

Bodyguard 4071

Chapter 4071 Island Flower's Personal Expert

"Right, right? I told you he's a bad guy. Little Junior Brother, you did well!" Shangguan LAN 'er, who was standing at the side, suddenly paused and grabbed the little Curly bear's neck, ""You glutton little Bai, why can't you change your bad habit of licking every dish first? we haven't even touched anything, and the entire table is covered in your saliva. How are we supposed to eat?"

The little Curly Bear was caught off guard and choked. When Shangguan LAN 'er let go, it immediately spat out the food in its mouth all over the table. After that, it even burped in satisfaction.

"Ugh ..." Lin Yi and the other two looked at each other, speechless. They stared at Curly Bear for a while before helplessly saying, ""Order another table, I haven't had enough ..."

Seeing the little Curly bear's teary and innocent expression, ning Xuefei found it funny and sad at the same time. She quickly helped it out and changed the topic, ""Lin Yi, since you're so familiar with LAN 'er and me, why don't you be my tour guide and bring us around for the next few days? I've heard that there're a lot of scenic spots on the northern island, and we've been here a lot before, but we've always been in a hurry and never had the chance to have a good time!"

"I'm willing to, but I'm a newbie in the hall, and I can't go out as I please ..." Lin Yi smiled bitterly.

Even though he had his current eldest senior brother who was in charge of managing things to bear the burden for him, it did not matter if he went missing for a while to find the king of junk to forge artifacts. At most, people would think that he was hiding in the cave dwelling and cultivating in seclusion. However, if he were to go out and play with the two young ladies, that would be too eye-catching.

"Then what should we do? Xiao LAN 'er, do you have any good ideas?" Ning Xuefei asked. Although she was the princess of the West Island, there were rules in every place. She was not an ignorant little girl who only cared about herself and did not care about the life and death of others.

"Hmm...Let me think ..." Shangguan LAN 'er rolled her eyes and patted her head, ""It's okay, I've thought of a way. As long as my grandfather can arrange a position for you, they won't be able to say anything about it!"

"Position? What position?" Lin Yi couldn't help but ask.

"I don't know, but I'll definitely get Grandpa to think of a way. I'll leave this problem to him, hehe!" Shangguan LAN 'er said indifferently.

"Okay ..." Lin Yi nodded speechlessly. As for the forging, he'd have to put it on hold for two days. The king of junk said that it wasn't a bad thing to maintain this tepid state for a long time anyway, so it shouldn't affect him much.

After being scared by si tsunami, the two girls weren't in the mood to continue playing. After eating with Lin Yi, they quickly went back under the protection of the five core disciples.

The next morning, a transfer order was suddenly sent to the welcome Pavilion, which shocked everyone in the welcome Pavilion!

The newcomers of the three pavilions were all gathered together to listen to the appointment and transfer orders. Everything was done in a very formal manner. The deacon who was in charge of

conveying the elders' orders personally appeared, and the one who appeared with him was Hu Yunfeng, whose face was covered in shit.

"After a meeting with the North Island's Elder Council, we've decided to appoint Lin Yi as the West Island's reception Deacon. He'll be in charge of receiving miss ning, the guest from the West Island. He'll also be in charge of all her travel matters on the North Island. If she encounters any problems, he'll do it as he pleases without any further instructions." The messenger Deacon read out the transfer order in front of everyone.

As soon as these words came out, the entire place was in an uproar. Even Hu Yunfeng's face was filled with inexplicable shock.

West island's reception Deacon? What kind of position was this? he had never heard of it before. The key was that this was personally appointed by the elders Council, and they had the power to make arbitrary decisions. This did not sound simple at all!

Lin Yi was speechless as he received the order under everyone's envious gazes. Shangguan Tianhua was a top-tier boss, after all-he really had the time and energy to think of a name like this for himself.

However, just as Lin Yi was about to turn and leave, the messenger Deacon suddenly said,""Little brother Lin Yi, please wait. I have a private letter from Pavilion master Shangguan, please keep it with you."

BOOM! The crowd was even more excited now. Shangguan Tianhua, the pavilion master of the soaring Pavilion, was sending a private letter to a newbie in the GreenCloud Pavilion? the weight of this letter was even more envious than this random transfer order. Damn it, how many generations of good fortune did this Lin Yi have?!

Many of the new disciples were just watching the show. However, Hu Yun Feng, the pavilion master of the welcome Pavilion, had a completely sorrowful expression on his face. He had already eaten sh * t, but he still had to slowly chew and savor it.

Shangguan Tianhua was a high and mighty figure, and even the head of the welcome Pavilion wouldn't be able to talk to him face to face, let alone form a relationship with him. Just what was Lin Yi capable of, to be treated so differently by a Big Shot like him?

Even Hu Yunfeng was like this, and Kang Zhaoming, Murong Zhen, and the others who saw Lin Yi as a thorn in their side were even more shocked speechless. The sun was still shining brightly, but their hearts had already fallen into an ice cellar, frozen into a block of ice.

Lin Yi didn't even bother with the frustrated bunch. After receiving Shangguan Tianhua's message, he walked to an empty space and opened it, reading it carefully.

"Lin Yi, I think you're smart and reliable-you're a man of great potential. This training is a rare opportunity, and I hope you'll do your best to protect the princess of the West Island ... Be a qualified personal bodyguard of the island Flower."

The island flower's expert? The last line of the letter made Lin Yi spit out his saliva-why did he feel like he was born to do this? this was the job he did everywhere he went-it was the same in the mortal world, and now that he was on Sky Class Island, he still couldn't escape this fate?

The newbies were in an uproar again after reading the letter. Lin Yi looked up and saw Shangguan LAN 'er and ning Xuefei waving at him with sweet smiles.

With the West Island Princess in one hand and the sky Pavilion Princess in the other, everyone in the pavilion was completely petrified as they watched Lin Yi's group leave. Learning from Lin Yi as a newbie- this was a true winner in life!

"If we can't find a strong backing, I think we should give up on Lin Yi." Meng Tong sighed with emotion behind the crowd.

Zhaoming and Murong Zhen weren't willing to let it go just like that, but they'd been defeated last time, and they'd seen Nan Tianba's failure-they didn't have the guts to go after Lin Yi again after what they'd seen today.

Chapter 4072 Plotting Revenge

Just as Meng Tong said, at least for now, they were no threat to Lin Yi. Even if they didn't want to give up, they could only swallow their anger.

Traveling the North Island with two beauties was a dream come true for anyone. Lin Yi didn't think much of it, but he'd been on the Sky Class Island for half a year, and this was the first time he'd had such a good time. It was a rare relaxing experience after training hard.

However, just as Lin Yi was accompanying the two girls to tour around, a piece of shocking news suddenly spread throughout the entire North Island, becoming the new topic of discussion.

The former manager of the Hong Chamber of Commerce, Si Tsunami, who had flirted with the two princesses in public, had become the manager of the central Chamber of Commerce after being crippled!

"All the meridians in his body were broken and he was fired by the Hong Chamber of Commerce forever. He was promoted again so quickly? This si tsunami doesn't look like much, but he's actually so capable?" Lin Yi couldn't help but wonder.

"There's actually someone who's willing to hire such a bad old bastard to be their manager. Is there something wrong with this central Chamber of Commerce?" Shangguan LAN 'er said angrily. Even if she was simple-minded and didn't hate si tsunami, it would be strange for her to be happy to hear such news!

Ning Xuefei also frowned, but she was confused. ""Central Chamber of Commerce? This name sounds familiar. It seems to be in the limelight recently!"

"I don't know why, but I feel the same way." Lin Yi frowned as well. He didn't know anything about the central Chamber of Commerce, but the name sounded familiar.

