

## Bodyguard 4121

### Chapter 4121 Demanding An Exorbitant Price

Diao Huanshan was taken aback. His originally arrogant expression was instantly replaced by a look of disbelief. The heavenly pill Pavilion was just a small shop that had just opened. According to his expectations and past experience, when he suddenly heard the name 'famous medicine sect', how could he not try to curry favor with them?

He had never thought that the other party would still dare to be so indifferent after he had revealed his name. He had already clearly said that he would give them a chance to cooperate, but not only was he not grateful, he was actually so unwilling. This was simply intolerable!

"Hmph, so you're saying that you don't intend to give face to my famous medicine sect, shopkeeper?" Diao Huanshan snorted coldly, his embarrassment turning into anger.

Lin Yi couldn't help but chuckle to himself-this guy wasn't even trying to bribe him, and he was just threatening him right away. This was the cooperation with the medicine sect-he'd already revealed his true colors so quickly.

"shopkeeper diao, since we are all businessmen, we should naturally focus on our business. whether it is about face or not, it should not be a matter for us businessmen to consider, right?" lin yi smiled nonchalantly, but didn't want to push the guy too hard after seeing his face, "that's enough. if you have any suggestions, you can just say it. "

diao huanshan couldn't help but look at lin yi in surprise. this kid looked young, but he was so smooth with his words. he took the initiative in the conversation with one sentence. he was an experienced man.

however, in the face of absolute strength, no matter how good your negotiation skills are, it's all in vain. you can only obediently follow my will and don't even think about escaping from my palm!

"shopkeeper, since you're running an elixir store here, you should know that this is nakajima square's territory, right?" diao huanshan narrowed his eyes and asked.

"of course. but so what?" lin yi looked at him and asked back. there were more than ten streets around here, including the five elements chamber of commerce area. they were all part of the nakajima district, which was several times bigger than the north island.

"Since you know that this is the Nakajima District, then have you never heard of the pill Alliance? All the merchants who sell elixirs in Nakajima District must unconditionally accept the management of the elixir Alliance. This is a rule that no one can break. " Diao Huanshan sneered.

"The pill Alliance?" Lin Yi blinked-he'd never heard of this before. He'd never heard Cai Zhongyang mention it in the past few days.

The opening of the new shop today meant that the people from Tianxing Dao, hou guanqi, and Cai Zhongyang were all here to support Lin Yi, but they weren't there yet, so Lin Yi couldn't find anyone to verify the authenticity of the rumors.

"What's wrong? From your expression, you don't seem to believe me?" Diao Huanshan sneered and turned to the crowd,""There should be some sensible people among you. You shouldn't be so ignorant that you haven't even heard of the pill Alliance, right?"

"I can prove this point. There is indeed a special elixir Alliance in the Nakajima District. The purpose of its existence is to monitor the quality of the elixirs of many merchants, so as to prevent the sale of fake elixirs to harm customers and affect the reputation of our Nakajima District. I am the elixir appraiser of the elixir Alliance." An old man in the crowd replied.

The rest of the people present nodded one after another. Even if they were not merchants, this was common knowledge. As long as they had stayed in Nakajima city for a period of time, they would naturally know.

"You won't doubt me anymore, right? You don't even know about the elixir Alliance and you dare to open an elixir store here. Shopkeeper, you are really fearless because you know nothing. " Diao Huanshan sneered.

"So what? The quality of my heavenly elixir Pavilion's elixirs is absolutely true and reliable. There are no fake elixirs at all, and we can accept the inspection of the elixir Alliance at any time. However, what does this have to do with the cooperation that manager Diao mentioned?" Lin Yi asked back without changing his expression.

"You can accept the inspection of the pill Alliance at any time? Do you even believe your own words?" Diao Huanshan laughed and whispered to Lin Yi, "Shopkeeper, don't be too full of yourself. We're out doing business, who doesn't know the rules of this place? As long as you put in the effort to investigate, there's no elixir store without any problems. Oh, by the way, our famous medicine sect is the managing Chamber of Commerce of the elixir Alliance this year. "

"What do you mean?" Lin Yi frowned.

"It's simple. All the examinations this year will be decided by the famous medicine sect. As long as we say you can do it, you can do it. But if we say you can't, Hmph Hmph, you can't do it. Do you understand what I mean now?" Diao Huanshan threatened with a proud look on his face.

"Does manager Diao mean that you want me to pay a protection fee to your famous medicine sect?" Lin Yi's face darkened.

Although there was absolutely no problem with his own elixir, if the other party really insisted that there was a problem in the name of the elixir Alliance, then even if he could prove his innocence later, at least his reputation would be ruined. This guy was a typical case of not being able to accomplish anything, but more than enough to ruin things. He really couldn't be ignored!

"Protection fee? No, no, no, we're the famous medicine sect, how could we do such a low and shameless thing like collecting protection fees!" Diao Huanshan shook his head and raised his eyebrows, ""Didn't I tell you from the start? I came to find you today to cooperate with you. "

"What kind of cooperation?" Lin Yi said without changing his expression.

"It's very simple. our famous medicine sect can provide you with some pills for you to distribute. this is a huge pie that has fallen from the sky. of course, as long as you choose to cooperate with us, you don't have to worry about the inspection of the pill alliance. " diao huanshan tempted.

he's using the pill alliance as a hostage to force the heavenly pill pavilion to distribute the goods for his famous medicine sect.

"in that case, manager diao, how much lower will the purchase price of the pills we help you distribute be compared to your normal selling price?" lin yi asked seriously.

"of course i'll pay you the normal price!" diao huanshan laughed when he saw lin yi's worried expression. he analyzed the situation, "shopkeeper, think about it. when business is bad, a small elixir store like yours can only survive on the northwest wind. but if business is good, it's easy for you to run out of stock. this is a very bad thing for your reputation. as long as you choose to cooperate with our famous medicine sect, you don't have to worry about this kind of risk. moreover, you can settle the inspection of the pill alliance. this is a great thing. don't you understand?"

"hehe, if we really do as you say, manager diao, then wouldn't the heavenly pill pavilion become a free distribution tool for the famous medicine sect? we wouldn't be able to earn a single profit from the beginning to the end. do you think this is a cooperation?" lin yi raised a brow.

Chapter 4122 Send You On Your Way

"Profit? How could there be no profit? Other than the pills our sect gives you, I didn't say that you can't sell your own pills. Of course, you'll have to split half of the profits with us. I'm sure you can understand this, right?" Diao Huanshan said with a proud smile.

Lin Yi laughed at the words-selling their medicine for free wasn't going to earn him a single cent, and he even wanted a share of the profits-it was a rare sight to see someone this shameless.

"oh, i understand now. i'm sorry, but i can't accept this kind of cooperation manager diao is talking about. please leave, manager diao," lin yi said indifferently, making a hand gesture for them to leave.

lin yi didn't take the threat of the pill alliance's inspection to heart. there was nothing wrong with his pill anyway, and they couldn't just make something up no matter how they checked. besides, if something really happened, cai zhongyang and the others wouldn't just stand by.

as the deputy manager of the five elements chamber of commerce, cai zhongyang's position and power of speech couldn't be inferior to him, the deputy manager of the famous medicine sect. moreover, he had the legendary god of the tian xing path behind him.

"What?" Diao Huanshan thought that Lin Yi had come to terms with reality and could only endure the humiliation without any resistance. He didn't expect Lin Yi to be so tough all of a sudden, and he was both shocked and angry.

"I won't work with your famous medicine sect. Manager Diao, you can go back now. Do you understand?" Lin Yi repeated indifferently.

