

Bodyguard 3891

Chapter 3891 Blocking The Door

"If they want to watch the fun, let them watch. We still don't know who will make a fool of themselves later!" Xiao ran, who was beside him, did not seem worried at all. Lin Yi was the one who'd helped him and hongcai grow their seeds, and they'd only given him six-and that was already holding back.

If it wasn't for the fear of arousing suspicion, the two of them could have handed in even more. After all, with the poor cultivation conditions of the GreenCloud Pavilion's newbies, it was already extremely rare for them to successfully cultivate six out of ten seeds. If they were to hand in more than that, it would be a little too outrageous.

Moreover, with Xiao ran and Qiao hongcai's current positions, the points of the spirit herb trial were insignificant to them. It was completely unnecessary to arouse suspicion for a few points.

Lin Yi's seeds had such a high survival rate, and his forty seeds were all wiped out-how was that possible? According to Xiao ran's understanding of Lin Yi, his boss was probably hiding it on purpose, waiting for some clowns to come looking for trouble.

It was not just Xiao ran, Lee Zhengming in the crowd had the same thoughts as well, waiting for Meng jueguang and his gang to be slapped in the face.

After a while, the door of cave one finally opened. Lin Yi was stunned when he saw the crowd outside.

"Oh? So early?" Lin Yi smiled faintly, but his next words made everyone's face darken. "When I heard such a big commotion inside just now, I thought that a group of beggars had come from somewhere and blocked my cave dwelling to beg for food. I didn't expect it to be you all. This is really good fun."

A beggar! You're the beggar! Everyone cursed silently. However, when they thought about their current state, they were just beggars blocking the door to beg for food. They had delivered themselves to the door to be ridiculed. It was really cheap.

At this moment, Meng jueguang couldn't help but ask, "Lin Yi, don't tell me you've forgotten what day it is?"

"Today?" Lin Yi thought for a moment before smacking his head. "That's right. Senior brother Meng, you've reminded me. Is it the day of spirit Jade distribution again? You've always given me the smallest spiritual Jade the last few times, so you can't be biased this time. Also, if anyone wants to exchange spiritual Jade with me, please line up and bid, first come, first served!"

F * ck! What the f * ck is this? is this kid really stupid or just pretending?

Meng jueguang froze for a while, cursing inside. Murong Zhen, on the other hand, couldn't help but burst into laughter. Lin Yi was quite an interesting guy, strength and position aside.

"Lin Yi, don't try to change the subject. I'm warning you, today is the deadline for you to hand in your mission. You said you had forty seeds, but you didn't hand in a single one. Do you know what the consequences are?" Meng jueguang coldly snorted.

Everyone's spirits were lifted when they heard this. A good show was about to begin!

"What consequences? Isn't it just a deduction of 40 exam points?" Lin Yi said playfully.

"Forty assessment points deducted? Hmph, you've wasted forty spirit herb seeds that my spirit herb nursery has painstakingly cultivated. This Junior brother of mine has thought too simply of the consequences, haven't he?" Before Meng jueguang could say anything, a distant person coldly snorted in response.

Everyone was shocked. They looked over and saw three figures slowly walking over.

The two people beside him were familiar faces-Zhaoming and pinliang. The one in the middle was the manager of the medicine, the one he saw at the pill Hall when they were distributing the seeds.

Why was this person here? Lin Yi raised an eyebrow, but it didn't take a genius to figure out that the sissy manager's sudden arrival was planned by Kang Zhaoming and Meng jueguang.

The guy quickly gave Lin Yi a look-this guy didn't come with good intentions, and he had to be careful.

Lin Yi smiled noncommittally as he watched coldly from the side.

As the sissy manager of the spirit medicine nursery walked closer, the new disciples all perked up. No matter how sissy this person was, he was still a person with authority in the pill Hall. Now that he'd come to Lin Yi's door to cause trouble, the excitement today hadn't been in vain!

Kang Zhaoming walked over and laughed, "Boss Lin Yi, when I was calculating the points, I found out that your forty seeds were all wiped out. I thought it was a bit strange, so I asked manager Ling Hua to come over to take a look. It's my duty, please don't mind."

This guy was really cheap! Qiao hongcai, Xiao ran, and a few others gave him the middle finger in unison.

Lin Yi's eyelids twitched, too-not because of Zhaoming's cocky face, but because it was the first time he'd heard this name.

Manager Ling Hua? This name was really worthy of this manager's sissy temperament. Which other man would come up with such a name?

Ling Hua's eyes scanned Lin Yi up and down, her fingers raised like an orchid as she said sarcastically, "Junior Brother, when you asked for 40 spirit herb seeds last time, did he kindly remind you?"

"Not bad." Lin Yi nodded faintly.

"I clearly told you in advance that the GreenCloud Pavilion's newbies couldn't cultivate any spiritual seeds, but you still insisted on choosing. At that time, they thought you were an Alchemist and had some skills, but they didn't expect that all 40 spiritual seeds would be destroyed. Do you know what this means?" Steward Ling Hua's voice became more and more coquettish, almost comparable to Murong Zhen 's.

"I don't know. Please advise me, steward Ling Hua." Lin Yi was still calm.

"Even if every spirit Herb Seed is mass-produced, the spirit medicine nursery has put in a lot of effort. This time, the higher-ups have given the order to use it for the newcomer assessment. Even if they know that more than 80% of the spirit herb seeds will be lost, they have nothing to say."

At this point, steward Ling Hua's voice suddenly turned cold. "However, if you insist on bidding for forty spirit herb seeds despite knowing that you don't have the ability to do so, that's not normal. Can people take it as this Junior Brother is intentionally destroying the fruits of my hard work?"

Before Lin Yi could reply, Meng jueguang cut in, "That's right. I, Meng jueguang, may be the new manager of the pavilion, but I've never sided with people who irresponsibly damage the precious resources of the three pavilions. Manager Ling Hua, I promise you that you can do whatever you want with this Lin Yi, and we'll do our best to cooperate. "

For today's matter, Meng jueguang had already spoken to the pavilion master of the welcome Pavilion, Hu Yunfeng, in advance. Otherwise, he would not have dared to say such words in public.

Chapter 3892 Capture Him!

"Very well, then I'll have to trouble manager Meng to take care of this Lin Yi first, and then we'll report this to the elder!" Said steward Ling Hua decisively.

He wasn't colluding with Meng jueguang and the others, but his heart really ached for those spiritual herb seeds. A whole forty of them had been destroyed by an ignorant newcomer. It was simply a waste of God's gifts!

If he didn't punish them severely as a warning to others and everyone followed suit during the newcomer assessment in the future, would he still be able to keep his position as the spirit medicine nursery?

"Alright!" Meng jueguang roared and attacked Lin Yi before he could finish his sentence. The powerful aura around him shocked everyone.

Mid-stage Foundation establishment! Even Lin Yi couldn't help but be taken aback. Meng jueguang was only at the peak of the early Foundation Stage, the same level as Murong Zhen, but he'd broken through to the mid-Foundation Stage!

Before anyone could react, Meng jueguang's claw was already on Lin Yi's shoulder. He didn't use any powerful skills, but he didn't hold back at all.

If it was before this, Meng jueguang wouldn't have dared to fight Lin Yi if he hadn't broken through to the mid-Foundation Stage. He'd never be able to make a comeback if he couldn't beat Lin Yi in public.

But now that he had the absolute advantage in strength, he'd have to teach his nemesis a lesson if he didn't use this excuse. He'd better change his name as soon as possible.

Today, he'd let everyone see who had the final say in the GreenCloud Pavilion's new disciples-was it the newbie Lin Yi, or was it him, the big senior brother!

A mid Foundation Stage practitioner could easily crush Lin Yi's shoulder even if they didn't use any powerful skills. Even if Lin Yi didn't take the ultimate golden pill last time and was a true peak early Foundation Stage practitioner, he would still be at a huge disadvantage.

