

## Bodyguard 4271

### Chapter 4271 One Step Late

Lin Yi couldn't help but sigh. This was fate. The man in gray was a nascent Soul Master, and the Wandu golden core fruit was useless to him other than trading it. But it was still in his bag. What was it if not fate?

Of course, no matter how lucky they were, they had to have the strength to do so. If it were anyone else in Lin Yi's and Lin Yi's position, they would've been killed by the man already. It wouldn't be good luck, it would be bad luck.

"Alright, let's hurry up and leave. This place is too unsafe." Lin Yi put the bag into the Jade space and didn't dare to stay any longer. He didn't even care about his injuries and quickly left with Huang xiaotao. He didn't mind as he just needed to hold Huang xiaotao's hand and help her recover.

"Yes." Huang xiaotao quickly nodded. She also knew that it was not safe to stay here any longer and that they had to leave as soon as possible.

They had caused such a huge commotion just now, and the grey-robed man's lesson was right in front of them. If they stayed any longer, who knew if another person would appear out of nowhere. This was the core of Lufeng forest. Except for Chu bubai, those who could enter and leave this place were all original infant stage experts. This was not a joke.

The two of them immediately ran away, but they didn't dare to run around randomly. Instead, they followed the route map given by Chu bubai and returned the way they came in. This was the only way to escape in one piece. Otherwise, if they were not careful, they might run into the nest of some powerful spirit beast. That would be a real disaster.

Four hours later, Lin Yi and Huang xiaotao were dozens of miles away from the spirit beast graveyard. They didn't encounter any accidents along the way, nor were there any people or spirit beasts following them. It was a peaceful journey.

"Alright, it should be fine. Let's stop and rest for a while. We'll leave after we've healed our injuries." Lin Yi said.

Huang xiaotao was still fine. She treated the remaining injuries in her body as she sprinted. However, he still had injuries on his body. Although they were not very serious, it was not a good thing to drag it out for too long. He still needed to treat them as soon as possible.

"Yes." Huang xiaotao nodded breathlessly. In such a dense forest, she had been running non-stop for four hours. She had been relying on the true Qi in her body to hold on. If she did not take a break, she would not be able to hold on for long.

Lin Yi looked around and found a relatively clean rock for Huang xiaotao to sit on while he healed himself.

After half an incense's time, the remaining injuries on her body were completely swept away. Not only was her body relaxed, but her spirit was also much better. Lin Yi even transferred a lot of pure Qi to Huang xiaotao while healing her.

This was an inevitable choice. Even if Lin Yi and Huang xiaotao's close relationship was ignored, even if he were to consider it from the perspective of teammates, Lin Yi had to ensure that Huang xiaotao had enough combat power at all times. After all, this was Lufeng forest, where danger was lurking everywhere. It wouldn't be strange for anything to happen.

"I'm fine now. Shall we continue?" Huang Xiaotao stretched her arms and legs and turned her head to ask.

"There's no need for that. In any case, there shouldn't be any trouble now. It's rare to come to Lufeng forest and there's still a lot of time before the return of the miasma fog. Let's just walk around here. If we're lucky, we might encounter something good. " Lin Yi said, shaking his head.

Along the way, he had carefully confirmed the time when the miasma in Lu Feng forest would dissipate from the mouths of Guo dengtao and the others. According to his experience in previous years, there was still at least half a month before the miasma returned. There was still plenty of time.

Although the two most eye-catching treasures of Lufeng forest, the baby ginseng and the Wandu golden core fruit, had already been obtained, an ordinary person would have been trembling in fear. At this time, the only thought in their mind was to leave.

But Lin Yi wasn't the type to be mediocre-he wouldn't covet treasures that weren't within his means, but he'd never let go of things that were within his means.

"Okay, I'll listen to you." Huang Xiao Tao nodded. If she was the only one with the baby ginseng and the Wandu golden core fruit, she probably wouldn't dare to stay here. But now that she was with Lin Yi, she didn't have to worry about that anymore.

"Then let's look around here. But to be safe, we can't stray too far from this route map." Lin Yi said as he compared the map to Chu bubai 's.

In terms of location, this was still considered to be the core of Lufeng forest. The only place that could be confirmed to be safe was the route that they had taken before. Otherwise, if they walked around recklessly, it would not be called courage, but rather, they would be courting death.

Just as the two were about to continue their search, a figure appeared in the messy spirit beast graveyard. It was a Man in Black under a bamboo hat.

"Someone actually picked it? I'm a step too late?" The Man in Black looked at the traces left by the battle in front of him, observed the fog that should have existed but had already dissipated, and the shocking body of the man in gray. He could not help but be stunned, so stunned that he could not speak for a long time.

This time, he had rushed all the way from the North Island for the baby ginseng. In the end, he was a step late and someone else had already taken it. How could he endure this?

If it was someone else, it would be a pity to miss out on an extremely important treasure like the nascent ginseng, but it would only last for a while. The problem was that he didn't come to pick the nascent ginseng for his own use.

"We're finished! I'm finished! We're done for!" The Man in Black was so anxious that he was running around in circles. He scratched his head and muttered to himself, "This is a key material for the research of gene potions. Last time, the Yuanying stage master failed to make it, and it is very likely that there was a problem with the genetic imitation of this baby ginseng. We must find the real baby ginseng to find a way to remedy it, but now ... How do I explain it to miss Ling when we go back?"

The creation of Yuanying stage Masters was the most important key project of the headquarters recently. If the whole project was stagnant because of his failure, it might be delayed for a long time, and may even die halfway. This was a huge responsibility that no one could bear!

Thinking of this serious consequence, the Man in Black suddenly felt a chill down his back and broke out in a cold sweat. The organization's punishment was so cruel that it was not something that ordinary people could bear.

"Damn it, if I find out who took the baby ginseng first, I'll definitely cut him into ten thousand pieces!" The black-robed man gritted his teeth in anger.

#### Chapter 4272 Uprooting

In an instant, his murderous aura, which was almost tangible, poured out in torrents. Some of the powerful spirit beasts that had been attracted to him earlier were so frightened that they fled in panic, not daring to get close at all.

They were full of killing intent, but the Man in Black was too late. Lin Yi and Lin Yi had already been gone for four hours, and they were dozens of miles away. No matter how powerful their detection skills were, they couldn't find them.

The Man in Black was powerful, but he didn't even know who his target was, let alone his current whereabouts. What could he do?

With a heart full of unwillingness, the black-clothed man stayed at the same place for a moment. In the end, he could only decide to return first. According to previous intelligence, there was only one place in Lu Feng forest that produced baby ginseng. Even if it appeared occasionally in other places, the probability was very low. If he were to search aimlessly, it would be like looking for a needle in a haystack.

Moreover, there had always been a rumor that baby ginseng was unique. It didn't mean that there was only one baby ginseng in the world, but that in the same area, there would at most be one baby ginseng, and there would definitely be no second one.

This was because the growing conditions for baby ginseng were extremely harsh. It required an extremely abundant amount of spiritual Qi of heaven and earth as well as sufficient Yin Qi. The only places that could satisfy these two conditions were the spiritual beast graveyards of the various primitive lands. However, there was only one spiritual beast graveyard in Lufeng forest, and it was only enough to supply one baby ginseng at most. Even if someone wanted to specially cultivate a second one, it would not be able to survive.

