

Bodyguard 3901

Chapter 3901 Descending From The Sky

However, the ghost-eyed Golden Eagle wasn't a normal spirit beast. Even if Lin Yi used the Jade space to escape from its lock, he still had to be extremely careful. Otherwise, the ghost-eyed Golden Eagle would come back again if he was careless.

Although the ghost-eyed Golden Eagle had lost track of him for the time being, it would still be searching for him in the near future. Lin Yi didn't plan to meet up with Xiao ran and Qiao hongcai right now, since it was safer for both of them to act alone.

For other newbies, getting a pet for free during the spirit beast assessment was something they couldn't ask for more. People like Qiao hongcai were fired up after seeing a ghost-eyed Golden Eagle Cub, but Lin Yi didn't care too much about it.

After all, there was a spirit beast elder in the Jade space, and Lin Yi wouldn't be able to explain himself if he used something as inhumane as a spirit pet talisman to take in a spirit pet right under his nose.

Not to mention, these low-level spirit pet talismans could only tame spirit beasts below Sky Class. Spirit beasts of this level weren't worthy of Lin Yi's attention. Even when he saw the ghost-eyed Golden Eagle, he wasn't interested at all.

Of course, if it was a baby spirit beast with a King's bloodline, it would be a different story. Lin Yi might not even need to do it himself, and the thing would be happy to help him win it over.

However, this was only the outskirts of the back mountain, and the probability of a heaven-defying spirit beast appearing was almost zero.

As far as Lin Yi was concerned, the biggest benefit of this spirit beast test wasn't the pets, but the fact that he could stay in the outer area of the back mountain for an entire month. This was the best benefit for him.

The three pavilions had very strict control over the back mountain. A newbie like Lin Yi couldn't come in during normal times, other than the newbie test. The back mountain was the only place he knew where he could find the heart-devouring exquisite grass.

With the heart-devouring exquisite grass, he could make a Foundation-level golden elixir, and with a Foundation-level golden elixir, he'd be able to level up quickly. This was what Lin Yi was most concerned about right now.

Although there were already two stalks of heart-devouring exquisite grass in the Jade space, the more the better. If he could find a few more stalks of heart-devouring exquisite grass in the periphery of the back mountain, this trip would not be in vain.

In addition, the back mountain was rich in resources. For any cultivator, it was a natural treasure. Even in the outer area, as long as one was willing, one could find many valuable natural treasures. Not only were there all kinds of spirit herbs and spirit beasts, but there were also many rare treasures in the outside world.

The newbie test last time was only three days-Lin Yi had gotten the heart-devouring exquisite grass, but he didn't have the time to walk around. This time, however, he had a whole month-it was enough for him to run a full circle around the back mountain if he wanted to.

Naturally, Lin Yi had to make good use of this opportunity. Otherwise, he wouldn't be able to live up to the unique mobile warehouse in the Jade space, would he?

What Lin Yi didn't expect, however, was that he met an old acquaintance on the outskirts of the mountain before he could even start sweeping.

Lin Yi thought that the ghost-eyed Golden Eagle had found him when he saw a shadow above his head, but it was actually a flying spirit beast from the back of the mountain! It was Shangguan LAN 'er and her little Curly Bear!

Watching Shangguan LAN 'er and the bear fall from the sky and land in front of him, even Lin Yi's tough nerves couldn't help but be shocked, ""W-why are you here?"

"How impolite, why didn't you call me little Senior Sister when you saw me!" Shangguan LAN 'er pointed at Lin Yi's forehead and said angrily.

"Ah?" Lin Yi blinked-why was she being so calculative at a time like this ...? He had no choice but to satisfy her, seeing how angry she was, "Alright, little Senior Sister."

"That's a good girl!" Shangguan LAN 'er's anger immediately turned into joy, standing on her tiptoes and patting Lin Yi's shoulder, pretending to be calm. The bear did the same, hanging around Lin Yi's neck and trying to do the same thing, making people laugh.

Lin Yi didn't know whether to laugh or cry as he looked at the two. He shrugged. "Now, can you tell me why you suddenly appeared here?"

Under normal circumstances, no one was allowed to enter or leave the back mountain without the permission of the back mountain Palace. Although Shangguan LAN 'er might be allowed to do so due to her strong background, how could the elders of the back mountain Palace allow her to enter alone?

It should be known that it was almost impossible for Shangguan LAN 'er to deal with the dangerous outer area of the back mountain with her little ring bear, a spiritual pet that had no fighting power at all. If the elder of the back mountain Hall let her in without permission, how could she explain it to Shangguan Tianhua if something happened to her?

What made Lin Yi even more surprised was that it was easier said than done to find a person in this vast outer area of the mountain. How did Shangguan LAN 'er know he was here?

"Hehe, of course I have something important to do here. In any case, Junior Brother, you don't have anything to do. From now on, accompany me to complete the mission in the back mountain." Shangguan LAN 'er said with a smile.

"Mission? What kind of mission?" Lin Yi was even more confused. From what he understood, a big miss like Shangguan LAN 'er wouldn't care about any mission rewards. She could have as many cultivation resources as she wanted, why would she need to do any missions!

What's more, she came alone to this dangerous back mountain for a mission. With the strength of this miss Shangguan, who was barely at the peak of the early stage of the foundation building realm, and with a little panda, it seemed a little risky to do so, right?

"Let me tell you, Little Junior Brother. A few days ago, Grandpa gave me a task to design my own weapons and collect forging materials. Now, I've already thought of the appearance of the weapons, but I still lack a few materials. The most important one can only be found in the back mountain, so your Senior Sister came here." Shangguan LAN 'er said in all seriousness.

"I see." Lin Yi nodded.

In his opinion, Shangguan Tianhua must have taken the opportunity to let this young lady gain some experience. Otherwise, if she were to blindly protect her in the soaring Pavilion, no matter how hard she cultivated, it would be difficult for her to truly grow. Moreover, this little Senior Sister in front of him did not look like someone who would cultivate diligently.

"At first, I was a little scared to come here alone, but I didn't want to ask Xu lingchong and those annoying guys for help. And it just so happens that Little Junior Brother and the rest of you are here for the newcomer assessment, so I came directly to find you. How about it, Senior Sister, I'm very smart, right?" Shangguan LAN 'er said proudly.

Lin Yi couldn't help but chuckle. He was confused, "By the way, how did you guys find me?"

Chapter 3902 The Shame Of The Three Pavilions

Shangguan LAN 'er scratched her head and said, ""That's how I found you. I told the bald Grandpa in the back mountain Hall that I was coming to find you, and then he sent someone to send me here."

Bald Grandpa? Lin Yi blinked, realizing that she was talking about the bald elder in the back hall.

However, this made him even more shocked. Could the elders of the back mountain Hall really be so powerful that they could lock onto him so easily in the vast back mountain?

Even with the assistance of all kinds of restrictions in the back mountain, this ability was still so exaggerated that it left people dumbfounded!

There were rumors and speculations about it, but it was a living example right in front of him-Lin Yi couldn't help but shiver. It seemed like he had to be more careful when he moved around the back mountain in the future, or his secret might be exposed at any time.

Seeing Lin Yi's disbelieving expression, Shangguan LAN 'er asked curiously, "Eh? Little Junior Brother, don't you know? I've heard my grandfather mention that after the elders of the rear Mountain Hall use many restrictions to assist them, their perception can cover the entire rear mountain, except for the core area. Although no one would do this under normal circumstances, it's very convenient for them to find someone or investigate something in the rear mountain!"

