

Bodyguard 3971

Chapter 3971 Friendship Between Brothers

Unfortunately, Lin Yi didn't plan on doing that. It wasn't to suppress him, but to protect him.

Although Meng jueguang was dead, his powerful opponents, such as Xu lingchong, were still around. If they knew that Lee Zhengming was a spy from the beginning, Lee Zhengming would inevitably be pushed to the forefront of the storm and become a thorn in the side of Xu lingchong's side. The situation would be very bad then.

Li Zhengming was well aware of this, and he didn't have any complaints. In fact, he was secretly grateful for Lin Yi's kindness. After all, it was in line with his usual low-profile style.

However, keeping a low profile didn't mean that he didn't have to do anything. Only those who were strong could keep a low profile, and those who were weak could be called cowards. If everyone stepped on you and bullied you, then there would be endless trouble. Therefore, Lee Zheng Ming knew very well that if he wanted to keep a low profile, he had to show his strength at the right time to deter others.

Qiao hongcai was the number one general under Lin Yi, and he was the perfect opponent for li Zhengming, who wanted to establish his power.

According to the rules of the welcoming new pavilion, neither side would use any weapons or help from their spiritual pets. It was a pure clash of strength.

Lin Yi had thought that both sides would be on par with each other in terms of strength, and if they were to go all out and fight to the death, both sides would end up with heavy losses. He was even prepared to step in and stop them as soon as something went wrong.

In fact, it was just as Lin Yi had expected at the start. After a few exchanges, both Qiao hongcai and Li Zhengming were equally matched, neither of them losing. The battle between the two was so exciting that even Lin Yi, a mid Foundation Stage practitioner, couldn't help but exclaim in admiration.

These two people were born with fighting talent, and it was destined that they would never be mediocre. Once the time came, they would be like gold that had been washed out of the yellow sand, revealing their extraordinary brilliance.

Lin Yi already knew that li Zhengming had successfully built his Foundation, so he wasn't surprised. The others, on the other hand, had never seen li Zhengming's true strength. They always thought that li Zhengming was only a Sky Class full master, and that he wouldn't be able to withstand a single blow from Qiao hongcai!

However, he didn't expect that li Zhengming's strength had reached such a level that he could actually fight back and forth with Qiao hongcai, a fierce general.

However, this situation did not last long. Everyone soon realized that they had made a mistake again. Lee Zhengming's strength was not only comparable to Qiao hongcai 's, but he was also a powerful existence above Qiao hongcai!

After the time it took for an incense stick to burn, Lee Zheng Ming used his sky frost fist to end the battle without any warning when Qiao Hong Cai's cold iron Palm was still lacking in strength.

"You struck after the enemy attacked. The timing was just right. Beautifully done!" Lin Yi praised sincerely and started clapping, followed by the miserable senior brother and Xiao ran.

Even Qiao hongcai himself unconsciously applauded. He was convinced by today's defeat.

"Lee Zheng Ming, you're indeed very strong. It's a waste of your time to be under the command of a weakling like Meng Jue Guang. From today onwards, no matter what others think, I, Qiao Hong Cai, will treat you as my brother!" Qiao hongcai said sincerely.

He was not stupid, he could clearly feel that Lee Zheng Ming had already shown mercy, otherwise, he would at least be seriously injured, and would not be standing here like nothing had happened.

What's more, although Qiao hongcai seemed carefree and unscheming, he had his own way of judging people, which was to judge people by their fists and feet. A person's fighting style could, to a large extent, tell the person's temperament. This was almost an instinct, which was different from flowery words. It was something that couldn't be faked.

From the battle just now, he could clearly feel that although Lee Zheng Min was a very patient person, when it came to a head-on confrontation, this person's spirit was not inferior to anyone else's. It could be seen that Lee Zheng Min was born with a strong pride.

This sort of person was not someone who liked to play tricks, nor was he someone that a mere Meng jueguang could truly subdue. It was impossible when he was alive, and even more impossible when he was dead. Otherwise, with Lee Zheng Ming's strength, he would have already stood up and called the wind and rain before this, instead of being low-key like an invisible person.

"Many thanks!" Li Zhengming nodded heavily. Qiao hongcai's simple words actually made his nose sour, and he almost shed tears.

He had been Meng jueguang's spy for so long. Because he was destined to never see the light, he had gradually begun to get used to loneliness. He was used to facing everything around him alone. Now that he had suddenly been acknowledged by someone, this feeling of being suddenly accepted by the light was not something ordinary people could experience.

The others didn't know the reason, but Lin Yi knew. He walked over and patted the man's shoulder with a warm smile, "You've worked hard. Welcome back. "

Lee Zheng Ming grinned unnaturally when he heard that. It was an ugly smile, but it was not because he had any other thoughts in mind. It was a smile that came from the bottom of his heart. It was just that he had not smiled for so long that he had forgotten how to smile.

Thinking back, he'd been in the welcoming new pavilion for half a year-not only did he have to shoulder the heavy responsibility of being Lin Yi's spy, but he'd also had to face all kinds of bullying from Meng jueguang and Meng Tong every day. He could only endure it, but he couldn't fight back-naturally, he couldn't smile.

Moreover, the qiushui Manor had been completely annihilated, and he had to bear such a blood debt. Every day, when he closed his eyes, he would see the unparalleled figure of his enemy in the depths of his mind. How could he smile at this?

"Your smile is so ugly. It seems that you have to practice more in the future. Otherwise, when you smile, you look like you're crying. That's too F * cking scary." Qiao hongcai didn't know these inside stories and immediately gave a sharp-tongued comment.

Lee Zheng Min did not know whether to laugh or cry, but he felt a little warm in his heart. It did not feel bad to be brothers with such a simple-minded person.

At this moment, Xiao ran walked over and smiled at Lee Zheng Ming, ""Brother Zhengming, after a few days, when you've recovered your spirit, how about you come and fight with me?"

All of a sudden, there was no sound around them. Qiao hongcai was a militant, so it was within their expectations that he would challenge Lee Zhengming. However, Xiao ran was not such a person, and he wouldn't make a move easily under normal circumstances.

Qiao hongcai had always wanted to have a match with him, but he didn't agree. Now, he actually took the initiative to challenge Lee Zhengming. Was he just excited to see his prey, or did he have some other meaning?

Lee Zhengming was slightly stunned. After exchanging a glance with Xiao ran, he nodded and agreed, ""Sure, then I'll have to ask brother Xiao ran to teach me."

Chapter 3972 Meng Tong's Regret

The tension between the two seemed to be building up, and the bitter-looking guy couldn't help but Pat Lin Yi on the back, worried. "Junior Brother Lin, aren't you going to stop him? He has just joined us, and now he's been challenged by brother Qiao and brother Xiao. I'm afraid Lee Zhengming will be angry!"

"Complaints? Hehe, they're not such shallow and boring people, so you don't need to worry about them, senior brother ku. " Lin Yi, on the other hand, didn't mind.

Lin Yi had a much deeper understanding of his men than anyone else present. There were only two reasons why Xiao ran did this. One was that it was rare to meet Masters of the same level, so it was inevitable that he would be excited. This was human nature, and Xiao ran was no exception.

As for the other point, it was something that even Lin Yi himself was interested in. Right now, most of the new disciples in the pavilion had joined Lin Yi, but there were only three people that Lin Yi would value and have the potential to take on important responsibilities.

Xiao ran, Qiao hongcai, and Lee Zhengming, who had just joined them, were the last possible candidates.

