhe was a weirdo, doing anything to achieve his goal!

Chapter 3843 Extremely Abnormal

Lin Yi had made up his mind to leave the scene as soon as possible-after all, he'd suffered quite a bit from the Super energy bomb, and he'd used up too much pure energy in his body earlier. He'd pretty much used up all his pure energy already, and it was best for him to leave as soon as possible no matter what angle he was looking at it from. After all, as the old saying went, "Thirty-Six Strategies, leave first."

But there was an old saying-the more dangerous a place was, the safer it was. It was a rare opportunity to deal with Nan tianyong and Yu Zhe, and Lin Yi wasn't willing to let it go. Even if he wasn't in a good state, he could still observe the situation and wait for the right time.

So Lin Yi turned back halfway and watched Yu Zhe's every move from a distance, but he followed from a distance and didn't show himself.

"Ha ... You want to use this to frame me? Isn't this scheme a little too shrewd?" Lin Yi shook his head with a cold smile. He was holding a phone from the common world in his hand, and the phone had recorded everything from the moment Yu Zhe killed his teacher!

It was very difficult to transport high-tech products from the secular world to the Sky Class Island, because even if they could be brought up through the teleportation formation, they would inevitably be destroyed by the pressure. Especially something as sophisticated as a mobile phone, it couldn't be used normally.

However, Lin Yi still had the Jade space on him. It was hard for other people to bring high-tech items up, but it was nothing to Lin Yi.

Of course, things like phones were pretty much useless to practitioners, especially in a place like Sky Class Island where there was no signal. Lin Yi didn't plan on bringing it here on purpose, but he was used to putting everything in the Jade space. He brought his phone here purely out of convenience.

It wasn't just his cell phone, even the charger was stored in his Jade space. It was a solar power charger that he had specially equipped when he was in the secular world in order to keep in touch with his girls and little brothers at all times.

He'd lost his phone's connection function ever since he'd come to Sky Class Island, but it was still a habit of the modern city to have all the girls' pictures stored in it. Lin Yi would still charge it and check it out from time to time, even if he couldn't see them right now-many of them were still unconscious, too! Looking at these pictures was a way to remind him of the girls, and it was also a way to boost his strength!

He didn't think that this habit would come in so useful at a time like this. He was able to secretly film the scene of Yu Zhexi killing Nan tianyong. Lin Yi was a little surprised by such a big harvest.

With this video in his hands, it was like he had something that could be used against Yu Zhe. Even if the guy made a big deal out of this, he wouldn't be able to do anything in front of Lin Yi in the future.

If Lin Yi really wanted to deal with him, he didn't even need to do it. He just needed to show the video and Nan tianyong's two brothers would take the initiative to do it!

The name of the three heroes of the Nan family had spread throughout the three pavilions. Nan tianyong was ranked last and was also the weakest, but he was already a peak late Foundation establishment expert and held a key position in the rising Sky Pavilion. As for his two elder brothers, it was obvious that they were even more unfathomable!

With these two's strength and status, if they really knew that Yu Zhe, this disciple, had killed Nan tianyong, then even if Yu Zhe ran to the ends of the earth, he wouldn't be able to escape their pursuit!

"Although cultivators are powerful, ordinary people in the secular world are not useless! As expected, we can't underestimate high-tech things!" Lin Yi chuckled. Yu Zhe wouldn't expect to fall into the hands of ordinary people's high-tech equipment if he really exposed this!

However, Lin Yi didn't plan to release the video so easily. Although he and Yu Zhe were mortal enemies, he could easily kill the other if he released it. However, it would easily expose his identity and even the secret of the Jade space.

After all, a phone was something that normal people would think of as the common world, and the ones who had the deepest connection to the common world were Lin Yi and the other newcomers who came from the common world.

After all, the last time someone from the common world came here was a thousand years ago, and phones didn't even exist back then. In the entire northern sky Class Island, only Lin Yi and the others had a phone with them.

Lin Yi's identity would be easily exposed if someone were to do a little investigation, and Yu Zhe would definitely guess that he was Lin Yi. Not only would the star inkstone's Secret be exposed, but Lin Yi wouldn't be able to stop them even if he wanted to because he had brought his phone in one piece.

Putting his phone back into the Jade space, Lin Yi smiled faintly and returned to the pavilion. He'd let Yu Zhe jump around for the time being before he found a suitable opportunity. The higher he jumped, the worse he'd fall!

After returning to the pavilion, the only thing Lin Yi had to do was to continue growing the two heart-devouring exquisite grass seeds in the Jade space until they were mature. Only then could he use them to make Foundation-level golden pills.

Once he successfully made the Golden core, it would mean that he wasn't far from the middle stage of the Foundation Stage.

Other than that, the newbie challenge segment was in full swing. It was a life-changing event that would decide the future of the newbies, but to Lin Yi, it was like a walk in the park. Other than Cha Wu giving him some points at the start, no one dared to challenge him after that.

Out of all the new disciples of the GreenCloud Pavilion, the only one who could possibly pose a threat to him was Meng Tong. Although he had previously predicted that young master Xu and Meng jueguang would not give up so easily, it was a fact that Meng Tong had not shown his strength yet.

With Lin Yi's golden finger, he would be able to detect any change in Meng Tong's strength immediately. In fact, Meng Tong's strength had not changed even after a long time. Even after he recovered, he did not challenge Xiao ran and Qiao hongcai again. Instead, he followed behind them and picked up the loot.

The way he cowered was completely different from how Meng Tong usually behaved. All the newbies were talking about him, and the rumors were even spreading to the point where Lin Yi's gang was the strongest. Meng jueguang was helpless, and Meng Tong could only admit defeat.

In the past, even Meng jueguang would have exploded with anger upon hearing this, but this time, something was extremely unusual. From beginning to end, Meng jueguang and Meng Tong did not say anything to refute, only remained silent.

Chapter 3844 South Heaven Gate

Lin Yi and the others, on the other hand, felt a strange pressure from the silence. The longer the other side held it in, the stronger the rebound would be.

However, since Meng Tong didn't move, Lin Yi and the others couldn't do anything to him because of the ranking of the cave. They could only wait. But then again, no matter how fast Meng Tong had improved, Lin Yi didn't need to worry about him with his strength. He could cope with changes by staying the same.

Just as Lin Yi was focused on cultivating the heart-devouring exquisite grass, the whole Pavilion was in an uproar when Yu Zhe carried Nan tianyong's body back.