This was expected. After all, no matter how strong they were, there was a limit to human strength. No one would pay attention to the entire back mountain all the time. If they really did so, it was no joke to vomit blood.

As for Lin Yi, if it wasn't for Shangguan LAN 'er's request for him, a Big Shot like the back mountain Hall elder wouldn't waste his energy on a newbie like him, much less pay attention to him all the time. As long as he was careful, there shouldn't be a problem.

"The core area shouldn't be the place that should be heavily monitored, right? why can't I sense it?" Lin Yi asked curiously.

"Ya! I accidentally let it slip. This is a secret that I found out when I eavesdropped on grandpa's conversation with the other elders. When the higher-ups talked about this matter, they called it the shame of the three great pavilions, and ordinary people are not allowed to know about it." Shangguan LAN 'er stuck out her tongue in a cute way.

The disgrace of the three pavilions? Lin Yi's interest was piqued-he'd been on Sky Class Island for four months now, and because he'd been in the welcoming Pavilion all this time, he didn't know much about the three pavilions, especially the secrets they didn't want people to know.

The back mountain was the territory of the three pavilions, and something called a disgrace by the higher-ups happened on their own territory. Lin Yi's curiosity was piqued.

"Forget it, I won't tell anyone else, but it's a different matter if it's you, Little Junior Brother. I'll just tell you secretly." Shangguan LAN 'er pretended to be mysterious as she got Lin Yi to move closer to her ear,"The front and back mountain halls could monitor the entire back mountain. However, something happened later on. When an elder of the back mountain Hall was monitoring the core area, his divine sense was destroyed by a few of the most powerful spirit beasts. He has been in a coma since then. At that time, the three pavilions gathered a total of ten elders to suppress him, but the end result was left unsettled. After that, this matter was rarely mentioned."

Lin Yi couldn't help but narrow his eyes at the secret. He thought that the back mountain was completely under the control of the three pavilions, but it didn't seem to be the case.

Although the three great pavilions controlled the back mountain in name, they should not be able to do much to the spirit beasts in the back mountain, especially the most powerful ones. Otherwise, they would not have been called the disgrace of the three great pavilions.

Lin Yi couldn't help but be shocked. How strong were the spirit beasts in the core of the back mountain to be able to fight against ten elders of the three pavilions?

No wonder during the newbie trial last time, that damn thing said that with his current strength, if he were to face those guys, they could easily kill him with a single look. Those words were indeed not false.

At this time, Lin Yi suddenly remembered Yu Xiaoke and his inheritor girlfriends who were unconscious. He asked, ""This elder hasn't recovered from his coma yet. Didn't you ask master Zhang Liju for help? or even he can't do anything?"

Shangguan LAN 'er shook her head. "Master Zhang Liju is one of the most influential people in the whole of Nakajima. He's also the leader of the Nakajima pill division. Why would he come to the North Island for such a small matter?" Although he came from Beidao and is more or less biased towards Beidao, he is now standing on Nakajima's side. We can't be too biased and ask him for help for every little thing, right?"

"I see." Lin Yi let out a breath of relief. This elder's symptoms sounded similar to Yu Xiaoke and the others. If Zhang Liju couldn't do anything about it, he would be worried.

After all, even though Zhao Hongbo had said that Zhang Liju had successfully cured master ice and master snow during the elder's guidance day, it was all just a rumor, not a real example.

"But I heard from my Grandpa that the reason why the three Pavilion elders didn't go to master Zhang Liju for help was because they thought that they didn't want to waste such a precious favor on such a small thing." She continued.

Lin Yi couldn't help but smile. The life of a back mountain Hall elder was a small matter?

But thinking about it, compared to Zhang Liju's favor, it did seem like that.

From the three pavilions "point of view, an elder-level master was hard to come by, but they could still recruit and train him. On the other hand, Zhang Liju's favor was rare, and it was a precious strategic resource that couldn't be wasted.

"Alright, I've told you such a big secret. Next, you have to work hard for me, your Senior Sister!" Shangguan LAN 'er stood on her tiptoes and patted Lin Yi's shoulder again.

"Then ... Alright." Lin Yi thought about it and finally nodded.

Although he wanted to take this rare opportunity to stroll around the periphery of the back mountain and search for the heart-devouring exquisite grass, he could take care of these things at the same time by following Shangguan LAN 'er.

Moreover, he was also worried about Shangguan LAN 'er wandering around the back mountain alone with the little ring bear. Even if the elders of the back mountain Hall paid attention to her whereabouts at all times, if something really happened, even the powerful elders would not be able to do anything.

"However, what is the forging material you want? do you know where it is?" Lin Yi asked.

Looking for something in this vast back mountain was like looking for a needle in a haystack. Like the last time he was looking for the heart-devouring exquisite grass, even if he knew its characteristics, it was only by luck that he barely found it. If he didn't even know these, there was almost no possibility of success.

Chapter 3903 Very Difficult

Shangguan LAN 'er giggled and said confidently, ""Of course I know. Senior Sister has done a lot of homework in advance. The place we're going to next is called Half Moon Lake, and we have to walk two hundred miles North!"

"Half Moon Lake? Since that's the case, let's hurry up and set off. " Lin Yi said.

If it was in the outside world, two hundred miles was not a long distance for these peak early Foundation Stage experts. It would not take long for them to finish walking. But in the outer area of the back mountain, it was hard to say.

It was very troublesome to travel in the dense forest. The key was that danger lurked everywhere. If they were not careful, they would encounter some terrible things. If something happened along the way, they might not succeed even if they spent a few days and nights. It was even possible that they would lose their lives on the way.

After a whole day and night, Lin Yi finally brought Shangguan LAN 'er and the little bear to the Half Moon Lake.

The reason why it took so long, other than the fact that Lin Yi took the opportunity to collect the herbs, was mainly because of the circling bear. The little guy had pulled the tail hair of a Sparrow.

Exotic sparrows were very common in the outer area of the back mountain. Their individual strength wasn't too strong, and they were basically between earth and heaven rank. They had a pair of strong and strong legs like ostriches, but their feathers were no less beautiful than peacocks.

The exotic Sparrow that Lin Yi and the others met on the way-it was probably used to seeing people, and after sensing that Lin Yi and the others weren't hostile, it actually swaggered around them to look for food. Hence, the circling bear's curiosity exploded, and it plucked a handful of feathers.

Then, a tragedy happened.

Although the exotic Sparrow was a herbivore, it loved its feathers the most. The bear's actions this time had caused it to go berserk. The exotic Sparrow was a very strong social species. Angering one of them was equivalent to angering the entire flock!

One Sparrow wasn't scary, but what if there were a group of dozens or even a hundred of them? even Lin Yi couldn't guarantee that he'd be able to withstand the attack of so many sparrows, not to mention that they were in the outer area of the back mountain. Once there was a commotion, the trouble would only get worse.

The strangest thing was that although the birds were fast, they had a weakness-they couldn't fly like other birds, and they couldn't climb up trees either. Lin Yi and the others had to wait for half a day for the birds to disperse, and they barely escaped.

However, this kind of action reminded Lin Yi of Chen Yushu, and he couldn't help but feel emotional ...

"Oh? Is this the Half Moon Lake? it looks pretty good. The origin of the Half Moon Lake should be because of this half moon shape, right?" Lin Yi's eyes brightened up at the sight.

"Not only that, I heard from Grandpa that there are many fluorescent creatures at the bottom of the lake. At night, it looks like a real half-moon when you look down from the sky. I heard that it's very beautiful!" Shangguan LAN 'er said with a look of yearning.

