

Bodyguard 4241

Chapter 4241 Exploring Lufeng Forest

"Little brother, why do we have to wait until the 8th of next month? The port is so big, and there are so many ships, is this the only one going to arc city?" Lin Yi asked, stunned.

"Hey, are you two new here? This is the Zhen Duan Sea area, and the black arc city is in the black arc Sea area. Not only is it a long distance from here to the black arc city, but the two sea areas are often at war, and it's very chaotic. If you don't manage everything well, you can't get there at all!" The waiter explained to the two, "so ordinary passenger ships can't do this business at all. In the entire dock, there are only two or three experienced ships that take this route. It will take a month to go back and forth. You just have to wait for a while ..."

"Even if there are only two or three ships, each round trip will take a month. We don't have to wait for a whole month, right? Could it be that the 8th of next month you mentioned is the one that just left?" Lin Yi said with a frown.

"That's right. Actually, other than the one that just left, there's another slightly bigger one that set sail half a month ago. It should be docked at black arc city right now and will return here in half a month. However, the slots for this ship have already been fully booked, so you two can only wait a little longer." The shop assistant shook his head and suggested, ""If you're leaving on the 8th of next month, I'll book two seats for you. However, you'll need to pay a deposit of ten spiritual jades first. "

"Alright then, thank you." Lin Yi thought about it-it seemed like that was the only way now. He gave the guy ten pieces of spiritual Jade-no matter what, it was better to reserve two seats first. Even if he didn't take the boat, he didn't care if he wasted ten pieces of spiritual Jade.

"Alright, the 8th of next month. Please come early," The waiter took the spirit Jade and ran to the wooden house that looked like a toll station. He took out two tickets and gave them to Lin Yi and Lin Yi.

After keeping the ticket, Lin Yi turned to Huang Xiao Tao, ""Since we're already here, let's just take things as they are. In any case, we don't have any other choice right now, so let's just stay here and take a look."

"Alright, previously the law enforcement Hall's information said that Wu Bao Liang appeared in the wind arc Sea area, but the information might not be accurate and timely. Moreover, he might not always stay in the wind arc Sea area, he might even run to the nearby Sea area." Huang xiaotao consoled.

"Mm, that's true. Let's try our luck here first." Lin Yi nodded.

In fact, he thought that it might not be a bad thing to stay here for the time being. After all, Cheng qiitian was still eyeing black arc city covetously. It was better to avoid this threat.

"Actually, I think it's very strange. Li Yanji and Guan Zhiyuan both lost their darts, but they actually left us behind and rushed back in such a hurry. Aren't they just asking for a scolding? I don't know what they're thinking ..." Huang xiaotao suddenly could not help but Mutter.

"They probably have other plans. When they go back, they'll push the responsibility to the two of us. When we go back, the matter will have already been concluded." Lin Yi said with a smile, not thinking much of it.

It wasn't hard to guess from their attitude towards him and Huang xiaotao, but Lin Yi's decision to become a bodyguard was an accident. He didn't care about these things and couldn't be bothered to care if these people would slander him.

"If that's the case, then they're too dirty. It was because they surrendered that the situation became like this. Otherwise, the DART wouldn't have been lost." Huang xiaotao said indignantly.

"There's no knowing what's in a person's heart. Who knows?" Lin Yi shook his head and changed the topic, "actually, I think there's something else that's strange. Those four peak late golden core stage cultivators seemed to have planned this, but they didn't know that we were taking the escort route in the sea fog. How could that be?" Unless ..."

"Unless what?" Huang xiaotao blinked and asked.

"unless there's some other inside story." it was just a bold guess, and lin yi didn't have any concrete evidence yet, so he didn't go into the details. "forget it. we'll be staying here for a month. let's find an inn to stay in first."

"alright," he said. huang xiao tao nodded, and her body suddenly felt heavier. lin yi had taken off his coat and put it on her, and her heart felt warm.

lin yi did this because he'd learned his lesson. although huang xiaotao was wearing a veil and people couldn't see her face, her exquisite figure couldn't be covered. it was still easy to attract attention.

If she met someone like Cheng Qitian again, it might be another problem. However, now that she had put on her coat, even her figure was covered, so no one would notice her anymore.

The two of them immediately left the dock and walked towards a town not far from the dock. Just like the flying arc city, this place was also the center of the zhenduan Sea region, and its name was the same-zhenduan city.

It was rumored that the true Duan Sea area was much more chaotic than the crescent moon Sea area. However, from the situation at the dock just now, he could feel that there were far more people here than in the crescent moon City.

This scene became even more obvious after the two entered the city. The streets were packed with people, and it was a bustling scene. It had been a long time since Lin Yi last felt this, and it even reminded him of the common world.

It was only in the commercial streets of the big cities in the secular world, and it was only during holidays and promotions that you would see such a full house. As for the other places on the Sky Class Island, even the central island Market wasn't as crowded as this.

Lin Yi was secretly shocked. He pulled Huang xiaotao and squeezed into the crowd, but after walking for an hour, he realized that it was hard to find a boat to go to black arc city. Even finding an Inn was a dream.

They had already strolled down three streets and passed by seven or eight inns, but each one clearly had a sign that it was full.

"What's wrong with this place?" Lin Yi and Huang xiaotao looked at each other, both confused. Even though it was their first time in zhenduan city, they could clearly feel that this place was a little strange.

Just as the two of them were feeling puzzled, they followed the flow of people to a square and heard many people shouting one after another. Although they were full of enthusiasm, they could not withstand the huge flow of people and were soon covered by the noise of the crowd.

However, with Lin Yi's hearing, as long as he wanted to, he could hear the content of these people's shouts as he got closer.

"Lu Feng Forest Exploration, we've formed a team! We're two more and we're about to set off. Cultivators at the Golden core stage and above must not miss this opportunity!" It was the voice that was closest to Lin Yi and Lin Yi, and it was loud and clear even in the crowd.

Chapter 4242 East Province's Yellow Class Academy

Lin Yi and Huang xiaotao looked at each other and walked over. They realized that the person who was shouting was a peak late golden core expert.

"Lufeng forest! Form a group to go to Lufeng forest, we have an experienced guide, and we guarantee that you'll have a lot of money. If you're interested, come and sign up!"

"A group of Jindan paragons! It's absolutely safe. Those who want to go to Lufeng forest, come quickly!"

"Is there anyone from Lufeng forest who wants to join our team? we're only missing one person. We'll leave immediately. Come quickly!"

Not too far away, there were also shouts. Lin Yi glanced around and saw that most of them were golden core Masters, but there were a few foundation Masters, at least peak late Foundation or peak Foundation. As for nascent soul masters, he didn't see a single one.

Of course, with the appeal of Yuanying stage Masters, no matter where it was, if they really wanted to find people to form a group, it was absolutely a big call. It was estimated that with a shout, the group would be full, there was no need to try to recruit people like these people in front of them.

However, what made Lin Yi and Huang xiaotao surprised was that all these people mentioned the same place, Lufeng forest.

So many people, what are they going to do in Lufeng forest? Could it be that the reason why so many people had gathered in zhenduan city was because of Lufeng forest?

Lin Yi and Huang xiaotao couldn't help but be confused. They looked around and randomly found a roadside vendor.

"This brother, can I ask what you're going to do by forming a group to go to Lufeng forest? Why does everyone want to go to Lufeng forest?" The person Lin Yi was looking for was a mid-stage golden core man in green. He looked friendly and should be easy to talk to.