"Good, good! You'd better think it through. If you don't cooperate with our famous medicine sect, don't even think about running your business in peace. I'll make sure you'll never have a place to stand in Nakajima city!" Diao Huanshan said ruthlessly, his embarrassment turning into anger.

He didn't even try to hide it, and all the customers in the shop were stunned. They looked at each other, and then looked at Lin Yi with sympathy.

Lin Yi's eyes turned cold, but before he could say anything, a cold voice came from the door. "I haven't been out for a few years, so I didn't know when Nakajima became a place where people bullied and dominated the market. Do you really need to be at the mercy of others when doing business in Nakajima District?"

Tian Xing Dao strode in with his head held high. Diao Huanshan was stunned when he saw this. He subconsciously felt that this person looked familiar, but he couldn't remember who he was at the moment. However, he had long since determined that a small shop like the heaven elixir Pavilion

couldn't have a strong background. Even if they did, it would definitely not be comparable to his famous medicine sect.

He didn't know where this mountain cannon had come from, but he dared to speak to him, the assistant manager of the famous medicine sect, in such a manner. Diao Huanshan naturally wouldn't let this matter rest. He immediately snorted coldly and said, "Hmph, this isn't called bullying the market, but a joint cooperation. But if you insist on saying that this is bullying the market and turning black into white, then I can't do anything about it. After all, your mouth is your own, and I don't have to rush to clean up your mess."

Diao Huanshan had nothing to fear. He was still proud of his sharp eloquence. Suddenly, he heard someone in the crowd say in surprise, "'Eh? Isn't this the heavenly vice Island master?"

"Oh right, I was fortunate enough to see him many years ago. It seems that he is really the heavenly vice Island master?"

"It can't be. Didn't the rumors say that the heavenly vice Island master had fallen into Qi deviation and that his meridians had been cut off? how could he be standing here?"

"Yeah, it's said that he hasn't appeared in public for many years. It can't be him, right?"

Tian xingdao did not pay attention to the suspicions of the crowd. He only looked at Diao Huanshan coldly and waved his hand. A cold and overbearing true energy burst out in an instant. Diao Huanshan did not even have time to react. He felt his body shake and his entire body was suddenly blown away.

"Since they don't want to cooperate, I'll send you on your way, so you don't dirty the heavenly elixir Pavilion." Tian xingdao said coldly. At his level, he didn't want to waste his breath on this kind of person. Since this evil dog had come to his door, he would just beat it out.

bang! bang! diao huanshan fell heavily on the street, sprawled out on the ground. he saw stars and could not get up for a long time.

the two burly men who came with him immediately looked ferocious and wanted to attack tian xingdao. however, tian xingdao only gave them a simple look and the two of them were so scared that they almost peed their pants. they were covered in cold sweat and did not dare to move.

tian xing did not deal any heavy blows. although diao huanshan had fallen miserably, his injuries were not serious. he looked up and down at tian xing in shock.

a moment later, diao huanshan suddenly quivered and finally realized that the person in front of him was actually the legendary figure who had once dominated the middle island. he was the only one in history who could become the vice-island master in the yuanying stage. he was the one who killed those of a higher level in seconds as if it was a common occurrence. he was so powerful that he had already disdained the heavenly dao!

In an instant, Diao Huanshan, like his two underlings, was so scared that he peed his pants. He had just spoken so rudely to Tian Xing Dao. What the hell had he encountered today?

Diao Huanshan was shocked and terrified. He knew that he had made a big mistake, but he didn't know how to remedy it. Then, Tian xingdao continued, ""Today is the grand opening day of my sister's heavenly pill Pavilion, so I don't want to start a massacre. I hope that some of you will know your place and not come here looking for trouble. Otherwise, I don't mind moving my hands and feet."

As soon as he said that, the crowd started to discuss. Even those who had doubts could now confirm that this man was the legendary Tian xingdao.

A small heavenly elixir Pavilion actually had such a strong background. Even if some people guessed that it had a strong background, they would never have thought that it was actually opened by the younger sister of the Vice-Island master of Nakashi Island. This background was simply too strong!

As for Diao Huanshan, who had been blown out of the door, he was so scared that he peed his pants. He did not dare to stay in this place any longer and quickly ran for his life.

The unexpected appearance of Tian Xing Dao immediately set off a frenzy among the people present. Even on the Sky Class Island, people paid attention to the effect of celebrities. Tian Xing Dao was a typical living signboard. With his reputation as the Vice Island master of Nakajima as a guarantee, everyone was more assured of the quality of the pills.

More and more customers came after hearing the news. In less than a day, the pills on the display shelves were constantly being snapped up by people.

Another benefit of Tianxing's fame was that people who had other ideas would not dare to have any more crooked ideas. Even if these people coveted the beauty of Tian Ji and Xue Li, they would not dare to cause trouble in the shop.

heaven's will. in the past, he was a ruthless man who killed decisively. he even killed super masters above the yuanying stage. he was absolutely fierce. no matter how bold people were, they would not dare to provoke the people in his sister's shop!

Chapter 4123 Good Luck

On the first day of business, more than half of the 180 pills he'd prepared were sold, and the sales reached an absurd six-figure figure! Even Lin Yi himself didn't expect this result!

After all, this wasn't an auction, this was just a normal small shop. No one would be stupid enough to give such a high price, and Lin Yi even lowered the price himself. The first day's sales reached six figures, and this was already very shocking. Even many big Chambers of Commerce couldn't compare to this.

Of course, Tian xingdao had a part to play in this. If it wasn't for the fact that his appearance had triggered a rush to buy the items and that his existence had attracted more and more customers, the sales would have been reduced by more than half.

Six figures in sales on the first day-Lin Yi and the others were just surprised, but Cai Zhongyang, a professional in the industry, almost couldn't catch his breath. He was so shocked that he couldn't speak for a long time.

"Young hero Lin, do you know how much sales we made on the first day of our opening with the strong backing of the Nakajima pill Hall?" Cai Zhongyang said with a strange expression.

"How much?" Lin Yi and the others were curious. The five elements Chamber of Commerce was the number one Chamber of Commerce without a doubt. Their numbers could be considered the highest in the industry.

"Ninety-six thousand spirit Jade." Cai Zhongyang laughed bitterly. "From what I know, they've already left all the other top Chambers of Commerce far behind. It's an unprecedented record. However, compared to your heavenly elixir Pavilion, tsk tsk ..."

Lin Yi and the others looked at each other. Creating the heavenly elixir Pavilion to buy elixirs was just an idea on the spot, so Tian Gang and Xue Li could have a place in Middle Island.

However, they didn't expect that they would lose to a giant like the five elements Chamber of Commerce. If it wasn't for Cai Zhongyang, the deputy manager of the five elements Chamber of Commerce, no one would believe it.

"Lin Yi lil bro, you're a genius, is it weird that you can beat the five elements Chamber of Commerce? Although your master, old man Zhang, is also an unreasonable freak, he really isn't cut out for business. If it wasn't for the fact that he established the pill Hall in advance and made a name for himself, I'm afraid that your five elements Chamber of Commerce wouldn't even be able to earn a fraction of this heavenly pill Pavilion's money on the first day of its opening. " Tian xingdao laughed out loud.

"That's indeed the case. Although the grade isn't high, there are so many Supreme grade pills. It's not surprising to sell this number. " Hou guanqi nodded and asked curiously, ""Right, Lin Yi, where did you get these pills from?"

"Yeah, I've been meaning to ask you the same question. At the auction on the northernmost Island, Hong Zhong was forced into a corner by a joint attack, but he suddenly took out more than 100 Supreme-grade pills. It's been a legend in the industry. Could it be related to you, Lin shaoxia?" Cai Zhongyang was also curious.