"Is that so? That's worth looking forward to. Speaking of which, can you tell me what we're looking for now?" Lin Yi asked. Shangguan LAN 'er had been keeping him in suspense since they met, and he still didn't know what her goal was.

"Do you see that huge fir tree in the center of the lake? The thing I want is in the heart of the tree, little brother. " Shangguan LAN 'er smiled.

"Then let's not delay, let's go now." Lin Yi took a deep breath and changed the topic.

The Super huge fir tree that Shangguan LAN 'er pointed out was surrounded by lake water on all sides. However, because this was Half Moon Lake, if one set out from the narrowest part, they only needed to cross over a dozen meters of the lake. For a master at the peak of the early Foundation establishment stage like him, it was not difficult at all.

However, Shangguan LAN 'er said slowly, ""There's no rush. Little Junior Brother, you don't know yet that although this Half Moon Lake looks beautiful and peaceful, Grandpa said that the more beautiful things are, the more dangerous they are. If you're not careful, you'll die Here. "

"What?" Lin Yi blinked. He'd always been very confident in his senses-he could sense danger everywhere even in the outer area of the back mountain, and he'd avoided a lot of trouble along the way, but he'd never sensed any signs of danger here.

Up until now, the only impression Lin Yi had of the lake was that it was surprisingly quiet.

If it was in the secular world, this peace would be a very rare enjoyment, but in this back mountain where danger lurked everywhere, if one carefully experienced it, it would make one feel unusually uneasy.

However, there were no powerful spirit beasts in the surroundings, nor were there any ordinary wild beasts. The area within a few miles of the Half Moon Lake gave people the feeling that it was a Pure Land isolated from the rest of the world. It was strange that it was so quiet.

However, just as Shangguan LAN 'er had said, the more unusual a place was, the more likely it was for unexpected dangers to appear. There might be some kind of extremely terrifying spirit beast hidden in this Half Moon Lake. Otherwise, it was impossible to explain why there was not a single spirit beast in the surrounding area.

"I've done my homework. This Half Moon Lake is one of the most dangerous places in the outer area of the back mountain Palace. Countless experts have died here. Even Jindan experts don't dare to take it lightly. There have been previous examples of Jindan experts dying here. " Shangguan LAN 'er bit her finger and said.

"A Jindan stage expert?" Lin Yi jumped in shock-he'd already sensed that this place was unusual, but he didn't expect that even a golden core Master would fall for it!

Lin Yi had always been very confident in his own strength, and so even when he met Nan tianyong, who was at the peak of late Foundation Stage, he didn't give up on the idea of fighting. In the end, he got the last laugh as he wished.

However, if the opponent was a golden core stage master, even Lin Yi wouldn't have the thought of fighting against him. The difference in strength between the two was like the difference between heaven and earth.

If even a Jindan expert was going to fall here, then this Half Moon Lake really wasn't something he could deal with with his strength at the peak of the early Foundation Stage.

"If that's the case, then isn't the possibility of our success very slim?" Lin Yi frowned.

If it was just him, it would have been fine. Even if he knew that he had a slim chance of survival, his unyielding character would have prompted him to try. But now he had Shangguan LAN 'er and the little panda with him.

The bear had no combat power, and although Shangguan LAN 'er was at the peak of the early stage of the foundation building realm, she seemed to have no actual combat experience. If there was a real crisis, it was hard to say how much strength she could exert.

Chapter 3904 Don't Worry And Go On Your Way

Lin Yi really didn't have much confidence in dealing with the Half Moon Lake, where even a golden core stage master might not be able to handle, with this kind of formation. If something happened to Shangguan LAN 'er here, not only would it be hard to explain to Shangguan Tianhua, the pavilion master of the rising Sky Pavilion, even Lin Yi himself would be worried.

Shangguan LAN 'er nodded her head. "Not only is it very unlikely, but if we act during the day, there is no possibility of success at all. However, at night, we might have a chance."

"At night? What do you mean?" Lin Yi asked.

"You'll know when it's night time, Little Junior Brother," Shangguan LAN 'er giggled and kept him in suspense.

"It seems that you're well prepared, little Senior Sister." Lin Yi didn't press on and sighed.

Before this, Shangguan LAN 'er had been a pure young lady in his eyes, an innocent and naive third generation cultivator. But now he suddenly found that this young lady was actually quite reliable when she was serious.

"That's a must, otherwise how could I be your little Senior Sister!" Shangguan LAN 'er said proudly.

The two of them took the little panda and immediately began to recuperate on a tree by the side of Half Moon Lake. Because there were no other spirit beasts in the surroundings, Half Moon Lake was a rare secluded place in the periphery of the back mountain.

According to Shangguan LAN 'er, although Banyue Lake was extremely dangerous, it was relatively safe if one did not touch the surface of the lake. In other words, the real danger of Banyue Lake was hidden in the lake.

As they waited, the sky turned dark, and the Half Moon Lake, which didn't look that special in the day, finally revealed its true appearance.

As Shangguan LAN 'er had said, the lake started to glow at night because of the fluorescent creatures.

Hiss! Lin Yi couldn't help but take in a cold breath-the Banyue Lake had turned into a beautiful paradise after the light, but the true face of the beast was revealed to the two of them without reservation.

"No wonder you said that we have to wait until night to find an opportunity. If we act rashly during the day, nothing will be left." Lin Yi said, shocked.

Because of the fluorescent light, at this moment, the two of them were standing on the treetops and could clearly see the scene under the lake. This was a level that could not be penetrated by perception during the day.

In the deep layer of the lake, there was a huge and ferocious black shadow. Its appearance could not be seen clearly, but from the black shadow, it was not only huge, but also full of murderous intent.

Lin Yi felt that this guy's strength was way above the ghost-eyed Golden Eagle 's, and was a powerful beast that could choose a person to eat at any time. If he didn't know anything and just attacked during the day, he would've been dead by now.

But now, because he could clearly see its position, even though it was still very dangerous, there was still a chance to take advantage of it.

"I'm not very good at fighting, so it'll be up to you to cross the lake and reach the giant fir tree in the middle. " Shangguan LAN 'er shrugged her shoulders at Lin Yi.

"Alright," he said. Lin Yi was already prepared for this. Although it was extremely difficult to cross the lake with Shangguan LAN 'er and Quanguan bear with his current strength, in his opinion, it was a good thing that Shangguan LAN' er was able to face reality so calmly. Otherwise, if this miss really wanted to act tough, she would die without even knowing how she died.

The narrowest part of the lake was only about ten meters away from the giant fir tree in the middle. If the target was directly locked on its horizontal branch, the distance would be closer if the target crossed the canopy of the lake.

Lin Yi observed carefully and locked his eyes on a tree not too far away. It wasn't that tall compared to the other trees that were tens of meters tall, and the top of the tree was only about ten meters from the ground. However, this was the tree that was closest to the fir tree in the lake, and the distance between the trunk and the fir tree was only seven or eight meters. For a peak-level early Foundation Stage practitioner like Lin Yi, this was a simple step.

After choosing the location, the next thing to do was to wait patiently for an opportunity. If it was during the day, it would be impossible to see the situation at the bottom of the lake and predict the danger, so there would be no opportunity. But now, at night, he could use the fluorescent light in the lake to lock onto the position.

