

Bodyguard 4191

Chapter 4191 A Year's Time

However, they were all the same as Kang Zhaoming. No matter how suspicious they were, they could only keep it to themselves. They didn't even dare to talk about it in private. If Xu lingchong found out, it would be a serious matter.

The days passed under this unusual calm. The king of junk persevered, but there were no signs of formation. Fortunately, under his persistence, the situation in the weapon-casting pool did not worsen. It was just in a stalemate at the final juncture. It was a blessing in disguise.

Not only that, Lin Yi's side had also reached a bottleneck-the peak of the early golden core stage was just a few steps away, but no matter how hard he tried, he couldn't break through the last layer of paper window. It was really frustrating.

Since it was a perfect breakthrough, since it was the strongest golden core, Lin Yi thought that this kind of early golden core breakthrough was something that would happen naturally. He didn't expect it to be stuck at this step.

If other golden core Masters knew about this, they'd be crying. It'd only been a few months since Lin Yi formed his core, and he was thinking about breaking through to the next level without the help of any pills.

How could these Jindan experts, who had been unable to make any progress for decades or even centuries, and even high-grade medicinal pills that had no effect on them, endure this?

Since he couldn't break through, Lin Yi knew from his past experience that it was useless to just go into closed-door training. He had to wait for a suitable opportunity, so he decided to relax and not force himself to break through in a short time.

Since he was bored, Lin Yi decided to make some pills in his free time. He asked Hong Zhong to use the Hong Chamber of Commerce's channels to send the pills to the heavenly elixir Pavilion. This was something he had planned long ago, and it could help Tian Gang relieve a lot of pressure.

Tian Gang was a perfect early golden core practitioner, but she didn't have the godly tool like Lin Yi's Shennong medicine cauldron. She could only guarantee the quality of fourth-grade pills. As for fifth-grade pills, it was still very difficult for her at this stage.

While sending the pills, Lin Yi also wrote a letter to the Tian Xing sect, asking them about their bottleneck. This person didn't have a perfect breakthrough, but he was still a senior who practiced the creation battle technique. His experience should be of great value.

Very quickly, Lin Yi received Tian xingdao's reply. Tian xingdao said that although Lin Yi had a perfect breakthrough, he had just reached the Golden core stage. It was the stage of accumulation, and he couldn't rush it. As long as he broke through to the peak of the early stage of the Golden core stage, everything would be smooth!

At this stage, the key was to stabilize the realm and accumulate the foundation. This was something that could affect the entire golden core stage later on, so he must not take it lightly.

Therefore, it was not strange to encounter a bottleneck at this time, and it was by no means a bad thing. Of course, this did not mean that he could stop making progress. Everything should be moderate. Once he was stuck at the bottleneck for too long, it was not a good thing.

What Lin Yi needed to do now was not to force himself to break through quickly in the short term, but he needed to make the necessary preparations and wait for the right time to break through.

As for how he should prepare, Tian Xing Dao's suggestion was exactly what Lin Yi wanted. It was the stupidest and wisest choice to go into seclusion and train. There were only two ways to grab the opportunity to break through.

He could either fight with others and consolidate his realm in actual combat, or he could consume natural treasures and use external stimulation to strengthen his Foundation.

However, Lin Yi didn't have any of these two methods for the time being. His golden core was long gone, and his life was peaceful now. His only strong rival, Xu lingchong, didn't make a move for some reason, and the people around him were too weak-he didn't even have the chance to practice with them.

The only thing Lin Yi could count on now was the practicals of the three pavilions. There weren't many internal challenges in the Ying Xin Pavilion, but there were plenty of Masters in the three pavilions, many of whom were stronger than Lin Yi.

In the blink of an eye, the one-year deadline for the welcoming new pavilion had arrived. The new members of the three great pavilions had gathered in the main hall. Each and every one of them was filled with apprehension as they waited for the final and crucial test that would determine their fate. Whether or not they could successfully join the three great pavilions would all depend on this one move today.

The newcomer's competition was the most important event for the welcoming new pavilion. All three pavilions had sent their elders to watch the event. As the pavilion master of the welcoming new pavilion, Hu Yun Feng was the host of this year's newcomer's competition.

"It has been a whole year since you all joined the welcoming new pavilion. I would like to congratulate all of you for finally getting the chance to officially join the three great pavilions and become an official outer disciple." Hu Yunfeng smiled as he opened the stage for everyone.

All of the new disciples were instantly excited. They had worked hard for a year just for this day. Once they left their status as new disciples and became official outer disciples, their status and treatment would be greatly improved. This was something they had been dreaming of. However, Hu Yunfeng's next words made some of their faces darken.

"Unfortunately, this opportunity is only given to those who have successfully reached the Foundation Stage. As for those who can't even reach the Foundation Stage, I can tell you frankly that you won't even have the chance to participate in the newcomer competition. In the future, you will have to work hard in the spirit Jade Hall and cultivate. Perhaps there will be a day when you can make a comeback. Unfortunately, today is definitely not the day." Hu Yunfeng's gaze fell on the newcomers who had yet to build their Foundation.

Due to the support of the Nakajima pill Hall this year, the cultivation resources provided to the newcomers were far more abundant than in previous years. The proportion of newcomers who successfully entered the foundation building realm was as high as 80% to 90%. However, there were still some who could not be helped, such as Cha Wu of the GreenCloud Pavilion.

After hearing Hu Yun Feng's "verdict," Cha Wu's face turned ashen. Being sent to the Ling Yu Hall to be a miner was the most lamentable outcome. Although there were indeed cases of counterattacks, they were extremely rare. Normal people couldn't count on them at all. They really had no future at all.

Cha Wu helplessly looked at Qiao Hong Cai and the others. He didn't think that he was much worse than Qiao Hong Cai back then. How could the situation now be so different?

What he didn't know was that Qiao Hong Cai's practicing was way above him, and the way he conducted himself was already miles ahead of him. That was why Qiao Hong was following Lin Yi so loyally, even if he had to go against everyone. Chawu, on the other hand, was a fence-sitter who only knew how to be on both sides. Who was to blame for the situation he was in?

Chapter 4192 The Inner Sect Grand Competition

"As for the newcomers who have successfully reached the foundation establishment stage, although you are qualified to participate in the newcomer's competition, you don't have to be happy too early." "According to the rules of each year, each of the three pavilions will only accept five new disciples," Hu Yunfeng continued in a clear voice. "Therefore, you must compete with each other. Only by competing for the top five places in the upcoming newcomer's competition can you become an official outer disciple of the three pavilions!"

As soon as he finished speaking, all the rookies present were in an uproar. This year, there were very few people like Cha Wu who had not even reached the foundation establishment stage yet, but Hu Yunfeng's words touched upon the vital interests of most of them!

Looking at the three great pavilions, there were at least twelve new disciples who had successfully reached the foundation building stage in each Pavilion. However, there were only five spots for official outer sect disciples. The intensity of the competition was obvious.

It would be gratifying for the stronger ones to be able to get into the top five, but what if they ended up in Luosun Mountain? He couldn't possibly follow trash like Cha Wu and go to the Spiritual Jade Hall to mine ores, right? That would be too much of a scam!

Fortunately, Hu Yunfeng quickly answered their doubts, "The new disciples who don't get into the top five can continue to stay in the welcoming new pavilion and take up some positions. They can wait for the opportunity to be promoted in the future."

The position in the welcoming new pavilion that Hu Yun Feng was referring to was the position of the steward senior brother. If one could become the steward senior brother, although it was not as direct as becoming an official outer sect disciple, it was still a good future.

However, the position of a manager was a matter of luck. It wasn't always empty, and most people who stayed would just take on a normal manager's position, similar to Kang Zhaoming's new manager position, or even worse. They could only help Hu Yunfeng and the others, without much power.