However, before Meng jueguang's claw could land, Lin Yi's shoulder suddenly exploded with a powerful pure Qi, catching Meng jueguang off guard and making him suffer.

Hiss! Meng jueguang retracted his hand in pain, his heart filled with shock and fear, but he still put on a show and said, "Lin Yi, I'm saving face for you, so I didn't use my full strength. If you don't know what's good for you, then it'll be going against the three pavilions, and don't blame me for being rude!"

"Hehe, in that case, I really have to thank senior brother Meng for holding back. Otherwise, my shoulder would have been crippled by that blow just now, right?" Lin Yi raised a brow, amused.

"Of course. Junior Brother Lin, you can't be so arrogant that you think you can face a mid-Foundation Stage cultivator on your own, right?" Meng jueguang sneered.

Mid Foundation establishment stage? If he could kill a peak late Foundation establishment cultivator in seconds, why would he be short of a newly advanced middle Foundation establishment cultivator?

Lin Yi couldn't help but laugh. If there weren't so many people watching, he would've already killed Yu Zhe if Meng jueguang had dared to attack him just now. Since he could beat Yu Zhe half to death, it wouldn't be a problem to deal with Meng jueguang.

At this time, Qiao Hong suddenly stood up and said, "If the boss alone isn't enough, how about I join?"

"Count me in," Xiao ran said.

Seeing the two of them jump out, the other rookies present were shocked. Things seemed to be getting out of control.

However, Meng jueguang did not get angry. Instead, he laughed and said, "You want to rebel? Don't say that I didn't remind you, take Lin Yi to see the elder of the hall of alchemy-this is the consensus of Pavilion master Hu and the higher-ups of the hall of alchemy. It's reasonable from the beginning to the end, and whoever disobeys will be regarded as a public rebellion. According to the rules of the three pavilions, they can be killed without mercy!"

As he spoke, Meng jueguang gave Murong Zhen and Meng Tong a look, each of them preparing to stare at Lin Yi's group.

This time, they had the right to do so. Even if they killed them, the three pavilions wouldn't hold them responsible. On the other hand, if Lin Yi and the others dared to resist, they'd be charged with rebellion and die for nothing!

"Wait, wait! Hold on, senior brother Meng, there's a misunderstanding!" The miserable senior brother saw that the situation was not good and quickly came forward to help.

He'd been worried about what happened today, and as expected, the situation was heading in the most dangerous direction. Meng jueguang had set a trap for Lin Yi-a hot-blooded young man like Lin Yi wouldn't be able to keep his cool and would be charged for rebellion. His life would be over, and the three pavilions wouldn't let a single rebel off.

"Misunderstanding? We all saw how Lin Yi resisted just now, and you're telling us that it's a misunderstanding? you're protecting him without any principles-it looks like you're ready to join him in this mess, aren't you?" Meng jueguang casually threw another big hat at him."Did you secretly sell those 40 seeds?"

He realized that this was a great opportunity, a great opportunity to kill Lin Yi and his group, including the bitter one!

"This ..." The miserable senior brother was speechless. He was not good with words to begin with. In this situation, if he said anything wrong, he might be wiped out. He did not dare to speak nonsense.

"Take them down!" Without giving Lin Yi and the others a chance to think, Meng jueguang ordered and attacked Lin Yi again. This time, he didn't underestimate his opponent and didn't plan to hold back. Yin bone claw 23 forms!

The yin bone claw, as its name suggested, was an extremely vicious martial technique. It was said that when cultivated to an extremely high level, the bones in one's entire hand would begin to change shape, gradually becoming the true Yin bone claw.

As for Meng jueguang, although his hands had not yet completely transformed into inhuman claws, they were already clearly deformed, a sign of power.

Meng jueguang attacked Lin Yi again, and the other newbies stepped aside tactfully. The miserable senior, Xiao ran, and Qiao hongcai were all under the watch of Murong Zhen and Meng Tong.

Lin Yi had always been a strong fighter, able to overpower Murong Zhen, who was at the peak of the early Foundation Stage, but no one here thought that he was a match for Meng jueguang.

After all, Meng jueguang was a mid Foundation establishment expert. They were on completely different levels.

Even li Zhengming and Zhong pinliang couldn't help but be tempted. If Lin Yi really couldn't beat Meng jueguang, they would help him even if they had to expose his identity as a spy.

However, Lin Yi didn't give them a chance to attack. He swung his hand and used the twenty-two forms of the wild fire Eight Trigram palm, sending the menacing Meng jueguang flying back.

Chapter 3893 Can You Handle It This Way?

As he touched his slightly fractured right hand, Meng jueguang's eyes couldn't help but Twitch. He had once again lost the upper hand in this exchange!

Lin Yi was just a kid from the common world-did he really have such unfathomable strength?

Meng jueguang looked at Lin Yi again, a little afraid. Although Lin Yi had been going against him since they came to Sky Class Island, this was the first time he'd fought him face to face. The results of his test proved that it wasn't without reason that Meng Tong and the others had suffered at Lin Yi's hands.

He was secretly shocked by the result, but he had achieved his goal.

"Fellow brothers, Lin Yi disobeying the higher-ups" orders is considered a rebellion-take him down now, and anyone who responds will be rewarded!" Meng jueguang immediately called out with a cold smile.

In his eyes, Lin Yi's disobedience in public was a solid crime for rebelling, and he was a dead man. He didn't need to waste any more energy.

The arch-enemy that had troubled him for four months had been so easily killed. The situation had developed so smoothly that even Meng jueguang himself had not expected it to happen. It even felt a little unreal.

No matter what, he could finally get rid of a big problem today. So what if Lin Yi was strong? he was just a brainless idiot. He could set a trap and he would die!

As for the other GreenCloud Pavilion disciples, if they could get rid of Lin Yi, not only would they get a huge reward, but they would also be able to get rid of this abnormal being. At least they wouldn't look as useless as they were now, killing two birds with one stone.

Just as Meng jueguang was feeling extremely pleased with himself, Li Zhengming and Zhong pinliang, the two spies, were about to step in to help when Lin Yi suddenly smiled.

"Traitor? Senior brother Meng has such sinister intentions, but I'd like to ask, what is my crime?" Lin Yi asked with a faint smile.

"Intentionally destroying the three pavilions' precious resources and going against the decision of the higher-ups by resisting. Isn't that enough to be considered a traitor?" Meng jueguang coldly snorted.

Lin Yi's smile grew even wider. "Let's not talk about the rest. Just for the first incident, where's the evidence for intentionally destroying the precious resources of the three pavilions?"

Meng jueguang sneered and did not say anything. He extended his hand and made a gesture of invitation to steward Ling Hua. He did not need to waste his breath on such a matter.

"He knew that he didn't have the ability to do so, but he still insisted on choosing 40 spiritual herb seeds. In the end, he didn't even manage to cultivate one. Isn't this evidence?" Steward Ling Hua said with an unkind expression.

Lin Yi smiled and shook his head, "manager Ling Hua, everything you said was right except for one thing."

"Which sentence?" Manager Ling Hua frowned.

"Not a single one has been cultivated. Who gave you this information? As far as I know, today is the deadline. We can't make a conclusion before sunset. " Lin Yi said seriously.

Meng jueguang was immediately amused and sneered, "So what? do you really think you can still produce a spirit Herb Seed that has survived? If you're only going to give me one or two pills as an excuse, I advise you to not embarrass yourself. "

Since the seeds that survived could only be grown in the special conditions of the spirit medicine nursery, everyone, including Meng jueguang, had long assumed that Lin Yi's forty seeds were almost all dead, if not annihilated. There was no way he could grow them all on the last day. No one could do that.

It was true that even Lin Yi couldn't do the latter, but the former was a piece of cake.

