

## Bodyguard 4021

### Chapter 4021 Directly Bidding

It was similar to an ocean creature, but it vaguely had a human shape. This was the legendary creature of the North Sea, just like the mermaids, the sea demon.

Even Lin Yi was stunned by this scene. They were attacked by this legendary sea beast on their way to the northernmost Island. At that time, their spirit sense was attacked by the sea demon song, and they didn't see the sea demon's appearance. Now, it was time to make up for it.

"This kind of auction can actually publicly auction sea beasts?" Lin Yi found it unbelievable. He'd heard from the damn thing that although the spirit beast clan couldn't completely stop human practitioners from killing spirit beasts, at least no one would dare to do it in public like this.

"Sea beasts are sea beasts, and spirit beasts are spirit beasts. These are two different things. The spirit beast clan has never conquered the sea, so they naturally won't be so free as to protect some sea beast." The ghastly thing said in his mind.

Lin Yi didn't know what to say-the baby sea demon looked like a human baby, even its cries were the same. But he didn't want to interfere-he had limited spirit jades, after all, and he needed to save them for the six forging materials listed by the king of junk.

However, just because Lin Yi wasn't interested didn't mean that the others thought the same.

The sea demon tribe's innate talent was heaven-defying, and it was destined that once they were tamed and turned into spiritual pets, they would become a powerful killing weapon. As such, there were

actually many people present who had thoughts about this young sea demon, and some people immediately raised their cards to bid.

"Three thousand one hundred spirit Jade."

"Three thousand two hundred spirit Jade."

"....."

For a moment, the bidding was one after another. The starting price of three thousand spiritual jades was not a small amount for most people, but there were still so many people bidding for it. The value of the sea demon youngling was evident.

However, a voice that followed immediately shut everyone up."Six thousand spirit jades. I heard that if you kill the sea demon Cubs and make them into soup, they'll have a miraculous nourishing effect on your skin. It's just right for you, Junior Sister Tiangang. I'll accept it on your behalf."

The person who spoke was Zheng Tianjie, the red-haired man from Nakajima.

Upon hearing this, the crowd could not help but look reluctant, but there was nothing they could do. The price had almost doubled from over 3000 spiritual Jade to 6000 spiritual Jade, leaving everyone in the dust.

None of the people who were qualified to attend the auction were from poor families, but spirit Jade didn't fall from the sky for no reason, after all. Everyone had their own budget, and it was obviously not worth it to ruin their plans for a mere sea demon youngling.

For six thousand spiritual jades, Zheng Tianjie was the one who would take the sea demon youngling. However, Tian Ji, whom he had been so attentive to, did not say a word. From the beginning to the end, his expression did not even change.

Zheng Tianjie seemed to be used to this and didn't find it boring. Tian Gang had always been a cold beauty in front of him, but it didn't matter. He had a lot of money. Today was a rare occasion to show off, so he would always have a way to make the beauty smile!

In the next few auctions, the four-Island Auction became Zheng Tianjie's one-man show. Every time, the other party would raise the bid by 100 or 200, but he would double it without even blinking.

His grandfather was the Vice Hall Master of the alchemy Hall, and he had plenty of spiritual jades in his family. No matter how he lost them, he would not lose them all. Unless those super Chambers of Commerce came forward to compete with him, no one else was his match at all. They were not on the same level at all.

"This Shan Pao ..." Lin Yi was speechless. If this guy wasn't with Tian Gang, he wouldn't even bother to look at him. But now, he had to pay attention to him.

But then, Lin Yi realized that he was in trouble. This mountain cannon who didn't lack spiritual jades was a huge problem at times.

"A ten-piece casting set. Every piece is a top-tier material recognized by all forgers. The rate of application is above 80%. The starting price is 10000 spiritual jades." After steward song's introduction, the crowd immediately went into a small climax. This was the first item in this auction that had a starting price of five figures of spiritual Jade.

Lin Yi was taken aback by the introduction-he'd already looked around on his first day here, and found four of the six materials he needed. He'd even found the remaining two yesterday, thinking that it'd be a long battle to get all of them.

All the forging materials were combined into a set and auctioned together. The six forging materials were all on the list!

This sudden change caught Lin Yi off guard. He didn't think about this strategy at all, and the most important thing was that this was Zheng Tianjie's show.

Lin Yi had 15000 spiritual jades on him right now. If it was just the six materials, it was more than enough, but the ten-piece set ... It wasn't something he could afford.

Lin Yi had no choice but to strike first."Fifteen thousand spirit Jade."

There was an uproar, and everyone's eyes were focused on Lin Yi. They had always thought that Lin Yi was just a small worker at the Hong Chamber of Commerce, but now it was obvious that wasn't the case. After all, which business would let a small worker bid for such an important event?

The crowd was still in an uproar, but there were three people in the crowd who were dumbfounded when their eyes fell on Lin Yi. These three were none other than Nan Tianba, Nan Tianmen, and Yu Zhe, the three people Lin Yi had been wary of!

With Nan Tianba's background and status, he naturally had a way to get a spot for a big event like the North Island Auction. However, they were only here to bid, so they didn't arrive early like Lin Yi and Hong Zhong. They only arrived last night and didn't know about the commotion that the Chamber of Commerce had caused.

Any normal person wouldn't believe that a grassroots newcomer like Lin Yi could come to such a high-class place. If he didn't open his mouth to bid, perhaps Nan Tianba and the others wouldn't even notice his existence until the auction ended.

"Why is this kid here? It seems that even if we didn't get anything good, we didn't come here in vain. " Nan Tianba bared his teeth, while Nan Tianmen and Yu Zhe both laughed hideously.

Without a doubt, after the birthday party, they'd shifted their attention back to Lin Yi. They couldn't do anything in the territory of the three pavilions, but here on the northernmost Island, they had no qualms about it.

Chapter 4022 A Complicated Look

"Hehe, asking for 15000 spiritual jades right off the bat. This kid is quite boastful. It looks like he still has quite a lot of spiritual jades in his hands!" Yu Zhe's eyes lit up.

"Don't be impatient. We'll wait for the auction to end and then find an opportunity to make a move. We can't let him escape this time. If there's a mistake in killing, we won't let him off!" Nantianmen laughed coldly. Even if they couldn't get the star inkstone they'd been dreaming of from Lin Yi's body, it'd still be good if they could get a large amount of spiritual Jade.

Lin Yi's attention was on Tian Gang the whole time, and he didn't notice Nan Tianba and the other two. After he finished speaking, no one was bidding anymore. Even those who were interested in the price had to think twice before raising the price by 5000 spiritual Jade.

However, before Lin Yi could relax, Zheng Tianjie had already stood up, "Twenty thousand spirit Jade."

Lin Yi's heart sank. Zheng Tianjie looked at him disdainfully. "F \* ck, I don't know where this pauper came from, but he actually dares to pretend to be rich in front of me. What a country bumpkin who has never seen the world. Even a spiritual Jade that I casually throw away can easily crush you to death!"

Lin Yi looked at him coldly, feeling helpless. He only had fifteen thousand spirit Jade, and it was impossible to win against this mountain cannon.

However, if he were to let this ten-piece forging equipment set pass by him, then this trip to the northernmost Island would be completely in vain. In the future, if he wanted to gather all six materials, he would have to spend a lot of effort.

At this moment, Hong Zhong nodded at Lin Yi, "Young hero Lin, you can bid as much as you want. No matter how much spiritual Jade it is, the Hong Chamber of Commerce will pay for you."

Lin Yi didn't try to argue with Hong Zhong. After all, he'd made over a hundred Supreme-grade elixirs for Hong Zhong. He could totally afford to owe him a favor.

