

Bodyguard 4281

Chapter 4281 Could I Have Guessed Wrong?

Whether it was background or strength, Chang Daoping had always been the strongest in the team. No one could question his decision, not even his Dao companion, let alone a mere underling.

"No... No... Brother Chang, I didn't mean it that way ..." Luo tuoxiang's face turned pale with fright. He waved his hands and said, ""Brother Chang, of course I'll do as you say, but this ..."

Luo tuoxiang had followed Chang Daoping to the ruins of Ao duo cultivation city for the star Ink milk. He hadn't even seen the shadow of the star Ink milk yet, and Chang Daoping had already told him to step into the moon Shadow array. Wasn't that just sending himself to his death?

As expected, he was an idiot who didn't know anything! Lin Yi shook his head with a smile, but Cao Shishi and the others didn't have the same vision as him. They were all nervous, afraid that Chang Daoping would point at them after Luo tuoxiang.

"Hmph, do you really think I'm sending you to your death by letting you in?" Chang Daoping snorted and said, ""Although you can't rashly enter the moon Shadow array, I have the array flag in my hand. As long as you don't wander around in the position I specified, you will be fine. You're really useless!"

"Uh ... So that's how it is ..." Luo tuoxiang finally understood. He didn't dare to hesitate anymore and quickly ran toward the location Chang Daoping pointed at.

Although he was still panicking, Chang Daoping still needed everyone's help to break the formation. Luo tuoxiang didn't think that brother Chang would kill him, and he definitely had his own reasons for doing so.

The lunar shadow array had the effect of disorientating people. Everyone thought that Luo tuoxiang would disappear after running in, but even after he stood still, nothing strange happened. Not only could they see him as usual, but even his voice was not blocked. It felt no different from an ordinary wasteland.

Lin Yi nodded. He couldn't see any changes with his eyes, but if he used his spirit sense, he'd notice that there was a Qi fluctuation between the formation flags of Luo tuoxiang and Chang Daoping, connecting them together.

Among all the people Lin Yi knew, Tian Xing Dao was one of the ones who studied formations. He'd heard him mention that there were all sorts of ways to break a formation, but they all had one thing in common-breaking a formation with a formation.

When a group of people broke the formation, they would use the formation flag as the formation eye. Everyone would form a formation at the last minute, and then use the formation to break the formation. Although there were cases of one person breaking the formation alone, even then, they would still need the formation flag. It could be understood as one person forming the formation.

Just like now, because of the formation flag, the space between Luo tuoxiang and Chang Daoping had become a temporary formation. So, even if he walked into the moon Shadow formation, he would not be disturbed at all because he was protected by the temporary formation. It looked like he was within the range of the moon Shadow formation, but in fact, he was not covered by it at all. It was the same as standing outside.

The next thing to do was for everyone to join in one by one to make the power of this temporary array reach its maximum, so that it could finally break the moon Shadow array.

"Shishi, you go there." As expected, Chang Daoping immediately pouted at Cao Shishi. The location he pointed at was naturally one of the Big Dipper stars.

Cao Shishi's mouth was wide open. She was a little scared, but when she saw Chang Daoping's serious expression, she was afraid that she would be scolded like Luo tuoxiang, so she didn't dare to say anything. After a while, she finally gathered her courage and walked over.

Following that, the other three were sent to their respective positions as well. When it was Lin Yi and Huang xiaotao's turn, Chang Daoping suddenly froze-the two of them walked to the side by themselves.

"Brat, now that things have come to this, do you want to become deserters?" When Luo tuoxiang saw this, he immediately stomped his feet and mocked,""Hmph, country bumpkins as timid as mice. I knew that these two people were unreliable and useless. At the critical moment, they only know how to trap their teammates!"

When he said that, he had completely forgotten about his own reaction. When Chang Daoping told him to go in first, he was so scared that he almost peed his pants. Now that he realized there was no danger, he became arrogant.

"That's right. We've already come in, but these two still want to sneak away. Aren't they just wasting time and putting us in danger?" Cao Shishi also sneered and said to Chang Daoping,""Brother Chang, you can't just let the two of them escape like this!"

The other three started scolding as well-they were in a position where they had to take risks, after all, and Lin Yi's escape would be a waste of their time.

"What's the meaning of this? I've said so much to you, but you're only regretting it now, isn't that a little too much?" Chang Daoping's face was dark as well. He needed eight people to break the formation, and if Lin Yi and Huang Xiaotao didn't cooperate, it would be useless no matter how strong he was.

"Eh? Could it be that my guess was wrong? brother Chang, do you not intend to let us stand here?" Lin Yi pointed at the two remaining stars of the Big Dipper not far away.

"F * ck, so what if you're a coward? you're clearly a coward, but you still dare to put on an act? It's so funny!" Luo Tuoxiang's mockery grew even more unrestrained as he pointed at the two and laughed. "The moon Shadow array is such a profound array. Kid, you can't be thinking of telling me that even you know how to break the array, right? Hahahaha!"

"He's just a bumpkin in the early jiedan stage. If even such a person can break the array, then even a sow can climb a tree! For this trip to the ruins, to break this formation, even brother Chang has been preparing for more than half a year!" Cao Shishi pouted and said.

She didn't know about the moon Shadow array before, but as Chang Daoping's dual cultivation Dao partner, she knew what Chang Daoping had been doing. In order to study the array, Chang Daoping had been in closed-door cultivation for half a year.

From their performance earlier, it was clear that Lin Yi and Lin Yi were the same as them-they'd never heard of the moon Shadow formation before. Even Chang Daoping had to go through so much trouble to break it, so it was impossible for Lin Yi and Lin Yi to see through it so easily.

"That's why these two country bumpkins must be trying to run away at the last minute, and they're still trying to quibble. What a joke ..." Luo tuoxiang sneered.

Although they didn't have any grudges against each other, and they'd never even met before, he'd already found Lin Yi an eyesore from the very first moment he laid eyes on him. Whether it was Chang Daoping's passion for him or Lin Yi's indifferent attitude, he hated both to the core. He wanted to trample the kid under his feet.

Chapter 4282 Working Together To Solve

However, before Luo tuoxiang could finish, Chang Daoping suddenly shot him a sharp look, and he stopped.

"You shut up! You're really a good-for-nothing, calling others ignorant!" Chang Daoping cursed in exasperation. He was secretly angry at himself for taking in such an embarrassing little brother. He was obviously stupid, but he still criticized him. He was so embarrassing.

"Brother Chang, I ..." Luo tuoxiang looked aggrieved. He didn't know where he had gone wrong, but he didn't dare to say anything. He could only watch.

"Little brother Ling Yi is indeed not an ordinary person. This is the first time I've seen someone with such keen observation skills." Chang Daoping nodded his head and said, ""That's right, those two are your seats. "

"Alright," he said. Lin Yi smiled faintly and exchanged a look with Huang xiaotao. The two of them walked to the remaining two big Dipper positions and stood still.

Seeing this scene, everyone finally realized that Lin Yi and Lin Yi weren't country bumpkins-they really did see through the moon Shadow formation! In comparison, they were the frogs in the well!

Although Lin Yi and Lin Yi didn't do anything, everyone felt their faces burning up, as if they'd just been slapped in the face. No one dared to look down on them anymore-they'd finally experienced for themselves what it meant to never judge a book by its cover.

