

## Bodyguard 3911

### Chapter 3911

They were all smart people at their age, so it was clear at a glance what to choose between venting their anger and saving their lives.

Bullet head he sneered in disdain, ""No wonder your iron cloak sect was destroyed by Lin Yi. You've suffered so much, and yet you don't even dare to make a sound. A turtle sect is more like it!"

"What did you just say? President he, don't go too far!" Tie Yi's and the others "faces turned red-they were all experienced Sky Class full cultivation Masters, after all, and being ridiculed and humiliated like this-even if they knew what was good for them, they couldn't just take it lying down-they weren't Ninja Turtles.

"I'm sorry, I shouldn't have said that. " He dan TOU laughed as if nothing had happened, then suddenly said seriously, ""Guys, if I could get a few more reinforcements, would you still want to retreat?"

"Reinforcements? How many?" Tie Yi and the others suppressed the unhappiness in their hearts and perked up.

"I can't say for sure, but three Sky Class full Masters is a piece of cake." Bullet head he said, pretending to be profound.

He wasn't lying-Central's Foundation was shocking, and it wouldn't be hard for them to find three more Sky Class full Masters.

Tie Yi and the others "eyes lit up-they already had eight Sky Class full Masters here, and if bullet head could get three more, they would have eleven in total, more than enough to deal with Lin Yi's men!

"Also, you've heard of the dark horse gang, right? they're Lin Yi's enemies as well. If you talk to them, I'm sure they won't let go of this great opportunity to take revenge." Bullet head he threw out another bait.

One should know that Lin Yi only had nine Sky Class complete Masters under him. Even if the blood-clad yellow spring sect interfered, the eleven of them could barely handle it. As long as they could find a way to kill a few weaker guys first, they would have a good chance of winning.

And if he could call on the experts of the Black Horse, then the battle of revenge would definitely be in the bag!

One should know that the Black Horse Association was a sect similar to the blood-clad yellow spring sect. Both of them had rich combat experience. If the two of them were to restrain each other, they would have a 90% chance of winning!

"That's good. As long as President he can call for more people, the few of us don't mind risking our lives to accompany the gentleman and risk our lives to fight a bloody battle!" Tie Yi and the others immediately said in a righteous tone.

They wanted to admit defeat just now because they were forced by the situation. Now that they had the opportunity to take revenge, how could they be willing to be Ninja Turtles?

Even if they were afraid of the old ancestors, they were not easy to deal with. As long as they were not at a disadvantage in numbers, they had at least an 80% chance of killing Lin Yi's underlings who had levels but no actual combat experience!

"That's good. Let's find a place to rest for a while and wait for this President to call people over." He dan TOU laughed. This time, he was going to get rid of Lin Yi's underlings.

Just as the storm was brewing in Donghai city, an uninvited guest came to the peaceful West Star Mountain village. He held a photo in his hand-it was a photo of Lin Yi and Lin Dongfang.

Sensing the person behind him, Lin Dongfang, who was tending to his flowers, suddenly stopped. Then, he heard a bitter voice behind him. ""You're already an old man. Even if you can't leave the village, can't you get someone to send me a message?"

Lin Dongfang turned around and looked at the person's appearance. He couldn't help but say in shock, ""Little ... Little Qing!"

Time seemed to freeze at this moment. The two of them looked at each other for a long time without speaking, and this uninvited guest was aunt Qing.

Back then, Lin Dongfang and Qing had gotten to know each other in the Ice Palace, and Qing had fallen in love with him at first sight. However, Lin Dongfang couldn't stay in the Ice Palace due to his own special circumstances, and so he could only reject her. He told her that he was going on a long mission, and that he didn't want to spend time with her, but just wanted to forget her.

Many years had passed in the blink of an eye. Aunt Qing was in the Ice Palace, but she couldn't stop thinking about the man she had dreamed of all those years ago. She had asked around, used all sorts of methods, and never let go of any chance to find Lin Dongfang. However, she was disappointed again and again, and never heard from him.

It wasn't until she saw the photo of Lin Yi and Lin Dongfang that she finally found out about Lin Dongfang's whereabouts, and so she came without hesitation.

The two looked at each other for a long time. Aunt Qing's face was full of tears, and so was Lin Dongfang's old eyes. The originally calm state of mind was once again stirred by aunt Qing's appearance.

In the end, a thousand words were condensed into a single sentence. Lin Dongfang smiled, ""You're here. "

"I'm coming. " Aunt Qing nodded heavily and stepped forward to hold Lin Dongfang's hand. There were no mushy words of love between her and Lin Dongfang. They no longer needed such things.

Although they had not seen each other for many years, there was no sense of unfamiliarity between the two of them now that they were reunited. Instead, they were like an old couple who had lived together for decades, tacit and harmonious.

It gave off the feeling that aunt Qing had been the mistress of the house all these years. Now, she was just going out for a walk and coming back to do the laundry and cook for Lin Dongfang. Everything was so natural and normal.

"Lin Yi went to Sky Class Island, and I heard that his inheritors' wives are all unconscious. As a Grandpa, aren't you going to care about them?" After a few warm days of being isolated from the world, aunt Qing suddenly asked.

After a few days, she had truly become the female owner of the house. She and Lin Dongfang were like a couple of old people who only had each other to rely on. This feeling of growing old together made her intoxicated, but she could not forget about the outside world just like that.

It was different from the isolated West Star Mountain village. Before coming here, aunt Qing had always heard about the things that happened in the cultivation world.

Now that Lin Yi had gone to Sky Class Island, and his girlfriends were all unconscious, aunt Qing couldn't help but worry. He had a lot of people protecting him, but he had enemies on all sides, after all. Even if he had a lot of people under him, he could still get into trouble.

When Lin Dongfang heard this, he reached out to stroke aunt Chao Qing's hair and smiled gently, "Actually, after living in seclusion here for so many years, I've long wanted to go out and have a good walk, especially since this kid has made such a big name for himself and caused so many love debts. Do you really think I don't care at all? the problem is that the divine vigor Gu in my body is in conflict and can't leave the spiritual spring water here."

"But, aren't you Sky Class full completion now? didn't you say that the Qi in your body can replace the spring water?" Aunt Qing couldn't help but ask.

Chapter 3912 Special Part 8 Of The Secular World

She'd brought the last Qi gathering pill Lin Yi had made in the Ice Palace with her, and Lin Dongfang had also reached Sky Class full phase without any problems after taking it.

Lin Dongfang shook his head with a bitter smile, "I thought I could, but now I realize that it still won't work. The peak of heaven class can only suppress the king Kong armor and the Hercules armor for a while, but without the spring water, the problem will still occur after seven days."

If even the completion of the Sky Class couldn't do it, then he could only place his hopes on the way of heaven to cure this problem. However, Lin Dongfang was trapped in the West Star Village and couldn't get out. It wasn't easy to reach the realm of the way of heaven on his own.

"This ..." Aunt Qing hesitated for a moment before finally saying, ""On my way here, I heard some rumors that a large number of top-tier Masters have gathered in Donghai city recently, and it seems like they're going to harm Lin Yi's girlfriends and men,"

She'd thought that after Lin Dongfang reached Sky Class full cultivation, he'd be able to solve the problem of not being able to leave the village, and then it wouldn't be too late for her to show up. But now, things were a little tricky.

"There's such a thing?" Lin Dongfang frowned and suddenly stood up. ""Let's not waste any time. Let's go to the East China Sea now. "

"But, aren't you not allowed to leave the village?" Aunt Qing couldn't help but be surprised.

