

Bodyguard 4081

Chapter 4081 Modifying The Mask

Even if the five elements Chamber of Commerce didn't join hands with other Chambers of Commerce last time, they were obviously in a competitive relationship. The higher-ups of the two companies were at most friendly on the surface, but it was difficult to say that they had a real relationship.

"Don't be surprised, this is a private relationship. I have participated in a few trial missions with him when we were young and we are reliable people. Young hero Lin, if you have any problems, you can go find him. I am just saying this in advance. The chances of you going to Middle Island are not high and you might not need it." Hong Zhong said with a smile.

"Regardless of whether it's useful or not, I'll remember elder Hong's good intentions." Lin Yi nodded gratefully.

After leaving the Hong Chamber of Commerce, Lin Yi sent Shangguan LAN 'er and ning Xuefei back to the Hualan residence. He went back to the welcoming new pavilion to talk to his fellow apprentices and then went to the junk King's Secret forging base. He didn't know how long he would be away this time, so he should at least let him know in advance.

But as soon as he entered the cave, Lin Yi was shocked by the king of worn-out's condition. His body was covered in blue and purple, and the White gauze was covered with blood.

"Brother Wang, what's wrong with you?" Lin Yi quickly asked.

The king of junk smiled and waved his hand. "It's fine. Someone accidentally came in two days ago. It's just a small injury. I'm used to it."

"It's Kang Zhaoming's group, right?" Lin Yi guessed right-the king of junk had been keeping this secret base well-protected all these years, and it was only when he got followed by Zhaoming and the others that people knew about it.

"I'm really fine. When I was forging before, I was often burned by fire too, and quite a few of my weapons exploded too. But that Kang Zhaoming you mentioned, his moves are a little strange. I've never seen anyone use a pill fire as a combat move before, and it's quite powerful. But it's fine, I'll be fine after a few days of rest. " The king of junk laughed.

"That move should have been a pill fire bomb. It's all my fault. I'm really sorry for getting you injured, brother Wang." Lin Yi said apologetically. He had been too busy playing with Shangguan LAN 'er and ning Xuefei these days and didn't pay attention to the king of junk. He didn't expect this to happen.

With that, Lin Yi found the king of junk and placed a palm on his back, channeling his practitioner's Arts to heal him.

"Brother Lin, what are you doing?" Feeling the warm Qi from Lin Yi's palm, the king of junk was shocked. He felt comfortable and found that all the wounds on his body started to itch. It was a sign of self-healing.

After a while, Lin Yi retracted his Qi. "Brother Wang, how do you feel now?"

"Eh? It's much better than before, and the wound doesn't hurt at all. Brother Lin, what technique is this, it's too magical!" The king of junk stretched his arms and legs and said in surprise.

According to his past experience, this kind of injury would take at least another month or so, but he didn't think that Lin Yi would heal it just like that. It was unbelievable.

Lin Yi chuckled, "it's just a little trick. If you get hurt again, just let me know. It's just a small injury."

"Alright, alright. I've never been able to forge a weapon without getting injured. I won't be polite with you in the future." The king of junk scratched his head and laughed.

"By the way, I'm here to tell you that I'm going out to look for the life phase mushroom. I don't know when I'll be back, so I'll have to trouble you to keep an eye on this place." Lin Yi said.

"En, the life phase mushrooms are hard to find. I'll have to trouble brother Lin." The king of junk nodded and suddenly said, ""By the way, brother Lin, are you going to hide your identity?"

"Of course. The cultivators Association on the North Island is full of people from all walks of life. I can't go there as a new member of the welcome Pavilion. It would be too eye-catching." Lin Yi nodded.

"In that case, brother Lin, you can't use that thousand thread mask anymore. After all, many people know about it. Even if you wear it, it's hard to guarantee that people won't find out. Why don't I modify it for you?" The king of junk suggested.

"Modify the thousand thread mask?" Lin Yi blinked, remembering that the king of junk mentioned that he knew how to make this kind of mask.

"That's right. Although it takes a lot of effort to cast this thing, it's still very easy to change its appearance. " "What's up?" waterdrop King took the mask from Lin Yi and asked. "By the way, brother Lin, what do you want to do?"

"If that's the case, then I'll have to trouble you to make me a rough-looking martial artist," Lin Yi said after some thought.

In the martial world, in addition to powerful strength, appearance was also a very useful weapon in many cases. For example, a rough-looking martial artist would be more easily trusted because of his preconceived notion. Of course, it was also easier for him to be looked down upon by people with ulterior motives, and then he could pretend to be a pig to eat the Tiger.

After a short while, the mask had completely changed in the hands of the king of tatters. It was just as Lin Yi had asked, rough and overbearing. From a distance, he looked like a standard martial artist, but if you looked closely, there was a rare heroic look.

"Brother Wang's skills are really amazing. I think it's more than enough to be a professional painter." Lin Yi praised from the bottom of his heart. It was a miracle that she could make such a vivid appearance with just a few simple strokes.

The king of junk laughed proudly and said, ""In our profession, the key to designing a forging plan is the drawing. Whether it is accurate or not directly determines the success rate. Don't think that I've never forged anything good before, but my basic skills are not bad at all. Furthermore, I love drawing for fun when I'm free. Brother Lin, I'm sorry to have embarrassed myself."

Lin Yi gave him a thumbs-up. Other things aside, trash King's talent in forging was a rare genius.

The next day, Lin Yi set off early in the morning. He put on the brand new thousand silk mask and followed Hong Zhong's instructions to the North Island practitioner's Guild.

This place was not far from the three great pavilions. It was almost right next to the three great pavilions. It was less than ten miles away. Although it was still early, the hall of the cultivators Association was already packed with people.

Practitioners above the Foundation Stage were like cabbages on the side of the road, huddled together and making a lot of noise. Lin Yi was stunned for a while at the scene of these practitioners acting like dogs.

Chapter 4082 North Island Experts Ranking

Looking around, more than 50% of the crowd were dressed as disciples of the three pavilions. They were basically all outer disciples. In addition, there were some grassroots rogue cultivators from the cultivator tribes. In addition, there were also some small trial teams from the merchants.

For a large Chamber of Commerce with a lot of capital like the Hong Chamber of Commerce, if they lacked something, they would usually offer a reward to buy it. However, this method was not suitable for small businesses.

They would usually recruit some people to form a trial team. In addition to collecting spiritual jades for themselves, they could also earn spiritual jades through bounty missions, killing two birds with one stone. However, there was a lot of uncertainty in this method, and the supply was often insufficient, so they were destined to be a small business.

He passed through the noisy lobby, which was like a wet market, and came to a room at the side. There was a sign there, and it was a registration point.

In fact, if Lin Yi was only here for the life mushrooms, he didn't have to come to the North Island practitioner Union. He could just find a way to go to hucai tianwu mountain, but Lin Yi decided to listen to hongzhong's suggestion and register here.

This was because after accepting a mission here, he would be able to get the relevant information directly from the practitioner Guild, including the route map and all the things to take note of. It could save him a lot of preparation work, and this was what Lin Yi really needed.

The registration process wasn't complicated, and it didn't take long for Lin Yi to pass the test after he revealed his foundation level-he'd also received a practitioner's Guild membership card.

Of course, this was not for free. It would cost him a hundred spiritual jade pieces.

This was similar to the spiritual Jade card. After inputting one's signature true Qi, one could rely on a special miniature array to identify and verify one's identity. It was considered a "technological product" unique to the sky-class Island, and its reliability and safety were much better than similar products on earth. A hundred spiritual jades was not considered expensive.

This card wasn't just Lin Yi's way of getting into the practitioner's Union, it was also a way for him to transfer all his rewards from his future missions to this card. It was the same as the spiritual Jade card-he could spend it at the Chambers of Commerce in the merchant Union.

