

Bodyguard 3931

Chapter 3931 How Does This Count?

"Good! You're a man, but if this stupid pig gets beaten to death, you'll be the one asking for it. " Meng Tong laughed coldly as if his scheme had succeeded.

Of all the new disciples of the GreenCloud Pavilion, Murong Zhen was the last to arrive. However, the new disciples were not dissatisfied with this. After all, women had special privileges in such situations. Furthermore, Murong Zhen was a charming, alluring and powerful beauty.

When they saw the spiritual pet flying around Murong Zhen, everyone's eyes lit up. Even men like them couldn't help but sigh at the first sight. What a dreamy butterfly!

Spreading its wings, this butterfly's body could be said to be astonishingly large. Its body was three meters long, its wings spread five meters wide, and its dazzling wings were dotted with glittering and translucent blue light. At first glance, it was like a beautiful screen, intoxicating people.

"Butterfly Queen, let them see your charm." Murong Zhen chuckled and ordered.

As soon as she finished speaking, the giant butterfly, which she called the Butterfly Queen, immediately flew into the air. With a slight flap of its wings, specks of blue light sprinkled down. It was dreamy and illusionary, like a fairy.

"Be careful, there's something wrong with the scale pollen." Lin Yi reminded in a low voice before bringing Xiao ran and the others out of the blue light's range.

However, the other rookies present were not as alert as him. They were all still immersed in the beauty of the Butterfly Queen and could not extricate themselves.

It wasn't until a few moments later that the strongest of the group, Meng jueguang, finally realized that something was wrong. He suddenly realized that his hands and feet were no longer listening to him.

During the month when the new disciples were busy taming spiritual pets, he had successfully broken through and was now a master of the middle stage of the foundation building realm. His level was far above everyone else present.

The Butterfly Queen, Murong Zhen, looked very beautiful and dreamy, but she was only sky Class mid phase. With the difference between them, it should be impossible for her to affect Meng jueguang.

However, at this moment, Meng jueguang's limbs were indeed numb. Even if he could still move, it would be very strenuous and slow. As for the other weaker newcomers, they were almost completely unable to move.

Xiao ran, Qiao hongcai, and the others looked at each other as they struggled in vain. They then looked at Murong Zhen and the Butterfly Queen with a hint of fear in their eyes. This guy was not to be underestimated.

"Murong Zhen, what are you trying to do?" Meng jueguang felt that he had lost face when he saw that he had been tricked along with the newcomers. He immediately scolded with a gloomy face.

After taking a good look at the shocked expressions of the newcomers, Murong Zhen covered his mouth and laughed. "Don't worry, senior brother Meng. This is just a little joke. Within two hours, the numbing effect will be removed automatically without any side effects. Everyone can rest assured. "

Hearing this, the rookies all heaved a sigh of relief. However, Meng Tong said anxiously, "Then what should we do for the next two hours? we can't even move, so how can we fight with our spiritual pets?"

He had been looking forward to this day for a long time. He had been counting on the Black-backed rod ape to kill everyone and help him boost his morale. But now, it was paralyzed and couldn't even move. What was there to be proud of?

"Since it's said that it's a battle between spiritual pets and not for you to fight personally, what does it matter if you can't move?" Murong Zhen looked at him sarcastically and pointed around. ""Didn't you see that your spiritual pets have already run away? They're not affected, so why can't they fight?"

"Uh ..." Meng Tong was stunned and speechless.

These pets, no matter how strong they were, all sensed the danger early on and retreated to the side like Lin Yi and the others. Only their Masters stood there stupidly-who else could they blame for being hit now?

If it had been anyone else who had made fun of him like this, Meng jueguang would have given them a good lesson, as a way to establish his authority for his promotion to the position of the third Pavilion master. However, the other party was Murong Zhen, a capable helper that he would have to rely on in the future. Moreover, he was also a guest of the other party, so he could only turn a blind eye to this and pretend to be magnanimous and tolerant.

Since Meng jueguang did not say anything, the other newbies did not dare to say anything either. Although Meng Tong was brainless, other than drooling over Murong Zhen, he was actually quite afraid of her.

As a result, even when the judge arrived, everyone still had a numb expression on their faces. The battle between spiritual pets began in this strange atmosphere.

As mentioned before, the final points of this spirit beast assessment were the sum of two parts. One was the points of the spirit beast's rank, and the other was the points of the spirit beast's strength.

The spirit beast's rank was clear at a glance and could be scored directly. As for the spirit beast's strength, it was fought through a single round of elimination battles, completely based on the spirit pet's own performance.

Although such a set of rules seemed fair and reasonable at first glance, strictly speaking, there were still some shortcomings.

After all, not all spiritual pets were combat type. A spiritual pet like Lin Yi's Skybolt pig was just trash in terms of combat power, but its unique treasure hunting ability meant that its value was far beyond that of ordinary combat type spiritual pets. Just like Li Zhengming's Phantom Tiger, it was an existence with strategic value.

However, according to the rules of spiritual pet battles, it was almost impossible for such a strategic spiritual pet to get a high score. This was actually a very deceptive thing.

However, since the higher-ups had already given such a rule, even if it was not very fair, there was not much to criticize. Even if he was dissatisfied, he could only hold it in.

At the end of the day, this was a world where the strong were respected. So what if you were a strategic-level spiritual pet? if your fists were not as strong as others, then you deserved to be unlucky. You could go find your own grave and cry.

Under the judge's supervision, the rookies went up to draw lots one by one to decide their opponents. Other than Lin Yi and a few others, the others all walked like zombies, but they were still able to move.

"A1." Lin Yi looked at the number on the stick and started searching through the crowd. He finally locked onto a newbie, and his lips curved up.

At the same time, the newbie looked at Lin Yi as well, with the tag "A2" in his hand. This newbie was the publicly acknowledged weakest, Cha Wu.

"Lord Judge, what do you think?" Lin Yi said to the judge. This Cha Wu was one of the four who didn't manage to tame a spirit pet, so he couldn't fight with a spirit pet at all.

Chapter 3932 The Outcome Is Decided?

The judge looked at the two of them and immediately announced, ""A1 versus A2. Since A2 did not fight with his spiritual pet, it is considered an unconditional forfeit. Hence, A1 wins."

He didn't do anything at all-all he did was draw a lot and he'd made it to the next round, even getting ten points for nothing-all the newbies looked at Lin Yi with envy.

"He's really F * cking lucky. He can even encounter such a thing. It's simply like seeing a ghost!" Meng Tong's body stiffened as he couldn't help but curse.

As far as he was concerned, although Lin Yi's level was terrifyingly high, he wasn't a match for any of the battle-type spirit pets at all. After all, after these spirit beasts became spirit pets, the pressure between them would lose its effect. Skybolt pig was a spirit beast that couldn't fight, no matter how high his level was, he was still a piece of trash in the arena.

Who would've thought that Lin Yi would get such a good draw in the first round, using that weakling Zha Wu's east wind to advance straight away-just thinking about it made people feel suffocated!

However, on second thought, Meng Tong felt that this was good too. It would be best if he met this master in the next round of drawing lots. At that time, the Black-backed rod ape would directly tear this stupid pig apart and make the pretentious boss spit out some blood!

There were a total of sixteen new disciples in the GreenCloud Pavilion. Including Cha Wu, there were four who didn't manage to tame a spiritual pet. Therefore, according to the probability, there was a certain possibility that two people without spiritual pets would fight against each other in the eight matches of the first round. At that time, it would be difficult to make arrangements.

However, no one knew if it was the judge's arrangement or if it was just fate, but the first round of eight battles didn't have the awkward situation of these four people fighting against each other. Of the eight battles, four of them, including Lin Yi, advanced directly.

Lin Yi, Xiao ran, Li Zhengming, and another mid-tier newbie were all the beneficiaries of the first round. In other words, there were eight matches in the first round, but there were only four real fights.