Therefore, for the black-robed man who was in a hurry to find the nascent ginseng, it was better to return quickly than to continue staying in Lufeng forest and wasting time. Perhaps he might have a chance to find the nascent ginseng in other primordial lands.

However, just as the black-clothed man was about to leave helplessly, he inadvertently glanced at the corpse at the side again from the corner of his eye. Suddenly, his heart moved, and he turned around and walked over, lowering his head to observe carefully.

The man in gray had died a terrible death. His face was unrecognizable, and his entire body was covered in injuries. His head was even worse off. If one's nerves were not thick enough, an ordinary person would probably vomit from fear after seeing it.

"How did this injury ..." After the Man in Black checked for a long time, he pinched his chin thoughtfully and stood in place for a long time without moving. It was not until a moment later that he seemed to have suddenly thought of something and his figure disappeared into the dense forest.

.....

"Xiao Tao, let's do it here. If we go any further, we'll be a little far from the route Chu bubai gave us. It might be dangerous." Lin Yi, who was moving through the forest, suddenly stopped.

"Oh, so we're going back like this?" Huang Xiao Tao nodded as she looked at Lin Yi.

"Go back? "How can we just go back like this? Xiao Tao, look around. Aren't these all high-quality spirit herbs?" This chengse can be guaranteed to produce a top-grade pill if it's used for alchemy!" Lin Yi smiled as he pointed around.

"Really? That's great!" Huang xiaotao's expression brightened. At this moment, there were indeed a lot of spiritual herbs around the two of them. As no one came to Lufeng forest all year round, and it was in such a relatively central place, spiritual herbs could be seen everywhere. This was a very normal thing.

However, even though they were all treasures of heaven and earth, compared to the rare infant ginseng and the Wandu golden core fruit, the value of these spiritual herbs was far inferior.

Most of the spiritual herbs here could be bought from the market with spiritual Jade. Of course, compared to those sold in the market, the color of the spiritual herbs in front of him was much better.

However, Lin Yi was still a little disappointed. With the sky pill house as his money making machine, he didn't lack spirit jades at all. He could buy these herbs anytime he wanted.

As for chengse, he had the Jade space. Chengse, which was cultivated with spiritual medicine seeds, was no worse than the ones in front of him.

But even so, Lin Yi still pulled Huang xiaotao along and began to pull out the herbs in front of them.

"Uh ... Lin Yi, I don't think it's a good idea to just pull it out like this?" Even Huang xiaotao, who was used to all kinds of magical things, couldn't help but Twitch her mouth when she saw this.

"Not good? There's nothing bad about it, they're ownerless anyway, so whoever sees them will get a share. Besides, even if we keep them and don't pick them, others might not come to this place. " Lin Yi didn't think there was anything wrong with it.

"I didn't mean it that way ... I wanted to say ..." Huang xiaotao looked at Lin Yi's Swift and decisive methods and said weakly, ""I don't think you should pick spiritual herbs like this ..."

In the trial missions Huang xiaotao had done in the past, more than 60% of them were about collecting spiritual herbs, so she was quite experienced in this collection process and could be considered half an expert.

Spiritual herbs were existences that absorbed the essence of heaven and earth. The requirements for their growth conditions were much more demanding than ordinary plants. Correspondingly, their vitality was also much weaker. Whether it was wild collection or self-cultivation, it required a considerable degree of professional knowledge.

Even the most amateur of them would have to be very careful during the collection process. After carefully cleaning the soil, they would store it in a special spirit Jade box to ensure the vitality and freshness of the spirit herbs to the greatest extent.

However, Lin Yi's actions didn't seem to be careful at all. He was simply pulling out weeds without any special Jade box. Huang xiaotao's forehead was covered in cold sweat as she watched. She couldn't help but think of two words-what a waste of God's gift.

"Oh, that's fine." Lin Yi shook his head nonchalantly, but his hands didn't stop.

"Well ... Actually, many spiritual herbs will dry up after being pulled out for a long time. If they don't need special spiritual Jade boxes to store them, it's useless no matter how much they are pulled out ..."  
Huang xiaotao reminded him weakly.

"Hehe, I know that. Xiao Tao, don't worry. I have my own ways. You just have to do as I say." Lin Yi smiled.

Other people would have to be very careful when collecting spiritual herbs, but he had the Jade space. He could just pick any spiritual herb from the ground and plant it in the Jade space. There was natural and unlimited spiritual Qi in the space, which could provide for the growth of these spiritual herbs.

In the future, whenever he needed it, he could find it in the Jade space to ensure that the color would only be better than when he collected it. This was an effect that others could not achieve no matter how well prepared they were.

"Oh, alright then." Seeing Lin Yi's confidence, Huang xiaotao nodded obediently and didn't ask any more questions. She learned from Lin Yi and used a never-before-seen rough style of "pulling grass."

#### Chapter 4273 Another Team

The two of them swept through the area, and in just the time it took for an incense stick to burn, they had uprooted more than half of the surrounding area, leaving almost no grass behind.

This place could be said to be a natural spirit herb garden. There were spirit herbs everywhere. Not only were there a variety of them, but they were also of excellent color. If it were others, they would have to work for at least a few days before they could collect all of them.

However, with Lin Yi and Huang xiaotao's terrifying efficiency, they would probably be done in another incense's time. They didn't even look at what herbs they were and just pulled them out without any protection.

After Huang Xiao Tao pulled it out, the only thing Lin Yi had to do was to put the herbs away and plant them in the Jade space. Then, they would all be complete.

As the two were busy, Lin Yi frowned. He heard rustling sounds from the distance, and he could tell that it was footsteps approaching.

"From the sound, it should be people, and there's more than one of them. What should we do?" Huang xiaotao noticed Lin Yi's expression and quickly realized that she was no less familiar with the forest than Lin Yi.

"It's fine. Let's continue with our work. Don't worry about it." Lin Yi smiled faintly, not planning on leaving at all. The herbs here weren't rare, but it was better than nothing. There was a lot of space in the Jade space anyway.

Besides, Lin Yi had another layer of consideration. If he and Huang xiaotao deliberately avoided them, if they were noticed by the other side, they might think that they had obtained some kind of treasure, which was why he had a guilty conscience.

Instead of inviting trouble, it was better to continue pulling the grass naturally. In any case, there were many cultivators exploring Lufeng forest now. If there was no conflict of interest, the other party would not take the initiative to make trouble.

Of course, in order to hide the existence of the Jade space, Lin Yi took the basket from the side and put all the herbs he was going to collect into it. It didn't matter if Huang xiaotao knew about the Jade space, but it would be bad if it was an outsider.

The two continued to pull the grass, and a while later, a group of people appeared in front of them. Lin Yi raised his head to look at them-four men and two women, a total of six people. They must've come in the same group.

From the six people's expressions and auras, it was easy to tell that the leader of the six should be the middle-aged man in the green robe who walked in the middle.

This person's figure and appearance were nothing out of the ordinary. At first glance, he looked ordinary, and his temperament seemed to be no different from Guo dengtao 's. However, if one paid close attention, one would find that this person was full of spirit. His slightly ordinary appearance actually had a heroic spirit. In particular, this person's eyes were extremely sharp, like a sharp knife. Anyone who was casually looked at by him could not help but tremble in fear.

More importantly, out of the six, only this green robed middle aged man's strength was something Lin Yi's golden finger couldn't see through. In other words, this person was at least at the original level.