As for Luo tuoxiang and Cao Shishi, they looked at Lin Yi and Lin Yi with even more hatred-it was these two country bumpkins who didn't know their place, embarrassing them in front of Chang bro!

After everyone stood at the position of the Big Dipper, Chang Daoping held the formation flag and walked to the position of the half-moon Shadow. The eight of them were finally in position.

The crowd did not feel anything at first, but after Chang Daoping arrived, the originally ordinary scene in front of them suddenly changed. Under their feet, countless mysterious patterns appeared, and when they combined together, they formed a huge array.

"It has appeared!" Everyone exclaimed in surprise. Being able to see the moon Shadow array meant that their trip had not been in vain. They finally had a chance to enter the ruins. Of course, the premise was to break this array first.

Lin Yi lowered his head to take a look. At first glance, it wasn't much different from the Lu Feng path teleportation formation, but if he looked closely, he'd realize that the pattern was completely different, and the effect was completely different.

"Everyone, listen up. We've only officially entered the moon Shadow array. If everything goes as expected, we'll be able to see the array core in a while. Once I give the order, we'll attack with all our strength, but you have to pay special attention. While attacking the array core, you must not move your feet. Otherwise, if anyone veers from their position, the array core will immediately disappear, and all our previous efforts will be for nothing. Do you understand?" Chang Daoping announced to the crowd.

"Understood!" Everyone nodded in unison, but then someone couldn't help but ask, ""Brother Chang, what does the formation core look like?"

"You'll know soon enough. " Chang Daoping replied indifferently and didn't say anything else.

Lin Yi, on the other hand, was confused. He wasn't like the others, curious about what the formation core looked like, but he was confused about what Chang Daoping just said. Wasn't attacking the formation core with full force going to destroy the moon Shadow formation?

The moon Shadow array wasn't just a simple defensive array. It was also the gate to the ruins of the oduo cultivation city. Normally, as long as certain conditions were met, one should be able to enter the ruins smoothly. There was no need to break the entire Moon Shadow array. After all, that would be a lot more time-consuming and laborious.

Moreover, the array eye was the core of the array. Even if one was inside the array, it would be very difficult to detect. Since the moon Shadow array was so profound, how could it be so easy for everyone to discover the array eye?

However, Lin Yi didn't ask this question in front of everyone. Looking at Chang Daoping, he might not get an answer even if he asked. This was common knowledge, but many people didn't know. Whether Chang Daoping really understood it or had other plans, only he knew.

After a moment of silence, someone suddenly cried out in surprise. The sky above them had suddenly become bright, and a huge ball that looked like the moon was quietly suspended in the air. It was as if the moon had fallen from the sky, which was really surprising.

"This is the array eye. Everyone, listen to my command and attack with all your strength later. Don't hold back! Although this Moon Shadow array has been around for a long time, its power has not weakened by much. If everyone can not work together, or if someone is not working, it will be impossible to break it. Moreover, it will only appear around midnight. Once that time is up, all of our previous efforts will be in vain!" Chang Daoping said loudly to the crowd.

"Understood!" Everyone nodded in unison, each of them rubbing their hands. They had all come for the star Ink milk, so they all knew the pros and cons of it. No one would be stupid enough to play tricks at this time, as that would only lead them to harm others and themselves.

"Alright, let's begin the attack!" Chang Daoping suddenly shouted and attacked first. The other seven did not dare to be slow. They all used their best martial techniques and attacked the giant ball above them with full force.

After all, all of them were at least golden core stage experts. There was no need to doubt their strength. For a time, all kinds of powerful martial arts techniques poured out on the huge sphere at the same time.

Lin Yi and Huang xiaotao were no exception, but they weren't stupid enough to reveal their trump cards in public. They couldn't use the raging fire Eight Trigrams palms, even if they wanted to, because they couldn't leave their positions. According to Chang Daoping, if they left the Big Dipper, the giant ball above them might disappear.

Therefore, Lin Yi and Huang Xiaotao only used their own martial arts skills, not holding back. The power that they released at this moment was far above ordinary early golden core Masters, even if it was not comparable to the others.

The eight of them attacked the eye of the formation together, with Chang Daoping, the nascent Soul Stage cultivator, leading them. At first, they didn't think it would be difficult. But after they attacked, they saw that the martial arts that they were most proud of hit the giant ball and ended up like a clay ox entering the sea without any effect. Only then did they realize.

The Moon Shadow array was a huge array that protected the entire Audo cultivation city. It was set up by eight top masters of the spirit beast clan. Even though it had been abandoned for so many years and the eight of them had gathered their strength, it was not easy to break it!

Chapter 4283 Tricked

"Don't hesitate. Time is limited. If we continue like this, we will definitely be able to break the formation!" Chang Daoping saw everyone's expressions and was afraid that they would retreat, so he quickly shouted encouragement.

Everyone didn't dare to be slow. They were all in high spirits as they continued to use their martial skills to bombard the huge ball above their heads.

In the beginning, everyone's attacks seemed to be completely ineffective, and the huge ball did not react at all. However, after everyone attacked with all their might for the time it takes for an incense stick to burn, it finally began to feel strange.

When they attacked the giant sphere again, they didn't sink into the sea like they did at the beginning. Instead, they clearly felt a trace of rebound force. This feeling was as if the giant sphere was finally full after absorbing all the previous frenzied attacks.

Everyone's faces were filled with surprise. No matter what the change was, as long as there was a change, it was a good thing. This meant that their efforts were not in vain, and there was hope of entering the ruins!

"Hurry up, everyone, put in more effort. It's almost done!" Chang Daoping shouted again.

Hearing this, everyone's spirits were lifted, and they immediately used their full strength to activate their martial techniques even more crazily. At the same time, Chang Daoping also waved his array flags with all his might. No one knew what powerful martial technique he used, but an extremely dazzling beam of light shot out from one end of his array flags and hit the huge sphere. The power was so shocking that it actually caused the entire sphere to show signs of collapsing!

With such a powerful big brother taking the lead, everyone immediately became even more excited and worked even harder. They subconsciously thought that as long as they could destroy this huge sphere, it would be equivalent to breaking the array.

Lin Yi, however, wasn't as shallow as the others. The signs did look like they were about to break the formation, but it wasn't what they thought.

This was because if one used their divine sense to sense, they would find that Chang Daoping was not attacking the giant sphere at all. On the contrary, he was actually using the array flags to transfer the huge amount of energy that was accumulated on the sphere to himself. Everyone was just kept in the dark.

This guy really had his own tricks! Lin Yi understood and paid close attention to Chang Daoping's every move. If the other party did anything that was not beneficial to him, he had to make sure that he could escape with Huang Xiaotao in an instant.

At this moment, under the combined attacks of the others, the giant ball suddenly let out a loud bang. Cracks appeared on its surface, and they were increasing at a visible speed. In the end, it could not hold on any longer.

BOOM! The huge sphere suddenly exploded, and the massive energy that originally belonged to everyone instantly poured over their heads again. Everyone was caught off guard and was directly blown away, each of them suffering heavy injuries.

In the chaos, Lin Yi quickly healed himself and Huang Xiaotao while keeping an eye on Chang Daoping. However, he realized that this person had no injuries at all.

