

## Bodyguard 4251

### Chapter 4251 Readily Agreed

Lin Yi, on the other hand, remained silent and watched coldly. Although he was interested in the baby ginseng, he was far from being blinded by it. He had a feeling that Chu bubai had other plans.

Huang xiaotao, on the other hand, looked at Lin Yi. No matter how tempted she was, she would only follow Lin Yi's actions. She would go wherever Lin Yi went anyway.

"If that's the case, we can go, but ..." Guo dengtao and Wang Feng looked at each other and nodded at the same time. However, they still had a trace of wariness in their hearts. "Since there's such a good thing, why don't brother Chu and the rest of you go by yourselves?"

Guo dengtao and Wang Feng could be considered as close friends, but he and Chu bubai were far from that close. When it came to a top-grade heavenly treasure like the infant ginseng, cultivators who placed strength above all else could even disown their own brothers and Masters, let alone their shallow friendship.

Moreover, they needed to gather six people to come to Lufeng forest, but there was no need to go back. If they were Chu bubai, they would have gone their separate ways long ago and gone there secretly. How could they tell so many people such important information and even encourage everyone to go together?

For something like infant ginseng, it was good to monopolize it. Who would complain about having too much? would Chu bubai be so kind as to be willing to share it with everyone?

Although they were tempted, Guo dengtao and Wang Feng were both mid-stage golden core cultivators. After all, they weren't fools. They wouldn't completely trust Chu bubai. The deeper part of the forest was fraught with danger and this concerned their lives. They were still very cautious.

"I can tell you this very frankly. Baby ginseng is very difficult to find. Even if I know a rough location, I can't know the exact location. After all, this location is only marked on the map. I haven't been there personally, so it's very difficult to find it in a short time." Chu bubai paused and looked at the crowd,""The more people there are, the easier it will be to find it. The time spent on the search will be less. After all, it's in the deep mountains and old forests. The longer you stay, the more dangerous it will be. I don't dare to stay for long."

Guo dengtao and Wang Feng nodded slightly. Chu bubai's reason was very pertinent and understandable. However, the two of them had a higher opinion of Chu bubai because of this.

If they were in Chu bubai's position, even if they knew that it was dangerous, they would never share such important information with everyone. This required a lot of courage.

"You should all know that there's no need for a complete piece of soul ginseng. Even a small piece can be used to refine a golden pill. So, as long as we can find a piece of soul ginseng, the six of us will divide it equally. Each portion is enough to refine a golden pill. Do you understand what I mean now?" Chu bubai looked at the crowd with a burning gaze.

"Alright, we believe in brother Chu. If that's the case, we'll join you!" Guo dengtao and Wang Feng nodded heavily at the same time.

"Very good!" Chu bubai was overjoyed. He turned to Lin Yi and Huang xiaotao, who were silent, and asked,""What about you two? Are you coming with us, or are you going to part ways?"

As he spoke, the atmosphere in the tree hole instantly dropped to the freezing point. Chu bubai's eyes flashed with killing intent. It was obvious that if Lin Yi and Huang xiaotao rejected him directly, he would definitely kill them to silence them.

Lin Yi believed that Guo dengtao and Wang Feng wouldn't stop Chu bubai if things really turned out that way. They might even help him.

Although Guo dengtao was easy to talk to, when it came to a treasure like the baby ginseng, even brothers could turn against each other when benefits were at stake. Not to mention, they were only forming a temporary team. If Lin Yi and Huang xiaotao didn't join, then they had to be prepared-this news could be leaked.

Even if no one came to snatch it from them in Lufeng forest, once they got it and left, people would eventually know that they might have baby ginseng on them. An ordinary man's possession of a precious stone would be a crime. Even if they used their toes to think, they could also figure out the trouble that would follow them.

So, right now, Lin Yi and Huang xiaotao only had two choices. One was to be on the same side as them. Only when they were all in the same boat, carrying the same benefits on their shoulders, could they ensure that the news wouldn't be leaked.

as for the other option, they'd have to kill him. the world was a dangerous place, and no matter how much lin yi and guo dengtao swore, everyone only believed one thing-only the dead wouldn't leak anything. even someone like guo dengtao would kill them for that.

in an instant, she became the target of everyone's covetous eyes. chu bubai even blocked the only entrance on purpose, as if he would catch a turtle in a jar if she didn't obey. a storm was coming, and huang xiaotao couldn't help but sweat a little. she turned to look at lin yi's attitude.

lin yi, on the other hand, remained unmoved. instead, he observed the crowd calmly. chu bubai had guo dengtao, wang feng, and feng hongyu on his side. it seemed like he had the upper hand, but they weren't even a threat to him.

with him and huang xiaotao working together, chu bubai, a late golden core expert, was just an ant that could be easily killed. even if everyone attacked him together, there was nothing to be afraid of.

The two of them could kill two people, including Chu bubai, with a single wild fire Eight Trigrams palm. With another move, they could kill them all. There was no need to feign civility.

"Of course we'll join." Lin Yi smiled and nodded happily. He was really interested in the baby ginseng. Since he was already in Lufeng forest, he might as well go with Chu bubai.

No matter what tricks Chu bubai would play later, he and Huang xiaotao's absolute strength was still there. It would not be too late to make a move when the time came. For now, it was better to continue pretending to be pigs to eat Tigers.

"Good, straightforward!" Chu bubai was obviously stunned for a moment, but then he couldn't help but say happily.

Speaking of which, although Lin Yi and Huang xiaotao's strength was the lowest among the group, for some reason, Chu bubai was the most wary of Lin Yi. Whether it was Lin Yi's calm temperament or the

unexpected scene when he took out the spiritual Jade card, he subconsciously felt that this person was not that simple and not easy to fool.

He didn't think that Lin Yi would agree so easily. This was out of Chu bubai's expectations, but it was good as it saved him trouble.

Unless he had no other choice, he didn't want to kill his teammates. After all, even if Guo dengtao and Wang Feng didn't say it out loud, there would definitely be a knot in their hearts, which might become an unexpected variable in their future actions.

#### Chapter 4252 Suspicious

"Since everyone has decided to participate, I'll explain to everyone the specific route we're going to take and the things to take note of when we enter the deep mountains." Chu bubai clapped his hands excitedly and turned to Lin Yi, ""Give me your backpack."

"Alright," he said. Lin Yi glanced at him and nodded. He handed his backpack to Chu bubai. Chu bubai gave it to him personally this morning, but he didn't know what was inside.

Chu bubai rummaged through his bag for a while and took out six maps, distributing them to Lin Yi and the others.

didn't they already have the map? lin yi couldn't help but be surprised, but when he took it and looked at it carefully, he immediately understood the difference between the two. although it was the same map of lufeng forest, chu bubai's map was clearly much larger and more detailed than the one the teleportation formation gave him.

although the map sent by the teleportation formation had coordinates, it was not very detailed. there were very few landmarks and references on it. on the other hand, the map that chu bubai gave him had everything clearly marked, from the top of the mountain to the smallest ravines and streams. even if it was someone's first time in lufeng forest, they would be able to tell with a single glance.

lin yi couldn't help but look at chu bubai in surprise. what was this guy's background?

an ordinary map was easy to find, but this kind of detailed map was impossible for ordinary people. for those cultivators who were interested in adventuring in lufeng forest, this map itself was already an extraordinary treasure.