It was inevitable for the three of them to compete against each other, and it was something that had to be done. Now that li Zhengming had won against Qiao hongcai, it didn't matter who won between him and Xiao ran, Lin Yi's position as the number one man under Lin Yi's wing would be secured-there was no doubt about it!

The others might not be able to see this, but the three of them must have already understood it.

Lin Yi was extremely curious about this as well. After all, the three of them had extraordinary talent and potential, and they would all be strong subordinates when they grew up. Who was stronger among the three would determine who would become Lin Yi's most important right-hand man in the future!

As soon as li Zhengming joined Lin Yi, the news of Qiao hongcai and Xiao ran challenging him to a fight spread like wildfire. Naturally, this matter became the most popular topic in the welcome Pavilion.

Such a lively event naturally could not escape Murong Zhen's eyes and ears. After hearing about it, he immediately went to find Meng Tong in anger.

"What is it?" Meng Tong let Murong Zhen into the cave weakly. His face was so pale that it was terrifying. He looked like he was seriously ill.

Lin Yi's injuries last time, although the class 4 great recovery pill had saved him from dying on the spot, the pill's effects clashed with the meridian heart-shattering pill in his body, and his injuries hadn't fully recovered yet.

Moreover, he had to endure the inhuman pain of having his heart shattered every day at noon. Coupled with the shock of Meng jueguang's death, it was a miracle that Meng Tong was still alive.

"How did you end up in this state?" Murong Zhen furrowed his brows.

It was true that she didn't think highly of Meng Tong before, but ever since he took the meridian heart-shattering pill and became a whole new person, she could clearly feel that this guy's strength was already slightly above her own, so her impression of him had changed. It could even be said that she was looking forward to it. Even after Meng Tong was defeated by Lin Yi, she didn't look down on him as before.

"If you have something to say, then say it." Meng Tong glanced at her coldly. At first, he had been drooling over this woman, but ever since he had returned from the back mountain, this desire had faded. Especially after he had taken the meridian heart-shattering pill, his temperament had changed greatly, and he no longer paid too much attention to this woman who only knew how to sell herself.

Murong Zhen was stunned and his face turned red. Since when had she, the great beauty Murong, ever been disrespected by a mere Meng Tong?

However, Murong Zhen suppressed her anger. Now that Meng jueguang wasn't here, if she wanted to go against Lin Yi, she had to make all the Allies she could. Kang Zhaoming was one, and Meng Tong was another.

If it was said that before this, she and Lin Yi were only on different sides, but after the Banyue Lake incident, Lin Yi had become a thorn in her side that she had to get rid of. If she wanted to deal with Shangguan LAN 'er, Lin Yi would be the first Tiger in her way.

When a scheming woman like Murong Zhen made up her mind to do something, she was absolutely terrifying. No matter how bad Meng Tong's attitude was, as long as they were on the same side, she would bear with it.

"Li Zhengming's joining Lin Yi, you know about this, right?" Murong Zhen said, suppressing his displeasure.

"There's such a thing?" Meng Tong was slightly surprised. He had been hiding in his immortal's cave to recuperate these past few days, so he knew very little about the outside world. Even Meng jueguang's death had been told to him by Murong Zhen.

"I don't know what you're planning, but from what I can see, it doesn't matter if the other people joined Lin Yi. After all, they're just useless trash. But li Zhengming is different, he's no small fry." Murong Zhen said.

"Extraordinary? Which eye of yours saw that?" Meng Tong laughed coldly as he panted heavily. He had looked down on Lee Zhengming for a long time, not to mention now that he had been reborn.

Murong Zhen shook his head and said slowly, "I'll only say one thing. He was challenged to a fight by Qiao hongcai, and he won without a hitch. "

"What?" Meng Tong's face suddenly changed. Just like the others, he had always thought that Lee Zhengming was just a weak Sky Class full master, so he had never taken him seriously. But this guy, Lee Zhengming, could actually beat Qiao hongcai?

After three exchanges, he was well aware of how strong Qiao hongcai was. Strictly speaking, even if he had taken the meridian heart-shattering pill and transformed himself, it wouldn't be easy to deal with Qiao hongcai, who was at the early Foundation establishment stage.

The fact that Lee Zheng Ming was able to defeat Qiao Hong Cai meant that this guy had at least reached the foundation building stage, and he was a first-class existence among his peers!

"This guy was supposed to be a powerful chess piece for us to use against Lin Yi. I thought that after Meng jueguang's death, you'd at least try to win him over. I didn't think that you'd just let him join Lin Yi without a care!" Murong Zhen said unwillingly.

Logically speaking, after learning of Meng jueguang's death, Meng Tong, as the number one subordinate, should have immediately stepped forward to try and take over Meng jueguang's men.

However, Meng Tong didn't do so. For one thing, he was busy with his closed-door cultivation to recuperate, so it was inconvenient for him to meet people. For another, he didn't like these good-for-

nothings who hadn't even reached the foundation building stage, so he didn't want to waste his energy on them. He didn't expect to have a foreign species like Lee Zhengming, who had hidden his strength.

If Murong Zhen had known that this would happen, he would have tried to win over Lee Zheng Ming. If he could get this man to join him, he would be a great help in the future.

Chapter 3973 Searching For The King Of Trash

"If that's the case, then I've really miscalculated." Meng Tong was also quite vexed. If it were in the past, he might have been stubborn, but now his heart had changed greatly. Although he didn't look like a normal person, he was much more tolerant than before.

However, Murong Zhen suddenly said,""To be honest, as far as I'm concerned, li Zhengming joining Lin Yi's side might not be a foregone conclusion."

"What do you mean?" Meng Tong couldn't help but ask.

"I've already said that Lee Zheng Ming had just joined Qiao Hong Cai's side, and Qiao Hong Cai immediately challenged him to a fight. It was a show of strength, and yet he won. Can you guess how Qiao Hong Cai would feel?" "Besides, I heard that Xiao ran challenged Qiao Hong to a fight right after he was defeated by Lee Zhengming. I don't think I need to tell you what he's trying to do, do I?" Murong Zhen said.

"You're saying that li Zhengming's been pushed out by Lin Yi's direct disciples?" Meng Tong's eyes lit up.

Such a thing was not impossible. If Meng Tong were in Qiao hongcai and Xiao ran's position, he would probably take the same measures in order to consolidate his position. Otherwise, he would not have been able to suppress Lee Zheng Ming in front of Meng Jue Guang.

"That's right, so this is our chance. We can think of a way to reverse Lee Zheng Ming's position!" Murong Zhen's eyes lit up.

"Sure, I don't have any objections," Meng Tong glanced at Murong Zhen and said, "This kind of thing should be your specialty. You don't need me to come out, right?"

Except for a few foreign species, Murong Zhen's beauty trap was very effective most of the time in the welcome Pavilion, where no woman could be seen all year round.

"It's not a problem for me to come forward, but since Lee Zheng Ming has been enduring for so long, he can't be such a shallow person. Whether you can turn him around or not, the key is your sincerity." Murong Zhen pointed out.

She'd seen how Meng Tong treated Li Zhengming back in the mountains. In her opinion, Li Zhengming only joined Lin Yi because he was forced by Meng Tong. If Meng Tong didn't change his attitude, it would be all in vain no matter how much effort she put in.

Meng Tong's expression froze. After a moment, he said in a deep voice, "Go ahead and seduce him. I know what to do when the time comes."

"Very good, then you can wait for this Beauty's good news." Murong Zhen smiled, then turned around and left. As long as Meng Tong was willing to apologize to Li Zhengming, she believed that with her charm, it would be easy to seduce Li Zhengming.