Although the three of them were surprised and puzzled, they were having fun and didn't take it to heart. Si tsunami had already paid a heavy price before. As long as he didn't provoke them again, he was just an unrelated passerby.

At the same time, the two brothers, Nan Tianba and Nan Tianmen, were beating their chests and stamping their feet. Drinking really messed up things. Si tsunami had such a good backer. They had just gotten a little closer to him, but in the end, he was beaten to the end!

Not only did they lose a backer, but they were also scolded by their uncle, Nantian polar light, in the letter. He had paid a huge price to help si tsunami to his position. Because of these two guys, they had taken si tsunami to a brothel to have fun. In the end, he had become a fool with sperm overflowing in his brain.

Now, all of his previous efforts had gone down the drain. He had thrown down the sky-high price of spiritual Jade, but not even a sound was heard.

Just as the two brothers were regretting their decision, they didn't expect such news to suddenly come. Si tsunami miraculously rose to the top again!

When Nantian BA and Nantian gate received the news, they immediately went to visit. They went straight to the newly opened central Chamber of Commerce. As expected, they saw the high-spirited si tsunami.

"Aiya, manager si, we've finally found you. We couldn't find you anywhere for the past two days, and we've been worried sick!" The two brothers, Nan Tianba and Nan Tianmen, rushed over with faces full of joy.

"Hmph, did you really look for me everywhere?" Si tsunami's expression turned cold. The previous miserable experience had become a shadow that he could not forget for the rest of his life.

That was his most desperate and helpless moment, but these two people did not show up from the beginning to the end. When the tree fell, the monkeys scattered. How could he not bear a grudge!

The two brothers quickly explained, ""It's true, it's all our fault. We shouldn't have taken you to that kind of place to get drunk. Otherwise, such a big thing wouldn't have happened. Actually, after we sent you back to the Hong Chamber of Commerce the day before yesterday, the two of us also lost our memory from drinking. When we returned and woke up, it was already yesterday evening. After hearing that something had happened to you, we went around looking for your traces, but we couldn't find you!"

After hearing what the two said, si tsunami's expression eased a lot. He had already left with the mysterious man last evening. It was normal for the two brothers to say that they couldn't find him.

"Well, this old master will believe you for the time being and let this matter pass. Fortunately, this old master had the help of a noble person, otherwise, you two would probably have to collect this old master's body this time." Si haixiao said, half scared and half glad.

"Yes, yes. Manager si, heaven helps the good!" Nan Tianba and Nan Tianmen wiped off the cold sweat on their foreheads without a trace. They had finally managed to trick this old thing.

With their style of dealing with things, they had always flattered the high and stepped on the low. When si tsunami was rich, they naturally wanted to get closer to him. As for whether si tsunami came to find him when he was in trouble, only they knew.

Seeing that si tsunami was sitting in a specially-made wheelchair, Nantian gate asked with concern, ""Manager si, how are your injuries? why don't the two of us get you some holy healing medicine?"

"There's no need. My injuries aren't particularly serious. I've only broken a few meridians. I've already taken a Tier 5 Meridian opening pill. It's only a matter of time before I'm fully healed. There's no need for you to worry. " Si haixiao paused for a moment, then gritted his teeth and said, ""I can heal this injury, but this old man has to take revenge. Those two girls are fine, but that Lin Yi, he's the main culprit behind my tragedy. I'm not a man if I don't take revenge!"

Nan Tianba and Nan Tianmen nodded and agreed, ""That's right, we have to find a way to kill that Lin Yi kid. He's too despicable, but I heard that he's always with Shangguan LAN 'er and ning Xuefei, and he's also protected by the five Sky Tower Masters. It's not a good time to do anything to him. "

"There's still time. It's just a few more days. This old man still has this bit of patience." Si tsunami's eyes were filled with resentment. "I haven't had the time to celebrate the revival of Dongshan mountain. I don't have any acquaintances on the North Island except for the two of you. Why don't we go for a drink and have a good time?"

"Since manager si has given an order, how would we dare to disobey?!" The two of them quickly smiled.

The three of them immediately found a high-class restaurant. They drank and chatted happily. However, this time, si tsunami had a good memory. He didn't dare to mention anything about looking for a woman.

After all, he was forced to take the poison. If he messed around all day and didn't do anything proper, he would be done for if he made the mysterious person behind him unhappy.

"The two of you are the local tyrants of the North Island and have a deep understanding of all aspects of the North Island. I have a question I would like to ask. I wonder if you have heard of anyone with potential but evil intentions?" Si tsunami deliberated over his words.

Nan Tianba and the two men from the southern Heaven Gate were stunned for a moment before they blurted out, "Isn't that Yu Zhe?"

This guy, Yu Zhe, had committed treason and killed his master with his own hands. His mind was extremely evil. And in terms of potential, this kid's cultivation talent was not bad, especially his forbearance, which was easily suppressed in the library for three years. Ordinary people could not compare to him.

Chapter 4073 Destruction

Si tsunami couldn't help but pout. Yu Zhe had disappeared without a trace. There was no use in mentioning him. He continued, "Is there anyone else besides him?"

Southern Heaven Gate frowned and thought for a moment, then suddenly slapped his thigh and said, "There is, there's a guy called Kang Zhaoming in the welcome Pavilion. I've been looking at him because I suspected him to be Lin'er, and he's very cunning and full of bad ideas, but he has some brains! It's said that this kid will take revenge for the smallest grievance. Even when the newcomers fight in the arena, he will use underhanded moves. Many people have been tricked by him!"

"Oh? It's a little interesting!" Si tsunami's eyes lit up.

"What's even more amazing is that this guy's the same as us-he's Lin Yi's enemy!" Nantianmen laughed.

Si tsunami was even more satisfied. He immediately said, "That's great, then I'll have to trouble you to make a trip and invite this person to see me. This old man has a great use for him!"

Although Nantian gate didn't know what was going on, since si tsunami had said so, he had no reason to refuse. He immediately went to the welcome Pavilion.

Zhaoming's life hadn't been going well these days-it was the worst he'd had since he'd come to Sky Class Island.

Not only was he defeated by Lin Yi last time, but now he didn't have Xu lingchong as his backing. As a new manager, he was in an awkward position. The new people didn't take him seriously anymore, and it was impossible for him to go any further.

Even the pavilion master Hu Yun Feng had begun to distance himself from him. Recently, all matters, big and small, were directly handed over to the new managers, and he had fewer and fewer orders.

In his position, once there were no missions, it meant that he had no power. He was not far from becoming an invisible person.

She had to watch Lin Yi get on Shangguan Tianhua's good side, and if things continued like this, she'd be stepped on by Lin Yi sooner or later.

Kang Zhaoming was surrounded by a sense of danger, but he had no way to deal with it. The southern Heaven Gate just happened to come knocking on his door, it was like a pillow just as he was about to doze off!

Although Zhaoming believed that this was a rare opportunity that came right to his doorstep, he still called Zhong pinliang along for safety's sake. If something happened, he'd at least have someone to take the fall for.

Pinliang, on the other hand, wanted to see what these people were up to. He agreed and went with them.

He brought the two to the restaurant. Kang Zhaoming and Si tsunami met. To put it nicely, they felt like old friends at first sight. To put it bluntly, they were like birds of a feather.

Zhaoming's flattery turned the atmosphere around the table into a harmonious one, and the two started talking.

"I heard that you guys have some history with Lin Yi?" Si tsunami finally got down to business.

"That's right. Manager si, you don't know this, but Lin Yi and I have a blood feud, and so does this brother Zhong. We can't even finish talking about it in three days and three nights. " Kang Zhaoming said with a bitter tear.