"As long as I can get back in seven days, it'll be fine. This little bit of time is enough to solve the problem." Lin Dongfang smiled confidently.

At the same time, the eastern sea city was already filled with heroes. He dan TOU and the people from the iron cloak sect had successfully arrived at the center of the city with the three Sky Class Masters in the great circle.

In addition, under the temptation of warhead, the Masters of the Black Horse gang also came to help, and their morale rose greatly.

If they only relied on He dan TOU and the people from iron cloak sect to deal with Lin Yi's men and the experts from blood cloak yellow spring sect, they only had a slight chance of winning. Now that the dark horse Association had joined the Alliance, this matter was set in stone.

He dan TOU had seven Sky Class full Masters, four Sky Class full Masters from the iron cloak sect, and the Black Horse gang. With such a huge force, in the era of the houtian Island Plan, not to mention a small city like Donghai city, it was more than enough to conquer the world.

They gathered their men and made a comeback, and he dan TOU led the Masters to attack, vowing to take down all of Lin Yi's men in one fell swoop and avenge their humiliation!

In the eyes of He dan TOU and the others, today's battle was a battle to hold their heads up high. They wanted to shock the world and let the world's cultivators see their powerful strength. Therefore, they did not hide anything from the beginning to the end. As soon as the battle began, they set up a crushing formation.

The news was sent back to Lin Yi's Villa immediately. Not only were song Lingshan and the others gathered there, but even the old ancestors of the blood-clad yellow spring sect were there.

Looking at He dan TOU and the others approaching menacingly, everyone present could not help but look nervous. Even the blood-robed patriarch and the others had a serious expression on their faces as if they were facing a great enemy.

"What do we do?" In the end, it was Lingshan who asked the question on behalf of everyone.

To be honest, with everyone's strength and the blood-robed patriarch's group, they had a chance of winning even if they went up against warhead he and the others.

However, everyone also understood that if they were to fight to the death, more than half of the people present would become cold corpses after the battle, regardless of the outcome. This was an inevitable thing.

Having said that, in the face of such a situation, it was not necessary for everyone to fight to the death. After all, their mission was only to protect the unconscious women. They did not have to fight to the death with these people.

Knowing that they might die, and knowing that there was no need to, choosing to retreat at this time was actually a wise move. It was not embarrassing at all.

Everyone's eyes fell on the blood-robed elder and the others. They weren't Lin Yi's men, but they were his allies. In terms of experience, they had far more than the younger generation.

However, the blood-robed elder shook his head and said, ""The duty of our sect is only to protect you. As for whether you want to fight or not, it's up to you."

They called themselves Lin Yi's lackeys, but they were still outsiders to the people here, and they didn't have a good reputation. If they spoke out now, it'd cause internal conflict, so they might as well keep their mouths shut.

At this time, Feng Tianlong suddenly opened his mouth, ""My suggestion is to fight."

"I agree," Yutian said.

After that, Yu Bing, Chentian, qikun, qijiu, Zhishan, Zhihai, and the others all nodded as well, deciding to fight to the death.

Everyone was afraid of death. However, for cultivators like them, there were some things that were more important than death.

If they backed down today, they would indeed be able to avoid this disaster without any danger. However, it would leave a psychological shadow in their hearts for the rest of their lives, and they would never be able to raise their heads in front of He dan and the others.

If people like he dan TOU didn't even dare to face him, then how could they still talk about pursuing the heavenly Dao!

"Alright, then we'll wait for them to come." Lingshan said after taking a deep breath.

In fact, if they really wanted to fight to the end, they could call more people-don't forget, Cheng Yiyi, Xu Shihan, and the others were all Sky Class full Masters now, they could help.

However, these people were also responsible for protecting the unconscious girls. Moreover, most of these people were girls and their combat ability was not strong. No one present wanted them to be involved.

In a war, let women go. This was the most basic awareness of a man.

In fact, Chentian and the others had been trying to persuade Lingshan to leave with them, but Lingshan insisted on staying. No one could talk her out of it, so they had no choice but to give up.

Half an hour later, He dan returned with a group of experts.

Seeing that everyone was on their guard, bullet head he laughed without restraint,""You actually dared to stay here and wait for us to come. I don't know if I should praise you for your courage or if your brains are broken. You guys aren't so naive as to think that you can escape this time, are you?"

"F \* ck, I don't know who escaped last time, but he's really boasting, President he! Last time, I was merciful and let you go. Now, you actually dare to come back. I don't know who gave you such courage and boldness!" Feng Tianlong replied with a cold smile.

He dan TOU's face stiffened. The last time he was forced to retreat was extremely embarrassing. Now that he mentioned it, it was simply exposing his scars!

Chapter 3913

He immediately snorted coldly. "You have a sharp tongue, but this is the only time you can show off your sharp tongue. Hmph, kill them all, leave no one alive!"

Under his command, the people from both sides, who had been waiting for a long time, immediately started to fight.

In an instant, the wind and clouds surged, and the sky changed color.

Twenty Sky Class Masters at full strength on both sides-such a spectacular scene was unheard of in the mortal world, especially in the era of the Sky Class Island Plan where there were very few Masters. Today's battle was destined to shake the world.

As time went by, Lingshan and the others fought with all their might, and even with the help of the old ancestors, their lack of combat experience was once again exposed.

Wu Chengtian, Yu Bing, and the others were all injured, and the scales of victory were slowly tilting in bullet head's favor.

This was something both sides had expected. In fact, the moment they decided to fight to the death, Lingshan and the others had already prepared themselves for it.

However, even if he was going to die, he would have to drag a few people down with him first!

When a person was willing to risk their life, their potential would be unlimitedly dug out, especially when the person was a Sky Class full master.

Looking at Chentian and the others getting injured one by one, bullet head and the others were still feeling proud of themselves, but then they realized that something wasn't right-these people were fighting like they didn't care about their lives anymore!

F \* ck! What the f \* ck was wrong with these people's brains? they had no grudges against each other, why would they risk their lives like idiots just because of Lin Yi's order? were they all brainwashed?!

He dan TOU couldn't help but want to curse out loud. Although they had the advantage right now, and if nothing unexpected happened, they would win big in the end, but Wu Chengtian and his men were fighting with their lives on the line. Even if they could have the last laugh, they would have to pay a heavy price.

This price, if he didn't handle it well, he might even be dragged down with him.

"Tsk, do you think you can win by going all out? what a whimsical idea. You're making people laugh their heads off!" He dan TOU sneered. If they were talking about risking their lives and not being afraid of death, who could compare to the few biochemical experts he had brought?

With a slight signal from his eyes, a few of the Bio-Masters understood immediately. Two of them blocked Chentian and Yu Bing's killing moves despite their heavy injuries, while bullet head and the others around them were waiting for an opportunity to kill!

However, at this moment, bullet he's eyelids suddenly twitched and his heart trembled.

A man, an ordinary-looking old man, without any true Qi fluctuations on his body, and without the aura of an expert, appeared in the middle of the battlefield without any warning.

"It's been too long since I've fought with anyone. My old bones are about to rust." The old man smiled in a self-deprecating manner.

After saying that, the old man threw a simple punch at the empty space beside him. It seemed that he was not aiming at any target at all and was just stretching his hands and feet in the air.

BOOM! BOOM! BOOM!

In an instant, there were three consecutive sounds. Bullet head he's eyes suddenly widened and his jaw fell off in shock. His mind was in a daze and he could not come back to his senses for a long time.