After all, Nan tianyong was not an ordinary person. He was the supervising Deacon of the rising Sky Pavilion. Such a crucial figure had been killed in the territory of the three great pavilions. This was a direct challenge to the rising Sky Pavilion. It was impossible for it not to cause a commotion!

Before the upper echelons of the soaring Pavilion responded to this, Yu Zhe first went to find one of the brothers of the three Nan brothers, Nan tianyong, the second brother Nan Tianmen.

According to Yu Zhe's idea, he originally wanted to invite Nan tianyong's two elder brothers, which were his two martial uncles, but unfortunately, the eldest of the three Nan brothers, Nan Tianba, happened to go to the outer island to carry out a mission. Now, only the second brother, Nan Tianmen, was left on the northern island of the Sky Class Island.

However, even if it was just one person from the South Heaven Gate, with his strength and status that was above Nan tianyong, it was more than enough to blow this matter up! One had to know that the strength of the southern Heaven Gate was even higher than Nan tianyong 's!

However, what was out of Yu Zhe's expectations was that after seeing Nan tianyong's body, the face of Nan Tianmen's second brother, who came from the same mother, did not show any grief. Instead, he had a cold smile on his face.

"Hmph! Third brother is stupid, bad-tempered, and weak. When boss pushed this trash to the important position of supervisor Deacon, I already expected that something would happen, and it was just as I expected!" Southern Heaven Gate's face was filled with merciless ridicule, without the slightest bit of brotherly affection.

Yu Zhe was instantly dumbfounded. He was originally a little worried that the other party would pursue the matter too much, and he found traces of his own sword Qi on Nan tianyong's body. Although the sword Qi wound on his heart was very similar to the wound caused by the other true Qi around his body, if someone really compared it carefully, they would more or less be able to find out the trick.

But now, Yu Zhe realized that he was worried in the wrong direction. With the attitude of the southern Heaven Gate, it was impossible for them to care about how his cheap master, Nan tianyong, died. The other party was probably thinking, "why did this useless third brother die only now?"

On the contrary, what Yu Zhe needed to worry about the most now was whether this second brother of the southern Heaven Gate would stand up for his cheap master!

If the southern sky Gate was completely indifferent to Nan tianyong's death, then it would be a bit difficult for Yu Zhe to take the opportunity to make a big deal out of this matter. The southern sky Gate was Nan tianyong's blood-related brother from the same mother. If even a close relative like him didn't stand up and speak, then even if the soaring Pavilion's higher-ups were forced to intervene under the pressure of public opinion, they wouldn't be too concerned about this matter.

As a result, it was unrealistic for Yu Zhe to use Nan tianyong's death to alert the three pavilions and the Hall of Justice, forcing Lin Yi to reveal his true purpose.

Just as Yu Zhe was racking his brain, not knowing what to do to convince the other party to stand up for his cheap master, Southern Heaven Gate took the initiative to speak.

"However, although I don't like the third brother, he is still a member of our three Nan brothers. If we let him die like this, we will lose all our face. Moreover, it will be hard for me to explain to the eldest brother when he returns in the future." Southern Heaven Gate shook his head impatiently.

After a moment's silence, South Heaven Gate stood up from his chair reluctantly, ""Forget it, forget it. No matter what, we're still brothers, so this Lord will have to work hard and go with you! Martial nephew, who did you just say killed this trash?"

Yu Zhe was stunned for a moment, and then he hurriedly replied, "It was by a wandering cultivator called Lin er."

"A rogue cultivator?" South Heaven Gate glanced at Yu Zhe and couldn't help but ask suspiciously, "Although this third brother of mine is a little useless, he is still one of the three heroes of the Nan family. His strength has barely reached the peak of the late stage of the foundation building realm. How could he be killed by a mere rogue cultivator?"

Looking at the entire Sky Class five islands, there were many grassroots individual practitioners, but because of the lack of practice resources, they were generally at the bottom of the weak. There were very few Masters, especially Masters above the peak of the late Foundation Stage.

Nan tianyong was actually killed by a wandering cultivator in the territory of the three pavilions. The possibility of such a thing happening was almost zero.

To kill a master at the peak of the late Foundation Stage without giving him a chance to escape, this person's strength must be at least at the peak of the Foundation Stage. It was not easy to find such a master among the individual cultivators.

Yu Zhe quickly nodded. "Martial uncle, I do find it very unbelievable that Lin er was able to kill master. However, he is indeed a rogue cultivator who came out of nowhere. Moreover, this person's strength on the surface is only at the peak of the early Foundation establishment stage ..."

"Pfft! The peak of the early Foundation Stage?" Nan Tianmen spat out a mouthful of tea on Yu Zhe's face. He glared at Yu Zhe with his triangular eyes and said, ""Are you F * cking lying to me? Are you tired of living?"

In general, even for experts of the same level, due to the natural disadvantage in cultivation resources, grassroots and rogue cultivators were often not the opponents of cultivators from sects like the three great pavilions. In other words, even if the other party was at the peak of the late Foundation Stage, it would be very difficult to defeat Nan tianyong, let alone a peak of the early Foundation Stage?

Even if the other party really had the strength to challenge someone of a higher level, he would at most be able to cross one level. A late Foundation Stage expert killing a peak late Foundation Stage expert was still very rare, but it was not completely unacceptable.

If a cultivator at the peak of the early Foundation Stage could kill Nan tianyong, a master at the peak of the late Foundation Stage, no one would believe this kind of nonsense, not even a ghost!

It was normal for the South Heaven Gate to react this way. Yu Zhe had expected this. He wiped the tea off his face with a bitter smile and explained, ""Don't get too excited, uncle-master, I don't believe that Lin er is only at the peak of the foundation establishment stage. It's just that he's probably hiding his true strength, and I can't see through him. "

The unkind look in the eyes of the South Heaven Gate's master softened a lot, and he nodded, ""That's more like it. If it's an expert who could kill third brother, it's normal that you can't see through his disguise with your little strength."

Chapter 3845 Coveting The Heart Technique

There was no lack of means to hide one's strength in the cultivation world. Some were very simple and could be easily seen through with a little attention, but some could be hidden very well, almost invulnerable.

If a high-level master deliberately hid his strength, it would not be difficult for people stronger than him to see through him. But if his strength was lower than his, it would be very difficult.

According to Nantian gate's judgment, since the other party was able to kill Nan tianyong, then he should at least be in the late stage of the foundation building realm, or even higher. With Yu Zhe's mid stage of the foundation building realm, it was normal for him not to see through the other party's disguise.

