Chapter 4111 Elder Tian's Anger

"Reconnect the meridians in your right arm?" Hou guanqi and Cai Zhongyang were both stunned. Tian xingdao said excitedly, "Apothecary Lin is truly a genius. Even if he only helped me recover the meridians in my right arm, it's already unbelievable. I can't thank you enough for this. I'll remember this in my heart."

"Elder Tian, you're being too serious. This is the duty of a doctor." Lin Yi smiled faintly. If he really wanted to use his full strength, he could completely heal the man, but he didn't want to make it too shocking, so he only healed a part of the man's meridians.

Even so, Lin Yi's image in the crowd's eyes had become unfathomable. Tian Xing Dao was extremely grateful, and as for hou guanqi and Cai Zhongyang, they didn't dare to treat Lin Yi as a normal junior anymore.

Tianshuo, on the other hand, was genuinely happy for Lin Yi and Tianxing. One was the man she'd given her life to, and the other was her blood-related elder. The person who was the most excited right now was her, but she didn't dare to show it.

"Lin Yi, my young friend, how ... How did you do that?" Hou guanqi and Cai Zhongyang were both impatient and asked curiously.

They were all divine medical experts. It was impossible to say that they were not tempted by the heaven-defying method of healing broken meridians.

"There is no need for two seniors to be curious. The reason I am able to do this is simply because the heart technique I cultivate is a bit special." Lin Yi smiled and asked seriously, "However, I hope that you can keep this treatment method a secret for me. If you tell the public, just say that it's a treatment of acupuncture and medicine."

"Don't worry, Lin Yi-it's a top secret in the pill Hall, after all. Even if you didn't tell us, we'd be careful. We wouldn't even tell anyone about it, and no one would ask us," Hou guanqi promised.

"That's good. " Lin Yi nodded. It was related to the Vice-Master of Nakagama-even the slightest bit of news would attract the attention of the big shots of Nakagama. Even if one of them had bad intentions towards him, it would be a huge problem.

As they were talking, Zheng tianchu, who was outside the door, finally could not hold back anymore and pushed open the door. He immediately saw the scene of Tian xingdao's right arm gathering the spiritual energy of heaven and earth. He was dumbfounded on the spot.

Cai Zhongyang removed the barrier without a trace and sneered at Zheng tianchu, ""How is it? Now that elder Tian has recovered an arm, is this apothecary we've invited still a swindler?"

"Uh ..." Zheng tianchu was so choked up that he could not speak for a long time. Even if his medical skills were not as brilliant as those present, he had grown up in the pill Hall from a young age. Under the influence of his ears and eyes, his eyesight was still far above ordinary people.

To be able to cure Tian xingdao, even if it was just an arm, was definitely an incredible thing. If he still insisted that the other party was a charlatan, then not to mention himself, even his grandfather, Zheng dongjue, the Vice Hall Master of the alchemy Hall, could not even compare to the surface of a charlatan. From then on, he could only beg on the streets.

The facts were right in front of him. No matter how arrogant Zheng tianchu was, he didn't dare to fart anymore. He had to ignore the crowd and said to Tian Gang, ""Sister-in-law, you've already seen the sky. Hurry up and come with me."

Tian Gang shook his head decisively. "No, elder Tian has only just recovered a little. I want to stay and take care of him."

"You ..." Zheng tianchu still wanted to pull Tian Gang away, but under the intense gazes of hou guanqi and Cai Zhongyang, especially Tianxing's gaze at this moment, it began to turn hostile. This was a legendary figure who could be compared to the God of alchemy, Zhang Liju. If he was at his peak, even his grandfather, Zheng dongjue, could only look up to him.

The situation was stronger than the man. Zheng tianchu suddenly did not dare to be rash. He could only snort unwillingly and leave alone.

After finally getting rid of this annoying dog skin plaster, hou guanqi turned to Lin Yi and smiled, "The guy's gone, Lin Yi-you can say whatever you want now,"

Lin Yi nodded and walked over to stop him.

However, before he could say anything, the Tian Xing Dao's members were shocked. Their expressions changed. They were surprised to see that hou guanqi and Cai Zhongyang did not seem surprised.

"Apothecary Lin, don't think that just because you've cured me, you can be like that Zheng tianchu kid and tease my Tian family members!" Tian xingdao was enraged. Even though he had just recovered his right arm, he could already control a portion of the spiritual Qi around him. He immediately pressed down on Lin Yi with an overwhelming force.

"Gah?" Lin Yi was stunned. He looked at Tianxing and tianshuo as he resisted the pressure. He was surprised, "Xiao mo, this elder Tian is ... Your family?"

However, Tian Gang did not immediately explain to him. Instead, he looked at Tian Xing in surprise and joy and said happily, "Elder Tian, you're finally willing to acknowledge me?"

Tian Xing sighed and looked at Tian Gang with a much gentler and more kind gaze. He said, "I'm not a stone-hearted person. You've been taking care of me for so long, how could I not see that? Besides, my ancestors did indeed move here from the mortal world's sky elixir sect, it's just that I've never told anyone about it. The only reason I didn't want to acknowledge you before was because I'm a cripple, and there's no need for me to claim kinship with you. You're just an annoying cripple, what's there to acknowledge? But now, I have the hope of recovering, so of course I can acknowledge you. "

"That's great. Luan 'er was afraid that you wouldn't acknowledge me, so I've been dreaming of hearing your words. Now, my wish is finally fulfilled. " Tian Gang was both aggrieved and happy as tears flowed down his face.

"You silly child ..." Tianxing was also touched. As the saying goes, a friend in need is a friend indeed. When he was at his lowest and most desperate, Tianji's concern was like charcoal in the snow. This was a true kinship that could not be cut off.

The two finally acknowledged each other as family, but Hou Guanqi and the others were confused. Lin Yi, on the other hand, understood the whole story from Tian Xingdao's words and asked, "Xiao Mo, could it be that Elder Tian is from the same lineage as the Tian family in the secular world?"

"Yeah," Tian Gang nodded happily, "our Tian family has two branches. One is in the mortal world, and the other is on the sky island. Elder Tian should be an elder of the sky island branch."

Chapter 4112 Creation Battle Technique

Immediately after, Tian Gang blushed and introduced to Tian Xing, ""Don't be angry, Elder Tian. When Chen 'er was in the secular world, they were already ..."

Tian Xing naturally understood what Tian Gang meant before he could finish his sentence. He was stunned. "Ah? You actually have this kind of relationship with Tian Huan, and you came up together from the secular world?"

"I didn't think that you'd be Xiao Ling's family ..." Lin Yi was surprised as well.

Now that the misunderstanding was cleared, Tianxing's aura disappeared. He looked at Lin Yi's young face and sighed, "The new generation always excels the old-that's true, Lin Yi. You're so young, and yet you're already so skilled, it's really unbelievable. If I'm not wrong, you could've completely cured me, but you held back out of caution, right?"

Hou Guanqi and the others were even more surprised. In their eyes, Lin Yi being able to heal Tianxing's right arm was already a big deal, and he was still holding back?

Lin Yi couldn't lie under the gazes of the crowd, so he nodded awkwardly. If he'd known that Elder Tian was Tian Gang's relative, he wouldn't have held back so much.

Seeing this, everyone's expressions changed even more. Even Tian xingdao himself felt that it was unbelievable. He was just testing the waters. In theory, if Lin Yi could help him recover his right arm's meridians, he could naturally recover the meridians in the other parts of his body as well. However, theory was theory. It was as difficult as ascending to the heavens to actually achieve it.

Without further ado, Lin Yi started healing Tian xingdao again. After all, he was one of them now, and there was no need to hide it anymore.