Among the four matches, Meng Tong's Black-backed rod ape easily crushed his opponent and advanced. The other match was the highlight of the first round. It was like Mars colliding with earth.

The two opponents were Murong Zhen and the Butterfly Queen, and Qiao hongcai's ghost-eyed Golden Eagle.

The Butterfly Queen's strength was beyond doubt. As a mid-stage Sky Class spiritual pet, she could be ranked in the top three among all the spiritual pets present. Moreover, everyone, including Meng jueguang, was numb and stiff because of her.

On the other side, Qiao hongcai's ghost-eyed Golden Eagle wasn't a friendly pet either. It was the one with the most potential among all the spiritual pets present. Although it was still a young pet, its strength was already at the early stage of the heaven rank. It was also a natural fighting race, and its combat power was absolutely no small matter.

Such a battle between two powerful spiritual pets wouldn't even be considered a grand finale. However, they didn't expect to encounter each other in the first round. It was really unexpected.

If it wasn't for the fact that they were paralyzed and couldn't move, the new disciples of the GreenCloud Pavilion would have already been exclaiming in surprise and rubbing their fists, ready to enjoy this rare show. Unfortunately, they had to exert a Herculean effort to even turn their heads around. If they wanted to watch, they could only squint their eyes with the expression of a resentful woman who had a hard life.

As he spoke, the Butterfly Queen and the ghost-eyed Golden Eagle rose into the air one after another. They were on guard against each other as they circled in the air.

According to the normal rules of spiritual pet battles, there were arena restrictions like the newcomer's challenge. As long as one fell out of the arena, they would be eliminated. However, the two spiritual pets in front of them were flying, so there was no such thing as falling out of the arena. Therefore, the judge temporarily adjusted the rules to say that if either of the two fell to the ground, they would be eliminated.

"Ghost-eyed Golden Eagle, let's strike first and attack with our claws!" Qiao Hong Cai ordered the ghost-eyed Golden Eagle.

Although the master couldn't interfere in a battle between spiritual pets, he could use verbal instructions to assist in the battle.

After all, after a spirit beast was tamed into a spirit pet, due to the excessive brainwashing of the spirit pet talisman seal, its wild nature and spirituality would inevitably become much weaker. If it was allowed to play freely, it would often become dull and clumsy. This could only be compensated for by the master's instructions, helping it to exert 100% of its combat power.

Under Qiao hongcai's command, the ghost-eyed Golden Eagle immediately launched an attack, its figure instantly pouncing on the Butterfly Queen's Head like lightning, its two sharp claws mercilessly clawing down.

The hardness and sharpness of an adult ghost-eyed Golden Eagle's claws were comparable to divine weapons. Even if Qiao hongcai's Cub wasn't as strong, it wasn't too far off due to its combat talent.

"How Savage! To be so cruel to this Beauty's Butterfly Queen, such a beautiful and dreamy creature, what an unromantic and hateful fellow!" Murong Zhen feigned anger and glared at Qiao hongcai before chuckling. ""But it doesn't matter. Butterfly Queen, let's play with it."

In everyone's eyes, the ghost-eyed golden Condor's claw attacks were already extremely fast. If they were in the Butterfly Queen's position, they would have no choice but to take it head-on. However, the Butterfly Queen was able to deal with them easily.

The butterfly had never been an overbearing creature, and the Butterfly Queen was no exception. Even if it was a mid-stage heaven rank, it wouldn't be a match for the ghost-eyed Golden Eagle.

But then again, it didn't need to fight head on at all. It just flapped its wings and easily avoided the other party's claw attack.

As it flapped its wings, spots of crystal blue light drifted out from its wings. The eyes of the people who were struggling to raise their heads twitched when they saw this. Wasn't this the F * cking culprit who had caused them to become like this?!

However, Qiao hongcai didn't panic at all and instructed in a deep voice, ""Use your wings to beat it back!"

The ghost-eyed Golden Eagle immediately flapped its wings and a strong wind blew away the crystal-like blue light. As long as it did not directly touch its body, the Butterfly Queen's paralysis powder would naturally have no effect!

"Hmph, you think you can get rid of it like this? Butterfly Queen, use the blue vortex to give this stinky bird a good bath!" Murong Zhen snorted coldly.

As soon as she finished speaking, the paralyzing powder that had been blown away by the ghost-eyed Golden Eagle strangely gathered back together. At the same time, the Butterfly Queen began to spin around the ghost-eyed Golden Eagle at a high speed. More and more paralyzing powder fell from her wings and condensed into a small tornado in an instant.

What was different from a normal tornado was that the tornado in front of them was covered in blue light. At first glance, it was a beautiful and dreamy scene, but when they thought that the blue light was a powerful paralyzing powder, everyone shuddered.

Chapter 3933 Extremely Lucky

"The outcome has been decided. The ghost-eyed golden Condor is finished." Meng jueguang squinted his eyes as he spoke. Meng Tong and the others around him also had expressions of agreement.

The tornado created by the Butterfly Queen might not be lethal, but it was definitely paralyzing. Everyone present had experienced it for themselves. Even if the ghost-eyed Golden Eagle's physical resistance was much better than that of humans, it would not be able to escape from the paralyzing powder.

According to the pre-determined rules, the ghost-eyed Golden Eagle would lose once it landed on the ground. After being paralyzed, it was already a sure-lose.

Unexpectedly, Qiao hongcai didn't intend to give up. Instead, he said with certainty, ""That might not be the case!"

"You're really stubborn. I was going to let you go, but since that's the case, there's no need to be polite. Butterfly Queen, suck it dry!" Murong Zhen ordered with a cold smile.

Everyone could not help but be shocked when they heard this. It was only then that they remembered that although the Butterfly Queen looked beautiful, it was actually a very horrifying creature. Other than the paralyzing powder on its wings, its mouth was like a long and narrow mouth like an ordinary butterfly, but it was extremely sharp. It was said that it could even penetrate iron plates several inches thick.

Unlike ordinary butterflies, the Butterfly Queen was a true carnivorous spirit beast. One of her favorite things to do was to insert her mouth into the target's body and suck dry the blood and internal organs!

To the crowd, Murong Zhen's order was a death sentence for the ghost-eyed Golden Eagle. After being trapped by the Butterfly Queen's numbing powder, the ghost-eyed Golden Eagle wouldn't even have the chance to escape!

Following Murong Zhen's instructions, the blue Tornado in the air suddenly dispersed. At the same time, two figures criss-crossed in the air and fell rapidly.

BOOM! After a series of muffled sounds, the dust on the ground was stirred up and did not dissipate for a long time.

After a while, the dust settled and everyone could finally see the situation clearly. At that moment, everyone, including Murong Zhen, had their mouths agape as if they had seen a ghost.

The ghost-eyed golden Condor, which he had thought was going to die, was now grabbing onto the Butterfly Queen's body with its claws. Its sharp claws were stained with blood, and the Butterfly Queen had been stepped on by it!

"How is that possible? How could my beautiful butterfly Queen lose?" Murong Zhen was so shocked by this scene that he could not come back to his senses.

At the same time, the judge announced, ""C1 versus C2. As C1 is the first to fall to the ground, C2 wins!"

At this moment, not only Murong Zhen, but the rest of the people looked at each other in confusion.

The Butterfly Queen clearly had the upper hand just now, and the ghost-eyed golden Condor was just a piece of meat in her mouth. How did it suddenly become like this? He couldn't understand it!

"Hong Cai, this ghost-eyed Golden Eagle is very compatible with your personality. You've really picked up a treasure this time." Lin Yi clapped his hands in approval.

Meng jueguang and the others didn't understand, but Lin Yi did. The Eagle was in a very dangerous situation, and it was paralyzed.