As for the other five, they were all experts in the Aurous core stage. The strongest was at the peak of the late Aurous core stage, and the weakest was at the middle Aurous core stage.

Lin Yi couldn't help but feel a chill in his heart. The strength of this team in front of him was more than a level stronger than his and Chu bubai's team. They were on completely different levels.

However, after thinking about it carefully, only a small team like this would dare to enter the depths of Lufeng forest. Otherwise, a small team like Chu bubai would not be able to reach the core area without that route map.

While Lin Yi and Lin Yi were observing the person, the person had noticed them as well. The person looked at the basket filled with herbs and what the two were doing, and they all started laughing.

As if they had seen some unbelievable comical scene, the people who came laughed out loud, their faces full of undisguised ridicule and disdain.

"Brother Chang, during this period of time in Lufeng forest, there are really all kinds of people. There's actually such a country bumpkin who has never seen the world. He could have come here for anything, but he's actually squatting here to pull grass. It's really funny!" An extremely flirtatious-looking woman had half of her body in the arms of a middle-aged man in a green robe, covering her mouth as she laughed in front of Lin Yi and Lin Yi.

Lin Yi looked at her indifferently. This woman was a late-stage golden core cultivator, not bad. She seemed to be close to the leader, Chang bro. They were probably cultivation partners.

"Hahahaha, exactly! Brother Chang, I dare to bet that these two people must be from some cultivator tribe that has never seen the world. They just saw some common spiritual herbs and thought they were good treasures!" Another man laughed as well, pointing at Lin Yi and Lin Yi. "I say, even if the two of you fill up this basket, you won't be able to earn back the 10000 spiritual Jade travel fee for the teleportation array. It's all in vain. I really don't know what's wrong with your brains!"

This person's strength was at the peak of the late jiedan stage. He was the strongest among the six people except for the leader, brother Chang. Seeing that he was so in agreement with the gorgeous woman, he was obviously brother Chang's little brother, otherwise, he would not be so hard at flattering sister-in-law.

"That's right. This place isn't even the outer perimeter. They took such a big risk to come here. Everyone else is here for rare treasures, but these two are actually lying here and pulling grass. Their brains really make people speechless ..."

"Hehe, I'm very curious. Both of them are only in the early jiedan stage. How did such weak strength come in?"

"That goes without saying. It's just luck. With their little strength, it's already difficult for them to move around in the periphery of Lufeng forest, let alone in this kind of place. It's already a rare miracle that they can survive until now with all their limbs intact!"

"I don't think so. From the outer area to this place, they have to pass through the territory of several powerful spirit beasts. Even if they were lucky, they wouldn't be able to enter by themselves. Moreover,

they must have gathered six people to be able to teleport in at the beginning. I guess they were probably too weak and were abandoned by their teammates ..."

"That's right, the strength of an early jiedan stage cultivator is simply a burden in Lu Feng forest. If I were their teammate, I would definitely not be willing to bring these two burdens. After gathering enough people to teleport in, of course, we parted ways!"

The crowd started chiming in one after another, mocking and ridiculing Lin Yi and Huang xiaotao mercilessly in front of them. Only the leader, Chang Ge, remained silent with a calm expression.

Chapter 4274 The Ruins Of Audo Cultivation City

Most people would've been pissed off by the crowd's taunting, but Lin Yi remained calm and focused on "pulling the grass." He didn't have any intention of speaking, treating everyone like air.

On the other hand, although Huang xiaotao was a little nervous, she was not a hot-tempered person. Even if she was ridiculed in front of others, it was a common thing in the past when she was disfigured, so she did not take it to heart.

Chang bro didn't really care about Lin Yi and Lin Yi at first, but after seeing their reactions, he couldn't help but think a little more highly of them. It was rare to see someone able to keep their cool even after being mocked by so many people.

If it was someone else in their position, they wouldn't dare to fight back because of their strength, but they wouldn't be as calm as Lin Yi and Lin Yi. Even with Chang bro's experience, he was impressed by Lin Yi and Lin Yi's composure.

"Alright, everyone, stop laughing. Who doesn't have a time when they're newbies? We've all been through that stage, there's no need to be so sarcastic. " Chang bro waved his hand at the crowd, exuding the aura of a nascent Soul Master. Everyone fell silent before he turned to Lin Yi and Lin Yi, "The two of you, it looks like this is your first time in Lufeng forest, right?"

"That's right, it's our first time here. " Lin Yi raised his head to look at him, his tone neutral.

"Yo, kid, you've got some balls. You still dare to act tough in front of our brother Chang!" The peak late-stage golden core follower jumped out and rolled up his sleeves, ready to teach Lin Yi a lesson.

However, brother Chang only gave him a look, and the underling immediately retreated in embarrassment, not even daring to complain.

This person's accumulated prestige was very heavy! Lin Yi already knew that this guy wasn't simple, and he was even more certain of it now. People with a lot of power were usually very controlling people-if things went according to their wishes, then everything would be fine, but if things went against their wishes and got out of their control, then it'd be big trouble.

"Although what they said just now wasn't pleasant to the ears, there's one thing they were right about. Listen to my advice, the spirit herbs on the side may look good, but even if you fill ten baskets with these things, they still won't be worth as much as the ten thousand spirit Jade you paid to the teleportation array. It's not worth it at all." Brother Chang advised.

"Oh?" Lin Yi looked at Huang xiaotao in surprise. This Chang bro was surprisingly warm and friendly. He was easier to talk to than he thought.

With the common practice of mutual deception in the cultivation world, there were generally only two results if one met in a place like Lufeng forest. One was to kill and seize the treasure, or they would pass by. Very few people would take the initiative to stop and give advice like him, not to mention that this was a high and mighty Yuanying stage master.

"Thank you for your reminder, Sir. This is the first time we've come to this place, but we've been separated from our teammates. We don't dare to wander around in this dense forest, and we don't know where to go, so we can only find these spirit herbs to comfort ourselves. It's better than going back empty-handed." Lin Yi thought of an excuse on the spot.

"No wonder you guys are here to collect spiritual herbs. Normal people come here for rare treasures like the Wandu golden core fruit. It's the only way to make a good deal out of it. It's also the most famous treasure that has ever been produced in Lufeng forest." Brother Chang immediately revealed a look of understanding and said to the two with a faint smile.

"We've heard of the Wandu golden core fruit before. Of course, we want it too. Unfortunately, we don't know where to find it. Besides, we've been separated from our teammates. Even if we know where it is, we can't go there with our strength alone." Lin Yi pretended to sigh helplessly, but he couldn't help laughing inside.

He had already obtained the Wandu golden core fruit. Wouldn't he be a fool to look for it again? He and Huang xiaotao were not insatiable.

Instead of taking the risk for nothing, it was better to take a break and get more spiritual medicine. When the time was almost up, he would go out through the teleportation array. This was the most secure way.

"That's right. In the face of the temptation of such a precious treasure, the two of you are still able to keep your hearts. It's not simple to have such self-awareness." Brother Chang praised and then said, ""However, rather than wasting time here, why don't you two come with us?"

"With you guys?" Lin Yi froze and exchanged glances with Huang Xiaotao. They didn't know each other, and normal people would know what their teammates wanted. They didn't expect her to suddenly make such a suggestion.