This time, Lin Yi didn't hold back at all. It lasted for eight whole hours, until the sky was almost dark, and then he finally succeeded.

Feeling the newly-formed meridians in his body, Tian xingdao was so shocked that he could not move. The spiritual Qi that he had absorbed in an instant was transformed into true Qi and flowed through his meridians. This familiar and long-awaited feeling made him, who was once a legendary master, unable to extricate himself. Tears streamed down his face.

Hou guanqi and Cai Zhongyang were even more shocked when they saw this. Even their master, Zhang Liju, didn't have such heaven-defying abilities!

"Seniors, I'll have to trouble you to examine elder Tian and see if there are any hidden problems in his body." Lin Yi said.

It was not that he was being modest. Although it seemed that there was no problem, after all, elder Tian's strength was once there. There might still be some undetectable residual effects. Hou guanqi and

Cai Zhongyang were both medical experts and experienced. They were suitable to help with the follow-up.

"Alright," he said. The two nodded. They were curious to begin with, and it was only natural for them to do so.

While the two were doing a full body check on Tianxing, Lin Yi stood to the side and chatted with tianshuo, explaining everything that had happened to him recently.

The result made Lin Yi both happy and angry. He was happy that tianshuo was forced to get into a netherworld marriage, but he didn't suffer any real damage. Instead, he had a layer of protection. He was angry that Zheng dongjue and Zheng tianchu were looking for death!

This was especially so for Zheng tianchu. This scumbag was obviously after Tian Gang. He could not tolerate this. He had to find an opportunity in the future to nip this threat in the bud as soon as possible.

While they were talking, hou guanqi and Cai Zhongyang had finished examining the heavenly path sect. They exclaimed,""Lin Yi, my young friend, your medical skills are amazing. Elder Tian's meridians are no different from a normal person 's, it's just that he's been injured for too long and his body isn't used to it yet. He'll be back to normal after a while of rest!"

"That's good. I was afraid that there would be some residual effects." Lin Yi nodded with a smile.

Hou guanqi looked up at the sky and turned to Lin Yi and Tian xingdao,"Elder Tian, it's getting late. Junior Brother Cai and I have to go back and discuss the auction in Nakajima. We won't stay here for long. We'll come to see you tomorrow."

"Then ... Chen 'er will go back first. Elder Tian, have a good rest." Tian Gang chimed in. After all, she was the daughter-in-law of the Zheng family in name, so she couldn't spend the night outside.

"Alright, then I won't see you guys off." Tian xingdao nodded and turned to Lin Yi, "I'm living alone anyway, so why don't you stay for a night, Lin Yi? you can chat with me too, how about that?"

Lin Yi blinked. Since hou guanqi and Cai Zhongyang had business to discuss and didn't have time for him, he might as well stay for the night. "That's good, then I'll have to trouble you. "

Tian xingdao laughed. "You're my Savior. You're willing to spend more time with me. I can't ask for more. What's the matter?"

Everyone looked at each other and smiled. Lin Yi sent them out on Tianxing's behalf, and before tianshuo left, he hugged Lin Yi for a long time before separating from him, promising to meet up tomorrow morning.

Back in the room, Lin Yi and Tian xingdao sat opposite each other, talking about everything like old friends. Tian xingdao was still recovering from his injuries, but he was in a great mood and was in the mood to talk. After so many years of being cured, it was the time to share his joy with others.

"Elder Tian, please forgive me for being curious. How did your injuries come about? it's really rare to see your meridians damaged to such an extent." Lin Yi asked.

When Tianxing heard this, he sighed and said, ""I'm sure you've heard about the creation battle technique. My meridians were injured because I cultivated it."

"Creation battle technique!" Lin Yi's heart skipped a beat. Could it be that the rumors were true, that one would become a cripple after cultivating the creation battle technique?

One had to know that he was currently cultivating the creation battle technique. It was just that he had modified it with the art of Dragon mastery as the base.

"That's right. The creation battle technique is a cultivation technique passed down from ancient times. However, for most people, it's a useless technique that can't be cultivated. No one will take it seriously and no one will cultivate this creation battle technique that has become a laughingstock. Other than people like me who came from a cultivation tribe, I'm a rogue cultivator who has no other choice." Tian xingdao's face was filled with reminiscence and regret as he spoke.

Lin Yi was taken aback-he'd never heard of this before. So this legend of the Tianxing path was actually a small-time, independent practitioner.

"At first, I couldn't figure it out, but I wasn't willing to give up, so I tried all the possible methods. Even if I knew it was life-threatening, I didn't care. In the end, the heavens didn't let down those who put in their hearts. In the end, I really found a way to use the creation battle technique to cultivate. Although my progress was far less smooth than other cultivators, I could still slowly cultivate it. For me at that time, this was already an amazing discovery." Tian xingdao recalled.

Chapter 4113 Always Lacking A Little

He said it calmly, but Lin Yi couldn't help but feel shocked. There were only a few people who could do it when they knew it was impossible. It could only be said that it wasn't without reason that the Tianxing path could become a legendary master.

"Gradually, I realized that if I continued to practice the creation battle technique, even though my progress was slow, my strength would be extremely strong. I would be invincible in the same realm, and even defeat opponents of a higher realm. When I broke through to the nascent Soul Stage, I was already recognized as the strongest nascent Soul Stage master on Sky Class Island. Because I had the ability to defeat opponents of a higher realm, I finally made an exception and became the Deputy Island master of Middle Island. For a while, I was very famous." Tian Xing Dao said, neither happy nor sad.

"Since the creation battle technique is so powerful, then ... How did you end up like this?" Lin Yi couldn't help but ask.

Tian xingdao shook his head, ""Although I was already the strongest Yuanying stage expert, there were still higher realms above the Yuanying stage. Of course, I was unwilling to stop advancing. However, when I was ready to break through to the Yuanying stage, I found that I couldn't cultivate it no matter what. When I reached the Yuanying stage, no one else cultivated the creation battle technique except me, so there was no precedent. I could only rely on my own strength to break through, but in the end, in the process of breaking through, my meridians were all broken ..."

Lin Yi broke out in a cold sweat after hearing this. He was also training in the creation battle technique, and just like Tian xingdao, he could kill people above his level in seconds. According to Tian xingdao, wouldn't he end up like this when he broke through to the nascent Soul Stage?

Although he was still very far away from Yuanying, let alone breaking through, but if he continued to develop like this, it was only a matter of time!

Tian xingdao couldn't help but wonder when he saw Lin Yi's cold sweat-drenched face, ""What's wrong? Are you not feeling well?"

"That's not it. It's just that after hearing elder Tian's words, I have some feelings in my heart. " Lin Yi shook his head with a bitter smile.

"Have some feelings?" Tian xingdao was taken aback. Suddenly, his body trembled, and his face turned pale with fright. "Don't tell me you also cultivate the creation battle technique?"

"I won't hide it from you, elder Tian, that's indeed the case." Lin Yi nodded honestly, not hiding anything. It was his first time meeting Tianxing, but with his relationship with him, they were considered half a family.

Moreover, he was not confident. He needed to understand the creation battle technique from the Tian Xing Dao to avoid following in their footsteps. After all, he could still save the Tian Xing Dao if his meridians were shattered. However, if something happened to him, he could only sit on the ground and wait for death.

Tian xingdao immediately took in a cold breath and said,""Then you should stop. We've all cultivated it wrong!"

"Wrong? Why?" Lin Yi was taken aback. From what he'd just heard, he only felt that this practitioner's Arts was risky, but it shouldn't be to the point of making a complete mistake. Otherwise, both he and Tian Xing Dao would be invincible in the same level, and even able to kill people of a higher level-how could that be explained?