"Martial uncle is wise, but in this disciple's opinion, that kid's strength is indeed inferior to master 's. It's just that he exploded a great killing weapon, and master was caught off guard, which led to his death. Otherwise, that guy should be far from being master's opponent." Yu Zhe analyzed with a mournful expression.

He didn't know what Lin Yi's strength was, but from their first exchange, he could tell that even if this guy was stronger than him, it couldn't be by much.

This time, his cheap master, Nan tianyong, had been hit because he had underestimated his opponent. He had not even used any martial arts techniques and had been directly thrown in the face by someone with a killing weapon. That was why he had died.

Of course, Nan tianyong didn't need to die, but it was difficult for him not to die after having such a cruel and unscrupulous disciple like Yu Zhe.

"A great killing weapon?" South Heaven Gate's expression changed slightly, and he said with interest, ""Martial nephew, why don't you tell me in detail what kind of great killing weapon it is that it can actually kill third brother in one move?"

The Jianghu was dangerous, and the world of cultivation had always followed the law of the jungle. Any cultivator with a little bit of strength must have their own life-saving cards. However, some were useful, some were not necessarily useful, some were ordinary, and some were powerful.

But no matter what, since it could be used as a life-saving trump card, it must be unique compared to ordinary martial arts techniques. And the southern Heaven Gate had always been very interested in other people's trump cards.

It wasn't because he was curious, but because the cultivation method he cultivated was very special. It was called the minor phaseless magic.

In the Sky Class island's world of cultivation, there were five Arts that were widely known for their heaven-defying effects. They were highly respected, and almost all cultivators would go after them like a flock of ducks. History had proven countless times that anyone who could get their hands on any one of them had a high chance of reaching the top of the world.

These five cultivation techniques were collectively known as the five great divine techniques.

Among these five great divine arts, there was a cultivation method called the phaseless Divine Art. It was rumored that as long as one had this Divine Art as a companion, then using any martial skill would not be a problem. Even if one had never devoted himself to cultivating it, as long as one saw it a little, one could immediately imitate it, and its power was not inferior to the original body.

Apart from being able to imitate anyone's martial arts technique at any time, this phaseless magic art also had an even more heaven-defying effect. That was, it could combine the essence of the many martial arts techniques that it had imitated bit by bit to form a brand new phaseless magic technique.

In other words, this formless divine skill was a collection of the essence of a hundred schools. In theory, it was a super-strong martial skill that could continuously advance and become stronger. And just this heaven-defying characteristic alone was enough to kill almost all martial skills in seconds!

Looking at the entire five big islands of the heaven rank, the number of cultivators who had the qualifications and the opportunity to practice the phaseless magic was absolutely not more than the number of fingers on one hand.

However, the minor formless Divine Art cultivated by the southern Heaven Gate was not the original formless Divine Art, but a simplified version that had been modified by an expert. Its effect was not as heaven-defying as the original formless Divine Art, but it still had similar characteristics, just that it had been greatly weakened.

The minor phaseless magic couldn't completely copy other martial skills, and even if it was copied, its power would be weaker than the original. Moreover, its minor phaseless magic couldn't perfectly integrate the essence of many martial skills like the genuine phaseless magic, and it couldn't be improved infinitely. It had heavy restrictions.

Even so, the minor phaseless magic was still an awesome technique that was far superior to ordinary techniques. The number of people who had the opportunity to cultivate the minor phaseless magic was also very few.

The reason why the southern sky Gate was able to obtain the minor phaseless magic was not only because its luck was strong enough, but more importantly, it was because of the backing of the three heroes of the Nan family in the middle Island.

More than 70% of the reason why the southern Heaven Gate was able to reach its current level and strength was due to the minor phaseless magic art.

For the southern Heaven Gate, the more awesome martial arts techniques they saw, the more power they could display their minor phaseless magic, and the more powerful their minor phaseless magic would be.

As long as one's martial skills became stronger, even if one's realm didn't increase, one's actual combat power would still increase. That was why the South Heaven Gate had always enjoyed this. The other cultivators' trump cards and killing moves were simply great tonics for him!

As soon as he heard that a mere rogue cultivator's trump card could actually kill his third brother, Nan tianyong, who had the strength of the peak of the late Foundation Stage, his interest was immediately piqued. If he could integrate this person's trump card into his own minor phaseless divine skill, wouldn't his strength increase by another level?

As Nan tianyong's disciple, Yu Zhe had naturally heard of the matter of the southern heavenly gate cultivating the minor phaseless magic art. He had always been drooling.

Not only him, but even his cheap Master Nan tianyong, who had died at his hands, was also envious of his second brother's lesser phaseless magic.

It was just that the relationship between the two brothers was not harmonious, and between cultivators, benefits had always been more important than family ties. Unless it was father and son, master and disciple inheritance, otherwise, it was almost impossible to share such a vital thing as the cultivation method. Therefore, no matter how envious Nan tianyong was of the southern Heaven Gate's minor phaseless magic, he could only think about it at most, and had no chance of getting it.

Nan tianyong didn't have a chance, but it didn't mean that Yu Zhe also didn't have a chance.

If Nan tianyong was still alive now, then out of the sect's taboo, it was indeed impossible for him, Yu Zhe, to get the minor phaseless magic from the southern Heaven Gate. The problem was that Nan tianyong had already died under his hands without anyone knowing, so this obstacle naturally did not exist.

Even among the three brothers of the Nan family, they wouldn't share a powerful cultivation method like the minor phaseless magic art. But what if Yu Zhe could get the appreciation of the southern Heaven Gate and make them accept him as a disciple?

In the world of cultivation, the relationship between master and disciple was even more important than that of Blood Brothers. As long as he could win the favor of the southern Heaven Gate, then it was not entirely impossible for the southern Heaven Gate to pass on the minor phaseless magic to him!

After killing Nan tianyong, he had made a shocking fortune. With the resources in Yu Zhe's hands now, it was completely enough for him to attack the next realm. However, just this was far from satisfying his ambition.

Chapter 3846 Lobbying

Next, not only did he have to get the star inkstone from Lin Yi, he also had to become a disciple of the southern Heaven sect and get the minor phaseless magic. With these two things, he would have the chance to become the strongest golden core stage cultivator in the future.

He, Yu Zhe, wouldn't be willing to be just an ordinary small figure. Think about it, he even dared to do something that angered both man and God, so what could stop him in the future?