"That's good-we're on the same side, and the enemy of my enemy is my ally. Zhaoming, you're willing to surrender to me-sure, I'll protect you from now on, but you'll have to do something first. You need to prove yourself before you can join, right?" Si tsunami squinted his eyes and smiled.

Zhaoming was overjoyed, but troubled,"This ... To be honest, manager si, we've already taken the initiative to look for trouble with Lin Yi a while ago. We wanted to kill him in one fell swoop, but the result wasn't as we wanted and he managed to avoid it. The two elders can be witnesses to this."

Si tsunami glanced at Nan Tianba and Southern heavenly gate. Seeing the two brothers nod their heads with certainty, he said lightly,""Since you've already failed, you can't be considered a proof of your loyalty. Since you've been able to mess with him once, you can naturally do the same now. What do you think?"

"Er ... But he's been with the two young ladies these days. It's going to be extremely difficult to deal with him. After all, we're just new members of the welcome Pavilion. Doing this is no different from seeking death. I hope manager si can understand this." Zhaoming said with a bitter face.

"That's true, but since you can't do it directly, can't you think of a way indirectly? If you don't even have this ability, what's the point of taking you in?" Si tsunami pouted.

This old thing wouldn't let go until he saw the rabbit! Kang Zhaoming cursed in his heart. He thought of something and said, "I've got an idea. Last time when we went to mess with Lin Yi, he just happened to be forging. Now that he's busy playing with the two ladies, he won't be able to take care of that place. What do you think, manager si?"

Si tsunami's eyes lit up. He stroked his beard and said, ""That's right, this is a rare opportunity. Once the forging of a weapon has started, it can not be stopped. He's not here, but the forging of the weapon will definitely continue! If you guys take the opportunity to cause trouble for him, even if you can't do anything to him, you must be heartbroken! As long as this matter is done well, this old master will naturally take good care of you in the future, and it will be a simple matter for you to soar to great heights!"

"Alright, I'll set off now. Manager si, just wait for my good news!" Zhaoming said excitedly as he turned around and left with pinliang.

He'd lost to Lin Yi last time, and this was a good time to get back at him. He didn't have to fight Lin Yi face to face, after all, so there was no risk.

On the way, pinliang was panicking. He wanted to tell Lin Yi, but he didn't even know where Lin Yi was. He could only follow Zhaoming and see what happened.

Zhaoming couldn't wait any longer as he entered the cave, pinliang following closely behind.

At this moment, the king of junk was engrossed in studying the forging notes left behind by his master. Although the unexpected turn of events from before seemed to be safe for now and there was still room for remedy, the king of junk was truly frightened.

He needed to calm down while Lin Yi was collecting the materials, review his plan from the beginning to the end, and review his notes. Perhaps he'd be able to find the blind spots in his thinking and prevent similar mistakes from happening again.

Because he was too focused, the king of junk didn't even notice the two sneaking in. He only realized it when the two appeared behind him.

"Who is it?" The king of junk was shocked, and he quickly jumped up from the ground.

But it was too late. He was only at the peak of the early Foundation Stage, and he wasn't good at fighting. One of Zhaoming's mini fire pellet bombs made his eyes roll back, and he fainted.

Chapter 4074 Tricked?

"F * ck, since when did Lin Yi get a helper like this? I'm lucky I prepared the pill fire bomb in advance, or everything would've been for nothing today." Kang Zhaoming spat out a mouthful of saliva.

Pinliang, on the other hand, was speechless as he looked at the king of junk on the ground. He didn't even know that they had sneaked in like this-this guy's alertness was way too low, and he was knocked out by Zhaoming in one move. Pinliang couldn't even do anything to him.

As pinliang was thinking of a plan, Zhaoming had already stepped over the king of junk and was at the edge of the pool. He looked at the weird-looking piece of metal and sneered, "This must be the weapon that Lin Yi's making right now, I heard that he even got Hong Zhong to help him get a lot of valuable materials. We'll take this away today, and he'll be heartbroken!"

Zhaoming didn't wait for pinliang's reply and reached out to pull the metal out. The pool was as calm as still water, after all, and there was nothing threatening about it.

Zhaoming's face changed immediately."

A shrill cry pierced through the entire cave, and even a large group of birds in the forest outside was startled and sent flying.

Buzzzzzz! A sizzling sound that could make one's scalp tingle was heard as a layer of skin on Kang Zhaoming's hands was scalded off. His hands swelled up like a pair of carrots at a speed visible to the naked eye. He quickly let go of his hands, and the metal lump landed on his feet with a "bang"-another layer of skin!

Even though the tool-casting pool appeared to be neither hot nor warm and was no different from an ordinary small pool, the temperature within was not something that a person could withstand.

Even a Foundation Stage master was still made of flesh and blood-Zhaoming's actions, in the eyes of those in the sect, were akin to an old man dying of old age.

"It's scalding! It was scalding! It's scalding ..." Pinliang didn't know whether to laugh or cry as he watched Zhaoming roll around on the ground, screaming in pain. He was just thinking of a way to deal with the situation, but the idiot fell into the trap of his own accord!

This was great-he didn't even have to think about it anymore. Pinliang grabbed Zhaoming's ankle and dragged him out of the cave without a word.

After the time it took an incense stick to burn, Zhaoming's screams finally died down. He turned to pinliang and said weakly,"What the hell is that? why is it so hot?"

Pinliang couldn't help but smile at the guy-what else could it be? it was just a weapon boss Lin Yi was making, after all! The guy was so dumb that he'd cry over something like that, taking the stuff from the pool with his bare hands!

On the surface, however, pinliang's eyes darted around as he analyzed,"Zhaoming, I suspect that this is Lin Yi's plan for us. He's been doing this all the time, pretending to be relaxed to lure us in. Think about it, after what happened last time, this place was obviously exposed. If it were you, would you still continue forging here?"

Zhaoming paused and shook his head."Of course not. It's such an important matter. If it were me, I would have changed locations long ago. How could I continue to stay here and be remembered by others?"

"That's why I'm saying that he should have secretly moved away a long time ago. Then, he made this broken iron lump to deliberately lure us here to cause destruction. This is exactly what he wants!" Pinliang said.

"That's right, I was just suspecting that this broken iron lump didn't look like a weapon at all, but it turned out to be a trap! Lin Yi's a cunning one-he even got someone to guard this place, as if that piece of metal was some good stuff! I wouldn't have fallen for that if it weren't for that!" Kang Zhaoming was furious as he cursed.

He was one of those people, and when he analyzed Lin Yi, he'd naturally analyze him with the most malicious intent. Little did he know that he'd brought this on himself from the start, and the only real reason was that he'd been too stupid.

Seeing that Kang Zhaoming had taken the initiative to explain himself, Zhong pinliang happily agreed with him. The two immediately went back to the restaurant and reported to si tsunami.

Seeing that Kang Zhaoming was covered in bandages and looked like he was seriously injured, si tsunami was stunned,""Did Lin Yi hit you?"

"No, manager si, I was tricked by him ..." Kang Zhaoming started to complain with snot and tears. To sum it up, it wasn't that he didn't give it his all, but Lin Yi was too cunning!

After listening to Kang Zhaoming's miraculous encounter, si tsunami, southern sky domineering, and the other members of Southern Heaven sect couldn't help but look at each other. However, after thinking about it carefully, he had his own reasons for Kang Zhaoming's trap this time. If he didn't ask Kang Zhaoming to submit himself, no matter how sinister Lin Yi was, he wouldn't be able to trick people like this.

"Alright, although you didn't succeed this time, even if you don't have any credit, you've worked hard. This old man has already seen your sincerity. This will be your proof of loyalty. In the future, this old man will naturally protect you." Si tsunami said lightly.