However, at the same time, the ghost-eyed golden Condor used its sharp claws to clamp down on the Butterfly Queen's soft ribs. The Butterfly Queen was in so much pain that she didn't dare to move, let alone suck its flesh dry. She was grabbed and smashed to the ground, which was why she had turned defeat into victory.

In fact, if she had not been caught by the ghost-eyed Golden Eagle, the Butterfly Queen would have already won. This was because the ghost-eyed Golden Eagle was completely paralyzed and could not move at all. It was simply a living target.

The key to this victory wasn't the ghost-eyed Golden Eagle's strength, but its drive. The kind of courage that would press forward even if it was going to die. From this point alone, the ghost-eyed Golden Eagle's vigor was indeed a good match for Qiao hongcai.

"F * ck, a good situation actually slipped up. Useless trash." Murong Zhen cursed coldly. He did not even look at the Butterfly Queen on the ground as he turned around and left.

"This woman is really cold-blooded. Just now, she seemed to like this Butterfly Queen very much. In the end, after losing, she immediately ignored it. She has met a bad person." Lin Yi shook his head, speechless.

Xiao ran and the others nodded in agreement. Murong Zhen was a living example of what it meant to be cold-hearted. Now that they thought about it, Meng jueguang and the others were really unlucky. When Meng jueguang was powerful and influential, Murong Zhen would still try to please him. Now that he had lost his value, he could only wait and cry. It was already very merciful of a woman like her not to hit him when he was down.

Qiao Hong stepped forward and carried the paralyzed ghost-eyed Golden Eagle away. The Butterfly Queen, covered in blood, finally regained her freedom. Following the scent left by Murong Zhen, she flapped her wings with great difficulty and disappeared from everyone's sight.

With the end of the battle between the ghost-eyed Golden Eagle and the Butterfly Queen, the first round of the spiritual pet battles had finally ended.

However, the judge didn't give them any time to rest. The second round of drawing followed, and this time, Lin Yi's opponent was Qiao hongcai.

This result made Qiao Hong feel greatly relieved, and he said, ""Fortunately, it's boss. If it was someone else, I really wouldn't be willing to give up."

As he didn't have time to rest, his ghost-eyed Golden Eagle was paralyzed and couldn't move. It was unrealistic for it to fight with other spiritual pets, so it could only admit defeat.

It couldn't be helped. This was the rule set by the higher-ups. Only in continuous battles could the true limit of the spiritual pet's strength be displayed. As for some people who took turns to fight and some people who were weaker, it could only be said that there was no absolute fairness in this world. In many cases, luck was also a part of strength.

In the first round against Cha Wu who didn't have a soul pet, he passed without a fight, and in the second round against his follower, he passed straight away. Lin Yi's luck today was simply speechless.

It wasn't just Meng Tong-even the other newbies were looking at the judge in a different light. If this judge wasn't an inner disciple sent by the higher-ups, they'd be suspecting if he'd been bribed by Lin Yi already. How else could Lin Yi be this lucky?

He didn't even do anything, and he'd already gotten twenty points. Lin Yi's carefree attitude really made the other newbies envious-if looks could kill, Lin Yi would've been riddled with holes by now.

In the second round, other than Lin Yi who admitted defeat because of Qiao Hong, Meng Tong's Black-backed rod ape easily crushed his opponents in the other three matches. The highlight of this round was between Xiao ran's Mystic-eyed tyrannical rabbit and Li Zhengming's Phantom Tiger.

Chapter 3934 What's The Situation Now?

In terms of strength, the two were both at the initial stage of the heaven rank. In terms of racial talents, the ghost Tiger could go invisible, and the bewildering Overlord rabbit could charm, both of which were very troublesome and powerful talents. Moreover, both sides had a bye in the first round and were at the same starting line, so the two could be considered to be evenly matched.

This was indeed the case. Just like the previous battle between the ghost-eyed Golden Eagle and the Butterfly Queen, this battle also ended in a lose-lose situation. The only difference was that the last battle was decided very quickly, but this battle was a long one.

The talents of both sides were extremely difficult to deal with, and neither of them had a good way to deal with the other. The result naturally evolved into a competition of patience and stamina. In the end, Lee Zhengming's Phantom Tiger was slightly better, and it successfully advanced with a body full of injuries.

The list of strong players was finally out-Lin Yi's never-fought Skybolt pig, Meng Tong's Black-backed rod ape, Li Zhengming's Phantom Tiger, and the other newbie's Fire Fox Wolf.

When the results of the third round were out, the long-awaited rookies finally had the chance to see Lin Yi make a fool of himself, because he was going up against Li Zhengming's Phantom Tiger.

The Phantom Tiger's strength had been fully displayed in the previous battle. To be honest, even Meng Tong, who was full of confidence, could not help but break out in a cold sweat after watching the battle. If he was at his peak, even his Black-backed rod ape might not be able to defeat The Phantom Tiger.

It wasn't just The Phantom Tiger. The others, such as Qiao hongcai's ghost-eyed Golden Eagle, Murong Zhen's Butterfly Queen, and Xiao ran's bewildering Overlord rabbit, were all very difficult to deal with. They were all enough to pose a threat to Meng Tong's Black back rod ape.

Fortunately, these troublesome guys had killed each other in advance. From this point of view, Meng Tong's luck was quite good. Even if it couldn't compare to Lin Yi's weird dog shit luck, it wasn't far from it.

Lin Yi's luck was finally used up this time. Even though Li Zhengming's Phantom Tiger had both suffered heavy losses, it was still a piece of cake for it to beat up his "weak" Skybolt pig.

The third round began with Meng Tong's Black-backed rod ape crushing his opponent, and everyone, including Meng jueguang, was waiting for Lin Yi to make a fool of himself.

Li Zhengming wasn't trash like Cha Wu who didn't even have a soul pet, and he wasn't Lin Yi's underling either. In everyone's understanding, the same thing could happen once, but not thrice. Li Zhengming would never let Lin Yi level up for no reason.

This round, it would definitely be a fool. The pig was going to die soon, and Lin Yi, the head of the pack, was going to vomit blood!

Under everyone's anticipation, Lin Yi's Skybolt pig finally stepped onto the stage for the first time. Meng jueguang and Meng Tong couldn't help but raise their eyebrows when they saw the dumb-looking face of this pig. This was the guy with no fighting strength at all, but he was still able to fight his way to the top four. How could they make any sense out of this?

Fortunately, when they saw Lee Zhengming's Phantom Tiger step onto the ring again, everyone was immediately overjoyed. This time, they could finally find their psychological balance!

Silly. A dumb pig is stupid. Even if the pig had a frightening level of Sky Class great completion, it still couldn't change its waste nature. In front of the ghost Tiger, it was just a piece of trash that had no power to resist.

Meng jueguang and the others held such a beautiful wish and waited for the next scene to unfold. However, just as the judge announced the start and the show was about to start, something suddenly happened in the ring that made everyone dumbfounded.

The majestic Phantom Tiger knelt down in front of the harmless Skybolt pig.

Holy shit! Meng jueguang and the others were instantly enraged. What the f * ck was going on?

With such a turn of events, even the judge was stunned. After a long while, he finally reacted and went up to check on Phantom Tiger's aura. He spread his hands with a face full of tears and laughter, ""Ghost Tiger is unconscious due to heavy injuries. Therefore, the winner of this match is Skybolt pig!"

Meng jueguang and the others were dumbfounded by his words. Forced, he couldn't say anything for a long time.

He'd faced Zha Wu without a fight in the first round, and Qiao hongcai had admitted defeat in the second round. Now, he'd finally faced li Zhengming, and yet he'd been so seriously injured that he'd fallen unconscious. Lin Yi, this guy, could he be the legendary son of fortune?

Otherwise, how could a person's luck be so abnormal to this extent? He had forced a fool who had no combat power to fight. A dumb pig who won three consecutive rounds without doing anything and entered the final round?