"No way? You don't know?" The man in green looked at Lin Yi and Huang xiaotao as if he was looking at a monster. His face was full of disbelief as his mouth twitched, "Even if you are foreign cultivators, aren't you here for an adventure in Lufeng forest?"

"We came here because of an accident, so we don't know anything about it. Brother, can you tell us why so many people want to go to Lufeng forest?" Lin Yi asked curiously.

"Alright then, I'll tell you." The green-clothed man could tell that Lin Yi and Lin Yi were both early golden core cultivators-they could be potential partners. He explained patiently,"Have you heard of Lufeng forest before? It's a primitive forest on the southern edge of the island, just like the other parts of the island. It's covered in miasma and fog all year round, and it's very difficult to disperse during normal times. We human cultivators can't go in, and no matter how strong we are, we can't get out if we force our way in. Nine out of ten people will die in there. "

Lin Yi nodded. Before leaving from arc city, he'd heard Qi Wenhan talk about the miasma's power. Unless it was a nascent Soul Stage cultivator or above, normal human cultivators couldn't withstand it no matter how strong they were. After all, even if it was the protective Qi, it would run out eventually.

Of course, Lin Yi didn't have to worry about running out of pure Qi-he was immune to poison in the common world, after all. The problem was the poison on Sky Class Island, though-he wasn't sure if he'd be able to do it. Immortal drunk was a good example! It was hard to say if this miasma fog was a problem for him, not to mention that the miasma fog could greatly affect the range of his perception. In the dense forest where danger was lurking everywhere, it was very fatal. Maybe he would be dead if he stepped on the wrong foot.

"However, although the miasma fog in Lufeng forest doesn't dissipate all year round, there's a specific time every year that the miasma fog will dissipate for a short time, and we can enter through the Lu Feng path teleportation array. Think about it, no one can normally enter that kind of place, so wouldn't those natural treasures be everywhere? I heard that there's also the Wandu golden core fruit there!" The green-robed man feigned a mysterious expression as he spoke.

"Oh? Is that true?" Lin Yi's expression changed instantly. Even Huang Xiao Tao, who was beside him, couldn't help but exclaim in a low voice.

They found the Wandu golden core fruit by accident at hucai tianwu mountain, which allowed them to reach where they were today. Without this treasure, Lin Yi would probably still be at the foundation peak stage, not even touching the edge of the Golden core stage, let alone Huang xiaotao.

The Wandu golden core fruit's value could only be described as sky-high, and Lin Yi had never seen it on the market before, even in a place like the central island where all the top Chambers of Commerce gathered. To him, a Wandu golden core fruit was basically the same as a Supreme-grade golden core.

This thing was much rarer than the heart-devouring exquisite grass that he had tried all kinds of ways to collect in the past. It was truly an item that could only be encountered by luck. No matter how many times he tried, whether he could pick it in the end was half up to heaven's will and half up to luck.

"Of course! I'm not talking about rumors. In the past, there were more than one or two people who found the Wandu golden core fruit in Lufeng forest. In fact, there was one almost every year. Otherwise, why would there be so many people rushing here at this time?" The Azure-robed man said with a solemn expression.

Lin Yi understood now-it wasn't strange at all for the fruit to attract so many people here. After all, most of the people here were either golden core or Foundation peak cultivators, and the fruit was a deadly temptation to them. No wonder there weren't many nascent soul cultivators around-they probably didn't need these things.

"In that case, so many people have gathered in zhenduan city, and even all the Inns are full. Are they all going to Lufeng forest?" Lin Yi nodded.

"Not all of them. I can only say that some of them are, and some of them are not." The green-robed man laughed as he scratched his head.

"Oh? There's still something wrong? "Then why are they here ...?" Lin Yi blinked.

"Oh my God, how come you don't know anything?" The man in green couldn't help but be surprised. He looked at Lin Yi and Huang xiaotao again as if he was looking at a monster, but he was a warm-hearted person and explained, "Even if you're from another city, I don't think you haven't heard about it? After a while, the East continent's yellow rank Academy will come here to recruit students. It's said that the zhenduan Sea area is the first stop, and many people have come here for this. They're all conserving their energy and storing up strength, waiting to show their strength. If they can pass the test, they can go to the East continent to study!"

"East Province? What is that place?" Lin Yi was even more confused now. Not only him, but Huang xiaotao was also confused. She had never heard of such a word before.

Chapter 4243 The East Province And The South Province

"I'm going to faint ..." The man in green was speechless, holding his forehead as if he was going to faint from the shock of these two monsters. He didn't know whether to laugh or cry for a while before asking, ""The East Province is the East Island. You don't even know this?"

"Ha? The East Province is the East Island?" Lin Yi and Huang xiaotao were confused as well-no wonder this guy was so surprised. Even new people from the secular world would know about the five Big Sky Class islands. If they didn't know about the East Island, they could only be explained as aliens. But they still asked, "Then why is it called the East Province?"

"You don't even know this? you two are really weird." The green-robed man couldn't help but be happy. However, he was also a warm-hearted person, so he patiently explained to the two of them, ""There are five big islands in the sky-rank, East, West, South, North, and center. This is just what we call them. But to be honest, the East and South Islands can't really be considered islands, but the East continent and the South continent."

"Why is that?" Lin Yi couldn't help but ask. He'd been on Sky Class Island for more than a year, but this was the first time he'd heard something like this. Even Huang xiaotao, who was beside him, perked up her ears.

Although Huang xiaotao was born and raised on the Sky Class Island and should know about this common knowledge, she had always been on the North Island. Usually, she was either cultivating or doing trial missions. She rarely interacted with other people and rarely had the opportunity to hear people talk about this. Even she had never heard of the so-called East and South continents.

"Because the Eastern and Southern islands are very large. They are much larger than the other three islands. Some people have estimated that they are at least ten times larger. Therefore, the entire Island is a big continent. It is vast and divided into many regions. The area of each region is comparable to the other three big islands, or even more than that." As the green-robed man explained to the two of them, he also clicked his tongue and sighed.

Lin Yi and Huang xiaotao finally understood. These few simple words completely overturned their understanding of the five Sky Class islands. They thought that the situation of the other islands was similar to the North Island, but they didn't expect the difference to be so great.

"Then what did you mean when you said the East Island, no, the East continent's yellow Class academy was coming here to recruit students? There are actually so many people rushing over like ducks?" Lin Yi continued.

"Of course! The opportunity to study in the East continent is the dream of all cultivators!" The green-robed man looked forward to it and said enviously, "Many people think that the middle Island is the center of the five sky-class islands, so it's natural that the middle Island is the strongest. But that's not true-the East continent is where the real masters are. If you can go to the East continent's Academy to study, even for the core disciples of the top forces on the middle Island, it's a dream come true. It's not something they can go just because they want to."

"I see, no wonder ..." Lin Yi was shocked. He thought that the eastern island was just one of the four sub islands, but it was such a powerful existence.

It was no wonder that when he was talking to the ghost or Hong Zhong, he would smile mysteriously every time he asked about the East Island and only said that he would tell him later. Now that he thought about it, it was probably because his strength was too low at that time, so it would be useless to tell him. He didn't want to be too ambitious.

"The zhenduan Sea area is the first stop of the yellow rank Academy in the East continent. It's a once-in-a-lifetime opportunity. According to the experience of the past, the first stop will be much easier to pass. Otherwise, it'll be much more difficult if they're almost done by the end." The green-robed man was rather honest-even to strangers like Lin Yi and Huang xiaotao, he didn't hide anything. He poured out everything he knew.