"30000 spiritual jades!" Lin Yi called out immediately. He knew that if he wanted to compete with an idiot like Zheng Tianjie in this situation, he had to suppress the opponent with his aura. Otherwise, the opponent wouldn't back down if it was just a small fight. Instead, he would become even more arrogant and aggressive.

From 20,000 to 30000, this amount was enough to make everyone's eyelids jump. They all cursed in their hearts, what a F \* cking prodigal!

This time, even Zheng Tianjie was stunned. As the grandson of the Vice Hall Master of the hall of alchemy, his identity was undoubtedly the young master of the central island. His wealth and confidence were so strong that almost no one could rival him.

Other than them, no other important figures from the middle Island had come to the four-Island Auction. As for the forces from the other four islands, they were nothing in his eyes and he didn't care at all.

He didn't expect that this poor fellow, who he thought was just a shop assistant of the Hong Chamber of Commerce, would actually dare to challenge him in public!

"Thirty thousand spiritual jades? "Your tone is quite big, but it's a pity that there's no reason for me to let go of the things I like. In this ten-piece set, there's a material that can be used not only to forge weapons, but also to refine pills. I'm going to personally refine a fourth-grade skin beautifying pill for Junior Sister Tian Ji so that my Junior sister's skin will forever be so tender and smooth that it will break and shine!" Zheng Tianjie paused, then laughed."So, 50000 spiritual jades!"

As soon as he said that, the crowd burst into an uproar again. He actually bid 50000 spiritual Jade for just one material in the ten-piece set. Furthermore, this material was only bought to refine the skin

beautifying pill that was useless for cultivation in order to please a woman. This Zheng Tianjie from the pill Hall was really a F \* cking spendthrift!

Lin Yi couldn't help but be speechless at this guy's cocky attitude-he was really unlucky to have met a mountain cannon who didn't lack spiritual jades at this critical moment.

However, Lin Yi was determined to get these rare forging materials this time, no matter how much spirit Jade it would cost. He didn't give up,"" 60000 spiritual jades!"

Unexpectedly, Zheng Tianjie didn't even blink. He immediately retorted,"" 80000 spiritual jades!"

"A hundred thousand spiritual jades!" Lin Yi said without hesitation.

"F \* ck, you're ruthless!" Zheng Tianjie immediately choked.

Now that the situation had developed to this point, almost everyone present was dumbfounded by the two of them. Although these forging materials were indeed rare, an item with a starting price of ten thousand spirit Jade was still far from shocking the world. Now, they had actually raised the sky-high price of one hundred thousand spirit Jade so easily. It was simply unbelievable!

Such a sky-high price was definitely not a small amount for any force. Even if Zheng Tianjie's family did not lack spiritual Jade, he had to think carefully whether it was worth it.

After all, he was only bidding for this to please a woman-calling him slacking off was already giving him a lot of face. If he kept going against Lin Yi like this, his Grandpa might even lock him up for a month if he found out. It'd be terrible.

Although Zheng Tianjie was an idiot, he was not a complete fool. At this time, he still knew what was important and what was not. He immediately began to think of retreating. There was no need to get angry with a stranger.

Seeing the change in Zheng Tianjie's expression, Lin Yi's heart leaped with joy. As long as this idiot backed down, no other normal person would be able to compete with him for a mere ten-piece forging set.

A hundred thousand spiritual jades was a price that far exceeded its value. No one would be stupid enough to continue bidding.

Sure enough, Zheng Tianjie didn't say anything, and the rest of the people present all looked on coldly. They had no intention of participating in the competition at all. Seeing this, Butler song no longer hesitated and was about to make the final decision.

A ten-piece forging equipment set could be sold for a sky-high price of 100000 spiritual jades. The four-Island Auction this time around was really full of silly people who had plenty of spiritual jades. They were definitely going to make a fortune.

But just as Lin Yi was about to let out a breath of relief, Zheng Tianjie, who was already thinking of retreating, suddenly opened his mouth and called out a price, his face ferocious and arrogant,""Hold on. Two hundred thousand spirit Jade!"

That one sentence caused the crowd to go wild. Two hundred thousand spiritual jades? What was wrong with this world?

"Did Mountain Gun take the wrong medicine?" Lin Yi was also shocked. He looked at Zheng Tianjie, who was showing off his strength, and couldn't figure it out.

It wasn't until Lin Yi noticed the strange look in Tian Gang's eyes that he came to his senses.

At this moment, the way Tian Gang looked at Lin Yi wasn't as calm as before. There was a complicated look in his eyes. It was clear that it wasn't that Tian Gang didn't recognize Lin Yi, but that she didn't want to recognize him!

#### Chapter 4023 Enmity

From her point of view, Lin Yi's abnormal action of bidding with Zheng Tianjie was clearly to show his presence in front of her, expressing his dissatisfaction with her previous indifference!

"Hmph, I'll definitely investigate this country bumpkin's background when I get back. He's actually trying to attract Junior Sister Tian Ji's attention by throwing spiritual jades in front of me. A Toad lusting after a Swan's meat, you're not worthy!" Zheng Tianjie cursed at Lin Yi as he enjoyed everyone's shocked gazes.

The reason why he suddenly changed his mind was because of Tian Ji. He had thrown so many spiritual jades purely to gain Tian Ji's favor. Now, Tian Ji had actually paid attention to another man. How could he tolerate this?

No matter how many spirit Jade he threw at him, he had to trample Lin Yi under his feet today and let this country bumpkin know what a big Shot from Nakajima was like!

This sudden turn of events stunned Lin Yi for a long time, but things didn't end there. Lin Yi quickly composed himself and continued, ""Since you're in such a good mood, I'll accompany you to the end. Three hundred thousand spirit Jade."

"Hmph, you think you can compete with me? you don't know your place. I'll crush you to death with spiritual jades today. Five hundred thousand spiritual jades!" Zheng Tianjie said arrogantly. In order to show his face in front of Tian Gang, he was already hysterical and didn't care about the price.

"Five hundred thousand spirit Jade?" Lin Yi raised his eyes. Just when everyone thought that he would continue to fight with Zheng Tianjie, the idiot, he suddenly changed the topic."I just wanted to see how much you have. I didn't want to buy this ten-piece set at first, but since you want it so sincerely, I won't take away your beauty. I'll give it to you for five hundred thousand spiritual Jade."

With that, Lin Yi sat down slowly, as if this had nothing to do with him.

Gah? Did he play so big just to see the other party's capital? This invincible logic shocked everyone present. As for Zheng Tianjie, he was even more stunned for a long time and could not react.

After a long while, Zheng Tianjie slowly came to his senses under the strange gazes of the surrounding people. No matter how brainless he was, he knew that he had been completely fooled this time!

"F \* ck you, you cunning country bumpkin. I'm going to tear you to pieces today!" Zheng Tianjie was about to flip out on the spot. Even on the middle Island, he was used to being domineering. Now that he

was on the edge of the northernmost Island, he naturally had no more scruples. He was teased and provoked by a nobody like Lin Yi in front of so many people. He couldn't bear it!

However, before Zheng Tianjie could do anything, steward song's eyes had turned cold. Countless fully armed Northern Battlefront guards were ready to attack.

Even if Zheng Tianjie's identity was special, this was the northernmost Island, after all. There was only one master here, and that was Butler song, who was the island master on his behalf. If he allowed Zheng Tianjie to cause trouble here, it would be no different from slapping his face in public.