If word of this got out, there would be people willing to buy it even if the price was tens of thousands of spirit Jade. One had to know that in a place like Lufeng forest where danger lurked everywhere, a detailed map was a life-and-death guarantee for cultivators.

However, after comparing it with the map from the teleportation formation, Lin Yi realized that the map Chu bubai gave him didn't cover the entire Lufeng forest, but only a part of it.

To be more precise, this particularly detailed map was actually spread out around a route, and the end of this route had been marked on it, which was a small circle in the deep mountains.

"Everyone, look carefully. The small circle on the map is the possible location of the baby ginseng, which is our destination. As long as we follow the route marked on the map, we can reach there safely." Chu bubai faced the crowd and made a solemn vow.

When everyone heard this, their eyes couldn't help but light up. Each and every one of them was excited and eager to try, as if they could already see the baby ginseng waving at them, and couldn't wait to set off immediately.

"Brother Chu, pardon me for asking, but is this map reliable?" Lin Yi suddenly asked.

Guo dengtao and the others were shocked as they turned to Chu bubai. They were too excited and only remembered the hidden danger after Lin Yi mentioned it.

The map was detailed, but if it was not reliable, it would not be a life insurance. Instead, it would become a fatal trap, leading the group to report to the King of Hell.

"That's a good question. I can tell you very clearly that you don't have to worry. This map is absolutely reliable." Chu bubai smiled and said, "I won't hide it from you all. This map was passed down from generation to generation in my Chu clan. One of my ancestors and his friend used this exact route when they came to the depths of Lufeng forest. That's why we have this map."

"A family heirloom map?" Guo dengtao and Wang Feng were stunned. They didn't know much about Chu bubai, and they didn't expect this to be his family heirloom. No wonder it had never appeared in the market.

"In that case, brother Chu's ancestors should have found the baby ginseng?" Lin Yi followed up with another question. This map was passed down from the ancestor, which meant that the ancestor must have seen the baby ginseng before, and the people of house Chu must've tried it a lot after that. After all, the baby ginseng was too tempting for normal people.

"You can say that. According to my ancestor, he and his friends accidentally found the place where the baby ginseng was growing, so he deliberately left this family map for the descendants of the Chu family to use as a reference. Unfortunately, after him, no one in the Chu family was able to reach the late Jindan stage. Without this strength, this family map was useless. It was only put to use after I broke through." Chu bubai explained.

Everyone nodded one after another. Lufeng forest was full of danger. If one didn't even have the strength of a late-stage golden core cultivator, not to mention that they wouldn't dare to go to the depths of the core, even if they were lucky enough to get the baby ginseng, it wouldn't be of any use at all.

After all, a sixth-grade medicinal pill like the Golden core was only effective for Masters in the great circle of the Golden core realm who were about to form the nascent soul. If one took it directly without enough strength, not only would he not be able to break through, but his body would also explode and die. A good Holy medicine would become a deadly poison.

However, Lin Yi didn't completely believe Chu bubai's words. There seemed to be nothing wrong with the logic, but if he thought about it carefully, he could still find some suspicious points.

Did the ancestor of the Chu family get the baby ginseng? If he got it, then he was very likely to become a master of the Yuanying stage. His life was long and he wouldn't die so easily. Why didn't he come again?

Also, even if that ancestor of the Chu clan didn't get the baby ginseng, or said that he died in an accident, would the descendants of the Chu clan really be so honest? would they really just guard the treasure Mountain and not set foot in Lufeng forest if they didn't have enough strength?

According to a normal person's thinking, even if they were not strong enough, they would definitely try to find a reliable person to help them guard such a family map. It was impossible for them to not do anything, right?

Even if the pugilistic world was dangerous and outsiders were not to be trusted, there should be a way out. They shouldn't be so helpless, right?

These were all questions, but Lin Yi didn't question them directly. He didn't believe Chu bubai's bullshit, but he believed that the map was most likely real. He'd rather see what would happen next than to turn against him now.

"Brother Chu, you said that you accidentally stayed in Lufeng forest last time, and it was in the depths of the core. You must have been exploring the way, right?" Lin Yi suddenly asked.

"Hehe, you've guessed it right," Chu bubai was stunned for a moment. He then smiled and explained to the crowd, "I wanted to give it a try last time, but because it was my first time here, I didn't have any experience and didn't calculate the time in advance. So, before I reached the core, the miasma fog came back again. I had no choice but to find a way to escape. But it wasn't without results. At least I personally verified the reliability of this map, so everyone doesn't have to worry."

"I see. Since brother Chu has personally verified it, we can rest assured now." Guo dengtao and the others nodded.

## Chapter 4253 Route Map

"Then, is there anything you don't understand? You can ask me any questions you have now. Otherwise, you won't be able to speak loudly after we leave this tree hole." Chu bubai said to the crowd.

It was absolutely forbidden to speak loudly in the dense forest. It would be a disaster if the powerful and violent spirit beasts nearby were alarmed.

"There's nothing else," Guo dengtao and Wang Feng looked at each other and shook their heads. The route was clearly marked on the map, and Lin Yi's question made them understand the reliability of the map. There was nothing else to ask.

"What about you?" Chu bubai looked at Lin Yi and raised his head.

"I don't have a problem with that either, brother Chu has already explained it very clearly." Lin Yi said with a faint smile.

Of course, he was not completely at ease with Chu bubai like Guo dengtao. The reason why he asked so many questions was not only to test the reliability of the so-called family heirloom map, but also to numb Chu bubai.

After all, a normal person would know that Lin Yi wasn't that easy to fool-they'd have to be careful if he didn't ask anything, but since he was this careful and asked so many questions, he'd let down his guard already.

If it was only a 30% guess before, then Lin Yi was at least 50% sure now that this Chu bubai was up to something. He couldn't tell what he was planning, though.

"Alright, time is limited. Everyone, pack up and adjust. We'll set off immediately." Chu bubai nodded, signaling everyone to prepare themselves. He then led the way out of the tree hole.

Feng Hongyu, Guo dengtao, and Wang Feng also followed her out excitedly. Lin Yi, who was at the back, gave Huang xiaotao a look to tell her to be careful and follow him closely before following her out of the tree hole.

Feeling the cool air outside, everyone's excitement caused by the baby ginseng dissipated a little. Their minds were also instantly sobered up. One by one, they were on high alert and on guard against everything around them.

Previously, in the tree hole, everyone still felt a sense of security, but now that they were exposed in the forest, even if they were all golden core stage Masters, they could not help but be on tenterhooks, afraid that they would suddenly encounter a powerful and violent spirit beast.

Chu bubai took the lead, but he didn't lead the group straight ahead. Instead, he took out a compass from Lin Yi's bag and compared it to the surroundings.

Although he had already roughly determined the location, he was leading the group deep into the mountains. Even the slightest error could cost them their lives, so it was necessary to confirm it again.

In the deep mountains and dense forests, the most dangerous thing was to lose one's direction, followed by spirit beasts. As Jindan stage Masters, they still had a chance of survival in the face of powerful spirit beasts, but if they lost their direction, there would only be one end, and that was complete annihilation.