They couldn't be blamed for being so curious. Outsiders might just be surprised. They would think that Nakajima's pill Hall also had such strength, but they didn't usually show it. But as Zhang Liju's in-name disciples, the core figures of the pill Hall, they knew this much better than outsiders.

Unless Zhang Liju made it himself, it would be hard to come up with so many Supreme-grade pills in a short time, even with the power of the entire Nakajima pill Hall, unless they used the strategic reserve warehouse.

"To be honest with the two seniors, I'm also an Alchemist, and I refined these pills myself." Lin Yi said with a smile.

"Ah? Is that true?" Hou guanqi and Cai Zhongyang looked at each other and said in shock, ""Lin shaoxia, are you really an Alchemist? He was actually an Alchemist who could refine a large number of Supreme-grade medicinal pills? Furthermore, you have such superb medical skills. Do we all have reason to suspect that you are our master in disguise?"

Even in the hall of dan where all the top-tier refiners were gathered, it was rare for someone to be able to make a high quality pill. Someone like Lin Yi, who was both a doctor and a refiner, seemed to be the only one in the world who could do this.

"Haha, Xiao Hou, Xiao Cai, you two have sharp eyes! Come, come, come, hurry up and kowtow and call me master!" Tian xingdao laughed and teased.

"Hehe, I don't think it's master himself, but a disciple that master took in from outside, right? Other than master, I can't think of anyone else who can raise a genius like Lin Yi!" Hou guanqi also laughed.

Lin Yi couldn't help but smile-it seemed like guanqi was right on the mark, but he couldn't admit it before he met Liju's master.

After a while, Cai Zhongyang suddenly remembered what happened during the day and asked, ""I heard that Diao Huanshan from the medicine sect came to make trouble?"

He and Hou Guanqi had been busy with the preparations for the auction, and had only come to support them in the afternoon. They had not bumped into Diao Huanshan. Otherwise, with their status, Diao Huanshan would have definitely recognized them if they had been present, and there would not have been such a storm in the day.

"That's right. He threatened me with the inspection of the pill Alliance and demanded that I distribute the pills of the famous medicine sect for free. He also wanted to take half of our profits." Lin Yi frowned a little. "Elder Cai, how much power does the elixir Alliance have? if they make trouble, will it affect the business of the heavenly elixir Pavilion? or even close the heavenly elixir Pavilion?"

"If it's just an ordinary small elixir store without a strong background, the elixir Alliance does have the right to force it to close down. But don't worry, Lin Shaoxia. With me here, you don't have to worry about the elixir Alliance at all. Just treat it as a fart." Cai Zhongyang pouted his lips in disdain.

"In that case, the five elements Chamber of Commerce's words should have enormous weight in the elixir Alliance, right?" Lin Yi asked.

With Tian Xingdao's guarantee, he was not worried about this matter at all. Any wise man with a normal mind would not forcefully offend a legendary master like the Deputy Island master for his own small elixir store. This was simply not in line with the logic of a businessman.

However, although Tianxing's protective umbrella was strong, he was not an expert in the industry after all. He was certainly not clear about the twists and turns in this matter. If the other party did not provoke him openly but backstabbed him in the dark, even Tianxing would not be able to help. In fact,

Cai Zhongyang, the deputy manager of the five elements Chamber of Commerce, would be more intimidating.

#### Chapter 4124 Refining A Fifth-Grade Pill

"On the contrary, our five elements Chamber of Commerce has nothing to do with the elixir Alliance." Cai Zhongyang shook his head.

"Gah?" "Huh?" Lin Yi was stunned, "didn't they say that all the businesses selling pills in the market have to be under the supervision of the pill Alliance?"

"In theory, that's true, but our five elements Chamber of Commerce is an exception. Young hero Lin, you don't know, but when our five elements Chamber of Commerce was first established, there wasn't even a pill Alliance! It's just that because of our five elements Chamber of Commerce's influence, many other pill merchants can only use this name to gather together and isolate us. They also spread rumors that the quality of the five elements Chamber of Commerce's pills is not up to standard and want to use this to fight against us. " Cai Zhongyang pouted his lips in ridicule.

"And the result?" Lin Yi and the others asked.

"in the end, my master only said one sentence. as long as there is evidence, i will give the title of alchemy god to you, the alchemy alliance. however, who among you can bear it?" cai zhongyang mimicked zhang liju's tone and laughed in disdain, ""after that, we didn't have to do anything. the customers began to boycott the pill alliance. in the end, they had no choice but to come to my master to beg for mercy. only then did the storm gradually subside."

"hehe, they're really a bunch of clowns." lin yi couldn't help but smile, but he was secretly amazed. his cheap master's influence and appeal on sky class island were really extraordinary. one word from him could decide the market direction-this wasn't something that could be done with just status and power.

"so, although our five elements chamber of commerce is not in the elixir alliance, as long as we say a word, they will not dare to even let out a fart. i will speak to them, and i believe they will not dare to come and find trouble with your heavenly elixir pavilion!" cai zhongyang promised with a smile.

"Alright, I'll have to trouble you then, elder Cai." Lin Yi nodded. With the protection of the Tian Xing Dao and Cai Zhongyang, normal people wouldn't feel uncomfortable visiting.

"That's right, I see that although you have a lot of Supreme grade pills, the highest grade is only fourth grade. This old man suggests that you add some high-grade pills of fifth grade and above. Of course, there will be people buying third and fourth grade pills, but we're only opening for business. If we remain at this level, we'll lack competition compared to other large pill stores, which is not good for long-term development. " Cai Zhongyang suggested after some thought.

"i've actually thought about this problem carefully, but i don't have any pills above fifth grade on hand right now, and i've never refined them before. i can only take it slow." lin yi shook his head helplessly.

"junior brother cai is the deputy manager of the chamber of commerce, so it's not appropriate for him to help directly. how about i find a reason to get some from the pill hall? as long as the quantity isn't too large, it shouldn't be a problem. " hou guanqi interrupted.

"Thank you for your kind intentions, but I don't need them now. After all, I just opened for business. These fourth-grade pills can last for a while." Lin Yi waved his hand in refusal.

It was easy to get hou guanqi to take the pills from the pill Hall, but even if it was a fair trade, it was still too easy to give people a handle on. If Zheng dongjue found out about this, he'd be accused of being a traitor, and even if hou guanqi was Zhang Liju's disciple in name, he'd have to bear the consequences. Lin Yi didn't want him to take that risk for him.

Hou guanqi and Cai Zhongyang looked at each other and didn't say anything else. It was just as Lin Yi was worried about-the risk was high.

At this moment, Tianxing suddenly said, ""You guys really don't understand what's going on. Isn't this simple? Lil" bro Lin Yi is a refiner himself. Xiao Hou, Xiao Cai, get him some recipes and ingredients for a level five pill and let him make it himself. This won't cause any gossip, right?"

Hou guanqi and Cai Zhongyang's eyes brightened as they clapped and praised Lin Yi. They didn't realize that this guy was a freak who could mass-produce Supreme-grade elixirs because he was too young!

Even if Lin Yi had never made a fifth level pill before, if he could make fourth level pills, then fifth level shouldn't be a problem.

Hou guanqi immediately took out three recipes and handed them to Lin Yi, ""Lin Yi, these three are all Tier 5 recipes. I'll get someone to send the ingredients over later, so you can try them out in your free time. It'd be great if you could succeed."

"Then I won't stand on ceremony. Thank you, senior hou!" Lin Yi didn't reject the offer-it was what he needed, and the guy was his senior-to-be, after all-he didn't need to be too formal with him. He'd just have to repay him in the future.

Hou guanqi and Cai Zhongyang continued to talk about their experiences on making level five pills until the sky turned dark. They left with Tianxing path after dinner.