"What were the conditions for the Golden class Academies to recruit students in the past?" Lin Yi said.

"The first is talent! The second is strength!" Speaking of this, the green-robed man couldn't help but say with great interest, "From past experience, no matter how the recruitment conditions change, they can't escape these two conditions. And one thing is for sure, only those who are at least at the Golden core stage can sign up. As for qualifications, this is a bit vague, we can't see it ourselves, but they have professionals in this field, and they can use the five elements stone to test ..."

"At least the Aurous core stage?" Lin Yi paused. He and Huang xiaotao were both early golden core Masters, which was the minimum requirement.

"Heh, that's just the minimum requirement in name, just a basic condition for registration. Look at all the people gathered in zhenduan city today, and more than 80% of them are here for this opportunity. There are so many golden core cultivators, and the Golden class Academies only have limited spots. If an early golden core cultivator and a peak late golden core cultivator were to stand together, they'd definitely choose a cultivator at the peak of the Golden core stage." The green-robed man analyzed as if he was an expert.

Lin Yi smiled noncommittally, not really thinking much of it. It was true that most people would pick the strong, but the East continent's Academies were so extraordinary, so why would they have such poor judgment?

Moreover, this person had also said just now that the first thing that people valued was aptitude, followed by strength. If aptitude was not good, even if he was an expert at the peak of the late Jindan stage, so what? After choosing to go to the East Province, if they did not make any progress, wouldn't that be smashing their Academy's reputation?

Putting other aspects aside, Lin Yi and Huang xiaotao were both golden core stage Masters who had broken through perfectly. Their potential and potential were definitely top-tier existences in the Golden core stage, and they had quite the advantage in this aspect.

"Speaking of which, the time when the yellow Academy in the East Province is recruiting students is very coincidental. It's right after the miasma in Lu Feng forest dissipated, which is why there are far more cultivators gathering in zhenduan city this year than in previous years. That's why it's so crowded." The green-robed man immediately began to fantasize excitedly, "Hehe, if I can get some treasures from Lufeng forest this time and improve my strength, then I'll participate in the East continent's Huang class Academy's pre-selection test. Maybe I'll be selected, and then I'll be successful!"

Lin Yi and Huang xiaotao looked at each other and couldn't help but smile. This idea was quite perfect. Most of the people in zhenduan city must have had the same dream.

He would go to Lufeng forest to get some natural treasures to improve his strength and then prepare for the East continent's Huangjie Academy's test. From then on, he would climb the heavenly stairs and amaze the world with a single feat. He was simply a winner in life.

Chapter 4244 Invitation

"Hehe, then I wish that brother's wish will come true." Lin Yi replied with a smile before asking, "Brother, if you have nothing else to say, can you tell us more about the South Province?"

"The South continent is not only big, but it also has many small islands and sea areas surrounding it. For example, the Zhen Duan Sea area and the Xiao Luo Sea area on the side are all within the scope of the South continent. However, if it's the South Island that we usually call, it's a different matter. That's referring to the main part of the South continent, which is the territory of the spirit beast clan. And what we're stepping on now is the South continent." The man in green explained patiently.

"Oh, I see ..." Lin Yi nodded. He only knew that the southern island was the territory of the spirit beasts, but he didn't know that there was a southern continent. He finally understood.

"I'm going to faint from the two of you ..." The man in green looked at Lin Yi's expression and was speechless again, "You guys don't know anything. Even if you're new, I've never seen people like you. You guys have no common sense ..."

"We're both from the north island, we've never been here before, and we've never heard of this before, so ..." Lin Yi laughed.

"Oh my god, you're from the northern part of the island?" the green-robed man was startled, but he immediately nodded in realization. "It's so far away, and not many people from the north island come here. No wonder you haven't heard of these things. Like I said, if you're a native of the south continent, this is the most basic common sense. You can't not know."

"hehe, that's why i have to thank brother for explaining to us. if it wasn't for your patience, we would still be confused and wouldn't know what's going on here." lin yi smiled and thanked him.

"Hehe, there's nothing much for me to do here anyway. I'm just going to talk to you a few more times. There's nothing to thank me for." The green-robed man waved his hand and suddenly said, ""Wait, you guys want to form a party?"

"Eh? Form a team?" Lin Yi blinked and came back to his senses. The other party was recruiting people to go to Lufeng forest with them, and he couldn't help but hesitate.

Given the current situation, he and Huang xiaotao wouldn't be able to go back to cloud arc city for the next month. They could only stay in zhenduan city. However, the Inns here were packed with people, so they couldn't just sleep on the streets. Taking advantage of this rare opportunity, they could go to Lu Feng forest. It was a good choice. Perhaps they could really find the Wandu golden core fruit.

However, all the information they had so far was just hearsay. They had not prepared for this at all. Since there were so many treasures in Lufeng forest, they followed the principle of risk and benefit being proportional. Needless to say, there were bound to be many dangers in this. If they were to rashly join in, the risks they would have to take would not be small.

Huang xiaotao looked at Lin Yi from the side, waiting for him to make a decision. To her, she just needed to follow Lin Yi and didn't have to worry about anything else.

"Aiya, don't hesitate anymore. We're only missing two people!" The green-robed man immediately said impatiently, ""If I'm not wrong, you two are both Jindan stage experts, right? It must be. I've heard of the

rules in the North Island. Without the strength of the Golden core stage, you won't be allowed to take on such a long-distance cross-Island mission!"

The green-robed man was a mid-stage golden core practitioner, but Lin Yi and Lin Yi's auras weren't being released. He didn't have a convenient cheat like Lin Yi, and could only make a rough guess from his experience.

"That's right, we're both in the early Aurous core stage. " Lin Yi nodded-there was nothing to hide.

"Yes, although his strength is a little low, an early jiedan stage is barely enough. Hurry up and come together. If you continue to drag on like this, it will be too late for you to regret missing the opportunity to pass through Lufeng forest." The green-robed man hurriedly advised.

He had been shouting in this square for a whole day, but because his own strength was not outstanding enough, no one had paid attention to him so far. Even if the two people in front of him were only early jiedan stage Masters, being able to pull two at once was a surprise for him. Otherwise, it was just as he said, the miasma in Lu Feng forest would dissipate for a limited time, and if he continued to wait, it would be too late.

Those who moved nimbly had already set off long ago. Perhaps they had already plundered a large sack of natural treasures. In the end, they could only wait here and waste time because of a lack of people. Who would not be anxious?

Lin Yi and Huang xiaotao looked at each other and finally decided to agree. As long as the two of them worked together, they could be said to be invincible in the Golden core stage. Even if they went to Lufeng forest, their safety should still be guaranteed. But before that, there were some things they had to ask first.

"How many of you are there now?" Lin Yi nodded.

"There are four now. If you guys are included, that makes six." The man in green was happy to see that Lin Yi was interested.

"Then why not find a few more people? One more person means one more person. If we all form a team, wouldn't it be much safer?" Lin Yi couldn't help but ask.

"Hey, it seems like you guys really don't know!" The green-robed man smiled speechlessly and explained patiently, ""There's only one way for us to go to Lufeng forest, and that's to use the Lufeng road teleportation array. There's no other way. After all, it's at the edge of the southern island. Whether we take the water or air route, we'll be easily attacked by spirit beasts. It's very dangerous. "

"Lu Feng's path teleportation array? Could it be that there's a limit to the number of people?" Lin Yi couldn't help but speculate.