"Manager Ling Hua, senior brother Meng, if the results I hand in can satisfy you, what do you think about today's matter?" Lin Yi smiled faintly, as if there was a deeper meaning to his words.

"To our satisfaction?" Meng jueguang looked at Lin Yi's fearless face and couldn't help but shiver.

The kid didn't really wait until today to hand over the seeds, did he? no one else had the guts to do that, but Lin Yi's acting all this while-it was a possibility!

Meng jueguang's eyes darted around, and he laughed evilly. "That's simple. Your underlings, Xiao ran and Qiao hongcai, have each handed in six spirit herb seeds. As their boss, you can't be worse than your underlings, right? This request of mine shouldn't be too much, right?"

"What senior brother Meng means is that as long as Junior Brother Lin hands over the six surviving spirit herb seeds, he won't be the one to blame for today's incident, right?" The senior brother's eyes lit up.

He knew that Lin Yi was helping Xiao ran and Qiao hongcai to grow the seeds, and he thought that Lin Yi could play with fire until the last day and take out six living seeds.

"Hmph! Six? Poor Junior Brother, do you have a pig's brain? Don't you understand human language?" Meng jueguang coldly snorted.

Meng Tong jumped out and laughed, "Xiao ran and Qiao hongcai were only able to hand in six seeds when they received ten. According to this ratio, Lin Yi will have to hand in at least twenty-four seeds when he received forty. Do you understand what my ninth cousin means now?"

He and Meng jueguang had already suspected that Xiao ran and Qiao hongcai were cheating when they found out that they had each grown six seeds. They might have bought the seedlings from someone outside, but they didn't have any evidence. Now, they could use it to kill their boss Lin Yi!

Hiss! The miserable senior brother and the others immediately sucked in a breath of cold air. Out of the 40 spirit herb seeds, 24 of them had to survive. Even the professionals in the spirit herb nursery could not do this!

But before they could retort, Meng jueguang had already taken the lead and said with a smile, "Manager Ling Hua, do you think this is a good way to deal with it?"

"Since they are the subordinates of steward Meng, it's only natural that steward Meng has the final say. They just want an explanation so that they won't let the forty spirit herb seeds that our spirit herb nursery has painstakingly cultivated be wasted." Steward Ling Hua said with a frosty expression.

He wasn't a fool. He could already tell that Meng jueguang was using this opportunity to stir up trouble and seemed to want to clean up the sect. However, this had nothing to do with him. From his perspective, his only purpose in coming here today was to kill the chicken to warn the monkeys and set a rule for the future newcomer assessments.

"You heard that, right? this standard was approved by manager Ling Hua, and we'll do business. Lin Yi, if you can't do it, then don't blame your senior brother for not going easy on you," Meng jueguang's face was filled with killing intent.

Chapter 3894 Why The Rush?

If Lin Yi couldn't meet this requirement, then even if he could take out a few living spiritual herb seeds, he would still be charged for intentionally damaging precious resources. His resistance earlier would be solid evidence of rebellion, and it would be enough to make him die a horrible death!

The miserable senior brother and the others couldn't help but look at each other. This guy actually had the nerve to say that it was official business. Then according to his standards, shouldn't Meng Tong and the others be hung up and beaten up one by one as a warning to others?

Twenty-four! Even Xiao ran and Qiao hongcai couldn't believe that Lin Yi was able to take out so much money. Meng jueguang was planning to use this opportunity to force Lin Yi into a dead end.

To her surprise, Lin Yi only smiled, "Twenty-four? I thought that senior brother Meng's expectations would be very high, but I didn't expect that you would only have such poor taste. How disappointing. "

"Ha? What kind of nonsense is this guy spouting?" Meng jueguang and the others were stunned for a moment before putting on a mocking expression. This Lin Yi was a stubborn man, and even at the brink of death, he still couldn't change his stupid nature.

Lin Yi didn't bother with them anymore and went back into the cave. When he came out, he was holding the culture tank that the spirit medicine nursery gave him.

Looking at the contents of the cultivation tank, Meng jueguang and the others could not help but look at each other in surprise. The cultivation tank was actually filled to the brim with ten fresh and tender seedlings.

When they saw these seedlings, Meng jueguang and the others were only shocked. However, the sissy steward Ling Hua was completely stunned. Her phoenix-like eyes stared at the seedlings in disbelief.

"This is only ten stalks, it's still far from enough!" Meng jueguang refused to give up.

However, he was glad that he was smart enough to use Xiao ran and Qiao hongcai as leverage, otherwise Lin Yi's acting would've been a success.

He'd kept ten seedlings in secret, and held them back until the deadline-this Lin Yi had probably expected them to come and make things difficult for him. How devious!

However, as the saying went,"one foot higher is the devil ten feet higher." Lin Yi's good days were over. He could take out ten seedlings, but he couldn't possibly take out twenty-four at once. Even if he used his toes to think, he knew that it was impossible unless he cheated.

"Senior brother Meng, when did I say that this is all?" Lin Yi looked at him as if he was an idiot and went back into the cave.

"Hmph! "I'd like to see how long you can hold on ..."Meng jueguang swallowed his words back before he could finish. He saw Lin Yi bring out another culture tank, and on it were ten more seedlings.

F * ck! Meng jueguang's eyes almost popped out of their sockets. The faces of Murong Zhen, Meng Tong, and the others were also filled with disbelief. They had the same question in their minds. How did this guy do it?

Before they could question him, Lin Yi turned around and went back into the cave. When he came out again, he was holding two culture tanks, one with ten seedlings and the last with nine seedlings.

"A total of 39 stalks. This should have reached the standard that senior brother Meng had set. Can we talk about what happened just now?" Lin Yi's face turned cold. "You're a new manager, senior brother Meng. How can you attack a new person without even asking? can you tell me what crime you're committing?"

Even Meng jueguang couldn't help but shiver when he felt the killing intent in Lin Yi's voice.

In the three great pavilions, even if other ordinary disciples rashly attacked a newcomer, that was already an out-and-out serious crime. As the senior brother of the newcomer's supervisor, if he knowingly broke the law, his crime would be increased by another level. This was not a joke.

If Lin Yi really made a big deal out of this and alerted the higher-ups of the three pavilions, he'd be in serious trouble. He wouldn't even be able to keep his position as the manager of the new disciples, let alone be promoted to the third Pavilion master. He'd even be severely punished, and all his years of hard work would be destroyed!

At this point, everyone was completely dumbfounded. Lin Yi was the one who was going to be in trouble, but everything had changed in the blink of an eye.

Thirty-nine seedlings in total-Lin Yi's counterattack was way too sudden!

"Hehe, the boss is mighty. Let's see what you bunch of idiots have to say now!" Qiao hongcai, the miserable senior brother, and Xiao ran looked at each other and smiled smugly.

Seeing that everyone's gazes were beginning to turn strange, as if the monkeys were about to scatter when the tree falls, Meng jueguang became anxious and had a flash of inspiration. He shouted, "Hold on, you only took 40 spiritual medicine seeds back then, but now you're taking out 39 seedlings at once. I have full reason to suspect that you're cheating!"

"Cheating?" Lin Yi raised an eyebrow, "You have to take responsibility for your words. I advise senior brother Meng to think clearly before you speak. Otherwise, in addition to attacking a newcomer, you will also be accused of malicious slander. Then, don't blame me for being unforgiving."

Meng jueguang thought that he had grasped onto the last straw of hope and snorted coldly with confidence. "It just so happens that steward Ling Hua is here. He has the most say whether or not we're cheating."

He'd gotten thirty-nine seedlings out of forty seeds, and it was a one-time thing at that! If this wasn't cheating, he'd be willing to wring his head off and let Lin Yi kick it around like a ball!

As far as he was concerned, Lin Yi's thirty-nine seedlings were probably bought at a low price from somewhere to make up for the numbers.