"That's right. We're preparing to go to the ruins of Audo cultivation city. The more people we have, the better. It's just a pity that only six people can teleport. I didn't expect to meet the two of you here. This is a rare fate. " Chang bro explained to the two, "If you come with us, the rewards you will get will be much better than staying here to pull grass. Moreover, you can look out for each other and your safety will be guaranteed. What do you think?"

"Oh? The ruins of The Audo cultivation city? What was that place? Could there be some treasure inside?" Lin Yi couldn't help but ask.

When he was with Chu bubai and the others, everyone's attention was only on the baby ginseng. They rarely talked about other things. As for this so-called Ao duo cultivation city ruins, they had never even heard of it.

"haven't you heard of it?" chang bro was taken aback as well-this was one of the labels of lufeng forest, but considering that it was lin yi's first time here, it wasn't strange that they'd never heard of it.

"yes, we're not locals. we're ignorant and ill-informed. please don't laugh at us." lin yi cupped his hands, surprised.

"It's nothing. the ruins of audio cultivation city was once an important city of the spirit beast clan. it was said that it was quite large at that time and was the symbol and center of power of the entire lu feng forest. however, due to some unknown reason, all the spirit beasts in audio cultivation city, from top to bottom, were punished by the king of spirit beasts. they were all sentenced to death overnight. from then on, it became a barren city, which is also what we call the ruins now. " brother chang took the initiative to explain.

Lin Yi finally understood-one of the questions that had been bothering him was finally solved.

Although Lufeng forest was located at the edge of the southern island, it was still within the territory of the southern island. Moreover, there were also powerful spirit beasts entrenched here. But why did the spirit beast clan not care about this place?

Chapter 4275 There Is A Treasure

After all, if the spirit beast clan intervened, even if the miasma fog here dissipated, human cultivators would never dare to come in and take the risk to search for treasures. Even the Masters of the Yuanying stage would not dare to do so, because this was equivalent to a provocation to the entire spirit beast clan. It was not something that could be withstood with just a little strength.

But now, Lin Yi finally understood. This was once the territory of the spirit beast clan, but after that incident, the spirit beast clan abandoned this place. No one cared about it anymore, and that's why it became what it was today.

Lin Yi even guessed that for some unknown reason, the king of spirit beasts didn't really plan to abandon this place after killing everyone here. After all, Lufeng forest was a treasure that couldn't be underestimated for any force. It was just that after the king of spirit beasts disappeared, the spirit beast clan was in chaos from top to bottom, and no one had the time to care about it.

This was the only reason that explained the semi-open state of Lufeng forest. If not for the miasma fog, human cultivators around the southern island would probably swarm in. No matter how many natural treasures Lufeng forest had, if they came here all year round, there would definitely not be enough for them to fight for. A good primitive land would probably be abandoned from now on.

Of course, if it really evolved to that point, the spirit beast clan might not be so indifferent anymore. At that time, it would be a different scene. Perhaps Lufeng forest would be cordoned off from then on, and human cultivators might never be able to set foot in it again.

"In that case, the ruins of Audo cultivation city should be very famous?" Lin Yi asked, deep in thought.

"That's natural. It's not wrong to say that the ruins of Audo cultivation city are the symbol of Lu Feng forest. Moreover, the spirit beasts that were able to stay in the city back then were all powerful and Noble. Anything that a spirit beast of that level left behind would be a rare treasure outside, so it's a publicly acknowledged treasure. Anyone who stays in this Sea area for a few days will hear about it. " Brother Chang nodded.

"Since it's so famous, everyone must be flocking here. No matter how many treasures there are, they've probably all been taken away after so long ..." Lin Yi looked at Chang bro, losing interest. He wasn't as excited as the others when they heard about the treasure, but rather suspicious and judgmental.

"Hehe, it's rare for little brother to have such determination!" Brother Chang laughed and said, ""That's true, but this is the only time of the year that people can enter Lufeng forest. Moreover, the location of the AO duo cultivation city ruins is in the deepest part of the core, so ordinary people can't reach it at all. Moreover, although the ruins are famous and can be said to be known by everyone, the price of the map to go there is also sky-high, so the number of people who can really go there is not as many as you think. "

"Oh? But according to common sense, even if there aren't many people who go there, everyone who goes will try their best to get as much treasure as possible. In this way, I reckon that only the first few people who go will really get the treasure, and those who go later should have a hard time getting much, right?" Lin Yi said, still unconcerned.

"What's with your attitude? With our brother Chang's status, talking to a country bumpkin like you, that's lowering your status, you know? and you don't even believe one or two, you really don't want face! "You ..." The flirtatious woman beside brother Chang pouted in disdain.

But before she could finish, brother Chang turned to look at her. He immediately frowned and didn't dare to say anything.

Lin Yi couldn't help but shake his head at this scene-even his practitioner-pair partner was this scared of him, and it was clear that this Chang bro wasn't someone easy to get close to.

However, it was this kind of person who was so friendly to an outsider like him, especially an early golden core expert who was on a completely different level from him. It was really incomprehensible. If things were abnormal, there must be something wrong. This person might just be another Chu bubai!

"Little brother's words are not unreasonable, but the scale of the monument is only larger than an ordinary human city. It is impossible to gather all of them in a short time with just a few groups of human cultivators, so the treasures buried in the monument can't be completely plundered." Chang bro turned to Lin Yi and Lin Yi, his face returning to its usual calm and gentleness.

"That's true, but if that's the case, even if there's a Lost Pearl in the sea, it'll be very difficult to find it, right?" Lin Yi pinched his chin. Since it was a treasure, it had to be hidden well. Quite a few people had been there before, and the easier ones should have been taken away. Even if there were still some left, it would take a lot of effort.

"Of course, if we're going for those lost pearls, it'll be a lot of effort. But we're not going for these treasures, so it doesn't matter." Brother Chang smiled with a profound expression.

"Oh?" Lin Yi was even more surprised, and Huang xiaotao was also confused. Taking so many risks to go to the ruins of the AO duo cultivation city, if not for the treasure, was it for sightseeing? These people weren't that crazy, right?

"Little brother, you should know that some treasures are gone after being taken away, but there are some treasures that will continue to exist even if they have been taken away before because they will regenerate on their own." Brother Chang's mouth twitched as he explained.

"Are you referring to natural treasures?" Lin Yi's heart jumped. This was the same as the baby ginseng and Wandu Jindan fruit-once taken away, they might be gone for a short period of time, but if you go back after a while, you'll find that they'll grow back.

"Little brother is indeed a smart person. You understood it with just a little hint." Brother Chang said with a smile.

"Could it be the baby ginseng? Or is it the Wandu golden core fruit?" Lin Yi couldn't help but guess. At this guy's level, normal treasures wouldn't catch his eye. Even the Wandu golden core fruit wouldn't make him this excited. After all, the Golden core made from the Wandu golden core fruit was only useful for golden core stage Masters. After thinking about it, it could only be the baby ginseng.

However, he had already obtained the infant ginseng. Could it be that there were several of them in Lu Feng forest at the same time? However, baby ginseng usually only grew in the graveyard of spirit beasts, which was filled with Yin Qi. How could it be found in the ancient ruins?

However, on second thought, the reason why the ruins were called ruins was because all the spirit beasts were killed overnight. It wasn't wrong to call it another graveyard for spirit beasts. It didn't seem strange that a treasure like the baby ginseng would grow there.