Tianxing Dao looked at Lin Yi again and said slowly,"Let me ask you first, what is the heavenly Dao?"

"Isn't that the pursuit of a higher realm? the Foundation Stage above the sky level, the Golden core stage after the Foundation Stage, and even the higher realms after that, all of these are the heavenly Dao. " Lin Yi replied without thinking.

Tian xingdao shook his head."No. The true heavenly Dao is cultivation. One has to go against the heavens and eventually achieve the great Dao. This is the true heavenly Dao."

"that's right, isn't this what we've been pursuing all this time?" lin yi asked, curious. he'd heard the word "practition" before when he first came to sky class island, but he didn't pay much attention to it at the time, thinking that it was just a new way of saying things after reaching the foundation stage.

"No, no, no. What we're cultivating now is not the way of heaven. At best, it can only be called a pseudo way of heaven. Its essence is to replace the way of heaven with martial arts. Although there are realms such as Foundation establishment, golden core, nascent soul, and so on, they are not real cultivation. They can only be regarded as martial arts cultivation, a way to replace the way of heaven cultivation." Tian xingdao shook his head and said.

"Martial arts cultivation? Heavenly Dao cultivation? "What's that supposed to mean ..."Lin Yi couldn't help but be confused-he'd always relied on his own self to figure things out before, and this was the first time he'd heard someone bring it up for real.

"You still don't understand? What he meant was that there weren't many people who could truly cultivate, and in order to let more people step into the path of heaven, as early as the ancient times, the powerful seniors of the Sky Class Island adapted the path of heaven to the path of martial arts. Although practicing martial arts could obtain a stronger body and higher skills, it was still a pseudo-path of heaven in the end, and martial artists would be very strong in the early stages. But later on, they are much weaker than true cultivators, and there are extremely essential differences between them!" Tian xingdao explained patiently.

"Elder Tian, what is the essential difference you are referring to?" Lin Yi couldn't help but ask.

"It's very simple. The ultimate strength obtained from martial arts cultivation is martial techniques, while the ultimate strength obtained from heaven's path cultivation is divine powers!" Tian xingdao's face was full of fascination.

"So it's like this!" Lin Yi finally understood-Tianxing's advice cleared up his blurry memories.

However, Lin Yi was still a little puzzled. Even if there were differences between martial arts and heavenly path cultivation, almost everyone was walking the martial path now, and he had never heard of a real cultivation master. In other words, the real heavenly path cultivation didn't exist anymore. It was a little strange for Tian Xing Dao to suddenly mention this.

Tian xingdao saw Lin Yi's confusion and said seriously, "I'm telling you all this to tell you that the creation battle technique is a true cultivation technique. This is a legend passed down from ancient times. There is nothing wrong with it and it did not lie to us. It's just that not many people can cultivate it. Even if they did, they would be like me, cultivating it wrongly."

"Did something go wrong with your cultivation?" Lin Yi blinked again, but he understood something from what he'd just said."Elder Tian, do you mean that this is supposed to be a heavenly Dao cultivation technique, but in the end, it was used by you using a martial Dao cultivation method?"

"You're right to understand it that way. For so many years, I've always felt that this mental cultivation method is missing something. I feel that I haven't understood the true essence of it. If you go along with it, you'll be mortal. If you go against it, you'll be immortal. This is an ancient teaching that has been passed down. However, I've never been able to understand this point in the creation battle technique. My understanding of this sentence is limited to the literal meaning. I've always been missing that little bit." Tian xingdao sighed.

Chapter 4114 Good Luck

Lin Yi could understand that-going with the flow made you immortal if you went against it. Anyone could understand what that meant, but that was useless. Only by truly understanding this point would one become a saint.

"Although I can still cultivate in my current state, and I have a much stronger strength than ordinary people, every breakthrough is very dangerous. If I'm not careful, my meridians will be broken. Especially the last time I broke through to the nascent soul realm, my meridians were all broken ..." Tian xingdao said with lingering fear.

Lin Yi blinked. He was also cultivating the creation battle technique, but he'd never encountered this problem before. Was it because of the art of Dragon mastery?

This creation battle technique originally had a flaw, but the art of Dragon mastery was an all-powerful mental cultivation technique. Thus, after the two combined and was modified by him, the original flaw disappeared?

It was a possibility, but judging from what Tianxing said, Lin Yi understood that this was probably a last resort. The true creation battle art wasn't like what he was doing now. The art of Dragon mastery only made it possible to practice, and to a certain extent, it was a substitute.

However, after understanding this, Lin Yi wasn't too worried. He wasn't in a hurry to figure out the true cultivation method of the creation battle technique. After all, no matter how good the creation battle technique was, it was just an additional cultivation method. The art of Dragon mastery was Lin Yi's true foundation. Since he could cultivate it now, he would take it one step at a time. Why bother with so much trouble?

As for Tianxing, Lin Yi didn't plan on giving him the arts he'd modified with the art of Dragon mastery yet. After all, they'd only met for a day, and even with Tianxing's connection, it wasn't to the point where their lives were on the line.

"Lin Yi, when you broke through from Sky Class full phase to Foundation, did you run into any danger like me?" Tian xingdao asked with concern.

Lin Yi shook his head, "not really. It felt pretty smooth. It wasn't as dangerous as you said."

"That's strange. I was in great danger back then." Tian xingdao looked at Lin Yi, surprised. "But even if it's the same practitioner's Arts, it varies from person to person. Maybe it's because the Sky Class full cultivation level is too low, but when you break through from the foundational level to the Golden core level, you'll feel some pain."

"Maybe," Lin Yi replied noncommittally. The creation battle technique he was training in was completely different from the original version of Tian Xing Dao. Tian Xing Dao's experience might not necessarily happen to him, and he would only know what would happen when the time came.

"The pain isn't the most important thing. Just clench your teeth and endure it. The biggest problem is that it's very likely to end up like me. Every time I break through, my meridians won't be able to withstand the huge impact of Zhen Qi and will explode. That's what will really kill me. You must take this as a warning and be mentally prepared in advance." Tian xingdao warned.

Lin Yi nodded, not saying anything else.

Tian xingdao knew that he had failed to persuade him. To a cultivator, strength was more important than their lives. Even if they knew that there was danger in their cultivation, very few people would stop halfway.

Tian xingdao himself was like this back then. When people told him not to practice it, he would insist on it. Now that his injuries were healed, although his strength was not fully recovered, at least there was hope. Now that there was hope, his first thought was to practice. He had been through such a huge setback, and he was like this, not to mention Lin Yi.

Since he couldn't convince Lin Yi, Tian xingdao decided to tell Lin Yi everything he'd learned over the years, bit by bit. He wanted Lin Yi to have a reference for his future training, so that he'd know when he'd be in danger.

Cultivation experience, especially from a legendary master like Tianxing Daoist, was a priceless treasure no matter where it was placed. It was something that couldn't be bought with spirit Jade, and Tianxing Daoist was sharing it with Lin Yi so generously as a way of returning the favor. After all, Lin Yi was like his second parent.

Of course, Lin Yi's relationship with Tian Gang was also an important reason. Otherwise, Tian Xing would at most do something for Lin Yi in return, he wouldn't be teaching Lin Yi this much.

The two of them talked through the night, all the way until the sky was bright. They were not tired at all, and instead, they talked even more excitedly.

Tian xingdao looked at the sky and suggested, "Why don't you accompany me for a walk and we can continue to chat? Speaking of which, it's been many years since I've left this room. I don't even know if the outside has changed ..."

"I wouldn't dare disobey," Lin Yi smiled.