However, he didn't go look for li Zhengming right away after he returned. After all, li Zhengming had just joined Lin Yi, and even if he was pushed aside, it was only the beginning. He didn't have a deep enough experience.

Instead, it was better to let him feel it for a while, especially after he fought with Xiao ran. The conflict between the two of them would definitely intensify. If she waited until Lee Zhengming was suffering, she would be able to get twice the result with half the effort and capture him easily.

Of course, even though she put the matter of li Zhengming's betrayal on hold for now, Murong Zhen wasn't just sitting around doing nothing. The most important thing right now was to hook onto Kang Zhaoming's side. No matter what, this was the meat that was in her mouth, and it was definitely something she could benefit from.

Soon, with Murong Zhen's help, her efforts weren't in vain. Kang Zhaoming had given her a decent reward.

After getting Xu lingchong's approval, Zhaoming took the initiative to suggest to Hu Yunfeng that Murong Zhen be the second Shixiong in charge of the new disciples.

This suggestion was exactly what Hu Yunfeng wanted. Now that his senior brother had become the new manager of the GreenCloud Pavilion, although the position of second senior brother seemed insignificant and didn't have much actual power, it was a rare nail in the coffin. In the current situation, it had an irreplaceable role.

With a single order from Hu Yun Feng, Murong Zhen immediately transformed into the second senior brother (Senior Sister) of the GreenCloud Pavilion's new manager.

Lin Yi didn't really care about this-these things weren't even worth mentioning. His priority right now was to go to the pavilion, and his goal was to find the king of junk.

It'd been a few months since he'd made the deal with the king of junk, and while he'd had a lot of things to do, Lin Yi still felt a little sorry for him.

Now that the threat of Meng jueguang had been taken care of, and there weren't any other important things to do, it was time to fulfill the deal with the king of junk. Lin Yi needed to level up his staff as soon as possible, or else a sky-grade weapon couldn't be used in the Foundation Stage.

After getting a general idea of the Qingyun Pavilion's internal situation from the poor guy, Lin Yi set off immediately.

Alone, Lin Yi quickly arrived at the territory of the Qingyun Pavilion. The territories of the three great pavilions were usually heavily guarded, especially places like the skyward Pavilion. Last time, Xiao ran was almost killed when he went in to look for someone. He was lucky enough to run into Shangguan LAN 'er and was able to survive.

However, although the three pavilions were of the same level in name, the difference between them was like the difference between heaven and earth. Compared to the heavily guarded rising Sky Pavilion, the GreenCloud Pavilion's defenses were so loose that it was as if they didn't have any defenses at all. From the beginning to the end, no guards came to question Lin Yi, who had suddenly appeared as an unfamiliar face. They moved around freely.

Of course, Lin Yi's destination was only the outer area of the foot of the mountain. If he really entered the inner area of the power center, it would be a different scene.

"Senior brother, may I ask if Wang lanpo lives here?" Lin Yi had asked the guy before-the guy seemed to be living in a wooden house at the foot of the mountain, but he couldn't find any after looking around.

"Wang lanpo? "Who is this person? I've never heard of him ..." The man frowned and immediately turned to leave. However, he was stunned for a moment before he suddenly turned his head and said, ""I've never heard of Wang lanpo, but there's a famous guy here called the king of junk. "

Lin Yi didn't know whether to laugh or cry-the king of junk was Wang lanpo, after all. What was this guy doing? people only remembered his nickname, but never even heard of his real name.

"That's him. Can senior brother tell me where he lives?" Lin Yi asked.

The man looked around and pointed in a direction. ""That guy used to live in a wooden house not far from here, but it seems like he's in trouble now. You can go over and take a look. Whether you can find him or not will probably depend on your luck."

Chapter 3974 Qing Song Chased

"Many thanks." Lin Yi nodded and headed in the direction the man was pointing.

After a while, Lin Yi found a pile of ruins at the foot of the mountain. Looking at the remains, it should be the wooden house that the man was talking about.

Lin Yi couldn't help but be surprised. If this really was the king's residence, then this guy wasn't just in trouble, he was in big trouble. Even his residence was burned down so blatantly, how deep was the hatred?

After all, the king of junk couldn't have been bored and burned it to relieve his boredom, right?

Fortunately, the king of junk was at the peak of the early Foundation establishment stage. Unless he was killed, a fire like this should not be able to hurt him.

But this way, if they couldn't find the king of junk, Lin Yi would be in trouble. With his current identity as Lin er, even if he got rid of the threat of Meng jueguang, he still couldn't show his face too openly. If he couldn't find the king of junk in a short time, he'd have to return with nothing.

Just as Lin Yi was hesitating whether he should stay here or not, three figures suddenly rushed over from behind. They were still very far away, and they started attacking Lin Yi without saying a word.

Lin Yi was shocked, subconsciously thinking that his identity had been exposed. It wouldn't be good news for him if he made a big scene here.

However, this was the territory of the GreenCloud Pavilion after all. If someone were to really die Here, the situation might spiral out of control, and there would be no end to the troubles.

Lin Yi didn't have time to think too much as he dodged the attack with his butterfly microsteps. He said coldly, "Who are you? What business do you have?"

"Hmph, what else is there? of course, I'm here to settle the score with you. You dare to steal our things? Last time, I only burned your broken wooden house. You really got off easy. Today, I'll make you remember!" The leader frowned and laughed coldly, but paused when he saw Lin Yi's face. "You ... You're not the king of junk?"

"What do you think?" Lin Yi said faintly.

The three of them could not help but look at each other. However, after realizing that they had mistaken him for someone else, they did not stop there. Instead, they said eloquently, ""Even if he's not the king of junk, he must be his accomplice. Taking care of this kind of trash is enforcing justice on behalf of the heavens!"

"Help the heavens? Ha, what a infuriating fellow. " Lin Yi frowned as the aura around him exploded. The burning fist intent covered the entire area as if the god of fire had appeared.

As a powerhouse, there was no need to be too tolerant when facing this kind of blind trash. If he found them noisy, he could just knock them down with one move.

The three of them were only at the peak of the early Foundation Stage. In Lin Yi's eyes, they couldn't even take one hit.

In just one exchange, all three of them had fallen to Lin Yi's simple fist, the twenty-four styles of the wild fire Fist. Each one of them was burnt black and looked terrible. If Lin Yi didn't hold back on purpose, the three would've been burnt to ashes already, not even a corpse would be left.

"The GreenCloud Pavilion sure is weak. It's called a place for good-for-nothings," Lin Yi shook his head speechlessly. These three were all inner sect disciples for show. He thought that they would at least have some strength after seeing how arrogant they were before. He didn't think that they would be so weak. It really made him speechless.

After a while, the three people who were lucky enough to survive finally came back to their senses. They looked at Lin Yi from a distance and ran away as if they had seen a ghost.

If one had to describe the feelings of these three people at this moment, it could only be described in four words: they wanted to cry but had no tears.

He was clearly here to settle scores with trash like King of junk, who didn't even know what he was fighting with, but in the end, he had inexplicably kicked an iron plate. How could this thing be reasonable?

Looking at this ruthless man, he was probably from the rising Sky Pavilion, right? When they thought of this, the three of them thought that they were really lucky that they weren't crippled!

Lin Yi smiled faintly in disdain, letting the three escape. He didn't have the intention to kill them all-these three guys would've been dead long ago if he'd wanted to.

"They've already run away. Can you come out now?" Lin Yi said as he looked behind a rock in the ruins. This guy was hiding very well, and even Lin Yi didn't notice it at first, but when he was hit by the wild fire Fist, there was clearly some movement behind it.