After hearing this, the rookies heaved a sigh of relief. As long as they were not sent to Kuangqu, it was still acceptable. They would not end up too miserable.

"Alright, everything that needs to be explained has been explained. Next, let's get to the main topic. The rookie competition will begin immediately!" Hu Yunfeng immediately announced, "the rules of this year's great rookie competition are that there are no rules. The elders of the three pavilions will be the judges. All the new disciples will draw lots and fight until the top five are decided!"

As soon as he finished speaking, Hu Yunfeng immediately gestured to the senior stewards of the three pavilions to arrange for all the disciples to draw lots.

This was a matter of their future, and all the newbies were in high spirits as they went to their respective senior managers to draw lots. However, when it was Lin Yi's turn, Hu Yunfeng suddenly spoke up.

"Lin Yi, you're an early golden core practitioner now. According to the rules, you can skip the outer disciple rank and become an inner core disciple. So, you don't need to participate in this year's new disciple competition." Hu Yunfeng said lightly.

Everyone was taken aback, but it made sense after thinking about it. The other newbies didn't even have the courage to face a monster like Lin Yi, let alone attack him. What was the point of him participating in the newbie competition?

However, to be able to cross over to become an official outer sect disciple and directly become an inner sect core disciple, this kind of treatment made everyone envious.

In the entire three pavilions, more than 90% of the official outer sect disciples could only stop at this level for the rest of their lives. They could only look up to the inner sect but not reach it.

This was something that couldn't be helped. To become an inner core disciple, the minimum requirement was to successfully form the gold core, and this was enough to keep most people out.

"May I ask, Pavilion master Hu, does this mean that I have nothing to do with this year's rookie competition?" Lin Yi asked.

"That's right. However, there is also a year-end examination for the core inner disciples of the three pavilions. It will start in two days. Although you don't need to participate in the new disciples competition, you have to participate in the year-end inner disciples competition. This is a special case that the higher-ups of the elders Council have set up for you," Hu Yunfeng said lightly, a hint of playfulness on his face.

This arrangement was actually Xu lingchong's doing. His grandfather Xu Yuanzheng personally suggested it at the elder Council to embarrass Lin Yi!

To be able to become a core disciple of one of the three pavilions, each and every one of them was an elite among the elites. Lin Yi may be impressive outside, but he was only a new early golden core stage master. Compared to these old golden core stage Masters, there was a big gap.

This year's inner disciples "year-end competition was the perfect opportunity to put him in his place!

Lin Yi was surprised as well-he could smell a conspiracy in the air, but since this was the official's arrangement, he couldn't say anything. He nodded and stood to the side as an audience.

The news quickly reached Shangguan LAN 'er's ears. Although this little Senior Sister was innocent and naive, she was not stupid at all. She immediately went to find Shangguan Tianhua, asking him to help.

"Grandpa, it's really strange. Little Junior Brother is actually arranged to participate in the year-end inner disciple competition. This is not fair at all! You're still in the mood to practice writing here, why don't you come out and do something about it!" Shangguan LAN 'er shook Shangguan Tianhua's arm as she pouted angrily.

"Hehe, what's so unfair about that? Lin Yi's already an early golden core, and he killed su Zhaohe in one move in the last fight. Even some of the core inner disciples aren't that strong. If he doesn't participate in the inner sect competition, is he going to participate in the new disciples competition? Xiao LAN 'er, do you think that's fair to the other newcomers?" Shangguan Tianhua laughed nonchalantly.

Shangguan LAN 'er was speechless. After a long while, she said unwillingly, ""But, Little Junior Brother is still a newcomer. We can't be so against him just because he's good, right?"

"LAN 'er, although Lin Yi is being targeted, he's also getting the status of an inner core disciple. It's not a loss for him, right? Besides, in this old man's opinion, it's hard to come across a good opponent. Instead of wasting time in the welcoming new pavilion, it's better to have a good fight with these core disciples. He probably can't even dream of getting this opportunity!" Shangguan Tianhua said with a smile as he continued to write.

"But ... But even if you don't participate in the inner sect competition, you'll still become a core disciple. This can't be counted as a reward ..." Shangguan LAN 'er still felt bad for Lin Yi.

"Hehe, since LAN 'er said so, it seems like we have to give Lin Yi some real benefits." Shangguan Tianhua shook his head helplessly, then smiled and said, ""How about this, if Lin Yi can shine in this year's inner sect competition and get a good ranking, I'll guarantee him the position of the 3rd Pavilion master. That should be fine, right?"

Chapter 4193 Official Outer Disciple

The position of the third Pavilion master was well known as a gold-plated position. It was a hot spot, and even the core inner disciples might not be able to get it. If a newcomer like Lin Yi could get it, it would be a great benefit.

"The third Pavilion master of the welcoming new pavilion?" Shangguan LAN 'er tilted her head and thought for a while, then reluctantly nodded and said, ""That's more like it. Grandpa, you can't go back on your word. Let's pinky swear!"

"Alright, let's make a pinky promise. The old saying that girls side with their husbands is true." Shangguan Tianhua did not know whether to laugh or cry as he shook his head. ""But let's make this clear-only you and I will know about this, you can't tell Lin Yi about this, okay?"

"I know!" Shangguan LAN 'er stuck out her tongue in an adorable manner.

A few days later, the annual inner disciples "year-end competition finally began.

Lin Yi followed the notification he just received and went to the arena. This place wasn't unfamiliar-it was the place where he killed su Zhaohe in one move, the Beidao ring.

However, to Lin Yi's surprise, he wasn't the only one participating in the inner sect competition. Meng Tong was there as well!

Looking at the white-haired Meng Tong from afar, Lin Yi couldn't help but be shocked. This guy's strength had unknowingly reached the early gold core realm. How was this possible?

If it wasn't for the fact that his golden finger never went wrong, Lin Yi would've suspected that his eyes were playing tricks on him. Meng Tong and Xu lingchong were always together, but they rarely saw each other in the Ying Xin Pavilion. Lin Yi hadn't seen this person in a long time.

However, the last time Xu lingchong brought people to stop him, Meng Tong was also present. At that time, this guy's strength was only in the middle stage of the foundation building realm. Now, in less than two months, he had actually become an early stage golden core Master. This was too strange, right?

Although Lin Yi himself was an abnormal example, that was due to all sorts of fortuitous encounters, high quality pills, and all sorts of heaven-defying golden fingers. They couldn't say that Meng Tong had as many cards up his sleeve, right?

What made Lin Yi even more surprised was that Meng Tong was walking with Xu lingchong, and they seemed to have mentioned dual cultivation.

Dual cultivation? Lin Yi was surprised-the two were always together, but they were both men! Even if lingchong was removed, she wouldn't be considered a woman, would she? how were they supposed to dual cultivate? It was really strange!

Other than that, Lin Yi let out a breath of relief when he saw that Meng Tong was participating in the inner sect competition as well. This meant that even if it was Xu lingchong's doing, this young master Xu wasn't at the stage where he could hide the truth from the masses. Otherwise, he wouldn't have let Meng Tong join in as a foil.

Besides, Lin Yi didn't really have much of an objection to the inner sect competition. The core disciples were all golden core Masters, and this was a rare opportunity to train himself in actual combat. He couldn't wait for it.

Perhaps when the inner sect competition ended, the opportunity to break through would arrive. From then on, he would break through the bottleneck and become a peak early gold core expert. That would be a great thing!

At the North Island's arena, there were already dozens of people sitting in the surrounding stands. Each of them was calm and steady, not to be underestimated. These people were obviously golden core stage Masters.

There shouldn't be any random people here, and Lin Yi guessed that they must be the core disciples of the three pavilions.

Although not all of them had arrived, at this time, just the number of golden core stage Masters gathered at the scene was at least 70 people. In the end, it might even reach 80, or even as many as 100 people.