Lin Yi secretly paid attention to Chu bubai's every move and realized that this person was not simple. Putting aside his suspicions, from the beginning until now, this person's performance in all aspects could be considered impeccable. He could be called perfect.

For example, even if an ordinary person had his very detailed family heirloom map, even with the help of a compass, it would be difficult to determine the location in a short time under this thick miasma fog.

Lin Yi had received professional training in this area before he left the secular world, but even he couldn't match his current location to the map in a short time. Chu bubai, on the other hand, was familiar with this area.

Apart from his familiarity with the map, another important reason was that the method Chu bubai used to identify the map was new and professional to Lin Yi.

Not only did he need to use the compass, but Chu bubai would also carefully check the types of plants around him. He would even deliberately look for some low-level herbs and identify them one by one before confirming them with the family map in his hand.

On this family map, there was indeed a detailed note of the species of plants and herbs in a certain area, which was even comparable to a professional scientific research Map. If it were other people like Guo dengtao, even if they had this super-detailed map, they wouldn't be able to play much of a role at all.

It was clear that Chu bubai had made careful preparations for this. Lin Yi was surprised, but he also looked forward to the baby ginseng.

No matter what tricks Chu bubai had up his sleeve, since he had made so many preparations, it was impossible for him to just play with people. The clues about the baby ginseng seemed to be most likely true.

"Everyone, be careful. Be on high alert and follow me closely. Don't fall behind." After Chu bubai confirmed the location and direction, he lowered his voice and informed the crowd. Then, he immediately led the way.

Everyone didn't dare to be the slightest bit slow and hurriedly followed closely behind. If they were to fall behind in this kind of place, they really wouldn't be able to find a place even if they cried.

Along the way, everyone followed the map. Every once in a while, they would stop to re-confirm the direction to avoid going the wrong way. Other than Chu bubai, who was leading the way, the others took turns to be on guard. They did not dare to let their guard down.

in order to prevent mental fatigue from being caused by the continuous journey, even if everyone was a master of the golden core stage, they would consciously stop to meditate and rest every six hours. when the sky was completely dark, they would find a tree hole or a cave to rest for the night and wait until dawn to set off.

for the next few days, apart from resting, everyone was rushing on their way. although they would occasionally encounter spirit beasts, they were able to avoid danger because they were on high alert. under chu bubai's lead, everyone advanced into the core of lufeng forest.

if the crowd still had some doubts about chu bubai before this, guo dengtao and wang feng were now completely convinced by him after experiencing it for themselves for the past few days.

the location they were at now was already at the core of lufeng forest. if they were the ones who came here, they would not even be able to reach halfway, let alone make it all the way here. they would have been lost in the vast dense forest or simply become food for the spirit beasts.

chu bubai's route map was indeed a family heirloom that couldn't be bought on the market. guo dengtao and the others 'trust in chu bubai increased even more. it had even gradually developed to the point where they no longer had any doubts about what chu bubai said. instead, they would do as he said without a second word.

#### Chapter 4254 The Spirit Beast Unmarked Common Graves

But even so, as the surrounding environment gradually changed, everyone's breathing unconsciously became much heavier.

If one observed the surroundings carefully, one could clearly feel that it was much gloomier and darker than before. It could even be said that the further one walked, the more deathly silent and eerie the environment became.

Along the way, they had at least encountered spirit beasts occasionally. Although this was not a good thing for the group, who only wanted to hurry on with their journey, they could at least feel some vitality.

But now, this kind of eerie feeling made people feel as if they had unknowingly walked into the nine Serenities hell. Even the surrounding flowers and plants were no longer so lush and bright. Instead, they were a mess, withered and gloomy. Even if there were a few shades of green in between, it always gave people a terrible green feeling, making people feel a chill on their backs.

Everyone's expression changed. They could understand that the depths were different from the periphery, but the problem was that even the vegetation environment was different from the periphery, right?

Although each of them was powerful and were Masters of the Golden core stage, at this moment, they couldn't help but feel a little lacking in confidence. Like ordinary people, they were also full of fear of the unknown existence. And because they knew more, their courage may not be comparable to that of ignorant and fearless ordinary people!

"Are we on the wrong path? "This place is too eerie ..." Huang xiaotao couldn't help but pull Lin Yi in fear, her face nervous as she whispered.

Although Huang xiaotao looked obedient and quiet, she was actually a typical soft-hearted person on the outside. Moreover, after so many years of going out to do trial missions, her courage was far from that of an ordinary girl. Even if she was alone in the deep mountains and forests, she might not be afraid. However, the scene in front of her was really too horrifying.

The surroundings were so quiet that everyone could even hear each other's breathing clearly. Although Huang xiaotao was only talking to Lin Yi in a low voice, the people in front could still hear her.

In fact, not only Huang xiaotao, but even pure men like Guo dengtao and Wang Feng were a little scared at this moment. After hearing these words, they even shrank their necks unconsciously.

This place was too strange. It was completely different from what everyone had expected. If this place was filled with powerful spirit beasts, everyone would be able to accept it. At least, they were mentally prepared for this.

However, the scene in front of him was lifeless. There was not a single living thing to be seen. In addition, the light was so dim. As the old saying goes, there must be something wrong if something was abnormal. This was definitely wrong!

Lin Yi held Huang Xiaotao's hand, his heart was also filled with uncertainty. He had noticed this abnormality a long time ago and had been on high alert, on guard against all the grass and trees around them. But to his surprise, other than the eerie environment, there was nothing wrong with this place.

Lin Yi was curious, but he wasn't too worried. His jade had an alert function, and as long as he didn't sense any danger, the jade would alert him. So far, the jade hadn't done anything strange, and he didn't sense any danger either.

Therefore, there was only one explanation. The eerie and strange scene in front of them was not a sign of danger. It should have been like this, but for what reason, they could not figure it out at the moment.

"It seems that your knowledge is really limited ..." Chu Bubai, who was walking at the front, turned around and saw everyone's expressions. He couldn't help but laugh, "Could it be that you've only heard of the name of baby ginseng, but have never heard of its unique growth environment?"

"Oh, right! So that's how it is!" With Chu Bubai's reminder, Guo Dengtao suddenly came to a realization and patted his head. The nervousness and apprehension in his heart also disappeared without a trace.

"The growing environment of baby ginseng?" Lin Yi blinked—he'd never heard of it before. After all, he'd just formed his core not too long ago, and he hadn't even seen the shadow of a peak golden core yet, let alone a nascent soul. If it weren't for the fact that he'd made a golden core for the Tian Xing sect, he probably wouldn't even know what a baby ginseng was, let alone anything else.

It wasn't just Lin Yi. Huang Xiaotao, Wang Feng, and even Chu Bubi's Dao partner, Feng Hongyu, were all at a loss. They weren't that strong yet and hadn't done their homework, so it was normal that they didn't know much about the baby ginseng.

"Taozi, why don't you tell them about it, so that they won't be so nervous and scare themselves." Chu Bubi ordered. At the same time, he continued to walk forward, indicating for everyone to quickly follow and not fall behind.

"Alright, it seems that everyone doesn't know that baby ginseng is just a name we usually call it. It actually has another name. In a sense, this name is more appropriate and can explain our current environment." Guo Dengtao said, trying to keep him in suspense.