The bottom of the lake was a terrifying existence that could kill even golden core stage Masters. Lin Yi didn't plan on fighting it at all, because if he did, the result would be already decided. He had to get as far away from it as possible. It was only when it swam to the furthest end of the lake that it would be the time to act.

"Then you and the bear will stay here. From the situation during the day, as long as you don't do anything unnecessary, this place should be safe. Just wait here for me to come back. Remember to hide well, there might be some noise later." Lin Yi said as he stood up.

"Don't worry, don't worry. With little white protecting me, I won't be in danger. Little Junior Brother, you can go on your way without worry!" Shangguan LAN 'er laughed and waved her hand.

Go on his way without worry? Lin Yi didn't know what to say. He looked at the cute little Bear. This guy could protect you? you'd be dead if you believed in something like that.

Lin Yi rolled his eyes at the bear's muscle-flamboyant actions and went up the tree.

He held his breath and carefully observed the movements of the black shadow at the bottom of the lake. Not only did he have to make sure that it swam to the furthest end, but he also had to figure out its movement patterns. This was the most basic preparation work before taking action. If he was careless, the end result might be a tragic death.

This process lasted for a whole two hours, and only when Shangguan LAN 'er was yawning did Lin Yi finally start.

It was now! Lin Yi's eyes went wide as he activated his butterfly microsteps, gliding across the lake like a ghost.

Eight meters, in Lin Yi's eyes, was a distance that he could cross in a flash without the help of any external objects, but now he had to put in so much effort. Even so, he didn't even know if he could succeed.

It's close! The fir tree was just a few feet away, and just when Lin Yi thought that he'd succeed, the calm Half Moon Lake suddenly started shaking!

Then, a Red Tentacle as thick as a basin shot up from the bottom of the lake at a speed so fast that it was hard to see with the naked eye, aiming at Lin Yi.

Crossing eight meters was a short distance, and Lin Yi had already figured out the beast's movement pattern, choosing to do so when it was at its furthest point-they were at least a thousand meters apart.

Chapter 3905 Special Part 1 Of The Secular World

In the Chu family's Villa in the secular world.

Chu Mengyao, Chen Yushu, Yu Ning, Tang Yun, Feng Xiaoxiao, Guan Xin, little nine, and Yu Xiaoke-these were the girls that Lin Yi was worried about the most. They were placed in four separate rooms, all unconscious.

Lingshan and Chentian, on the other hand, were patrolling the four rooms, keeping an eye on the girls.

During the Sky Class Island Plan, after the girls fainted, Lin Yi's men followed his orders and brought them back. Since most of the strong people had gone to the Sky Class Island, they were the strongest of the remaining people, so the process was considered smooth and no one dared to stop them.

After bringing the girls back to the villa, Song Lingshan and the others observed and discussed. The conclusion was that the girls' comatose symptoms were similar to Yu Xiaoke's. They were not in danger yet, but they would not wake up.

They couldn't save him with their current abilities, so they had to wait for Lin Yi to come back and see if he could find a way.

So, the only thing they could do now was to take care of the girls for Lin Yi.

However, the villa was only so big, and everyone had their own things to do. It was obviously unrealistic to have so many people squeeze in the villa to take care of the girls.

In the end, Song Lingshan and Chen Tian took the lead, arranging for two people to take turns taking care of her.

Although it was said that they had to take care of so many people, because the women were all unconscious, there was not much to do every day. Two people were more than enough. This way, it could ensure that there was enough manpower and not delay everyone's own affairs.

Moreover, everyone had been added to the same group and their phones were online 24 hours a day. If there was anything urgent, they would immediately receive a message and rush over.

With so many people gathered together, even without Lin Yi as the backbone, with the strength of the secular world, it would be hard for any force to fight against them.

And today, it was Lingshan and Chentian's turn. Lingshan was cleaning the house one by one, while Chentian was patrolling around the villa with general Weiwu and the purple lightning Beast.

He was a Sky Class full master, yet he was working as a waiter and a security guard. If word got out, people would be shocked.

Chentian, on the other hand, didn't have much to complain about-the thing was, nothing had happened all this while, and every time the security guards saw him, they'd look at him as if he was a competitor. It was a pain in the ass just thinking about it.

"Look at your sister! Do you think I'd steal your job?" Wu Chengtian raised his iron hand and rolled his eyes.

However, this was still not bad. In the beginning, he was still surrounded by these security guards as a group of thieves. Now, at least he had improved to become a good citizen, which was worth celebrating.

Just as he was getting bored, he stopped in his tracks-there were two people coming from the corner up ahead, and judging from the sound of their footsteps, they must be strong practitioners!

"Are you sure that the inheritors have all fainted?" "Who are you?" an old man with a hideous and bloody scar asked.

" 100%. Don't worry, copper-robed heavenly venerate. It's a piece of cake for me to find out anything in the East Ocean." The other person was none other than Zhen Yingjun, who hadn't appeared in a long time.

This guy had his eyes on Chu Mengyao and Chen Yushu, even sending people to kidnap the two girls and encouraging the Golden Bell sect to cripple Lin Yi's meridians. He was Lin Yi's enemy.

After that, he'd tried his best to get on the iron cloak sect's good side through the Golden Bell sect, thinking that he could do whatever he wanted. He'd grab Lin Yi, his nemesis, and beat him up as much as he wanted, and he'd be able to play with Lin Yi's women like Chu Mengyao. It was so cool just thinking about it.

But before he could even show off, he received a piece of devastating news-an ancient sect like the iron cloak sect had been destroyed by Lin Yi!

When he received the news, tie Yi Hall's ancestral elder, heavenly master Tong Yi, happened to be a guest at the Zhen family. He was a Sky Class full master, but he was dumbfounded on the spot.

Tie Yi Hall was an ancient sect after all-even if they weren't as overbearing as the five elements sect on the surface, they still had a bunch of Sky Class Masters in their full circle-how could they be wiped out in one day?

However, the cruel reality told him that even though not all of tie Yi Hall's disciples had been killed, the Sky Class full Masters that were in charge of the sect that day were all dead-not a single one was left.

Lin Yi didn't hide anything when he brought his men to attack the sect, so the celestial only needed to ask around to find out the truth. He also found out about the plan to open the sky Class Island.

Lin Yi had gone to Sky Class Island, and all his inheritors were unconscious. This was the key information that celestial master Tong Yi had spent a lot of effort to find out.

If Lin Yi was still in the common world, then even if he wanted revenge, he'd have to think twice before doing so. Someone who could kill a bunch of Sky Class Masters at the great completion of the iron cloak sect wasn't someone he, a mere Sky Class master, could mess with.

If that was the case, he probably wouldn't even have the thought of revenge and would've hidden himself deep in the mountains long ago, in case Lin Yi found out about him and killed him.

But now, the leader Lin Yi was gone, and the sky Class inheritors were all unconscious. This was his chance!

This was a Godsent opportunity-he'd go to Lin Yi's house and take away all of his most precious women. They were all in a coma anyway, so he could either kill them or keep them as toys. When Lin Yi came back, he'd take pictures and send them all over the world-he'd piss him off!

As for Lin Yi's other lackeys, he didn't care about them at all. Without Lin Yi as their backbone, these lackeys were like a pile of loose sand, and their strength couldn't be that strong. What could they do in front of a Sky Class full master like him?

It was said that this time, other than a few Sky Class peak Masters like the blood-clad yellow spring sect, everyone else had gone to Sky Class Island. Those who weren't unconscious and had gone with Lin Yi to the iron cloak sect to cause trouble were all gone. What else could threaten him?