#### Chapter 4276 Star Ink Milk

"Neither. I'll be honest with you, our goal this time is the star Ink milk!" This brother Chang was very Frank and directly stated their intentions.

"Star Ink milk?" Lin Yi was taken aback-he'd never heard of something like that before, but the name was only one word away from the star inkstone. Could there be some sort of connection between the two?

"That's right. The star Ink milk can be said to be the most famous of the treasures produced in the ruins of oduo cultivation city because it's naturally formed. Even if the people in front of you took it all away, it'll gather again after a period of time. It's not like other treasures that need to go around looking for it. Therefore, everyone is like a flock of ducks for this thing. It's a must-choose item for almost everyone who enters the ruins. " Brother Chang said with certainty.

"May I ask, what is the use of this Star Ink milk?" Lin Yi asked. As long as he knew the use, he could basically deduce if this thing had anything to do with the star inkstone.

"The star Ink milk is rumoured to be the marrow-washing spiritual liquid that can help the strongest Yuanying stage expert. Even for someone like me who has already formed a Yuanying, the effects after using it are very rare. The value of a small bottle of Star Ink milk, if taken to the market to auction, is not the least bit less than the infant ginseng!" At this point, even brother Chang, who had always maintained

the bearing of an expert, couldn't help but have his eyes burn. It could be seen that he was determined to get the star Ink milk.

"To think that the effect of becoming the strongest original infant stage cultivator would be so exaggerated!" Lin Yi and Huang Xiaotao looked at each other, both of them sucking in a breath of cold air.

Lin Yi's heart, in particular, was in a state of shock. The star Ink stone could make the strongest golden core stage master, and the star Ink milk could make the strongest nascent Soul Stage master-were they the same series?

Lin Yi was surprised, but his heart was on fire. He was now an early golden core, and he had the Wandu golden core fruit. He would be able to improve quickly when he went back. If he had some fortuitous encounter in the future, he could reach the peak of the Golden core realm.

And the key point was that now that the infant ginseng was ready, if he could find a way to get this Star Ink milk, then wouldn't everything be smooth? This was a rare opportunity!

Lin Yi wouldn't be moved if the guy was talking about something like the baby ginseng-he already had it, after all, and it wasn't as alluring to him as the others were. But the star Ink milk and the baby ginseng complemented each other, and the meaning behind it was completely different.

"Hehe, if not for this, why would people always talk about the star Ink milk whenever the ruins of the AO duo cultivation city are mentioned?" Brother Chang nodded.

"However, since the star Ink milk is so widely known, and you've also said that almost everyone who goes to the ruins for adventure will find the star Ink milk as their first stop, I reckon that someone else has already gotten it by now?" Lin Yi asked again.

Even if the star Ink milk could be re-accumulated, it would definitely take a lot of time. It was impossible for it to be as inexhaustible as the seawater.

Several days had passed since the miasma fog dissipated. Those who had this idea had probably already gone to the ruins of Ao duo cultivation city. The star Ink milk was a treasure that was hard to find in the world, so they naturally had as much as they could. It was impossible for someone to be so kind and leave some for the people behind.

"Little brother, there's something you don't know. The star Ink milk is indeed widely known. Moreover, the first thought of everyone who goes to the ruins is to find the star Ink milk. However, in fact, the number of people who can really obtain it can be counted on one's fingers!" Brother Chang smiled mysteriously. "There aren't many people who can really find the ruins of oduo cultivation city, and there's no information on the location of the star Ink milk on the market. No matter how many spirit jades you spend, you can't buy it. There are only a few people who know about it, and everyone will definitely keep this information a secret."

"I see." Lin Yi nodded in understanding. The other party was right-the star Ink milk could be regenerated after a certain period of time. As long as he had the exact location, it was basically equivalent to getting a portion of Star Ink milk after a certain period of time. It was a real strategic resource!

In fact, the value of this information was even higher than that of the star Ink milk itself. It had even become the core secret of a force that had been passed down from generation to generation. It was not surprising that such a level of critical information could not be bought on the market.

"Among all the human cultivators, I dare to say that the number of people who know the true location of the star Ink milk is definitely less than the number of fingers on one hand!" Brother Chang vowed.

"Forgive me for asking, but since this information is so rare, how did you know?" Lin Yi suddenly asked before adding, "Of course, if it's not convenient for you to answer, just pretend I didn't ask. It's okay."

Lin Yi's words made the others look at him with disdain. They didn't dare to yell at him because of Chang bro's power, but their eyes were telling him the same thing.

This country bumpkin really didn't know the immensity of heaven and earth. Brother Chang gave him the honor to say a few words, and he actually dared to climb up the pole. He even asked such a question. He was simply taking advantage of his nose!

But Chang bro himself didn't seem to mind at all-for some reason, this high and mighty nascent Soul Master he didn't even know was surprisingly tolerant of Lin Yi, answering all his questions.

"Since you've asked, it's not a problem. To be honest, I don't know the specific information about this location, but I know a Deacon from the spirit beast clan who told me." Brother Chang smiled.

"A Deacon of the spirit beast clan?" Lin Yi blinked as he remembered something he'd subconsciously overlooked. "The star Ink milk is such a good thing, even if he knew, he should have kept it for himself, why would he tell Your Excellency?"

"That thing is useless to us." At this moment, the voice of the ghostly thing suddenly sounded in his mind.

"Ah? Why? Don't spirit beasts also have the Yuanying stage?" Lin Yi asked, surprised.

"It's different from you human cultivators. Spirit beasts' innate talents are inborn and determined by the genes of different races. This is a natural attribute that varies purely from race to race, and there's no way to change it later on." The demonic thing explained, "for you humans, the star Ink milk is a good thing that can change your physique. But for us spirit beasts, it's not. Of course, it's not useless, but it's not that exaggerated. At most, it can only be used to increase strength and assist in cultivation."

"I see ..." Lin Yi finally understood. If the star Ink milk had the same effect on spirit beasts, human cultivators wouldn't have a chance to get it.

#### Chapter 4277 Recruiting

Although the original spirit beasts in the remains had been killed, there were still many powerful spirit beasts in Lufeng forest. If they were so eager to get the star Ink milk, they would have robbed it all before the miasma dissipated. They would not have left it for the foreign human cultivators, not even a little soup.

"However, this is also a kind of heaven's will. The star Ink milk is obviously more useful to you humans, but it only appears in the territory of the spirit beast clan. Otherwise, if it were in your own territory, I reckon that there would have been a bloody storm and rivers of blood." The ghastly thing laughed.

"Ugh, maybe ..." Lin Yi didn't know whether to laugh or cry. It was a joke, but according to the nature of human practitioners, they could cheat each other over a little bit of profit. It wasn't impossible for them to kill each other for the temptation of the star Ink milk, especially since it could be continuously produced.

While Lin Yi was communicating with the ghost, he was also paying attention to the outside world. In everyone's eyes, there was nothing strange about it.

"This is not strange. It is said that this thing is useless to the spirit beast clan." Brother Chang's answer was not as detailed as the ghost's, but it was the same.

"Oh ..." Lin Yi pretended to be enlightened and sighed, "I've often heard that the spirit beast clan occupies the southern part of the island, but they rarely communicate with the outside world. You actually know the deacon of the spirit beast clan and can even get such important information from him. I'm afraid that ordinary people don't have such an opportunity."