Whether it was status or strength, the northernmost Island was a very special force on the sky-class Island. It was a special existence that was beyond the five major islands. Although they were respectful to the people from the middle Island, they never shielded or compromised. If Zheng Tianjie wanted to cause trouble here, he was simply courting death.

In an instant, the situation became tense and everyone held their breath. A conflict was about to happen.

Fortunately, the rest of the Nakajima people beside Zheng Tianjie got up in time to suppress him. They were not as arrogant and fearless as Zheng Tianjie. They knew that if they let the situation develop like this, it would only bring them harm.

"What are you guys doing? Why aren't you releasing this young master? are you guys trying to rebel?" Zheng Tianjie was still unwilling to give up. However, the people around him were no weaker than him. They joined forces to suppress him. No matter how strong Zheng Tianjie was, he could not move for a while.

Although this Idiot's brain wasn't that good, his strength was shockingly strong! Lin Yi looked at this scene from afar. Even if he didn't feel the Qi from Zheng Tianjie's body directly, he could feel the strength of the other party. He was on a completely different level from him.

"Young hero Lin, you don't have to back down. Although 500000 spiritual jades is a little too much, the Hong Chamber of Commerce can still afford it." Hong Zhong said from the side. With Lin Yi's huge help to the Hong Chamber of Commerce this time, no matter how much spirit Jade it was, the Hong Chamber of Commerce would pay for it without hesitation.

After all, although the Hong Chamber of Commerce had been sabotaged by Wang Tong and the others recently and was in a shortage of high-end materials, they had an abundance of mobile spiritual Jade in their hands. Five hundred thousand spiritual Jade was nothing to them.

"There's no need for that. The value of this ten-piece forging equipment set, in my opinion, is at most 30000. Isn't it crazy to raise it to 500000 just to be angry with a stupid mountain cannon?" Lin Yi said, shaking his head.

He didn't know the final price of the Supreme-grade elixirs he had refined for Hong Zhong, but it was already very generous of the other party to support him to this point. There was no reason to waste spiritual Jade.

However, looking at Zheng Tianjie from afar, who looked like he was going to swallow him alive, Lin Yi cursed in his heart. Not only did he want to touch his woman, but he also wanted to steal his forging materials.

Lin Yi was a ruthless man back in the common world, and even in Beidao's current state, he'd kill whoever he didn't like. This time, he was really pissed.

Hong Zhong didn't say anything else and nodded, "Never mind. Anyway, Lin shaoxia, the forging materials you want shouldn't be from just one family. I'll think of a way later and have the opportunity to help you gather them."

Lin Yi didn't comment on it, but only replied with an "en." He was the one who tied the bell, and his mind was completely focused on Zheng Tianjie. Whether it was for Tian Gang or for the materials, he had to end things with Zheng Tianjie.

The main target of the auction had been lost, and the rest of the auction had little to do with Lin Yi.

Although he had the spiritual Jade and the great Bell in his hands, and his capital was no less than Zheng Tianjie's, and he could compete with any rare item, unfortunately, Lin Yi's mind was no longer on that.

In fact, it wasn't just Lin Yi-even Zheng Tianjie had lost interest in the auction after all that had happened. There was only one thing on his mind right now-get someone to investigate Lin Yi's background and find a chance to get rid of this country bumpkin!

Without the participation of these two most famous people, the auction finally began to return to normal. Although the transaction price of each item was much higher than usual, it was not as outrageous as before.

Chapter 4024 Honorary Vice President

In the end, after a whole day of intense auctions, the four-Island Auction finally came to an end. All the items provided by the Chamber of Commerce had been auctioned off. However, this did not mean that the auction was over. On the contrary, this was only the first part of the auction.

Starting from the second day, there would be a personal auction. Every participant who came to the North Island could take out good things for auction. All kinds of rare treasures that had never been seen or heard of would be revealed at that time.

However, in today's auction alone, the hundred or so supreme quality elixirs that Lin Yi had personally refined were, as expected, the most important and eye-catching items!

Supreme-grade pills, even if they were not of a high grade, were strategic-level pills that only the core disciples of super forces had the right to enjoy. Ordinary people would not even get to see them.

Including the ten from the pill Hall of the middle Island and the rest of the Chambers of Commerce, the number of Supreme-grade elixirs in this four-Island Auction had reached an unprecedented 130, and 80% of them came from the Hong Chamber of Commerce!

Three pills in a group, five pills in a group, and even ten pills in a group. Every group of Supreme grade pills inevitably became the bomb that ignited the auction, constantly breaking the record of the transaction price.

These astronomical figures that made people's mouths go dry unconsciously explained the same concept to everyone-what was called "demand but no supply"!

In the end, the Hong Chamber of Commerce had a great harvest. Just with Lin Yi's hundred or so Supreme-grade elixirs, the final transaction price reached a million spirit Jade. It was simply jaw-dropping!

On average, each Supreme-grade elixir was worth more than 10000 spiritual jades. This was an unimaginable miracle under normal circumstances.

When Lin Yi first sold the pill to the Hong Chamber of Commerce, it was only 800 spiritual jades. Here, it was more than ten times the price. He had to admit that there were many people who were stupid about spiritual jades in an auction. No wonder so many super Chambers of Commerce treated this auction as a must-fight, racking their brains for it.

In any case, the Hong Chamber of Commerce could be considered to have truly held its head high after this battle. From the beginning when it was jointly targeted by everyone, to today's great harvest, the Hong Chamber of Commerce had fought a beautiful battle to turn things around. The significance of this battle was far more than just earning a million spiritual jades.

Without these 100 Supreme-grade elixirs, the four-Island Auction this time could very likely become the Hong Chamber of Commerce's Waterloo under the joint attack of the wealthy families and the Super Chambers of Commerce such as the all-access banquet. It was not impossible for the Hong Chamber of Commerce to be divided and disintegrated by others.

But now, not only did the Hong Chamber of Commerce resolve the successful crisis, but it also successfully stood firm. Even the capital to counterattack was in place. Now, they would turn from defense to attack. If handled well, not only would they not suffer losses, but they could also take the opportunity to go one step further and launch an attack on the number one five elements pharmacy in the merchant Union!

All of this, Lin Yi could be said to be the greatest contributor. It wasn't an exaggeration to say that to the Hong Chamber of Commerce, Lin Yi was the great benefactor who turned the tide!

"Young hero Lin, I will never forget your great kindness!" Even an experienced man like Hong Zhong couldn't help but be overjoyed as he looked at the accounts, bowing repeatedly to Lin Yi.

This time, Lin Yi didn't just save the Hong Chamber of Commerce, he also saved Hong Zhong. If Lin Yi didn't help, Hong Zhong would have become the scapegoat for the higher-ups.

"Manager Hong, you're too kind. We've been working together for so long, helping you is helping myself. Don't you think you're treating me like an outsider?" Lin Yi quickly helped him up.

Hong Zhong waved his hand and shook his head. "Cooperation is cooperation, and kindness is kindness. I'm clear about this. I can't thank you enough for this. I'll remember this in my heart."

Lin Yi could only let Hong Zhong be after his insistence. He nodded, "Forget it. We still need to rely on manager Hong in many areas in the future. We have many days ahead of us."

Hong Zhong chuckled and stroked his beard. "Well said. If young hero Lin has any instructions, I will go through fire and water without hesitation. However, this time, young hero Lin has not only done me a personal favor, but also the entire Hong Chamber of Commerce a great favor. I must let the higher-ups Express their gratitude."

"This ... I don't think there's a need?" Lin Yi was a little worried. If Hong Zhong really said that to the higher-ups of the Hong Chamber of Commerce, wouldn't he be forcing them to repay his kindness? it was a little inappropriate.