The two of them immediately walked out side by side and walked in the courtyard of the pill Hall. They talked and laughed and were full of interest, immediately attracting the attention of many pill Hall disciples.

Tian Xing Dao was a true legend, an existence that was rarely seen. Moreover, they had always known that this person had become a cripple. They did not expect him to go out and walk around today. From the looks of it, it seemed that he had fully recovered?

The news of the former deputy Island master of Nakajima, the legendary figure Tian xingdao's recovery, spread like wildfire. In a short period of time, it had spread throughout the hall of alchemy.

Soon, Lin Yi and Lin Yi saw Tian Gang, but when they saw Zheng Tian Chu behind him, their faces turned cold. This idiot!

Zheng tianchu looked at Tian xingdao, who seemed to have been reborn, and couldn't help but ask in disbelief, ""You ... Elder Tian, you've recovered?"

As he asked this, there was a sudden commotion in the surroundings. The person who had come this time was the most powerful person in the hall of alchemy, the Vice Hall Master of the hall of alchemy, Zheng dongjue.

Tian xingdao glanced at Zheng tianchu, deliberately raised his voice, and said to everyone around him, ""Tian Ji is my Tian family's younger sister in the secular world. In the future, she will be a relative of my Tian Xing. Those who have ill intentions towards her, you better be careful. Otherwise, if they really provoke my sister, I will definitely not be polite. I believe that you have all heard of my decisive deeds. Take care of yourself."

Everyone immediately looked at Tian Gang with envy. At the same time, they could not help but look at each other. Tian Xing's words clearly had a hidden meaning. With his status, even if he was not a member of the hall of alchemy, the deterrence of his words was unparalleled. No one would have the courage to provoke his sister, whom he had personally admitted.

Chapter 4115 Super Backer

Tian Gang was both surprised and happy. Although Tian Xing had already acknowledged her the day before, there was no clear relationship between them. Now, Tian Xing was her brother, a super backing that no one dared to underestimate.

Among the crowd, only Zheng tianchu's face was livid. He was so angry that he gritted his teeth. Of course, he knew that Tian xingdao was clearly talking to him!

This old man had just recovered from his injuries, and his strength was still far from his peak. However, with his genius cultivation, it was only a matter of time before he recovered his strength. In the face of Tian xingdao at his peak state, even his grandfather, Zheng dongjue, would have to give in, let alone Zheng tianchu.

Originally, with the gradual consolidation of his position as the eldest young master, Zheng tianchu felt that it was already an easy matter to get Tian Gang, this beautiful sister-in-law. However, he did not expect that with a single sentence from heaven, all hope was sealed. This old thing that would not die!

But even so, Zheng tianchu didn't dare to hate Tianxing-it was useless. They weren't on the same level at all, and if he really did piss him off, Tianxing could kill him as easily as crushing an ant. The only person he could hate was Lin Yi, who had cured Tianxing.

Lin Yi smiled faintly as he felt Zheng tianchu's cold and angry eyes. To him, as long as Zheng tianchu didn't use underhanded methods on the angel, he wasn't a real threat. His strength was far from his dead cousin Zheng Tianjie, so what did this guy have to fight with him?

On the other side, Zheng dongjue, who had just arrived, looked at his grandson with a profound look. He had heard about Zheng tianchu's recent pestering of Tian Gang, but he had no intention of stopping it. In any case, he had made Tian Gang and Zheng Tianjie marry in the dark to take revenge on Tian Gang. It was no big deal even if he gave it to his other grandson now.

However, in the past, it was just a matter of words. Now that Tianxing had publicly announced that he would support Tian Gang, Zheng dongjue could not act rashly for a while.

After all, the legend of Tian Xing Dao's disdain for all heroes was there. No matter what, he, Zheng dongjue, had to think carefully. At the very least, before he could truly see the true strength of Tian Xing Dao, he could not rashly fall out with this legendary figure.

At the thought of this, Zheng dongjue immediately went forward to congratulate him with a face full of joy."Elder Tian, your recovery is like a flood Dragon entering the sea or a Tiger returning to the forest. It's only a matter of time before you recover your former glory. It's truly worthy of celebration!"

Tian xingdao smiled."Vice Pavilion master Zheng, you're overpraising me. Whether I was glorious or not, that's all in the past. To me, I've started everything from scratch."

At this moment, Hou Guanqi and Cai Zhongyang came over from afar. Zheng Dongjue saw them and said, "Little Hou, Elder Tian's recovery is such a joyous matter. Why don't you quickly think of a way to tell Hall Master Zhang?"

This was a test. Zheng Dongjue had never been willing to be under anyone, but he didn't even have the courage to go against Zhang Liju, let alone the ability. The only chance he could take advantage of was that Zhang Liju wasn't around.

But even so, he only dared to play some small tricks. He was afraid that these registered disciples had some secret method to contact Zhang Liju. Otherwise, if he was caught red-handed by Zhang Liju, he would be dead.

Hou Guanqi answered without any hesitation, "Vice head Zheng, my master, the divine Dragon, is elusive. It won't be easy to find him. However, I'll try my best to send out the news. He'll naturally return when he receives it."

Zheng Dongjue nodded and looked at Lin Yi, "This must be Apothecary Lin, right? Since you've cured our Elder Tian's injuries, you're the great benefactor of our Pill Hall. If you have any requests, we'll absolutely not shirk our responsibility!"

The words were impassioned, but Lin Yi could hear the perfunctory tone in them. He smiled faintly, "If there's such a need in the future, I will definitely not be polite. However, I'm only a rogue cultivator right now. Following Senior Cai is already a rare learning and experience for me."

"Is that so? To be able to cure a terminal illness like Elder Tian, if word of this gets out, it would be a world-shaking event. Aren't you being a little too modest with your words, Apothecary Lin?" Zheng Dongjue narrowed his eyes and said with fake admiration.

"I wouldn't dare. I'm just telling the truth. I really want to learn something from senior Cai." Lin Yi said indifferently.

Zheng dongjue sized Lin Yi up once more after hearing that. This guy looked normal and was unbelievably young-he didn't sound like a powerful apothecary at all.

From what Zheng dongjue could see, this Lin Yi must've just happened to have the prescription to treat Tianxing's injuries, and that was how he managed to cure him. If his medical skills were as good as Zhang Liju 's, he would've been famous on the five islands already, and he wouldn't need to learn from Cai Zhongyang. He wasn't a powerful person.

After coming to this conclusion, Zheng dongjue didn't put Lin Yi in his eyes anymore. He couldn't be bothered to pay attention to this country bumpkin who popped out of nowhere. He said faintly,"In that case, Xiao Cai, please take care of this pharmacist Lin for me. Take him to eat something to express my gratitude. I still have something to do, so I won't be accompanying you. The rest of you, don't crowd around here. Don't you have to work?"

With that, Zheng dongjue put his hands behind his back like an expert and left with Zheng tianchu. The rest of the disciples of the alchemy Hall also dispersed.

Heh, this old man was quite pretentious! Lin Yi and Tianxing looked at each other, their eyes full of mockery.

He'd been on Sky Class Island for quite a while now, and he'd seen quite a few big shots-whether it was Shangguan Tianhua from the North Island, or Tian xingdao right in front of him, their auras were all

naturally enough to make people respect them. Only this vice Hall leader Zheng had that bit of air he put on, and no matter where he went, he always acted like a villain, and that really made people speechless.

"Since the master has spoken, elder Tian, Lin Yi, shall we go out for a meal?" Hou guanqi laughed.

"That's good. I was just thinking of going out for a walk. Let's go outside and find a place." Tian xingdao nodded and smiled.

"Then let's go to the five elements Chamber of Commerce. There won't be too many people around, so we can talk without worry." Cai Zhongyang suggested.