After a while, there was still no movement from behind the rock, not even a faint breath. Logically speaking, with Lin Yi's sharp senses, there was no way he couldn't detect it at this distance.

If it were someone else, they'd probably think that it was an illusion, but Lin Yi was confident. He smiled, "If you still don't come out, then don't blame me for not being polite and giving you another punch."

With that, Lin Yi condensed his fist intent again, and there was finally movement behind the rock.

"Wait, wait, wait, I'm out!" An embarrassed figure immediately jumped out of the ruins. His clothes were burnt and tattered, and his face was also charred. At first glance, he looked like an African refugee.

Before Lin Yi could say anything, the man quickly bowed, "Big brother, I really didn't mean to steal your spirit beast materials. Didn't you already throw them away? at most, I just picked them up and made use of them. How can this be considered stealing?"

Lin Yi blinked, not knowing whether to laugh or cry. He might not be able to recognize him just by looking at the weird shape, but he could tell from the voice that this was the king of junk he was looking for.

King of junk, why don't you think about it again and see if you stole my spiritual beast materials?" Lin Yi raised an eyebrow and joked.

"This ... This really can't be considered stealing! You were the ones who were blind and threw away good things as if they were trash. In the end, I picked it up and you insist that I stole it, and even want

me to compensate you with spirit Jade. Don't you think I'm being wronged?" Trash King didn't even dare to look at Lin Yi in the eye as he cried.

"Injustice? Then why don't you tell me what you picked up? maybe you've made an error in judgment?" Lin Yi said playfully.

"Junk? Do you dare to say that the thing I picked up after so much trouble is trash?" The king of junk was like a cat that got its tail stepped on-he changed his attitude immediately and sneered at Lin Yi,"Then I'll say that I'll open your eyes. Black Toad tail, Fox-bear bone, Wolf-Spider hair, these are all worthless trash in the eyes of outsiders like you. However, in the hands of a forger like me, once they are used well, they are all priceless treasures. They are not inferior to those materials that are easily worth hundreds of spiritual jades. It's just that you don't know what they are, so who can you blame?"

Chapter 3975 Waiting Here

Lin Yi couldn't help but smile."Black Toad tail, foxbear bone, tarantula fur-it sounds like you did pick up a lot of things. Do you remember the front paw and tail of the nine tailed cloud piercer leopard?"

"A Nine-Tailed cloud piercer leopard? This guy's entire body was full of treasures. Who would throw out the things on its body as if they were junk? was there something wrong with their brains? Wait a minute, you mean the Nine-Tailed cloud piercer leopard?" The king of junk mumbled subconsciously, but when he took a closer look at Lin Yi, he froze as if he'd been struck by lightning. He was so excited that he couldn't even speak properly,"You ... You're that who, that Lin brothers?"

"Hehe, you finally recognize me. I thought that after such a long time, brother Wang was ready to turn hostile and not recognize me anymore?" Lin Yi smiled faintly.

"You flatter me. I've been waiting for you for months. How could I turn my back on you?" Worn-out King was overjoyed. He treated forging as his life, and it was rare for Lin Yi to agree to handle a high-end

material like the Nine-Tailed cloud piercer leopard. It was something he had been dreaming of, and he couldn't calm himself down every time he thought about it.

For the past few months, the king of junk had been making all kinds of preparations for this. The reason why he went out and tried to get so many spirit beast materials was also because of this consideration.

The king of junk once suspected that Lin Yi had forgotten about it. He called himself a forger, but he'd never made any decent weapons before, and he didn't think it was convincing at all. He wouldn't be called the king of junk otherwise, and it was normal for people to forget about him.

If Lin Yi didn't mention the Nine-Tailed cloud piercing leopard, the king wouldn't have linked this person to Lin Yi at all. He would've thought that this person was here to cause him trouble like the other three.

Seeing the king of junk's ecstatic expression, Lin Yi couldn't help but sigh. It wasn't easy for the king of junk-he was in such a bad state, but he was still obsessed with forging. At least it proved that his passion for forging was unparalleled. Just this point alone made Lin Yi feel that he had found the right person. Whether it was Dead or Alive, as long as one put their heart into it, everything in the world would have a spirit. For someone like the king of junk who could fully concentrate on forging, he believed that no matter how low the level of the things he forged, they would not be ordinary.

"Brother Wang, it looks like you've been in a lot of trouble recently?" Lin Yi pointed at the ruins and smiled.

The king of junk's expression froze. He scratched the back of his head awkwardly and smiled awkwardly. "I've really made a fool of myself, brother Lin. I was just picking up something from the pile of junk they threw away. I didn't expect to cause so much trouble. They were the ones who threw away something they didn't want, but I picked it up and they insist that I stole it. Brother Lin, don't you think they're being too unreasonable?"

"Hehe, people are all like this. If you just throw some trash that no one wants, it's fine. But once they know that they threw the wrong thing, it's like cutting a piece of meat off their body. Of course, they won't let you off." Lin Yi shook his head and asked, "How did they know that they had made a mistake? brother Wang, did you pick up these things in front of them?"

The king of junk scratched his head awkwardly and laughed. ""The reason is also because of me. Brother Lin, you can also see that people like me can't bear to see others waste good things. When I saw them throw away good things like they were trash, I couldn't help but Mutter a few words. Later, I don't know why, but they heard about it, so they came to find me."

Lin Yi didn't know whether to laugh or cry. The king of junk was just like that. When he first made a deal with Chen heihu, it was this guy who couldn't help but say a few words, and Lin Yi changed his mind at the last minute.

In that case, the reason was actually the king of junk himself. If those people knew that the junk they had thrown away was good stuff and had been picked up by someone else, it would be strange if they could feel good.

As long as those people were a little narrow-minded, they would definitely come to find trouble, not to mention that the king of junk was a coward who could be slaughtered at will. It was clear that trash King's emotional intelligence was not high.

"Looking at the situation, they should have come to find you more than once. Brother Wang, why don't you hurry up and leave this troublesome place? instead, you're left here in such a sorry state?" Lin Yi asked, confused.

The house had been burned down a few days ago, and the king of junk's burnt body wasn't caused by Lin Yi's fist at all. After all, the fist was all locked on the three men, and the king of junk was only slightly affected by the fist intent.

If he was not wrong, the king of junk's appearance was left behind when the wooden house was burned. If it were anyone else, they would definitely find an opportunity to leave these few days. Even if they were worried and came back to take a look, they would at least wash up and not look like this.

"Hehe, I was just afraid that brother Lin wouldn't be able to find her, so I've been waiting here." The king of junk said honestly.

Lin Yi didn't know what to say, but at the same time, he was touched. He didn't care about the danger and stayed where he was just for a promise with a stranger-it was rare to see someone as honest as the king of junk these days.

"Brother Wang, you've been staying here all this time? Did they not notice you when they burned down the house last time?" Lin Yi couldn't help but ask curiously. The king of junk was indeed weak, but from what he felt just now, he seemed to be pretty good at hiding.

"That's right. Last time, they couldn't find me, so they burned my house to vent their anger. In fact, I've been hiding here the whole time. It's just that I've been using a calming heart and holding breath technique, so most people can't detect me." The king of junk laughed smugly.

"Calm heart and hold breath?" Lin Yi blinked.