Zhaoming was overjoyed as he patted his chest, "Thank you, manager si. If you have any instructions in the future, I'll go through water and tread on fire without hesitation!"

"Very good, then we'll see how you perform next." Si tsunami nodded in satisfaction and looked at Zhong pinliang, ""Zhaoming's under me now, and I've acknowledged him, but I can't just take you in just because you're a friend of Zhaoming 'S. You need to contribute something, or you'll be on probation for now. "

Pinliang said after some thought. "Manager si, I was also there to cause destruction just now. It was only Zhaoming who rushed in front. He was burned the moment he picked up that piece of broken iron. I could only save him first. I didn't have a chance to show off."

"That's true, but I'm still fair. Zhaoming went through so much before I took him in, and if you want me to take you in as well, you can't have no contribution at all," Si tsunami still shook his head.

This old man was really not easy to fool! Pinliang was starting to panic-these people were after boss Lin Yi, and it'd be hard for him to get any more information from them if he didn't sneak in now.

Pinliang's eyes lit up all of a sudden. "By the way, manager si, aren't you looking for people who have ill intentions but have potential? I happen to know one, and she's a rare beauty!"

The news that si tsunami flirted with the two young ladies had spread all over the North Island. Zhong pinliang naturally knew that this old man was lustful, so he said this on purpose to please him.

Chapter 4075 Life-Phase Mushroom

Sure enough, upon hearing the word 'beauty', si tsunami, who was still in the wheelchair and had not recovered from his injuries, became excited. He asked quickly, ""Oh? What beauty, hurry up and tell me!"

"This girl's name is Murong Zhen. She's a new member of the pavilion like us, and she's also Lin Yi's enemy. She was with us when we went to mess with him last time."

"There's such a thing? Isn't that a natural ally?" Si tsunami was even more elated. He immediately said, ""Pinliang, hurry up and invite this miss Murong here. As long as she can satisfy this old man, this old man will remember you for your great service!"

"Alright," he said. Pinliang responded immediately, leaving Zhaoming with an embarrassed look on his face.

Murong Zhen had been Zhaoming's favorite all this while-things didn't go his way when he was dealing with Lin Yi, but he was satisfied with his service. This B * tch was much stronger than the average woman, and she was at the peak of the early Foundation Stage as well. It was a pleasure to conquer her in bed.

But now, Zhong pinliang wanted to introduce her to si tsunami! Damn it, I just didn't take the initiative to share it with him back then. Did he have to disgust me like this?

Zhaoming cursed at pinliang in his heart, but he didn't show it on his face. There was no point in saying anything now, and he had to swallow it.

Soon, Murong Zhen's graceful and seductive figure appeared before everyone's eyes.

As soon as he saw her natural lascivious look, si tsunami almost couldn't resist it on the spot. He swallowed a few mouthfuls of saliva and said quickly, ""I'm si tsunami, the shopkeeper of the central Chamber of Commerce. I've long heard of miss Murong's beauty. You're indeed a national beauty!"

Si tsunami couldn't be blamed for losing his self-control. He was a lecherous man and couldn't resist a woman's charm. Otherwise, he wouldn't have made such a stupid mistake. Ever since he came to the North Island, he had only been taken to a brothel once by the brothers from the southern heavenly sect. He had only played with ordinary women. He couldn't be compared with Murong Zhen, who was a naturally flirtatious Foundation establishment expert.

"Manager si, you really know how to talk. You're praising me so much that I'm embarrassed!" Murong Zhen pretended to be shy as he covered his mouth and laughed. He then glanced at the crowd and said, ""It's such a hot day, and I'm already tired from walking so far. Manager si, are you so cruel that you didn't even arrange a seat for me?"

Facing Murong Zhen's alluring eyes, si tsunami, as an experienced man, naturally understood what he meant. He gestured for the southern Heaven Gate to give up their seat and smiled pervertedly. ""Miss Murong, you've come from afar and it's been hard on you. Why don't you sit next to me? this seat was specially prepared for you!"

"Manager si, you really know how to dote on me. I'm embarrassed!" Murong Zhen smiled and immediately moved to sit next to si tsunami. Her exquisite body naturally leaned close to him.

Seeing si tsunami's lecherous expression, Kang Zhaoming couldn't help but secretly curse. Murong Zhen was indeed a slut. She would even throw herself at an old man like him. She didn't have any moral integrity at all.

Kang Zhaoming forgot that Murong Zhen only got together with him because of his background. For a woman like Murong Zhen, her body was just an asset. As long as the opportunity was right, she could use it to trade.

"Pinliang, I'm very pleased that you've introduced miss Murong to us. You've done a great job. I'll have high hopes for you in the future!" Si tsunami praised Zhong pinliang while enjoying Murong Zhen's flirtatious style.

This made Zhaoming even more depressed. It seemed like the old man, si tsunami, valued Zhong pinliang even more now. He had to be ranked behind him. As for Murong Zhen, he was even more inferior!

.....

Lin Yi was in a much better mood than Kang Zhaoming as he accompanied ning Xuefei and Shangguan LAN 'er to play around. However, he didn't completely forget about business during the trip.

He brought the two girls to the Hong Chamber of Commerce again. This time, without si tsunami's obstruction, Lin Yi successfully bought most of the materials listed by the king of junk. He even got one of the two rare materials that the king of junk mentioned that required luck. However, he didn't see the last one.

The life-form mushroom was a spirit herb that looked very similar to a lingzhi mushroom. At the same time, it was a rare material for forging. According to the king of junk, the law of the five elements during forging was different from the normal five elements. The law of the weapon's formation process was

reversed. Therefore, the key to the perfect harmony of the material's attributes lay in the life-form mushroom.

However, the rarity of the life-form mushroom was no less than the heart-devouring exquisite herb. More importantly, once picked, it could only survive for a very short time and would easily wither and become useless. Therefore, unless it was specially ordered in advance, it was difficult for even a large Chamber of Commerce like the Hong Chamber of Commerce to have stock. It was the same for other Chambers of Commerce.

Fortunately, Lin Yi wasn't in a rush. After making the reservation, he went to find Chen heihu and asked him to help with the purchase.

Only then did ning Xuefei finally react. She asked, ""Lin Yi, so you're not a worker from the Hong Chamber of Commerce?"

"Of course not. There is no such thing as a new member of the welcoming new pavilion working part-time outside. As for the reason why I went to the northernmost Island with Hong Zhong last time, it was only because I have a good relationship with him. I have never said that I was a little buddy of the Hong Chamber of Commerce." Lin Yi said with a shrug.

"Then why did you ask me to go to Hong Zhong for the pill last time? I thought you were from the Hong Chamber of Commerce!" Ning Xuefei pouted.

"Actually, I made all those myself," Lin Yi smiled.

However, it was true that he was a member of the Hong Chamber of Commerce!

"Ah? Is that true? So many Supreme grade pills were refined by you?" Ning Xuefei's eyes widened.

"Hehe, at that time, the Hong Chamber of Commerce was pushed aside by the other Chambers of Commerce and couldn't bring out any decent auction items. So I helped Hong Zhong and got those Supreme grade pills." Lin Yi explained casually.

Ning Xuefei was amazed. She had been at the auction. Even the Nakajima pill Hall had only taken out ten Supreme-grade elixirs, but the Hong Chamber of Commerce had taken out more than a hundred at once. The strong shock that it brought could not be felt by those who were not at the auction.

Chapter 4076 Friends In The Secular World

At this time, Shangguan LAN 'er interrupted,""In that case, could it be that the Supreme grade pill that you gave me as a birthday gift was also personally refined by you, Little Junior Brother?"