"Alright, then let manager Ling Hua decide." Lin Yi chuckled and nodded.

As the two were talking, the sissy Ling Hua was still immersed in the 39 seedlings Lin Yi brought out. After a long while, he finally realized what was going on.

Under Meng jueguang's earnest gaze, Ling Hua looked at him and Lin Yi before opening her mouth,"" 40 spirit herb seeds have been successfully cultivated into 39 seedlings. Not to mention the simple and crude environment of the GreenCloud Pavilion's new disciples, even if they were in the most suitable environment of the spirit herb garden and had the best professionals handle it, it would still be impossible to achieve such a high survival rate."

"Did you hear that? This is what the chief expert of the spirit medicine nursery, steward Ling Hua, said personally!" Meng jueguang said smugly.

Lin Yi said calmly,"senior brother Meng, why are you in such a hurry? it's not too late to be proud after steward Ling Hua has finished speaking. Otherwise, it'll be embarrassing for everyone if the great senior brother becomes a clown, right?"

Chapter 3895 Die With An Understanding

Steward Ling Hua looked at him deeply and continued,""These seedlings seem to have been alive for quite some time. Their appearance and color are all very good. The spiritual medicine seeds provided to the newcomers were the type that were innately lacking. In theory, no matter how good the outside environment is, it is impossible for such colored seedlings to grow. This is something that no one can do."

"Alright, what do you have to say now, Lin Yi?" From Meng jueguang's point of view, these two points were enough to prove that Lin Yi was cheating.

Cheating in the most important newcomer's test-it didn't sound as serious as rebelling, but it wasn't light either. Lin Yi's name would be on the three pavilions "blacklist, and he'd never be able to make a name for himself in the North Island.

To his surprise, Lin Yi frowned and looked at Meng jueguang."Senior brother Meng, steward Ling Hua is a guest who came from afar. In terms of status and authority, he is not below you. Don't you think that you are too uncultured to interrupt him like this?"

F * ck! Meng jueguang almost spat out a mouthful of blood-he was called uneducated by a mere commoner in front of so many people!

"Lin Yi, stop trying to change the topic. According to what manager Ling Hua just said, you've already been charged for cheating. Let's see how you're going to argue now!" Meng jueguang couldn't help but swear.

"You're going to confirm my crime of cheating?" Lin Yi was amused."Senior brother Meng, you just said that the person with the most right to speak is manager Ling Hua. Why are you so eager to announce the verdict before she even says anything?"

"He's slapping his own face. Isn't this our senior brother Meng's specialty?" Qiao hongcai chuckled and said.

Meng jueguang's face darkened again. Seeing that everyone was looking at him, he could only suppress his anger and maintain his composure."Alright, then I'll have to trouble manager Ling Hua to make the judgment. I'll let you die with a clear understanding today!"

Everyone's eyes once again focused on steward Ling Hua. He took a deep breath and slowly said, "Fine, I'll tell you the result then. This Lin Yi Junior Brother ... He didn't cheat."

"Gah? You didn't cheat?" Meng jueguang and the crowd were dumbfounded as he pointed at Lin Yi, stammering, "This ... How is this possible? Manager Ling Hua, are you sure you're not mistaken?"

Steward Ling Hua shook her head and said in disbelief, "To be honest, I also think it's unbelievable, but these 39 spirit herb seedlings were indeed cultivated with the original batch of spirit herb seeds. This can't be fake."

"Why?" Meng jueguang hurriedly asked.

"Because, these seeds are all marked with the unique Qi of the spirit medicine nursery, no one can imitate it, so we can be sure that this Lin Yi Junior Brother didn't cheat." Manager Ling Hua said with certainty.

"Did you all hear that? Senior brother Meng, what else do you have to say?" Lin Yi laughed coldly. He'd already noticed the Qi mark on the seed when he'd injected his Qi into it, and that was why he'd dared to do this today. Even if the Ling Hua manager and Meng jueguang were in cahoots, he wasn't afraid.

However, from what steward Ling Hua had just said, she was not the same kind of person as Meng jueguang, which saved him a lot of trouble.

Under everyone's watchful eyes, Meng jueguang was in a difficult position. Not only had he accused his own subordinate of being a newcomer, but he had also attacked him. If this crime were to be pursued, it would be a serious one.

"This ... Everyone can be my witness. I was doing this for the sake of the public, and even if something went wrong, it's still excusable. The higher-ups will look into it, so don't try to frame a good person, Lin Yi!" Meng jueguang was at a loss for words, but he still straightened his neck and said firmly.

"Falsely accused a good person? So you're trying to frame my boss Lin Yi, and you're still on the side of reason?" Qiao hongcai was instantly amused. This Meng jueguang was too shameless.

"Manager Ling Hua, you were a witness from the beginning to the end of today's incident. What do you have to say?" Lin Yi ignored Meng jueguang and turned to manager Ling Hua.

"For today's matter, steward Meng's handling was indeed a little reckless. He was at fault first." Steward Ling Hua immediately made her stand clear.

He'd come with Zhaoming today for the sake of the public-he wasn't in the same boat as Meng jueguang, and there was no need for him to take the fall for him.

"Good! I'm going to report this matter to the higher-ups to deal with it. I hope that steward Ling Hua can speak for justice when the time comes. " Lin Yi cupped his hands.

Steward Ling Hua glanced at Meng jueguang. Normal people would not do such an offensive thing, but he still nodded and said,""Okay, but can Lin Yi junior tell me how you raised these seedlings? it's hard to imagine how they're so beautiful and have such a high survival rate, I'm very curious."

As the manager of the spirit medicine nursery, the only thought in manager Ling Hua's mind right now was to figure out Lin Yi's Secret. Forty naturally deficient spirit medicine seeds, and yet he managed to grow thirty-nine of them into decent seedlings. It was an exaggeration to say that the survival rate was almost a hundred percent. If he wasn't even moved by this, then he'd be wasting his efforts to get to where he was today.

If they could obtain this secret, it would be equivalent to obtaining a massive treasure trove for the spirit medicine nursery. Not to mention offending a mere Meng Jue Guang, even offending the pavilion master of the welcome Pavilion, Hu Yun Feng, would not be a problem.

"Manager Ling Hua, you should know that this is a hidden trump card. Even the spirit herb planters in your spirit herb nursery wouldn't share it so easily, right?" Lin Yi rejected without hesitation.

"That's true, I was being rude. " Steward Ling Hua could not hide the disappointment in her eyes, but she still did not give up." "Then if there's a chance, can Junior Brother Lin Yi come work in my spirit medicine nursery? of course, the pill Hall is fine too. Don't worry about the treatment, everything's easy!"

"Well, we'll see how it goes." Lin Yi said.

He was still a newbie in the welcoming new pavilion, and as for how he would develop in the future, he could only take it one step at a time. His main goal was to go to Nakajima and find Zhang Liju.

If it could be of help, then he wouldn't mind no matter where he worked, but if it didn't benefit him at all, then he could only politely decline.

Seeing that Lin Yi didn't seem to be particularly moved, manager Ling Hua couldn't help but look at him in a higher light. He wasn't arrogant nor rash-this Lin Yi was quite interesting!

"That's good. I hope I'll be able to hear good news from you." Manager Ling Hua knew that haste makes waste-she wanted to know Lin Yi's Secret, but she wouldn't force him. She squinted her Phoenix eyes and turned to Zhaoming, "Junior Brother Kang, since you're the one who called him over, you naturally have to send him back, right?"

Chapter 3896 Kang Zhaoming's Tragedy

"I'll be happy to. " Kang Zhaoming quickly replied.

Even though he had a strong backing like Xu lingchong, he wanted to enter the pill Hall in the future. This steward Ling Hua was considered a middle-rank in the pill Hall. Furthermore, it was said that her background was deep. If he could build a good relationship with her in advance, it would be a good thing that he could not ask for more.