With this action, the three biochemical experts he brought with him all had their chests pierced through and became three lifeless corpses!

"It's alright. It doesn't seem like I've regressed much. " Looking at the three biochemical experts 'miserable deaths, the old man nodded calmly.

The destructive scene of doomsday on the battlefield suddenly quieted down because of the old man's appearance. Everyone stopped and looked at the old man with respect and fear.

Casually killing three Sky Class full circle biochemical Masters with one move-what kind of strength was this? F \* ck, could this old man be a Super Master from the Sky Class Island?

All of a sudden, patriarch blood-robed and the others knelt down in front of the crowd and kowtowed. They said in unison,"Xue Yi, Huang Quan, Yin Sen, greets master!"

The crowd looked at each other in shock. This old man was the master of the blood-clad yellow spring sect's old ancestors?

Before he nutou and the others could react from their shock, the leaders of the Black Horse gang had already knelt on the ground, each of them trembling as if they were walking on thin ice."L-hero Lin, please spare me!"

Great hero Lin? Who was this? Could she be Lin Yi's elder?

He dan TOU and the others were even more confused. They looked at the people from the Black Horse gang in a daze. These people were on their side. What was the meaning of all of them kneeling down to this old man?

Seeing that bullet head he was about to fly into a rage, the leader of the dark horse gang, who was kneeling on the ground, quickly and secretly gave him a look and mouthed three words: Lin Dongfang.

F \* ck! After understanding what the man meant, everyone's mind went blank. This old man was one of the Vajra duo demons, Lin Dongfang?

Everyone present was a veteran master with a lot of experience. Who didn't know the awe-inspiring reputation of the dual fiends of Jin Gang? even if they hadn't seen it with their own eyes, they had at least heard of it.

These two were god-like existences in the world of cultivation. Who would dare to provoke them?

Even someone as bold as He dan TOU was scared out of his wits after hearing Lin Dongfang's name. His legs turned to jelly and he almost peed his pants.

"Hehe, it seems that you still recognize me. That's really rare. However, since you dared to attack my nephew's men, you should be prepared to pay the price." Lin Dongfang smiled faintly.

Back then, the Black Horse gang's President, Qian Boguang, had died under his fist. It wasn't strange that these experts of the Black Horse gang could recognize him.

Damn, it really is! Bullet he and the others felt their scalps go numb again. They were still hoping that the dark horse gang had made a mistake, but now, even Lin Dongfang himself had admitted it!

More importantly, Lin Dongfang's words implied that Lin Yi was his nephew? This news was like a F \* cking bolt out of the blue!

Just thinking about how he was going against Lin Dongfang's nephew, this kind of life-risking thing, just thinking about it made his heart jump!

Hearing Lin Dongfang's words, bullet head and the others, who had been showing off just a moment ago, did not even have the thought of resisting.

A person's reputation was like a tree's shadow. The fierce reputation of the dual fiends of King Kong was built on the lives of countless Masters. Masters at Lin Dongfang's level could not be judged with common sense.

Even the slightest bit of underestimation would have put them in the same situation as these three Sky Class Masters. They might all be high and mighty, but if Lin Dongfang wanted to kill them, it would be no different from killing chickens.

Seeing Lin Dongfang's indifferent gaze, bullet head suddenly shouted, ""Run!"

Before he could finish his sentence, he had already moved a hundred meters away. The rest of the people who were too scared to move suddenly reacted. Before Lin Dongfang could make a move, they all scattered and fled in all directions.

If they waited until Lin Dongfang really wanted to kill them, it would be almost impossible for them to escape.

Lin Dongfang had no intention of chasing after them as he watched them escape. Firstly, these people had scattered in different directions, so it was impossible to catch up to them all. Secondly, he had lived in seclusion in West Star Village for so many years that his state of mind had long returned to its original state. Under normal circumstances, he would rarely have the intention to kill.

In an instant, He dan TOU and his men had already escaped without a trace, leaving behind only three corpses.

Lingshan and the others were dumbfounded by what they saw.

So many of them had risked their lives to fight against a strong enemy, but this old man's simple words had actually scared the enemy away. This was too exaggerated and too unreal!

The name "dual fiends" was well known to famous masters like he dan TOU, but to song Lingshan and the others, it was too distant.

But no matter how far they were, they could tell from the way He dan and the others were running that this ordinary old man wasn't just Lin Yi's boss's grandfather-he was an earth-shattering figure.

Lin Dongfang glanced at the dumbfounded crowd and smiled. "If there's nothing else, you're welcome to stay at West Star Mountain village for a while. What do you think?"

Chapter 3914 The Dangerous Tentacles

In theory, no one would be able to react in such a short time from such a long distance-at least among the opponents Lin Yi had encountered so far, including Nan tianyong, a peak late Foundation Stage master who he killed with a super energy bomb, none of them could do this.

"Woof! It's indeed a place where even Jindan experts can lose their lives. Although we still don't know the true face of this guy down there, it's indeed very troublesome!" Lin Yi's heart skipped a beat as he watched the red Tentacle come for him.

He was in mid-air at the moment and could not change his speed or direction. He was at his weakest. If he was caught by the Scarlet tentacle or even swept into Half Moon Lake, then with his strength, there would only be one end-death.

However, Lin Yi didn't let his guard down at all. He was prepared for this. He had been observing the movements of the giant spirit beast at the bottom of the lake for two hours and didn't waste time. He was gathering power and preparing a powerful trump card.

In the nick of time, the Super true Qi bomb that had been condensed for a long time was immediately thrown out and smashed down on his head.

BOOM! After a dull thud, the surface of the lake calmed down. Even Lin Yi couldn't close his mouth when he saw what was happening under his feet.

Last time, when he used the Super true energy bomb to deal with Nan tianyong, the commotion had shocked the entire market. He thought that it would have the same effect this time, but he didn't expect that when the Super true energy bomb landed on the red Tentacle, the effect was like a stone being thrown into a pond. It only caused a slight tremor on the surface of Half Moon Lake and nothing more.

What shocked Lin Yi even more was the fact that the tentacle had been hit by his super energy bomb, but it only slowed down a little. There wasn't even a scratch on it, and it was still red and smooth, alive and kicking.

What a terrifying thing! Lin Yi's heart was filled with fear. An existence that even the Super energy bomb couldn't deal with was far beyond his ability. Any thoughts of fighting with it were suicide. He was lucky to be able to return alive.

But the Super energy bomb wasn't completely useless-at least it blocked the tentacle's attack, and Lin Yi used this chance to get to the trunk of the tree.

But it wasn't time to relax yet-the red Tentacle was extremely long, and with Lin Yi's current position at the edge of the tree, he could be pulled down at any moment. He didn't have any super energy bombs to rely on this time.

After Lin Yi stepped on the branch, he didn't hesitate to jump up. In order to get rid of the red tentacles, he even used his pure Qi jet technique, raising his speed to the maximum.

Lin Yi couldn't be bothered to check if there were any other unknown dangers at the top of the tree. The only thing he needed to do now was to get away from the red Tentacle below. If he couldn't do it in time, with the speed the tentacle showed just now, he would be in big trouble.

The tentacle had been watching Lin Yi from below as he was trying to get up. It would strike at the slightest chance and kill him in one blow.

Fortunately, Lin Yi was decisive enough. When he was twenty meters away from the surface of the lake, the red Tentacle resentfully retracted back into the lake. As the last ripple disappeared, the lake returned to its previous peace, and the strange tentacle seemed to have never appeared.