"Not bad." Lin Yi nodded and admitted-there was no need to hide things like this from the two of them.

"You can even make Supreme-grade elixirs so easily, I didn't expect you to be such a great refiner, Lin Yi!" Ning Xuefei was full of admiration and suddenly said,""By the way, I've heard that there's a pill that can directly increase one's strength called the foundation golden pill. You can level up by eating it, unlike the foundation breakthrough pill, which can only be used to break through barriers. I wonder if you know how to make it?"

"You also know about Foundation establishment and golden core?" Lin Yi was a little surprised. The foundation elixir was an extremely rare elixir on Sky Class Island, and even in a big Chamber of Commerce like the Hong Chamber of Commerce, it was rare.

"That's right!" Ning Xuefei proudly raised her neck. "This ... A good friend of mine told me!"

"I can try, but I can't guarantee success." Lin Yi didn't finish his sentence.

"That's great!" "I've collected a lot of materials for the foundation establishment golden core, let's make it together!" Ning Xuefei said excitedly. After that, we'll split it among the three of us, but I want two portions. I have to bring one for my good friend!"

"Sure, no problem." Lin Yi nodded in agreement. Ever since hongzhong went to the middle Island, he lost a reliable channel to purchase the heart-devouring exquisite grass. If he wanted to make more Foundation Stage golden elixirs, he had to wait for Chen heihu's news. He had been troubled by this for a while, but he didn't expect ning Xuefei to come to help him.

However, according to Lin Yi's estimation, even with ning Xuefei's noble identity as the West Island master's daughter, she wouldn't be able to collect a lot of foundation materials. After all, the heart-eating exquisite grass was rare. It wasn't something that could be collected easily.

However, a few days later, ning Xuefei sent someone to deliver a big basket full of materials, which shocked Lin Yi. There were at least ten sets in it!

Even with Lin Yi's mental fortitude, he couldn't come back to his senses for a long time. How did ning Xuefei collect all these?

This time, Lin Yi couldn't help but feel excited. After some preparation, he was ready to start the furnace.

However, Ning Xuefei and Shangguan LAN 'er, the two young ladies, came to him at this time and said in unison, "We want to watch you refine pills, we want to protect you!"

Lin Yi didn't know whether to laugh or cry at this weird request—he knew that they meant him no harm, of course. They wanted to see him make pills purely for fun, but if he did that, the secret of his Shennong medicine cauldron would be exposed!

After a long while, Lin Yi finally decided to agree, "That's fine, but you can't tell anyone about my alchemy, can you guarantee that?"

"Of course, of course. This is a secret between the three of us!" Ning Xuefei and Shangguan LAN 'er clapped their hands in celebration.

"Little Junior Brother, your cave is too small. Let's go to my house's Hualan residence to refine pills. It's more spacious there, and no one will disturb us." Shangguan LAN 'er suggested.

"That's good." Lin Yi nodded. In terms of external environment, the Hua LAN residence was the number one residence of the rising Sky Pavilion, after all, and it was indeed more reliable than his own cave.

Carrying a large basket full of spiritual herbs and materials, the three of them came to the Hualan residence. They immediately entered the practice room specially for Shangguan LAN 'er's practice and began to prepare to refine pills.

Ning Xuefei's eyes lit up when she saw Lin Yi take out the Shennong medicine cauldron."Lin Yi, your furnace looks different from the others!"

Although she wasn't an Alchemist, she had seen others refine pills before. However, she had never seen such a strange part like a tablet on someone's alchemy furnace. Of course, she didn't know that this thing was a tablet.

Lin Yi smiled."Shennong's medicine cauldron can refine pills on its own. It's the only one in the world. You can't find it anywhere else."

After searching for the elixir recipe for the foundation-building golden elixir and putting in the spiritual herbs and materials, the tablet computer displayed,""Please wait, Jing Jing is calculating the time and temperature curve for Lin Yi bro, a recipe will be created ..."

"Waa! It's so powerful!" Ning Xuefei's eyes were like stars. Her admiration for her best friend, han Jingjing, was like a raging river. She was even more confident in the automatic casting mechanism that han Jingjing was developing.

However, Shangguan LAN 'er asked in surprise,""Little Junior Brother, who is Jing Jing? Is that the name of your pill furnace?"

"No, she's my girlfriend from the secular world." Lin Yi said with a gentle smile. It wasn't just han Jingjing-every important woman around him made him feel warm and nostalgic from the bottom of his heart.

"Oh ... So you have a girlfriend, Little Junior Brother? you've never told me about it!" Shangguan LAN 'er's eyes flickered, and then she asked again, ""Is she still in the secular world?"

Lin Yi shook his head and sighed, "no, she came to Sky Class Island with us. But she didn't teleport to the North Island. I don't know which island or sect she's in."

He'd been worried about this ever since he'd bumped into Tian Gang on the northernmost Island. He couldn't act on his own in the martial world, and even Tian Gang was in trouble. With han Jingjing's strength, she'd probably have a harder time adapting to the complicated environment of Sky Class Island than Tian Gang. He wondered how she was doing.

"Eh? She's the little princess of the West Island. She might not know about other places, but if Little Junior brother's girlfriend happens to be on the West Island, she'll definitely be able to find her. Right, Feifei?" Shangguan LAN 'er suggested.

Lin Yi's eyes lit up with hope as he turned to ning Xuefei. Han Jingjing was a female, and judging from the fact that most of the female cultivators on the Sky Class Island were gathered in the West, the possibility of her being teleported to the West Island was at least 60%.

"Sure, I'll ask around when I get back." "Okay," ning Xuefei replied vaguely. She didn't tell them about han Jingjing's current situation. She wanted to give them a big surprise.

"Thank you very much, miss ning!" Lin Yi didn't notice anything wrong with what he'd heard, and thanked him immediately, "Help me check the other people too ..." "

Chapter 4077 Breakthrough To The Peak Of Late-Stage Foundation Establishment!

The whereabouts of han Jingjing, Tianji, song lingfei, Wang Xinyan, and the others were a huge concern to him. Even if he couldn't meet them for the time being, he would be relieved if he knew where they were.

As for the others, Lin Yi wanted to ask ning Xuefei to ask about them as well, but after thinking about it, it wasn't good to ask so much at the same time. Besides, ning Xuefei must have sent someone to ask about them. It would be bad if they were targeted.

"Why are you calling me miss ning again? Didn't I tell you to call me little Senior Sister Feifei, just like little LAN 'er?" Ning Xuefei said angrily.

"Damn, alright, little Senior Sister Feifei." Lin Yi quickly surrendered.

"Now this is more like it, hehe!" Ning Xuefei stuck out her tongue proudly.

Getting back to business, Lin Yi started making the foundation elixir immediately. For safety's sake, he didn't put all ten sets of ingredients in together, but split them into two equal portions. The Shennong medicine cauldron had its upper limit as well.

With his previous experience, Lin Yi was already very familiar with this process. There were no unexpected situations during the process this time, other than the fact that it took longer than usual. The only thing that surprised Lin Yi was the bearing radishes that came out of the furnace.

Although there were only ten sets of materials, the total number of Foundation-building golden cores produced from the two furnaces added together was fourteen, and each one of them was of the highest quality!

Even Lin Yi himself was shocked by the result, not to mention Ning Xuefei and Shangguan LAN 'er. They looked at Lin Yi as if he was a monster, their watery eyes full of admiration.

Lin Yi shrugged, embarrassed. "The main thing is that the materials are good, and the quality is rare, so it's normal to have a few more."

Shangguan LAN 'er had no idea about these things, but Ning Xuefei was quite familiar with alchemy. She was shocked and said, ""Normal? Refining 14 Supreme-grade foundation-building golden pills in two furnaces, and this was only normal? You're too humble, Lin Yi-even the pill God Zhang Liju isn't as good as you are, right?"