He'd invited this guy here today to discuss how to deal with Lin Yi with Meng jueguang, and also to please him. Now that his main goal had failed, he had to make good use of the remaining one.

Unexpectedly, just as Kang Zhaoming was about to flatter her, Ling Hua was already pouting and pointing at the four culture tanks Lin Yi took out, "Then I'll have to trouble Junior Brother Kang to help me move it back to the spirit medicine nursery. Remember to come alone, I still have some urgent matters to attend to, so I'll take my leave first."

With that, manager Ling Hua swaggered away, leaving Kang Zhaoming behind as he stared at the four culture tanks in a daze. When he came back to his senses, he wanted to cry but had no tears. He looked to Zhong pinliang for help.

"Manager Ling Hua said that only you can go. I can't help you." Pinliang shrugged, gloating.

Lin Yi and the others couldn't help but laugh. This Ling Hua was a sissy, but she was quite a clever person. To prove her innocence, she'd use something like this to disgust Kang Zhaoming. How could she think of that?

The tanks weren't heavy, but they couldn't withstand the sheer size of the tanks. They couldn't damage the seedlings either, and if they had to carry four of them all the way to the medicine garden twenty miles away, even an early Foundation Stage master like Kang Zhaoming would have a hard time.

He deserved it! This kind of B * tch should be dealt with this way!

After Ling Hua left, Zhaoming staggered away with the four cultivation troughs in his arms. Meng jueguang, the main character, was left with no choice but to wait for someone to come after him.

A good show was solved by Lin Yi just like that, and the crowd finally understood what it meant to be the number one newbie.

This wasn't the end of it-with the help of the guy, Lin Yi split the petition into three and sent them to the higher-ups in three different places-the new pavilion, the law enforcement Hall, and the Qingyun Pavilion.

This time, it was finally Meng jueguang's turn to feel uneasy. Framing a new subordinate and rashly making a move-this was no laughing matter!

If Lin Yi's complaint was only sent to Hu Yunfeng, it wouldn't matter much. Hu Yunfeng was one of his own, and would definitely protect him. But the higher-ups of the law enforcement Hall and GreenCloud Pavilion ... Meng jueguang couldn't get involved with them with his level.

With Ling Hua's side as Lin Yi's witness, Meng jueguang would at least be skinned alive if he didn't die.

Three days later, all the new members of the welcoming new pavilion gathered at the back mountain Hall. The fifth round of the newcomer assessment was about to begin.

Before Pavilion master Hu Yunfeng officially announced the start of the competition, the newcomers gathered in twos and threes and chatted.

"Junior Brother Lin, I've asked Lu Shixiong to ask around. I'm afraid we're not going to be able to Sue Meng jueguang ..." The miserable senior brother said to Lin Yi and the others with a frown.

Although he was an honest man rarely seen in a thousand years, he had been oppressed by Meng jueguang for far too long. In terms of resentment, he was definitely the one with the deepest grudge against Meng jueguang.

This time, he had finally managed to get hold of Meng jueguang's weakness. The bitter senior brother had truly hoped that Meng jueguang would have a good time, or even stomp him under his foot. However, the news that had come from above these two days had caused his heart to sink.

Hu Yun Feng's side originally didn't have much hope with three petitions * and it was just a formality. However, the law enforcement Hall and GreenCloud Pavilion also put on the same stance of not making a move, causing everyone to be surprised.

"Actually, there's nothing to be disappointed about. This is all within my expectations." Lin Yi shook his head indifferently.

Unlike his miserable senior brother, he had never expected Meng jueguang to be severely punished by the higher-ups. After all, he had Xu lingchong's support behind him. For the sake of Xu Yuanzheng, the third elder of the rising Sky Pavilion, as long as it was not a major matter, they would give him some face.

It couldn't be helped-where there were people, there would be martial arts. This was the martial arts of the Sky Class Island.

Lin Yi's true purpose in sending out these three letters was to give Meng jueguang and his men a lesson so that they wouldn't be so unscrupulous again.

After all, there would always be times when favors were useless. Xu lingchong could protect him this time, but would he protect him two or three times?

He didn't know if the other party would give him face. If Meng jueguang was really that stupid, this young master Xu would have kicked him away a long time ago.

"Boss, look, Meng jueguang's eyes are already green with envy. He's practically itching to eat you alive!" Qiao hongcai chuckled.

Lin Yi laughed, "let him be angry then. But he's not stupid. He's learned his lesson. After being hit by me, he probably won't come looking for trouble so openly anymore. At most, he'll use underhanded methods like before."

"Underhanded? Meng jueguang is a complete tragedy in front of our boss. When has he ever taken advantage of him? If his hands come, they'll break. If his legs come, his legs will break. If his skull comes, I'll smash it into pieces!" Qiao hongcai curled his lips and smiled.

The miserable senior brother and Xiao ran couldn't help but laugh when they heard this. Qiao hongcai's words were crude, but they made sense. Qiao hongcai's witty remarks were indeed the same when used on Meng jueguang. It was indeed a tragedy.

"However, the next assessment segment will be in the outer area of the back mountain. It's the same as the previous newcomer's trial. The three junior brothers should still be careful. Otherwise, it's easy to be caught." The miserable senior brother couldn't help but remind him.

"It's better to find trouble. I haven't avenged the last time. This time, I must get back at them!" Qiao hongcai clenched his fist and snorted.

He was the one who suffered the most during the newbie test. If Lin Yi didn't show up at the last moment, he and Xiao ran might not even have made it out alive.

At least Xiao ran could still use the Shadowstep to save his life, but he, Qiao hongcai, was definitely going to die.

But now, the newbie trial had changed to the newbie assessment. The location was also in the outer area of the back mountain, but the strength of the enemy and the ally had been completely reversed.

He and Xiao ran were both in the early stages of the Foundation Stage, and Lin Yi himself was an unfathomable figure. Even if all the other GreenCloud Pavilion newbies worked together, they wouldn't be a match for them. They'd have to pay for what they've done sooner or later, and the time for revenge had finally come.

Chapter 3897 The Spirit Beast Trial

As everyone was talking, everyone was already in position. Hu Yunfeng immediately announced, ""The fifth round of this year's rookie evaluation is the trial of spirit beasts. I believe that all the rookies should be familiar with this mission. It is to capture spirit beasts as your pets."

In the sky rank island's cultivation world, spiritual pets had always been very common. Any master with a bit of strength would have a spiritual pet with them. Miss Shangguan's little Curly Bear was a living example.

All the rookies present had long been envious of this. However, firstly, they were weak and secondly, they did not have extra spiritual jades to feed their spiritual pets. They could not even satisfy the most basic condition of taming a spiritual pet, so they could only think about it for the time being.

A spirit pet talisman was the most common and reliable method of taming a spirit pet on the Sky Class Island. However, the price was not low. Even the lowest grade of a spirit pet talisman would cost at least a hundred spirit jade pieces. Other than the second generation cultivators of the soaring Pavilion, the other newbies could not afford it.

After a pause, Hu Yunfeng continued, "this time, the spirit beast assessment will last for a month. The venue will still be at the outer area of the back mountain. Before you set off, each of you will be given a low-level spirit pet talisman. One month later, today, you will all be evaluated and scored. As for the specific evaluation method and some things to take note of, Meng jueguang will explain it to you."

Seeing Meng Jue Guang walk up the stage in high spirits to Hu Yun Feng's side, all of the new disciples were baffled. This guy was merely the GreenCloud Pavilion's new disciple supervisor, and there were all the new disciples of the three great pavilions present. What kind of situation was this for him to go up and introduce them?

Even if Hu Yunfeng didn't personally introduce him, there was still the second house master, Feng Song. Even Kang Zhaoming, the new Butler, would be more reasonable than Meng jueguang, right?