Of course, if he wanted to obtain the minor phaseless magic art from the southern Heaven Gate, the difficulty level would be even higher than Lin er, who had appeared out of nowhere, to snatch the star inkstone back.

Unlike the simple-minded Nan tianyong, the second brother of the Nan family's three heroes, Nan Tianmen, was extremely shrewd. From his reaction to Nan tianyong's death, it could be seen that this person had an absolutely cold temperament, and could even be called cold and heartless.

Even if his relationship with Nan tianyong was bad, they were still brothers from the same mother. In the end, not only did he not feel any sadness about Nan tianyong's death, but he also gloated over it. If it wasn't for the face of the three Nan brothers, he wouldn't even ask about it.

Such a temperament was simply the same as Yu Zhe, who had committed such a treasonous act of killing his master. It was as difficult as ascending to heaven to paralyze such a troublesome person and get the minor phaseless magic art from him!

However, the minor phaseless magic was too hard to come by. No matter how difficult it was, Yu Zhe wouldn't give up so easily as long as there was a chance. This was the same as the star inkstone, a powerful technique that could change one's fate. However, the effects might not be as heaven-defying as the star inkstone!

Yu Zhe knew that if he wanted to obtain the minor phaseless magic art, he had to first find a way to make the southern Heaven Gate accept him as a disciple. And if he wanted the southern Heaven Gate to accept him as a disciple, he had to please him and make him appreciate him.

Hearing the question from the South Heaven Gate, Yu Zhe was silent for a moment, then said, "Uncle-master, I was there when master was killed, but I was far away and Lin er's attack was extremely sinister and concealed, so I didn't see it clearly. I only know that the move seemed to have condensed an unimaginable amount of true Qi. The power of the explosion even collapsed several mountains around the market and left a huge pit. The scene was very shocking."

"Really?" "As far as I know, the three pavilions have sent a lot of people over the past few years to set up layers of protective arrays in every territory, especially in a place like the market. In order to prevent cultivators from destroying the surrounding area, they have specially arranged several layers of protective arrays around it. It is impossible for ordinary people to destroy the surrounding mountains!"

Foundation Stage was only considered a beginner level on Sky Class Island, but they were still heaven-defying existences. If they were to use their full strength, even an early Foundation Stage master could easily destroy a mountain range.

There were so many masters on the Sky Class islands, and there were all sorts of conflicts happening all the time. If they didn't have the corresponding defensive measures, the Sky Class islands would've been blown to pieces long ago, and wouldn't have been able to survive for tens of millions of years.

The five sky-class islands had been able to stand tall for so long because of the sects. They had set up layers of defensive arrays all over the sky-class islands to offset the damage caused by the shockwaves from the battles between cultivators, which was why the sky-class islands had been able to survive until today.

With the protective array set up by the three pavilions around the market, as the market was full of people and people, and almost all the cultivators on the North Island were gathered there, it was not just because of the disciples of the three pavilions. All kinds of conflicts were unavoidable every day. If there was no special Response, this place would have been destroyed long ago.

The city square's protective array had always been the tightest, and its defensive power had always been the strongest. Even an early Foundation Stage expert's full power attack would not be able to leave any trace in this area.

To be able to collapse several mountains around the market with one move, what kind of power was that? even an expert at the peak of the late stage of the foundation building realm couldn't do this!

"That's true. According to my observation, Lin er doesn't seem to be able to control such a powerful killing move. He can only use it to deal with the problem, but he can't maximize the damage." Yu Zhe said after a moment of silence.

Logically speaking, since Lin Yi's killer move was so powerful that it could destroy the defensive formation and collapse a few mountains around it, it should be easy to kill Nan tianyong, a peak late Foundation Stage cultivator, with a little control.

However, although Nan tianyong was caught off guard and suffered a heavy injury, he did not die on the spot. If it was not for Yu Zhe's greed after the incident that killed him, at this moment, Nan tianyong would have been alive and well.

Yu Zhe's guess was reasonable and just as he predicted, Lin Yi couldn't fully control the energy bomb, especially the Super energy bomb that he had been holding in for two whole hours.

When Southern Heaven Gate heard Yu Zhe's words, the smile on his face couldn't help but deepen, ""Interesting, interesting. Using a killing move that he hasn't fully mastered yet, he can kill third brother. I'm getting more and more interested in this Lin er you mentioned."

Yu Zhe laughed secretly. It's good that he's interested. Otherwise, if this guy isn't interested at all, how is he going to help me dig out this Lin er?

As expected, South Heaven Gate immediately asked, ""Since that Lin er is a rogue cultivator, then do you know how to find him?"

Unlike the disciples of the three pavilions, grassroots rogue cultivators rarely had unique cultivation caves. They often did not have a fixed residence. Unless one was very familiar with him, it was almost impossible to find him.

"Reporting to martial uncle, this disciple has been searching for him these days and has been thinking of all kinds of methods, but I have never been able to dig him out. The reason why I was able to meet him in the market this time was purely by accident." Yu Zhe replied respectfully.

"This ... This is a little troublesome." Nan Tianmen couldn't help but frown. Even if the other party had a killing move that could kill Nan tianyong in an instant, it wouldn't be a problem if he personally took action.

However, the biggest problem was how to find the other party as soon as possible!

No matter what, Nan tianyong was still an expert at the peak of the late Foundation establishment stage. Furthermore, he was in a crucial position like the supervising Deacon of the rising Sky Pavilion. No matter how daring Lin er was, he would definitely not dare to show his face for a short period of time after killing Nan tianyong.

Chapter 3847 The Explanation Of The Spirit Jade Card

Even if it was only due to the pressure of public opinion, the higher-ups of the rising Sky Pavilion would definitely take action. At that time, the experts of the law enforcement Hall would inevitably be involved. Not to mention, the reputation of the three Nan heroes was known by everyone. Once Nan tianyong died, the other two would definitely come forward to take revenge.

With so many people staring at him, unless there was something wrong with Lin er's brain, he would not be able to continue to swagger around the market. If he did not take the initiative to show himself, it would not be easy to dig him out!

Seeing this, Yu Zhe carefully replied,""Martial uncle, although I don't know Lin er's background, but from what I know, he seems to know Hong Zhong, the manager of the Hong Chamber of Commerce on the market Street. We should be able to get some useful information from him."

"Oh? Are you sure? This rogue cultivator actually knows the manager of the Hong Chamber of Commerce? That's not simple!" Southern Heaven Gate was slightly stunned.