"What's your name? hurry up and tell me!" Wang Feng gave him a push. Perhaps it was because he was injured earlier, but his body was already feeling unwell. In such a dark and terrifying environment, his hands and feet felt cold, and his heart was trembling.

"Alright, alright. The other name for baby ginseng is ghost ginseng." Guo Dengtao deliberately paused. Seeing that everyone was looking at him curiously, he continued, "As for the reason, it's not because it looks like a ghost, but because it usually grows in places with heavy Yin Qi, such as mass graves."

"Mass grave? No wonder this place has become so eerie!" Everyone couldn't help but look at each other. Now that they knew the ins and outs of the matter, they were no longer nervous. After all, they were Masters of the Jiedan stage. They couldn't be afraid of a mass grave. The reason why they were so nervous just now was just out of fear of the unknown.

"that's right. according to the map, there should be a graveyard of spirit beasts not far ahead. so, it's normal for this place to be a little gloomy. this also proves that my map is accurate and reliable. so, everyone, you don't have to worry about anything!" chu bubai, who was in front of him, said with certainty without turning his head.

"indeed, i didn't come here in vain by following brother chu!" guo dengtao and the others immediately said happily. when they looked at the surrounding environment again, they were no longer nervous or afraid. instead, they felt even more excited. after all, this meant that they were getting closer and closer to the baby ginseng that they had been dreaming of.

Lin Yi nodded and didn't say anything else. Although these words all sounded reasonable, and came from Guo dengtao, not Chu bubai's family, he didn't know why, but he felt a little weird. He couldn't explain it, but it just wouldn't go away.

#### Chapter 4255 A Strange Phenomenon

under chu bubai's lead, the group quickened their pace and continued walking forward. as expected, after walking for a short while, they discovered some scattered white bones on the ground. they could tell that these were the bones of spirit beasts.

at first, there were only a few scattered bones, but the further they went, the more densely packed the bones became. later on, there were even piles of bones. at this time, the sun had already set in the west, and they could inadvertently see some floating will-o'-the-wisps among the bones, also known as will-o-wisps.

the surrounding environment, which was already gloomy, became more and more terrifying under the contrast of this ghost fire. even if everyone already knew the cause and effect, now that they were really in it, they couldn't help but look at each other and feel their scalps go numb.

lin yi compared the map in his hand-they were at the unmarked common graves indeed.

it was said that all living things in the world, as long as they had spirituality, could sense their own death in advance. the more spirituality they had, the more accurate their perception was, and the earlier they could sense their death.

the reason why spirit beasts were called spirit beasts was because they were born with spirit qi, which was much stronger than ordinary species. there were rumors on the street that many spirit beasts could even sense their death date a few months in advance, and thus prepare for it.

it was a mystery, but it wasn't just a rumor-it was something that many people had experienced. after all, pets were everywhere on sky class island, and they often ran away from home before they died, dying in the mass grave.

such things often happened in the secular world. many pets often had similar situations before they died.

Lin Yi had heard from Hong Zhong and the others that almost every gathering place of the spirit beasts on Sky Class Island, especially those deep in the mountains and forests, would have a messy graveyard for the spirit beasts in the core. Almost all the spirit beasts in that area would come to the messy graveyard when they felt that they were about to die, and then quietly wait for their death there.

Although there was a strict hierarchy among the spirit beasts, and under normal circumstances, the spirit beasts who were not strong enough on the outside would not be able to enter the depths of the core at all, but only when it was about to die could they enter, and it would be unimpeded. Absolutely no spirit beast would stop it. This was a tacit understanding that existed between all the spirit beasts.

Lin Yi looked at the route carefully. As long as they passed the messy graveyard of spirit beasts, it meant that they weren't far from their destination. If everything went smoothly, the baby ginseng would be right in front of them.

At this time, Lin Yi felt that Huang xiaotao's breathing was a little rushed. She was obviously nervous and scared. Lin Yi comforted her and held her hand gently, indicating that she didn't need to be afraid.

There was a dead silence around them. The people in front could clearly feel Huang xiaotao's strange behavior. Guo dengtao even turned around and smiled, giving her a comforting expression. After all, she was a girl. Even men found this kind of ghastly place creepy, so it was understandable that she was a little scared.

"Hmph, if you're so timid, then don't come out and take risks. You're useless, and you're so troublesome ..." Feng Hongyu saw this and turned to look at Lin Yi and Huang xiaotao with a mocking face, taking the opportunity to jabber on.

She'd been sneering at the two the whole time, as if she wouldn't be able to show off her superiority if she didn't do that. The two, on the other hand, treated her like air and didn't bother with her.

However, before Feng Hongyu could finish her sentence, she was interrupted by Huang xiaotao's scream.

Whoosh! All was silent. Huang xiaotao's scream was particularly sharp, and it suddenly startled a black mass of birds not far away. Without any warning, it gave everyone a big scare.

Upon a closer look, these were not some powerful spirit beasts, but some ordinary Carrion crows and other birds. This place was a graveyard for spirit beasts. Unless it was a spirit beast that was about to die, no other spirit beast would come to this place.

"You're crazy! You're so scared, you're so timid, yet you want to scare people to death!" Feng Hongyu's face also turned pale. When she realized what was going on, she immediately started scolding Huang xiaotao.

She wasn't the only one. The faces of Guo dengtao, Wang Feng, and the others were also a little ugly. It was deathly silent around them before, and there was no movement at all. They didn't expect that there would be so many scavenger crows lurking in the dense forest. Under the night sky, their eyes shone with a dim light, and they felt like they were staring at a corpse. They simply shuddered.

"There's a ghost ..." Huang xiaotao's voice trembled as she buried her head into Lin Yi's arms. Her whole body was shaking and trembling.

No matter how strong her heart was, she was still a weak girl! Lin Yi smiled and gently stroked Huang xiaotao's back. However, when he followed the direction of Huang xiaotao's finger, his expression froze.

It was not known whether the miasma fog above their heads had become thinner at night or because this place was too strange and creepy. At this moment, they could clearly see the Blood Moon above their heads. The light was much brighter than during the day, but there was a faint layer of blood and they could even smell a bloody rotten smell.

Under the blood-red moonlight, an extremely strange scene not far away made Lin Yi and the others stop in their tracks.

A spirit beast that looked like a rhinoceros from the secular world had its head drooped powerlessly to one side. Its neck had also been twisted into a strange angle, leaving only a thin layer of skin that was connected to its huge body.

Its huge head dragged on the ground, leaving a long dark red trail of blood. On the side of its body, there was a bloody hole that was half the size of a person. Its intestines and internal organs were all over the ground, and even now, they were still dripping blood ...

He didn't know if it was just a psychological effect, but even from a hundred feet away, Lin Yi and the others could clearly smell the pungent smell coming from its body.

If it was just that, it would be fine. He could just hold his nose and bear with it. But the key was that this guy was already in such a state, but he was still alive!

The head that was dragged on the ground was actually eating something with a ferocious expression on its face. Upon closer inspection, the thing it was chewing was the intestines and internal organs that had flowed out of its own stomach. As it ate, blood bubbles could be seen at the corner of its mouth ...

At the same time, there were a few Carrion Crows at the side who were also fighting for the intestines and internal organs. Some of them even directly bit out from its stomach. This unknown spirit beast did not care about this and only continued to gnaw on its own internal organs that had fallen to the ground.