"Hehe, it might be difficult for others to establish a relationship with a Deacon of the spirit beast clan, but it's a piece of cake for me." Brother Chang smiled proudly and said, "My father is the shopkeeper of the All Access meeting at the dark Arc Sea area. Although the spirit beast clan is isolated from the world, they still trade with the outside world. Our Chamber of Commerce is the place where they come most often."

The All Access meeting? Lin Yi's eyelids twitched when he heard the name. Wasn't this one of the big names of the Chambers of Commerce that had worked together to destroy the Hong Chamber of Commerce? one of the top five Giants.

"The deacon of the spirit beast clan that I'm talking about is the one in charge of contacting our Chamber of Commerce. After a while, we got to know each other better, and he gave me this opportunity." After brother Chang said this, he suggested again, "How is it? Little brother, this is a rare opportunity. It's fate that we met here. Do you want to go together?"

Lin Yi hesitated. To be honest, he was interested in the star Ink milk, but this brother Chang in front of him was so attentive for no reason. He felt that there was something wrong with it. After all, Chu bubai's example was right in front of him. He had to be careful.

With Lin Yi's shrewdness, he would be able to find the flaws in the other party's words if they were all lies. However, if it was like Chu bubai, the truth and lies, then it would be impossible to guard against.

Lin Yi was hesitating when the voice sounded in his head again, "What he said is true. Although I've never personally come to Lu Feng forest, I've heard that Ao duo cultivation city produces Star Ink milk, so it should be true. This thing is something you can only come across by luck and not by searching for it, so there's no harm in going with him to try it out."

Lin Yi let out a breath of relief with the guarantee from the spirit beast elder. He nodded to himself.

"Little brother, what do you think? For you to be able to meet me here, it can also be considered a kind of opportunity. If you miss this opportunity, you may miss the chance to get the star Ink milk in the future, and you may even leave behind regrets!" Chang saw Lin Yi's interest and decided to strike while the iron was hot.

"En, then I would like to ask again, how much Star Ink milk is there exactly? if the two of us join in, will it be enough for so many people to share?" Lin Yi asked.

In his opinion, there definitely wouldn't be a lot of such a rare item like the star Ink milk, and the other party already had six of them. It was difficult to say if the two of them would be able to get a share.

Even if Lin Yi and Huang Xiaotao joined forces, they wouldn't be able to fight against the six of them. If they couldn't even get the soup, they'd be out of luck and have wasted their efforts.

"Little brother, your suspicion is not unreasonable. But in my opinion, you don't have to worry too much. According to my spirit beast Deacon friend, the formation protecting the star Ink milk has not been activated for three years, so there should be a lot of it." Brother Chang promised.

"Then ... How are we going to split it?" Lin Yi continued to ask. Even if there really was a lot of Star Ink milk, it still depended on how they were going to split it. If this Chang bro asked for eight to ten pounds, and he had his Dao companions and followers, it would be too much for the two of them.

"hehe, you don't have to worry about that. we have an agreement that everyone can only start with one bottle." as brother chang spoke, he took out a little spirit jade bottle. it wasn't big, only the size of a floral dew bottle in the mortal world. he smiled and said, ""according to the order of joining the team, i will be the first to start, then everyone will take their share. since you two are the last to join, you will naturally have to wait until the end to take your share. i believe that little brother can understand this, but i believe that there should be enough star ink milk. at the very least, you two will have one bottle left."

brother chang didn't directly pat his chest and say everything, because that would make people not believe him. now that he said it, it seemed more pertinent and easier to gain people's trust.

lin yi thought about it for a while-it was a fair way of dividing the members. they were only joining at the last minute, after all, and their strength and relationship weren't as good as the others. it was understandable that they'd be the last to join.

as long as the other party didn't do such a stupid thing as taking all the water in a ladle, according to this distribution method, there should be some gains. if there was nothing, then he could only blame his bad luck.

Of course, this could not rule out another possibility, which was that brother Chang went back on his word. That would be a big problem. However, since he was out on an adventure, he could not escape from this little risk. If he really wanted to pursue perfection, he could only hide at home and not come out.

"Alright, we'll join. Thank you for your care." Lin Yi and Huang xiaotao looked at each other and finally nodded to confirm.

"That's great. Little brother is indeed extraordinary. You didn't let me down. " Chang bro laughed out loud-he'd spent so much time trying to get Lin Yi and Lin Yi to join him. It'd be a real waste of time if Lin Yi backed out and gave up.

Chapter 4278 Arriving At The Destination

"You're too kind. I'm Ling Yi and this is Junior Sister Huang. How should I address you?" Lin Yi introduced himself-he'd decided to join them, and he had to at least maintain some face.

"I'm Chang Daoping. You two think highly of me, so you can call me brother Chang. " Chang Daoping nodded his head indifferently and said to the other five,""The few of you should introduce yourselves too."

"I'm cao Shishi. " The pretty Woman beside them looked at Lin Yi and Chang Daoping with disdain, but since Chang Daoping had spoken, they could only follow his orders. They gave their names unwillingly and didn't say anything else.

"Luo tuoxiang." Next was the peak late-stage golden core follower, looking down on Lin Yi and Lin Yi as if they were ants. In comparison, a nascent Soul Master like Chang Daoping had much more of a bearing.

The other three didn't say much and only reported their names. Two men and one woman were Hu Lili, fan Dongji and Fang miaojin.

These people had been mocking Lin Yi and Huang xiaotao the moment they came up, but they didn't dare to say anything because of Chang Daoping's power. However, it was impossible to expect them to be friendly.

Lin Yi and Huang xiaotao only nodded indifferently, not taking it to heart. They didn't have the intention to say anything since they didn't have the habit of being treated coldly. Anyway, Chang Daoping made the decision with one word, and it didn't matter if their relationship with these people was good or bad.

Chang Daoping didn't say anything-he had his reasons for pulling Lin Yi and Lin Yi into his group. As long as he could achieve his goal, everything else didn't matter.

As for how everyone got along with each other, that wasn't something he needed to care about. No matter how tense the atmosphere was, it was fine as long as the people didn't drive Lin Yi and Huang xiaotao away.

"Alright, let's go." Chang Daoping ordered and took the lead. Cao Shishi and the others followed without a word, leaving Lin Yi and Huang xiaotao behind.

Chang Daoping was leading the way at an extremely fast speed. They were clearly shuttling through the dense forest, and he did not seem to be in a hurry, but his speed was inexplicably fast. One moment he was here, and the next moment he was 50 feet away.

If the people behind him were not golden core stage experts but Foundation Stage experts, even if they were perfected Foundation Stage experts, it would be difficult for them to even keep up with Chang Daoping's footsteps, let alone the others.

Even a group of golden core stage Masters had to constantly consume their Qi to keep up with Chang Daoping, who was at the very front. As they walked, Cao Shishi and Luo tuoxiang even turned back to look at Lin Yi and Lin Yi, as if they wanted to see them make a fool of themselves.

After all, the two of them were only in the early stage of the Golden core realm. With Chang Daoping's speed, even they found it difficult to keep up, let alone the two of them at the bottom. They probably had to use all their strength to barely keep up.

However, when they saw Lin Yi and Huang xiaotao's calm expressions at this moment, their expressions suddenly turned strange as if they had eaten sh \* t. The two of them felt even more relaxed than they did. Even if they were strong and calm, they had to be strong to be able to do it, right?