Unlike Qing Nan tianyong, who had been in seclusion in recent years, southern sky Gate was very clear about the weight of the Hong Chamber of Commerce. It was a real behemoth. Even if it was only the manager of the North Island branch, it was also an incredible figure.

This Lin er District was just a rogue cultivator, but he actually knew the manager of the Hong Chamber of Commerce. In the eyes of a knowledgeable person like Nan Tianmen, this news was even more shocking than him killing Nan tianyong with one ultimate move!

Yu Zhe nodded and confirmed, "although I don't know how close the two of them are, I'm guessing that hongzhong has recently given this Lin er a spiritual Jade card."

This speculation was purely the conclusion that Zhe had come up with after much thought. Although it was a little groundless, he was smart and guessed the whole story.

He'd come to this conclusion based on the three times he'd met Lin Yi in the inner streets.

The first time, the two of them took advantage of the opening day of the inner street and at the Hong Chamber of Commerce, both of them had their eyes on the star inkstone.

The second time, the two of them still went to the Hong Chamber of Commerce at the same time to compete for the star inkstone during the opening day of the inner street a month later. From this point

alone, it was clear that Lin Yi didn't have the spirit Jade card on him, nor did he have the right to enter the inner streets as he pleased. Otherwise, he would've bought the star inkstone before anyone else.

The third time, it wasn't the inner Street's opening day. Yu Zhe was able to enter the inner street all thanks to the spirit Jade card in his master's hands. However, what surprised him was that he actually ran into Lin Yi at the Hong Chamber of Commerce for the third time!

During this period of time when the inner street was not open, there were only two types of people who could enter and leave the inner street freely. One was the disciples of the three pavilions who were recognized by the market in terms of status and strength, and the other was the distinguished guests with the spirit Jade card.

Although Yu Zhe had been buried in the library for the past three years, he had always known the famous figures of the three great pavilions like the back of his hand. At least in his impression, there was no unfamiliar face like Lin er. Otherwise, with his photographic memory, he would have recognized him the first time.

Since it wasn't the first possibility, then the remaining possibility could only be the second one. This Lin er originally didn't have a spirit Jade card, but for some reason, he suddenly had one after he bought the star inkstone from the Hong Chamber of Commerce.

Therefore, Yu Zhe naturally came up with this speculation. Hong Zhong had given Lin er a spiritual Jade card!

Although this matter was a little outrageous, he knew that Lin er had a Supreme-grade foundation-breaking pill in his possession. Businessmen had always liked rare goods. It was not hard to understand why Hong Zhong gave him a spiritual Jade card because he thought highly of Lin er.

"Spiritual Jade card? Interesting, even someone of third brother's level isn't qualified to obtain a spiritual Jade card. If I remember correctly, this fellow went to borrow a spiritual Jade card from the boss a few days ago?" South Heaven Gate asked with a cold smile.

"That's right. The spiritual Jade card can bring an additional person into the inner street. Without this spiritual Jade card, we wouldn't have been able to meet Lin'er this time." Yu Zhe nodded.

"Hmph! A good-for-nothing who can't even get a spirit Jade card will only bring shame to our Nan family if he's alive. By the way, did you find the boss's spirit Jade card on his body? If the boss comes back and finds out that his spiritual Jade card is gone, he'll go crazy!" South Heaven Gate said with a frown.

On the five sky-class islands, the spiritual Jade card was the best proof of a person's status. Even the strongest person would value it, and the leader of the three Nan brothers was no exception.

Hearing these words, Yu Zhe's heart tightened. The spirit Jade card that Nan tianyong had borrowed from his boss was now in his hands, along with the various treasures that he had obtained from Nan tianyong's body.

He knew that without the owner's true energy, the spiritual Jade card would be useless even if he held it in his hand. He would not be able to use a single bit of the spiritual Jade card. This was because to use the spiritual Jade card, one had to inject true energy into it and pass the verification of the joint formation of the various Chambers of Commerce!

But Yu Zhe couldn't resist the temptation! The owner of this spiritual Jade card was the eldest of the three Nan brothers. The number of spiritual jades in it was enough to make any cultivator's eyes go blurry, and Yu Zhe was no exception.

There was a rumor that as long as one could get the cooperation of the top Chamber of Commerce or the merchant Union, even if it was someone else's spiritual Jade card, they could still extract all the spiritual Jade from it.

Therefore, even if he knew that there was a risk in keeping this spiritual Jade card, Yu Zhe was still unwilling to throw it away. The spiritual Jade in this spiritual Jade card was more valuable than all the treasures he found on Nan tianyong's body. This was the support for his meteoric rise in the future, so how could he throw it away?

"Master's junior, Lin 'er's killing move was too shocking. Many of master's belongings were lost. After that, it attracted many onlookers from the nearby market. I couldn't care too much and could only snatch master's body back. As for master's senior's spiritual Jade card, I don't know who picked it up during the chaos." Although Yu Zhe's heart was flustered, he didn't show it on his face and calmly replied.

These words were both true and false. Even a wise man like the southern Heaven Gate would find it difficult to determine the truth in a short time, unless he had suspected Yu Zhe from the beginning and searched his body or cave.

Unfortunately, although the relationship between the southern Heaven Gate and Nan tianyong had never been good, they still admired this disciple of Nan tianyong, Yu Zhe.

Southern Heaven's Gate's vision could easily see that if Yu Zhe was trained well, he would be the material to become a great person in the future. However, in the past, because he was Nan tianyong's disciple, it was not good for him to give orders, and he was not interested in doing so, so he had never given any benefits or guidance.

Chapter 3848 The Confidence Of The Southern Heaven Gate

Now that Nan tianyong had become a corpse, Yu Zhe had lost his only backer. With this brat's shrewdness, he must know what he should do next to continue to mingle in this rising Sky Pavilion.

What the southern Heaven Gate had to do was simple. They had to check if Yu Zhe was loyal enough, and then decide whether or not to accept him into the sect.

"So it's like that. Then martial nephew, you go and have someone put up a notice in the market. As for whether or not we can find it, let's wait for boss to come back and let him have a headache." Southern Heaven Gate didn't care too much about this. After all, even if they tried their best to find it, it wouldn't do them any good. They were just mentioning it casually.

"Yes, this disciple will do as you command." Yu Zhe hurriedly nodded his head. What the southern Heaven Gate said was exactly what he wanted. Otherwise, if they really wanted to find the spiritual Jade card, it would be a huge loss.