He was thinking that they'd definitely bring Tianjie along if they went out for dinner. Although Tianjie was Tianxing's sister, and no one would say anything if they brought her out for dinner, her relationship with Lin Yi still couldn't be exposed yet. They still had to be careful.

Chapter 4116 Establishing His Own Sect

Lin Yi and the others didn't mind at all-they got the car ready and went out.

On the other side, after Zheng dongjue brought Zheng Tianran to a secluded place with no one around, he suddenly stopped and said in a dignified tone, ""Chu 'er, do you have any thoughts about Tian Huan?"

Zheng tianchu was shocked and his face turned pale. It was a big crime to covet his brother and sister-in-law. He quickly begged for mercy, ""Grandpa, I know I was wrong. I was just blinded by greed for a moment. I won't dare to do it again!"

"You don't dare? Why wouldn't he dare? Since I've chosen you as my successor, all of this will be yours in the future. She's just a woman, what's there to be afraid of?" Zheng dongjue's tone changed.

"Ah? Grandpa, what do you mean?" Zheng tianchu was stunned.

"Don't you understand? you are my grandson. No matter if you are interested in Tian Huan or not, I will not stop you. " Zheng dongjue said as he patted his shoulder.

Zheng tianchu was overjoyed when he heard this. He really did not expect Zheng dongjue to have such an attitude. However, after thinking about it carefully, strength was King in the world of cultivation. He was going to inherit the Zheng family's Big Shot in the future. It was just coveting a Tian Ji. It did not seem to be a big deal.

"However, don't provoke her for the time being. That Tianxing was a tyrannical and troublesome existence in the middle Island back then. You can't act rashly before you find out whether his strength has fully recovered. As for the matter of Tian Ji, I will find a way to fulfill your wish later. Do you understand?" Zheng dongjue reminded.

"Yes, yes, grandson understands. In the future, I will follow grandfather's orders." Zheng tianchu nodded repeatedly, overjoyed.

Lin Yi and the others sat together in a quiet room of the five elements Chamber of Commerce. Since there were no outsiders, Lin Yi could sit with Tian Xing without worry. On his other side was Tian Xing, and opposite him were hou guanqi and Cai Zhongyang.

Lin Yi wanted to call Xue Li over, but he found her in closed door cultivation when he walked to the door. He didn't want to disturb her. These people were here anyway, so he could introduce them later.

The food and wine were ready, and Tian xingdao raised his glass to Lin Yi, "Lin Yi Lil" bro, since you're Dao partners with my sister, I'll call you Lil "bro."

"Elder Tian, you're my senior, I'm not worthy of that title." Lin Yi jumped.

"If I say you deserve it, then you deserve it!" Tianxing waved his hand dismissively. "You've cured my terminal illness. I owe you a great favor. Without you, I would still be a cripple. So, I'm only your big brother now because of Tian Gang."

Lin Yi nodded with a smile, not saying anything else. After all, the world of practicing respected the strong-age didn't matter, strength and ability were.

At this time, Cai Zhongyang also raised his glass and toasted Lin Yi, pretending to complain, "Speaking of which, Lin shaoxia, you're not kind at all. You have such brilliant medical skills, but you didn't tell us anything. We were worried about you for nothing ..."

"That's right, Lin Yi, you've really tricked us!" Hou guanqi laughed.

Lin Yi couldn't help but smile, "I've always known medicine, I've known it since I was in the common world. It's just that I didn't see Tian bro's injury before, so I wasn't confident. I only dared to try it after I saw it. I didn't mean to hide it from you two."

"Oh? Didn't you guys know that Lin Yi lil bro's medical skills were profound? Then why did you ask him to treat my injuries?" Tian xingdao was shocked.

Cai Zhongyang and hou guanqi looked at each other and explained, "Sky elder, young hero Lin only went to the pill Hall to see Tian Gang. As for the medicine master treating you, it was just an excuse. Who knew that he would actually be able to heal you.

Tian xingdao laughed and patted Lin Yi's shoulder, "This is fate! Come, come, come, for the sake of fate, let's have a toast!"

The few of them were friends, and they gathered together to drink and chat. Naturally, they were in high spirits and had a great time.

But when they were almost done, Lin Yi was worried, "That Zheng tianchu is plotting against Xiaoyue. I'm a little worried about letting Xiaoyue stay in the pill Hall like this."

"Don't worry, I'm here. Tian Ji is my little sister. No matter how bold that brat is, he won't dare to do anything. " Tian xingdao patted his chest and said.

"It's easy to Dodge an open spear, but hard to defend against an arrow in the dark. This guy is obviously a sinister villain. With you around, brother Tian, he naturally wouldn't dare to come out in the open, but I'm afraid he'll play some tricks." Lin Yi said, shaking his head.

"That's right. Zheng tianchu is a very wretched person. Back when Zheng Tianjie was still alive, he didn't dare to be too arrogant, but he often did some wretched things. Now that he has Zheng dongjue's support, we must be careful. " Hou guanqi nodded in agreement.

With that said, Tianxing was put in a difficult position. Although he could observe the heavenly aura, he could not pay attention to it all the time. After all, he had just recovered from his injuries and needed time to recover his strength. He could not be out in the open all the time.

"With big brother Tian's face, can you bring Xiao Ling out to establish her own sect? At the very least, little Jun doesn't need to stay in the pill Hall?" Lin Yi suddenly asked.

Now that Zhang Liju wasn't here, Zheng dongjue could be said to have the power to cover the sky with one hand in the pill Hall. Even if Tian Dao said that he would protect Tian Gang, Tian Dao wasn't a member of the pill Hall. If Zheng dongjue really wanted to do something, the words of an outsider might not necessarily be of use.

The best way was naturally to get Tian Gang to leave the pill Hall as soon as possible. As long as he could come out and establish his own sect, Zheng dongjue would not be able to do anything. Moreover, if something really happened at that time, Tian Xing could also directly intervene without any scruples.

"It shouldn't be a problem. Since Tiangang is my sister, even that old man Zheng dongjue wouldn't dare to say anything if I brought her out. Just wait for my good news, Lin Yi lil bro!" Tian xingdao said after some thought.

Tian Xing was a man of Swift and decisive action. After making up his mind, he immediately took Tian Gang back to the pill Hall. After all, he was making decisions for Tian Gang. Even if Tian Xing came forward, Tian Gang himself still had to go back and express his position.

This big brother of his was quite confident! Lin Yi sighed. If it was someone else, they'd have to be mentally prepared and hesitate to deal with Zheng dongjue, the Vice head of the pill Hall.

The reason why Tian Xing Dao dared to be so hasty was precisely because of his powerful strength. At this stage, even if his strength had not fully recovered, he was still a legendary figure who could become the Deputy Island master of Nakajima. A mere Zheng dongjue was probably not even worth his attention.

Chapter 4117 The Two Women Meet

Tianxing left with Tian Gang, while hou guanqi and Cai Zhongyang continued to prepare for the auction. Lin Yi was left alone, and he returned to his room.

Sensing Lin Yi's return, Xue Li immediately stopped cultivating and came up to him, "How's Tian Huan?"

"Xue Li, don't worry, everything is going well." Lin Yi smiled and told her everything that had happened in the past two days.

After listening, Xue Li was not jealous. Instead, she sincerely thought for Tian Gang, "If Tianji can really move out of the pill Hall, that would be great. There's Zheng dongjue above to suppress her, and Zheng tianchu below to pester her. The pill Hall has already become a place of trouble for her. If she continues to stay there, something will happen sooner or later."

"That's right. That's why I asked brother Tian to talk about this." Lin Yi nodded in agreement. He looked at Xue Li up and down, and suddenly had an idea.