Chapter 4256 He's Lying

Suddenly seeing this horrifying scene, let alone Huang Xiaotao, even Lin Yi's scalp couldn't help but go numb. His whole body was creepy, even his hair stood up.

What the hell was this place? how could it be so sinister and evil?

It wasn't just Lin Yi and Lin Yi-Guo dengtao and Wang Feng saw the scene as well, their heads going numb and their temples throbbing-they were both mid-stage golden core cultivators, but they almost fainted from the shock.

What the hell, even if he had directly encountered a super spirit beast of the original infant stage, it would not be as terrifying as this! Was this thing Dead or Alive? what kind of divine being was it?

"Hmph, coming to this place to act coquettishly and show off your love, I say, are you really sick? Trash will always be trash. Not only do you have no strength or knowledge, you don't even have the guts. Taozi, look at what kind of trash you've found!" Up until now, Feng Hongyu still didn't notice the strange rhinoceros monster. She was mocking Lin Yi and Huang xiaotao while walking forward without looking at them.

Seeing the direction she was walking in, the expressions of Guo dengtao and the others suddenly became even more strange. They looked at each other and couldn't say a word for a long time.

"What are you guys standing there for? hurry up and follow brother Chu. Do you want to die Here?" Feng Hongyu didn't realize what was going on as she saw the strange expressions on everyone's faces. She continued to taunt them while walking forward.

Buzzzzzz! Suddenly, a Crow cawed, and a carrion-eating crow that was fighting for intestines suddenly appeared at her feet. Feng Hongyu was shocked, and she vaguely felt that she had stepped on a string of sticky things. She was caught off guard and suddenly slipped, and then she lost control of her body and fell forward.

With a "pfft" sound, the world went completely silent. Guo dengtao and the others were dumbfounded. Even Lin Yi had a strange expression on his face, unable to speak for a long time.

At this moment, Feng Hongyu had accidentally fallen into the bloody hole on the side of the rhinoceros.

"What is this ... Ah!!!" With a piercing scream, Feng Hongyu struggled to get out. She was covered in dark red blood and body fluid, and half of her intestines hung on her shoulder. She happened to see the head on the ground, which was eating the intestines.

Anyone would be scared to death by such an encounter. Feng Hongyu was so arrogant just now, but she was scared to death on the spot.

Feng Hongyu didn't even have time to crawl. She just sat on the ground, screaming and retreating desperately, leaving a string of wet marks. No one knew if it was the blood, the pee, or both.

Lin Yi couldn't help but laugh-this was karma, too fast!

Chu bubai, who was leading the way, heard the noise and immediately turned back. He hurriedly ran over and helped Feng Hongyu up from the ground. Feng Hongyu panicked, but she finally found a life-saving straw. She screamed and hid in Chu bubai's arms without saying anything.

Chu bubai's face turned green as he smelled the pungent smell of blood and watched Feng Hongyu rub this sticky and disgusting thing on his body. His mouth twitched for a long time, and he was stunned speechless.

"Alright, it's alright now. Don't be afraid!" Disgust flashed across Chu bubai's face, but he immediately suppressed the nauseating feeling and hugged Feng Hongyu to comfort her.

Lin Yi looked at him, then looked at Huang xiaotao in his arms. He was instantly amused. The other party had such a stupid Dao companion. It was really hard to compare people with goods!

Guo dengtao and Wang Feng didn't know whether to laugh or cry when they saw this scene, and they tried very hard to hold back their laughter. A woman like Feng Hongyu was simply a rare weirdo that only appeared once in a hundred years.

After comforting her for a while, Feng Hongyu finally calmed down. However, when she saw that she was covered in disgusting things, she turned around and vomited ...

Chu bubai waited at the side with his arms crossed. He looked at the sticky liquid on his clothes. If not for the important plan that was about to come, he would have kicked him.

"Everyone, don't be afraid. There's nothing to be afraid of. They don't have any offensive power ..." Chu bubai forced a smile and explained when he saw everyone looking at him with strange expressions.

Everyone nodded. After all, Feng Hongyu had already plunged into his stomach, but he still didn't react at all. Otherwise, if he attacked, Feng Hongyu would have been eaten up already.

"Brother Chu, what is that thing? it looks so creepy!" Guo dengtao couldn't help but ask. Even if he knew that the thing was not aggressive, just looking at it still made people's hearts tremble.

"They're just spirit beasts that have formed their primordial spirits. After their physical bodies die, their primordial spirits naturally can't be preserved, so they gradually disillusioned and lost their consciousness. However, they still have the instinct to survive, so they remain on their decaying bodies like vengeful spirits. That's why there's such a strange scene. In fact, they don't have any offensive power. " Chu bubai explained to everyone.

"I see." Everyone nodded. They were all golden core cultivators, so they naturally knew about primordial spirits. Chu bubai's explanation was reasonable and reasonable.

Vengeful souls weren't that rare to practitioners-if there was an essence spirit, then it wasn't that strange for vengeful souls to exist. After all, the two were the same thing, and Lin Yi's ghostly thing was proof of that.

After hearing Chu bubai's explanation, Feng Hongyu, who was almost scared out of her wits, finally came back to her senses. However, she didn't dare to mock others as arrogantly as before. She lowered her head and cleaned the dirt off her body with a red face.

Huang xiaotao, who was hiding in Lin Yi's arms, couldn't help but let out a sigh of relief. Humans were most afraid of the unknown. Since this phenomenon could be explained, there was nothing to be afraid of.

Lin Yi lowered his head and pondered, thinking about whether Chu bubai's explanation was reliable or not. At this time, a reminder sounded in his mind,""He's lying, don't be fooled!"

"What?" It had been a long time since Lin Yi heard that voice, and he paused for a moment before reacting in surprise and joy. "Senior ghost!"

"That thing is not the primordial spirit of a spirit beast, but a ghost cultivator!" The ghastly thing laughed in his mind. "The one in front of you should be using a low-level demonic soul cultivation technique. It's a defective ghost talisman demonic head refined from some low-level spirit beasts. However, he's right about one thing. This thing really doesn't have any killing power."

Chapter 4257 Not Going Back Now

"Oh? A ghost cultivator?" It was Lin Yi's first time hearing that word. He couldn't help but ask, "Senior ghost, what exactly is a ghost cultivator ..."

"He is one of the evil cultivators among you human cultivators. Didn't you come here to kill Wu Bao Liang? This guy should be a heretic practitioner, but he used the blood of a Virgin to cultivate, while the one in front of us used the primordial spirit of a spirit beast to cultivate!" The ghastly thing's tone carried a cold killing intent.

In any case, it was still an elder of the spirit beast clan. The existence of any ghost cultivator meant that a large number of spirit beasts would inevitably fall into its hands. Not to mention, it would not even let go of their primordial spirits, so they would not die in peace.

The demonic thing was not a person who abhorred evil. If it was just a normal fight between humans and spirit beasts, or between spirit beasts, it would not even bother to care. This was because the law of the jungle had existed since ancient times. Even if they died, it could only be said that they were not as good as the humans. There was nothing to blame.

However, ghost cultivators were different. The very existence of such a person was already against the laws of heaven. Even if the heavens could tolerate him, the ghost would be the first to not let him off.