"Junior Brother Lin, your luck is really amazing. I'm really impressed!" Even the miserable senior brother had a look of disbelief on his face. Today's events seemed to have been made up in advance. Even if he had seen it with his own eyes, he still felt that it was fake.

Lin Yi only smiled faintly, not replying.

If the first two rounds were pure luck, then the fainting of li Zhengming's Phantom Tiger in the third round wasn't pure luck. Lin Yi was 100% sure that it was li Zhengming secretly giving orders to The Phantom Tiger.

Although The Phantom Tiger and the bewildering Overlord rabbit had a very bad fight in the previous round, with The Phantom Tiger's strong physique, as long as it didn't fall down at the time, there was no possibility of it losing without a fight.

Li Zhengming was intentionally giving in to Lin Yi. As a spy, he couldn't admit defeat like Qiao hongcai did. He was "forced" to admit defeat in a way that no one could find fault with.

"I really didn't expect that you, a pretentious leader who deserves to be struck by lightning, must have eaten so many pieces of dog sh * t to have such dog sh * t luck!" "But it doesn't matter," Meng Tong sneered with a ferocious expression, "your sh * t will end here. As we agreed before, let my Black-backed rod ape tear your idiot apart." Stupid pig, just wait to vomit blood!"

"Hehe, how would you know if you don't try? maybe you'll find out later that you're the one who swallowed dog shit. Where's the force?" Lin Yi smiled nonchalantly and signaled for Skybolt pig to go up.

Ji Ji! Skybolt pig hmped and jumped back into the arena. His talent didn't include fighting, but for Lin Yi, he was willing to give it his all.

At the same time, the Black-backed rod ape, under Meng Tong's signal, slowly walked up to the ring with a powerful and overbearing aura.

Bang! Bang! The black iron rod was casually placed on the ground. Several finger-wide cracks appeared on the hard stone slab. The strength of the Black-backed rod ape was evident.

"Black-backed rod ape, quickly tear this idiot apart. Stupid pig, let it know what a truly powerful spiritual pet is and let it die with a clear understanding!" Meng Tong shouted from below the ring.

Chapter 3935 A Little Ruthless

The rod-wielding ape snorted and did a very human-like action to the pig. It slit its throat.

The crowd smiled. Although the spiritual Pet Challenge had reached this stage and it had nothing to do with them anymore, they still wanted to see Skybolt pig die and Lin Yi suffer.

After all, they had nothing to say about Meng Tong's victory because of the stick-backed monkey's strength, but they couldn't stand Lin Yi, the leader of the pack. He'd gotten to where he was purely by luck, and if he could get out of it unscathed, they'd be so jealous that they could die!

As the saying goes, "comparing people to each other will make one angry." It was fine if he was strong, but how could he be so lucky all the way? how could this make people feel balanced?

If they were in Lin Yi's position, they'd just give up. They'd already gotten thirty points for nothing, so they'd just give up and leave. They wouldn't be so stupid as to let Skybolt pig go up and die.

But then again, Lin Yi was still publicly acknowledged as the strongest newcomer-even Murong Zhen, who was at the peak of the early Foundation Stage, wasn't his match. Since he'd already made a fight with Meng Tong, he had no choice but to accept the challenge, or he'd lose face in front of everyone.

From this, it could be seen that Lin Yi was cold-blooded enough-he'd send his pets to their deaths just for his face!

Ji Ji! The pig was obviously a little scared of the monkey's provocation, but it still gritted its teeth and responded. However, its cry was not intimidating at all. Instead, it seemed even more pitiful and weak, which made people laugh.

The rod-wielding ape had the same look of disdain as Meng Tong. It clenched its fists so tightly that cracking sounds could be heard. It walked towards the pig without any fear.

As for the dark Iron rod, it was stuck in the ground behind it. Meng Tong had ordered it to tear the Skybolt pig apart, so it naturally didn't need the dark Iron rod.

The Black-backed rod ape was not only good at using the rod, but it was also said that its arm strength was infinite. It could tear tigers and leopards alive, so tearing the Skybolt pig alive was naturally not a problem.

Looking at the ferocious and bloody expression on the Black-backed rod ape's face, even the audience, who were waiting to watch the show, couldn't help but shiver. This fellow was really brutal!

At this time, Lin Yi suddenly opened his mouth, "Hey, the monkey on the stage, I advise you not to underestimate your enemy. Otherwise, you won't be able to die in peace. If that happens, you can't blame anyone else."

The stick ape paused and glanced at Lin Yi mockingly before walking back to the pig.

"Show-off leader, you're only bluffing when you're about to die. Do you think it'll work?" Meng Tong laughed. It's useless to say anything now. I'm just waiting to see your other end being stupid. The scene of the pig being torn in half must be very beautiful and will leave a deep impression on you for the rest of your life. Wahahaha!"

"A deep impression?" Lin Yi smiled and shook his head, "I don't think so. I'm a person of high status who forgets things. I've killed many people, but not many of them can make me remember. This spirit pet of mine is the same. It's also very forgetful. Killing a monkey is not a big deal for it, so it won't remember."

"Uh ... You have a sharp tongue!" Meng Tong choked, then gritted his teeth and instructed, "Black-backed rod ape, why aren't you moving? Wait until the other end is silly. The pig has been torn into pieces. I'd like to see if you can continue to be so stubborn!"

As soon as it finished speaking, the rod-wielding ape suddenly increased its speed and pounced on the pig like a black shadow.

In terms of strength, speed, and agility, the Black-backed rod ape was superior in all aspects. Among the many spirit beasts, it was considered a rare fighting species. No wonder Meng Tong was so confident in it. This monkey's strength was not to be underestimated.

In the blink of an eye, the ape had already grabbed the pig's front hooves. The pig was a complete heaven class, but it couldn't even struggle.

Everyone's hearts were in their throats. From the looks of it, Skybolt pig was going to be torn in half!

"Tear it apart! Tear it apart!" Meng Tong laughed arrogantly and gestured with his hands and feet. He almost went on stage to demonstrate it himself.

At this moment, a sudden change occurred.

Pfft! A spray of blood suddenly fell on the head of the thundercloud pig. Everyone present, including Meng Jueguang, was instantly stunned. Meng Tong also spat out a large mouthful of blood. He was unable to catch his breath and almost fainted on the spot.

The lightning pig wasn't torn in half, but the ferocious Black-backed rod ape suddenly started to bleed from its seven orifices. Before it fell to the ground, its blood had covered half of the arena. It was a terrible sight.

Silence. The entire place was dead silent.

"Senior, you're a bit ruthless this time!" Lin Yi used his spirit sense to communicate with the monster- the monster was responsible for the stick ape's death.

As everyone expected, the pig was only a non-combat spiritual pet used for treasure hunting. Even if it was a complete Sky Class, it wouldn't be a match for the rod ape no matter how hard it struggled. So Lin Yi secretly called the ghost out to help.

Lin Yi thought that as an elder of the spirit beast clan, the ghost would at most scare the other party and wouldn't really kill him, but he didn't expect the ghost to use his spirit sense to kill him directly.

"I'm only doing this to free it. Compared to being controlled by this scumbag and becoming a puppet, it's better to die, isn't it?" The ghastly thing laughed unconcernedly and said, "At the same time, you human cultivators kill each other much more miserably than this. Naturally, there are wars among our spirit beast clan. Do you think that any random spirit beast will be on my side? According to your thinking, you and Meng Tong should shake hands and make up!"

Lin Yi didn't know whether to laugh or cry. It might be a relief in the eyes of a spirit beast senior like you, but perhaps the black back stick ape would rather continue being Meng Tong's puppet and live on at death's door?