"Phew! Worthy of being this young lady's little Junior Brother, his strength is much stronger than this Senior Sister. It seems that I have to cultivate properly after returning, I can't be left behind by Little Junior Brother too much!" Shangguan LAN 'er, who was watching the battle from behind the tree, heaved a sigh of relief, ""Isn't that right, little white!"

The little Curly Bear also nodded.

The scene just now was extremely short, but even a miss like Shangguan LAN 'er could see the danger. If it were any other peak early Foundation Stage or even mid Foundation Stage master, they'd probably be dead already, not able to escape unscathed like Lin Yi.

However, Lin Yi himself was not as relaxed as Shangguan LAN 'er thought. At this moment, he was standing on the top of the fir tree, and his whole body was soaked in cold sweat in the blink of an eye.

Facing this blood red Tentacle, he felt like his life could be taken away at any moment. It was like facing the god of death. It had been a long time since Lin Yi had felt this kind of fear.

"What the hell is this guy? just a tentacle is already so abnormal. If he really comes at me, how can I live?" Lin Yi couldn't help but ask.

Even if they had never seen the true face of Mount Lu, judging from the huge black shadow at the bottom of the lake, this mere tentacle could not be its full strength. It might just be a small trick used to kill its prey.

If a tentacle could withstand the power of a super Zhen Qi bomb without being injured, then the strength of the original body was even more unimaginable. No wonder it could kill a powerful master of the Golden core stage. It was really not a small matter.

"Forget it. Since we're already here, let's think of a way to find the thing first." Lin Yi shook his head, putting the giant spirit beast at the bottom of the lake to the back of his mind. It didn't seem like it would come up easily, and he didn't have to worry about its threat in the fir tree.

However, even though that step was extremely dangerous, Lin Yi didn't think that it was complete after reaching the fir tree. According to the logic of the closer one got to the treasure, the more dangerous it was. This was the real fatal moment.

Treasures of heaven and earth were often guarded by powerful spiritual beasts. The unknown behemoth under the lake was already an out-and-out terrifying monster. However, it could not climb trees, and it could not really get close to the heart of the giant fir tree. This was its natural disadvantage.

According to Shangguan LAN 'er, this giant fir tree had existed for at least thousands of years. It was said that it had already existed when Banyue Lake was discovered, and its most valuable treasure was in the hollow of its tree heart.

As far as Lin Yi was concerned, other than the unknown beast at the bottom of the lake, there was a high possibility that there was another guardian spirit beast hidden in the tree hole. Even if it wasn't as strong as the one at the bottom of the lake, it couldn't be weak since it was its neighbor.

After carefully observing for a while, Lin Yi found an entrance at the top of the tree, leading to the hole below.

#### Chapter 3915 Thousand-Year Tree Crystal

Taking a deep breath, Lin Yi was on guard as he jumped down. He realized that something was wrong- this tree hole was unusually deep!

He'd noticed from the outside that the tree was only fifty to sixty meters tall- it was a unique one in the area, but from the way Lin Yi jumped, it felt like he'd jumped at least a hundred meters- a hundred and fifty meters.

If Lin Yi hadn't stepped on the wall to slow down in time, he'd probably have suffered internal injuries from falling from such a height.

BOOM! Lin Yi landed on the ground with a loud thud, kicking up a cloud of dust. The bottom of the cave was unexpectedly dry.

The visible area was empty. Because the cave walls and the bottom cloth were infested with fluorescent microorganisms like the Half Moon Lake outside, it was like a spirit jade mine inlaid with fluorite. The visibility was quite high.

However, this made Lin Yi even more alert.

Unsurprisingly, he was now at the bottom of the lake, which meant that the giant fir tree did not grow above the lake like the ones they had seen before, but from the bottom of the lake. What they had seen outside was only a small part of the top of the giant fir tree.

There were at least a hundred meters of tree trunks under the water, piercing from the bottom of the lake to the surface. Lin Yi had seen many strange creatures, but he'd never heard of something like this.

It was indeed an ancient tree that had existed since the Half Moon Lake was discovered. It was thousands or even tens of thousands of years old. If it was a spirit beast or something, it would have been a powerful and invincible existence. Unfortunately, it was just a tree.

Lin Yi was about to take a good look inside the empty tree hole when he heard a voice that sent shivers down his spine.

"It's been a long time since I've seen a living person. It's been three whole years. I've Been Lonely for So Long and finally found one. I can finally be happy today." The voice came from all directions of the tree hole, and it was unclear if it was male or female, but it was laughing evilly.

Lin Yi's muscles tensed up, but he didn't show it on his face. "Who are you?"

"Who am I?" The voice paused for a moment, and then seemed to be a little distressed. "I've been thinking about this question for a long time, but I can't figure it out. Forget it, let's not think about such an annoying question. It's a rare opportunity, so let's play a game first. "

"What game?" Lin Yi's heart jumped.

"First of all, you're here to find the thousand-year tree crystal, right?" The voice suddenly asked.

"Not bad." Lin Yi nodded. The thousand year tree crystal was the core material that Shangguan LAN 'er was going to use for her forging, and it was also their main purpose here.

According to historical records, a thousand-year tree crystal was an extremely rare heavenly treasure. Only a very small number of tree species with extremely high spiritual Qi could condense it after thousands of years of longevity. It was a priceless treasure that truly gathered the essence of the sun and moon.

Even though there were countless treasures in the back mountain, the places where a thousand-year-old tree crystal could be found were few and far between. The only place in the outer area of the back mountain was the Half Moon Lake, which showed how rare the thousand-year-old tree crystal was.

In fact, after hearing this news, not only for Shangguan LAN 'er, but also for himself, Lin Yi had to take this risk, because the thousand-year tree crystal had a very rare use, and that was to increase the grade of the weapon during the process of forging!

Ever since he'd come to Sky Class Island, Lin Yi and the other newbies hadn't used any weapons at all—they'd been in the welcome Pavilion all this time, and it was strictly prohibited. If they did use weapons in battle, a bunch of them would die in the challenge alone.

Secondly, a heaven-grade weapon couldn't withstand the true Qi of a Foundation establishment cultivator, and it would be destroyed if true Qi was injected into it.

Lin Yi's steel staff had never been seen before, and he didn't have any use for it yet, so he didn't think about upgrading it.

Even after meeting the king of junk in the market, Lin Yi didn't rush into it. After all, he had to cultivate the heart-devouring exquisite grass to make the foundation-stage golden elixir while dealing with the newbie assessment. He also had to be on guard against the people from southern sky Gate. Lin Yi hadn't been idle during this time.

But since he'd run into it, Lin Yi wouldn't let this chance go. No matter what, he'd need a weapon when he fought in the future, and if the steel staff was only sky Class, it wouldn't be enough. Upgrading it was imperative.

Under normal circumstances, once a weapon was cast, it meant that it had already been shaped, and there was no possibility of changing it, unless it was destroyed and remade. However, in that case, only some main materials could be extracted, such as steel, Dark Iron, and so on. Most of the supplementary materials would be wasted!

However, the thousand year tree crystal was an exception. Not only could it increase the weapon's grade during casting, but it could also give a weapon that had already been shaped a chance to advance.

It was only once, but it was already very rare.

So, whether it was for Shangguan LAN 'er or for himself, Lin Yi was determined to get the thousand year tree crystal.