"That's right. This teleportation array requires six people to go up at a time. No more or less. Only exactly six people can be teleported into Lufeng forest. However, the teleportation location is random, and you don't know where you will be teleported to. If you are lucky, you may step on a treasure. If you are unlucky, you may fall into a Dragon's pool or a Tiger's Den. Anyway, there is only one thing that can be guaranteed. It must be in Lufeng forest ..." The green-robed man shrugged his shoulders.

This Lu Feng's path teleportation array had been around for a long time. Everyone knew how to use it, but they had never been able to figure out its teleportation mechanism. After so many years, they concluded that it was random, and there were no other rules.

"If that's the case, what if six people go in and one or two of them accidentally die? wouldn't they not be able to come back?" Lin Yi couldn't help but ask.

"There's no need to worry about that. This Lu Feng teleportation array only has a requirement on the number of people who can enter, but there's no limit on the number of people who can come back. Even if there's only one person, they can still leave." The green-robed man smiled as he shook his head.

Chapter 4245 A Few Teammates

"Alright, thank you for your advice. Since that's the case, we've decided to join." Lin Yi nodded.

Since there was no limit to their return, there was nothing to worry about. Otherwise, if they were separated from them after they entered and couldn't come back, that would be really F * cked up.

In any case, there was nothing else to do here. At this rate, she might even have to sleep on the streets. With Huang xiaotao's beauty, if she was accidentally discovered, it was very likely to cause trouble again. That would not be fun. It was better to go to Lufeng forest for an adventure.

Even Lin Yi's heart itched at the thought of the Wandu golden core fruit. He was a perfect golden core stage master, and theoretically, it would be much easier for him to break through to the next stage compared to other golden core stage Masters, but it would take hundreds of years to do something like that. Even a perfect golden core stage master would need at least decades if they just trained normally.

However, if he could get his hands on the Wandu golden elixir fruit and refine Supreme-grade golden elixir pills, he could greatly shorten the time needed.

"That's great!" The green-robed man was overjoyed. The miasma in Lufeng forest would only dissipate for a limited amount of time. The four of them had already waited for a few days, and they really couldn't waste any more time. Today, they finally had enough people. He immediately introduced himself, "My name is Guo dengtao. The other three are waiting at the inn. I'll Take You There now. We can set off immediately."

"Alright, then I'll have to trouble brother Guo." Lin Yi nodded and immediately followed the man with Huang xiaotao.

Squeezing through the crowd, the three of them passed through two streets and arrived at a high-class room in an Inn. At this moment, the three of them had been waiting for a long time.

Lin Yi scanned the room-there were two men and one woman. Of the two men, one was a late-stage golden core cultivator, one was a mid-stage golden core cultivator, and the last woman was a peak-stage early-stage golden core cultivator.

"Three of you, this is someone I just found. He's an expert from the far north Island and is willing to follow us to Lufeng forest." Guo dengtao took the initiative and introduced them enthusiastically, ""This is senior brother Chu bubai, a late-stage golden core expert. This is brother Wang Feng, a mid-stage golden core expert. And this is miss Feng Hongyu, a peak-stage early-stage golden core expert. She's senior brother Chu bubai's cultivation partner."

Lin Yi took a closer look at the three men. Chu bubai looked to be in his thirties, and he had a handsome face. He was wearing a white robe and holding a paper fan in his hand. At first glance, he looked refined, but if one looked closely, they would find a hint of ruthlessness in between his brows. He wasn't as refined as he looked.

Sitting on the other side was Wang Feng, who also looked to be in his early thirties. He had short hair and wore a gray robe. However, even this could not hide his bulging muscles, giving off a sense of capability.

As for the female cultivator called Feng Hongyu, she was pretty at first glance, but her looks were second-rate at best, the kind of beauty that one would forget once they saw her. Lin Yi was used to seeing beautiful women like Huang Xiaotao, so he didn't feel anything at all. He only felt that this woman was a little exaggerated and thought highly of herself. Other than Chu Bubai, she didn't even need to look at the others.

"I am Lingyi Beidao, this is Junior Sister Huang, greetings to brother Chu, brother Wang, and miss Feng." Lin Yi and Huang Xiaotao immediately cupped their hands in greeting.

The gazes of the three people in the room fell on Lin Yi and Huang Xiaotao at the same time, frowning slightly at the same time. Their faces clearly showed some disdain, looking down on Lin Yi and Huang Xiaotao.

After all, Lin Yi and Huang Xiaotao were both early golden core cultivators, and they were the weakest among them. It wasn't strange for them to have such an expression.

"Taozi, even though you're the one who organized the recruitment, aren't you being too rushed and irresponsible? They're simply desperate, finding two weak guys. When the time comes, not only will they not be of any help, but they'll also have to look after them. Aren't they dragging us down?" Feng Hongyu glared at Lin Yi and Lin Yi, mocking them mercilessly with an arrogant tone.

Huang Xiaotao looked at Lin Yi, but Lin Yi only frowned slightly without saying anything. He turned to look at Guo Dengtao.

"Miss Feng, you're being too serious ..." Guo dengtao couldn't help but smile awkwardly at Lin Yi and Huang xiaotao as he explained with a bitter smile, ""It's not like you guys don't know what's going on outside. There are people recruiting everywhere. Under such circumstances, it's already good enough for us to have someone to form a team. We really can't ask for too much."

From his point of view, it was already a blessing to be able to get Lin Yi and Huang xiaotao to join him. If he were to set any more rules, he wouldn't be able to find them in a short time, and he wouldn't even be able to go to Lufeng forest.

After all, compared to other powerful teams, they could only be considered average. They only had Chu bubai, a late Jindan stage expert. Compared to those teams led by perfected Jindan experts, they were far less attractive.

Wang Feng didn't say anything. Chu bubai, who was sitting in the middle, nodded and said, ""Since you've already brought them here, then let's go together. However, the two of you are still weak, so you should take the initiative and do more chores. I'll leave the luggage to you."

"Sure." Lin Yi nodded and didn't refuse. He could see that although Guo dengtao was in charge of the team here, the real person in charge was still Chu bubai, the late golden core stage master. Since he decided to go to Lufeng forest, it didn't matter if he kept a low profile for the time being.

"Since brother Chu has said so, I won't say anything else. However, the two of you better know your place and don't think about slacking off. Also, if we find any natural treasures, it'll be good if you can get some soup. Don't think too much!" Feng Hongyu said arrogantly.

Lin Yi couldn't be bothered with her at all-it'd be beneath him to stoop to the level of an ignorant and arrogant woman like her. After all, he and Huang xiaotao could come back after teleporting into Lufeng forest, so he didn't have to bother with her anymore.

"Alright, since we have enough people, let's all rest well tonight. We'll set off tomorrow." Chu bubai finally decided.

Everyone immediately responded and went back to their rooms. However, Lin Yi and Huang xiaotao didn't have a room and didn't know where to spend the night. Fortunately, Guo dengtao was a good person and gave his room to the two of them, while he went to share a room with Wang Feng.

Chapter 4246 Teleportation Array

The next day, everyone gathered early and set off for the Lu Feng road teleportation formation. As they'd agreed, Lin Yi was responsible for carrying everyone's bags, but Guo dengtao and Wang Feng each carried a huge bag, which was full. They didn't let Lin Yi carry it for them, so they didn't know what was inside.

After squeezing through the crowd and shuttling through the streets and alleys of zhenduan city, the six of them finally arrived at their destination, the Lu Feng road teleportation array.