However, Lin Yi and the others were well aware of this. Meng jueguang's promotion to the third Pavilion master was already a foregone conclusion. Hu Yunfeng's actions were clearly to do Meng jueguang a favor so that he could show his face and establish his prestige in the future.

"I was wondering why this guy was dressed so well today, like a duck going out to sell. It turns out that he was planning this!" Qiao hongcai's mouth twitched at Lin Yi and the others, a strange look on his face.

"I think it's because we've pushed Meng jueguang too hard these past two days, so they're taking this opportunity to save some face for him. Otherwise, even if he takes the position of the third Pavilion master, he'll still be disgraced." Lin Yi nodded.

"Sigh, I feel uncomfortable when I think about how he was the one who pushed senior brother Lu away. If he really holds the position of the third Pavilion master, I'm afraid he'll be even more aggressive in the future." The miserable senior brother sighed.

Lin Yi patted his shoulder and consoled him with a smile, "Senior brother ku, you don't have to be so pessimistic. The tables have turned, and when the time comes, we don't know who will be the lucky one. Just wait and see."

After clearing his throat on stage, Meng jueguang said with a solemn expression, "The points for this round's spirit beast assessment are divided into two aspects. One is the spirit beast's rank points, and the other is the spirit beast's strength points. The sum of these two aspects will be the final points for this round."

Seeing Meng jueguang's pretentious conduct, the audience couldn't help but feel a wave of disgust, but for the sake of their own interests, they could only endure the disgust and continue to listen.

The points for spirit beast level were based on the level of the spirit pet captured by each newcomer. Each level corresponded to a different level of points. Five points for non-rank, ten points for yellow rank, fifteen points for profound rank, twenty points for earth rank, and twenty-five points for heaven rank.

As for those above the heaven rank, it was impossible. The low rank spiritual pet talismans that the welcoming new pavilion gave out to the newcomers could only tame a spirit beast of the great circle of the heaven rank at most. For those at the Foundation Stage, they would need a middle rank spiritual pet talisman. The low rank ones couldn't guarantee the effect.

The so-called spirit beast's strength points were for the new disciples 'subdued spirit pets to compete with each other. However, the rules were completely different from the new disciple challenge. It was a more simple and clear one-round Elimination System.

The newbies from the three pavilions would draw lots to determine their opponents. Each round they won would give them ten points of spiritual beast Strength, and the losers would be eliminated.

The highest points for a spirit beast's grade were twenty-five points, and the highest points for a spirit beast's strength were forty points. Together, they were the highest points in theory in the spirit beast assessment, sixty-five points.

Compared to the previous four segments, this segment's points weren't considered high. However, for all the rookies, this segment was undoubtedly the most practical and most moving segment. Even if the points weren't taken into consideration, they could at least earn a spiritual pet for free, so why not?

After explaining the points system, Meng Jueguang added, ""All the new disciples, as this assessment will be held in the outer area of the back mountain, you must follow the rules of the back mountain Hall. You must not do anything stupid like touching the restrictions. Also, the back mountain strictly prohibits anyone from entering or leaving at will, and you are no exception. Therefore, although the spirit beast assessment will last for a month, if you leave halfway, it means that you have given up the remaining opportunities and will not be able to enter the back mountain again."

After hearing this, the newbies started discussing. Even Lin Yi couldn't help but squint his eyes. They were given a month's time, but they weren't allowed to come and go as they pleased-this arrangement was interesting!

For a whole month, they only had one low-level spiritual pet talisman. Once the chance was used up, it would be gone. Therefore, the newcomers would naturally choose to wait and see. After all, good steel

should be used on the blade. If they rashly wasted it on an inferior spiritual beast, wouldn't it be a waste?

However, after hearing Meng jueguang's words, the rookies had no choice but to readjust their strategy.

The back mountain was filled with ferocious beasts. Even if it was only the periphery, it was still a place filled with danger. This was something that the rookies had already experienced during the rookie trials.

In this kind of place, almost no one could have a good rest. If they stayed for a long time, they would be exhausted. At that time, let alone catching spiritual pets, they might even lose their lives here!

As such, the rookies had to carefully weigh the risks and benefits.

Whether to grab a random spiritual pet and leave quickly or risk their lives to walk two more rounds was a dilemma that every newcomer had to face. If they were lucky, they might be blessed by the heavens, but if they were unlucky, they might be in danger of losing their lives.

"Alright, the rules and precautions have been explained clearly. If all the newbies have no questions, please come and collect your spiritual pet talismans. We're ready to set off." Hu Yunfeng said.

A moment later, a dozen aerial spirit beasts rose into the air from the rear Mountain Hall Square. Just like the previous rookie trial, the three pavilions' rookies were placed in three opposite directions outside the rear mountain.

Chapter 3898 Something's Not Quite Right

However, although they were very far away from each other, and the possibility of meeting each other was very small in theory, this time, there was still a whole month's time. If someone really wanted to cross the road, there was still a chance.

"Boss, what are we going to do this time? do we go separately or together?" Qiao Hong asked in a low voice on the flying spirit beast.

Due to the long duration of this assessment, it was not realistic for rookies from the same Pavilion to be separated. Hence, the rookie placement was not as strict as the previous rookie trial. If the rookies wanted to form a group, they could request to be placed together.

Lin Yi thought for a moment and said to Xiao ran and Qiao hongcai, ""To be safe, let's go together."

Lin Yi's memory of the last deployment was still fresh in his mind. He'd encountered two extremely strong foundation Stage spirit beasts the moment he went down-any other newbie would've peed their pants on the spot, and their life would've been a done deal.

There was something fishy about this arrangement, and Lin Yi was afraid that they would use the same trick again. He was fine with it, but Xiao ran and Qiao hongcai might not be able to handle it.

Moreover, Meng jueguang now had Murong Zhen, an expert at the peak of the early stage of the foundation building realm, under his command. If she joined forces with Meng Tong and the others, they would be a great threat. They had to be careful.

After the three of them finished their discussion, they were sent down by the staff of the back mountain Hall. As expected, the three of them found that something was wrong as soon as they landed on the tree crown.

The place where the three of them landed looked like a huge tree nest. In the tree nest, there was a spirit beast crouching. It looked like some kind of Eagle-type spirit beast.

"Oh my, this feels like the early phase of Sky Class, boss, our luck is pretty good!" Qiao hongcai's eyes lit up.

Just as he said, this Condor didn't look strong at all. For this spirit beast assessment, this early phase Sky Class was simply a tailor-made spirit pet.

To be able to encounter such a suitable choice as soon as he landed, his luck was really not to be trifled with.

However, Xiao ran was a little hesitant when he saw this scene. ""This feeling doesn't feel right."

"Something is indeed wrong. This fellow is only a Cub." Lin Yi smiled bitterly. This Eagle looked very familiar to him. It was the same as the ghost-eyed Golden Eagle he saw last time.

"Ha? Early phase of Sky Class, and this was still a baby? Then how fierce is an adult body?" Qiao hongcai was suddenly startled. Even though he had always been bold, at this time, looking at the chirping little Condor in front of him, his eyes became a little timid.

"If I'm not mistaken, this thing is called a ghost-eyed Golden Eagle. In its adult form, it's at least in the middle stage of the foundation building realm, or even stronger." Lin Yi's tone carried a hint of fear.

The ghost-eyed Golden Eagle he had encountered previously was in the mid-Foundation establishment stage, but that didn't mean that was the limit of their tribe's strength. It could be even stronger.

Hiss! Xiao ran and Qiao hongcai both gasped at the same time. Above the mid-stage of the foundation building realm, how the hell could they deal with this?

It should be known that even at the same level, many spirit beasts were far more powerful than human cultivators, especially the ghost-eyed Golden Eagle, which was an Overlord of the sky. It was a natural fighting race and was almost invincible in the same level.