"That's right, this is a compulsory mental cultivation method for us blacksmiths. Brother Lin, you might not know this, but forging is a very taxing job that consumes a lot of mental and physical energy. Especially if you want to forge something good, it would take months, years, or even decades. During this process, you have to pay close attention to the entire process and not allow the slightest mistake. Even if it's a powerful expert, it's very difficult for them to persist. It can allow one to maintain their mental and physical strength for a long time, but when using the heart technique, the corresponding aura will also be restrained to the extreme, achieving the effect of invisibility. " The king of junk explained patiently.

Chapter 3976 Sun Sikong's Disciple

"So that's how it is. The path of weapon forging is truly profound and extraordinary." Lin Yi said, full of emotion.

Speaking of which, he had already tried to forge when he was in the secular world. That was how he got his steel staff. At that time, he thought that forging wouldn't be too difficult. It was just that everyone specialized in their own field, so he was still in the stage of fumbling around.

But now, from the king of junk's words, Lin Yi could already feel the depth of this profession. It was no less profound than alchemy, and if he looked down on it, it would be the embodiment of ignorance of a layman.

Those three were at the peak of the early Foundation Stage, after all. It was almost impossible to get away from them, especially when they burned down a house. Only Masters like Lin Yi could do that.

However, the king of junk had managed to do it. It was clear that the blacksmith's exclusive calm heart and breath holding technique was indeed extraordinary.

"That's for sure. I'm not boasting. Even if one were to study the Dao of weapon forging for a lifetime, one would at most have a superficial understanding of it. It's simply impossible to completely master it.

"The king of junk was fascinated. After a pause, he rubbed his hands and said eagerly,""Brother Lin, time is precious. Can we start as soon as possible?"

Lin Yi blinked at how impatient the guy was, and couldn't help but chuckle to himself. He pointed at the ruins,"I don't have a problem with it, but is it right here?"

The king of junk shook his head and said,"of course not. Forging weapons is the same as refining elixirs. The environment is very demanding. If you want to refine elixirs, you'll at least have an alchemy furnace. However, forging weapons doesn't have a forging furnace. You'll have to find a good place that meets the conditions."

"Then where are we going to find such a place?" Lin Yi asked, confused.

In front of the king of junk, he was a complete layman. Since he had asked the king of junk for help, he could only let the other party make the decision. All he had to do was to cooperate.

The king of tatters put on a profound smile.""I know of a good place, brother Lin, just follow me."

Lin Yi didn't object to it and let the king of junk lead the way. The two walked for an hour before they finally reached their destination.

Looking at the entrance of the cave, which was as tall as a person but hidden by a pile of wild grass, Lin Yi was speechless."Brother Wang, if I'm not mistaken, this place should be near the spirit jade mine, right?"

"That's right, it's right next to the spiritual jade mine, and it's not too far from the best mining areas of the spiritual jade mine, Kuangqu one and two. If you're lucky, you might even be able to dig up spiritual Jade in the cave!" The king of junk led the way into the cave and answered without looking back.

"It's not far from the first and second Kuangqu?" Lin Yi was surprised again.

If that was the case, it was indeed possible to dig out spiritual Jade if he wanted to. However, if the king of junk knew about such a treasure land, why did he end up in such a state?

After all, this place was not like Kuangqu spirit Jade Hall, which had people supervising it. As long as one casually dug up spirit Jade here every day, no matter how much it was, it would all be his. His life should be quite comfortable. It should not be that he could not even afford a few spirit beast materials and could only shamelessly pick up the trash that others threw away, right?

"That's right! However, I was just joking. Brother Lin, please don't take it seriously. Please don't touch the walls of the cave and don't even think about digging out the spiritual Jade. If you accidentally touch the protective array inside, we'll both die." As the king of junk spoke, he took out a fluorite that he had prepared earlier and led the way into the depths of the cave with great familiarity.

Lin Yi's heart moved, "if I'm not wrong, since this place is so close to the first and second Kuangqu, it should be within the protection array. Maybe we stepped on the protection array already, but we don't know why we didn't trigger it. Why would there be a cave like this?"

The king of junk shook his head and said, "I don't know. Maybe it has something to do with my master. He brought me here the first time, and then he left without saying goodbye. So, no one else has come to this cave except me."

"Sun sikong?" Lin Yi blinked. The first time they met at the market, the king of junk said that he learned from a master forger called sun sikong for a few days-this must be the master he was talking about.

"That's right. My master is very powerful. It's not impossible for him to build a cave under the protective array without the three pavilions knowing." The king of junk's face was full of admiration.

"I really want to meet such an expert if I have the chance." Lin Yi said, excited.

This cave looked simple. However, the ability to appear in such a tight defense array without being discovered by anyone was not something that could be clearly explained in one or two sentences. The one who created this cave was at least remarkable.

"Heh, this depends on fate. Masters like my master have always been elusive. I'm afraid the chance of meeting him again in this life is slim." The king of junk sighed.

As the two of them spoke, they had already reached the depths of the cave. The front was much more spacious than the passage. It was about thirty to forty square meters in area, and there were many strange props placed in it.

Trash King smiled at Lin Yi's curious look, "These are all supplementary molds that might be used during the forging process. However, whether they are useful or not depends on what kind of weapon you want to forge. Speaking of which, brother Lin, do you have any thoughts or requirements?"

"Yes, I came to you this time because I want you to help me upgrade a weapon." With that, Lin Yi put down the bag he'd been carrying and pulled out a plain-looking Fire Stick-it was his steel staff.

The king of junk's eyes brightened when he saw the steel staff. He took it and examined it carefully from head to toe. He touched it with his hand and commented,""This thing, the materials used are all good. It can be seen that the forging was quite creative, but the properties of the materials were not fully explored. It's a bit of a waste."

Lin Yi couldn't help but wipe his cold sweat as he smiled bitterly."This is something I fumbled around on my own. I'm sorry to have embarrassed myself, brother Wang,"

The king of junk was shocked as he looked at Lin Yi with his eyes wide open,"So brother Lin is also a weapon forging master? I'm sorry, I'm sorry. I was just talking nonsense just now, please don't take it to heart. "

Chapter 3977 Fainted

He was counting on Lin Yi to give him good materials so he could satisfy his forging addiction. If he offended Lin Yi or made Lin Yi leave in anger, he'd be in deep trouble.

"You're too kind. Compared to brother Wang, I'm just a layman who knows nothing. I want to take this opportunity to learn the art of forging from brother Wang. Is that possible?" Lin Yi only smiled.

Naturally, Lin Yi was a forger, but he was just a half-assed one. What really confused Lin Yi was who this sun sikong was. Back then, han Jingjing also said that her master was called sun sikong. Could these two sun sikong be the same person? Then how did he come to Sky Class Island? Was he also a legend like Zhang Liju? Lin Yi's respect for her grew.

The king of junk replied excitedly, "brother Lin, you're being too serious. It's my dream to have a like-minded person to explore the path of smithing with. Don't worry, brother Lin. I'll tell you everything I know."

"Then I'll thank brother Wang in advance." Lin Yi nodded in thanks and took out the high-grade spirit beast material that the king of junk was looking forward to-it was the Nine-Tailed cloud piercer leopard's front claw and whip tail.

Upon seeing these items, the king of junk's eyes immediately lit up. Like a hungry wolf seeing sheep, his entire aura changed instantly.

Lin Yi felt a strong presence from him-it was clear that even if one wasn't strong enough, when one was fully focused on something, they could still tap into their potential.

"These are all good stuff!" The king of junk held these things in his arms like they were treasures, carefully reaching out to touch them, for fear of dirtying them. Looking at his posture, he wanted to sleep with these things.

After being happy for a while, the king of junk finally realized that Lin Yi was still in front of him. He took out a few things and introduced them to Lin Yi one by one. They were the black Toad tail, Fox bear bone, and wolf spider fur he mentioned before.