If Tian Gang could really come out and set up his own sect, it would be a good choice to let her be with Xue Li. After all, according to his previous consideration, it would be a very troublesome thing to bring Xue Li back to the North Island. And from Xue Li's performance, she did not reject Tian Gang. The two women should be able to get along.

However, it was just a sudden thought. It wasn't mature yet and he didn't know how to do it. Plus, he didn't even know if Tian Gang could escape successfully. At this stage, it was just a thought in his head and Lin Yi didn't say it out loud.

however, what lin yi didn't expect was that tianxing's efficiency was extremely high. he had just spoken to xue li, and the sky hadn't even turned dark yet, and tianxing had already returned with tian gang.

When the door opened, Tian Gang and Xue Li happened to see each other, and they suddenly sighed.

Before this, the two of them were teleported to Nakajima from the secular world. They knew each other, but they weren't too familiar with each other, nor did they have any obvious interactions. But now, the two of them were together because of Lin Yi, and meeting again felt like a reunion between sisters.

The two women's experiences had been full of ups and downs ever since they came to Sky Class Island, let alone when they were in the mortal world. One was forced by someone in the pill Hall, and the other was bullied in the snow sword sect. They were both in the same boat.

Because of Lin Yi, the two girls held hands and talked about their experiences on Sky Class Island. They had a common language, and their relationship quickly became closer. In a short while, the two girls were already sisters, and they were having a lot of fun.

"Lin Yi lil bro, you're so lucky to be able to have two people at the same time, you're the envy of everyone." Tian xingdao, who was watching this scene, laughed and teased.

He was Tiangang's brother, but Sky Class Island wasn't like the common world. As long as he was strong, it was normal for him to have a lot of women around him. He wouldn't be unhappy just because Lin Yi had another woman.

On the contrary, to people like him and hou guanqi, it would be weird if a genius like Lin Yi only had one partner.

Whether it was Tian Gang or Xue Li, they were both unparalleled beauties. For Lin Yi to be able to make both of them fall for him, it was a blessing indeed. Even Tianxing, who was a cultivation madman who pursued the heavenly Dao, couldn't help but sigh.

What he didn't know was that Lin Yi's other female friends were all as pretty as the two girls. When all of them were together, he'd be a true winner in life.

"It's my fortune to have met them in this life. " Lin Yi looked at the comforting scene and nodded emotionally.

He didn't expect the two girls to get along so well, but he could guess that the two of them were close because of their personalities, but there was also another reason-they were concerned about his feelings. After all, from Lin Yi's perspective, if the two of them were still fighting in this situation, he'd have a headache.

"Haha, but Lin Yi lil bro, I'll have to say something-it's enviable, but you can't just be jealous of a couple and not the immortal, and don't slack off on your training." Tian Xing Dao warned.

The village of beauties was a hero's grave. There were countless geniuses throughout the ages who wasted their talents in the village of beauties, eventually becoming ordinary people. Tianxing Dao truly treated Lin Yi as one of his own, and he didn't want to see this tragedy happen to Lin Yi.

"Don't worry, brother Tian. I know that strength is King. If I'm not strong enough, I won't be able to protect them no matter how many beauties I have. So, they are not obstacles to my cultivation. Instead, they are the driving force that keeps me advancing." Lin Yi said with a smile.

"That's true. The saying "femme fatale" is true. Their unparalleled beauty may be your fortune, but they're just like that Zheng tianchu. They'll always get into trouble. Only strength can truly protect them."
" Tian xingdao nodded.

"By the way, brother Tian, how did you get there so quickly? have you settled Zheng dongjue's side?" Lin Yi asked.

"Of course. If I, your older brother, were to personally take action, how would that old fogey Zheng dongjue dare to say no?" Tianxing laughed heartily."I've already seen it. That fellow is a typical bully who fears the strong. If I were to lower my voice and negotiate with him, he might just take advantage of me. But this time, when I went over and told him that Tian Ji is my sister, I wanted to take her out and establish her own sect. Guess what he did?"

"What's wrong?" Lin Yi asked curiously.

"That old man was scared by me on the spot. He held it in for a long time before saying that since this is elder Tian's family matter, it's natural for you to make the decision. Haha, just thinking about that ugly bitter face makes me laugh." Tian xingdao laughed.

"That vice clan master Zheng might not be able to figure out your strength for the time being, brother Tian, and he doesn't dare to rashly fall out with you, the legendary vice Island master of Nakajima. He has a stomach full of schemes and intrigues, but he doesn't have the guts to fall out with you, so he can only give in." Lin Yi smiled.

He'd only met him once, but Lin Yi could tell that someone like Zheng dongjue wasn't a pure master like the Tianxing sect. He was more like a sinister person who was used to playing with power. The longer he lived, the less courageous he became. It wasn't strange at all for him to be scared by the Tianxing sect's name.

Chapter 4118 The An Family's Island

"Hmph, an old man like Zheng dongjue has long lost his drive to improve. He can only stop here. There's no possibility of him advancing any further. Even if I haven't recovered my strength, I don't have to take a weakling like him seriously." Tian Xing's mouth twitched as he spoke. His words still could not hide the arrogance and overbearingness he had when he dominated the Sky Class Island.

"Hehe, but this kind of person can't do anything right, but he's good at ruining things. Even if he can't become a big problem, he's still a threat. Big brother Tian, it's better for you to be a little more careful." Lin Yi reminded.

"don't worry, lin yi lil bro, i know what i'm doing," tian xingdao smiled indifferently. he turned to the two girls who were having an intimate conversation and asked, ""by the way, how do you plan to settle them? are you going to stay in the five elements chamber of commerce forever?"

the five elements chamber of commerce was under cai zhongyang's protection, so it wasn't impossible for lin yi to continue staying here. however, tianxing could tell that it wasn't lin yi's style to rely on others. besides, the five elements chamber of commerce was still a part of the pill hall, and this would go against tian gang's original intention of setting up his own sect.

"i'm also thinking about this. do you have any good suggestions, brother tian?" lin yi asked.

"If you want to take them to the middle Island, there are only two choices. One is to join a sect, and the other is to establish your own sect. But you don't even consider the pill Hall. I don't think you have any intention of joining a sect, right?" Tian xingdao asked.

"Of course, Tian Gang and Xue Li have been bullied and oppressed in their own sects. If they join another sect, it's hard to guarantee that this kind of thing won't happen again. So I can only choose the latter." Lin Yi nodded.

"If that's the case, Lin Yi Lil" bro, you can consider starting a small business. It's hard for normal people to establish themselves in the central island, but you have US backing you up, so you're not without a background. If it's just a small business, it shouldn't be a problem for you to gain a foothold. " Tian xingdao suggested.

"that's possible. " lin yi's eyes lit up-not only would he be able to settle the two girls down, but he'd also be able to earn some spiritual jade, killing two birds with one stone. he pinched his chin and pondered,"but, what kind of business should i do?"

"the two most popular products on sky class island are pills and natural treasures. the latter one is very dependent on the supply route, and it won't be easy to get on the right track in a short time. pills, on the other hand, are definitely in short supply. and tian ji happens to be a refiner, so if you need it, you can get it from xiao cai. i think it's a good way." tian xingdao analyzed for him.

the reason why the pill hall of Nakajima could have such a transcendent position and why the five elements chamber of commerce could sit firmly on the throne of the merchant union was all because of the huge influence of the elixir.

Looking at the five big islands of the Sky Class, this was a more reliable hard currency than spiritual Jade. No one would complain about having too many elixirs, especially the high-quality ones.