The ghost-like voice sounded again, "If you can win the next game, I can give you a 1000-year tree crystal."

"Two!" Lin Yi said without even raising his head.

He didn't know who it was, but from the tone and the words it said, it should be a powerful spirit beast hiding here. It might be The Guardian spirit beast that Lin Yi was talking about, but it couldn't leave for some reason, and said something like "lonely."

Since the other party wanted to play the game, it meant that they didn't have any intention of fighting him to the death. Lin Yi knew that with his current strength, the chances of winning against this mysterious spirit beast were pitifully low. If he agreed to the game, he might have a chance of success.

However, it wasn't Lin Yi's style to be led around by the nose so easily. Even if he couldn't set the rules, he'd have to get it back from somewhere else.

"Two? Hehe, although he's pitifully weak, he's really a greedy fellow. " The voice laughed strangely for a while, then said, "Fine, fine. You've been lonely for so long. Take it as your reward. If you win, I'll give you two thousand-year tree crystals."

"It's a deal," Lin Yi nodded calmly, but he was shocked inside.

He had just casually mentioned it as a simple test. He didn't think that such a rare heavenly treasure like the thousand-year tree crystal would appear at the same time, but he didn't expect that the other party would really agree.

## Chapter 3916 What A Terrifying Guy

However, this was also good. If he could get his hands on it, not only would he be able to satisfy Shangguan LAN 'er's needs, but he could also keep one for himself, killing two birds with one stone.

"Then, the game begins."

Before he could finish his sentence, the ground started to shake, and to Lin Yi's surprise, the wood that came out from under his feet turned into a human figure-a very familiar human figure.

"What's the meaning of this?" Lin Yi's face turned ugly when he saw the face of the wooden figure-this wooden figure looked exactly like him!

"Although your strength is outrageously weak, you should have fought many enemies before. Then, have you ever fought with yourself?" GUI Mei's voice cackled.

Lin Yi's voice turned cold,"Is this your so-called game? so what if you can imitate my appearance? in the end, it's just for show."

"How would we know if we don't try? As long as you can defeat it, you'll get two thousand-year tree crystals. Hurry up, I can't wait!" GUI Mei's voice was urgent.

Lin Yi hmped coldly. He didn't waste any more time and started attacking the mirror image.

Every master had their own pride and self-respect. Even if they knew that the other person was just a block of wood, they would still feel very uncomfortable when they were copied like this. Lin Yi was no exception.

However, Lin Yi didn't look down on the spirit beast even though it was just a piece of wood. Since it dared to use two thousand-year tree crystals as a bet, this mirror image made of wood couldn't be simple.

In an instant, an unparalleled hot fist intent enveloped the entire tree hole. Lin Yi was like a fire god that had descended, vowing to burn everything in front of him into ashes. Raging fire Fist 23 forms!

"As expected, this giant fir tree is indeed extraordinary." Lin Yi praised internally.

If it were any other tree, the fire would have been unstoppable, even if there was pressure from the lake outside. However, although the tree hole was extremely hot, there was no sign of it burning.

But even so, Lin Yi believed that this wooden mirror image's biggest weakness was still fire attacks like the wild fire Fist. Fire countered wood, this was an unchanging truth.

BOOM! The wild fire Fist hit the wooden mirror image's face directly, smashing it dozens of feet away. It only stopped when it was deeply embedded in the cave wall, causing a loud bang.

"Oh, it seems like I should take back my previous comment. Although your strength is pitifully weak, your potential is not bad. Interesting." GUI Mei's voice laughed strangely as he praised.

Before he could finish, Lin Yi frowned as the wooden mirror walked out of the cave, shaking its shoulders. Other than a few burns on its body, Lin Yi didn't see any life-threatening injuries.

Not only that, but even the burning property of the 23 styles of wild fire Fist didn't appear on his body. It must be known that even a mid-Foundation Stage master like Yu Zhe was helpless against this property.

Was this thing really made of wood? Lin Yi looked at the mirror puppet and couldn't help but feel that it was unbelievable and absurd. The 23 forms of wild fire Fist hit a puppet, but it didn't burn to ashes. Instead, it seemed to be more energetic.

Not only that, but after being bombarded by the wild fire Fist, it seemed to have been injected with some kind of vitality, and its body actually emitted a powerful aura no different from a real person.

"Eh? This aura?" Lin Yi's eyelids twitched as he saw the mirror puppet flying towards him. Its right fist was burning with a fiery fist intent.

This burning fist intent was exactly the same as Lin Yi's twenty-third style of the wild fire Fist!

BOOM! The mirror puppet punched the ground, leaving a deep burnt hole. From the power, it seemed to be even stronger than Lin Yi's original version of the 23rd Style of the wild fire Fist. If Lin Yi didn't Dodge in time, he would be seriously injured.

Lin Yi's fear grew even stronger-who was this guy, to be able to imitate this?

Any martial technique required constant practice before it could be successfully cultivated. Even the most talented genius could only shorten this time, but could not skip it.

However, the other party had directly imitated it in front of him. This ability was simply heaven-defying to the point that it made one's hair stand on end.

What was even more exaggerated was that, according to Lin Yi's speculation, this mirror puppet wasn't even the real person. It was just a toy that was made up at the last minute.

If a toy was already so freakish, how terrifying would this guy's actual body be?

Strictly speaking, it was even more terrifying than the unknown monster that was roaming in the Half Moon Lake. It was likely that only this monster could make a powerful golden core stage master fall here.

"How is it? Challenging yourself is a compulsory course for every cultivator. Humans like to boast shamelessly. Now, facing the other you, let's see what kind of answer you can give. " GUI Mei's voice was cruel.

"Interesting." Lin Yi looked at the mirror puppet that looked exactly like him and laughed coldly, "It's just an imitation puppet, yet you dare to claim to be another me. Don't you think that you're too arrogant?"

"Is that so? I can't wait to see such a good show as long as you pay the price of two thousand-year tree crystals. Anyway, if you die, I won't even have to pay this price. "

"Hehe, then open your eyes wide and take a good look." Lin Yi smiled faintly.

Now that things had developed to this point, the initial shock had been gradually suppressed in his heart. The only thing he had to do now was to defeat this so-called mirror image of himself in front of him.

Lin Yi used his butterfly microsteps to its maximum and his body flickered around the mirror puppet for a while before he attacked. This time, he didn't use any martial arts, just normal but powerful punches and kicks.

Unexpectedly, just as Lin Yi moved, the mirror puppet's body also started to flicker. Its movement technique was the same as Lin Yi 's, but it was even faster and purer.

"He can even master the butterfly microstep. What a terrifying guy." Lin Yi's heart shivered-he'd already expected this after the twenty-three forms of wild fire Fist. He was surprised, but not shocked.

#### Chapter 3917 Miserable Victory

The mirror puppet's ability was obvious. Because of the unknown powerful spirit beast behind it, this mirror puppet should be able to quickly imitate any move. However, there was a premise, that was, he had to use it in front of it. The previous wild fire Fist and the butterfly subtle steps were all the same.

This also proved that this was at most an imitation puppet, and not a mirror image. If it were a mirror image, Lin Yi would've already used his strongest move, the raging fire Eight Trigram palm, against himself.

Bang! Bang! Bang! Bang! Bang! Bang!

After a wave of dense and muffled sounds of fists and feet colliding, accompanied by the mirror puppet's 23rd Style of wild fire Fist, the two figures separated.