"Brother Lin, don't look down on these things. They aren't the most valuable parts of their respective spirit beasts, but I've spent a few months searching for them. When matched with your Nine-Tailed cloud piercing leopard, they're definitely good stuff. The compatibility between the two materials is very high, and they're no less effective than any other spirit beast material." The king of junk showed it to Lin Yi in high spirits.

"It's been hard on you for the past few months, brother Wang. " Lin Yi thanked him from the bottom of his heart.

"No, no. What's so hard about it? to me, this is a good job that I enjoy. I can't wait to be happy." The king of junk laughed.

After a pause, he looked at Lin Yi's steel staff and scratched his head,"Brother Lin, you never told me about this before, so I didn't think about it in detail. But you don't have to worry, I just roughly observed it, and your stick doesn't conflict with the materials of the Nine-Tailed cloud piercer leopard. It shouldn't be a problem to upgrade it. Also, there aren't many materials involved, so I believe it won't take long to complete it."

Even with Lin Yi's layman's eyes, he could tell that trash King was a forging maniac. He had real skills in his stomach, and if he was given the right opportunity, he might be able to shock the world.

This King of junk, who was belittled and looked down upon by everyone, was actually a buried gem. Once it bloomed its brilliance, it would definitely amaze the world.

Seeing how excited the king of junk was, Lin Yi quickly said,""Brother Wang, please wait. I have other materials on hand. You can take a look first."

"Oh? Hurry up and take it out. " The king of junk's eyes lit up as he urged impatiently.

Lin Yi smiled and took out a small bottle from the cloth.

The king of junk took it and opened the bottle. As soon as he took a look, he was stunned. He sniffed it carefully with his nose in disbelief and even dipped his finger into it and tasted it. After a moment, he became fanatical, and his eyes glowed green like a hungry wolf.

"Brother ... Lin, this ... This is the legendary Pure Land of the ancient times?!" The king of junk stuttered.

"That's right. Brother Wang has good eyes. Ordinary people wouldn't be able to recognize this thing." Lin Yi praised with a smile.

The ancient Pure Land was such a rare and obscure treasure. Except for the old monsters like the ghostly thing, who had lived for an unknown amount of time, ordinary people couldn't recognize it. They had never even heard of it. Even Yu Zhe, who had been immersed in ancient books all year round, might not be able to recognize it. It was clear that the junk King was really good at forging weapons.

The king of junk's eyes rolled back and he almost fainted. He looked at Lin Yi with tears in his eyes and almost knelt down, "Brother Lin, you're really my reincarnated parent. To be able to see such a legendary material, I have no more regrets in my life."

"Don't worry, I still have something to take out. " Lin Yi saw the king of junk's satisfied expression and laughed. He took out something from his bag and handed it to him.

"This, this is a thousand year tree crystal? To think that you even have something like this. May I be so bold as to ask, brother Lin, just Who are you?" The king of junk's eyes were wide open, and he could not stop drooling from the corner of his mouth. He looked like he had lost his soul.

"I'm not a God, but I have to show you something else. " With that, Lin Yi pulled out another piece of wood like he was performing a magic trick and handed it to the king of junk.

The king of junk took the piece of wood and looked at it carefully for a long time. Then, without a word, he fell to the ground with a thud and fainted.

Lin Yi didn't know whether to laugh or cry at the scene. The 10000-year tree crystal was extremely rare, and it was a huge impact when put together with the ancient Pure Land and the 1000-year tree crystal, but the king of junk fainted on the spot. It was a little too much.

This was also because he had met someone like the king of junk who knew what was good. If it was an ordinary person, with the ten thousand year tree crystal, ancient Pure Land, and other such trashy things, they wouldn't even be able to recognize it, let alone be provoked.

After a long time, the king of junk finally woke up. He looked at the priceless items in front of him and almost fainted again.

Lin Yi quickly stopped him and joked, "Brother Wang, you're a blacksmith after all. I've only let you take a look at the materials, but you've fainted again and again. How am I supposed to ask for your help?"

Only then did the king of junk manage to calm himself down. He scratched his head awkwardly and laughed foolishly, but his eyes could not move away from the treasures such as the 10000-year tree crystal.

Lin Yi could tell that this guy didn't have any greed for it-it was pure admiration from the bottom of his heart, giving off the feeling of a believer meeting a God from the legends, with a sense of worship from the inside out.

Chapter 3978 A Weapon That Can Evolve

The king of junk didn't pass out again, but he still had that blank expression on his face. Lin Yi had to ask again, ""Brother Wang, other than the Nine-Tailed cloud piercing leopard and the materials you got, there's also the 10000-year tree crystal, 1000-year tree crystal, and the ancient Pure Land. It should be more than enough to upgrade my steel staff, right?"

Unexpectedly, the king of junk suddenly said with a serious face, ""Not enough. Of course, these things are far from enough!"

"What?" Lin Yi blinked, wondering if this guy had really gotten greedy and had some ideas he shouldn't have. He had so many rare items to upgrade a mere steel staff, how could it not be enough? This guy couldn't be thinking of taking the opportunity to extort, right?

No matter how much of an amateur Lin Yi was, he had at least some experience with forging and had some understanding of it.

In his estimation, if he wanted to upgrade his steel staff, ordinary materials and a thousand-year tree crystal should be enough. Now that he had the 10000-year tree crystal and the ancient Pure Land, it was definitely more than enough.

"Brother Lin, I don't mind telling you the truth. Your steel staff can be considered a good item at the heaven rank, but its quality isn't that high. If you use these top grade materials to upgrade it, it's more than enough, and you can guarantee a 100% success rate. However, doing so would be wasting these rare materials." The king of junk said with a pained expression.

Lin Yi nodded in realization. It was just as King of junk said-in terms of value, his steel staff wasn't even as rare and precious as the ten thousand year tree crystal. It was like replacing a car that cost tens of thousands with a top-tier component that cost millions-it was a waste.

"Then what should we do? It's not good to just throw away the fine steel staff and not use it, right?" Lin Yi said, troubled.

It would be a waste to use these top-tier materials to upgrade his fine steel magic staff, but the fine steel magic staff was no ordinary item, after all. He had poured a lot of effort into it, so it would be a huge waste to just abandon it. For a moment, he was in a dilemma.

The king of junk frowned and pondered for a moment. Then, his eyes suddenly lit up with excitement."If it's just used to upgrade the fine steel staff, then of course it's an inhumane waste. But if it's used in a different way to make it evolve, then wouldn't it be the best of both worlds?"

"Evolution?" "What's the Difference?" Lin Yi asked, confused.

"Of course there's a difference!" "It's normal to upgrade weapons. It doesn't require much skill. Basically, any forger can do it," the king of junk said.

"Is it very common to upgrade weapons?" Lin Yi was even more confused,"But why did I hear that ordinary weapons can't be upgraded and that they can only be upgraded by using materials like the thousand-year tree crystal?"

The king of junk smiled and explained patiently, ""Brother Lin, there's something you don't know. You can say that you're right, but you can also say that you're wrong. You're like the other laymen who only know half of it. You might not know this, but the saying that ordinary weapons can not be upgraded has actually come from the mouth of blacksmiths. Think about it, if they make this matter sound too easy, how can we earn a huge profit from it?"

"This ... You blacksmiths are really treacherous." Lin Yi didn't know whether to laugh or cry when he understood the whole situation.

Putting aside whether ordinary weapons could be upgraded or not, when this concept became known to everyone, it would definitely be of great benefit to forgers, at least.