"I understand. But why did Chu bubai make up such a reason? Could he be a ghost cultivator?" Lin Yi communicated with the ghostly thing while looking at Chu bubai.

"I don't know. He didn't show his true strength. Maybe he's pretending to know, or maybe he knows but is hiding it for some reason. Anyway, you should be careful." The ghostly thing laughed.

"Yes, I know." Lin Yi nodded to himself. He'd always felt that Chu bubai was a man with evil intentions, and now that this thing had reminded him, that feeling became even stronger.

As the saying goes, those who are unaccountably solicitous are either evil or thieves. In fact, putting aside all these strange things, just the fact that Chu bubai suddenly shared the news of the baby ginseng with outsiders who had nothing to do with him was already a very problematic matter.

Even if it was really as Chu bubai said, that he needed more people to help him find the baby ginseng, after all, the fertile water should not flow into others' fields. Why should he give up such a great opportunity to outsiders who he had no relationship with and not find his own family and friends? his social relations couldn't be so poor that he couldn't even gather a few people, right?

In fact, anyone with a discerning eye could see that the reason why Guo dengtao, Wang Feng, and the others had taken the bait was not only because of Chu bubai's ability to deceive people, but also because they were obsessed with the situation. They had been blinded by the Super temptation of the infant ginseng.

However, Lin Yi had always been able to control his mental state well and was able to observe coldly from the side. This was why he was able to see all the strange things about Chu bubai.

"Senior ghost, have you been in closed-door cultivation?" Lin Yi asked.

Strictly speaking, they were in the southern part of the island, just at the very edge. Lin Yi couldn't help but wonder if this thing wanted to go back to the spirit beast clan to take a look after "waking" up.

"Closed-door training? You can put it that way. " The demonic thing smiled nonchalantly-it probably wasn't the traditional sort of training, but with Lin Yi's level, he wouldn't be able to explain it in one or two sentences.

"So this is the southern island, then you ..." Lin Yi couldn't help but ask.

"What's wrong? You're in such a hurry to drive me away?" The ghostly thing asked back with a teasing tone.

"No... How is that possible ..." Lin Yi blushed. As the saying goes, having an old man in the house is like having a treasure, not to mention a God like this thing. He would be happy if this person was willing to stay in his Jade. How could he kick her out?

"Then that's it." The ghostly thing was clearly just a primordial spirit, but it made a sound of twitching lips.

"I just wanted to ask if senior ghost would like to take this opportunity to go home and visit ..." Lin Yi didn't know whether to laugh or cry. According to what the ghost said, who knew how many years had

passed since he came to the secular world? it was rare for him to come to the southern island, so he couldn't just pass by the door and not enter.

"What's the point of going back to see me in this ghostly state? Kid, just remember this: no one in the spirit beast clan is a good person. If those old guys find out, I won't even be enough to fill the gaps between their teeth!" The ghostly thing said in a self-deprecating manner.

"Ugh ..." Lin Yi was speechless. He just remembered that the spirit beast clan followed the law of the jungle more than human practitioners.

Even if a human had such thoughts, they would at least pretend to be hypocritical. However, if it was a spirit beast, once it saw that the ghost was so weak, it would probably attack without a second thought, regardless of whether the ghost was an elder or not. To the ghost, the southern island was not a warm home, but a real Dragon's pool and Tiger's Den.

Zhang Liju's example was still fresh in her mind-it didn't matter if you were a Big Shot or not, losing your strength meant losing your status.

"Little brat, you don't have to think too much about it. I'm definitely going back to the spirit beast clan, but not now. As for how long I have to wait, that will depend on when you can help me. Let's quickly improve our strength first. If we can really get the infant ginseng, it's a good opportunity." The demonic thing laughed.

"Alright, I got it." Lin Yi nodded silently. When he first came to Sky Class Island, the ghost asked him to help, but now that he was an early golden core, he still wasn't strong enough. It was clear that this help wasn't that easy-he had to work hard.

He'd communicated so much with this thing, but only a short moment had passed in the outside world-it wasn't even enough to be considered a shock. Everyone was still thinking back to Chu bubai's explanation, so naturally, they didn't notice Lin Yi's expression. Only Huang xiaotao, who was in his arms, felt a slight difference.

"What's wrong?" Huang xiaotao blinked and looked up at him.

Chu bubai and the others heard the noise and thought that Lin Yi had found something unusual. They couldn't help but turn their heads and focus on him with surprise.

"Oh, it's nothing. After hearing brother Chu's explanation, I thought of the ghosts in the eyes of ordinary people and felt a little emotional." Lin Yi smiled, his face unchanged.

"Hehe, the world is so ignorant. Many people who think they are smart think that the talk of ghosts and monsters is just a rumor. They don't know that there is no wind without a hole. These legends exist because they are true." Chu bubai smiled faintly.

These wise words, coupled with his refined and elegant appearance, made everyone look at Chu bubai with even more admiration.

Chapter 4258 Lin Yi's Test

Thinking back to their journey here, Chu bubai's image in everyone's eyes could be said to be almost perfect!

At this moment, everyone couldn't help but feel honored. To be able to become teammates with such a person and see the baby ginseng so close was a blessing that couldn't be obtained in several lifetimes!

Lin Yi couldn't help but shake his head at this scene. Chu bubai was really good at acting. He'd been on Tianjie Island for more than a year and met many people, but he'd never seen anyone as mesmerizing as him.

The best way to gain someone's trust was to make them worship you. Chu bubai had played this trick to perfection.

Lin Yi was even more wary of Chu bubai now, but he didn't tell Huang xiaotao. After all, the environment was too quiet. Even the slightest movement, no matter how soft a person's voice was, would be heard by these people.

Besides, even if he could hide it from these people, Lin Yi couldn't guarantee that Huang xiaotao would be able to keep a low profile after she found out. In front of a smart person like Chu bubai, any unnaturalness would become a flaw.

Lin Yi didn't want to take the risk-he'd been lying low all this while for the baby ginseng, and he'd be done for if he exposed himself now.

Under Chu bubai's lead, the group continued to follow the route on the map. More and more strange creatures like the rhinoceros spirit beast appeared in front of them.

There were no heads, no limbs, only half a body, and even a pile of bones. All kinds of strange and evil existences constantly challenged everyone's optical nerves.

Although everyone had already heard Chu bubai's explanation and knew that these things were not aggressive, knowing it in their hearts and seeing it with their eyes were two different things. Even though they knew that these things would not eat people, they could not help but feel their scalps go numb as they watched this horrifying and strange scene.

"Lin Yi ... I ... I'm a little scared ... It's like it's real ..." Huang xiaotao's body was stuck closely behind Lin Yi's back as she spoke nervously, even her voice was trembling.

"Don't worry, I'm here. They can't hurt you!" Lin Yi held her hand and turned to comfort her.

"En ..." Huang xiaotao nodded weakly. Although she was still unconsciously nervous and scared, as long as Lin Yi was holding her, her heart felt much more at ease.

Lin Yi was different from the others who were kept in the dark. After the ghostly thing's reminder, Lin Yi knew that these weren't vengeful souls that lingered around. They were low-level ghost demons, evil things left behind by ghost cultivators. They weren't aggressive only because they were defective.

But even so, after seeing these strange scenes one after another, especially the surrounding environment, Lin Yi's forehead was covered in sweat and he couldn't breathe.