Looking from afar, there were long lines of six people in a group. It was obvious that they were the same as Lin Yi and the others, all here to go on an adventure in Lufeng forest.

Lin Yi raised his head and looked-a hundred meters away, there was a circular platform. It looked like a giant circular formation or something, surrounded by six hundred-feet-tall Jade pillars. This was the Lu Feng's path teleportation formation.

Every moment, there would be a flash of white light on the teleportation array, and then there would be a sharp whistling sound that cut through the space. After the silence, the next group of people would quickly go up the stage, and the speed was not too slow.

He waited patiently, and as the people in front of him got fewer and fewer, Lin Yi suddenly realized something. Every group would take out a big bag of spiritual Jade before they stepped into the teleportation formation. There were about five thousand spiritual Jade in it, and they handed it to the person in charge of the formation.

5,000 spiritual jades was a huge bag. When he turned around, he saw that it was about the same size as the bags that Guo dengtao and Wang Feng were carrying. However, other than the people who gave him the ready-made spiritual jades, there were also some people who directly swiped their spiritual Jade cards.

"Brother Guo, this is ..." Lin Yi froze. He pointed at the teleportation formation and the big bag on Guo dengtao's back. It should be spiritual jades too. No wonder he didn't want Lin Yi to help him with it.

"What?" Guo dengtao was stunned for a moment before he reacted. He patted his head and said, "Don't you know? You'll have to pay a fee to use the Lu Feng road teleportation formation, and all teleportation formations require a large amount of spirit Jade. There's no teleportation formation in any place that's free for people to use, right?"

"Usage fee?" Lin Yi raised a brow. It wasn't that he didn't understand, but he didn't think of this before. "You didn't tell us yesterday. How much is the usage fee per person?"

"Ugh, that's my mistake, but that's just common sense, I thought you guys would know ..." Guo dengtao was speechless, only remembering that Lin Yi and Lin Yi didn't know anything at all. They were basically

illiterate."Five thousand spiritual jades per person is not a small amount. You guys must have prepared for this, right?"

"Why didn't you say so earlier ..." Lin Yi looked at him helplessly. Huang xiaotao, who was wearing a veil beside him, showed a bit of worry. After all, even an early golden core Master couldn't just take out ten thousand spirit Jade so easily. They had to at least prepare in advance.

"F * ck, I can tell from their looks that they're not prepared. I've long said that you're too desperate to choose what to eat, taozi. You brought these two idiots back. They don't have the strength, and now they don't even have spiritual Jade. Aren't they just wasting our time?" Feng Hongyu took the opportunity to make sarcastic remarks.

Chu bubai couldn't help but frown. If the two of them didn't have the spirit Jade ready, the four of them wouldn't be able to leave. This trip would have been a waste.

"You really don't have any spiritual Jade? The two of you add up to 10000 spiritual jades. I can give it to you, but don't think about taking too much of the profit from forming a team this time. " "You're not allowed to go!" Chu bubai said in a deep voice,"also, after you go, you have to listen to my command!"

Ten thousand spirit Jade wasn't a small amount, and Lin Yi and Yi were "the weakest" in terms of strength.

"There's no need for that. We can still afford to fork out ten thousand spiritual jades." Lin Yi immediately shook his head.

He had just noticed that after everyone handed in their spirit Jade, they would receive something like a token. The teleportation Array Manager would also specially remind them that when they left Lufeng forest, they had to follow the map to the teleportation array set up in the inner part of Lufeng forest, and then use the token to activate the teleportation array before they could be teleported back.

If he asked Chu bubai to hand over the spiritual Jade on his behalf, this token would be in his control. Whether or not he and Huang xiaotao could come back, and when would all depend on Chu bubai's mood. Lin Yi didn't want such an important thing to fall into the hands of outsiders.

10,000 spiritual jades did sound like a lot, and most people wouldn't be able to take it out in a short amount of time, but Lin Yi was an exception. He owned the heavenly elixir Pavilion, and just his daily income alone was at least 50000 spiritual jades, and this was only the most conservative estimate. 10000 spiritual jades was nothing in his eyes!

On the central island side, Tian Gang would send Lin Yi spiritual jades every month through the merchant Union's special channel. The amount in his spiritual Jade card was already an astronomical figure-ten thousand spiritual jades wasn't even a fraction of that.

"If that's the case, then that's for the best." Chu bubai was stunned and didn't say anything else. Feng Hongyu, on the other hand, still didn't believe him.

She knew from the first glance that Lin Yi didn't have a strong background. If it wasn't for Chu bubai, even a peak early golden core like her wouldn't be able to take out ten thousand spirit Jade in a short time, let alone these two who didn't know much about the world. They wouldn't dare to admit it in front of the public and would just keep it up!

Feng Hongyu curled her lips in disdain."Hmph, I'll see how you two get off the stage when you embarrass yourself later!"

"Brother Ling Yi, you can't joke about this. If you don't have any money, why don't you ask Chu bubai to pay on your behalf? it's just a small amount of profit. You don't have to be so embarrassed." Guo dengtao couldn't help but advise him in a low voice. As for Wang Feng, he didn't have any expression on his face.

"Hehe, brother Guo, you're overthinking it. I do have enough spiritual Jade on hand, but I didn't know about this before." Lin Yi said with a faint smile.

Guo dengtao wanted to say something, but Lin Yi's expression didn't seem fake, so he didn't say anything more. He'd already done his best to remind Lin Yi, and if Lin Yi were to make a fool of himself, he wouldn't be blamed.

Soon, it was Lin Yi's group's turn. Chu bubai took the lead and swiped his spiritual Jade card, along with Feng Hongyu's share. Guo dengtao and Wang Feng each handed a big sack of spiritual Jade to the manager of the teleportation formation. Then, everyone's eyes fell on Lin Yi.

Chapter 4247 Luck Is Also A Strength

lin yi smiled faintly as he took out the spirit jade card and handed it to the manager.

including chu bubai, guo dengtao and the others were stunned, especially feng hongyu. her mouth was wide open, and her dumbfounded expression was really wonderful.

the spiritual jade card wasn't something that just anyone could get their hands on. not only did one need to be strong, but one also needed to have a strong background. after all, it wasn't easy to get the approval of the merchant union. even if it was from a golden core stage master, lin yi might not have a spiritual jade card until now if he didn't meet hong zhong.

among the other people present, only chu bubai had a spiritual jade card. feng hongyu and the others didn't have one. otherwise, guo dengtao and wang feng wouldn't have to go through so much trouble to carry a big sack of spiritual jade from so far away.

At this moment, everyone's gaze towards Lin Yi and Huang xiaotao changed. Although Chu bubai didn't say anything, he looked at the two with a deeper meaning. Feng Hongyu, on the other hand, was still mumbling, but she didn't dare to look down on them as directly as before.

After all, having a spiritual Jade card meant that even if the two of them weren't strong enough, they had a strong background. They might even be the core disciples of some big sect or house-it'd be a big problem if they got pissed and got someone to back them up.

Guo dengtao, on the other hand, was a little surprised and a little happy. This meant that the Lin Yi duo he found weren't just useless trash to make up the numbers, and he had some good eyes.

As for Wang Feng, other than surprise, he didn't have any other special expression on his face. He had been treating Lin Yi and Lin Yi like this since the beginning, not as friendly as Guo dengtao, nor as disdainful as Feng Hongyu.