Any golden core stage cultivator would be considered an elite in any other sect. The three pavilions were indeed the behemoths that dominated the entire North Island. Such a deep foundation was no small matter.

As far as Lin Yi was concerned, the three pavilions were huge forces-they weren't any weaker than the top sects on the central island. It was clear that the other four islands weren't just mere subsidiaries of the central island.

The inner sect disciples weren't all here yet, and Lin Yi, like everyone else, found an empty seat and sat down. He also paid attention to the people present-his next opponent would be among them.

Just as Lin Yi was observing his opponents, the welcoming Pavilion's newbie competition finally came to an end after a few days of intense competition.

However, although it was intense, there was a clear distinction between the strong and the weak. Even if everyone was at the same starting line when they first entered, after a year of tug-of-war, the difference in strength between each other was like heaven and earth.

Even after excluding Lin Yi and Meng Tong, the rest of the newbies still had their own levels. Take the GreenCloud Pavilion newbies as an example-Xiao ran, Qiao hongcai, li Zhengming, and Murong Zhen were all peak early Foundation Stage cultivators. They were the first group, and the rest of the group was behind them.

As a matter of fact, there were no accidents in the results of the rookie competition. Xiao ran took the first place without any trouble, while Qiao hongcai and Murong Zhen fought until both of them were injured and tied for second place. As for Lee Zhengming, he was ranked fourth without a sound.

With Lee Zhengming's true strength and background, even if he wasn't on the same level as Xiao ran, he was at least on par with Qiao hongcai and Murong Zhen. It was just that he was afraid of the blood feud that he had with Xiao ran, so he didn't dare to show off too much and deliberately held back his strength.

In any case, as long as he could lock onto the top five, he would be able to become an official outer disciple of the GreenCloud Pavilion. As for the position of the top position that everyone yearned for, he didn't care about it at all. Other than strength, everything else was just an illusion.

In the end, Xiao ran, Qiao hongcai, Murong Zhen, Lee Zhengming, and another new disciple of the GreenCloud Pavilion became official outer disciples.

As for the other newbies who lost the competition, they could only stay in the welcoming new pavilion to do odd jobs. For those who had yet to reach the foundation establishment stage like Cha Wu, they were even worse off. Before the start of the competition, they had been sent to the spiritual Jade Hall to mine ores. It was simply too miserable.

As for the ascending Sky Pavilion and the mysterious Pavilion, the results weren't too shocking either. What was worth mentioning was that a few people from the secular world-Kang Zhaoming and Zhong pinliang from the ascending Sky Pavilion, Dongfang Badao and pugilist WUFA from the mysterious Pavilion-had all successfully become official outer disciples.

Along with Xiao ran from the Qingyun Pavilion and Lin Yi, the heaven-defying freak, this group of people from the secular world performed brilliantly in the North Island region, not to mention the other islands. They completely stepped on the newcomers from the Sky Class islands, causing a lot of discussion and changing people's perception of the secular world.

Chapter 4194 The Unexpected Host

The welcome Pavilion's freshmen competition had come to an end. However, the North Island arena's inner disciples 'year-end competition had just begun.

All the inner core disciples from the three pavilions were present, but what surprised Lin Yi was that not all of the hundred golden core practitioners were dressed as inner disciples. Some of them were dressed as outer disciples, but they were all golden core practitioners.

Lin Yi only realized now that the competition wasn't only limited to the core disciples. Even outer disciples could fight if they were strong enough.

If one's strength and performance were outstanding, they might be chosen by some Big Shot and taken in as an in-name disciple. From then on, they would have a meteoric rise. There were many precedents of this.

To the inner disciples, the inner sect competition was just as important. It was an assessment for them by the three pavilions. Their performance would directly affect the allocation of cultivation resources for the next year. They could not afford to underestimate it.

Finally, this year's inner sect grand competition officially began. According to the previous years "practice, the person who presided over the inner sect grand competition was a senior member of the elder Council. And this year, the one who appeared was surprisingly Xu lingchong's grandfather, Xu Yuanzheng.

"The rules of this year's inner sect competition are very simple. It's the arena duels. It's similar to the previous years. This year's arena duels are divided into two categories, one against one and two against two!" Xu Yuan is currently looking around at all the Jindan stage disciples present, and loudly announces: "I'm sure all of you can understand this. After all, after entering the inner sect, it's no longer just a test of individual strength, but also a test of teamwork!"

Upon hearing this, everyone on the grandstand started to discuss among themselves. At the same time, they all nodded their heads. After entering the inner sect and becoming core disciples, they would often have to go out to carry out high-level missions. Regardless of the difficulty or danger, they were all extremely high and often needed to work in a team to complete them.

No matter how powerful a person was, if he didn't know how to cooperate with others, he would still be useless.

"Regardless of whether it's a one-on-one or a two-on-two, only the top fifty will be able to obtain the corresponding Battle Points. The first place will get fifty points, and the second place will get forty-nine points. The points will be reduced in this order, and the sum of the two results will be your final result for this year's inner sect competition! Even if you won't be directly eliminated from the inner sect, you won't get any preferential treatment in terms of cultivation resources for the next year." Xu Yuan says indifferently while looking at everyone.

When the inner sect disciples on the stands heard this, their expressions became serious. At the Golden core stage, it was much more difficult to make progress than at the Foundation Stage. Without the assistance of a large number of cultivation resources, no matter how hard they worked, it would be difficult to make any progress even after decades of closed-door cultivation.

If they really fell out of the top 50, it meant that they could only get the most basic cultivation resources. It would be good enough if they could guarantee that they would not fall behind. As for going higher, they could forget about it.

"Alright, that's all the rules. You can go back and prepare. I'll give you five days to choose your teammates. The competition will officially begin in five days." As Xu Yuan finished speaking, his eyes paused in Lin Yi's direction for a moment before he turned around and left the stage with a playful look.

There were nearly a hundred golden core inner sect core disciples present, including some outer sect disciples who came to challenge Lin Yi. Most of them had friends and acquaintances, and they were all sitting together in groups of two or three. Only Lin Yi was alone, with no one around him.

At this point, Lin Yi realized the problem himself-he finally understood why he was called to the inner sect competition. It was most likely lingchong's doing-his grandfather was the person in charge of the competition, and he could easily pull some strings. What a sinister person!

With Lin Yi's strength and confidence, even if he had just reached the early golden core stage, he wouldn't be afraid of a one on one fight with these core disciples. But the problem was, there was still a two on two fight. What was he supposed to do?

There were close to a hundred people here, and other than Xu lingchong, Meng Tong, and Nan Tianba-his archenemies-Lin Yi didn't even know a single person, let alone an acquaintance. Who was he supposed to find to form a team?

Even with the Halo of the newcomer King, he was still a newcomer after all. His strength was at the bottom of the pool. Moreover, the people present were not familiar with him at all, let alone cooperation and tacit understanding.

Even if some people found him pleasing to the eye, the problem was that if he rashly formed a team with a rookie who didn't know anything, what if he became cannon fodder? this wasn't a joke. The risk was too great!

But if he couldn't find anyone to form a team, he could still participate in the team competition, and he'd have to face a 1v2 then. Unless these inner disciples took some benefits and went easy on him, he had no chance of winning.

Even if Lin Yi was the strongest golden core, he'd only just entered the Golden core stage. If he was in the mid-stage, he might have a chance, but he was in the early-stage! He'd lose for sure!

Xu lingchong and Meng Tong smiled at each other as they saw Lin Yi frowning and speechless from afar. Lin Yi had really fallen into their trap this time.

"Hehe, chongchong, you've really given him a big problem this time. I've known this guy for a year, but I've never seen him in such a troubled state. I've really learned something today." Meng Tong gloated.