As for Lin Yi, Tian Gang, and Xue Li, they had their own territory now, so they didn't need to go to the five elements Chamber of Commerce with Cai Zhongyang anymore.

After a busy day, the two girls went back to their rooms to rest. Lin Yi started making level five pills overnight. He'd never tried it before, but with the automatic refining tool, the Shennong medicine cauldron, he felt that it shouldn't be a problem.

Lin Yi took out one of the Tier 5 recipes and entered it into his tablet. The Shennong medicine cauldron started analyzing the curves on its own. It took longer than the time it took to make the Foundation Stage golden core, but everything was normal.

With that, Lin Yi followed the curve and started to make the fifth level pill. The process lasted for four hours before stopping abruptly. The result was failure.

Looking at the black residue in the cauldron, Lin Yi was stunned for a while. Ever since Han Jing Jing helped him modify Shennong's cauldron, it had never failed, especially since they went to Sky Class Island.

But it was his first time trying a level five pill, after all, and he was prepared for failure. The good thing was that the failure didn't affect the Shennong cauldron itself. Otherwise, it'd be really sad if the cauldron exploded and was destroyed.

after adjusting his state of mind, lin yi wasn't discouraged. he started from the beginning again without saying anything. he could feel that there wasn't anything wrong with his principles in this attempt. it was just that it was his first time making a fifth level pill, and the analysis of the curves of the medicine cauldron wasn't very accurate. after this failure, it should be able to correct itself automatically.

## Chapter 4125 Zheng Dongjue's Compromise

As expected, after six hours, Lin Yi finally made his first level five pill. It was of high quality, still a step away from supreme quality, but Lin Yi believed that it would be done sooner or later after a few more corrections.

In the next few days, the business of the heavenly elixir Pavilion had obviously declined a lot compared to the first day, and gradually began to calm down.

This was actually not strange at all. On the first day of business, many people had been attracted by the excitement. It was rare to find so many Supreme-grade pills. In addition, the living signboard of the Tian Xing Dao had led to a scene of people fighting to buy them.

Although medicinal pills were also consumables, they were not like drinking and eating. Most cultivators might not even consume one medicinal pill in a month. After these people bought the medicinal pills, they would not have any demand for them in a short period of time.

therefore, it was reasonable for the heavenly pill pavilion's sales to decline. in fact, even the five elements chamber of commerce couldn't be as popular as its new store every day. it was normal for their sales to decline by more than half.

however, there were still quite a number of supreme-grade pills on display, so they naturally had an extraordinary attraction and appeal. compared to the bleak situation of other businesses, the heavenly pill pavilion's business was still quite good, making many of their peers envious.

it wasn't as full as the first day, and xue li could handle the business by herself. this gave lin yi and tian gang some time to make elixirs. if they were forced to come out too, they would be out of stock.

during this period of time, Lin Yi only had one thing to do every day, and that was to focus on making elixirs. Not only did he have to try to make more fifth-grade elixirs, but he also had to save up fourth-grade elixirs for future use.

However, Lin Yi didn't put the freshly made Tier 5 pills on display. After all, the Sky Elixir Pavilion had just opened, and Tier 4 pills were still attractive enough. He wasn't in a hurry to push out Tier 5 pills.

The other and more important reason was that Lin Yi had heard from Cai Zhongyang that the Nakajima auction would officially begin in ten days.

As such, Lin Yi decided to store up all the Tier 5 pills he had and auction them off in the name of the Heavenly Elixir Pavilion. He wanted to spread the name of the Heavenly Elixir Pavilion as soon as possible—this was a chance that he couldn't let go of.

Other than that, Lin Yi also received another piece of good news from Cai Zhongyang—the heart-devouring exquisite grass was here!

There were five in total, and although it wasn't as much as Ning Xuefei's ten portions, Lin Yi successfully produced eight Supreme-grade foundation-level golden pills after refining it. The success rate was even more ridiculous than the last time!

The reason for this was that, in addition to the excellent quality of these five stalks of heart-devouring exquisite grass, there was also the factor of being freshly picked. The shorter the storage time, the less medicinal properties would be lost, and the better the effect of using it to refine pills would naturally be. Although eight stalks of heart-devouring exquisite grass was unexpected, it was also reasonable.

He had eight new high quality foundation Stage golden elixirs in his hands, but he didn't need them for now. After all, he'd only reached the peak of late Foundation Stage not long ago, and if he continued to take pills, it'd make his Foundation unstable. It wasn't worth it.

However, Lin Yi didn't need them for the time being. These supreme quality foundation Stage golden elixirs were perfect for Tian Gang and Xue Li, who were still weak. With their current level, they only needed one supreme quality foundation Stage golden elixir and a Foundation breaking pill to break through.

This unexpected surprise shocked the two girls for a while. With their relationship with Lin Yi, they couldn't say that they didn't know him well, but the feeling that Lin Yi gave them was that he was like a Doraemon, pulling out a big surprise from time to time to scare them. They weren't even sure what their limits as men were.

Lin Yi personally took care of the business of the heavenly elixir Pavilion, while Tian Gang and Xue Li took the elixirs and went into seclusion to break through.

As for the remaining six peak-grade foundation-level golden elixirs, Lin Yi left them for them as well, so that they could use them to level up after they'd stabilized their realms.

To put it bluntly, as long as he could find the heart-devouring exquisite grass, Lin Yi could make a Foundation-level golden elixir anytime he wanted. But if he let Tian Gang do it, not only would he not be able to guarantee the quality, there was a high chance of failure. After all, Foundation-level golden elixirs weren't common goods, and the difficulty of making them was quite high.

Pill Hall, Zheng garden.

"Grandfather, you told me last time that you would think of a way to make me get what I want. But now, not only can't I find a chance, but I'm also getting Tian Huan to move out and establish his own sect. What should I do?" Zheng tianchu's status had become more and more stable these days, and he took the opportunity to complain to Zheng dongjue.

The more he couldn't eat something, the more he would be envious. Before, he could pester Tian Gang every day, so he had the patience to wait a little longer. But now that Tian Gang had moved out, seeing the cooked duck fly away, this kind of feeling of being scratched by a hundred claws was unbearable for ordinary people.

What he couldn't bear was that Tian Huan was able to move out, and it was actually his grandfather who personally approved it. How could he, who always thought that it was not as fun as sister-in-law, bear this?

"hmph, you only know how to revolve around women all day long. how can you achieve great things like this?" zheng dongjue could not help but glare and curse.

compared with the dead zheng tianjie, zheng tianchu was much worse in all aspects. it was quite risky to support him as the successor, but zheng dongjue had no choice. the other younger generation of the zheng family were even worse than zheng tianchu. who else could he choose but zheng tianchu?

"grandfather, don't be angry. actually, grandson is only thinking about tian huan because i want to carry on cousin's last wish. it's not that i don't want to improve, but i just want to resolve an obsession. grandfather, didn't you say that one can't have an obsession in the process of cultivation?" zheng tianchu cowered and quibbled.

Zheng dongjue looked at him with disappointment. How could Zheng tianchu's little thoughts escape his eyes? however, it was not a big deal for a man to be lecherous. Zheng dongjue had been at such an age before. As long as he got what he wanted, he would naturally not be so obsessed with it.

"Let's wait and see. Don't act rashly during this period of time. I still haven't figured out how Tian Xing Dao's recovery is going. However, the last time the heavenly pill Pavilion opened, he even showed off his skills in front of everyone and scared off manager Diao." Zheng dongjue consoled.

"But, they're just scared away by that old man's reputation. Maybe he hasn't recovered his strength at all and is just putting on a show?" Zheng tianchu was still doubtful.