Nantian men paused for a moment and then said, "we'll settle the matter of the spiritual Jade card. As for that Lin er, since you're sure that he might be related to Hong Zhong, it seems that I have to make a trip to the Hong Chamber of Commerce."

Although the southern Heaven Gate didn't care about Nan tianyong's loss at the Hong Chamber of Commerce, they were still one of the three heroes of the Nan family. This news would naturally fall into their ears through the mouths of the surrounding flatterers.

Regarding this, the attitude of the southern sky Gate was completely disdainful. And Nan tianyong, the third brother, was even more solidified in his eyes as an idiot. A mere peak of the late Foundation establishment stage actually dared to go to the Hong Chamber of Commerce and provoke him. If this wasn't an idiot, what was?

Not to mention Nan tianyong, even the South Heaven Gate, which was above them in both strength and status, did not dare to underestimate a giant like the Hong Chamber of Commerce.

Nan tianyong used force and status to force the Hong Chamber of Commerce? It was simply a joke. Saying that he was ignorant and fearless was already praising him, but it was true that there was a hole in his brain!

Southern sky Gate was well aware of the huge power of the Hong Chamber of Commerce and was extremely afraid of it, but it was not to the extent that they did not dare to have any ideas.

No matter what, he was still the second son of the Nan family's three heroes. Now that the first brother was not here, if he did not care about the third brother's death, it would greatly damage his reputation.

Although southern sky Gate was a hundred or a thousand times smarter than a simple-minded person like Nan tianyong, it was still not an exception. Reputation had always been extremely important. Even if he had no interest in letting an idiot like Nan tianyong hang in someone else's hands, he had no choice but to step forward for the sake of reputation.

Moreover, unlike the cold-hearted him, the eldest of the three Nan brothers, Nan Tianba, was very protective of his own. Otherwise, he would not have lent such a valuable thing like the spirit Jade card to Nan tianyong without saying a word.

When Nan Tianba returns and finds out that his younger brother did not care about the death of his third brother, Nan tianyong, the southern heavenly gate can't imagine what kind of anger he will face.

A smart person like Nantianmen would definitely not be as stupid as Nantianyong to threaten and clamor. The reason why he had the confidence to make a trip to the Hong Chamber of Commerce was because of a detail in Yu Zhe's words. Lin'er was not valued by the entire Hong Chamber of Commerce. He was only valued by Hong Zhong, the manager of the North Island branch of the Hong Chamber of Commerce. That was all.

Although there was only a difference of a few words, the meaning they represented was completely different.

If this Lin'er was an important customer that the entire Hong Chamber of Commerce valued, then even if the southern Heaven Gate had ten times the courage, they would definitely not dare to go up to the other party and threaten him to give Lin'er's specific information.

As the second most famous Chamber of Commerce on the five big islands of the Sky Class, the Hong Chamber of Commerce had always been very protective of their customers, especially the important customers that they valued.

If Lin'er was such a customer, then not to mention the southern sky Gate, even if the entire North island's three pavilions came forward to pressure the Hong Chamber of Commerce, it would be useless. Although merchants pursued profits and would do anything in many cases, the Hong Chamber of Commerce was able to become a Colossus today because of its reputation.

Without a strong reputation, it would be impossible for them to become a top Chamber of Commerce. In order to build such a strong reputation, they needed to operate for a long time. This process was very long and difficult, but it was very easy to destroy such a strong reputation.

As long as they sold out their customers' information once, even if it was just the simplest information, as long as it was spread out, it was enough to destroy the strong reputation that they had accumulated for thousands of years.

Everyone who joined the Hong Chamber of Commerce, even the lowest level manservants, had to go through all kinds of brainwashing every morning and night. The most basic and most important one was to swear to protect the reputation of the Hong Chamber of Commerce.

However, since Lin'er was only valued by Hong Zhong, it was much easier to handle!

Where there were people, there would be a world of martial arts. Even within the Hong Chamber of Commerce, it was not a piece of iron. If the Hong Chamber of Commerce's headquarters in Nakajima gave the order, then Hong Zhong's position as the spokesperson of the Hong Chamber of Commerce in the North Island would naturally no longer exist.

The southern Heaven Gate was well aware that in order to pry out Lin'er's identity from Hong Zhong, the first step was to separate Hong Zhong from the Hong Chamber of Commerce. The southern Heaven Gate didn't dare to challenge the Hong Chamber of Commerce, but if it was only Hong Zhong, they might have a chance to threaten him.

"May I ask martial uncle, when are we going to the Hong Chamber of Commerce?" Although Yu Zhe didn't know what the southern Heaven Gate was planning, he knew that Nan Tianyong had suffered a loss before, but he still dared to say that he would make a trip to the Hong Chamber of Commerce. It could be seen that he must have something to rely on and have the confidence.

"There's no rush. We'll talk about it in two days. Martial nephew, you should go and send out the notice of the search for the eldest brother's spiritual Jade card. I have to prepare some things and observe the

situation at the same time." Southern Heaven Gate's face was inscrutable, and he waved his hand at Yu Zhe, indicating that he could leave.

"As you command, uncle master." Yu Zhe didn't say anything else. He respectfully kowtowed and carefully retreated to the southern Heaven Gate's entrance before turning to leave.

Looking at Yu Zhe's back as he left, South Heaven Gate pinched his chin thoughtfully and chuckled to himself, "This brat is pretending to be well-behaved, but he's still far from being able to win this seat's favor,"

Three days passed by in a flash. The supervising Deacon, Nan tianyong, was killed in a single move around the market. After three days of brewing, this matter had become known to everyone. Not only the disciples of the rising Sky Pavilion, but even the disciples of the other three pavilions were discussing this matter after their meals.

The question that everyone was most concerned about was none other than one question: who was the killer?

Chapter 3849 III Intentions

The market was a place where good and bad mixed together. Not only were there large numbers of disciples from the three pavilions, but there were also large numbers of grassroots rogue cultivators.

If the murderer was an internal disciple of the three pavilions, it would not be difficult to find the real murderer with a little investigation. However, if it was a grassroots rogue cultivator, it would be very difficult to find him!

However, what was surprising was that for a crucial figure like Nan tianyong to be killed in the territory of the three pavilions, everyone was just discussing it out of boredom and did not cause any strong voices. No one deliberately created public opinion to pressure the higher-ups of the three pavilions to find the real murderer as soon as possible.

The poor popularity of Nan tianyong, the supervisor Deacon of the soaring Sky Pavilion, was evident.