After Chang Daoping transferred the huge amount of energy to himself, he took advantage of the moment when the giant ball exploded to hit the stone lock that suddenly appeared on the other side.

At this moment, the surrounding environment suddenly changed. Everyone felt the sky and earth spinning, and by the time they reacted, the surrounding environment had already changed dramatically. It was completely different from the scene just now.

There was no dense forest or wasteland. Under their feet was an empty street, and in front of them was a huge city with a deathly aura. On the city gate not far away, the words "Ao du cultivation city" were carved!

"Listening to brother Chang was indeed the right choice, we're finally in!" Cao Shishi said excitedly, as if she had forgotten about her injuries. The rest of the people were also pleasantly surprised. If they could enter the ruins, the star Ink milk that they had been dreaming of would be in their hands!

Lin Yi's lips twitched at the scene-these people had been kept in the dark from the start, and yet they were still jumping around. He didn't know whether to laugh or cry.

Lin Yi understood everything from the scene just now. Chang Daoping didn't plan on harming them, but he didn't tell them the truth either. The giant sphere they were attacking wasn't the formation eye, but the stone lock that appeared.

Everyone had spent so much effort, but they were actually working for Chang Daoping. They were all dog-tired and injured. Only Chang Daoping was full of energy. He didn't waste any energy and wasn't injured at all.

The only thing he did just now was to extract everyone's energy and transfer it to the stone lock's array eye while they were in chaos. For a Yuanying stage expert like him, this was simply too easy.

From the beginning to the end, everyone was just Chang Daoping's Coolie, and this Coolie was done in an unclear way. They might have followed Chang Daoping in this time, but if they came by themselves the next time, they wouldn't even know what the array eye was, let alone come in.

He thought back to the way before. Chang Daoping had only been leading the way quickly and didn't give everyone time to memorize the route, let alone see the map. Now, he deliberately left a trick up his sleeve to break the formation. He clearly didn't want everyone to know the way to enter the ruins.

However, after thinking about it carefully, Chang Daoping's actions were understandable. After all, the star Ink milk was a natural treasure that would be continuously condensed. Even if they collected all of it

this year, there would still be more next year and the year after. If everyone knew how to enter the ruins, wouldn't it mean that Chang Daoping would have a group of competitors for no reason?

Not only was it common in the secular world, but it was also common in the world of cultivation. In front of such a rare treasure like the star Ink milk, any close relationship had to be put aside. Even Dao partners for dual cultivation had to be guarded against.

"Actually, this should be the desolate land we saw earlier. It's just that it was covered by the moon Shadow array, so we couldn't see it before." Chang Daoping explained to everyone.

"I see." Everyone nodded in understanding, each and every one of them eager to try. They couldn't hold back their excitement, not even caring about their injuries.

At this moment, everyone's eyes followed the empty street in front of them and stretched forward. There was almost no end in sight, and it was facing the city gate. It looked like a main road.

On both sides of the road, there were some extremely old shops and pavilions. There were also some broken walls and some words written on the walls, but the exact words could no longer be seen clearly.

Compared to the crowd's excitement, Lin Yi's reaction was a lot calmer. He didn't forget to hold Huang xiaotao's hand to heal each other's injuries while observing the scene in front of him.

Chapter 4284 A Little Abnormal

As a qualified assassin, the first thing he had to do when he arrived at a strange place was to observe the environment. Lin Yi still maintained this good habit even now.

"There shouldn't be any danger in this place. Let's relax and adjust ourselves first, then follow me in."
Chang Daoping said to everyone.

No danger? Lin Yi, on the other hand, frowned. This was a Dead City, and there were very few adventurers who could make it into the ruins. Logically speaking, there shouldn't be any danger.

However, this didn't match Lin Yi's judgment. In this short period of observation, he noticed a rather strange detail. Although this place was old, it was unusual!

Logically speaking, there should be dust everywhere since no one was around, and the surrounding buildings should be more decayed than usual. But in fact, Lin Yi could see that the ground was very clean, as if someone had been walking around and cleaning it.

Other than that, Lin Yi didn't sense any particularly strong smell of decay. Normally, a Dead City like this would rot to death after a few years because there wasn't any life force. This was abnormal.

Could it be that there were still people living in this place? It was really strange! Lin Yi shook his head, but he wasn't too worried. He felt that something was wrong, but he didn't feel any real danger. The Jade didn't alert him either, which was enough to prove that there wasn't any danger.

Regardless of whether it was strange or not, since he had already come in, there was no harm in taking a good look first. Perhaps he could really find the star Ink milk!

While everyone was resting, Chang Daoping took out a small map from his pocket. The layout of the city could be vaguely seen on the map. It clearly showed the internal structure of the ruins of Otto cultivation city. This was a secret map that the spirit beast clan Deacon had given him in private.

If it was just the route map from Lufeng forest to the ruins, although it was very rare, as long as one was willing to pay a high price, one could still buy it. However, the layout map in Chang Daoping's hands was different. It was something that could not be bought no matter how many spiritual jades one had.

The ruins of Audo cultivation city were extremely famous, but if one wanted to enter this place to search for treasures, putting aside the dangers of Lufeng forest itself, there were still at least three more obstacles.

The first obstacle was finding the ruins. This was relatively the easiest part. As long as one spent an astronomical amount of spiritual Jade, they could buy a map from the market. However, this in itself was actually a threshold. Since it was an astronomical price, it was destined that a large number of people would not be able to reach this threshold, and there was no way to talk about the things after that.

The second challenge was how to pass through the moon Shadow array. This required very professional preparation. Ordinary people could not even understand the moon Shadow array. Many people did not even know if there was a Moon Shadow array. They might step into the wasteland without any preparation and lose their way for the rest of their lives.

The third obstacle was what Lin Yi and the others had to face now. After entering the ruins, finding the treasure was another big problem.

After so many years of being pillaged by people over and over again, there were very few treasures that could be found on the surface. Even if it was a heavenly treasure like the star Ink milk that could be

continuously recollected, if there were no clues, finding it in this vast Dead City was no different from looking for a needle in a haystack.

Ao duo cultivation city was once one of the most important cities of the spirit beast clan. Just walking around the streets would take at least a few days. If they had to search every corner carefully, it would take at least a month. Now, Lin Yi and the group only had five days at most.

Because according to past experience, the miasma fog would return in ten days, and everyone had to make sure that they could leave smoothly before that. There had to be at least five days left from the ruins to the teleportation array, so the remaining time for everyone to search for treasure in the ruins was only five days at most.

Everyone present had come for the star Ink milk. If there were no clues at all, it would be impossible to find it in a mere five days unless they were extremely lucky.

Fortunately, Chang Daoping had the layout map of the ruins. What was even rarer was that the spirit beast clan Deacon had also marked the exact location of the star Ink milk on the layout map!

Of course, Chang Daoping would never show such an important thing to everyone. After all, the value of the layout map of the ruins was much higher than a little bit of Star Ink milk. This was something that could be passed down from generation to generation, and the fewer people who knew about it, the better.

The most ideal situation would be if Chang Daoping was the only one in the world who knew the key information from the moon Shadow array to the layout of the ruins. That would mean that all the star Ink milk would belong to him alone from now on. The huge benefits behind this would make one excited just thinking about it.