At the end of the day, it was the damned thing who couldn't stand these so-called spirit pets, especially those that had been forcibly subdued by people with spirit pet talismans. In the eyes of the big boss of the spirit beast clan, these brainwashed spirit pets were probably the shame of the spirit beast clan. They were better off dead than alive, so it was better to let them die early and be freed.

Regardless of whether the ghastly thing's idea was right or wrong, at least for now, the strange death of the Black-backed rod ape had stunned everyone present. Even the judge had not reacted for a long time and did not make a judgment.

Chapter 3936 Second Zhang Liju

A Sky Class late phase peak black back rod ape couldn't even beat a mere Skybolt pig, and was even killed in an instant, what kind of strange situation was this?

Even if this Skybolt pig was at the great circle of the heaven rank, it wasn't a battle-type spirit beast by nature. So what if its level was high? it couldn't possibly develop other powerful racial talents just because its level was high, right?

If they didn't see it with their own eyes, they would have thought it was nonsense. But now the truth was right in front of their eyes, they had to believe it. The lightning pig had killed the rod ape in seconds, and even its master, Meng Tong, was seriously injured. It couldn't be fake.

"I've already said that underestimating the enemy is a great taboo. Now that he really died with his eyes wide open, who can he blame?" Lin Yi raised his eyes and looked at the judge. "Lord Judge, why haven't you pronounced the sentence yet? do you still have any doubts?"

The judge came back to his senses and cleared his throat. "The Black-backed rod ape is dead. The lightning pig wins!"

Although they didn't know how Skybolt pig killed the dark back rod ape, the result was clear. The pig had won the battle. If anyone present had any opinions about this, they could only say that the person was inexperienced and inexperienced.

The world was big and full of surprises. Who said that Skybolt pig couldn't kill the Black-backed rod ape? as long as the opportunity was right, there were even precedents of mortals killing cultivators!

The battle of soul pets ended in front of Meng jueguang and the others. Lin Yi had the last laugh.

Meng Tong, who had been so proud and arrogant before, had now not only lost the Black-backed rod ape, but he had also suffered a backlash from the death of his spiritual pet. His divine sense had been severely damaged and he would probably be bedridden for at least ten days to half a month.

By the time everyone finally came back to their senses, the way they looked at Skybolt pig had changed from disdain to fear.

The first three rounds were all due to luck, and it was understandable for them to look down on Skybolt pig, but this last round was a display of true strength. Even the dark back rod ape was killed in seconds, and this "weak" Skybolt pig was just like its master, Lin Yi, hiding his true strength!

Most of the rookies were Sky Class full Masters, and they might not even be a match for the dark back rod ape in a real fight. If the lightning pig could kill the dark back rod ape in an instant, it meant that it could also kill them in an instant. More importantly, they didn't even know what kind of method the lightning pig had used. Such terrifying strength was enough to make them shiver!

The fifth round of the newbie assessment, the spirit beast assessment, had ended just like that. Looking at all the newbies in the GreenCloud Pavilion, the one with the highest score was naturally Lin Yi, because he had once again obtained a perfect score in theory.

The Skybolt pig was at the great circle of the Sky Class, so he got twenty-five points. He won four rounds in a row, so he got forty points. In total, he got sixty-five points. With the first five segments combined, Lin Yi's total points reached a shocking 281 points, leaving the other newbies in the dust.

After him was Qiao hongcai, who had 181 points and was in second place. Meng Tong had 180 points, one point behind Qiao hongcai, and was in third place. As for the fourth and fifth places, they were occupied by Xiao ran and Lee Zhengming respectively.

The top five of the GreenCloud Pavilion's freshmen were not an undeserved reputation. At the very least, there was no one who could shake their position within the GreenCloud Pavilion's freshmen community. The gap between them and the other freshmen would only grow wider and wider, and not smaller.

Even Murong Zhen, who was at the peak of the early-stage of the foundation building realm, could not be ranked among them. Although she had joined halfway and did not place much importance on points, this result was enough to explain the problem.

Although there was still one more segment left in the assessment, the situation was already very clear now that things had progressed to this stage. Putting aside the strange Murong Zhen, among all the new disciples in this batch, the only ones who had the ability to shine in the future were none other than these five.

And among them, Lin Yi, as the number one newcomer, would definitely be the most eye-catching one!

Meng Jueguang was a mid-Foundation Stage cultivator, and was on the verge of becoming the third Pavilion master. In the eyes of the new disciples, he was like the sun in the sky, but even he couldn't suppress Lin Yi's rise anymore.

Right now, Lin Yi's name had even reached the inner circle of the pavilion, attracting the attention of several higher ups. A new disciple with unlimited potential like him was a treasure that fell from the sky to the weak Pavilion. After all, they already had Zhang Liju as a Pearl in front of them, and they couldn't help but have their imaginations run wild.

Both of them were born in the common world, and both of them had dominated the world in the welcoming Pavilion. There were even rumors that Lin Yi was a refiner like Zhang Liju-the two of them were too similar in every way, and people would subconsciously have the same thought-would this Lin Yi become the next Zhang Liju?

Back then, Zhang Liju alone was enough to bring the already weak GreenCloud Pavilion back to life. At its peak, it was not only on par with the other two pavilions, but it even had the potential to become the leader of the three. This situation only changed after Zhang Liju left for the middle Island. Without a successor, the GreenCloud Pavilion slowly fell back to its current state.

If they could have another legendary figure like Zhang Liju, then it would be a great thing for the GreenCloud Pavilion!

But of course, the GreenCloud Pavilion wasn't a monolithic whole. There were some who were happy, but there were also some who weren't so happy ...

Lin Yi didn't know whether to laugh or cry when he heard from his bitter senior brother that he'd caught the attention of the upper echelons. Even if his bitter senior brother didn't say it directly, it wasn't hard for him to guess that there was a reason why he'd caught the attention of the upper echelons-someone must've been helping him build up momentum in the dark.

And this person didn't need to think too much about it. He was definitely the previous third Pavilion master who had been pushed out of the welcome Pavilion, Lu bianren.

Lu bianren's intentions were good. Now that Lin Yi's group was being suppressed by Meng jueguang and Xu lingchong, their methods were getting more and more intense. Who knew when they would take the risk? so, only by letting Lin Yi's potential be noticed by the higher-ups in advance and attracting their attention would these people be a little afraid. At least, they wouldn't dare to use shameless methods like assassination so easily.

However, this wasn't what Lin Yi wanted. After coming to Sky Class Island, all he wanted was to stay low and become King. He wanted to raise his strength as soon as possible to meet Zhang Liju. Other than that, he wanted to save as much as he could.

Chapter 3937 Taking Another Foundation-Building Golden Pill

Now that the two stalks of heart-devouring exquisite grass in the Jade space had matured and everything was ready, he could finally open the furnace and refine the foundation establishment golden pill again!

Lin Yi had been looking forward to this day for far too long-it'd been three months since he'd gotten the heart-devouring exquisite grass seeds.

He entered the Jade space, adjusted his state, and selected the two heart-devouring exquisite herbs, as well as the other ingredients he'd prepared beforehand. He started the process again, already familiar with it.

A few hours later, Lin Yi received the freshly made Foundation Stage golden elixir. Chengse was the same quality as always, and there were three of them!

Originally, the two heart-devouring exquisite grass seeds that Lin Yi had were cultivated in batches due to inherent deficiencies. No matter how good the other supplementary ingredients were, making two Foundation-level golden cores was the limit-there was no way he could make one more.

The reason why he was able to get three of them was all thanks to the heaven-defying effects of the Jade space. The unique environment completely made up for the damage to the vital Qi caused by the innate deficiency, which was why he was so surprised at this moment.

Lin Yi clenched his fist as he looked at the three golden pills in his hand. Three months of hard work didn't go to waste!

Without hesitation, Lin Yi adjusted his condition and started consuming the Foundation Stage golden pill.