"Brother Meng, this is just a small punishment. It's just an appetizer. There will be many more opportunities in the future. I'll make him feel like he's in heaven!" Xu lingchong's mouth twitched with a vicious expression.

"It's best if we can draw him directly this time, then we can take revenge!" Meng Tong coldly nodded.

Ever since his personality changed, Meng Tong didn't act like he was grinding his teeth at Lin Yi, but that didn't mean his hatred was gone. On the contrary, every time he felt his heart break, his hatred for Lin Yi deepened!

He did not show it in the past because he knew that he did not have the strength. But now that he had Xu lingchong, the situation was completely different.

He was also an early golden core Master now, and while he might not have a 100% chance of winning against Lin Yi in a one-on-one fight, killing Lin Yi would be a piece of cake with the addition of an intermediate golden core Xu lingchong-he was already thirsty for more!

"Although my grandfather is the person in charge of the inner sect competition, the drawing of lots is supervised by the elders. It's extremely difficult to tamper with it, and it'll still be up to luck to get Lin Yi." Xu lingchong shook her head and said with a serious expression, "It'll be great if we can get it, but if we can't, we can't lose the big picture because of the small. This year's inner sect competition is the key. As long as we can shine, with my grandfather's help, it's not impossible for us to get the position of the second senior brother in charge of the inner sect!"

Chapter 4195 Lacking A Teammate

Xu lingchong was now a mid-stage golden core expert, and the position of the eldest senior brother of the soaring Sky Pavilion's steward was a position belonging to an outer sect disciple. According to the rules, he could not continue to occupy it. Moreover, he would definitely join the inner sect next.

With his ambition and means, it was impossible for him to be willing to be a mediocre inner sect disciple. Even if he did not have enough experience and Foundation to compete for the position of the inner sect's eldest senior brother, he could still give it a try to be the second senior brother.

He had been attending all kinds of public events with this plan in mind. As long as he performed outstandingly in this inner sect competition, and with his grandfather Xu Yuan's Secret operation, he would have a great chance of becoming the second senior brother in charge of the inner sect.

"As for Lin Yi, I'll have to deal with him sooner or later, he can't escape from my hands!" Xu lingchong smiled coldly.

After Xu Yuanzheng's announcement, the crowd of golden core stage disciples started to leave. Lin Yi could only stand up and return to the pavilion, feeling helpless and depressed.

He didn't even know a single one of these inner disciples, so who was he supposed to team up with?

Thinking about it carefully, other than the newbies from the pavilion and his rival Xu lingchong, Lin Yi didn't know many people from the other three pavilions. There weren't even a lot of outer disciples, let alone inner disciples, and none of them were even at the Golden core stage.

Shangguan LAN 'er, Huang xiaotao, Cong Zhima, King of junk, as well as the miserable Shixiong and Lu bianren ... Lin Yi only knew these six people.

Among these six people, Lu bianren's strength was strong enough, but he hadn't shown his face for a long time. Listening to the bitter senior brother's words, it seemed that he had left the island for a mission. He didn't even get to see them, let alone be partners.

The miserable senior brother was busy with the welcoming new pavilion. His strength was far from the Golden core stage, so he couldn't help much.

As for the king of junk, he was not good at fighting at all. Furthermore, he had to look after the weapon-casting pool and could not escape.

Cong Zhima, on the other hand, was loyal and left a pretty good impression on Lin Yi, but he hadn't come into contact with him since the day he'd gathered at tianwu mountain. He wasn't strong enough either.

In this way, only Shangguan LAN 'er and Huang xiaotao were left. Among them, Shangguan LAN' er did not participate in the year-end competition at all, and she did not have the slightest intention of pursuing martial arts. Anyway, she was an innocent girl who did not like to cultivate. Shangguan Tianhua could not do anything to her, so he could only let her do as she pleased.

If Lin Yi had asked her to form a party, she'd probably be happy to help, but she was too weak and wasn't good at fighting. She was soft-hearted too, and it was fine if they were good friends.

Now, there was only Huang xiaotao left. Lin Yi thought about it and felt that she was a rare and good candidate!

According to the rules, even official outer sect disciples could participate in the inner sect competition as long as they had successfully formed their gold cores. Once they participated, they would be promoted to become a core disciple regardless of their final results!

The only difference was that if one performed well in the inner sect competition, there was a possibility of being accepted as an in-name disciple by the elders and higher-ups, but if one's performance was not good and no one showed any interest in him, he could only become an ordinary inner sect disciple and cultivate with the inner sect manager.

Therefore, as long as Huang xiaotao could successfully form her Aurous core, she would be able to participate in this year's inner sect competition. Moreover, she had been doing trial missions at the

North Island cultivators Association all year round, so her combat strength was also first-class among experts of the same level.

He'd seen it with his own eyes back at the sky Noon Mountain-even if her forest stealth and archery skills weren't that useful in a fight, they were still a threat that couldn't be underestimated.

He would be a good teammate! Lin Yi immediately went to Huang xiaotao and told her about the inner sect competition.

"That's why I'm in need of a teammate now. I can't find a more suitable candidate than you at the moment. I wonder if you're willing to help me, Xiao Tao?" Lin Yi asked.

"Of course I'm willing to!" Huang Xiao Tao said happily. She knew that Lin Yi rarely asked for help, and now that he was willing to come to her, it showed her position in his heart. This was something that she couldn't ask for more!

"That's great!" Lin Yi let out a sigh of relief. He'd expected Huang xiaotao to be willing to help and thought that she was an excellent teammate candidate, but what if she didn't like to fight? I can't force people to do things they don't want to do!

"But I'm only at the late-stage of the foundation building realm now. I don't think I can participate in the inner sect competition, right?" Huang xiaotao's excitement faded, and she suddenly reacted. She lowered her head and said weakly,"

"That's not a problem. " Lin Yi was prepared for this-he smiled faintly."I can guarantee that you'll form your gold core within five days!"

"Ah? How is that possible?" Huang Xiao Tao's mouth was wide open and she said in disbelief, "I'm still two whole levels away from the perfected Foundation establishment stage, let alone the core formation stage ..."

Even if everything went smoothly, she would still need at least three to five years before she could start preparing to break through to the Golden core stage. If there were any accidents midway, the time spent would be even longer.

Core formation in five days? This was simply a fantasy. In the perception of ordinary people, it was completely impossible.

"Do you still have your Wandu golden core fruit?" Lin Yi smiled slightly. The reason he asked for Huang xiaotao was not only because Huang xiaotao was suitable to be a teammate, but also because this was an essential key.

"It's right here, I haven't taken it yet! But even if I take it now, it's useless. This can only help a Jindan stage expert level up. It can't possibly make me, a late Foundation Stage expert, directly become a Jindan stage expert, right?" Huang xiaotao said, confused.

"Then there's no problem. Come with me." Lin Yi smiled mysteriously and didn't say anything else. He quickly pulled Huang xiaotao and ran to his cave.

Huang Xiao Tao was embarrassed and shy, letting Lin Yi pull her as she couldn't help but let her imagination run wild.

What was Lin Yi doing? After saying these irrelevant words earlier, he suddenly pulled her to the cave abode in the blink of an eye. Could it be that he wanted to ...

Aiya, this is so embarrassing! As she thought about it, Huang xiaotao's face suddenly turned red. Fortunately, she was wearing a veil, otherwise, she would have attracted the attention of passers-by.

The two of them rushed to Lin Yi's cave. Lin Yi gestured for Huang xiaotao to sit on the bed and said casually, "Hurry up, take off your clothes first!"

"Oh." Huang xiaotao responded subconsciously, but then she suddenly came to her senses, "Ah? Take ... Take off my clothes?"

"Yes, hurry up. We don't have much time." Lin Yi replied without turning his head as he prepared.