"Not bad, not bad. You're the first one to be able to fight with the mirror image to this extent. Because I deliberately raised the strength of the mirror image to a higher level than the main body, many people were one-sided crushed. It's getting more and more interesting." The ghost-like voice praised.

Since the mirror puppet and the main body used the same martial arts and abilities, there was no difference between the two. When the other party's strength increased by a level, even if it was just a little, it would eventually lead to a one-sided crushing situation.

This restraint of the same sex was even more difficult to deal with than the natural restraint of fire against wood. This was because the other party could do the same thing you could do, or even better.

Even if the other party wasn't a real mirror image and was just a created imitation puppet, every time he used a martial art technique, the other party could immediately imitate it, and it was even stronger.

This puppet would continue to grow stronger during the fight. When the main body used all its strength, it would become an invincible existence above the main body.

Lin Yi saw through this a long time ago, which was why he didn't use his trump card like raging fire Eight Trigram palm. If the mirror puppet got hold of his trump card, he would be at a complete disadvantage.

The ghost-like voice saw through Lin Yi's plan and laughed, "Aren't you going to use an even stronger technique? This is a good idea. Out of the ten people who came here, about three of them could think of this, so I have to praise you. However, even among these people, only a few of them succeeded. "

Lin Yi blinked, but the ghost-like voice continued before he could think further, ""Although the thousand-year tree crystal isn't important to me, it's still a rare bargaining chip. If I give it away so easily, I won't have anyone to accompany me to kill my loneliness in the future. So, have you realized this? you're aware that you'll get the thousand-year tree crystal from me!"

"Awareness?" Lin Yi raised an eyebrow and laughed coldly. "You're really a guy who likes to pretend to be profound. The resolution you want to talk about is nothing more than whether I have the confidence to defeat you face to face, right?"

"Hoho, you've even thought of this level? your comprehension ability is really shocking! To be honest, I'm starting to admire you more and more. I hope that your next performance will not disappoint me. " The ghost laughed in a strange voice.

As soon as he finished speaking, the mirror puppet used the butterfly microsteps and charged at Lin Yi with an unprecedented speed.

Lin Yi clenched his fist, his face expressionless. The moment he thought through the mirror puppet's power, he realized that today's battle would be a tough one like never before!

This mirror puppet was better than the main body in all aspects, and the possibility of winning against it was very low. Especially if he used all his trump cards, then there was no chance of winning at all.

The mirror puppet's ability to imitate meant that it was destined to continue to evolve. When the main body used all its strength and it fully mastered the main body's abilities, no one would be its match when facing another person who was superior to it in all aspects.

On the contrary, if he deliberately concealed some of his ultimate abilities and made this mirror puppet a semi-finished product from beginning to end, then he might have a chance of survival.

In Lin Yi's eyes, if his opponent could use the same palm as him, then he wouldn't be able to use it to perfection because it was his limit. Naturally, he wouldn't have the confidence to win against the mirror puppet.

However, if he didn't use the raging fire Eight Trigram palm and used normal fist techniques, Lin Yi would be able to fight against the mirror puppet since he could completely master it.

This was just Lin Yi's guess, and it was the only strategy he could come up with in this short time.

However, this strategy only provided a small possibility, which was to find a crack in the secret room with no blind spots. If he wanted to escape, he still needed the strength to smash this crack. This was the resolve that the ghostly voice had mentioned!

Lin Yi and the mirror puppet clashed with each other like lightning. Other than the 23rd Style of wild fire Fist and butterfly micro steps, he only used the most basic fist techniques.

He'd been training since he was a kid, and Lin Yi's grasp of his skills had reached the peak. He could display his understanding of his fists and legs to the fullest as long as it was within his ability.

On the other hand, although the mirror puppet was also imitating Lin Yi's fighting style, it was only a temporary imitation. Even if its power could exceed Lin Yi's original body by a bit, it couldn't do it as well as Lin Yi.

This was the only flaw of the mirror puppet.

The fight lasted for two hours and ended with Lin Yi using his fists to break the mirror puppet. The price he paid was a left leg, a right arm, three ribs, and countless broken bones all over his body.

It was a bitter victory, but to Lin Yi, it was a huge victory.

This kind of opportunity to fight with oneself was something that could only be encountered by chance in anyone's cultivation career. Not only could they hone their skills in a hearty battle, but more importantly, they could also take the opportunity to have a deeper understanding of themselves.

Only enemies were the creatures that understood oneself the most. When one became their enemy, this understanding would be even more direct and profound. This was an unprecedented perspective, and naturally, there would be unprecedented gains.

Lin Yi, on the other hand, had undergone a complete transformation after the mirror battle. Even he could clearly feel the change in his body.

Lin Yi felt that he was at least 30% stronger than before. When he fought Yu Zhe, who was in the mid-Foundation Stage, he had to use all his tricks to have the last laugh, but if it was him now, he could easily beat his opponent.

#### Chapter 3918 Ten-Thousand-Year Tree Crystal

"In a battle like this, not only did you manage to obtain the final victory, but you also managed to increase your strength by a large margin. You're considered a rare monster among human cultivators. In the past hundred years, only one person has managed to achieve this. Your performance is comparable to that Gongyang Jie. I didn't watch this show in vain." GUI Mei's voice was full of praise.

"Gongyang Jie? He came here before?" Lin Yi's heart jumped.

Even though Gongyang Jie, the master of the law enforcement Hall, had not interacted much with him so far, he had a feeling that he would have to compete with this top figure of the young generation of the three pavilions in the future.

They didn't cross paths now only because Lin Yi's Foundation was still too shallow and his level was too low. He was far from being in Gongyang Jie's eyes.

"Well, this is a rare guy who has left a deep impression on me. I can still remember his name even now. Speaking of which, what's your name?" The ghost-like voice suddenly asked.

"Lin Yi," Lin Yi didn't hide anything, "Can you give me the two thousand-year tree crystals now?"

"Hehe, they're both equally impatient!" The ghost-like voice laughed strangely and said, ""Don't worry, I won't go back on my word for just two thousand year tree crystals. But before that, do you want to play another game?"

"What do you mean?" Lin Yi said with squinted eyes.

"What I mean is, since the opportunity is so rare, wouldn't it be a waste to let you go after only playing a game?" As the ghostly voice sounded, the ground started to move again. Like the mirror puppet before, another human-like puppet came out, but this time it wasn't Lin Yi's mirror image. It had no face or expression.

"Thousand-year tree crystal!" Looking at the two dark green crystals in the hands of the puppet, Lin Yi's eyelids twitched. He'd seen the picture book Shangguan LAN 'er brought him on the way here, and these were the thousand year tree crystals he was looking for.

The faceless puppet weighed the two thousand-year-old tree crystals in its hands, and a ghostly voice sounded from its body. "Let's use these two thousand-year tree crystals as a bet. If you win, I'll give you a treasure that's far more valuable than the thousand-year tree crystals. You can't refuse it. How about it?"

"What treasure?" Lin Yi asked without changing his expression, but he was secretly wondering if this faceless puppet was the real thing.

The faceless puppet laughed and threw the two thousand-year-old tree crystals to the side. He reached out and dug out a piece of charred wood from the heart. "This is it. The 10000-year tree crystal."

Ten-thousand-year tree crystal! Lin Yi's heart skipped a beat when he heard the word.

A thousand-year-old tree crystal was already a very rare heavenly treasure, while a ten-thousand-year-old tree crystal could only be produced by an ancient tree that was at least ten thousand years old!