Chapter 3906

He wasn't the only one who had this thought. Zhen Yingjun was also drooling over Lin Yi's women, especially Chu Mengyao and Chen Yushu.

The two of them hit it off and Zhen Yingjun led the way personally, resulting in this scene.

The two had just reached the front of the villa, and before they could even break in, Chentian was already in front of them, blocking their way. He had a cold smile on his face, "Finally, someone came. I'm tired of being a security guard."

"You're that Lin Yi's Lackey?" The bronze-robed celestial master frowned and burst out with the Qi of the complete heaven class. He said disdainfully, "'Hurry up and get lost, or I'll make you wish you were dead!'"

"Tsk, what big words." Chentian couldn't help but smile as he released his aura as well, his eyes studying the man. "I really haven't had the chance to experience a life worse than death. Why don't you teach me, ugly old man?"

"Heaven class peak?" The bronze-robed celestial master's eyelids twitched and he looked at Zhen Yingjun with blame. Zhen Yingjun was the one who told him that Lin Yi's underling wasn't strong.

In the end, he ran into a heaven class full completion!

Before coming here, the reason why he repeatedly confirmed with Zhen Yingjun that the inheritors were unconscious was because he was afraid of encountering a strong enemy. He knew that every inheritor on Sky Class Island was a Sky Class full master.

Now that they'd arrived, they found out that Lin Yi's follower was a Sky Class full master-how could they accept this?

"Are you very surprised, ugly old man?" Chentian said with a mocking smile.

After being called the ugly old man, the bronze-robed heavenly venerate finally couldn't hide his anger. Because of the hideous blood scar on his face, he hated it when people called him ugly. Those who dared to say that to his face in the past were all dead now.

"Surprised? A little bit, but he's just a complete heaven class. You don't think you can beat me in a one-on-one fight, do you? Don't be too arrogant, kid!" The bronze-robed celestial master sneered.

Even if they were both at the peak of the Sky Class, Chentian was still no match for him.

With that, the copper-robed heavenly venerate was about to take on Chentian. He was confident in his chances of winning a one on one fight.

But at that moment, Another Sky Class full completion aura appeared in front of him. Song Lingshan walked out of the villa, "If one-on-one doesn't work, how about two-on-one?"

In an instant, the copper-robed heavenly venerable's face turned extremely ugly. Two Sky Class Masters in the great circle? what the hell was going on? Since when did the completion of the Sky Class become so worthless?

The key point was that song Lingshan was a beauty and she even walked out of the mansion. The copper-robed heavenly venerable subconsciously thought of her as the inheritor and looked at Zhen Yingjun with murderous intent.

Didn't you F * cking say that the inheritors were all unconscious? Were Lin Yi's lackeys a bunch of loose sand? Wasn't this a F * cking scam?!

Zhen Yingjun was already scared out of his wits when he sensed the murderous look in the copper-robed heavenly venerable's eyes. He peed his pants and stuttered, "I, I don't know. The intelligence did say so ..."

"What is it, ugly old man? Do you want to fight or not?" Chentian said impatiently-he'd have done it already if he wasn't afraid of the girls in the villa getting hurt.

At the same time, Lingshan also showed her full strength of Sky Class. She might not be confident in a 1v1, but a 2v1 should be no problem.

The bronze-robed heavenly venerable's aura immediately weakened. He had come here today to take revenge and had no intention of dying here. Tie Yi Hall still needed him to rise again.

"Just wait for me. I'll leave your heads with you for now. I'll take them back in the future!" The bronze-robed heavenly venerate left in a hurry after saying this.

"P-bronze-robed celestial master, wait for me!" Zhen Yingjun rolled and crawled behind them, afraid that Wu Chengtian and song Lingshan would stop him.

Chentian curled his lips in disdain as he watched the two run away, "Copper-robed exalted celestial? Where did this clown come from? it sounds like he has something to do with the iron cloak sect, but didn't they already get exterminated by boss?"

"Maybe it's a fish that slipped through the net!" Lingshan guessed. The tie Yi sect was an ancient sect after all, and it was normal for them to have a few fish that escaped their net.

"Then what do we do now? should we chase after them?" Wu Chengtian looked at song Lingshan. She was Lin Yi's woman and one of his sis-in-laws. Before Lin Yi came back, song Lingshan had the most say.

"Forget it, one person isn't his match, but if two of them go, someone might take advantage of the situation," Lingshan said after some thought.

"Alright, since Lingshan sis-in-law said so, then we'll let them off easy this time." Chentian nodded, "but it looks like the old man's coming back again. I'll have to tell the others."

Walking out of the villa, the copper-robed heavenly venerate and Zhen Yingjun looked behind them carefully. They were relieved when they saw that Wu Chengtian and song Lingshan didn't catch up.

"Copper-robed heavenly venerate, what should we do now?" After being given the cold shoulder for no reason, Zhen Yingjun learned his lesson and the completion of the Sky Class wasn't something he could interfere with.

"What do we do? Of course, I'm going back to gather more people!" The copper-robed celestial master gritted his teeth. He was an elder of the iron cloak sect, and yet he was scared back by Lin Yi's two underlings. It was a huge humiliation!

Zhen Yingjun's spirit was lifted but he was confused, "Where are we going to gather our men? Wasn't the iron cloak sect destroyed by Lin Yi?"

"Hmph! Even if the headquarters is destroyed, do you think that our iron cloak sect, an ancient sect, will be gone just like that? I don't dare to say anything else, but two or three peak Sky Class Masters is still possible!" The bronze-robed celestial master snorted. Other people might not know about the iron cloak sect's inner secrets, but copper-robed heavenly venerate was very clear about it!

On the surface, the five elements sect was the number one sect in the ancient times. However, because the tie Yi sect did not have much contact with the outside world and had always been an independent sect, no matter how powerful they were, the outside world would not know about it!

If they knew, they would have thought that there were actually so many Paragon experts! Previously, when the five elements sect saw that the tie Yi sect did not have any dealings with the other sects, they thought that the tie Yi sect was too weak and did not even have a single heaven class full master!

In fact, other than the destroyed iron cloak sect, copper cloak heavenly venerate still had two senior brothers and a senior uncle in life-or-death seclusion! The tie Yi sect never believed that going to a Sky Class Island would bring them any good-they might as well study on their own!

Chapter 3907

Therefore, his senior brothers, the Golden-robed celestial master, the silver-robed celestial master, and his uncle-master, the iron-robed celestial master, had all been in seclusion to comprehend the heavenly Dao. However, only his Junior Brother, the iron-robed celestial master, knew about this. Now that the iron-robed celestial master was dead, the other disciples didn't know.

"Two or three peak heaven class? In addition to you, copper-robed heavenly venerate, we should be more than enough to deal with those two!" Zhen Yingjun said excitedly.

"No, this isn't enough!" The bronze-robed celestial master shook his head and said with a ferocious expression, ""This time, we must ensure that nothing goes wrong. Therefore, I plan to call an ally."

"Who is it?"

"The overseas cultivators Association, bullet head he, and they have recently joined forces with central ..."

Zhen Yingjun was filled with respect. Ever since he had the iron cloak sect as his backing, he knew a lot about these top figures. He was naturally familiar with powerful existences like he dan TOU and central.

There were already three or four Masters in the great circle of the Sky Class in total, including the copper-robed heavenly venerate and the rest of the Masters in the center. The number of Masters in the great circle of the Sky Class alone would be more than the number of fingers on one hand.