In fact, among the crowd, although Huang xiaotao had been following Lin Yi all the way, she was no less surprised than the others. In fact, she was even more surprised.

She'd been with Lin Yi for quite some time now, but she'd never seen him go out of his way to earn that much spirit Jade. The things he did every day had nothing to do with that, either, but she didn't expect him to be able to swipe his card so casually-she was quite worried just now.

However, even if she was suspicious, she couldn't ask Lin Yi in front of outsiders. Lin Yi was her man, after all, and she'd seen all kinds of magical methods. In comparison, this spirit Jade was nothing.

No matter what, this once again confirmed Huang Xiaotao's original perception-as long as she followed Lin Yi, no matter what happened, she would feel safe and secure.

"Brother Ling Yi, I didn't expect that you guys from the North Island wouldn't be poor at all. You're able to fork out 10000 spiritual jades without any preparation, and you even have a spiritual Jade card. You're really not simple!" Guo Dengtao said with a sigh of relief.

"Hehe, spiritual jades are accumulated from years of missions. As for this spiritual Jade card, I just happened to meet a friend and got lucky." Lin Yi smiled faintly.

"Luck is also a part of strength!" Guo Dengtao said with some envy.

Chu Bubai and the others looked at Lin Yi and Lin Yi with a strange expression. They felt that Lin Yi wasn't as simple as he looked on the surface, but they didn't say anything. They were about to leave.

"Alright, you guys can go up now." The manager passed two tokens to Lin Yi and Huang Xiaotao, along with two maps of Lufeng Forest. He then signaled for them to get on the teleportation formation.

following the manager's instructions, lin yi's group of six walked up to the platform. they couldn't see it from below, but now that they were up, they realized that there were all sorts of engravings under their feet. all the engravings combined together to form a complicated formation.

lin yi couldn't help but be surprised. he didn't feel anything when he was standing below, but now that he was walking on the formation, there was a strange and mysterious aura that hit his face. he couldn't tell what it was exactly, but he could feel that there was an extremely high level of skill in it.

Maybe when he was strong enough in the future, he'd be able to see through the mysteries of this formation, but with Lin Yi's current vision, he was still at the stage of not understanding it and feeling its power. It was just that it was still a long way to go.

Huang xiaotao was shocked as well. Although her comprehension wasn't as good as Lin Yi 's, she could still feel this mysterious feeling. As for Chu bubai and the others, they might have seen this teleportation formation before, perhaps even more than once or twice. They were used to it and didn't have any strange expressions on their faces.

Other than the mysterious formation on the main body of the disk, there were six smaller formations surrounding it, facing the six pillars. Lin Yi's group followed the instructions and stood in the middle of the six smaller formations.

"Hold your breath and focus. Don't move around. If something goes wrong during the teleportation, we won't be responsible for it." The teleportation formation manager warned and immediately activated the teleportation formation.

A white light visible to the naked eye came out from the center of the formation and quickly spread, covering the entire teleportation formation. Lin Yi and the others were also covered in the white light,

and they felt a huge suction force on their bodies, as if it was going to tear them apart. Even with Lin Yi's early golden core body strength, it was a bit unbearable.

Fortunately, the process didn't take long. With a sharp cry, the white light of the six pillars shot up into the sky, and the teleportation formation returned to normal. The platform was empty, and Lin Yi and the others were teleported away.

Although Lufeng forest was only located at the edge of the southern island, its area was not small at all. It was thousands of miles wide and because all year round, except for this special time, almost no human cultivators set foot here at other times. Even those powerful spirit beasts, because of its remote location, were only a few.

As a result, all the natural treasures here were preserved to the greatest extent, and even became a natural treasure known to everyone.

A white light flashed in front of them, and they were in the teleportation formation of zhenduan city a moment ago, and in the next moment, they were in Lufeng forest.

He'd been to a whole new place in the blink of an eye-this was the first time he'd experienced it. He'd used a teleportation formation to come to Sky Class Island from the common world, but perhaps it was because of the change in his strength-he felt it a lot stronger now.

Chapter 4248 Purple Lightning Beast Of Wind And Thunder

The last time, Lin Yi was only an early Foundation Stage practitioner, and he was just there to watch the show. But now, he was an early golden core stage practitioner, and while teleporting, he had already started to consciously explore the mysteries of the teleportation. However, his strength was limited, and the things he could feel were still very limited.

Lin Yi turned his head and looked at Huang xiaotao. Seeing that there was nothing wrong with her body, he relaxed and looked around at the environment.

At this moment, the six of them were in an extremely dense forest. Whether it was under their feet, around them, or above their heads, there were all kinds of plants with extremely strong vitality. Some of them had been seen elsewhere, while others were never seen or heard of.

As expected, there was no miasma! This was the first thing Lin Yi confirmed-the light was weak in the forest, but he could at least see his surroundings clearly. Even if it was a dozen meters away, as long as there was no vegetation, he could still see clearly. If there was a miasma, it wouldn't be like this.

At this time, Huang xiaotao gently pulled Lin Yi and pointed to the sky. Lin Yi raised his head and couldn't help but shiver.

Less than 30 meters above them, there was an extremely thick fog, covering the sky and the sun. However, it was still noon, so there were still a few weak rays of sunlight that could pass through the fog layer. Otherwise, it would be dark.

"Brother Guo, is the layer above the miasma?" Lin Yi couldn't help but ask curiously. It looked similar to the sea fog he'd seen before, but the color was darker.

"Not bad," Guo dengtao nodded. It was his third year in Lufeng forest, so he was quite familiar with the environment here.

"It's noon now, the time when the light is the most abundant, but there's only so little light. If the miasma fog was normal, there wouldn't even be this little light, and how could there be so many dense vegetation down there?" Lin Yi couldn't help but be even more curious.

"Uh ... I haven't thought about this ..." Guo dengtao was suddenly stumped by the question. He scratched his head awkwardly. He was not the kind of person who would think carefully. He had never heard of this kind of thing from others, so of course he didn't know.

"Lufeng forest isn't like this usually." At this time, Chu bubai, who was at the front, suddenly opened his mouth, ""The so-called disappearance of the miasma fog now is just a misdirection spread by the public. During this period of time, the miasma fog layer has risen to the air due to the influence of the local special airflow. Usually, the miasma fog layer is not so high, and it is even thinner. It is only close to the ground, so the light is naturally not as bad as it is now."

"So that's how it is, I've learned." Lin Yi couldn't help but raise his opinion of Chu bubai. Although this person had a hidden ruthlessness in his elegance, which made Lin Yi very wary, if that was not taken into consideration, the feeling that Chu bubai gave people was not simple.

"Brother Chu is so knowledgeable, unlike some people who are not only weak but also ignorant!" Feng Hongyu held Chu bubai's arm with one hand and glanced at Lin Yi proudly. She didn't like the scene of Lin Yi pretending to be calm and suddenly taking out the spirit Jade card.

Lin Yi ignored the woman and looked at Chu bubai. He suddenly asked, ""Brother Chu, forgive me for asking, but have you also come to Lufeng forest during normal times?"

As soon as he said this, even Guo dengtao and the others were stunned. They couldn't help but look at Chu bubai in surprise. It was normal for him to come to Lufeng forest at this time. However, if he dared to come at any other time, he was really bold.

The current Lufeng forest was a completely different world from the usual Lufeng forest. Although danger was lurking everywhere, as long as he was careful and his luck wasn't too bad, even if he couldn't get any natural treasures, he could at least retreat safely.