Ancient trees that could live for such a long time were extremely rare. There were probably only a few species in the world.

The older one was, the more likely they were to be targeted by human cultivators and other powerful spirit beasts because of natural treasures. The number of ancient trees that could live safely for more than ten thousand years was very few, not only in the back mountain, but also in other places. Not to mention, the vast majority of them were unable to produce tree crystals.

The 10,000-year tree crystal was extremely rare. If the piece of charred wood in this guy's hand was really a 10000-year tree crystal, its value would not be lower than that of a star inkstone!

"A thousand-year tree crystal can only give a weapon a chance to upgrade its grade once, but a 10000-year tree crystal can give you at least three chances, or even more. You can get a 10000-year tree crystal by betting two thousand-year tree crystals. If you miss this opportunity, you may not have another one in the future." The faceless puppet held the piece of burnt wood in its hand as it tried to tempt Lin Yi.

To his surprise, Lin Yi didn't even bat an eye. He extended his hand, "Throw the two thousand year tree crystals to me."

"What?" The faceless puppet paused, but it still did not give up. "This is a genuine 10000-year-old tree crystal. Will you really be happy to let it go?"

Lin Yi was still unmoved, "don't you think you're being a little naggy? if you don't want to go back on your word, then give me the two thousand-year-old tree crystals. As for the ten thousand-year-old tree crystal, it's not within my ability. I won't even dream about it."

"Oh? I admire you more and more for being able to remain so calm in the face of the temptation of the 10000-year tree crystal. " The faceless puppet laughed strangely and praised. Then, it suddenly paused and its tone became extremely cold. "What if I say no? what are you going to do?"

"If that's the case, then there's no other way." Lin Yi's face didn't show any signs of panic, as if he'd been prepared for this.

He didn't completely trust this guy from the start-he didn't even know what his real body was. It'd be stupid if he trusted him without any reservations.

"Hehe, you've already accepted reality? That's right, a smart guy like you should have already realized that the rules of this place can only be made by me. Since I made the request, then whether you're willing or not, you can only do as I say in the end, or there's only one end. " The faceless puppet laughed sinisterly.

"If I don't do as you say, I'll be killed by you in the end. It's rare to see a self-talking guy like you." Lin Yi smiled coldly. He could use the Jade space to take the tree crystal, but if he didn't do as this guy said, he'd still die.

"Don't be so mean. You can use two 1000-year tree crystals to fight for a 10000-year tree crystal. If this opportunity were to be given to someone else, it would be a great opportunity! Hurry up and recover, I won't hold back later, I can't wait to start the game!" The puppet had no face, but Lin Yi could clearly feel the sinister smile on its face.

A moment later, Lin Yi seemed to have almost fully recovered. The faceless puppet spoke up, "If you win, you'll get the 10000-year tree crystal. If you lose, you'll have nothing. The game begins!"

The faceless puppet's body flashed and appeared above Lin Yi's head.

So fast! Lin Yi didn't even have time to react before he was hit.

The mirror puppet that Lin Yi had faced before was still at the peak of the early to mid Foundation Stage. Even if it was stronger than this, it was still within Lin Yi's capabilities.

But this faceless puppet in front of him-even if it wasn't the real thing, it was at least an existence that had a portion of its consciousness poured into it. Lin Yi couldn't even tell how strong it was, let alone deal with it.

Chapter 3919 Senior Ghost Takes Action

With just one hit, Lin Yi was heavily injured. His body was stuck at the bottom of the tree hole, unable to move.

"Game over! I thought it would be interesting, but I didn't expect it to be so weak. I'm so disappointed. Gongyang Jie is still holding on for a while!" The faceless puppet was extremely disappointed.

Lin Yi wasn't willing to let this guy go around him, but it was useless even if he thought of a better strategy in front of such a powerful opponent. After all, the opponent was a cunning and dark existence.

"It would be a pity if I were to kill you just like that. How about you become my slave and stay here? Although it's too weak to withstand a single blow, it's not bad if it's used to relieve my boredom. It's better than nothing. " The faceless puppet pinched its chin and laughed sinisterly.

"Slave?" Lin Yi's eyes twitched. If he just wanted to kill him, it would be fine, but now he wanted to turn him into a slave to be played with. This really pissed him off.

"It's decided. Slaves only need to listen, not have their own opinions. Then let's start by destroying their divine sense!" The faceless puppet grabbed Lin Yi's head with one hand.

Lin Yi's scalp went numb. His feet were restricted, and he was heavily injured. He couldn't fight back at all. The faceless puppet could destroy his spirit sense with a thought.

However, just as the faceless puppet was about to succeed, an unprecedented pressure suddenly descended on the huge tree hole. Even the solid wall of the hole seemed to be unable to withstand it and cracks appeared.

"Who is it?" The faceless puppet was shocked and instantly retreated to the far end of the tree hole. It was on full alert, as if it was facing a great enemy.

"You actually want to destroy this brat's soul consciousness right under my nose. I really don't know who gave you the guts to do that." The ghost's familiar voice sounded from Lin Yi's body.

"Who are you?" The faceless puppet's body began to tremble uncontrollably.

The pressure on its head was so strong that even an existence like it could not even think about fighting it. It could only barely maintain its form and suppress the urge to kneel in the depths of its divine sense.

A moment ago, it was still playing with Lin Yi, but in the blink of an eye, the tables had turned.

In front of the elder of the spirit beast clan on the North Island, the ghastly thing had no room to resist even if it was just a primordial spirit. Its instinct for danger told it that even the slightest thought of resisting would cause it to die a horrible death.

Up to now, it had already lived for tens of thousands of years. It did not want to die, it wanted to continue living.

The ghost had no intention of explaining his identity to the puppet. He turned to Lin Yi with his spirit sense, "We can't stay here for long, pack up and leave quickly."

Lin Yi blinked. As far as he knew, all spirit beasts had to bow down in front of these things, even after they came to Sky Class Island.

However, judging from the demonic thing's tone, the fellow in front of him seemed to be no small matter.

Without much hesitation, Lin Yi gathered his pure Qi and slammed his palm on the ground, freeing himself. He then grabbed the two thousand year tree crystals that the man had thrown on the ground.

That wasn't all. Lin Yi didn't stop there. He dashed in front of the puppet and reached out his hand, "10000-year tree crystal, give it to me."

The faceless puppet froze and instinctively wanted to kill Lin Yi, but under the terrifying pressure of the ghostly thing, it didn't dare to do anything. It could only watch as Lin Yi walked over and took the ten thousand year tree crystal away from it.

One 10,000-year tree crystal, two 1000-year tree crystals, and the fight with the mirror puppet-Lin Yi's harvest this time was extremely rich.

After finishing, Lin Yi turned around and climbed up the wall. They were at the bottom of the lake, and there was only one way out, which was the hole on the top.

It wasn't hard for Lin Yi to climb up a hundred and fifty meters, but it would take some time, and it was this time that the situation changed.

The faceless puppet was frozen by the pressure, but it used this chance to appear behind Lin Yi, ready to kill him!

Lin Yi's heart skipped a beat-the man was too fast, several times faster than he'd shown earlier. He didn't have time to react, but luckily, he didn't need to.

BOOM! The faceless puppet suddenly exploded, turning into dust and disappearing. At the same time, Lin Yi successfully climbed up to the top of the cave and saw the light of day again.

"Senior, you were the one who did it just now, right? you really gave me a fright!" Lin Yi said.

He couldn't defend against the attack just now, but he didn't expect that the guy would turn into powder. Only a ghost could do this.