Now that Lin Yi wasn't here, his lackeys were a pile of loose sand. So what if they were lucky enough to get two Sky Class full Masters? they couldn't possibly fight two against five, or even more!

That was simply impossible. Today, he had rashly come to the door and met with a nose full of dust. This time, he should be able to get back his face, right?

Lin Yi's women were all rare beauties, and they were all Sky Class full Masters. If he could get his hands on them and play with them, tsk tsk, just thinking about it made Zhen Yingjun's heart itch!

A few days later, the heroes of Eastern Sea city gathered. Heavenly venerate copper cloak made a comeback, and this time, he called the few remaining Sky Class Masters of the iron cloak sect.

Martial uncle iron cloak martial ancestor, senior brothers golden-robed and silver-robed, and himself-a total of four Sky Class Masters at the great circle stage-had arrived at the villa's entrance.

"Grandmaster tie Yi, exalted Celestials, we've gathered so many people this time, it'll be a piece of cake for us. When the time comes, can you give me a few of Lin Yi's women?" Zhen Yingjun, who was leading the way, asked.

The experts from the tie Yi sect looked at each other, and finally, the most experienced Grandmaster tie Yi said, "Forget it, we cultivators don't care about women. This time, the main point is to take revenge. As for women, I'll give them to you if you want them, and you can humiliate them however you want! However, I'll say this first-I'll have to ask your Zhen family to put in a lot of effort in the rebuilding of the iron cloak sect!"

"Of course, of course. If Grandmaster has any instructions, I'll do my best and spare no effort until I die!" Zhen Yingjun replied immediately.

The reconstruction of a huge organization like the tie Yi sect involved many major matters, and many of them required the support of secular forces. For him to be able to take the opportunity to intervene, the benefits and profits were self-evident.

Of course, even if it was built for free, it would still be worth it. When the time came, the iron cloak sect would send experts to guard the Zhen family, and the Zhen family's illegal drug trafficking business would be able to stand out and take out their peers!

Tie Yi Grandmaster nodded. In the past, a small figure like Zhen Yingjun wouldn't even enter his eyes, but now that the tie Yi sect was destroyed, he couldn't let go of any power he could use.

Immediately after, tie Yi gave Tong Yi a look, signaling him to smash the door.

The copper-robed heavenly venerate understood immediately, but before he could do anything, general Weiwu and the purple lightning Beast had already rushed out, followed by song Lingshan and Wu Chentian.

"One, two, three, four!" Chentian counted the heads and mocked, "You only have four peak heaven class Masters, and you dare to come? ugly old man, it looks like you're really cheap. I let you off the last time and didn't make you suffer, but you still don't remember? Then I'll have to help you out this time. "

The copper-robed heavenly venerate couldn't help but get angry when he saw his condescending appearance. "Little brat, I advise you not to be too arrogant. I can still leave your corpse intact later. Otherwise, Humph!"

"That's right, you're only two Sky Class full Masters, and Lin Yi's not here, so don't force yourself!" Zhen Yingjun chimed in.

"Two?" Lingshan raised an eyebrow, amused. "Which eye of yours can tell that there are only two of us? It's better to open your eyes wide and take a good look before you say anything. "

"Not two?" Zhen Yingjun froze for a second before he laughed out loud, "You guys aren't going to count these two beasts in, are you? What was this? Do people rely on dogs 'power? Wahahahaha!"

He thought that Lingshan was referring to general Weiwu and the purple lightning Beast. These two beasts looked decent, but they were only earth Class late phase peak. To a Sky Class full master like tie Yi, they were just cannon fodder.

Not only Zhen Yingjun, but iron cloak master, golden cloak heavenly master, silver cloak heavenly master, and bronze cloak heavenly master all sneered. They thought they could deal with them with two beasts? this man and woman must be crazy!

Song Lingshan and Wu Chengtian looked at each other and couldn't help but laugh when they saw the arrogant expressions on their faces.

"Hehe, you guys don't really think that there's only the two of us here, do you?" Chentian interrupted with a playful look.

"Isn't it? Come on, don't try to act all high and mighty here. I'll tell you two words: useless!" With the four Sky Class full Masters behind him, Zhen Yingjun was fearless. No matter how strong song Lingshan and Wu Chengtian were, they were just two people who were about to die in his eyes.

Oh no, Wu Chengtian was about to die, and as for this song Lingshan, she was a rare beauty after all. He could let the iron cloak sect's experts cripple her first, then he could have fun with her!

As for tie Yi and the others, they were sure that the two were just putting on an act. To them, it was already a miracle that Lin Yi had two Sky Class full Masters under him-it was impossible to have more than that!

Plus, all of Lin Yi's women were unconscious here. If he had a few Masters under him, wouldn't they have to stay here and protect them?

If there were any other experts, the copper-robed heavenly venerate and the others would have discovered them the last time they came.

Chapter 3908

So Lin Yi's men were either the strongest, or the monkeys would leave when the tree fell. No matter what, they had victory in their hands today, and the two of them couldn't do anything.

The bronze-robed heavenly venerate felt a little regretful when he thought of this.

The last time he was here, he had suffered a huge loss. This time, out of caution, he had even contacted the overseas cultivators Association's he TOU Dao and the experts from he TOU Dao's Alliance Center.

However, now that he thought about it, it was completely unnecessary. His iron cloak sect could easily deal with them with just a few people. Why should he let the TOU Dao and the others benefit?

After all, this was Lin Yi's old nest, and since all his women were here, there must be plenty of resources and treasures. It was best to finish things before bullet head arrived. Now was the time when the iron cloak sect needed resources the most, and they couldn't just let outsiders take advantage of it.

"Martial uncle, there are two other senior brothers. Don't waste your breath on them. Let's hurry up and do it!" The copper-robed heavenly venerate winked at the others.

Tie Yi and the others immediately understood and got into a fighting stance.

"Ha, your iron cloak sect is an ancient sect, you sure have a good accent. Are you planning to bully me with your numbers?" Chentian couldn't help but laugh.

Tie Yi and the others blushed upon hearing this-they were all respected elders of the iron cloak sect, and it wouldn't be nice to hear about this bullying from the younger generation.

"Hmph, do we need to play by the rules when dealing with Lin Yi's lackeys? it'll be a blessing from your ancestors if you can die under our hands!" The bronze-robed celestial master quickly explained.

"Oh, really? Since you're planning to bully me with numbers, then I'd like to see who has more people. " Lingshan smiled and clapped her hands, and four figures appeared.

These four were Chen Yutian, Feng Tianlong, Pi Zhishan, and Pi Zhihai.

The bronze-robed heavenly venerate and the others' mouths opened so wide that two eggs could fit inside. What the f * ck, these four were all Sky Class full Masters!

Even when they first heard the news of the iron cloak sect being destroyed by Lin Yi, they weren't as shocked as they were now. What the f * ck, was this world crazy? were Sky Class full Masters all cabbages now?

Lingshan and the others couldn't help but smile at the group of idiots. Ever since the copper-robed heavenly venerate came, they changed their shifts from two to six. They were waiting for this day!

As for why they were all Sky Class full Masters, it was naturally because of Lin Yi. Before the plan to leave Sky Class Island, he made a large batch of Qi gathering pills to raise everyone's strength to Sky Class full Masters before he was satisfied.

Otherwise, with Lin Yi's cautious personality, he wouldn't just leave these people behind and go to Sky Class Island by himself!

At this moment, Grandmaster Tie Yi and the others were scared out of their wits and Zhen Yingjun, the clown, peed his pants and wet himself on the ground.