After all, weapon forging was the same as alchemy. There were absolute professional barriers. Outsiders had no other choice but to seek help from weapon forgers. In this way, after the difficulty was infinitely exaggerated, they could naturally obtain a lot of benefits when they upgraded weapons for others.

Even if there were people who didn't want to upgrade their weapons because of this, new weapons were still indispensable. In the end, they still had to ask the forgers for help, which immediately turned into a good business.

Therefore, as long as this theory was spread, it would become the mindset of the people. Then, no one would be able to escape from being ruthlessly slaughtered. It would be a pity if the forger who came up with this idea did not open a Chamber of Commerce.

Lin Yi changed his mind and asked, "However, even if someone had spread this rumor, it's impossible for all the blacksmiths to be of one mind. A lie will be exposed one day. Could it be that no one has discovered it for so many years?"

"If it's a lie fabricated out of thin air, it's indeed easy to be exposed. But the problem is that this statement isn't a complete lie, but half true and half false. It's difficult for outsiders who have been confused by the concept to distinguish it. Especially after this concept is deeply rooted, even if there were individual weapon forgers who stood out to explain to them, they might not be able to accept it. Moreover, this explanation is beneficial to all weapon forgers, so which one of them would be foolish enough to stand out and smash their own rice bowls, and even become the target of everyone in the same industry?" The king of junk shook his head.

Lin Yi's interest was piqued, "How exactly is it half true and half false? brother Wang, can you tell me in detail?"

"Of course, as long as brother Lin is willing to listen." King of junk gestured for Lin Yi to sit down and explained, "In the eyes of outsiders, weapon upgrades are just a general concept. However, in the eyes of forgers like us, weapon upgrades have two completely different concepts. One is the ordinary weapon upgrade without any technical content, and the other is the extremely difficult weapon evolution."

"What's the difference between the two?" Lin Yi asked.

"Hehe, there's a huge difference between the two. Upgrading a normal weapon is actually no different from an ordinary person repairing a hoe or a metal pot. As long as you pay a little attention to the compatibility of the materials, you can just directly embed the upgrading materials into the weapon. There's no technical content, and of course, there won't be any great opportunities. In the end, a weapon is a weapon, and an upgrade material is an upgrade material. It's just that they've been kneaded together by an external force. " The king of junk pouted.

Lin Yi didn't seem to understand, so he explained as he gestured, "The effect of this method is at most one plus one equals two, or even less than two. For example, after an ordinary upgrade, you can at most use the upgrade materials as a medium to make it able to withstand the true Qi of the foundation

establishment level. The effect is no different from the original. Even if the power is improved, it's only because you've consumed more true Qi. It's not of much use."

Chapter 3979 Insufficient Materials

"What about the weapon evolution you mentioned?" Lin Yi continued.

"Weapon evolution is completely different. Not only is the process extremely complicated, but it's also extremely difficult. The material requirements are also extremely high. After a high-intensity smelting reaction, the weapon and the material will be completely integrated. Basically, it can be said to be reborn. The final weapon that is produced will be completely different from the original, whether it's the shape or the ability. It's not impossible for it to be ten times, a hundred times, or even a thousand times stronger than the original!" The king of junk's eyes were burning.

"So that's how it is. If that's the case, the correct explanation should be that ordinary weapons can't evolve, and not that they can't be upgraded as the outside world says. The outside world has been confused by this general concept." Lin Yi nodded.

"That's right. Unless you find a rare treasure like the thousand-year tree crystal, ordinary weapons can't evolve at all. Without the special protection of the thousand-year tree crystal, it's difficult for them to withstand the high-intensity furnace reaction. They might turn into ashes halfway through. There are countless examples of failure." The king of junk sighed.

"The thousand-year tree crystal can be used to evolve weapons. So this is how it is used. I've learned a lot." Lin Yi cupped his hands at trash King.

The king of junk, on the other hand, looked at Lin Yi with burning eyes, ""Brother Lin, I won't hide it from you. My biggest wish in this life is to forge a divine weapon that is unrivaled in the world. But if it wasn't for you, I might not have seen such a rare treasure in this life, and I might not even have the chance to use it to forge weapons in my next life. You are simply my destined benefactor!"

Seeing the king of junk kneel down to him without a second thought, Lin Yi quickly pulled him back and said, ""Brother Wang, what are you doing? you promised to forge for me unconditionally, and I can't thank you enough. What kind of thing is this for you to kneel down in front of me? If you continue to be like this, I won't dare to ask you for help. "

"No, no, no, you have to ask me for help. You have to ask me for help. I'm the only one on the North Island who can use such Supreme materials well. No one else has the ability!" The king of junk stood up hurriedly.

This guy's tone was still as big as ever! Lin Yi couldn't help but laugh to himself, but after spending so much time with the king, he had no doubt about his abilities. It could be said that all Masters had their pride, at least in the field of forging, the pride of the king wasn't without reason.

As for the rumor that he didn't succeed in forging, it was either because he didn't want to work on normal weapons, or he really didn't have the materials, and no one believed him at all!

"Then, what should I do to make the best use of the 10000-year tree crystal and not waste it? brother Wang, didn't you say that these materials were far from enough?" Lin Yi said.

The king of junk didn't answer immediately, but turned around and found a piece of white paper from the corner of the cave. He wrote something down on it and handed it to Lin Yi, ""I've already thought about it carefully. Brother Lin, it's hard for you to get top grade materials like the 10000-year tree crystal and the ancient Pure Land. Instead of dealing with it carelessly, why don't you just get a big one? what do you think, brother Lin?"

Lin Yi's eyes brightened-the king of junk's words were quite fitting. "That's what I'm thinking too. But how do I get a big one?"

"I've listed a total of seven materials on this piece of paper. Only after gathering all seven materials can the effects of the 10000-year tree crystal and the ancient Pure Land be fully exerted. When the time comes, the refined steel staff will be smelted in the oven and it will definitely be reborn into a divine weapon!" The king of junk swore.

Lin Yi scanned through the seven materials on the paper-they were all things he'd never seen or heard of before, and the only one he had some impression of was called the mysterious water droplet.

"I've seen this mysterious water droplet at the Hong Chamber of Commerce before. It was priced at 600 to 700 spiritual jades. I've never seen or heard of any of the others." Lin Yi muttered.

The king of junk nodded and said,"although these seven are only used as supplementary materials, they are not cheap to be used with things like the 10000-year tree crystal and the ancient Pure Land. The mysterious water droplet is already the easiest one to buy. As for the other six, you can't even buy them under normal circumstances. Even a top Chamber of Commerce like the Hong Chamber of Commerce may not have such a stock."

"Then where do we go to find it?" Lin Yi couldn't help but click his tongue. If he couldn't even buy them from the Hong Chamber of Commerce, he might not even be able to find them in his life if he just blindly looked for them.

"It's obviously not realistic to find this kind of thing on your own. You can only place your hopes on the auction. As far as I know, there will be the semi-annual North Island Auction next month. Other than the legendary 10000-year tree crystal, you should have the chance to encounter most of the treasures.

Brother Lin, you might as well give it a try. However, it's a big problem how to get the right to enter." The king of junk scratched his head in distress.

"Is it that hard to get the admission? will the spiritual Jade card work?" Lin Yi showed the spirit Jade card in his hand-this was a symbol of status. Since he could enter the inner streets freely, he should be able to do so at the auction, right?