"Alright, I'll take you to find the star Ink milk next. I'll say the ugly things first, pay attention to follow my footsteps later. Otherwise, if you accidentally lose sight of me and miss the star Ink milk, then you're useless. Don't blame me for not taking care of you!" Chang Daoping said indifferently.

"Understood." Everyone's heart trembled. As golden core stage cultivators, they were naturally used to the fighting and scheming in the world of cultivation. They understood the meaning behind Chang Daoping's words.

Chang Daoping wouldn't show them the layout of the ruins, nor would he tell them the route. On the contrary, he would deliberately speed up on the way to the destination and even deliberately make detours to confuse them. This was to ensure that no one would have the opportunity to remember the route. This was in his interest.

Everyone knew this, and even if they had complaints, they didn't dare to say anything in the face of Chang Daoping's power. They only nodded silently, and Lin Yi didn't have any objections.

Although Chang Daoping's actions lacked the bearing of an expert, who could guarantee that he would be free and calm in the face of such great benefits?

Lin Yi wasn't an unreasonable person. From the time they entered the ruins through the moon Shadow formation to the time they were looking for the star Ink milk, it was all Chang Daoping's credit. If it weren't for him, they wouldn't even be able to enter, let alone find the star Ink milk.

As long as he could do as they said and lead them to the star Ink milk, he'd already done his part. As for the other excusable little tricks, Lin Yi understood and didn't object.

However, if Chang Daoping were to do something else, Lin Yi wouldn't be able to take it anymore.

Chapter 4285 Finding The Star Ink Milk

"Let's go. " Chang Daoping shouted in a low voice. Without any warning, his figure suddenly flashed and in the next moment, he was hundreds of feet away.

No one dared to be slow. They quickly unleashed their movement techniques to the extreme and followed Chang Daoping's figure closely. If they were to fall behind at this time, they would really brush past the star ink milk, and they would regret it for the rest of their lives.

In fact, the consequences would be worse than this, because if they were alone, they wouldn't even know how to leave the remains. They might even be trapped to death here!

Lin Yi and Huang Xiaotao looked at each other and gave chase as well. Chang Daoping's speed was already extremely fast, a few times faster than when they were in the forest. Even if they were on an empty street, it would be very difficult for them to keep up with him.

Apart from Luo Tuoxiang and Cao Shishi, who were relatively stronger, the rest of the people were obviously nervous. Chang Daoping didn't make things difficult for them, but their current speed was basically equivalent to the limit of a mid-stage golden core expert. It was normal for them to struggle to keep up.

Lin Yi couldn't help but feel a chill in his heart. Chang Daoping really didn't mean to make things difficult for the five people he brought. As long as there were no accidents, these five should be able to barely keep up, but he deliberately maintained his speed at this level. To Lin Yi and Huang Xiaotao, who were only early golden core on the surface, the meaning of this was obvious.

If it was any other normal early golden core stage master, they would've lost him on the first step, let alone keep up. Fortunately, Lin Yi and Huang Xiaotao were both fast and had broken through to the Golden core stage perfectly. Their strength was far beyond normal early golden core stage Masters.

Especially since Lin Yi could replenish his and Huang Xiaotao's pure Qi at any time. Without this worry, the two could go all out. Even a mid-stage golden core wouldn't be able to shake them off.

Chang Daoping was shocked when he saw this. He purposely increased his speed so that the others wouldn't be able to remember the route, but he also wanted to shake off Lin Yi and Lin Yi.

As far as he was concerned, at this point, Lin Yi and Lin Yi had no value at all. Instead of letting them follow him to get the star Ink milk, he might as well just get rid of them halfway and end it once and for all.

However, he didn't expect that these two people clearly only had the strength of the early Jiedan stage, but had such a profound strength Foundation. Even with this, he still couldn't get rid of the two of them. It was simply inconceivable.

Chang Daoping was a master of the original level, and he could be even faster than this. If he really wanted to lose the two, it wouldn't be hard, but if he went any faster, the others would probably be dead before he could even lose the two.

Although he had taken some precautions before and had deliberately held back when passing through the Moon Shadow array, the fact that these people had been chosen by him meant that their relationship with him was already extraordinary. Aside from Cao Shishi, who was his dual cultivation partner, the others were all direct subordinates he had nurtured for many years. Among them, Luo Tuoxiang was even a distant cousin.

Especially at Chang Daoping's level, although his own strength was important, the strength of his subordinates was equally important. If he did not have a few trustworthy and capable subordinates to run around and work for him, his status and influence would be greatly affected.

Therefore, although Chang Daoping did not want the others to remember his route, he really wanted to give them some Star Ink milk so that they could improve their strength as soon as possible. After all, the star Ink milk could be collected once every year, so he was not worried that he would not have enough.

By distributing the extra star Ink milk to everyone, not only could it help them improve their strength, but it could also buy people's hearts, killing two birds with one stone.

However, Lin Yi and Huang Xiaotao were definitely not included in the group. These two were just temporary laborers he pulled over to break the formation. They had no value at all now. How could he give such a precious thing like the star Ink milk to these irrelevant outsiders?

In order to prevent his own people from falling behind, Chang Daoping didn't continue to speed up. However, killing intent was already surging in his heart. He couldn't let his fertile water flow into others' fields, and he couldn't give the star Ink milk to outsiders. Since he couldn't shake them off with speed, there was only one way left.

Lin Yi didn't know about Chang Daoping's mental changes at this moment. He was still following closely behind the crowd with Huang Xiaotao, as if he didn't feel anything.

The journey was silent, and an hour later, Chang Daoping and the others had taken countless turns before finally stopping in front of an ancient altar.

Could this be their destination? Everyone was panting. After rushing for so long, everyone was exhausted. Those who were slightly weaker had almost run out of true Qi.

Lin Yi and Huang Xiaotao, on the other hand, looked a little breathless, but they were still full of energy, far more than the others.

Could it be that I'm overthinking things? This place really isn't dangerous? Lin Yi looked at the altar in front of him, a little suspicious. He'd been paying attention to it ever since he'd found out about the ruins.

However, Chang Daoping led them through the dead City for an hour without encountering any living creatures. The jade pendant did not give any warning, and there were no signs of danger along the way.

There was nothing special about the shabby altar in front of them. Although many of the steps had been destroyed, it was still an easy task for them to go up.

Chang Daoping led the way, and everyone impatiently arrived at the altar. They didn't encounter any obstacles along the way, nor were there any additional arrays to protect them. In addition, the location was so remote and deserted, giving everyone the feeling that this altar wasn't an important place in Audo cultivation city.

The scene in front of them was similar to an ordinary small temple on the side of the road. It was completely different from the mysterious treasure trove that everyone had expected.

However, on second thought, this was reasonable. The star Ink milk was a rare treasure that was difficult to buy for human cultivators. However, it was not very useful to the spirit beast clan. It was normal that it was not valued.

"Star Ink milk!" The leader, Chang Daoping, suddenly exclaimed in a low voice. He could not hide the excitement in his tone.