It was originally a good situation of four against two, but in the end, it became four against six. What the hell was going on?

Tie Yi and the others couldn't help but wonder if their eyes were blurry from old age-six Sky Class Masters at their peak all of a sudden, and all of them were just Lin Yi's lackeys! This didn't make any sense at all!

"You said it yourself. It's not embarrassing to bully the few with numbers. Everyone, go!" Wu Chengtian laughed loudly and charged towards tie Yi without hesitation.

Lingshan and the others looked at each other and picked their own targets.

Chu Mengyao and the other unconscious girls had already been secretly moved to han Jingjing's Villa, so even if the enemy came looking for them, they could fight back without any fear.

Under such circumstances, tie Yi and the other three grandmasters could only brace themselves to face the battle. If they were to run now, they could forget about rebuilding the iron cloak sect in the future. It would be more appropriate to form a turtle sect.

Zhen Yingjun was only hit by the aftershock and he was already lying on the ground. On the other hand, tie Yi and the other three were Sky Class full Masters with a lot of experience and could fight in a 1v1, but they couldn't fight against song Lingshan and the others.

Six against four meant that there were two people who could free up their hands at any time to support and launch a sneak attack! Other than that, there was still general Weiwu and the purple lightning Beast. It was like eight against four.

Even if tie Yi and the others were stronger than normal Sky Class full Masters, it was still very difficult for them to take on two of them at the same time. They would definitely be suppressed in all aspects, and the only question was how long they could last.

Being suppressed by a group of young juniors, tie Yi and the others felt like they were about to die. They had rushed over to take revenge, but in the end, they were beaten up so badly that they couldn't even fight back. This difference was too F * cking huge, and they couldn't accept it.

At this moment, the only thing that the copper-robed heavenly venerate was glad about was that he had the foresight to make an appointment with He dan TOU from the overseas cultivators Association. Otherwise, he would have really hit a brick wall today and would be too ashamed to meet anyone for the rest of his life.

However, he had only agreed on a date with bullet he. As for when he would come, they did not discuss it in detail. He could only see what the other party's schedule was.

What worried the copper-robed heavenly venerate was that if the four of them couldn't hold on until bullet arrived with his men, it would really be a disaster.

"Yo, you old fogeys are quite tough. I'm impressed!" The eight versus four battle went on for half an hour, and even though the four men from the iron cloak sect were at a disadvantage, they were still holding on. They didn't look like they were going to run away, and this surprised Wu Chengtian and the others.

"It looks like they're waiting for some reinforcements. A long night is fraught with dreams. Let's finish this quickly and take down the four of them first!" Feng Tianlong was experienced and knowledgeable.

"Alright!" Everyone responded in unison, and in an instant, the situation of tie Yi and the other three became extremely dangerous. It was possible that they would lose their lives here at any moment.

However, at this moment, bullet head he's voice suddenly reverberated through the entire arena.""A quick battle? I'd like to see who's so arrogant!"

As he spoke, He dan head appeared with a powerful aura, and behind him were three other Masters with the same aura. They were all Masters he brought from the center of the group, and they were all Sky Class full Masters!

Central had worked with patriarch xuanchen in the past. After patriarch xuanchen left, this resource was transferred to his younger brother, bullet head!

Chapter 3909

The appearance of He dan TOU gave the four men from the iron cloak sect a boost in morale. After being surrounded by song Lingshan's group of six and the two Spirit beasts for so long, they were already on the verge of collapsing. But now, with He dan TOU's arrival, the situation was reversed!

With that, they had a total of eight Sky Class full Masters, and they once again had the advantage in numbers against Lingshan's group of six.

After the fight, they could tell that the six of them were Sky Class full Masters, but they didn't have enough combat experience! In a one-on-one battle, he was no match for them at all.

It was eight against six, and each of them had the advantage in strength. He could finally return the grievance and resentment he had suffered just now.

"Kill them all, leave no one alive!" Bullet head he ordered the three guest Masters behind him with a cold smile.

To be honest, he was also shocked by the sudden appearance of so many Sky Class Masters under Lin Yi, but it was also because of this that he was even more determined to kill them all. Otherwise, with so many strong people gathered together, he wouldn't be able to live in peace, whether Lin Yi could come back or not.

The three guest Masters nodded silently and charged into the crowd, working with tieyi and the others to attack Lingshan's group.

The situation took a turn for the worse-Lingshan and the others were Sky Class full foundation thanks to Lin Yi, but it hadn't been long, and they didn't have enough experience. They weren't a match for these old monsters who'd been in isolated practicing for decades or even a century.

At this time, they were at a disadvantage in numbers, and the situation suddenly became precarious. The key was that these opponents were all ruthless, and each of their moves was fatal. If they were not careful, they might lose their lives.

Just now, the four men from the iron cloak sect were able to hold out for a while when they were at a disadvantage in terms of numbers, but it would be too difficult for song Lingshan's group of six to face the fiendish Masters like he xiutou.

"Go to hell!" He dan TOU had been watching from the side for a while, but when he saw Lingshan reveal a flaw in her panic, he grinned and was ready to strike.

However, before he could make a move, several figures suddenly rushed over from not far behind him. Each of them had the powerful aura of the completion of the heaven class, which made his eyelids Twitch.

"Heh, I thought I was late. It seems like it's time!" Yu Bing grinned, and there were two people beside him-qikun and qijiu!

F * ck! Another three Sky Class full Masters-was this Lin Yi some ancient God? why were all his subordinates Sky Class full Masters?!

Tieyi and the others "eyes almost popped out of their sockets, and even bullet head had a look of disbelief on his face. Nine Sky Class full Masters ... What the hell was wrong with Lin Yi's men?

What they didn't know was that this wasn't even the full force of Lin Yi's men. Cheng Yiyi, the Dean, Xu Shihan, and the others were still taking care of the unconscious girls. If they all came together, He dan TOU and the others would've bitten their tongues off!

With that, even if general Weiwu and the purple lightning Beast weren't mentioned, song Lingshan's side had nine complete heaven rank Masters, and they still had the advantage in numbers against the eight from bullet head and the iron cloak sect.

F * ck! What kind of demon did he offend? why are there so many peak heaven class Masters all over the place?

Tie Yi and the others were on the verge of tears. They were already being suppressed by Lingshan and the others, and now that they finally got their hands on a bullet, the situation was reversed before they could even take a breath.

You can't play like this! This was too shameless!

Seeing the iron cloak sect disciples on the verge of a mental breakdown, it was still bullet head he who spoke at the crucial moment, "So what if there are many people? They're just a few fake peak heaven rank powerhouses created by some unknown method. What's there to be afraid of? kill them for this President!"

With that, He dan took the lead and charged at Chen Yutian's group. Even if they were all Sky Class full Masters, the difference in strength was huge. He didn't believe that the eight of them couldn't beat these nine kids!

It was just as the warhead had predicted-Lingshan's side had the numbers advantage, but it wasn't that obvious after the fight started. After all, they only had one more person and two more spirit beasts!

After all, He dan TOU and the others were experienced experts. In this kind of chaotic battle with dozens of people, rich combat experience was as important as strength. This way, at least in the situation, they could make up for the disadvantage in numbers. The two sides were locked in a battle.

Neither side had expected this sudden battle to begin. He TOU TOU and the iron Yi sect didn't expect Lin Yi to have so many Sky Class full Masters under him, and song Lingshan and the others didn't expect the iron Yi sect to call he TOU along either.