Chapter 4196 Helping You Reach The Golden Core Stage!

"Then ... Okay then ..." Huang xiaotao agreed shyly. Her heart was already on Lin Yi, and she thought that she would be Lin Yi's sooner or later. Although today was a little sudden, it was still acceptable.

Huang xiaotao shyly took off all her clothes and lay flat on the bed. She closed her eyes tightly and her long eyelashes trembled. She was very nervous.

Lin Yi turned his head and gulped at the sight of her jade white body. He was surprised, "Why are you lying down? sit up."

"Ah?" Huang Xiao Tao opened her eyes and met Lin Yi's eyes. Her face blushed even more and she said shyly, ""That first time ... Sitting down ... It's uncomfortable, right ... I heard ... Girls lie down ..."

"Ugh ..." Lin Yi was speechless. He just realized that Huang xiaotao had misunderstood him. He was so focused on increasing Huang xiaotao's strength that he didn't think about it at all. He didn't pay attention to Huang xiaotao's expression at all. He didn't expect to be misunderstood like this.

However, now that he was suddenly reminded of it, he looked at Huang Xiao Tao's beautiful body. It was as if she was waiting for him to pick a ripe forbidden fruit. It was really tempting.

"Uh ... I didn't ask you to take off your clothes for that ..." Lin Yi used a lot of effort to move his eyes away from Huang Xiao Tao's body. He secretly swallowed as he explained, ""I'm trying to raise your cultivation. Based on past experiences, your clothes might burst open due to the sudden surge in zhenqi, so I'm asking you to take off your clothes first ..."

"Ah? "So that's how it is ..." Huang xiaotao was shocked. Lin Yi could actually help people increase their strength for no reason. This was unheard of.

But aside from her surprise, Huang xiaotao couldn't help but feel a little disappointed. Even if it wasn't to do it, she had already taken off her clothes and the opportunity was right in front of her. Why didn't Lin Yi ... Didn't he take advantage of it ... Was she so unattractive that he didn't even fall for her after seeing her?

As the saying goes, a woman's heart is unfathomable. The focus of a woman's view of things was never something a man could imagine.

What they didn't know was that all Lin Yi was thinking about right now was the inner sect competition. From being called to the competition for no reason, to finding out that Xu Yuan was hosting the competition himself, and now forcing him to find teammates ... It was obvious that there was a conspiracy behind all of this-one mistake and he'd fall into Xu lingchong's trap!

Now that he thought about it, it was no wonder that Xu lingchong and Meng Tong were always together. No matter where they went, they would bring Meng Tong along. Moreover, Meng Tong's strength had suddenly soared to the early gold core realm. This was clearly the rhythm of Xu lingchong wanting to form a team with Meng Tong. However, he was alone. How could he find someone to form a team with in such a short time?

If it wasn't for the fact that it could increase one's strength, and if Huang xiaotao didn't have the Wandu golden core fruit, Lin Yi would've really been screwed over by Xu lingchong. If he was forced to take on two people at once and ended up with nothing he could do, he'd really become a laughing stock for the three pavilions.

While Huang xiaotao was still lost in her thoughts, Lin Yi was already prepared. He immediately took Huang xiaotao's wrist and started circulating the art of Dragon mastery to help her increase her strength,"You just need to use the incantation!"

"Ah, okay!" Feeling the warm Qi flowing into her body from Lin Yi's palm, she watched as it quickly merged with her own Qi and grew steadily. Huang xiaotao finally let go of all those messy thoughts and was completely shocked.

This wasn't an illusion, it was a real increase in strength. Lin Yi's move was a heaven-defying skill!

Two hours later, Lin Yi slowly retracted his palm. Huang xiaotao's strength was now at the perfected Foundation Stage!

What was even rarer was that Huang xiaotao was calm and composed at the moment. The Qi in her body was like her own arm, and she didn't feel forced at all. Even if she took a Supreme-grade pill, it would take at least a few days to control this sudden surge of Qi. Lin Yi's skills were indeed superb.

"Take a rest here and consolidate your strength. Give me the Wandu golden core fruit, and I'll refine a golden core for you. Then, you can take it and break through to the Golden core stage in one go!" Lin Yi ordered.

"Oh, oh." Huang xiaotao nodded obediently and took out a small wooden box from her clothes. It contained the Wandu golden core fruit and she handed it to Lin Yi.

However, he suddenly came to his senses after that. What? Lin Yi could even make golden cores? Just as he was about to ask, a situation occurred.

Lin Yi had just nodded and was about to start refining when someone triggered the cave's restriction.

Huang Xiao Tao was shocked. She was naked now, and it would be bad if someone saw her. She quickly shrank into the blanket on the bed and wrapped it tightly, not daring to show her face.

Lin Yi frowned. He didn't want to pay attention to it at first-the Golden core was his priority right now. Everything else was just floating clouds.

Normally, the people who would come to find him were either Shangguan LAN 'er or the miserable senior brother and the others. When they found that no one agreed, they would naturally leave, and they would just explain a little later.

What Lin Yi didn't expect was that this person didn't seem to have any intention of giving up at all. Not only did he not retreat, but the restrictions were activated even more violently. If this continued, they might just destroy the cave's restrictions at the next moment. After all, this was a newbie's cave, and the restrictions were very low level. Anyone with slightly higher strength could easily destroy it.

Helplessly, Lin Yi could only get up and open the door. However, the two people standing at the door made his eyes jump. It was Xu lingchong and Meng Tong.

"Pretentious leader, you took so long to open the door. What are you doing hiding inside?" Meng Tong glanced at Lin Yi and smiled evilly.

After holding it in for so long, it was finally time for him to hold his head high. At this moment, his heart could be said to be unspeakably refreshed. Even the haze of the pain of having his heart broken twice a day could be temporarily thrown to the back of his mind.

In his eyes, Lin Yi wasn't far from being stepped on by him!

No matter how strong Lin Yi was, he was still only an early golden core. Meng Tong was also an early golden core now, and he was even stronger than normal early golden core Masters because of his dual cultivation with Xu lingchong!

Even if Lin Yi had the record of killing su Zhaohe in one move, he couldn't be underestimated. However, he could cooperate with Xu lingchong and they would be able to defeat each other easily. Lin Yi's glorious days were gone forever.

Chapter 4197 Consider Yourself Lucky

"How's it going, Lin Yi? did you find a partner?" Xu lingchong, on the other hand, said proudly, "If you really don't have one, I can introduce someone to you. Of course, you can also admit defeat and give up the competition. After all, this inner sect competition is not a small matter. With your strength, even if you don't die by luck, it's easy for you to be disabled. That would be too miserable, don't you think?"

"The two of you came here just to tell me this?" Lin Yi looked at the two and said faintly, "Then I really have to thank you for your kind intentions. I can find my own partner."

"Ha! We've been friends for so long, there's no need to pretend in front of us, right? You don't have to be polite with me, and you don't have to be embarrassed. If you need it, I can really introduce you to a partner. I can't just watch you become a laughing stock, right? How pitiful would it be if he couldn't even find a partner! Hahahaha!" Xu lingchong laughed without restraint.

Of course, he wasn't so kind as to introduce a partner to Lin Yi-there was no way Lin Yi would agree, and if he did, he'd be digging his own grave. He didn't even have to guess to know that this partner was one of Xu lingchong's people-he was a real time bomb that could kill people!

"There's no need to say anything more, please return!" Lin Yi didn't want to waste time with these two and was about to close the door.

"You're in such a hurry to let us go?" Meng Tong seized the rare opportunity and was about to mock him when he suddenly saw the scene inside the cave from the corner of his eye. He was stunned."Eh?"

At this time, Xu lingchong also noticed that something was wrong inside. There seemed to be a person curled up under the blanket on the bed. More importantly, there was a woman's dress that had been taken off on the side!