Lin Yi's current appearance, on the other hand, had the name "Ling Yi" displayed on the card.

After getting the membership card, Lin Yi's next step was to accept missions. The practitioner's Guild divided the missions into two areas, golden core and Foundation.

Golden core stage members had their own private rooms where they could complete their missions. However, most of the Golden core stage missions were issued by the three pavilions and most of them were received by the disciples of the three pavilions. Very few people would come here to receive their missions, except for a few powerful individual cultivators.

As for the Foundation Stage mission area, it was the same Hall that Lin Yi had just passed through. The situation was completely different from the Golden core stage area-it was packed with people, and all the missions would be written on the mission Board and hung on the big Blackboard in the middle. They would be removed after completion, and those that had been claimed but hadn't been completed would be ticked on the mission Board, indicating that they were still in progress.

However, other than the different types of missions, Lin Yi noticed that there was a Blackboard next to it. From top to bottom, it was filled with people's names, and it was also the focus of everyone's discussion.

"North island's expert ranking?" Lin Yi couldn't help but be a little surprised at the Golden words at the top. The name of the list wasn't small at all-the practitioner's Union claimed to include all the practitioners on the North Island. Could it be that all the mysterious Super Masters were on the list?

Lin Yi thought that if that was the case, he'd really have to take a good look at it-he'd even have to memorize it, at least he'd have a backup plan if he had any conflicts with others in the future.

However, Lin Yi rejected this possibility immediately after looking at it with anticipation. The reason was simple-the higher-ups of the three pavilions weren't on the list, and Gongyang Jie wasn't on it either. Not even the pavilion master, Shangguan Tianhua, was on the list.

It would not be strange if Shangguan Tianhua was not the number one master on the North Island. However, it would be ridiculous if Shangguan Tianhua could not even enter the so-called ranking list of the North Island's Masters.

Lin Yi only realized after looking at the description of the ranking-the North Island master ranking was just a gimmick. Strictly speaking, it was only a ranking of contribution points, not strength. Plus, it was only for the Foundation Stage, and practitioners above the Golden core stage weren't included.

In the cultivators 'Association of the North Island, in addition to the reward for completing a bounty mission, one would also get points called mission contribution points. The more bounty missions were completed, the higher the points, and the higher the ranking.

"It seems like this ranking list isn't completely without reference value." Lin Yi pinched his chin, deep in thought.

Although the ranking was based on the contribution points of the task and not a more intuitive evaluation of strength, the North Island cultivators Association mainly focused on bounty tasks. The completion rate of the task was already able to reflect the strength to a large extent. At least for the foundation establishment level, it was more reliable.

At this time, the staff of the cultivators Guild updated the ranking list. The first place was still the same name, but the string of contribution points behind it had increased by a large amount.

"Wow, senior Brother Su Zhaohe is amazing. It has only been a few days, and his contribution points have increased so much. It has already exceeded 100000. This is too exaggerated and powerful!" A man dressed as a disciple of the rising Sky Pavilion clicked his tongue and exclaimed. His tone could not hide the admiration and respect in it.

"That's right, that's right. The second place only has around 60000. The gap is too big, and there's no suspense at all! I'm afraid that there are only a few people in the history of the North Island cultivators Association who can break through the 100000 mark!" The surrounding people also sighed.

"Hey, what do you guys know?" one of them complimented. "Senior su is a rare genius in the North Island. He's not even 30 yet, and he's already at the perfected Foundation Stage. I heard he's already preparing to form his Azoth core. If he continues like this, he'll be another legendary figure like the God of alchemy, Zhang Liju!"

"Since he's so strong, why is he still doing missions? Wouldn't it be better to save the energy from the missions and try to reach core formation as soon as possible?" Someone asked doubtfully.

"Let me finish, what are you interrupting for! I heard that Pavilion master Shangguan of the rising Sky Pavilion has taken a fancy to senior Brother Su and is going to take him in as his personal disciple. So, the more outstanding he is now, the more importance Pavilion master Shangguan will place on him!"

Chapter 4083 Forming A Team To Go

"Ah? If he's that powerful, then his future is limitless!"

Lin Yi only glanced at the names on the ranking after hearing the People's discussions. He shook his head-it had nothing to do with him, and he wasn't interested in it anyway.

He turned to the mission Board and started looking for missions related to that mountain-only then would he be able to get the map and information from the Guild.

After looking through all the mission boards, Lin Yi finally found a mission that fit the requirements."All rich and powerful families know who will issue the mission. The mission location is called Caitian Wu mountain and the surrounding mountain ranges. We are looking to purchase 100 bitter fruit and 100 stalks of Phoenix-browed heartless grass ..."

This amount of herbs was a big task in the Foundation Stage mission area. It would be hard for someone else to take it on alone, but Lin Yi had Skybolt pig. As long as he went to the right place, it would just take a little more time to collect all the herbs.

However, just as Lin Yi was about to accept it, he saw the Guild staff put a tick on the board.

Lin Yi's face darkened as he cursed at his bad luck for losing a mission that was hard to come by. He turned around and continued his search.

At this moment, he suddenly heard someone say,""Captain, Junior Brother li kubao is not here today. He was called to do a temporary task at the GreenCloud Pavilion. We are now short of a person, should we find another person to join?"

The one she called the team leader was a masked woman. She nodded in agreement and said, "That's good too. We can't just rely on the three of us to collect so many spiritual herbs from hucai tianwu mountain."

Lin Yi's heart skipped a beat as he walked over to them and muttered to himself, "It's already so late, why hasn't old Xiao come yet? I can't take on any task alone. I've come here in vain. This guy is really unreliable ..."

As expected, the men's gazes landed on Lin Yi after exchanging a glance. There was a sense of scrutiny in their eyes, and they all nodded in relief after seeing that Lin Yi had a rough face and was a typical martial artist.

The masked woman walked up to Lin Yi and said, ""Brother, I just happened to hear your words. Do you also want to go on a mission?"

Lin Yi saw that she took the bait and was overjoyed. He quickly nodded, ""Yes, I've originally discussed with my companions to come together, but this guy often gets into trouble. It seems that I can't come this time. I'm having a headache."

"That's such a coincidence. Our team just received a mission to collect spiritual herbs at Mount tianwu. We're short of a member. Would you like to join us?" The masked woman immediately extended an olive branch.

"Join your team?" Lin Yi pretended to hesitate before answering, "That's good. I'm bored anyway. That's what I'm thinking!"

From his observations earlier, Lin Yi noticed that many people in this Hall were doing missions in groups, just like this small team in front of him. The leader was the leader, and the others were the support, working together.

In comparison, although there were trial-takers who did missions alone, there were not many of them. After all, high returns meant high risks. The difficulty of the bounty missions issued by the large Chambers of Commerce were not low. It was impossible for one person to complete them. At most, they could only do some small missions that were not up to standard.

If they were to receive a mission in the form of a team, the contribution points after the mission was completed would belong to the team leader. As for the reward obtained, it would be distributed separately. The distribution method was different for each team, with some being more and some being less.

For those weaker trial-takers, joining a small team was far more reliable than doing small missions alone. At the very least, in terms of returns, it was far above the latter.

The masked woman was happy to hear Lin Yi agree so quickly, "That's great. Let me introduce myself. My name is Huang xiaotao, the leader of this trial team. I'm currently in the late stage of the foundation building realm."

After a pause, Huang xiaotao immediately introduced the two people beside her, "These two are Junior Apprentice-brother Chen dingzi and Junior Apprentice-brother Cong Zhima. They are both mid-stage Foundation establishment cultivators. The three of us are disciples of the GreenCloud Pavilion."

So, we're all from the same sect? Lin Yi nodded to himself, but put on a brave front as he cupped his hands. "My name is Ling Yi, I'm a non-affiliate, please take care of me!"