Due to the widespread attention, some of the higher-ups of the rising Sky Pavilion had already stepped forward to investigate the matter. The nature of this matter could not be said to be mild. If they did not even care about the death of Nan tianyong, who had an extraordinary status, in their own territory, then where would the dignity of the rising Sky Pavilion be? how would they be able to convince the public in the future?

However, although the law enforcement Hall had already registered this matter, they didn't make any big moves to target this matter. They treated it coldly for a period of time, waiting for everyone to throw it to the back of their minds and put it on the shelf.

In the world of fighting and killing, the death of a person was a common occurrence. Unless it was a tragedy like the one at the qiushui Mountain Villa, where thousands of people died at once, and it affected the interests of some people, it would not cause such a big commotion.

This time, if it wasn't for Nan tianyong's slightly sensitive identity as the supervising Deacon of the soaring Sky Pavilion, he wouldn't even be in the eyes of the higher-ups. If he died, then so be it. There was nothing to make a fuss about.

However, the law enforcement Hall was just a formality without any special notice from the higher-ups. In the words of the current master of the law enforcement Hall, Gongyang Jie, the law enforcement Hall

was not so bored as to uphold justice for the weak. They only needed to keep an eye on the big forces and big figures.

In the eyes of most ordinary cultivators, Nan tianyong was already a high and mighty figure. However, in Gongyang Jie's eyes, he was no different from the ordinary people at the bottom. He was just a lowly ant. There was no need to waste energy on him.

"As expected, to give boss a satisfactory explanation, it seems that I have to personally go." The southern Heaven Gate had already expected this. After being in the rising Sky Pavilion for so long, if he couldn't even see the true nature of the higher-ups and the law enforcement Hall, he would have wasted his time.

However, he didn't wait these three days for nothing. After all, in addition to observing the situation, if he wanted to go to the Hong Chamber of Commerce in person, he had to prepare some trump cards. And now, he had the trump card he had been waiting for.

After summoning Yu Zhe, South Heaven Gate immediately headed to the market. Although today wasn't the inner Street's opening day, it was different from Nan tianyong. He had his own spirit Jade card, so bringing Yu Zhe in wasn't a problem.

When they arrived in front of the Hong Chamber of Commerce, South Heaven Gate didn't say anything and strode in with a cold face. Yu Zhe followed closely behind.

The manservant at the entrance of the Hong Chamber of Commerce immediately sensed that something was wrong. He glanced at Yu Zhe and immediately understood.

Although he didn't recognize the southern Heaven Gate, Yu Zhe had been coming to the Hong Chamber of Commerce a lot recently, and the recent storms were all because of him. If the manservant still couldn't recognize him, then he would have wasted the Hong Chamber of Commerce's careful training.

"Where's your manager?" South Heaven Gate didn't even look at the servant as he arrogantly said.

The three Nan brothers were used to being arrogant. Even if he was a smart person, he could not avoid this and would never give a good face to these underlings. Moreover, even if it was for the purpose of coming here today, he had to be domineering.

First of all, he had to overwhelm the other party with his momentum. Otherwise, with the cunning nature of these merchants, there was no way to get the truth out of their mouths.

To be honest, after seeing the actions of the southern Heaven Gate, Yu Zhe, who was following behind them, was a little flustered.

How terrifying the Hong Chamber of Commerce's guest master was, not only did his cheap Master Nan tianyong suffer a loss, even he himself had personally experienced it. Although it was only a short moment of momentum, it was enough to make him tremble in fear.

Although the South Heaven Gate was very strong, even stronger than Nan tianyong who was at the peak of the late Foundation Stage, Yu Zhe didn't think that he could take advantage of the Hong Chamber of Commerce's guest master. Even if he wasn't inferior to the Hong Chamber of Commerce's guest master in a one-on-one fight, the Hong Chamber of Commerce didn't only have one guest master!

Although he was on tenterhooks, Yu Zhe knew that he had no right to point his fingers in front of southern sky Gate. Furthermore, southern sky Gate was not a simple person. If they did not have any backing, they would not have done such a brainless thing.

A moment later, the two were invited to a private room on the second floor by a manservant. This time, out of Yu Zhe's expectations, the shopkeeper Hong Zhong, who had always been polite to everyone, didn't stand up to welcome them.

"May I know what the two of you have come to teach me?" Hong Zhong sat in an armchair, drinking a cup of high-quality tea. He looked up at the two and said, "My Hong Chamber of Commerce sincerely welcomes any guest, but if you are looking for trouble, then I will not send you off. Don't ask for a rebuff."

As a businessman, Hong Zhong had always welcomed guests from all over the world with a smile. However, he had never been kind to those who came with obvious ill intentions.

The Hong Chamber of Commerce was the top Chamber of Commerce on the five big islands of the heaven class. If it was too arrogant, people would say that it was a big store bullying its customers. However, Hong Zhong also knew that sometimes it was necessary to be tough. Sometimes, he even had to knock on the mountain to scare the Tiger and show his power.

Otherwise, if he only knew how to be patient, it would make some small fries think that he was weak and easy to bully. From then on, he would push his nose up and cause endless trouble. It might even affect the other customers' impression of the Hong Chamber of Commerce. Then, business would not be good.

In Hong Zhong's eyes, since the two people in front of him obviously came with ill intentions, there was no need to be polite. It was already very polite to serve them tea and send them off. If the two of them still didn't have eyes, then he could only kill the chicken to warn the monkeys.

"Asking for a snub?" Nan Tianmen glanced at Hong Zhong. A mere merchant slave dared to be so rude to him. He couldn't help but feel angry. He immediately sneered, "The Hong Chamber of Commerce is very famous, but I am very curious, is this how you usually treat your guests?"

The southern Heaven Gate was no stranger to the Hong Chamber of Commerce. When they had visited the central island to visit the important figure of the southern Heaven clan, they had even gotten to know one of the higher-ups of the Hong Chamber of Commerce and had even been given a spirit Jade card.

Chapter 3850 Didn't Take It To Heart

Of course, the higher-up of the Hong Chamber of Commerce had given him the spirit Jade card mostly because of the Big Shot of the Nan family.

However, on the North Island, the southern Heaven Gate rarely visited the Hong Chamber of Commerce. Instead, they were roped in by another big Merchant House with a lot of money. After all, with their position in the rising Sky Pavilion, as long as they could rope him in, they could obtain huge benefits.