"Little Senior Sister Feifei is too kind. I'm just a newcomer, how can I be compared to master Zhang?" Lin Yi waved his hand with a faint smile. He was only at his current level because of this cheap master he'd never met before.

According to the plan, the Foundation Stage golden elixir would be split between the three of them. Ning Xuefei took six, three of which were for her "good friend," three for Shangguan LAN 'er, and the remaining five were all left for Lin Yi.

"I only need three. As for the two extra, you can have them," Lin Yi rejected.

He knew that the two women did not like to cultivate. If they wanted to improve their strength, they could only rely on medicinal pills. Taking an extra Foundation establishment golden pill would increase their strength. This was not a bad thing for the two women. After all, even if they had a deep

background, there would always be times when they needed to rely on themselves to deal with emergencies, just like the time when Shangguan LAN 'er was kidnapped.

Shangguan LAN 'er shook her head and said, ""I don't need so much, and I don't need to be too strong. If I improve too fast, I will be suspected by Grandpa. I don't want him to know the secret between us."

"This is your work," ning Xuefei said matter-of-factly. "It's all thanks to you that we can produce so many Supreme-grade foundation-building golden elixirs. The two extra ones should be yours!"

Even so, Lin Yi still didn't deserve it, ""Why don't you give both of them to your friend? if I'm not wrong, he prepared all these spirit herbs, right?"

This was not hard to deduce. Ning Xuefei was a weapon forging master, not an Alchemist. Normally, even if she knew about the existence of the foundation establishment golden core, she would not prepare so many Supreme spiritual herbs and materials. These were not easy to buy.

"Hehe, she definitely doesn't want it either. I'll make the decision for her and give it to you. You can't push it back and forth like this anymore!" Ning Xuefei said.

Lin Yi couldn't help but wonder-Supreme-grade foundation-level golden elixirs were rare and hard to come by. How close must ning Xuefei be with her friend for her to make decisions for her? But thinking about it, she should be a Super Best friend who was as close as a sister!

Lin Yi couldn't reject the offer anymore-he'd just take it as a favor that he'd have to make up for later.

At this time, Shangguan LAN 'er suddenly suggested with great interest, ""Since it's already been distributed, let's eat it together now?"

"Yes, that's a good idea. Let's refine pills together and break through together!" Ning Xuefei raised both her hands in agreement.

The Foundation Stage golden pill didn't have any side effects, so it didn't matter where he took it. Lin Yi didn't want to dampen their spirits, "Sure, I have no problem with that."

The three of them immediately began to adjust their state, and one after another, they took the top-grade foundation building golden pills that had just been made, and focused on breaking through to higher realms.

Every peak of the foundation building realm was an extremely difficult threshold to cross.

Last time on the northernmost Island, Lin Yi didn't need any pills to break through to mid-Foundation, but now, it wasn't just one or two times harder to break through to the peak of mid-Foundation, but ten, twenty, even thirty times harder!

However, Lin Yi was still very confident in this attempt to break through. He had five Supreme-grade foundation-level golden cores in his hands!

In the entire Sky Class Island, even the most powerful young masters didn't have such an exaggerated capital.

In one go, Lin Yi consumed four peak-grade foundation-level golden pills, leaving only one for himself. This was a really big attempt for Lin Yi to breakthrough.

Time passed by slowly, and when Lin Yi opened his eyes again, it was a full day and night.

There was a flash of light in his eyes, and he slowly retracted his aura. In just one day, Lin Yi felt like he had been reborn.

When he was at the peak of the mid-Foundation Stage, Lin Yi's aura was sharp and powerful, like a sword being unsheathed. Now, his aura was even more powerful, but not as aggressive as before. It was a lot more reserved and deep, like a sword being sheathed. Even if it was just the last bit of sharpness, it was still enough to shock people.

"The peak of the late Foundation establishment stage feels pretty good." Lin Yi said, satisfied.

That's right, with the help of the four golden cores, Lin Yi didn't just break through to the peak mid-stage of the foundation level, he even went up two levels, directly to the peak of the late-stage of the foundation level! He was only one step away from the peak of the foundation level!

Chapter 4078 Hongzhong's Return

If this kind of thing were to spread out, it would simply shock a large number of people's jaws. No matter how high one's talent and potential were, no matter how good the assistance of medicinal pills was, one could only advance step by step on the path of cultivation. It could not be said that rising two levels in a row was unprecedented, but it was also rare in the world.

Lin Yi's unbelievable performance, which no one knew about, was due to the four peak-grade foundation-level golden cores, but more importantly, it was due to his diligent training. Only by accumulating and accumulating could one's true power be unleashed.

Feeling the change in the quality of his pure Qi, Lin Yi couldn't help but feel that with his current strength, if he were to face a master like Zheng Tianjie again, he would have the strength to fight him head on.

Zheng Tianjie was a golden core stage expert. Even if he was only in the early stage of the Golden core stage, he was an existence that was completely above all Foundation establishment stage experts.

Foundation Stage and golden core stage were two completely different concepts. According to the common people's knowledge, even the strongest Foundation Stage cultivator would not be a match for a golden core stage cultivator, even if the person was an Alchemist.

There might be a difference in strength between Sky Class full phase and Foundation early phase-after all, there was a gap between Sky Class and Foundation, and if one wasn't used to it, it was possible that they'd be defeated-but golden cores were different.

However, Lin Yi didn't feel that way at all. It would be fine if he didn't fight with a golden core Master before, but he really felt that with his current strength, he wouldn't lose even if he fought Zheng Tianjie face to face!

Lin Yi had a strong feeling that he'd be able to see for himself whether a golden core was invincible in front of a Foundation Stage cultivator.

After Lin Yi, Shangguan LAN 'er and ning Xuefei had also broken through. Shangguan LAN' er had broken through to the mid-stage of the Foundation Stage with the help of her golden core and Shangguan Tianhua's personal guidance. Now, she had even broken through to the peak of the mid-stage of the Foundation Stage.

As for ning Xuefei, although she did not like to cultivate, her progress was not any less than Shangguan LAN 'er' s. She was now at the peak of the mid-stage Foundation establishment realm.

From refining to breaking through, the three of them stayed in their rooms for an entire day and night, not stepping out of their rooms at all. When they finally opened the door and walked out one after another, the five core disciples who were ordered to protect the two misses were looking at Lin Yi in a different light.

'One on two, and two princesses at that. This kid is too awesome. He's been hitting on girls to this extent. Even if he doesn't do anything else in his life, his future is still limitless ...'

Shangguan LAN 'er and ning Xuefei didn't notice the weird look in everyone's eyes. Only Lin Yi grinned awkwardly. He seemed to have done something that made these people's imagination run wild!

As he grew stronger, the Golden core stage Masters weren't that far away in his eyes anymore. These Masters had their own emotions, and they had a gossiping heart. He could only hope that they wouldn't spread this around, or he'd be pushed to the teeth of the storm again.

With nothing else to do, Lin Yi brought the two girls to the Hong Chamber of Commerce to see if there was any news on the life phase mushrooms.

However, as soon as he walked through the door, he saw a familiar figure. Lin Yi couldn't help but stop and said happily, ""Elder Hong, when did you come back?"

Seeing Lin Yi, Hong Zhong's face lit up as well. He quickly came up to Lin Yi and sized him up, clicking his tongue in wonder, "Lin shaoxia, it's been a long time since we last met, but you've changed again! The speed at which you improve your strength has really broadened this old man's horizons. Congratulations!"