Under normal circumstances, everyone would reveal their strength when they were cooperating, because this was the basic foundation of cooperation. However, Lin Yi didn't say it, so Huang xiaotao

and the others didn't care too much. They thought that Lin Yi's strength wasn't high and couldn't compare to the three of them, so they were too embarrassed to say it.

But even if Lin Yi didn't say anything, they could at least confirm one thing-this Lin Yi they just met was a Foundation Stage practitioner, no doubt about it. Otherwise, he wouldn't be able to become a member if he didn't pass the test.

It wasn't a dangerous mission like fighting a powerful spirit beast, after all-it was just collecting herbs. As long as they had the ability to protect themselves, it shouldn't be a problem. Even if they weren't strong, it wasn't a bad idea to be a backpacker. Lin Yi's addition to the team would be of great help to them.

The three of them chatted with Lin Yi for a while and didn't stay in the Guild for long. They left the Guild under Huang Xiaotao's lead and prepared to set off.

With the map in his hand, Lin Yi estimated the location and found that Mount Huai Tianwu was a few thousand miles away. He asked, "Captain Xiao Tao, that Huai Tianwu mountain is so far away. How are the four of us going to get there? It'll take a long time to walk there, right?"

The three of them smiled at each other and did not answer. Huang Xiaotao walked to an open space and whistled to the sky. A moment later, an aerial spirit beast whizzed down and landed in front of the four of them.

Lin Yi couldn't help but be a little surprised. The bird in front of him was a large Spirit Bird with beautiful tail feathers. It was gentle and fast, making it the best choice for a flying spirit beast. If he sold it, he was afraid he could sell it for a sky-high price. This Huang Xiaotao's family was not low!

Even people like the southern Heaven Gate did not have their own flying spirit beast. Yet, Huang Xiao Tao, a mere disciple of the GreenCloud Pavilion, had one. It was clear that it was not without reason that Chen Muming and the others were willing to follow her.

Of course, another possibility could not be ruled out. That was, Huang Xiaotao had gritted her teeth and spent a lot of money to buy this large spiritual bird for the convenience of completing the bounty mission.

Huang Xiaotao explained with a smile when she saw Lin Yi's surprise, "Brother Ling Yi, you don't have to be so suspicious. This spiritual bird was tamed by me during the trial when I was still a newbie in the welcoming new pavilion. It has been following me since then."

Chapter 4084 Huang Xiaotao's Sad Past

"I see." Lin Yi nodded—it made sense now. The Butterfly Queen that Murong Zhen had tamed was an aerial spirit beast, but it wasn't suitable for long-distance riding.

Compared to the other flying spirit beasts commonly used by the three pavilions and the Chamber of Commerce, this Spirit Bird was not small. After the four of them got on, they still did not feel crowded. After taking off, it was extremely stable, and they could even meditate and cultivate.

After the spirit Bird took off, the four of them had nothing to do, so they chatted with each other to pass the time and get to know each other better. After all, Lin Yi was a new member, and the more they knew each other, the more they understood each other, and the better their cooperation.

After a few words, Lin Yi suddenly said, "Captain Xiao Tao, I'm a little confused and don't know if I should ask. Of course, if it's not convenient, it's fine. I'm just curious."

"Oh? Since we're all in the same team, we have to be honest with each other. Brother Ling Yi, if you have any questions, feel free to ask me. I'll definitely tell you everything I know." Huang Xiaotao said enthusiastically.

"Okay, then forgive me for being presumptuous. Captain Xiao Tao, you just said that the three of you are disciples of the GreenCloud Pavilion, but as far as I know, the three great pavilions don't accept female disciples, right? Also, why did Captain Xiao Tao cover her face?" Lin Yi asked curiously.

He had been in the welcome Pavilion for more than half a year. Other than Murong Zhen, who was a special case, he had never heard of a female disciple in the GreenCloud Pavilion.

As for why she had covered her face, he had some speculations in his heart. This woman was either extremely beautiful like a fairy or extremely ugly. In any case, either way, it was easy to cause trouble. Otherwise, if she only had an ordinary appearance, there was no need to deliberately cover her face. This would easily arouse people's imagination and attract attention.

"This ..." Huang Xiaotao was slightly stunned. She did not have any intention to hide it, but for a moment, she did not know what to say.

At this moment, Cong Zhima, who was standing beside her, immediately explained enthusiastically, "Brother Ling Yi, you may not know this, but Captain Xiao Tao used to be an outstanding disciple of the Soaring Pavilion. She came from the same cultivation tribe as the famous Su Zhaohe. Because of her outstanding strength and talent, she was valued by the higher-ups of the Soaring Pavilion. In addition, Su Zhaohe, a genius disciple that only appears once in a thousand years, also put in a good word for her. That's why Captain Xiao Tao made an exception to stay and was not sent to the West Island."

"A disciple of the rising Sky Pavilion? Didn't Captain Xiao Tao just say that you are all disciples of the GreenCloud Pavilion?" Lin Yi asked, surprised.

Huang xiaotao's eyes dimmed and she didn't say anything. Cong Zhima continued,"If that incident hadn't happened, Captain Xiao Tao would still be a disciple of the rising Sky Pavilion with a bright future, and she wouldn't have been driven to our GreenCloud Pavilion. Although that's why we know Captain Xiao Tao, every time I think about that incident, I feel like I'm not reconciled to it!"

"That matter?" Lin Yi frowned-getting kicked out of the skyward Pavilion ... Why did this sound like Murong Zhen 's?

"Hmph, brother Ling Yi, you must have often heard people say that su Zhaohe is a genius. In fact, this guy looks sanctimonious, but he is a hypocrite with a human face and a beast's heart!" Cong Zhima gnashed his teeth in righteous indignation and said,"Not long after he entered the rising Sky Pavilion, he threatened Captain Xiao Tao to become his cultivation partner. Originally, everyone loves beauty, so this was not a big deal, but this bastard used unscrupulous means to achieve his goal. In the end, Captain Xiao Tao was forced to hit her head against a Wolf's thorn and disfigure herself. Now it seems like I thought he was being kind and helping Captain Xiao Tao by allowing her to enter the rising Sky Pavilion, but he's just an ambitious Wolf with other motives!"

"In that case, su Zhaohe is really a scumbag with a human face and a beast heart." Lin Yi finally understood why Huang xiaotao had to cover her face. He felt sorry for her.

Thinking back, if Xu lingchong, a top young master of the soaring Pavilion, could rape Shangguan LAN 'er, he could be said to be the same as su Zhaohe. The soaring Pavilion looked bright and beautiful in the eyes of the world, but inside, it was simply a pile of scum. The upper beam is not straight, the lower beam is crooked!

However, the strong preyed on the weak-this was the nature of the world of practicing. If Lin Yi didn't have enough strength, he would've been trampled to death by Meng Jueguang and his gang long ago.

"Didn't the law enforcement Hall intervene in this matter? Didn't Pavilion master Shangguan of the rising Sky Pavilion ask?" Lin Yi asked.

Lin Yi couldn't be sure about the others, but after a few interactions, he trusted Shangguan Tianhua's character. No matter how much of a genius Su Zhaohe was, he believed that Shangguan Tianhua wouldn't cover up for something so bad just to cherish a talent.

"Eh? Brother Ling Yi, you're an itinerant cultivator from the outside world, but you seem to know a lot about the three pavilions?" Cong Zhima and the others looked at Lin Yi in surprise, but didn't take it to heart. There were many sectless practitioners who wanted to join the three pavilions, and it was normal for them to pay attention to the three pavilions.