Hong Zhong was an old man, and he could tell what Lin Yi was worried about. He smiled, "Don't worry, young hero Lin. We're talking about gratitude in private, but businessmen have always been profit-

seeking, and there has always been only business cooperation. There's no such thing as gratitude. So this time, you have to treat it as a business. You've helped the Hong Chamber of Commerce resolve such a big crisis, so it's natural to ask for repayment. No one can criticize it. If this goes on for too long, it will be a waste of time. So, you have to think carefully about what kind of repayment you want."

This wasn't hard to understand. Lin Yi and Hong Zhong could talk about gratitude and friendship, but the Hong Chamber of Commerce didn't care about this. Lin Yi had to get the substantial benefits as soon as possible.

However, Lin Yi couldn't think of any benefits at the moment. He asked, "As for what kind of return, manager Hong, why don't you give me an idea?"

"In my opinion, there are only two ways. The first is to directly ask for spiritual Jade. With your contribution this time, not only will all the proceeds of the auction go to you, but you can also ask for a reward of hundreds of thousands of spiritual Jade. This is a real benefit, and it's simple and affordable. Are you interested in it, young hero Lin?" Hong Zhong probed.

"What about the second?" Lin Yi changed the topic. A few hundred thousand spiritual jades was indeed tempting, but to Lin Yi, as long as he had the farmer God's medicine cauldron, he could earn more spiritual jades in the future. It wasn't that attractive.

"As for the second option, it sounds a little fake at first. That is to take the opportunity to get a position in the Hong Chamber of Commerce. However, young hero Lin, you are an outsider after all. No matter how great your contribution is this time, you can't be given a position with real power. At most, it's just a nominal title. For example, this time, you can try to fight for the title of honorary Vice President." Hong Zhong said with a profound smile.

"Honorary Vice President? Isn't that a little too much?" Lin Yi's eyes twitched.

Hong Zhong shook his head and said, "no, not at all. Lin shaoxia, you've done a great favor for the Hong Chamber of Commerce this time. It's comparable to saving our lives. What's so exaggerated about asking for the title of honorary Vice President? although the title is scary, it's just a title without any power."

Chapter 4025 Don't Come Looking For Me Again

"Then, if it was manager Hong who had to choose, which one would he choose?" Lin Yi asked.

Hong Zhong smiled. "If I were to choose, I would definitely choose the second option. As long as you have enough power and status, you can have as many spiritual jades as you want. However, the title of honorary Vice President, although it's only a virtual title, at least it represents status and privileges. Under normal circumstances, you can't buy it no matter how many spiritual jades you have. When you come to Nakajima, this title will make it much easier for you to do things."

"In that case, I'll have to trouble manager Hong." Lin Yi decided immediately. No matter what, he had to go to the middle Island in the future. Since Hong Zhong said so, there was no need to hesitate.

"Lin shaoxia is indeed decisive. Fill out this appointment form and you will be the honorary Vice President of our Hong Chamber of Commerce!" Hong Zhong smiled as he took out a letter of appointment and handed it to Lin Yi. He'd clearly communicated with the headquarters already!

"Then from now on, we are colleagues! But, since I'm an honorary Vice President, then manager Hong ..." Lin Yi blinked and smiled-if he'd chosen Lingyu, Hong Zhong wouldn't have taken out the appointment letter, but Hong Zhong knew Lin Yi well enough to know that Lin Yi would definitely choose the Vice President position!

"This incident happened so suddenly. It's certain that someone is working together behind the scenes. However, there must be someone in the Hong Chamber of Commerce who didn't sit properly!" Hong Zhong smiled meaningfully. "This is the time to settle the score. Speaking of which, I haven't moved my position for a long time."

Lin Yi smiled, understanding what she meant. "Then this one will quietly wait for shopkeeper Hong's promotion."

Just as Lin Yi was talking to hongzhong, the elite Gathering Hall was in a mess. Zheng Tianjie was sending people everywhere, trying to find out Lin Yi's background.

Watching as things developed in the direction he didn't want to see the most, Tian Gang knew that he couldn't continue to watch from the side. Otherwise, the situation might really get out of hand.

At this thought, Tian Gang immediately found a powerful female practitioner named Lian Xin. She was the master she had taken in at the pill Hall after being teleported to sky order Island.

"Luan 'er, why have you come to find master so late at night?" Lianxin looked at Tian Gang with a gentle gaze. She liked this new disciple very much and had always treated him as her own.

Tian Ji respectfully saluted, then took out a pill from her bosom. It was the pill that she had specially bid for during the day's auction.

"Master, regardless of the quality of this elixir, it's of the best quality even among the best quality. I'm just a little puzzled. The Hong Chamber of Commerce has never been famous for elixirs, so how did they

get such a beautiful elixir, and there are more than a hundred of them at once?" Tian Gang pretended to be confused.

Lianxin and the others had also been thinking about this question for a long time: "That's right. Even the five-elements pharmacy, which has always been famous for elixirs, only took out 10 Supreme-grade elixirs this time. The Hong Chamber of Commerce actually took out more than 100 at once. It's really incredible. If this continues, the five-elements pharmacy will probably be squeezed out of the five-elements pharmacy,"

Tian Gang immediately agreed. "That's right. The five elements pharmacy is an important source of income for our pill Hall. We can't let anything happen to it. So, I think we should find an opportunity to investigate this problem."

"I'm very pleased that you have such a heart, Huang 'er," Lianxin smiled gently and said casually, "Oh right, do you know that young man from the Hong Chamber of Commerce? yesterday, I seemed to have heard him call your name?"

"Yes, we've met a few times in the secular world, but we're not familiar with each other." Tian Gang replied.

"Since that's the case, Huang 'er, you can think of a way to ask him about the origin of these Supreme-grade pills. You might be able to find out something." Lianxin suggested.

As expected, Lianxin's words were exactly what tianshuo wanted. This was the reason why she bid for the pill-she wanted to meet Lin Yi with a proper excuse.

"Yes, this disciple understands." Tian Gang immediately left Lianxin's room and left the elite Gathering Hall. She had to tell Lin Yi about this as soon as possible so that he could be prepared.

Tian Gang's sudden visit was a surprise to Lin Yi. From the first time he saw Tian Gang yesterday until now, Tian Gang's abnormal reaction had become a big knot in Lin Yi's heart.

During the auction in the day, there were too many people around, especially with Zheng Tianjie staring at Tian Gang. Even if Lin Yi wanted to talk to Tian Gang, he didn't have the chance. After the auction ended, Tian Gang immediately returned to the elite Gathering Hall with the others, so Lin Yi couldn't do anything. He didn't expect that he would come to him on his own initiative.

"Tiangang, are you ... Are you okay?" Lin Yi took a deep breath. He had a thousand words to say, but they all turned into a simple greeting.

Hong Zhong, who was originally with him, saw this and smiled playfully. He left the room tactfully, leaving the two alone.

After Hong Zhong left, Tian Gang's originally cold expression gradually became complicated. Finally, there was a bit of warmth that he was familiar with in the secular world.

He thought back to their time in the mortal world. Compared to now, that time was so beautiful. He thought that after coming to Sky Class Island, it would be a wonderful journey, but he didn't expect the reality to be so cruel. It was unbearable to look back on, and he couldn't escape even if he wanted to.

Thinking about the purpose of this trip, Tian Gang's mood immediately fell to the bottom. After a long time, Tian Gang's face darkened and he lowered his head. "Lin Yi, I ... I'm sorry ..."

"What's wrong?" Lin Yi's heart skipped a beat as he had a bad feeling about this.