"If that's the case, we can really open a shop that specializes in selling medicinal pills!" The more Lin Yi thought about it, the more he felt that this road was reliable. If he really wanted to drive it, he didn't even need to go to Cai Zhongyang to buy it. It wasn't just Tian Gang who was an elixir master, Lin Yi himself was an elixir master as well, and the quality of the elixir would be top notch.

When the time came, he'd get Tian Gang to make some common elixirs, and Lin Yi himself would make some top quality elixirs for the show-it should be enough for the shop.

Tian Gang and Xue Li heard Lin Yi and Tian Xing's conversation and came over, nodding in agreement, "Sure, let's open an elixir store together. That's a good idea!"

"Since both of you agree, then it's decided." Lin Yi wasn't one to drag things out, and he made a decision immediately, "However, if you want to open an elixir store, the first thing you have to solve is the storefront problem."

The location of a shop often directly determined the level of business. However, in the domineering Nakajima, it was as difficult as ascending to the sky for ordinary people to get a shop in a good location. If they did not have a strong background and backing, it was purely wishful thinking.

"A shop isn't a problem, I'll go ask an old friend for help. It's just a matter of a word-Lin Yi lil bro, you just need to look for a good location first." Tian xingdao patted his chest and said. He was the Deputy Island master of Nakajima. Even if he had been injured for so many years, his influence was still there. Moreover, his injuries had already recovered.

Hou guanqi and Cai Zhongyang just came back from work at the same time, and they agreed to Lin Yi's idea of opening an elixir store.

"Lin shaoxia, you don't have to look for a location. I have a ready-made shop." Cai Zhongyang suddenly said.

"A ready-made shop?" Lin Yi and the others were surprised, "Senior Cai, you don't want me to open it in the five elements Chamber of Commerce, right?"

"How is that possible? With the five elements Chamber of Commerce's influence, Lin shaoxia, you won't be able to attract many customers even if you were to open it on this Street, let alone here. " Cai Zhongyang shook his head and laughed.

The five elements Chamber of Commerce had the support of the central island pill Hall, and it was the undisputed number one Chamber of Commerce just by relying on the pill business. If Lin Yi really expanded his pill business beside it, he probably wouldn't have any business at all.

"Where is that place?" Lin Yi asked.

"that shop isn't too far from here, only four streets away. although the location isn't very prosperous, it's still quite good." cai zhongyang explained, "it used to be a weapon shop, but because of poor management, the boss can't make ends meet. i've met him a few times, so i wanted to buy it and open a small clinic. however, i've been busy preparing for the auction and have no time to take care of it. now, i can ask him to transfer it to you."

"this ... isn't this stealing someone's beauty?" lin yi hesitated.

"hey, lin shaoxia, you're overthinking it. i'm the deputy manager of the five elements chamber of commerce after all. opening a medical hall is just my personal hobby. this idea was just on a whim. if i really did it, i'd have to think about whether people would gossip about me." cai zhongyang waved his hand and laughed.

"lin yi, you don't have to hesitate anymore-he doesn't have the time to open a small clinic. it's better not to let the benefits flow into other people's fields. my junior brother cai doesn't care much about business, but that's just because he's not interested. he has high standards when it comes to doing business, and even master praised him in front of him. if the shop can catch his eye, it can't be wrong." hou guanqi said with a smile.

Chapter 4119 The Heavenly Elixir Pavilion

"since that's the case, then i'll have to thank both seniors." lin yi said, not hesitating.

"it's not too late now. why don't we go and take a look at the shop?" cai zhongyang suggested.

"that's what i was thinking. " lin yi nodded happily and turned to warn, "xue li, xiao ling, you two can stay here and talk. we'll be back soon."

"Alright," he said. Xue Li and Tian Gang agreed in unison. Neither of them was suitable to show their faces in public, especially Xue Li, who was previously wanted on the streets, so it was even more difficult for her to go out.

Lin Yi and the others immediately set off, and Cai Zhongyang led them to the shop they had chosen. It was as he said-this location was a little worse than the five elements Chamber of Commerce, but it was still very crowded.

The only regret was that the shop wasn't very big, but Lin Yi was only planning on running a small business with the girls anyway. It'd be hard to manage a big shop, but this one was enough for them.

After looking around, Lin Yi was very satisfied and decided to buy it on the spot. Because of Cai Zhongyang's help, the original owner didn't ask for a high transfer price, but gave a very low friendship price. Even so, it still cost ten thousand spiritual jades.

Cai Zhongyang wanted to pay for Lin Yi as well. Ten thousand spiritual jades was an astronomical figure to normal people, but as the assistant manager of the five elements Chamber of Commerce, this amount of spiritual jades was nothing to him. He didn't expect Lin Yi to take out a spiritual Jade card and pay on the spot without hesitation.

This scene shocked everyone for a while. They already knew that Lin Yi was a disciple of one of the three pavilions, but who would've thought that a mere disciple of one of the three pavilions would have so many spirit jades?

Only Tian Xing laughed as he patted Lin Yi's shoulder. Lin Yi was an extraordinary man, after all.

After deciding on the shop, the next thing to do was to find someone to renovate it and change it to a style that was suitable for the elixir store. This matter was reserved by Cai Zhongyang. As the deputy manager of the five elements Chamber of Commerce, he was the only one with experience among the people present. He was the most suitable person to take care of it.

The renovation would take at least three days, and Lin Yi could use that time to prepare the pills. Although Cai Zhongyang said that he could supply him at a low price, Lin Yi didn't want to ruin his reputation and principles because of him.

Plus, Lin Yi and Tian Gang were two refiners here. They didn't need ready-made pills, they just needed ready-made ingredients. For this, hou guanqi just needed to ask the pill Hall and he could get it easily.

After everyone left, Lin Yi went back to his room. Tian Gang and Xue Li came up to him and asked, ""How is it? Is the shop ideal?"

"It's very good. I've already bought it. " "Right, how's your skill, flamy?" Lin Yi nodded.

"With my current level, I can only make fourth-grade pills at most. I can basically guarantee the success rate, but I can't guarantee the color. However, I can make third-grade and below pills without any problem." Tian Gang replied.

Lin Yi was silent for a moment. Cai Zhongyang had told him that no one would buy any pills below level three on the market. Level four and level five pills were popular here, and even level six and Level Seven pills were available. If you wanted to open a pill shop that could compete, you had to sell at least level three pills. This was the bottom line.

"How about this, little Jun, you will be in charge of refining third and fourth ranked pills, and I will be in charge of refining fourth ranked pills and above. In these three days, we will try to refine as many pills as possible." Lin Yi decided.

Up until now, the highest level Lin Yi had successfully made was fourth class. He'd definitely try fifth class or even higher in the future, but it seemed like he'd have to focus on fourth class for now.

"Alright, I'll listen to you." Tian Gang happily nodded.

"What about me? What should I do?" Xue Li asked. She wasn't a refiner like Tian Ji and couldn't help Lin Yi much. She felt like she was a little useless.

"Xue Li, you should rest up first. After the opening, you'll be the lady boss of the front desk. You'll have time to be busy." Lin Yi joked.

"Alright, then." Hearing the word "lady boss," Xue Li's face blushed and she lowered her head without speaking.

Lin Yi and tianshuo smiled. Hou guanqi had already sent the ingredients over. The two took out their furnaces and started making elixirs.

This was the first time they'd seen Lin Yi's unique looking Shennong medicine cauldron, and both Xue Li and Tian Shuo were extremely surprised. The fusion of modern technology and Alchemy technology had

opened their eyes. It could refine pills on its own-it was a godly tool for alchemy that they'd never heard of.