Cong Zhima sighed and said, "the law enforcement Hall was actually involved in that matter. However, Su Zhaohe, that bastard, went to the law enforcement Hall and was released very quickly. The law enforcement Hall concluded that there was insufficient evidence. The most infuriating thing was that the bastard even accused Captain Xiao Tao of framing him. It was simply preposterous! As for Pavilion master Shangguan, a high and mighty figure like him was so busy every day that he had no time to care about such a trivial matter. It's said that this case was transferred to the law enforcement Hall by second senior brother Xu Lingchong, the manager of the soaring Sky Pavilion. I don't think Pavilion master Shangguan has heard of it. "

Xu Lingchong again! Even Lin Yi, who was an outsider, couldn't help but feel indignant. Xu Lingchong's heart wasn't right. He often did such embarrassing things himself. Su Zhaohe could be so arrogant because he might be in the same group as Xu Lingchong.

"What happened after that? Did Captain Xiao Tao not think about reversing the verdict? You're just going to endure this?" Lin Yi said indignantly. If it was him, he would've killed su Zhaohe long ago. He wouldn't let that scum live freely until today!

At this moment, Huang xiaotao, the person involved, finally opened her mouth and laughed bitterly, ""The gap between us is so big, so what if I can't bear it? My only wish now is to save up enough spiritual jades to buy a youth retaining pill to restore my appearance. Then, I'll leave the North Island and become a free trial-taker and wandering cultivator. "

This magnanimity was a bitter tear that had been forced out. What could he do if he was not strong enough?

Chapter 4085 Struck Rich

Now, su Zhaohe was already regarded as the rising Sky Pavilion's Millennium genius and would soon be accepted as Shangguan Tianhua's disciple. On the other hand, Huang xiaotao was just a mere disciple of the GreenCloud Pavilion. She had neither strength nor influence. What could she use to compete with him?

Lin Yi looked at her deeply, "Captain Xiao Tao, if you don't untie this knot in your heart, even if you become a rogue cultivator, you won't be able to truly be free."

"Maybe, but what else can I do?" Huang xiaotao shook her head helplessly and immediately changed the topic. She forced herself to raise her spirits and said to everyone, ""Alright, that's all for now. Let's get back to business. According to our past experiences, if there are no accidents, we will need three days to reach hucai tianwu mountain. So, everyone, rest well. I will be in charge of commanding the spiritual birds. If we encounter any danger, I will inform you."

Chen Muming and Cong Zhima had long been accustomed to this. After looking at each other, they did not say much and began to close their eyes and cultivate.

"Alright, thank you for your hard work, Captain Xiao Tao." Lin Yi nodded and didn't ask about the conflict between him and Su Zhaohe. He sat down and started training as well. He just reached the peak of the late Foundation Stage, and these three days were perfect for stabilizing his realm.

The journey was calm and peaceful. Three days later, the four of them successfully entered the territory of Huai Tianwu Mountain.

As far as the eye could see, it was as lush as a primeval forest. The mountain was so tall that it reached into the clouds. It was not smaller than the mountain behind the three pavilions. The mysterious and powerful aura that it exuded was intimidating.

Huang Xiaotao controlled the spiritual bird and landed on an open space at the edge. After instructing the spiritual bird to take off again, she reminded Lin Yi and the other two, "Everyone, be careful. Although we're only at the periphery, we can't rule out the possibility of encountering a powerful spirit beast. If we're careless, we may pay with our lives. Do you understand?"

"Understood!" Lin Yi and the other two replied in unison.

"Alright, I'll start assigning tasks now. Junior Brother Chen will be in charge of keeping watch and keeping watch. I'll be in charge of restraining the spirit beasts nearby. As for Brother Ling Yi, you'll follow Junior Brother Cong Zhima to collect the spirit herbs!" Huang Xiaotao ordered.

Division of labor and cooperation, this was the essence of a small team of cultivators. The more spiritual herbs there were, the more spiritual beasts there were. If there was no one specifically responsible for guarding and containing them, in this kind of dangerous place, rashly collecting spiritual herbs was

simply courting death. Only with sincere cooperation between a few people could they collect the spiritual herbs and retreat safely.

As the team leader, Huang xiaotao's words carried enormous weight. The three of them had no objections and immediately began to get busy. In order to avoid suspicion, Lin Yi didn't leave immediately. He followed them and completed the mission seriously.

Hucai tianwu mountain was a unique environment with two sides facing the sea and two sides facing the mountains. Coupled with the fact that it was inaccessible by people, it created an extremely rich spiritual medicine resource. Wealth was found in danger. This was the reason why many trial-takers were willing to take the risk despite knowing that it was extremely dangerous.

Working together, they avoided the dangerous areas where the spirit beasts gathered. The first day was uneventful, and Lin Yi's role was to carry the herbs and dig them up without any skill.

However, he didn't complain. Huang xiaotao and the others had been to Mount tianwu a few times before and were familiar with the place. Lin Yi could familiarize himself with the surroundings faster by following them.

The next day, after the sky brightened, the four continued with their work. Lin Yi thought that things would continue to be peaceful as before, but Chen Zhulin, who was on guard at the top of the tree, brought them some unexpected news.

"There's a spiritual herb garden ten miles ahead. With a rough estimate, there should be at least a hundred spiritual herbs there!" Chen Mu gathered everyone and shared the news.

Everyone was instantly overjoyed. A spiritual herb Bush with more than a hundred stalks was a rare treasure. As long as they could successfully collect it, perhaps this mission would be completed half in advance.

"Then ... Did you discover any powerful spirit beasts?" Although Huang xiaotao was happy, she did not let it get to her head.

Chen Muming shook his head and said, "not yet. According to past experiences, there are definitely spirit beasts around. However, there shouldn't be many. At most, there will be one or two. Perhaps they have gone out to patrol the territory at this time."

Cong Zhima nodded in agreement. "That's right. There can't be too many spirit beasts. Otherwise, senior brother Chen would definitely find some clues up there. If there are only one or two Spirit beasts, it's simply a spirit herb delivered to the door. Captain Xiao Tao?"

Seeing that they were all looking at her with anticipation, Huang xiaotao did not hesitate for too long. She immediately decided, ""Good, this is an opportunity that can not be missed. Since we've encountered it, let's take a gamble. Junior Brother Chen Mingshan, you will approach from above and carefully monitor every movement in the surroundings. Junior Brother Cong Zhima and brother Ling Yi, you two go and collect the spirit herbs. I will be on guard for you and contain any spirit beasts that may appear."

"Alright!" The few of them acknowledged the order in unison and began to move without a word.

Lin Yi followed Cong Zhima and quickly approached the location pointed out by the wooden pillar. What made Lin Yi suspicious was that they didn't even see a single ordinary wild beast, let alone a powerful spirit beast. It was a strange situation.

If Lin Yi were to act alone, he'd probably find a place with a wide view and observe first, given his cautious nature.

But this was a small team operation, and Lin Yi was just an outsider who'd joined at the last minute. He didn't have the right to speak, so he could only raise his guard and follow them.

Soon, Cong Zhima and Lin Yi arrived at the herb garden. They looked around and saw all kinds of high-quality herbs everywhere. They were like free cabbages.

"Brother Ling Yi, we're rich now!" Cong Zhima couldn't help but swallow. As long as he collected all these spiritual herbs, even if he couldn't complete the bounty mission, he could still sell them for at least a thousand spiritual jades. If he divided them evenly, he would get at least two or three hundred spiritual jades. That was a huge sum of money!

With that, Cong Zhima started gathering the herbs. Lin Yi, on the other hand, wasn't as impatient as him. He turned and looked around.

All of a sudden, a strange-looking fruit tree caught Lin Yi's attention.

The fruit tree was only as tall as a person, and in this dense forest of giant trees that were hundreds of feet tall, it was simply inconspicuous. Moreover, the trunk was curved, and it was unknown if it was because it had not absorbed sunlight for many years that it grew so distorted.

Chapter 4086 Wandu Golden Core Fruit

It was one thing for the tree to be deformed, but what really caught Lin Yi's attention were the five golden core-like fruits at the top of the tree. Even under the shade, they glowed with a terrifying light.