Tianshuo lowered his head and didn't say anything, his face full of sadness. Lin Yi quickly squeezed out a smile and pretended to understand, "Oh ... You're talking about how you didn't want to acknowledge me on purpose, right? it's okay. After all, there are many people around. It's always good to be careful. I can understand. Besides, aren't you here to find me now? I'm not that petty!"

"You're so petty. " Tian Gang couldn't help but laugh. However, he immediately tensed up and said with a serious expression, "Lin Yi, I'm not going to joke with you anymore-I came here today to tell you something! From today on, don't come looking for me. If you see me again, you have to pretend that you don't know me ..."

"Why?" Lin Yi's face changed as he was stunned. He never would have thought that Tian Huan would say such heartless words after coming to acknowledge him!

Chapter 4026 Tian Huan's Difficulties

"There's no reason. If you want me to be well, just do as I say. " Tianshuo tried to hold back the tears in his eyes and tried to make himself look less weak in front of Lin Yi. He kept telling himself to be strong, at least pretend to be strong.

Lin Yi took a deep breath and looked at Tian Gang, "Tiangang, we've come from the secular world. You should know what kind of person I am. If you can't give me a reasonable explanation, I will never give up, unless...You no longer like me ..."

Tianshuo's heart skipped a beat. With her feelings for Lin Yi, how could she say something so cruel? To spend the rest of their lives together with the person they love was every girl's most romantic dream. Tian Huan was no exception.

However, reality didn't allow it. If she didn't let Lin Yi let go now, she wouldn't be the only one hurt. Lin Yi would be killed as well. Rather than watching Lin Yi die in front of her, it was better to forget about each other. Lin Yi had so many female friends. He should be able to recover from the pain soon.

"Yes ... I don't like you anymore ..." Tianshuo turned his head away from Lin Yi! Sky Class Island wasn't like the common world-anyone here was stronger than them, and Tian Gang didn't want Lin Yi to die for nothing.

Seeing Tian Gang's reaction, Lin Yi frowned and suddenly thought of something, "Is it because of that Zheng Tianjie?"

Tian Gang was shocked by Lin Yi's question, but he pretended to be calm, "Why do you have so many questions? I'll kick you if you ask again!"

It'd been half a year, and Lin Yi's heart ached when he heard that familiar phrase again. He suddenly opened his arms and pulled Tian Gang into his embrace, hugging him tightly.

"You!" Tian Gang called out, and by the time she came back to her senses, her nose was filled with Lin Yi's scent, a familiar scent that she would never forget.

She struggled a little but couldn't get out of Lin Yi's arms, so she gave up. If it wasn't for the cruel reality, she wouldn't even think about getting out of such a warm and comforting embrace.

In the small room, under the candlelight, a man and a woman hugged each other tightly, quietly feeling each other's heartbeats, unwilling to let go for a long time.

After a long time, Lin Yi asked as he stroked tianshuo's hair, ""Now can you tell me why?"

"I beg you ... Don't ask anymore! There's really no benefit to you in this matter. Can you just pretend that you've never seen me? If I had known you would be here, I wouldn't have come to this auction. " Tianshuo's body trembled in Lin Yi's arms, and he couldn't help but cry.

Lin Yi was still holding her tightly in his arms, patting her on the back. "Don't be afraid. There's always a way out. Believe me, as long as you talk to me nicely, there will be a way to solve everything. What did he do to you?"

At this point, Tian Gang could no longer hide it and admitted, ""That's right, he's the grandson of our alchemy Hall's vice Hall Master. A few days ago, his grandfather publicly said that he wanted me to be engaged to him ..."

"Let you be engaged to him? Heh, I think he's tired of living!" Lin Yi's eyes narrowed as he released his killing intent.

Tian Gang covered Lin Yi's mouth and shook his head, "Don't worry, no matter what method I use, I won't let him succeed. However, he's an extremely jealous person. Anyone who has a little bit of contact with me, even if it's the little Junior Brother who has only spoken a few words to me, will definitely die in a furnace explosion during alchemy in just a few days. Although there's no evidence, everyone knows

that it's definitely his doing. It's just that under the tyranny of his grandfather, the Vice Hall Master, no one dares to say anything. "

"Vice Hall head of the hall of alchemy, what level is your strength?" Lin Yi asked after some thought.

"At least above the Golden core stage. Zheng Tianjie himself is already a golden core stage expert!" Tian Gang said with a lingering fear, "strength is secondary. What is important is his grandfather's status. Because Hall Master Zhang is not around all year round, his words in the pill Hall carry enormous weight. Only a few of master Zhang's in-name disciples can ignore his face and mind their own business. Other than that, he can be considered the most arrogant existence in the pill Hall!"

Zhang Liju's disciple? Then if she had Zhang Liju's legacy from the secular world, could she be considered his disciple?

Lin Yi muttered to himself, but didn't say anything to Tian Gang. He only nodded, "Alright, I got it."

Looking at Lin Yi's calm face, tianshuo felt that something was wrong. He smiled bitterly, ""Even if we ignore his Grandpa, Zheng Tianjie himself is already super hard to deal with. A golden core stage master is not something we can fight against right now. Lin Yi, don't do anything stupid, so it's better for us to pretend that we don't know each other. Otherwise, if we get too close, it'll bring you disaster."

Lin Yi only smiled, "What will come will come. I can't pretend that I don't know you for this kind of shit."

Tian Gang was touched, but he was also worried. He kicked Lin Yi lightly, "Really, I'm not joking with you. You've already attracted his attention when you bid against him during the auction in the morning. He's

already looking for people to investigate your background. You have to be careful these few days. Don't give him any opportunities."

"Don't worry, I know what I'm doing," Lin Yi nodded on the surface, but his heart was already filled with killing intent. The situation now was that even if he didn't go after Zheng Tianjie first, Zheng Tianjie would go after him for sure. Not to mention, because of what happened with Tian Gang, they were already like fire and water.

Plus, if he were to think further, Lin Yi might go to Nakagama to ask Zhang Liju for help in the future, and leaving Zheng Tianjie to mess with him would only cause more unnecessary trouble. He might as well take this chance to kill him.

Seeing Lin Yi's reaction, Tianjie thought that he had taken her words seriously. She let out a breath of relief. She didn't care what happened to her, but if Lin Yi died because of her, then she would regret it for the rest of her life.

From Tian Gang's point of view, the two of them could not face such a situation with their current insignificant strength. At least for the time being, they could only be separated by fate. As for what the future would be like, only the heavens knew.

#### Chapter 4027 A Risky Move

Staying in the small room, tianshuo buried himself in Lin Yi's arms. After a long time, he finally left Lin Yi's arms.

If the situation allowed it, she even wished that she could hide in this warm embrace for the rest of her life. However, the reason she came here this time was to find out about the origin of the pill. If she stayed for too long, it would definitely arouse suspicion, especially if Zheng Tianjie found out that she had met Lin Yi at night. Lin Yi would really not be far from death.

In the end, Lin Yi watched as Tian Gang left unwillingly. He didn't feel any heartache, on the contrary, his heart was filled with killing intent.

In order to avoid any more trouble, Lin Yi had already made up his mind to get rid of that idiot Zheng Tianjie. After all, the other party had already sent people to look for him, and if he really found out something, it would be easy for him to give himself away if he made a move later.

After putting on the mask, Lin Yi got up and headed to the elite Gathering Hall. However, the first problem he faced was how to sneak in without alerting the guards.

According to what the North Garrison guard had said, Lin Yi could go in directly if he came with Tian Gang. However, this was a very important mission, and he could be killed if he was not careful. He didn't want to get Tian Gang involved, so he had to think of a way himself.