"Grandpa Hong, you only see Little Junior Brother, don't you see us?" Shangguan LAN 'er came up from behind and said with a smile.

"Hehe, little LAN 'er, no matter who I miss, I can't miss you, little girl!" Hong Zhong chuckled and turned to ning Xuefei. He cupped his hands and said, ""This must be Ms. Nishijima, right? it's an honor to meet you. Come, come, please come upstairs!"

"You can call me Feifei, Grandpa Hong." Ning Xuefei said with a sweet smile.

After the three of them were invited to the private room upstairs, Hong Zhong immediately asked people to set up a banquet. After catching up with each other, he personally apologized to ning Xuefei and Shangguan LAN 'er on behalf of the Hong Chamber of Commerce. However, the two women didn't take it to heart at all. Even if they held grudges, they would find si tsunami to settle the score and not the Hong Chamber of Commerce.

After that, Hong Zhong told Lin Yi why he came back to the North Island. "I won't hide it from you, young hero Lin. I came back to the North Island on my own initiative. After such a big scandal, I had to come back to clean up the mess. I am now the Vice President and the manager of the North Island branch."

Lin Yi blinked, confused. "With your connections in the North Island, elder Hong, although you are indeed the best person to clean up the mess, why does it sound like a demotion to be the branch manager?"

Under normal circumstances, if Hong Zhong was really here to help clean up the mess, he only needed to come forward and say a few good words. He did not need to hold the position of Branch Manager at all. Staying in the North Island for a long time and away from the core power of the Nakajima headquarters was not a good thing for him as the Vice President.

Lin Yi's intuition told him that Hong Zhong wasn't doing well in the middle Island.

As expected, Hong Zhong sighed and said, "Young hero Lin, you may not know this, but although I was promoted to Vice President due to my contributions and am considered a high-ranking official in the Hong Chamber of Commerce headquarters, I have been operating in the North Island for a long time and do not have a deep foundation in the headquarters. Therefore, when I went to Middle Island, I was immediately ostracized by the Executive Vice President and a group of people."

Lin Yi's eyelids twitched-this situation caught him off guard. A strong Dragon couldn't suppress a local snake, not to mention that the man's position and power were above Hong Zhong 's-he was a real local Dragon.

Hong Zhong took a sip of wine and continued, "I have a position but no real power. I can't do anything at all. I've already been made a figurehead by their alliance. If I continue to stay, I'm afraid I'll become a completely idle person. So, I can only take this opportunity to return to the North Island. At least I can have some autonomy this way."

"It seems that the Hong Chamber of Commerce is also full of people!" Lin Yi sighed and consoled, "It's fine. We'll do it step by step. Elder Hong, tell me in detail when you have time. I'll see if I can help."

"Alright, but today's main characters are the two young ladies. Let's not talk about these unhappy things first. Come, let's have a toast!" Hong Zhong said with a forced smile.

Chapter 4079 Cultivators 'Guild

"Cheers!" Shangguan LAN 'er and ning Xuefei replied happily, and Lin Yi raised his glass as well, putting Hong Zhong's matter to the back of his mind.

Hong Zhong was an ally tied to him-the better he was doing, the more help he'd be in the future. But for now, even Hong Zhong himself didn't know how to get out of this predicament. Lin Yi was just an honorary Vice President, half an outsider in the Chamber of Commerce. He couldn't be of much help at the moment, but there was still time.

But Hong Zhong's return wasn't a bad thing for Lin Yi. He was a reliable ally, and it would be much easier for him to get rare treasures from the Hong Chamber of Commerce.

"Elder Hong, I need a spiritual medicine called the vitality mushroom. I've ordered it here before, do you have any news?" Lin Yi asked after the meal.

"Young hero Lin, I'll get someone to investigate." A moment later, Hong Zhong shook his head and said, ""There's no news at the moment. I've used the life-form mushroom before, so I know a little about it. Not only are they rare, but they also wither quickly after being picked, so very few cultivators would specifically pick them. Even if they ordered them in advance, it's difficult to get them in stock in a short time."

"I see, then we can only wait." Lin Yi couldn't help but feel disappointed.

"Don't worry, young hero Lin. I'll get someone to increase the reward. I don't think you'll have to wait too long." Hong Zhong smiled and consoled him, "those who took the mission to collect spiritual herbs have been gone for many days. It's normal to not have any news for a while. Although few people would make this trip specifically for the life phase mushrooms, it's a waste of energy and capital, and they can't sell them at a high price. However, there will always be brave men with great rewards. As long as I raise the reward price, someone will be tempted. At least when they go to collect herbs, they will pay more attention to the life phase mushrooms, and the probability of finding them will be higher."

Lin Yi's heart skipped a beat. "Where are the people elder Hong mentioned gathering herbs? could they be in the back mountain of the three pavilions? can I go there personally?"

Lin Yi didn't know how long the king of junk could drag this out, but it was better to get the materials as soon as possible. It was better to rely on himself than others-this was Lin Yi's style.

"Oh ... I've forgotten. Lin shaoxia, although you're still a new disciple of the welcoming new pavilion, you're already stronger than most of the disciples of the three great pavilions." Hong Zhong was stunned for a moment before he reacted and explained, ""The herb-picking location isn't in the back mountain. It's the private territory of the three pavilions. Only the disciples of the three pavilions with permission can enter. It's usually not open to the public. Also, many rare spiritual herbs and resources will be handed over to the three pavilions even if they are found. They're not allowed to be leaked out."

Lin Yi thought about it and realized that it made sense-it was like the newbie test, where all the herbs they collected had to be handed over to the back of the mountain. They weren't allowed to take them out on their own.

"If it's not the back mountain, where is it?" Lin Yi continued.

"Although the back mountain is rich in resources, it is not the only place on the North Island where you can collect spiritual herbs. You can go to other places too. However, if you want to go personally, you will need to go to the North Island cultivators Association and sign up for it." Hong Zhong suggested.

"The North Island cultivators Association?" This was the first time Lin Yi had heard of this name after half a year on Sky Class Island.

Hong Zhong nodded and said, "that's right. In theory, this is a guild organization that covers all the cultivators on the North Island. With the three pavilions as the leader, other forces and grassroots individual cultivators will also register and gather at the North Island cultivators Guild. Every day, it will issue all kinds of bounty trial missions. Only cultivators who have registered with it can receive the missions and the rewards."

"Oh? Does that mean I can go too?" Lin Yi's eyes lit up.

"Of course, the disciples of the three pavilions are the mainstream group there. I'm sure you've heard about it, young hero Lin. After one year, the new members of the welcome Pavilion will enter the three pavilions and become official outer disciples! Unless you become a core disciple of the Aurous core stage, or take on a master under the three Pavilion elders or other higher-ups, the resources for cultivation are still very limited. If you want to improve quickly, you have to rely on yourself and keep doing trial missions to get rewards." Hong Zhong explained in detail.

"But I heard that the three pavilions also issue missions?" Lin Yi asked, confused.

"That's right. However, the missions issued by the three pavilions are usually high-risk and high-reward missions. Although they are specially prepared for the disciples of the three pavilions, ordinary outer sect disciples can't do it without enough strength. In comparison, the reward missions issued by the North Island cultivators Association every day are much less difficult. Most of the outer sect disciples of the three pavilions gain experience and at the same time, it's a shortcut to earn spiritual jades, like the heart-devouring exquisite grass you asked me to buy before. I got it from the bounty mission there. " Hong Zhong revealed.

Lin Yi's heart was moved, "Elder Hong, are there any requirements to register at the cultivators Association?"

"There's no threshold. As long as your strength is above the foundation building stage, you'll be fine. Your welcoming new pavilion usually doesn't encourage newcomers to take trial missions there, so I didn't tell you at all. But with your strength, it's a different story." Hong Zhong said with a faint smile.