"Brother Ling Yi, what are you doing? hurry up and pick the herbs! Although we have senior brother Chen on guard and Captain Xiao Tao in charge of restraining the spirit beasts, we still have to move quickly. If we provoke some powerful spirit beast, then all our efforts will be in vain!" Cong Zhima noticed that Lin Yi was in a daze and immediately urged him.

However, when he noticed the strange tree Lin Yi was looking at, he was stunned as well, unable to move his eyes away for a long time.

After a long time, Cong Zhima gasped and reacted. He pointed at the five shining fruits on the tree and stammered, ""This ... Could this be ... Could this be the legendary Wandu ... Golden core fruit?"

"Wandu golden core fruit?" Lin Yi blinked. He'd never heard of this name before, but judging from Cong Zhima's expression, it must be some kind of high-level spirit herb.

Chen Muming, who was in charge of monitoring the situation, noticed the two's strange behavior. A strange look flashed across his eyes and he immediately jumped down from the tree. However, when his eyes fell on the five fruits, his greed was still apparent.

After that, Huang xiaotao, who was wandering around, noticed that something was wrong and approached the three of them. When she saw the five golden core-like fruits, her body also froze as if she had been struck by lightning.

"Wandu golden core fruit? Was this really the Wandu golden core fruit? Junior Brother Cong Zhi MA, I remember you've been a probationary in the spirit medicine nursery for a while, Are you sure?" Huang xiaotao said in disbelief.

"Captain Xiao Tao, I can guarantee with my head that these five are definitely Wandu golden core fruits. As long as a golden core stage expert consumes them, they will be able to directly increase their level by one rare spiritual medicine! But if a peak Foundation Stage expert takes it, they will definitely be able to form their core. This is truly a priceless treasure!" Cong Zhima swallowed his saliva.

This time, even Lin Yi was shocked. A golden core Master directly leveling up, a Foundation Peak Master with a 100% success rate of forming the core, there was actually such a heaven-defying medicine in the world!

After a while, Huang xiaotao suppressed the excitement in her heart with great difficulty and said to the others, ""This is a once in a lifetime opportunity. Let's share these Wandu golden core fruits!"

"Alright!" Chen Mingshan and Cong Zhima agreed immediately. As for Lin Yi, he naturally didn't mind.

"But there are five Wandu golden core fruits here, and there are only four of us. It's not easy to divide them equally, right?" Chen Mingshan immediately questioned.

On the way here, Lin Yi had already understood that in Huang xiaotao's team, other than the captain's contribution points, the rewards were always split equally between everyone. They were considered a very kind team.

Cong Zhima retorted, "what's so difficult about that? everyone who sees it gets a share. The four of us will get one each. As for the extra one, of course, it'll go to Captain Xiao Tao. She's been taking care of us for so long, and she's the captain. If it were other teams, it's only natural that she'd get the bigger share!"

This Cong Zhima was a kind person! "I'm fine with that," Lin Yi nodded.

Chen Muzi seemed to be struggling, but since both Cong Zhima and Lin Yi had made their stand clear, there was no point in him objecting. He could only nod in agreement, but his eyes were filled with the gloominess of a successful scheme.

"In that case, I'll shamelessly take one more Wandu golden core fruit." Huang Xiaotao suppressed the joy in her heart and immediately expressed, ""In order to make up for everyone's losses, I'll split my share of the rewards for this mission and the next few missions."

After the four of them finished their discussion, they immediately picked the five Wandu golden core fruits and put them into their respective pouches with unconcealed excitement.

At this moment, the Jade sent out a warning. Lin Yi's eyes twitched-with his current senses, he could clearly feel five powerful spirit beasts "auras gathering towards them from all directions.

From the looks of it, this was premeditated. They were surrounded!

Just as Lin Yi was thinking to himself that this was a trap, the ghostly thing spoke up, ""You're thinking too much, Lin brat. This isn't a trap. From the looks of it, they must have discussed that they would only

come to pick the Wandu golden core fruit when it's fully ripe. That's why they've been waiting nearby and cleared the area. They just didn't expect you guys to snatch it before they did ..."

"Oh, I see." Lin Yi sweated as he listened to the damn thing-this wasn't a trap at all! The five spirit beasts had already discussed who would get one, and they probably calculated that each of them would get one. On the other hand, Lin Yi's group looked like they were breaking into the house.

However, there was no first come, first served basis for treasures. According to the law of nature, only the strong would get them. No one, be it Lin Yi or Huang xiaotao, had ever given up the Wandu golden core fruit so easily.

The five high-rank spirit beasts were enraged when they realized that the Wandu golden core fruit they had been drooling over was stolen. They charged at Lin Yi and the others from all directions.

At this time, other than Lin Yi, the others didn't notice at all. They were still immersed in the joy of finding a treasure.

Should he give them a little reminder? Lin Yi hesitated. They were only temporary companions, but he didn't want them to die in the mouths of spirit beasts.

However, before Lin Yi could open his mouth, Huang xiaotao's expression suddenly changed. She quickly silenced everyone and said seriously, ""Something's not right. I feel something is coming, and there's more than one. Be careful, everyone. I'll go and take a look!"

With that, in front of Lin Yi and the other two, Huang Xiao Tao's figure gradually disappeared into the air at a speed visible to the naked eye, as if she had evaporated into thin air. Lin Yi was stunned.

Cong Zhima explained, "this is a very high-end forest stealth skill. As long as you're in the forest, you can hide your body perfectly. Brother Ling Yi, don't think that our Captain is a woman. She's very strong!"

"Forest stealth? This is the first time I've seen such a thing. " Lin Yi nodded, deep in thought.

Although he could not see with his eyes, with his keen perception, he could still vaguely feel Huang xiaotao's existence. This invisibility martial art made him unconsciously think of the spirit beasts that Lee Zhengming had tamed. Invisibility was the racial talent of the ghost Tigers.

Chapter 4087 Xiao Tao Is Seriously Injured

Cong Zhima and Chen Muzi were on full alert, while Lin Yi chose to climb up the tree. The wide field of vision and his powerful perception were enough to perfectly grasp the movement of the surrounding grass and trees.

The five high rank spiritual beasts were getting closer and closer. Just as he was about to kill one for the group, an unparalleled sharp true Qi suddenly burst out from the North. When he looked over, he saw that it was Huang Xiao Tao!

A three-feet-long black arrow, driven by the burst of powerful genuine Qi, was as fast as a Black Lightning. Almost in an instant, it crossed a thousand feet and hit the throat of an incoming spirit beast.

The throat was an extremely fragile and fatal area, even for high-level spirit beasts. No matter how strong their vitality was, once an arrow pierced through their throat, they would die without a doubt.

Without a doubt, a high-level spirit beast was easily killed by Huang Xiao Tao's arrow.

"I didn't expect him to be a rare expert in archery. It seems that Cong Zhima's evaluation wasn't an exaggeration. Captain Xiao Tao really deserves to be called very strong!" Lin Yi praised.

The combination of the jungle stealth technique and the Super-destructive archery skill was an invincible combination of martial skills in the deep mountains and forests.

However, judging from Huang xiaotao's breathless expression, the consumption of energy from the arrow just now was not as easy as it seemed. It was probably her most powerful move.

"Everyone be careful, they're coming!" Huang xiaotao shouted loudly behind her. She did not have time to catch her breath and immediately set her eyes on the other high rank spiritual beast.

After one of the five high level spirit beasts was killed by her long-range support, the remaining situation was one person dealing with one! However, the one that she had just killed was only at the middle stage of the foundation building realm. It was the weakest of the five spirit beasts. The remaining four were all much stronger than it!

Two late Foundation Stage and two peak mid Foundation Stage. Putting aside Lin Yi who was hiding his strength, these four high level spirit beasts were like the Kings of Hell to Huang xiaotao and the other two.