If a mid Foundation Stage ghost-eyed Golden Eagle came, the three of them wouldn't be able to fight it. Lin Yi might have a chance to survive, but Xiao ran and Qiao Hong were only two of them. They were not far from death.

The Jade space was guarded by the ghostly thing, and Lin Yi wasn't worried about angering the ghost-eyed Golden Eagle, but what made him helpless was that the ghostly thing told him that it wouldn't interfere after hearing about the test, unless Lin Yi was in a life-threatening situation.

It wasn't hard to understand. Although it was only a spirit now, it was still an elder of the spirit beast clan. It was fine to help Lin Yi scare the other spirit beasts, but it didn't make sense to help human cultivators like Lin Yi tame a spirit pet.

If these spirit beasts were willing to follow humans, then he had nothing to say. But the problem was that they were preparing to use spiritual pet talismans to subdue the spirit beasts. This was an unequal contract that completely violated the will of the spirit beasts. It was already magnanimous of the ghosts not to jump out and kill these humans. If they wanted him to help, it was simply a fool's dream.

"We can't stay here for long, let's retreat." Lin Yi suggested.

Xiao ran immediately nodded in agreement. This early stage heaven rank ghost-eyed Golden Eaglet wasn't scary, but if they continued to stay here, there was no telling when an adult ghost-eyed Golden Eagle would come. That would be a big problem.

However, Qiao hongcai's footsteps were a little hesitant, and he looked a little reluctant to leave.

"Don't tell me you want to keep it?" Lin Yi's eyes twitched.

Qiao hongcai was silent for a moment, then took a deep breath and said, ""Boss, you two go first. I want to stay and try."

"What? Hong Cai, are you kidding me?" Xiao ran was taken aback.

At this time, even if they ran away quickly, they might not be able to guarantee that they would be able to escape unscathed. This guy actually wanted to subdue this young cub in front of them. It was simply like pulling a tooth out of a Tiger's mouth. He was going crazy!

Lin Yi also frowned, "this is no small matter. Hongcai, you have to think this through. If we run now, the ghost-eyed Golden Eagle might not chase us. But if you take its Cub, it will fight you to the death. The consequences will be very dangerous."

In human society, subduing a young was no different from abducting and selling a child. Once the parents found out, they would definitely take revenge. It was the same for the ghost-eyed Golden Eagle.

With the ghost-eyed Golden Eagle's strength and agility, if Qiao hongcai was really targeted by it in the outer area of the back mountain, it would be an optimistic estimate to say that he would only have a 90% chance of survival. The reality was that he would be drenched in blood if he were to die 10%.

"I know, boss, but the stronger the adult body, the more precious this Cub is, right? I really don't want to let go of such a good opportunity, even if I have to risk my life for it." Qiao hongcai said with a firm expression.

At first sight, Qiao hongcai had the urge to tame this little Condor. After learning that this was a ghost-eyed golden Condor and that its adult strength was at least at the mid-stage of the foundation establishment realm, this urge became even stronger.

One had to know that he was a grassroots practitioner with no background. If he didn't meet Lin Yi, he might be in the same situation as weak trash like Cha Wu right now, with no chance of turning things around. As for high-level spiritual pets or whatever, that was just wishful thinking.

If he missed this opportunity today, Qiao hongcai would probably never be able to tame such a fierce spiritual pet like the ghost-eyed Golden Eagle again. With his hot-blooded style, although it seemed unexpected for him to make such a decision, it was actually reasonable.

Chapter 3899 Danger

Lin Yi felt that it was a little risky, but he still nodded after seeing the look on Qiao hongcai's face. "Alright then. There's not much time left. Hurry up and do it. I'll keep a lookout for you. But Xiao ran doesn't have to take the risk with us. You can go first."

"Boss, don't underestimate me. I'm here as long as you guys are here." Xiao ran immediately declared.

Qiao hongcai was stunned and his face couldn't help but change. He quickly waved his hand and said, "Boss, Xiao ran, this is my own business. I deserve to risk my life, but it's not right for you two to be involved. If something happens to you, I'll never be at ease for the rest of my life. You'd better leave!"

Lin Yi patted him on the back and smiled, "Just by yourself, what are the chances of you successfully surviving? Alright, stop wasting time and hurry up!"

Qiao hongcai looked deeply at the two of them and didn't waste any more time. He immediately turned his head and pounced on the young ghost-eyed Golden Eagle. The adult ghost-eyed Golden Eagle might come back at any time, and if he couldn't tame it before then, everything would be in vain.

To tame a spirit beast, there were two minimum requirements. One was to have a spirit pet talisman of the corresponding grade. The other was that the captor had to personally injure and subdue the spirit beast and obtain its blood.

This ghost-eyed Golden Eagle was at the early phase of Sky Class, but if they really were to fight, even a Sky Class mid phase might not be able to beat it. It was a bird of prey, too, and had a natural advantage in the air.

Qiao hongcai was an early Foundation Stage practitioner, after all. He was more than enough to deal with the Cub, but the prerequisite was that the Cub didn't run away. Otherwise, if it really flew into the air, he and Lin Yi wouldn't be able to do anything.

It was a good thing that the Cub didn't try to run away from them despite the shrieking from the start. It stayed in its nest, staring at the group. Even when Qiao Hong charged at it, it didn't run away. Instead, it used its undeveloped sharp claws to turn around and grab at them.

Even Qiao hongcai, an early Foundation establishment expert, had been left with several deep claw marks that revealed his bones. Its fierce combat power was evident.

"Boss, is it possible that this Cub still can't fly? otherwise, why isn't it running away?" Xiao ran, who was watching from the side, couldn't help but wonder.

The more powerful a spirit beast was, the longer it would take for it to mature. Although the ghost-eyed Golden Eagle wasn't small and was already at the early stage of the heaven rank, there was still a long time before it reached adulthood. It was normal for it to not be able to fly at this time.

"Maybe," Lin Yi said, "but the ghost-eyed Golden Eagle isn't just strong, it's also very cunning. I feel like this young one has bad intentions."

"No way. You're saying that this little fellow didn't escape in a hurry and is deliberately trying to catch us and wait for the mature ghost-eyed Golden Eagle to return?" Xiao ran looked as if he had seen a ghost.

"Nothing is impossible. A spirit beast of this level is already very intelligent. Their schemes and intrigues are no less than that of humans. You must not underestimate them." Lin Yi said.

The ghost-eyed Golden Eagle and the Nine-Tailed cloud piercing leopard that almost killed him in the newbie test-both of them were terrifying. It wasn't without reason that Lin Yi was speculating about this Cub.

Putting everything else aside, this young bird had been calling out all this while. Perhaps it had some sort of telepathic connection with its parents, and the adult ghost-eyed Golden Eagle was probably already on its way back.

While the two were talking, Qiao hongcai had successfully subdued the Cub. For this, he did not hesitate to pay the price of a dozen claw marks all over his body. After all, time was limited, and every second he stayed here meant an additional second of danger. In comparison, paying the price of only a few injuries was already a good deal.

Mixing the Cub with his own blood, he smeared it on the spiritual pet talisman, and then stuck it on the Cub's forehead. Whether this adventure would succeed or fail, it would all depend on this one move.

Although in theory, a low-level spirit pet talisman could at most tame a spirit beast at the full circle of the heaven rank, this was only in theory. The higher the rank of the spirit beast, the more difficult it was to tame, and the lower the success rate. This was a principle that had never changed.

It was almost certain that a low-level spirit pet talisman could tame a spirit beast without a rank or a yellow rank. However, when it came to the sky rank, the success rate would fall below forty percent. No matter how well prepared they were, it would still depend on luck whether they could succeed.

The reason why spirit pet talismans could be used to tame spirit beasts was basically equivalent to brainwashing. Once the spirit pet had successfully recognized its master, a spiritual connection would be established between the spirit pet and the master, and the spirit beast would follow its orders.