According to his previous experience, a Supreme-grade foundation-building golden elixir was enough to break through the barrier. Then, he would directly take the Supreme-grade foundation-building barrier-breaking elixir that he had made before, which was enough to guarantee the success of the breakthrough.

Three peak quality foundation Stage golden cores were more than enough, and he could even use two more later. But to Lin Yi's surprise, he still couldn't touch the barrier after taking two peak quality golden cores.

Lin Yi couldn't help but wonder if the Foundation Stage golden elixir was no longer effective on him. It wasn't until he took the third one that he finally touched the solid barrier between the peak of the early stage and the mid stage of the Foundation Stage!

Lin Yi didn't know what to say about this result, but he could only choose to accept it silently. No wonder his bitter senior brother and Lu bianren all said that the peak of the early Foundation Stage was a hurdle that all practitioners had to face.

Many astonishingly talented cultivators had previously been doing very well, the genius Halo above their heads showing off, and even breaking through to the Foundation Stage seemed to be an easy task. However, a large number of people were stuck at the peak of the early Foundation Stage, unable to make any progress for decades. Their geniuses were ground into mediocrity, and from then on, they became ordinary people.

It was no wonder that Meng jueguang, the eldest senior brother, had not been able to break through this barrier for so long before he met Xu lingchong!

This wasn't just one or two cases, but a stage that all cultivators had to go through. Being stuck at the peak of the early Foundation Stage for decades or even centuries was a very normal thing in the cultivation world. In fact, if one didn't have a large amount of cultivation resources or encounter special opportunities, many people would still be at the peak of the early Foundation Stage until they grew old.

There was a rumor in the streets that the peak of the foundation building realm was an insurmountable hurdle. Every time one passed it, it was like a carp leaping through the Dragon Gate. After being reborn, one's strength would definitely have an explosive increase.

From the peak of the early Foundation Stage to the mid Foundation Stage, most people would need tens or even hundreds of years before they could cross this threshold. No wonder Lin Yi had to use three peak-grade foundation Stage golden elixirs to just barely touch the barrier. This even included the results of his hard work for the past few months.

However, although a Supreme-grade foundation establishment golden pill was very precious, it was definitely worth it to be able to offset the years of bitter cultivation of others who didn't take pills.

One had to know that even with Lin Yi's mental fortitude, the process of filling in three Supreme-grade foundation-level golden cores in a row was as scary as gambling on a card table. Fortunately, the final result was a happy one, and no one was disappointed.

After taking the pill, Lin Yi's next step was to break through to the mid-stage in one go!

Just as Lin Yi was focused on breaking through, his opponents weren't idle either. The one with the biggest movement was Meng Tong-Meng jueguang had finally decided to let him take the meridian heart-shattering pill he'd prepared long ago.

Because the Black-backed rod ape had been killed in an instant, Meng Tong's current state of spiritual sense backlash made it unsuitable for him to take a pill as overbearing as the meridian heart-shattering pill. Meng jueguang was well aware of this, but he had no other choice. He was running out of time.

The final assessment segment was set to be ten days later. According to the rules that were announced earlier, this was the decisive segment that could truly decide the outcome. To all the rookies participating in the assessment, success or failure would depend on this one move.

With Meng Tong's strength at the early Foundation Stage, it was obvious that he couldn't fight Lin Yi. Even if he had Murong Zhen at the peak of the early Foundation Stage, he wouldn't be able to do anything to Lin Yi.

As mentioned before, under Lu bianren's Secret operation, the upper echelons of the pavilion were starting to pay attention to Lin Yi's brilliance. Meng jueguang was feeling proud of himself, but he was already feeling quite the pressure.

If they didn't think of a way to take Lin Yi down as soon as possible, not only would it be hard to explain to Xu lingchong, but it would also be extremely difficult for Meng jueguang to suppress Lin Yi in the future.

The third Pavilion master couldn't even suppress a newbie? That wasn't all-what he feared the most was that Lin Yi would be the manager when he became the third house master! No matter who became the eldest senior brother, it had nothing to do with him, the third Pavilion master. The two subordinates didn't listen to him, so he was even more miserable than Lu bianren!

Therefore, in Meng jueguang's opinion, the final segment of the newcomer assessment was his last chance. Under such pressure, he could only place all his bets on Meng Tong.

In truth, if he had not been forced into a corner, Meng jueguang would not have planned on doing this. After all, this would be too cruel for the ignorant Meng Tong. Moreover, after so many things, he had already seen through Meng Tong's inability to accomplish anything. He was not someone who could be entrusted with great things.

In comparison, the other two men under him, Murong Zhen and Li Zhengming, were much more reliable than Meng Tong.

Unfortunately, although Murong Zhen was willing to sleep with him, she did not put herself in the right position. She was only willing to be his ally and not his subordinate. Meng jueguang had to be wary of her when he used her and could not trust her completely.

As for li Zhengming, he was much more reliable compared to Meng Tong. Unfortunately, he was too weak. Even if he took the meridian heart-breaking pill, he wouldn't be a threat to Lin Yi.

Chapter 3938 Screams In The Cave

Even now, Meng jueguang still didn't realize that li Zhengming had already successfully broken through to the Foundation Stage. It was clear how much patience li Zhengming had-his ability to hide his strength was on par with his boss, Lin Yi.

Thus, even though he knew that Meng Tong was unreliable, Meng jueguang could only bite the bullet and place all his chips on Meng Tong. As long as this guy could be reliable at a critical moment, the Meng clan's ancestors would be thanking the heavens.

There were only ten days left until the final assessment. Meng jueguang couldn't wait for Meng Tong to fully recover, so he had to force Meng Tong to fight him head-on. It was very risky, but he had no other choice.

Looking at the blood-red pill in Meng jueguang's hand, Meng Tong couldn't help but drool. Ever since he had found out about the meridian heart-shattering pill, he had been waiting for this day for too long. Unfortunately, Meng jueguang had kept it to himself all this time. Today, he could finally get what he wanted.

However, Meng jueguang did not give it to him so easily. Instead, he asked, "Meng Tong, how have I been treating you these days?"

Meng Tong was stunned, and then he quickly flattered, "Very good! Ninth older Biao brother's kindness to me is as heavy as a mountain. If there is any command, I will not hesitate to sacrifice my life. "

"That's good. No matter what happens in the future, you just have to remember one thing: we are ants on the same line. No matter what I do, it's for your own good. I will never harm you. You Must Remember This, understand?" Meng jueguang advised, his tone full of profound meaning.

"That's for sure. How can I not know how you've treated me? ninth cousin, don't worry. I, Meng Tong, am not an ungrateful guy!" Meng Tong didn't know what was going on, so he patted his chest and promised.

He had thought that Meng jueguang was afraid that he would fall out with him after taking the meridian heart-shattering pill and becoming stronger.

Meng jueguang nodded in satisfaction before handing the meridian heart shattering pill to Meng Tong. He paused for a moment before saying, "You've already heard about the effects of this pill from young master Xu. With your current strength of the early Foundation Stage, it's certain that you'll be able to reach the peak of the early Foundation Stage after taking it. There's no doubt about this. However, everything has its pros and cons. As the saying goes, all medicine has its cons. I'm sure you know what the powerful effects mean. "

"I know! I know!" Meng Tong nodded repeatedly. In reality, he didn't even know a fart. He didn't even understand the deep meaning behind Meng jueguang's words. He only wanted to quickly take the meridian heart-shattering pill and improve his strength.

"Since that's the case, I won't say anything more. There's no time to waste. Take this Meridian heart-shattering pill as soon as possible after you've adjusted your condition." Meng jueguang narrowed his eyes.

Meng jueguang deliberately did not point it out. After all, no matter how stupid Meng Tong was, if he knew about the side effects of the meridian heart-shattering pill, he would probably not dare to take it again. This was something that could ruin one's entire life. Which normal person would dare to use their entire life as a bargaining chip?