These two early jiedan stage country bumpkins, could it be that they still had some powerful trump card? at least it shouldn't be as simple as it seemed on the surface!

In fact, this speed wasn't too much for the two of them to handle. Not to mention Lin Yi, even Huang xiaotao, who had been doing trial missions in the forest all year round, could completely adapt to it. Don't forget her martial arts skills and abilities, the primitive forest was the best home ground for her.

Of course, traveling at this speed would exhaust a lot of Qi, but Lin Yi held her hand and could replenish her Qi at any time, so there was no pressure.

After traveling like this for six hours, Chang Daoping finally stopped, indicating that everyone could rest for a while.

Everyone nodded in silence and sat down to recover their true Qi. Chang Daoping didn't say anything either. It was a completely different style from the amiable and approachable person he had shown before. The atmosphere was rather dull.

Lin Yi and Huang Xiaotao were full of pure Qi, but in order to not attract attention, they also sat down to recover.

"Brother Chang, I have a question. You've been leading the way all this time, and it doesn't seem like you have any use for us, so why did you invite us to join you and let us share for no reason?" Lin Yi couldn't help but ask.

Only by showing enough value would people come to rope them in, and only then would they have enough status and power to speak. But in the current situation, Lin Yi felt that they were unnecessary no matter how he looked at it. They were called here to freeload Star Ink milk for no reason.

There must be something wrong with this abnormal situation. This matter was strange no matter how he thought about it!

"You'll know later. " Chang Daoping replied indifferently before closing his eyes again, ignoring the two.

Lin Yi wanted to ask more, but Chang Daoping's attitude was a complete 180-degree turn from when he tried to win Lin Yi over. It was obvious that he didn't want to talk to Lin Yi anymore, and there was no point in asking.

However, the speed at which this guy changed his attitude made Lin Yi's uneasiness grow even more. This guy wasn't very reliable, and if he didn't keep his word, they'd really be in trouble.

however, doubts were just doubts. lin yi didn't show it on his face and was as calm as before. anyway, with his combined combat strength with huang xiaotao, if they really fought in the end, who knew who would have the last laugh?

moreover, from chang daoping's words, it was clear that he had his own special intentions in trying to get the two of them to join him. before they were put to use, he would not easily fall out with them.

the only thing he needed to pay attention to was to see if he would be used like chu bubai, who used the lives of golden core experts as a sacrifice. he had to be careful about this.

after resting for about the time it takes for two incense sticks to burn, chang daoping led the group on their way again. they traveled quickly for another four hours before chang daoping, who was leading the group, stopped. the group felt as if they had just walked out of a primitive forest.

Just a moment ago, it was still a dense forest that was overgrown with vegetation, and every step forward was quite difficult. However, in front of them was an empty frame. As far as the eye could see,

it was a barren land. There were no towering trees that were hundreds of feet tall, nor were there dense weeds and shrubs. The only thing that everyone could see was a real wasteland.

#### Chapter 4279 Moon Shadow Array

"Are we out of Lufeng forest?" Cao Shishi couldn't help but ask after being stunned for a moment. The others also looked at each other in surprise.

Lin Yi also looked at Huang xiaotao, not knowing what was going on. They couldn't see the end of the barren land in front of them. Although he knew that it was impossible, he couldn't help but have the same thought as Cao Shishi. Did Chang Daoping lead the way too fast and accidentally led everyone out of Lufeng forest?

"How is that possible? Listen up, this is the ruins of Audo cultivation city!" Chang Daoping chuckled and pointed at the empty tunnel.

"Ha?" Everyone was stunned and their mouths were wide open. They said in surprise, ""What kind of ruins is this? It's a barren land, there's nothing here?"

Their initial excitement instantly disappeared. If what Chang Daoping said was true and this place was the legendary Ao duo cultivation city, then everyone would be extremely disappointed.

What kind of treasure could there be in such a barren place? Even if there was one before, it would be seen at a glance. How could it be up to everyone to look for it now!

Huang xiaotao tugged at Lin Yi's sleeve lightly, her eyes filled with disbelief. Even she couldn't help but suspect that Chang Daoping had brought everyone to this barren land on purpose. Did he have some other motive? In fact, this person might even have the same sinister thoughts as Chu bubai?

No matter how he looked at it, saying that this place was the ruins of Audo cultivation city was simply too ridiculous. Even a three-year-old child wouldn't believe it.

However, Lin Yi calmed down after a moment of surprise. Chang Daoping wouldn't lie to people like this, even if he had other intentions.

At first glance, the place in front of him was barren, as if there was really nothing, but if he used his spiritual sense to sense it, he would find that there seemed to be a huge wall in front of him, and his spiritual sense could not penetrate it at all.

There must be something mysterious about this!

Just as everyone was feeling puzzled, Luo tuoxiang seemed to sense something. The corner of his mouth immediately twitched, and he wanted to show off in front of everyone, so he stepped forward.

"Come back! Do you want to get lost in there and never see the light of day for the rest of your life?" Chang Daoping shouted coldly from behind.

"What? Isn't this a cover-up?" Luo tuoxiang immediately jumped in fright and hurriedly drew back his feet. He could also sense that this place was unusual, but he had thought it was purely a trick to fool people!

"A smokescreen?" Chang Daoping snorted coldly and said, ""I already said that this is the ruins of Audo cultivation city. Do you think that a once important city of the spirit beast clan would use such a childish trick to cover up their tracks?"

"Uh ..." Luo tuoxiang shrunk his neck back in shock. When the others heard this, they finally reacted, and their eyes all fell on Chang Daoping.

"Listen up, this is a formation, and it's not just a simple smokescreen. If you don't find the right way to break it, you'll be lost in the wilderness for the rest of your life, never to get out. Even if others want to save you, they can 't," Chang Daoping said to everyone.

Everyone was shocked when they heard this. At first glance, there was nothing special about this desert except that it was a little abrupt. They did not expect that there was such a hidden danger. Nine out of ten people who did not know the way would fall for it.

There were many mysteries hidden in this forsaken land, and many people could see this. However, most of them would try to break the formation like Luo tuoxiang had just done. If they tried, wouldn't they be throwing themselves into it?

They didn't even get to see the ruins of Audo cultivation city, but they were already covered in goosebumps. They didn't dare to take it lightly. This place was simply killing without seeing blood.

"Brother Chang, what kind of formation is this?" Cao Shishi asked the question that was on everyone's mind.

"Moon Shadow formation!" Chang Daoping said these three words lightly. When everyone's expression changed, he continued to explain, ""This is a very brilliant array that has the two effects of hiding and disorientation. If you don't understand it, you can forget about entering the ruins of Audo city."

"Brother Chang, since you know about this formation, you must have a way to break it?" Lin Yi suddenly asked.

"That's right. The so-called Moon Shadow array, as its name implies, is definitely related to the moon. I have specially studied this array before. It requires the gathering of eight people with heaven-defying strength to set up. Correspondingly, to break it, there must be eight people, each occupying a specific position, and attacking together to break it." Chang Daoping looked at the two, "Now you know why I asked you two to come together."

Lin Yi nodded. The Lu Feng path teleportation formation could only teleport six people at a time, not one more or one less. Plus, the teleportation positions were all random, so even if Chang Daoping knew that he needed eight people to break the formation, he couldn't get eight people.