Xu lingchong's expression changed instantly as he said sternly, "Is it that bitch, Shangguan LAN 'er?!"

Although he was no longer a man, and he no longer had any thoughts about Shangguan LAN 'er, his heart was still twisted. As long as he saw Shangguan LAN' er with Lin Yi, his heart would be extremely unhappy, and he wanted to cut this couple into eight pieces on the spot!

Without waiting for Lin Yi's reaction, Xu lingchong darted in like an arrow, wanting to lift the blanket without a word. This wasn't an impulse, but a plan.

As far as he was concerned, if his guess was right, and the one in bed was indeed Shangguan LAN 'er, then as long as they exposed Lin Yi's Secret affair, it would definitely affect Lin Yi's future. If the follow-up was good, it was even possible that Lin Yi's future would be completely destroyed.

After all, Sky Class island's customs were basically the same as the ancient times. Even practitioners were still very strict about the boundaries between men and women. It would be fine if Lin Yi and Shangguan LAN 'er were a married couple, but they didn't have any status now, and they were still having sex without any restraint.

If this got out, it wouldn't just be an offense, it'd be a slap to Shangguan Tianhua's face-he'd be the first one to come for Lin Yi!

Xu lingchong's sudden appearance caught Lin Yi off guard. He only reacted when he saw Xu lingchong about to lift the blanket and instantly chased after her.

Even if it was not Shangguan LAN 'er, Huang xiaotao was still naked inside. How could he let Xu lingchong, that bastard, see it?

Lin Yi moved later but reached first. He grabbed Xu lingchong's collar from behind, and with a burst of pure Qi, he pulled Xu lingchong's head. Xu lingchong was pulled back several feet and crashed into the wall. The force was so great that it almost destroyed the cave's restriction!

"F * ck, you're looking for death!" Xu lingchong fell down and immediately flew into a rage out of humiliation. He got up and was about to make a move.

He was a mid-stage golden core practitioner, after all-he was only in a bit of a sorry state, but he wasn't injured at all. If he hadn't been caught off guard, Lin Yi wouldn't have gotten him so easily.

Meng Tong, who was standing beside him, was also eager to try. This time, Lin Yi made the first move, and he couldn't blame anyone for his own death. The three pavilions "rules didn't state that one couldn't defend themselves when attacked.

However, before the two of them could make a move, Lin Yi spoke first with a cold smile, ""Senior brother Xu, are you two breaking into the cave? The day of the inner sect competition was just around the corner. If the higher-ups were to find out about this, do you think you'll still be able to participate in the inner sect competition? Hehe ..."

"You! Hmph!" Xu lingchong was instantly rendered speechless. Only then did he realize that he was the one who barged into the cave abode first. According to the rules of the three great pavilions, anything he did was wrong. The other party could be killed without a second thought.

Meng Tong could only helplessly stop as well, but he still refused to leave. His eyes stared straight at the blanket on the bed, and he wished he could pull the blanket away to see the face of the person inside.

"What's wrong? The two of you still don't want to leave? Do you mean that you want me to get someone to escort you out?" Lin Yi stood between the two and the bed, his lips curling coldly.

"Hmph, just you wait!" Xu lingchong retreated toward the door, showing weakness. However, he secretly gave Meng Tong a look, signaling for the two to attack at the same time.

As long as they could lift the blanket and prove that the person inside was Shangguan LAN 'er, they would be fine even if they were charged for breaking into the cave. At that time, the focus would be on Lin Yi, and he would die a horrible death!

Lin Yi knew what the two were trying to do, and he knew that things weren't looking good. One of them was a mid-stage golden core cultivator, while the other was an early-stage golden core cultivator. It would be impossible for him to stop them if they attacked him from the left and right.

Just as the two sides were in a confrontation, a series of footsteps suddenly sounded outside the door. It was the miserable senior brother, Xiao ran, and the others who had heard the vibration just now and rushed over.

"Junior Brother Lin, are you alright?" The door of the cave was wide open. The miserable senior brother looked at the tense confrontation in the room and couldn't help but worry.

"I'm fine. It's up to you two now, senior brother Xu. " Lin Yi said with a cold smile as he looked at the two.

"Hmph, you're lucky today. Brother Meng, let's go!" Xu lingchong saw that the situation was not good. Although he was unwilling, he could only retreat with Meng Tong.

With so many people watching, if they continued to force their way in, even if they found out it was Shangguan LAN 'er, it wouldn't do them any good, because Shangguan Tianhua wouldn't go after Lin Yi first, but the two of them. They couldn't take that anger!

Seeing the two leave unwillingly, Lin Yi finally let out a sigh of relief. After informing his miserable senior brother and the others, he finally closed the cave and let Huang xiaotao out.

"Have they already left?" Huang xiaotao carefully poked her head out from under the blanket.

Chapter 4198 How To Cooperate

"It's fine, these two idiots, don't worry about them! I'll immediately refine a golden core for you, and when you become a golden core stage master, we'll beat them up together!" Lin Yi said with a smile.

"Yes, yes." Huang xiaotao nodded repeatedly. She was really scared when Xu lingchong was about to rush over and lift the blanket. Fortunately, Lin Yi reacted fast enough, or her pure body would've been exposed.

Lin Yi immediately got ready to start refining the elixir, but after he sat down, he suddenly saw something in the corner of his eye. It was the corner of the wall where Xu lingchong hit the wall just now, and it seemed to be where Xu lingchong fell.

Looking at the appearance of the object, it was pitch black like a normal stone, but there was something special about it. It looked familiar, and Lin Yi's eyes brightened up after a moment of surprise. He quickly walked over and picked it up. After looking at it carefully, he was overjoyed.

"It really is star inkstone! Haha, Xu lingchong has really given us a big gift!" After Lin Yi confirmed it, he was overjoyed.

He'd used up more than half of the star inkstone already, and there wasn't much of the star and Ocean Energy left, but according to Lin Yi's previous experience, it was still enough for someone to break through perfectly.

This time, Huang xiaotao could also break through perfectly and form a ten thousand dollar pill. Lin Yi was still worried about this problem. After all, Huang xiaotao was one of them. It would be a pity if it was just a normal breakthrough, but he didn't expect this idiot Xu lingchong to come to him on his own initiative!

Sigh, I really don't know what to say. This is really a good person who can make people anxious!

From Xu Ling to Meng jueguang and Meng Tong, this group of people had always done good deeds without leaving a trace. Every gift was just right, and the money was bigger and bigger each time. If it

weren't for their straight sexual orientation, Lin Yi would've suspected that these people really loved him!

"Star inkstone? What's that?" Huang xiaotao blinked her eyes as she hid under the blanket.

"This is something that you can't buy no matter how many spiritual jades you have. You'll know later!" Lin Yi smiled and focused on the refinement.

With his previous experience, the second time he made a golden core was smooth and uneventful. He used the Wandu golden core fruit with the extra supplementary ingredients and made a Supreme-grade golden core. There weren't any surprises, but it was enough.

Lin Yi immediately ordered Huang xiaotao to consume this freshly made Supreme-grade golden core. At the same time, he helped her extract the star power and Ocean Power from the star inkstone to ensure her perfect breakthrough.

Breaking through to the Golden core stage perfectly was a shocking thing in the eyes of others, and it was even harder to help someone break through perfectly. However, Lin Yi had his own experience in breaking through, and he had helped Tian Gang and Xue Li before, so he was very familiar with this.

Time passed in a flash. Huang xiaotao's face was full of disbelief as she felt the changes in her body. Even though Lin Yi had explained it to her very clearly, she still felt that it was unreal at this moment, as if she was in a dream.

"I ... I'm already an early jiedan stage expert?" Huang Xiao Tao walked around in a circle, feeling both excited and scared.