"There are good and evil guests. If it's a good guest, the Hong Chamber of Commerce will naturally treat him with respect. But if it's an evil guest, then there's nothing to say. In the cultivation world, the strong are respected. I'm sure you're very clear about this." Hong Zhong's expression remained unchanged.

The strong are respected? Nantianmen's eyes flickered. He was surprised to find that he couldn't see through Hong Zhong's strength!

He couldn't rule out the possibility that the other party had used some secret technique to hide his strength. However, if he considered it from a normal logic point of view, if he couldn't see through the other party's strength, it meant that the other party's strength was very likely to be above his!

As expected of a person who could become the manager of the Hong Chamber of Commerce's North Island branch, he was indeed not to be underestimated! Nantian men was secretly shocked, but he didn't plan to give up. After all, he had come to the Hong Chamber of Commerce today with sufficient preparations.

"Hmph! It seems that in your eyes, manager Hong, this Lord has already been classified as an evil guest. However, do you know this Lord's identity?" Southern sky Gate snorted coldly and mocked.

Compared to their third brother, Nan tianyong, not only was the southern Heaven sect stronger, but their status in the rising Sky Pavilion was also much higher!

Nan tianyong's position as a supervisor Deacon was at most awe-inspiring, but his position in southern sky Gate was absolutely hot. Not only was it awe-inspiring, but he also held a huge amount of cultivation resources. If one could make friends with him, it would be extremely beneficial.

More than half of the merchants in the market were actively befriending or even fawning over the southern Heaven Gate. There were many who wanted to rope him in with a large sum of money.

However, among these businesses, there was not a symbolic business giant like the Hong Chamber of Commerce. Therefore, the southern sky Gate had long harbored a grudge against the Hong Chamber of Commerce. Strictly speaking, they had a grudge against the North Island branch of the Hong Chamber of Commerce.

Therefore, this time, southern sky Gate deliberately came to the door personally. On the surface, it was for Nan tianyong's matter, but in the dark, they also had the intention of taking the opportunity to knock on the other party's head.

Southern Heaven Gate thought that Hong Zhong dared to be so impolite to him because he didn't know his identity. Otherwise, all the businessmen who knew his identity would treat him like a god of Fortune. Why would he show such a cold face?

Unexpectedly, Hong Zhong didn't even raise his head and said, ""He's the second of the three Nan brothers, the eldest senior brother of the manager of the rising Sky Pavilion, and from the South Heaven Gate."

"You actually know?" Southern Heaven Gate's expression changed.

If the other party didn't know his identity, it would be understandable for him to show such a cold face. However, he clearly knew his identity as the eldest senior brother of the rising Sky Pavilion's manager, and yet he still dared to treat him like this. This was completely unexpected!

Although the position of the eldest senior brother in charge of the rising Sky Pavilion didn't sound very different from Meng jueguang's position as the eldest senior brother in charge of the GreenCloud Pavilion, the difference between the two was like the difference between heaven and earth!

Meng jueguang, the senior disciple in charge, could only manage a dozen or so new disciples of the GreenCloud Pavilion, most of whom had not even reached the foundation establishment stage. However, the senior disciple in charge of the southern Heaven Gate was in charge of all the inner sect

disciples except the Golden core stage. The power he held in his hands and the cultivation resources he controlled were enough to make countless people envious. The status and power of these two could not be compared.

Even Hu Yun Feng, the head of the welcoming new pavilion, who was the head of an independent Department, didn't dare to be arrogant in front of South Heaven Gate, let alone a mere Meng jueguang.

Of course, not all the leaders of the independent departments would pay attention to the eldest senior brother of the southern Heaven Gate.

The reason why Hu Yunfeng was acting this way was because the welcoming new pavilion was the last place among all the independent departments. If it was the hall Master of a top Department like the law enforcement Hall, a powerful figure like Gongyang Jie would not even look at the southern Heaven Gate.

Even so, in the eyes of all the shopkeepers in the market, the eldest senior brother of the soaring Pavilion's steward of the southern sky Gate was still absolutely hot and worthy of being roped in with a lot of money.

No matter which shop he entered in the market, he would definitely receive the grandest treatment. This kind of treatment, even his own father would not be able to compare!

As long as he bribed the southern Heaven Gate, he would be able to help his shop's business when he purchased resources for the disciples of the rising Sky Pavilion in the future. The profits would be an astronomical figure, enough to make any merchant go crazy with envy!

Hong Zhong, as the manager of the North Island branch of the Hong Chamber of Commerce, had never paid any attention to the southern Heaven Gate. Now, he had even taken the initiative to come to the door. He clearly knew the identity of the southern Heaven Gate, yet he still dared to treat them with such a cold face!

With such a huge difference, it was no wonder that the southern Heaven Gate was so shocked and lost their composure. This Hong Zhong was able to become the branch manager, so he must be a true merchant. How could a merchant treat their God of Fortune like this?

Looking at the shocked expression of South Heaven Gate, Hong Zhong said with a faint smile, "Although my Hong Chamber of Commerce isn't an intelligence organization, it's basic to be observant when doing business in the North Island. You're the eldest senior brother of the manager of the rising Sky Pavilion, so is it strange for me to recognize you?"

Being recognized by Hong Zhong, a shopkeeper level figure of the Hong Chamber of Commerce, was supposed to be proof of his identity. However, when Southern Heaven Gate heard this, his face instantly became even gloomier.

You clearly know this Lord's identity, but you've never asked about it. Now that you've personally come, not only did you not hurry to worship me, but you're actually treating me so slowly. Isn't this a slap in the face?

They thought that they could at least intimidate the other party with their status, but they did not expect to be slapped in the face by the other party, and in such a calm way. Southern Heaven Gate felt that their face was burning with shame.

South Heaven Gate forced himself to keep a straight face and sneered, "Hmph, you know my identity but you still dare to be so slow. It seems that you are very confident in yourself. I wonder if the higher-

ups in the middle Island of the Hong Chamber of Commerce will have any opinions after they know about this."

Although the Hong Chamber of Commerce was one of the top Chambers of Commerce in the five big islands of the heaven class, and Hong Zhong was the branch manager, his words carried enormous weight on the North Island, but if the upper echelons of the middle Island knew that he harmed the interests of the Hong Chamber of Commerce because of his emotions, then his position as Branch Manager would probably be over.

Unexpectedly, Hong Zhong didn't seem to care about the threat at all. He said indifferently, "Then there's no need for you to worry. I've been in charge of the North Island for decades. I don't need you to teach me what I can and can't do."