Everyone quickly looked in the direction of the voice. The first thing they saw was a statue of a spirit beast that was several meters tall in the middle of the altar ... "

Chapter 4286 Take One By One

No one knew what kind of spirit beast it was, but even if it was just a lifeless statue, it could still give people a faint feeling of power and dominance. It even gave people a strong impulse to kneel down and submit to it, which was inexplicably shocking.

The king of spirit beasts! Lin Yi didn't need the damn thing to remind him-the word popped up in his head. The king of spirit beasts was born with the ability to intimidate all beasts. Other than this one, he couldn't think of any other spirit beast that could create such a huge threat with just a statue.

It was unknown what material the statue was made of. It was completely black and lustrous. Moreover, it seemed that it was not an additional carving that was moved up, but that the stone itself grew directly here, but later carved into the image of the king of spirit beasts and built this altar.

The king of spirit beasts had a single horn on its forehead. Under everyone's gaze, a drop of black liquid dripped from the tip of the horn into a small stone pool in front of the statue.

"That's right, this is definitely Star Ink milk. Legend has it that Star Ink milk is black in color!" Everyone was overjoyed. They were all excited. The black liquid was undoubtedly the star Ink milk. At this moment, some of it had already accumulated in the small stone pool. However, because the color of the star Ink milk was too dark, if one did not squat down and observe it carefully, one would not be able to tell how much it had accumulated.

There was actually Star Ink milk. What Chang Daoping said before was true! Lin Yi and Huang Xiaotao looked at each other, both surprised and happy.

Because he'd just been tricked by Chu bubai, Lin Yi couldn't help but be on guard against this kind of thing. Until just now, he'd been suspicious of Chang Daoping's true intentions, but he didn't expect to see the star Ink milk in person!

Moreover, it seemed like there was indeed quite a lot of them. Even if he and Huang Xiao Tao were last in line, there should still be some left if everyone only took one small bottle each. This was already the most ideal situation he had imagined. This trip to the ruins of Ao duo cultivation city was unexpectedly smooth.

With that, the star Ink milk was within reach, and with the baby ginseng and Wandu golden core fruit, Lin Yi and Lin Yi's harvest in Lufeng forest was off the charts! This rhythm was almost like the three most famous heavenly treasures of Lufeng forest, all at once!

"Alright, I'll go first according to the order we decided earlier." Chang Daoping's expression quickly returned to normal. He took out the little spirit Jade bottle that he had prepared beforehand and walked to the side of the pool to collect the star Ink milk.

Although they couldn't resist the urge, everyone still took a few steps back. Since they had discussed it in advance, unless they were prepared to break the rules, they had to keep a certain distance when

others were taking the treasure. Otherwise, it was easy to cause misunderstandings. If they got too close, Chang Daoping would think that they were up to no good. The situation would go out of control.

Lin Yi didn't do anything and just stared at the pond from afar. He couldn't see the star Ink milk, but if Chang Daoping wanted to do something under his nose, like changing to an identical little spirit Jade bottle and secretly filling it with another, Lin Yi would be able to sense it even if Chang Daoping was a nascent Soul Master.

Perhaps it was because he was being too careful, but Chang Daoping's actions were slower than expected. However, he did not make any unnecessary movements. After he was done, he stood up and walked over to Cao Shishi, nodding at her.

As Chang Daoping's dual cultivation partner, Cao Shishi's position in the group was self-evident. She was the second person to take the star Ink milk. She immediately took out a small spirit Jade bottle of the same model and walked over with quick steps. After filling the bottle, she was a little reluctant to leave, and she looked back three times with every step she took.

It was Luo tuoxiang's turn after Cao Shishi. He had already prepared the little spirit Jade bottle, so he immediately rushed up and filled it to the brim.

After him, Hu Lili, fan Dongji and Fang miaojin also took out the same little spirit Jade bottles.

Finally, it was Lin Yi and Huang xiaotao's turn, but before they went up, a group of Luo tuoxiang suddenly spoke.

"You two, what bottle do you plan to use? It can't be bigger than ours, right?" Luo tuoxiang grinned and asked,"before you take the star Ink milk, it's best to show it to everyone. Although you're last in line, according to the rules, you can only take a small bottle each at most. You don't need me to teach you this, do you?"

"That's right. If you have any extra after you've taken them, you'll have to let brother Chang decide the rest. You can't just take them all at once, no matter how much it is, right?" Cao Shishi nodded in agreement. She was afraid that these two annoying country bumpkins would take advantage of her.

Lin Yi looked at Chang Daoping, who had a smile on his face, but didn't say anything. It was probably a silent agreement.

Everyone's concerns weren't unreasonable. Lin Yi and Huang xiaotao looked at each other and took out two little spirit Jade bottles. As an elixir master, Lin Yi never lacked these things. They were the most common size on the market, almost the same size as the ones everyone was using.

Cao Shishi and Luo tuoxiang were completely speechless now. Even if they didn't want Lin Yi and Lin Yi to get the star Ink milk, they didn't dare to make a decision before Chang Daoping said so. What if they overstepped the main role and violated Chang Daoping's taboo? With Chang Daoping's strong style, he hated it when others made decisions on their own!

Lin Yi smiled and ignored the two. He held Huang xiaotao's hand and walked towards the pond. With their relationship, they didn't have to be on guard against each other like the others.

He was finally getting the star Ink milk, and Lin Yi wasn't as calm as he looked. Anyone else would be excited at this point-it was only human nature.

As they walked to the pond, Lin Yi and Huang xiaotao noticed that the surrounding temperature had risen by a huge amount, as if the summer sun was scorching. They didn't feel it when they were far away, but now that they were close, the heat was obvious.

However, this heat seemed to be coming from the statue. The aura from the stone pool below was the complete opposite. The aura was cool and slightly icy, like a rare cool breeze blowing in the face of a hot summer day. It made one unconsciously feel relaxed and refreshed.

It was indeed a good thing!

Chapter 4287 Not Too Reasonable

Lin Yi sighed to himself. Just from the cool aura alone, this thing was definitely extraordinary. It really lived up to the name of Star Ink milk.

However, when he and Huang xiaotao squatted down beside the stone pool and reached into the spirit Jade bottle to scoop up the star Ink milk, the two of them were stunned.

The star Ink milk was black, so it was hard to see the bottom. Lin Yi thought there was a lot left, but after putting the Jade bottle in, he realized that there was only a shallow bottom!

This Foundation couldn't be any more shallow. It was almost only a thin layer and couldn't be contained in a spirit Jade bottle. No matter how he thought of it, he could only get a few drops at most.

"What's wrong? What the hell are you doing so slowly? do you two want to secretly do something under our eyes?" Luo tuoxiang immediately questioned when he saw the two's abnormal behavior.

"Hmph, they're just two country bumpkins who haven't seen the world. They're still far from being able to do anything in front of us. We can see it at a glance!" Cao Shishi snorted coldly as she watched the two men's every move.

"Did something? Alright, show me what you've done!" Lin Yi didn't want to bother with the two at first, but he realized that he'd been tricked. He was in a really bad mood as he replied coldly.

Chang Daoping and the other six had each filled a bottle of Star Ink milk, but he and Huang xiaotao didn't even get a single bottle. This was clearly tricking the two of them into doing hard work for free. No matter who it was, they wouldn't be in a good mood at this moment!