Chapter 4126 Nakajima Auction

"It's only been a few days. It's certain that his strength hasn't fully recovered. But with his domineering strength as the number one nascent Soul Stage cultivator, even if he only recovered half of it, he is still a monster that can not be underestimated. It's the stupidest thing to have a conflict with him!" "Don't worry," Zheng dongjue warned him seriously. "Judging from his performance this time, he still takes good care of Tian Gang. If you provoke Tian Gang now and he decides to kill you, even I can't save you!"

Zheng tianchu was suddenly shocked. He only wanted to get Tian Gang, but he had never thought about this. If it was someone else, they might not dare to do anything to him because of Zheng Dong, but if it was heaven's will, they might not give face to his grandfather!

Compared to his own life, no matter how great the temptation of being his sister-in-law was, Zheng tianchu could only choose to endure it for the time being. He nodded helplessly and said, "Alright then. I'll do whatever you say, grandfather."

"Don't worry. Even if Tian Ji has moved out of the pill Hall, she is still the daughter-in-law of the Zheng family. What should be yours will never escape. Just wait for it." Zheng dongjue and Zheng tianchu looked at each other and smiled sinisterly.

Nakajima city was a famous medicine sect.

Diao Huanshan was respectfully sitting opposite a middle-aged man with a white face and no beard. The man was the shopkeeper of the medicine sect, Tong yangfei.

"Manager Tong, you must stand up for me this time. I've lost all my face in order to incorporate this small heavenly pill Pavilion. I'm doing this for the reputation of the famous medicine sect, and this matter concerns the image of the entire sect. You can't just sit back and do nothing." Diao Huanshan grumbled with a gloomy expression.

Relying on their powerful position in the pill Alliance, they would Annex these newly opened small pill shops and turn them into their puppets. This had always been a means of expansion for medicine sect.

This tactic had worked every time. Ordinary small shops did not dare to go against the medicine sect. Because they did not have a strong background, no other powerful figures or forces would accuse the medicine sect for them. They had always been indifferent to the matter and hung up high.

However, they had never expected that this time, they would have kicked an iron plate in the hands of the ordinary-looking heavenly elixir Pavilion. The Vice Island master of Nakajima, Tian Xing, was such a powerful and overbearing super expert. Not to mention the famous medicine sect, even their backer would not dare to provoke him easily.

However, no matter what, Diao Huanshan could not swallow this insult. He had been thrown out in front of so many people. If he did not find a way to get back at them, how could he survive in Nakajima city in the future? he would not even be able to lift his head when he left the house.

"Brother Diao, you've really been wronged this time. Whether it's me or the famous medicine sect, we'll remember this. You can rest assured." Tong Yang tried to comfort her with a formal smile.

Diao Huanshan furrowed his brows when he heard this. He felt that something was not right. What was the point of remembering it in his heart? what was the use of that?

"manager tong, i've thought about it carefully over the past few days. we really can't afford to offend someone like tianxing, but if we just want to find a way to deal with the heavenly pill pavilion, and as long as we don't go out in the open, and just give them some small tricks, tianxing is not an expert, after all. he won't show up for such a small matter, right?" diao huanshan suggested, unwilling to give up.

"brother diao, haven't you noticed the rumors outside these days? cai zhongyang of the five elements chamber of commerce has already informed the alchemy alliance. the heavenly pill pavilion is on the same side as the pill hall and the five elements chamber of commerce. if they use underhanded means to deal with them, they will bear the consequences themselves." tong yangxin looked at diao huanshan in surprise.

"Ah? Even the five elements Chamber of Commerce has appeared?" Diao Huanshan choked, his face was filled with unwillingness. Although the heavenly elixir Pavilion was Tian Huan's property, it was still unexpected that the five elements Chamber of Commerce would step forward to protect it.

One vice Island master of the middle Island, Tian xingdao, was not enough. Now, there was the five elements Chamber of Commerce, and even the alchemy Hall behind it. How could a small heavenly elixir Pavilion have such a big background?

"That's why, even though the heavenly elixir Pavilion is small, it's not a good place to mess with them. The big boss behind the scenes told us to stop for a while and avoid their attacks. We'll wait and see." Tong Yang ordered.

"Alright, I'll follow your orders." Diao Huanshan nodded helplessly, but he did not forget to complain, "But the boss is really too much. That Tian Ji came from the pill Hall, but he can't even interfere ..."

"Shh! Brother Diao, please be careful with your words!" Tong Yang was shocked and quickly made a gesture to silence him. He said, "It's useless to complain. Let's focus on the auction first. It's going to start in two days. As far as I know, the heavenly pill Pavilion has already signed up. "

"really? what could they auction with their little assets? do you think you're awesome just because you have the tian xing dao's support?" diao huanshan was shocked when he heard this!

for the merchants, only the top chamber of commerce had the qualifications to participate in the nakajima auction. ordinary small merchants couldn't bring out anything decent, let alone take the opportunity to earn money and spiritual jades. they didn't even have the qualifications to sign up.

"They probably want to make use of this opportunity to spread their name. Didn't you say that they have put out quite a number of Tier 4 top grade pills? although their tier is a little low in the middle Island, they still barely qualify to register." Tong Yang sneered. "That's good. It's a good chance for us to beat him openly. Let's hurry up and make preparations. We can't let them have their way this time. We have to beat them."

"That's right. This way, even the Tianxing path and the five elements Chamber of Commerce won't be able to say anything." Diao Huanshan nodded in agreement.

A few days later, the auction on the middle Island officially began. As the top auction on the middle Island and even the five big islands, its scale was naturally unparalleled.

This could be seen from the location of the event. It was the central core of Middle Island, middle cauldron mountain.

Those who could enter the middle cauldron mountain either had a deep background in a super sect or had extraordinary strength. As the saying went, there was no weakling among those who entered the middle cauldron mountain. This was the natural threshold of the middle Island Auction.

The specific location of the auction was on an extremely famous mountain peak on the middle cauldron mountain. It was called the ten thousand sky peak.

On the platform of the mountain, there were countless boulders scattered around. Because of the strange shapes of the boulders, each piece was different. If one looked up, one would be able to see the sky in countless shapes, and that was how the name "ten thousand Heavens Peak" came about.

After that, some big shots suggested building a Pavilion and a teahouse on top of many strange rocks. There was a Pavilion or a private room on top of each huge rock, so it quickly became the place where many big shots of the middle Island rested. In recent years, every Middle Island Auction was held here.

Chapter 4127 Super Spiritual Jade

This time, even though the heavenly elixir Pavilion had registered to participate in the auction, the representatives attending were Tian Xing, who had recently received a lot of attention due to his return to the pugilistic world. Tian Gang was also present.

As for Lin Yi, he appeared alone with Cai Zhongyang, because he planned to bid for some treasures in this rare auction. According to his past experience, he might offend people, and the treasure might be coveted by others. If Lin Yi appeared as the manager of the heavenly elixir Pavilion, it might bring trouble to the heavenly elixir Pavilion.

"A-12 pergola, please follow me." There were emissaries arranged everywhere in the venue to serve the important figures who were present. Not only did they lead the way, but everything related to the auction was also handled by them one-on-one. They were extremely thoughtful and experienced.

It was Lin Yi's first time at Wan Tian peak, so he was naturally surprised by the view. Cai Zhongyang smiled and explained, "There are more than a hundred pavilions and tea houses here. From good to bad, they are divided into a, B, C, and D. During the auction, the participants will be distributed according to their strength and background. Only a handful of people can get an a room."

Lin Yi nodded. Although Cai Zhongyang's strength and status couldn't be compared to the real sect bosses, he was representing the five elements Chamber of Commerce this time. It was reasonable for him to be arranged to room A-12.