However, if it was during normal times, the miasma-filled Lufeng forest would be considered a Dragon's pool or a Tiger's Den for human cultivators. Nine and a half out of ten people would die Here.

If Chu bubai had come here at some other time and was still alive, then this person could be considered a big and strong leg.

"That's right, I was trapped here once and accidentally stayed for a while. Fortunately, I managed to survive. " Chu bubai looked at Lin Yi and waved the white paper fan in his hand as he replied faintly.

Everyone looked at each other and looked at Chu bubai with even more respect. Their words were plain, but they could guess the danger behind it without going into detail.

This person was indeed not simple! Lin Yi was even more sure of his judgment. He gave Huang xiaotao a look, signaling her to follow him carefully in case of any accidents.

At this moment, everyone's expression suddenly changed. From the dense forest in the distance, there was a roar, accompanied by the rustling of the dense vegetation. It was obvious that a spirit beast was quickly approaching.

Before anyone could react, the owner of this voice, who seemed to be a thousand feet away a moment ago, had suddenly appeared behind everyone in the next moment. An incomparably fast huge black shadow suddenly rushed out.

Lin Yi didn't have the time to look at it carefully. He quickly grabbed Huang xiaotao and dodged to the side. At the same time, Chu bubai also reacted the same way and moved to the side with Feng Hongyu. However, Guo dengtao and Wang Feng were in a more difficult position.

Guo dengtao was in a slightly better state as he managed to escape after rolling and crawling. However, Wang Feng wasn't so lucky. He couldn't Dodge in time and was directly blown away by the huge black shadow. Fortunately, it was only a graze and he wasn't hit directly. Otherwise, with this momentum, Wang Feng would be half-crippled even if he didn't die.

In a place like this, a heavily injured person would be as good as dead. Unless they were really friends who had gone through life and death with Wang Feng, no one would be willing to risk their lives with a burden. At least, Lin Yi didn't see anyone who was close to Wang Feng.

The huge black shadow passed through the crowd and didn't stop after injuring Wang Feng. It left behind a series of afterimages and disappeared into the forest.

The purple lightning Beast of wind and thunder! Lin Yi's heart skipped a beat. The shadow was fast, but he recognized the spirit beast with just one glance. It was too familiar.

Lin Yi never thought that he'd be able to see one of Lil "Feng's kind on Sky Class Island, especially in Lufeng forest!

Sky Class islands were basically separated from the secular world, and Lin Yi thought that the purple lightning Beast only existed in the secular world. He didn't expect to see one on Sky Class islands, and from the looks of it, this purple lightning beast's strength was way higher than little Feng 's!

Chapter 4249 Infant Ginseng

Even if it was too fast to see clearly, from the fact that it was able to injure Wang Feng with one hit, it could be judged that it was at least a golden core stage spirit beast. After all, Wang Feng was an intermediate golden core stage expert. If he was only at the foundation establishment stage, it would be impossible for him to be hit so easily, let alone be injured.

The purple lightning Beast was a spirit beast that was known for its speed, and with a higher level of strength, its speed was even faster. Even Lin Yi didn't think he could catch up to the one that just charged over-this was an innate talent of the race, and no matter how hard humans trained, they couldn't be compared to it at the same level.

"We can't stay here for long, let's quickly find a place to talk." Chu bubai said with a frown. He didn't wait for the others 'response and walked away with Feng Hongyu.

Guo dengtao and Wang Feng didn't dare to be slow, and quickly followed. Although Wang Feng was slightly injured, he could still move normally, so he wasn't left behind.

Lin Yi nodded slightly to Huang Xiao Tao, signaling her to follow Chu bubai. The reason why the purple lightning Beast suddenly rushed out was probably because of the six people's auras, which alerted it.

However, apart from this, there was another more dangerous possibility. It was very likely that the people had not only alarmed this purple wind Lightning Beast, but another even more powerful spirit beast. This purple wind Lightning Beast was just a fish in the pond that was caught in the disaster. Otherwise, if it was alone, it wouldn't have directly rushed over, but would have chased after the group.

It had run so fast just now because the more powerful spirit beast was chasing after it.

Although everyone was a golden core stage expert, and even Chu bubai was a late golden core stage expert, Lu Feng forest was the home field of spirit beasts. Just this golden core stage purple lightning wind thunder beast coming and going without a trace was already enough to make everyone suffer. If an even more powerful spirit beast came, perhaps a few of the six people would die Here.

He had just arrived in Lufeng forest and had not done anything yet. He had not even seen any heavenly treasures. If he was hit in the head, he would really die before he could even complete his mission. It would make him want to cry but have no tears.

The group of people followed Chu bubai. After a while, they finally found a tree hole that was relatively hidden and safe. Only then did they hide in the tree hole under Chu bubai's lead.

"Come, let's take a look at the map and confirm the location." Chu bubai gestured for everyone to sit in a circle and took out the map of Lufeng forest, letting everyone identify the location.

Everyone nodded with lingering fear and looked at the map together. In a place like Lufeng forest, confirming the location was the most important thing. Otherwise, if they couldn't even figure out where they were, they wouldn't even be able to go back, let alone find heavenly treasures.

If he wanted to go back, he had to first find the teleportation array. This was marked on the map, but if he couldn't even determine his own location, how could he find it?

Everyone was a Jindan stage master, and their perception and recognition ability was far beyond ordinary people. However, in Lufeng forest, they had just arrived and had not had time to catch their breath. There were no landmarks around them, so it was easier said than done to confirm their current position.

"We are now in this place." Chu bubai pointed out the location after a while, surprising Lin Yi and the others.

They looked at each other. Feng Hongyu and Chu bubai were on the same side, so they didn't have any strange expressions on their faces. However, Guo dengtao and Lin Yi's group didn't look very convinced. After all, identifying a person's location wasn't something that could be solved with strength alone. Even if Chu bubai was a late golden core expert, he couldn't be so sure.

"No need to doubt it. I've been here before, so I have some impression of this place." Seeing this, Chu bubai waved his hand to dispel everyone's doubts. He then said, ""This time, I believe everyone has come to Lufeng forest for natural treasures, right?"

"That's for sure," Guo dengtao and Wang Feng nodded their heads.

"Not bad." Lin Yi and Huang xiaotao chimed in.

At the level of the Golden core stage, in order to improve their strength, they could only rely on their own hard work and cultivation. The so-called elixirs on the market, except for a few, had little effect on them. Even if there were, they were priceless. If there was no opportunity, even if you had a large number of spirit jades in hand, you might not be able to buy them.

In contrast, if he really wanted to improve his strength quickly, it was better to pin his hopes on various natural treasures. If he was lucky enough to get a Wandu golden core fruit, it would be worth decades of hard cultivation.

"Alright, since we're already here, I won't hide it from everyone." Chu bubai's gaze swept across everyone's faces, and he slowly said with a serious expression, ""I wonder if you've heard of baby ginseng?"

The others were all stunned, but Lin Yi's heart jumped. Not only did he know about baby ginseng, but he'd used it to make elixirs before!

When he was on the middle Island, one of the most important main ingredients for the Golden elixir of nascent condensation for the Tian Xing sect was the nascent ginseng.

At that time, the nascent ginseng that Tian Xing Dao gave him was not a complete one. It was only a small piece the size of a thumb. But even so, he had finally succeeded in using it to refine the Golden elixir of gathering one's soul!