Lin Yi had a feeling that he was tricked by Chang Daoping, but he didn't find anything out of the ordinary from the beginning to the end. Everything was going according to plan, and he couldn't say anything unless he had solid evidence.

Besides, with the opponent's nascent soul strength and Luo tuoxiang's group, even if Lin Yi and Huang xiaotao wanted to fall out, they'd have to think twice.

"Actually ... They really can't do anything to it, because when I was filling up the bottle, the star Ink milk was already empty, not even filling up my bottle, so ..." Fang miaojin suddenly spoke up. She was in front of Lin Yi and Chang Daoping, and she was the last of the six.

"We've reached the bottom?" Hearing this, Cao Shishi and the others were stunned. They quickly walked over and tried it on themselves. After that, they were no longer suspicious.

After that, the way they looked at Lin Yi and Huang Xiaotao suddenly turned into gloating.

In their eyes, Lin Yi and Lin Yi were just two weak country bumpkins. They were just lucky enough to be chosen by Chang Bro and got the chance to explore the ruins. How could the two of them be on the same level as them and get the star Ink milk?

Hmph, he's really a Toad lusting after a Swan's meat. Now, even the heavens can't bear to see this. The star Ink milk that was so close to his hands had been turned into nothing. He deserved it!

"Hehe, this is the will of the heavens. It seems that the two of you are destined to have no fate with the star Ink milk! Wahahaha!" Everyone's faces were filled with undisguised mockery, all of them smiling coldly. This time, it wasn't just Lin Yi, even the gentle Huang Xiaotao couldn't take it anymore.

Lin Yi couldn't help but clench his fists-the greater the hope, the greater the disappointment. If he hadn't seen the star Ink milk before, he wouldn't have been so upset, but now that he'd let it slip by, he was already feeling extremely bad. He even suspected that Chang Daoping and the others had done something to it.

Now that he was faced with the mockery of the crowd, he could not help but want to fall out with them.

Everyone saw Lin Yi's dark expression, but they didn't care at all. They were just two early golden core country bumpkins-they wouldn't dare to get angry even if they had ten times the courage!

If he dared to? That's even better. In any case, there won't be any future trouble, so he might as well directly kill them here with a slap and end all troubles!

"I'm really sorry. I didn't expect that it would be gone when it's your turn. " Chang Daoping finally spoke up, not gloating like the others did. He had a regretful expression on his face, as if he truly felt sorry for Lin Yi and Lin Yi.

Cao Shishi and the others wanted to continue mocking them, especially since Luo tuoxiang was planning to force Lin Yi and Lin Yi to do something desperate so that he could kill them with a slap, but now that Chang Daoping had spoken, they naturally had no right to speak.

After all, they did not know Chang Daoping's true thoughts. If they spoke nonsense and accidentally went against brother Chang's wishes, they would be asking for trouble.

Lin Yi looked deeply at Chang Daoping-the guy was calm and didn't look like he was putting on an act at all. Lin Yi couldn't help but wonder if his intuition was wrong. Could it be that this person didn't do anything, and this was just a pure coincidence?

With Lin Yi's wariness, it would be hard for him to not notice if someone wanted to hide something from him.

Lin Yi had always thought that after passing through the moon Shadow formation and entering the ruins, the two of them wouldn't be of any value to Chang Daoping anymore. He'd probably do something about it and not let them share the star Ink milk.

But the truth was that Lin Yi didn't feel any killing intent from Chang Daoping, not even the Jade-this completely overturned Lin Yi's guess.

They didn't know that Chang Daoping did have the intention to kill them, but it was just a flash and he quickly hid it.

Of course, Chang Daoping couldn't just let Lin Yi and Lin Yi get the star Ink milk just like that. Even a little bit of it was a big loss for him, but that didn't mean he had to kill them. He just had to do something in the process and the problem would be solved perfectly, just like this "coincidence" right now.

"However, you don't need to worry. The speed at which the star Ink milk is dripping isn't very slow. I believe that as long as you wait here for a few days, even if you can't fill a bottle, you can at least get half a bottle. It's much better than nothing." Chang Daoping continued faintly, as if he was really thinking for the two.

Lin Yi was even more confused now, but Chang Daoping wasn't wrong. He'd already seen three drops of Star Ink milk on the statue's tip, and at this rate, he'd be able to collect at least half a bottle in a few days.

"Brother Chang, I have a question. Since the speed at which the star Ink milk is dripping isn't slow, why is there so little of it in this pool? you only filled six small bottles before directly drinking it up. This doesn't make sense, right?" Lin Yi asked after some hesitation.

Chapter 4288 Discovered

Because of the miasma fog, Lufeng forest only opened once a year. At this rate, it should be more than enough to store dozens of bottles a year. It was impossible to only fill six bottles, like now, and empty them out.

"Who knows? maybe someone else came here before us?" Chang Daoping's mouth twitched.

"That's even more abnormal. No one would ever complain about having too much Star Ink milk. If someone had come here before us, they must have taken all of it away. It's impossible for them to leave so much behind. At most, there would only be the star Ink milk that dripped down again after he left. Counting from the time when the miasma fog dissipated, there would only be one small bottle at most, not six whole bottles!" Lin Yi shook his head decisively.

There was one more thing that he didn't say. It was related to the star Ink milk. From how to enter the ruins of Ao duo cultivation city to the exact location of this altar in front of him, everything in between was a secret. Chang Daoping wasn't the only one who would keep it a secret. The others would definitely do the same.

Therefore, the number of human cultivators who could really come here to get the star Ink milk should be very few. The possibility of someone being here before them was actually very low, and even if there was, they would not have left no traces on their way here.

"Then ... Perhaps the speed at which the star Ink is dripping isn't always this fast? Perhaps someone could ignore the miasma and come to get the star Ink milk at other times, for example, a few months ago?" Chang Daoping said.

Lin Yi didn't know what to say anymore-he couldn't rule out either of the two possibilities. After all, no one would guard this place all year round, and no one knew the pattern of the dripping of Star Ink milk.

As for the latter, Lin Yi and Huang xiaotao had just killed a man in gray. That guy was an original infant stage master, and he fell from the sky like a big bat. The miasma didn't seem to affect him at all. It was possible that other people could ignore the threat of the miasma.

"Also, if this Star Ink milk has been left in there for too long, it might just evaporate into thin air." Chang Daoping added. His expression was still calm, but if one looked closely at his eyes, one would notice that his eyes were flickering.

"Maybe," Lin Yi shook his head noncommittally, his suspicions growing. The more Chang Daoping explained, the more suspicious it was-with Chang Daoping's personality, he wouldn't talk so much without any special reason.

However, Lin Yi didn't continue to ask. At this point, it didn't matter what the situation was. After all, what was done was done. He was going to miss the star Ink milk this time.

Chang Daoping's lips curved up a little as he saw Lin Yi fall into silence. He asked, ""How is it? No matter who it was, they would not be willing to return empty-handed after coming all the way here. This is human nature. Do you two want to do as I just said and guard this place for a few days? However, if that's the case, we'll have to leave first and can't wait for you here. "

Leave first? Lin Yi frowned. Chang Daoping and the others left first, leaving him and Huang xiaotao here?

Only a fool would stay here! Normal people might have had the urge to resist the star Ink milk, but Lin Yi wasn't someone who would be so obsessed.