Before this, the Golden core stage was only a level that appeared in her dreams. Not to mention the Golden core, even if it was the foundation building great circle, it would be very good to be able to reach it within ten years. If she really relied on her own strength to form the Golden core, let alone whether she had such great potential, even if she could, it would at least be a matter of decades later.

Although she had a Wandu golden core fruit in her hand, it was very difficult to find someone to refine a golden core with such a Holy fruit. Even if she found an Alchemist of a sufficient level, they might not be able to succeed.

After all, for most alchemists, the higher the grade of the pill, the lower the success rate. This was common knowledge. If Huang xiaotao really went out to beg for help with this Wandu golden core fruit, not only would she have to spend a large amount of spiritual Jade, but the end result would most likely be a loss.

However, when it came to Lin Yi, not only did he know how to make elixirs, he even succeeded in one try. Even if Huang xiaotao didn't see much of the world, she knew that the Golden core was a fifth-grade elixir, and it was the top of the fifth-grade elixir. Normal elixir Masters couldn't make it!

At that moment, Huang xiaotao looked at Lin Yi with a strange light in her eyes. From the first time they met on tianwu mountain, she suddenly realized that her life had become more exciting.

Every time she saw Lin Yi, she would be surprised. The Golden core level was a very far away level, but now she was able to do it so easily, and it was all Lin Yi's doing.

Strength and character, alchemy skills, and the ability to help people break through perfectly-all these things added together made Lin Yi a mysterious man.

Such a man was enough to move any girl, especially Huang xiaotao, who was so good to her. Not only did he save her life, but he also helped her restore her appearance and improve her strength. It would be strange if Huang xiaotao's heart was still not moved.

Huang xiaotao suddenly stood on her tiptoes and kissed Lin Yi on the cheek. She then hid in Lin Yi's arms, her face red to the tips of her ears.

"Then ... Why don't you have me today ..." Huang xiaotao's face reddened as she mustered up her courage and whispered in Lin Yi's ear.

One must know that Huang xiaotao was naked at the moment. With such a peerless beauty in his arms rubbing against him and saying such heart-racing words, no one would be able to hold back.

Even with Lin Yi's amazing self-control, he couldn't help but feel restless at this time. He even wanted to F * ck Huang Xiao Tao on the spot, but when he thought about it, he didn't have much time left. The inner sect competition was pressing.

"The thing between a man and a woman is indeed attractive, but it's also easy to get lost in it. The inner sect competition is coming up soon, so I'll help you consolidate your strength as soon as possible, and then we'll discuss how to cooperate." Lin Yi used the last bit of his willpower to force himself to swallow.

"Ah? Yes, yes!" Huang Xiao Tao was stunned for a moment, then she nodded her head shyly, her face blushing in embarrassment. She was indeed too impatient. At this critical juncture, if she were to waste

her energy on such a matter and affect the upcoming inner sect competition, it would be too late for regrets.

"Put on your clothes first. Tell me in detail about the martial arts techniques and abilities you're best at." Lin Yi was a little reluctant, but he forced himself to look away from Huang xiaotao.

Chapter 4199 Wild Fire Eight Trigrams Palm

"Oh." Huang xiaotao lowered her head shyly. As she put on her clothes, she said, "I'm good at very few martial arts. You should have seen them when we were at hucai tianwu mountain. I'm good at jungle stealth and archery, and nothing else."

"Is that so ..." Lin Yi couldn't help but fall into deep thought. He'd already seen the power of this combination. It was a tyrannical existence in the forest, and it was a combination that could take risks and fight spirit beasts. It was enough to eat everything in one move.

However, if it was used in an open battle, this combination would not have any advantages. Instead, it would naturally fall into a passive position. Whether it was the jungle stealth technique or the archery technique, once they were in the ring, the effect would be greatly reduced.

If it was two against two, Huang xiaotao could easily become the opponent's breakthrough point. Lin Yi wasn't a defensive master and it was hard for him to take care of her. Their skills didn't match well either. It was likely that not only would Huang xiaotao not be able to help Lin Yi, but she would also become his burden.

There were only two days left, so they had to find a way to solve the problem of cooperation. Huang xiaotao had just advanced to the early golden core stage. Even if it was a perfect breakthrough, it was easy to imagine her strength and Foundation. Among the many inner core disciples, she was definitely at the bottom. If her martial arts skills were at a disadvantage, then there was no way to play.

From the looks of it, the situation of the inner sect competition was still not optimistic.

Lin Yi couldn't help but fall into deep thought. With Huang Xiaotao and him as a team, it was impossible to rely on pure strength to crush them. Also, because of Huang Xiaotao's existence, if they were to enter a prolonged battle, the situation would be very unfavorable. The only way was to end it quickly.

If he wanted to end the battle quickly, it was definitely impossible to rely on his own strength alone. He had to integrate Huang Xiaotao's strength into it. It was best for the two of them to find a way to complement each other and work together to exert their greatest power. They had to strive to kill one of the other party's people at the beginning of the battle. That way, it would be easy to fight.

"Xiao Tao, your mental cultivation method is of the fire element, right?" Lin Yi suddenly asked. He'd already noticed this when he was transferring Qi into Huang Xiaotao, but he still wanted to confirm it with his own mouth.

"Yes, that's right!" Huang Xiaotao nodded.

"Well, we can make an issue out of this, let me think ..." Lin Yi closed his eyes and pondered for a while. After half an incense's time, he suddenly opened his eyes and slapped his thigh. "Right, this is it!"

What he was thinking about now was the combined mental cultivation technique he had obtained from the Zhuang family in the secular world. If this mental cultivation technique was used by one person, it would be of little value. However, if two people were to use it together, it would be extremely mysterious. Not only could it perfectly stack the strength of two people, but it could even achieve an astonishing effect of one plus one being greater than two, forming an even more powerful combination!

As long as this joint attack mental cultivation method was used properly, for example, the power produced by the joint attack of two early jiedan stage Masters was comparable to the full power attack of a late jiedan stage master. It was really powerful!

"How is it? Have you thought of any good ideas?" Huang xiaotao's eyes were sparkling as she looked forward to Lin Yi's surprise.

"I do have a way, but I thought of a combined technique. We only have two days ..." Lin Yi frowned. Although the heavenly path allowed one to change the practitioner's Arts, it was impossible to make Huang xiaotao practice it from scratch in two days. There was no time.

Moreover, he hadn't carefully studied this joint attack mental cultivation method. Whether it could be used by Jindan stage Masters was still unknown. After all, this was a mental cultivation method that had been passed down in the secular world. It was very likely that, like other mental cultivation methods, there was no follow-up after reaching the heavenly path.

"Oh, then let's think about something else. It's really troublesome to re-cultivate mental cultivation methods. It'll be great if it's a martial arts technique." Huang xiaotao consoled.

"Yeah!" Lin Yi's eyes brightened. It was unrealistic to let Huang xiaotao practice this combination technique again, but what if he created a combination technique himself?

With the omnipotent Arts and practitioner's Arts, it wasn't hard for Lin Yi to create a combination skill as long as he could learn from them. He'd created a lot of martial skills before, but they weren't combination skills.

By creating their own joint attack martial arts technique, they could tailor it for Huang xiaotao. This was much easier than asking her to re-cultivate her heart technique. Although two days was tight, if everything went well, it should be enough.

Time was of the essence, and Lin Yi immediately started to practice according to what he had in mind. It was only a short while, but he had already thought of a very suitable skill in his mind, the raging fire Bagua Palm.

Huang xiaotao cultivated a fire-type mental cultivation method, so she could naturally use the wild fire Fist. In theory, she could also practice the wild fire Eight Trigrams palm.

Of course, Lin Yi didn't want Huang xiaotao to practice the palm. Even if she could, it would only be one plus one for both of them to use the palm. It wouldn't be more than two, and it wouldn't be enough for the inner sect competition.