At the same time, Lin Yi subconsciously turned his head and saw that not far away, Tianxing was leading Tian Gang to the ninth Pavilion a, and their rankings were even higher than them!

However, on second thought, although the heavenly elixir Pavilion was still not a big deal, it could not hold up to the reputation of the legendary master, Tianxing. As the once all-powerful Deputy Island

master of Nakajima, now that he had returned to the pugilistic world after recovering from his injuries, it was not surprising that he was so highly regarded by the organizer.

Under the guidance of the messenger, Lin Yi followed Cai Zhongyang up to Pavilion A-12. Since it was much higher than the other pavilions, the view was great. Everything could be seen in one glance, and it was very close to the auction stage in the middle. It was indeed a rare good spot.

Lin Yi was drinking tea and chatting with Cai Zhongyang as he watched the crowd enter the auction hall. Lin Yi couldn't help but sigh. The auction at the northernmost Island paled in comparison to the grandeur of the scene.

A moment later, the Nakajima auction event officially began. When the auctioneer appeared on the auction stand in the middle, everyone's eyes lit up. It was a graceful and beautiful woman!

She was dressed in a light white chiffon dress, and her hot and exquisite beautiful curves were faintly discernible. Her dress swayed gently with the breeze, and the beautiful scene that flashed by intentionally or unintentionally was simply intoxicating. This woman was not like those young girls who were seventeen or eighteen, but around thirty. From head to toe, she exuded a mature charm that made any man unable to stop himself.

Beside her, there was another blonde girl who was equally beautiful but dressed scantily. She was holding a silver plate and standing on the side. She looked very pleasing to the eye, matching her dignified and understanding appearance.

This scene made all the men present swallow their saliva. The organizer had really put in a lot of effort. Just the two women standing on the stage had already caught the eyes of everyone in the venue.

Lin Yi was the only one who didn't really mind-after all, he'd had so many beautiful women he'd had a much better resistance to pretty girls. He'd come to the auction, not to look at pretty girls.

"Ladies and gentlemen, the Nakajima auction has officially begun. Please look at the first item." Although this female auctioneer looked dignified and Holy, her tone and voice were charming and enchanting. If one paid attention, one could even see her seductive expression of gently licking her tongue.

Lin Yi's attention, however, wasn't on her-his eyes were on the golden-haired lady's Silver plate. He removed the red cloth covering it, revealing a weapon that looked like a small knife.

"The first item is the meteor blade, which is provided by all the rich and powerful. It is a weapon of the building foundation Stage. It is as light as a wing and as fast as a shooting star after being infused with true energy. It is unavoidable and indestructible. It is the first choice of many close-combat experts. The starting price is 3000 spiritual jades." The female auctioneer introduced.

This meteor blade looked pretty good! Lin Yi complimented silently, but didn't seem to have any intention of buying it.

Although he was short of Foundation establishment weapons, the king of junk was already halfway done with forging. It was meaningless to get another meteor blade at this time. After all, weapons were different from elixirs. They could not be used right away. He had to spend a lot of time and practice before he could use them in actual combat.

however, even if lin yi didn't want it, there were many people who were interested in it. after all, the meteor blade looked pretty good.

"three thousand one hundred spirit jade." someone immediately shouted.

in this auction, the minimum bid increment for each bid was no less than 100 spiritual jade pieces. therefore, this could only be considered as a test.

"Three thousand two hundred spirit Jade." Someone immediately followed up with a bid.

"Three thousand five hundred spiritual Jade." Then, someone else was unwilling to show weakness.

After a short while, the price had reached 5500 spiritual jade pieces under the constant bidding of the female auctioneer.

Lin Yi, who was watching coldly from the side, noticed a pattern-all the bidders were gathered in the fourth Pavilion, which was the lowest level of the entire area.

This was not surprising. Those who could come to the Nakajima auction were all big shots with deep backgrounds. Those who were interested in a Foundation establishment weapon were definitely only in the foundation establishment stage, which was of course the lowest level here.

In the end, the meteor blade was won by someone for 6000 spiritual jade pieces. After the deal was made, the meteor blade was handed over to the person by the messenger. At the same time, the person took out his spiritual Jade card and paid the bill on the spot.

Lin Yi raised an eyebrow at this-the process was quite simple and direct, a classic case of cash and goods on the spot. The spirit Jade card, on the other hand, was a rare item on the northern part of the island, but it seemed to be quite common in the middle Island.

"Now, let's bring up the second item. It's a Supreme-grade spiritual Jade provided by the all-access banquet. The starting price is 1000 spiritual Jade. Please take a look!" The female auctioneer reached out to remove the cloth, and an extremely size piece of super spiritual Jade was revealed on the silver plate.

The color, quality, size, and shape of the Super spiritual Jade were all top-grade. The dense spiritual energy that it automatically emitted could be clearly felt even from a few hundred feet away.

#### Chapter 4128 Face-Slapping

However, as soon as the female auctioneer's voice fell, the crowd fell into a brief silence. No one was willing to bid.

After all, no matter how rare this item was, it was just a piece of spiritual Jade and not some other rare treasure. Although it could also be used to assist in cultivation, its effect was obviously not comparable to that of medicinal pills.

In terms of volume alone, this super spiritual Jade could only be exchanged for a hundred spiritual jades at most, which was already the maximum. However, the starting price was already a thousand spiritual jades. It was simply blind to compete based on this. No matter how many spiritual jades there were, it was not a waste to use them.

However, it wasn't completely unreasonable for the organizer to call out a starting price of 1000 spiritual jades. Even on the sky-class Island, where strength was the most respected, there were still many people who liked to be artsy. This super spiritual Jade didn't have many other uses, but for jade carving enthusiasts, its value was no small matter.

Unfortunately, judging from the cold atmosphere, there were no jade carving enthusiasts here. No matter how the female auctioneer tried to hype it up, no one was willing to waste the spiritual Jade and bid rashly. It looked like the auction was about to fail.

Lin Yi spoke up all of a sudden. "One thousand and one hundred spirit Jade."

Everyone was surprised as they turned to gazebo A-12. Even Cai Zhongyang, who was sitting beside Lin Yi, was taken aback.

"Lin shaoxia, I didn't know you had this hobby. I didn't realize it before. I have a few friends who are also in this field. I can introduce you to them when we go back. You'll have a common language." Cai Zhongyang laughed.

Lin Yi only smiled, not saying anything more. He was a practical man, after all, and he didn't like jade at all. He was just here to watch the show, and didn't even want to bid.

The reason for this was all because of that damn thing-he'd suddenly used his spirit sense to remind Lin Yi that this super spirit Jade was a rare treasure, and that's why Lin Yi changed his mind.

At this moment, when the crowd saw that it was the person in unit A-12 who had bid, their eyes were filled with envy and jealousy, but there was also a bit of gloating.

In their opinion, only a young master of that level would waste spiritual jades on something so impractical. However, the more spiritual jades he wasted, the more they enjoyed watching the show. After all, it was not their spiritual jades that were being wasted.

This wasn't a bad thing for Lin Yi-as long as no one was bidding, he didn't mind being laughed at by these people. It was a good feeling to make a fortune in silence.

But just as Lin Yi thought that he had it in the bag, just as the auctioneer was about to hit the hammer, someone called out from A-15,"One thousand five hundred spiritual Jade."

Lin Yi was taken aback as he turned around. His eyes twitched when he saw the face-it was a familiar face, snow sword sect's Wei shenjin, and that B \* tch situ Qian was sitting beside him.

" 2000 spiritual jades." Lin Yi raised the price immediately. Even if the other party wasn't Wei shenjin and situ Qian, he was determined to get this super spiritual Jade under that damn thing's guidance. Enemies were bound to meet on a narrow road, and there was no reason for him to back down.