Once Chang Daoping left with the others, whether he and Huang xiaotao could get out was a problem. Moreover, this ruin was obviously a little strange. Even if they had not encountered any danger so far, who could guarantee that it would be so peaceful in the future?

"Forget it, I'll just leave with brother Chang. We don't dare to stay here alone." Lin Yi and Huang xiaotao looked at each other and shook their heads.

"That's good. " Chang Daoping nodded faintly, his impression of Lin Yi rising once more. There weren't many people in this world who could resist the star Ink milk's temptation, but it was a pity that he wasn't one of them. Otherwise, they wouldn't have to secretly trick him into giving up his share of the star Ink milk.

Meanwhile, Cao Shishi, Luo tuoxiang, and the others were all gloating over their misfortune. They had been forced to travel with these two weak country bumpkins, and their intelligence had been suppressed when they were trying to break the moon Shadow array. They had always thought highly of themselves, so it was hard to even mention how awkward they felt in their hearts. However, their hearts were now balanced, and they were filled with a sense of superiority.

Chang Daoping immediately led everyone down the altar, and Lin Yi and Huang xiaotao had no choice but to follow. But before they left, Lin Yi moved the little bit of Foundation in the stone pool into the spiritual Jade bottle in the Jade space.

It was better than nothing. The foundation was only a little bit, but no matter how little it was, it was still the star Ink milk. It was better than nothing.

"Eh? Why is there a fluctuation of true Qi?" Chang Daoping suddenly stopped in his tracks, turned around, and asked with a frown. Everyone looked at each other, their eyes full of suspicion. Finally, they all landed on Lin Yi and Huang xiaotao.

Lin Yi jumped in shock, cursing internally. It was as he expected ...

When using the Jade space to store external objects, there would inevitably be a wave of true Qi fluctuation. It was just very weak and ordinary people would not be able to detect it. However, for a Yuanying stage master like Chang Daoping, and at such a close distance, he was indeed able to detect a trace of it. He had indeed taken a risk just now.

"I'm sorry, brother Chang. I was a little angry just now and couldn't keep my mood. " Lin Yi's expression was a little flustered, but he had to force himself to be calm-it matched perfectly with the content of the sentence, leaving no room for suspicion.

"You can't maintain your mood? Hehe, then you should hurry up and do it, kid. I'm really afraid that you'll fly into a rage out of humiliation and take an unconventional path! Hahahaha!" Luo tuoxiang laughed without restraint.

Cao Shishi and the others also sneered at him. How dare a mere early gold core realm cultivator be dissatisfied? He really didn't even know how to spell the word "death"!

Only Huang xiaotao looked at this scene with a strange expression under the veil. With her close relationship with Lin Yi, even if Lin Yi didn't tell her about the Jade space, he didn't avoid it on purpose, so she could more or less guess it.

These people were all kept in the dark by Lin Yi, and they were all so full of themselves. It made him speechless.

And in terms of strength, other than Chang Daoping, who else could be a match for them? They were just pitiful creatures who had been killed in one move, frogs in the well who didn't know that there was always someone better!

Chapter 4289 Let's Take A Look Around

"Ling Yi, put yourself in his shoes, and I can understand how you're feeling right now. No one would be happy to come all the way here for nothing, but this is something we've already agreed on, and you all agreed to it, right?" Chang Daoping didn't turn hostile, but his face was a little gloomy.

"What brother Chang said is true. My Qi-nurturing skills are not good enough and I can't control my emotions. I've made a fool of myself." Lin Yi said, nodding.

"En, since things have come to this, there's no other way. However, even if you only managed to get a few drops of Star Ink milk, it will still be useful for your current cultivation, so don't be too discouraged." Chang Daoping's expression softened.

With that, Chang Daoping no longer pursued the matter and turned around to continue leading the group forward.

From the beginning to the end, Lin Yi didn't sense any killing intent from him, as if this person really didn't have the intention to kill him. This made Lin Yi secretly relieved. If they really fought, he and Huang xiaotao would have a hard battle today, and it would be a problem whether the two of them could escape unscathed.

He didn't want to have a direct conflict with the guy, even if he knew he had so much Star Ink milk. It was too risky, after all, and he had to rely on him to leave.

After leaving the altar, Chang Daoping acted the same way he did when he came in. To prevent everyone from remembering his path, he increased his speed so that no one could react.

But after about an hour, Lin Yi realized that something was wrong. Chang Daoping was moving in circles like a maze at this speed, and it was really hard to remember the way back-even Lin Yi couldn't do that.

However, this didn't mean that everyone was stupid and didn't notice it. At least one thing was for sure-the place Chang Daoping was leading them to wasn't the entrance they entered from. It was a completely foreign land. It wasn't just Lin Yi, but the others also realized the strangeness of this.

According to the general logic, where they came in would naturally be where they went out. Everyone had even been mentally prepared to break the moon Shadow array again, but they did not expect that this was not the case at all.

"Brother Chang, aren't we going to use the moon Shadow array to get out?" Luo tuoxiang was the first to lose his cool and couldn't help but ask.

"Of course not. We don't understand the rules of the lunar shadow array, so we can only enter from the outside after breaking it. However, the lunar shadow array will recover very quickly after being broken. As for the inside, I don't know how to break it either. However, we can take another more convenient path, the teleportation array." Chang Daoping continued to lead the way and answered without turning his head.

"A teleportation formation? There's a teleportation formation here that's connected to the outside world?" Everyone, including Lin Yi and Huang xiaotao, was shocked. They looked at each other and asked,""Since there's a teleportation array, why did we go through so much trouble to pass through the moon Shadow array to come here?"

With something as convenient as a teleportation formation, they could just teleport in directly. Chang Daoping didn't have to go out of his way to get Lin Yi and Lin Yi to join him just to break the moon Shadow formation. Was Chang Ge out of his mind?

"You can come and go as you please through the teleportation formation. Do you really think that there's such a cheap thing? Then why did I bring you guys here?" Chang Daoping glanced at the crowd and explained, ""The other end of the teleportation array I'm talking about is directly near the teleportation array at the exit of Lufeng forest. In other words, you can go to the teleportation array at the exit of Lufeng forest through it, and then you can easily reach zhenduan city. However, it's a one-way teleportation array, so you can only go out and not come in."

"Why is that so?" Everyone was confused and still puzzled. ""Since there's such a convenient thing as a teleportation formation, why didn't you set it up two-way back then? it shouldn't be that difficult, right?"

"That shouldn't be too difficult, but have you all forgotten the relationship between the spirit beasts and US humans?" Chang Daoping pouted and said, ""Although there haven't been any Wars between humans and beasts in recent years, the two races have never been on good terms since ancient times. At most, they've been isolated from each other and never contacted each other. They even have to be on guard against another war. Under such circumstances, do you think it's realistic to set up a two-way teleportation array in an important city like Audo cultivation city?"

"Uh ... That's true ..." Everyone finally reacted. If a war really broke out, the human experts could directly sneak in through the teleportation array. The moon Shadow array that they had worked so hard to set up outside would simply be a decoration.