The only way was to gather 12 people at once, split them into two groups, and teleport them in. Then, he would think of a way to get the two groups to meet up. However, this was too troublesome and the feasibility was obviously not high. Moreover, 12 people came at once. He reckoned that the star Ink milk would not be enough to share with so many people.

Therefore, there was only one way left for Chang Daoping, and that was to bring a team in first, and then find a way to temporarily recruit two more cultivators in Lufeng forest. As there were many cultivators who came into Lufeng forest to adventure during this period of time, this method was obviously much more reliable.

As for Lin Yi and Huang Xiaotao, who were "separated" from their teammates, they were naturally the best candidates in Chang Daoping's eyes. Firstly, they met the number requirement, and secondly, they were both only in the early golden core stage. They could break the formation, but at the same time, they wouldn't be able to do much with their current strength. They were useful and safe, killing two birds with one stone.

It was also because of this that with Chang Daoping's usual overbearing style, he was so passionate towards Lin Yi and Lin Yi. After all was said and done, it was all for the sake of breaking the formation.

After thinking this through, Lin Yi's wariness towards Chang Daoping relaxed a bit. If the rumor about breaking the formation was true, then he didn't have to worry too much. At least he could make sure that he wouldn't be like Chu Bubai, who was tricked into worshipping and dying for nothing.

After all, the Moon Shadow array was originally set up for the spirit beast clan to hide and protect the Oduo cultivation city. It was impossible for them to offer sacrifices to eight experts every time they entered the city. That would be too ridiculous.

Chapter 4280 You Dare To Disobey?

"Brother Chang, then let's hurry up and start breaking the formation?" Luo Tuoxiang said impatiently. He was already at the peak of the late-stage of the Golden Core realm. Other than Chang Daoping, he was the closest to the nascent soul realm. If he could get the star Ink milk at this time, it would be of great significance to him.

"What's the hurry? Do you even have a brain?" Chang Daoping rolled his eyes at him and snorted.

"Ah? "Brother Chang, I ..." Luo Tuoxiang was once again baffled by the scolding.

Lin Yi couldn't help but smile at this scene. Chang Daoping looked like a mysterious person, and this follower of his seemed to be of a high level too, but he looked like an idiot.

"I've already said that the moon Shadow array is related to the moon. If you want to break the array, you naturally have to use the moonlight. Do you see any moonlight now?" Chang Daoping said indifferently.

Everyone was suddenly enlightened. Although the sky was getting dark, it was not completely dark yet. Naturally, there was no moon. They could only wait quietly. However, they could not help but feel a little worried. Could they really see the moon here?

Even if the weather conditions were not taken into account, there was still a thick layer of miasma fog above their heads. Even the sun could not completely penetrate it during the day, so the light was so weak, let alone the moon at night.

Although they were suspicious, they didn't dare to ask Chang Daoping. Lin Yi and Huang Xiaotao didn't know much about him, but they were very clear about Chang Daoping's personality. This brother Chang wasn't the kind of patient person who would answer all their questions.

No matter what they did, they just had to follow his orders-asking too much would only get them scolded. This explained why they were so surprised when Chang Daoping tried to get Lin Yi and Lin Yi to his side.

After about two hours, the sky finally turned completely dark. Under everyone's expectant eyes, a few rays of gentle moonlight suddenly shone down from above. Although it was very weak at first glance, when it shone on the wasteland in front of them, it was surprisingly bright.

Everyone immediately heaved a sigh of relief. Only then did they remember that they were not in the dense forest. This bit of moonlight was naturally not enough in the dense forest, but it was enough in this empty wasteland.

At first, Lin Yi subconsciously thought that the moon Shadow formation's Secret lay in the moonlight that shone through the miasma, and that the position they pointed to was where the formation was.

But Lin Yi knew he was wrong. There were only a few beams of moonlight, and it was very misleading at first glance, but if you looked closely, you'd see that they were moving at all times. It wasn't the moonlight itself that was moving, but the miasma above them.

But if it wasn't the location indicated by the moonlight, where was the key to breaking the formation? Lin Yi couldn't see through it, and as for the others-people like Luo tuoxiang were a lot stronger than Lin Yi, but their comprehension and talent weren't on the same level as Lin Yi at all. If Lin Yi couldn't see through it, they were even more confused.

Everyone did not know what was going on, so they could only look at Chang Daoping and wait for him to answer their questions. However, brother Chang did not move at all. He did not even bother to move, let alone break the formation. He just looked at the barren land in front of him.

Since Chang Daoping did not say anything, no one dared to ask. They could only wait patiently by the side until midnight. As the moonlight grew brighter, they looked at each other but did not dare to act rashly.

"Alright, we're almost done." Chang Daoping finally stood up, and everyone was excited and eager to try.

Lin Yi took a look at it, and the barren land didn't feel any different from before. It was just a little brighter, but there weren't any mysterious formations.

"Where is this so-called Moon Shadow array?" Lin Yi was confused, but he didn't think that Chang Daoping was putting on an act.

Wait, Moon Shadow array! Lin Yi's mind suddenly lit up, and he looked at the barren land in front of him again. He finally understood something.

When he had observed this wasteland before, there was nothing special about it except for the fact that it was barren. However, after taking a closer look, especially when he paid special attention to the shadows on the ground, he could find something strange.

The wasteland was full of potholes and it wasn't strange for shadows to appear here and there-normal people wouldn't notice them at all, but Lin Yi's eyes fell on eight of the special shadows. One of them was half-moon shaped, and the other seven were star-shaped.

If these seven star-shaped shadows were connected together, they would form a star formation that everyone knew, the Big Dipper. The center of the formation was the shadow of the Half Moon.

the wasteland was at most uneven. if it wasn't for the special setting, how could such a strange shadow appear out of nowhere?

now, lin yi was a hundred percent sure that the big dipper and the shadow of the half moon was the moon shadow formation chang daoping was talking about.

just as lin yi was speculating, chang daoping took out a small flag from his bag. at first glance, it looked like the flag used by fans in the secular world to cheer for a match. there wasn't anything special about it, but after a closer look, lin yi realized that it wasn't as simple as it looked. there was something mysterious and profound about it, almost on the same level as the formations lin yi had seen before.

"formation flags?" lin yi blinked. he didn't have this thing himself, but he could recognize it. it was a very professional formation tool, and it was indispensable for both setting up and breaking formations.

Moreover, array flags were not something that could be used by any master. The skill involved was not inferior to that of alchemy and forging. It required special training before it could be used. Ordinary people would not use it at all, and would not have it at all.

From this, it could be seen that Chang Daoping was either an array master himself, or he had spent a lot of time and effort to study the moon Shadow array to break it. No matter which one it was, this person was not simple.

"You go there." Chang Daoping pointed at Luo tuoxiang and another location in the wasteland. As Lin Yi expected, it was one of the Big Dipper stars he saw.

"Ah? Brother Chang, didn't you say that you wouldn't be able to come out once you went in?" Luo tuoxiang was shocked. He looked at Chang Daoping in fear and waved his hands as he retreated.

Once you rashly enter the moon Shadow array, you will be completely lost in it, and no one can save you. This was what Chang Daoping had just said.

"You even dare to disobey my words?" Chang Daoping furrowed his brows, and his domineering body suddenly exuded a murderous aura!