" 2500 spiritual jades." wei shenjin frowned and continued to raise the bid.

"three thousand spiritual jades." lin yi said without even raising his head.

the crowd burst into an uproar. in their eyes, the starting price of 1000 spiritual jades was already considered a loss. now, in the blink of an eye, it had soared to 3000 spiritual jades. the disciples of the a block really had too many spiritual jades to spend.

"Three thousand five hundred spiritual Jade." Wei shenjin gritted his teeth and said.

"Four thousand spirit Jade." Lin Yi's expression was still calm as he called out the price. His expression didn't change at all, and he didn't seem to be distressed at all.

Lin Yi didn't lack spirit Jade in the first place, and now that he had the heavenly pill Pavilion, a money-making machine that could earn tens of thousands of spirit Jade a day, he was even richer than most people. A few thousand spirit Jade wasn't even a problem for him.

"I offer five thousand spiritual jades!" Wei shenjin didn't want to be outdone and walked to the side of the pavilion before Lin Yi could bid,"I am snow sword sect's Wei shenjin. My wife has taken a fancy to this piece of Supreme-grade spiritual Jade and wants to use it to make a pair of wedding accessories. I hope that all heroes can be tolerant and make things convenient for us."

The crowd looked at each other. Snow sword sect was not a small sect in Nakajima. To be able to get Pavilion A-15 in this auction was already an affirmation of their strength and status. Ordinary people could not afford to offend them.

Moreover, since Wei shenjin had already said so, any normal person would have to give him face. After all, this super spiritual Jade was not something of utmost importance. It was not worth it to provoke a powerful opponent for this flashy spiritual Jade.

The auctioneer on the stage frowned when he saw this. Wei shenjin's behavior was completely breaking the rules of their auction. If everyone learned this, then they wouldn't even need to auction in public. They would be resolved through private discussions.

however, the other party was an honored guest of the a-rank, after all. furthermore, the high price of 5000 spiritual jades for this piece of super spiritual jade had far exceeded their expectations, so they turned a blind eye to it.

just when everyone thought that this was the end, lin yi opened his mouth slowly, "five thousand one hundred spiritual jades."

wei shenjin was already determined to win, but when he heard this, he froze on the spot, and his expression became extremely ugly.

the other people present were also discussing quietly, secretly shocked at lin yi's identity. he was indeed someone who could sit in a-12, even the snow sword sect wasn't a threat to him.

Wei shenjin had just finished his words, and this guy immediately called out 5100. Before, it was 500 and 500, but now it suddenly became only 100. This was simply a slap in the face. Who knew what kind of God this young man was!

"Look, the one sitting next to him is Cai Zhongyang from the five elements Chamber of Commerce. Is this young man from the five elements Chamber of Commerce?" Some sharp-eyed people were discussing.

"I've been to the five elements Chamber of Commerce a lot these days, but I've never seen this person before. Could he be a disciple from the pill Hall? It's very possible that the pill Hall and the five elements Chamber of Commerce are one entity!" The people around him were suspicious.

"I feel that this person should be a young chick who has not experienced the world. Even if he really has a background like the pill Hall, how can he hit people's faces in front of them like this? Wei shenjin's background isn't weak. When he leaves the auction, he'll be done for without anyone knowing. " Someone mocked.

#### Chapter 4129 Enemies Meet Again

While the crowd was in a heated discussion, situ Qian, who was in Pavilion A-15, complained with a bitter expression, ""Brother Wei, I really like that piece of spiritual Jade. It'll be great to use it as a wedding accessory. You can't back down just like that."

"I know," Wei shenjin's expression was ugly as he nodded his head. He then gritted his teeth and called out, ""Five thousand five hundred spiritual jades!"

Even if he was a core disciple of the snow sword sect, even if he was an early golden core practitioner, it would still hurt his heart to waste so many spirit jades for a super spirit Jade. Unfortunately, Lin Yi still wouldn't let him and situ Qian get what they wanted.

"Five thousand six hundred spirit Jade." Lin Yi continued to raise the price without changing his expression.

"Good! Very good! Very good!" Wei shenjin looked at Lin Yi coldly and hmped, ""This friend, this Wei will remember you!"

"I'll also remember you!" "I could've bought it for 1100, but you pushed it up to this price. Very good!" Lin Yi replied with a cold smile.

"Then let's wait and see!" Wei shenjin was so angry that he laughed instead. Although he was a little worried about Lin Yi sitting next to Cai Zhongyang, he couldn't lose this battle.

Moreover, in his opinion, even if this kid knew Cai Zhongyang, he might not be from the hall of pills. Even if he was from the hall of pills, his status might not be high. As a core disciple of the snow sword sect, he had the confidence to take revenge. As long as he did it cleanly and did not get caught, it would be fine.

Wei shenjin's blatant threat was a rare sight in the eyes of others, but Lin Yi didn't care at all. From the common world to the Sky Class Island, he'd heard this kind of threat more than a hundred times. If he treated it seriously every time, he wouldn't even remember it, and he wouldn't have the time to do it.

"Young hero Lin, I've heard about this Wei shenjin before. He's the rising new disciple King of the Snow sword sect. His strength and methods are very experienced. You have to be careful. Don't give him a chance to use underhanded means." Cai Zhongyang reminded him worriedly.

Although the world of practicing depended on one's background and background, the most important thing was still one's own strength. Wei shenjin was an early golden core expert through and through. In anyone's eyes, Lin Yi, who was only at the peak of the late Foundation Stage, was no match for Wei shenjin at all.

"Elder Cai, you don't have to worry. I've already made him my enemy since a long time ago. Today's incident won't make a difference." Lin Yi shook his head, not thinking much of it.

Thinking back to the conflict between Lin Yi and Xue Li with the snow sword sect, Cai Zhongyang didn't say anything more. He could only keep an eye out for Lin Yi in the future.

Five thousand six hundred spirit Jade forced Wei shenjin to back out unwillingly. This price had already far exceeded the value of the Super spirit Jade, and naturally, no one else would follow. Without a doubt, the Super spirit Jade was in Lin Yi's hands.

Holding the Super spirit Jade in his hand, Lin Yi was curious about its value, but he couldn't test it out in front of so many people. He put it aside first and would ask the damn thing when he got back.

as the next item was put up for auction, the storm of the super spiritual jade was quickly forgotten. everyone was here for the treasure after all, and watching the show was just a way to spice things up. they would not pay too much attention to it.

the only person who would really remember this was probably the two parties involved, or rather, the embarrassed wei shenjin. lin yi never took this kind of person seriously.

the next few items that were put up for auction were of higher value than the previous ones. the active crowd had also gradually shifted from the lower-level d-tier regions to the higher-ups of the more competitive sub-regions. after all, they were the main force of this auction.

however, none of these things caught lin yi's eye. either he didn't like them, or the quality wasn't good enough.

Lin Yi was only at the peak of the late Foundation Stage, and wasn't a Big Shot in the middle Island, but his vision wasn't any lower than the other big shots here. Especially because of the heavenly elixir Pavilion, he didn't lack spirit jades at all.

Lin Yi didn't bid, but Wei shenjin didn't want to be left out. He bought a valuable golden core weapon. It was shaped like a hair clip, a god-like weapon made for female cultivators. It didn't have a fatal attack power, but it had a certain chance of increasing defense.

At the same level, defensive weapons were far more valuable than offensive weapons. After all, cultivation was not easy. The more powerful the cultivator was, the more they cherished their own lives. And defensive weapons like hairpins, which did not require much practice or even deliberate use, were even rarer and better.