Not only Lin Yi and Huang xiaotao, but even Guo dengtao, Wang Feng, and the others, especially Feng Hongyu who just made a big mistake, were all trembling with fear. They couldn't help but shiver with every step they took, no longer in the mood to mock others as arrogantly as before.

Perhaps it was because of the fear just now, Feng Hongyu immediately screamed when she saw a little bit of the horrifying scene. Even the people behind her were nervous. They were just scared at first, but with Feng Hongyu's sudden appearance, they would be scared to death even if they were not sick.

Chu bubai was the only one who didn't show any signs of nervousness or fear. He didn't care about all this at all. He walked forward with his usual calm and confident steps. Lin Yi couldn't help but wonder when he saw this scene.

Was Chu bubai fearless because he was ignorant, or was he already used to it?

Even if this person really thought that his vague explanation was the truth of the matter, it was impossible for him to not have any strange behavior in such a strange environment, right? Even if the ignorant were fearless, there should be a limit, right?

No matter how courageous one was, one would still be afraid of unknown and unfamiliar evil things. This was human nature, unless one was no longer human.

Chu bubai wasn't an inhuman person, and Lin Yi could only conclude that there were two reasons for his behavior.

Either this person didn't appear to be so calm and composed, or he was actually as nervous and afraid as everyone else, but he didn't want to be seen through, so he deliberately put on a strong front.

Either this person was already used to everything that was happening in front of him, like a forensic doctor Who faced dead people every day. He was already used to such things and naturally would not have any fear.

What made Lin Yi even more suspicious was that Chu bubai seemed to be very familiar with this place. He walked with his head held high, almost without any hesitation. Even with the Blood Moon above his head, the light wasn't very good. Moreover, it was his first time coming to this place. Just comparing the route to the map would take a lot of time, right? How could she be like him, without the slightest hesitation?

This point itself was already a big flaw. Chu bubai inadvertently revealed his fox tail, but everyone was shocked by the strange environment around them and panicked. They didn't pay attention to his performance at all. Unfortunately, all of this couldn't escape Lin Yi's eyes.

"Brother Chu, have you been here before?" Lin Yi asked suddenly.

"Of course I ..." Chu bubai was about to answer subconsciously, but he paused and looked at Lin Yi with a deep meaning, ""No, I haven 't. From the map, this place is not far from our destination. If I had been here before, I wouldn't have returned empty-handed even if time was limited. Why do you ask?"

"Oh, it's actually nothing much. I just saw that brother Chu seemed to be very familiar with this area and that we didn't encounter any danger along the way. I believe that for anyone, this should be an incredible thing." Lin Yi smiled naturally, "That's why I thought brother Chu had already made a trip there last time. If it wasn't for you, we might have been completely annihilated."

"So that's how it is ..." Chu bubai's heart was obviously relieved. He let out a long breath and smiled, ""Haha, you've misunderstood me. I'm actually the same as you. I've only seen the map in advance. Of course, I'm definitely more prepared than you."

## Chapter 4259 The Appearance Of The Infant Ginseng

It wasn't just Lin Yi-everyone else, including Guo dengtao, was listening intently as well. They'd been confused by the situation earlier, and didn't know what the flaw was, but an intermediate golden core practitioner wasn't an idiot. After hearing Lin Yi's warning, their eyes were filled with suspicion.

Chu bubai knew in his heart that if he couldn't immediately explain this problem clearly and convince them, all the efforts he had made before would probably be in vain.

He had also realized that as he was getting closer and closer to his destination, he had been a little too hasty. Otherwise, he would not have revealed such an obvious flaw. Once such a flaw was discovered, it could not be simply dodged by saying that he was well prepared.

It was all because of this Lin Yi! Chu bubai glared at Lin Yi with hatred, but he didn't dare to hesitate when he saw everyone's eyes on him.

"I won't hide it from you. Apart from this family map, the ancestors of the Chu family also left behind a message about their exploration experience. It's very valuable as a reference. I have a photographic memory since I was young, so I can remember everything I've heard and seen. After hearing the elders of my family say it once, I've remembered it in my heart. Now, it's useful, so I can do this." Chu bubai explained.

After he said that, Guo dengtao and the others suddenly felt relieved. Not only did they not think that this was a flaw, but they also felt that Chu bubai was indeed a reliable person.

It was already a magnanimous move for Chu bubai to take out this family map and share it with everyone. The value of the words of the ancestor of the Chu family was no less than the map. If they were in Chu bubai's position, they would definitely not reveal it to them in advance.

If they shared all the information rashly, what would they do if someone suddenly turned against them?

Although Chu bubai's strength was the highest among the group, they were in the depths of Lufeng forest. As long as the traitor casually entered the dense forest, Chu bubai would definitely not dare to rashly chase after him. Thus, as the initiator, he had to hold back a little.

"I see. It's all thanks to brother Chu." Lin Yi nodded with a faint smile, but he didn't give an answer in his heart. It was one thing to be fully prepared, but it was another thing to actually do it. Chu bubai's explanation could fool Guo dengtao and the others, but it was still very vague in Lin Yi's eyes.

Lin Yi couldn't help but think that Chu bubai was really good at confusing people's minds. He didn't know if this excuse was prepared beforehand or made up on the spot, but no matter which one it was, it only proved that this person was not to be underestimated.

"Alright, everyone, there's no need to pay too much attention to these things in front of us. They're just some things used to scare people. Let's speed up a little. We're not far from our destination. The baby ginseng is right in front of us." Chu bubai encouraged everyone.

"Alright!" Everyone's eyes immediately lit up when they heard the word 'baby ginseng'. They immediately threw their doubts to the back of their minds and followed Chu bubai with renewed vigor.

At this time, even the principle of not moving at night in the forest was completely forgotten. Anyway, there was still a Blood Moon above their heads, and the light was not bad, so who cared?

Lin Yi saw this scene from behind and knew that Chu bubai was speeding up because he didn't want to delay any longer.

Pulling Huang xiaotao along, Lin Yi followed the crowd without a sound. No matter what Chu bubai was up to, as long as he was careful, there was nothing to be afraid of. Even if there was any unexpected danger, he still had the Jade to warn him.

Perhaps because this was the graveyard of spirit beasts, they did not encounter any danger other than a few low-level devil ghost talismans from time to time.

Two hours later, a burst of medicinal fragrance suddenly hit their faces in the air. If they smelled it carefully, it would make them feel refreshed from head to toe. Even the true Qi in their bodies involuntarily became active.

Everyone looked at each other in shock and wonder. For cultivators at the Golden core stage, if it was just an ordinary treasure, even if they took it, it would have little effect. But now, just by smelling it, it had such a wonderful effect. Then the level of this treasure must be beyond the sky!

Lin Yi took a whiff of the scent and froze. It felt familiar. He sniffed a few more times and finally remembered. This was the smell of baby ginseng!

When he had refined the Golden elixir for Tian Xing Dao, the main material used was the nascent ginseng, so he was naturally familiar with this smell. In fact, the final golden elixir of the nascent soul had a similar smell to this.

"If I'm not wrong, this is the fragrance of the baby ginseng!" Chu bubai couldn't help but be stunned for a moment. Then, he suddenly changed his previous refined and elegant demeanor and shouted excitedly, ""It's done, we're almost there!"