Huang xiaotao took the initiative to target one of the ferocious late-stage Foundation establishment spirit beasts. Human cultivators were hardly a match for the spirit beast at the same level of strength.

However, for Huang Xiaotao, who had the jungle stealth technique and powerful archery skills, the deep mountains and dense forests were also her home field. She might be able to fight it.

In comparison, Cong Zhima and Chen Mingshan's situation was much more difficult than Huang Xiaotao's. They were facing Two Spirit beasts at the peak of the middle stage of the foundation building realm, which were one level higher than them. One could imagine how much pressure they were under.

As for Lin Yi, who was still on the tree, he was being targeted by a giant thousand-eyed Spider.

From its head to its belly, this powerful late foundation building spirit beast was covered with a dense number of eyes. Each eye could shoot out a terrifying ray of light that could kill the primordial spirit. Coupled with the giant net it quickly weaved, it was a typical jungle killer.

After locking onto Lin Yi, the thousand-eyed Spider didn't launch a fatal attack right away. Instead, it sent out a beam of light from time to time to restrict Lin Yi while circling around him.

A moment later, Lin Yi realized that he was completely trapped in the spider web from all directions.

From a distance, it looked as if he was wrapped in a huge cocoon. There was no way out, and there was no way out.

"Shua shua!" The thousand-eyed spider's shrill screech was filled with an indescribable sense of pride. To it, Lin Yi was just a delicious meal on the table, a lamb waiting to die.

"Hehe, a mere Spider dares to be so arrogant. It seems that you really haven't seen much of the world. You've been blind for so many years." Lin Yi stood in the middle, smiling calmly.

Shua shua shua! The thousand-eyed Spider understood Lin Yi's taunt and opened all of its eyes. Hundreds and thousands of beams of light interweaved into a dense web of death, shooting at Lin Yi.

At the same time, the people below were all in a bloody battle. Huang xiaotao's situation was slightly better, as her jungle stealth skill was enough to protect her.

But even so, with the fearsome instincts of a late Foundation establishment stage spirit beast, she was almost caught by it a few times. Huang xiaotao was in danger a few times and managed to escape.

As for Cong Zhima and Chen Muzi, their situation was even more miserable. They were both mid Foundation establishment stage experts, but they had to deal with Two Spirit beasts at the peak of the mid Foundation establishment stage. This was simply an impossible task.

In the blink of an eye, the two of them had been wounded one after another. Fortunately, the two of them had a tacit understanding and maintained a defensive position with their backs against each other. They did not aim to kill the two Spirit beasts, but only to protect themselves.

However, this tortoise-like defensive strategy could only delay them for a while at most. Every time the spirit beasts pounced on them, they would leave a wound on them. If this continued, even if they were not bitten to death by the spirit beasts, the bleeding from the wounds on their bodies would turn them into dried corpses.

Seeing that the situation was getting worse and worse, Huang xiaotao, as the team leader, finally did not dare to delay any longer. If this continued, everyone would die Here today except for her!

"I can only take the risk and try!" Huang xiaotao gritted her teeth. After a few encounters, the forest Blood Wolf at the peak of the late Foundation establishment stage had begun to adapt to her tactics.

Every time Huang xiaotao wanted to raise her hand to shoot an arrow, even if it was in a state of invisibility, the blood jungle Wolf would always be able to retreat a step in advance. It was also extremely proficient in snake-like running, making it impossible for Huang xiaotao to lock onto it and aim.

Huang xiaotao went into stealth mode again. The blood Wolf was on guard against any movement around it. Although it was not like Lin Yi, who could roughly capture Huang xiaotao's position through perception, it had a keen sense of smell and hearing that was far above humans. If Huang xiaotao accidentally stepped on any flowers, it would be a fatal flaw in front of it.

Suddenly, after hearing the soft sound of grass, the blood Wolf suddenly moved. If it did not have absolute confidence, with its patience and slyness, it would never attack easily. But this time, it had already grasped the fatal weakness of the human opposite it.

In an instant, it pounced on the side of a big tree. The forest Blood Wolf directly clawed at the air beside it with an extremely fierce sharp claw. As expected, Huang Xiao Tao suddenly appeared out of thin air and was sent flying more than ten feet away by its claw, spitting out a mouthful of dazzling blood.

Chapter 4088 There Is A Mole

With Huang xiaotao's thin body, just this claw alone was enough to cause serious injuries!

However, the blood Wolf did not choose to pursue. Instead, it stood there, stunned. A black arrow had been pierced through its neck.

A moment later, the blood Wolf fell to the ground. It struggled and wailed for a long time before it gradually stopped breathing.

Hu! Only then did Huang xiaotao heave a sigh of relief. If they had not taken the risk to lure the other party over, with the slyness that the blood Wolf had shown, it was hard to say who would have been able to laugh until the end.

Fortunately, she had smeared lethal poison on the arrow in advance. Otherwise, even if she could successfully stab the arrow into the blood Wolf's body, it would not die at all with its thick skin.

After killing the forest Blood Wolf in the late Foundation establishment stage, Huang xiaotao didn't stop at all. She didn't even have time to catch her breath before she turned around and rushed in the direction of Cong Zhima and Chen Zhuji. If she delayed any longer, she might die.

That was the truth. By the time Huang xiaotao arrived, Cong Zhima and Chen Ziming were already in a precarious situation. Not only were they covered in wounds, but they could barely stand. On the other hand, the two Spirit beasts at the peak of the middle stage of the foundation building realm were still alive and well.

However, with the addition of Huang xiaotao, the situation was reversed in an instant. In less than the time it takes for an incense stick to burn, the two spiritual beasts at the peak of the mid Foundation establishment stage were killed by the three of them.

He collapsed on the ground in a sorry state, panting heavily as he applied medicine. Cong Zhima looked at the giant cocoon woven from spider silk above his head and said worriedly, "Brother Ling Yi has been up there for so long, did something happen to him?"

"I'll go up and take a look. " Huang xiaotao could not care less about the soreness all over her body, nor about the little physical strength she had left. She gritted her teeth and got up, ready to climb the tree.

From what she could remember, the spirit beast that had its eyes on Lin Yi was a thousand-eyed Spider. This was a terrifying spirit beast that was even stronger than the Blood Forest wolves, and Ling Yi was the "weakest" in the group. Facing the thousand-eyed Spider one on one, and after so long, he was probably dead.

Huang xiaotao knew very well the danger of rushing up so rashly. However, even if there was only a slim chance of survival, as the team leader, she could not just leave Ling Yi to die!

However, just as Huang xiaotao got up and climbed the tree, she stared at the giant cocoon. Suddenly, a fire burst out in all directions, and then she saw the giant cocoon quickly turn into ashes in the fire and drift away with the wind. Lin Yi's figure then appeared and jumped down from the sky.

Cong Zhima looked at Lin Yi, who was in a sorry state but had no obvious injuries. He was dumbfounded, "Brother Ling Yi, you're really something. The one you're targeting is a thousand-eyed Spider, right? That's a late Foundation Stage spirit beast, and you're actually able to deal with it!"

It wasn't just him. Huang xiaotao and Chen Muzi were also looking at Lin Yi with obvious shock. They had always thought that Lin Yi was the weakest among the group.

"Hehe, it's just a coincidence that I know a fire attribute martial skill. That spider web was simply a trap that it created for itself. It was purely based on luck. Otherwise, I wouldn't have been able to deal with it." Lin Yi said with a humble smile.

"I see, fire does seem to be a good counter to spiders. Brother Ling Yi, you're really lucky. But don't be humble, luck is also a kind of strength!" Realization dawned on Cong Zhima and the other two.