"The existence of this teleportation array is only to make it convenient for the spirit beast clan to go out. Whether it's trading with the outside world or other things, it'll be much more convenient. But if you

want to enter this Audo cultivation city, there's only one way, and that's to enter through the moon Shadow array." Chang Daoping explained to everyone.

"I see." Everyone came to a sudden realization and did not say anything else. They silently followed behind Chang Daoping.

After two hours, Chang Daoping finally led everyone to a stop. In front of them was a majestic building that looked like a small palace. If Chang Daoping had not mentioned it before, no one would have thought that there was a teleportation formation inside.

"Brother Chang, are we going to leave now?" Luo tuoxiang suddenly asked when he saw Chang Daoping was about to lead the way.

"What's wrong? Is there anything else you need?" Chang Daoping stopped and turned around.

"That ... It's rare for us to come to the ruins, and we still have plenty of time now, why don't we continue to walk around here?" Luo tuoxiang suggested hesitantly.

"That's right, brother Chang, there are still a few more days before the miasma falls again. In any case, there's a teleportation array that can directly go out, so why don't we just walk around here? If we're lucky, we might even find some treasure!" Cao Shishi also chimed in.

Although the most famous treasure in the AO duo cultivation city ruins was the star Ink milk, it was once an important city of the spirit beast clan after all. There were also many other kinds of treasures.

Since they were already here, no one was willing to leave so easily. In any case, there was still plenty of time, and they didn't have to pay any additional price, so it would be a waste not to look for it.

The others all nodded in agreement. As for Lin Yi and Huang Xiaotao, they didn't comment on it. They were here for the star Ink milk this time. As for the other treasures, looking for them without any clues was like looking for a needle in a haystack. They didn't want this kind of luck.

Plus, Lin Yi felt that there was something strange about this ruin. Even if there wasn't any danger, it didn't mean there was no danger. It was better to be careful.

Chapter 4290 Someone Is Blocking The Way

"Since you have this idea, I won't stop you. You can stay here for a few more days, but before that, you have to confirm the teleportation array, right? If the information is wrong and there's no teleportation formation here, we won't have much time to waste." Chang Daoping said indifferently.

"Right, right, brother Chang is really thoughtful." Everyone nodded in agreement. If there was no teleportation formation here, they would have to make sure they had enough time to leave.

Under Chang Daoping's lead, everyone stepped into the small palace in front of them. It was extremely spacious inside, which was not much different from what they had expected.

Every transportation array was extremely complicated and exquisite. This meant that it was bound to be very conspicuous. As expected, after everyone entered the small palace, they immediately saw the transportation array in the center.

"There really is a teleportation formation. I can rest assured now." Seeing this, Cao Shishi and the others felt relieved, and they were all eager to go out and look for treasures.

However, when their eyes fell on Chang Daoping, they were stunned. This was because Chang Daoping's expression had become unprecedentedly serious!

It wasn't just Chang Daoping, even Lin Yi's eyes twitched at the sight. He'd always thought that there was something wrong with the ruins, and it was true.

Everyone was still confused, and they followed Chang Daoping's line of sight. Their eyes finally landed on the two sides of the teleportation array. There was a green-robed figure sitting upright on each side.

Because they had seen all kinds of statues in the ruins, including the mysterious spirit beast on the altar, they didn't pay much attention to the two figures at first sight. They thought they were just two statues.

However, when they looked at them again, they were so scared that they almost peed their pants. These two weren't statues at all. Their bodies were clearly emitting the aura of living people. They were actually living people!

"Ah!" Cao Shishi shrieked in fear and ran behind Chang Daoping. Huang xiaotao was also nervous and subconsciously held Lin Yi's hand.

At first, the two green-robed figures seemed to be meditating with their eyes closed, and only faintly exuded the aura of a living person. However, after Cao Shishi's scream, the aura of these two people suddenly soared crazily, and their powerful auras, which were comparable to that of a master of the late nascent Soul Stage, were instantly revealed in front of everyone!

Such a terrifying and brutal aura was even stronger than Chang Daoping 's. Everyone's face suddenly turned pale. One was fine, but the problem now was that they were facing two masters of the late Yuanying stage!

"You ... You are ..." This time, even Chang Daoping, who had always been a master, was shocked and stuttered.

Lin Yi looked at this scene and couldn't help but be surprised. He thought that Chang Daoping knew about this long ago. After all, he had the internal information from the deacons of the spirit beast clan. He was prepared for everything, but he didn't think that he would be as helpless as everyone else.

"Hehe, you've all come to my spirit beast clan's Scenic Area for sightseeing. Since you're leaving now, don't you plan on leaving anything behind? Not only did you not give me a ticket, but you also took a souvenir. It doesn't make sense to just leave like this, right?" The two green-robed figures sneered and stood up.

It wasn't until this moment that everyone could finally see the faces of these two people. They couldn't be said to have ferocious faces, but they faintly gave people a strange feeling of evil. When their eyes swept past, it was as if they were being stared at by two extremely dangerous and ferocious beasts. The two people's scalps went numb and they shuddered. This didn't seem like the temperament of human experts.

But for some reason, Lin Yi didn't feel the same chills as the others when he heard these two voices. He felt that they were familiar, as if he'd heard them before, but he couldn't remember the exact situation.

Other than that, what Lin Yi was more concerned about was the conversation between the two.

"Ah? "Could you be ..." Chang Daoping also understood the underlying meaning, and he became even more panicked.

"That's right, of course we're spirit beasts, hehehe ..." The two men in green laughed at the same time. They looked at the crowd with ridicule, as if they didn't care about Chang Daoping, the nascent Soul Stage master.

Hearing this, Chang Daoping's heart sank to the bottom of the valley. They had made such thorough preparations for this trip to the ruins, and the journey had been unusually smooth. They did not expect to encounter such powerful people when they were about to leave. To be more precise, they were two powerful spiritual beasts in human form!

It was true that Chang Daoping himself was an out-and-out Yuanying stage master, but just from the aura of being suppressed in all aspects, it was enough to judge that the strength of either one of the two in front of him was obviously stronger than him.

Although they were both Yuanying stage Masters, even if they were at the same level, the spirit beast clan had a strong racial talent, which was an ability that human cultivators could never hope to reach. Coupled with the difference in physique, they were naturally weaker, not to mention that the other side was absolutely stronger, two against one ...

In front of a powerful spirit beast of the original level, other than Chang Daoping himself, the others were not even cannon fodder. If they really fought, they could kill them all with one hand. No matter how many people there were, it was not enough to kill them all.

Moreover, no one was a fool. Even if Chang Daoping asked them to go, they wouldn't dare to.

"Hurry up, are you guys still going to leave? If you don't want to leave, then go back and continue playing. You can leave after you've had enough fun. Don't waste our time!" One of the men in green scolded impatiently.

"Ah?" Chang Daoping was stunned, and the others looked at each other. "Go back and continue playing? What was the meaning of this?"

If they were to understand the meaning of the words, it seemed that these two great gods of the spirit beast clan had no intention of taking their lives. They could even continue to search for treasures in the ruins of Audo cultivation city, and they didn't seem to care.

But how was this possible? No matter how relaxed everyone was, they were not stupid. Even if they used their toes to think, they knew that there was no such good thing in the world. There must be another plot behind this!

"Then ... May I ask how we can get there?" Chang Daoping had no choice but to ask.