"Re ... Really?" Everyone was already surprised and confused. After hearing this, they were so excited that they almost jumped up. However, they still found it hard to believe. "Did we really find the baby ginseng?"

"That's right, this is definitely the fragrance of baby ginseng! Although I've never seen it before, master Zhang Liju's "collection of rare herbs on sky-class Island" has written that baby ginseng grows in places full of ghostly Qi, but it has an extraordinary fragrance that is refreshing and can make one feel refreshed and full of energy. " Chu bubai said with certainty.

with master zhang liju's evidence, the crowd didn't have any doubts and let out a breath of relief. they said excitedly, "we've finally arrived! that's great!"

following chu bubai to the core of lufeng forest, everyone had taken a huge risk. if they were not careful, they would lose their lives here.

but now, seeing that the infant ginseng was within reach and even the medicinal fragrance was so clear, all of his previous worries had become fleeting clouds!

there was only one thing left, and that was to follow the fragrance to find the baby ginseng and bring it out of lufeng forest. from then on, it would be a piece of cake for him to soar to great heights.

those with greater ambitions could think of a way to ask someone to refine this nascent ginseng into a golden core to prepare for the formation of a nascent soul in the future. if they were really eager, they could also exchange this nascent ginseng.

Even if it was just a small piece of baby ginseng, it was absolutely more than enough to exchange for a jiedan stage master. For these jiedan stage Masters, this was a lingdan that they could only dream of. If they were a little more prepared, they could immediately advance one level after taking it. This was a real benefit.

Chapter 4260 Did I Go The Wrong Way?

After the excitement, everyone couldn't help but speed up under Chu bubai's lead. The nascent ginseng they had been dreaming of was so close to them, and everyone was obviously unable to hold back. It was as if the fatigue accumulated from these few days of continuous travel had been swept away, becoming insignificant.

However, Lin Yi was a little puzzled. To be honest, he had suspected Chu bubai from the beginning. He felt that this person was up to no good, and all the strange things he'd seen along the way proved this point.

But the baby ginseng's scent couldn't lie. The others who hadn't seen the baby ginseng could say that they were tricked by Chu bubai, but Lin Yi had used it to make elixirs before.

As an Alchemist, it was impossible to forget the smell of such a rare material after smelling it once. It couldn't be faked and Lin Yi couldn't be fooled.

However, if this smell was really the baby ginseng, what was Chu bubai's scheme?

He had used all sorts of methods to bring so many people here, and now he was really close to finding the infant ginseng. Going in such a big circle, what kind of hidden intentions did he have?

So far, although there were all kinds of strange things about Chu bubai, he didn't cause any substantial harm to everyone. On the contrary, just as he said, he really brought everyone to their destination, and they were only a short distance away from the legendary infant ginseng.

Plus, everyone's participation hadn't been of any help to him up until now-Lin Yi included. They'd been of no use to him at all, just following him.

Could it be that Chu bubai had specially brought all of them here just to find the baby ginseng as quickly as possible, and had no other ill intentions? Could it be that I'm thinking too much? this person isn't as scheming as I thought?

However, how could he explain all the strange things that had happened along the way?

Lin Yi looked at Chu bubai's back and couldn't help but be confused. His intuition told him that there was something wrong with this man, but he couldn't tell what the problem was.

Holding Huang xiaotao's hand, Lin Yi continued to follow the crowd silently. He wasn't afraid that Chu bubai would turn on him, but he was afraid that Chu bubai had other plans that he couldn't guard against. It would be troublesome if he fell into his trap.

of course, no matter what, lin yi's anticipation for the baby ginseng wasn't any less than anyone else's. otherwise, he wouldn't have taken the risk with huang xiaotao even though he knew chu bubai was up to no good. all they wanted was the baby ginseng.

so, lin yi was very excited to be able to smell the baby ginseng's medicinal fragrance. if it was purely a trap set by chu bubai and there was no baby ginseng at all, then there would be no point in pretending to be a pig to eat a tiger.

because of the baby ginseng's fragrance, everyone had long since thrown their nervousness and fear to the back of their minds. even if they saw a demon ghost talisman again, they didn't care at all.

even feng hongyu, who had been greatly stimulated and had a shadow in her heart, was running as fast as she could with chu bubai. she didn't show any signs of cowardice.

However, everyone soon discovered that something was not quite right. The frequency of the appearance of terrifying things like the ghost talisman devil began to slowly decrease, but the surrounding atmosphere became even colder and more sinister.

Under everyone's eyes, the clear path in the bushes began to blur. They could even see ghostly figures flashing from the corner of their eyes from time to time.

Although they couldn't see it clearly, but the image of the shadow jumping was real. They were all determined jiedan stage Masters, and they were sure that this was definitely not an illusion. There must be something in it, and it was very likely to be the legendary unclean thing!

At this moment, the thin fog had unknowingly become much thicker. Just now, they could still clearly see the Blood Moon hanging upside down in the sky, but now, when they looked up, the sky was a blur.

Even though they were only a few feet apart from each other, their figures had become blurry in the fog, and there was even a kind of vague feeling. In addition, from time to time, they could see ghostly figures flashing from the corner of their eyes. Even if everyone was excited because of the baby ginseng, they couldn't help but shudder at this moment.

Huang Xiaotao was so scared that she subconsciously stuck close to Lin Yi's back, not daring to look at the surrounding scene. Guo Dengtao, Wang Feng, and Feng Hongyu in front of them were also on their tiptoes, like birds startled by the mere twang of a bow, not daring to take big steps forward like before.

Lin Yi couldn't help but feel a little nervous. He wasn't scared, but there were ghostly figures flashing around them from time to time. It felt like they weren't far from them, but they couldn't see clearly. It was impossible for him not to be scared at all.

Fortunately, Lin Yi could confirm that the fog around them wasn't the poisonous one above them. It only affected people's senses, but it didn't kill them. This was a blessing in disguise.

Otherwise, even if they knew that this place had the baby ginseng, they had to quickly retreat. No matter how good the baby ginseng was, they had to be alive to get it. The miasma fog that enveloped this place was a dead land, and if they continued to stay, they would only become fertilizer for the baby ginseng.

"Argh! There's no path ahead!" Feng Hongyu's cry suddenly came from the front. She was walking at the front with Chu Bubai, and the rest of the people were following behind them. Only she and Chu Bubai knew the situation ahead.

"What?" Guo dengtao and Wang Feng were shocked and quickly stepped forward to check the situation. Lin Yi and Huang xiaotao looked at each other and followed.

The six of them stood in a circle, looking at the path that had completely disappeared under their feet. They could not help but look at each other, not knowing what to do.

Although the fog had become heavier and the ground had become blurry, there was still the outline of the small path. Now, there was not even the basic outline. There was only dense grass and bushes in front of them. It seemed that this was the end of the small path.

"Brother Chu, are we going the wrong way?" Guo dengtao couldn't help but ask. When the path suddenly came to an end, the first reaction of a normal person was to get lost.

After all, this place was covered in fog, and visibility was very limited. It was normal to get lost.

"It can't be. I've been checking the map and the compass. The direction is definitely correct. There's no need to panic. This map was passed down by my ancestors. No one has taken it for many years. It's normal for the small path to disappear." Chu bubai said calmly.