Lin Yi's early years as a killer taught him one thing-there were no impenetrable walls in this world. No matter how tight the security was, as long as he waited patiently, he'd always find an opportunity.

As expected, Lin Yi waited in the dark for four hours, and when the northern Battlefront guards changed shifts, he finally seized the chance to climb over the wall before the new guards got into position.

After entering the elite Gathering Hall, the next problem was how to find Zheng Tianjie. Of course, there was a bigger and more critical problem, which was how to kill Zheng Tianjie!

Don't forget, Tian Gang had already said that although Zheng Tianjie was an Alchemist, he was an out-and-out golden core stage expert. He was a powerful existence that completely surpassed all Foundation establishment stage experts. The powerful aura that he had inadvertently revealed during the auction in the day was already enough to explain the problem.

Lin Yi, on the other hand, was only in the mid-Foundation Stage. At most, he would be considered invincible among the new disciples in the pavilion. However, on this northernmost Island, in front of Zheng Tianjie, who was in the Golden core stage, he couldn't even withstand a single blow. If they were to really fight, Zheng Tianjie might be able to crush Lin Yi without even having to face him.

"Although in my eyes, a Jindan expert is nothing, but for the current you, even if it's an idiot or a second-rate Jindan expert, it's still no small matter. Kid, you have to think carefully before you act." Even the ghost was shocked by Lin Yi's plan.

"I was forced by the situation and I had no other choice. But from the perspective of the seniors, is it possible to kill a Jindan stage expert in seconds with the new move I've recently developed?" Lin Yi replied in his mind.

"This ... You've really stumped me. Even with my many years of experience, I've never heard of a mid Foundation establishment killing a golden core cultivator. After all, it's impossible to do that under normal circumstances." The ghostly thing paused and then said, ""However, that move of yours was also considered original. A true energy bomb was able to kill a master at the peak of the late Foundation establishment stage in seconds. This move seems to be even better, so there should be a chance of success."

Lin Yi laughed at what the thing said. "Even if there's only one chance, I have to give it a try. If I can't kill Zheng Tianjie even with such a rare opportunity, I'll have even less chance when he returns to Nakajima in the future."

Even if it was only for Tian Gang, Lin Yi had to find a way to kill Zheng Tianjie today. If he went back and forced Tian Gang to get engaged, he wouldn't be able to help at all in the North Island. How could he be Tian Gang's man?

Carefully holding his breath and hiding his body, Lin Yi secretly checked around the elite Gathering Hall, but couldn't find Zheng Tianjie's position. Of course, this was all because he didn't dare to get too close.

After all, even if he didn't talk about the northern Battlefront Army, the people living in the elite Gathering Hall were all Masters. There were many masters above the Golden core stage. With Lin Yi's strength, if he got too close, he would be courting death.

However, if he continued to fail to find her, Lin Yi would have to take the risk.

At this time, a few people appeared from the main entrance of the elite Gathering Hall, rushing towards the building opposite the guest rooms. From the familiar signs, it was obvious that this was a refining room prepared for guests. Lin Yi had borrowed it before, but it was a refining room outside the elite Gathering Hall.

Lin Yi's heart jumped. He'd been to all the other places, but this alchemy room. Could Zheng Tianjie be inside?

This was not strange. The reason why he had bid for the ten-piece forging equipment set with him during the day was to obtain one of the materials to refine the rank-4 beautifying pill to please Tian Huan. It was reasonable for him to refine the pill overnight.

Sure enough, after waiting at the door for a while, the door to the elixir refinement room opened, and the person who walked out was Zheng Tianjie.

"What kind of bullsh \* t efficiency is this? it's just investigating the background of a mere country bumpkin. With our pill Hall's intelligence network, you actually still need such a long time. It's a good thing this young master hasn't started refining the skin beautifying pill yet. Otherwise, if I was interrupted halfway and the pill refinement failed, causing Junior Sister Tian Ji to be disappointed in this young master, can you bear the responsibility?" Zheng Tianjie started to scold him.

Those people shrank their necks and didn't dare to talk back. They allowed Zheng Tianjie to scold them for a while. After his anger had subsided, they followed Zheng Tianjie to a room not far from the alchemy room and reported the news they had found this time.

Lin Yi didn't follow them to eavesdrop on their conversation. Instead, he pondered for a moment and dashed into the room.

From Zheng Tianjie's words, it was easy to tell that this guy would come back to refine the skin beautifying pill after hearing the reports from those people. To Lin Yi, this was a godsend opportunity!

He sneaked into the room-it was empty, but there were all sorts of precious materials in the room. The four cabinets were full, and every single one of them was a rare treasure. Lin Yi gulped.

#### Chapter 4028 The Fusion Of Two Types Of Bombs

Lin Yi didn't know if Zheng Tianjie had brought the materials here personally, or if the northernmost Island had already stored them here in advance, specially prepared for distinguished guests like them. However, he found the ten-piece forging set that was being auctioned during the day in an inconspicuous corner of the cabinet!

Lin Yi scanned the list and found that there were only nine of them. The last one had been taken out and placed beside the furnace with the rest of the ingredients. It was probably what Zheng Tianjie had prepared for the skin beautifying pill.

Fortunately, the remaining nine materials had already covered the six that Lin Yi needed. Without hesitating, Lin Yi put them into the Jade space. They were all in an inconspicuous corner, so even if Zheng Tianjie came back, he wouldn't notice them in a short time.

As for the other materials, Lin Yi didn't want to touch them. First of all, it would arouse Zheng Tianjie's suspicion if he took too many. If they didn't belong to Zheng Tianjie, then Zheng Tianjie's death would attract other people's suspicion. Lin Yi didn't want to cause more trouble.

Time was tight, and Zheng Tianjie might come back anytime. Lin Yi started to prepare his new killer move.

It was impossible for a mid-Foundation Stage to challenge a golden core stage master using normal methods. No matter how strong Lin Yi's cards were, no matter how powerful his skills were, it was all useless. He couldn't escape death in one move.

The only way was to store up energy and prepare a super true energy bomb, just like how he dealt with Nan tianyong, who was at the peak of the late Foundation establishment stage, and throw it at his face when he was unprepared!

It was the same move-it was obviously starting to lose its effectiveness when he used it on Xu lingchong, who was at Foundation Stage perfection. Although it was because he didn't have enough time to charge up, it at least proved that with Lin Yi's current level of strength, it wasn't realistic for him to use the same move against a golden core stage master who was far stronger than Xu lingchong.

And so, Lin Yi started researching a new killer move-after all, he couldn't keep using the mortal world's killer moves on Sky Class Island.

Lin Yi's first thought was to combine it, combining other people's killer moves with his own. This was how the raging fire Bagua Palm was created.

What Lin Yi was thinking was that if he could fuse the killer moves of others with his energy bomb, wouldn't the power increase greatly?

He thought about it, and for some reason, he thought of Kang Zhaoming's pill fire bomb!

In Zhang Liju's notes, there was a saying that true Qi and dan fire were two completely different forms of energy. When they were combined by an external force, the power they produced was something that I've never seen before in my life!

One sentence was all it took for Lin Yi to come to a realization. Not only did he know how to use Qi bombs, he could also use the alchemist's alchemy fire bombs.

As a result, this new martial technique was born. However, everything was based on theory, and he had not really tested it.

Zheng Tianjie hadn't returned yet, so Lin Yi found a hidden spot behind a shelf and sat cross-legged, multitasking. He condensed the Qi bomb in one hand and the pill fire bomb in the other, using all his strength to condense both to the extreme!