In any case, Meng jueguang had already said so much in advance and done his part. As for Meng Tong's failure to grasp the deeper meaning of these words, he could only blame himself for being stupid, not Meng jueguang.

"Yes, yes, ninth older cousin, take care." Meng Tong couldn't wait to start.

Although Meng jueguang had told him several times in the past few months that the effects of the meridian heart-shattering pill were overbearing and that one had to be fully prepared before taking it, he didn't take it to heart. In any case, as long as he could advance a rank, everything else was just fleeting clouds.

Meng jueguang nodded, but when he reached the door, he suddenly stopped and turned back. "Meng Tong, when you take the meridian heart-shattering pill later, the process will definitely be very painful. If you can't endure it, you'll be finished. I'm not trying to scare you."

It was rare to see Meng jueguang so serious, and although Meng Tong was impatient, he still managed to pick up on the underlying meaning. He carefully asked, "Then what do we do?"

No matter how arrogant and conceited he was, Meng Tong could at least clearly recognize that willpower had never been his strong point. If Meng jueguang's words were true, he might not be able to withstand them.

"If you really can't get through it, you just have to remember that hatred can make people get through all pain and suffering. You just have to know who the enemy you want to kill the most is, blame all the pain on him, and live on. In the future, you have to pay him back a hundred or a thousand times. That's enough!" With these words, Meng jueguang turned and left.

"Hatred?" Hearing this, Meng Tong fell into deep thought, and then a trace of ferocity flashed in his eyes, "Who is the enemy I want to kill the most? Of course, it's that Lin Yi bastard!"

With Meng Tong's arrogant personality, he had always had a lot of enemies. Back in his hometown, he was a local tyrant and often had conflicts with others.

However, ever since he came to the welcome Pavilion, he had been completely separated from the outside world. Under Meng Jue Guang's care, most newcomers did not dare to say anything to him. Even if Lee Zheng Ming was oppressed by him, he would never say a word.

He only had one enemy left, and that was Lin Yi!

In the end, wasn't the main purpose of him taking the meridian heart-shattering pill to defeat the acting tough leader, Lin Yi?

"Just wait for your death, Lin Yi!" Meng Tong spat out a mouthful of the pill. After staring greedily at the meridian heart-shattering pill in his hand for a moment, he suddenly stuffed it into his mouth.

There were only ten days left until the last assessment. How long would it take for the effects of the meridian heart-shattering pill to be fully displayed? how long would it take for him to stabilize his strength and realm? these were still unknown. Although Meng Tong's actions were a little too hasty, it was also a situation that Meng jueguang hoped to see.

However, what Meng Tong did not expect was that just as the meridian heart-shattering pill entered his stomach, the intense pain that Meng jueguang had mentioned suddenly attacked him without any warning. It was the legendary heart-shattering pain!

"Ah!" A heart-wrenching scream instantly resounded through the mountains. Almost all the newbies of the GreenCloud Pavilion were startled out of their cave abodes, and each of them looked at each other in dismay.

Before they could figure out what was going on, they heard another wail. This time, everyone understood that the wail came from Meng Tong's cave number four.

"What's going on? Even a pig isn't slaughtered so loudly, right?" The rookies couldn't help but have strange expressions.

Although the concentration of spiritual Qi in the cave abodes at the foot of the mountain was not very high, they were built by the three pavilions after all. The facilities in every place were absolutely first-class. Moreover, because of the existence of the cave abodes 'restrictions, the sound-proofing effect was excellent.

Normally, as long as the door and restrictions were closed, no matter how loud the noise was, it would be hard for the people outside to notice it. Even with Lin Yi's senses, he was no exception.

Chapter 3939 The Cruel Final Battle

This was the first time in history that such a penetrating scream came from Meng Tong's cave. No wonder everyone was so surprised. What kind of pain did he have to be in to be able to scream like this?

"What the hell is Meng Tong doing? Don't tell me Meng jueguang is torturing him inside. He's screaming so miserably, this is too perverted!" Qiao hongcai said, gloating.

Xiao ran speculated with a puzzled look, ""Could it be that he's cultivating some kind of strange and evil martial technique? As far as I know, only a few external style evil martial arts techniques would be so devastated, but this guy Meng Tong isn't a external style master?"

Lin Yi smiled faintly, deep in thought. "He probably ate something that he can't digest. It doesn't matter. Let him scream if he wants to."

Lin Yi could more or less guess what Meng Tong was doing now. After all, he had li Zhengming as a spy. He had also heard about the existence of the meridian heart-shattering pill from Shangguan LAN 'er during the month he was in the outer area of the back mountain, so it wasn't hard to connect the two events.

Anyone else would've been a little worried-the more evil a power was, the more likely it was to become stronger in a short period of time. It was a common occurrence in the world of practicing, but Lin Yi didn't care at all.

Lin Yi didn't care if Meng Tong became stronger or became useless. He only cared about one thing-he needed to stabilize his mid Foundation Stage and fully control his newly increased strength. Everything else was just floating clouds.

Ten days later, all the new members of the welcoming new pavilion gathered together to prepare for the last segment of the newcomer's assessment. It was also the most important segment that would determine their future.

Usually, on such occasions, Meng Tong, who had always been arrogant and conceited, would appear early and let a large group of GreenCloud Pavilion's new disciples surround him. He would then call his friends and talk arrogantly, afraid that he would not be the focus of the audience.

This time, Meng Tong's appearance naturally attracted everyone's attention without him saying anything.

"F * ck! What's up with this guy? why is his hair all white?" Qiao hongcai looked at Meng Tong in a daze and couldn't help but rub his eyes.

"This hair ... It doesn't look like it was dyed. It looks like it's naturally white. It can't be the legendary hair turning white overnight, right?" Xiao ran was also in disbelief.

Lin Yi shook his head."Hair is secondary. Didn't you guys notice that his entire aura has changed?"

Xiao ran and Qiao hongcai only came back to their senses after Lin Yi's words, and even the miserable senior was surprised,""Junior Brother Lin is right. Meng Tong used to give people the impression of a pure idiot with no strength or substance. But now, he's completely different. He's twisted like ... Like ..."

"He's just like an injured wild beast. If you provoke him, you'll immediately receive a fatal revenge!" Lin Yi's expression was calm, but he thought to himself, "what kind of evil pill is this Meridian heart-shattering pill? it made Meng Tong change into a completely different person in just ten days!"

If it was just a rebirth of strength, then it would be fine. After all, the Foundation Stage golden core could also have the same effect. But this Meridian heart-shattering pill could actually change a person's temperament. It was simply incredible.

In the past 10 days, horrifying screams had been coming from cave No. 4. Meng Tong was suffering from inhuman torture almost every second, especially at midnight and noon. The screams were so heart-wrenching that it made people's scalps numb. It was no wonder that he had become so twisted in such a strange and evil way in just 10 days.

Under everyone's shocked gazes, Meng Tong slowly walked up to Lin Yi, his eyes bloodshot as he sneered, "The day I've been waiting for has finally come, Lin Yi. Everything I'm in right now is all thanks to you. Are you ready to die?"

With that, Meng Tong turned around and walked to the side, ignoring Lin Yi's reaction. It was as if Lin Yi was already a dead man in his eyes, and there was nothing to pay attention to.

"Interesting." Lin Yi smiled playfully. Before this, Meng Tong had always called him "acting tough leader," never by his full name.

It was only a small difference, but Lin Yi could see the problem clearly.

Meng Tong never used Lin Yi's full name before because he was a twisted person. At least it meant that he couldn't face Lin Yi's existence. He could only use insulting words to gain psychological balance. At that time, no matter how strong Meng Tong was, he was just a tough guy.

But now, from his tone alone, Meng Tong wasn't as arrogant as before, but it was the first time Lin Yi felt threatened by him. One wrong move and it could be a fatal threat.