Lin Yi smiled to himself-it was true that the fire could counter the spider, but in the late-Foundation Stage, it was useless if you weren't strong enough. The thousand-eyed Spider could kill you with a few beams of light.

With Lin Yi's strength, dealing with this thousand-eyed Spider was as easy as killing a dog. If he didn't hide his strength and delay it, he could've killed this stinky Spider in one move.

Of course, if Cong Zhima and Chen daliu were in a life-threatening situation, Lin Yi would have to give up on hiding his strength and help them out.

"Alright, it's already a great fortune that everyone survived today. This place has been cleared by the five spirit beasts, so it should be the safest place for the time being. Let's take a good rest and recuperate here. We'll continue our operation when we've recovered." Huang xiaotao ordered.

Just as everyone was about to respond, three figures suddenly descended from the sky, all of them landing in front of everyone with sinister smiles on their faces!

He glanced at the three, who were obviously up to no good. Lin Yi raised his head and saw a flying spirit beast in the sky. If it wasn't coming from the sky, it wouldn't be able to escape his senses.

"Tsk, tsk, why are you all so seriously injured? it's been hard on you! Come on, hurry up and hand over the Wandu golden core fruit. I don't need to search for it myself, do I?" The leader of the group was a haughty-looking young man. He raised his eyebrows and sneered at Huang xiaotao.

"Su Zhaohu, you're despicable!" Only then did Huang xiaotao react. Even though she could not see her face with the mask on, she could feel her mood at the moment from her trembling body.

"Hey, shameless? Is this your first day doing a mission? If you don't want to die Here, you'd better be sensible and hand over the Wandu golden core fruit!" Su Zhaohu laughed smugly and looked at Huang xiaotao from head to toe."Huang xiaotao, if you had become my sixth cousin-in-law back then, would you have ended up like this? Women are all cheap, you deserve this, not only are you disfigured, you're also living such a miserable life, tsk tsk!"

"You!" Huang xiaotao gritted her teeth in humiliation. If she had not just fought with the five spirit beasts and suffered heavy injuries, she would not have to be afraid of su Zhaohu at all. But now, the other party had taken advantage of her. It was too late to say anything.

"You really don't want to hand it over? Then I won't be polite!" Su Zhaohu laughed sinisterly. Huang xiaotao had once been praised as a cultivation genius. To be honest, he did not dare to underestimate this woman. However, now, everything was under his control.

Seeing that su Zhaohu was about to take action, Huang xiaotao had no choice but to hand over the two Wandu golden elixir fruits.

"Hehe, now you know what's good for you!" Su Zhaohu grabbed the two Wandu golden elixir fruits and drooled greedily. At the same time, the two people who appeared with him began to force the crowd to take the Wandu golden elixir fruits.

Cong Zhima glanced at Huang xiaotao and could only helplessly hand it over. However, when it was Chen Muming's turn, he quickly said, ""Senior Brother Su, you can't do this. Didn't we agree on this? Should I lure them here, let them fight with the spirit beasts until both sides are injured, and then reward them with a Wandu golden core fruit?"

Chapter 4089 Kneeling On The Spot In Fear

Upon hearing this, Huang xiaotao and Cong Zhima were shocked. They were still wondering why they were so unlucky today to meet su Zhaohu at this time. They did not expect that there would be a mole, Chen Mingshan!

"Dummy Chen, you ungrateful dog! How can you face Captain Xiao Tao like this? "You ..." Cong Zhima cursed with righteous indignation. However, he was immediately kicked to the side by su Zhaohu. Huang xiaotao quickly chased after him and helped him to the side.

"Give it to you? Humph, you wish! There are only five Wandu golden core fruits in total, so I have to give one to each of the three of us. In addition, I have to give two to my sixth cousin, who is about to become the disciple of Pavilion master Shangguan. When that time comes, he will naturally give one to Princess Shangguan LAN 'er to please her. How can four be enough? Don't talk nonsense and hand it over!" Su Zhaohu turned hostile.

Lin Yi, an outsider, finally understood the identity of the man. Su Zhaohu was the cousin of su Zhaohe, the genius of the soaring Pavilion. No wonder he was so arrogant.

This kind of scumbag was exactly the same as Meng Tong back then. He dared to rely on a relative and thought himself superior to others, but he didn't know that in the eyes of others, he was just a clown who couldn't even be considered a fart.

"He deserves it!" Cong Zhima spat at Chen Mingshan. He had originally thought of him as a good brother that he could entrust his life to. He did not expect him to be such a scum. Although su Zhaohu was not a good person, he felt very happy to see a traitor being betrayed.

"Senior Brother Su, you ..." Chen Muming never thought that su Zhaohu would burn the bridge after crossing it. He went against his conscience and became a spy. He ended up being deserted by his friends and family. In the end, he did not even get a Wandu golden elixir fruit. Wasn't his brain damaged?

"What do you mean 'you'? if you continue to waste time with me, do you believe that I won't cut you up right now?" Su Zhaohu's eyes were filled with murderous intent.

No matter how good a treasure was, one had to be alive to enjoy it. In desperation, Chen mumi could only dejectedly take out the Wandu golden core fruit from his arms and su Zhaohu snatched it.

"Tsk, tsk, this is a good thing that you can't buy no matter how many spiritual jades you have. With this treasure as a door-knocking brick, not only will my sixth cousin become Pavilion master Shangguan's disciple, but he might also have Double Happiness. He might even take in miss Shangguan and become Pavilion master Shangguan's grandson-in-law!" Su Zhaohu glanced at Huang xiaotao sarcastically and sneered, ""Huang xiaotao, it's already rare for someone like you to catch my brother's eye, yet you're still unwilling? Hahaha, do you regret it now? Unfortunately, it's useless. You're an ugly disfigured monster. Not to mention my brother, even any random cat or dog on the side of the road wouldn't want you!"

Huang Xiaotao gritted her teeth in anger, but she did not refute him. Instead of arguing with this arrogant scum who only knew how to use his power to intimidate others, she might as well save her energy.

At this time, the other person that Su Zhaohu brought walked in front of Lin Yi, his expression awkward, "Is there something wrong with your brain? You've been talking for so long, why don't you hurry up and hand over the Wandu golden core fruit? Are you looking for death? Don't you know how to use your brain to think? Do you think a country bumpkin like you can have such a treasure?"

Lin Yi looked at him and smiled, unmoved, "A bunch of trash! Put down the Wandu golden core fruit now and get out of my sight. I can still spare your lives."

"Gah?" The man turned around and looked at Su Zhaohu as if he had heard the funniest joke in the world. He started laughing crazily and pointed at Lin Yi, panting, "Oh, looking at your appearance, I thought you were a country bumpkin. I didn't expect you to be a tough one. Hahaha, that's a pretty awesome statement, but unfortunately, in front of me, a Grand late Foundation Stage expert, what are you, little brat?"

"So you don't want to hand it over? Alright then, I'll reluctantly fulfill your wish." Lin Yi finished his sentence and threw out the 29th style of the Wild Fire Fist.

BOOM! The man didn't even have the chance to react. His laughter stopped abruptly, and his head was blown into pieces, leaving only a headless corpse that slowly fell to the ground. Even in death, he didn't understand how he died at the hands of such a country bumpkin.

Hiss! This sudden turn of events made everyone suck in a breath of cold air. They all looked at Lin Yi in shock.

Huang Xiaotao and Cong Zhima were both scared silly. They always thought that Lin Yi was the weakest one. They even made Lin Yi do the hard work of carrying the elixirs for them, and they even thought that they took care of Lin Yi very much. Now that they thought about it, they couldn't help but blush. It was so ridiculous that they couldn't even show their faces!

A late Foundation Stage practitioner was killed by Lin Yi with a single punch without any resistance-what kind of terrifying strength was this?!

"You ... You're an Aurous core stage senior?" "What's going on?" another underling brought by Su Zhaohu was so scared that he peed his pants on the spot when he saw this brutal scene. He stuttered and asked.