According to Tian Xing Dao, the baby ginseng was a very rare material. It was even rarer than the Wandu golden core fruit. Even the small piece of baby ginseng was obtained by him in his early years at his peak with great effort. As for a complete baby ginseng, it had never appeared in the market, let alone Tian Xing Dao.

Just a small piece of it was already an item that was hard to find. If it was a naturally growing baby ginseng, what would its value be?

Even with Lin Yi's calm nature, he couldn't help but breathe heavily at the thought. He looked at Chu bubai again, and there was more shock in his eyes. Did this guy have news about the baby ginseng?

"Brother Chu, could it be that you're here for the nascent ginseng this time?" Guo dengtao's breathing had also become heavy. He had seen a lot of things in the world, so he had heard of the baby ginseng. He knew that this thing was much more precious than the Wandu golden core fruit. Now that he suddenly heard Chu bubai mention this, he was suddenly overwhelmed with emotions.

He had a bit of a relationship with Chu bubai, but it wasn't too deep. The reason why he was the one to form the team was because Chu bubai brought Feng Hongyu to Lu Feng forest and said that they were going to visit. That was why he called Wang Feng, Lin Yi, and Huang xiaotao.

Chapter 4250 Rare Opportunity

However, he had taken it for granted that Chu bubai's plan was similar to his own. He had come to Lufeng forest to find some natural treasures to improve his strength so that he could participate in the East continent's yellow rank Academy's test. He didn't expect Chu bubai's appetite to be so big that he had his eyes on the infant ginseng!

At this moment, Wang Feng's expression was also extremely shocked. He must have already reacted to what the two words "infant ginseng" represented.

"Yes, I'm now in the late stage of the Golden core realm, not far from the great circle of the Golden core realm. I have to start preparing to condense the nascent soul in advance. If I want to condense the nascent soul quickly, I can't do without the Golden core of the nascent soul, and the nascent ginseng is the main material for refining the Golden core of the nascent soul!" Chu bubai laughed at the crowd without hiding anything.

"But ..." Although Guo dengtao's breathing was heavy, he was still a cautious person by nature and didn't let the two words 'baby ginseng' get to his head. "For a top grade treasure like the infant ginseng,

let's not even talk about whether or not Lu Feng forest really has it. Even if it does, it would definitely be in the deepest part of the forest. It's impossible to have it in the outer regions of the forest."

"that's right, the infant ginseng naturally won't appear on the outskirts of the forest, so i've long since made up my mind to go to the depths of the forest. do you dare to come with me? don't worry, as long as we go together, no matter if we can find the nascent ginseng or not, no matter how much we get in the end, all the heavenly materials and earthly treasures will be equally divided according to the number of people we kill!" chu bubai's face was full of sincerity as he made a solemn vow.

"baby ginseng is indeed a good thing that people can only dream of ..." guo dengtao and wang feng looked at each other and still hesitated."everyone wants the baby ginseng, but i heard that in the past, when we came to lufeng forest, even if we formed a team to enter the deep mountains, even if it was a golden core stage full cultivation expert, none of them could come out safely. this is a place of certain death, our little strength is even more insufficient ..."

"that's right, although infant ginseng is good, you still need to be alive to get it!" "that's right!" wang feng chimed in."with our strength, we'll only die faster and more miserably if we go to the deep mountains!"

these words weren't just to scare people. the spirit beasts in the outer regions were weak, but the spirit beasts in the depths were strong. at present, everyone was only in the outer regions, and they had already encountered a golden core stage purple lightning beast. if they were to go deeper, who knew what they would encounter?

this was the southern island, the base camp of the spirit beast clan. even if lu feng forest was located at the edge, if a spirit beast of the golden core stage or even the original infant stage appeared, it was definitely not something that everyone present could deal with.

"yes, and there's one more point, even if we are lucky enough to find the nascent ginseng and can escape from here, we can't refine it into a golden pill, so it's useless. we can't just waste it and sell it directly, right?" "the golden elixir is a sixth-grade elixir. i guess only a pill god like zhang liju can make it. ordinary elixir masters can't do it. with our connections, where can we find such a top elixir master to help us?"

chu bubai couldn't help but frown. he thought that with the fatal attraction of the baby ginseng, everyone would be tempted as soon as he mentioned it. he didn't expect that guo dengtao and wang feng, who looked ordinary, could maintain their rationality and list out a bunch of reasons. it was obvious that they didn't want to go.

As for Lin Yi and Huang xiaotao, neither of them said anything. They just listened quietly and watched with cold eyes.

"Actually, pill refining is an easy matter to solve ..." Feng Hongyu, who was sitting beside Chu bubai, suddenly spoke up, "I heard that a heavenly elixir Pavilion opened in Middle Island not long ago, and they specialize in refining and selling all kinds of top-grade elixirs. Occasionally, they also sell fifth and sixth-grade elixirs. I should be able to find them. I have a relative who lives not far from the heavenly elixir Pavilion ..."

"..." Lin Yi was speechless. He didn't know whether to laugh or cry. He had to force his expression to not show it. The heavenly pill Pavilion's owner was sitting right in front of him, and he looked down on him all the time. Now, he wanted to ask the heavenly pill Pavilion for help?

However, Feng Hongyu's words made Guo dengtao and Wang Feng's eyes light up, and their hesitation was clearly replaced by a hint of desire.

In fact, even Lin Yi himself was tempted. After all, who didn't want to reach nascent soul?

On Sky Class Island, Foundation Stage was just the beginning. Golden core stage was the next level, and only when one reached the original level could they be considered the number one. Even on the middle Island, they would be considered Super Masters.

"Everyone's worries are not without reason, but in my opinion, the deep mountains are not as terrifying as you think. It doesn't mean that after entering the deep mountains, you can't come back. To be honest with you, when I accidentally stayed in Lufeng forest before, I was actually in the deep mountains!" Chu bubai struck while the iron was hot and threw out a heavy bomb.

"What? Brother Chu, you've been to the deep mountains?" Guo dengtao and the others were shocked. When Lin Yi asked about it, Chu bubai only said that he accidentally stayed in Lufeng forest for a while, but didn't say that it was deep in the mountains. The danger level was on a whole new level.

"That's right, the last time I came with the others, there was a little accident. Not only did I miss the time when the miasma dissipated, but I was also forced to stay in the deep mountains for a while. But in the end, I still managed to retreat. It can be seen that although the deep mountains are dangerous, it is not as ridiculous and terrifying as outsiders say. As long as we master the route, it is actually very safe." Chu bubai comforted everyone.

"Is that true?" Guo dengtao and Wang Feng were indeed tempted. If Chu bubai really had a way to bring them out alive, then even if it was a Dragon's pool or a Tiger's Den, they would still charge in. After all, this was the nascent ginseng that even nascent Soul Stage experts would go crazy for!

"Of course, I have to say the ugly words first. The deeper part is definitely more dangerous than the outer part we are in. After all, the risk and reward are always proportional. No matter how good the route is, it is absolutely impossible and unrealistic to think that there is no danger at all." Chu bubai changed the topic.

If he had lured them into the deep mountains, everyone would have been suspicious. But now that he had said so, everyone felt that he was honest and reliable, and it was easier to listen to his command.

As expected, after hearing his words, Guo dengtao and Wang Feng's wariness was significantly reduced, and they were already somewhat eager to try. If what Chu bubai said was true, this was truly a rare opportunity.

If they followed Chu bubai, they would be able to get some benefits. Otherwise, if they were to rely on themselves, they might not be able to see a top-grade heavenly treasure like the infant ginseng in their lifetime, let alone have a share.