"Junior Brother Lin, there must be a reason for this abnormality. Even if you're facing a defeated opponent like Meng Tong, you must not let your guard down." The miserable senior brother reminded him. He didn't know about the meridian heart-shattering pill, but he could see that Meng Tong's strength had skyrocketed and was no longer the same as before.

"Don't worry, senior brother ku, I know what to do. " Lin Yi nodded.

A moment later, the head of the welcome Pavilion, Hu Yun Feng, went up to the stage and announced to all the new disciples, ""It's inevitable for people to bump into each other in the martial world. Everyone has an enemy. It's inevitable for there to be friction between you new disciples. According to the rules of the cultivation world, strength is always the most important. It's no exception in our Welcome Pavilion. Therefore, the last part of today's newcomer assessment is specially prepared for you to reconcile your conflicts. It's a challenge."

All of the newcomers began to discuss among themselves upon hearing this. Even if the newcomer's assessment was not taken into account, the welcoming new pavilion was usually free to arrange for a battle as long as there was a witness present and a declaration was made to their respective senior managers. There was no need to set up a so-called newcomer assessment segment just for this, right?

It was obvious that the challenge that Hu Yunfeng was talking about was not as simple as it seemed.

This was a segment that could have a decisive effect on the entire series of assessments. The success or failure of this segment would directly affect whether all the previous efforts would be in vain or whether one would catch up from behind and succeed in a counterattack!

"Every newcomer has a chance to challenge the other newcomers, as well as a chance to be challenged. In addition to the rules of the regular battle, there is an additional bet in this segment. The winner of the challenge can obtain all the points of the loser! "I'll say one more thing. Although we value the assessment points, strength is the way to rule. If you don't have the ability to hold on to your points, it only means that your strength is not up to par. You can't blame anyone. "

Chapter 3940 Sent Flying Again

Hu Yunfeng's words caused an uproar, and everyone looked at each other.

The winner could take away all the points of the loser. This rule was more than just cruel. The guy who came up with this rule was simply a devil!

To the newcomers today, points were their lifeline. It directly determined their future. Snatching their points was no different from snatching their lives. They would definitely fight to the death with you.

However, this cruel rule also made the eyes of some newcomers light up. This was a great opportunity to turn things around! At least, this rule suited Meng Tong's taste.

It just so happened that he'd taken the meridian heart-shattering pill as well, and his strength had increased by a huge chunk-he had enough strength to fight Lin Yi.

Just as Meng Tong was secretly calculating, Hu Yunfeng's next words made his eyes Twitch."Of course, we don't have to fight this time. If any newcomer is named to challenge, they can choose to refuse. However, the price is to hand over 50 points to the opponent. It's fair and reasonable."

Fifty points was an astronomical number for other newbies, but it was a drop in the ocean for a freak like Lin Yi who could get full marks easily. Even a hundred points would be a piece of cake, let alone fifty.

However, this wasn't good news for Meng Tong, who wanted to step on Lin Yi's body to get to the top. What if Lin Yi realized something was wrong and admitted defeat?

Although Lin Yi had always been very pretentious, but at this level of strength, his intuition for danger must be very sharp. It was unlikely that he would continue to give up his life knowing that he would die. Even if Meng Tong's personality had changed, he was still as arrogant and confident as ever.

"I hope this guy continues to act tough. Otherwise, he won't be able to live up to the pain of my heart breaking that I've been enduring for the past few days!" Meng Tong looked at Lin Yi coldly.

After a while, the rules were all explained and the new disciples from the three pavilions began their battles.

And before everyone could proceed to the final battle, the first thing to do was to draw lots. This segment was too critical and fatal to the rookies, so it was necessary to ensure fairness. Drawing lots was to allow the rookies to decide the order of their challenge.

After all, according to the rules, every newcomer only had one chance to challenge and be challenged once. If the order was not decided in this way, it was easy to create a situation where many people were fighting to challenge the same person. Everyone knew that persimmons had to be picked on the soft ones.

The purpose of drawing lots was to solve this problem. Whoever drew a bigger number would have the right to challenge first. And this time, the first GreenCloud Pavilion newcomer to receive the right to challenge was actually Meng Tong.

He didn't know if Meng jueguang had deliberately gone easy on him!

Seeing the white-haired Meng Tong slowly walk up the stage with an unfamiliar and powerful aura, the rookies couldn't help but shrink their necks. Previously, Meng Tong was no longer a weakling. Now, he was inexplicably strong, making people's hearts jump. Whoever was called out by him would really have a heart attack from the trembling legs.

Fortunately, Meng Tong had already confirmed his target. He pointed at Lin Yi and beckoned with his finger, "You know who I'm talking about. Come on up if you're not afraid of death."

Lin Yi smiled nonchalantly, not saying anything as he walked up the stage with a relaxed expression.

"You're not going to admit defeat? If you kneel down now, you can still keep your dog life. " Meng Tong looked at him and raised his eyebrows. At the same time, he unreservedly revealed his imposing manner, which shocked the crowd below the stage.

Even Murong Zhen, who was at the peak of the early stage of the foundation building realm, could not help but change his expression. From his aura, she could feel that Meng Tong's strength was completely above hers. He should be somewhere between the peak of the early stage and the mid stage of the foundation building realm. He might even have the strength of the strongest person below the mid stage of the foundation building realm!

"Admit defeat?" Lin Yi shrugged and smiled faintly. "Why do you want to admit defeat? you don't think that you can defeat me with your little strength, do you?"

"Pretentious! Since you don't want to admit defeat, that's for the best. I'll finish you off today and end all troubles!" Meng Tong hmphed coldly. Lin Yi's strength was terrifying, but with Meng Tong's current confidence, he didn't even put Lin Yi in his eyes.

"Then let's see how it goes." Lin Yi shook his head, his face calm.

Meng Tong didn't waste any more time. An unprecedented explosive force exploded from his feet, trampling the stone stage. His body shot toward his opponent like an arrow.

Below the stage, Meng jueguang was relieved to see this, but his miserable senior brother, Xiao ran, Qiao hongcai, and the others were secretly frowning. What kind of strange encounter did Meng Tong have that his strength could soar to such an extent in such a short time?

At this moment, Meng Tong exuded a powerful pressure that even the audience could not bear. The weaker newcomers even subconsciously took a few steps back, not daring to look at him directly.

However, Lin Yi didn't care about it at all. Facing Meng Tong, who was charging at him, Lin Yi only casually reached out his palm and swatted at him like he was swatting a fly.

Then, Meng Tong was smacked to the ground and could not get up for a long time.

Gah? Everyone present was dumbfounded. The powerful Meng Tong had been knocked down just like that?

The scene was completely unexpected-Lin Yi's strength had been deeply rooted in everyone's hearts after spending a few months in the pavilion, and no one would be stupid enough to underestimate him.

But at the same time, they had also seen Meng Tong's situation these days. It could be said that Meng Tong had been reborn. Even Murong Zhen couldn't help but feel terrified when facing him. How could such a person be weak?

In everyone's eyes, even if Meng Tong wasn't stronger than Lin Yi, they thought that they were at least on par. They didn't expect this to happen!

Indeed, Meng Tong had displayed unprecedented strength, and people couldn't help but be afraid of him. They even started to imagine that Lin Yi was finally going to die this time!

However, all of this was nothing in front of Lin Yi. The powerful Meng Tong in their eyes was like a fly that was easily swatted to the ground.

This scene shocked everyone and they were speechless for a long time.

Finally, Meng Tong slowly got up from the ground and spat a mouthful of bloody saliva at Lin Yi's feet. He cursed and raised his leg to sweep at Lin Yi again.

Bang! Bang! Before the crowd could react, Lin Yi reached out his palm again and gently slapped Meng Tong to the ground..