Even if other people, including high-level spirit beasts, could kill it, they would not be able to make it yield. Even the pressure between the ranks of spirit beasts would lose its effect.

This was the advantage of a spirit pet talisman, but the disadvantage was that it would bring a lot of mental burden to the master. After all, when brainwashing the spirit pet, the master himself would also suffer side effects. Moreover, this kind of mental connection existed for a long time. If two more spirit pets came, the master was likely to have a mental breakdown.

In addition, the spirit pets that were tamed by the spirit pet talisman would have their spirituality wiped out to a certain extent, so their true strength was slightly inferior to wild spirit pets.

Lin Yi and Xiao ran waited anxiously for half an incense's time before Qiao hongcai let out a long breath. "It's done,"

The Cub was completely unconscious by now, but Lin Yi and Xiao ran could clearly feel that the fierce and untamed aura was gone, replaced by a tamed aura unique to spirit pets.

Although this was a bit of a pity, it was also an unavoidable matter. There were gains and losses.

"They're here!" Just as the three were about to leave, Lin Yi's eyelid twitched. The sky turned dark, and a huge shadow covered his head.

In the end, he still couldn't escape this calamity. The adult ghost-eyed golden Condor had returned!

Xiao ran and Qiao hongcai were stunned when they sensed the Overlord's powerful aura. With a casual flap of its wings, countless giant trees were snapped in half. What a terrifying aura!

"You two, hurry up and leave. I'll take the Cubs. Split up, hurry!" Lin Yi ordered in a hurry.

If he brought the Cub with him, it would attract the ghost-eyed Golden Eagle's attention. Xiao ran and the other wouldn't be in too much danger. As for himself, with the protection of the great God, the ghost thing, his life and safety were naturally not a problem.

Xiao ran and Qiao hongcai were stunned at the same time. Touching the Cubs at this time was equivalent to playing with their lives. According to Qiao hongcai's original idea, they didn't need to care about the Cubs at all, and the three of them could just run away quickly.

Chapter 3900 Target Gone

Although there were risks, it was better than carrying an unconscious Cub. Even if the Cub was not fully developed, it still weighed more than a hundred pounds.

If he took that person with him, not only would he become the ghost-eyed Golden Eagle's target, but his speed would also be greatly reduced and he would definitely die.

However, Lin Yi had his own reasons for doing this. In order to protect Xiao ran and Qiao hongcai, bringing the Cub was the best choice to attract the attention of the ghost-eyed Golden Eagle.

Moreover, the demonic thing had just given him a hint. Once this kind of baby was tamed by humans to become a spiritual pet, it would be completely separated from the group of wild spiritual beasts. If it was discovered by its spiritual beast parents, not only would they not continue to protect and provide for it, but they would also kill it directly.

Because it had been brainwashed and would only listen to its master's orders, it had become an out-and-out alien in the eyes of its parents, and they wanted to get rid of it.

However, Xiao ran and Qiao hongcai didn't know about this. In fact, even if they did, they wouldn't let Lin Yi Do something so dangerous.

Especially Qiao hongcai-if he got Lin Yi killed because of his impulsive actions today, he'd live in regret for the rest of his life.

However, they didn't have the chance to open their mouths anymore. Seeing Lin Yi carrying the unconscious Cub on his back, the ghost-eyed Golden Eagle was enraged. It flapped its wings and a strong wind came down from above.

BOOM! The tree under his feet was already extremely thick and would require at least five people to wrap their arms around it. Even so, it could not withstand the strong wind stirred by the ghost-eyed Golden Eagle. After a loud sound, dozens of giant trees around it were all broken.

Xiao ran and Qiao hongcai lost their balance and fell to the ground. Fortunately, they were both in the early stage of the foundation building realm. Although they were in a sorry state, especially Qiao

hongcai, who even vomited a large mouthful of blood because of his injuries, they didn't fall to their deaths.

By the time the two of them finally stabilized themselves in the chaos, Lin Yi was already gone. Even the adult ghost-eyed Golden Eagle was gone.

Qiao hongcai panicked and was about to go find Lin Yi when Xiao ran stopped him, ""With your current state, you will only become a burden to boss even if you catch up. Don't worry, boss never does anything he's not confident in. If he dares to do this, he must have his own way."

"But we can't just leave boss like this, right?" Qiao hongcai said anxiously.

"Then wait for me, I'll go up and take a look." Xiao ran leaped onto a huge tree not far away after he finished speaking.

It was impossible to find Lin Yi in this dense forest. The only way now was to use the ghost-eyed Golden Eagle to find Lin Yi's location. Although the ghost-eyed Golden Eagle was huge, it was hard to see him from the bottom of the tree.

Qiao hongcai also wanted to follow them, but he was not an Agile Master. He didn't know how long it would take for him to climb up the tree, not to mention that he was still injured. He could only wait for Xiao ran's news below.

After waiting anxiously for a while, Qiao Hong saw Xiao ran flying down from the top. He quickly stepped forward and asked, ""How is it? How's boss "situation?"

Xiao ran had a strange look on his face. He scratched his head and said, "I don't know what to say."

"What do you mean? Is boss in danger? Quickly tell me!" Qiao hongcai suddenly became more anxious.

"No, no. The ghost-eyed Golden Eagle is about ten miles to the North. However, I saw that it was circling around that position and seemed to be searching for something, but it didn't land." Xiao ran's tone was filled with disbelief.

"What do you mean?" Qiao hongcai still didn't understand.

Xiao ran pinched his chin and speculated, "it gives me the feeling that the ghost-eyed Golden Eagle seems to have lost track of boss's whereabouts. That's why it's circling around."

"How is this possible?" Qiao hongcai couldn't help being stunned.

The ghost-eyed Golden Eagle was a spirit beast above the mid-Foundation Stage, and it was also an Overlord of the sky. Its senses were unquestionable, and once it locked onto someone, even a master above it might not be able to escape, let alone Lin Yi.

"I don't know how boss did it either, but from the looks of it, it seems to be the case." Although Xiao ran was also in disbelief, seeing was believing. He had to believe it.

"What should we do now?" Qiao hongcai scratched his head. If Lin Yi was in danger, he would've rushed over without a second thought, but this situation was a little confusing.

Xiao ran thought for a moment and said, "in my opinion, we can't go to boss's side. Otherwise, not only will we not be of help, but we might also ruin things. However, we can't stay here for long. If the ghost-eyed Golden Eagle can't find boss, it's very likely that it will come back. It's better for us to leave first and then find a way to meet up with boss."

"Then ... Alright." Qiao hongcai was still worried about Lin Yi's situation, but following Xiao ran was the stupidest thing he could do in this situation.

On Lin Yi's side, just as Xiao ran predicted, Lin Yi had successfully escaped from the ghost-eyed Golden Eagle's pursuit.

The ghost-eyed Golden Eagle at the top was about the same strength as the one he met in the newbie test, mid-Foundation Stage. With Lin Yi's current strength, it would be very difficult to get rid of it after being locked on. From the beginning to the end, the ghost-eyed Golden Eagle didn't help at all.

This time, the reason why he was able to go so smoothly was because Qiao Hong had just tamed this Cub.

It was true that the Cub was a signal to the Eagle, and carrying it was like carrying a few hundred-watt light bulb. No matter how fast he moved, he couldn't escape its senses.

However, there was an old saying, "under the light is darkness." The ghost-eyed Golden Eagle could have locked onto Lin Yi directly, but with the youngster as a natural light bulb, the Eagle naturally locked onto the youngster. It didn't know that Lin Yi had a golden finger called the Jade space.

After luring the Eagle away from Xiao ran and Qiao hongcai, Lin Yi stuffed the Cub into the Jade space. Without a doubt, the Eagle lost Lin Yi in an instant, as if it had gone blind.

The ghost-eyed Golden Eagle had been circling above the mountain, but it couldn't find Lin Yi.