"Alright, I'll try." Lin Yi decided.

Before he could finish, Shangguan LAN 'er and ning Xuefei suddenly said in unison, ""That's great, we want to go together!"

Lin Yi's face darkened, but before he could object, Hong Zhong spoke for him, "No, that place is extremely dangerous. If the two of you go, not only will you not be able to help Lin shaoxia, but you will also cause trouble. It has only been a few days. Have you forgotten about si tsunami?"

"Grandpa Hong, we might not meet that old bastard ..." Shangguan LAN 'er said weakly.

Hong Zhong shook his head helplessly. "What I mean is that there are more than one or two scumbags like him in the world of cultivation. Beautiful female cultivators like you two will be the focus of attention no matter where you go. It's easy to cause trouble. Moreover, the location of the trial is completely out of the control of the three pavilions and the West Island. If anything happens, it'll be too late to save you."

"Alright then. I guess Little Junior Brother can only go alone." Shangguan LAN 'er and ning Xuefei stuck out their tongues. They were heartless, but they knew what was good for them. If going would only cause trouble for Lin Yi, they might as well not go.

Chapter 4080 The Five Elements Chamber Of Commerce

"Young hero Lin, you have to be careful. That place is filled with people from all walks of life and they don't have all sorts of restrictions like the three pavillions. It is common for people to start killing. Even if you are strong, you have to be careful." Hong Zhong warned.

"Elder Hong, don't worry. I understand." Lin Yi nodded. He had to go this time in order to get the life phase mushrooms as soon as possible. If he delayed it for too long, only the heavens knew if he would fail this time!

Lin Yi also felt that his days in the welcome Pavilion had been too comfortable. After Xu lingchong's disappearance, the remaining people like Kang Zhaoming and Meng Tong weren't his opponents at all. They weren't challenging at all, and this kind of environment wasn't good for training.

Even if it was to increase his strength, Lin Yi had to go out and train, and find opportunities to improve.

This time, it wasn't just for the life phase mushrooms-Lin Yi had another, more important goal, and that was to find the opportunity to break through to Foundation peak-he needed to be prepared to break through to golden core as soon as possible!

Actually, the only thing I'm a little worried about now is how I should explain it to the welcoming new pavilion." Lin Yi said with a frown.

This time, he would be away for a long time. If he did not have a good reason, the welcome Pavilion would be in trouble. After all, he was the West Island's reception Deacon in name. It would be a dereliction of duty if he left ning Xuefei and went on a mission.

"It's fine, Little Junior Brother, just go ahead. Feifei and I can help you settle it. Just say that you went to buy things for us, hehe. " Shangguan LAN 'er laughed.

Buy something? What kind of weird reason was this? Lin Yi nodded with a bitter smile. Since Shangguan LAN 'er had already said so, no one else would be able to refute her even if they wanted to take the opportunity to cause trouble.

"Elder Hong, do you know where I can find the life phase mushrooms?" Lin Yi asked.

"Hucai tianwu mountain. This is the place with the highest chance of finding life mushrooms. They usually grow in cold and damp places with no light. So, when you get there, you can try your luck at a few streams. You should find something." Hong Zhong suggested after combining all the information he had.

"Calling for the sky Noon Mountain, I remember it. But where is the mountain roughly located?" Lin Yi asked.

"Hehe, this mountain is also considered a famous mountain. Its reputation is no less than the mountain behind the three pavilions. Its location is between the North and Middle islands!" Hong Zhong said with a smile.

"Ha? Between the North and Middle islands? Could it be that the two islands are connected?" Lin Yi said, shocked.

"That's right. Young hero Lin, you don't think that the North and Middle islands are separated by the sea, do you?" Hong Zhong asked curiously.

"Yeah ..." Lin Yi scratched his head awkwardly. He'd been hearing people talk about the five Sky Class islands ever since he came to Sky Class Island, and it was hard to go back and forth between the North and Middle islands. Naturally, he'd assumed that the five Sky Class islands were separated.

Hong Zhong couldn't help but smile and said, "Actually, you're not wrong to understand it that way, young hero Lin. Although there are long and narrow mountains connecting the North and Middle islands, just like the back mountains of the three pavilions, there are all kinds of powerful spirit beasts entrenched in these mountains. Moreover, they are often affected by natural disasters such as hurricanes on the sea. The degree of danger is higher than the depths of the back mountains, so even powerful cultivators rarely walk through them. They usually use flying spirit beasts or treasured ships to travel between the two islands."

"A treasure ship?" Lin Yi blinked-this was new stuff he'd never heard of before.

"There are sea beasts running amok in the sea, and with the threat of natural disasters, it's even more dangerous than the land route. No matter how good the seafaring skills are, it's impossible for ordinary ships to go back and forth between the two islands. Only treasured ships can do it." Hong Zhong paused for a moment and explained, "the treasured ship was built by the combined efforts of ancient

blacksmiths. Not only is the body of the ship far stronger and more reliable than ordinary ships, but it also has a powerful formation on it that can withstand super-strong attacks and natural disasters. Moreover, it has a confusing effect on most sea beasts. Even if you fly over their heads, you won't be discovered."

"That's really a work of art. " Lin Yi was surprised.

"It's a pity that blacksmithing has been in decline for many years. Even ordinary blacksmiths are rare, let alone Grandmaster blacksmiths. The ancient skill of forging treasure ships has long been lost, and the destruction of a treasure ship is one less. It has now become a symbol of the strength of each Chamber of Commerce. The more powerful the Chamber of Commerce is, the more treasure ships they have." Hong Zhong sighed.

"Oh? What do you mean?" Lin Yi couldn't help but wonder. Even if treasure ships were rare, it shouldn't be directly related to the strength of the Chamber of Commerce. Every Chamber of Commerce had their own strengths, just like the five elements Chamber of Commerce under the pill Hall of the central island. They only dealt in the pill business and didn't dabble in other businesses, but they were still recognized as the number one Chamber of Commerce.

"Lin shaoxia, you don't know this, but when transporting goods between sky-class islands, they usually use the water route, and that's with the treasure ships. So, the treasure ships determine the most important transportation ability of the Chamber of Commerce-it's the lifeline of the big Chambers of Commerce!" "The other routes are not impossible, but the flying spirit beasts carry too little goods each time. Their transportation capacity is on a completely different level from that of the treasured ship," Hong Zhong said seriously.

"I see." Lin Yi said.

"As for the mountain range, it's not impossible to travel there, but there are too many uncertain factors. The risk is too high and it's hard to control. Besides, the mountain road is rugged. Unless you travel there often or have some special needs, the price is too high. Generally, no one is willing to try it." Hong Zhong said.

"That's true. A large Chamber of Commerce prioritizes stability and reliability. The risk of traveling on land is so high. If we place our hopes on this, we'll be ruining our own reputation if any accidents happen and the supply of goods is cut off." Lin Yi nodded.

The last time the Hong Chamber of Commerce was targeted by the other Chambers of Commerce, it was actually because of the cut in supply of goods. At the level of the top Chamber of Commerce, advancing and retreating depended on the market's reputation. If they were not careful, they might lose the whole game.

"That's the logic. With your understanding and insight, it's a loss if you don't do business!" Hong Zhong chuckled and said, "I brought this up because I wanted to tell you that I also have friends in Nakagama. If you accidentally go to Nakagama, you can look for assistant manager Cai of the five elements Chamber of Commerce under the Nakagama pill Hall."

"Eh? Weren't the Hong Chamber of Commerce and the five elements Chamber of Commerce competitors? Elder Hong, do you have a relationship with this person?" Lin Yi couldn't help but ask.