What Lin Yi was about to practice and create was the wild fire Eight Trigrams palms. He split into two parts and kept on circulating his Qi, exploring the moves.

Huang xiaotao stood to the side and watched. Although she could not understand the martial arts techniques he was demonstrating, she was still a newly advanced early golden core Master, so she could still feel the profoundness of it.

Finally, after hundreds of tries, Lin Yi slowly stopped.

"How is it?" Huang xiaotao asked hurriedly.

"That's right. This is the move. Wild fire Eight Trigrams palms!" Lin Yi nodded, satisfied. "Come, I'll teach you now!"

With that, Lin Yi immediately explained everything to Huang xiaotao in detail, from the tips to the specific moves. He taught her step by step with only one purpose-to let Huang xiaotao get used to it in a short time.

In terms of potential and talent, Huang xiaotao was actually far superior to ordinary people. Otherwise, with her weak background, she would not have been selected to the rising Sky Pavilion with su Zhaohe.

Lin Yi's newly created palm of the wild fire Eight Trigrams was tailored for her, and he guided her step by step, so it didn't take long for Huang xiaotao to master it.

She'd only been copying Lin Yi at the start, but with her level of comprehension, she'd be able to put it to good use during the inner sect competition as long as she practiced with Lin Yi for the next two days.

With every practice, Huang xiaotao's understanding of the wild fire Eight Trigrams palms deepened, and her admiration and shock towards Lin Yi increased as well!

Chapter 4200 That's Great!

In such a short period of time, he was actually able to deduce and create a martial skill out of thin air. Although there was only one style, this was a joint attack martial skill tailored for the two of them. Ordinary people wouldn't even dare to think about it, let alone create it.

But Lin Yi, not only was able to create it out of thin air, this palm of raging fire Eight Trigrams didn't look like it was made up on the spot. Instead, it was profoundly refined, comparable to some traditional martial arts that had been passed down for hundreds of thousands of years.

If she hadn't seen it with her own eyes, Huang xiaotao wouldn't have believed that Lin Yi had created this martial skill in such a short time.

Not only could he increase one's strength, he could also make golden cores, and now, he could even create martial arts techniques. Huang xiaotao's admiration for Lin Yi only grew. She was a little dumbfounded now. There was actually such a powerful person in this world!

Even the legendary pill God and medical Saint Zhang Liju wouldn't be able to match up to this, right? In fact, she might not even be as good as Lin Yi. After all, this master Zhang's legend was only passed down by word of mouth, but Lin Yi's magic was something she had seen with her own eyes!

For the rest of the time, Lin Yi and Huang xiaotao stayed in the cave and went into seclusion to practice the newly created palm of the wild fire Eight Trigrams.

Although it was new, it was very easy for Lin Yi to master it. Huang xiaotao's control of the fire was getting better and better, and her cooperation with Lin Yi was getting better and better. When Lin Yi felt that it was almost complete, the two tried to use it together, and the power was actually comparable to the peak late golden core stage!

If Lin Yi didn't control it, the power of this move would be enough to pierce through his entire cave, even the restrictions and walls!

Huang Xiaotao herself was shocked, but Lin Yi nodded in satisfaction. He was confident in the skill he created, but he only set it as a late-stage golden core from the start. He didn't expect to still underestimate the power of this joint attack.

The power of the wild fire Eight Trigrams palms was equivalent to the full blow of a peak late golden core expert. However, the two of them were only in the early golden core stage. Such a martial technique could be called heaven-defying.

If the two of them were to improve their strength a little more, they would really be invincible in the Golden core stage. If he were to bring Huang Xiaotao out in the future, she could just attack anyone she didn't like and any golden core stage expert would be crippled even if they didn't die!

After returning from Lin Yi's cave, Xu Lingchong and Meng Tong weren't willing to give up and didn't plan to let Lin Yi go so easily.

They couldn't stay there any longer, so they specifically ordered Murong Zhen to keep an eye on Lin Yi's cave, and to report to the two as soon as Lin Yi or Shangguan Lan'er came out.

However, what the two of them did not expect was that they did not even need to wait for news from Murong Zhen. The moment they returned to the territory of the rising Sky Pavilion, they were met with Shangguan Lan'er.

The two of them were stunned on the spot. They scratched their heads in unison. What the hell was going on? Why wasn't the woman in Lin Yi's bed Shangguan Lan'er?

There were only a handful of female practitioners in the three pavilions-who else would be with Lin Yi other than Shangguan LAN 'er?

When Shangguan LAN 'er saw the two of them, she turned her head away in disgust, pretending not to see them, and was about to walk past them.

At this moment, Xu lingchong suddenly grinned and took the initiative to walk up to him.

"Junior Sister LAN 'er, long time no see. How have you been?" Xu lingchong greeted with a smile.

"There's nothing good or bad about it. Is there something you need from me, senior brother Xu?"
Shangguan LAN 'er's eyelids twitched. This guy hadn't bothered her for a long time. Why did he stick to her like sticky candy today? how annoying!

As Shangguan LAN 'er spoke, the little Curly Bear beside her dragged the big scissors from before and swaggered in Xu lingchong's direction, cutting wildly. Those who were a little timid would probably be scared stiff by this little guy.

Especially Xu lingchong. Last time, it was this giant saber that cut off his manhood. Now, this scene was simply sprinkling salt on his wound. This wasn't enough, he even needed to add cumin!

Even Shangguan LAN 'er herself was shocked by this scene. She did not expect the little fellow to dare to provoke her in such a direct manner. She hurriedly stepped forward and blocked it behind her. If Xu lingchong were to fly into a rage out of humiliation and decide to kill the little Curly Bear, she would not be able to stop it with her strength.

However, to Shangguan LAN 'er's surprise, Xu lingchong did not get angry. Instead, he smiled nonchalantly, as if he did not take it to heart at all.

"There's indeed something. I think it's necessary to let Junior Sister LAN 'er know so that you can be mentally prepared." Xu lingchong pretended to be mysterious.

"Oh? What's the matter?" Shangguan LAN 'er frowned and looked at him, thinking, "what is this annoying guy trying to do?"

"I just came back from Lin Yi's cave and found a woman on his bed. She even took off her clothes, sigh ..." Xu lingchong shook his head and pretended to be sorry. "But don't rush, Junior Sister LAN 'er. Some men, as long as they're strong enough, like to mess around. It's human nature, and Lin Yi's a man too, he has needs in this area ..."

The reason why Xu lingchong deliberately told Shangguan LAN 'er about this was to create trouble for Lin Yi. Since the woman in his cave wasn't Shangguan LAN 'er, then she'd use this to sow discord and let Shangguan LAN 'er make a scene herself!

At that time, Lin Yi would be too busy to take care of himself, and even if he participated in the inner sect competition, his condition would be greatly reduced.

To be honest, lingchong may be a mid-stage golden core cultivator now, and he'd returned with a bang, but he'd learned his lesson-he didn't dare underestimate Lin Yi.

Now that he was dual-practitioning with Meng Tong, he was undefeatable in double-play, but if it was one-on-one, he still had the confidence to win against Lin Yi, but he still had to be careful.

After all, Lin Yi killed su Zhaohe in one move, and su Zhaohe wasn't a simple person. If they were at the same level, Xu lingchong didn't think he could win for sure, so Lin Yi was no small matter. They had to be careful!

Naturally, Xu lingchong wanted to make use of this opportunity to piss Lin Yi off. If he could make Shangguan LAN 'er fall out with him directly, and even become enemies with him, that would be for the best. Even if that couldn't be done, at least he could distract Lin Yi, so why not?

"Oh, really? That's great!" However, Shangguan LAN 'er's reaction was unexpected. Not only was she not angry, but she was also very happy.