Su Zhaohu's face was also pale with fear. It was clearly a flawless plan, and the Wandu golden elixir fruit was already in his hands. Who would have thought that he would suddenly kick an iron plate and have a devil incarnate appear?

Although he was terrified, Su Zhaohu looked at the Wandu golden elixir fruit in his hand unwillingly. He suddenly shouted with a ferocious expression, "No! He was definitely not! At most, he's at the peak of the late Foundation establishment stage. If we attack him together, I don't believe we can't kill him!"

As soon as he finished speaking, Su Zhaohu braced himself and attacked. The underling who peed his pants didn't dare to fall behind either. There was no reason for him to give up the Wandu golden core fruit he already had. He roared and charged at Lin Yi.

"Be careful ..." Huang Xiaotao and Cong Zhima quickly reminded. They had not fully recovered from the shock of the bloody scene just now. Subconsciously, they felt that no matter how strong Lin Yi was, he would be no match for Su Zhaohu and Cong Zhima.

However, before the two could finish their words, Lin Yi stood where he was and didn't Dodge. He raised his hand and used the raging fire Eight Trigram palm, followed by a loud bang. Su Zhaohe's underling was hit and sent flying, crashing into a few trees.

When he finally fell to the ground, his body was full of potholes. His body had been beaten beyond recognition, let alone his life.

Su Zhaohe's scalp was about to explode when he saw Lin Yi's intimidating gaze turn to him. He let out an inhuman scream and rolled to stop his momentum, falling to his knees with a bang.

Chapter 4090 Are You Lying To Me?

He kowtowed to Lin Yi and begged, "Aurous core stage senior, please spare my life! This lowly one failed to recognize Mount Tai. I won't dare to do it again. Then ... Then I don't want any of the Wandu golden core fruits. I'll give them all to you!"

As su Zhaohe's cousin, su Zhaohe had seen his fair share of the world. Lin Yi's previous wild fire Fist's 29 forms was only at the Foundation Stage, but this palm was clearly at the early golden core stage!

Only golden core stage experts could master golden core stage martial arts techniques. This was an undeniable fact. No matter how arrogant su Zhaohe was, he would never dare to be presumptuous in front of a golden core stage expert. Even his genius cousin brother was only at the perfected Foundation establishment stage!

"You want me to let you go?" Lin Yi said faintly as he raised his eyes.

"Yes, yes, I know I was wrong. I won't do it again. You are a high and mighty golden core stage senior. It's not worth dirtying your hands by killing me ..." Su Zhaohu knelt on the ground without any regard for his image and begged for mercy with snot and tears.

"You also said that you're a villain and wanted me to let you go so that you could get your sixth cousin to kill me, right?" Lin Yi's lips curled up into a smile.

"No... No... I would never dare to do that. You're a golden core stage senior. Even my cousin is no match for you ..." Su Zhaohu quickly kowtowed in fear.

Lin Yi hmphed coldly and ignored his begging. He turned to Chen muzhuang, "That wooden dummy Chen, you said that you were the one who attracted these people here?"

Chen Muzi was already scared out of his wits, and only reacted after a while. He knelt down and begged Lin Yi, "Senior, please spare my life. I was forced by them. If I don't follow their orders, I won't be able to gain a foothold in the North Island. I'll be hunted down by them ..."

"I'll give you a chance to kill him. " Lin Yi ordered, his face expressionless.

"Ah?" Chen Muming and su Zhaohu were shocked at the same time. Su Zhaohu's face was filled with fear, while Chen Muming was a little hesitant.

He was not soft-hearted. Su Zhaohu had just burned the bridge after crossing the river. He had already tortured and killed this bastard a thousand times in his heart. However, su Zhaohu was su Zhaohe's

cousin. If he, Chen Zhulin, dared to kill su Zhaohu, even if he could survive today, he would definitely die when he returned to the North Island.

"How dare you, dummy Chen! If you dare to touch a single hair of mine, I'll let you die without an intact corpse!" Su Zhaohu threatened in shock and anger.

Chen Mingshan's heart skipped a beat, but when he saw Lin Yi's sharp gaze, he quickly stood up and braced himself to attack su Zhaohu.

If he killed su Zhaohu, he would only be hunted down in the future. However, if he didn't kill su Zhaohu, he would have to die now. He had no choice!

Seeing that Chen Muzi's killing intent was gathering, su Zhaohu finally did not dare to waste any more time. Before Chen Muzi could attack him, he pierced his heart with a finger and killed him in one blow.

But before he could let out a breath of relief, Lin Yi, who was in front of him, spoke up with a cold smile, ""You dared to kill my team's members in front of me, and you just said you won't do it again? Are you F * cking lying to me?"

"No... No..." Su Zhaohu wanted to deny it, but Lin Yi didn't give him the chance. He lifted his leg and used the thousand raging fire legs, sending him flying a hundred meters away. When su Zhaohu landed heavily on the tree, he was already a mutilated corpse.

The raging fire thousand legs was Lin Yi's latest combination of skills. After all, Meng Tong's thousand legs was not weak, and it could increase one's speed after training it. Now that Lin Yi was using it, it was a level higher than the raging fire thousand legs, and it was an extremely practical skill.

"Se ... Senior ... I'm sorry about before ..." Huang xiaotao and Cong Zhima were scared out of their wits when Lin Yi's eyes landed on them. This guy killed so many people in such a short time! He didn't even blink!

They didn't do anything wrong to Lin Yi before, but letting a golden core do the hard work was a fatal mistake in and of itself. With this guy's terrifying killing nature, it wasn't impossible for him to kill them both when he was unhappy.

"Alright, you two don't have to be afraid. Get up." Lin Yi shook his head with a bitter smile. He wasn't that kind of person who would kill without blinking. He was just about to reach golden core, and the Wandu golden core fruit was too important to him.

Moreover, he had been bound by various rules in the welcoming new pavilion for more than half a year. Moreover, he had to take into account the background of various enemies. He couldn't kill this one, and he couldn't provoke that one. He had to be cautious in doing things. This had really suffocated him. Now that he was outside, how could he not kill this kind of blind scum?

Seeing that Lin Yi really didn't want to pursue the matter, Huang xiaotao helped Cong Zhima up carefully, but her eyes were still full of respect as she looked at Lin Yi. She didn't dare to get close.

Lin Yi shook his head helplessly, "This mission ends here. We should also part ways. You two take care."

Now that his strength had been exposed, Lin Yi didn't feel like collecting herbs with them anymore. Looking for the life phase mushrooms was his ultimate goal. Besides, even if he was willing to go with the two, the atmosphere would be awkward. It was better to separate.

"That ... This ... Wandu ... Golden core fruit ..." Huang xiaotao was a little embarrassed. Although she really wanted the Wandu golden core fruit, it was Lin Yi who took it from su Zhaohu, so it was Lin Yi's own. It had nothing to do with her and Cong Zhima.

Lin Yi smiled and threw two Wandu golden core fruits to Huang xiaotao and Lin Yi, "I want three pills, and you two take one each. Any objections?"

Huang xiaotao and Cong Zhima were instantly overjoyed. They said gratefully, "No, no. Thank you, senior. Thank you, senior!"

"No need, this is what you deserve." Lin Yi waved his hand.

Huang xiaotao and Cong Zhima looked at each other and gathered their courage to say, "We will never forget senior's great kindness! We're almost done with our mission, but we don't have enough manpower. Moreover, we're both seriously injured, so we're preparing to go back now. However, we'll be taking the spirit bird with us. What are senior's plans?"

Huang xiaotao's concern was that if they left now, they would leave Lin Yi alone in this dangerous mountain. Without a flying spirit beast to ride, even if the other party was a powerful golden core stage master, it would be very difficult.