"There's no need to be too happy. This is just a toy of that fellow, which is why I can so easily crush it with my spiritual sense. If it was my true body, I might not be able to do anything to it with my current primordial spirit state. " The ghastly thing reminded.

Lin Yi's heart skipped a beat. The faceless puppet was just a toy made up by the enemy, not the real one.

"Senior, who is that guy?" Lin Yi couldn't help but ask.

"What do you think, kid?" The ghostly thing asked instead of answering.

Lin Yi frowned, unsure, "It gives me the feeling that this fellow should be some kind of unusually powerful spirit beast. However, it's hard to imagine what his original form looks like."

"There's no need to imagine. The thing under your feet is its main body. " The ghostly thing explained.

"What? This giant fir tree is its main body?" Lin Yi jumped in shock. Even with his high tolerance, he couldn't help but shiver at the thought of his opponent being the giant fir tree under his feet.

Unexpectedly, the ghostly thing denied, ""You're wrong, kid. There's more than just a fir tree under your feet. "

"What do you mean?" Lin Yi blinked as he looked down at the bright Half Moon Lake, taking in a cold breath. "No way! Senior, you mean to say that even this Half Moon Lake is its main body?"

Now that he thought about it, the red Tentacle that had attacked him when he was crossing the Half Moon Lake felt more like a wooden vine than a tentacle of a spirit beast in the water.

Chapter 3920 Shangguan LAN 'Er In Danger

No wonder even the Super true energy bomb couldn't do anything to it. If the other party was such a terrifying spirit beast, it was reasonable for it to be able to ignore the Super true energy bomb.

"That's right, what you're seeing under your feet is its true body!" The demonic thing sighed. "In terms of talent alone, this fellow can be considered to be blessed by the heavens. Even in the entire world of spirit beasts, there are only a handful of existences that can surpass it. However, while its original form is destined to be powerful, it also limits its movements. Otherwise, with its strength, it could have occupied a place in the core of the back mountain."

According to this thing's evaluation, the powerful spirit beasts in the core of the back mountain could kill him with one look. Lin Yi couldn't help but shiver at the thought of fighting with such an existence.

The mirror puppet at the start was one thing, but this faceless puppet was attached with a part of the spirit. It wasn't wrong to say that it was half a clone. If it wasn't for the damn thing's timely help, Lin Yi would've been a corpse by now.

"Then ... How does this guy compare to you, senior?" Lin Yi couldn't help but ask.

"You want to compete with me? It's still far from it, but at its level, my pressure alone is unable to completely subdue it. Moreover, I'm only a soul right now, so I might not be able to protect you if we really fight. Once it senses this, it'll be bad, so it's best to leave as soon as possible. " The ghastly thing said sternly.

"I understand." Lin Yi didn't waste any more time-he adjusted his state of mind and prepared to leave.

Just as the ghost had said, although he seemed to have escaped, the reality was that he was still standing on top of the other party's body. If the other party reacted, he could be killed at any time.

Fortunately, the ghastly thing had used his divine sense to crush the faceless puppet into powder. This was enough to intimidate the other party for a while, and the other party would not dare to act rashly for a while. However, this time would not be long.

Lin Yi carefully observed the huge black shadow in the Half Moon Lake. He already knew that the red Tentacle that attacked him was probably the vine of the Half Moon Lake monster, but he couldn't just ignore the existence of the huge black shadow.

The Half Moon Lake monster under his feet was already terrifying enough. As for that unknown huge shadow, if it was not a part of the Half Moon Lake monster's body, but another independent spirit beast, to be able to live alongside the Half Moon Lake spirit beast, its strength was definitely not weak.

If he was attacked by both of them at the same time, even if he had the protection of the ghostly thing, Lin Yi's chances of getting out alive were slim. He had to plan first.

However, just as Lin Yi was observing, a black shadow suddenly appeared on the other side of Half Moon Lake. It seemed to be unable to hold back, and took the opportunity when the huge black shadow at the bottom of the lake was far away from the other side to quickly dash towards the giant fir tree where Lin Yi was.

Shangguan LAN 'er? Lin Yi was shocked, and subconsciously thought that it was Shangguan LAN 'er. After all, he had been in the tree hole for quite a long time, an hour and a half. It was not impossible for Shangguan LAN' er to think that something unexpected had happened and act rashly.

However, at this moment, although the huge black shadow at the bottom of the lake had already swum to the farthest end, if he thought that this was the best opportunity to cross the lake, he was simply seeking his own death.

According to Lin Yi's previous observations, this huge black Shadow's movement pattern was that after swimming to the furthest end of the Half Moon Lake, it would quickly turn back six out of ten times, and its swimming speed was terrifyingly fast!

This seemed like an opportunity, but it was actually a fatal trap. If he acted rashly and fell into the trap, what would happen next would be unimaginable.

Sure enough, this person had only made it halfway when the huge black shadow at the bottom of the lake had already turned back and suddenly surfaced!

"It's dangerous!" A young girl's voice rang out from the bank of the Half Moon Lake. It was Shangguan LAN 'er's voice.

This person was not Shangguan LAN 'er? Lin Yi blinked, realizing that the figure in the air looked familiar. It was a woman, too.

The moment Shangguan LAN 'er's voice rang out, the woman finally sensed the danger below, and Lin Yi finally saw the true appearance of the spirit beast.

It was a giant octopus with sharp teeth and thorns all over its body. It was scarily ugly-it was the first time Lin Yi had seen something that could make even a practitioner like him shiver in fear.

"A giant ugly octopus? This guy has a pretty good guard dog!" The thing clicked its tongue in wonder.

Just as he was exclaiming, the familiar-looking woman in front of Lin Yi had already fallen into a huge trap. The giant ugly octopus was at least ten times faster than him, not to mention its huge size. They couldn't even be compared.

However, because of Shangguan LAN 'er's warning in advance, the figure had already made preparations in advance. This time was very little, but it was enough to be the last straw to save his life.

The figure suddenly flashed in the air, turning into several afterimages, and directly turned towards Shangguan LAN 'er, who was at the bank of Half Moon Lake!

"Phantom finger? That damned woman!" Lin Yi finally confirmed the woman's identity-she was the one who'd been sticking with Meng jueguang like glue recently, Murong Zhen.

Phantom finger was not only a martial technique used to attack and kill, but also a physical martial technique. Its Phantom characteristic was used to deceive the enemy's divine sense, and at the same time, it could ensure that it could appear next to the target in an instant. Although the effective distance was very short, the speed of this instant was unparalleled.

Murong Zhen had made use of this fact to escape death at the last moment before he fell into the giant ugly octopus's mouth.

If not for Shangguan LAN 'er's warning, if she had not been targeted instantly, Murong Zhen would not have had any chance of escaping.

But now, not only did she manage to keep her life, but she also successfully got the other party involved in a crisis. This made her overjoyed after seeing Shangguan LAN 'er's face.

From the high-profile second generation of cultivators in the rising Sky Pavilion to the newbie in the GreenCloud Pavilion who had no future, although Shangguan LAN 'er was not the main culprit behind Murong Zhen's fall, there was no doubt that she was the cause of this.

They were both women, but apart from their family background, Murong Zhen admitted that he was far superior to Shangguan LAN 'er in terms of figure, appearance and talent. However, just because of one sentence from the other party, he had fallen into such a sorry state. If Murong Zhen was to say who he hated the most, it would be Shangguan LAN' er!