Fifteen minutes later, even with the Jade space to replenish his Qi, Lin Yi was already sweating profusely. Qi bombs and alchemy bombs, when condensed to the extreme, were both deadly. Now that he was doing two things at the same time, one could only imagine the strength.

At this moment, Lin Yi's ears twitched. The footsteps outside the door were getting closer. Zheng Tianjie had returned.

"F \* ck his grandmother, after all this, he's just a grassroots newcomer from Beidao, and he dares to come here and challenge me. Hmph, that's good too. It doesn't matter if we kill this kind of trash. Tomorrow, we'll make him die without a burial place!" Zheng Tianjie walked into the alchemy room while cursing.

Lin Yi's heart was in his throat-he only had one chance to attack a golden core cultivator with such a huge difference in strength. If he missed, he'd die.

Furthermore, he had already learned a big lesson from the last time he faced Xu lingchong. The more powerful an expert was, the smaller the chances he would have. He had to take advantage of the moment when the other party was the most relaxed to suddenly launch a fatal blow. Otherwise, no matter how fierce and fierce this newly developed killing move was, it would be useless once it was dodged.

So, Lin Yi had to be careful and find the best opportunity.

Stepping through the door, Zheng Tianjie casually glanced around the room and did not find anything unusual. He was not afraid of anyone ambushing him, but it was just a cautious habit that alchemists had developed since they were young.

After confirming that everything was fine, Zheng Tianjie closed the door and walked to the alchemy furnace, ready to start refining the level-4 skin beautifying pill.

Even now, Lin Yi was still holding his breath. He knew that this wasn't the time for the enemy to let down their guard. It wasn't the best time yet. He still needed to wait patiently.

Finally, after Zheng Tianjie was done resting, he stood up and picked up the materials that he had prepared in advance and put them into the medicinal cauldron. Just as he began to condense the elixir fire, a sudden change occurred!

Without any warning, a pair of palms suddenly emerged from behind him, each holding two extremely powerful energies. With a loud roar, the palms suddenly put together on Zheng Tianjie's chest. The true energy bomb and the alchemy fire bomb, which were on the verge of exploding, were pinched together by an external force at this moment. They were less than a fist away from Zheng Tianjie's face!

Zheng Tianjie had never thought that someone would actually dare to hide in the alchemy room and launch a sneak attack from behind him! By the time he could react, the true energy bomb and the pill fire bomb had already collided in front of his face and exploded!

BOOM! Not only the elite Gathering Hall, but even the entire northernmost Island suddenly shook. All kinds of birds and beasts scattered in all directions, and it was a horrifying scene as if the end of the world was coming.

At this moment, everyone on the northernmost Island couldn't help but turn pale with shock. Everyone was in a panic, and they looked at each other, not knowing what to do.

A sorry figure suddenly dashed out of the broken walls of the alchemy room and fled with all his might before everyone arrived! This man was Lin Yi.

Combining the energy bomb and the fire bomb was a world-shaking killer move. Even Lin Yi himself would've been half-dead if he'd tried to escape with all his might after releasing it. He was able to escape in such a sorry state because he gritted his teeth and held on. Of course, it was also thanks to his mid-Foundation Stage strength.

Chapter 4029 Knocked Unconscious By Someone

But before that, Lin Yi decided to stay at the messy scene for a while. Even if he had to risk being discovered, he had to fake the scene and make it look like an accident!

Since Zheng Tianjie liked to let others die by exploding their furnaces, he would give them a taste of their own medicine. It would not be too much to use this trick. After all, this guy's identity was not to be underestimated. If it was really discovered that it was an assassination, the entire northernmost Island would be thoroughly investigated, and that would be a big problem.

But if this guy died because of an explosion, then it would be his own problem, and no one would be blamed. The northernmost Island could use this excuse to report to the pill Hall, and so there was no need to risk offending the other big shots and go through a big search, and Lin Yi could escape this.

Now, Lin Yi, the instigator, had suffered such a heavy injury, while Zheng Tianjie was caught off guard and hit in the chest. The outcome was obvious.

Even if he was a powerful Jindan expert, his body was still made of flesh and blood. How could it possibly withstand such a terrifying explosion!

If it was a pure true energy bomb or a pill fire bomb, Zheng Tianjie might still be able to rely on his unparalleled powerful true energy to protect himself like Xu lingchong. However, after the two were combined, it was a completely different concept.

Even a golden core stage expert like Zheng Tianjie would die without a doubt if he was suddenly attacked by such a heaven-defying killer move.

As for whether Zheng Tianjie was dead or not, Lin Yi didn't care anymore. One thing was for sure-even if he wasn't dead yet, he wasn't far from death. Unless Zhang Liju was there, no one could save him. Lin Yi's only headache now was whether he could escape.

The explosion just now had shaken the entire northernmost Island, and the nearby North Battlefront guards quickly gathered around. With Lin Yi's current half-crippled state, it would be a disaster if they found him!

Countless people quickly approached the scene. Lin Yi had picked a direction with fewer people, and it was dark as cover, but he couldn't handle the crowd coming from all directions, especially the well-trained Northern Battlefront Army.

The others might have come to watch the show, but the northern Garrison was on full alert. It was not easy to get away from a suspicious guy like Lin Yi, who was injured all over.

Lin Yi's movements weren't slow at all, and he'd specifically chosen the best hidden corners to pass through. The chances of being discovered and suspected in a situation like this with so many eyes and ears were low, but he had a fatal problem-his injuries.

The previous killer move was already extremely energy consuming, plus the injury from the rebound, even if Lin Yi gritted his teeth and endured it, he could clearly feel the rapid loss of energy, and at this time, he still hadn't left the elites Gathering Hall!

"Who is it?" Suddenly, a shout came from the corner in front of them, followed by a wave of concentrated but orderly footsteps. Judging from the sound, it should be a team of Northern Battlefront guards.

Lin Yi was shocked. He didn't check and pushed open a door without hesitation.

In his current state, he would definitely be caught by the northern Garrison as a suspicious person if he were to run into them. Then, everything would be over.

Besides, Lin Yi was in a bad state now. He had used up all his energy, and even his pure Qi was in a mess. Otherwise, he wouldn't have been detected by the northern Battlefront Army from so far away with his stealth ability.

No matter what, he couldn't let anyone find out. With that thought in mind, Lin Yi tried his best to hide in the room next door, but to his surprise, he saw a cute pink color. The room was very heartwarming, as if it was a girl's room.

"Whoosh, whoosh, whoosh, whoosh ..." Ning Xuefei hummed a tune as she took a hot bath. She was in a good mood.

In the auction during the day, she successfully bid for two Supreme-grade foundation-breaking pills, which were rare and good items. Even on the middle Island, they couldn't be bought at any time, and had to be reserved with the five elements Chamber of Commerce. She didn't expect that she would be so lucky on the northernmost Island and get them!

This way, she would be able to avoid a lot of the pain of cultivation. Once she touched the barrier, she could directly break through to the next level. The success rate was almost 100%. An ordinary foundation building barrier-breaking pill couldn't be compared with it.

For a girl like ning Xuefei who didn't care much about power, the thing she hated the most was to sit in meditation and cultivate. If she was stuck on the wall and couldn't make any progress for a long time, she would be forced to cultivate in seclusion. That kind of painful experience made her hate it so much that she didn't want to do it a second time.

Although the Supreme-grade foundation-breaking elixir was not like the foundation-breaking golden elixir, which could be used directly as an experience elixir to level up, it at least had an unparalleled effect on breaking through barriers. It could save a lot of unnecessary closed-door cultivation, so to ning Xuefei, the harvest of the northernmost island made her very happy!