The small Eastern Sea city suddenly gathered more than a dozen people at the peak of the Sky Class and started fighting. If these people weren't afraid of each other and didn't dare to use their big moves, the entire Eastern Sea city would probably be razed to the ground.

Even so, it was only a matter of time before they were wiped out. Luckily, Lingshan and the others had moved the unconscious girls to another place in advance, or else they would have been in a difficult situation.

In the beginning, the two sides were still wary of each other, but the more they fought, the angrier they became. All kinds of scruples were gradually thrown to the back of their minds, and if they continued fighting like this, casualties were inevitable.

Lingshan's group had the numbers advantage, and they weren't at a disadvantage either, but they were at a disadvantage individually. They might not lose in the end, but if there were casualties, they would be the first to fall.

"Hmph, these are all inexperienced newbies who haven't seen much blood-they're only sky Class full cultivation Masters! As long as we kill a few of them in the chaos, they'll fall apart on their own!" He dan TOU had already seen through everyone's weakness. He immediately gave the others a look, ready to use his killer move to kill one first.

This was the advantage of being experienced. No matter how chaotic the situation was, he could still find a breakthrough point. Otherwise, if they continued fighting like this today, it was not impossible for him to kill the old master with random punches. At that time, it was unknown whether He dan himself could even return alive.

However, if they found an opportunity to work together to kill one of them, the situation would be different. Once they could break out of the situation, even if they were evenly matched, it was likely to turn into a big victory in the end without paying too heavy a price.

The people from the iron cloak sect might not understand what warhead he meant, but the three biohazard experts from central coordinated with warhead he and turned their fire on the same person-song Lingshan!

Chapter 3910

In an instant, the killing intent exploded. Before the others could even react, He dan TOU and the other three had already made their move, trapping Lingshan from all four directions, leaving her no way to escape.

This was all too sudden-Chentian and the others didn't expect it at all, even Lingshan herself didn't know.

It was already too late to escape now. In the next moment, she would die.

"As the president of the overseas cultivators Association, you used such a dirty trick. It's really an eye-opener!" A gloomy voice rang out, and then several figures quickly swept toward the crowd.

He dan TOU and the others were shocked. They paused for a second, and a few figures appeared in front of them, helping song Lingshan out of the situation.

"Patriarch blood-robed?" After clearly seeing the appearance of the person, everyone's face could not help but change, their shock overflowing.

Not only the blood-robed ancestor, but also the netherworld ancestor and the ghastly ancestor. All the top experts of the blood-robed netherworld sect had come out!

The deterrence of the most top and most terrifying assassin organization in the world, the blood-clad yellow spring sect, was self-evident. Even big shots like He Dan TOU and the Tie Yi sect were terrified by it. They did not want to provoke such a powerful enemy for no reason.

No one had expected that their attack on Lin Yi's men today would draw the people of yellow spring sect out. It seemed that they were going to interfere with the battle. They didn't come with good intentions!

The sudden appearance of the experts of yellow spring sect startled both sides of the chaotic battle. They stopped their movements unconsciously, wanting to see what their stance was.

Seeing that everyone's eyes were on him, the blood-robed elder smiled darkly and said in a deep voice, "I've come here today to announce a piece of news. Before young master Lin Yi left, he entrusted a task to my blood-clad yellow spring sect. From today on, all his women and subordinates will be under the protection of my sect. Whoever dares to touch them will be the enemy of my sect!"

Hiss! Upon hearing this, He Dan and the others couldn't help but gasp. They looked at the experts of yellow spring sect as if they had seen a ghost.

Are you F * cking crazy? An assassin group didn't go out to kill people, but suddenly came to protect Lin Yi's woman and follower. What the hell was wrong with them? What was wrong with them?

Bullet head and the others were still in shock, but the men from the iron cloak sect were on the verge of tears when they heard the blood-robed patriarch's words. They almost knelt down in front of everyone.

To the few of them, today's encounter was simply bitter tears.

First, they were shocked by song Lingshan's group of six. They had been waiting For a Few Bullets to appear, and then three Sky Class full Masters jumped out. Now, they had just found a chance to break out of this situation, and the bloody-clothed yellow spring sect jumped out. How could they let them live?!

On the other hand, Lingshan and the others were overjoyed. They didn't think that Lin Yi would have someone like this as backup. He could even take care of the blood-clad yellow spring sect and make it their bodyguard. It was unbelievable.

They didn't know that the appearance of the blood-clad yellow spring sect wasn't Lin Yi's order at all. They had come to help after sensing the movements of He dan TOU and the others.

They were already evenly matched, but now, with the addition of the fiends from the blood-clad yellow spring sect, He dan TOU and the people from tie Yi sect were in a difficult position. If the battle continued, they would all be buried here.

"What do you think, President he? if you still want to fight, I'm more than happy to keep you company." The blood-robed patriarch stared at bullet head he and sneered.

As an ancestor-level figure in the world of assassins, even if they were of the same cultivation level, he was a monster that would make people fear him. Ordinary people would not dare to fight him.

That was because his attacks were basically all moves that could kill instantly. Even if they were all at the consummate level, it was very likely that they would fall for it!

Under everyone's watchful eyes, bullet head took a long time before he finally said, ""You win, just wait and see in the future!"

With that, He dan TOU led the crowd and ran away, afraid that the people from blood robes yellow spring sect and song Lingshan would continue to attack at all costs. It would be difficult to escape unscathed then.

As for tie Yi sect's tie Yi Grandmaster and the others, they were so scared that they scrambled to escape, not daring to stay for another moment.

After this battle, Lin Yi's men were sure to become famous-a dozen Sky Class full Masters ... Even ancient sects didn't have this much!

Moreover, they had the help of the fiendish blood-clad netherworld sect. Those who dared to provoke them were simply courting death. Didn't they see that even the other party's warhead could only be defeated dejectedly?

However, bullet head he was never someone who would swallow his own spit after suffering a loss. This time, he had suffered such a big loss, so it was simply a fool's dream to ask him to stop.

If Lin Yi was still in the common world, he wouldn't be able to win, but he wasn't here anymore, and he was being bullied by his follower. That was unacceptable!

After escaping from Eastern Sea city in a sorry state, bullet head he suddenly stopped in his tracks and looked at the people from the iron cloak sect, "Everyone, we've lost so much face today. If we don't quickly get back at them, we'll become the laughingstock of all the cultivators in the world in a few days. You won't just swallow this, will you?"

Tie Yi and the others looked at each other and said with an awkward expression, "President he, so what if you can't take this lying down? the situation is better than the person."

If it was just people like song Lingshan, nine Sky Class Masters jumping out of nowhere would have scared them crazy, but to say that they were afraid of them would be too ridiculous.

However, in their eyes, these people were just inexperienced brats. Even if they had a lot of people, it was not impossible to deal with them. If they worked together with He dan and the others, they actually had a high chance of winning.

However, the crux of the problem was that the blood-clad yellow spring sect had suddenly intervened without any warning. The few old ancestors had turned out in full strength. Even these experienced old experts were frightened when faced with this kind of ferocious and ancestral-level monster.

In their eyes, people like song Lingshan were just paper tigers without fangs. They looked strong on the surface, but there was nothing to fear. However, the people from yellow spring sect were different. They were all fiends who had experienced hundreds of battles and killed people without blinking.

If the two groups of people were separated, it would not be difficult to deal with them even with the combined strength of the iron cloak sect and the dan TOU. However, these two groups of people were now united. Not only did they give the Tiger sharp fangs, but they also gave it wings. How could they fight against them?