"Brother Lin, you're indeed not an ordinary person. You even have such a thing!" The king of junk looked at the spiritual Jade card and could not help but swallow his saliva. For a poor cultivator like him who was at the bottom of the society, he would never be able to get a spiritual Jade card in his life.

However, the king of junk immediately shook his head and said,""I don't know the details, but the auction is not just organized by the Chamber of Commerce in the inner street. It is organized by all the top forces in the North Island. I heard that some important figures in the middle Island are involved. The people who come and go are all extraordinary. A single spirit Jade card may not be of much help. I can't help you with this. You can only rely on yourself, brother Lin."

"I see. I'll ask around later." Lin Yi nodded-it was impossible to count on the king of junk for something like this. It was already good enough that he could provide information, and he had to rely on himself for the real thing.

"Yes, there are many good things at the auction, but the competition is also fierce. If you want to buy all seven materials, you'll probably need thousands of spirit Jade. If you're unlucky, you might even need tens of thousands of spirit Jade. However, since there's a 10000-year-old tree crystal, I don't need this 1000-year-old tree crystal anymore. I should be able to exchange it for a lot of spiritual Jade. " The king of junk suggested.

"I'm well aware of that. Oh right, there's something I want you to take a look at. See if it's a forging material," Lin Yi said suddenly.

With that, Lin Yi reached into the bag behind him and took out a bag of blood-red gravel from the Jade space under cover. It was the one he found in the tree hole when he first entered the back mountain. The pig woke up from unconsciousness because of the weird smell of this bag.

Chapter 3980 The North Island Auction

"Holy F * ck! Brother Lin, don't tell me you've gotten some rare ancient treasure again? my heart can't take such a huge shock!" The king of junk was shocked, but he could not help but stick his head over and take a closer look at the blood-red gravel.

After a long while, the king of junk shook his head helplessly. "I don't know either. It shouldn't be used for forging, or I would have recognized it. But even so, I can tell that this is definitely a good item. Brother Lin, you can take it to the auction and get someone to appraise it. You should know then."

Lin Yi wasn't surprised-it was only natural that the king of junk couldn't recognize it, but he thought that it was some kind of forging material-it seemed like he was wrong.

After that, the two talked about forging-the king of junk's extraordinary knowledge in this area really opened Lin Yi's eyes.

And this, according to the king of junk himself, was only the result of sun sikong's casual guidance for a few days. Lin Yi couldn't help but be secretly shocked. The world of cultivation was indeed full of Masters, hidden dragons and crouching tigers!

"Brother Lin, I'll leave the seven materials to you. I can't help much in this area, but I can use this time to make some preparations. After all, forging a divine weapon is a big matter, and there can't be any mistakes!" Rag King cupped his hands at Lin Yi with a serious face.

"In that case, I'll have to trouble brother Wang. I'll take my leave first. Brother Wang, just wait for my news." Lin Yi said as he stood up.

It wasn't too late yet when he left the cave, and Lin Yi immediately set off for the market. His goal was naturally to go to the Hong Chamber of Commerce and ask Hong Zhong about the auction.

However, Lin Yi didn't go to the Hong Chamber of Commerce directly. He went to find Chen heihu on the way. It had been some time since he last came here, and he wanted to see if there was any news of the heart-devouring exquisite grass.

The answer he got from Chen heihu disappointed him. Chen heihu had already spread the news of buying the heart-devouring exquisite grass to all his connections, but there was still no news.

It was clear that the heart-devouring exquisite grass was indeed a rare spiritual herb. It was already a stroke of great luck to be able to find it in the periphery of the back mountain and among the spiritual herb seeds distributed by the spirit Jade Hall.

Fortunately, the East was dark, and the West was bright. There was no news from Chen heihu, and Lin Yi even asked Hong Zhong for help.

As soon as Lin Yi stepped into the Chamber of Commerce, Hong Zhong, who was patrolling downstairs, came up and led him to a private room on the second floor, ""Young hero Lin, you asked me to help you

buy heart devouring exquisite grass last time and I have already received two. I will get someone to pack them up for you."

Lin Yi was overjoyed and thanked him, "Then I really have to thank manager Hong. I wonder what the price is?"

"Hehe, 100 spiritual jade pieces for one then. What do you think, young hero Lin?" Hong Zhong smiled and stroked his beard.

Lin Yi's heart moved-he knew that the guy was doing him a favor again. If it was a normal herb, it would only cost a few pieces of jade. A hundred pieces of jade was sky-class, but the rarer something was, the more expensive it was. With how rare the heart-devouring exquisite grass was, a hundred pieces of jade for one was half-free, half-price-he probably didn't buy it at such a low price.

Lin Yi didn't rush to answer. He took out the piece of white paper and handed it to Hong Zhong, ""Manager Hong, this one has come this time not only to ask for the heart-devouring exquisite grass, but also to purchase the items listed on this list. I wonder if the Chamber of Commerce has any stock?"

"Oh? Young hero Lin, please wait for a moment. I'll have someone check. " Hong Zhong gestured for Lin Yi to drink the tea before ordering the servant at the door.

A moment later, the manservant reported, "of the seven materials, the only one in our Chamber of Commerce's inventory is the mysterious water droplet. It's priced at 649 spirit Jade. We don't have the other six."

As expected! Lin Yi had expected this and didn't feel sorry for her, "In that case, can you give me the mysterious water droplet and the two stalks of heart-devouring exquisite grass for a total of 1000 spiritual jades?"

Hong Zhong laughed and waved his hand, "young hero Lin, you must be joking. I know you have good intentions. But business is business. Since I said one heart-eating exquisite grass is 100 spiritual jades, I won't charge you more. Otherwise, how can I keep my integrity as a businessman? if people find out, who would dare to do business with me?"

"Alright then, I'll use the extra spiritual Jade to buy spiritual medicine. That should be fine, right?" Lin Yi said, aware that he'd misspoken.

Lin Yi never liked to owe people favors, and since Hong Zhong wasn't willing to accept more spiritual jades, he might as well go back and make some elixirs. He'd bring a few Supreme-grade foundation-breaking elixirs for Hong Zhong next time-he'd definitely be more than happy to have them.

Hong Zhong seemed to see through Lin Yi's plan and smiled, "Then I thank young hero Lin for your care. If you are not in a hurry, I can ask someone to look out for the remaining six. Like the heart devouring exquisite grass, you might be able to find something in a while."

"Thank you, manager Hong. However, I've heard that there will be an auction next month?" Lin Yi probed.

Hong Zhong immediately understood what he meant. He nodded and said, ""That's right. This auction isn't a low-level one. You should be able to find what you want in there. Do you want to take a look?"

"That's right. I'm just worried about how I can get the admission qualification. I wonder if manager Hong can help?" Lin Yi said.

Hong Zhong couldn't help but smile. "Don't worry, young hero Lin. Although it's hard to get the right to the North Island Auction, ordinary people can't get in unless they're a powerful force or a hero. But fortunately, our Hong Chamber of Commerce is one of the organizers of the auction, so we naturally have the right to bring extra people in. If it's convenient for you, how about you come with me?"

Lin Yi couldn't help but be overjoyed. He'd thought it would take a lot of effort to get this qualification, but Hong Zhong solved it with one simple sentence. Connections were priceless in critical times.

"Then I'll have to thank manager Hong." Lin Yi said gratefully.

"You're too kind, young hero Lin. It's a waste to leave this spot empty anyway, so it's best if I can help you. The auction is set on the 23rd of next month, and because it's a little far from here, young hero Lin should come earlier. Also, if you're short of spiritual Jade, you can tell me. As the branch manager, I can help you with this little bit." Hong Zhong chuckled.