However, Lin Yi and the two girls couldn't help but sigh when they thought about the missing Han Jingjing, praying that she wouldn't be bullied like the two girls.

Three days wasn't exactly a long time, but it wasn't exactly a short time either. When Lin Yi put all his focus on making elixirs and used it with the Shennong medicine cauldron, his efficiency was shocking.

Just like last time on the northernmost Island, Lin Yi made a total of 120 fourth-grade elixirs in three days. They were all the recipes that Hong Zhong gave him, and the most important thing was that they were all of the highest quality.

In comparison, Tian Huan's pill refining results in the past three days could only be considered average. Thirty medium quality fourth ranked pills, thirty high quality third ranked pills. Of course, many of these were her previous reserves. She didn't have the Shennong medicine cauldron, so it was impossible for her to refine too quickly.

The combined results of the two of them amounted to a total of 180 elixirs. Although the number was far from enough for a big Chamber of Commerce like the Five Elements Chamber of Commerce, it was enough for a newly opened small elixir store to last for a while.

The pills were ready, and Cai Zhongyang had already found someone to renovate the shop. Lin Yi didn't plan on picking an auspicious day-he decided to open the shop right away after some simple preparations.

the name of the shop was sky elixir pavilion-lin yi gave it his own name, and he even got the vice-master of nakajima to write the name himself. he wasn't a great calligrapher, but the strokes on the board were like dragons and snakes, giving shang ping an extraordinary aura.

Lin Yi didn't have any intention of keeping anything to himself after opening the shop. He put all 180 pills he and Tian Gang had made in the past few days on display, and in order to attract customers, he'd set the prices at least ten percent lower than the other shops.

Chapter 4120 Looking For You To Cooperate

even though the pills were only of the fourth and third grade, with so many superior-grade pills and their prices being much cheaper than the other stores, the heavenly pill pavilion's opening attracted many passersby.

"hey, hey, am i seeing things? why are there so many supreme-grade pills?" someone came in and took a glance. he couldn't help but be dumbfounded.

"that's right, that's right. this heavenly pill pavilion doesn't look that impressive, and the pills on display aren't that high-grade either, but more than half of them are rare, top-grade pills. i don't think the five elements chamber of commerce is that exaggerated, right? it can't be fake, right?" the people around him were shocked and suspicious.

"Fake? You're ignorant and you call others fake. You have the nerve to come to our Nakajima and make a fool of yourself? This quality and color, which part of it can you tell that it's fake?" Someone immediately retorted.

"It's indeed not fake. I'm a professional elixir appraiser, and I've seen at least a few hundred, if not thousands of elixirs. However, this heavenly elixir Pavilion is just a small shop with only a few waiters, but the quality of the elixirs is not inferior to that of the five elements Chamber of Commerce. The other

Chambers of Commerce simply can't compare with it. This is really strange!" An old man in the crowd said with certainty.

"I dare to bet with you that the boss of this heavenly elixir Pavilion definitely has a deep background. Maybe some Big Shot from the pill Hall is controlling him from behind, which is why he can get so many Supreme-grade elixirs. Otherwise, there's no explanation at all!" Someone else said, attracting the attention of the crowd.

"Who cares? as long as it's really a Supreme-grade elixir, and the price is so cheap, if we don't hurry and grab it now, there might not be such good stuff later!"

Lin Yi and the others looked at the crowd-some people were even starting to rush over to buy it. They exchanged glances and let out a breath of relief. It was the first day of business, and it was a rare opening.

It wasn't strange for this to happen-it was the opening of a new shop, but the Sky Class Island, especially the middle Island, was filled with people with good taste. With so many top quality pills that couldn't be bought normally, and at a much lower price than other shops, it would be strange if they weren't tempted.

Business was booming, and Lin Yi and the others were naturally busy. Lin Yi personally went up to be the manager, and tianshuo followed by his side to help. As for Xue Li, she specially changed into a female uniform and covered her face with a veil, and was busy working as a waiter.

Hiring beautiful women to be their maids was a method used by many large Chambers of Commerce. Not only could it attract customers, but it was also easier to do business with male customers. After all, few men were willing to lose face in front of beautiful women, so Xue Li's appearance did not cause much suspicion.

Even if there were people who were confused as to why she was wearing a veil, they would only think that the heavenly elixir Pavilion was trying to attract customers by deliberately creating a sense of mystery.

In addition, she was very careful and never showed her beauty in front of customers when she did things. Even if someone was stunned by her and Tian Ji, it was only to relieve their envy for the time being. They did not attract the expected trouble. After all, these people had come in for the medicinal pills, and normally, they would not stare at the maid.

Lin Yi couldn't help but be happy as he watched the spiritual jades increase. If this continued, the heavenly elixir Pavilion would be on the right track very soon, and this would be the foundation for them to establish themselves in the middle Island in the future.

At this moment, a well-dressed middle-aged man suddenly came in through the door, with two underlings behind him. They were both burly men, showing off their cultivation of the Golden core stage. After a fierce face of pushing and scolding, the crowd did not want to cause trouble and immediately made way for an open space.

"Oh, heavenly elixir Pavilion? What a big tone! "Such a small shop, and you dare to call it a Pavilion? there are so many ignorant and fearless people these days. Aren't you afraid of being laughed at? but this business is not bad ..." The middle-aged man said in a strange tone.

The crowd quieted down a bit, their gazes shifting between Lin Yi and the man, unconsciously looking at them as if they were watching a show. From the man's tone, it was clear that he didn't come with good intentions.

Lin Yi looked at him coldly, a fire rising in his heart, but he quickly suppressed it.

He had been mentally prepared for this kind of thing long before the opening. As the saying goes, open the door to welcome guests from all over the world. No matter what kind of guests you meet, there will be easy to serve, and naturally, there will be difficult to serve. Especially when he was unfamiliar with the people and the place, the first day of the opening would not be so smooth and peaceful.

Lin Yi told himself that he had to learn from Hong Zhong-he had to be patient in everything, and he couldn't let his emotions get the better of him. It'd be hard for this business to last otherwise.

The middle-aged man's tone became even weirder when Lin Yi ignored him, "I've been here for so long, but no one has come to greet me. How can a shop like this open and do business? Hmph, even the big merchant associations aren't so arrogant. Such a small and broken shop, yet not only does it have such big words, but it also has such a big presence. I really don't know where it got its confidence from, it makes me speechless. "

For a moment, the crowd, who had been busy buying, stopped their movements and focused their eyes on the well-dressed middle-aged man. They were discussing in low voices.

Xue Li didn't want to put Lin Yi in a difficult position, so she decided to go up and greet him. She didn't want to do any business with this man, but as long as he didn't affect other customers, she'd be grateful.

However, Lin Yi pulled her back and walked to the middle-aged man. He could tell that this man didn't come with good intentions. He wouldn't be easy to get rid of.

"it's a small business, so it's inevitable that i've not served you well. please forgive me. what would you like to buy?" lin yi looked at the man and asked.

"what do you want to buy? do you really think i'm here to buy something? with such poor eyesight, you have the nerve to open a pill shop here?" the man laughed coldly as he looked lin yi up and down, his face proud."listen up, i am diao huanshan, the assistant manager of the famous medicine sect. i heard from my subordinates that a new elixir store has opened here, so i came here personally to see if there is any way we can cooperate."

So they were of the same profession! Lin Yi understood immediately-this guy didn't come with good intentions, and his so-called cooperation wasn't anything good.

"So it's shopkeeper Diao from the famous medicine sect. I've been disrespectful, but my heavenly pill Pavilion is opening a new store and our business is small and weak. I'm afraid there's no good business cooperation with a large Chamber of Commerce like your famous medicine sect, right?" Lin Yi replied faintly.