The only thing on ning Xuefei's mind was to ask the Hong Chamber of Commerce if she could get more Supreme-grade elixir.

This time, she had come to the northernmost Island in a hurry and did not have too many spiritual jades on her card. She was already very lucky to be able to bid for two Supreme-grade foundation building

barrier-breaking pills today. It was simply unrealistic to bid for more Supreme-grade pills with others. She could only find a way to discuss it in private through other channels.

This time, the Hong Chamber of Commerce had directly produced more than 100 Supreme-grade elixirs. There might still be some in stock. If they could buy it privately, even if it was just a temporary reservation, it would be an unexpected surprise. It was worth a try.

Just as Ning Xuefei was enjoying her bath, she suddenly saw a sorry figure staggering in from behind the screen, covered in blood. Before she could react, she fell into the tub with a splash!

"Ah ah ah ah ah!!!" Ning Xuefei jumped in shock and grabbed a water ladle in her panic, smashing it on the back of Lin Yi's head.

Lin Yi's body was already weak, and the hit made his eyes roll back and he passed out. But before he closed his eyes, he said something with determination, "Don't tell anyone ... When I wake up ... I'll thank you ..."

She watched as Lin Yi fell into the tub, completely motionless. Only then did Ning Xuefei calm down. She was quite brave, standing so close to Lin Yi naked and her first reaction wasn't to get out of the tub but to check on Lin Yi.

Chapter 4030 Breakthrough To The Peak Of The Mid-Stage Foundation Establishment Realm!

"Eh? Isn't this the little shop assistant of the Hong Chamber of Commerce? How did you get beaten up like this?" Ning Xuefei was shocked and suspicious.

Because she wanted to buy the best elixirs from the Hong Chamber of Commerce, she had a deep impression of Hong Zhong and Lin Yi, especially Lin Yi, who had just fought with Zheng Tianjie in the day

and forced the idiot Zheng Tianjie to buy the ten-piece forging set with a base price of 10000 spiritual Jade. That ridiculous look of being scammed made ning Xuefei almost go crazy.

In ning Xuefei's eyes, an idiot like Zheng Tianjie wasn't a good person, but Lin Yi was a smart worker at the Hong Chamber of Commerce, so he obviously wasn't a bad person.

"Could it be that someone was preparing to Rob the Hong Chamber of Commerce's Supreme-grade medicinal pills, so they wanted to coerce this shop assistant into committing the crime? but this shop assistant refused to comply and escaped with his life on the line?" Ning Xuefei's thoughts were wild. She wanted to go to the Hong Chamber of Commerce to buy elixirs, but she thought that others would think the same way. So, in the blink of an eye, she had already imagined a shocking heroic scene.

From the beginning to the end, she had not associated it with the loud noise just now. She thought that it was just an ordinary earthquake on the northernmost Island. She never thought that it was actually a movement caused by a man-made disaster.

Just as ning Xuefei was fantasizing, there was a sudden knock on the door, followed by the voice of the northern Battlefront Wei, ""The people inside, open the door! We are from the North Garrison. We suspect that an assassin has sneaked in!"

"Hey, I'm taking a bath! What are you guys trying to do?" Ning Xuefei shouted unhappily.

"Uh ..." The person at the door hesitated, but he didn't seem to want to give up. However, another person's voice sounded, ""Pockmarked, forget it. This is Nishijima-san's boudoir. You dare to investigate? do you want to die?"

"That's right. She's a Big Shot on the Western part of the island. Even steward song has to greet her with a smile. This room was specially prepared for miss ning. No one else can live in it. We can't afford to offend her. Besides, we can't be sure that there's an assassin in there. Maybe you were just seeing things ..." The other Northern Garrison guards also tried to persuade her.

Finally, the North Garrison guards gave up on the idea of searching the house. They apologized to ning Xuefei through the door and turned to go back to the scene.

Ning Xuefei let out a breath of relief as she heard the noise outside the door fade away. She looked down at Lin Yi in the tub and shook her head speechlessly, "I can't let this guy drown here, can I? how am I going to take a bath if he's here?"

Ning Xuefei was taken aback. She was only halfway through the bath, but Lin Yi was a man after all. As a girl, she couldn't just sit in the same tub with a stranger as if nothing had happened.

After getting out of the tub, she quickly dried herself and put on her clothes. She turned around and looked at Lin Yi for a while before pulling him out of the tub.

After all, the water in the tub wasn't too deep, and it wasn't too shallow either. With Lin Yi's current condition, it wasn't impossible for him to drown if he was left there.

After dragging Lin Yi out, ning Xuefei didn't do anything else. She just squatted on the side, holding her head and studying Lin Yi.

After all, she was a girl, and a Missy who didn't know how to serve people. It was impossible for her to dry a stranger's body so that he wouldn't catch a cold. It was already a big favor that she didn't throw Lin Yi to the northern Wei.

At the same time, the elite Gathering Hall was in a complete mess. After they found out that it was Zheng Tianjie, the young master of the hall of alchemy, the entire elite Gathering Hall was surrounded by countless Northern Battlefront guards and was under emergency martial law.

Butler song and the top figures from the various islands were all present, but the others were stopped by the northern Garrison. Before Butler song and the others came to a clear and unified conclusion, all information must be strictly blocked. Otherwise, if it spread like wildfire and even spread to the middle Island, it would be out of control.

Putting aside the situation outside, Lin Yi, who was in Ning Xuefei's room, only woke up after four hours of unconsciousness when he saw the sky was about to turn bright.

"What's your name?" Ning Xuefei, whose legs were numb from all the squatting, asked.

But Lin Yi didn't respond to her, closing his eyes and turning a deaf ear. He flipped up and sat down cross-legged, starting to chant.

He had almost fully recovered from his injuries in the Jade space, but he had not recovered his physical strength and true Qi!

"What? you're not even paying attention to me!" Ning Xuefei pouted, but she didn't say anything. She just squatted aside and watched.

Girls with nerves were usually more reasonable than most people, especially in this kind of abnormal situation. If it were someone else, they would've thrown Lin Yi to the northern Wei already. Why would they leave a suspicious stranger in their room?

In fact, Lin Yi didn't mean to ignore ning Xuefei. It was just that he was at a critical moment. Not only was he recovering his strength, but his Qi was also starting to expand. It was a sign of a breakthrough!

It hadn't been long since Lin Yi broke through to the mid-stage of Foundation-he hadn't taken any pills this time, and he was also heavily injured. Lin Yi never thought that he'd break through again so soon!

However, while this was unexpected, it made sense when he thought about it. For practitioners, every time they tried their best and got injured, they would be able to discover the potential in their body. It was a rare transformation, and it wasn't strange to use this opportunity to break through. Lin Yi himself had experienced it many times already.

Going from the peak of the early Foundation Stage to the mid Foundation Stage was an extremely difficult step to cross, but going from the mid Foundation Stage to the peak of the mid Foundation Stage was much easier. With Lin Yi's solid foundation, it was only natural for him to break through quickly.

Under ning Xuefei's gaze, Lin Yi circulated his Qi again and again, looking for a chance to break through.

After a long time, Lin Yi's aura suddenly increased by a huge amount, shocking many of the small decorations in the room. If it wasn't for ning Xuefei who saw the situation and quickly protected him, her precious little decorations would have been destroyed.

This state lasted for a while before Lin Yi finally retracted his aura, returning to his usual reserved state. However, the light that occasionally flashed in his eyes was obviously more pure and intimidating than before.

He had successfully broken through to the peak of the mid Foundation establishment stage!