However, this thing's defense was only average. It could still take a hit from a golden core stage master, but it was completely useless against a higher level opponent. The key was that this was a golden core stage weapon, and no one around Lin Yi could use it yet.

Thus, to him, it was of little value. Otherwise, he would definitely interfere and not let it fall into the hands of Wei shenjin.

"Brother Wei, you're so good to me. I've wanted this hair clip for a long time, and it's a rare Aurous core stage weapon. Can you help me put it on? I'm going to go back and let those vixens in the sect take a good look, they'll die of envy!" Situ Qian's heart was filled with sweetness as she acted like a spoiled child.

Wei shenjin frowned slightly, but he still nodded and agreed. He took the hair clip and put it on for her personally, while situ Qian fell into his arms. Their lovey-dovey actions immediately attracted a strange look from the surrounding people.

Not only was Situ Qian not embarrassed, but she also enjoyed this feeling. Wei Shenjin had always been the Prince Charming in her heart. Now that she had finally won him over, she naturally wanted to let outsiders see their love and sweetness.

"What a pity. If we could get that Supreme-grade spiritual Jade, this auction would have been a success. We just happen to be lacking a pair of wedding accessories, brother Wei!" Situ Qian complained.

"Hmph, that blind brat thinks that he can be arrogant just because he has Cai Zhongyang's support. How dare he ruin my plan? he doesn't know what's good for him. Don't worry, I guarantee that he won't live past today!" Wei Shenjin's eyes were cold as he glanced in the direction of Room 12.

"Yes, I knew brother Wei wouldn't let me down!" Situ Qian nodded.

At the same time, Lin Yi felt the two men's hostile gazes, but he smiled nonchalantly and continued to pay attention to the auction.

He was not afraid that these two people had evil intentions. If they really wanted to take revenge, it would be exactly what he wanted. After all, he had always wanted to take revenge for Xue Li. Wasn't it good that they took the initiative to come to him?

Chapter 4130 Goods From The Secular World

Lin Yi turned his attention back to the auction. He'd seen so many items, but there wasn't anything that caught his eye. He couldn't help but feel a little disappointed at the auction.

However, Lin Yi's eyes froze as he looked at the next item.

"The next item is provided by the central Chamber of Commerce. It's a high-tech product from the secular world that's been very popular on our Sky Class Island recently. It's an SLR camera and a solar power bank that comes with it. The starting price is twenty thousand spirit Jade!" The female auctioneer introduced in a seductive voice.

Looking at the SLR digital camera on the silver plate, everyone's eyes were obviously more heated.

Lin Yi, on the other hand, was struck by lightning. He sat there for a long time, unable to come back to his senses. The same question kept repeating in his mind-how did he bring this thing up?

Normally, any high-tech item used to get to the Sky Class Island would be destroyed by the natural pressure. This was a problem that no one could avoid.

Lin Yi was only able to bring his phone here because of the Jade space-no one else had the ability to do that. There couldn't possibly be another Jade space in this world, could there?

However, the others weren't as shocked as Lin Yi. Recently, there had been a technological craze in Nakajima. High-tech products from the secular world had swept the entire Island, each one of them selling for sky-high prices, but they were still in high demand and supply couldn't meet demand.

"Central Chamber of Commerce?" Lin Yi's heart quivered. Why was it this Chamber of Commerce again? si tsunami had suddenly become the North Island manager of the central Chamber of Commerce, and now this central Chamber of Commerce had magically brought high-tech products from the secular world. Why did it feel a little strange?

"Haven't you heard of Lin shaoxia? It's a Chamber of Commerce that rose up recently, and no one can find out who's behind it. But overnight, it suddenly sprouted all over the place like mushrooms after the rain. According to our calculations, its current size should be close to our five elements Chamber of Commerce. " Cai Zhongyang explained to him.

"So exaggerated? It's a little scary, isn't it?" Lin Yi couldn't help but be surprised.

The five elements Chamber of Commerce had a strong backing like the pill Hall. It had been the undisputed number one Chamber of Commerce for so many years. It was understandable if it was other super Chambers of Commerce with deep foundations, such as the Hong Chamber of Commerce, who had caught up with them. However, this central Chamber of Commerce was a new Chamber of Commerce that had suddenly risen.

"It's not just you, Lin shaoxia. The shock of the industry insiders is greater than yours. But no matter how unbelievable it is, they did it. Perhaps it won't be long before this central Chamber of Commerce takes over the leading position and becomes a business legend." Cai Zhongyang sighed.

As the two of them spoke, the surrounding people began to call out bids one after another. In just a short moment, the price had reached the high of 50000 spiritual jades, and from the looks of it, the crowd was far from giving up.

"This is too exaggerated!" Lin Yi couldn't help but be speechless."In the secular world, this thing is a toy that's everywhere. It's not rare, and it's not worth much at all. But it's sold for such a sky-high price here. My heavenly pill house's sales in a day can't even compare to this digital camera. What kind of world is this ..."

"The rarer something is, the more precious it is-this is an eternal truth. This thing may be common in the mortal world, but it's a rare treasure on Sky Class Island. It might even be unique, so it's not surprising that it's sold for a sky-high price," Cai Zhongyang said emotionally.

"That being said, in the eyes of someone from the secular world like me, this is still too ridiculous. When I was in the secular world, even the lowest-level and trashiest pill was worth at least a thousand times more than this single-lens reflex camera. Now, it's the other way around. This is really unbelievable." Lin Yi smiled bitterly, still feeling that this was all too surreal.

"That's right. The emergence of the central Chamber of Commerce is an incredible thing in itself. It has almost set off a technological craze in the entire Middle Island by itself, and it is also spreading to the other four islands. Every item is a huge profit, and every item sold will make it snowball faster and faster, bigger and bigger. It is impossible to stop it." Cai Zhongyang shook his head helplessly.

This central Chamber of Commerce that had suddenly risen was so mysterious and powerful that it had become a target that all the Chamber of Commerce forces had to treat seriously. If they were not careful, it was possible that they would be swallowed up in the future.

"If this central Chamber of Commerce can sell technology from the secular world, doesn't that mean they have a way to communicate with Sky Class Island?" Lin Yi's eyes lit up.

If the central Chamber of Commerce only sold one or two pieces, it was possible that the owner behind the scenes had used some special means to bring them up all at once, that was all.

However, it was now a technology product, and it was impossible to supply it on such a large scale in one go. It must have its own unique supply method, and with the conditions of the Sky Class Island, it was impossible to produce it locally, so the goods could only come from the secular world.

In other words, the people of the central Chamber of Commerce must be able to travel freely between the secular world and the sky Class Island. At the very least, they had to have a way to communicate with each other. Otherwise, there was no way to explain this.

It was a perfectly reasonable guess, and Lin Yi had been wondering about it before-how did that cheap master of his, Zhang Liju, get back to the common world? he'd become like that after one trip, and his cheap master was fine!

Now that the central Chamber of Commerce's doubts were confirmed, it was enough to prove that it wasn't impossible to return to the secular world from Sky Class Island-it was very possible!

Lin Yi couldn't help but feel a fire burning in his heart at the thought. He'd be lying if he said he didn't miss his friends and followers in the common world after being on Sky Class Island for so long. If he could go back and see them, it'd be one of his biggest wishes.

Of course, Lin Yi knew that it was impossible for him to go to the central Chamber of Commerce and ask about this with his current status.

In fact, not to mention him, even if the top big shots of the five elements Chamber of Commerce and Hong Chamber of Commerce came forward, they would not respond.

"I think so, but no one knows what's going on. We don't even know who the owner of the central Chamber of Commerce is, so it's impossible for us to find out about these core secrets." Cai Zhongyang smiled.
